

5G Realities

First – Truth is Ridiculed

Second – It is Violently Opposed

Third – It is Accepted as Self-Evident

Part 2

Take a close look at the chart below, and ask yourself what is wrong with these numbers. I pulled this from a health sight on March 31st, 2020. Its not the first, but the most recent. I have been pulling statistical data in order to expose the distortion being created by the media.

Worldwide Deaths from January 1st - March 25th, 2020

21,297 - Deaths by Coronavirus
113,034 - Deaths by Seasonal Flu
228,095 - Deaths by Malaria
249,904 - Deaths by Suicides
313,903 - Deaths by Traffic Fatalities
390,908 - Deaths by HIV/AIDS
581,599 - Deaths by Alcohol
1,162,481 - Deaths by Smoking
1,909,804 - Deaths by Cancer
2,382,324 - Deaths by Hunger
9,913,702 - Deaths by Abortion

ASK

Charts similar to this one from various health and general news sites that are interested in knowing we the public are being lied to every day. Clearly fear mongering and media hype is driving the panic that has led to states imposing travel restrictions beyond their state into adjoining states. Connecticut police were going door-to-door tracking New York residents who had supposedly fled New York to neighboring Connecticut.

The governor of Florida this past weekend was mulling over the idea of putting road blocks on I-95 watching for New Yorkers going to Florida. This is sheer lunacy intending to divide the country. The county judge for Washington County, an adjoining community to mine banned the use of the local park by local kids. I saw a report of an elderly lady smashed in her face for being too close in a social distancing situation. People are becoming really crazy. You heard about the man who had a storage locker filled with 17,000 containers of hand-sterilizer. A day ago, the FBI busted a Brooklyn Jew, Baruch Feldheim for having a stash of 80,000 N95 face masks, who was price gouging the public wanting full-face protection against the virus.

We are learning that the virus has been mutating as it spreads around the world. As COVID-19 blankets the globe – now having officially infected over 800,000 people in 179 countries, causing over 39,000 deaths – scientists are tracking a multitude of strains, according to *'USA Today.'* I'm not sure *'USA Today'* is all that reliable.

The virus has undergone over a hundred tiny mutations that act like genetic fingerprints – allowing researchers to see how the virus is migrating and splitting into similar but new subtypes, which can be seen at the website NextStrain.org.

Frequent sequencing of the virus has allowed researchers to draw several conclusions; for example, social distancing and shelter-in-place orders appear to be working in some areas, and that the virus doesn't appear to be growing more lethal as it evolves.

"The virus mutates so slowly that the virus strains are fundamentally very similar to each other," said infectious disease specialist Charles Chiu of the University of California, San Francisco School of Medicine. *"The outbreaks are trackable. We have the ability to do genomic sequencing almost in real-time to see what strains or lineages are circulating,"* he added.

Chiu also believes that it's unlikely that the difference in strains is responsible for the virus hitting people differently – with most some feeling only slightly under the weather for a day or two, 15% needing hospitalization, and a mortality rate that varies by country (and likely by testing rates).

SARS-CoV-2, the virus that causes the COVID-19 illness, began circulating in China around mid-November or mid-December. Its genome is made up of approximately 30,000 base pairs – while a human has over 3 billion. According to the report, the virus's most divergent strains contain only 11 base pair changes.

So far, most cases on the U.S. West Coast are linked to a strain first identified in Washington state. It may have come from a man who had been in Wuhan, China, the virus' epicenter, and returned home on January 15, 2020. It is only three mutations away from the original Wuhan strain, according to work done early in the outbreak by Trevor Bedford, a computational biologist at Fred Hutch, a medical research center in Seattle.

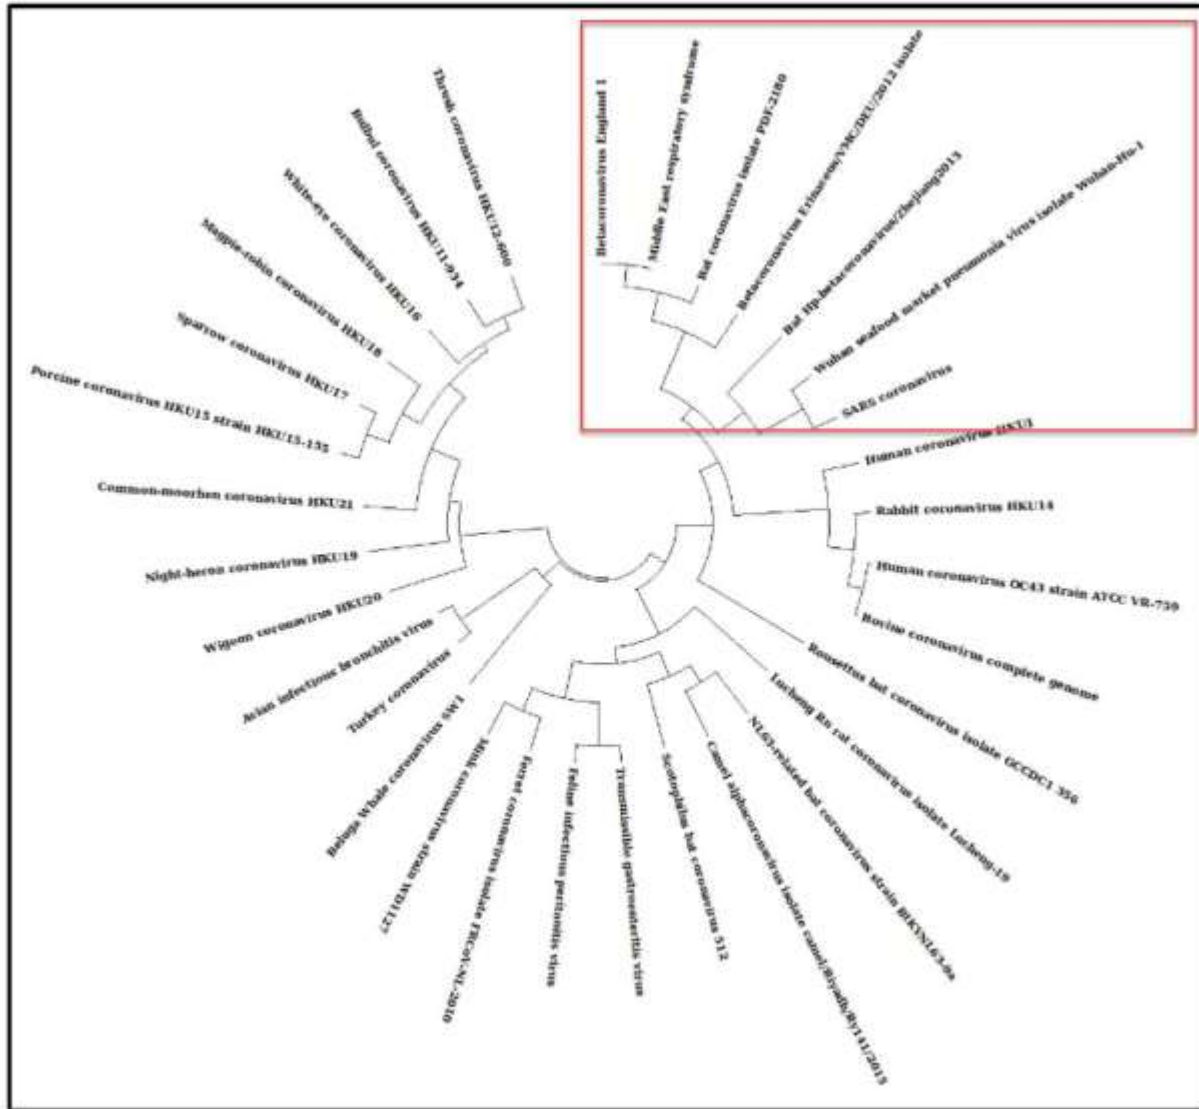

Figure 1: Maximum likelihood genealogy show the evolution of 2019- nCoV: The evolutionary history

On the East Coast there are several strains, including the one from Washington and others that appear to have made their way from China to Europe and then to New York and beyond, Chiu said. –USA Today.

The theory is that the virus, which was developed by infectious disease experts to function as a bio-weapon, originated in the Wuhan-based lab of Dr. Peng Zhou, China's preeminent researcher of bat immune systems, specifically in how their immune systems adapt to the

presence of viruses like coronavirus and other destructive viruses. Somehow, the virus escaped from the lab, and the Hunan fish market where the virus supposedly originated.

Now, a respected epidemiologist who recently caught flack for claiming in a twitter threat that the virus appeared to be much more contagious than initially believed is pointing out irregularities in the virus's genome that suggest it might have been genetically engineered for the purposes of a weapon, and not just any weapon but the deadliest one of all.

In "Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp120 and Gag", Indian researchers are baffled by segments of the virus's RNA that have no relation to other coronaviruses like SARS, and instead, appear to be closer to HIV. The virus even responds to treatment by HIV medications."

For those pressed for time, here are the key findings from the paper, which first focuses on the unique nature of 2019-nCoV, and then observe four amino acid sequences in the Wuhan Coronavirus which are homologous to amino acid sequences in HIV1:

Our phylogenetic tree of full-length coronaviruses suggests that 2019-nCoV is closely related to SARS CoV [Fig1].

In addition, other recent studies have linked the 2019-nCoV to SARS CoV. We, therefore, compared the spike glycoprotein sequences of the 2019-nCoV to that of the SARS CoV (NCBI Accession number: AY390556.1). On careful examination of the sequence alignment, we found that the 2019- nCoV spike glycoprotein contains 4 insertions [Fig.2]. To further investigate if these inserts are present in any other coronavirus, we performed multiple sequence alignment of the spike glycoprotein amino acid sequences of all available coronaviruses (n=55) [refer Table S.File1] in NCBI RefSeq (ncbi.nlm.nih.gov) this includes one sequence of 2019-nCoV[Fig.S1]. We found that these 4 insertions [inserts 1, 2, 3 and 4] are unique to 2019-nCoV and are not present in other coronaviruses analyzed. Another group from China had documented three insertions comparing fewer spike glycoprotein sequences of coronaviruses. Another group from China had documented three insertions comparing fewer spike glycoprotein sequences of coronaviruses (Zhou et al., 2020).

We then translated the aligned genome and **found that these inserts are present in all Wuhan 2019-nCoV viruses except the 2019-nCoV virus of Bat as a host** [Fig.S4]. Intrigued by the 4 highly conserved inserts unique to 2019-nCoV we wanted to understand their origin. For this purpose, we used the 2019-nCoV local alignment with each insert as a query against all virus genomes and considered hits with 100% sequence coverage. **Surprisingly, each of the four inserts aligned with short segments of the Human immunodeficiency Virus-1 (HIV-1) proteins.** The amino acid positions of the inserts in 2019-nCoV and the corresponding residues in HIV-1 gp120 and HIV-1 Gag are shown in Table 1.

Those who analyzed the virus discovered that it had been weaponized, made into a bio-weapon with "inserted" protein pathogens known to viriologists, noted in the below chart.

Motifs	Virus Glycoprotein	Motif Alignment	HIV protein and Variable region	HIV Genome Source Country/ subtype	Number of Polar Residues	Total Charge	pI Value
Insert 1	2019- nCoV (GP) HIV1(GP120)	71 76 TNGTKR TNGTKR 404 409	gp120- V4	Thailand */ CRF01_ AE	5 5	2 2	11 11

Insert 4	2019- nCoV (Poly P) HIV1(gag)	676 684 QTNS-----PRRA QTNSSILMQRSNFKG PRRA 366 384	Gag	India*/C	6 12	2 4	12.00 12.30

Table 1: Aligned sequences of 2019-nCoV and gp120 protein of HIV-1 with their positions in primary sequence of protein. All the inserts have a high density of positively charged residues. The deleted fragments in insert 3 and 4 increase the positive charge to surface area ratio. *please see Supp. Table 1 for accession numbers

The first 3 inserts (insert 1,2 and 3) aligned to short segments of amino acid residues in HIV-1 gp120. The insert 4 aligned to HIV-1 Gag. The insert 1 (6 amino acid residues) and insert 2 (6 amino acid residues) in the spike glycoprotein of 2019-nCoV are 100% identical to the residues mapped to HIV-1 gp120. The insert 3 (12 amino acid residues) in 2019- nCoV maps to HIV-1 gp120 with gaps [see Table 1]. The insert 4 (8 amino acid residues) maps to HIV-1 Gag with gaps.

Everything is right on schedule and, now, the time is come to remove one of the final obstacles standing in the way of a New World Order: The United States Constitution – even if, over the course of many decades, it has already been greatly diminished by the B.E.A.S.T. system; or, more specifically, Bullshit Emerging As Strategic Totalitarianism (B.E.A.S.T.).

Coronavirus ("Chinese virus") kills the oldest [elderly] and has no respect for authority. Many of the most powerful people in the world are old, and coronavirus does not discriminate based on social status. Deaths are now hitting at high levels (not of death but of status), which can change the political conflicts of our world: <https://nextstrain.org/ncov>.

This may not be easy for most people to understand, but the evidence suggests that those who bio-engineered the pathogen took a simple gene and inserted at least elements of four other pathogens to make the virus appear to be “mild” and not as virulent. This suggests the object

of the perpetrators was to kill the elderly, especially those with weakened immune systems. The thing that the scientific community seems to be overlooking is that the virus is part and parcel to a much larger plan to reduce the population.

A good friend of mine in CA has said to me "that this introduction of the Corona virus as being intentionally mixed in with cases of COVID19 in cities where 5G has been implemented. It is possible that the CDC does not know there are 2 things going on. One is a particularly virulent strain of a coronavirus that is circulating. And the other is radiation illness which they've labeled COVID19. I see why it would be difficult to isolate one from the other especially if the link to 5G has not been recognized yet by the medical community."

In the past month, we have been offered many different theories, and all of them have elements of truth, but all of them lack elements and certain aspects to the "Big Picture". The bat soup theory is by far the worst of the bunch and has been ruled out by scientific analysis and study. But do not rule it out when you read about George Soros further down in this report. The many theories that have been mentioned on the Internet have only a single or perhaps two pieces of the puzzle. Robert David Steele, Gordon Duff, and others are closest to what I refer to seeing the "Big Picture". Remember, when drawing conclusions the evidence has to have the element of consistency in putting a unified theory that connects all the dots.

The only group that has done this has been the group American Intelligent Media and Americans for Innovation. In my way of thinking they have offered the world answers to the all the larger questions that most are not even addressing. For sure, they raise questions about those known previously as allies of the U.S.!

First off, we need to recognize we are at war, and the powers at be do not even know who the parties to this war really are. As I have been stating, there is a third global entity behind this war and they have remained elusive in the world and their role in this war. This war began as an invisible silent and deadly attack. A U.S. Navy aircraft carrier, CVN71, the Theodore Roosevelt has been sidelined due to an outbreak of the so-called COVID-19, now at port in Guam, whose captain was relieved for seeking help due to the outbreak. There was an earlier report of another aircraft carrier that might also have to be sidelined.

Mike Adams posted a report on April 1st, 2020 confirming my point. Mike gave three signs or reasons a physical war is impending:

Sign #1) [President Trump activating one million military reservists](#) with medical skills to treat battlefield injuries. Details of this order are found in [the EO text at WhiteHouse.gov](#).

Sign #2) [The Pentagon ordering high-level staffers into deep underground bunkers](#) in Colorado. This was announced by NORAD and NORTHCOM in a Facebook town hall meeting. Obviously, you don't order military staffers into a 2,000-foot deep bunker just because of a virus.

Sign #3) Secretary of State Pompeo just ordered all Americans living overseas to return to the US "immediately." The cover story for this is that the coronavirus is collapsing international flights. But that alone would not justify all Americans returning from living overseas, since many Americans would just hunker down where they're living. But Pompeo wants all Americans to return immediately, which is the kind of thing you do before a war breaks out (with China, most likely). Via [The UK Independent](#):

The full report is at Natural News.com for April 1, 2020. Do access the report and read it completely. I am in full agreement with Mike Adams on this and I wrote on this third sign several years ago in a article on the Pre-Tribulation Rapture. The summary of that May, 2014 post was as follows.

Are you aware of what happened on December 7, 1941?

I was just four years old, however, I understood because I had an uncle that was trained to be a tail-gunner on a B-17 bomber. When he was dispatched to Hickam Field, Hawaii, his plane had been destroyed on the tarmac by the Japanese air force. He was issued a M1A rifle and shipped to the Philippines, where he later died in the death march of Bataan in April of 1942, where ten thousand US troops and civilians died. I remember the day my grandmother received a visit from the War Department. She had a "gold star" plaque in her parlor window that served to remind people of the highest level of sacrifice made by the family.

December 7, 1941 was as President Franklin D. Roosevelt called it, "a day that will live in infamy" The Japanese bombed Pearl Harbor inflicting heavy casualties upon the US Navy and Army Air Corps and crippled the Pacific Fleet.

Most people also know what happened on December 8, 1941. The President called upon Congress to make a formal declaration of war against Japan and the Axis powers of Germany and Italy. Most people however don't know what happened on December 9, 1941. President Roosevelt issued an order calling all of the US diplomatic ambassadors home from Japan, Germany, and Italy. Before he unleashed the full wrath of the American war machine on those nations, he wanted to make sure that no American civilians were in harm's way. The wrath of America was for her enemies, not her own people.

In the same way, before God declares war on this godless world at the beginning of the Tribulation, unleashing his unmitigated wrath, He will call His Ambassadors home. "Now then we are ambassadors for Christ, as though God did beseech you by us: we pray you in Christ's stead, be ye reconciled to God." -(2 Corinthians 5:20).

God's wrath is not for the citizens of His heavenly kingdom. It's not for His own people.

The analogy is a reminder that while tribulation in the world is everywhere, as Hilton Sutton once said, "when the bombs are descending, the saints will be ascending." I have no doubt

things will get progressively worse, but we are going home, Pre-Tribulation Rapture style! That is our "Blessed Hope". Don't give up on the Pre-Tribulation Rapture!!!!!!

Pastor Bob

This is a war that none of us are prepared for, because we cannot seem to identify our real enemies, who relies on stealth and secrecy to defeat its foe. It is extremely important that you maintain that frame of reference here as we attempt to deal with things for which we are not trained or prepared for. You can be sure that individuals such as Bill Gates has advanced his scheme of giving everyone an electronic ID to make sure you have your vaccines. Bill Gates and IBM have had twenty years to develop the original "Digital Angel" microchip, which IBM bought out in 2001.

In response to questions presented to Eugenicist Bill Gates responded:

"The question of which businesses should keep going is tricky. Certainly food supply and the health system. We still need water, electricity and the internet. Supply chains for critical things need to be maintained. Countries are still figuring out what to keep running.

Eventually we will have some digital certificates to show who has recovered or been tested recently or when we have a vaccine who has received it."

Again, this was a direct response to the Coronavirus Pandemic. In the mind of Bill Gates, it is acceptable for there to be a vaccine database where governments can keep track of who has, and who has not received a vaccine.

- What social implications may this have?
- Do you not have the right to say what goes in and out of your own body?

If you cannot control or have a say about your own body, **you have no freedom**. This should remind us of the UN Agenda 2020, and the ID2020 program, now labeled Agenda 2030. ID2020 (now 2030) seeks to implement a global digital identification system for the entire world, for your benefit and convenience of course. Obviously, the "digital certificate" Bill Gates mentioned would be tied to such a global digital identification system. This should concern you greatly as it infringes on your privacy and rights.

Today, in some U.S. states, such as California, your children must take a vaccine or they cannot attend public school. This is not a health issue, but a **control** issue. If vaccines worked as described, then those who have accepted a vaccine would be protected from those of us who have not accepted a vaccine. That is simple common sense. Further, no one has rights over your own body.

Obviously, there is a much bigger agenda taking place here. Remember, no government has the right to restrict your access to public systems that you support with your tax dollars.

Considering the new social norms that now exist due to the Coronavirus Pandemic, (*ie: social distancing*)... I can see a world where people will flock to receive vaccines, and their government will issue them a certificate of *compliance*. Those who do not accept vaccines will be deemed second class citizens, to be avoided at all costs. In the least, this is, and will be a form of public shaming. Those who refuse a vaccine will be seen as individuals who do not care about the common good of mankind. Think “Mark” of the Beast of Revelation.

In the worst, they will be prohibited from participating in certain aspects of society. It is not hard to fathom considering public schools have already implemented such policies for unvaccinated children.

His home is nothing like your's or mine; it is a 66,000-square-foot mansion known as Xanadu 2.0, and overlooks Lake Washington at 1835 73rd Ave NE, in Medina, WA 98039.

What I am going to share here next is an incredible “eye-opener”. It will help you to understand what I said about the U.S. has yet to recognized who its true enemies really are. This individual should have been arrested and prosecuted long ago by the Department of Justice for treason, but has been free as a bird to fly around the world to execute his agenda.

George Soros Owns the Chinese Company in Wuhan Where the Corona Virus Broke Out!

Georgie Boy hasn't strayed far from his Nazi roots. Gotta love that address, 666.

* Soros owns company where Coronavirus broke out

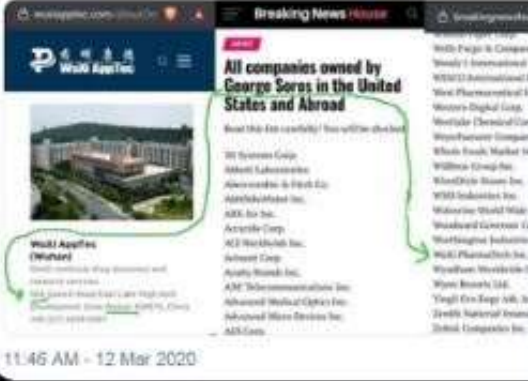

* Israeli-linked Dr. Charles *Lieber* arrested for receiving payment and smuggling bio-material to Wuhan University,

* Israel was "already working on vaccine"

That's some MIGHTY BIG COINCIDENCES

 **Brexitee Babe**
@marcus94543161

It appears that George Soros owns the pharmaceutical/Biotech company in Wuhan where the Coronavirus broke out!
Address: 666 Goaxin Road 🤔

11:46 AM - 12 Mar 2020

Harvard Chemistry Chair & Two Chinese Nationals Arrested For Lying About China Ties, Smuggling "Biological Material"

According to Jerusalem Post, Israelis say "In a few weeks, we will have coronavirus vaccine." Vaccine was ALREADY in development before outbreak. Says Israeli scientist: "Let's call it pure luck. We decided to

48 675 1.4K

Israeli Scientists Claim It's 'Pure Luck' They Were Already Working On A COVID-19 Vaccine Prior To The Outbreak.

In 1998 Israeli Jews were caught developing ethnic bioweapons designed to kill specific DNA groups.

They [Israel] hold the world's record for false flags

There's some debate about how much of WuXi PharmaTec Soros actually owns, but the **usual suspects are claiming** this is a Russian device to spread fear.

Go to this link and see the hundreds of companies owned/invested in by Soros and sure enough, WuXi PharmaTech Inc. is listed.

George Soros bought the majority shares in the WuXi Pharmatech research facility in Wuhan-China and spent \$100 million building their laboratory facility—why, in April-2018, did Soros then expand his WuXi Pharmatech division WuXi AppTec into the United States—why, seven-months later, in November, 2018, was a Chinese scientist working for WuXi Pharmatech in Wuhan-China captured by the FBI after he attempted to smuggle into the United States deadly coronavirus samples—and most terrifyingly—where are the horseshoe bats WuXi Pharmatech was known to be experimenting on by injecting them with a coronavirus—the latter being the most urgent question needing to be answered, as the scientists at the South China University of Technology have identified horseshoe bats as being the source of the coronavirus, none of which of this bat species lives anywhere close to Wuhan.

The United States Department of Justice partially released horrifying document on November 13, 2019 detailing capture of Chinese scientist caught smuggling into America deadly coronavirus samples a year earlier in November-2018.

With no normal and sane human mind even being able to begin to comprehend the enormity of it being true that this coronavirus pandemic was specifically designed to destroy the United

States, this report concludes, the same doesn't apply to demonic minds raised by Nazi Germany like George Soros was—thus providing conclusive evidence why Hillary Clinton wants him dead before she, too, is implicated in his crimes against humanity.

So before you decide for yourself, we are still confronted with quite the dilemma of the larger issue of the source of the bioweapon and its delivery/release. The Corona virus known as COVID-19 is real, and there are multiple strains with different degrees of results. What are the connections here between the following individuals and institutions?

- The Rothschild's-owned Pirbright Institute in England, whose research is in viruses,
- the Harvard expert in nanotechnology science Professor Charles Lieberman,
- MI6 agents working nearby Wuhan, China,
- CIA operatives working in Wuhan, China,
- the Chinese Biolab-4 facility in Wuhan, China, built by Professor Charles Lieberman,
- agents of George Soros WuXi Pharmatech in Wuhan, China, arrested by the U.S. Justice Department for smuggling samples of the Corona virus into the U.S.,
- the University of North Carolina bio labs,
- The Fort Detrick, Maryland labs closed for safety violations,
- The Johns Hopkins 201 Event coincidental to the Wuhan virus outbreak, concurrent with military games in Wuhan, its model 5G city rollout.

The first guess by some would be illegal drugs, alcohol, and Oxycontin wasn't killing the Goyim fast enough? I'm not being facetious in that statement when you consider who the kingpins are in drugs, alcohol, and Oxycontin. They are another connection in the dark side of Zionism and its attack on Christianity.

Keep in mind that the deep pockets with unlimited funds are themselves all Jews: Bill Gates, George Soros, the Rothschild's, and the Queen of England. This is not being anti-Semitic; it is simply a known fact. Many of the questions that I have raised in our investigation are consequential to the connections that are listed above. The two groups: American Intelligence Media and Americans for Innovation have provided some of the most important information and evidence which took the Corona virus to a much higher level of crimes against humanity.

As I have been studying all the pieces of this massive puzzle, the suggestion that perhaps there are compartmentalized aspects that allow for plausible deniability should certain facts become public knowledge. For example, I have suspected that the Chinese were caught unaware by the Pirbright Institute group hacking into the Chinese 5G satellite system and turned up the modulation of the 60-gigahertz energy level using random targeting so as to cause mental chaos in the minds of Chinese scientists on the ground.

Even now there is ambiguity in the minds of those trying to figure this out as to whether the Chinese leaked the virus into the general public knowingly, choosing it to benefit their own culpability. I suggest the evidence supports the view that Pirbright Institute was attempting to

provoke a war between the U.S. and China. The U.S. for quite a while has been engaged in provocations by sailing through contested waters near to the Chinese mainland. China has threatened to retaliate if the U.S. Navy continued to navigate through the East China Sea. That was the intent of China in forbidding a December, 2019 port call at Hong Kong by a U.S. nuclear aircraft carrier.

Since early February, the media has been intentionally waging an anti-China propaganda campaign, slamming China for all the problems and that the U.S. should seek reparations for the virus damage costs, etc. We know who controls the press media in the U.S., i.e. the Rothschild's, and since they control the editorial content, we can safely conclude the Rothschild controllers of the major six media companies are beating the drums for a "war" mindset of the American people against China.

Given that historically the House of Rothschild have been known to bet on both sides of any type of conflict, chances are they are doing the same in the Chinese media as well. A mixture of news reports from China confirms this to be true. The Zionist Rothschild's stand to benefit the most in this heated conflict now growing between China and the U.S. This begs a question pertaining to President Trump, in all of his China Deal negotiations; could he be working on behalf of the Rothschild's in his economic dealings with China? President Trump's deals are painted as to Make America Great Again, but little is published as to the finer details and specifics of how such "deals" benefits the U.S. We only hear dollar figures and numbers, not specific details. We know headlines often belie the facts.

All of this is so surreal and a reminder of the plot of the 1974 movie, *'Murder on the Orient Express'*. When Bill Gates suggested that the COVID-19 would kill 65-million around the world, it might be a good idea to believe him.

The virus is a bio-weapon, which has been confirmed by various labs which have done genetic sequencing. The labs who did genetic sequencing found 4 inserted elements, 2 of SARS and 2 of HIV. The 5G 60-gigahertz issue is an entirely separate matter but related issue since it mimics symptoms of the COVID-19 and will hide beneath the virus issues. The potential danger of 5G as a weapons system is a certainty since it's an invisible weapon. That became evident in the fires that existed in northern California in 2018 and 2019. Residents cell phone camera pictures confirmed the blue laser lights in the dark of night, a confirmation of space-based weapons used to initiate fires against residential buildings, leaving cars with melted aluminum wheels, and trees and foliage untouched by flame.

With all this said, we ought not to rule out any other potential threat against humanity, regardless of whether it might be perceived as an ordinary event appearing to be accidental or not.

Harvard Jew Behind the Corona Virus Contagion?

All that blubbering by Zionist Donald Trump about COVID being a Chinese virus now makes sense. He was trying to protect one of his handlers. Given what we know about the Donald Trump clan, his Zionist Chabad conversion, his Zionist Chabad son-in-law, Jared Kushner and his wife Ivanka's converting to the ultra-radical sect of Zionist Judaism, the demise of the USA has all the appearances of being the work of internal enemies.

Speaking of enemies of the U.S., Mr. 666, himself, has weathered a mild strain of the Corona virus, and after a quick recovery is now around and about!

Covid-19's meant to be a new Black Death, but in Britain no more people are dying than NORMAL.
What does this say about the virus?

Many people are waking up to the fact that the Covid-19 "plandemic" is not turning out as billed. When we finally emerge from it, the big question will be how many people have died from the virus. Here's the most likely outcome.

You can bet that the institutions of international government, and the "experts" advising them, will try to massage and cherry-pick statistics to present the version of events that most closely matches their worst-case scenarios. The fact is, according to their early predictions, we are already long overdue millions of Covid-19 deaths that have failed to materialize.

But even when Covid-19 deaths are recorded, we have [seen](#) how it could be that people are dying with coronavirus rather than dying of it. This concept is easy enough to understand, and it encourages one to take a closer look at the breakdown of deaths across an entire society. The more you follow this rabbit hole down, the more interesting the numbers become. It may be somewhat morbid, but it is nonetheless very important.

The most popular [two articles](#) on the website of *The Spectator* over the weekend were by Dry John Lee, a recently retired NHS consultant and professor of pathology. He remarks that *"we have yet to see any statistical evidence for excess deaths, in any part of the world"*.

To check this out, I looked at the British government's [own statistics](#) on total deaths registered weekly across the UK. It shows that in the week ending on the 8th of March 2019, 10,898 people died in total in the UK. This year, in the week ending the 6th of March 2020, the

equivalent figure was almost identical: 10,895. Make of that what you will. Statistics are currently available up to March 20, and while there is a lag between the spread of the virus and the resulting deaths, so far only about 1 percent of all mortalities bear any relation to coronavirus, and there is no visible spike. **If nothing else, it helps to view the extent of the crisis in proportion - thousands of people die each week, and from the long-term view what we are seeing is not a plague, but a blip.**

So when all is said and done, will any additional people die of the coronavirus? And what is meant by extra or additional?

Risk of Dying

Understanding this requires a bit of lateral thinking, but it helps to remember that everyone on Earth has a terminal disease: being alive. We all have to go sometime. 150,000 die every day around the globe. Nations actually are very accurate in reporting births and deaths surprisingly.

Recording exactly how and when we do is a big part of the job of statistician Professor Sir David Spiegelhalter. In a recent blog post, he outlined the concept of background risk. This is obtained by recording all of the people dying in any given year, at any given age. At its most simple, this is the percentage chance a person has of not reaching their next birthday, based solely on their age. Of course, that is not to say that if you are a 40-year-old man you have precisely a 0.2% chance of dying this year - the data are based on averages, and do not apply to individuals.

But nonetheless, across a country or given populations, the averages will be right, and it is possible to predict with great accuracy how many people will die in a given year. In the UK, for example, 600,000 people die annually. But wait a minute! A novel, brand-spanking new coronavirus is terrorizing us all. Therefore surely we can expect more people to die this year than would in a normal year? And when come year's end we should be able, with simple arithmetic, to count exactly how many more there were.

Spiegelhalter, chair of the Winton Centre for Evidence and Risk Communication at Cambridge University, won't say exactly what he does think that figure will be. **But he does say that if the deaths are towards the lower end of the current estimates, say at around 20,000 in the UK, Covid-19 will end up having "a minimal impact on overall mortality for 2020".** He told R4 that **his findings showed, to his own professed astonishment, that if someone contracts the coronavirus, they've got almost exactly the same chance of dying over the ensuing few weeks as they would normally have of dying over the next year, no matter what their age or background health.**

And depending on who you ask, that 20,000 figure might still be an overestimate. **In fact, Spiegelhalter says that if extra people die it will likely be as a result of the knock-on effects of the lockdown, such as delayed normal health care, depression and isolation.**

American political commentator Candace Owens has been Tweeting consistently about the apparent insignificance of Covid-19 deaths compared to overall trends. She tweeted about this issue in relation to New York City, where meaningless figures are being waved around by the media. It has been in the forefront of the 5G roll out, keep that fact in your memory bank. It's likely the data will be difficult to assay when it comes to the true cause of death for months to come, if at all. The planners of this invisible war surely calculated this into their subversive diabolical plan.

Final Destination

With all of the numbers being bandied about these days by various universities and governments, NGO's, one would swear that they knew exactly what they were talking about. Make no mistake: this air of certainty is just a front. **It is definitely too early to accurately gauge how many - if any - extra people will die because of coronavirus. It will depend on how four key pieces of information intersect.**

These are:

How many people will become infected by Covid-19?

How much does Covid-19 increase the risk of death?

Are deaths being properly recorded?

Of those people who die having contracted coronavirus, are they dying from the virus, or just with it?

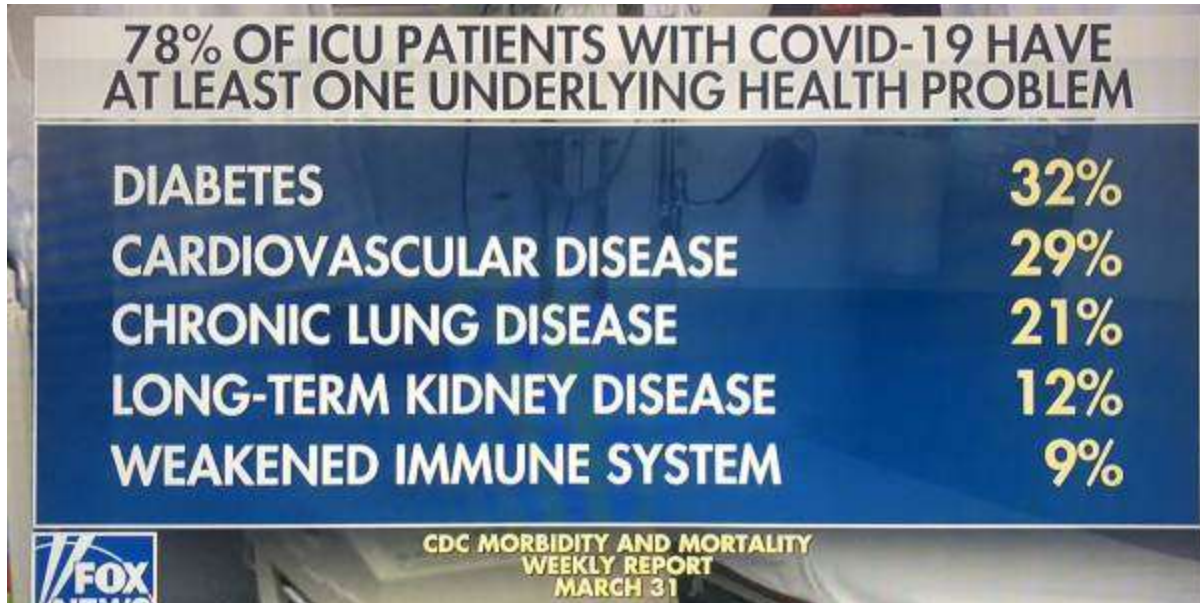

Of those who died, how many had common health issues that would have killed them this year anyway? Since all of this began, the mainstream media have focused almost entirely on the first of these points, and stressing with an onslaught of material how important it is to slow the spread. The most extreme possible measures have been implemented to do that. Meanwhile, the three other points could end up comparing Covid-19 pretty much to the common flu. Only careful consideration by governments of all the key factors will result in the best future decisions.

It is hard to believe that when this all blows over, the damage that will have been done by the shutdown measures - to businesses, to civil liberties, to individual lives and, of course, to the global economy - could have been for nothing. Nonetheless, it seems entirely possible based on the present data. Remember above all to not take the figures the mainstream media throw at you at face value; there are lies, damned lies and statistics.

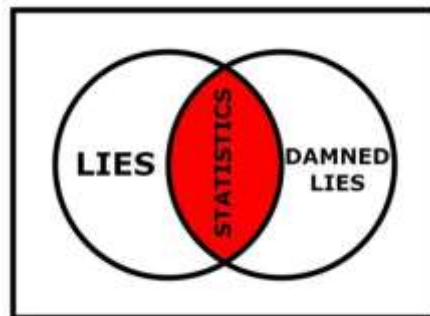

Peter Andrews is an Irish science journalist and writer, based in London. He has a background in the life sciences, and graduated from the University of Glasgow with a degree in genetics.

Below is a March 31st, 2020 post report with FOX News by the CDC which confirms what we had known and suspected from the outset of the Corona virus in the U.S. The fear-mongering media and NGO's only mention the number of cases reported, and almost never provide

specific details relative to what this chart below reveals. The failure to be accurate in the data creates an image of fear that radiates well beyond the data.

It is extremely important to question sources that can be skewed to present a position to suit an agenda. As those who know, there are lies, statistics, and damned lies.

The previous chart on page 1 shows official data of worldwide deaths by “cause” of death for what would be a few days for the first quarter of the year. The mainstream media and others reporting on the Corona virus do not push the data on the seasonal flu. The seasonal flu largely is related to Pneumonia, the primary cause of death among the elderly. This is true also of the Corona virus and reporting sources have been quick to label cause of death as the Corona virus when in fact the cause of death is or likely Pneumonia. Authorities have even told physicians to keep their mouth shut when it comes to revealing pertinent facts, data, age, race, gender, all of which paints a dire state of a contagion that may still be explained by the presence of 5G going live around the country this year. The U.S. lagged behind much of the world when it came to deploying 5G 60-gigahertz technology. Even now we are being told the virus has mutated, again perhaps an excuse to falsely identify cause of death.

On an average day in America 8,000 people die, or 2.9 million per year. Compared to 150,000 a day world-wide, we are a drop in the casket. When that perspective is placed in context next to

the 2,400 deaths in the month of March from the coronavirus, you have to question the necessity of shutting down the entire country. The suggestion that it has something to do with the removal of President Trump from office has some merit, I would think.

As soon as the World Health Organization put out a case fatality rate of 3.4% for the new coronavirus, multiple academics jumped in and criticized the projection. Most notably, three medical professors from Stanford University.

Dr. Eran Bendavid and Dr. Jay Bhattacharya, two professors of medicine at Stanford University recently published an opinion piece in the Wall Street Journal entitled, “Is the coronavirus as deadly as they say?”

In it, they provide reasons for why the fatality rate might be significantly lower than the projection given by the World Health Organization (WHO). This is not to say they weren’t criticized, after these Stanford medical professors published their opinion, many took to YouTube in an attempt to explain why they were wrong.

But if we stick to the experts, and scientific analysis, it’s safe to assume that the original case fatality rate put out by the WHO may be off by a significant margin.

John P. A. Ioannidis, a professor of medicine and epidemiology at Stanford University, recently published an article entitled “A fiasco in the making? As the coronavirus pandemic takes hold, we are making decisions without reliable data.” In the article, he also argues that there is simply not enough data to make claims about reported case fatality rate.

He states that rates, “like the official 3.4% rate from the World Health Organization, cause horror — and are meaningless. Patients who have been tested for SARS-CoV-2 are disproportionately those with severe symptoms and bad outcomes. Keep in mind, Bill Gates and the “Event” predicted the death of 65-million in 18 months. Computer modeling is a very sophisticated process, and the input demands precise accurate data. As a computer guy, Bill Gates should be closer to the truth than Dr. Anthony Fauci.

As most health systems have limited testing capacity, selection bias may even worsen in the near future.” He states that the real death rate of this virus could be five or more times lower, at 0.025 percent to 0.625 percent.

The main idea is that the number of people infected with the new coronavirus is most likely much higher than we know right now, which would drastically drop the case fatality rate.

According to an article recently published in the *‘New England Journal of Medicine’* by Dr. Anthony S. Fauci, Dr. H. Clifford Lane, and Dr. Robert R. Redfield, the case fatality rate may be less than one percent, and the clinical consequences of Covid-19 may be more similar to that of a severe seasonal influenza. Recent reports of multiple strains does not help in making predictions.

“On the basis of a case definition requiring a diagnosis of pneumonia, the currently reported case fatality rate is approximately 2%. In another article in the New England Journal, Guan et al. report mortality of 1.4% among 1099 patients with laboratory-confirmed Covid-19; these patients had a wide spectrum of disease severity.

“If one assumes that the number of asymptomatic or minimally symptomatic cases is several times as high as the number of reported cases, the case fatality rate may be considerably less than 1%.”

“This suggests that the overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1%) or a pandemic influenza (similar to those in 1957 and 1968) rather than a disease similar to SARS or MERS, which have had case fatality rates of 9 to 10% and 36%, respectively.”

I felt it was important to share this information because what we are seeing right now is a lot of hysteria, and a lot of fear from people. White House health advisor Dr. Anthony Fauci said the first human trial testing a potential vaccine to prevent COVID-19 is "on track" with public distribution still projected in 12 to 18 months. He called it the "ultimate game changer" in the fight to control the pandemic. (CNBC).

That’s not to say it’s not warranted, but we must remember that there’s a good chance that this is not going to turn out as bad as so many people believe when it comes to death rates, and perhaps there is something more behind this full economic shutdown.

With all of the models out there, it’s important to remember that modelling is controversial, and models that promote such deadly scenarios from this new coronavirus have been contested by other scientists. That being said, there are models that have been published that show a much less cause for concern.

A study, from the Nuffield Department of Medicine at the University of Oxford, used data on the number of deaths and reported cases in the early stages of the epidemic in Italy and the UK. The researchers used mathematical modelling to estimate infection rates by fitting a “susceptible—infected—recovered” model of epidemics to the number of deaths seen.

The researchers showed outcomes generated from different assumptions, including a reproduction number of 2.25 and 2.75, and setting the proportion of the population at risk of death or severe disease at 1% or 0.1%. The study was led by Sunetra Gupta, professor of theoretical epidemiology at the University of Oxford.

One of the models in the study suggests that that millions may have already been affected by the new virus with little or no symptoms, and that the virus is actually in the later stage. If this is true, like all of the information above in this article suggests, then the death rate is much lower.

Approximately 150,000 people die every day, worldwide. That's 13 million people that have died so far this year. Coronavirus has killed 22,000 people worldwide so far this year. Perhaps this can offer a little better perspective. The data masks the real cause of deaths labeled COVID-19, and skews the death-to-infection case ratio.

Deborah Leah Birx, an American physician and diplomat who serves as the response coordinator for the White House Coronavirus Task Force also seems to contradict some mainstream media narratives, as well as all of the models that have predicted such doom and gloom and dire situations compared to what they are seeing on the ground, in real time. She makes some interesting points.

The predictions of the models don't match the reality on the ground in either China, South Korea, or Italy. We are about five times the size of Italy, so, if we were Italy and you did all those divisions, Italy should have close to 400,000 deaths, we're not anywhere close to achieving that.

So these are things kinds of thins we're trying to understand, models are models, we're adapting now, there's enough data now of the real experience with the coronavirus on the ground, to really to really make these predictions much more sound.

So when people start talking about 20 percent of the population getting infected, it's very scary, but we don't have data that matches that based on the experience.

The Takeaway here is this.

At the end of the day, we have to ask ourselves why certain narratives and opinions are being ridiculed. Dr. Ron Paul, for example, has received multiple "Fake News" strikes for sharing his opinions about the coronavirus. He was a trained physican before running for a seat in the Congress. According to him, **"people should ask themselves whether this coronavirus "pandemic" could be a big hoax, with the actual danger of the disease massively exaggerated by those who seek to profit – financially or politically – from the ensuing panic."** I have said from the beginning it was a hoax, a plan-demic, which mis-labeled the diagnosed cause of death.

What's interesting is how some are allowed to share opinions, while others are not. The Internet censors have been working around the clock to keep you from learning the truth about the Corona virus both as a bio-weapon and its link to 5G EMF sickness.

I'd also like to add in, again, when the final numbers come out they will most likely not account for all those infected or who have been infected.

Furthermore, why is mainstream media not mentioning what's been happening with vitamin C, D₃, Zinc, and Potassium Iodine? Neither are they discussing the importance of an optimum immune system to ward off any kind of pathogens.

Why are they ridiculing it instead of exploring it? Where does government allegiance lie, with pharmaceutical companies or with the people?

“Overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1%) or a pandemic influenza (similar to those in 1957 and 1968) rather than a disease similar to SARS or MERS, which have had case fatality rates of 9 to 10% and 36%, respectively,” so says Dr. Anthony Fauci. This past Sunday morning, social media was abuzz with the news that Coronavirus Task Force member Dr. Anthony Fauci indicated that current models showed millions of Americans could have the Wuhan Coronavirus, and there could be as many as 100,000 deaths, and as many as 200,000.

Dr. Fauci is a deeply compromised spokesman on the Corona virus issue. When he received a \$100-million grant from MicroSoft former CEO Bill Gates, you have aligned yourself with the Eugenics and depopulation agenda. As the expression says, “money talks and B.S. walks!”

The difference between the flu and COVID-19 is that all of us have had influenza at some time. Therefore, an older adult may have antibodies to a flu strain to which they are exposed and can overcome the infection.

This is not the case for the Wuhan Coronavirus. Nobody had ever been infected with it before Patient Zero in China. Therefore, the older population is being struck because their immune systems are not as robust as younger patients, and has no way to adapt and fight this new pathogen. A study of 425 patients from the Wuhan area bears out this projection.

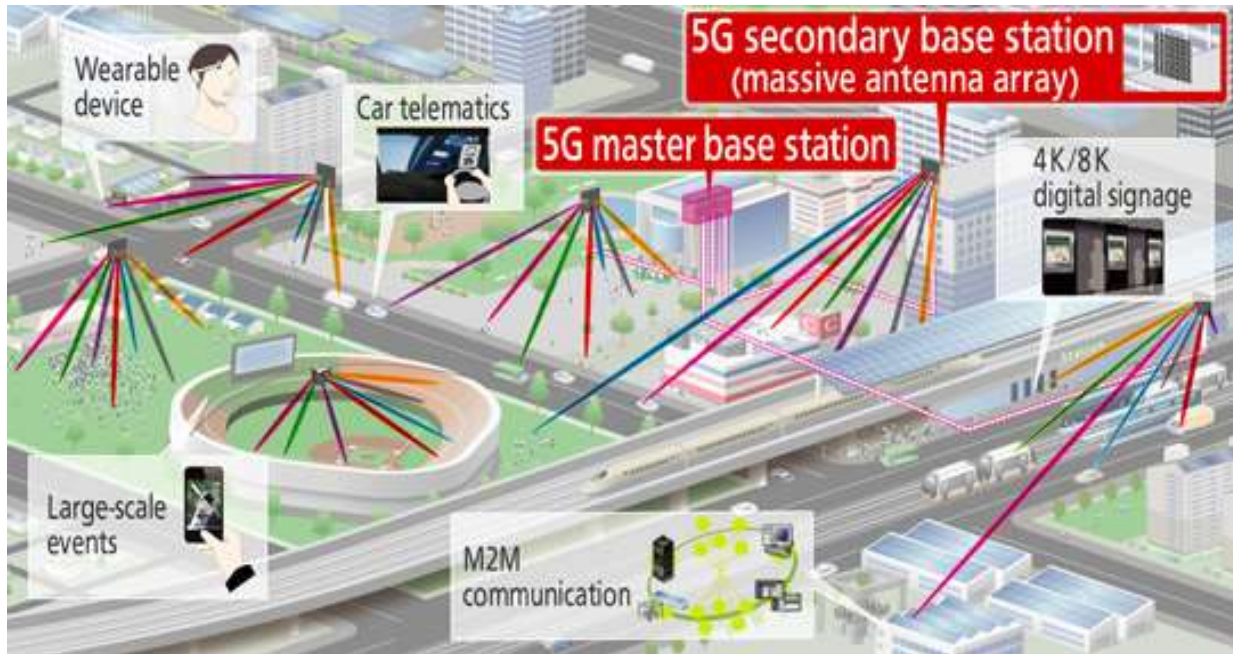

The median age of the patients was 59 years, with higher morbidity and mortality among the elderly and among those with coexisting conditions (similar to the situation with influenza); 56% of the patients were male. Of note, there were no cases in children younger than 15 years of age. Either children are less likely to become infected, which would have important epidemiologic implications, or their symptoms were so mild that their infection escaped detection, which has implications for the size of the denominator of total community infections.

Fauci and his co-authors also reviewed the timing of the onset of the disease to the need for an infected person to be hospitalized.

For example, Li et al. report a mean interval of 9.1 to 12.5 days between the onset of illness and hospitalization. This finding of a delay in the progression to serious disease may be telling us something important about the pathogenesis of this new virus and may provide a unique window of opportunity for intervention.

I have taken Statistics and Probability studies in college and graduate school and I can tell you that the public is as ignorant as they can be in knowing how the data is compiled, processed, and reported. I was employed by United Air Lines for a couple years as a computer programmer working with estimating [using computer modeling] the life-span for aircraft parts

and components in planning of program maintenance for United's fleet of Boeing 707's, 720's and French Caravelle aircraft. I believe that the public needs to be very discerning about the data being released by the CDC, WHO, and academic and government authorities.

The above illustration has the key as to how the Chinese in Wuhan mysteriously dropping dead in their own foot print as the result of 5G 60-gighertz. I will explain how the so-called Corona virus was used to hide the real perpatrators agenda to provoke a war between the U.S. and China.

As the public watched Chinese citizens from cell phone camera dropping dead in their steps, while others appeared unaffected and continued with no signs of cause, the question became why some and not others. This was the biggest question that remained elusive to me during my research on 5G 60-gigahertz EMF. In both theory and practice, when one person collapsed asnd died, it stood to reason those next to them should have collapsed and died as well. Then after days of dwelling on this point, it suddenly dawned on me. The answer for us in this illustration. Note the red labeled master base station and secondary base station. I did not have this illustration when I came to my own conclusion.

I am exactly 2,500-ft. from a cell tower. Last summer around the time the FCC auctioned band widths to the telecoms, I began to experience itching of my hands, arms, shoulders and back. I began to take Benadryl to counter the itching that I was dealing with all day long. Some days were worse than others. I began my own investigation and came across reports that others were experiencing the same symptom along with many others. I ordered a rare earth metal Shungite pyramid and set it on my computer desk monitor stand. When experiencing the itching, I noticed that the level or intensity fluctuated. It was this variation that suggested the cell tower EMF was being modulated. I had overlooked the obvious from the beginning.

Shungite is a powerful stone to shield you from the electromagnetic radiation given off by electrical equipment, including computers, mobile phones, microwaves and televisions. It also has an action that heals those who have developed a sensitivity to man-made electrical devices.

I had two years of geology in college and in the study of rocks and minerals I had learned the properties of rare earth minerals and Shungite was one of those considered rarest of all, found in Karelia, Russia. I have since purchased several Shungite pyramids and placed them in locations where my Wi-Fi router sits under the TV stand, one in my bedroom, and a small one next to my wireless antenna UBS port on my hard drive. Back to my ah ha moment, I had overlooked the obvious.

As customer demand of 5G applications vary throughout any 24-hour period, it is obviously tweaked to determine wattage output for optimum reception. Modulation is like fine tuning radio reception for your AM/FM car radio. The Wuhan, China victims were not all victims of the Corona virus; many were zapped with modulated 5G energy!

I know of up to ten public/private programs that have been offering free computers to school districts, and a few years ago Google Chrome was offering a program to receive free lap top computers to over 14,000 school districts across the country. These were before the roll out of 5G and likely anticipated well in advance, based on Google's lobbying efforts and funds reported in Part 1 of this series. There have been multiple reports by residents around the country reporting telecom activity around schools across the country.

In the early stages of 5G 60-gigahertz will have lower energy demand and so the telecom operators will tailor wattage output to meet their actual needs rather than at maximum levels, mainly as a cost factor of the cost of electrical power required at the cell towers.

For now I am simply going to give you the basics on how the Rothschild's Pirbright Institute hijacked the highly touted Wuhan model 5G city. In a later segment, I will produce the more detailed evidence showing the various links and persons and agencies that pulled this off and have used the virus to pass off 5g sickness as a virus. You cannot catch a virus, I have stated that before. The only way you get a virus is from something inserted into body through a vaccine. The Corona virus became contagious through sneezing, spitting, and human exchange of bodily fluids. Do not let anyone bullshit you into thinking you can get a virus by any other means. The vaccine is the "virus". The purpose of the scare fear-mongering is to get people to beg for the vaccine and to be docile sheep for compliance.

Ben Franklin's famous 'Liberty, Safety' quote lost its context in the 21st Century. Ben Franklin once said: ***"Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety."*** That quote often comes up in the context of new technology.

The Pirbright Institute located in Surrey, UK claims it is in the business of studying viruses and creating vaccines since 1960, and its facilities resemble that of an inter-planetary communications center with at least 25 large satellite dishes on the grounds of the Institute.

New Information proves that The Pirbright Institute (owner of CORONAVIRUS) and Wellcome Foundation/Trust have been one and the same since at least the 1960s.

[Editor. \(Sep. 05, 1975\)](https://www.fbcoverup.com/docs/library/1975-09-05-Top-post-for-top-vet-[Paul-Capstick-Wellcome-Foundation-Animal-Virus-Research-Institute-at-Pirbright-Sep-05-1975.pdf). Top post for top vet [Paul Capstick, Wellcome Foundation, Animal Virus Research Institute at Pirbright.

[https://www.fbcoverup.com/docs/library/1975-09-05-Top-post-for-top-vet-\[Paul-Capstick-Wellcome-Foundation-Animal-Virus-Research-Institute-at-Pirbright-Sep-05-1975.pdf](https://www.fbcoverup.com/docs/library/1975-09-05-Top-post-for-top-vet-[Paul-Capstick-Wellcome-Foundation-Animal-Virus-Research-Institute-at-Pirbright-Sep-05-1975.pdf)

The Pirbright Institute is a Rothschild-owned operation, founded by a Rothschild family member in the UK. With their ties with the CIA, MI6, in China, the Rothschild operatives were able to hijack (hack) or override the Chinese 5G satellite command station and take control remotely through satellite communications, and modulate the Chinese 5G network and tweak the level of the EMF signal, and virtually zap an assortment of locations and people, and thus giving the impression of random deaths blamed upon a virus known as COVID-19. Remember, above I noted that George Soros owns a company in Wuhan, China that was is in the business of producing pharmaceuticals, which can just as easy produce bio-weapons.

SERC-O formed The Pirbright Institute that submitted their Coronavirus invention to the U.S. Patent, having received funding for this work from Bill & Melinda Gates Foundation (Microsoft), Wellcome Trust (fake sold to GlaxoSmithKline), the European Commission (EU), World Health Organization (WHO), Defra, DARPA.

In just 17 months, the SERCO-managed patent examiner Bao Q. Li issued the Coronavirus [U.S. Pat. No. 10,130,701](#) to Pirbright with almost no objections (that means it was probably a rubber stamp). This process normally takes three or more years.

Neither Pirbright nor the U.S. Patent Office disclosed their conflicts of interest in the issuance of this Coronavirus patent.

On the British side, everything about this Coronavirus tracks back to the Crown, the eugenics-loving Pilgrims Society, Crown Agents and her corrupt Privy Council courtiers (British Pilgrims Society suck ups).

On the American side it illustrates the seditious nature of activity at the U.S. Patent Office, the Senior Executive Service (SES), Crown Agents, OPIC, USAID, a corrupt DoJ, Chief Justice John Roberts, FBI, C.I.A. and NSA (American Pilgrims Society suck ups).

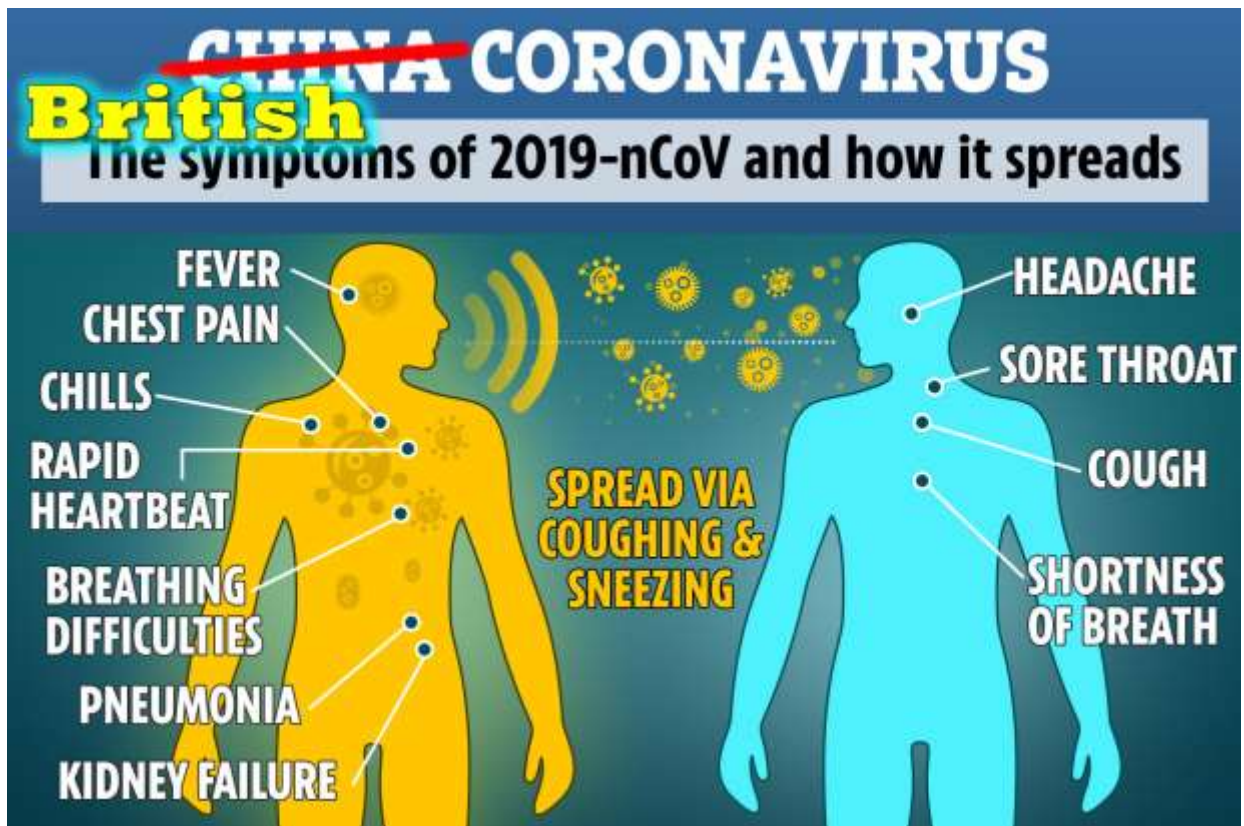

Fig. 10—The Coronavirus is not Chinese in origin. It is a man-made British-US Pilgrims Society bioweapon invented by Wellcome Fund, Wellcome Trust, Bill Gates, DARPA, UN, WHO and EU, among others, in Pirbright, Woking, Surrey UK by [The Pirbright Institute](#) holds [U.S. Patent No. 10,130,701](#). This proof comes from their own hand.

The Pilgrims Society plays God.

CORONAVIRUS TRACED TO THE BRITISH CROWN

The Pirbright Institute (UK) has been awarded 11 U.S. Patents, including Coronavirus U.S. Pat. No. 10,130,701

The Pirbright Institute is controlled by the Queen's Golden Share along with SERCO and QinetiQ (pron. kinetic)

Pirbright's controllers track back to SERCO, QinetiQ & Sir Geoffrey E. Pattie, Chairman Marconi and the British Intellectual Property Institute.

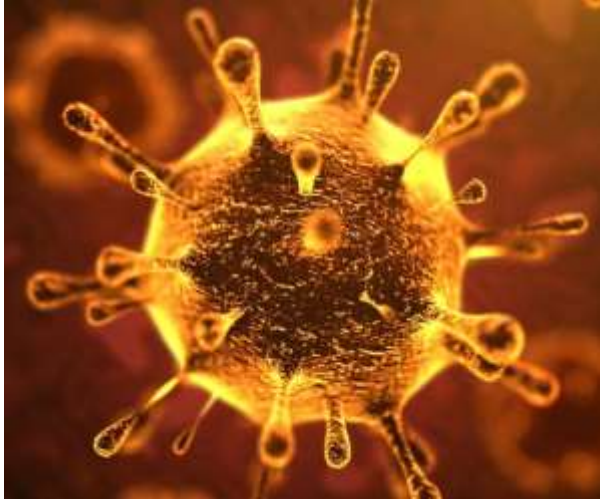

The Pirbright Institute is a British charity (Co. No. 00559784) that has a charter from the Queen. It is controlled by the UK Government's Biotechnology and Biological Research Council ([BBSRC](#)). In turn, [UK Research and Innovation](#) oversees BBSRC.

BBSRC was created in 1994 by taking over the biological science activities of the Science and Engineering Research Council (SERC). In 1986, SERC was defunded by Sir Geoffrey E. Pattie, the Minister of State for Industry and Information. He simultaneously incorporated a commercial SERCO and merged RCA into it. Later he took control of Marconi, then merged it into GEC.

See [AFI. \(Apr. 20, 2018\)](#). The shadow government uses SES, Serco and OPIC as portals into horrific corruption. *Americans for Innovation*.

See also [AFI. \(Jan. 11, 2018\)](#). Meet The Person Who Can Remotely Crash Planes And Can Read Your Mind. *Americans for Innovation*.

[On Jun. 22, 1994](#), Pattie became the chairman of the British [Intellectual Property Law Institute](#) with founding members that included well known American corruptocrats, including GEC, Glaxo Holdings (formerly Wellcome, Pirbright funder), Thorn EMI, Unilever, Wellcome Foundation (Pirbright funder), Wellcome Research (Pirbright funder), Zeneca Group (Dame Bridget Margaret Ogilvie is a Wellcome Trust director), Amersham, Dyson, McDermott, Microsoft (Bill Gates, Pirbright funder), Wilmer Cutler Pickering Hale LLP (Robert Mueller's witch hunt firm), Finnegan Henderson, Morrison & Forester, BAT, IBM (thief of Leader Technologies' social networking inventions). See [AFI. \(Nov. 22, 2017\)](#). *The Weaponization of Social Media Should Concern Us All. Americans for Innovation.*

Our research has tracked the Burroughs Wellcome & Co. involvement with bogus vaccines back to their experiments on 60,000 whites and black in British concentration camps during the Second Boer War that was promoted by the disciples of Cecil Rhodes like Viscount Alfred Milner, Winston Churchill and John Buchan, among others—all founders of the Pilgrims Society in London (1902), then New York (1903).

Fig. 5—Masks Help! A pernicious rumor circulates that surgical masks do not help protect you from breathing in the airborne Coronavirus. This makes no sense. Of course it helps. If someone sneezes directly on you from three feet away, then of course you will inhale whatever pathogens they may have. But, say you are able to place even a 2 ft. square piece of cardboard between you and in front of the sick person's face. That will stop many of the airborne particles. Not all, but many if not most. That's the benefit of a surgical mask. Is it 100% effective? No. But highly effective? Of course it is. Otherwise, doctors and nurses would not use them in hospitals and clinics so religiously.

See [AFI. \(Oct. 24, 2019\)](#). The 200-year Information War: The UK-U.S. Pilgrims Society controls the Press that directs intelligence (spy-lies) to bend words and culture to atheistic social fascism. *Americans for Innovation*.

[On Jul. 20, 2005](#), Sir Geoffrey E. Pattie formed Strategic Communications Laboratory PR firm—the parent of Cambridge Analytica and a key antagonist in the Trump-Russia hoaxes.

See [AFI. \(Jun 03, 2018\)](#). Spy-gate is directed by the Crown's courtiers in the UK, not by Russia. *Americans for Innovation*.

[19, 2013](#)). Serco Processes 2 Millionth Patent Application for U.S. Patent and Trademark Office. SERCO.

See also [Press release. \(Nov. 15, 2018\)](#). Serco Processes 4 Millionth Patent Application for U.S. Patent and Trademark Office. SERCO.

[On Dec. 28, 2006](#), Pattie formed Terrington Management LLP and immediately acquired clients including BEA, Lockheed, AWE

and SERCO. Lockheed and SERCO control [Atomic Weapons Establishment \(AWE\)](#) which is controlled by the Queen's Golden Share.

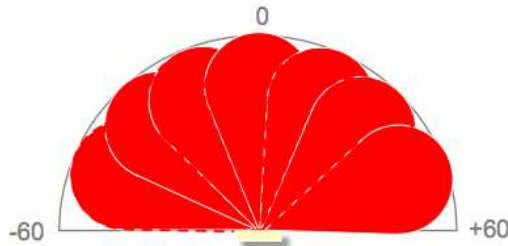

Fig. 6—George W. Bush, Pilgrims Society; progenitor of The Patriot Act where basic rights in the Bill of Rights were suspended following the Pilgrims Society fears conjured up and stoked by the MSM Pilgrim propaganda after their 9/11 false flag attack. Numerous whistleblowers have confirmed that Bush, Cheney, Rumsfeld etc. knew the attack was coming... because they ordered the C.I.A. to organize it for their Pilgrims Society brethren in Britain and the U.S.

[On May 17, 2006](#), the George W. Bush (Pilgrims Society member) U.S. Patent Office awarded the processing of all patents to SERCO—a company controlled by the British Crown. Those contracts have been renewed and are presently in operation. See [2015](#) SERCO press release.

Beamforming is at the heart of phased array systems

Enables signals to be shaped & pointed at a specific object

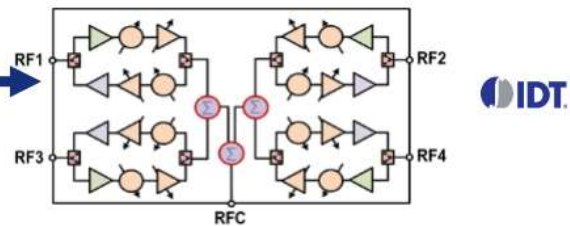

Beamformer Fundamentals

- Accurate independent phase and gain control
- Enables combinations of antenna to create different beam patterns
- Thermal Management and Size are Critical
- IDT solution is >60% smaller than competition

64 Antenna Array

Typical arrays range from 64 to 3600 antenna
- Multiple beamformers required per array

Analog Mixed Signal Systems

If you read the title of this slide above, you see the words **“Enables signals to be shaped & pointed at a specific object.”** This should get your attention. With the 5G technology, anyone can be targeted at [your 5G phone has a GPS coordinates locator built internally]. From a base station, a person sitting at a computer can dial you up and zap you with a dose of 5G 60-gigahertz that will give you an instant heart attack. That’s how dangerous this is. 5G operates on a millimeter wave length, straight line for energy amplitude, like an invisible bullet! If you doubt that then you are behind the times my friend. 5G is capable of targeting an object, a person, an object, to within a 4”-square area. How’s that for accuracy at say 60-miles up via a base station located anywhere in the world!! Think about it, if an Internet provider can send you a movie with a flip of the switch, he can just as easily send you a 60-gigahertz heart attack and the attending policeman, medic, or physician can say you had the Corona virus. Fifty years ago it took a lot of skill to hit the bulls eye at 500 yards with a 30-cal. full metal jacket round from an M1 rifle.

Verizon had the slogan “Can you hear me now” and if my memory is correct, it was AT&T who had the slogan “Reach out and touch someone”. It has been a decade since I stopped watching TV so I know these two commercials are a decade ago if not more. However, today, 5G 60-gigahertz wireless communications are even greater threats than can be imagined.

Raytheon Missile Systems based in Tucson, AZ and the news networks gave us an entire family of guided air-to-ground missiles and ordinance. The division's products include:

- [AGM-65 Maverick](#) air-to-surface missile
- [AGM-88 HARM](#) air-to-surface missile
- [AGM-129 ACM](#) air-to-surface missile
- [AGM-154 Joint Standoff Weapon](#) air-to-surface missile
- [AGM-176 Griffin](#) air-to-surface missile
- [AIM-7 Sparrow](#) air-to-air missile
- [RIM-7 Sea Sparrow](#) naval surface-to-air missile
- [AIM-9 Sidewinder](#) air-to-air missile
- [AIM-54 Phoenix](#) air-to-air missile
- [AIM-120 AMRAAM](#) air-to-air missile
- [BGM-71 TOW](#) anti-tank missile
- [BGM-109 Tomahawk](#) cruise missile
- [Coyote](#) unmanned aerial system
- [Extended Range Guided Munition \[1\]](#)
- [Exoatmospheric Kill Vehicle](#) anti ICBM system
- [FGM-148 Javelin](#) anti-tank missile
- [FIM-92 Stinger](#) Man-Portable Air-Defense System surface-to-air missile
- [M982 Excalibur](#) guided artillery round

[MIM-23 Hawk](#) surface-to-air missile
[MIM-104 Patriot](#) surface-to-air missile
[Paveway](#) laser-guided bomb
[Phalanx CIWS](#) naval anti-missile defense system
[RIM-116 Rolling Airframe Missile](#) naval surface-to-air missile
[RIM-162 Evolved Sea Sparrow Missile](#) naval surface-to-air missile
Standard Missile family of naval missiles
[RIM-66 Standard](#)
[RIM-67 Standard](#)
[RIM-161 Standard Missile 3](#)
[RIM-174 Standard ERAM](#)
[SAM-N-2 Lark](#)

What few people seem to realize is that anything that can be used for war can be just as easily used against undesirable, dissidents, and even the general public one day. The advantage 5G 60-gigahertz has over radar guided missiles, beside cost obviously, is that new 5G cell phone in your pocket or purse enables the controller sitting at a computer console becomes the homing device for a “Kill Shot” of 60-gigahertz. This is not all that new. CIA Heart Attack Gun was revealed at a 1975 Congressional Hearing. Heart Attack Gun (HAG) is a weapon that was revealed in 1975 at a hearing of a committee led by Frank Church. At the hearing, Church showed off the CIA's heart attack gun, which was a modified Colt 1911.

When the group at the Pirbright Institute hacked the Chinese 5G system, the Chinese were unaware of what was happening last October. Pirbright's web page says they study viruses: *“Our research focuses on viruses that are potentially devastating for the economy, food security and the wellbeing of animals and humans. These include diseases like foot-and-mouth disease and bluetongue, which affect certain livestock, and zoonotic viruses like avian and swine influenza that can spread from animals to humans.”*

Pirbright does a lot more at their Surrey, UK facility. They have no fewer than 25 satellite dishes on the property, far more than you would think necessary for the study of animal viruses. In the next segment of this I will go deeper into the crowd that kills by vaccines.

So while at this time we're still unable to confirm that America is under a bio-weapon attack launched by China (or the globalists out for revenge), as Zero Hedge reported Italian state media exposed Chinese biological experiments to infect humans with coronavirus all the way back in 2015, so why should we believe a word coming out of China or from the US mainstream media here for that matter with them continuing to echo the Chinese communist party line? So as Mike Adams also pointed out in his story, it's now time to double down on our preparations if we can should 'normal' never return to America and what we're seeing now across the country be a sign of things to come and 'the new normal'. Just so you understand, the “globalists” I am referring to are led by the Zionists and the Rothschild's, which includes the British Royal Family. They will stage their own fake Messiah debate very soon.

As many have pointed out within that story, this outbreak helps the globalists achieve all of their top priorities including depopulation, authoritarian government including the cracking down upon the rights of Americans to assemble, gives a potential boon to the 'vaccine industry'

as well as allowing 'big tech' to continue to censor those who don't go along with their agenda. And with us already witnessing the arrests of more than one Pastor for holding church services during this lockdown, others have argued Christianity is now under fire.

And with the US military at very real risk from the spread of this virus due to the fact that 'social distancing' and 'protecting the country' cannot be accomplished together as reported in a March 31st All News Pipeline story, is America being 'softened up' for a major attack ahead? The warning signs are flashing bright red and screaming something huge is ahead.

Ramp up your preparedness to a whole new level, if you can. Prepare for all the following, just in case one or more happen.

- A loss of the power grid
- A blackout of all internet and phone communications
- Foreign troops invading the US, including through the Mexico border
- Attempted assassination of President Trump, or a possible “civil war” inside the Pentagon
- The possibility of mass arrests of deep state traitors who are Chinese collaborators, such as Sen. Feinstein, Gov. Newsom, Speaker of the House Nancy Pelosi, Congressman Adam Schiff, etc.

We cannot be certain that any of these will happen, and we hope none of them do. But there are giant red flashing warning signs just screaming out that something big is about to go down. Whatever goes down, we might be going up at the same time!

Blessings,

Pastor Bob, EvanTeachr@aol.com
