

# 5G and the Realities of Neuroweapons

The weaponization of neuroscience, NEUROWEAPONOLOGY, has been largely omitted in discussions regarding the regulation of microwave radiation-emitting antenna systems and wireless facilities ( 'smart meters'+cell towers+4G-5G-6G+satellites ). That has not impeded research into the research on the brain. This article contains two most frightening videos by one of the leading neuroweapons experts in the world, Dr. James Giordano, a professor at Jesuit Georgetown provides West Point students insight into the realm of warfighters. I have listened to these two videos below several times and they provide insights as to the potential use of 4G-5G-6G wireless energy!

According to [this 2015 MILITARY MEDICAL RESEARCH paper](#), microwave radiation (MW) is the fourth largest source of pollution and induces many biological effects. The report states, "The brain is the most sensitive target organ for MW radiation, where mitochondrial injury occurs earlier and more severely than in other organs."

The *infrastructures* that comprise the microwave radiation grid ('smart meters'+DAS+cell towers+4G-5G-6G+satellites), include [ground based](#) and [space based](#) equipment. Safety regulations, public control and oversight is absolutely essential to reign-in and correct out-of-control de facto microwave weapon systems.

## Induced Cognitive Dysfunction and Neuropathology

### Possible Vectors: Neuroweapon(s)

- Pharmacology
  - NMDA/Glutamate-R agonists
  - Heavy metals (mercury/lead)
  - Organic solvents
  - Low level organotoxins
- Technology
  - Sonic generators
  - EM pulse generators
  - Nanoparticulates

In this 2011 presentation, [Dr. James Giordano](#), Professor of Neurology and Biochemistry at Georgetown University Medical Center, lectures on **weapons of mass disruption**, also known as **neuroweapons**. He describes **NEUROWEAPONOLOGY**, the ability to create a ripple effect of disrupting the process of cognition, emotion, and behavior, not only on individual scales but also on socioeconomic scales, geopolitical scales, and military scales. Dr. Giordano mentions cell phones, microwaves or electromagnetic pulse, and aerosolized particulate matter, at the nanoscale, in the context of neuroweapons. Graphene oxide, another element with highly developed electromagnetic properties, might also be included in this weapons platform.

The image contains two anatomical diagrams. The left diagram, titled 'Brain Meninges', shows a cross-section of the brain with labels for the meninges: Dura Mater, Arachnoid Mater, and Pia Mater. Below it is a 'SAGITTAL VIEW OF THE SKULL AND BRAIN' showing the brain's position within the skull. The right diagram is a detailed cross-section of the inner ear, showing the vestibular system (Semicircular ducts, Ampullae, Vestibule, Utricule, Sacculle) and the cochlear system (Ductus reuniens, Cochlea). Labels include: Subdural space, Subarachnoid space, Endolymphatic sac, Endolymphatic duct, Perilymphatic duct, Helicotrema, Scala vestibuli, Scala media, Scala tympani, Oval window, Round window, Stapes, Incus, Malleus, Mastoid cavities, External auditory meatus, Tympanic membrane, and Auditory tube.

Very few people seem to understand the full implications of wireless energy. In more than thirty years of study and research on wireless energy, nothing has been as striking to me as a wake-up call was the 2011 presentation given by Dr. James Giordano. I had to watch the presentation by Dr. Giordano a couple times to begin to realize what he was saying and allowing my mind to wrap around the implications of what he said and what he implied.

Do not dismiss **4G**, **5G**, and coming **6G** as simply more and better use of our cell phones. It may be the elite’s way of packaging and marketing it but no one like the military is more capable of demonstrating the dark side of wireless energy applications that will enslave, harm, and kill.
