

# The 5G's (End Game) Trap Will Soon Be Activated!

Part 5

As the CDC Mandated 'Death Shot' for our Children, The Hegelian Dialectic Is fully at play - COVID was unleashed to achieve global submission to a medical tyranny. The masses demanded a 'Solution,' The Genocide Weapon Was Ready to go. In Part 1 of this series I showed how this Hegelian Dialectic strategy operates. It has been a strategy used for more than three hundred years and it works perfectly all the time. Lurking behind all of this is the forthcoming execution of the **5G** End Game Trap! You need to pay close attention to the details in this segment as they encompass things far beyond most intelligence.

The global elite are not the smartest people on Earth but they are the personification of Satanic evil and they have made numerous mistakes over the course of the Covid scamdemic. Because they psychopaths and sociopaths, they get caught in their lies and deception tactics. This is so evident in what the CDC did a few days ago.

When a CDC panel unanimously voted this past Wednesday to add the Covid-19 vaccine to the recommended childhood schedule of shots to be forced upon American children, despite all the proven deaths and injuries now being tied to 'the vax' seen in autopsy reports as Dr. Joel S. Hirschhorn had pointed out, take note that this 'death shot' is being forced upon our children as new reports

emerge confirming that COVID itself was created in a lab, meaning we've got more proof we're witnessing the Hegelian dialectic at play: The globalists create the problem which demanded a 'reaction' from the public, the 'solution' ready to be rushed out, the depopulation weapon.

As Infowars reports in this new story titled "COVID-19 Virus Has a Telltale 'Fingerprint' That Makes it Highly Likely to Have Come From a Lab, Study Finds." what is likely the 'smoking gun' evidence COVID was man-made has emerged, with this coming at a time when Boston University researchers insanely just weaponized a COVID virus with an 80% kill rate in mice, hinting at a '12 Monkeys scenario,' if the WORST-CASE SCENARIO, is unleashed upon us in the coming days. From Infowars:

*The COVID-19 coronavirus SARS-CoV-2 has a telltale "fingerprint" that means it is highly likely to have been made in a lab, new research has found.*

From my research of reading nearly a dozen books on viruses and vaccines, ALL modified vaccines leave a "signature marker" that identifies the cell-line used to modify it. The Salk brothers used monkey cells to make their polio vaccines back in the 1950s.

*Mathematical biologist Dr. Alex Washburne and colleagues Valentin Brutte and Antonius VanDongen published their research in a preprint that finds "a high likelihood that SARS-CoV-2 may have originated as an infectious clone assembled in vitro".*

*They explain this evidence, which they term an "endonuclease fingerprint", is independent of the evidence relating to the Furin Cleavage Site, which others have suggested is a 'smoking gun' for a lab origin.*

And while that story specifically states that Dr. Washburne stresses that he is not alleging malign intent or even gain-of-function work in this paper, writing "We find no evidence of SARS-CoV-2 being a bioweapon (on the contrary, this looks like an accident) or any gain of function work. We find evidence suggesting SARS-CoV-2 may have been synthesized in the lab with known methods, probably for normal pre-Covid research purposes," his findings nevertheless confirm the man-made fingerprint to the virus used to lock-down America and allow massive mail-in voting fraud in the 2020 election.

With the globalists also using the virus to impose medical tyranny upon the masses, with that new story coming out of Boston proving most Americans don't know what's happening in their own cities, quite literally 'Nazi-death science' according to bioweapons expert Dr. Francis Boyle, as Steve Quayle mentioned in a SQ note while linking to this recent North Carolina Renegades story titled "CDC: Just Another Terrorist Organization," not only is the CDC becoming the 'Center for Disease Creation' but 'Children's Death Central' as well in his opinion.

So as we'll explore in this story below, with brand new proof coming to us from 'The Defender' that the Biden cabal is getting heavily into OFFENSIVE bioweapons in the present and into the future, more proof 'We the American people' are being lied to by our government, will we EVER get the truth about COVID, especially how it was used to lock down America and steal the 2020 election, when we now have proof that the same folks who did it back then are getting ready to get even more heavily into this kind of warfare? No doubt they'll keep lying to us till long after we're dead and gone.

According to [this new story over at The Defender](#): Children's Health Defense News & Views, Joe Biden's White House has just launched a new \$88 billion National Biodefense Strategy that according to Bioweapons expert Francis Boyle, J.D., Ph.D., *signals the U.S. is expanding its biological warfare industry "for the purpose of waging biological warfare."* Francis Boyle is the authority when it comes to the International Treaty on Bioweapons and Biowar, a treaty that he was the author originally.

With [this story at The Defender](#) coming out just days after the 'Daily Mail' put out the bombshell Boston University story about their COVID weaponization program paid for by the American taxpayer, a program with a Deagel-like kill rate of 80%, what are Americans to think when we see so soon afterwards, the Biden-cabal showing their intentions to get even more heavily into what Dr. Boyle has quite literally called 'death science'?

This becomes another reason why we can never trust another one of the 'concoctions' they invent and then try to force upon the masses.

You can read each of the following related stories from the 'Epoch Times' for free via these links.:

[Funeral Director Reveals Appalling Discovery About COVID Vaccination](#)  
[Top NIH Official Was Unaware of Boston Lab's New COVID Research With 'Eighty Percent' Kill Rate in Mice](#)  
[These People Are Most at Risk of COVID Vaccine Injury](#)  
[Unvaccinated Children Are 'Our Only Hope' in Generating Herd Immunity: Vaccine Expert](#)  
[Republicans Vow to Not Mandate COVID-19 Vaccines for School Attendance](#)

As [Natural News had reported in this October 20th story](#), at least 80 young doctors in Canada have died since the rollout of the Wuhan coronavirus (COVID-19) vaccine and the implementation of the country's vaccine mandate for healthcare workers. These deaths have spurred concerned physicians to [call for an end to the mandates](#).

Going on then to put some names on some of those young and previously healthy doctors who had suddenly and mysteriously died, as that story

reported, some of the most recent deaths of Canadian doctors include [seven physicians who died between August to September](#).

*They were Dr. Vincent Chi Wai Mak, a rheumatologist from Markham, Ontario; Dr. Patricia Kresan, a family physician from Barrie, Ontario; Dr. Patricia Harvey, an ophthalmologist from Hamilton, Ontario; Dr. Maria Chang, a family physician from Toronto; Dr. Carl-Eric Gagne, a cardiologist from Trois-Rivieres, Quebec; Dr. Matthew Foss, an anesthesiology resident from Hamilton; and Dr. Michael Marshall, a psychiatrist from Edmonton, Alberta.*

*And while we've seen over and over and over again that the hospitals and healthcare systems and dozens of other Canadian physicians have all insisted time and again that these deaths have nothing to do with the COVID-19 vaccines and boosters that they, with support from Canadian federal and state authorities, were forced to take, as Dr. Joel Hirschhorn had pointed out in [this new ANP story](#), death autopsies are proving COVID vax causality all across the U.S. and world, when government allows the results out. From [this 2nd Natural News story](#):*

*A doctor in Canada is calling for the country's leading medical association to open an investigation into the sudden rise in mortality [among young, fully vaccinated doctors](#) after the implementation of mandated vaccinations for medical personnel.*

*Dr. William Makis recently wrote an open letter to the Canadian Medical Association (CMA) requesting that the group look into the sudden rise in mortality among Canadian medical professionals following the implementation of the country's COVID-19 vaccine mandate for people working in healthcare.*

*Makis is a nuclear medicine physician and a noted cancer researcher. He has worked with multiple cancer research centers and has authored over 100 peer-reviewed articles in multiple medical journals. He also called for Canada to end all COVID-19 vaccine mandates, especially for people working in healthcare.*

*In the letter, specifically addressed to CMA Presidents Dr. Katharine Smart and Dr. Alika Lafontaine, Makis pointed out that his analysis showed skyrocketing death rates for young Canadian doctors.*

***"Our analysis shows Canadian doctor deaths under age 50 in 2022 will be two-fold higher compared to 2019 to 2020," he wrote. "Shockingly, [doctor deaths under age 40 are five-fold higher, and doctor deaths under age 30 are eight-fold higher](#)."***

*Makis pointed out that the CMA just finished a conference focused on the health of Canada's physicians. CMA leaders discuss many topics. But "the one topic they didn't discuss: young Canadian doctors dying suddenly and unexpectedly after COVID vaccine rollout," said Makis.*

So with the very real chance that none of these young Canadian doctors would be dead if not for the rollout of the vax due to the '*Hegelian Dialectic*' that was most definitely at play and used by the globalists as they forced the masses to inject something that they may not have had not for the mandates, and '*the political and medical establishments*' weaponizing their '*COVID response*' seemingly every step of the way towards tyranny from the beginning to this day, each of the videos below take a look at the topics discussed in this story.

I want to take you back to January, 2022, when AT&T and Verizon were expanding their **5G** service across much of the U.S., bringing faster internet speeds and more capacity. And despite a public spat between the telecom companies and airlines that has disrupted flights and delayed the system's deployment near some airports, the broader rollout is continuing as planned.

Here's what you should know about the enhanced AT&T-Verizon network and what is happening while we are distracted.

AT&T and Verizon switched on a new swath of wireless spectrum that will make **5G** service available to more people in more parts of the country.

All three major cell carriers in the U.S. have rolled out [5G service on their networks](#), but T-Mobile's customers have enjoyed the fastest speeds in the most areas, according to industry [analyses](#). Last year, AT&T and Verizon spent nearly \$70 billion to buy a portion of wireless spectrum called the C-band, which covers frequencies from 3.7 to 4 gigahertz (GHz).

The C-band, also referred to as the "mid-band," sits in a sweet spot that allows signals to cover a large geographical area while also allowing fast connections. At higher and lower ends of the spectrum, there is a tradeoff between internet speed and geographic coverage. Higher frequencies offer greater speeds but allow for relatively little geographic coverage, while lower frequencies work across a much wider area but aren't much faster than existing 4G networks.

A spokesperson for AT&T compared turning on the C-band to expanding a highway. "*The highway is already there, and C-band is adding more lanes to the highway,*" he said. "*You can go faster on a five-lane highway than a two-lane highway.*"

How fast is it?

The difference between **5G** and 4G is like the difference between downloading three or four movies in three minutes and making that same download in 15 minutes, Peter Rysavy, a longtime telecom industry analyst and president of [Rysavy Research](#), told CBS MoneyWatch.

Aside from faster connections, **5G** *"has the ability to simultaneously support a large number of users engaged in broadband applications,"* he said.

During a sneak [peek](#) of Verizon's C-band network late last year, one analyst registered speeds of over [800 megabits](#) per second (Mbps), and Verizon has advertised even higher speeds during other tests. That makes **5G** about 10 times faster than current speeds on 4G LTE networks.

Who will benefit? This is the really big question that is obscured by the propaganda of the telecoms. **5G** has different goals for different groups.

Customers of Verizon and AT&T, neither of which have [used the C-band](#) to date, will see the biggest difference. Verizon has said it plans to cover 100 million people by the end of March with its **5G** service, which the company calls "**5G** Ultra Wideband."

AT&T initially rolling out the C-band service, dubbed **5G+**, in eight metro area: Austin, Texas; Chicago, Illinois; Dallas Fort Worth, Texas; Detroit, Michigan; Houston, Texas; Jacksonville, Florida; Orlando, Florida; and South Florida. It will eventually be rolled out available in 40 U.S. cities and nearly 30 stadiums and other venues. The company has said that up to 75 million customers will have access to its enhanced **5G** service by year-end 2022.

What do AT&T and Verizon customers need to do?

To access **5G** on the C-band, consumers must have a **5G**-enabled device and a plan that allows **5G** access. If you bought your phone sometime in 2021, you're likely good to go.

*"Any device, any smartphone that a person bought in 2021 would have **5G** support,"* Rysavy said.

The following devices will work with AT&T and Verizon's **5G** networks, according to [CNET](#):

- iPhone 12 and iPhone 13 lines
- Galaxy S21 line, which includes the Galaxy S21 FE **5G**
- Galaxy Z Flip 3 and Galaxy Z Fold 3
- Galaxy A13 **5G**
- **5G**-capable iPads

Some older phones will also get software updates to access **5G**, although it's not clear which ones.

AT&T and Verizon customers should make sure their device is running the latest software, but otherwise they don't need to do anything special to access the

upgraded **5G** service. An indicator will pop up in the display's top bar to show when the device is using **5G**.

How much will the expanded service cost?

AT&T offers C-band service with its older unlimited plans, as well as its Unlimited Starter, Unlimited Extra and Unlimited Elite. Verizon updated its plans in late January, 2021 to make expanded **5G** available to all unlimited plans except for the lowest-price tier, **5G** Start.

What about flying risks?

On Tuesday, January 26<sup>th</sup>, 2022 Verizon and AT&T agreed they will not turn on some C-band towers around certain U.S. airports — at least for now — because of concerns from airlines that the signals could interfere with aircraft.

While the move means the **5G** expansion initially won't be as broad as planned, it won't make access any worse for anyone who currently has **5G**, Rysavy said.

*"Anything that works today is not going to work any worse tomorrow," he said. However, the delay means that near certain airports, users won't benefit from the upgraded performance.*

*"Long-term for consumers, this would be a bad thing," Rysavy said. "As much as airports only represent a subset of the total coverage area, they are places where people would like to obtain the higher speeds."*

Besides flyers, many Americans living within a one-mile area of 50 major airports also won't get mid-band **5G** for another six months. That leaves out many people in densely populated areas. As Quartz reported, residents near LaGuardia Airport in Queens, New York, people on the Las Vegas strip and tech company offices in San Jose, California, will all be excluded from the rollout until at least July.

Wall Street analysts don't expect the aviation industry concerns to deter consumers from using the service.

*"While the controversy no doubt muddled some of the messages the companies wanted to send about themselves and their service, we think most of the controversy will be forgotten by consumers, particularly as it looks like flights are not really going to be delayed or canceled (or fall out of the sky)," analysts with New Street Research said in a report.*

What do AT&T and Verizon say about airlines' concerns?

Although the wireless giants moved to reduce the strength of **5G+** around airports, AT&T chief executives John Stankey and Verizon CEO Hans Vestberg have downplayed concerns about their service's impact on flights. The companies point out that 40 countries have implemented the C-Band portion of **5G** without reports of harmful interference on plane instruments.

*"The laws of physics are the same in the United States and France," Stankey and Vestberg said in a letter Sunday to U.S. Transportation Secretary Pete Buttigieg and FAA Administrator Stephen Dickson, according to the [Associated Press](#). "If U.S. airlines are permitted to operate flights every day in France, then the same operating conditions should allow them to do so in the United States."*

Is **5 GHz** the Same as **5G** Home Internet?

No. Oftentimes, people will see **5 GHz** on their Wi-Fi router and assume they have **5G** Internet access at home. This is not accurate. When it comes to routers, **5 GHz** refers to the 5 gigahertz radio frequency the router uses to transmit your Internet signal to the devices in your home. While **5G** does use radio signals, it uses different frequencies. I have a cell phone that my son-in-law gave me under his family plan. I keep it close to me at night for emergency use but I keep it in a Faraday bag.

A Faraday bag is a type of Faraday cage. The military and many commercial operations are hardened by Faraday protection. My wife keeps her bank cards in a Faraday like wallet, and thus blocks nearby hackers using a portable scanner from hacking and stealing your credit or debit card information. My wife was notified by her bank that her credit card was frozen because someone attempted to electronically scan her credit card when she had it out of the holder.

It protects electronics from being damaged by radio frequency interference (RFI) or from an electromagnetic pulse (EMP) by not allowing radio frequency or electromagnetic pulse waves to pass through the material.

It creates a completely enclosed space that is surrounded by a mesh of conducting materials.

When an electrical field on the outside of the Faraday cage interacts with the material, it causes the charges within the protected space to be distributed in a way that cancels the effects. This way the hackers, thieves, or government agencies who are trying to track your phone or any other device will not be able to get to it because of the outer layer of the Faraday bag.

It also works to protect against radio frequency interference. The reason I mention this here is related to when the **5G** End Game Trap is activated chances are it will be executed at a time when most people are asleep. We know that most

people keep their cell phones close to their pillow or where they can hear it ring or vibrate to get their attention.

In a nutshell, they block all radio signals ranging from Wi-Fi and Bluetooth to RFID (used by credit cards and car keys) and GPS.

Whenever you want to prevent unwanted attacks on your electronic devices, it's a good idea to place them in a Faraday cage. As the roll out of **5G** continues we are totally unaware of any locations that beam **5G** frequencies. Hot spots are usually found at medical, scientific, academic, and business centers in large cities. This is why I noted a web page that you can access information about cell towers and antenna locations in a given distance of where one lives. I will repeat it again for referral: <https://www.antennasearch.com>

I recommend checking it monthly as a way of keeping track of new installation build-out. The greater the number of cell towers and antenna are potential indicators of wireless saturation and potential harm. It seems that one of the more common symptoms of **5G** EMF/EMR toxic radiation is that of headaches. My wife will text her contacts to see if anyone else is experiencing headaches, and most of them are within a range of ten miles.

Competent hackers will be able to make it seem like everything is disabled, while they exploit any kind of data. As prominent NSA whistleblower Edward Snowden explained during his interview with Joe Rogan, electronic devices aren't really turned off until you remove their battery.

Edward Snowden was an NSA whistleblower who fled to Russia in 2011 after leaking thousands of classified documents to a handful of journalists. In an era when the largest majority of phones, tablets, GPS gadgets, smart watches, and remote controls come with un-removable batteries, being able to have a physical "off" switch is a blessing.

And having a Faraday bag to completely block all signals is precisely this shutdown button. The best kind of security is the one which enables prevention of attacks by decreasing the attack surface.

As Todd Callendar reported in a previous segment that when the End Game Plan is activated, those vaxxed will be bombarded with a **18-GHZ signal for three one-minute blasts**. So we know **5G** will be used to activate the "kill" signal. That frequency activated will be amplified through your cell phone, and if one has either a later version 4G LTE or **5G** cell phone you will receive a frequency that will activate the "little bombers" Todd talks about that will boil the nano-particle pathogens inside the spike protein and when ruptured, the toxic pathogens will be released inside the body. We simply do not know who got the poison spiked protein or harmless placebo.

The Children's Defense Fund released a report on Friday, October 21, 2022 that answers many questions about Dr. Fauci's activities as director of the NIAID.

### **Fauci's Calendar: What Was He Doing in the Months Before the Pandemic?**

*After filing an expensive lawsuit, OpenTheBooks.com finally got the National Institutes of Health to release Dr. Anthony Fauci's work calendar — here's what it shows.*

By [Adam Andrzejewski](#)

On Tuesday, Jan. 14, 2020, at 9 a.m., [Dr. Anthony Fauci](#) joined staff at the National Security Council (NSC) — the President's national security and foreign policy advisory shop — for a meeting in the Eisenhower Executive Office Building about the novel coronavirus.

Fauci would continue to have meetings in classified settings throughout the month.

Fauci's calendar entries included NSC meetings, White House Situation Room meetings and meetings in other classified settings, as [COVID-19](#) was breaking in China. (To our knowledge, the existence of these meetings before Jan. 28, 2020, was not previously disclosed.)

On Friday, Jan. 24, four days after China admitted human-to-human transmission of the virus, Fauci started attending a small group COVID-19 discussion that first took place in "Anthony's Office" in a building next to the White House. Anthony, in this case, appears to be an NSC employee and an expert in biodefense and China.

Flashing back to December 2019, when patients in Wuhan were showing up at hospitals with unidentified pneumonia cases, Fauci attended the Bill and Melinda Gates Foundation — National Institutes of Health (NIH) dinner and workshops on Dec. 19 and 20 — the sixth annual event for NIH staff and Gates Foundation executives.

On the morning of Dec. 19, billionaire Bill Gates [tweeted out his own hopes](#) for the coming year and his now prescient prediction: *"one of the best buys in global health: vaccines."*

Today, we only know about these meetings, because our organization at OpenTheBooks.com, in partnership with the public-interest law firm Judicial Watch, sued the NIH in federal court. NIH had refused to even acknowledge our Freedom of Information Act (FOIA) request.

So, for the first time, here is our exclusive release of [Fauci's official calendar](#).

For a government bureaucrat, this sure was one tightly held calendar.

The refusal by NIH to follow open records law was a strategy to delay transparency: NIH forced us into expensive taxpayer-paid litigation to slow-walk 156 pages of semi-redacted calendar production.

Fauci's calendar has 933 events during this five-month period — including 224 media interviews and 84 redacted events (only significant redactions that prevented analysis and understanding were counted, for example, phone number redactions were not included).

It's a document that NIH and Fauci didn't want you to see ...

Why? What did Fauci know? And when did he know it?

### **Following Fauci's timeline — highlights**

**Nov. 6, 2019:** Fauci's calendar lists "GPMB Discussion Note." This likely deals with the World Health Organization (WHO) and World Bank's Global Preparedness Monitoring Board. Fauci is a [past member of the GPMB board](#) which was formed to "ensure[s] preparedness for global health crises."

On Jan. 27, 2020, the GPMB convened regarding the COVID-19 outbreak and Fauci signed off on the group's Jan. 30, 2020, statement commending the WHO and the "transparency of China."

[Judicial Watch's FOIAs uncovered](#) that this statement was organized and circulated by Wellcome Trust scientist and GPMB member [Jeremy Farrar](#) (who also [organized a secret conference call](#) with Fauci and others on Feb. 1, 2020).

**Nov. 12, 2019:** Fauci flies to the Netherlands. His multi-day itinerary is not listed. The Netherlands is home to the father of "gain-of-function," high-risk researcher Dr. Ron Fouchier.

Fauci's NIH institute, the National Institute of Allergy and Infectious Diseases (NIAID), paused (2014) then restarted ([Jan. 2019](#)) funding to the controversial researcher who ([using NIH funds](#)) created an H5N1 bird flu in his lab with pandemic potential. He did so by passaging the virus through ferrets multiple times, until it gained a new function by going airborne and infecting a ferret in a different cage.

**Nov. 25, 2019:** Fauci joins Ambassador Deborah Birx, the Global AIDS Coordinator at a World AIDS Day evening event hosted by the Business Council for International Understanding. On Feb. 27, 2020, [Birx is appointed](#) to join Fauci on Trump's COVID-19 Task Force.

Earlier that day, Fauci has a "Pre-Brief for US Japan Biodefense Meeting." In 2004, as I previously [reported at Forbes](#), Fauci received a permanent pay adjustment for his "biodefense" work. Fauci is the top-paid federal employee, specifically because he was paid to prevent the next pandemic.

**Nov. 25, 2019:** Fauci has a call with his future biographer, Janet Tobias, who later produces the "FAUCI" documentary.

**Dec. 3, 2019:** Fauci has a call with [Victor Dzau](#), who is the president of the National Academy of Medicine, a Duke University professor and a man whose Chinese family fled to Hong Kong to escape China's civil war.

**Dec. 19, 2019:** Fauci attends an "NIH Gates Foundation dinner" at "The Cloisters," likely the [one in Lutherville](#), Maryland, an hour from NIH.

Earlier that morning, [Bill Gates tweeted](#) out what has become a much-discussed prediction, *"What's next for our foundation? I'm particularly excited about what the next year could mean for one of the best buys in global health: vaccines."*

Fauci and top officials, such as NIH director Francis Collins and Health and Human Services (HHS) assistant secretary for health Brett Giroir, joined Gates Foundation executives during the dinner and on panels the next day, according to a [press report](#) from the time.

**Jan. 17, 2020:** Fauci has a call to discuss "CDC Gao Writing Request." This is presumably related to George Gao, Director-General of the Chinese Center for Disease Control and Prevention.

**Jan. 23, 2020:** Fauci had an 8 a.m., in-person meeting with Dr. James LeDuc. LeDuc ran one of the few BSL-4 (biosafety level-4) biocontainment labs in the country (think: moon-suit stuff), at the University of Texas Medical Branch, where he has [long-trained Chinese scientists](#) from the Wuhan Institute of Virology (WIV) lab in BSL-4 biosafety procedures.

[Emails acquired by FOIA from the U.S. Right To Know](#) (USRTK) organization revealed that LeDuc was sending backchannel emails with his Wuhan colleagues to get information on the novel coronavirus outbreak, and even [soliciting edits and corrections](#) from Wuhan's so-called "bat lady" Shi Zhengli for his April 2020 Congressional testimony.

[LeDuc's emails](#) show he was communicating with his [virologist colleague Yuan Zhiming](#), who was in charge of the WIV BSL-4 lab. [LeDuc wrote an op-ed](#) published on January 24 about his U.S.-China working relationship.

It's possible this drop-by visit by LeDuc was to let Fauci know what he [was hearing from Wuhan](#), and perhaps, not put that news in email.

By 4:30 that afternoon, LeDuc and former Ft. Detrick BSL-4 biolab director Dave Franz joined HHS Robert Kadlec for a conference call, a call revealed in USRTK's [document production](#) from the University of Texas (page 3,409).

[Franz emailed a brief note](#) that same day "to facilitate [the] call." The email described his and LeDuc's work since 2007 as establishing a relationship with Chinese scientists (pg. 115).

In other words, LeDuc was in town to talk about China and the Wuhan lab with top HHS and former military biolab officials.

Thus, while the public discussion was and would remain that the virus had a natural origin, behind the scenes, people were being briefed on the U.S.-Chinese scientists' interactions and the Wuhan lab itself.

### **Top-secret meetings**

Unreported until now, throughout late January and February 2020, Fauci was in meetings with the NSC and in top-secret settings — including in the White House Situation Room. Fauci was also in small, “restricted” meetings with the NSC.

Were all these top-secret meetings known to the president, and do they give the impression people-in-the-know thought the virus had a natural origin?

**Jan. 14 and 16, 2020:** Fauci has a 9 a.m. “Novel Corona Virus PCC/Synch Meeting” with Phil Ferro, NSC and Executive Office of the President, on the 14th and a “Novel Corona Virus Touch Base” with Ferro on the 16th.

**Jan. 20:** China announced to the world that the virus has human-to-human transmission, an admission that they had a possible pandemic virus on their hands.

**Jan. 21:** Fauci’s NSC meeting gets a new name (“nCoV-PCC”) and the meeting now includes secure video teleconference.

**Jan. 21:** Fauci is interviewed by The Wall Street Journal reporter Betsy McKay on the listed topic “Coronavirus & HIV Papers.”

Is she asking Fauci about an upcoming [scientific paper](#) (published Jan. 31 by Indian scientists, but quickly withdrawn by the authors, amid intense criticism) that noted an “uncanny similarity” between the HIV virus and the spike protein in the COVID-19 virus? Because bats don’t contract HIV, such a similarity would point to a lab creation for the novel virus.

An hour earlier, Fauci had a call with Peter Hotez about an “Anti-SARS vaccine candidate.” Hotez is an [NIH-funded](#), Texas-based scientist and vaccine researcher, who had a \$6 million NIH grant since 2012 studying a [“SARS vaccine for biodefense.”](#)

Hotez developed a non-mRNA vaccine model that won recent approval for distribution in some foreign countries, such as India.

**Jan. 22:** The COVID-19 meetings with Fauci rise to a new level as Fauci’s calendar shows him in the White House Situation Room (“WHSR”), from ~1:30-3 this day for “nCoV PCC.”

**Jan. 24:** From ~1:30-2:30 p.m. Fauci has a “nCoV Small Group Discussion” at the Eisenhower Executive Office Building (EEOB), next to the White House, in “Anthony’s Office” Room 381. (nCoV stands for novel coronavirus and was the reference given to COVID-19 before it was officially named SARS-CoV-2.)

This is one of the few times no last name is listed on Fauci’s calendar. The meeting entry in our FOIA production is cut off but includes “\*\*\*Please”; the entry also includes an attachment, which NIH currently has not released to OpenTheBooks.com.

**“Anthony’s Office” Clue from Feb. 5:** From 2:30-3:30 p.m. on Feb. 5, Fauci’s calendar shows an EEOB “Restricted Small Group” meeting with Anthony Ruggiero, who is listed as with the Executive Office of the President/NSC.

[Anthony Ruggiero](#), according to his public LinkedIn page, was NSC “Special Assistant to the President, Senior Director for Counterproliferation and Biodefense” at the time of the meeting. Thus, it’s likely the Jan. 24 EEOB meeting in “Anthony’s Office” was with the same man as the Feb. 5 meeting: Anthony Ruggiero.

**Jan. 27:** From 2:30-3:30 p.m., Fauci has an “NSC Deputy Call” in the [NIH SCIF](#). (SCIF stands for “Sensitive Compartmented Information Facility” and is usually a room reserved for sensitive or classified briefings.) Trump’s NSC deputy at the time was Matthew Pottinger. The subject of the call is not noted on the calendar. (Also on Jan. 27, Fauci met with the CEO of Moderna, Stephane Bancel.)

**Jan. 28:** A Fauci/NSC COVID-19 meeting was previously disclosed [Sharri Markson](#), who reported in her book “[What Really Happened in Wuhan](#)” that Pottinger called the Jan. 28 meeting with Fauci, HHS Secretary Azar and CDC Director Redfield just after Pottinger heard from Chinese dissident and human rights activist Wei Jingsheng about the virus breaking in China.

From **Jan. 16 through Jan. 29**, with few exceptions, Fauci’s weekday calendar shows a COVID-19 meeting, either in person or by phone via secure video teleconference with Phil Farro, who is with the Office of the President and the NSC.

**Jan. 22:** Fauci has an hour and a half blocked off for the COVID-19 meeting in the White House Situation Room.

**Jan. 27:** If he didn’t know before, emails released to the U.S. House Oversight and Reform Committee reveal that on this date, Fauci got definitive word from his staff that NIAID, his institute, funded a bat coronavirus grant to EcoHealth Alliance who collaborated with the WIV and Ralph Baric. If the virus was from the WIV, Fauci now knew he had funded the Chinese lab.

**Jan. 31:** Fauci is in the Oval Office, meeting, presumably, with the president.

**Feb. 4:** By this date, according to released emails, Fauci and the federally funded scientists he consults with have decided that COVID-19 came from nature via a bat, through some intermediate species. Behind the scenes, they are drafting papers arguing that any position besides a natural origin is a conspiracy theory.

Yet, Fauci keeps meeting with Anthony Ruggiero, NSC's biodefense and China expert (1/25 and 2/5). Are they thinking COVID-19 may have come from a lab leak?

**Feb. 11:** Fauci has a meeting with Ralph Baric, the University of North Carolina coronavirus scientist, arguably the nation's foremost expert on bat coronaviruses. The meeting includes Emily Erbelding, the director of the NIAID Division of Microbiology and Infectious Diseases.

Baric had a long working relationship with the Wuhan lab, and, it would later be revealed, applied (unsuccessfully) for a \$14 million [DARPA grant](#) with the WIV and EcoHealth Alliance to insert a furin cleavage site into a chimeric bat virus and passage it through "humanized" mice to see if it had pandemic potential.

[Some virologists](#) have called that leaked document a [recipe for the COVID-19 virus](#). The Fauci/Baric meeting backs up against the NSC meeting with Phil Ferro. It's not clear where Baric is during the meeting, if in-person or by phone. Was Baric on the NSC call or listening in?

(Previously at Forbes, I wrote about how [Fauci continued to fund scientists](#) like Baric and Fouchier by giving exemptions and narrowly defining scrutinized research — circumventing funding bans by Presidents Obama and Trump.)

**Feb. 17:** "[The proximal origin of SARS-CoV-2](#)," a [paper that Fauci apparently helped edit](#) and was organized by NIH-funded Peter Daszak of EcoHealth Alliance, stated that the COVID-19 virus was from nature and called any suggestion otherwise a conspiracy. Largely based on this paper, scientific discussion and social media posts suggesting a lab leak were censored as misinformation.

### **Other items of interest**

Between Nov. 25, 2019, and Feb. 26, 2020, Fauci does three events with the American Society of Microbiology (ASM): a "Biothreats" discussion (11/25/2019); the ASM biothreats conference (1/29/2020); and meets with the ASM board (2/26/2020).

Jan. 7 and 9, 2020: Fauci did his first interviews on corona: 1. With CTV (Canadian TV) on the "pneumonia outbreak in China"; and 2. With Voice of America (VOA) on the "Wuhan pneumonia." We couldn't find the interviews published anywhere on the internet.

While the NIH keeps a [public record of interviews Fauci conducted](#) since Jan. 27, 2020, we identified 34 other interviews with him discussing the coronavirus from Jan. 7 to Jan. 26.

Between Jan. 27 and Feb. 24, Fauci meets or has calls with Stephane Bancel, the CEO of Moderna (1/27); Jeremy Farrar of Wellcome Trust (British health non-profit focused on vaccines) (2/1); BioNTech executive and former NIH staffer Gary Nabel (2/6) and Johnson & Johnson chief scientist Paul Stoffels (2/24).

Feb. 7: Fauci receives training on personal protective equipment (PPE). Given his varying recommendations on PPE early in the pandemic, it would be interesting to know what training he received.

March 18: Fauci logged a meeting entitled “code red” with a follow-up meeting on March 20. No further details were listed.

March 26: Fauci did four YouTube hits of 15 minutes each. Fauci’s calendar titled these events: “FDA [U.S. Food and Drug Administration] Califf Request” — likely referencing Robert Califf. At the time, Califf was leading healthcare strategy at Alphabet (Google and YouTube parent company).

Robert Califf is the current Commissioner of Food and Drugs of the FDA and the former commissioner under Obama.

### Summary

The official work calendar is an historic hour-by-hour documentation of Fauci in the months leading up to and during the publicly announced COVID-19 pandemic.

Even with this topline calendar transparency, NIH admits to holding an [additional 60,000 pages of backup documentation](#). The federal court is allowing us to ask for specific items.

Therefore, if there is a specific document of oversight interest, please send our auditors at OpenTheBooks.com a message via the “[Contact Us](#)” portion of our website.

The historic release of Fauci’s work calendar leaves all of us with more questions than answers.

It’s incumbent upon Congress to exert its right to oversight.

*Note: We reached out for comment to Fauci, the Bill and Melinda Gates Foundation and other top scientists mentioned on Fauci’s calendar. None gave us comments by our deadline.*

*Originally published on [Adam Andrzejewski’s OpenTheBooks Substack page](#).*

The following report provides additional information to the larger picture of the **5G** spectrum of research being conducted largely under the veil of secrecy, yet it has huge overtones to humanity. I recommend that you watch all of the videos linked in this

section of this article below. Particularly of value in understanding what the government and military are up to is the video presentations that Neuroscientist Dr. James Giordano. Neuro-Weapons. Directed Energy Weapons (DEW) gave at West Point. His presentation is shockingly candid and what he tells can be used upon our own citizens. It may not all be understandable yet many portions of the presentation are vividly crystal clear. Take the time to familiarize yourself with what they can do and will likely do.

### HAARP RF Radiation “Experiments” Underway

The University of Alaska Fairbanks (UAF), operating under an agreement with the Air Force, has started 13 new “experiments” radiating the upper atmosphere and ionosphere with up to 3.6 megawatts of power. The Air Force originally developed and owned HAARP (High-frequency Active Auroral Research Program) but transferred the facility to UAF in August 2015. The program is made possible by a \$9.3 million grant from the National Science Foundation (NSF), one of the original drivers of [Weather and Climate Modification](#) in 1965.

These experiments are another example of the lack of meaningful ethical and moral standards in technology. For example, what are the environmental and human health bio-effects of HAARP deploying massive amounts of (PULSED) Radiofrequency/Microwave Radiation (RF/MW)? Questions such as this are absent

from the “scientific” discussion regarding the pollution footprint created by these reckless “experiments”.

While HAARP may be new to many, research of this kind has been ongoing and explored by militaries as game-changing weaponry, especially since the brain is the battlefield of modern warfare.

A 1975 DARPA [report](#) titled, **SOVIET DEVELOPMENTS IN WEATHER MODIFICATION, CLIMATE MODIFICATION AND CLIMATOLOGY** stated:

***“The Institute for the Study of the Brain (sic) of the University of California is cited as engaged in research on the debilitating effect of weak vibrational fields on human behavior.” -p.85***

Bioethics in technology is urgently needed to reign in systems and programs which have the potential to harm and destroy life on Earth.

[57] **ABSTRACT**

A method and apparatus for altering at least one selected region which normally exists above the earth's surface. The region is excited by electron cyclotron resonance heating to thereby increase its charged particle density. In one embodiment, circularly polarized electromagnetic radiation is transmitted upward in a direction substantially parallel to and along a field line which extends through the region of plasma to be altered. The radiation is transmitted at a frequency which excites electron cyclotron resonance to heat and accelerate the charged particles. This increase in energy can cause ionization of neutral particles which are then absorbed as part of the region thereby increasing the charged particle density of the region.

### Abstract

[Go to:](#) ▶

The results of a study on the mechanisms of the influence of an increased level of microwave radiation on the growth of infectious, primarily viral, diseases in the environment are presented. This is the radiation of the earth's ionosphere, which reached its maximum in the late 1980s–early 2000s, following an increase in the level of solar activity since the 17th century. Over the past 30 years, the anthropogenic electromagnetic background has increased 100 times due to the development of cellular mobile communications and computerization. The predicted interaction of natural and anthropogenic sources of microwaves sharply increases their negative impact on the ecological situation. Of particular concern is the active spread in recent years of the new 5G communication standard; in the future, it is the development of the most dangerous millimeter range in our country.

Energy from the environment in the microwave range can cause “unexpected behavior” in the DNA of viruses. Clarifications to the recommendations of experts on the protection of the population with the help of electromagnetic shielding, obtained in the framework of supramolecular physics of the environment, are proposed.

### Abstract

[Go to:](#) ☒

#### Background and Aim:

Coronavirus disease (COVID-19) public health policy has focused on the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) virus and its effects on human health while environmental factors have been largely ignored. In considering the epidemiological triad (agent-host-environment) applicable to all disease, we investigated a possible environmental factor in the COVID-19 pandemic: ambient radiofrequency radiation from wireless communication systems including microwaves and millimeter waves. SARS-CoV-2, the virus that caused the COVID-19 pandemic, surfaced in Wuhan, China shortly after the implementation of city-wide (fifth generation [5G] of wireless communications radiation [WCR]), and rapidly spread globally, initially demonstrating a statistical correlation to international communities with recently established 5G networks. In this study, we examined the peer-reviewed scientific literature on the detrimental bioeffects of WCR and identified several mechanisms by which WCR may have contributed to the COVID-19 pandemic as a toxic environmental cofactor. By crossing boundaries between the disciplines of biophysics and pathophysiology, we present evidence that WCR may: (1) cause morphologic changes in erythrocytes including echinocyte and rouleaux formation that can contribute to hypercoagulation; (2) impair microcirculation and reduce erythrocyte and hemoglobin levels exacerbating hypoxia; (3) amplify immune system dysfunction, including immunosuppression, autoimmunity, and hyperinflammation; (4) increase cellular oxidative stress and the production of free radicals resulting in vascular injury and organ damage; (5) increase intracellular  $\text{Ca}^{2+}$  essential for viral entry, replication, and release, in addition to promoting pro-inflammatory pathways; and (6) worsen heart arrhythmias and cardiac disorders.

#### Relevance for Patients:

In short, WCR has become a ubiquitous environmental stressor that we propose may have contributed to adverse health outcomes of patients infected with SARS-CoV-2 and increased the severity of the COVID-19 pandemic. Therefore, we recommend that all people, particularly those suffering from SARS-CoV-2 infection, reduce their exposure to WCR as much as reasonably achievable until further research better clarifies the systemic health effects associated with chronic WCR exposure.

# Effects of microwave radiation on brain energy metabolism and related mechanisms

Yan-Hui Hao, Li Zhao\* and Rui-Yun Peng\*

### Abstract

With the rapid development of electronic technologies, anxiety regarding the potential health hazards induced by microwave radiation (MW) has been growing in recent years. The brain is one of the most sensitive target organs for microwave radiation, where mitochondrial injury occurs earlier and more severely than in other organs. Energy metabolism disorders do play an important role during the process of microwave radiation-induced brain damage. In this paper, we will review the biological effects of microwave radiation, the features of brain energy supply and consumption and the effects of microwave radiation on mitochondrial energy metabolism and potential related mechanisms.

**Keywords:** Microwave radiation, Brain, Energy metabolism, Mitochondria, Mechanisms

### Introduction

Microwaves (MW), electromagnetic waves with frequencies ranging from 300 MHz to 300 GHz, have been widely used in the telecommunications, agriculture, transportation, medical and military fields. The popularization of mobile phones, computers, household appliances and other electronic equipment has made learning, working and accessing entertainment much more convenient. With the intensive development of various advanced military weaponry equipment, such as early warning aircraft, electronic jammers and new radar, soldiers are always exposed to intricate environmental factors, including intensive and complex MW radiation. As the fourth largest source of pollution after air, water and noise, MW radiation induces many biological effects [1]. The brain is the most sensitive target organ for MW radiation, where mitochondrial injury occurs earlier and more severely than in other organs. Studies on the effects of MW radiation on brain energy metabolism have aroused great concern.

### Review

#### Biological effects of MW radiation

The biological effects of MW radiation fall into two types: thermal and non-thermal effects [2,3]. Both are present, with thermal effects prominent in the case of high-power and high-frequency MW radiation and non-

thermal effects predominant in the case of low-power MW radiation [4]. MW radiation has multi-faceted effects on many systems within an organism, including the nervous [5-7], endocrine [8], cardiovascular [9], immune [10,11], reproductive [12-14] and hematopoietic [15] systems. The brain always requires a high rate of oxygen and energy consumption to maintain regular functions. Therefore, this organ is sensitive to non-infectious stimuli such as ionizing radiation and hypoxia [16,17]. Research from our group and from others has demonstrated that microwave radiation damages hippocampal structures in rats, impairs long-term potentiation, decreases neurotransmitter concentrations, reduces synaptic vesicles in number and results in memory impairment [5,18,19]. Thus, the brain is generally accepted as the most sensitive target organ for MW radiation.

The damaging effects of MW radiation on the brain include brain dysfunction and brain structural damage. An epidemiological survey found that MW radiation caused human fatigue, headache, excitement, dreams, memory loss and other symptoms of neurasthenia [20]. In addition, there were impaired learning and memory abilities in rats after MW radiation, as determined by the Morris water maze [5,6,21,22]. MW radiation may also lead to neuronal shrinkage, nuclear condensation, mitochondrial swelling, an expanded endoplasmic reticulum, alterations to the synaptic gaps and widened vascular

Scientific evidence invalidates health assumptions underlying the FCC and ICNIRP exposure limit determinations for radiofrequency radiation: implications for **5G** [LINK](#)

I have included several links to some of the many aspects of **5G** and its weapons technological role, many of which have not been introduced beyond the experimental application. We know from military research studies that began in the 1970s that wireless energy can be used as a weapon and that it is first and foremost a weapons system. As the telecoms and the government ramps up **5G** across the world, it will become harder to hide the adverse reactions that accompany **5G**. Specific groups of people are vulnerable, the aged, those with existing comorbidities, and those with compromised immune systems.

Since the human body, as is all life form, is bioelectric there is both a correlation and causal connection that will always reveal itself despite all the lies, obfuscation and deceit. You have at hand in this segment one of the foremost CIA experts in Neuroscientist Dr. James Giordano. I have viewed his West Point presentation numerous occasions and it certainly seems to me to be a prima facie confession and proof of what the government has planned for humanity.

I suspect that such men are a reminder to us that the Bible assures our concerns will be dealt with by His extending “Deliverance” before judgment! I have no reason to doubt His Blessed Hope is closer than we could imagine in light of **5G** wireless energy.

***“And except those days should be shortened, there should no flesh be saved: but for the elect’s sake those days shall be shortened.”*** -(Matthew 24:22) ***“Unless the Lord had shortened those days, no life would have been saved; but for the sake of the elect, whom He chose, He shortened the days.”*** -(Mark 13:20)

In the time we have left here on Earth do not be scammed into thinking this scamdemic is true and you choose to cave on the propaganda. The so-called “variants”, “mutants”, “long covid”, “rebounding” or any of the terms that have been used as a cover story in the news. The powers controlling this narrative have been forced to resort to the use of new terms to explain away **5G** EMF/EMR toxic radiation poisoning. Its effects will not go away and so they will resort to excuses and labels to attempt to explain it away.

Keep in mind that the FDA does not hesitate to issue recalls on thousands of pounds of peanut butter, chicken, ground meat, hot dogs, lunch meat because a few people died as a result of eating tainted foods. Let 31,000 VAERS deaths from the so-called vaxxes and it’s no big deal! Something is not right in this thinking. Mike Adams, the Health Ranger is correct, the CDC really stands for “Children’s Death Cult”!

The satanic world is in full control now and many of us have seen this coming for decades. As a Bible-believing pastor, I have seen this slow incremental creep of Satan's forces since I first entered pastoral ministry in 1965. Unless you have had your eyes open as long as I have, you may not have seen it coming.

If you repent and turn to God, God will forgive you and include you in His greater plan before He shuts the door! **5G** apparently will be the death knell of humanity and Ephesians 2:2 drives that point home: ***"Wherein in time past ye walked according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience:"*** -(Ephesians 2:2)

This verse further depicts the lost condition of mankind by specifying the forces working against them. First, unbelievers walk "according to the course of this world." This is a way of saying that fallen creatures manifest their state of spiritual death by living lives of enslavement to the world's standard of values, values that are human-centered, not God-centered.

Secondly, the rest of the verse informs us of the power that works behind this "spirit" of the age, or the ways of this world. Satan takes advantage of man's lost condition. He is at work "in the children of disobedience" or he is "operating in the sons of disobedience."

Here the writer of this epistle depicts the forces which war against believers as they seek to live godly lives: the world, the flesh, and the devil. The world is an external foe, its evil influences surrounding the believer. The flesh (the self-life) is an internal enemy, its weaknesses making it susceptible to temptation. Satan is an infernal foe, going about like a roaring lion, seeking whom he may devour. He uses the influences of the world to seduce believers, and he takes advantage of believers by attacking them at their weakest points. But God has not left believers at the mercy of these enemies of the soul. He is the eternal Friend and Deliverer who will bring victory.

At this point in time, I contemplate doing at least one more final segment which will include recommended effective vitamin and nutrient supplements that will keep your immune system at optimum levels to resist and minimize any effects that **5G** might pose for you. Use the antenna link on page 9 to learn what you have to deal with in your situation. A lot depends upon how much **5G** radiation you are exposed to and do not sign up for any **5G** service that gets wired directly into your home. At the present time you can keep **5G** out of your residence by not upgrading devices and installed receivers. This is due to "line of sight" requirements of **5G**. Existing 4G wireless frequency and energy level use the 120-degree beamed signal range and thus are able to pass through windows and exteriors of structures.

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)
