

5G, Vaccinations, Nanoparticles (Chemtrails) and the Genocide of Humanity

Part 1

Their Place in Agenda 2020/Agenda 2030

Below is evidence that confirms my suspicions from early 2000, concerning the aerial spraying of Chemtrails. This testimony is translated from its French source of evidence. For years, going back to 1996, we have been met with obfuscation, deception, and disinformation by government agencies as to the true nature of their content, their real purpose, and lack of transparency. Such as I have researched for the past twenty-five years it has always been the case we only know of what was being sprayed day and night, rain or shine, month after month, through the efforts able to gather residue found on fauna, flower, bushes, and open containers where water found in birdbaths, water gages, buckets, etc.

There is an important report noted in the footnotes below, #3, which deals with a confidential French Army research study that corroborates the evidence of this article. It has been repressed by French authorities and yet shows the links with the Covid, **5G**, Nanoparticles and the Genocide of the World! The linked document is the proverbial “smoking gun” to what is in process to the elimination of a significant number of the world population.

The French Army presents the findings found on page iv at the front of the 190-page document. The document validates suppositions that I have been presenting regarding this particular topic. Again, the source of this document comes from the French Army who was not permitted to present the evidence in a public forum, a clear sign that high authorities did not want the information to see the light of day. THIS IS MUST READING SO THAT YOU CAN UNDERSTAND WHAT YOU ARE FACING. THIS IS A PSY-OP, THAT FEW WILL GRASP. THIS IS THE CLASSICAL CIA “ALICE IN WONDERLAND” APPROACH TO BREAKDOWN THOSE THEY INTEROGATE.

.....

Findings of the Investigative Report¹ On The Covid-19 Pandemic and its Relationship to SARS-CoV-2 and Other Factors

CONCLUSIONS

- Glaring inconsistencies and inexplicable "lacunae" invalidate the official theory
- The management of the health “crisis” seems to be a pretext for a totalitarian global takeover
- Totalitarian machinations: intention to impose a global cryptocurrency, a vaccine with nano-chips and a subcutaneous electronic chip
- There is massive corruption at the heart of WHO and the most unavowable intentions

- 5G is implicated in Covid-19, with electromagnetic radiation having possibly highly potentiated:
The pathogenic power of the virus, or
The Prevotella bacterium that caused the cytokine shock
- Similarity between the lung damage observed by all emergency doctors and damage caused by the use of an electromagnetic weapon (plus permanent headaches, fatigue, burning sensations in the lungs, thrombosis and loss of sensitivity to smell and taste, also cited as symptoms of COVID-19)
- Many antennas were installed thanks to the lockdown, without concern for the "precautionary principle", despite it being otherwise widely cited, in particular to hobble medical treatment
- "Covid-19" is a biological and electromagnetic war supported by a vast "smoke and-mirrors" operation, which is sowing confusion among the ranks of medical and hospital personnel
- "Covid-19" could be the preparation for a much larger-scale joint operation combined with a smokescreen to conceal large-scale tests of the 5G weapon, for criminal ends that remain to be clarified
- 5G installations, both terrestrial and aerial (Elon Musk's satellites in low-Earth orbit), are clearly part of this "total war" project
- Dr. Jeremy K. Raines,² an authoritative electromagnetic field engineer, reports that signals are used by the human body to regulate its processes, and warns that external electromagnetic signals can seriously interfere in this process.
- No investigation has been carried out on the reaction of the Earth to the massive use of 5G technology despite it having been established that industrial activities (mining activities, oil and gas extraction, geothermal) can induce earthquakes
- Unusual earthquakes have taken place in France and municipalities have been declared to be in a state of emergency.

.....

Interviewee: I'm an engineer. I have a qualification in chemical engineering and when I was studying, there was talk of nanoparticles and particularly particles that enabled – or would enable (because it was 1993) – cancer treatments.

Nanoparticles have vibration frequencies which depend on the frequency of the product and which have particular frequencies. These vibration frequencies – when you send these frequencies to the nanoparticles, they are going to vibrate, a bit like water vibrates when you send it a frequency of 2.3 GHz [sic] using microwave oven cyclotrons – you make the water vibrate and you heat the water and the elements around it, in the same way you make the cells around it explode, so that you can cook a chicken in a microwave oven.

These nanoparticles have the same phenomenon at certain other frequencies. That means that, when they are in the body, for example, when you put them next to a cancer cell, you send a certain frequency that makes the particle vibrate and you heat around it, which means all the cells around it, that is, the cancerous cells, for example,

will explode.^[1] At the time, I said to myself that it was a good way of exterminating a population. That's to say, for example, if you manage to inject people with nanoparticles and you then transmit a wave which is not a priori dangerous, but when one associates it with this particle, it makes the particle vibrate.

Interviewer: OK, but why are you telling us about nanoparticles today and what is the claimed link with Covid?

Interviewee: For me, these nanoparticles are part of a weapon system that will enable depopulation without mass resistance. So, if you compare that to a system of explosives, the nanoparticle would be the bar of plastic explosive, that is, the active material that's going to explode. The second thing that would be needed is a detonator. For me, this is the electromagnetic wave that's going to make the nanoparticle vibrate, and the third thing is the control,

I think that we've found it now, it's the idea of 2020 060606,^{[2].^[3]} that is, the subcutaneous vaccination that the masters of the world are going to propose so that they can know where we are and can trace us with **5G**. The advantage that **5G** has as a detonator is that it can track us. It's a directed energy weapon. So, we're traced, they know where to send the wave and they know who they are going to heat up. What do you need in order to have this weapon system operational? You need to be able to inject the nanoparticles into the body. The only means that seems consistent in terms of the history is to put it in the vaccines.

And there it was! I think it was around 2015 that I read Serge Rader's book [on vaccines] and I learned that there were nanoparticles in children's vaccines and old people's flu vaccines, while the laboratories were telling us that they weren't putting nanoparticles in them. And there weren't any in vaccines for veterinarians. So I started to say to myself, "*Oh, there's a good weapon system that's being put in place, what's going to happen is that there's going to be a pandemic*".

And bam, in 2019 there's a pandemic! And what's hiding behind this pandemic? You've got statutes that permit the installation of **5G**, so one part of our weapon system, they want to impose a vaccine on us – in Denmark, they made a statute such that, if a Covid vaccine existed, everyone would have to have it. In every country, they're putting maximum pressure on the population so that they vaccinate because the pandemic is here and the only way of dealing with it is the vaccine. That's why I say that we're right on the button with this theory where they're going to exterminate a large part of the population. And what's more, recently they've been talking about the Great Reset 2021. That's what makes me say that we are leading up to genocide, a depopulation of the Earth.

Interviewer: So given that you managed to decode this pseudo-pandemic well before it happened, what are your thoughts about the coming months before 2021?

Interviewee: Listen, the thing is clear, it's the deployment of a weapon system. Look at what we've seen so far. We've seen directives in March permitting the deployment of 5G. All the world governments are deploying this part of the weapon.

The second thing is that they're gearing up for this pseudo-vaccine – because it's not a vaccine, it's one part of the weapon – to be put in place, and well ahead of the two years that they were talking about. They even think the vaccine will be put in place in September. The second thing is that they need to force the population to opt into the vaccination. There's the media but that's not strong enough.

The thing that people regard as most important right now is the children. Their move was well planned! You've had obligatory vaccination since 2018, when the Macron government came in with 18 5-in-1 vaccines all containing nanoparticles. As if by accident, one part of the weapon! These nanoparticles that they injected with the vaccines, they're going to make use of them.

So how? Once 5G has been deployed, and I stress *once 5G has been deployed* – they are going to transmit radiation that's going to excite the nanoparticles that they have injected into our children for the last 3 or 4 years. And into the elderly with the flu vaccine. What's that going to cause?

There are going to be fevers, there are going to be inflammations, as if by chance Kawasaki disease is going to happen. So I say, in the coming months, when the antennas are installed in certain countries, it will start, not all at once, but we're going to see in France, as soon as the 5G antennas are deployed, well, the coronavirus second wave will appear, and this second wave is going to have a particularity, it's going to affect the elderly again since they were vaccinated with the flu vaccine, and the children who were vaccinated.

So Kawasaki disease will develop, which will enable the government to impose the Covid vaccine and inject all of us with these nanoparticles so that they can annihilate us en masse and when they want. Then perhaps at the start there will be tens of thousands of deaths, but they have the capacity to kill 90% and depopulate up to 90% of the planet, actually all the vaccinated people. There you have it.

Censorship and theories about the coronavirus

Why is there so much censorship?

Think about it.

Serge Rader is a qualified pharmacist, former owner of pharmacies for more than 20 years and founding president of the Cooperative of Pharmacists Ile-de-France, became a whistleblower in the face of the abuses of the pharmaceutical industry.

.....

If you have read any of my articles on **5G**, the Corona virus being used as a cover for the **5G** “Beta Test” in Wuhan, China, I previously stated that 105 countries of the 179 countries represented that signed onto Agenda-2021, including China and the USA have reasons to want to reduce their national population. In the case of the U.S., we have a National Debt of \$27.4-trillion dollars, but in reality the government as “off the books” unfunded obligations of \$200-trillion dollars, such as government and military pensions, Medicare, Medicaid, Social Security, and other programs. As is the case with most other state and municipal government pension funds, they are under-funded or unable to pay for police, firemen, and service workers.

The political practice has been to “kick the can down the road” when it came to labor strikes, labor contract negotiations, the tendency has been to ink the contract, worry about the costs in the years to come. DO NOT BELIEVE FOR ONE MOMENT THAT YOUR GOVERNMENT IS CONCERNED ABOUT YOU OR YOUR FAMILY. The U.S. Corporation can file bankruptcy just as easy as any business, or individual. If you die as a consequence of **5G**, that becomes a statistic, and another individual who can be removed from the rolls of the Social Security System. The initial phase of the Covid-19 Lock Down was mostly the elderly receiving government benefits.

5G provides the “dream” weapon to wipe from the books the government obligations, and it does not mean just the Chinese Government or the U.S. Government. We have been witness to a political theatre between President Trump and Nancy Pelosi, all intended to keep us in the distraction of party politics. President Trump appeared on the Friday, October 9th, 2020 program for two hours, and the two-hour show had an audience of 50-million listeners.

Donald Trump is not going to change things even if he wins on November 3rd. He certainly is not going to be able to reduce the National Debt, and if anything, he will send it into the stratosphere. I personally believe Donald Trump is aware of the fake virus plan-demic scam. Wuhan was merely a “Trial Run” to see if the **5G** “silent” weapon could be pulled off without the world knowing what really happened! It is my view that all the major politicians in Washington, and many States as well are fully aware of what is coming in a few weeks.

At this point in time, the public seems to be showing signs it has recognized it is being gaslighted and they are not happy campers. Can you blame them?

You know the narrative is falling apart when law suits are being filed in the courts around the world. Here is Asian independent journalist Ben Fulford’s recent report filed on October 12, 2020. It reveals a great deal about who profited from this global scam.

[WHO backpedals on Covid-19 scam as criminal, civil charges filed](#)

By [Benjamin Fulford Weekly Reports 73 Comments](#)

“The WHO has suddenly backpedaled on the Covid-19 scam, as criminal and civil charges are filed against their leadership. This is part of an autumn offensive by the White Hats in the ongoing battle for Planet Earth, ranging from byzantine intrigue at the Vatican to large-scale use of nuclear weapons. On both fronts, the good guys are winning decisive victories.

Remember, we are dealing with two competing visions for the future of the planet. One, controlled by the Khazarian Mafia, or the Chabad Death Cult, which calls for wiping out 90% of humanity and enslaving the rest. The other calls for a huge campaign to end poverty, stop environmental destruction, and explore the universe.

The global situation appears to be getting weirder by the day because the battle between these two different versions of reality is reaching a climax.

This is not just a case of the U.S. versus China or Trump versus Biden. Instead, it transcends traditional boundaries. On the theatrical news stage, for example, we are being offered two different personalities of Donald Trump and Xi Jinping, each appearing to support the agenda of a different faction.

To illustrate, let us look at the sudden turn-around at the WHO. Here is what corrupt Director-General Tedros Adhanom Ghebreyesus said in March:

“This epidemic can be pushed back but only with a coordinated and comprehensive approach that engages the entire machinery of government.”

<https://www.cnbc.com/2020/03/05/who-calls-on-all-nations-to-pull-out-all-the-stops-to-fight-coronavirus.html>

Then last week COVID-19 special envoy David Nabarro said:

“We in the World Health Organization do not advocate lockdowns as a primary means of control of this virus.”

<https://twitter.com/spectator/status/1314573157827858434?s=20>

What changed is that a critical mass of decision-makers within the world’s intelligence and law enforcement organizations has realized the whole Covid-19 campaign is a massive crime against humanity.

One factor was the WHO’s own idiotic statements. They said recently that 780 million people got Covid-19 and of those 1,061,539 people died from it. That is an infection mortality rate of 0.14% or one-tenth of the average world death rate from all causes (1.38%).

Now the U.S. Food and Drug Administration is admitting “no quantified virus isolates of the 2019-nCoV are currently available...” <https://www.fda.gov/media/134922/download>

In other words, the entire shut down of economies, forcing people to wear masks, etc. is based on a virus they cannot even prove exists. Or perhaps the regulatory agencies don’t want to provide any data that can be examined closely, since some Indian scientists first claimed that an unnatural combination of elements was present in samples.

Even more damning is evidence produced by Dr. Reiner Fuellmich of the German Corona investigative committee. Reiner says the Rothschild family patented fake positive result Covid-19 tests years ago. Dr. Reiner is now preparing one of the largest damage lawsuits in history against the perpetrators of this fraud. <https://www.bitchute.com/video/zarFW3hwuyBc/>

MI6 sources say they have initiated worldwide criminal investigations against the Rothschilds and their Khazarian Mafia cohorts for insider trading based on this scam. Short selling of stocks in March of this year brought \$344 billion in profits to companies including Morgan Stanly, Bank of America, Charles Schwab, and the pharmaceutical company McKesson.

<https://www.reuters.com/article/us-usa-stocks-shortselling-idUKKBN21811E>

<https://markets.businessinsider.com/news/stocks/stock-market-short-sellers-billions-profit-coronavirus-economic-decline-tech-2020-3-1029022585#>

However, disturbing evidence we must try to reconcile is that world leaders, including Presidents Xi Jinping of China, Donald Trump of the U.S., and Vladimir Putin of Russia, appear to be participating in this fraud by supporting the call for mass vaccination to combat a non-existent pandemic.

Are they expecting their supporters to be smart enough to refuse a voluntary vaccination and are simply allowing their detractors to poison themselves with a suicide shot containing fertility-reducing and carcinogenic vaccine ingredients?

GASLIGHTING

A favorite tactic of manipulators, used to obstruct and distort their victim's understanding of reality. Intentionally setting up misdeeds, and then questioning the victim's sanity for reacting to those misdeeds. Rewriting history, or blatantly denying that the event ever took place. First, provoking negative emotions, then dismissing the victim's legitimate concerns with labels like "crazy", "insane", "bipolar", "hysterical", and "sensitive". Gaslighters are patronizing, unapologetic, and above all, they are cowardly. Because they are unable to manipulate healthy individuals, they must first manufacture insanity and chaos. This gives them the power & control that they seek over loving, compassionate human beings.

Learn the signs. Find your freedom.

RedFlags.PsychopathFree.com

Do they know it's virtually impossible to make a safe and effective RNA vaccine for SARS-Cov and are just playing along and biding their time with the global narrative laid out by the WHO? Remember COVID-19 stands for "Certificate Of Vaccination ID-19"

and is being branded as “the name of the disease” so the sheeple know what to agree to voluntarily when lining up for their “pandemic ending” shot soon to be scheduled along with the seasonal flu jab.

Could it just be Trump’s political maneuvering after getting punked by Xi in January, to keep up appearances knowing that the Dems will try to place blame in an election year? We can understand that his presidential election rival Joe Biden is compromised and corrupt, but they are both calling for everyone to be vaccinated for this fake pandemic.”

Recently the web site [All News Pipeline – by Stefan Stanford](#) posted this report just below on their page. When I first tried to download it, I was blocked from saving it by internet censors who routinely block me from saving unsavory news they rather I not share. I keep a list of such blocked news, and on a holiday like today, Columbus Day, October 12th, 2020 when they are off for the holiday, I go back and download them.

.....

While Microsoft founder and vaccine propagandist Bill Gates recently warned that the [next deadly flu epidemic is just waiting around the corner and it could quickly lead to the deaths of more than 30 million people](#), we’re not the least bit surprised that he also claims [a ‘universal flu shot’ is the answer to prevent such a deadly pandemic](#), this despite the fact that even medical experts claimed that this year’s flu shot was hardly a preventive and actually led to the spread of the flu.

With the Bill and Melinda Gates Foundation teaming up with Google co-founder Larry Page to launch the ‘Grand Challenge’ of what they call the ‘holy grail of influenza research’, an attempt to [develop a ‘universal vaccine’](#), Gates and Page are giving out individual grants of between \$250,000 and \$2 million over 2 years to those attempting to develop such a universal flu shot with human testing set to begin by 2021.

Calling upon computational biology, bioinformatics, artificial intelligence, machine learning and other new technologies to be used as aids in the ongoing research, Gates and Page hope to ‘bridge the funding’ of such projects due to what they call the “valley of death” between novel concepts and clinical trial-ready products.

And while like many globalists, Gates and Page sound ‘sincere’ in their goals to prevent the spread of an epidemic that could cull tens of millions of lives, we must always remember that [Gates and the Gates Foundation are also proponents of eugenics](#) with Gates himself coming out directly and stated the world is far too overpopulated as heard directly from him in the 2nd video below while his father, [William H Gates Sr., was a former board member of ‘Planned Parenthood’](#).

Bill Gates [has doubled down on his goal](#) to depopulate the planet, using deceitful Orwellian doublespeak in a new video to bamboozle his naive followers into believing that “by making people healthier, we can reduce the world’s population”.

Make no mistake, when Gates talks about “making people healthier” what he is really talking about is enforcing the mandatory roll out of his range of experimental vaccinations. The same vaccines that have already caused mass sterilization and death on multiple continents.

The second-richest man on the planet is a committed globalist and eugenicist working towards the New World Order goal of depopulation. Lest anyone forget these facts, Bill Gates regularly goes out of his way to remind us of them.

Bill Gates and his foundation have consistently come under fire for their goal of depopulation, and now the same man who admitted in a TED talk that his goal is to eliminate a billion humans from the face of the Earth has now taken to Facebook to lecture us about why being eradicated is in our own interests.

And while the website Deagel.com has recently made some very mysterious changes to their 2025 forecast for America as we report in much more detail below, as we hear in the final video below from the Leak Project and [read in this March story from The Sun](#), one medical health expert is warning of a mutant virus that sounds straight from a science fiction movie, potentially becoming the fastest-spreading viral killer known to the human race and as he tells us, such a killer virus outbreak could happen tomorrow.

Dr. Jonathan Quick, chair of the Global Health Council, said the flu virus is “*the most diabolical, hardest-to-control, and fastest-spreading potential viral killer known to humankind*”.

Describing what sounds like scenes from a horror film, Dr. Quick warned in The Daily Mail of starvation, medicine supplies running low, energy systems crippling under the pressure and the collapse of the global economy.

And what's could cause such devastation, on a global scale?

“The most likely culprit will be a new and unprecedentedly deadly mutation of the influenza virus. The conditions are right, it could happen tomorrow.”

Military Budget:	▼ \$32 billion	6	2.8	▼ \$1.2 trillion

And while the website Deagel.com is STILL forecasting a massive depopulation for America by 2025, on our visit to their website this morning we found a huge difference in their 2025 forecast from just weeks ago.

As [we had reported on ANP back on December 31st of 2017](#), Deagel was previously forecasting the US population to drop to 54 million people by 2025, down from what was then 324 million people in 2016. Well as we see now in the screenshot above taken from their [website page for the United States](#) this morning, Deagel is now forecasting that the 2025 population of the USA will be a nice, round 100 million people – nearly doubling their previous 2025 forecast for America of 54 million.

Yet as it's easy to see, even a 2025 forecast of 100 million people living here in less than 8 years is STILL DOWN 227 million from the 2017 population of America. How will America LOSE 227 million people by 2025?

We'd love to know why Deagel is forecasting the population of the US to drop from 327 million in 2017 to only 100 million in 2025, with them also forecasting a 2025 U.S. military budget of 32 billion dollars, down from our 2017 military budget of \$637 billion, while forecasting our population density to drop from 34 inhabitants per square mile to only 10 inhabitants per square mile in 2025. While our emails to Deagel have gone unreturned, what does Deagel know that we don't know?

Also forecasting that our gross domestic product will drop from \$19 trillion in 2017 to only \$2.4 trillion in 2025, Deagel's numbers for America in 2025 still show an America in total collapse, a 3rd world nation with our GDP per capita more than cut in half while our [purchase power parity](#) is forecast to be lower than Thailand, Columbia, Bulgaria, Croatia and Montenegro.

Deagel's Sources ARE The 'Deep State'

Government links & Sources

[United States Coast Guard](#)
[Department of Defense](#)
[Government](#)
[United States Air Force](#)
[United States Army](#)
[United States Marine Corps](#)
[United States Navy](#)

Sources: US Department of Defense, Department of State, CIA, World Bank and European Union.

And before you go and discount Deagel's numbers, it's very important to know that their sources ARE the 'deep state' with the CIA, US Department of Defense, US Department of State and World Bank contributing data for their forecasts. So.... what does Deagel know what we don't know? Their sources make clear that whatever Deagel knows, the 'deep state' knows, too!

While Deagel leaves no explanation on their website about why they've made these changes to the 2025 forecast population of America, as we've previously reported on ANP, they did [put out an explanation back in October of 2014](#) about why they were forecasting such a huge drop for America, '[a confluence of crisis' with a devastating result](#)'. A brief excerpt from that 2014 explanation:

The key element to understand the process that the USA will enter in the upcoming decade is migration. In the past, especially in the 20th century, the key factor that allowed the USA to rise to its colossus status was immigration with the benefits of a demographic expansion supporting the credit expansion and the brain drain from the rest of the world benefiting the States.

The collapse of the Western financial system will wipe out the standard of living of its population while ending Ponzi schemes such as the stock exchange and the pension

funds. The population will be hit so badly by a full array of bubbles and Ponzi schemes that the migration engine will start to work in reverse accelerating itself due to ripple effects thus leading to the demise of the States. This unseen situation for the States will develop itself in a cascade pattern with unprecedented and devastating effects for the economy. Jobs offshoring will surely end with many American Corporations relocating overseas thus becoming foreign Corporations!!!!

We see a significant part of the American population migrating to Latin America and Asia while migration to Europe – suffering a similar illness – won't be relevant. Nevertheless the death toll will be horrible. Take into account that the Soviet Union's population was poorer than the Americans nowadays or even then. The ex-Soviets suffered during the following struggle in the 1990s with a significant death toll and the loss of national pride. Might we say "Twice the pride, double the fall"? Nope.

The American standard of living is one of the highest, far more than double of the Soviets while having a services economy that will be gone with the financial system. When pensioners see their retirement disappear in front of their eyes and there are no servicing jobs you can imagine what is going to happen next. At least younger people can migrate. Never in human history were so many elders among the population. In past centuries people were lucky to get to their 30s or 40s. The American downfall is set to be far worse than the Soviet Union's one. A confluence of crisis with a devastating result.

And while their expected [culling of 227 million Americans](#) isn't quite as many as they were forecasting just weeks ago, they are still forecasting a huge drop for America's population within less than 8 years, a population drop-off which is still inadequately explained, even using their 2014 explanation seen in the previous section of this story above.

While the mainstream media and gatekeepers such as ‘Snopes’ will continue to call the globalists depopulation agenda a ‘conspiracy theory’ despite the fact that its written in granite upon the [mysterious Georgia Guidestones](#), we hear from videographer Truth Happens in the first video below all about Gates plans for a universal vaccine with our videographer also talking with us about the globalists depopulation agenda.

And in the final video below from videographer ‘Leak Project’ about the [suspect ‘mutant virus’ on the loose that some warn could eventually lead to the deaths of 300 million or more](#), with medical experts warning the conditions for such a deadly outbreak are perfect despite the fact that they still don’t even know exactly what will cause this ‘outbreak’.

.....

I can assure you that I am blocked from saving specific web sites like Dave Hodges’ Common Sense News; Patrick Wood’s Technoracy News; Mike Adams’ Natural News; and approximately fifteen-twenty other credible web sources of truth news. On federal holidays, like New Year’s Day, Easter, Memorial Day, Fourth of July, Columbus Day, Thanksgiving, and Christmas that I am not being surveilled, I go through my memo pad list and download the verboten.

The ‘*Washington Standard*’ had this to say on Monday, October 12th, 2020:

When medical professionals deal with the health of the public, the information relied upon has to be accurate, meet the standards of the scientific method, and meet the gold standard of the medical profession. Those on the frontlines have relied on various agencies and associations to obtain their information, such as the Center for Disease Control (CDC), the World Health Organization (WHO), the National Institute of Health (NIH), the American Medical Association (AMA), and a host of others. But, what happens when one of these sources becomes unreliable, committing serious errors that jeopardize the health and well-being of the public? The public gets half-hearted apologies.

GreatGameIndia.org documents ten times the World Health Organization (WHO) has erred bringing into question the legitimacy of the United Nations’ health organization to be a source for medical professionals around the world.

The World Health Organization (WHO) is a primary agency of the United Nations responsible for international public health. However, in recent times, the WHO has been criticized for either acting too late or too little during a health crisis. There have been instances where WHO was caught grossly unprepared with its course of action. Other times, the scientists and researchers at WHO have made laughable errors while preparing reports. This begs the question: Why WHO makes so many mistakes? Is it deliberate? Or is there some other reason behind WHO’s never ending list of errors?

Working backwards, beginning with the CON-VID-19 scam-demic, here are WHO’s top ten blunders.

In the WHO's earlier reports, this coronavirus was assessed as a risk level of "moderate" of turning into a global risk. But, WHO later emerged to declare this assessment was in error.

"In its report a few days later, WHO said the risk was 'very high in China, high at the regional level and high at the global level.' They also admitted that the earlier reports had incorrectly mentioned that the global risk was moderate."

When confronted about its mistake, co-director of the Swiss School of Public Health, Antione Flahault said, "It's a mistake. It's definitely a sizeable one... but I really think it's a mistake that has now been corrected."

This was reported in April of 2020. Since then, new information has proven the risk was not high for a pandemic. In fact, one month earlier, Dr. Anthony Fauci and Dr. Robert Redfield co-authored an article in The New England Journal of Medicine declaring CONV-VID-19 to have an infection fatality rate of 0.1% or similar to that of seasonal flu. More recently, the CDC issued new statistics showing the survival rates by age group, indicating the survival rates by age group. This new data indicates the WHO has been in error since the beginning, suggesting its actions were motivated not by factual scientific evidence, but political agendas.

Dr. Tedros Ghebreyesus, director general of WHO, stated, "In particular, the Covid-19 pandemic has given new impetus to the need to accelerate efforts to respond to climate change. The Covid-19 pandemic has given us a glimpse of our world as it could be: cleaner skies and rivers."

"Taiwan demands apology from WHO chief"

GreatGameIndia.org explains:

Taiwan demanded an apology from the WHO chief following his controversial allegations against the country where he accused the island nation and its people of racial abuse.

In a press conference, WHO Director-General Tedros Adhanom Ghebreyesus made serious allegations against Taiwan. The WHO chief said that he has been a target of racial insults for the past three months, which he alleged originated from the island of Taiwan.

WHO has been criticized for its handling of the corona pandemic including its treatment of Taiwan. The UN agency – due to the pressure from China – does not recognize the sovereignty of Taiwan. The island nation is still considered a territory of mainland China. The exclusion means Taiwan is kept out of the loop and is unable to share and receive crucial data related to the coronavirus pandemic.

When RTHK journalist – in a video call – questioned WHO advisor Bruce Aylward about Taiwan, the top WHO doctor was lost for words, and abruptly ended the call.

It's painfully obvious the WHO is motivated by politics and caves to pressure from the Chinese Communist Party (CCP). The question must be asked – why is an agency whose main concern “health” getting involved in geopolitics and the ruse of climate change? Since the majority of the WHO's funding comes from the Bill and Melinda Gates foundation, it's no surprise the UN agency would want to dip their toes in the deep end of the pool. It's a total political statement by the WHO to deny the sovereignty of Taiwan because of CCP pressure. One then has to ask – why does the CCP have so much influence over the WHO?

“WHO Admits Making False Report on India”

During this scam-demic, the UN organization classified India as being at a stage of community transmission when in fact, India was having cluster cases, not community transmission. The WHO did not make the correction or admit its own blunder until it was forced to clarify to an Indian News channel. India's joint secretary of Health Ministry, Lav Aggrawal, stated, “If it happens, we will be the first to tell you. We will tell people to be especially alert... There is no community transmission.” The government of India had been firm in its denial of reaching stage three or community transmission.

GreatGameIndia.org reported:

Our World in Data – an online publication based at the University of Oxford – has stopped using World Health Organization data related to coronavirus for its research. The publication announced that they no longer base their models on the WHO data citing errors and other issues.

Instead, the researchers are using data provided by the European Centre for Disease Prevention and Control. The errors and inaccuracies, which Our World in Data documented in a separate report, showed various discrepancies in the situation reports released by WHO between February 5 to March 16.

The WHO has become an organization that cannot be trusted to provide reliable information. When governments, scientists, doctors, and researchers rely on this information for treating individuals and policy decision-making, the WHO has a responsibility and duty to make sure the information is accurate, reliable and up-to-date. To clarify, no government should use any information from and world or state organization to eradicate liberties and freedoms. However, governments could use the information to limit travel to affected areas, close borders to immigrations in order to prevent disease spread, and establish temporary policies to admit immigrants who experience a dire situation. Never should the information be used as a mechanism to obtain increased power or control over the people.

“Finland Says WHO's Coronavirus Protocol Doesn't Work”

A senior Finnish Health Official claims the protocol of the WHO's coronavirus testing is illogical and doesn't work, dismissing an advisory issued by the WHO saying the organization does not understand pandemics. WHO recommended testing as many people as possible for coronavirus in its advisory. The Finnish health official argued this "protocol" was illogical when combating a pandemic.

Mika Salminen, Finland's head of health security, stated, "We don't understand the WHO's instructions for testing. We can't fully remove the disease from the world anymore. If someone claims that, they don't understand pandemics." Salminen took issue with the idea that testing on a mass scale would stop the spread of COVID-19.

So, why is anyone in the United States still listening to the UN's WHO? In fact, its secretary general is not even a medical doctor. Yet, actual medical doctors with extensive experience with infectious diseases and those who study pandemics have been censored, fired and had punishments exacted against them for attempting to relay factual scientific-based information to the public. The WHO has committed a serious offense against the people of every nation on the globe that would have any other entity or person hung out to dry, charged with an international crime.

In 2018, the WHO declared UK's Port Talbot, located in South Wales, as the most polluted city in the UK. The assessment turned out to be false and was based upon an "oversight" in data. Dr. Maria Neria, director general for WHO at the time, only admitted the error when challenged by the Neath Port Talbot council, calling it "erroneous". How did that occur?

GreatGameIndia.org reported:

The WHO database showed that the south Wales town had a fine pollution level of 18 micrograms of M2.5 pollution particles per cubic metre of air. In comparison, London had 14 micrograms while Manchester had 13 – all above the national guidelines of 10 micrograms.

The then WHO director Dr. Maria Neria later described the figures as "erroneous" and said that the air pollution level for Port Talbot was instead measured at 9.68 micrograms and not 18 as earlier suggested.

She said: "The PM2.5 level for the year 2015 for Port Talbot should be 9.6853 (and is rounded to 10 in the updated excel sheet) and is noted as 'measured'. The PM2.5 was erroneously featured as a converted (estimated) value of 18. The World Health Organisation has taken immediate steps to rectify this on its WHO web site, and in the database. We regret that this error happened."

Either WHO employees have a severe trouble with mathematics, or the entire organization is sloppy and careless in its endeavors when data gathering and compiling. Based on what has been presented so far, it would be the latter. But, could this be

called sloppy and careless or calculated and intentional because in each of these instances one might think an agenda was involved?

“WHO excludes Tuberculosis from Global Priority List”

As indicated by GreatGameIndia, “In 2017, the WHO compiled the first-ever global priority list for antibiotic-resistant bacteria. It included 12 families of bacteria that WHO considers ‘greatest threat to human health’ and for which there is an urgent need for new antibiotics.” Conspicuously missing from the list was the bacteria that causes Tuberculosis, considering TB causes more deaths than any other infectious disease. In 2015, the WHO estimated approximately 10 million people contracted the disease. And, TB has evolved to become more and more resistant to modern medicinal therapies. It was a move that surprised experts.

Of course, WHO had a defense – it was already a globally established priority for which new treatments are urgently needed. The question remained, “If it is already a globally established priority, then why not include it on the list?”

This is not forgetfulness or an oversight – it’s negligence and incompetence from an organization many, if not all, medical professionals look toward for guidance. Severe errors as has been seen by the WHO could have devastating consequences for the world’s population.

“Whistleblower exposes WHO operations in Cambodia”

Tony Nash a former employee at The Economist and IHS Markit, who worked on a Cambodian project for the WHO has come out with a startling disclosure of how the WHO proliferated a more expensive and harmful approach to HIV treatment in Cambodia instead of the more cheaper Cambodian government method.

Interviews, we found that the Cambodian government continuum was both more effective and cheaper than the WHO method. The full report was turned over to the WHO. The results were dismissed and the report was buried. In effect, the WHO showed it would rather proliferate

— Tony Nash (@TonyNashOnAsia) April 14, 2020

When I was with a previous employer, the WHO asked us to do a report comparing the efficacy of mother-to-child transmitted HIV treatment continua in Cambodia. We were asked to compare the WHO continuum to the Cambodian government continuum.

After hundreds of interviews, we found that the Cambodian government continuum was both more effective and cheaper than the WHO method. The full report was turned over to the WHO. The results were dismissed and the report was buried.

In effect, the WHO showed it would rather proliferate a more expensive approach with worse health outcomes than the Cambodian government's home-grown treatment. I've ignored this for a decade, but given the news out today, I have to disclose it. I fully support the withdrawal of funding from the WHO.

In other words, the WHO is cooperating with a globalist eugenics movement. What else could explain this behavior by the organization?

“When WHO faked a pandemic”

In 2009, the WHO prematurely declared swine flu a pandemic, causing a surge in vaccine orders. Rich and affluent nations rushed to purchase millions of doses of a vaccine. However, deaths from swine flu occurred mostly in Africa and Southeast Asia, not Europe.

According to GreatGameIndia.org, “In this controversial book, renowned author Stuart Blume discloses that many of the most influential advisers, at both World Health Organization (WHO) and national levels, are paid consultants to the vaccine industry raising a very serious question – that the WHO might be working for the vaccine industry's interests and not the people – the reason why 10 years ago WHO faked a pandemic.”

With all of these serious “blunders”, which are more by design than unintentional, the question emerges, “Should the WHO be dismantled?” At this point, one could say yes it should since these errors and intentional actions threaten the lives of all people around the world. GreatGameIndia.org called what the WHO has done as “gambling-approach to world health crises.” Moreover, with the WHO being used as a “tool” by the vaccine industry lobby, their recommendations and reports are suspect. Are these reports skewed toward vaccine promotion or are the reports genuinely concerned with the world population's health? This has prompted experts to call for the dismantling of the organization.

Considering the medical profession relies heavily on the information provided by the WHO, wrongly, of course, the intentional and deliberate “misstatements” can have long lasting repercussions. Instead of contemplating what scientists and doctors challenging the WHO's information have discovered through actual scientific research, these independent individuals are scoffed at, maligned, and discredited, along with punished, for daring to contradict the “anointed” WHO. As it turns out, the medical profession has been upholding and defending the WHO, which engages in “fake” information to enrich an industry or many industries.

It's time for a reconsideration on this agency being the “end all to end all” for the medical professionals regarding health expertise and recommendations. If nothing else, this information is enough to question medical professionals who continue to follow the WHO's recommendations and guidelines and challenge their blind devotion to an organization that clearly has been bought and paid for by the vaccine lobby and private

individuals who are globalists and eugenicists. Unfortunately, government entities such as the CDC and the NIH will still bend a knee to the WHO; however, individual medical professionals have great influence when banding together. By rejecting the WHO's influence based upon its numerous egregious errors, the medical professionals as a collective can push this tainted agency into non-existence.

So, doctors, why are you continuing to trust the WHO? Why are you continuing to trust the CDC and NIH, organizations that clearly follow the global agency's example? It's time to stop your blind devotion to an organization who does not have at its heart a concern for the health of the world's population. But, don't take my word for it. Do the research. Listen to your colleagues who are exposing the nefarious deeds of this organization. And, do yourself a favor – listen to your patients who are aware of all this information instead of adopting a condescending attitude towards them, implying you know more than them. It's quite obvious they are doing their homework; why aren't you?

.....

When the WHO, FDA, CDC, NIAID, Dr. Fauci, and Dr. Redfield began flip-flopping over the past few weeks, it did not mean they have folded their tent and ran for cover or hiding and that we can all breathe a sigh of relief. No such thing, and recalling Bill Gates own words, the next time they (we the public) will pay attention, meaning the public will regret it.

The U.S. government has spent 6-billions of dollars of taxpayer on 600-million doses of vaccines, enough for two shots for every man, woman, and child in the country that want them and Bill Gates said you will have to have yearly booster shots. I keep thinking about the interview Bill Gates gave at Davos last winter to a business reporter from CNBC, when he was asked about what the investment in vaccines offered investors. His reply and I wish I could quote the exact words, but the return on investment (ROI) was a \$20-to-1 profit margin. You can listen to his interview Becky Quick of CNBC at this link: <https://www.youtube.com/watch?v=6cfcaK8gBaA> .

The white hats, the good guys, have won this skirmish but the war will continue to advance the depopulation agenda that the Eugenics people like Bill Gates are funding and pushing on the world.

Blessings,
