

5G EMF & Weakened Immunity Lockdown - 2nd Wave Attack

The 5G Strategy Plan and the 2nd wave of the Covid-19 attack was slated to occur on or about October 28th, 2020 from the information provided nearly three months ago. I have heard from a few of my readers wanting to know what is happening since we are still here. This was in reference to the Rapture and Heshvan 10 "Get in the Ark Day" also occurring on October 28th as well. The date has passed by a few days at this point and we are not seeing the preliminary signs the reported provided, and lest I have been left behind, the Rapture has not happened. Interestingly, that does not mean nothing has happened or that we are safe whatsoever, it merely indicates the two have not been politically synchronized.

In the past two weeks, I have written and posted 5 articles on **"Depopulation #1 Global Issue Since 1968"**, these being highly important to how 5G will be used to solve their pressing problem keeping them from achieving their "Sustainable Development" agenda. This is a serious issue and you best be aware of what is taking place without your knowledge and what it portends for humanity.

Now you might want to be paying attention to the fact that so-called virus infections are spiking in the northcentral part of the U.S. this past week of October. South Dakota, Iowa, and Kansas were reporting very high rates of what are being falsely called Covid-19 virus. Iowa was going to "lock-down" on Friday. This might not be such a big deal when you factor in a major arctic blast of winter which brought a blanket of snow across the Rocky Mountain range to the central plains and as far south as northern Texas and Oklahoma this past week. AccuWeather out of State College, PA projected an overnight low of 32-degrees in southern Kentucky on Friday, October 30th.

hand-in-hand, but the media pushes the narrative of “pandemic” which the WHO has withdrawn from its initial claims.

The media has been orchestrating efforts to debunk the idea that 5G is causing the Corona virus or Covid-19. The magazine *‘Popular Mechanics’* has been leading a campaign for months saying that 5G has nothing to do with the virus. At least once a week, *‘Popular Mechanics’* web page will attack my premise that 5G is behind the Covid-19 virus. You will find when searching on 5G and Corona virus, dozens of articles debunking any connection between the two. Google buries deep scientific articles that show conclusive evidence linking between wireless EMF radiation poisoning and SARS/Covid-19 viruses.

I have two dozen books on Wireless Communications and 5G EMF in my personal library that would dispute the idea that 5G is harmless and will do no harm to life forms. The fact that I have been studying wireless energy technology for twenty-five years; since the beginning of bee-colony collapse which began shortly after the cell-phone became available for sale in 1996, I challenge the disingenuous debunking without peer-reviewed science to back up their claims. Unfortunately, many in the scientific community have been bought off like in the realm of Big Pharma and Medicine. They choose not to bite the hand that feeds them when it comes to research grant funding!

The fact that a group of scientists submitted a paper to the *‘Journal of Biological Regulators & Homeostatic Agents’* in May of 2020 and accepted for publishing in June of 2020 may have been the first article by scientists to raise the question about what 5G is able to do. The summary portion of that lengthy and technical paper appears just below:

In this research, we show that 5G millimeter waves could be absorbed by dermatologic cells acting like antennas, transferred to other cells and play the main role in producing Coronaviruses in biological cells. DNA is built from charged electrons and atoms and has an inductor-like structure. This structure could be divided into linear, toroid and round inductors. Inductors interact with external electromagnetic waves, move and produce some extra waves within the cells. The shapes of these waves are similar to shapes of hexagonal and pentagonal bases of their DNA source. These waves produce some holes in liquids within the nucleus. To fill these holes, some extra hexagonal and pentagonal bases are produced. These bases could join to each other and form virus-like structures such as Coronavirus. To produce these viruses within a cell, it is necessary that the wavelength of external waves be shorter than the size of the cell. Thus 5G millimeter waves could be good candidates for applying in constructing virus-like structures such as Coronaviruses (COVID-19) within cells.

The fact that 5G millimeter waves are smaller than human pores should have gotten the attention of scientists across the world and there are honest scientists who have not been bought off by the telecommunications industry. The industry cannot hide for-ever behind the idea that since it is not visible it can’t hurt you line for much longer.

The essence of the article emphasized above is that 5G millimeter waves can be electroporation [aimed at] to the inner recesses of the human body. The fact that EMF wireless energy can be injected into the human body like a warmed up sandwich in a microwave oven should be enough to scare anyone. I will discuss this more later in this article.

I learned Saturday morning, October 31st, 2020, the 5G Strategy Plan is still on as planned to take place on or about October 28th, 2020. Its execution has been merely delayed. There are some 16,000 “Hot Spots” around the globe that are also considered “kill zones” for those inside the target areas with operational 5G networks. This should tell you that when the circumstances for activating the 5G base stations are to their liking they will turn-up the energy level and cases of 5G sickness and death will then be passed off as being the Covid-19 virus which does not exist. How can I be so sure it does not exist you are wondering.

There are far too many sources at this point in time to quote from, but certainly one of the most informed and best medical sources is from medical journalist, Jon Rappaport, publisher of the web page ‘nomorefakenews.com’. His daily post for October 9th, 2020, titled: “COVID-19: The Virus That Isn’t There; The Root Fraud Exposed” The link for this article is: <https://blog.nomorefakenews.com/2020/10/09/covid...>

There is what is known as ‘Koch Postulates’ in the science of virology that is known as the “Gold Standard” when it comes to determine whether a pathogen is contagious or passed between human beings. Recent admissions by the CDC, NIH, NIAID, and the WHO show these procedures were never followed. This is why the above linked article by Jon Rappaport is so important. A number of law suits have been launched by Dr. David Martin and other national leading law firms from around the world for the crimes against humanity. This is good news but unfortunately the media and the political left have continued to milk the virus for their own demonic reasons.

Jon Rappaport’s report is essential reading if you want to be able to make intelligent decisions regarding the many vaccines coming on line shortly. This is one of those times in life you want to be an informed citizen from becoming another victim to a fraudulent vaccine hoax. In a post I placed on my web page two days, **“Dr. Tony Fauci’s Greatest Fears Exposed”**, the writers exposed Dr. Fauci’s lies and fakes for the past 36-years as head of the NIAID. Dr. Fauci is a “murderer by injection” and he is obfuscating four decades of his criminal activities for profit. This is revealed in the book *‘Virus Mania: Corona/COVID-19, Measles, Swine Flu, Cervical Cancer, Avian Flu, SARS, BSE, Hepatitis C, AIDS, Polio. How the Medical Industry ... Making Billion-Dollar Profits At Our Expense’*.

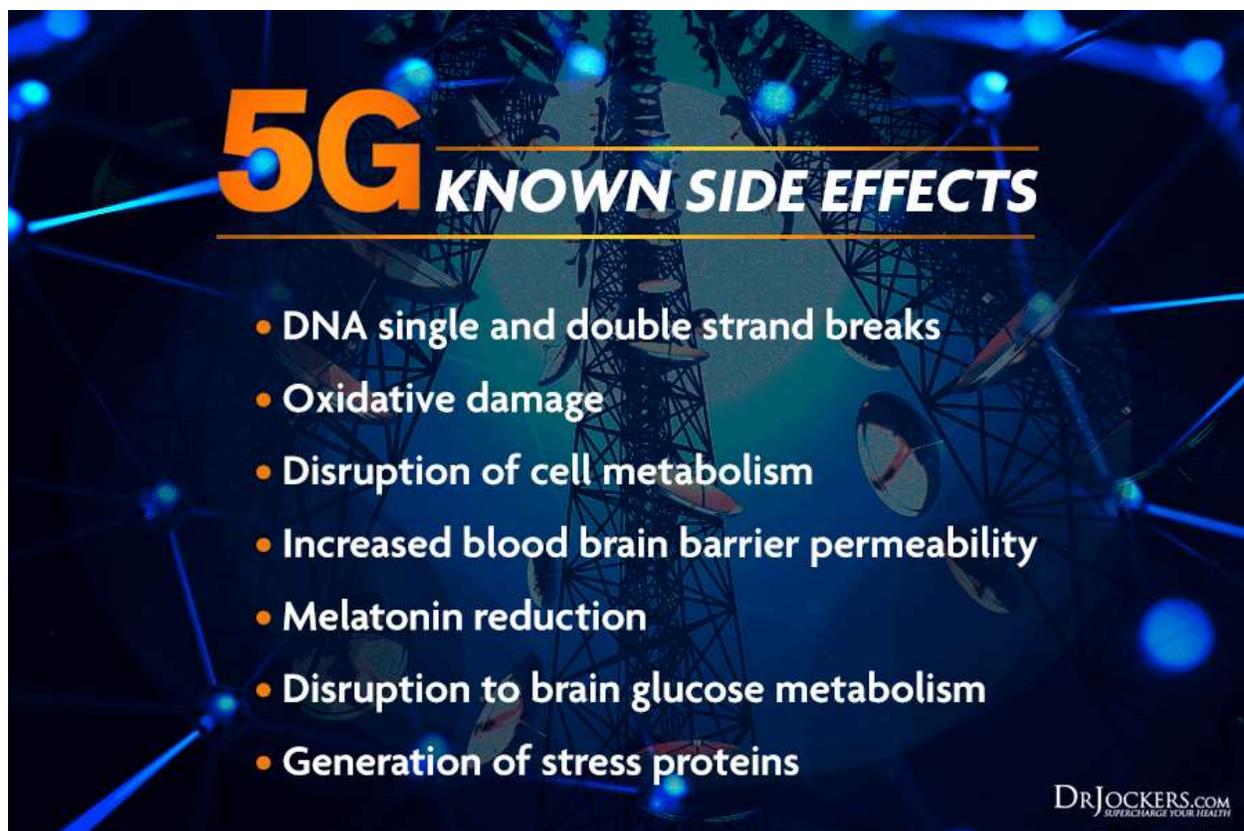

Dr. Fauci was the “gate-keeper” of the idea that HIV caused AIDS. **HIV does not cause AIDS and there is no evidence to prove it ever caused AIDS.** The panic scare of AIDS enabled Dr. Fauci to build an empire of fake science/medicine. It is one of Dr. Fauci’s lies that made him a very rich man and gave him his 36-year tenure as the head of the NIAID, and third highest salaried government employee in Washington,

D.C. AIDS is caused by life-style, drug use, and weakened immune systems resulting from the junkie intravenous lifestyle!

The FCC and the Trump administration has given a blanket endorsement to the telecom industry under the mantra of beating China to the world of 5G and where 6G is well under way on the drawing board. The telecom industry is confident that they will be able to use public utility electrical power lines to deliver advanced stages of the wireless communication. If this flies, it will enhance the profits of the telecommunications industry and increase the radiation coming into your homes.

The reason you are hearing little to nothing about 5G's harm is related to the fact that the approximately 20,000 "hot spots" or 5G installations around the globe, are being operated just above or equal to the energy level that existing 4G facilities where health damage is hidden or obscured. In plain terms, most smart phones are putting out energy levels of under 2.5 Gigahertz, with older cell phones right around where Megahertz become Gigahertz [800 MHz to 1 Ghz].

5G KNOWN SIDE EFFECTS

What is the difference between MHz and GHz?

• Both Megahertz and Gigahertz are used to measure frequency. MHz is 1,000 times lower than the GHz. So 5G is 1,000 times greater than MHz.

• Electromagnetic wave in the region of GHz has more energy per photon than that of the MHz range.

- GHz is widely used to measure household and office computers' computing power of the processor. MHz is widely used to measure the processing power of small-scale microprocessors.
- Megahertz represents 10^6 hertz, whereas Gigahertz represents 10^9 hertz.

The human body has a natural [in harmony with our environment] resonance of 7.83 Hertz, this is the same as that of all life form on the Earth. The magnetism of the Earth is the means by which insects, bees, birds, are able to navigate home. The past two weeks I have watched flocks of birds stopping to feed on the recent harvesting of corn leftover at the farm field behind our home as they fly south to warmer climates.

God designed and established all life form to function with a small amount of energy 7.83 Hertz is lower than MHz, which is lower than GHz. All of this electrical energy is not good for us humans, or any life form for that matter. Even trees show damage and leaves suffer from the EMF radiation from wireless communications.

It should be noted that all life on earth is affected by the Sun's "Eleven-Year" Solar Cycle of Sunspots. On the next page I have included two Solar Sunspot charts that have been recorded since astronomers and scientists first learned of this 11-year cycle. The phony climate-change issue about man's causing the problem for global warming

hides the real reason for climate change; it has more to do with the Sun than does man's burning of fossil fuels. The "global warming/global cooling" fanatics do not want people to know it is really the Sun affecting our weather, and there is nothing man can do to change this "eleven" year cycle! They use this fakery to hide their real concern about there are too many of us and how to make the problem go away; and to keep the deceptive narrative in the eyes of the public to support their bogus science! Prince Charles can do nothing to change the "Solar Minimums" and the "Solar Maximums" even if he is the Antichrist!

The Sun's "Eleven-Year" Solar Cycle is now believed to be the true cause of the 1918-1919 Spanish Flu outbreaks. Many books discuss how it came and went and there was no known signs or causes for the death of an estimated 50-million people around the world. Back then virologists tried to give [injected] excreted pox fluid samples and inject

it into horses, and animals with no signs of contagion. Multiple-studies were conducted with the purpose of infecting humans without the Spanish Flu pox from individuals who were infected with it. Along with Sunspot activity, 1918-1919 were the years when electricity and the stringing of power lines spread around the world at the same time. Decades earlier, railroad telegraphers were the first to experience an epidemic of electricity sickness. When the railroads spread west and south during the great westward expansion of the nation, telegraph wires simultaneously were hung as the railroads were being built. The telegraph and Morse Code enabled trains to travel in both directions without head-on collisions on single track lines built with passing sidings spaced out across the railroad network. A railroad station agent had to be able to tap-out and receive Morse Code as part of his job requirement. That requirement was still a job requirement even well into the last years of the 20th century. By the way, the Spanish Flu broke out with U.S. Army at Fort Riley, KS where Army recruits were being trained in the new mechanical radio telephone system introduced in 1917.

But I need to move on and return to where we are now. I believe once winter arrives and the yearly flu and cold season is at its peak, the telecoms will turn-up the energy level of 5G wireless communications and its toxic EMF from a low of 2-Gigahertz to a point where real physical harm begins to take hold in the world population. The recently installed 5G systems are not operating at a level higher than what might be analogous to a dimmer switch lamp in a living room. In most cases, 5G has to be “modulated” up to optimum energy ranges that it will become evident when human life and public health suffers. We are still six weeks from official winter so a lot can happen in the interim period.

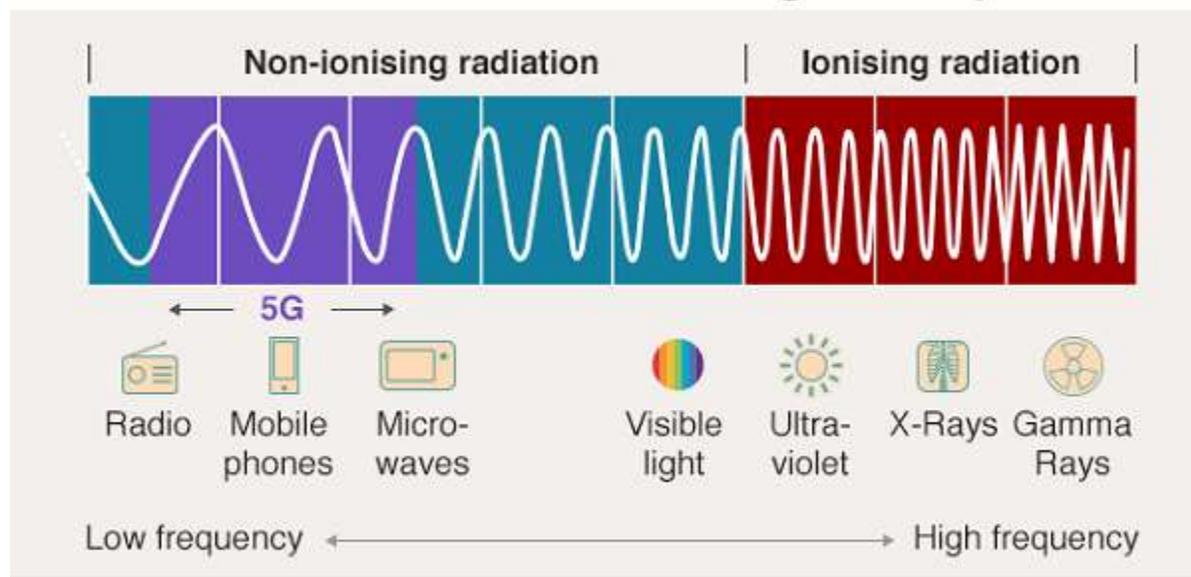

I have Lymphedema and six years ago when we moved to our present address, my problem went ballistic within 2 weeks of moving into the house. My legs below the knees swelled and were red as ripe tomatoes. I am 2,500-feet from an existing cell tower, in which I am exposed to a steady bathing of EMF toxic non-ionizing radiation poisoning. I did not make the connection for several years because I was unaware of how and what wireless EMF was doing to my body. Reading Dr. Arthur Firstenberg's book *'The Invisible Rainbow'*, began my quest and leap of knowledge and information.

My problem began much earlier but eluded any connecting awareness until I began further research. In 2010, we lived at my late father-in-law's residence in Turtle Creek, PA. We got our Internet provider through Verizon. My wife's records show that we had Wi-Fi installed in early summer of 2010. Within two weeks of installation, my legs developed blisters from the knees down to the ankle, and these blisters would break and leak out. My wife worked at UPMC McKeesport at the time and so we went to the ER on a Sunday afternoon. They admitted me and I was there for six days. The five doctors who saw me while in the hospital could not tell us what the problem was, or anything for that matter. They were totally baffled by what they saw. After six days they discharged me, and billed Medicare a few bucks short of \$8,000. The fact that they did not know anything did not keep them from telling me to make office appointments with them when I got home. That would not happen!

Then in the fall of 2012, we relocated to Fredericktown, KY to help with the raising of six grandchildren in school. In early March of 2013, I had another break out of the Lymphedema blistering on my legs (called lymphorrhea when leaking fluid) The trees were bare of any foliage and our residence was shielded with trees on a dead-end street up against a steep hillside. Once the trees began to bloom and leaves blocked the wireless energy, the problem eased. There was a cell tower across the valley approximately a third of a mile away high on a hill of a nearby farm. In the fall of 2014, we moved back to the parsonage of the United Methodist Church where I was the pastor of from 1992-1996. The only thing different was the existing cell tower was not there in 1996.

Very few people would ever have stopped to think to associate my leg problems with EMF wireless communications, and I was one of those until I came across Dr. Arthur Firstenberg's book, *'The Invisible Rainbow'*. Subsequent contact with Dr. Firstenberg confirmed that my Lymphedema was a consequence of Wireless EMF toxic radiation poisoning.

I am grateful for Dr. Arthur Firstenberg's research on how human life, and all life form is being impacted by electrical radiation, whether it be from the 11-year solar sun-spot activity that impacts life on Earth or Wi-Fi. We now know that the Spanish Flu of 1918 and earlier was a consequence of Sun spot activity. Scientists of the day could not create "contagion" by injecting the excreted pox fluids into animals or other humans of the day, no matter how hard they tried. The Spanish Flu occurred as the consequence of the spreading network of electrification of America and the rest of the world. Few people alive today were around when the world was hanging electrical power lines that

crisscrossed the streets of cities across the world. Yet millions died as a result of the so-called Spanish Flu.

Until Dr. Arthur Firstenberg's book was published in 2017, we were taught that The "Spanish" influenza pandemic of 1918–1919, which caused 50 million deaths worldwide, remains an ominous warning to public health. Many questions about its origins, its unusual epidemiologic features, and the basis of its pathogenicity remain unanswered.

Unless one reads Dr. Firstenberg's book, they will never understand how wireless toxic EMF is impacting their life now and in the coming future. I have family members who do not believe I know what I am talking about. My son wanted me to go to the VA hospital and I told him they do not know anything about bio-electrical medicine. It is not

a field of prominent study in the medical world. My point of this article is to tie together the point that 5G EMF, and all wireless energy can and does affects the human body by attacking the immune system. Most people are simply unaware that Immunity is a most important, if not the primary monitoring system of the body.

For those attacking the premise that 5G is the Extinction Level Event, they lie or parrot the lies of others who are relying on ignorance of the public. Dr. Martin Pall, Emeritus Chairman of Washington State's Department of Biochemistry and Medical Sciences is not some blogger on the Internet and he has testified 5G is an Extinction Level Event! Do read my articles on my web page that deal with this topic if you do not believe me. There are at least 60 articles on my web page on this topic alone. It is a weapons system designed to disburse protestors but capable of beaming a death burst of EMF killing energy if needed. Do your own research, and certainly do not trust the government or agencies responsible for communications. The FCC sells the band spectrum frequencies and takes in billions of dollars from the licensing those spectrum bands to the various users of public communication.

The simple fact is that the Covid-19 virus, which has been patented several times before as far back as 2006, is in its basic form nothing more than a bad cold. There are five or six symptoms of the so-called virus are virtually identical of what accompanies 5G EMF radiation poisoning. Keep the declassified U.S. Navy document below for reference in the event you have any of the symptoms on the chart. It can help you

since most in the medical community are untrained or ill-prepared to identify wireless communication health issues.

The planned deployment of 50,000+ satellites in (LEO) low earth orbit or (MEO) mid-level orbit is illustrated in the image below is well underway; and all of those 50,000+

satellites will be beaming wireless toxic 5G EMF down on every square inch of real estate on Earth. Elon Musk of Tesla fame has launched 800 this year and by the end of December, 2020, will have 1,000 5G satellites 60-100 miles in the atmosphere. With a steadily growing number of base and sub-stations needed to bring 5G wireless communications to reality will leave no room for escape.

At the present, I have made my study and residence as anti-EMF environment, but those days are waning as 5G will be 1,000 times more powerful than 3G or 4G, and virtually bathe the world with wireless toxic EMF from the network of satellites, antennas, and base stations, beam their invisible toxic wireless energy signals up and down around the world. This is part of the New World Order as part of the construct of the Technocratic world of artificial intelligence and trans-humans controlled through the Gates Quantum Dot/Hydrogel ID2020 passport!

Official government data reported for Friday, October 30th, 2020 indicates the number of diagnosed cases of the virus are approaching those of March, 2020. As this figure climbs, I believe that we can look for the 5G Strategy Plan to be activated to the 10 GHz level, according to their plan to hide the deaths that will be blamed on Covid-19. The “hot spots” around the world will see a corresponding rise in diagnosed cases and deaths from 5G EMF radiation poisoning and they will be blamed on the Covid-19. The larger cities with elaborate 5G installations will be turned up to 20 Gigahertz EMF and even more sickness and deaths that will occur from the damaged immune systems caused by the 5G toxic EMF. The 5G Strategy Plan only required 28 days to execute their “Depopulation” agenda, and from late November, 2020 until late March, 2021, is more than ample time to hide this crime against humanity.

As I pointed out in my recent articles on Mycoplasma, EMF toxic radiation poisoning provides dormant Mycoplasma in the human body dead or dying cells to attack. Keep this in mind as Mycoplasma while dormant, it is watching somehow three aspects of

human life. When these three are not in optimum balance, Mycoplasma attacks the body weakened by wireless EMF toxic radiation. These three things that are critical to your life include:

- pH of your body
- blood-oxygen hemoglobin
- immunity system

Mycoplasma is a bacteriological pathogen which comports dead or dying cell tissue. It has no cell wall structure of its own and attaches itself to the dying cells moving from dying cell to another, ultimately attacking health cells as the immune system fights the invading bacteria. It survives on the dying cells lacking a healthy immune system that would normally kill off the mycoplasma under healthy conditions to kill it off. The three elements noted above become the body's frontline of attack. Vitamin D³ IV therapy is used outside the U.S. to kill the Mycoplasma in defeating what would be considered terminal cases. I take 6,000 IU of Vitamin D³ daily to ward off any signs of catching a cold from any of our grandchildren. Lindsey Williams recently aired a video he presented on the clinic in Mexico where he was treated with Vitamin D³ IV therapy. The FDA does not allow it here in the states, which to me is a sign that it works.

Before closing this article, I want to re-emphasize my original premise that this is an orchestrated Genocidal or "Depopulation" agenda. I have mentioned that Secretary of State Mike Pompeo brought focus to him by the remarks he made on March 21, 2020 about United States involved in a "live exercise". Secretary of State Mike Pompeo's slip of the tongue while addressing the American people from the White House when he stated that COVID-19 is a live military exercise really opened a can of worms he must be regretting to this day.

"This is not about retribution," Pompeo explained. "This matter is going forward — we are in a live exercise here to get this right." Since then American Intelligence Media has vetted Mike Pompeo and raised serious questions about Mike Pompeo's loyalty, and that he is a member of the British Pilgrim Society. If the American Intelligence Media information is confirmed it is likely that Secretary of State Mike Pompeo was groomed by agents of the Queen to infiltrate the American government to influence the U.S. on behalf of the Queen, and her Privy Council; and I should not forget the House of Rothschild. What I know along with this latest revelation offers additional confirmation that 5G was directly linked to the events of what occurred in Wuhan, China as a false-flag intended as a Beta-test or dry run to see how effective they could pass off wireless 5G as a virus (cover story) of one sort or another. At best 5G was intended to weaken the immune systems of people in general, and at worst to be a mild experiment of genocide. We know that the Corona virus was "weaponized" and three strains were discovered in the United States by July of 2020.

"This is not about retribution," Pompeo explained. "This matter is going forward — we are in a live exercise here to get this right."

If it's not about retribution then what is it about? What kind of exercise? What was the purpose of the exercise? What has to be gotten right? These are just for starters about our questions we know nothing about nor our concerns put to rest.

The larger context of that statement included: Pompeo's statement might be misinterpreted when taken out of context. It is important to focus on the broader context of Secretary of State Pompeo's statement. The transcript is below. Pompeo was referring to China and China's Communist Party. This is the transcript. (emphasis added).

Speaker 29: (01:06:57)

Yeah, so we were alerted by some discussions that Dr. Redfield, the director of the CDC had with Chinese colleagues on January 3rd. It's since been known that there may have been cases in December. Not that we were alerted in December.

Speaker 28: (01:07:13)

Mr. President, the other question I have for you, when-Donald Trump:

(01:07:15)

Excuse me, we'll do that in a second. Let Mike-Sec. Pompeo:

(01:07:18)

May I just say one more thing. There's been some discussion about China and what they knew and when they knew it, and I've been very critical. We need to know immediately the world is entitled to know. The Chinese government was the first to know of this risk to the world and that puts a special obligation to make sure that data, the data gets to our scientists, our professionals. This is not about retribution. This matters going forward. We're in a live exercise here. To get this right. We need to make sure that even today the datasets that are available to every country, including datasets that are available to the Chinese communist party are made available to the whole world. It's an imperative to keep people safe. We talk about the absence of datasets, not being able to make judgments about what to do.

Sec. Pompeo: (01:08:02)

This is absolutely, this transparency, this real time information sharing isn't about political games or retribution. It's about keeping people safe. And so when you see a delay in information flowing from the Chinese communist party to the technical people who we wanted to get into China immediately to assist in this, every moment of delay connected to being able to identify this risk vectors, creates risks to the people all around the world. And so this is why it's not about blaming someone for this. This is about moving forward to make sure that we continue to have the information we need to do our jobs.

The previous two paragraphs are loaded statements, and perception is critical here. Perception is based upon our experiences and such experiences form what we understand as reality. Perception is critical and our experiences form our reality in the process of analyzing our nemesis. In this case we are weighing how the elite plan to deal with their problem of there being too many of us! I do not have a good perception of Secretary of State Mike Pompeo, who openly said as the head of the CIA, *"We lied, we cheated, and we stole!"*

In my analysis, this event is the prelude of something much bigger, perhaps days or weeks ahead. Nonetheless, the leaked 5G Strategy Plan is real and has not been cancelled according to the source of its leak, and thus we need to be alert to what occurs in the days and coming weeks ahead. The global elite and the WEF want humanity locked down for various reasons. Various suggestions have been considered and it can be known why when it comes to the 5G "Smart Meters". They have previously been hit with Directed Energy Weapons (DEW) causing the meters to explode and burn down the homes they were attached too. Note the fires never touched much of the trees and green area of peoples' homes.

As to the portion of the 5G Strategy Plan, we need to remember all of the cell towers were built to specifications where each tower could produce 250,000 watts of energy for 3G and 4G wireless communications. I have seen close-up the power cables from their energy-source and we are talking cables 8" and 10" in diameter. That is far more energy capacity than needed to send a single watt cell signal 25 miles to another tower, so I must conclude they are already capable of delivering punishing levels of wireless

energy. I will attach the 5G Strategy Plan that was sent to me three months ago, keep it for a reference point if you begin to experience any of the symptoms provided in the 5G Strategy Plan. We do not know when the plan will be executed, likely weather dependent since delayed from a few days ago.

Those with already weakened immune systems are more vulnerable for successive wireless energy attacks. People who get flu shots every year build up an accumulation effect from repeated vaccines that weakens a healthy immune system. The individual immune system attacks anything that has been injected into the human body, recognizing it is not natural to the human biome. We know from the data and statistics, 90% of the so-called Covid-19 were over the age of 65-70 and nearly all had comorbidity issues such as heart, lung, kidney, liver, issues.

Our only hope is that God will intervene in this and rapture His elect home before the WEF and their New World Order get their answer to the world's #1 problem!

Blessings,

Addendum Below Subject of The 5G Strategy Plan

5G Strategy and Agenda

Smart Meters

NOTE: Average Smart Meter (4G) is ~7 gigahertz. Airport security scanning machines are ~10 gigahertz. [Smart Meters unlike cell towers are not installed nationwide. There are 300,000 cell towers across the country.]

Day 1 (October 28th)

Meter 10 gigahertz – People are not noticing that their smart meter has been slightly cranked up.

Day 7 (November 4th)

Meter 20 gigahertz – Some people are now noticing change in frequency but do nothing.

Day 10 (November 7th)

Meter 35 gigahertz – At this frequency, electrons on oxygen are spinning and people

begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus.

Day 10-14 (November 7th thru 11th)

Meter 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, the majority (~75%) of people are dead.

Day 15-18 (November 12th thru 15th)

Meters 50 gigahertz. By Day 16 ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, life is still surviving. (People living on the fringes of the “safe” zone are now dead.) People living deep inside the “safe” zones, may not know it, but they are now trapped inside the “kill” zone.

Day 19 (November 16th)

“Kill” zone meters cranked up to 60 gigahertz. There are people still alive deep inside the “safe” zones inside the “kill” zone. They believe they are still safe. The 60 gigahertz frequency surging through the “kill” zone smart meters causes mass explosions and all the houses and buildings in the “kill” zone burst into flames and are reduced to ashes.

People deep inside the “safe” zones are absolutely terrorized (planned agenda) out of their wits as they witness the “kill” zone holocaust.

Day 20-21

(See Cell Towers Agenda for how people in the “safe” zones die.)
Go to Tower Agenda (next page)

Cell Towers

Day 1-9 (October 28th thru November 6th)

Cell towers in the “kill” zones 10 gigahertz. People are experiencing effects, for example, ringing in ears, headaches and other signs of the 4G. Some may complain but the majority of people will go on with their daily lives. Cell towers in the “safe” zones 4G (7 gigahertz).

Day 10 (November 7th)

Cell towers in the “kill” zone 35 gigahertz – At 35 gigahertz, electrons on oxygen are spinning and people begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 10-14 (November 7th thru 11th)

Cell towers in “kill” zone are 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, ~75% of people are dead. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 15-17 (November 12th thru 14th)

Day 15, cell towers in the “kill” zone 50 gigahertz. By Day 16, ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, people are still alive. (People living on the fringes of the “safe” zone are dead.) People who are alive deep inside the “safe” zones do not know they are now trapped inside the “safe” zone. Cell towers in the “safe” zones still 4G (~7 gigahertz).

Day 18-21 (November 15th thru 18th)

Day 18, “kill” zone towers cranked up to 60 gigahertz. Absolutely nothing will be able to survive in the “kill” zone now. People are still alive deep inside the “safe” zones. They believe they are safe. However, they begin to experience oxygen deprivation from the effect of the “kill” zone towers’ 60 gigahertz frequency. “Safe” zone towers are still at 4G (~7 gigahertz).

Day 19 the same day “safe” zone people witness “kill” zone holocaust, “safe” zone towers are cranked up to 35 gigahertz. Terrorized and traumatized, “safe” zone people are feeling the full effect of oxygen deprivation. People panic as they realize they are trapped in a “kill” zone. Some try to escape out of the “kill” zone, only to be “cooked” alive by the “kill” zone towers’ 60 gigahertz frequency, an even more horrible and painful death than if they had stayed.

Day 20, painfully suffering from severe oxygen deprivation, the few remaining “safe” zone people are filled with anxiety and despair, as they realize they are dying and will share the same fate as those who were incinerated in the “kill” zone on Day 19th.

Day 21, ALL LIFE in the entire “kill” zone is dead. The “safe” zone meters are cranked up to 60 gigahertz. All houses and buildings in the “safe” zone immediately explode, ignite and burn and are reduced to ashes.

Day 22-50 (29 days)

Day 22, cell towers in the “kill” zone are cranking out 60 gigahertz frequency. Soon, all plant life in the “kill” zone will be “cooked” and dead. Anyone attempting to enter the “kill” zone will die within two days.

Day 50, the cell towers in the “kill” zone are shut down. Not until **one year** has passed will the “kill” zone have enough breathable oxygen to sustain life.

If you doubt for a single moment that this is not about the Depopulation agenda, then go search up “The Georgia Guide Stones” in Elberton, GA. When you read the first New Age commandment, ask yourself how is it they will get rid of 7-Billion people?

These ten New Age commandments read,

1. Maintain humanity under 500,000,000 in perpetual balance with nature.
2. Guide reproduction wisely—improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule Passion—Faith—Tradition—and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.

6. Let all nations rule internally resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth—beauty—love—seeking harmony with the infinite.
10. Be not a cancer on the earth—Leave room for nature—Leave room for nature.
