5G, the Mark of the Beast, and the UPC Code

Chapter 13

Bill Gates Funded Digital Identity Based On Your Vaccination History

To move through society beginning 2021 you will be required to have a “Self-Sovereign Identity” issued by a corporation in the Covid Credentials Initiative (CCI) where you will be tagged in the Trust Over IP Foundation’s “person under guardianship” through the Identity for All Council, just to have a job or enter a supermarket. The best part of this insanity is that you will need to pay monthly to keep your credentials active. Central Bank Digital Currency will be deposited into your cloud-based digital wallet. If you have cash spend it or lose it in the near future. In fact, double-digit inflation will begin to eat away at people’s savings. The U.S. will have no choice but to default on the national debt. This last item was part of the grand global plan.

In the last chapter, the focus was on the Gates Foundation and their strong-arm tactics and use of wealth to coerce African and Asian countries to submit to the Gates idea that “good health comes from a syringe needle.” The chapter was long but comprehensive to show what really goes on behind the scene in the world of big pharma and corporate greed. Mr. Gates comes across to many as the savior of humanity, yet his life is governed with one thing in mind, control of humanity, and eugenics or the mission of the Club of Rome, i.e., “depopulation”, which was determined in 1972. Paul Ehrlich’s book, *‘The Population Bomb’*, published in 1968, set off the craze of the population explosion. It was required reading in a course I happened to take in college on “Population Demographics”. The U.N. commissioned the founding of The Club of Rome. By 1972, the world was being driven by what was believed to be runaway population growth.

More and more sites are referring to Bill Gates ID2020 as the forthcoming “Mark” of the Beast mention in Revelation 13, and rightly so. The [Trust Stamp is a vaccination based digital identity program funded by Bill Gates](#) as the “Mark” of the Beast. The Trust Stamp will be implemented by MasterCard and GAVI that will soon link your biometric digital identity to your vaccination records. The program said to “*evolve as you evolve*” is part of the Global War on Cash and has the potential of dual use for the purposes of surveillance and “predictive policing” based on your vaccination history. Those who may not wish to be vaccinated will be locked out of the system based on their trust score. The United States is adopting the Chinese Social Credit Scoring system, something akin to your Economic and Financial Credit system used to determine your credit in buying a home or new vehicle. In China, their Social Credit score can keep an individual from flying on an airline, or getting a ticket on one of its high speed trains that transit China’s vast interior land. The “Mark” of the Beast will be encompassed the following:

- [5 Digital Identification Program ID2020](#)

The Bill Gates’ funded program that will create your digital identity based upon your vaccination history is coming together in warp speed! The creativity of Lucifer is simply amazing and most ingenious. At the close of this chapter, I will include the links to the previous eleven chapters and five appendixes to this entire series, which began six years ago. It covers “666” from its inception origin in Babylon up to the present in 628 pages plus these last two chapters. I put it onto an eBook CD two years ago; however, knowing there would be a new chapter or two needed to wrap up the ubiquitous “666”. I have had unfinished sketches and drawings on my work table for the past two years, laying there waiting for the missing pieces and links which tie this Satanic master plan from hell for the enslavement altogether.

Before I discuss on the five elements noted above, it will be useful to share information that has become public in the past month. This is so important in understanding how relevant “666” is today! This is far more insidious than you can ever imagine. I will share with you the definition of “insidious” so that you get the flavor of what has been stated: The word is an adjective and means – “proceeding in a gradual, subtle way, but with harmful effects.” This is the headline of a headline just a week ago: **U.S. National Library of Medicine Study: 5G Technology and Induction of Coronavirus in Skin Cells, July 23, 2020.** The NIH removed this from their files and library site in less than five days once it became known, its removal implies they don’t want us to know what it contains or means!

I have been writing on the issue of 5G technologies for several years now and how it will tie into the Antichrist Beast System. I probably know as much about this EMF system to be able to see the potential long-term application and implications for humanity. I have read more than a dozen books on the dangers of EMF not to mention reading literally hundreds of position papers that others have written. I had a personal interest in this 5G technology. I am precisely 2,500-feet from an AT&T cell tower, and have Lymphedema. We rent the United Methodist Church parsonage where I was the resident pastor during 1992-1996. When we lived here thirty years ago there was no cell tower standing at this location. We moved back in October of 2014, and within two weeks I began to experience symptoms of EMF non-ionizing radiation. On the chart of health issues associated with cell tower microwave radiation 5G technology found on the next page, I experience eight of these symptoms listed, and I have taken measures to mitigate the EMF non-ionizing radiation; however, I have not eliminated it completely.

For example, I wear a copper bracelet on each wrist and when working on my computer I wear an anti-EMF hoodie that covers my head down to my shoulders, which protects the area of my lymph glands. Copper is the second best ground of electricity and EMF

toxic non-ionizing radiation. I have put Shungite stones in several locations around the house which are also effective grounding for EMF toxic energy from the Wi-Fi.

The State of Hawaii just ordered a hold on any installation of **5G** technology until further testing has determined its safety. The telecom industry has a \$59-billion dollar investment that they will not give up on without a fight. About half of the nation's population are hyper-sensitive to EMF and most do not know it. Since EMF is invisible, it never occurs to people that their health issues may be the result of cellular communications EMF radiation.

After I read Dr. Arthur Firstenberg's book, *'The Invisible Rainbow'* I began to investigate my own leg problems. Many health issues, including newly named ones, are a consequence of exposure to cellular EMF. With the installation of the so-called "Smart" utility meters there has been an increase in health issues, and has generated public interest and concerns. There are numerous reports about the "Smart" meters exploding and starting house fires in California. The insurance industry is watching this issue closely.

It became known in late June of 2020, that the National Institute of Health's (NIH) Library of Medicine contains several alarming papers on **5G** technology and its impacts to the human body. The Abstract contains an important summation for the non-technical reader. Read it and consider what this means for the "Mark" of the Beast:

The abstract below is just that, an abstract of a much greater study conducted by three world scientists researching the effects of **5G** technology. The difference between **5G** and earlier cell technology comes down to the narrow signal range. Earlier cell technology sends out a wider range signal, the **5G** millimeter wave is concentrated into a tight narrow signal beam, similar to that of a classroom LED pointer pen to shine a red or green light on a classroom black board. [\[The NIH has just removed the document below from their files in an attempt to hide the truth about Electroporation through 5G technology!\]](#)

The scientists study confirms what experts in the field of radar have known since the 1950's, and that **5G** EMF emits an energy level that can penetrate the sweat glands and break down our DNA. The same **5G** EMF makes the water molecules in your body dance and modify human DNA. Our physical bodies are approximately 80% liquid. **5G** technologies have the capability of modifying, or changing one's DNA. In a fast forward way here, it becomes a real possibility that **5G** energy will be the link between the "Mark" of the Beast, and those who control the Satanic hybrid person that is half human and half beast. So what I am saying here is that **5G** energy becomes the means by which humanity will be enslaved. **5G** through satellite antenna will be the energy source controlling your lives. If you read any of my recent articles, I wrote one on the "invisible" space fence that will keep you on your property like the "invisible pet fences" keep pets from running away!

Abstract

In this research, we show that 5G millimeter waves could be absorbed by dermatologic cells acting like antennas, transferred to other cells and play the main role in producing Coronaviruses in biological cells.

DNA is built from charged electrons and atoms and has an inductor-like structure. This structure could be divided into linear, toroid and round inductors.

NIH Study 5G Technology Induction of Coronavirus In Skin Cells

Inductors interact with external electromagnetic waves, move and produce some extra waves within the cells. The shapes of these waves are similar to shapes of hexagonal and pentagonal bases of their DNA source. These waves produce some holes in liquids within the nucleus.

To fill these holes, some extra hexagonal and pentagonal bases are produced. These bases could join to each other and form virus-like structures such as Coronavirus.

To produce these viruses within a cell, it is necessary that the wavelength of external waves be shorter than the size of the cell. Thus 5G millimeter waves could be good candidates for applying in constructing virus-like structures such as Coronaviruses (COVID-19) within cells.

There is huge pushback coming forth on what this research document is saying, and I expect it will come in many areas. PC Magazine debunked it on July 24, 2020. It previously attempted to debunk 5G in an April 13, 2020 report. The title of the latest PC rebuttal reads: [Debunking 5G-Coronavirus Conspiracies \(Again\)](#) They have done a poor disinformation effort that only ignorant people will be fooled by their content. They count on the untrained mind to be placated and dismiss its meaning. The rebuttal by PC Magazine made it seem that 5G is harmless. Far from the truth as any trained scientist would tell you!

We know the prescribed PCR tests are not detecting the COVID-19 genome. According to the CDC's own literature, the tests do not rule out bacterial infection or other viruses. They are detecting all varieties of coronavirus, including the common cold - and counting it as COVID-19.

And it has been pointed out for months that the geographical locations experiencing the most cases of COVID also seem to have active 5G technology. After a video went viral, in which David Icke suggested that 5G is somehow responsible for positive cases of COVID-19, YouTube deleted it and began deleting all videos on the subject, including a video that pointed out how on October 30th of 2019, Wuhan became the first major testbed of 5G technology. There has been a huge clamp down by Google and Facebook to block anything drawing a connection between 5G and the Corona virus.

In late June, another new research paper entitled, "5G Technology and Induction of Coronavirus in Skin Cells" was published. This paper gives a scientific explanation of the relationship between 5G technology and the coronavirus.

Unlike 4G or other radio waves, the 5G millimeter waves can penetrate the nucleus of a cell. The DNA then acts as an inductor. It reacts to the 5G waves by producing an electromagnetic field. This electromagnetic field produces holes in the cellular liquid. hexagonal/pentagonal voids are created in the nucleoplasm. And to remedy this disturbance, extra bases are created to fill the voids. These bases then join together, to produce coronavirus-like structures in the cell, which will "read" as a positive case of COVID-19. Recall my mention of that new word "Electroporation".

THE EXOSOME

The exosome was discovered in 1983. Exosomes are created naturally within the cell to clean and repair cellular damage. Both exosomes and COVID-19 are the same size and shape. They both have the same ACE-2 receptor. And they both contain RNA.

Exosomes behave and appear the same as a virus. Some scientists even claim that the so-called virus is, in fact the exosome.

Since the discovery of the exosome, over 200 microbiologists have been murdered, committed suicide or died in a suspicious manner.

If you question this mystery, you're undoubtedly labeled a "Conspiracy Theorist". And if you question the unproven Virus Theory, you're labeled a "Science Denier". The unproven "Virus Theory" deals with the fraud and deception of one Louis Pasteur.

Pasteur extended the germ theory of fermentation to human and animal diseases, and speculated that diseases are also the result of germs growing in the body. With this in mind, he investigated several diseases including pébrine and flacherie in silkworms, chicken cholera, anthrax in sheep, and rabies in humans. He further developed Edward Jenner's idea of vaccination, and was the first to develop and use an artificially weakened microbe as vaccine in the form of rabies vaccine. He also inspired other scientists to investigate diseases using this approach, and the rest is history.

The problem with Pasteur's "Virus Theory", he could never demonstrate or prove it existed at all, and recanted in his writings in his journals. This issue remains the key problem for Dr. Anthony Fauci and Bill Gates in their fraudulent research work. They cannot prove the Corona virus actually exists. In the effort to cover their deceptive tracks, they attempt to do what the Nazi propagandist, Joseph Goebbels did – keep telling the lie, loud enough and long enough and people will soon believe it to be so! Dr. Judy Mikovits exposed Dr. Fauci in his fraudulent work on HIV/AIDS. I am reading her book 'Plague'. The Jesuit-trained Dr. Fauci destroyed Dr. Judy Mikovits career as a new scientist at the NIH when she was doing the work at Fort Detrick, MD. Dr. Fauci stole her research work and claimed it as his own with a Dr. Robert Gallo.

What we have now is an exposed corrupt government bureaucrat trying to cover-up his theft of a subordinate employee's work, yet unable to prove the "Germ Theory" called the Corona virus even exists. His corruption has "flat-lined" the global economy, and responsible for the deaths of countless human beings. His partner-in-crime Bill Gates is out there selling Dr. Fauci as someone we have to pay attention to or millions will die needlessly!

The only socially-acceptable solution that you're allowed to accept is an experimental vaccine that will alter your DNA, which ultimately raises the question, "Who owns your body?"

Let me take you on a trip back memory lane to 1996, when unknown agencies began to spray what are commonly called "Chem-Trails" in the atmosphere. Dane Wittington of Geo-Engineering Watch.org. is the chief web site reporting on weather modifications and the harm to our environment and humanity. Cliff Carnicom, a former research scientist for the government, who lives in Santa Fe, NM, began monitoring and writing about "Chem-Trails" around 2000. Clifford was the first in differentiating "chemtrails"

from “contrails,” he noted that contrails from jets occur in cold dry air and disburse quickly, and while unlike chemtrails which stay visible for long periods of time in the sky.

My interest in this came when I read Cliff’s book on this aerial spraying. We would see the white streaks in the sky and throughout the day the streaks would flatten out and result in an overcast appearance in the sky above for the rest of the day. The spraying occurs day and night, rain or snow. To make a long story short, the major heavy metal found in the “chemtrails” is aluminum. The U.S. Air Force has a name for this spraying – it is called “Operation Cloverleaf” and allegedly is supposed to block out the Sun’s rays and help fight ‘global warming’. They changed that term to ‘climate change’! You can’t make this stuff up folks!

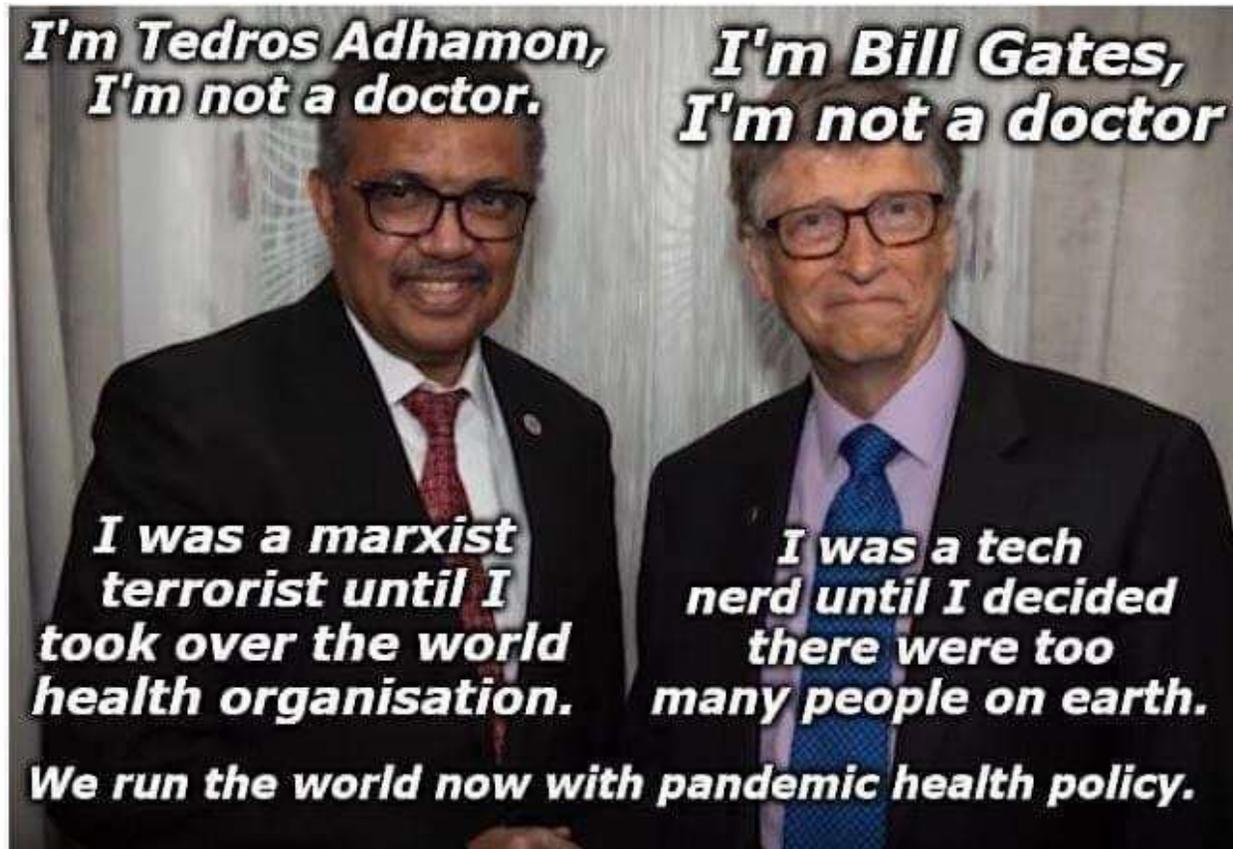

One thing for sure we do know is that it reduces natural vitamin D³ that comes with the Sun’s rays, a necessity for a healthy immune system. Coincidentally, in the past twenty years, vitamin D mysteriously began disappearing from milk and dairy products in the grocery stores. It was only brought back when the public complained about its disappearance in milk at the grocery store. It is estimated that 40% of Americans have a deficiency in vitamin D, and even the FDA’s RDA levels are half of what is needed by active human beings. The FDA’s RDA or recommended daily amount is only 400 IU’s of Vitamin D. I personally take 4,000 IU’s of Vitamin D³ supplement, from September 1st until May 1st, and during the summer months I take 2,000 IU’s. I am in my mid-80s and maintain a healthy optimum immune system. The late Dr. Stanley Montieth, an orthopedic surgeon used to say he took as a daily routine 5,000 IU’s of Vitamin D³. Dr. Stan taught me a lot on staying healthy over the years as well as educates the public on the machinations of the New World Order crowd.

Vitamin D was first added to milk in the 1920’s in America (and the UK), in the early 1900’s they were seeing a rising epidemic of rickets, a vitamin D deficiency in children characterized by a softening of the bones. These softened bones would lose structural integrity and result in a “greenstick” fracture (like trying to break a green stick, one side would shred while the inside would bend.) They introduced Vitamin D to milk in the early 1920’s, and as a result rickets became a rare condition.

Vitamin D³ has been increasingly in the news (since around 2007) as a wonder vitamin, having many health benefits including the increased absorption of calcium. People who live above the 34th parallel latitude, (from Los Angeles to Phoenix and Birmingham, Ala. to Columbia, S.C.); where it is difficult to get their vitamin D sources from sunlight 365 days a year, because the Sun is not strong enough from October to May. And, when you wear sunscreen, it prevents the body from making vitamin D. Regardless of the season most people cannot get enough exposure to the Sun in order to avoid a vitamin D deficiency. Hence vitamin D deficiency is very common, especially those with dark skin, such as Afro-Americans, Latinos, and Native Indians.

The evil dynamic duo of Dr. Fauci and deep pockets Bill Gates, continually have refuted nature’s methods of good health, vitamins and supplements, proven to be efficacious (effective), safe, and at low-cost. They have even gone so far as to try and get the FDA

to label vitamin D³ as a 'drug'. Fortunately, even the FDA knows that would not fly! I do not have a medical degree but when I first read the news story about their attempt to get vitamins labeled as a drug, it showed just how these low-lives can go to deceive and hoodwink people!

During this global plan-demic crisis over Covid-19, organizations like the CDC, NIAID, WHO, were critical of people taking vitamin supplements to ward against Covid. Yet, well-known and respected alternative medicine stressed the importance of taking Vitamin C, D³, Elderberry, and Zinc for optimum immune health. I have been a health conscious person since I was about 45, four decades ago. It comes as no surprise to hear the likes of Bill Gates, Drs. Fauci, Birx, and Redfield, say we have to have a vaccine, and it may require many does to stop the plan-demic.

Folks, remember this guy who gets so much exposure in the media, has no qualifications whatsoever, zero, nada, to be a credible source of telling others what they must do to avoid getting the Covid-19 virus. The meme above shows that this smirky faced college dropout isn't qualified for anything when it comes to public health and safety. He dropped out of Harvard in his second year of what was to be a career in the practice of law. His family legacy for ever will be in Eugenics and Planned Parenthood.

In recent months, Robert F. Kennedy, Jr. has led an effort to expose and let the world know, Bill Gates is not a good source of anything when it comes to vaccines and public

health, and leaves behind a series of failed vaccine efforts in multiple countries that have resulted in maiming hundreds of thousands of children and death of thousands more.

Everything to this point has been to provide background evidence that I believe confirms we have arrived to the “Mark” of the Beast. The five points that follow become the building blocks of what will be passed off as an integral part of the New World Order. Below are the six passages of Revelation that were given specifically to the Apostle John by Jesus Christ. You need to make your own decision with the best information available. Keep these six passages in mind as you read what I share in the information on the technology outside the public realm.

“And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.”—(Revelation 13:17).

“And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name.”—(Revelation 14:11).

“And I saw as it were a sea of glass mingled with fire: and them that had gotten the victory over the beast, and over his image, and over his mark, and over the number of his name, stand on the sea of glass, having the harps of God.” – (Revelation 15:2).

“And the first went, and poured out his vial upon the earth; and there fell a noisome and grievous sore upon the men which had the mark of the beast, and upon them which worshipped his image.” -(Revelation 16:2).

“And the beast was taken, and with him the false prophet that wrought miracles before him, with which he deceived them that had received the mark of the beast, and them that worshipped his image. These both were cast alive into a lake of fire burning with brimstone.” -(19:20).

“And I saw thrones, and they sat upon them, and judgment was given unto them: and I saw the souls of them that were beheaded for the witness of Jesus, and for the word of God, and which had not worshipped the beast, neither his image, neither had received his mark upon their foreheads, or in their hands; and they lived and reigned with Christ a thousand years.” -(Revelation 20:4).

I see these six passages of Revelation as being a post-Rapture event, upon the evidence of some 300 verses of Scripture that speak to the Typology and “theme” of “Deliverance before Judgment”. I qualify this so as not to frighten anyone any more than need be with the likes of the evil duo of Fauci/Gates.

These six verses are everything found in the Bible pertaining to this enigmatic “Mark” of the Beast. If you have read my series on this up to this point, then you saw how this thread has evolved from ancient pagans of Babylon to become a sign of multiple strange physical manifestations over the centuries. Above all, since 1972 when George Lauer of IBM developed the UPC bar code, we have seen the universality of the UPC bar code as a device to “identify” cans, boxes, parcels, auto parts, tires, and to assert control over various functions in day-to-day life.

Many years ago, my wife and I with visiting friends from Pittsburgh, we did a tour of the Corvette plant in Bowling Green, KY. Every item that went into the production line of each brand new Corvette had a sticker on it with a UPC bar code. At that time, every Corvette rolling off the assembly line was a custom “special ordered” Corvette. I chatted with a young man taking the tour and as it turned out was a customer who came that day to pick-up his brand new Corvette at the plant later that day.

In the early days of the grocery checkout process required items placed on the checkout belt to be keyed-in on the cash register, and clerk errors was a common problem we had to deal with. I was a Kroger co-manager during the testing stages at advent of the UPC bar code system.

Initially, items had to be readable right-side up facing the scanner, industry beta-testing led to a simple modification so that the scanner could read both ways, right-side up or wrong-side up, which quickly solved the problem. Since **666** is also **999** upside down, the start-stop-start bars’ size was lengthened and ever-so-slightly altered in its width, and hardly noticeable. End of story and it has worked perfectly since 1974.

We have Wi-Fi in our living room, where our router is located, and I have a small remote wireless antenna which plugs into a USB port on my PC. If one looks close they can see the sticker on the side of the wireless antenna, and it had one of the UPC code

derivatives. The ink has rubbed off from my removing it every night. I have a spare which is readable and the UPC bar code is plain as day. Right there you have all the proof one needs to know that UPC bar code is on every gadget, device, printer, fax, antenna, mouse, keyboard, cell phone, etc. Each of these has an identity number that enables the item to operate or function once its software is loaded to your lap top computer or PC. Without that identity number (which bears the start-stop-start step instructions) nothing can take place or function.

Now, I know that might seem as somewhat of a letdown today; it was for me when the reality of it hit me several years ago, All these centuries people have been looking for this “elusive” mysterious “Mark” of the Beast, someone with their name in Biblical numerical gematria; which we do have that in Prince Charles of Wales! I found it almost humorous in a way. But as best I can determine, there is no other way to interpret it. The “Mark” of the Beast is **666** and **999** upside down! It is the only number that can be used in both forms. The evidence for Prince Charles of Wales being Mr. 666, again hard to believe, is found in Tim Cohen’s book, *‘Antichrist and A Cup of Tea’*, and in extensive detail in Part 6 of my series, **“The Satanic Talmud and the Synagogue of Satan”**. This is a Masonic entity we are dealing with. The Luciferian system is foundational with Freemasonry, Zionist Judaism, and the Jesuit Vatican, “Dualism” pervades Masonic thinking, application, and meanings!

“Biotechnology can be classified as the cloning of animals with identical genetic composition or genetic engineering (via recombinant DNA technology and gene editing) to produce genetically modified animals or microorganisms. Cloning helps to conserve, species and breeds, particularly those with excellent biological and economical traits. Recombinant DNA technology combines genetic materials from multiple sources into single cells to generate proteins. -(*Journal of Animal Science and Biotechnology*)”.

Genetically-modified organisms can be patented and owned. Monsanto owns the GMO seeds for BT corn and other crops. Once DNA vaccines are used on humans — and it has never been done before — humans could possibly be “owned”. We could in theory be “patented”. Anything in nature that has been modified can be patented; i.e., Monsanto BT corn!

None of this has been discussed at length, and very little about this is known publicly. No randomized placebo-controlled trials have been conducted, that we know of. Vaccine manufacturers are exempt from these and many other safeguards. They operate in a world of secrecy.

In 2010, the Defense Advanced Research Projects Agency (DARPA) admitted that this type of technology can be used to “enhance and subvert” humans at a genetic level.

Hydrogel nanotechnology is injected beneath the skin. It can interface with cell phones and Artificial Intelligence to monitor basically everything within the body, including anxieties, emotions, ovulations, vitamins etc. etc. Celeste Solum (Bishop) has stated that this is in the agenda of the World Economic Forum and discusses this in her

videos. Celeste has been the key to getting below the surface of DHS, FEMA, and the WEF's 4th Industrial Revolution from her years of employment at DHS and FEMA as a manager.

Once implanted, the technology spreads throughout the body. Scientists do not know how this affects our DNA. Again, we have no proof that it hasn't been or isn't being done.

Recombinant RNA and DNA technology will, argues Dr. Madej, cause permanent and unknown genetic changes in a person's body.

Will it create a new species and destroy an old one? This has profound implications given the platform being revealed in the five areas highlighted below. What I said on this in chapter 12 is now before us in ways never considered and so I will repeat some of what I shared in chapter 12.

Covid-19 is not a hoax. It is really only a label or tag like other so-called viruses. Instead, let's understand that it is manufactured, a false flag, a manmade created, orchestrated and very real event. No one would say 9/11 was a hoax, but it was a false flag to start the world on the path toward this "new normal" that we are running headlong into right now. A hoax is a deception. There is no deception about the consequences of this virus. Covid-19 is very real and very real people are dying from its impact from the worsening of chronic diseases already present in their bodies.

The greater plan is to create a hybrid race of demon-humans such as existed in the days of Noah called 'Nephilim'. Judaism's Satanic Talmud clearly points to the coming Antichrist as a Nephilim. And if you're going to be in his image, you also will be a Nephilim, through a GMO process.

When you take the vaccine they have chosen you will become a product of the New World Order because you will now have become a GMO – a genetically modified organism! Think about this. You will no longer be a human but a genetically modified entity owned by a corporation because you allowed them to put into your body a vaccine with an ingredient that can modify you God-given DNA!

Your product code – your personal signature (UPC) bar code – will come from the RFID tracking number on the vaccine dose! This vial of the Hydrogel will have an assigned identity unique to you, like no other human being!

Dr. Madej did a fascinating job of explaining the "what" of the coming vaccine, even explaining how living humans will experience DNA changes. However, she did not explain the "why". It's not about money or even power per se. **It is about creating a new trans-human race of beings whose souls cannot be saved by God! This is a spiritual issue.** This is going to be difficult for many non-Christians to understand and grasp. They are lost for eternity if they do not read their Bible, or what I have been sharing in my series on **666/999**.

The truth is scientists are doing Satan's work of creating a race of Nephilim – half human, half demon – beings whose souls cannot be saved. That is why taking this vaccine means you may have taken the mark of the beast. You will become not merely a “product” of the big pharma companies as Dr. Madej says, but a “beast”, not human. Beasts do not have redeemable souls! Only the human soul is redeemable. I noted Revelation 14:9-11 which speaks of these non-human souls in ways most likely were never considered. This is why I keep repeating, **DO NOT ALLOW ANYONE TO TEST YOU FOR THE ALLEGED COVID-19. DO NOT SUBMIT TO ANY FORM OF TESTING AND ABOVE ALL DO NOT VOLUNTARILY TAKE ANY VACCINES.**

The chief reason for God not being able to forgive those who take the “Mark” of the Beast is twofold. **First**, that person will have been co-joined “married” with Satan, i.e. will be in covenant with Satan, and Jesus Christ will not be coming to forgive people for it this time around. He or she will be in an unbreakable covenant with Satan.

Second, he or she will now be a Satan-modified/created “beast” whose soul is part demon. The demons are doomed to enter into and be tormented in the lake of fire. Go back and read those passages from the book of Revelation if in doubt.

Remember Jesus' words about the days of Noah? The days of Noah were all about the Nephilim. Satan had attempted to create a race of beings through his demons having sexual relations with human women. The product was a disaster which necessitated the Great Flood! Now, the demons – who, by the way are also those beings we call extra-terrestrials or aliens – are using technological breeding programs and have successfully introduced genetic altering technology to human science and medicine. The Nephilim spirit/soul cannot be destroyed but their souls remained. We now call them demons.

In related news reports we are seeing an increased reporting of UFO's, release of military documents that have been classified **TOP-SECRET** for decades, incredible pictures and videos from all over the globe; and a major source of information is the work of Dr. Steven Greer. I wrote an article months ago about what Dr. Werner Von Braun had told his personal assistant Carol Rosen before his death, and that not to believe in an alien invasion, which might be a hoax to deceive man!

Furthermore, the Satanic Jewish Talmud, in Judaism's own words, it has been revealed that the Jewish Antichrist is expected to be part demon, part human – a Nephilim!

These are the basic elements of what constitutes or makes up this electronic identity, call it what you will, but it will be the instrument we describe as the “Mark” of the Beast, but with a unique twist of meaning or reference by the **666/999** UPC bar code. We can safely say it meets all of the requirements noted in the six verses where the “Mark” of the Beast is mentioned found above on pages 8 and 9.

Keep in mind that since this is a global program designed to sweep up all of humanity, excluding no one, Clearly, in the larger scope of the “Mark”, it brings everything together under one roof, so to speak!

Bill Gates has led this campaign, working closely with IBM, since IBM bought out the “Digital Angel” in 2002. They have had nearly two decades to design, refine, test, and debut a ready-to-go digital means of identity. At their beck and call, they have had the best scientific minds in the world of technologies, I can’t even begin to imagine what all they have done in preparation to roll out the “Mark” of the Beast. Bill Gates has been loose in his comments, which suggests they will be boasting of its potential imminently. Gates talks in terms of generalities when discussing it but you can be sure he is chomping at the bit to tell us everything he wants us to know about his creative design will enhance life.

The “Wellness Pass” Partnership

With the aim of being introduced in “low-income, remote communities” in West Africa and later replicated worldwide; the program is the result of a public-private partnership between the GAVI vaccine alliance backed by Bill Gates, MasterCard and Trust Stamp which is an AI-powered “identity authentication” company. This provides us insights into the means the global government will be able to control all human life on the Earth!

This program was to be first launched in late 2018. Trust Stamp’s advanced digital identification technology will be integrated into the GAVI-MasterCard initiative “Wellness Pass” – a digital vaccination record and identity system which is to be also linked to MasterCard’s click-to-play system powered by MasterCard’s AI and Machine Learning technology. MasterCard made a commitment that it will create a “centralized record keeping of childhood immunization”. It also describes itself as a leader towards a “World Beyond Cash”. A centralized data bank for short.

The future prospects of this GAVI and MasterCard partnership is worth exploring. This partnership with GAVI signifies a novel strategy aimed towards linking a biometric digital identity system, vaccination records, and a payment system into a single platform that is cohesive, coherent and synergistic. It sounds really great to lots of Millennials!

Digital Health Passport

The program was launched two years ago and has been funded with \$3.8 million in the GAVI donor funds. In addition to this it received a similar amount from the Bill and Melinda Gates Foundation. It was in early June of 2020 when GAVI reported that MasterCard’s Wellness Pass program has the potential to be adapted in response to

the Coronavirus (Covid-19) pandemic. What do you suppose that statement suggests? A month after this, MasterCard announced that Trust Stamp's advanced biometric identity platform will also be integrated into the Wellness Pass. This was done taking into consideration the Trust Stamp's capability of providing biometric identity globally; even at places lacking internet access or cellular connectivity and also it does not require knowledge of an individual's legal name or identity to function. You could be at the North Pole and holding a UN flag and "in touch" through a **5G** satellite in Jerusalem, or New York, or Brussels. Do you remember those phone commercials, "Can you hear me now?"

The UK government is preparing to rollout [#COVIPASS](https://t.co/7mh378o4XR) – Biometric RFID enabled Coronavirus Digital Health Passports to monitor nearly every aspect of citizens' lives in the name of strengthening public health management via military grade tech. <https://t.co/7mh378o4XR>

This Wellness Program involving GAVI, MasterCard, and Trust Stamp is soon going to be tested in West Africa. Similar program was also launched in the UK. The UK government is rolling out [COVI PASS – Biometric RFID enabled Coronavirus Digital Health Passports](#) to monitor nearly every aspect of citizens' lives in the name of strengthening public health management through a military grade technology.

India funds Vaccine Cartel GAVI

The Indian government has pledged US \$15 million to the global vaccine alliance GAVI over the next 5 years for the global Coronavirus vaccine project led by Britain. GAVI is largely led by the British government and Bill Gates. While the UK is GAVI's largest funder, its implementation follows what is known as the "Gates approach". Known as the Vaccine Cartel or Pharma Cartel by critics, such vaccines have been accused of causing at least 38 million premature deaths worldwide.

While there is growing criticism against these organizations worldwide, India is again collaborating on similar initiatives on a coronavirus vaccine with the same Vaccine Cartel. A consortium comprising Serum Institute, Gates Foundation, MIT, and Spy Biotech (a UK based biotech company) is trying to develop a vaccine using the **new spy-tag vaccine** development technology. A long-term Merck and Wellcome Trust venture on vaccine research, policy and manufacturing will be based in Delhi. I'm still trying to get information on the spy-tag vaccine.

Trust Stamp's Evergreen Hash

Trust Stamp has created a biometric identity system, using the technology called Evergreen Hash. This technology creates a "3D mask" based on a single photo, palm or fingerprint of a person. With the creation of this "mask" the "original data" is eliminated and "encrypted keys" are created. These encrypted keys serve in place of a person's name, fingerprint, and all the other information used for identification.

All of these noted projects lead us to in the culmination of what Bill Gates is pinning his \$\$\$ on in his grand plan of enslavement of part man, part beat.

Digital Identification Program ID2020

The electoral commission of Ghana has been trying hard to put this idea into action before the general elections happens in December, 2020. The 'budget allocation' of the new system has been questioned. Bright Simons, the honorary VP of the IMAMI policy think tank, claimed that "unnecessarily registration of 17 million people all over again" signifies that millions of dollars are "being blown" for reasons that are unexplained. This remark is related to every human on the planet has a Social Security number. The global social security network, including that of the U.S. is controlled by the UK Crown. Some 189 countries are part of the global Social Security network owned and controlled by the Queen Mum herself through the Royal Privy Council.

An Italian politician has demanded arrest of Bill Gates in the Italian Parliament. Sara Cunial, MP for Rome denounced Bill Gates as a "*Vaccine Criminal*" and urged Italian President to hand him over to the International Criminal Court for crimes against humanity. <https://t.co/fDuMT8v1B1> This guy gets creepier by the day.

Bill Gates told CBS News that "**multiple doses may be necessary**" to protect Americans from the coronavirus — A disease that has a lower mortality rate in children than the seasonal flu. 42% of Covid-19 deaths occurred in nursing homes; and 97% of all Covid-19 deaths were aged 65 and older; and of all Covid-19 deaths had comorbidity issues that had them in the high risk category for death.

Gates said this could require over 7 billion vaccinations given worldwide

Microsoft co-founder Bill Gates said Wednesday, July 22, 2020 that people could need multiple doses of a potential coronavirus vaccine to immunize themselves from the coronavirus. If necessary, the multiple doses could require more than 7 billion vaccinations to be administered worldwide. Bill Gates knows quite well the 1st global goal enshrined on the Georgia Guide Stones down in Elberton, GA.

"1. Maintain humanity under 500,000,000 in perpetual balance with nature." This statement is direct, to the point, and seven billion of us "useless eaters" –(Henry Kissinger) are a burden on the planet's resources. This inscription should leave no doubt in anyone's mind as to what their real agenda is all about, even if it has to be done at the end of a needle under the guise of that it's for your health and well-being. Does that not sound like someone from the government coming to your front door and saying, "*I am from the government and I am here to help you.*"

The U.S. [President Trump] signed a \$1.95 billion agreement with pharma giant Pfizer and Germany's BioNTech for 100-million doses of their experimental COVID-19 vaccine that Americans will be told to accept early next year. RNA vaccines have never received regulatory approval because they never have been tested for safety of efficacy. RNA is a carbon or mirror copy of your DNA as I understand. A vaccine trial involving 30,000 healthy volunteers is supposed to occur later this month – but the money has been approved anyway as though those making the deal already know the tests will not be allowed to fail – no matter what the results. The government also signed other experimental vaccine deals, including a \$1.6-billion contract with Novavax for 100-

million doses, \$1.2-billion for AstraZeneca's new vaccine, \$456-million for Johnson & Johnson's new vaccine; \$486-million for Moderna's experimental vaccine; and \$6-million for Emergent Biosolutions' vaccine. Do think for one moment the 600-million does will be allowed to sit in a lab warehouse. Bill Gates has already managed to indemnify the pharmaceutical companies from law suits by those damaged by the vaccines.

An estimated 30% of Americans have said they will reject the vaccine. Trump said he will accept the vaccine. He mentioned that he knew several people who died from coronavirus, but he also admitted they were older and had other potentially fatal health problems. Trump said he "almost" prefers therapeutic drugs over vaccines but stands on his pledge to use the military to force the acceptance of vaccines as soon as they are available. Spending all that taxpayer money is an invitation for disaster! Even the barrel of an Army M-16 will not get me to let them inject me with their poisons!

It is the biggest deal to date under "**Operation Warp Speed**", intended to accelerate the development, manufacturing, and distribution of coronavirus vaccines, therapeutics, and diagnostics.

Pfizer and BioNTech, which are developing the drug together, said in statements that the American people would receive the future vaccine "for free" in line with the Trump administration's pledge. How so, since they paid for it with taxpayer funds?

Under the agreement, the U.S. government has placed an initial order for 100 million doses to be delivered if regulatory approval is granted. The U.S. government also has an option to purchase as many as 500 million additional doses from these two firms.

BioNTech and Pfizer have narrowed their vaccine candidates down to two frontrunners and are waiting for the green light to begin a mass trial involving 30,000 healthy volunteers, which may happen later by the end of July. If the studies are successful, they expect to receive some form of emergency approval as early as October 2020.

Earlier this month, they announced that early results showed their lead candidate produced neutralizing antibodies in humans at or above the levels observed in recovered COVID-19 patients. This was accomplished with relatively low doses and caused some side effects that were mild to moderate but transient, which is considered normal.

"We are assembling a portfolio of vaccines to increase the odds that the American people will have at least one safe, effective vaccine as soon as the end of this year," said health secretary Alex Azar of the deal.

"We are honored to be a part of this effort to provide Americans access to protection from this deadly virus," added Albert Bourla, chairman and CEO of Pfizer.

Labs around the world are racing to produce a vaccine to help end the worst health crisis in over a century. Globally more than 200 candidate vaccines are currently being developed with roughly two dozen at the stage of clinical trials with human volunteers. The profit motive drives the Beast plans!

The government is likewise investing in manufacturing capacity at its own risk, and spending hundreds of millions in companies that produce syringes, vials and medical glass-coated plastic containers.

The Pfizer-BioNTech vaccine method relies on using messenger RNA, genetic code from the SARS-CoV-2 that slips into human cells to produce a synthetic form of the virus' spike protein. Isn't that encouraging words?

But all of these vaccines are experimental, and bypassing the required protocols of testing on primates, before human testing is permitted. Traditionally, vaccine development requires upwards of seven or eight years of testing. All too many vaccines over my lifetime have proven to be disasters. The federal government has launched "*Operation Warp Speed*" to deliver a Covid-19 vaccine by January, months ahead of standard vaccine timelines.

I would be remiss if I did not tell you that the last time the government tried that, it was a total fiasco, a polite word for a disaster!

Gerald Ford was president. It was 1976. Early that year, a mysterious new strain of swine flu turned up at Fort Dix, New Jersey. One Army private died. Many others became severely ill and the nation's top infectious disease doctors were shaken.

"They were well aware of the ravages of the 1918 flu, and this virus appeared to be closely related," political scientist Max J. Skidmore wrote in his book *'Presidents, Pandemics, and Politics.'* *"The officials were concerned about a repetition of the tragedy, or the threat of perhaps an even more virulent pandemic."*

Ford raced to come up with a response, consulting with Jonas Salk and Albert Sabin, the scientists behind the polio vaccine, and in late March he announced an audacious plan for the federal government to produce the vaccine and organize its distribution.

"No one knows exactly how serious this threat could be," Ford said, with Salk and Sabin by his side, a shocking sight given the two scientists had become enemies over who should get credit for the polio vaccine. *"Nevertheless we cannot afford to take a chance with the health of our nation."*

Every American, Ford said, would be vaccinated. The government had never attempted such an endeavor — both in its breadth and speed. Almost immediately, there was chaos. According to Skidmore, a professor at the University of Missouri at Kansas City, insurers were concerned about liability and balked at covering the costs. Manufacturers the government wanted to partner with had similar concerns, prompting Congress to

pass a law waiving liability. It's very ironic that vaccine maker never want to stand behind their product should there be problems. They demand Congress pass a law to protect their behinds. This never speaks good of a product when its maker seeks legal immunity from being sued.

One manufacturer produced 2 million doses with the wrong strain. As tests progressed, more scientific problems emerged — even as there were few, if any, signs that a pandemic was materializing. In June, tests showed the vaccine was not effective in children, prompting a public squabble between Salk and Sabin over who should be vaccinated.

But President Ford was undeterred. He directed the vaccination program to proceed, announcing plans to inoculate 1 million people per day by the fall — an unprecedented timeline the government struggled to meet.

By mid-October, vaccinations were underway. Ford was injected by the White House doctor. His vaccination was a front page story with him being injected with a vaccine that turned out to be a disaster in the nation. Even a newspaper photo of President Ford with his shirt sleeve rolled up did not motivate millions to get the vaccine.

And then more problems emerged. There were reports of sporadic deaths possibly connected to the vaccine. Cases of Guillain-Barre syndrome also emerged, and are still cited today by the anti-vaccine movement. Panic emerged, with dozens of states pausing vaccinations.

By December, following 94 reports of paralysis, the entire program was shut down.

Almost immediately, in grand Washington fashion, fingers were pointing. Scientists and government officials turned on each other, with allegations that Ford acted recklessly for political gain without knowing for sure whether a pandemic would emerge — an impossible predictive game, his defenders argued.

The recriminations were fueled by the fact that the so-called swine flu pandemic hadn't materialized. History shows many other disasters with other vaccines pushed out on to the public with inadequate or poorly conducted studies for safety and efficacy.

Amid questions about the safety of the HPV vaccine Gardasil, one of the lead researchers for the Merck drug has been speaking out about its risks, benefits and aggressive marketing. Dr. Diane Harper says young girls and their parents should receive more complete warnings before receiving the vaccine to prevent cervical cancer. Dr. Harper helped design and carry out the Phase II and Phase III safety and effectiveness studies to get Gardasil approved, and authored many of the published, scholarly papers about it. She has been a paid speaker and consultant to Merck. It's highly unusual for a researcher to publicly criticize a medicine or vaccine she helped get approved.

Dr. Harper joins a number of consumer watchdogs, vaccine safety advocates, and parents who question the vaccine's risk-versus-benefit profile. She says data available for Gardasil shows that ... there is no data showing that it remains effective beyond five years. This raises questions about the CDC's recommendation as to why the series of shots be given to girls as young as 11-years old.

"If we vaccinate 11 year olds and the protection doesn't last... we've put them at harm from side effects, small but real, for no benefit," says Dr. Harper. "The benefit to public health is nothing, there is no reduction in cervical cancers, they are just postponed, unless the protection lasts for at least 15 years, and over 70% of all sexually active females of all ages are vaccinated." She also says that enough serious side effects have been reported after Gardasil use that the vaccine could prove riskier than the cervical cancer it purports to prevent. Cervical cancer is usually entirely curable when detected early through normal Pap screenings.

The CDC paid the Institute of Medicine to conduct a new study to whitewash the risks of thimerosal, ordering researchers to "rule out" the chemical's link to autism. Senate Majority Leader Bill Frist, who has received \$873,000 in contributions from the pharmaceutical industry, has been working to immunize vaccine makers from liability in 4,200 lawsuits that have been filed by the parents of injured children.

More than 500,000 kids currently suffer from Autism. The disease was unknown until 1943, when it was identified and diagnosed among 11 children born in the months after thimerosal was first added to baby vaccines in 1931. Autism has skyrocketed since 1989. Internal documents reveal that Eli Lilly, which first developed thimerosal, knew from the start that its product could cause damage -- and even death -- in both animals and humans. That did not stop them going forward with jabbing their poisons into young children.

It is this seeming absurdity that causes otherwise smart people to ignore or dismiss the obvious intent of this statement. But current events offer a reason to pause and consider. Is the Coronavirus (Covid-19) the pandemic to kick off this depopulation goal? Is there a nuclear holocaust in our future? Perhaps World War III while the ruling elite wait it out in their underground bunkers? The Bible suggests all of the above!

It's important to understand the meaning of these messages between the lines. Keeping the population in balance with nature presupposes that a population over 500 million somehow puts nature out of balance. Yet are people not part of nature?

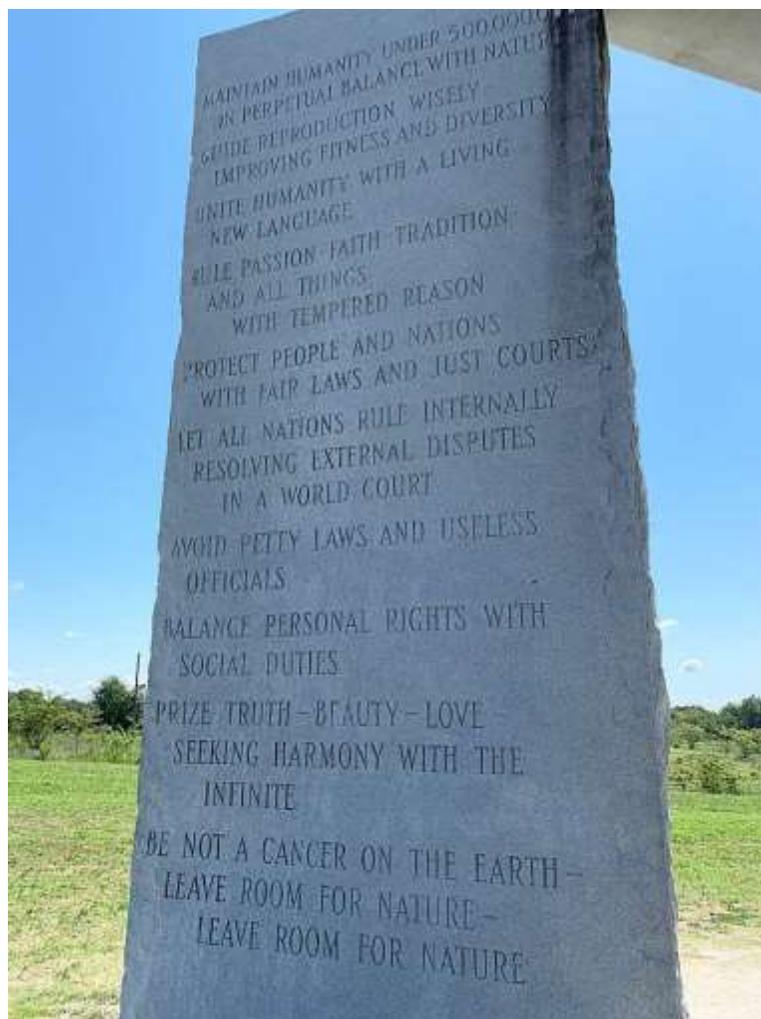

And just what does nature *"in balance"* look like? The guidelines also suggest that people are a cancer on the earth. By who's determination? This also requires that reproduction be prevented, except under the direction and control of the ruling class.

Who would argue with prizing truth, beauty and love? Or leaving room for nature? But who could accept the goal to reduce global population to an arbitrary 500 million? The global population today is estimated at 7.8 billion, which means the people who erected

this megalith want to kill off 7.3 billion people. Threats of pandemics become huge motivators for many groups and for various reasons.

Below is a picture of one of the granite pillars inscribed with the secular Ten Commandments just above the picture. The Georgia Guide Stones were erected in 1980. in Elbert County, Georgia, in the United States. These 10 guidelines is inscribed on the structure in eight modern languages.

1. Maintain humanity under 500,000,000 in perpetual balance with nature.
2. Guide reproduction wisely — improving fitness and diversity.
3. Unite humanity with a living new language.
4. Rule passion — faith — tradition — and all things with tempered reason.
5. Protect people and nations with fair laws and just courts.
6. Let all nations rule internally resolving external disputes in a world court.
7. Avoid petty laws and useless officials.
8. Balance personal rights with social duties.
9. Prize truth — beauty — love — seeking harmony with the infinite.
10. Be not a cancer on the earth — Leave room for nature — Leave room for nature.

“None of the vaccines at this point appear like they’ll work with a single dose,” Gates said. *“That was the hope at the very beginning.”* *“Multiple vaccine doses could be necessary to protect from coronavirus,”* Bill Gates says. <https://t.co/dZJa2UVJje>

([Natural News](#)) Operation Warp Speed is underway in the United States as the federal government moves forward with approximately \$2 billion in contracts with pharmaceutical and biotechnology companies to produce and deliver up to [300 million experimental vaccine doses](#) by January 2021.

In the meantime, state governments and health departments are coercing people into indefinite mask wearing, contact tracing, restrictions on personal liberty, and continued shutdowns and restrictions on certain activities, until new experimental vaccines are consumed in masse.

US President Donald Trump, seeking stock market growth for reelection, is caught up in a conflict of interest as he becomes Big Pharma’s greatest spokesperson to advance new biologics and RNA injections.

Big Pharma has over 170 covid-19 vaccines in development, but Bill Gates and Dr. Anthony Fauci [are pushing an experimental RNA technology](#) to the front of the line. This technology, delivered via injection, is a type of genetic engineering called germ line editing. Bill Gates has been pushing this technology for over a decade and has the

financial resources in place to carry out these genetic alterations on populations around the world. The technology inserts coronavirus genetic code into each person, forever changing genetics and cellular processes into their body. The coronavirus RNA reprograms human cells to produce spike proteins, forcing the immune system to fight properties of a virus that are being artificially manufactured by the body's own cells. The effects of this technology are trans-generational; the cellular manipulation can be passed down to future generations. Leading ethicists and scientists called for an end to this kind of [trans-generational human genome editing](#) in a January 2020 Geneva Statement. I remind the reader that the "Germ Theory" of Louis Pasteur has NEVER been proven!

January 2020 was also the time when Dr. Fauci and the NIH moved forward with licensure of this controversial technology to be used in Moderna's experimental RNA coronavirus vaccine. ([The NIH owns half of Moderna's vaccine and stands to profit.](#)) Even though Moderna has never brought a product to market, their latest controversial technology has been irresponsibly pushed through clinical trials, bypassing animal studies that are critically important to understand toxicity, histopathology, and disease processes. (Previous attempts to manufacture a coronavirus vaccine for SARS resulted in animal fatalities after injection and upon subsequent infection.)

They have not told the public that Bill Gates owns a patent on the so-called Corona-19 virus, he and the Pirbright Institute of Surrey, UK have owned the patent since 2018, so why are they sitting on an existing vaccine?

In the first round of hasty human trials approved by Dr. Fauci, Moderna's results were embellished by the pharmaceutical-controlled media, despite the injection [causing complications and hospitalizations](#) in [20 percent of the participants](#) in the high dose group. It has also proven to cause side effects in half of study participants and its effectiveness wanes in 2 to 3 months. Imagine this kind of damage being carried out among larger populations! It's reasonable to assume that wide-scale hospitalizations from the injection will be blamed on those who did not get the vaccine in the first place. These "anti-vaxxers" ([which could represent well over half the population](#)) will be shamed by the media and blamed for new outbreaks, resulting in government emergencies that force everyone to comply.

Despite the apparent risks, Moderna was given the green light to continue pushing their experiment forward. Moderna even received \$483 million in federal funds from the Biomedical Advanced Research and Development Authority (BARDA) to warp speed the process along. Bill Gates wants to make the [technology mandatory for the world's population](#). He even said that anyone who refuses the injection is making the science less effective, putting everyone at risk. It's this kind of false guilt, mental degradation, and bondage that is coercing millions of people to follow along with ongoing fear-based mandates that do nothing to address our ability to overcome the virus with healthy immune function. This kind of illegal medical coercion will result in people being physically abused as they submit to experimental, inherently-dangerous injections just to get a sense of their freedom back.

The world's biggest Covid-19 vaccine study got underway Monday, July 27, 2020 with the first of 30,000 planned volunteers helping to test shots created by the U.S. government — one of several candidates in the final stretch of the global vaccine race. Volunteers won't know if they're getting the real shot or a dummy version. After two doses, scientists will closely track which group experiences more infections as they go about their daily routines, especially in areas where the virus still is spreading unchecked.

The concept of using biometrics for national ID registration systems is a highly politicized issue. Earlier this plan to chip the human race through the digital identification program ID2020 was exposed in the Italian parliament by Sara Cunial, the Member of Parliament for Rome who denounced Bill Gates as a "*vaccine criminal*" and demanded Bill Gates's arrest in the Italian Parliament.

With the medical research going at such a fast pace when a Covid-19 vaccine becomes available, this technology will be used in vaccination programs and implemented worldwide under the GAVI umbrella. The program said to "*evolve as you evolve*" is part of the Global War on Cash and has the potential dual use for the purposes of surveillance and "predictive policing" based on your vaccination history. Those who may not wish to be vaccinated may be locked out of the system based on their trust score.

But that's not freedom. It's all about control. Will you continue to go along? You need to be aware that Mr. Bill Gates has a "dark side" to his personal life that is revealed by independent Far East journalist, Benjamin Fulford.

“Now, look at what is store for mass murderer Bill Gates and his fellow medical cartel criminals. Here is a famous mug shot of Bill Gates when he was arrested in his younger years. The official story is that he was arrested for a traffic violation. However, CIA sources say the real charge was related to Gates being found in his car with an underage boy in a compromising position in the back seat. Remember this news item about a man being arrested on the Bill Gates estate for kiddie porn? CIA sources say he was in reality trying to eliminate incriminating evidence against Gates. They now say Gates was also involved in torturing and killing young children in order to harvest adrenochrome.” ~Benjamin Fulford

I want to digress at this point and focus your attention on those “Chem-Trails” that have been in continual spraying since 1996. Recall, I noted the major ingredient of heavy metals in that chemical spray was aluminum. You might think this is not really important; however, aluminum concentrates in the brain and is common among autopsies of Alzheimer’s victims. Perhaps it may be for another insidious purpose since aluminum breathed in can serve to modify our brain to function as an antenna receiver for **5G** EMF. We know that “Chem-Trails” has made soil more acidic with lower yields of crops, requiring greater concentrations of chemical fertilizers in the process.

Because aluminum has a 3+ charge, meaning that there are 3 delocalized electrons for each atom, moving freely between each aluminum atom; therefore, when an electrical field is applied to the substance, all the loose electrons are able to move towards the positive terminal of the electrical field, thus making it a good conductor of electricity. It is not just good, it is an excellent conductor as an antenna. Think about the accumulated presence of aluminum in the brains from autopsied Alzheimer’s victims. Over twenty-five years we all have been GMO’d into receiver antennas, receptors for **5G** EMF toxic energy because the **5G** energy beams are in the millimeter wave spectrum (small enough to penetrate human skin tissue), primarily our sweat glands. Here is the order of most effective metals as a receiver antenna; Best to Worst – Which means Silver is the Best Conductor of Electricity:

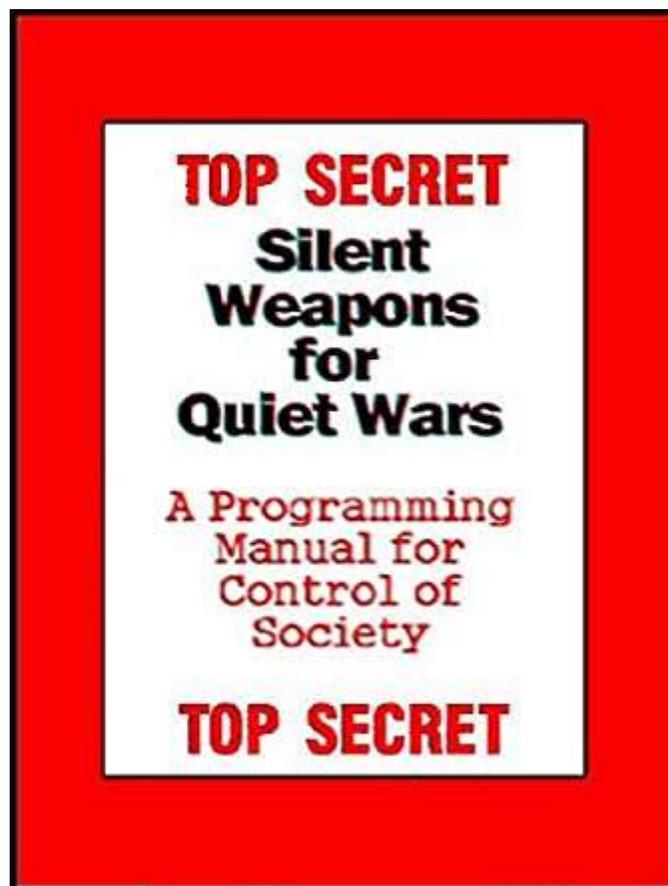

- | | |
|-----------------|------------------------|
| 1 Silver (Pure) | 8. Bronze |
| 2 Copper (Pure) | 9. Iron (Pure) |
| 3 Gold (Pure) | 10. Platinum |
| 4 Aluminum | 11. Steel (Carbonized) |
| 5 Zinc | 12. Lead (Pure) |
| 6 Nickel | 13. Stainless Steel |
| 7 Brass | |

From this list, you can see why aluminum is the choice metal for receiver antennas. Its conductivity, density, weight, and relative abundant supply makes for an ideal element to be sprayed from airplanes and easily breathed in without visible awareness. The entire “Chem-Trail” program was cloaked in secrecy from the very beginning. It has been present in every country of the world except Russia and its predecessor the former USSR. If I had to guess, it is my view that the entire “Chem-Trail” program has

been all along a secret operation that originated with the Club of Rome's tasked mission to find ways to depopulate the world through 'silent weapons for quiet wars'.

([Natural News](#)) Reported in July 2020, more than half a million people have signed a petition calling for Microsoft co-founder Bill Gates to be investigated for "crimes against humanity." The latest count of signatures calling for an investigation of Bill Gates and his foundation has risen to nearly 620,000.

The petition is hosted on the White House's [We the People website](#), which is a public relations platform that allows citizens to express themselves. The site enables people to create a petition calling on the White House to take some action on a particular issue. According to the White House, any petition that receives 100,000 signatures in 30 days will be seen by the appropriate policy experts and will receive an official response from the White House within 60 days. The petition has far exceeded the minimum requirement, currently standing at 611,393 signatures. The petition's description says that many questions remain unanswered about the Gates and the global push for vaccines and biometric tracking.

The petition's author, who is identified only by the initials C.S., points out that Gates has publicly stated in the past that he would like to reduce population growth by 10 to 15 percent through vaccination. Along with the World Health Organization (WHO) and

UNICEF, Gates has been accused of purposely sterilizing children in Kenya via an antigen in a tetanus vaccine.

The petition goes on to state that Congress and other governing bodies are “derelict in duty until a thorough and public inquiry is complete.”

Gates has publicly called for depopulation

The petition refers to a statement made by Gates during a 2010 TED Talk. He said: ***“The world today has 6.8 billion people... that’s headed up to about 9 billion. Now, if we do a really great job on new vaccines, healthcare, reproductive health services, we could lower that by perhaps 10 or 15 percent.”***

That comment came after he gave the World Health Organization \$10 billion. The Catholic Doctors Association of Kenya accused the WHO a few years later of chemically sterilizing millions of Kenyan women through their tetanus vaccine campaign. The vaccine that the women were given was found to contain a sterility formula.

HOW TO LEGALLY
DECLINE A VACCINE

STEP 1. Do not 'refuse' a vaccine otherwise you'll be considered belligerent. Instead you can politely decline their services by doing the following.

STEP 2. Ask the doctor if the vaccine has MRC-5 in it (they all do, these are aborted fetal cells and other DNA). If it does, you have the right to decline.

STEP 3. Also ask if there is a possibility of a "iatrogenic reaction" (an adverse reaction caused by multiple compounds or drugs interacting with each other) from the vaccine (they all do). When the doctor says, "Yes it does", that's your "Get Out of Vaccine Jail Free Card". Thank the doctor for their offer and walk away.

Remember, doctors have sworn the Hippocratic Oath (which is to do no harm) and they MUST honour it. This is how we can legally (and respectfully) decline their offered mandated services and there is absolutely NOTHING they can do about it! Now you know!

PLEASE SHARE WITH EVERYONE YOU CARE ABOUT

The above statement has been posted for public awareness, but for me this is presumptuous at best and I simply will fight off any efforts to inject me with any vaccine. One person who has long been criticizing Gates for his behavior is Robert F Kennedy, Jr., nephew of former President John F. Kennedy and founder of [Children's Health Defense](#).

He wrote [on his Instagram account](#): *"Gates' obsession with vaccines seems fueled by a messianic conviction that he is ordained to save the world with technology and a god-like willingness to experiment with the lives of lesser humans."*

While speaking at a recent Forbes philanthropy summit, Melinda Gates said that she thinks that [black people should be given the COVID-19 vaccine first](#), a controversial statement in light of the fact that any vaccine will be rushed and largely untested, thereby putting those who receive it at great risk. The couple's foundation, the Bill & Melinda Gates Foundation, has been funding research into a coronavirus vaccine.

The Gates family have been connected to many different vaccines and other medical experiments that have damaged the health of African women and children. For example, their foundation funded the phase 3 trial of an experimental vaccine for malaria in 2010 that left 1,000 African infants with serious side effects like seizures and paralysis; 151 of the infants died.

They donated \$71 million to Planned Parenthood between 2009 and 2013, another move that can be viewed as part of their interest in depopulation. Planned Parenthood's abortion clinics tend to be situated in neighborhoods that are largely African American, and the abortion rate for black women in America is four times that of white women.

There's no question that Bill Gates is often connected to controversies involving vaccines and black people, and it will be interesting to see what type of response this popular petition gets from the White House.

Bill Gates has warned that multiple doses of any coronavirus vaccine could be necessary as he slammed Donald Trump's handling of the pandemic. Microsoft billionaire Gates said "serious mistakes" have been made by the White House as he predicted schools could be closed until fall 2021.

Speaking during an interview with Norah O'Donnell on CBS News, Gates said he had faith in the development of a coronavirus vaccine. However, he warned it could take an "unbelievably big number" of doses to beat the virus. He said: *"None of the vaccines at this point appear like they'll work with a single dose. That was the hope at the very beginning."*

However, he said the solution will *"improve over time"* even though there will be *"a lot of uncertainty"* about the vaccine. He can't keep his mouth shut throughout this entire crisis or fake crisis, whichever.

The philanthropist - who is [worth \\$98 billion](#), the second-richest man in the world - has offered £300 million to help fund research into the vaccine. Gates also described the closures of schools as the "biggest cost" of the pandemic after deaths as he said classes likely won't be all back until fall 2021. He said: *"This next academic year does hang in the balance. It is extremely important."*

"More should be done to help schools take learning online to ensure kids get their educations," he said. The 64-year-old tech boss now spends most of his times working with the Global Health division of the Bill & Melinda Gates Foundation.

He had been [warning of the threat posed to humanity by pandemics](#) since 2015 before the coronavirus outbreak. During the interview, Gates was also heavily critical of the Trump administration - with the [US having the highest death and case count](#) in the world with 146,192 and 4.1million. Could Bill Gates be a psychic, he seems to be right a lot of the time or maybe he planned what is coming down the pike.

Gates said: *"Some of the policies were a mistake. Opening up bars – the economic benefit versus the infection risk – a lot of policies like that made it a mistake."* The Microsoft mogul emphasized that social distancing, wearing masks and developing a vaccine are now key in beating Covid-19. He conceded however some of the "serious mistakes" were made because of a lacking of understanding of the virus.

Gates said Europe [responded better to the pandemic](#) than the US – with its leaders *"communicating with a clear voice"*. And he also condemned reports that Trump is silencing experts like [Dry Anthony Fauci](#). He said gagging experts was *"holding us back"* and said you could "never have predicted" the butting of heads between scientists and the White House.

Dry [Fauci has been feuding with Trump](#), with anonymous officials even briefing against him by releasing a list of [his mistakes over Covid-19](#). Bill Gates accusations about President Trump do not bear out, particularly his remarks about the U.S. having the highest death rate in the world. The chart below does not bear out the claim. I believe that Bill Gates is really exposing his ignorance and bias.

President Trump insisted that the US has the best mortality rate in the world during a briefing at the White House this week.

Gates however said Trump's claim was *"not even close"* – adding "by almost every measure, the US is one of the worst". He added: *"We actually had criteria for opening up with cases declining, and we opened up with cases increasing."*

The Microsoft boss also rubbished baseless conspiracy theories linking him to the virus – with claims microchips are going to be implanted in vaccines. From everything I have read and know about Bill Gates, its more about "Conspiracy Truth!"

NO. OF COVID DEATHS PER MILLION OF POP.

Bill Gates has a short memory, In his own words vaccines and microchips go together. The Family Defense League@FamilyDefense quoted Gates on Apr 7, 2020. *“Everybody who receives a coronavirus vaccine will be given a digital tattoo or microchip to state they are coronavirus safe...”*

Bill Gates and Co—the CEO of a Demonic Cult running the planet, unless something changes in the short run, Bill Gates will have his way with humanity in the long run by way of vaccines and microchips controlling the population.

This is extremely fascinating because this plan-demic simulation exercise of coronavirus took place about 6 weeks before the first illness from the coronavirus was actually reported in Wuhan, China. That is one hell of a coincidence if you believe in that sort of thing. Another fascinating connection is the fact that not only did the Bill and Melinda Gates Foundation participate in and help set up the pandemic simulation of a coronavirus outbreak, but they just so happen to fund the group who owns the patent to the deadly coronavirus and are already working on a vaccine to solve the current crisis. Again, an incredible coincidence...

In this report, you will see footage from inside the event from the members of the emergency epidemic board in this simulation consisting of representatives from major banks, the UN, the Bill and Melinda Gates Foundation, Johnson and Johnson, logistical powerhouses, the media as well as officials from China and America’s CDC just to name a few. This simulation also includes news reports that were fabricated just for this

exercise — please keep that in mind because they are eerily similar to reports we are currently seeing regarding this real-world coronavirus outbreak.

The ID2020 Alliance, as it's being called, is a digital identity program that aims to “leverage immunization” as a means of inserting tiny microchips into people’s bodies. In collaboration with the Global Alliance for Vaccines and Immunizations, also known as GAVI, the government of Bangladesh and various other “*partners in government, academia, and humanitarian relief,*” the ID2020 Alliance hopes to usher in this mark of the beast as a way to keep tabs on every human being living on Earth. As I said, I believe Bill Gates does not know when to keep his mouth shut from his boasting rants. This is without question the outline of the “Mark” of the Beast System. The “666/999” is the essence of the “Mark” regardless of the final form of device, chip, tattoo, implant, Hydrogel, it is the deterrent factor upon which the “Mark” functions, i.e., start-stop-start, process, etc.

The ‘*New England Journal of Medicine*’ commits suicide with a Deep State article so profoundly unethical and unscientific as to suggest the Journal should be retired. Robert David Steele stated, regarding an article by these three authors:

- Michelle M. Mello, J.D., Ph.D.,
- Ross D. Silverman, J.D., M.P.H.,
- Saad B. Omer, M.B., B.S., M.P.H., Ph.D.

“One option for increasing vaccine uptake is to require it. Mandatory vaccination has proven effective in ensuring high childhood immunization rates in many high-income

countries. However, except for influenza vaccination of health care workers, mandates have not been widely used for adults.” Robert David Steele commented as follows:

“These “intelligent idiots” as Nassim Nicholas Taleb likes to label those with credentials lacking in integrity, are not stupid — they are simply corrupt. I am reminded of earlier statements by editors of this journal to the effect that half of their articles are written by the pharmaceutical industry and then signs by paid doctors and others. It would be interesting to examine the total provenance of this article from these three individuals who are willfully ignoring:

01 COVID-19 is a strong variation of the flu

02 There is no vaccine possible for COVID-19

03 The nano-particles leading to blood coagulation triggered by 5G will not be addressed by a vaccine even if one were possible

04 All death statistics associated with COVID-19 have been fabricated — in my view many — many — doctors should lose their medical licenses starting with Fauci for having lied to the public and violated their Hippocratic Oath

05 No vaccine has ever been validated through testing

06 All vaccines — and masks — are in violation of the Nuremberg protocols on experimental medicines

07 All authorities mandating masks or vaccines are in violation of the Constitution.

As I was reviewing this for editing purposes, in my mailbox this morning, July 27th, 2020 was a post that again speaks to the corruption of Bill & Melinda Gates Foundation and Dr. Anthony Fauci. I will include this for your reading. I find it highly alarming as you will see when you read this:

GATES Partnered with MODERNA For a Vaccine in JANUARY: Moderna Only Produces Messenger RNA Vaccines Which Change the DNA in Every Cell in the Body.

On [July 27, 2020](#)[July 27, 2020](#) By [Geri Ungurean](#) In [GATES AND MODERNA](#)

MODERNA Works with NIH to develop a Covid 19 Vaccine in JANUARY???
“WHO” declared Covid19 a world pandemic in MARCH, 2020

Timeline of Coronavirus:

Brethren, this definitely does NOT pass the smell test. Gates issues the first installment of \$10 million to Moderna in JANUARY for them to develop the mRNA (or Messenger

RNA) Vaccine that will change the DNA in every cell of every person to whom this is administered. The entire project with Moderna will cost \$100 million for the finished product.

It is so obvious to me and I'm sure to the readers that this whole series of events was staged. They counted on all of us to be clueless.

WELL, THEY'RE WRONG!

Here is an article LOADED with misinformation and outright lies. I will gladly show the readers the "lies" and then support my view with facts – not made up facts as the Left does. I will show you facts which have been substantiated. Anything in Red is from me:

Fact-check: Does Anthony Fauci have millions invested in a coronavirus vaccine?

This piece was originally published on PolitiFact.com on April 15, 2020. The country's top infectious disease expert is discouraging the use of a potential COVID-19 treatment because he could earn millions of dollars from a vaccine, at least, that's according to a popular Facebook claim.

One post published by an anti-vaccine page on Sunday says Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, "stands to lose 100 million dollars" on a coronavirus vaccine from Bill Gates because he invested in it. "If everyone can be healed with the Malaria drug and a Z pack, there will be no need for the vaccine if we could use drugs already on the market that helps heal 98 percent of the Coronavirus (sic) patients," reads the image. **That's exactly right. And Hydroxychloroquine is dirt cheap. Big Pharma hates that!**

"That's why he's been so hesitant to put his seal of approval on this form of treatment that has shown to drastically improve hundreds of people's symptoms." The post was flagged as part of Facebook's efforts to combat false news and misinformation on its News Feed.

As a member of the White House's coronavirus task force, Fauci has tempered expectations for the use of chloroquine or hydroxychloroquine to treat COVID-19 patients. The drugs, which are used to treat conditions like malaria and lupus, have shown some promise in alleviating coronavirus symptoms, but the research is not conclusive. PolitiFact has seen a lot of misinformation about public officials' financial interests in hydroxychloroquine. Fauci has become a popular target for coronavirus disinformation, so we wanted to check out this post, too.

The Facebook post draws a false connection between Gates' philanthropy and Fauci's public remarks about hydroxychloroquine. There is no evidence that Fauci is personally financially invested in a coronavirus vaccine, and scientists still don't know if hydroxychloroquine is effective in treating COVID-19.

Gates Foundation supports coronavirus research

The Bill and Melinda Gates Foundation is indirectly supporting the National Institute of Allergy and Infectious Diseases by funding a group that is helping the agency develop a potential coronavirus vaccine. But there is no evidence that Fauci himself stands to profit.

The Gates Foundation said in a Feb. 5 statement that it is investing up to \$100 million for “the global response to the 2019 novel coronavirus.” That includes efforts aimed at improving detection and treatment of the virus in addition to vaccine development. “The foundation will commit up to \$60 million to accelerate the discovery, development and testing of vaccines, treatments and diagnostics for 2019-nCoV (the formal name for the coronavirus),” the statement reads. While the Gates Foundation has supported the National Institute of Allergy and Infectious Diseases in the past, the philanthropy told PolitiFact in an email that it does not provide funding to the agency now, even though the agency is currently developing a Covid-19 vaccine. **LIE!** During his March 11 testimony to the House Oversight and Reform Committee, Fauci said it could take a year and a half to roll out a safe and effective coronavirus vaccine.

There are 70 vaccines in development, according to the World Health Organization — three of which are in clinical trials. The first trial began in mid-March **LIE: The first trial was with Moderna in January.**

The potential vaccine was developed by National Institute of Allergy and Infectious Diseases scientists in partnership with pharmaceutical company Moderna, Inc. A search of the Securities Exchange Commission’s database, which contains information on publicly traded companies, turned up no documents linking Fauci directly to Moderna. **LIE**

According to a statement from the National Institutes of Health, which houses the National Institute of Allergy and Infectious Diseases, manufacturing for the potential vaccine was supported by the Coalition for Epidemic Preparedness Innovations, a foundation that funds vaccine research. The Gates Foundation said in its February release that it will allocate some of its research and development funding to the coalition.

So Gates’ money is indirectly going toward the development of a potential coronavirus vaccine created by National Institute of Allergy and Infectious Diseases scientists, but not to the agency itself. And there is no publicly available evidence that Fauci personally stands to profit from a vaccine. **Hydroxychloroquine is not a proven treatment LIE. PLEASE SEE MY ARTICLE FROM TODAY:**

[NIH Study Clearly Shows Hydroxychloroquine With Azithromycin Added Kills Covid 19 – Fauci Knew Since 2005 NO ONE NEEDED TO DIE.](#) <click to read

The Facebook post claims that chloroquine and hydroxychloroquine heal “98% of coronavirus patients” and have improved “hundreds of people’s symptoms.” There is no evidence to back that up. With more than 50 studies in the works, there is still much

scientists don't know about how hydroxychloroquine affects the coronavirus. But **four studies — two from France and two from China** — have come to conflicting conclusions. One study of 62 patients in Wuhan, China, the epicenter of the pandemic, found that those who were issued hydroxychloroquine saw their body temperature and cough go down faster than the control group. But a separate group of doctors in Shanghai found that the drug had no discernible effect on a group of 30 patients over the course of a week. Two studies in France had similarly opposing conclusions. One hospital in Marseilles gave 80 COVID-19 patients a combination of hydroxychloroquine and azithromycin, an antibiotic. After five days, 95% of the patients tested negative for the coronavirus. But a similar hospital study in Paris found no marked improvement in 10 patients.

Bottom line: We still don't know whether chloroquine or hydroxychloroquine is effective at improving COVID-19 symptoms. **LIE** That uncertainty, as well as the drugs' adverse heart effects and the potential for doctors to stockpile it, is why public health officials have urged caution. There are no Food and Drug Administration-approved drugs to treat COVID-19, although the agency has issued an emergency authorization for the use of chloroquine and hydroxychloroquine in hospitals.

A Facebook post claims Fauci has downplayed the potential use of chloroquine and hydroxychloroquine to treat coronavirus patients because he stands to lose \$100 million on a Gates-funded vaccine. There are 70 potential COVID-19 vaccines in development, one of which was created by National Institute of Allergy and Infectious Diseases scientists in **partnership with Moderna, Inc.**

Again, I refer you to my article of today:

[NIH Study Clearly Shows Hydroxychloroquine With Azithromycin Added Kills Covid 19 – Fauci Knew Since 2005 NO ONE NEEDED TO DIE.](#) <click to read

That vaccine is being manufactured by an organization that the Gates Foundation supports, but there's no evidence that the agency or Fauci will directly profit from that support. And the Gates Foundation has pledged up to \$60 million for vaccine development, not \$100 million, as the post says. **(NO – IT'S \$100 million)** Some studies have found that chloroquine and hydroxychloroquine could help treat coronavirus patients, but others have found no effect at all. Public health officials have urged caution due to the uncertainty and the adverse side effects of the drugs. The Facebook post is inaccurate. We rate it False. [source](#)

Due to the outright LIES in your article: I rate it FALSE and INTENTIONALLY MISLEADING!

Most of the vaccines currently under process by big pharma are likewise mRNA vaccines, a type never before used on humans.

****DOESN'T THAT CONCERN YOU? IT DOES ME!**

The Gates/Fauci vaccine against covid-19 is no ordinary vaccine. It uses three needles, two of which are electrodes that will alter the DNA of every cell in the body.

*Gates and Fauci have bypassed all required phase-one animal testing, normally a 10-year testing requirement, as well as human safety testing. This assault on our bodies will likely be issued as mandatory, since it is being developed under emergency powers. Trump's attorney, **Alan Dershowitz**, has stated categorically that "you have no constitutional right to refuse a vaccine".*

Brethren, listen to this:

[BREAKING: Faucis Niaid Could Make Millions Off Vaccine.](#) <click here to listen

Operation Warp Speed, the race to make a coronavirus vaccine, is well underway. Moderna's vaccine candidate has been lauded by the media and NIAID Director Toni Fauci as a top pick. But breaking information reveals a potentially profitable relationship between Fauci and Moderna, and a conflict of interest that could make his scientists at NIAID hundreds of millions of dollars. [source](#)

Brethren, I am hoping that by now this picture is coming into clear focus for you. We definitely are being played.

All we can do is Pray to our Father for protection for us and our loved ones and friends. The hard part is being able to say NO NO NO to the Vaccine.

My husband and I have resolved to not allow that vaccine into our bodies. We may have to pay the ultimate price, but we'd rather be dead and with our Lord Jesus – than to allow this DNA altering vaccine to be given to us.
