

Biotech analyst Karen Kingston unveils PATENTS and documents describing the covid vaccine 5G link, biosynthetic AI nanotech, “soft actuators” and NEUROWEAPONS implanted with needles

10/06/2022 / By Mike Adams

Few people have conducted as much research into the mRNA injections — dare not call them “*vaccines*” — as Karen Kingston, a biotech analyst who previously conducted contract work for Pfizer, J&J, Thermo Fisher and other corporations. In a bombshell interview that features key screen shots of patents, science journal articles and corporate documents, Karen Kingston lays out the argument for mRNA covid “*vaccine*” injections actually being **exotic technology implantations** that can be used to achieve global enslavement and/or genocide.

Our full one-hour interview is posted below. This interview features video screen shots of several key documents.

Magnetic hydrogels, tissue engineering and remote control

Far from being a conspiracy theory, remote control of magnetic hydrogels — and “*tissue engineering*” — is well documented in the scientific literature. Here’s one published paper in *ACS Nano* that describes this exact thing:

Magnetic Nanocomposite Hydrogels for Tissue Engineering: Design Concepts and Remote Actuation Strategies to Control Cell Fate

ACS Nano (IF 18.627) | Pub Date: 2021-01-06 | DOI: 10.1021/acsnano.0c08253

Magnetic Nanocomposite Hydrogels for Tissue Engineering: Design Concepts and Remote Actuation Strategies to Control Cell Fate

<https://en.x-mol.com/paper/article/1347338492243496960>

From the abstract:

Most tissues of the human body are characterized by highly anisotropic physical properties and biological organization. Hydrogels have been proposed as scaffolding materials to construct artificial tissues due to their water-rich composition, biocompatibility, and tunable properties.

...the intrinsic properties of magnetic nanoparticles enable their use as magnetomechanic remote actuators to control the behavior of the cells encapsulated within the hydrogels under the application of external magnetic fields.

Soft actuators for artificial muscles with self-healing and multimodal locomotion properties

From the journal *Nature Reviews Materials*, we have a science paper entitled, “*Soft actuators for real-world applications.*”

<https://www.nature.com/articles/s41578-021-00389-7>

Soft actuators for real-world applications

Abstract

Inspired by physically adaptive, agile, reconfigurable and multifunctional soft-bodied animals and human muscles, soft actuators have been developed for a variety of applications, including soft grippers, artificial muscles, wearables, haptic devices and medical devices. However, the complex performance of biological systems cannot yet be fully replicated in synthetic designs. In this Review, we discuss new materials and structural designs for the engineering of soft actuators with physical intelligence and advanced properties, such as adaptability, multimodal locomotion, self-healing and multi-responsiveness. We examine how performance can be improved and multifunctionality implemented by using programmable soft materials, and highlight important real-world applications of soft actuators. Finally, we discuss the challenges and opportunities for next-generation soft actuators, including physical intelligence, adaptability, manufacturing scalability and reproducibility, extended lifetime and end-of-life strategies.

About this article

In this Review, we discuss new materials and structural designs for the engineering of soft actuators with physical intelligence and advanced properties, such as adaptability, multimodal locomotion, self-healing and multi-responsiveness.

Finally, we discuss the challenges and opportunities for next-generation soft actuators, including physical intelligence, adaptability, manufacturing scalability and reproducibility...

Embedded transmission and receiving devices that network to share information, turning human bodies into “cloud” computing platforms

Kingston also reveals how implanted biosynthetic structures have the ability to transmit and receive digitized information, allowing such structures to “network” with each other, even as they reside inside host human bodies. Combined with external AI capabilities that are accelerated by **5G** bandwidth speed and low latency, these networking structures can be weaponized against humanity.

One patent cited in this tech is **US11107588B2**, which discusses, “The system comprises a plurality of electronic devices comprising instructions to generate an ID and, when in proximity of another such electronic device, one or both electronic devices transmit/receive the ID to/from the other electronic device.”

Google Patents US11107588

Methods and systems of prioritizing treatments, vaccination, testing and/or activities while protecting the privacy of individuals

Abstract

System and methods for anonymously selecting subjects for treatment against an infectious disease caused by a pathogen. The system comprises a plurality of electronic devices comprising instructions to generate an ID and, when in proximity of another such electronic device, one or both electronic devices transmit/receive the ID to/from the other electronic device. Then, a score is generated based on a plurality of such received IDs. Additionally, based on information received from a server, relevant treatment instructions are displayed to the subjects based on the received information and the score. The server comprises instructions for sending to the plurality of electronic devices the information to be displayed with the relevant treatment instructions, additionally the server and/or the electronic devices comprise instructions to generate a prediction of likelihood of a subject transmitting the pathogen, based on the score of the subject.

The technology described in this patent specifically talks about SARS, MERS, coronavirus and influenza, or any disease that has “*influenza-like symptoms.*” See this list from the patent:

- According to some embodiments of the invention, said virus is a corona virus.*
- According to some embodiments of the invention, said virus is SARS-CoV.*
- According to some embodiments of the invention, said virus is MERS-CoV.*
- According to some embodiments of the invention, said virus is SARS-CoV-2.*
- According to some embodiments of the invention, said virus is an influenza virus.*
- According to some embodiments of the invention, said disease results in influenza like symptoms.*

The following diagram shows how electromagnetic signals can be broadcast and received among individuals who have been implanted or outfitted with the digital systems:

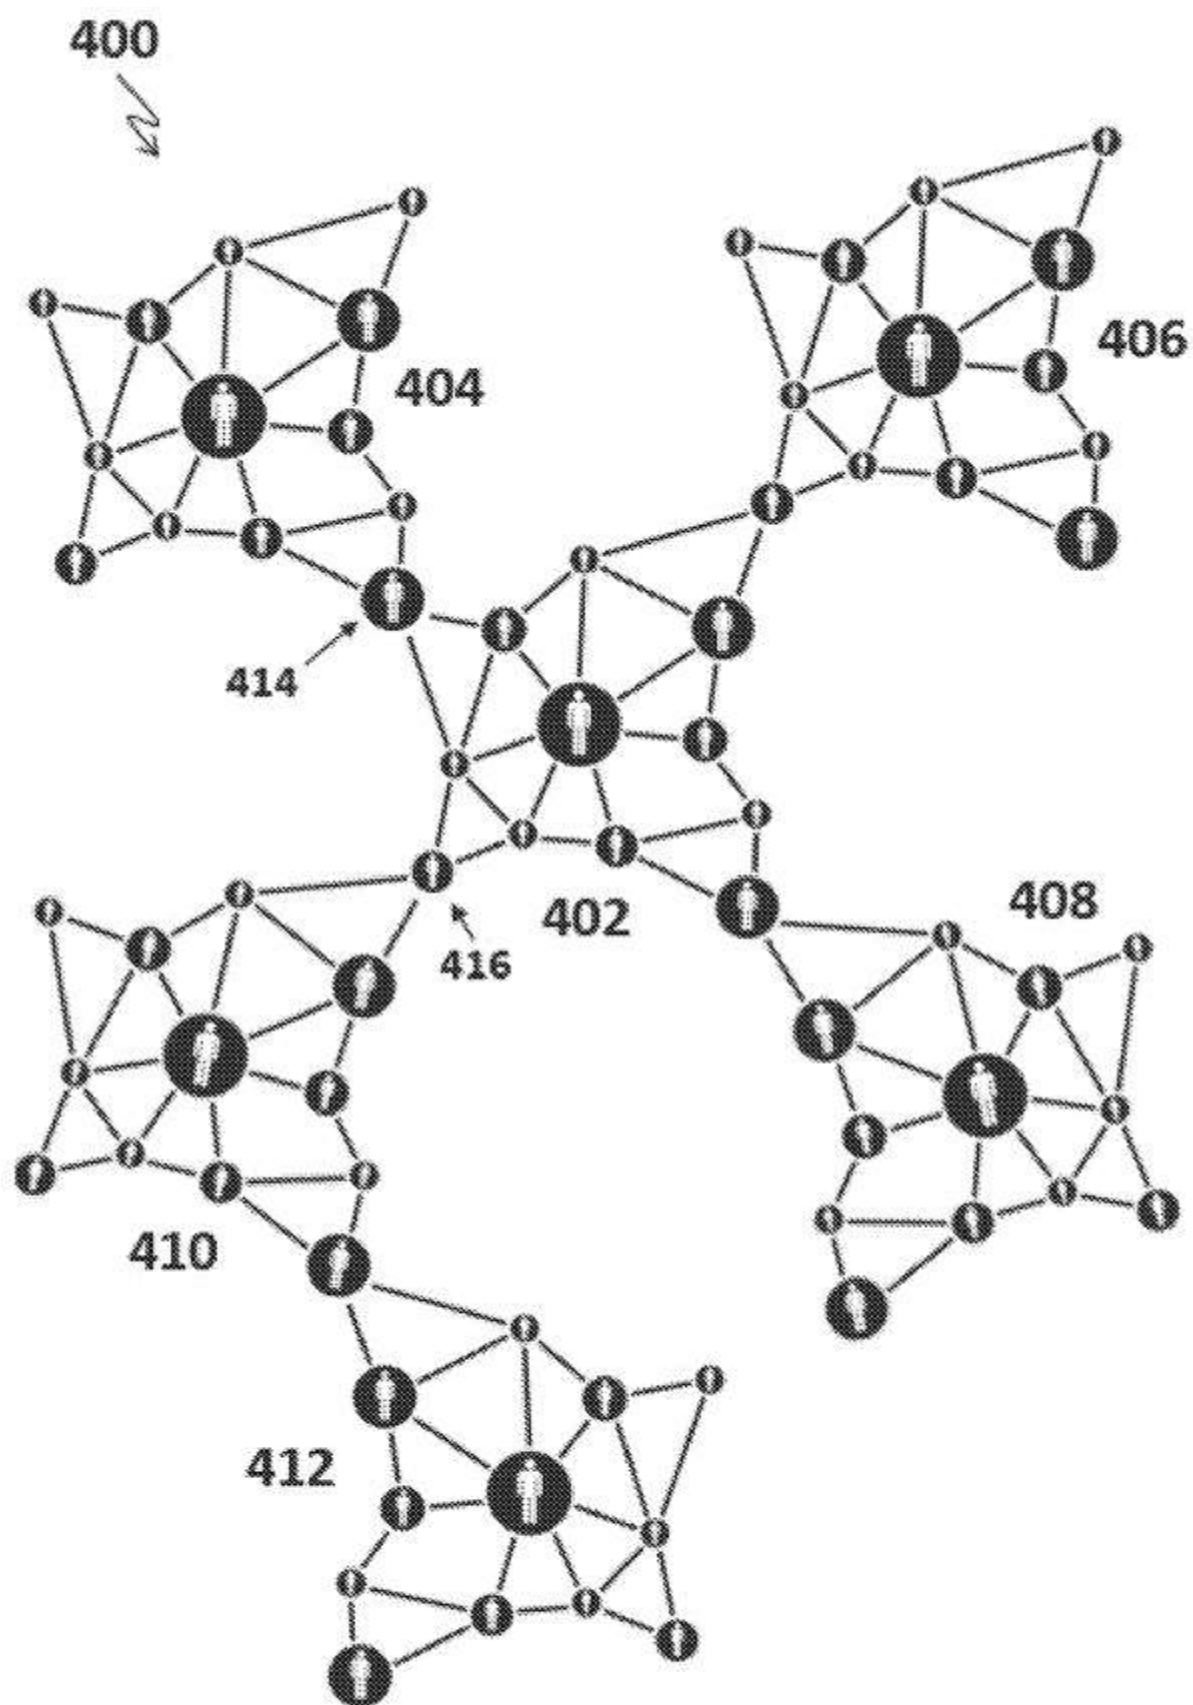

Figure 4

That same patent also talks about embodiments of circuitry, human networking and pathogen spreading, saying things like:

...generating, by circuitry, a predicted likelihood of said subject of transmitting said pathogen based on said physical proximity information, for a plurality of subjects...

...hardware for performing selected tasks according to some embodiments of the invention could be implemented as a chip or a circuit.

A computer readable signal medium may include a propagated data signal with computer readable program code embodied therein, for example, in baseband or as part of a carrier wave.

...some embodiments of the present invention may take the form of an entirely hardware embodiment, an entirely software embodiment (including firmware, resident software, micro-code, etc.) or an embodiment combining software and hardware aspects that may all generally be referred to herein as a “circuit,” “module” or “system.”

Get the full details and documents in this one-hour interview with Karen Kingston:

- Covid-19 injections contain NEUROWEAPONS embedded in Lipid Nanoparticles (LNP)
- Neurological weapons were hidden through Emergency Use Authorization cover-up
- Shocking patents confirm it's all true (patent numbers shown)
- Transhumanism assault on humanity now under way, people becoming LESS human
- LNPs can be activated via **5G** frequencies to achieve physiological changes
- Covid “vaccines” appear to be exotic tech INSTALLED in human hosts
- CCP-linked AI company named “national security threat” in USA
- **5G** infrastructure to be exploited by AI embedded systems for surveillance
- Post-vaccine “biostructures” are self-assembling biosynthetic weapons

This interview between Mike Adams, the Health Ranger and Karen Kingston may sound like science fiction to the reader but it is everything dreamed of by mad scientists working towards control of the human body through biological-chemical-electrical means has been the dream realized. Karen Kingston is a trained scientist to interpret and explain the “fine print” of patents for entities who like you need to know how this

technology functions at the cellular level. I am here to tell you that this is not science fiction. It is, at the base level, a means to liquidate human life by invisible weapons. I am familiar with what Karen Kingston shares in this interview primarily from my past research on the parasite “Brucellosis Mycoplasma” and how **5G** technologies activate the pathogen by a process called “Electroporation”.

If you are untrained in the sciences, the most important thing that you can do is to understand it is absolutely critical that you not take anything labeled to be a vaxx. This technology has been globally funded by the House of Rothschild, using his subordinates to sign the checks paid to those doing the scientific research in creating these “bioweapons” to meet the objectives of *‘Silent Weapons for Quiet Wars!’*

There is a global, cooperative effort to depopulate the planet, and attorney Todd Callender contends that our elite ruling class is using the technology of **5G** and the development of the mandatory Covid jab to carry out their plan. This plan did not begin in 2019, it goes back decades, and I have shared articles documenting the efforts that have confirmed this Satanic agenda.

Todd ran a clinical field trial of a needle-free mass vaccination device with the U.S. Treasury Department and with observance by the World Health Organization (WHO). He’s done business with many vaccine manufacturers and global health organizations such as Pfizer, PATH, FDA, WHO, and the Cuban Ministry of Health.

Todd is an attorney-at-law who has done intense research on how the WHO, World Economic Forum (WEF), and the United Nations are utilizing the coronavirus “*plandemic*” to take control of the world.

The Covid shot and the deadly radiation coming from the **5G** towers work in conjunction to kill humanity. An 18 gigahertz (GHz) signal from a **5G** tower can be used to effectively trigger harmful mechanisms contained in the Covid vaccine within the body.

He unveils the essential ratification of the WHO’s 2005 health regulations in the U.S. via the Project Bioshield Act, and why we need to be very concerned about the new **5G** death towers.

Science shows that the radiation toxicity received from **5G** towers is capable of replicating the symptomology of viruses like Ebola, Monkeypox, and Marburg. Different frequencies can and do effect the human body.

Save the link to this post at Mike Adams Health Ranger site, and play it over and over until you begin to gain some clarity in understanding. Share it

Blessings,
