

5G and Crimes Against Humanity

Part 4

This morning 'Now The End Begins' posted a report on our leading Eugenicist and Population Reduction hysteria fear-monger.

Bill Gates Is Quite Confident That He Can Leverage The Coronavirus To Make Every Person On Earth Receive A Vaccination With Digital ID.

Using his vast and nearly unimaginable wealth as his credentials, Bill Gates has somehow managed to set himself up as some kind of an epidemiology expert in infectious diseases, and people are listening to him because they want his money. Amazing what enough money can do, isn't it? Just today Gates is all over the news saying how we need to have a 'national quarantine in place for 6-10 weeks', something not even the CDC has called for. It almost seems like he has been waiting for this coronavirus crisis to occur, so he could sweep in as a savior and give everyone their vaccination...and digital ID.

Whatever you do, when Bill Gates' vaccination is ready, do not take it. For any reason. Because when it comes it will come with a digital ID or digital certificate, and it will be evil from stem to stern.

All you have to do is Google '[bill gates digital id](#)' and you will get a plethora of information regarding the very advanced work Bill Gates and his billions have been conducting with regard to getting every human being digitally identified. After you do that, then Google '[bill gates digital vaccinations](#)' and see what they return for you. As you begin to do the research, it becomes clear pretty quickly that Bill Gates has a 3-pronged game plan consisting of Billions

- Vaccinations
- Digital IDs by which he is going to carry out his master plan. Is this the Mark of the Beast? No, but you should still be afraid of it anyway.

"And I saw when the Lamb opened one of the seals, and I heard, as it were the noise of thunder, one of the four beasts saying, Come and see. And I saw, and behold a white horse: and he that sat on him had a bow; and a crown was given unto him: and he went forth conquering, and to conquer." –(Revelation 6:1,2)

It's not the Mark of the Beast because as of this writing, Antichrist has not been released with the opening of First Seal from Revelation 6, no Antichrist, no Mark of the Beast. Besides, the Church is raptured out before the opening of the First Seal anyway. Antichrist is not brought

about by any human means, he is released onto the earth by Jesus. I'm just giving you some bible, which said, Bill Gates is a scary, scary individual.

I have to disagree with NTEB, the "Mark" of the Beast is here. Everything made, manufactured, or sold bears the UPC Bar Code, and it operates on the principle that the number "9" can be read upside down as "6" no matter how it is scanned! This is so simple

that everyone misses the obvious. See my 11-part series on **666/999** **5G, the Mark of the Beast, and the UPC Code** at <http://jesusisthewaythetruththelife.com/node/151>

We have already shown you how Bill Gates and Microsoft [are funding ID2020](#), and the plan to administer a digital ID with every vaccination. We showed you how Bill Gates has already stated repeatedly that he wants to use [vaccinations to control the population](#) through [eugenics](#). Visit our [Bill Gates Archive](#) to get all this and much more. But now he is exploiting the coronavirus crisis to greatly accelerate his timeline for the vaccinations and digital ID's.

Using his vast and nearly unimaginable wealth as his credentials, Bill Gates has somehow managed to set himself up as some kind of an epidemiology expert in infectious diseases, and people are listening to him because they want his money. Gates very smartly has been purchasing credibility through endowments from his foundation. Amazing what enough money can do, isn't it? Just today Gates is all over the news saying how we need to have a '[national quarantine in place for 6-10 weeks](#)', something not even the CDC has called for. It almost seems like he has been waiting for this coronavirus crisis to occur, so he could sweep in as a savior and give everyone their vaccination...and digital ID.

Listen to me people, nothing I have said so far, not one bit of it is conspiracy theory, it is all true. Just click on the links to see that it's true. Bill Gates was raised to believe in [eugenics](#) and using [abortion for population control](#), his own mother made sure he got the lucrative contract with IBM that made him a billionaire. Whatever you do, when his vaccination is ready, do not take it. For any reason. Because when it comes it will come with a digital ID or digital certificate, and it will be evil from stem to stern.

I want you to watch this video from a group called [End Times Productions](#), it is all about Bill Gates, ID2020, and his crazy quest for control of the planet. Please note, however, that the video connects Bill Gates vaccination plan as being the Mark of the Beast, and there I disagree for reasons stated earlier. It may not be The Mark, but it is evil nonetheless. But I want you to watch it because it is a really good presentation of all the things we have been telling you about Bill Gates for years now. Play close attention to something called the '[quantum dot tattoos](#)' that will be used in conjunction with the vaccinations.

I included this from NTEB web site to serve as a reminder, these evil men with very deep pockets are able to fund thousands of research projects to create subtle methods of killing

human beings all over the world with their chemical concoctions, disguised as vaccines that do not cure any virus, but only emaciate lives with life shortening bio-weapons.

Trump Signs “Secure 5G and Beyond Act of 2020” Despite Security, Health, and Environmental Warnings

Statement by the President:

Today, I have signed into law S. 893, the “Secure 5G and Beyond Act of 2020” (the “Act”). The Act requires the President to develop and implement a strategy for the adoption of secure wireless communications technology in the United States and abroad. The strategy will protect the American people from security threats to telecommunications networks and 5G technologies.

As part of the strategy, section 4 of the Act purports to require the President to engage in international diplomacy in order to share information and pursue policy goals specified by the Congress. Consistent with longstanding constitutional practice, my Administration will treat the relevant provisions of this section in a manner that does not interfere with the President’s exclusive constitutional authorities with respect to foreign relations, including the President’s role as the sole representative of the Nation in foreign affairs.

Section 5 of the Act further purports to condition the President's authority to implement parts of the strategy upon the approval of the Federal Communications Commission. My understanding is that this provision does not preclude me or future Presidents from exercising our constitutional authorities as the "sole organ" of the Nation in foreign relations and as the head of the unitary Executive Branch to ensure proper implementation of the entire strategy.

DONALD J. TRUMP
THE WHITE HOUSE,
March 23, 2020.

OMG and Holy Crap! Warnings about 5G have come from a variety of credible sources including Department of Defense Secretary, Mark Esper.

From [Newsmax, November 22, 2019:](#)

Defense Secretary Mark Esper has asked the Federal Communications Commission (FCC) to deny a Virginia wireless company's license to provide 5G mobile broadband service out of "national security, civil service, and the economic benefit of the nation" concerns.

"There are too many unknowns and the risks are far too great to federal operations to allow Ligado's proposed system to proceed," Esper said in a letter Monday to FCC Chairman Ajit Pai, [Bloomberg News reports.](#)

“This could have a significant negative impact on military operations, both in peacetime and war.

“I, therefore, strongly oppose,” Esper said, adding that the proposed service had “the potential for widespread disruption and degradation of GPS services” that rely on signals from space.

Esper’s letter was released Wednesday by the Pentagon, Bloomberg reports, and the FCC is not bound by the recommendation.

In April 2019, Brig. Gen. Robert S. Spalding III was interviewed by *The New Yorker* for an article titled, [“The Terrifying Potential of 5G”](#) and again in November by Patrick Bet-David about [cybersecurity risks and increased surveillance](#) drastically affecting the American way-of-life:

Esper and Spalding are two of many security experts who have warned about cybersecurity risks from 5G (see [1](#), [2](#)) and [Internet of Things \(IoT\)](#) technology. Other highly respected individuals and [organizations](#) (including the U.S. Navy, NOAA and NASA) have also issued opposition for other safety issues (see [1](#), [2](#), [3](#)).

American opposition to 5G has been ongoing. Since 2018 people and animals have been getting sick where 5G has been turned on (see [1](#), [2](#), [3](#), [4](#)). In February 2019 the telecom industry gave U.S. congressional testimony that they have [NO scientific evidence](#) that it’s safe. Last December – doctors, engineers, scientists, and public advocates [asked President Trump for a moratorium](#) due to biological, environmental and safety risks. Lawsuits have been filed (see [1](#), [2](#), [3](#), [4](#)). A growing number of [Congress members](#) have also expressed grave concerns and objections.

You are seeing the real Donald J. Trump for what he really is! Signing this act at this time, without the necessary health and safety studies is all the proof we need to know that President Trump is owned, bribed, or blackmailed by the Zionist Chabad Rothschild fake Jews, as Jesus referred to them in Revelation 2:9 and 3:9. Months ago, he embraced the call for people to take the flu vaccine. I have said for more than a year that President Trump was a Judas goat.

God allowed Trump to be elected and for many folks that is a troubling thought. It actually does make sense as we see the unfolding events in the world that have been occurring, clarity has been gradually sharpening our focus like framing a picture in a camera lens view finder. Many of you are familiar with Romans 8:28: *“And we know that all things work together for good to them that love God, to them who are the called according to his purpose.”*

5G is the greatest boom to those wanting to control the world; people, groups, organizations, and sovereign states. President Donald J. Trump is a deeply compromised man, and history will be no better to his legacy than it will be to his predecessors.

The Trump signature on the CVOID-19 \$6.2-Trillion dollar relief bill was simply a Fascist hidden state consolidation of power, profit, and control. The USA Corporation has prevailed against the American public. It's bailout for the rich elite and the virus for the common folk.

It is 5G 60-gigahertz EMF toxic radiation.

JPMorgan Chase made \$1.5-billion in off-betting on their own bailout! Their Equity Derivatives rose by \$1.5-billion. The Fed gave them \$4-billion in bailout they gamed the market by betting \$1.5-billion. By April, they will need an even larger bailout from the American public. Such hypocrisy goes unchallenged by the President. The President cannot be dumb here as he understands gambling as any casino owner would. This is all insane as they print money to infinity!

QUATERNARY WEAPON SYSTEM Activated Before Each Coronavirus Cluster Explosion

**COVID-19 Bioweapon,
5G Energy Weapon,
Chemtrail Chemical Weapon
& Flu Vaccine Hybrid Weapon
All Fully Integrated Into a
Quaternary Weapon System
to Depopulate and
Lock Down Planet Earth**

State of the Nation:

The best way to understand why the coronavirus pandemic exploded worldwide in the very same year that the military deployment of 5G was greatly advanced in China, Italy, South Korea, United States and other IT-savvy nations is to view them both as a binary weapon system, which is then coordinated with vaccine programs and chemtrail operations to function as a quaternary weapon system.

Only when viewed through the “quaternary weapon system” lens can the apocalyptic events of 2020 be properly comprehended and successfully responded to.

The following personal testimony is presented in order to gain crucial insight into what is really going on wherever a coronavirus cluster mushrooms out of nowhere right in the middle of a 5G-intensive region.

The excerpt below offers some critical perspective on how the direct relationship between the Wuhan coronavirus outbreak and the accelerated 5G roll-out which took place in Hubei Province during 2019. By the way, why was that deployment of 5G in Wuhan so speeded up just before the coronavirus outbreak the December?

“China was long ago set to be the 5G showcase for the world. Major metro areas and technology hubs like Wuhan were selected to be official 5G Demonstration Zones. Only such a high concentration of 5G radio-frequency transmitters and microwave towers would permit a citywide build-out of the Internet of Things. 2019 was the year Wuhan, the capital of Hubei, was “expected to have 10,000 5G base stations by the end of 2019, said Song Qizhu, head of Hubei Provincial Communication Administration”.^[1] Then the coronavirus hit, so the whole world was told. What really happened was that a new variant of the coronavirus was released in Wuhan after the 5G experimenters saw an epidemic of 5G Syndromes explode. The 5G guinea pigs were literally dropping like flies as soon as they flipped the 5G switch. The ERs and urgent care clinics were overwhelmed. The 5G scientists watching the burgeoning public health crisis immediately activated Plan B: Blame it on a virulent flu—a bio-engineered coronavirus that produces symptoms similar to 5G Syndrome.”

— Intelligence Analyst and Former U.S. Army Officer

The connection between 5G and the coronavirus has been firmly established and can no longer be ignored, especially by smartphone-addicted Americans. In point of fact, many smartphone users suffer from either a low-grade 5G Flu or full-blown 5G Syndrome. In both cases, they are usually unaware of the primary cause of their chronic illness—their smartphone, wireless home environment and/or workplace Wi-Fi.

Now add COVID-19 into the mix. Clearly, the result is a highly consequential global predicament the mainstream media has labelled the coronavirus pandemic. However, what we're really seeing is a new manmade plague called Coronavirus Syndrome. See: **CORONAVIRUS SYNDROME: The Ultimate Genocidal Bioweapon System**

These synchronistic developments regarding both 5G Flu and 5G Syndrome and the rapidly intensifying coronavirus outbreaks throughout the USA and world-at-large are well explained in the following excerpt.

KEY POINTS: 5G Syndrome is a much more serious medical ailment than 5G Flu. 5G Syndrome represents a much more extensive list of severe symptoms, some of which are life-threatening. However, as the whole world has witnessed, 5G Flu can also kill you—FAST—depending on your overall health profile and the strength of your immune system. That's why the elderly and infirm succumb to 5G Flu so quickly ... and children seem to have a natural immunity.

Nonetheless, it's 5G Syndrome that is the quiet killer because of how many symptoms will occur completely under the radar over years. Also, many of those symptoms will be routinely misinterpreted as other disease processes by medical and holistic doctors alike. This kind of misdiagnosis and under-diagnosis by physicians everywhere has occurred over several decades regarding Electro-hypersensitivity illness, often by the intentional design of the Medical-Big Pharma Complex.

The Wuhan Virus And 5G 60 GHz Are Binary Weapons

The Wuhan coronavirus pandemic STAGED to cover-up the public health crisis caused by the intensive 5G roll-out in Wuhan in 2019.

PANAMA CITY, March 27 (Reuters) – Four passengers have died on board the MS Zaandam, a cruise ship currently off the coast of Panama with dozens of guests suffering from influenza-like symptoms, at least two of whom have coronavirus, the vessel's operator said on Friday.

Zaandam had been on a South American cruise that departed Argentina on March 7 and had been scheduled to end in San Antonio, Chile on March 21. Nobody has disembarked from the ship since it docked in Punta Arenas, Chile nearly two weeks ago.

Holland America Line, the operator, said in a statement it “can confirm that four older guests have passed away.”

Some 53 guests and 85 crew have reported to the medical center with flu-like symptoms, the operator added, noting that “all ports” along Zaandam’s route are closed to cruise ships.

All told, there are 1,243 guests and 586 crew on board, as well as four doctors and four nurses, the statement said.

The cruise operator said it wants to transfer groups of healthy Zaandam passengers to its sister ship Rotterdam, which is now alongside the vessel of Panama.

Holland America Line said it was still working with the Panamanian authorities to see if it could get approval to transit the Panama Canal and sail to Fort Lauderdale, Florida.

Then there are those individuals who suffer from both 5G Flu and early-onset 5G Syndrome; they’re the ones dropping like flies in Wuhan, China. Their addiction to smartphones and other wireless devices blinded them to the adverse health effects caused by the sudden influx of 5G energies (which include extremely high radiofrequency signal ranges and ultra-strong microwave transmissions) when they flipped the switch in 2019 in Hubei Province.

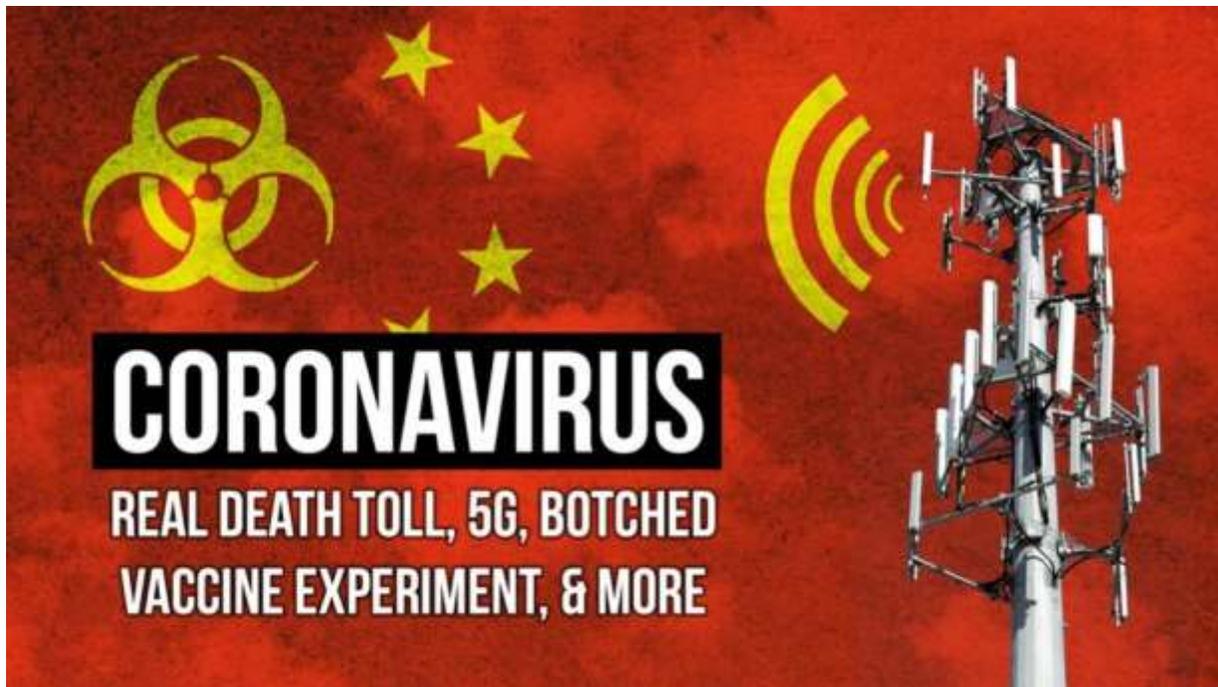

In general, 5G Flu is more of an acute illness whereas 5G Syndrome is a long-term, chronic disease. They mutually support and feed off each other which is what makes them so dangerous and increasingly fatal. A person who has 5G Syndrome is much more susceptible to contracting 5G Flu. And, a person with 5G Flu is a good candidate for developing 5G Syndrome.

One who repeatedly gets the Wuhan coronavirus (or 5G Flu), as many Chinese sufferers have to date, will exhibit a greater likelihood of developing 5G Syndrome; that is, if they don't already have a case of it. The extraordinary re-infection rates for COVID-19, also known as the coronavirus bioweapon triggering 5G Flu, offer compelling circumstantial evidence that it's really an electromagnetic radiation-driven disease more than a bioengineered coronavirus; although, it's really both co-factors working in tandem to turbo-charge each other.

Truly, the 'inexplicable' re-infection rates tell the hidden back story about this swiftly unfolding pandemic. The only plausible reason for multiple re-infections, when compared to all previously studied coronavirus outbreaks prior to the Wi-Fi era, is that the former COVID-19 patients have stepped back into their wireless environment, they live in a 5G hotspot, they are creating their own Internet of Things (IoT) and/or they still sleep with their smartphones — TURNED ON — under their pillows.

5G Syndrome insidiously develops over a period of sustained exposure to a 5G power grid and/or usage of even a small-scale version of a home-based IoT or a full-scale office build-out of the Internet of Things. The longer any individual sits in those unsafe levels of 5G-disseminated EMFs and microwaves, the more likely they will experience the evolution of their own unique form of 5G Syndrome. Eventually, they will become vulnerable to not only 5G Flu (i.e. Wuhan coronavirus), but also to the whole host of other bioengineered flu strains and naturally occurring influenzas.

The most critical point here is that every long-term, habitual smartphone user is at great risk for developing either 5G Flu and 5G Syndrome, or both. During the annual flu seasons, they will be more susceptible than others to any type of influenza that passes through the neighborhood, especially a coronavirus bio-engineered to be highly contagious.

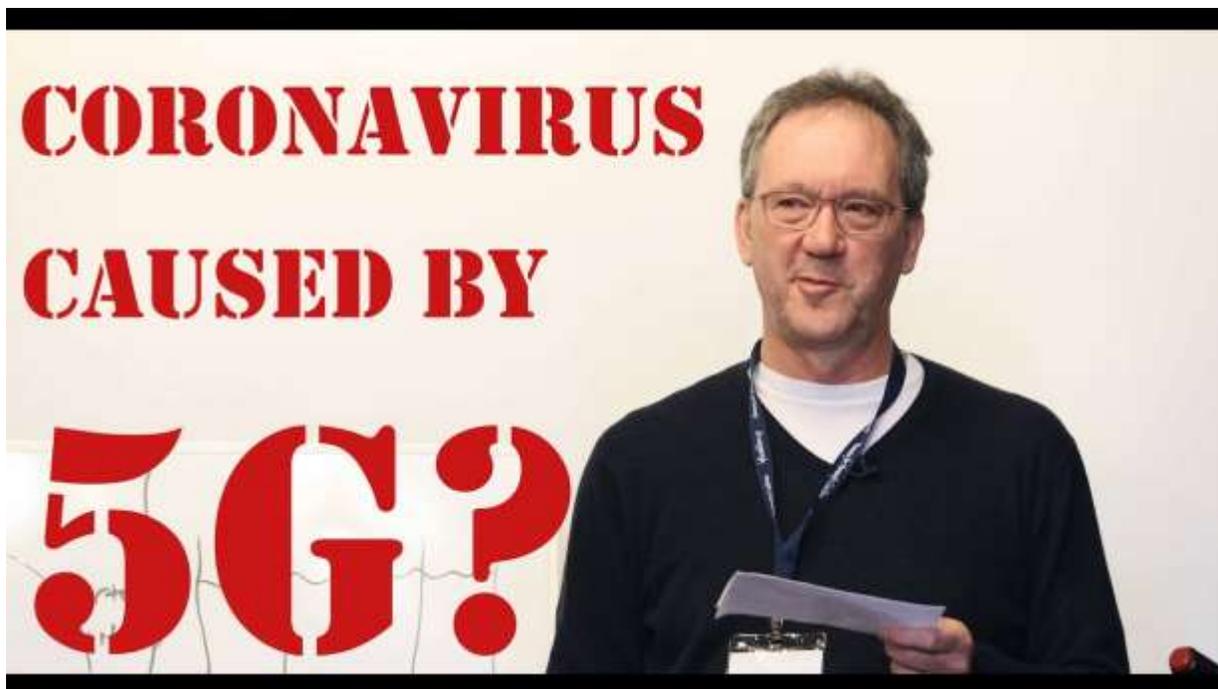

First, it's of paramount importance to understand that the Super-Vaccination Agenda has been implemented since World War I. Secondly, that vaccines represent a profound assault against the human body often with consequences that are irreversible. In numerous cases, children are killed by these toxic formulations, just as adults can be debilitated for life by a single flu vaccine. Does anyone know for sure what's in these Big Pharma-manufactured chemical and biological time bombs?!

Vaccines, especially flu shots, play an integral part in this Quaternary Weapon System. The annual flu vaccine, that's aggressively pushed each and every year because it's so vital to this global depopulation scheme, contains a cocktail of harmful biological material and unsafe chemical compounds. Some of the vaccine ingredients are nano-sized particles that are both digitized and controllable by remote, which can wreak havoc with the human immune system.

The elderly are quite easily scare mongered into receiving their annual flu shot. With each flu vaccine, they are injected with "digitized, controllable RNA", which can then be activated by 5G-disseminated 60 GHz millimeter wave bands. This is why older folks who get the coronavirus are totally incapacitated so quickly, with a high percentage of them dying in short order.

Readers should view the below report by a medical doctor, Dr. Thomas Cowan, M.D. I have been following Dr. Cowan for about a year. He removes some of the misinformation out there about the Corona Virus and the larger issue of what is the true disease.

When a practicing physician like Dr. Thomas Cowan, M.D. (photo above) discusses the direct connection between the coronavirus and **5G**, it's time to pay close attention. His compelling video presentation can be viewed here: [M.D. Physician Says Coronavirus Likely Caused by 5G \(Video\)](#) .

Even the mortality rate for young adults is increasing, especially for those who have been regular flu shot recipients and are regular smartphone users. Children in the United States are now exhibiting a much higher infection rate than other countries because of the vigorously enforced childhood vaccination schedules and wireless home environments. The extraordinarily high incidence of ADD and ADHD, Autism and Asperger's, Dyslexia and Developmental Disabilities are all proof of the extreme neurological impacts from the dangerous vaccines mandated for delicate babies and fragile young children.

The American people, collectively, are the biggest victim of the *Super-Vaccination Agenda* in the world because of the overwhelming political power and corporate influence of the Big Pharma-Medical Complex. Hence, a significantly higher infection rate and mortality rate can be expected from COVID-19 in all 50 states, particularly in those cities and counties with the most vaccine compliance, 5G-intensive power grids, chem-trailed skies and coronavirus releases.

As the evidence mounts, the ruse the telecoms have been perpetrating on the public world wide, such as patterns of Corona, locations, countries, cities that were designated as show case cities, it becomes harder and harder to deceive humanity.

Four of the biggest coronavirus clusters in the world mushroomed practically overnight in large urban areas which had four common denominators. Each of those major cities experienced:

1. an intensive 5G roll-out,
2. continuous chemtrail spraying over years,
3. a high level of flu vaccine compliance, and
4. numerous coronavirus bioterrorist attacks using COVID-19 or variant. In order of appearance of these 4 well-documented coronavirus cluster explosions, first there was Wuhan, China; next there was Milan, Italy; which was followed by Kirkland, Washington (neighboring Seattle); and now we are witnessing the greater New York City area in real time.

In each case, the “quaternary weapon system” was fully activated to bring about what appeared to be a spontaneous coronavirus outbreaks. However, hard evidence is now surfacing that proves a highly coordinated international criminal conspiracy to engineer a pandemic in order to trigger a panic. See: [A Coronavirus MUST READ! The Well-Hidden Back Story Emerges at the State of the Nation web page.](#)

Yes, there are these hidden and not-so-hidden agendas being implemented during 2020; however, G E N O C I D E with the explicit intention to D E P O P U L A T E the planet on the way to a global L O C K D O W N are the main goals of the New World Order globalist cabal.

US coronavirus death toll increases to 1,300 and experts warn of 12 American hotspots that could spread the epidemic across the entire nation.

The United States is now thought to be on a worse trajectory than Italy with more than 86,000 confirmed coronavirus cases and a death toll of 1,300 Thursday evening.

Data shows a surge of coronavirus hotspots where cases are outstripping the origin of the pandemic, Wuhan. New York City recorded 365 deaths Thursday, up from 280 Wednesday.

Cities including New Orleans, Miami and Chicago each have more than 1,500 cases - unlike China where no area outside Hubei ever reached that. A total of 12 states have already surpassed 1,500 cases each.

The figures suggest the pandemic will reach all corners of the nation as Donald Trump repeated his calls to see the lockdown lifted by Easter. White House counselor Kellyanne Conway said Trump developed the Easter date as a goal to give people 'hope.'

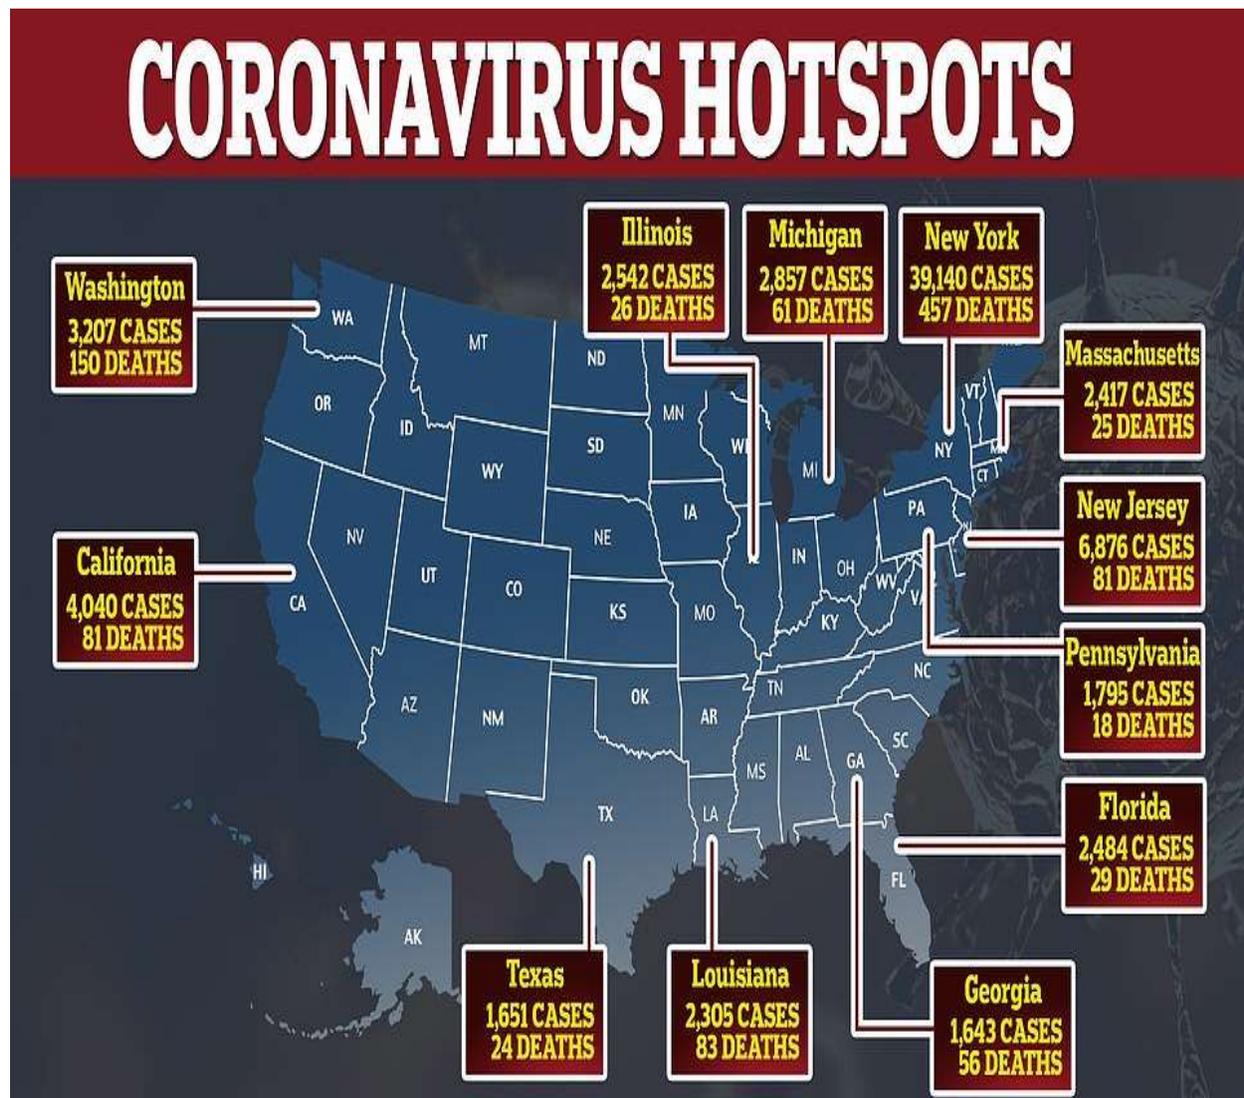

As hotspots emerge across the country, epidemiologists at the University of Washington predict more than 80,000 Americans will die in the next four months if medics do not get the resources they need.

New figures released on Thursday show that the US has overtaken China and Italy with the number of confirmed cases in the global pandemic. Forecasts show there could be thousands of deaths a day.

Figures show that a week after the tenth death New York's toll doubled nearly every 1.5 days; the worst-hit region of Italy, Lombardy, saw a doubling every three days. Cases have also accelerated at a faster rate in the US, than in Italy, Newsweek reports.

The Surgeon General Jerome Adams warned: 'We could be worse than Italy if we don't participate in these 15 days to stop the spread.'

Jeremy Konyndyk, a senior fellow at the Center for Global Development, said: 'China had a bonfire in Hubei but was stamping out sparks everywhere else. We've now got a bonfire in NYC and campfires almost everywhere else — and all still shooting out sparks.'

Cities including New Orleans, Miami and Chicago each have more than 1,500 cases - unlike China where no area outside Hubei ever reached that. A total of 12 states have already surpassed 1,500 cases each.

The United States is now recording far more new coronavirus cases per day than Italy ever has.

Figures show that a week after the tenth death New York's toll doubled nearly every 1.5 days; the worst-hit region of Italy, Lombardy, saw a doubling every three days. Cases have also accelerated at a faster rate in the US, than in Italy.

At New York City-area hospitals on the front lines of the biggest coronavirus outbreak in the nation, workers are increasingly concerned about the ravages of the illness in their own ranks, and that the lack of testing and protective gear is making it not a matter of if they get it, but when.

'Our emergency room was like a petri dish,' said Benny Mathew, a nurse at Montefiore Medical Center who got word Thursday that he had COVID-19 and is now worried he may infect his wife and two daughters.

"I'm angry. We could have secured enough personal protective equipment months ago. It was happening in China since December," he said. "But we thought it was never going to happen here."

Some hospitals in the city, now the epicenter of the virus in the U.S., are now so overrun with dying patients that they've brought in refrigerated trucks to handle the bodies.

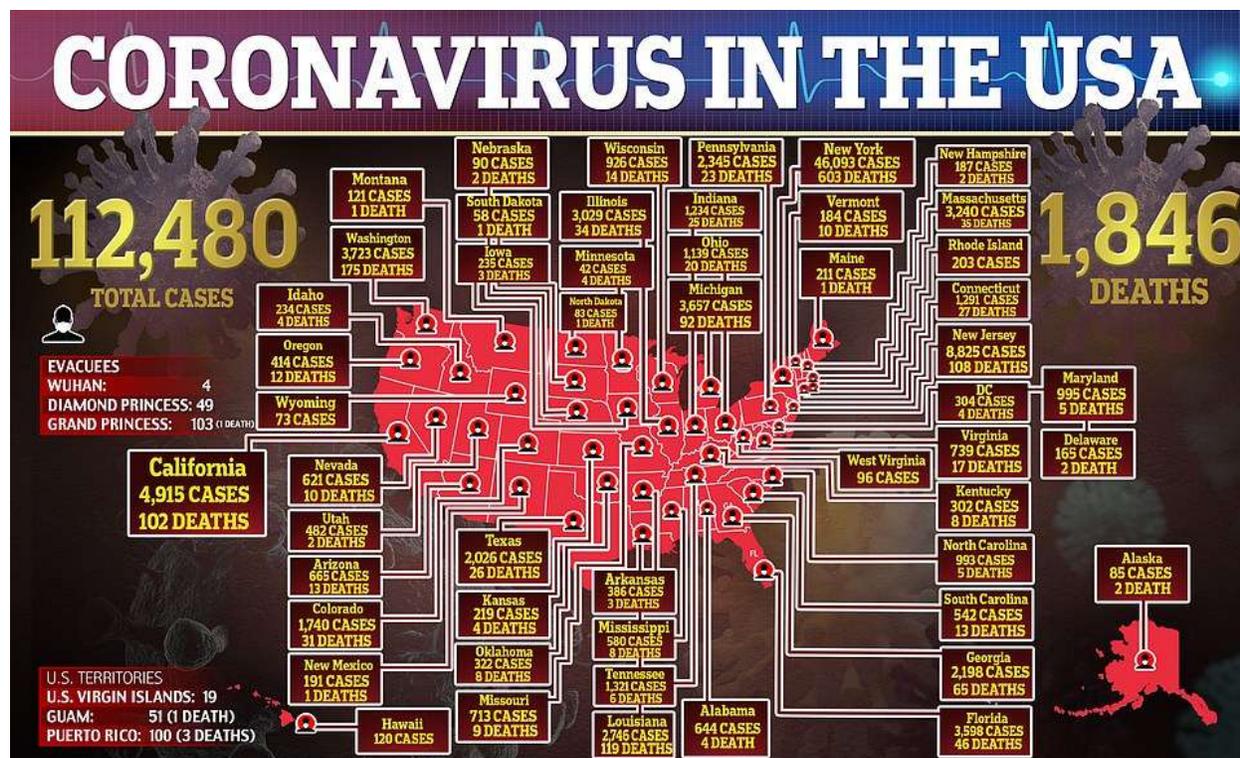

At Elmhurst Hospital in Queens, 13 people succumbed to the virus in one day. City ambulances have seen a surge in calls, responding to nearly 5,800 on Thursday alone.

As the virus moves nationwide other states are rushing to try and stop its spread.

Texas joined other states Thursday in imposing quarantines on travelers from the New York area and put similar restrictions on people arriving from nearby New Orleans as the number of cases there surges dramatically.

By requiring anyone arriving by plane from New Orleans and the New York area — including New Jersey and Connecticut — to quarantine for 14 days, Texas became the latest state to race to isolate travelers coming from places where the coronavirus crisis is most severe.

Governors in Florida and Maryland announced similar restrictions this week pertaining to New York. New Orleans is also becoming a major center of COVID-19 worries, as the number of cases Thursday surpassed 2,300 and deaths climbed to 86.

The United States is now thought to be on a worse trajectory than Italy with more than 112,480 confirmed coronavirus cases and a death toll of 1,846 Friday evening

Makia Freeman posted an interesting article on how to see all of this with a bit of personal levity. It was titled: "6 Solid, Scientific Reasons to Assuage Your Coronavirus Panic."

AT A GLANCE...

THE STORY: There is so much coronavirus panic around. How much is truly justified?

THE IMPLICATIONS: When we are in fear, we fail to accurately assess a situation and judge whether that fears is truly necessary – or whether we have exaggerated the threat.

With coronavirus panic around, it's time to take stock of the situation. Here are 6 solid, scientific reasons to calm your fear and to be aware not scared.

The Corona virus panic has been intense, extreme and out-of-control worldwide in the last 2-3 months. As I have covered in other articles, this hysteria has been promoted by scientists, the MSM (Mainstream Media) and governments who are controlled by a deeper force and who are motivated to generate and exploit the fear – in order to roll out the various NWO (New World Order) agendas while people are distracted and afraid. Of course, it is wise to be prepared and aware; it is wise to have essential supplies on hand, to practice thoughtful hygiene and to have a range of natural supplements to boost your immunity. I am not saying there is nothing to worry about; I am saying the response must be proportional to the threat. Fear and stress themselves lower the immune system. Here are 6 solid, scientific reasons with which you can adjust your response, so as to be more in accordance with the actual threat you face. It is worth remembering that there are far grander agendas at play here – including attacks on essential long-established rights and freedoms – that you need to be aware of, which pose a much bigger threat to you than a virus that will come and go.

1. UK Expert Health Panel Quietly Downgrades COVID-19, Classified as No Longer Infectious

As of March 19th 2020, the UK Government's top medical advice panel announced that COVID-19 is no longer a serious public health hazard. The Advisory Committee on Dangerous Pathogens (ACDP) quietly downgraded COVID-19, declaring that it should no longer be classified as a severe risk or a high consequence infectious disease (HCID). The mainstream media was silent. Here is the quote from the official UK Government website:

“Now that more is known about COVID-19, the public health bodies in the UK have reviewed the most up to date information about COVID-19 against the UK HCID criteria. They have determined that several features have now changed; in particular, more information is available about mortality rates (low overall), and there is now greater clinical awareness and a specific and sensitive laboratory test, the availability of which continues to increase. The Advisory Committee on Dangerous Pathogens (ACDP) is also of the opinion that COVID-19 should no longer be classified as an HCID.”

2. COVID-19 Worldwide Death Count is FAR BELOW Annual Death Count in U.S. for Ordinary Flu.

At the time of writing, the worldwide death count attributed to COVID-19 is under 25,000 (according to the Johns Hopkins CSSE stats). To put this in perspective, the number of people who die in the US alone (which has around only 5% of the world population) from the ordinary seasonal flu every year is between 12,000 and 61,000. Yet, our entire society is being put on lockdown, the economy brought to a halt and we are being subjected to draconian

regulations all because of a virus which is not worse than a normal cold or flu – with which we have to live all the time. Why?

As Doctor Sucharit Bhakdi says, coronaviruses have co-existed with humans and animals around the world for a very long time. Click “CC” for English subtitles.

3. Italy’s Death Count and Death Rate is Highly Skewed Due to Counting Method

Some people are stoking coronavirus panic by pointing to Italy’s death rate. However, there are massive problems with the numbers here. People already sick with other diseases are being counted as a COVID-19 victim or COVID-19 death just because the virus was present in their bodies, even if they would have died anyway and even if the virus did not medically contribute to their death in any way! RT reports in the article *How lethal is Covid-19 REALLY? Why massive fatality rates from Italy are MISLEADING:*

“You do not need to be an expert to calculate the mortality rate. It is one number divided by another — the number of people who have died from the virus divided by the total number of confirmed cases. In the case of Italy, 7,503 dead divided by 74,386 infected gives a mortality rate of roughly 10 percent. But that does not mean that one in ten people who contract the virus will die, despite what the scaremongering media would have you believe ... the larger number, the confirmed cases, must by definition be an underestimate. It would be impossible for every person in a country positive for the coronavirus to have been already tested and added to the confirmed cases. The virus can be dormant in people for up to two weeks, and young people can experience very mild or even no symptoms at all, and still be positive for the virus. Since that figure is by definition too low, the mortality rates being reported are by definition too high.”

Italy has also been counting people with other conditions, sometimes 2-3 other serious diseases:

“The vast majority of Covid-19 fatalities, 99 percent according to Italian research, have had a pre-morbidity, if not two or three. These are underlying health issues, like heart disease, cancer or various infections. Some might have been comatose, with life support machines and artificial breathing the only thing keeping them alive anyway.”

According to Professor Walter Ricciardi, the scientific advisor to Italy’s Minister of Health, Italy’s death rate or mortality rate is so high due to demographics (it has the 2nd oldest population in the world) and the manner in which hospitals record deaths.

4. The Flawed PCR Test: Even CDC Admits Virus May Not Cause Symptoms or Disease

There are some serious problems with the generally accepted method of testing for a virus. It’s called the PCR (Polymerase Chain Reaction) test. The PCR test amplifies a specific region of a DNA strand (the DNA target). It is qualitative not quantitative; in other words, it can tell

you if a virus is present or not, but it can't tell you in what quantities, and it can't make any accurate assessment about whether the presence of that virus is enough to cause disease. The CDC (US Center for Disease Control) itself admits that a positive coronavirus COVID-19 test (using the PCR method) doesn't mean the virus is causing the disease/symptoms you may have! These are the actual words of the CDC:

“Positive [test] results are indicative of active infection with 2019-nCoV but do not rule out bacterial infection or co-infection with other viruses. The agent detected may not be the definite cause of disease.”

This is a serious problem for those promoting coronavirus panic. If the scientific golden benchmark test (the PCR) doesn't even provide proof that the virus causes the disease, why is everyone rushing around like a headless chicken instead of questioning the base foundations – which are actually assumptions not facts?

5. Study Finds 80% False Positive Test Results for COVID-19 Cases

A study published this month on March 5th 2020 (then retracted) on the NIH (National Institute of Health)'s PubMed website concluded that there have been a very high number of false positive results for people being tested for COVID-19 – potentially as high as 80%! This means a vast number of people who get this result are deemed “positive” or to have the virus when in fact they do not. The study entitled Potential False-Positive Rate Among the ‘Asymptomatic Infected Individuals’ in Close Contacts of COVID-19 Patients concluded:

“When the infection rate of the close contacts and the sensitivity and specificity of reported results were taken as the point estimates, the positive predictive value of the active screening was only 19.67%, in contrast, the false-positive rate of positive results was 80.33%. The multivariate-probabilistic sensitivity analysis results supported the base-case findings, with a 75% probability for the false-positive rate of positive results over 47%. Conclusions: In the close contacts of COVID-19 patients, nearly half or even more of the ‘asymptomatic infected individuals’ reported in the active nucleic acid test screening might be false positives.”

Was the study retracted for political reasons?

6. Unjustified Coronavirus Panic: Viruses are Not What You Think

On top of all this, there are many assumptions that are being presented as fact when it comes to viruses. What are viruses? Can they exist outside the body? Can they really be transferred from person to person? Is it 100% proven that viruses cause disease? Is it 100% proven that the presence of a virus in your body means that that virus is causing you disease? German biologist and virologist Dr. Stefan Lanka offered a reward of €100,000 for anyone who could scientifically prove that measles was a virus. That case that went all the way to the German Supreme Court where he won, showing that there was no scientific proof that measles virus existed. In a similar vein, there are many prominent scientists who question the mainstream

definition of viruses. Professor Peter Duesberg stated with solid evidence that HIV did not cause AIDS. How much can we trust mainstream science to tell us the truth about these epidemics?

Conclusion: Be Aware Not Scared in the Face of All the Coronavirus Panic

Remember, over 150,000 people die worldwide every day just in the normal course of affairs. So far, the coronavirus has killed around 25,000 after months and months. Is this outbreak really worth the lockdown, the panic and the fear? Is it worth the economic havoc it is wreaking on those below, at or just slightly above the poverty line? Think about the countless financial consequences and lives that will be ruined because of this shutdown.

Take a calm, objective look at all the coronavirus panic. Is it justified? Can we be aware and prepared without being scared? Can we convert fear into awareness? If we don't, we're playing right into the hands of the ruling class who is beyond motivated to exploit this event as much as they can to make the world a less free and more tyrannical place.

Are you going to allow that with your attitude and choices over this crisis?

I thought I would share this one for a laugh.

God has sent us an abundance of signs over the past seventy years to prepare us for world judgment or hopeful deliverance. As one who began watching on June 7, 1967, it has required patience in anticipation of this event. I can say with all candor and honesty that I never lost faith for a single day. I have had my experiences of dealing with scoffers, skeptics, and the outright haters of Jesus Christ. As Dave Reagan has always said, Jesus Christ will be your best friend or your worst nightmare.
