

5G and Crimes Against Humanity

Part 5

The researchers at the American Intelligence Media and Americans for Innovation have unearthed additional information about how the Corona virus “nanotube” 5G delivery system is being used to infect and kill thousands of people. The Harvard scientist Charles M. Lieber and two Chinese nationals were arrested and indicted on January 28, 2020.

The Department of Justice announced today that the Chair of Harvard University’s Chemistry and Chemical Biology Department and two Chinese nationals have been charged in connection with aiding the People’s Republic of China.

Dr. Charles Lieber, 60, Chair of the Department of Chemistry and Chemical Biology at Harvard University, was arrested this morning and charged by criminal complaint with one count of making a materially false, fictitious and fraudulent statement. Lieber will appear this afternoon before Magistrate Judge Marianne B. Bowler in federal court in Boston, Massachusetts.

Yanqing Ye, 29, a Chinese national, was charged in an indictment today with one count each of visa fraud, making false statements, acting as an agent of a foreign government and conspiracy. Ye is currently in China.

Zaosong Zheng, 30, a Chinese national, was arrested on Dec. 10, 2019, at Boston’s Logan International Airport and charged by criminal complaint with attempting to smuggle 21 vials of biological research to China. On Jan. 21, 2020, Zheng was indicted on one count of smuggling goods from the United States and one count of making false, fictitious or fraudulent statements. He has been detained since Dec. 30, 2019.

Dr. Charles Lieber

According to court documents, since 2008, Dr. Lieber who has served as the Principal Investigator of the Lieber Research Group at Harvard University, which specialized in the area of nanoscience, has received more than \$15,000,000 in grant funding from the National Institutes of Health (NIH) and Department of Defense (DOD). These grants require the disclosure of significant foreign financial conflicts of interest, including financial support from foreign governments or foreign entities. Unbeknownst to Harvard University beginning in 2011, Lieber became a “Strategic Scientist” at Wuhan University of Technology (WUT) in China and was a contractual participant in China’s Thousand Talents Plan from in or about 2012 to 2017. China’s Thousand Talents Plan is one of the most prominent Chinese Talent

recruit plans that are designed to attract, recruit, and cultivate high-level scientific talent in furtherance of China's scientific development, economic prosperity and national security. These talent programs seek to lure Chinese overseas talent and foreign experts to bring their knowledge and experience to China and reward individuals for stealing proprietary information. Under the terms of Lieber's three-year Thousand Talents contract, WUT paid Lieber \$50,000 USD per month, living expenses of up to 1,000,000 Chinese Yuan (approximately \$158,000 USD at the time) and awarded him more than \$1.5 million to establish a research lab at WUT. In return, Lieber was obligated to work for WUT "not less than nine months a year" by "declaring international cooperation projects, cultivating young teachers and Ph.D. students, organizing international conference[s], applying for patents and publishing articles in the name of" WUT.

The complaint alleges that in 2018 and 2019, Lieber lied about his involvement in the Thousand Talents Plan and affiliation with WUT. On or about, April 24, 2018, during an interview with investigators, Lieber stated that he was never asked to participate in the Thousand Talents Program, but he "wasn't sure" how China categorized him. In November 2018, NIH inquired of Harvard whether Lieber had failed to disclose his then-suspected relationship with WUT and China's Thousand Talents Plan. Lieber caused Harvard to falsely tell NIH that Lieber "had no formal association with WUT" after 2012, that "WUT continued to falsely exaggerate" his involvement with WUT in subsequent years, and that Lieber "is not and has never been a participant in" China's Thousand Talents Plan.

Yanqing Ye

According to the indictment, Ye is a Lieutenant of the People's Liberation Army (PLA), the armed forces of the People's Republic of China and member of the Chinese Communist Party (CCP). On her J-1 visa application, Ye falsely identified herself as a "student" and lied about her ongoing military service at the National University of Defense Technology (NUDT), a top military academy directed by the CCP. It is further alleged that while studying at Boston University's (BU) Department of Physics, Chemistry and Biomedical Engineering from October 2017 to April 2019, Ye continued to work as a PLA Lieutenant completing numerous assignments from PLA officers such as conducting research, assessing U.S. military websites and sending U.S. documents and information to China.

According to court documents, on April 20, 2019, federal officers interviewed Ye at Boston's Logan International Airport. During the interview, it is alleged that Ye falsely claimed that she had minimal contact with two NUDT professors who were high-ranking PLA officers. However, a search of Ye's electronic devices demonstrated that at the direction of one NUDT professor, who was a PLA Colonel, Ye had accessed U.S. military websites, researched U.S. military projects and compiled information for the PLA on two U.S. scientists with expertise in robotics and computer science. Furthermore, a review of a WeChat conversation revealed that Ye and the other PLA official from NUDT were collaborating on a research paper about a risk assessment model designed to decipher data for military applications. During the

interview, Ye admitted that she held the rank of Lieutenant in the PLA and admitted she was a member of the CCP.

Zaosong Zheng

In August 2018, Zheng entered the United States on a J-1 visa and conducted cancer-cell research at Beth Israel Deaconess Medical Center in Boston from Sept. 4, 2018, to Dec. 9, 2019. It is alleged that on Dec. 9, 2019, Zheng stole 21 vials of biological research and attempted to smuggle them out of the United States aboard a flight destined for China. Federal officers at Logan Airport discovered the vials hidden in a sock inside one of Zheng's bags, and not properly packaged. It is alleged that initially, Zheng lied to officers about the contents of his luggage, but later admitted he had stolen the vials from a lab at Beth Israel. Zheng stated that he intended to bring the vials to China to use them to conduct research in his own laboratory and publish the results under his own name.

The charge of making false, fictitious and fraudulent statements provides for a sentence of up to five years in prison, three years of supervised release and a fine of \$250,000. The charge of visa fraud provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. The charge of acting as an agent of a foreign government provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. The charge of conspiracy provides for a sentence of up to five years in prison, three years of supervised release and a fine of \$250,000. The charge of smuggling goods from the United States provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. Sentences are imposed by a federal district court judge based upon the U.S. Sentencing Guidelines and other statutory factors.

Assistant Attorney General for National Security John C. Demers, United States Attorney Andrew E. Lelling; Special Agent in Charge of the FBI Boston Field Division Joseph R. Bonavolonta; Michael Denning, Director of Field Operations, U.S. Customs and Border Protection, Boston Field Office; Leigh-Alistair Barzey, Special Agent in Charge of the Defense Criminal Investigative Service, Northeast Field Office; Philip Coyne, Special Agent in Charge of the U.S. Department of Health and Human Services, Office of Inspector General; and William Higgins, Special Agent in Charge of the U.S. Department of Commerce, Office of Export Enforcement, Boston Field Office made the announcement. Assistant U.S. Attorneys B. Stephanie Siegmann, Jason Casey and Benjamin Tolkoff of Lelling's National Security Unit are prosecuting these cases with the assistance of trial attorneys William Mackie and David Aaron at the National Security Division's Counterintelligence and Export Control Section.

The details contained in the charging documents are allegations. The defendants are presumed innocent unless and until proven guilty beyond a reasonable doubt in a court of law.

These cases are part of the Department of Justice's China Initiative, which reflects the strategic priority of countering Chinese national security threats and reinforces the

President's overall national security strategy. In addition to identifying and prosecuting those engaged in trade secret theft, hacking and economic espionage, the initiative will increase efforts to protect our critical infrastructure against external threats including foreign direct investment, supply chain threats and the foreign agents seeking to influence the American public and policymakers without proper registration.

The above is the content of a Department of Justice Press Release, confirming the Harvard scientist was deeply involved with the Corona virus that has the world in lock-down. The professor is an expert in the nano-technology in bio-warfare against the world. The researchers of American Intelligence Media and Americans for Innovation have been able to discover and report on the diabolical acts of the Eugenicists and Depopulation agenda that have been stealthy working behind the scenes in the most incredible way imaginable. It took the researchers five days to unearth what follows.

Charles M. Lieber and the Queen's QinetiQ

Indicted Harvard carbon nanotube bio-warfare [likely constructed the Coronavirus nanotube 5G delivery system] professor **Charles M. Lieber** has hidden from public disclosure that his father (the son of a Romanian Jewish émigré candy manufacturer Leo Lieber), **Robert I. Lieber**, was a satellite tracking and radar spy for RCA's (Sir Geoffrey Pattie, Privy Council, NBC, BBC, Sarnoff) AEGIS satellite system now managed by Lockheed Martin, SERCO, QinetiQ and the British Privy Council.

Lockheed Martin is controlled by the Queen's Golden Share. RCA became SERCO & QinetiQ and now manages much of America's large-scale infrastructure, including FEMA, air traffic control, Obamacare, OMB, OPM, SES, State Department, warfighting, and even including managing the U.S. Patent and Trademark Office.

The U.S. Patent Office has blocked access to Robert Lieber's weaponized patents, even though this patent is out of his normal radar expertise.

They were discovered in well-presented form at the German Patent Office:

[FR App. No. 1,369,330. \(Jul. 06, 1964\).](#) [FR] Data processing system, Inventors: Hans Karl Flesch, Fredrick Theodore Gutmann, Robert Lieber. filed Apr. 11, 1962, assigned to International Standard Electric Corp., New York, N.Y. (USA). French Patent Office.

[DE App. No. 1424634. \(Jan. 30, 1969\).](#) [DE] Data processing system, Inventors: Flesch Hans Karl, Frederick Theodore Gutman, Robert Lieber. filed Apr. 25, 1962, assigned to International Standard Electric Corp., New York, N.Y. (V. St. A.). German Patent and Trademark Office (DPMA).

[U.S. Patent No. 3,204,086. \(Aug. 31, 1965\).](#) Data Processing Systems. Inventors Hans K. Flesch, Glen Cove, N.Y., and Fredrick T. Gutmann, Caldwell, and Robert Lieber, West Orange, N.J., assignors to International Telephone and Telegraph Corporation, Nutley, N.J., a corporation of Maryland Filed Apr. 27, 1961, Ser. No. 106,090 16 Claims.

Note: The U.S. Patent Office (USPTO) is blocking PUBLIC PAIRS (full record of an application) and even SIMPLE SEARCH access to this Robert Lieber patent.

Here's the proof that the U.S. Patent Office is blocking access to the Robert Lieber patent: [Robert Lieber Search. \(Accessed Mar. 29, 2020\).](#) Illustration that the Patent Office is blocking access to U.S. Pat. No. 3,204,086 awarded to Robert I. Lieber, RCA, and father of prolific Harvard carbon nanotube professor Charles M. Lieber indicted for espionage. USPTO.

[R. Lieber \(Robert I. Lieber\), contributor \(Feb. 01, 1978\).](#) Digital computer simulation of radar systems (AEGIS Combat System, RCA, now Lockheed Martin), by J. Liston, G.M. Sparks, Acknowl. to Robert Lieber, p. 88, Vol. 23, No. 5, Feb-Mar 1978, accessed Mar. 28, 2020. *RCA Engineer.*

Acknowledgments

We are grateful to C. Falcon, D.M. Fuerle, J. Golub, and E.J. Hartnett for discussion and descriptive data on various AEGIS simulations. Helpful discussions with R. Lieber, N.A. Ricciardi, and P.J. Schick also contributed to the preparation of this paper.

Descriptive Summary

Title: David Sarnoff Research Center records
Dates: 1899-2008, bulk 1942-1995
Accession Number: 2464.09
Creator: Sarnoff Corporation.
Extent: 990 linear feet
Language of Material: English
Repository: Hagley Museum and Library: Manuscripts and Archives Department
Abstract: The David Sarnoff Research Center (DSRC) in Princeton, New Jersey was the central research organization for the Radio Corporation of America (RCA) from 1942 to 1987. Following GE's acquisition of RCA in 1986, the DSRC was donated to SRI International as a contract research laboratory. Renamed the Sarnoff Corporation in 1997, it was integrated into SRI in 2011. The records document the pioneering research of its scientists and trace the history of the organization from its establishment into the 21st century.

RCA, Sarnoff (Pilgrims Society), SERCO, Pattie, Privy Council, Malloch-Brown..... bingo
He introduced them to Euro globalists on their airplane hobby trips to Europe.

Charlie NEVER talks about his family, especially his father, or his Romania Eastern European heritage.

Robert Lieber

BIRTH	6 May 1926
DEATH	6 Jan 2008 (aged 81)
BURIAL	Body donated to medical science
MEMORIAL ID	23851216

Burlington County Times - Medford, NJ resident

Robert Lieber, born May 6th, 1926 in Philadelphia, died January 6th, 2008. He served in the Army in WWII, Fighting from France to

Belgium to Luxembourg to Germany. After the war, he earned a degree in Engineering from the University of Miami, and later a Masters Degree in Systems Engineering from Drexel University. He had a long and successful career at RCA, where he earned three Technical Excellence awards for his ground breaking role in developing a satellite tracking and fire-control radars at their Moorestown plant. Bob also received a patent for the early design of circuit boards, which helped revolutionize the manufacture of electrical equipment, contributed to a radar textbook, and at the pinnacle of his career, was awarded the General Sarnoff gold medal for excellence of achievement for all of RCA.

Above all, Bob was the most caring, devoted, and loving husband, father, friend, and brother-in-law of Marc and Carolyn Shuman. He served as a wonderful role model for his children, Lee, Charles, and Ellen and his beloved grandchildren, Alex and Sara. To him, there was no such thing as a stupid question. He always had a patient and clear response to every query.

Robert Lieber was a spook for RCA, ITT, Cable & Wireless, Navy, and Admiralty with the Brits re. building the AEGIS system!

He even has a patent that is being blocked by the USPTO, but found in the German Patent Office!

The RCA AEGIS unit is now run by Lockheed Martin.

[R. Lieber \(Robert I. Lieber\), contrib. \(Feb. 01, 1978\)](#). Digital computer simulation of radar systems (AEGIS Combat System, RCA, now Lockheed Martin), by J. Liston, G.M. Sparks, Acknowledgement to Robert Lieber, p. 88, Vol. 23, No. 5, Feb-Mar 1978. RCA Engineer.

SPECIAL REPORT by Derrick Broze & Josh del Sol

While much of the world has been focused on surviving a "pandemic", social distancing and quarantines, the proponents of mass surveillance and 5G have been scoring major gains.

During this chaotic time it's extremely important to take note of the advancements of legislation and political maneuvers which threaten our liberty and privacy.

First, on March 23, the 5G rollout progressed even further in the USA with President Donald Trump signing a bill aimed at “securing America’s 5G infrastructure.”

The act, titled the [Secure 5G and Beyond Act](#), calls for a comprehensive plan to securitize a nationalized 5G grid in “not later than 180 days.”

Combined with an additional bill, the [Broadband Deployment Accuracy and Technological Availability \(DATA\) Act](#), which passed the House on 16 December 2019, these bills seek to nationalize 5G network control. [Read more about these two bills.](#)

CONFIRMED: 5G and related tech is being deployed at or near many schools during the lockdown.

Last week, after seeing video of some installations of 5G and apparent biometrics at schools during the lockdown, we asked readers to [share any evidence](#) they had regarding this apparently fast-tracked deployment in their neighborhoods.

After dozens of comments, emails, and videos, we can safely say there is indeed an effort to install 5G related equipment at or near schools, and throughout cities in general.

For example, Twitter user “Just Michael” filmed an encounter with police parked at a local school, which were either performing or supporting the installation. When asked if what they’re doing is related to 5G installation, the apparent police officer acted odd and attempted to deflect the question.

Watch this rather shocking video:

Investigating [#5G](#) installs in the schools during the [#Coronavirus #Lockdown](#). Seems I may have stumbled across some [#CrookedCops](#) helping with the [#Coverup](#). I did a nice little [#Psychoanalysis](#) of the cops doing some dirty work and implying threats to me. [#CoronaHoax #5GisON](#) RT  pic.twitter.com/UrvG5inOAm
— JustMichael (@MichaelTheJust) [March 25, 2020](#)

Another clear example of telecommunications activity at schools comes from a Facebook video posted by IJ Hribal. In [this video](#) she visits a school in Longview, Texas to ask a contractor if his work involves 5G. The man claimed there was an ongoing 5G installation which actually began in December 2019. (Note: This has been flagged by Facebook as “fake news.”)

In [another video](#) posted on her Facebook page, IJ Hribal writes, *“5G being installed at North Penn High School in Lansdale, PA. This was sent to me by a brave mother who would like to remain anonymous. It’s time to check your schools and start putting these people on notice. We do NOT consent.”*

Finally, an email from the Mayor of Nevada City CA, Reinetta Senum described an increase in activity at local high schools:

“AT&T is going off the hook these last couple weeks in our community. We have never seen anything like it.... We have also been overwhelmed by PG&E trucks including IES trucks installing ‘air conditioners’ on the top of our local high school roof tops. For air conditioner installations??”

Read Ms. Senum’s full letter on our [Solutions For Humanity Telegram channel](#).

PASSED: \$2 trillion stimulus package advances surveillance, “telemedicine”

The surveillance state is also being expanded in other ways within the 2200-page, \$2 trillion stimulus package that was signed by Donald Trump on Friday, and supported by both parties. It includes billions of dollars to the criminal Federal Reserve for a new US digital dollar, allocates [funding for telehealth and telemedicine](#) services which will surely be powered by 5G ‘smart’ grid, and creates a fund for development of vaccines.

INTRODUCED: New bill to end encryption, tap private chats

Another new bill called the [EARN IT Act of 2020](#) will attempt to force encrypted communication providers, like Telegram and Protonmail, to give [American intelligence services the ability to wiretap private chats](#) or face steep legal penalties.

The bill was heavily debated in early March but has since stalled, however, we should remain vigilant and not allow ourselves to be distracted by the constant focus on COVID-19. It should be noted that the bill was introduced with bipartisan support from Senators Lindsey Graham (R-SC) and Richard Blumenthal (D-CT), and is also sponsored by Josh Hawley and Dianne Feinstein.

Like other bills being fast-tracked, this law’s supporters are using the cover of Coronavirus panic to quietly advance it without much of a debate.

REPORTS: Governments using ‘smart’ phones to track in-home quarantine compliance & social distancing.

Will government agencies seek to actually track us in our homes, using our smart phones, to see if we are obeying their decrees?

It appears that’s where this could be headed, as the US government is reportedly already in talks with Google and Facebook about [tracking the location of citizens using their smartphones to ensure they are practicing social distancing](#).

And around world, at least 11 nations are [already using people’s smart phones to unlawfully track them](#) during this COVID-19 event.

See the this regularly-updated [COVID-19 Digital Rights Tracker](#).

The context: what this all means

As we have outlined here, there is clearly an effort to erect the final pieces of the global technocratic infrastructure while humanity is being pushed into a state of fear and panic over a virus with [questionable fatality rates](#).

We are being lied to about the virulence of COVID-19. And the ramifications are unprecedented. For more perspective that intelligently challenges the official narrative, see these links:

- [Ben Swann video](#) – the breakdown of WHO’s disinformation
- [Wall Street Journal article](#) – fatality rate too high by orders of magnitude
- [New England Journal of Medicine article](#) – Dr. Fauci’s admission
- [CNN article](#) – “majority of people with Covid-19 only suffer mild symptoms, then recover”

It’s becoming increasingly clear that elitist criminals in government, media, and corporations are pushing forward a [carefully-orchestrated agenda to establish a global society of technocracy](#). This agenda appears to include:

vaccines which may be mandatory (or coerced via [digital certificates](#), wristbands, or social credit score);

a rapid, covert [expansion of 5G](#);

global biometric systems (such as [this](#)) to track who has been vaccinated or recovered from COVID-19;

the continuing implosion of the economy to make the public dependent on the State;

a [digital currency](#) linked to the biometrics and 5G;

fear-based social control system to normalize “social distancing” and unjustified fear of other human beings.

The only way we will make it out of this precarious situation is to continue to educate our loved ones and community. We cannot simply stay in our “woke” bubbles and preach to the choir.

These are challenging developments to all of us who are paying attention to the facts about 5G, and waking up to see what appears to be an orchestrated technocratic false flag agenda, unprecedented in our nation’s history.

While many leaders in the battle to preserve humanity’s future are understandably in the mode of research, coping and regrouping at this time, going forward we will be in touch with more information about how we can effectively and powerfully respond.

There appears to be an increasingly limited window of time to reach the masses and we must take the opportunity or risk failing to achieve a truly awakened humanity. Please make an honest effort to communicate with your friends, family, and other people you may be interacting with online or in-person.

Together we can change the story that is unfolding in front of our eyes. We can make it through this dark night and create a better world which our hearts know is possible.

We are bringing forward solutions-based resources. Subscribe to our future updates via [email](#) or [Telegram](#) (click 'JOIN').

This report is one of the most comprehensive efforts to tie together 5G and its real purpose to control humanity world-wide. It needs to be shared as wide as possible. When I received it, I tried to save it to my hard drive and was blocked. I am being blocked from saving any news reports on 5G, the COVID-19, and various key people in this global depopulation plan. The END GAME IS HERE AND NOW. SHARE THIS REPORT WITH EVERYONE YOU POSSIBLY CAN. EVERYONE'S LIFE IS IN DANGER, AND ONLY THE RAPTURE REMAINS OUR HOPE, OUR BLESSED HOPE. -(Titus 2:13).

Blessings,

Pastor Bob, EvanTeachr@aol.com
