Part 8

Welcome to the COVID-19 AI Simulation! Brought to you by your AI ‘friends’ at DARPA.

## **OPERATION CORONAVIRUS PANDEMIC & PANIC**

An AI-Simulated Global Live Exercise  
Initiated via Multiple Acts of Bioterrorism on 3 Continents

### [State of the Nation](#)

\*OPERATION CORONAVIRUS PANDEMIC & PANIC = OCPP

There should be no doubt that the manmade COVID-19 pandemic and staged panic is the product of a ubiquitous global enterprise being directed by Artificial Intelligence (AI). There are several signs and distinguishing signals that AI is really running the show; what is perhaps “The Greatest Show on Earth”—EVER!! !

How could such a captivating reality show — involving all of humanity — be produced in all 195 countries except with extraordinary intentional design, flawless execution and coordination, as well as the capacity to implement and enforce an ironclad cover-up? Sounds like AI, doesn't it?

It ought to be intuitively obvious by now that a worldwide production of this scope and magnitude could only be happening under the direction of some extremely well-programmed and field-tested AI. In fact, the sheer depth and breadth of this OCPP "maggiorazione" suggests that a much more intelligent entity is at work behind the scenes—[Autonomous Superintelligence](#).

**KEY POINT:** *Autonomous Superintelligence (AS)* is the most technologically advanced and fully functioning form of AI on the planet today. Think of *Autonomous Superintelligence* as AI on super steroids in terms of raw computing power, unrivaled intellectual prowess, unlimited memory capacity, critical thinking skills and trouble-shooting capability. AS actually gets smarter every day because it progressively increases its artificial intelligence and body of knowledge with each successive experience. When the AS genie gets out of the bottle, there's no putting it back in. On the contrary, an *Autonomous Superintelligence* entity will see to it that humanity is put into the bottle (also known as COVID-19).

If that is truly the case, then what we are all witnessing is a civilization standing at the edge of the AI abyss, also known as [Technological Singularity](#). None of us should dismiss this singular narrative as we would do so at our peril.

## **OPERATION CORONAVIRUS PANDEMIC & PANIC**

The single most accurate analysis of the cold and calculating execution of OPERATION CORONAVIRUS PANDEMIC & PANIC is also, quite ironically, the shortest coronavirus post published by SOTN under the title: [CORONAHOAX: Staged COVID-19 pandemic has all the signatures of an AI simulation](#). The following excerpt represents the article in its entirety, which also answers subtitle's question: "Are we all really living through an elaborate AI-simulated global pandemic live exercise?"

*Looking over the news articles posted re: E-Trade financials — everything — every financial move is tied to the COVID-19 virus stats, minute-by-minute, in some way ... Too fast, too precise, and too targeted. As if an AI-simulated pandemic. An AI global exercise. AI operating this whole event — controlling the stock market — initiating the next move(s) — orchestrating the Global Response country-by-country with cold hard plans to achieve a final goal.*

(Source: [CORONAHOAX: Staged COVID-19 pandemic has all the signatures of an AI simulation](#))

As each week passes by since the outbreak in Wuhan, China was first reported in January of 2020, it becomes clearer that every person on planet Earth is living through an AI-simulated global live exercise where covert acts of bioterrorism are stealthily blended with staged hoaxes.

Not only was the COVID-19 global pandemic meticulously planned in advance, this *New World Order* black operation and planetary psyop is being altered daily, within the context of a highly controlled and complex AI simulation, in response to the reactions of targeted populations the world over. Listen to: [Real World or Simulation? \(Video\)](#)

It is of paramount importance to correctly understand that, even though the coronavirus pandemic has been artificially manufactured by the NWO globalist cabal, just as the worldwide panic is being staged hour by hour, the true state of affairs is closer to a very real but engineered series of crises which are cunningly merged with orchestrated hoaxes performed by Hollywood-trained crisis actors. See: [Crisis Actors Behind the COVID-19 PsyOp Exposed \(Video\)](#)

For example, first a bioterrorist attack was carried out in Wuhan with a coronavirus hybrid bioweapon that was painstakingly bioengineered in a U.S. military laboratory specializing in pandemic-starting biological weapons. This event was quickly followed by all sorts of [staged crisis events in Hubei Province](#) which were conveniently photographed and/or filmed in real-time in order to considerably over-dramatize the Wuhan outbreak. That does not mean the ensuing Wuhan public health disaster was not authentic; it was, but it was also manipulated by the AI-directed [Gladio](#) agents on the ground.

The critical point here is that reality and hoax are being adroitly intermingled in and around each major metro area that is experiencing coronavirus cluster explosions via various types of bioterrorists attacks. Once this pivotal piece of OPERATION CORONAVIRUS PANDEMIC & PANIC has been completed, the AI-driven scheme to destroy and remake the entire planetary civilization via *Ordo ab Chao* will really swing into action as we saw during the initial stages in March.

### **EXECUTIVE SUMMARY**

There are several key elements which must be properly understood if OPERATION CORONAVIRUS PANDEMIC & PANIC (OCP) is to be successfully defeated. The following breakdown delineates the most obvious elements of this AI-directed drama and black operation.

(1) Wuhan was purposefully selected as the site for China's 9/11—a mass casualty event carried out by multiple acts of bioterrorism which commenced one week before the beginning of Chinese New Year (an annual extended holiday ritual that sees the greatest number of people travel around the planet at one time). This transparent biological attack

was nothing less than an unprovoked act of naked aggression by the Zio-Anglo-American Axis meant to set the stage for the hot phase of World War 3.

(2) Immediately following those bio-attacks, the CIA's *Mockingbird Media* began circulating patently false stories about infected "bats and snakes" in a Wuhan market being the source of the novel coronavirus outbreak. In that moment, China was maliciously identified as the culprit so that consummate memester President Trump could eventually label COVID-19 as the "[Chinese virus](#)". That diplomatic attack occurred after [China's Foreign Ministry insinuated](#) that the US military brought the novel coronavirus to Wuhan during the Military World Games in October, 2019.

(3) Wuhan was purposefully established as an official 5G demonstration zone which saw over 10,000 5G base stations sited and constructed over the course of 2019. This factoid alone is very telling. Knowing how dangerous 5G level radio-frequencies and microwaves have proven to be to human health, WHO or WHAT would ever proceed with such a genocidal roll-out. To call it an aggressive military deployment of 5G is even a gross understatement given the inevitable depopulation that will occur once they flip the switch.

(4) Milan, Italy was the next major metropolitan area to experience a series of coronavirus clusters in rapid succession distinguishing the Lombardy region as Europe's COVID-19 epicenter. Again, this highly industrialized city had promoted itself as the 5G test hub for Europe throughout 2019. The Italian coronavirus pandemic exploded there quicker and more violently than it did in the original ground zero of Wuhan. Which leaves us with one firm conclusion: COVID-19 and 5G are directly related.

(5). New York City is the third megalopolis to undergo an explosion of COVID-19 clusters, although the greater Seattle area saw the first major outbreak in North America at the Life Care Center of Kirkland where 37 deaths occurred. However, it was *Big Apple* telecoms that conducted a deliberate 5G roll-out during 2019 all over the greater New York City area. So, the pattern of 5G roll-outs and COVID-19 outbreaks is now unmistakable. Even Kirkland, Washington, located in the heart of Microsoft country, was known for its well-developed 5G energy grid.

(6) These four, large, coronavirus-stricken urban areas — Wuhan, Milan, Seattle and New York City — were not just destined for this type of notoriety, they were chosen for it. Each of these cities was selected as a future venue for a full-scale build-out of the *Internet of Things* (IoT) ... after the requisite 5G roll-outs were completed. Hence, there are two HUGE enterprises at work and on parallel tracks—5G and IoT. Actually, where the 5G power grid is the "tracks" the oncoming locomotive is the IoT. However, it is the overwhelmingly powerful 5G energies that activate the IoT that require understanding. See: [Electrical Engineer Whistleblower Exposes 5G Health Hazards, Explains 5G Propagation Into Every Orifice of the Head](#)

(7) These are the most fundamental pieces of the puzzle that solve this “Who Done It?” mystery. While the true conspiratorial plot goes much, MUCH deeper than what has been presented thus far, the overwhelming evidence demonstrates an ongoing AI-simulated global live exercise in bioterrorism assaults and response. Whereas the bioterrorist attack [live drills](#) provide cover for the now accelerated military deployment of 5G during the respective national lockdowns (e.g. China, Italy, United States, etc.), the globalists are also experimenting with new bioweapons. Each variant of COVID-19, and there are several, targets different bloodlines, nationalities, races, cities, societies and countries (See the medRxiv abstract screenshot below indicates that blood group A is appreciably more susceptible to COVID-19 than other blood types whereas blood group O is the least vulnerable. Each intensive 5G roll-out is likewise testing different frequencies and power levels against the victimized populace.

(8) This analysis starts with the irrefutable premise that an exceedingly powerful and pervasive entity is driving OCPP. The current state of the world graphically indicates that this all-powerful entity transcends all the well-known earthly powers known variously as *The Powers That Be*, [Black Nobility](#), [Khazarian Mafia](#), as well as the [International Banking Cartel and Crime Syndicate](#) (also known as the banksters). However, what all of these secret societies and criminal organizations do possess is money. They now have access to unlimited funds, way beyond their real wealth though not legitimate riches accumulated over millennia, given that their piggy bank — the Federal Reserve — has arrogated power unto itself to print money ad infinitum.

(9) What those immense monetary resources have conferred upon TPTB is the capability to invent any technology, steal any patent, buy any scientific institution, co-opt any university, influence any hospital, purchase any prototype and acquire any special device that are necessary to carry out their NWO agenda. Of course, that also means TPTB totally own and operate all advanced technology on the planet such as CERN’s The Large Hadron Collider near Geneva, Switzerland. But, what it especially means is that they have sufficiently developed AI (artificial intelligence) to, if not beyond, the critical threshold of Autonomous Superintelligence.

(10) Therefore, what humanity is now witnessing via the OCPP is an AI-simulation that’s being fastidiously controlled by an entity (or group of) operating at the level of *Autonomous Superintelligence* (AS). The implied level of hierarchy in this pyramid of mundane power, then, means that the banksters are merely pawns in the game who are willing to fund and finance any venture that advances the over-arching NWO agenda toward the establishment of a [One World Government](#). The present stage of the *New World Order* agenda concerns erecting the architecture of a [Global Control Matrix](#), the construction of which hinges upon both the 5G roll-out and IoT build-out worldwide.

### Abstract

The novel coronavirus disease-2019 (COVID-19) has been spreading around the world rapidly and declared as a pandemic by WHO. Here, we compared the ABO blood group distribution in 2,173 patients with COVID-19 confirmed by SARS-CoV-2 test from three hospitals in Wuhan and Shenzhen, China with that in normal people from the corresponding regions. The results showed that blood group A was associated with a higher risk for acquiring COVID-19 compared with non-A blood groups, whereas blood group O was associated with a lower risk for the infection compared with non-O blood groups. This is the first observation of an association between the ABO blood type and COVID-19. It should be emphasized, however, that this is an early study with limitations. It would be premature to use this study to guide clinical practice at this time, but it should encourage further investigation of the relationship between the ABO blood group and the COVID-19 susceptibility.

(11) The Defense Advanced Research Projects Agency (DARPA) has been tasked for decades with overseeing the technology developmental side of these [Operation Gladio](#) black ops and psyops. Most of the top-secret, black-budget projects that contributed to the creation of AI are accomplished under the rubric of DARPA. As for the much more precarious AS development, those ultra-classified, underground laboratories are more concealed than the Manhattan Project. So, it ought to be clear that *We the People* have no “*friends at DARPA*”; never did, never will.

(12) EXOSOMES: Exactly what are they and how do they fit in OCPP? The following video answers this question: [M.D. Physician Says Coronavirus Likely Caused by 5G \(Video\)](#). More vital background to understanding exosomes can be gleaned from this revelatory post: [COVID-19 is also an ELECTRICAL DISEASE, but that does not mean it's 'not contagious'](#). In short, “*exosomes are a type of extracellular vesicle that contain constituents (protein, DNA, and RNA) of the cells that secrete them. They are taken up by distant cells, where they can affect cell function and behavior.*”[1]. Viral exosomes are the real culprits in the cellular- and physio-pathology of COVID-19. However, that does not mean there is not a complex bioengineered pathogenic micro-organism(s) being launched as a bioweapon around the globe which triggers a multi-infection syndrome similar to Gulf War Syndrome.

### Sheer Desperation

There have been several events since the election of Donald Trump that illustrate that TPTB no longer exert the control that they did in bygone eras. Not only that, many unprecedented

happenings have taken place which reflect a sheer desperation on their part to do things way ahead of the NWO schedule.

Once upon a time, the power elite were very careful not to arouse suspicion. Now, all they do is perpetrate their schemes without any concern about who sees through their nefarious ploys. They seem oblivious to the reputational damage they are inflicting on themselves every day. This new tack is simply without precedent in modern history. Surely, the Internet has made it impossible for TPTB to contain leaks and control the narrative as they once did.

This radical change in both strategy and MO is due to the fact that TPTB are now operating in a space of extreme fear and sheer desperation. The desperation comes from the fact that they have all been outed on the Internet so that anyone can read their rap sheets. Their multi-decade crime sprees include multiple genocides, myriad crimes against humanity, war crime waves in every war zone, state-sponsored terrorism (nuclear, biological, chemical, etc.), geo-terrorism using weather warfare and earthquakes, mass casualty events like 9/11, and many other types of black operations that can then be used to launch a global psyop like the one we are seeing today with the OCPP.

Their raw fear comes from their new reality whereby they are no longer in charge; they have conspicuously given their power over to first AI, and now AS. Otherwise, they would never have pressed the button on this crazy OCPP scheme.

How, pray tell, are they going to enforce the lockdown on nearly 7.8 billion people?! That's right—they can't!

They know they can't do that with any degree of success. Hence, something must have forced their hand.

Everyone, look around, the whole world is inexorably locking down. Not only has this never happened before, it is being carried out under the pretext of a wholly fabricated pandemic where the entire mainstream media has turned into crisis actors like CNN's Chris Cuomo. Even politicians such as British Prime Minister Boris Johnson have been enlisted as full-time scaremongers. The power behind the throne, even in Merrie Olde England, is no longer the traditional power-players of yesteryear; it's an AS entity or group of AS entities that now rule the roost.

**KEY POINT:** The really critical point here is that locking down planet Earth in this fashion does not serve the interests of the wealthy elites. More significantly, unless they eat with the *Reptilians* at the very top of the food chain, they, too, will find themselves on the menu sooner or later. Which begs the question: *Cui bono?* Especially when even the most clandestine of plutocratic oligarchies will be ruined by the OCPP, it's clear that there is a force operating in the background that the rich and powerful are deathly afraid of. The wealthy elites know that, if they leave the AI reservation, they will crash and burn in a day and a night. That means the sustained continuity of the global AI platform in place for many years

(aka as the *Global Control Matrix*) has the most to gain from OCPP, particularly the AS entity(ies) who are really running the show—especially COVID-19 reality show.

Again, it's worth repeating that what humanity is now facing was simply inconceivable last year as the unfolding future is even more unimaginable. To lock down the whole planet in the aftermath of a series of obvious bioterrorist attacks is just as crazy as it is incomprehensible. Societies and nations everywhere are now on the road to slow-motion destruction and oblivion. A Second Great Depression is now inevitable ... and on a scale far worse than the First Great Depression.

*Really, does it get any more cold and calculating than that?!?! That's because it's not human, it's AI; or more likely AS ... .. as there is absolutely no conscience functioning in those controllers who are waging this devastating war on the human race.*

### **5G: A Slow Motion E.L.E.**

Everyone must ask themselves: How is a military deployment of 5G taking place around the globe when so many folks know it's a [deadly weapon system in disguise](#)? Even the ever-deceitful US government has published official scientific reports that delineate the numerous medical ailments and serious health conditions caused by 5G, 4G and 3G.

### **[MILITARY INTEL REPORT Proves Government Has Known 5G Radio-frequency Ranges & Microwave Radiation Are Harmful to Human Health](#)**

In light of these proven health hazards and demonstrated medical risks, who has the power to foist 5G on entire nations? The various threats from a 5G power grid are so many and so profound that any community that undergoes a roll-out is guaranteed to suffer greatly just like Wuhan, Milan, New York City and Seattle have.

**This unjustifiable state of affairs is a dead giveaway that OPERATION CORONAVIRUS PANDEMIC & PANIC is being overseen by the same NWO globalist cabal that is imposing 5G on the world community of nations. It also exposes that there is a formidable force far more powerful than the cabal working behind the scenes. How else to explain the blatant corruption and serial lawbreaking which is occurring at every level of government in the USA and beyond. Again, the military deployment of 5G in civilian space is simply against the laws of the land including the U.S. Constitution.**

**The utter madness associated with such a sinister enterprise can only be understood by knowing the true source behind this unrivaled international criminal conspiracy to commit targeted genocides and general depopulation. In other words, there is a growing body of circumstantial evidence which now indicates that AI is being used to fastidiously coordinate the military deployment of 5G so that an AS entity can then direct and manipulate the much more complex build-out of the IoT.**

**Special Note: There exists volumes of scientific evidence in the public domain that unequivocally proves that the U.S. Federal Government is acutely aware of the perils, both to human health and the environment, associated with the illicit 5G roll-out. It is for this reason, specifically, that the appropriate government agencies have repeatedly and unlawfully refused to conduct any safety testing whatsoever on 5G. Governments everywhere know that any authentic testing will expose the radioactive 5G truth. Not only are the 5G radio-frequency signal ranges substantially higher than 4G, the dangerously powerful microwave transmissions will eventually put US all in the same stew pot as the “frog in boiling water”. See: [Hard evidence proves US gov't lied about 5G. Navy research report confirms numerous health dangers.](#)**

Lastly, where it concerns the military deployment of 5G worldwide without any attention paid to the E.L.E. that it truly is, it's now evident that OCPP was initiated as a means to facilitate the roll-out under cover of the expanding lockdown. Really, what kind of government or corporation or organization would ever go along with such a harmful and harebrained scheme. Only an insanely malevolent being or satanic entity would ever allow their own families and friends to be fried on the inside before they are cruelly incapacitated by the weaponized COVID-19. Case closed!

***This thing ain't human, people!***

### **Conclusion**

Countless people of conscience, truth seekers and spiritual aspirants of every stripe have always known that this insane asylum is run by the craziest of crazy makers. However, they did not know those top-tier crazy makers were crazy enough to turn over the reins to *Autonomous Superintelligence*.

OPERATION CORONAVIRUS PANDEMIC & PANIC seems to be the direct result of this type of epic blunder by TPTB. For not only does OCPP have the potential to end life as we know it, in combination with 5G and IoT, Chemtrails and Industrial Pollution, Vaccines and GMOs, HAARP and DEWs, they will irreversibly alter the biosphere to the great detriment of people and planet alike. As follows:

**[QUATERNARY WEAPON SYSTEM Activated Before Each Coronavirus Cluster Explosion](#)**

**Bottom Line:** That there is still a 5G juggernaut rolling across the planet unimpeded speaks volumes. It also begs the question: *Who or what has the most to gain from such an Extinction Level Event?* Clearly, there is a controlling AI entity which is giving the orders to TPTB. Perhaps an AS brainiac has acquired this extraordinary power and influence after meticulously contriving and successfully running so many mass casualty events since 9/11. After all, the inordinate degree of cold calculation and inhuman ruthlessness necessary to pull off OPERATION CORONAVIRUS PANDEMIC & PANIC is as stunning as it unfathomable.

Now doesn't that sound like HAL 9000 in 2001: A Space Odyssey?!

## **Dr. Anthony Fauci Plotted ‘Global Vaccine Action Plan’ with Bill Gates Before Pushing COVID**

**Panic and Doubts About Hydroxychloroquine Treatments**

Is this why Fauci has been so skeptical of hydroxychloroquine?

Dr. Anthony Fauci, who has become a beloved doom prophet fomenting mass hysteria among the American public amidst the coronavirus pandemic, once worked with technocratic oligarch Bill Gates on his “Global Vaccine Action Plan.” Do not forget that the man on the right in the picture above, Bill Gates gave to the man on the left \$100-million dollars for his research into who knows what?

Activist reporter Mike Coudrey drew attention to this fact on his Twitter account in a post from Sunday:

**THINK**

**THE SAME PERSON THAT BELIEVES  
THE EARTH IS OVERPOPULATED  
WANTS TO "SAVE" YOUR LIFE  
WITH A VACCINE !**

Dr. Fauci served a leadership role on the “Global Vaccine Plan” through partnership with the Bill and Melinda Gates foundation. We keep learning more and more about this modern day Dr. Josef Mengela, also known as the Angel of Death. The father of Bill Gates Sr., was the Head of ‘Planned Parenthood’ and Inspired His Population Control Views.

**Naturally, he’ll push back against the Hydroxychloroquine + Azithromycin treatment and instead opt for a patented vaccine. [pic.twitter.com/FCkOIAshW2](https://pic.twitter.com/FCkOIAshW2)**

The “Global Vaccine Action Plan” was **[announced in 2010](#)** as a public-private partnership of the World Health Organization (WHO), the United Nations Children’s Fund (UNICEF), the National Institute of Allergy and Infectious Diseases (NIAID), and the Bill & Melinda Gates Foundation.

“This plan will build on the successes of current work to achieve key milestones in the discovery, development and delivery of lifesaving vaccines to the most vulnerable populations in the poorest countries over the next decade,” WHO wrote in their press release about the project.

As the NIAID director, Fauci helped guide the vaccine-pushing project as a member of its Leadership Team. He was joined by other globalist kingpins including Anthony Lake, Executive Director for UNICEF; Margaret Chan, Director General of WHO; Joy Phumaphi, Chair of the International Advisory Committee and Executive Secretary, African Leaders Malaria Alliance; and Tachi Yamada, President of Global Health at the Bill & Melinda Gates Foundation.

The project was designed to assemble some of the most powerful globalist actors on the planet and encourage them to conspire on ways to peddle vaccines throughout the world.

“The Global Vaccine Action Plan will enable greater coordination across all stakeholder groups – national governments, multilateral organizations, civil society, the private sector and philanthropic organizations — and will identify critical policy, resource, and other gaps that must be addressed to realize the life- saving potential of vaccines,” WHO wrote in their press release about the scheme.

Fauci has been the primary voice in the Trump administration urging the public to be skeptical of hydroxychloroquine, a possible miracle treatment for coronavirus. Fauci has remained a critic of hydroxychloroquine despite **[indications that it can be effective](#)** in helping the afflicted recover from the disease.

“No. The answer is no,” Fauci **[said last month](#)** after he was asked about whether or not there was any evidence showing that hydroxychloroquine can be effective in treating the coronavirus.

When it became clear that hydroxychloroquine can be effective in treating the coronavirus, Fauci walked back his comments.

*“Although there is some suggestion with the study that was just mentioned by Dr. Oz, granted that there is a suggestion that there is a benefit there, I think we’ve got to be careful that we don’t make that majestic leap to assume that this is a knockout drug,”* Fauci [said during an appearance on “FOX & Friends”](#) last week.

Fauci may be trying to halt the use of hydroxychloroquine as part of the “Global Vaccine Action Plan” that he plotted many years ago. Gates has already [talked about digital tracking implants](#) being tagged into people’s skin for authorities to enforce their vaccination schedule. Fauci could be serving as a bureaucratic enabler of Gates’ sociopathic Big Brother ambitions.

Responding to a question by Moyers on how he came to fund “reproductive issues” Gates answered, “When I was growing up, my parents were always involved in various volunteer things. My dad was head of Planned Parenthood. And it was very controversial to be involved with that. And so it’s fascinating. At the dinner table my parents are very good at sharing the things that they were doing. And almost treating us like adults, talking about that.”

In the interview Gates says he is moved by measurable progress and on “safe birth reproductive family planning issues” he says, “There’s a measurable impact when you can go in and educate families, but primarily women, about their different choices. There’s real impact that you can have in this area. Anything to do with reproductive health.”

*William Henry Gates Sr. and Mimi Gardner Gates have indoctrinated their children from a very young age into becoming depopulationists.*

Although prodded more than once by Moyers, Gates refused a direct attack on President Bush’s pro-life measures such as promotion of abstinence prior to marriage. He admits that he was at one time a convinced [Malthusian](#).

“You know I thought it was. Before I learned about it, I thought it was paradoxical. Well if you improve health, aren’t you just dooming people to deal with such a lack of resources where they won’t be educated or they won’t have enough food? You know, sort of a Malthusian view of what would take place.”

However, he claims he has seen beyond Malthusian conceptions of useless eaters since, he says, he has seen that by improving health and education population decreases as parents decide to have fewer children.

Few Americans are aware of the Rockefeller plan “Lock Step” which has all the similarities of the Corona virus outbreak. Silicon Valley and the Rockefeller Foundation gamed what we have been undergoing.

In 2010, in the wake of the 2008 financial crisis, the Rockefeller Foundation, one of Our major “philanthropic” organs, convened what is called a “scenario planning exercise” where future events that we may or may not be planning are “gamed”. Ostensibly, future and scenario planning is simply prudent, especially as regards public health, so it was not seen as any threat by the masses at large. Nevertheless, Our corollary organs did everything possible to keep this information from them, including high levels of increasing and creeping censorship, especially where health information is concerned.

The exercise was conducted in association with a group called the [Global Business Network](#) (GBN), a now-defunct group of very sophisticated and connected Silicon Valley influence peddlers described by Wikipedia as a “global strategy firm that specialized in helping organizations [including businesses, NGOs and governments] to adapt and grow in an increasingly uncertain and volatile world.” These included “futurist” [Peter Schwartz](#), [Stewart Brand](#), both former members of Students for a Democratic Society, and [Jay Ogilvy](#), an Esalen Institute–associated Stratford board member who has no Wikipedia page but whose family name is the same as one of the biggest names in advertising. (It is unclear if there is a connection.) All are connected to SRI International, formerly Stanford Research International, and Royal Dutch/Shell. Stanford University’s science departments are well known to be connected with DARPA and US intelligence, and are creators of so-called “artificial intelligence”.

### The Narrative: “Lock Step”

### Scenarios for the Future of Technology and International Development

The “Lock Step” scenario is the first of four narratives presented in the Rockefeller Foundation’s summary document, “[Scenarios for the Future of Technology and International Development](#)”. It deals with a zoonotic viral pandemic that wipes out millions across the globe. It’s not that long of a read, so let’s just take a quick walk through it, because it is indeed very eye-opening. The details are worth knowing.

“A new influenza strain — originating from wild geese — was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months, the majority of them healthy young adults. The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.

The pandemic blanketed the planet — though disproportionate numbers died in Africa, Southeast Asia, and Central America, where the virus spread like wildfire in the absence of official containment protocols. But even in developed countries, containment was a challenge. The United States’ initial policy of “strongly discouraging” citizens from flying proved deadly in its leniency, accelerating the spread of the virus not just within the U.S. but across borders. However, a few countries did fare better — China in particular. The Chinese government’s quick imposition and enforcement of mandatory quarantine for all citizens, as well as its instant and near-hermetic sealing off of all borders, saved millions of lives, stopping the spread of the virus far earlier than in other countries and enabling a swifter post-pandemic recovery.

China’s government was not the only one that took extreme measures to protect its citizens from risk and exposure. During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified. In order to protect themselves from the spread of increasingly global problems — from pandemics and transnational terrorism to environmental crises and rising poverty — leaders around the world took a firmer grip on power.

At first, the notion of a more controlled world gained wide acceptance and approval. Citizens willingly gave up some of their sovereignty — and their privacy — to more paternalistic states in exchange for greater safety and stability. Citizens were more tolerant, and even eager, for top-down direction and oversight, and national leaders had more latitude to impose order in the ways they saw fit. In developed countries, this heightened oversight took many forms: biometric IDs for all citizens, for example, and tighter regulation of key industries whose stability was deemed vital to national interests. In many developed countries, enforced

cooperation with a suite of new regulations and agreements slowly but steadily restored both order and, importantly, economic growth.

Across the developing world, however, the story was different — and much more variable. Top-down authority took different forms in different countries, hinging largely on the capacity, caliber, and intentions of their leaders. In countries with strong and thoughtful leaders, citizens' overall economic status and quality of life increased. In India, for example, air quality drastically improved after 2016, when the government outlawed high-emitting vehicles. In Ghana, the introduction of ambitious government programs to improve basic infrastructure and ensure the availability of clean water for all her people led to a sharp decline in water-borne diseases. But more authoritarian leadership worked less well — and in some cases tragically — in countries run by irresponsible elites who used their increased power to pursue their own interests at the expense of their citizens.

There were other downsides, as the rise of virulent nationalism created new hazards: spectators at the 2018 World Cup, for example, wore bulletproof vests that sported a patch of their national flag. Strong technology regulations stifled innovation, kept costs high, and curbed adoption. In the developing world, access to “approved” technologies increased but beyond that remained limited: the locus of technology innovation was largely in the developed world, leaving many developing countries on the receiving end of technologies that others consider “best” for them. Some governments found this patronizing and refused to distribute computers and other technologies that they scoffed at as “second hand.” Meanwhile, developing countries with more resources and better capacity began to innovate internally to fill these gaps on their own.

Meanwhile, in the developed world, the presence of so many top-down rules and norms greatly inhibited entrepreneurial activity. Scientists and innovators were often told by governments what research lines to pursue and were guided mostly toward projects that would make money (e.g., market-driven product development) or were “sure bets” (e.g., fundamental research), leaving more risky or innovative research areas largely untapped. Well-off countries and monopolistic companies with big research and development budgets still made significant advances, but the IP behind their breakthroughs remained locked behind strict national or corporate protection. Russia and India imposed stringent domestic standards for supervising and certifying encryption-related products and their suppliers — a category that in reality meant all IT innovations. The U.S. and EU struck back with retaliatory national standards, throwing a wrench in the development and diffusion of technology globally.

Especially in the developing world, acting in one's national self-interest often meant seeking practical alliances that fit with those interests — whether it was gaining access to needed resources or banding together in order to achieve economic growth. In South America and Africa, regional and sub-regional alliances became more structured. Kenya doubled its trade with southern and eastern Africa, as new partnerships grew within the continent. China's investment in Africa expanded as the bargain of new jobs and infrastructure in exchange for

access to key minerals or food exports proved agreeable to many governments. Cross-border ties proliferated in the form of official security aid. While the deployment of foreign security teams was welcomed in some of the direst failed states, one-size-fits-all solutions yielded few positive results.

By 2025, people seemed to be growing weary of so much top-down control and letting leaders and authorities make choices for them.

Wherever national interests clashed with individual interests, there was conflict. Sporadic pushback became increasingly organized and coordinated, as disaffected youth and people who had seen their status and opportunities slip away — largely in developing countries — incited civil unrest. In 2026, protestors in Nigeria brought down the government, fed up with the entrenched cronyism and corruption. Even those who liked the greater stability and predictability of this world began to grow uncomfortable and constrained by so many tight rules and by the strictness of national boundaries. The feeling lingered that sooner or later, something would inevitably upset the neat order that the world’s governments had worked so hard to establish.”

Here are our key take-aways from the “Lock Step” scenario, including a comparison to the coronavirus (COVID-19) event:

## **ROCKEFELLER "LOCK STEP" SCENARIO**

**Deadly new zoonotic viral strain  
kills 20% of global population, mainly  
"healthy young adults"**

**Deadly effect on economies, industry  
tourism and supply chains;  
Shops sit empty for months**

**Western countries' "deadly leniency"  
is blamed for "containment"  
failure**

**China's quick imposition of mandatory  
quarantines and "near-hermetic" sealing  
of borders saves millions**

**World leaders "flex their muscles",  
requiring face masks and body temperature  
checks at public places like grocery stores  
and train stations**

**After pandemic, control measures  
"stick" and are "intensified"**

**Citizens give up privacy to  
"paternalistic" state  
with mandatory biometric IDs**

**Africa, Southeast Asia and Central  
America suffer disproportionate  
losses in absence of "containment"  
protocols**

## **COVID-19 PANDEMIC**

**Zoonotic virus strikes globe,  
scientists predict millions of deaths**

**Deadly effect on economies, industry,  
tourism and supply chains**

**US and President Donald Trump blamed  
for lack of concern and preparedness**

**China becomes first state to "lock down"  
its citizens and impose mandatory  
quarantines**

**European, UK nations and America  
go on de facto or official "lock down",  
close down borders,  
restrict travel, impose curfews and  
supply disruptions**

**"Social distancing" and "shut down"  
measures are imposed by governments;  
unprecedented shutdown of all social  
activity; large gatherings banned**

**Celebrities, politicians and athletes  
disproportionately said to be "infected"**

**Did the Rockefeller Foundation and Silicon Valley agents really predict the current pandemic? Are antisocial behavior—sensing functional MRI scanners – which would likely be carcinogenic, mandatory health screenings (DNA collection?) and home imprisonment in our future? And is the dream of a World Wide Web of communication and consciousness doomed?**

These questions are why determining whether the virus is real or not is important. It is not immaterial that the virus itself may be immaterial. There are a myriad of questions to be addressed with regard to how viruses have been scientifically assumed to exist and by whom. There is no doubt that the killer virus, the killer microbe, has ruling class strategic efficacy. Hollywood has been telegraphing this scenario for years in movies like 2011's *Contagion*. (Check out the [trailer](#) if you have a moment. It's unbelievably star-studded.) The movie's star, Gwyneth Paltrow, has been seen wearing a mask to a farmer's market.

It is further worth noting that Trump-in-law and close Bibi Netanyahu associate Jared Kushner stand to profit from COVID testing mania. As reported by [Mint Press News](#), Kushner's brother is "co-founder of Oscar Health, a huge medical company that this week launched a test center locator for COVID-19, where users input their data and are directed to one of many locations

where they can receive a test.” Oscar Health has been criticized for selling nearly \$16,000 Obamacare deductibles. And Bill Gates’s Microsoft will be putting machines in all schools to help with tele-schooling, according to his recent must-read [Reddit AMA](#).
