

Covid Bounty

\$500,000 per

Hospital Victim!

by Dr. Paul Alexander

URGENT: Daniel Horowitz shared this from Dr. Lxx Fxx as to usual practice in hospitals when our parent, grand-parent, you, anyone, based on hospital 'COVID Protocol' to collect \$500,000 per patient.

\$500,000 per COVIDized patient & thus the COVID Protocol to ensure they collected for each patient; this is why I have called for CEOs, Fauci, Birx, Bancel, Bourla, Francis Collins, all, to be JAILED!

You literally must do a rescue, an intervention, you got to rescue your family out of the hospital, they will be sucked into the 'black hole'...if you do not, they will die there.

This is why I have called for urgent investigations of all who made COVID decisions and policies in the US, UK, Canada, Australia, all nations, rich, poor, everywhere, proper legal public inquiries and if shown they did no wrong, we praise them, reward them; but if shown in proper legal inquiry that they caused deaths needlessly, that they harmed people needlessly, that they were reckless, then we take all of their money, all pensions, every cent, we clean them out, and we imprison them all! All in the Trump and all in the Biden administration who costed lives! We lock them up for life! All of them! I do not care who you are and were. I include congresspeople, senators, members of parliament (MPs), MPPs, Prime Ministers, COVID Task Force advisors, Presidents even, I mean ALL!

Step 1: a patient goes to hospital not feeling too well so advises they are feeling sick.

Step 2: the patient is tested for COVID and found positive; regardless of the over-cycled over-sensitive PCR cycle-count threshold (Ct) set at 40 when the same hospital staff knows that over Ct of 24 it is likely viral junk and non-infectious, non-lethal and non-culturable and likely 97% false-positive; yet the patient is declared COVID positive.

Step 3: patient is immediately placed in isolation in the ICU; locked down, no family, no one can and would be allowed to see the patient; at this point they have entered the

'black hole' and now 'disappeared' in isolation and loneliness as they careen toward their death for they are now placed on a death path.

Step 4: at this time the hospital is ramping up and administering diamorphine, midazolam and a range of sedatives, remdesivir, and ventilation as I describe below and it is this 4 that kills your parent, grand-parent etc.

Step 5: patient told they need oxygen and placed on supplemental oxygen (O2).

Step 6: then patient begins having pulmonary issues aggravated by the oxygen.

Step 7: patient placed on BIPAP (CPAP) due to worsening pulmonary function (oxygen toxicity).

Step 8: patient not tolerating BIPAP so they are restrained and sedated.

Step 9: further oxygen toxicity combined with sedation leads to airway intubation and patient placed on ventilator; it is at this time that the patient begins to decline for the staff did not and do not know how to ventilate and the ventilators begins to kill, blow holes in lungs etc.

Step 10: patient becomes profoundly dehydrated and malnourished from DAYS OF WITHHOLDING FOOD AND WATER, on ventilator etc.

Step 11: renal stress then emerges from dehydration.

Step 12: doctors then administer Remdesivir knowing that it is renal and liver toxic and kills and failed all clinical trials; failed EBOLA drug, a drug that was languishing in search of a disease alike how Tamiflu (oseltamivir) was in search of a flu/pandemic.

Step 13: patient suffers acute kidney and liver injury and organ failure ensues.

Step 14: patient then placed on dialysis due to the failure caused by remdesivir and becomes more dehydrated.

Step 15: patient continues to receive NO NOURISHMENT (TPN) OR WATER.

Step 16: patient becomes hemodynamically unstable and has a cardiac arrest.

Step 17: since the patient was made DNR (do not resuscitate though in most instances can be) BY THE TREATING DOCTORS (WITHOUT PATIENT'S CONSENT OR KNOWLEDGE), NO CPR IS PERFORMED.

Step 18: Your parent, or grand-parent, your friend, the patient, then dies.

Step 19: The hospital and the CEOs then submit the bill to the government for \$500,000

Where is/was the Hippocratic Oath? "First, do no harm"? Was the lure of money, financial incentives so great? That you doctors suspended all critical thinking and morality? Where did your moral compass go?

This is what we did throughout COVID from February/March 2020 and this is why we investigate them all and we hold them to account and jail them all, all who partook in the money feeding frenzy, we jail them long and hard! We jail them for the harms of the COVID gene injection to our military, our police, our border agents, our peoples.

As I wrote many times, we killed our peoples with remdesivir, diamorphine, midazolam, and ventilators. These 4. Moreover, the lockdowns, the school closures, the shielding-in-place, the business closures, the personnel firings and shortages and school university disruptions have done at least as much damage (and certainly more) to the population's health and welfare as the virus. The American population and most global nations that engaged in lockdown lunacy etc. have been crushed, devastated, economies and their peoples.

We harmed and caused deaths of our populations by the lockdown lunatic policies and especially our poorer minority populations and women, who could not afford to shield. We catastrophically shifted the burden of infection and illness from the café latte, laptop, 'zoom class' to the poorer in society who could not shield as had to maintain front-facing employment to survive. They could not 'remote work'. Many business owners, laid off employees, and children in America committed suicide due to the lockdown restrictive lunacy.

We placed our people who could have been handled successfully at home or in the nursing home with effective, cheap, available 'early treatment', in hospitals, to put them on the 'death path' so hospitals and CEOs and doctors could enrich themselves killing our unsuspecting parents and grand-parents.

The above was and continues to be such a depraved component of the PSYOP-19 depopulation and control program that it is difficult to read.

Never forget what these sociopaths perpetrated.

They can never be let off the hook.

Offer them total nonviolent noncompliance right up to the moment that they are prosecuted.

They will be prosecuted.

This confirms everything we heard and have read about the government's plan to cull the elderly population of this country. The Covid-scam was hoaxed as part of a multi-

faceted “Depopulation” agenda that had multiple experimental goals such as the use of “Gene” therapy using mRNA Spike Protein, in what appears to be a global experiment in which humans became the guinea pig lab test cases.

I have been wondering for months now as to how I managed to survive this Covid scam to cull old people. I was hospitalized on February 24, 2022 through March 10, 2022, and in ICU for three days and TCU for six days. I was diagnosed with congestive heart failure, pneumonia, pulmonary and respiratory issues, kidney failure, and A-Fib. I was transferred from a smaller hospital closer to where I live to a larger trauma hospital in Lexington, KY on the fourth day of my ER admission. The hospital physicians said my lungs looked terrible but throughout the time I was receiving continuous oxygen treatment and antibiotics for a kidney Urinary Tract Infection. I was given no instructions at discharge and no prescriptions were ordered by the attending physicians. A VA team did prescribe a blood thinner Eliquis about six weeks after my discharge because of my A-Fib. The VA prescribed blood pressure medicine which I refused to take. Following discharge from the hospital, I resumed my own natural-pathic vitamins and supplements protocol and my vitals are as good as a twenty-five-year old. I am in my upper 80s. Can I call it a miracle? I have no other explanation than to simply credit my escape from the government medical protocol as from the Great Physician and my Lord and Saviour Jesus Christ.

Blessings,

Pastor Bob, EvanTeachr@aol.com
