

# 5G vs. COVID19

## Easily Confused and Very Deceptive

It is the people who are suddenly collapsing, without any sort of symptoms, and then dying is what the 5G info in this article is focused on. Intelligent people, professionals as well as folks like us who are asking the question, is it the Coronavirus or 5G that is killing people? This is the question that will cause disbelief or unbelief in the minds of many. It becomes the important point to begin to educate folks wanting to know the truth, the whole truth, and nothing but the truth!

The chart below has appeared in several health articles and confirms for us that 5G and COVID19 can easily be expressed as something akin to comparing apples with oranges, so as to establish a "strawman" argument.

People who catch the Corona virus, COVID19, typically take 14 days before they have symptoms. THEN they begin to have flu like symptoms and quickly find it difficult to breathe, develop pneumonia, and then need oxygen to make it.

Most Chinese victims being herded into quarantine detention centers (labeled "hospitals") aren't getting ANY treatment whatsoever. However the 10 part China video compilation titled "Last Messages" which you tweeted out maybe a week ago, shows some people working at their desk or counter and suddenly collapse to the floor, go into convulsions, and they DIE within a matter of a few minutes. Here's the link to the 10 part video:

<https://www.godlikeproductions.com/forum1/message4269279/pg1?c1=1&c2=1&disclaimer=Continue>

One of these videos shows a Chinese woman who collapsed onto a pile of vegetables while shopping at a supermarket and died right there. These people were not showing any symptoms such as lung congestion or coughing etc., that normally goes along with a Corona virus infection that develops into pneumonia and then difficulty in breathing.

It is the people who are suddenly collapsing, without any sort of symptoms, and then dying is what the 5G info is focused on. You will soon see how it has been confusing on the part of professionals and experts, not to mention people with some intelligence asking the big issues.

Dana Ashlie has done [a VERY good job in this video](#) of compiling and adroitly presenting this information with crystal clarity and a keen understanding of the implications that this information portends. I first viewed her You Tube two weeks ago, and watched it a second, and then a third time.

She's dropping multiple and IMPORTANT truth bombs throughout the video. Jump to minute 11 and at least listen until minute 13. She refers to a graph (see above) that I've included with this email which comes from an April 12, 2001 article titled, "Fixed Wireless Communications at 60GHz Unique Oxygen Absorption Properties" by Shigeaki (Shey) Hakusui, President, Harmonix Corporation.

Here's the article:

<https://www.rfglobalnet.com/doc/fixed-wireless-communications-at-60ghz-unique-0001>

The writer is saying that 60GHz cannot be transmitted long distance because oxygen in the atmosphere will absorb 98% of the 60GHz energy band instead of it being able to continue to travel through the atmosphere for a long distance as does the lower frequency microwave energy in the Megahertz range.

From the graph he had embedded in the story, above, it shows that absorption of this energy by oxygen spikes at 60GHz (60Gigahertz means the current is oscillating from one direction of current flow to the OPPOSITE direction of current flow {= Alternating Current or AC} at a rate of SIXTY BILLION times per SECOND.)

Since oxygen can absorb this energy, its electrons will now RESONATE and oscillate at the SAME frequency (or 60GHz) of 5G. This 60 Billion times per second oscillation of the oxygen's electrons is interfering with hemoglobin's ability to "pick up" the oxygen from the lungs and deliver it to the bloodstream. The technical nature does confuse the untrained but it cannot hide the significance from the medical and scientific community.

**That's BIG news - with a Capital "B". It's more than big, it is HUGE!**

The people in Wuhan are being IMMERSED in 60GHz 5G 24/7 wherever they go. There's much more to the video than just that, but THAT alone, is huge.

Well-known author and writer James Perloff made this statement:

"I found the video it links to very compelling:

"I found the video it links to very compelling:

[https://www.youtube.com/watch?v=CtfqUtW\\_8AA](https://www.youtube.com/watch?v=CtfqUtW_8AA).

*The coronavirus outbreak coinciding with 5G rollout in Wuhan is too much of a coincidence. People walking down the street don't drop dead instantly from a virus. The severe impact of 5G's frequency on oxygen uptake makes much more sense. The cruise ship had advanced connectivity. Italy was also implementing 5G. It looks like the plan is this: roll out 5G worldwide, while simultaneously blaming all the illness it causes on the "the spreading coronavirus," then kill even more people with mandatory vaccines funded by Bill Gates. Those who resist get SWAT-teamed on orders from President Michael "I'm coming for your guns" Bloomberg."*. -(James Perloff)

Here are just a few of recent findings caused by 5G 60GHz:

1. [The BEST NEWS re CORONA Virus you've heard all month! \(..kinda\)](#)

When one is hit with 60GHz waves, and its impact on the uptake of oxygen via the hemoglobin, it is a death sentence. This specific frequency is absorbed by oxygen. **60GHz causes the rotation of the electrons around the oxygen molecule to spin, thus inhibiting the ability of hemoglobin to properly uptake these oxygen molecules.**

2. <http://emftests.com/countless-studies-show-5g-frequencies-cause-illness/>

Heart Problems

Immune problems

Skin Problems

Eye Problems

3. [www.siversima.com/news/2019-was-the-breakthrough-year-in-europe-for-60-ghz-unlicensed-5g/](http://www.siversima.com/news/2019-was-the-breakthrough-year-in-europe-for-60-ghz-unlicensed-5g/)

By the 1st of January 2020 all 48 member countries shall follow the recommendation by CEPT and allow 57-71 GHz to be used for unlicensed 5G.

5. More than 10% of community-dwelling adults 65 years of age have a World Health Organization (WHO) - defined "anemia."

'Am J Hematol'. 2014 Jan; 89(1): 88-96.

[www.ncbi.nlm.nih.gov/pmc/articles/PMC4289144/](http://www.ncbi.nlm.nih.gov/pmc/articles/PMC4289144/)

This shortage in hemoglobin compounds the failure of excited oxygen to bind to hemoglobin - further choking people. Respiratory issues lead to almost immediate death without life-saving efforts introduced.

6. You should have watched the Bill Gates video of how the population can be reduced by 10-15 percent of its done right. For consideration.

<http://tapnewswire.com/2020/01/coronavirus-is-5g/>

We are told the typical cell tower only uses: In LTE (which is the current technology), to supply a 20 Watt antenna output on a Macro eNodeB you need approximately 150 Watts at the wave guide (feeder) entrance. That includes feeder loss and efficiency. You need another 50 Watts for the electronics to prepare the signal for transmission. Add cooling, heating (yes, in Nordic countries that is needed), power supply efficiency which leaves you anywhere between 250 Watts and 500 Watts per TRX chain, depending on environmental conditions etc.

But, have you ever taken a close look at the size of the power cables to the cell towers? Not likely, I would guess. Ask yourself this question, does the cable in the photo below look like a 20 Watt feeder line? I grant you the fact the power cables are encased in weather-resistant coating, but I have seen power cables of 6" an 8" in diameter.

At a typical cell tower, the power demand is determined by the number of base transceiver stations (BTS 5) housed. The power demand ranges from **1 kW to 8.5 kW** where more than 80% of these configurations have a demand less than 3.5 kW.

A communications satellite uses 2,400 Watts of power (about the same as used by 2 hair dryers). A microwave oven uses 1,000 Watts (1 kilowatt) of energy. The satellite gets the energy from solar panels and the microwave gets it from your electric utility (the electrical power grid). A microwave oven's internal magnetron, which is virtually the same as that of a radar or cellphone tower, transforms that electrical energy into microwaves. The magnetron inside a microwave oven can be easily adapted into a very lethal ray.

The cables leading into a typical cellphone tower, which describes as “A giant microwave oven on a stick,” capable of releasing 3,000,000 watts (3 megawatts) of output power to the tower’s magnetron – or even more megawatts, if there is an amplifier at the top.

To put this into perspective, one (1) watt from your cellphone can go 25 miles to the nearest cellphone tower, to relay your call’s signal to the person on the other end of the line. The U.S. Federal Communications Commission (FCC) limits the amount of energy that a cellphone tower can release to 400 watts.

These megawatts of extra power are NOT for data transfer – nothing close to that amount of energy is required for data transfer – which is an important point, because this suggests that cellphone towers are easily capable of being switched to a Weaponized Mode.

That cellphone towers are wired with the capability to release millions of watts of microwave radiation makes them virtually as “towers of death”, the perfect weapons against an “invasion” – or the mega-slaughter of the domestic population.

Virtually all towns, all over the world have the amount of towers necessary to fry the populations in their vicinity. All that needs to happen is for an Artificial Intelligence program from Google – or an action by “The real people who brought us 9/11” – or if whoever we elect “...turns out to be so crazy, really evil, that they could fake a reason to turn on the ‘Last Line of

Defense,' the 'Anti-Foreign Invasion', 'Anti-Zombie Apocalypse Network'...to cook the entire population within the city limits within an hour, in the middle of the night," with robot armies to mop up the people living in the countryside... "All these contingencies are out there, ladies and gentlemen..."

Why? Whoever is behind this wants to exterminate the majority of humans, in order to have the Earth all to themselves, in the incredibly shallow belief that they can upload their minds into robotic avatars and live in a Virtual Reality "Matrix", happily ever after – forever, in a post-human future.

Our only defense is to stop them, now from creating this technology and from creating Borg armies or clone armies, etc., because as soon as they've succeeded in obtaining these, they will proceed with our extermination. This technology is less than a decade away and it's owned by people who are not our friends; people who control the food supply, our water supply, our air supply – and we are told their endgame is the death of humanity.

Why do I say this? Most of the world is unaware of just how we are controlled by technology. It may be from having our brainwaves deliberately changed in masse by transmitters regulating our state of consciousness, to how we are victims of electromagnetic waves disrupting the state of our health and finally how many of us will die, as decided by our global masters. The Earth is wrapped in a donut shaped magnetic field. Circular lines of flux continuously descend into the North Pole and emerge from the South Pole.

The ionosphere is an electromagnetic-wave conductor, 100 kilometers above the earth, consists of a layer of electrically charged particles acting as a shield from solar winds. Natural waves are related to the electrical activity in the atmosphere and are thought to be caused by multiple lightning storms. Collectively, these waves are called "The Schumann Resonance," the current strongest at 7.83 Hz. Humanity is in harmony with Earth when our system resonates within the 7.83 Hz.

These are quasi-standing extremely low frequency (ELF) waves that naturally exist in the earth's "electromagnetic" cavity, the space between the ground and the ionosphere. These "earth brainwaves" are identical to the spectrum of our brainwaves.

(1 hertz = 1 cycle per second, 1 KHz = 1000, 1 MHz =1 million. A 1 Hertz wave is 186,000 miles long; 10 Hz is 18,600 miles. Radio waves move at the speed of light.)

The Creator designed living beings to resonate to this natural frequency pulsation in order to synchronize harmoniously. The ionosphere is being manipulated by U.S. government scientists using an Alaskan transmitter called HAARP, (High-Frequency Active Auroral Research Program) which sends focused radiated power to heat up sections of the ionosphere, which bounces power down again. ELF waves from HAARP, when targeted on certain areas, can engineer weather and create mood changes effecting millions of people. There are at last check, twelve of these ionized heaters deployed around the world.

As a spiritual being merged with a human body, we also merged with the consciousness and energetic makeup of Earth when we were born into a human body. To stay in sync with the planetary composition and frequencies, the human body has an auto correct system that can re-calibrate to the environment when needed. When the auric field of a human is not in sync, however, it is difficult for the emotional, mental, spiritual, and etheric bodies to sync with the physical body and the frequency of Earth.

The intended wattage of HAARP was 1,700 billion watts of power; actually closer to 2.0 billion watts with the expansion of the array of di-pole transmitters. A former government insider deduced they want to flip the world upside down. Sixty-four (64) elements in the ground modulate, with variation, the geomagnetic waves naturally coming from the ground. The "earth's natural brain rhythm" above is balanced with these.

These are the same minerals as the red blood corpuscles. There is a relation between the blood and geomagnetic waves. An imbalance between Schumann Resonance and geomagnetic waves disrupts biorhythms. Biorhythms can impact your sleep patterns, energy level, stress patterns, mental acuity, etc. At the same time, a burst in frequency of Earth's magnetic frequencies can jostle any energetic blockages in the auric field that can cause the physical body to stay at a low or stagnant ELF (extremely low frequency). Bursts of higher frequencies are a good thing for clearing of the auric field of the human, as long as it is done in moderation.

For instance, if a person were to be electrocuted from a household electrical line, they may have a better chance at recovering than being struck by lightning. Back in the 1970's I was building an all-electric home. Each room had its own baseboard heating unit, known as Intertherm units. They were made to specific lengths so as to correspond with the width of the room's window. The larger units were 240-volt, and came in 1,000 Watt, 1,500 Watt, and 2,000 Watts each.

When I was installing the smaller units, 500 Watts, I would install them with "live" power. Rather than to go down to my basement and turn the circuit breakers off, I attempted to install them while they were "hot" – "live" 240 Volt current. It soon became best for me to go to the basement and turn the breakers off before installing them, and then later go back down to the basement to turn the power breakers on after installation. I only needed to get hit with the 240 Volt power twice before I decided my shortcut efforts were killing my arms.

The spiritual and metaphysical explanation of raising the frequency of the physical body is the higher the frequency, the less dense reality the human will be experiencing. The goal is to transform the dense controlling reality we are experiencing in a way that unifies humanity in a love based higher consciousness while still existing in the physical body. This can only be achieved by releasing the energetic blocks of the past and of childhood that keep one stuck in creating a recurring illusion of denseness and disease in the physical reality. This will allow the physical body to vibrate harmoniously with the planetary frequency and to have a healthy energy flow within the body which prevents aging and disease.

If a human is stuck in old patterning and beliefs, or perhaps is lulled by complacency into a low frequency, then a burst of frequency can do one of two things. If the person has raised their consciousness enough to realize something is happening and is able to have an open mind and an open heart, then the person will begin to absorb these frequencies as much and as fast as their mind and spirit allows them to. Absorbing these frequencies causes the water in the body to begin to vibrate or dance at the frequency of the spike. This could cause many uncomfortable symptoms but in the end it is also a testament that something is really happening to our planet and to our consciousness. This is where 5G does its greatest damage.

A few of the most common symptoms of these spikes in electromagnetic frequency are:

- ◆ Hot flashes- as the body vibrates faster it generates heat
- ◆ Blurred vision
- ◆ Vertigo (dizziness)
- ◆ Irregular or skipped heartbeat
- ◆ Unexplained pains that may linger to be acknowledged or may mysteriously come and go
- ◆ Ringing in one or both ears. High pitched frequencies, harmonic tones, and/or sometimes temporary deafening
- ◆ Mood swings as emotional blocks come up to be resolved
- ◆ Extreme fatigue or extreme energy bursts depending on the kind of frequency experienced at the time and how the individual is dealing with it
- ◆ Increased intuition, a sense of knowing or remembering things that guide you through difficulties, and increased sixth sense abilities (beyond touch, taste, feel, hearing, and sight)
- ◆ Nausea
- ◆ Flu-like symptoms
- ◆ Problems with bowels
- ◆ Extreme hunger or lack of hunger- different than usual
- ◆ Anxiety and increased fight or flight mode in the body

As you can see, if some of these negatively affected symptoms persist without the person doing things to help the body acclimate, it certainly could feel like the body would begin to exhibit more evidence of shutting down and may make you feel as if you are dying. In fact, it is purging in order to be able to acclimate, very similar to how it deals with flu or viruses.

If a person is completely unconscious and is not a caring, compassionate human, then these frequencies will irritate and disturb and will most likely not be integrated. Thus these types of people will stay at a low frequency and will not benefit from the incoming waves of energy. It could even begin to cause their physical body to shut down because it will not be able to stay manifest in harmony with the planet's frequency.

Unfortunately some people are not able in handling this well physically and we are seeing people "leaving" at this time (dying). There is certainly no judgment in this, as some people did not choose to go through this shift in frequency or simply did not have enough energy left to handle it, and no one ever really "dies" anyway. They simply move to another frequency

outside of the constraints of the physical body and go where they need to in order to continue on their journey.

These natural geomagnetic waves are being replaced by artificially created very low frequency (VLF) ground waves coming from GWEN Towers. What are GWEN towers? Virtually none of you will know the difference between a Cell phone tower and a GWEN tower. I only know about GWEN transmitters because of a deceased friend of my wife's. My wife's classmate friend's deceased father was heavily involved with the design, construction, and implementation of the GWEN system.

GWEN (Ground Wave Emergency Network) transmitters, are placed 200-300 miles apart across the USA, both east to west, and north to south, allow specific frequencies to be tailored to the geomagnetic-field strength in each area, allowing the magnetic field to be altered. They operate in the VLF range, with transmissions between VLF 150 and 175 KHz. They also emit UHF waves of 225 - 400 MHz

The VLF signals travel by waves that hug the ground rather than radiate into the atmosphere. A GWEN station transmits up to a 300-mile radius, the signal dropping off sharply over distance. The entire GWEN system consists of, (depending on source of data), from 250 to an intended 300 transmitters, spread across the USA, each with a tower 299-500 feet high.

Three hundred (300) ft. of copper wire fans out in a spoke like fashion from the base of the underground system, interacting with the earth like a thin-shelled conductor, radiating radio wave energy for very long distances through the ground.

The USA is bathed in this magnetic field which rises to 500 feet, even going down to basements, so everyone is subject to mind control.

The whole artificial ground wave spreads out over USA like a spider-web-network. It is easier to mind-control and hypnotizes people who are bathed in an artificial electromagnetic wave.

GWEN transmitters have many different functions, including controlling the weather, mind, behavior and mood control of the populace.

They are also used to send synthetic telepathy disguised as infrasound to those victims of the U.S. government mind-control implants.

These towers work in conjunction with HAARP and the Russian Woodpecker transmitter, a system similar to HAARP. The Russians openly market a small version of their weather-engineering system called Elate, which can fine-tune weather patterns over a 200 mile area and have the same range as the GWEN unit. One such system operates at the Moscow airport to enable visibility for pilots landing. The GWEN Towers shoot enormous bursts of energy into the atmosphere in conjunction with HAARP. An excellent book on this technology is Nick Begich's 1995 book, *'Angels Don't Play This Haarp'*.

Invisible, enormous rivers of water, consisting of vapors that flow, move towards the poles in the lower atmosphere. They rival the flow of the Amazon River and are 420 to 480 miles wide and up to 4,800 miles long. There are five of these rivers of water in the northern hemisphere and five in the southern hemisphere of Earth. Before the days of electricity, these rivers flowed in pretty much the same pattern around the Earth. Today, with the "Jet Stream" these rivers fluctuate and they can and are being manipulated and we are seeing the results of HAARP, EMF, and even Doppler Radar. Every city with a Doppler Radar system is actually able to modify its weather pattern within roughly a hundred miles of the radar.

These rivers are 1.9 miles above the earth and move 340 lbs. of water per second. There are 5 atmospheric rivers in each Hemisphere. A massive flood can be created by damming up one of these massive vapor rivers, causing huge amounts of rainfall to be dumped. We are routinely hearing reports that a specific area got several months rain in a single 24-hour period. This is the source of such "flood" of the century occurrences. California's droughts are clear example of manipulation of the wind currents and cloud patterns. President Clinton and David Rockefeller were committed to forcing people away from the ocean through weather modification.

The GWEN Towers positioned along the areas north of the Missouri and Mississippi Rivers were turned on for 40 days and 40 nights several years ago, probably mocking the Flood of Genesis. (This was done in conjunction with HAARP).

The damming of the vapor rivers creates a river of electricity flowing thousands of miles through the sky and down to the polar ice-cap, manipulating the jet-stream. Again, these two major rivers flooded, causing agricultural losses of \$12-15 billion. What occurred in 2019 was even more damaging in crop loss, not to mention the loss of top soil that washes into the streams and tributaries of major rivers.

HAARP also produces earthquakes by focusing on the fault lines. GWEN Towers are positioned on the fault lines and volcanic areas of the Pacific Northwest. In 1963, Dr. Robert Becker explored effects of external magnetic-fields on brainwaves, showing a relationship between psychiatric hospital admissions and solar magnetic storms.

He exposed volunteers to pulsed magnetic-fields similar to magnetic storms, and found a similar response. In the United States, sixty (60) Hz electric-power ELF waves vibrate at the same frequency as the human brain. In the United Kingdom, fifty (50) Hz electricity emissions depress the thyroid. The CORVID19 virus is simply a cover for the roll-out of 5G technology. The telecommunications industry has stated they have invested \$59 billion dollars in 5G technology. You and I are mere obstacles in its path.

Dr. Andrija Puharich (in the 1950 & 60's), found that a clairvoyant's brainwaves turned to 8 Hz when their psychic powers were operative. In 1956, he observed an Indian Yogi controlling his brainwaves, deliberately shifting his consciousness from one level to another.

Puharich trained people via bio-feedback to do this consciously, that is, creating 8 Hz waves with the technique of bio-feedback.

A psychic healer generated 8 Hz waves through a hands-on healing process, actually alleviating that patient's heart trouble; the healer's brain emitting 8 Hz. One person, emitting a certain frequency, can make another also resonate to the same frequency.

Our brains are extremely vulnerable to any technology that sends out ELF waves, because they immediately start resonating to the outside signal by a kind of tuning-fork effect. Puharich further experimented, discovering that,

- 7.83 Hz (earth's pulse rate) made a person "feel good," producing an altered-state
- 10.80 Hz causes riotous behavior
- 6.6 Hz causes depression.

Puharich made ELF waves change RNA and DNA in the body, breaking hydrogen bonds to make a person resonate at a higher vibratory rate. He really wanted to go beyond the psychic 8 Hz brainwave and attract psi phenomena.

James Hurtak, who once worked for Puharich, also wrote in his book *'The Keys of Enoch'* that ultra-violet caused hydrogen bonds to break and this raised the vibratory rate. Puharich presented the mental effects of ELF waves to military leaders, but they would not believe him. He then gave this information to certain dignitaries of other Western nations. The U.S. Government burned down his home in New York to shut him up, whereas he then fled to Mexico.

However, the Russians discovered which ELF frequencies affected what portion of the human brain; it was on July 4, 1976, that they began zapping the U.S. Embassy in Moscow with electromagnetic-waves, varying the signal, also focusing on 10 Hz. (10 Hz puts people into a hypnotic state). Russians and North Koreans use this in portable mind-control machines to extract confessions.

This Russian "Woodpecker" signal was traveling across the world from a transmitter near Kiev. The US Air Force identified 5 different frequencies in this compound that the harmonic Woodpecker was sending through the earth and atmosphere. There are reports that the energy backwash from the massive radar system and the vibrations caused the disaster of the Russian nuclear power plant at Chernobyl, Ukraine. One of the reasons Chernobyl was selected to locate a nuclear reactor was to provide the massive amounts of energy to power the huge radar antennas being beamed to the West. These were the largest over-the-horizon (OTH) radars ever constructed.

Employees at the U.S. embassy in Russia received hazardous duty pay because two ambassadors developed cancer as a result of "Woodpecker". Embassy employees put aluminum foil on their office walls and windows to neutralize the slow beat of "Woodpecker".

Retired U.S. Army Lt.-Colonel Tom Bearden is the chief scientist on Scalar Technology in the U.S. His 2002 book *'Fer de Lance'*, is the "Industry Standard" handbook on scalar weather engineering and weaponry. I bought it in 2002 and once you have read it you will never doubt again that the weather is being modified by humans with a devious agenda.

### **WOODPECKER BEAMS INTERSECT OVER NORTH AMERICA**

In July, 1976 the U.S. received very special Bicentennial greetings from the Soviet Union. At that time, communications systems of the world in the 3-30 Megahertz band suddenly met substantial interference from extremely powerful, chirped Soviet transmitters which were suddenly activated. These transmitters continue their transmissions to this day.

Estimates of the power of these enormous transmitters vary, but figures range as high as several hundred megawatts, with a nominal figure being 100 megawatts.

These powerful transmitters were promptly nicknamed "Woodpeckers" because of the characteristic sound of the chirped signal when received. That is, the received signal made a "pecking" sound much like a woodpecker's beak hitting a block of wood.

Several nations protested, but the powerful signals have continued, right down to this day. The only Soviet response was to add a "spread spectrum" capability, so that the transmitter did not dwell too long on one specific frequency, but shifted periodically to other frequencies.

These transmitters have apparently never been precisely located by U.S. intelligence, but their beams carry much of the characteristics of an over-the-horizon (OTH) radar. They have been dubbed OTH-radars by U.S. intelligence, and can without question perform that mission, in addition to some very interesting missions which U.S. intelligence does not assess.

'Soviet Military Power', Department of Defense, 1985, pg. 45 shows the direct intersection over the United States of the "Woodpecker" radar beams used in an OTH-role. This is shown in the illustration of that intersection on page 12 above.

In addition, we show an additional "scanner" beam which can be scanned across the intersection "grid" over the U.S., formed by waveform interference of two main "Woodpecker" beams. These Woodpecker transmitters have a great many diverse functions.

First, they can be used in a conventional over-the-horizon radar mode, since their beams follow the earth-ionosphere waveguide and curve around the earth. In this mode they can detect missiles at launch and thereafter, and strategic bombers when taking off and thereafter.

However, these scalar interference grid weapons have many other uses.

First, they can be used to biologically attack entire populations in a targeted area. This aspect is not covered in this briefing. Suffice it to say that phase-locked ELF modulation signals to 10 Hz and less are often detected on multiple "Woodpecker" frequencies simultaneously. In a target area, this modulation -- if sufficiently stronger than the Schumann Resonance of the earth's magnetic field -- will entrain a percentage of the brains into "forced entrainment." In that case, these human brains are "synchronized" to the "Woodpecker" signals so that multiple coherent frequencies are phase-locked into them. That is, multiple coherent EM channels directly into these entrained brains now exist. At that point, Fourier expansions may be used to attack specific portions of the brain geometrically.

In addition, scalar EM disease patterns can be modulated upon the carriers, again with Fourier expansions. Specific biological effects can be induced in the entrained populace at will, limited only by the state of the art of the Soviet technology used to attack them. Possible induced effects include instantaneous death, heart seizure, severe emotional disruption, loss of control of internal functions, diseases, disabling of the immune system, and even implantation of thoughts, emotions, and ideas which are interpreted by the targeted subjects as their own.

While further discussion of this area is beyond the scope of this briefing, the biological aspects of the "Woodpecker" transmitters are horrible. It suffices to say that, in thousands of experiments, Kaznachejev demonstrated that almost any kind of cellular death and disease pattern could be electromagnetically transmitted. Kaznachejev reported the effect in the near ultraviolet. Experimenters at the University of Marburg in West Germany duplicated the experiments in the infrared.

The bottom line is that photons themselves can carry death and disease patterns between cells. Scalar EM technology allows the synthesis of the actual potential pattern (which after all represents total control of charge and charge distribution, hence biochemistry in the cell) of a particular cellular disease or death mechanism. Symptoms (and cellular death from them!) of nuclear radiation, chemical poisoning, bacterial infection, and other mechanisms were successfully induced by the Kaznachejev experiments.

Dr. Popp of West Germany has published an analysis of the virtual photon master control system of the cells. Since scalar EM represents the deliberate ordering of virtual particle flux into deterministic patterns, the master control system can readily be entered with scalar techniques to induce disease and disorder at will.

In 1901, Nikola Tesla, Nobel Prize winner in Physics (shared with Einstein) revealed that power could be transmitted through the ground using ELF waves. Nothing stops or weakens these signals. The Russians retrieved Tesla's papers when they were returned to Yugoslavia after his death. Tesla believed his discovery could split the planet. He was forced to move at least once by the community he had set up shop in, after setting off earthquakes.

In Mexico, Puharich continued to monitor the Russian ELF wave signal and the higher harmonics (5.340 MHz) in the MHz range. He was somehow induced to work for the CIA and he and Dr. Robert Becker designed equipment to measure these waves and their effect on the human brain. Puharich started his work by putting dogs to sleep. By 1948/49, he had graduated to monkeys, deliberately destroying their eardrums to enable them to pick up sounds without the eardrum intact.

He discovered a nerve from the tongue could be used to facilitate hearing. He created the tooth implant that mind-control victims are now claiming was put in by their dentist, unbeknownst to them, and causing them to hear "voices in their head." These were placed under caps or lodged in the jaw.

Implants are now smaller than a hair's width and are injected with vaccine and flu shots. Millions have had this done unknowingly. These "biochips" circulate in the bloodstream and lodge in the brain, enabling the victims to hear "voices" via the implant. There are many kinds of implants now, and it is estimated that 1 in 40 people are recipients of these tiny implants due to alien abductions. However, others have suggested that one in 20 might just be a more accurate statistic. It may sound like science fiction but it is very real.

The fake alien abduction - these revealed by many victims - are actually engineered by the U.S. military, using advanced technology to create holograms (4th dimensional pictures) or holographic spaceships outside. I'm working on an article about Werner Von Braun having told his personal secretary Carol Rosen, to never believe in any future alien invasion, that it was all a NASA hoax plan to deceive the world.

This holographic, advanced technology can actually create a scenario whereas the person believes he/she is going into a spaceship. However, once inside, the aliens are in masquerade; they are actually military personnel outfitted in full costumes, masks et al..

Certainly real abductions occur, however, the "alien abduction" scenario has been most useful to the military in confusing the overall issue. This clouding tends to halt any further investigation into any government participation and inevitably absolves them of any accountability.

They are banking on the poor helpless victims feeling too intimidated to reveal such a shocking episode, lest ridicule be visited upon them.

- Are the global masters forcing us to respond to an artificially induced vibratory rate?
- Those power mongers who want this planet to have a sudden leap in evolution, populated only by the psychically aware and therefore superior class of human?
- What about the billions of people who are commonly referred to as "useless eaters"; are they to be conveniently disposed of by electro-magnetically-induced cancers and diseases?

Most of us think of electricity in terms of everyday convenience in our home and work world. We are for all intent and purpose an appendage to the earth and the Shuman Resonance. It certainly causes one to stop and ponder this catastrophic situation. I have been watching and observing for 22-years, and feeling alone in the process.

The physics and engineering behind electromagnetic disease transmission are frightening. Diseases can be reproduced as "disease signatures" in that the vibration of a disease can be manufactured and sent on to are artificially induced. (The brainwave pattern of hallucinogenic drugs can also be copied and sent by ELF waves to induce "visions").

Once diseases are sprayed in the air, electromagnetic waves attune to the disease by using harmonics and sub-harmonics, which in turn make them even more lethal and infectious; actually a more apt description would be deadly, as in inducing death. The gene sequencing of the COVID19 has shown that HIV and two other viruses were bioengineered into the virus known as COVID19, which means humans can be infected more than once by the pathogens inserted into the genes, and with each infection the individual will be weakened with each of 3 or 4 pathogens in the virus. Since 5G mimics COVID19, it hides its true cause.

The skies are filled daily, day in and day out, with Chemtrails, those crisscrossed white patterns that are sprayed out across the heavens in the United States and other countries. I have observed them going back to the summer of 1996.

Are these like contrails that jets emit behind them? Not exactly... contrails dissipate rather quickly, but the Chemtrails - those feathery streaks that linger - are deliberately being sprayed and contain insidious chemicals (retrieved, analyzed and proven) which affect the state of consciousness, producing apathy. Chemtrails are made up of numerous heavy metals, including nanoparticles of **aluminum, barium, strontium, and sometimes ethylene dibromide or EDB**, often called dibromoethane.

This is only one "program" that has been initiated to keep the populace in a continual apathetic state. Add to this, the fluoridation of the drinking water, aspartame nutria-sweet, etc., and other highly-questionable drugs. The public is a lab experiment for whatever the government wants to test on us.

Fluoride disables the willpower section of the brain, impairing the left occipital lobe. Both fluoride and selenium (in additional amounts) can produce strange effects; one common symptom is that of "hearing voices".

ELF waves create disturbances in the biological processes of the body, activated on a large scale once the body has been exposed to the aforementioned disease-causing Chemtrails.

Some Chemtrails have been analyzed under laboratory conditions, the elements shown to cause cleavages in spatial perceptions, blocking the interaction of various amino acids that relate to higher-consciousness. Some were also shown to increase dopamine in the brain thereby producing a listless, euphoric state of lower reactive mind.

This is done to basically create confusion, rendering a person unable to differentiate between the real and illusionary. In addition, some of these Chemtrails could be connected with the many UFO abductions occurring on a global massive scale.

Many victims, some recalled under hypnotic regression, have witnessed other abductees laid out on tables (in a sort of assembly line operation) and in the process of being implanted.

Intelligence agencies are in league with each other, behind this disablement of the masses to such a degree where they can't even fight back. In order to implement their plans, that of total control of the populace, they need the overall "frequency" of each victim to function at a specific rate, below the threshold of awareness. One program conducted by the FBI, is that of taking mouth swabs from vehicles stopped by local and state police officers. It is advisable that you never submit a DNA sample to those labs offering to find you genealogy. The FBI acquires those for their data base, and one of their goals is gain everyone's DNA data.

Could this be part of a greater plan with mind-control transmitters covering the whole of USA and England, cleverly disguised as cell phone towers and trees? The power from microwave towers may be turned up to such a level that people will die one day.

A brain functioning at beta-level (above 13 Hz) is agitated and cannot change the perceptions if it is artificially stabilized to that frequency by technological methods. This frequency may also increase body electricity in others, giving them psychic powers. Is this linked to the new-agers claim of a 12-14 Hz Schumann Resonance, inching us towards the 4th dimension?

Stimulants ingested globally from higher-caffeine, genetically modified plants, and may also make an impact on the "global-brain" in the ionosphere that is collecting our brainwaves.

New-age channelers say we are going into a 4th dimensional frequency. They "heard" the voice of some "ET" who informed them of this. However, some "ETs" are just plain earthians in disguise. Using Tesla Technology, Prisoners in the Utah State Prison were bombarded with voices from a "purported" ET, each prisoner receiving the same identical message. Curious,

indeed! Today, it is relatively simple to produce these "voices in the head." Implants/microchips are no longer necessary.

In 1988, an inmate in Draper Prison, Utah by the name of David Fratus wrote:

*"I began to receive or hear, high-frequency tones in my ears. When I plugged my ears, the tones were still inside and became amplified. It's as if they had become electrified echo chambers with the sounds coming from the inside out."*

*"I then began to hear voices, right in my inner ears and just as vividly as though I were listening to a set of stereo headphones. The end result is that I am now having my brain monitored by an omnipotent computerized mind reading or scanning machine of some sort."*

Hundreds of inmates at the Gunnison Facility of the Utah State Prison and the State Hospital were subjected to this brand of mind-control, used as test subjects like rats in a lab. In the early 1970's, this was revealed in the Utah U.S. District Court. While incarcerated, these inmate test subjects, having been subjected to this Tesla-wave mind-control, tried to seek restitution in the courtroom. Unfortunately, they were unsuccessful.

The University of Utah researched how Tesla-waves could be used to manipulate the mind into hearing voices, overriding and implanting thoughts into the mind, in addition to reading thoughts. They also went about developing eye-implants.

Cray computers, using artificial intelligence, monitored the victims of government produced implants, sending pre-recorded sound-bites or occasional live messages. They are picked up by satellite and relayed to whatever large TV broadcasting antenna, GWEN tower or other antenna that is nearest the victim. It is believed that some types of implants pick up the signal and broadcast the correct Tesla-wave pattern to create voices within the victim.

The tracking implant keeps the staff and the satellite system informed every few minutes as to exactly where to send the voice signals. The master computer and central HQ for this are reported to be Boulder, CO. It is thought that transponders are being made there. The central cellular computer is in the Boulder, CO National Bureau of Standards building. AT&T is also cooperating; several agencies work together on this.

Tim Rifat of the UK wrote that "this inter-cerebral hearing" is used to drive the victim mad, as no one else can hear the voices transmitted into the brain of the target. Transmission of auditory data directly into the target's brains using microwave carrier beams is now common practice. Instead of using excitation potentials, one uses a transducer to modify the spoken word into ELF audiograms that are then superimposed on the pulse modulated microwave beam.

On March 21, 1983, The 'Sydney Morning Herald' published this by Dr. Nassim Abd El-Aziz Neweigy, Assistant Professor of Agriculture, Moshtohor Takh-Kalubia, Egypt.

This article stated:

*"Russian satellites, controlled by advanced computers, can send voices in one's own language, interwoven into natural thoughts. They can target the population of choice with this diffused artificial thought process. The chemistry and electricity of the human brain can be manipulated by satellite and even suicide can be induced."*

*"Through ferocious, anti-humanitarian means, the extremist groups are fabricated, the troubles and bloody disturbances are instigated by advanced tele-means via Russian satellites in many countries in Asia, Africa, Europe and Latin America."*

Another source says that these have been fed with the world's languages and synthetic telepathy will reach into people's heads making people believe God is speaking to them personally to enact the Second Coming, complete with holograms! The Russians broke the genetic code of the human brain during the 1980's.

They worked out 23 EEG band-wave lengths, 11 of which were totally independent. So if you can manipulate those 11 you can do anything. NSA's (U.S. National Security Agency) Cray computers can remotely track people just by knowing the specific EMF waves (evoked potentials from EEGs in the 30-50 Hz, 5 milliwatt range) of a person's bioelectric-field.

Each person's emissions are unique and they can remotely track someone in public. Now if this isn't a horrifically frightening thought, I don't know what is.

Evoked potentials officially do not exist in physics, but in 1873 a Scotsman, James Clerk Maxwell, discovered that electromagnetic waves have 3 components. He discovered waveforms that exist at a certain number of right-angled rotations away from the electromagnetic field. These are hyper-spacial components, not subject to constraints of time and space. He claimed that electromagnetic radiation waves were carried by the ether and the ether was disturbed by magnetic lines of force. The hidden component is called only "potential" now and not normally used except for covert hyper-dimensional physics and to manipulate consciousness itself via electromagnetic-waves covering vast areas of the planet.

Approximately one person in 3000 is sensitive to this magnetic waveform component, the telepathic types, (according to a writer called "Majix"), and we are all capable of tuning into this magnetic component by tuning our subconscious to it. Maxwell's successors thought potentials were akin to mysticism because they believed fields contain mass which cannot be created from nothing.

This is what potentials are - both literally and mathematically - an accumulation or reservoir of energy, consequently this hasn't been taught in mainstream physics. Subliminal words (in the correct electromagnetic-field and attuned to the human brain) that express human consciousness can enter our minds at a subconscious level. Apparently, our brain activity patterns can be measured and stored on super-computers. This all seems so bizarre and yet

the research has been ongoing since the 1930's. Germany, Russia, the UK, and the U.S. have made huge strides in experimental research in understanding and controlling the human mind.

If a victim needs to have subliminal thoughts implanted, all that is necessary is to capture that brain activity pattern, (saved on the mega computer) and target or match up that person's pattern. The targeted or specified person is then sent low frequency subliminal messages that they actually think are their own thoughts.

The researcher Majix says our brains are so sensitive, that they are like liquid crystal in response to the magnetic component of the earth. We are sensitive to the earth's magnetic changes, changes in the ionospheric cavity and resonate those frequencies ourselves. We are incredibly complex entities, beyond the layperson's comprehension. Our brains are indeed a type of bio-cosmic transducer.

Physicists in Russia have conducted in-depth studies on the effects of the mean annual magnetic-activity, electro-magnetic and electro-static fields on human behavior and the physical body.

These electromagnetic and electro-static fields can be likened to what is popularly known as biorhythms. These magnetic frequencies can be manipulated from a very simple piece of equipment operated at extremely low power levels; our brain waves can mimic magnetic frequencies. From half a second to 4 seconds later, the neurons and brain waves are driven exclusively by this device; power levels almost nonexistent.

All one needs is a circularly polarized antenna, aimed up at the ionospheric cavity and they can then manipulate the moods of everyone within a 75 sq. mile area. The body picks up these "new" manipulated waves and begins to correspond immediately. What is known as the "sleep" frequency will make everyone become tired and sleep.

In "Let's Talk MONTAUK," Joyce Murphy presented data that showed that experiments on the 410-420 MHz cycle have been done which could affect the "window frequency to the human consciousness" as a whole. Montauk, Long Island was a super-secret research facility operated by the U.S. performing all kinds of human and animal studies.

Preston Nichols, previously mentioned herein, learned from his experimentation with his radio equipment that whenever a 410-420 MHz cycle appeared on the air, a psychic's mind would be "jammed," finally tracing the signal to Montauk Point and the red and white radar antenna on the AF Base there."

In *'Encounter in the Pleiades'* by Peter Moon and Preston Nichols, Nichols wrote that, Dr. Nicholas Begich, an expert of HAARP, has picked up 435 MHz signals connected to HAARP and that a mind control function is currently being employed. He claims that 400-450 MHz is the window to human consciousness because it is our present day reality's background frequency.

Tim Rifat wrote in his Microwave Mind Control in the UK article that cellular phones use 435 MHz. The United Kingdom police use 450 MHz exclusively. Dr. Ross Adey used this frequency for CIA behavioral modification experiments. Police have a vast array of antennae to broadcast this frequency all over UK. Adey used 0.75mW/cm<sup>2</sup> intensity of pulse modulate microwave at a frequency of 450 MHz, with an ELF modulation to control all aspects of human behavior. 450 MHz radar modulated at 60 Hz greatly reduced T-lymphocyte activity to kill cultured cancer cells.

A study in the USA of their 60 Hz power lines repeated this.

Through much study and analysis on this varied topic, independent scientists have concluded that HAARP is slicing up the ionosphere - the world-brain - like a microwave knife, producing long tear incisions and destroying the membrane that holds the reservoir of data accumulated of all earth's history.

However, there can be hope if we are aware of all the possibilities that exist. A healer called Mr. A claimed to have received "Ancient Wisdom" from the earth's protective Magnetic-Ring of energy which stores within it all knowledge since time began.

These elevated scientific methods have been suppressed for many years and only those very few people in power have been privy to this information and obviously used it with no "good intention" in mind.

Do you want to be turned into a zombie, a robotic, controlled entity walking around in an apathetic state, or do you want to live life as a vital, vibrant human being... as the Divine Creator intended for you?

I have been studying 5G for approximately 5 year, alerted to and watching for articles being posted on the Internet, particularly You Tube videos. I've watched everything that Barrie Trower has posted on You Tube. Barrie was the UK scientist in charge of England's radar program during World War 2. I have read hundreds of peer-related scientific papers on the issue of 5G. I have heard the pros and cons on 5G. I watched You Tubes by professional painters in Canada who have 5G-proofed their homes with special paints for both inside and outside application. I'm not the expert, but I now know where to go to find the experts' views on this technology, their research studies, etc.. You may recall reports of State Police officers dying of cancer from their use of Radar Guns in catching violations of speed limits.

CORVID19 is doubling every week according to the various agencies tracking the spreading of the Corona virus, with each person infected is infecting two more individuals.

Cell towers up until 5G came along produced a wide band signal up to a range of about 24-miles

Recently I have had reasons to be personally concerned. A Cell tower is located 2,500-feet north of my study. It is exactly 2,500-feet, just under a half-mile away. We rent the church

parsonage of a UMC church where I was the resident pastor for four years in the early 90's. I have reason to believe the energy level on this particular cell tower has been turned up as the 5G system is being ramped up. I live 45 miles south of Louisville, KY, which was announced in 2019 would be going 5G this year. In order to expand the cell tower range, it becomes to increase the energy output or add cell towers as well as mini-cell towers on buildings and utility poles. Because 5G cell towers operate on a point to point basis, they require a direct line of sight directional path. Things like weather, rain, snow, fog, interfere with 5G signals. 5G at 60Ghz has to be powerful enough to function. Unfortunately It is where we as humans are vulnerable.

In recent days, I was experiencing "brain fog", and a lack of concentration as well as other stressors. In the summer of 2019, I ordered several 2" and 4" Shungite pyramid stones. I placed them in line with the nearby cell tower and also one close to our electric meter. My wife complained of headaches when she came home, and so we moved the location of her recliner to monitor any change of conditions.

What we do not know is when the 1% of the world, like the Pirbright Institute and its deep pockets investor Bill Gates will decide to fully execute their plan to reduce the world population to just 500-million, as noted on the Georgia Guide Stones in Elberton, GA. I have shared a great deal of information in this article, not all of what I have read about. For many, it is too technical in nature and content. One thing is for sure, the COVID-19 virus has prepared the world for the "cashless" society. The United Nations and the central banks have the same controllers above them and are working together on many fronts, to establish a form of global governance, which has been laid out in their own documents - specifically, the 2030 Agenda, which was previously Agenda 21 and everything that's happening, right now, everything that we're seeing, I believe is undoubtedly connected. It is a known fact that the Club of Rome since 1972 has given total concentration to the agenda of reducing the world's population.

I have been studying the issue of electricity since I built an all-electric 10-room home back in the 1970's. I was very close to one of West Penn Power high voltage transmission line that crossed the street two houses a way and behind the property adjacent to my home. I would watch how they used a small two-seat helicopter to inspect the high voltage power lines and how close they got to the power lines. They used a long pole to take readings on the power lines.

There are many ways to help you adjust to the energies impacting our bodies, but here are a few of the most common:

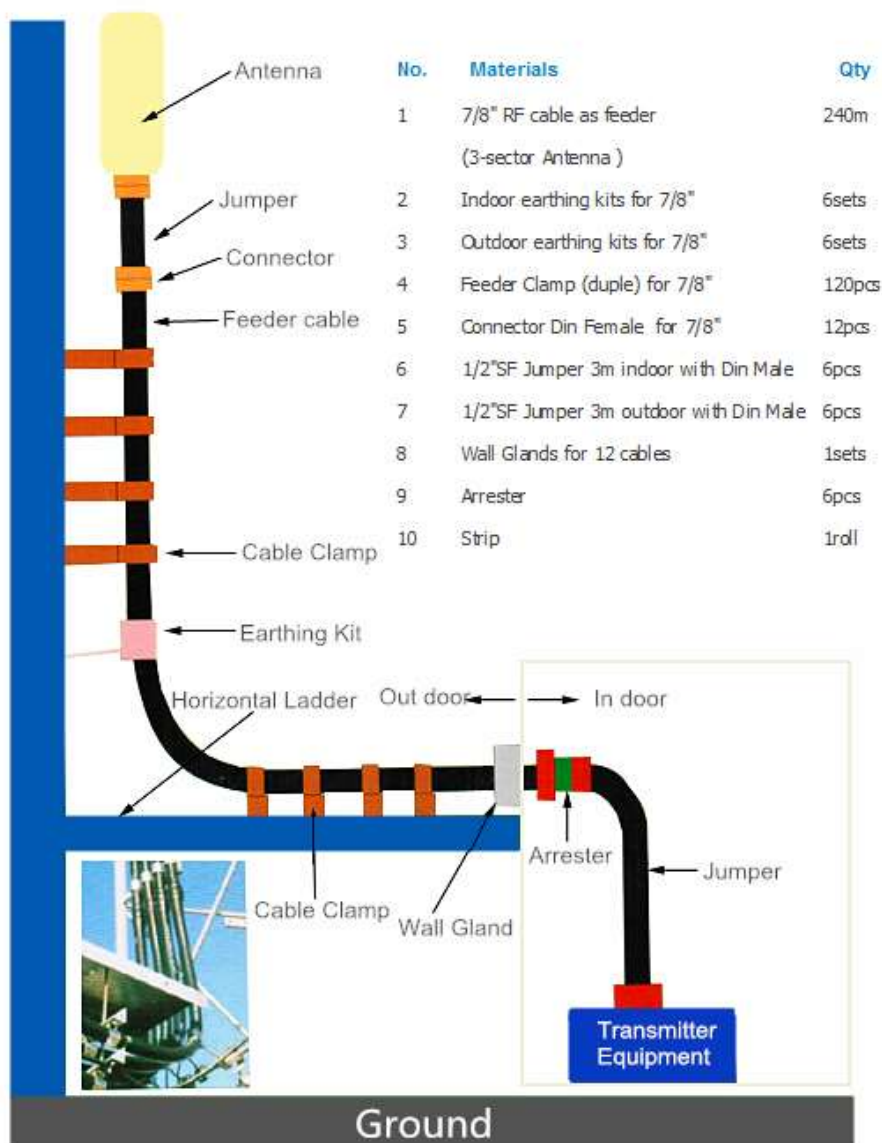

- ◆ Meditation- not the kind of meditation to connect with astral beings or to have out of body experiences. Peace, pause, and breath meditation and focusing on energy flow works best, and open eye meditation is also good. I am disabled but I do deep breathing exercises to keep my lungs healthy.
- ◆ Grounding, or Earthing- Bare feet on the ground, spending time in nature, sea salt baths, swimming, eating grounding foods. I can't do that but my wife can and does.

- ◆ Asking your higher being (higher self/Source/Guidance team/God/life coach) to assist you in acclimating, especially if you are suffering health issues.
- ◆ Drink plenty of pure water! No fluoride. I distill my own water these days. For thirty+ years I have drank only distilled water.
- ◆ Rest- the body has an uncanny ability to do much of its re-setting while it is asleep or lying still. As I was typing this list, it is 3 am and I am up as a result of neuropathy.
- ◆ Loving yourself and caring for the body. Muscle massage, essential oils
- ◆ Gentle exercise- moving the energy to release blockages and encourage proper energy flow.
- ◆ Whole foods- as opposed to processed or GMO foods.
- ◆ Spiritual Counsel or Life Coaching with an expert who has an understanding of the cause and holistic treatments.
- ◆ Listen to your body and do what feels right to make it comfortable. Listen to peaceful, relaxing music. I keep my computer on much of the day to this kind of soothing relaxing music. Sleeping in a dark room with NO electronics in the room whatsoever is a must. The drawing below shows some of the technical features of a Cell-tower. Note the basic RF cable is noted as a 7/8<sup>th</sup> inch cable. Most towers are capable of producing 300,000 to 500,000 Watts of power. This is something that a 7/8<sup>th</sup> inch is not capable of delivering, something that the reader needs to understand.

On a “matrix” level, there are 1% of the people on this planet who would like to control the 99% of people on the planet. They do not have the consciousness or ability to move through these up-shifts in frequency like someone who is awake, aware, and has made a conscious choice to not be under the control system. Eventually, those who raise their physical body frequency to their higher consciousness will be able to outwit, outsmart, and outplay those who wish to control them on many levels. New understandings, abilities, and higher dimensional connections will occur to the individuals who are able to adjust. As the frequency continues to blast, rest, then blast, we are slowly (but lately at an accelerated rate) connecting the physical to higher dimensions, that are beyond those who have controlled humans for a very long time on the planet. The upshifts in frequency also help people to awaken.

Finally, in the practice of questioning everything in our reality, here is a note for the doubters. If for some reason even the Russian website that is providing the data for us to be able to track is fraudulent, and if there is something different causing these symptoms that we are going through, at least we are aware that something is happening globally and millions of people are experiencing this. It at least helps us to realize that we need to take care of ourselves in a more holistic way and that we can share information with each other that helps us feel like we are not alone or that our symptoms are not psychosomatic. Many people started consciously working with these energetic frequency years ago and have reported on what has worked best for them to be able to feel better. These people, including myself, no longer suffer when huge waves hit, as we have tried many things and compared notes with each other. To deny what people are experiencing is to ignore the power of EMF radio frequency and what it can do to the human body. People are panicking by manipulation of the MSM, to hoard supplies that will only provide a false sense of security since what will harm us is invisible to the eyes!

A Wireless Tower high 40meters

“China was long ago set to be the 5G showcase for the world. Major metro areas and technology hubs like Wuhan were selected to be official 5G Demonstration Zones. Only such a high concentration of 5G radio-frequency transmitters and microwave towers would permit a citywide build-out of the *Internet of Things*. 2019 was the year Wuhan, the capital of Hubei, was “expected to have 10,000 5G base stations by the end of 2019, said Song Qizhu, head of Hubei Provincial Communication Administration”. Then the coronavirus hit,

so the whole world was told. What really happened was that a new variant of the coronavirus was released in Wuhan after the 5G experimenters saw an epidemic of *5G Syndrome* explode. The 5G guinea pigs were literally dropping like flies as soon as they flipped the 5G switch. The ERs and urgent care clinics were overwhelmed. The 5G scientists watching the burgeoning public health crisis immediately activated Plan B: Blame it on a virulent flu—a bioengineered coronavirus that produces symptoms similar to *5G Syndrome*.”

— Intelligence Analyst and Former U.S. Army Officer

---

The *New World Order* globalist cabal will not allow anything to impede the military deployment of 5G worldwide.

That’s it!

~~~ END OF STORY ~~~

---

### 5G Syndrome Maps Perfectly with Coronavirus Outbreaks

There’s a lot of hard evidence now emerging the further away we get from the original crime scene in Wuhan, China as the coronavirus pops up around the world in **5G Hotspots** that this pandemic is being manufactured for multiple reasons. This began in September of 2019, not January of 2020.

As it turns out, those nations with the most advanced 5G roll-outs have the highest incidence of COVID-19 cases, both disease rates and death rates.

In those countries that have permitted the Internet of Things build-outs where the 5G power grids are the most developed, the coronavirus infection rate is taking off.

**What’s really interesting is that Africa has thus far shown very few cases.** As of this past weekend there were only 3 medically acknowledged cases on the entire continent. Which begs the question: *How do the Third World countries in Africa avoid such a contagious strain of the coronavirus given the pervasive lack of proper sanitation and necessary hygiene?*

In light of how deeply involved the Chinese are with development projects all over Africa, it’s quite curious how that infection number is still so low. Perhaps it’s directly related to the absence of 5G roll-outs in the vast majority of African nations.

Before those nations suffering the greatest number of coronavirus infections to date are further investigated — China, South Korea, Italy, Iran, Japan, Singapore, Hong Kong, Germany, United States, France, Spain, Kuwait — another curious development ought to be looked at closely.

## The Proof is in the Cruise Ships

**The single best proof of the quite obvious 5G-Coronavirus linkage are the various cruise ships that have seen an inexplicable mushrooming of coronavirus cases, even after all the passengers were quarantined.**

Many of the biggest cruise lines now advertise the fact that they have the latest and greatest 5G technologies in place. The most advanced cruise ships actually possess the best examples of what the *Internet of Things* (IoT) will look like in the future ... if the build-outs proceed unimpeded by the very serious health concerns and safety issues.

---

**KEY POINT:** Cruise-goers, by and large, love to stay connected with the folks back home. They especially enjoy texting their many photos-by-smartphone back to family and friends. Businessmen have a need to stay in touch with the office as other passengers want to stay abreast of all the breaking news in 2020. Hence, every cruise ship will eventually become a 5G–IoT paradise if they’re not already.

---

What really happened on the quarantined cruise ships is that those folks were likely quite vulnerable to the flu bug for a variety of reasons. Then, when they entered the fully operational 5G space\* on the ships, their immunity was profoundly weakened so that they would be susceptible any influenza strain, including the Wuhan coronavirus—COVID-19.

\*The cruise lines have literally put their 5G technology on super-steroids as seen in this promotion: [MedallionNet™: The Best Wi-Fi at Sea](#).

### 5G Nations

It has also been astutely observed that those nations with the most pervasive and powerful 5G networks fully functioning are those that have suffered the biggest outbreaks of the Coronavirus to date. Why should anyone be surprised at this wholly predictable outcome?

The following excerpt comes from: [CORONAVIRUS BOMBSHELL: This proves it should be named “5G COVID-19”](#)

---

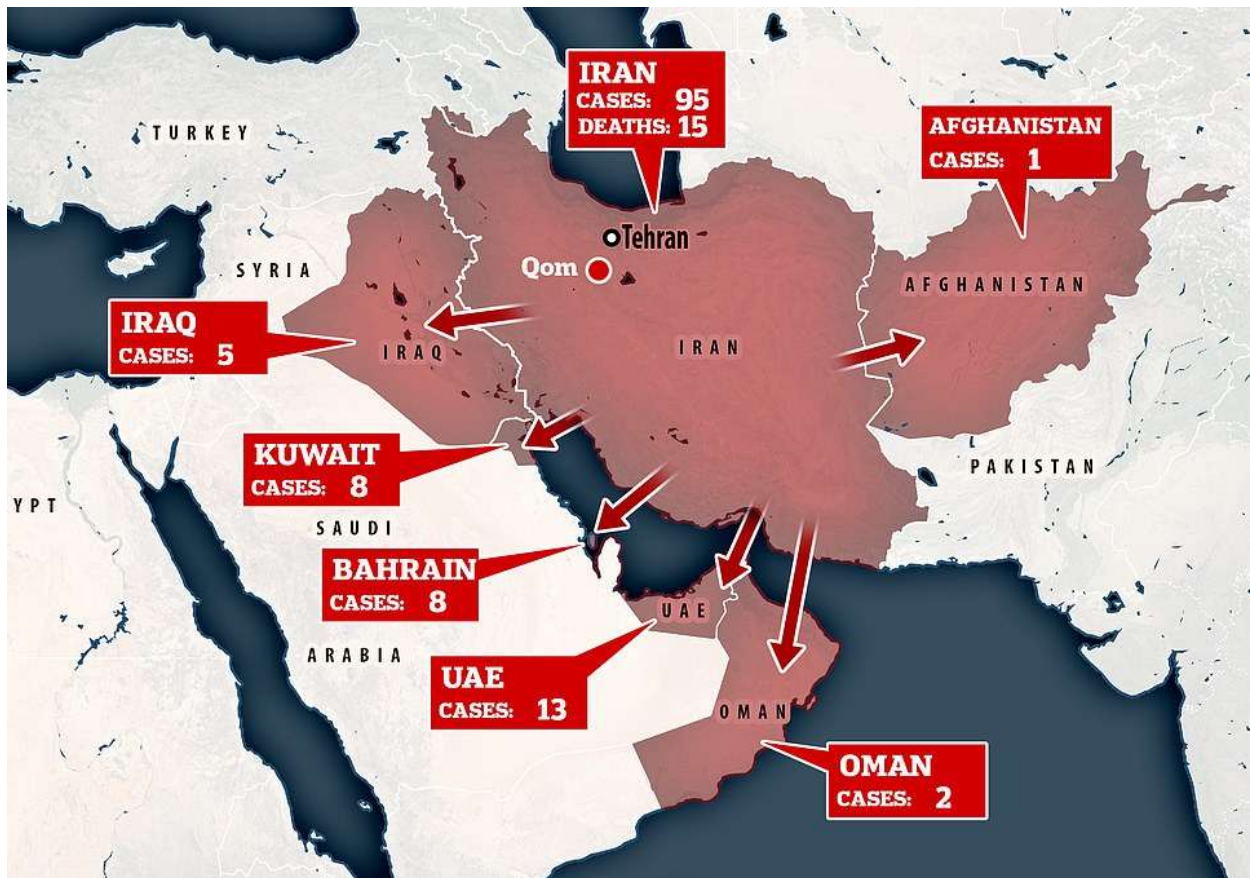

The importance of viewing the coronavirus COVID-19 as a “*Cellphone Disease*” is that by doing so it explains some perplexing mysteries about the spread of this disease—such as why this disease has struck the Gulf nations and monarchies in the Persian Gulf region, but becomes explainable when one notices their ongoing 5G revolution—most particularly in Iran, where this country is completely blanketed to its smallest village with 4G technology

coverage—but who are now putting the finishing touches on rolling out 5G technology throughout their entire nation in the coming weeks—finishing touches that included Iran activating their Chinese bought 5G technology for testing—that was immediately met by Iran having more coronavirus cases and deaths of any nation outside of China—and whose Vice President is one of seven of their top government officials now infected.

Now, the current economic and financial system is on life support. The Federal Reserve is pumping trillions into the system to keep it from crashing, until the new system of control is ready to go - and it's just about ready. We should be mindful of the global currency that has been in the wings of the International banksters. Cash has now lost its luster since you do not know who handled your Federal Reserve Notes, last week, or two weeks ago.

The major central banks have been working for years to develop their own digital currencies. They're called CBDCs or Central Bank Digital Currencies. They're all onboard, they're all doing it. I've been researching this on a daily basis for a while now and you can see it coming. You can see the partnerships taking place...

Now, it's starting to go mainstream and it's just about ready to roll out. It was only a matter of when and how and the coronavirus looks like the perfect storm to roll out this new system.

## **Coronavirus COVID-19 disease outbreak begins to spread in Persian Gulf nations and monarchies activating 5G technology.**

---

Both 5G Demonstration Zones such as Wuhan, China and floating 5G cruise liners are correctly considered **5G Hotspots**. These **5G Hotspots**, for the uninitiated, are really **KILL ZONES** because many folks will die early the longer they bask in those dangerously high levels of 5G radio-frequencies and microwave radiation.

The following excerpt from a previous exposé provides critical links for every individual who lives, works and/or plays in a **5G Super-Hotspots**.

Which brings us to the single most perilous aspect of the military deployment of 5G — **KILL ZONES**. All the scientific evidence available in the public domain now indicates that wherever 5G infrastructure is located in the greatest concentration generating the most powerful EMFs and microwaves, those **5G Super-Hotspots** will effectively function as kill zones. As follows:

### **[5G Super-Hotspots: You better know where the “kill zones” are located!](#)**

In order to fully grasp the highly destructive and deadly potential of these rapidly emerging **5G Super-Hotspots**, the following video exposé presents a scenario where the most powerful “directed energy weapons” will be located within these 5G kill zones.

### **[5G WEAPONRY: Microwave Radiation Technology Being Deployed as Depopulation Warfare, Full Spectrum Dominance & Total Human Control \(Video\)](#)**

Which bring us to the primary purpose of this article—*5G Syndrome*.

## **5G Syndrome**

*5G Syndrome* is a relatively new disease that has yet to go mainstream because of how its official recognition would immediately terminate the ongoing 5G roll-out.

### **Exactly what are the symptoms of 5G Syndrome?**

There are many, and they manifest differently in each victim of this insidious disease. Of course, a good number of typical flu symptoms mimic 5G Syndrome.

But what’s most important is that these two illnesses — Influenza and 5G Syndrome — will mutually sustain each other. In that way, it can be quite confusing to accurately tease out which symptoms are associated with which disease.

In other words, if you have the flu, your exposure to 5G will make it much worse. Likewise, if you have a case of full-blown 5G Syndrome, you will be much more susceptible to getting the flu, and if you do, it will be significantly worse.

## EHS Symptoms Based on Distance to Cell Phone Base Station

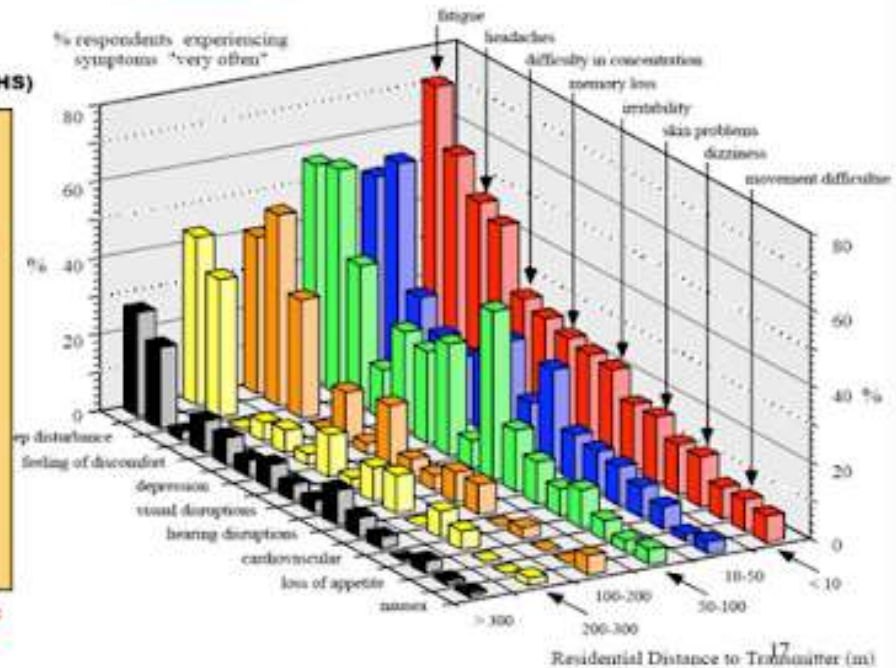

**2001  
Spain**

Symptoms experience by people in the vicinity of cellular phone base station. [Santana 2001, La Presse Medicale]

### Electro-Hyper-Sensitivity (EHS)

1. Fatigue \*
2. Sleep disturbance \*
3. Headaches
4. Feeling of discomfort
5. Difficulty concentrating \*
6. Depression \*
7. Memory loss \*
8. Visual disruptions \*
9. Irritability \*
10. Hearing disruptions \*
11. Skin problems \*
12. Cardiovascular \*
13. Dizziness \*
14. Loss of appetite \*
15. Movement difficulties \*
16. Nausea

\* Associated with Aging:  
"Rapid Aging Syndrome"

4/5/2014

Living Environment Present Challenges

41

The telecommunications industry will be able to obfuscate and deny for a while, but not for too long as the death rate grows exponentially.

Back to the primary symptoms. The best medical reference that we have at this point, since *5G Syndrome* is still a relatively new medical phenomenon, is another disease known variously *EMF Hypersensitivity Illness* and *Electrohypersensitivity (EHS)*.

What follows are just a few of the most common symptoms that are frequently experienced by people who know they have EHS. (Also, see the preceding diagram.)

- Nausea, headaches and migraines
- Ringing in the ears
- Numbness in the face or other body parts
- Dry eyes and sight problems

Inability to concentrate and unexplained fatigue

Depression

Tachycardia and cardiac arrhythmia

Hyperactivity and insomnia

Redness and rashes

Dryness in the throat and mouth

Swollen sinuses and symptoms rhinitis

(Source: [Electrohypersensitivity: What you need to know about the allergy of the 21st century](#))

There are several other symptoms that are also being recognized as the direct result of intensive EMF and microwave exposures. As follows:

Headaches, migraines

Chronic exhaustion

Inner agitation

Sleeplessness, daytime sleepiness

Tinnitus

Susceptibility to infection

Nervous and connective tissue pains, for which the usual causes do not explain even the most conspicuous symptoms.

(Source: [Electrohypersensitivity: What you need to know about the allergy of the 21st century](#))

## Conclusion

The Wuhan coronavirus pandemic has awakened many to the reality of *5G Syndrome*. Perhaps it took all of humanity to get freaked out by a scary Franken virus — COVID-19 — in order to wake up to this extreme and growing danger in our midst—**5G technology and the slowly emerging IoT**.

With this crucial understanding, at least now we know what we're really dealing with. So, the best thing informed people can do is pass the word around: ***It's really 5G and your smartphone that is causing the current pandemic***, not necessarily the Coronavirus or even any of the many other flu bugs circulating around the planet in 2020.

Now many folks will naturally get a bad case of one of the many types of influenzas, or even the Coronavirus itself, and they will need to take that illness/disease very seriously. If they are elderly or infirm or suffer from other illnesses, they especially need to follow the best advice out there such as this: [Here's How Everyone Can Avoid Getting The Coronavirus](#).

For other alternative treatments and holistic approaches, there is this excellent guidance: [Natural Protection Strategy Against Viruses, Including the Coronavirus](#)

Lastly, it important to note that the *5G Syndrome* angle presented here is only one of several perspectives concerning what is really **an ongoing series of bioterrorist attacks** being carried out in 5G-intensive zones. The perpetrators are continuing the bio-attacks wherever they must cover up an epidemic of *5G syndrome* so that the worldwide military deployment of 5G is not jeopardized by disclosures about the extremely serious health dangers and safety hazards.

**Do you see how they do it?!**

**The NWO globalists are very clever, aren't they?**

**[State of the Nation](#)**

March 1, 2020

This "CORONAVIRUS HOAX" does not mean there is not a highly contagious bioengineered coronavirus that is being released as a bioweapon in the nations that have experienced the ongoing bioterrorists attacks. It means that these stealthy bio-attacks were meant to cover up the raging epidemics of *5G Syndrome* in those specific locations. So, the coronavirus is quite real just as SARS and MERS, Bird Flu and Swine Flu were real. But, the Wuhan coronavirus was specifically bioengineered in order to create, and hype, a global pandemic around COVID19. Again, the hoax aspect does not refer to non-existent Coronavirus; that Franken virus is quite real indeed and being cunningly used as a decoy.

Blessings,
