Will Be the Kill Shot

Part 2

Wake up folks! This guy and his wife are Eugenicists to their very core! In this segment you will learn what this Zionist has in store for each of you, and it is not something that any of us will want and I certainly do not plan to take it.

Bill Gates: Coronavirus Shutdown Could Last 6-10 Weeks. The billionaire spoke to a Reddit audience on Wednesday 19th March 2020 @ 9.00pm © press Gates said that the economic impact of the 'shut down' will be 'large' Microsoft co-founder Bill Gates claimed that the current coronavirus shutdown could last between 6 to 10 weeks, depending on how well testing goes. The billionaire spoke to a Reddit audience on Wednesday, saying a short term shut down possible. "This will vary a lot by country," Gates wrote. "China is seeing very few cases now because their testing and 'shut down' was very effective." "If a country does a good job with testing and 'shut down' then within 6-10 weeks they should see very few cases and be able to open back up," he added. Gates said that the economic impact of the "shut down" will be "large," but the economy can "eventually ... open back up" if done properly. Have your say - ↓ Hit the comments below ↓ © press The Microsoft founder also said that the U.S. would eventually go into lockdown, but added it should have been done sooner. The Microsoft founder also said that the U.S. would eventually go into lockdown, but added it should have been done sooner. "We are going into lockdown, but as usual in retrospect [sic], we should have done it sooner," Gates wrote. TRENDING: Bill Gates the Coronavirus shutdown could last 6-10 Weeks "The sooner it is done, the easier it is to get the cases down to small numbers." "The testing in the U.S. is not organized yet," Gates wrote. "In the next few weeks, I hope the Government fixes this by having a website you can go to find out about home testing and kiosks." "Things are a bit confused on this right now. In Seattle, the U. of Washington is providing thousands of tests per day, but no one is connected to a national tracking system."

Last month, Gates warned the coronavirus could be a 'once-in-a-century pathogen we've been worried about' Gates continued: "Whenever there is a positive test, it should be seen to understand where the disease is and whether we need to strengthen the social distancing. South Korea did a great job on this, including digital contact tracing." The Bill & Melinda Gates Foundation in February committed to \$100 million to help fight against the coronavirus. "Our foundation is working with all the groups who make diagnostics, therapeutics, and vaccines to make sure the right efforts are prioritized," Gates explained.

"We want to make sure all countries get access to these tools. We donated \$100M in February for a variety of things, and we will be doing more. "One priority is to make sure that there is enough manufacturing capacity for therapeutics and vaccines. We have other efforts like our education group working to make sure the online resources for students are as helpful as they can be." Last month, the Philanthropist warned the coronavirus could be a "once-in-a-century pathogen we've been worried about." The billionaire said in an article for the New England Journal of Medicine: "I hope it's not that bad, but we should assume it will be until we know otherwise." "There are two reasons that Covid-19 is such a threat. First, it can kill healthy adults in addition to elderly people with existing health problems," Gates added. Gates announced that he was stepping down from the board of directors of Microsoft last week.

Ask yourself, Did Bill Gates have advanced knowledge on the Corona virus? Consider this revelation, the CDC started hiring QUARANTINE program managers last November to cover quarantine centers in Texas, California, New York, Washington, Illinois, Massachusetts and more. The Centers for Disease Control and Prevention (CDC) appears to have had advanced knowledge of the coronavirus pandemic outbreak, as the agency which deliberately delayed testing kits in the USA for nearly a month was hiring quarantine program advisors in November 2019, to cover Texas, New York, California, Washington, Florida, and many other areas where the pandemic is now exploding. This job listing page at jobs dot CDC dot gov describes job announcement number HHS-CDC-D3-20-10640010, paying up to \$93,077 per year, with an open application period from Nov. 15, 2019, to May 15, 2020. The cities and states described in the job listing are: Dallas, Texas; El Paso, Texas; Houston, Texas; Seattle, Washington; Anchorage, Alaska; Los Angeles, California; San Diego, California; San Francisco, California; Miami, Florida; Atlanta, Georgia; Honolulu, Hawaii; Chicago, Illinois; Boston, Massachusetts; Detroit, Michigan; Minneapolis, Minnesota; Newark, New Jersey; New York, New York; Philadelphia, Pennsylvania; and San Juan.

This is just the beginning of reasons for public concern with this evil cabal.

If you have not read Part 1 of this series, it is imperative that you do, in order to get past the disease of fear that has infected the world. This billionaire has focused on one thing in his Deal with the Devil, throughout his years. Depopulation and eugenics dominates the Bill and Melinda Gates Foundation. Each time Gates is allowed to be heard, Satan rubs our face in the mud.

We are in a war for the minds of people, and as Hosea 4:6 states: *"My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children."*

The truth about Bill Gates was revealed in a recent segment of “The Satanic Talmud and the Synagogue of Satan”. Bill Gates is the dispenser of “Blood Money” to the University of North Carolina and Pirbright Institute in the UK, and any of groups such as the CDC, WHO, we learned recently that Bill Gates gave a grant of \$100-million dollars to Dr. Anthony Fauci of the CDC. These non-governmental organizations, CDC, WHO, Johns Hopkins Medical are driven by depopulation and eugenics, and they have deep pockets benefactors. They are conducting murder on a global scale.

But let us not lose sight of the real issue that really lurks behind the Corona virus now or the new viruses planned to be unleashed on humanity. It will not be able to hide forever, as being exposed in a law suit by the Children’s Health Defense group noted below:

Children’s Health Defense vs. Federal Communication Commission in **5G** Lawsuit
[March 19, 2020 Children’s Health Defense](#)

1. Last month, the Children’s Health Defense, headed by Robert F. Kennedy, Jr., brought legal action against the FCC, which is responsible for regulating the safety of wireless technology. The reason for the action is that the agency has refused to update its 25 - year-old guidelines, written in 1996, that protects only against thermal damage from wireless radiation. They do not address the issue of non-thermal biological damage, which is where the greatest concern is today. The FCC’s obsolete guidelines have enabled the proliferation of new, high-frequency **5G** radiation without any knowledge of its potential damage to humans. –GEG

Robert F. Kennedy, Jr.'s Children's Health Defense Submitted Historic Case Against U.S. Government for Wireless Harms.

CHD Chairman, Robert F. Kennedy, Jr., will lead the legal team with seasoned telecommunications and administrative law attorney Scott McCollough.

Washington, DC—Children's Health Defense (CHD) is leading a historic legal action against the Federal Communication Commission (FCC) for its refusal to review their 25 year old guidelines, and to promulgate scientific, human evidence-based radio frequency emissions ("RF") rules that adequately protect public health from wireless technology radiation. The Petition contends the agency's actions are capricious and not evidence-based. The Petition was filed on 2/2/2020 in the U.S. Court of Appeals for the Ninth Circuit.

The Petitioners include parents of children injured by wireless devices, a mother whose son died from a brain tumor from cell tower exposure, physicians who see the epidemic of sickness in their clinics and Professor David Carpenter, a renowned scientist.

"This action represents the first time in 25 years that we finally can expose the FCC fecklessness in court, and give those who have been injured by the FCC's disregard for human health a voice," says Dafna Tachover, CHD's Director of Stop 5G & Wireless Harms.

In 1996, the FCC, responsible for regulating the safety of wireless technology, adopted guidelines which only protect consumers from thermal levels of wireless harm, ignoring substantial evidence of profound harms from non-thermal levels. The FCC hasn't reviewed its guidelines since, despite clear scientific evidence and growing rates of RF related sickness.

In 2012, the General Accountability Office published a report recommending that the FCC re-assess its guidelines. As a result, in 2013, the FCC opened docket 13-84 asking for public comment. Despite overwhelming evidence in support of new rules submitted by hundreds of individuals and scientists, the FCC did nothing. On December 4, 2019, the FCC closed the docket and affirmed the adequacy of its guidelines without proper assessment. CHD's action challenges that FCC decision.

The FCC's obsolete guidelines and the false sense of safety they provide enabled the uncontrolled proliferation of wireless technology and the ongoing deployment of 5G, which will exponentially increase exposure to this harmful radiation.

CHD is a non-profit organization dedicated to ending the epidemic of children's chronic health conditions. The organization recognizes that wireless technology radiation is a contributing factor to the exponential increase in sickness among children.

On December 4, 2019, the FCC adopted an order affirming the adequacy of their 1996 wireless radiation exposure safety guidelines. These guidelines are at the core of the fraud perpetrated on the public that wireless technology is safe. Their guidelines ignore the

overwhelming evidence of harm, scientific and human. By adopting and maintaining irrelevant guidelines, the FCC has enabled and forced the uncontrolled proliferation of wireless technology and now 5G. This has led to a growing epidemic of sickness among children and adults, and it has caused harm to animals, plants and the ecosystem at large.

In 2012, the General Accountability Office of Congress published a report, recommending that the FCC reassess its 1996 guidelines. As a result, in 2013, the FCC opened docket 13-84 asking for public comment. This docket was open for 6 years. On December 4, 2019, the FCC officially closed the docket and affirmed the adequacy of its guidelines without proper assessment.

Now that the docket is closed, we finally have an opportunity to expose the FCC's fraud by suing the FCC under the Administrative Procedure Act (APA). The petition will ask the court to set aside the FCC order, asserting that the order is arbitrary, capricious and an abuse of discretion. The case had to be submitted by February 3rd.

I have been saying from the outset that the Corona virus was a hoax, plain and simple. The CDC was deliberately late in getting test kits out to first responders and on top of that, most of the test kits gave false positive to those tested. It's all one giant scam hoax, with the exception of those who have died from what is being called the COVID-19. In Italy, 90% of

those identified as fatality victims had other health issues, commonly associated with weakened immune systems.

I am not saying that the virus is not real, but simply saying its purpose is based upon fear, ignorance, media hype, a hidden agenda that is related to depopulation hidden in a technology that does physical harm to the all life form, even death itself, and dishonest people who have an agenda that would exclude you and I from the living. Do remember what I said in Part 1 about this screen image below of what 5G does at 60-gigahertz. Remember what Hosea 4:6 says about knowledge!

The mistaken presumption that a person “catches a cold” from someone else, or a flu virus, or a coronavirus, is the basis for calling quarantine.

The fallacy of person-to-person transmission is ingrained in the population as news reports of vacationers trapped in China during a coronavirus are flown back to the US and are found to have COVID-19 corona virus that may spread to their family members. But COVID-19 is not spreading into the community. Online maps showing the almost stagnant number of coronavirus-confirmed cases in each State are rapidly vanishing from view on the internet.

There is person-to-person transmission of the virus, but not necessarily person-to-person transmission of the disease. To better explain this, we have to dig back into the annals of epidemiology (the study of disease).

A couple of decades ago it was epidemiologist Edgar Hope Simpson who asked some questions about the incongruities between published dogma about the spread of flu viruses and current epidemics that caused him to ask these questions:

- Where is the flu virus in between epidemics?
- Why do flu epidemics end so abruptly?
- What explains the frequent coincidental timing of flu epidemics in countries located at a similar north-south latitude?
- Why, in previous ages, did epidemics spread so rapidly despite the lack of modern transportation?
- Why do volunteers who have flu virus instilled into their nasal passages fail to produce symptoms of the flu in all cases?
- Why do hospitalization and mortality rates fail to decline when vaccination rates dramatically increase?
- Why does the flu strike in concert with the earth tilting on its axis away from the sun during the Winter solstice in northern latitudes.

Dr. John Cannell cites an experiment conducted among six volunteers who were inoculated with a flu virus similar to the virus that caused the 1918 Spanish flu that reportedly killed millions. Of the six volunteers, just one experienced moderate symptoms; three had mild symptoms, one very mild, and one no illness at all.

In another similar experiment, 46 of 55 inoculated volunteers failed to develop symptoms.

A consistent fact is, immunization rates have risen in recent times among the elderly, without a decrease in mortality.

Hope-Simpson had an over-arching question: What is the seasonal stimulus for influenza? If it comes and goes, where does it go when it doesn't come?

The answer is that the humans are exposed to viruses throughout the year but they remain dormant when sunshine vitamin D blood levels are within a normal range.

Viral disease erupts as vitamin D blood levels decline. Which is why wintertime infectious disease travels faster than people travel.

Viruses Hidden Within

Some viruses, like herpes, remain dormant within the body, hiding in an inactive state in nerve sheaths.

The type of herpes that caused chicken pox in youth remained hidden deep in nerves, only to erupt later in life as immunity declined. You end up with a case of the shingles. Or consumption of arginine-rich foods (chocolate, nuts) triggers eruption of herpes on the lip (herpes labialis), a so called cold sore. The amino acid lysine (in high doses) is its countermeasure. Supplemental vitamin D is of course, another antidote.

A Problem 93-Million Miles Away

Ninety-three million miles away is another complicating problem. Sun spot activity is unusually low (zero), reducing intensity of solar ultraviolet radiation that produces vitamin D in human skin. This year the problem is acute.

Quarantines May Backfire

Predictably, the coronavirus epidemic will worsen with quarantine, which is precisely what happened on a cruise boat off the coast of Japan and what happened in Italy. People deprived of sunshine vitamin D, particularly the elderly, may succumb to any pathogenic bacterium or virus.

The Aftermath of Quarantine on an Ocean Liner

After about a month of quarantine on the Diamond Princess the number of confirmed cases out of 3711 people quarantined on the boat who became infected rose from 174 to 712 over a 1-month period of time (334 of the 712 had no symptoms).

Governments Have a Different Play Book

But governments have a different understanding. The idea of social distancing is in vogue at the moment and its effectiveness appears to be complete but would never head off the onset of a viral epidemic when people are not aware of a need to maintain social distance.

It appears there is no foolproof way to halt the spread of infection. The COVID-19 coronavirus was reported in circulation in the U.S. prior to the initial outbreak in Wuhan, China. For every known case of coronavirus there are another 5 to 10 cases undetected. But the masses in the U.S. aren't getting sick or dying in large numbers.

It appears the federal government in an effort to prolong the life of less than ~1000 unhealthy 80 year-olds in the U.S. for a short while, particularly seniors who smoke tobacco and over-consume alcohol, they are willing to crash the economy, kill businesses, particularly churches and restaurants that are unlikely to have the resources to re-open their establishments, and coerce people to stay indoors, a practice that will further lower vitamin D levels and result in widespread infection and death among retirees.

The cost per life saved is estimated to be in the range of \$100-300 billion. The cost per life saved appears to be in the range of \$100-300 billion. We are talking about 2-6 million people losing their income, at least for a significant period of time, to extend the lives of a few unhealthy people by maybe as little as a few months.

Researchers note that COVID-19 coronavirus favors cool and dry climate and therefore, looking forward on the calendar to April and May, “a worst-case scenario of synchronous global pandemic is improbable. “

Yes, with the onset of Spring, the intensity of the Sun’s rays reaching the surface of the Earth increases and the epidemic is expected to vanish. Yes, the President of the United States was predictably correct in saying on February 27 that: “It’s going to disappear. One day — it’s like a miracle — it will disappear.”

Fortunately, someone figured out how to take sunshine vitamin D and bottle it.

So for me, the numbers being bandied around just don’t make any sense.

The latest coronavirus, COVID-19, is bad, but 150 million Americans infected? That is what Congress’ in-house doctor told Capitol Hill staffers at a close-door meeting two weeks ago. At least three: one senator and two congressional representatives were caught dumping stocks before the market began to tank.

A recent projection from the Centers for Disease Control and Prevention (CDC) had even more alarming numbers.

Worst-case scenario, COVID-19 could infect between up to 214 million people over a period of more than a year — and kill as many as 1.7 million Americans.

The *‘New York Times’* used an even more dire model: 2.1 million dead.

Let’s back up a second. China has a population of 1,437,722,468 as of Tuesday, based on Worldometer elaboration of the latest United Nations data.

COVID-19 was born there, with the first case being diagnosed on Dec. 1.

On Tuesday, there were 81,054 confirmed cases of the virus, according to Johns Hopkins Center for Systems Science and Engineering.

Of those, 68,798 recovered, while 3,230 people died (the remainder were still active cases).

So that means the infection rate in China was just .006%. How, then, are the “experts” forecasting that well more than 50% of the 320 million people in America — where people already wash their hands incessantly and use Purell nonstop — will be infected?

Again, look at the numbers. The virus pounded China from December through the third week of February — more than 10 weeks in all — before it leveled off (if you can believe the communist leaders’ claim).

In the Hubei province, just more than 11% of the nearly 60 million residents were infected. And that was ground zero.

The spread of COVID-19 in China began leveling off a week before February ended. It topped 80,000 on March 1, but 14 days later it was still less than 81,000. The curve had flattened.

But let's go to Dr. Anthony Fauci, the director of the National Institutes of Health's National Institute of Allergy and Infectious Diseases, for the final word.

"I think we really need to be careful with those kinds of predictions, because that's based on a model," Dr. Fauci said at a congressional hearing last week. *"All models are as good as the assumptions that you put into the model ... it's unpredictable. So, testing now is not going to tell me how many cases you are going to have. What will tell you what you're going to have will be how you respond to it with containment and mitigation,"* he said.

Dr. Fauci also said the breathless media tends to report on the higher end of ranges predicted by models. *"Remember the model during the Ebola outbreak said you could have as many as a million [cases]. We didn't have a million,"* he said.

No, instead, two people died in the United States from Ebola in 2014. Both contracted the disease overseas. Two more contracted the disease in the United States — both survived.

On Tuesday, the United States had 5,702 confirmed cases of COVID-19, with 94 deaths (48 of those in Washington state alone). The numbers will undoubtedly go up — likely by a lot.

But President Trump has taken swift action to cut off the influx of travelers from countries teeming with infection and on Monday laid out stringent new guidelines to halt the upward curve. Americans appear to be taking the directives seriously. So, time will tell if it all works.

But 150 million infected? A million dead? Right now, those numbers just don't seem to add up. I should note that **5G** will have Extinction Level Event potential when it surrounds the Earth. Dr. Barrie Trower in the UK, has stated that **5G** will guarantee you will not have grandchildren. He once was the head of the UK military radar technology.

Today's coronavirus black swan, like 9/11, has all the characteristics of a trauma-based mass-mind-control op. It has already been used to demonize China in the same way 9/11 was used to demonize Islam: Just as we were supposed to hate the crazy suicidal Muslims yearning for harems of afterlife virgins, we are now supposed to feel disgust for Chinese slurpers of bat soup. And just as we were supposed to loathe the brutal and incompetent governments of Muslim-majority nations, now we are told to revile the oppressive censorship-addicted regime in Beijing. It may be purely coincidental that this wholesale demonization of the world's two greatest classical civilizations, based on two fear-inciting black swan events of suspicious origin, just happened to arrive in the wake of the Bernard Lewis-Samuel

Huntington pronouncement that the 21st century would be an era of the “clash of civilizations.”

More than 99% of Italy’s coronavirus fatalities were people who suffered from previous medical conditions, according to a study by the country’s national health authority.

After deaths from the virus reached more than 2,500, with a 150% increase in the past week, health authorities have been combing through data to provide clues to help combat the spread of the disease.

Prime Minister Giuseppe Conte’s government is evaluating whether to extend a nationwide lockdown beyond the beginning of April, daily La Stampa reported Wednesday. Italy has more than 31,500 confirmed cases of the illness.

Italy Coronavirus Deaths By prior illnesses (%)

Source: ISS Italy National Health Institute, March 17 sample

The new study could provide insight into why Italy’s death rate, at about 8% of total infected people, is higher than in other countries.

The Rome-based institute has examined medical records of about 18% of the country’s coronavirus fatalities, finding that just three victims, or 0.8% of the total, had no previous pathology. Almost half of the victims suffered from at least three prior illnesses and about a fourth had either one or two previous conditions.

More than 75% had high blood pressure, about 35% had diabetes and a third suffered from heart disease.

The median age of the infected is 63 but most of those who die are older.

Source: ISS Italy National Health institute, March 17 sample

The average age of those who’ve died from the virus in Italy is 79.5. As of March 17, 17 people under 50 had died from the disease. All of Italy’s victims under 40 have been males with serious existing medical conditions.

While data released Tuesday point to a slowdown in the increase of cases, with a 12.6% rise, a separate study shows Italy could be underestimating the real number of cases by testing only patients presenting symptoms.

According to the GIMBE Foundation, about 100,000 Italians have contracted the virus, daily Il Sole 24 Ore reported. That would bring back the country’s death rate closer to the global average of about 2%.

More and more people in Italy have started to think about a correlation between the virus and the vaccines. If true, this means that Italy has been chosen to be a guinea pig for the rest of the world. Northern Italy and cities like Milan, Genoa, and Venice were way into 5G roll out last year, and Milan was slated to be a model city like Wuhan China, and not so surprising is the fact that Milan had the higher death rates.

Bill Gates lets slip the real reason for the Pandemic i.e. Digital Certificate Of Movement, initially on your smart phone. Reading between the lines, this will be so as you are tracked on the 5G control grid and require compulsory vaccinations to keep your certificate valid. (self. Conspiracy)

Before we look at what Bill Gates said and put it into context, here is the outline of what this is for and where it fits in:

1. The Pandemic is initially to restrict our movement, removing our freedom. We are seeing this presently with the lock down for two weeks, and likely Martial Law before the month of March ends.
2. To regain movement, we will require a digital certificate of movement on a smartphone (eventually on a microchip under the skin).
3. The microchip will be for buying and selling, it will be switched off if you protest TPTB. In a cashless society you won't be able to function.
4. The 5G network is to track you, initially by your smartphone which you have to bring everywhere due to the digital certificate of movement, and eventually on your microchip.
5. End Goal - Total Enslavement, the Deep State want to own us like cattle on 5G control grids, they can switch us on and off as they wish.

Here is what Gates said days ago:

"Eventually we will have some digital certificates to show who has recovered or been tested recently or when we have a vaccine who has received it."

The article below discusses the certificate of movement now required in France.

[Coronavirus containment: the certificate of movement on a smartphone](#)

"Due to the coronavirus pandemic, France is placed in almost total containment and the population now needs a certificate to move. But not necessarily need a printer, the smartphone is enough."

To understand the broader context of the digital certificate of movement, it's useful to go back over 10 years to an interview with a former friend of the 'Deep State' Rockefeller family,

Arron Russo. Arron Russo produced the video “From Freedom to Fascism”, accessible on the Internet. In the interview he exposes the plans which a member of the Rockefeller family, Nick Rockefeller had leaked to him in private. Aaron produced several big movies such as “Trading Places.” He also ran for governor of Nevada One of the most important pieces of information was that in the future all humans would be required to have a microchip under their skin, and one of its main purposes would be for buying and selling. Any individual resisting the agenda of the Deep State would have their microchip switched off, making it almost impossible for them to function in society, thereby giving The Elite immense control over the population.

Note: The Rockefeller family have also been obsessed with pandemics for years like Bill Gates. The Rockefellers brought Eugenics to the Nazis in the 1930’s and 40’s.

Of course, to keep your certificate of movement valid, you'll need to keep up with your toxic social engineering vaccines, which will modify your fertility, IQ, lifespan, health, etc. in adverse ways, all under the guise of protecting you against various pathogens. Both the Rockefeller's and Gates are known eugenicists, and are both heavily involved with vaccines, and both have admitted on video that they want the global population down to below one billion.

As you'll see, it is vital to resist the plans of these parasites, do not comply, if a significant % refuse to cooperate with their agenda then their agenda will fail.

Reason for pandemic = Pretext for introduction of certificate of movement, so as we have to join vaccine social engineering program, get tracked on the **5G** grid and buy/sell with a microchip; fully enslaved by the Deep State. It is essential for yourself and future generations that you refuse to comply.

**Bill Gates: Coronavirus Means
We Need ‘Digital Certificates’
To Prove Who Received Vaccine**

The world as we know it will change forever in the wake of the coronavirus pandemic, according to Bill Gates who declared that we will soon have **“digital certificates”** to display our health and vaccination status.

Responding to a question during a Reddit “Ask Me Anything” session, Bill Gates pointed to major changes for ordinary people that could have privacy and civil rights implications.

“Eventually we will have some digital certificates to show who has recovered or been tested recently or when we have a vaccine who has received it,” said Gates.

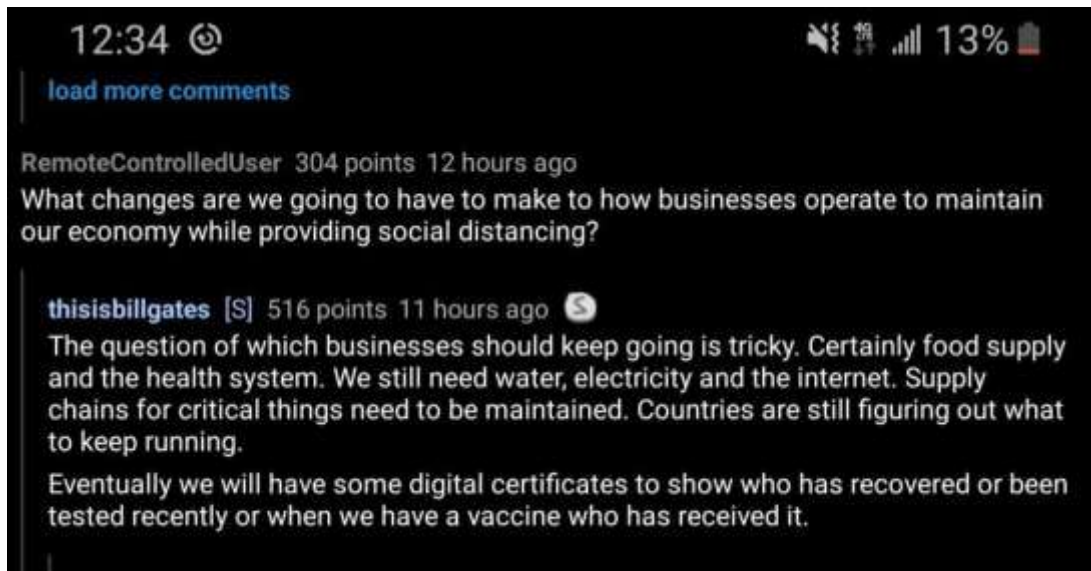

Don't let that smile deceive you. He has maimed tens of thousands of Africans and Indians with his vaccine lunacy.

Gates also called for a *“national tracking system”*, saying that *“in Seattle, the [University of Washington] is providing thousands of tests per day but no one is connected to a national tracking system”* and that *“Whenever there is a positive test it should be seen to understand where the disease is and whether we need to strengthen the social distancing.”*

What is a ‘digital certificate’?

Gates clearly believes the public will accept being branded with digital certificates as easily as they accepted barcodes on consumer items.

According to IBM, a digital certificate is an electronic document that is used to identify an individual, a server, a company, or some other entity, and to associate that identity with a public key. IBM and Bill Gates have been involved in what was originally called the “VeriChip” first revealed in 2000. IBM purchased the “VeriChip” and its rights and the FDA later approved it for human implant in 2004. US-based Digital Angel has produced the VeriChip, an implantable computer chip which monitors human biometric functions and transmits the data with GPS technology. The VeriChip has now been approved for human medical use by the Food and Drug Administration (FDA) of America, opening up the age of implantable technology. IBM has had two decades of experience with research on the Micro Chip technology.

Like a driver’s license, a passport, a student ID, a library card, or other commonly used personal IDs, a certificate provides generally recognized proof of a person’s identity — or in this case, a person’s health and vaccination status.

All of this raises serious questions. What will happen to people who do not trust Bill Gates enough to accept a digital certificate? What will happen to those who refuse to be vaccinated?

While Gates has not elaborated on what his plan entails, or whether a digital certificate will be implanted in the human body, many people are concerned that the certificate could represent the “Mark of the beast” warned about in the Bible. It can’t be too far off into the future when it is unveiled. My suspicion is that we could see it later this year.

According to Gates, people shouldn’t be concerned about “big brother” invading our privacy and tracking us and our children – this technology will only be used for safety and convenience, so he says – and the technology is nothing more than an upgrade on traditional cattle branding. Gates has a reputation of deceit and deception.

The only catch is that you won't know exactly what is being put into your digital certificate. You also won't know who will have access to the data. If history repeats, it will go from being technology adopted for its 'convenience and safety' and then overnight will become mandatory for you and your family – or else.

This "CORONAVIRUS HOAX" does not mean there is not a highly contagious bio-engineered coronavirus that is being released as a bio-weapon in the nations that have experienced the ongoing bio-terrorists attacks. It means that these stealthy bio-attacks were meant to cover up the raging epidemics of the 5G Syndrome in those specific locations. So, the coronavirus is quite real just as SARS and MERS, Bird Flu and Swine Flu were real. But, the Wuhan coronavirus was specifically bio-engineered in order to create and hype a global pandemic around COVID-19. Again, the hoax aspect does not refer to a non-existent coronavirus; which is quite real indeed and being cunningly used as a decoy.

It is the people who are suddenly collapsing, without any sort of symptoms, and then dying is what the 5G info is focused on. The issue is not simply: is it coronavirus or 5G killing people?

People who catch the corona virus typically take 14 days before they have symptoms. THEN they begin to have flu like symptoms and quickly find it difficult to breathe, develop pneumonia, and then need oxygen to make it.

Most Chinese victims being herded into quarantine detention centers (labeled "hospitals") were not getting ANY treatment whatsoever. One of the videos shows a Chinese woman who collapsed onto a pile of vegetables while shopping at a supermarket and died right there. These people were not showing any symptoms such as lung congestion or coughing

etc., that normally goes along with a corona virus infection that develops into pneumonia and then difficulty in breathing.

Dana Ashlie did a great job in her video of compiling and adroitly presenting this information with crystal clarity and a keen understanding of the implications that this information portends.

She dropped multiple truth bombs throughout the video. She refers to a graph (see above) that I've included with this article which comes from an April 12, 2001 article titled, "Fixed Wireless Communications at 60-GHz Unique Oxygen Absorption Properties" by Shigeaki (Shey) Hokusui, President, Harmonix Corporation.

Here's the article:

<https://www.rfglobalnet.com/doc/fixed-wireless-communications-at-60ghz-unique-0001>

The writer is saying that 60-gigahertz cannot be transmitted long distance because oxygen in the atmosphere will absorb 98% of the 60-gigahertz energy band instead of it being able to continue to travel through the atmosphere for a long distance as does lower frequency microwave energy in the Megahertz range.

From the graph embedded in the story, above, it shows that absorption of this energy by oxygen spikes at 60-GHz (60-gigahertz means the current is oscillating from one direction of current flow to the OPPOSITE direction of current flow {= Alternating Current or AC} at a rate of SIXTY BILLION times per SECOND.)

Since oxygen can absorb this energy, its electrons will now RESONATE and oscillate at the SAME frequency (or 60-GHz) . This 60 Billion times per second oscillation of the oxygen's electrons is interfering with hemoglobin's ability to "pick up" the oxygen from the lungs and deliver it to the bloodstream.

The people in Wuhan were being IMMERSED in 60-GHz 5G 24/7 wherever they go. There's much more to the video than just that, but THAT alone, is huge.

The coronavirus outbreak coinciding with 5G rollout in Wuhan is too much of a coincidence. People walking down the street don't drop dead instantly from a virus. The severe impact of 5G's frequency on oxygen uptake makes much more sense. The cruise ship had advanced connectivity. Italy was also implementing 5G. It looks like the plan is this: roll out 5G worldwide, while simultaneously blaming all the illness it causes on the "the spreading coronavirus," then kill even more people with mandatory vaccines funded by Bill Gates.

It seems, the more there is written about the causes of the Coronavirus – the more the written analyses are overshadowed by a propaganda and fear-mongering hype. Questions for the truth and arguments for where to look for the origins and how the virus may have spread and how to combat it, are lost in the noise of wanton chaos. But isn't that what the "Black Men" behind this intended pandemic want – chaos, panic, hopelessness, leading to human vulnerability – a people becoming easy prey for manipulation? -(Dr. Tedros, WHO)

The day the WHO declared the coronavirus COVID-19 a "pandemic" – when there is not the slightest trace of a pandemic. A pandemic might be the condition, when the death to infection rate reaches more than 12%. In Europe, the death rate is about 0.4%, or less. Except for Italy which is a special case, where the peak of the death rate was 6%.

— World Health Organization (WHO) (@WHO) [March 11, 2020](#)

China, where the death rate peaked only a few weeks ago at about 3%, is back to 0.7% – and rapidly declining, while China is taking full control of the disease – and that with the help of a not-spoken-about medication developed 39 years ago by Cuba, called "Interferon Alpha 2B (IFNrec)", very effective for fighting viruses and other diseases, but is not known and used in the world, because the U.S. under the illegal embargo of Cuba does not allow the medication to be marketed internationally.

The WHO has most likely received orders from "above", from those people who also manage Trump and the "leaders" (sic) of the European Union and her member countries, those who aim to control the world with force – the One World Order.

This has been on the drawing board for years. The final decision to go ahead NOW, was taken in January 2020 at the World Economic Forum (WEF) in Davos – behind very much closed doors, of course. The Gates, GAVI (an association of vaccination-promoting pharmaceuticals), Rockefellers, Rothschild's *et al*, they are all behind this decision – the implementation of Agenda ID2020 – see below.

After the pandemic has been officially declared, the next step may be – also at the recommendation either by WHO, or individual countries, “force vaccination”, under police and/or military surveillance. Those who refuse may be penalized (fines and / or jail – and force-vaccinated all the same).

If indeed forced-vaccination will happen, another bonanza for Big Pharma, people really don't know what type of cocktail will be put into the vaccine, maybe a slow killer, that acts-up only in a few years – or a disease that hits only the next generation – or a brain debilitating agent, or a gene that renders women infertile all is possible – always with the aim of full population control and population reduction. In a few years' time, one doesn't know, of course, where the disease comes from. That's the level of technology our bio-war labs have reached (US, UK, Israel, Canada, Australia...). We should not forget the polio vaccine laced with SV-40, that caused cancer in 65 million Americans that received the Salk and Sabin polio vaccine during the 1950's.

Another hypothesis, at this point only a hypothesis, but a realistic one, is that along with the vaccination – if not with this one, then possibly with a later one, a nano-chip may be injected, unknown to the person being vaccinated. The chip may be remotely charged with all your personal data, including bank accounts – digital money. Yes, digital money that's what “they” are aiming at, so you really have no control any more over your health and other intimate data, but also over your earnings and spending. Your money could be blocked, or taken away

– as a ‘sanction’ for misbehavior, for swimming against the stream. You may become a mere slave of the masters. Comparatively, feudalism may appear like a walk in the park.

It’s not for nothing that Dr. Tedros, DG of WHO, said a few days ago, we must move towards digital money, because physical paper and coin money can spread diseases, especially endemic diseases, like the coronavirus. A precursor for things to come? – Or for things already here? – In many Scandinavian countries cash is largely banned and even a bar of chocolate can be paid only electronically.

We are moving towards a totalitarian state of the world. This is part of Agenda ID2020 – and these steps to be implemented now – prepared since long, including by the coronavirus computer simulation at Johns Hopkins in Baltimore on 18 October 2019, sponsored by the WEF and the Bill and Melinda Gates Foundation.

Bill Gates, one of the chief advocates of vaccinations for everybody, especially in Africa – is also a huge advocate of population reduction. Population reduction is among the goals of the elite within the WEF, the Rockefellers, Rothschild’s, Morgens – and a few more.

The objective: fewer people (small elite) can live longer and better with the reduced and limited resources Mother Earth is generously offering. This had openly been propagated already in the 1960s and 70s by Henry Kissinger, Foreign Secretary in the Nixon Administration, a co-engineer of the Vietnam war, and main responsible for the semi-clandestine bombing of Cambodia, a genocide of millions of unarmed Cambodian civilians. Along with the CIA-Kissinger engineered coup on 9/11, 1973, in Chile, killing the democratically elected Salvador Allende and putting the military dictator Pinochet in power, Kissinger has committed war crimes. Today, he is a spokesman (so to speak) for Rockefeller and their “Bilderberger Society”.

[More than Just a Virus](#)

Two weeks after the computer simulation at Johns Hopkins Medical Center in Baltimore, Maryland, that “produced” (aka simulated) 65 million deaths (!), the COVID-19 virus first appeared in Wuhan. By now it is almost certain that the virus was brought to Wuhan from outside, most likely from a bio-war lab in the US. The American Intelligence Media has reported that Pirbrite Institute had a lab facility already in China months before the Wuhan outbreak of the Corona virus.

What is the infamous ID2020? It is an alliance of public-private partners, including UN agencies and civil society. It’s an electronic ID program that uses generalized vaccination as a platform for digital identity. The program harnesses existing birth registration and vaccination operations to provide newborns with a portable and persistent biometrically-linked digital identity. GAVI, the *Global Alliance for Vaccines and Immunization*, identifies itself on its website as a global health partnership of public and private sector organizations dedicated to “immunization for all”. GAVI is supported by WHO, and needless to say, its main partners and sponsors are the pharma-industry.

The ID2020 Alliance at their 2019 Summit, entitled “Rising to the Good ID Challenge”, in September 2019 in New York, decided to roll out their program in 2020, a decision confirmed by the WEF in January 2020 in Davos. Their digital identity program will be tested with the government of Bangladesh. GAVI, the Vaccine Alliance, and “partners from academia and humanitarian relief” (as they call it), are part of the pioneer party.

Is it just a coincidence that ID2020 is being rolled out at the onset of what WHO calls a Pandemic? – Or is a pandemic needed to ‘roll out’ the multiple devastating programs of ID2020?

Here is what Anir Chowdhury, policy advisor of the Bangladesh government program, has to say:

“We are implementing a forward-looking approach to digital identity that gives individuals control over their own personal information, while still building off existing systems and programs. The Government of Bangladesh recognizes that the design of digital identity systems carries far-reaching implications for individuals’ access to services and livelihoods, and we are eager to pioneer this approach.”

Wow! Does Mr. Anir Chowdhury know what he is getting into?

Back to the Pandemic and the panic. Geneva, the European seat of the United Nations, including the headquarters of WHO, is basically shot down. Not unlike the lock-down that started in Venice and later expanded to northern Italy until a few days ago – and now the lock-down covers all of Italy. Similar lock-down may soon also be adopted by France – and other European vassal states to the Anglo-Zionist empire.

Numerous memoranda with similar panic-mongering contents from different UN agencies in Geneva are circulating. Their key message is – cancel all mission travel, all events in Geneva, visits to the Palais des Nations, the Geneva Cathedral, other monuments and museums. The latest directives, many agencies instruct their staff to work from home, not to risk contamination from public transportation.

This ambiance of panic and fear – outstrips any sense of reality, when the truth doesn’t matter. People can’t even think any more about the causes and what may be behind it. Nobody believes you (anymore), when you refer to Event 201, the coronavirus simulation, the Wuhan Military Games, the closing last August 7, of the high-security biological war lab at Fort Detrick, Maryland.... what could have at one point been an eye opener for many, today is sheer conspiracy theory. The power of propaganda. A destabilizing power – destabilizing countries and people, destroying economies, creating hardship for people who may lose their jobs, usually the ones who can least afford it.

Also, at this time it becomes increasingly important to remind people that the outbreak in China was targeting the Chinese genome. Did it later mutate to transgress the ‘borders’ of

Chinese DNA? When did that happen, if it happened? Because at the beginning it was clear that even the infected victims in other parts of the world, were to 99.9% of Chinese descent.

What happened later, when the virus spread to Italy and Iran, is another issue, and opens the way to a number of speculations.

(i) There were various strains of the virus circulated in sequence – so as to destabilize countries around the world and to confound the populace and media, so that especially nobody of the mainstream may come to the conclusion that the first strain was targeting China in a bio-war.

(ii) In Iran, I have a strong suspicion that the virus was an enhanced form of MERS (Middle East Respiratory Syndrome, man-made, broke out first in Saudi Arabia in 2012 , directed to the Arabic genome) – which was somehow introduced into government circles (by aerosol spray?) – with the goal of “Regime Change” by COVID19-caused death. Its Washington’s wishful thinking for at least the last 30 years.

(iii) In Italy – why Italy? – Maybe because Washington / Brussels wanted to hit Italy hard for having been officially the first country to sign a Belt and Road (BRI) accord with China (actually the first was Greece, but nobody is supposed to know that China came to the rescue of Greece, destroyed by Greece’s brothers, the EU members, mainly Germany and France).

(iv) The hype about the high death to infection rate in Italy, as of the time of this writing: 10,149 infections vs. 631 deaths = death rate of 6.2 (comparatively Iran: 8042 infections vs. 291 deaths = 3.6 death rate). The death rate of Italy is almost double that of Iran and almost ten-fold that of average Europe. (Are these discrepancies the result of failures in the establishing reliable data pertaining to “infections”, note observations pertaining to Italy below).

Why? – Was is Italy being affected with virus panic? Was there a much stronger strain introduced to Italy?

The common flu in Europe in the 2019 / 2020 season, has apparently so far killed about 16,000 (in the US the death toll is, according to CDC between 14,000 and 32,000, depending on which CDC website you look at).

Could it be that among the Italian coronavirus deaths there were also common flu victims, as the affected victims are mostly elderly with respiratory preconditions? Also, symptoms are very similar between coronavirus and the common flu, and nobody questions and checks the official authorities’ narrative?

Maybe not all the coronavirus strains come from the same laboratory. A journalist from Berlin of Ukrainian origin, reported that Ukraine is host to some 5 high security US bio-war labs. They test regularly new viruses on the population – yet, when strange diseases break out in the surroundings of the labs, nobody is allowed to talk about it. Something similar is

happening in Georgia, where there are even more Pentagon / CIA bio-war labs – and where also new and strange diseases break out.

All of this makes the composite picture even more complicated. Overarching all is this super hype is profit driven, the quest for instant profit, instant benefits from the suffering of the people. This panic making is a hundred-fold of what it's worth. What these kingpins of the underworld, who pretend to run the upper world, perhaps miscalculated, is that in today's globalized and vastly outsourced world the west depends massively on China's supply chain, for consumer goods, and for intermediary merchandise – and, foremost for medication and medical equipment. At least 82% of medication or ingredients for medication, as well as for medical equipment comes from China. The western China dependence for antibiotics is even higher, some 90%. The potential impacts on health are devastating.

During the height of the COVID-19 epidemic China's production apparatus for everything was almost shut-down. For deliveries that were still made, merchandise vessels were regularly and categorically turned back from many harbors all around the world. So, the west has tricked itself into a shortage-of-everything mode by waging a de facto "economic war" on China. How long will it last? – Nobody knows, but China's economy which was down by about half, has rapidly recovered to above 80% of what it was before the coronavirus hit. How long will it last to catch up with the backlog? The last container ship that left China is scheduled to dock in San Diego on April 6th.

What is behind it all? – A total crackdown with artificially induced panic to the point where people are screaming "*help, give us vaccinations, display police and military for our security*" – or even if the public despair doesn't go that far, it would be easy for the EU and U.S. authorities to impose a military *stage of siege* for "health protection of the people". In fact, CDC (Center for Disease Control in Atlanta), has already designed harshly dictatorial directives for a "health emergency".

Along with forced vaccination, who knows what would be contained in the cocktail of "mini-diseases" injected, and what their long-term effects might be. Similar to those of GMOs, where all sorts of germs could be inserted without us, the commons, knowing?

We may indeed be just at the beginning of the implementation of ID2020 – which includes, forced vaccination, population reduction and total digital control of everybody – on the way to One World Order – and global financial hegemony – Full Spectrum Dominance, as the PNAC (Plan for a New American Century) likes to call it.

As I see the unfolding of events since two weeks ago, nothing has been a surprise, not in any way. The current unfolding of events that have been following a scenario that I saw coming as early as what Y2K portended. Several sources have been saying for days that all electronic communications will be turned off for ten (10) days from April 1st through April 10th. That includes cell-communications, Internet, radio, television, and land-line phone service. The reason given is that arrests are coming to the 160,000 sealed indictments that were growing

shortly after the Trump administration took office. The electrical grid system will continue to operate unimpeded. While the Internet may go down April 1st, I have more than enough Bible reading material, DVD's, and videos to pass the time. Dave of X22 Report has told his audience that the ten days are needed to round up communists, traitors, and leftists working to bring down this country. Take that with a pinch of salt!

Keep looking up, our redemption is drawing near. I am hopeful for April 4th, for our Rapture. Titus 2:13 is looking better all the time: *"Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;"* As I saw the early signs of what was coming months ago, my focus was really on the words of our Lord Jesus Christ and His disciple Paul of Tarsus.

I finished the 2nd eBook "The Inspired Word of God: Mathematically Proven True!" three weeks ago. Vol. 1 had 23 chapters, and Vol. 2 had 22 chapters. Between the 2 volumes there are over a thousand pages of our Lord's unique way of confirming His existence. I have yet to finish the final editing aspects of producing a finished disc like Volume 1. Surprisingly, there is more than enough of those themed "seven" patterns to do a third volume; however, if the evidence is not enough to convince folks that Jesus is Lord, all I can say, it is their loss!

Blessings to all,

Pastor Bob, EvanTeachr@aol.com
