

The Corona Virus Serves to Mimic And Mask 5G's Lethality

"Beware of the Q-Tip"

Part 1

Globalists Are Using A 'Double-Whammy Covid-19 5G Deception' To Usher In
Their 'Brave New World Order'

Never Before In History Have So Many Been Put In Grave Danger By Their Satanic, Hidden Schemes

As I have been observing the larger issue of the Corona Virus, and 5G technology, it is effectively hiding the lethality of 5G 60-gigahertz technologies. Spotting mimic effects of a health issue tests the true talent of a doctor or scientist. This is what one dictionary has to say:

mimic

(mīm'ik)

tr.v. **mim-icked, mim-icking, mim-ics**

a. To resemble by biological mimicry: *an insect that mimics a twig.*

b. To have a similar structure, action, or effect as: *a drug that mimics a compound in the body.*

c. To produce symptoms like those of (a disease).

d. To produce (symptoms) like those produced by a different disease.

n

One that imitates, especially:

- a. One who copies or mimics others, as for amusement.
- b. One who practices the art of mime.
- c. An organism that resembles another by mimicry.
- d. A chemical having a structure, action, or effect like that of another.
- e. A disease or disorder producing symptoms like those of another.

adj.

Relating to or characteristic of a mimic or mimicry.

Scientists at University of California-Santa Barbara, in collaboration with scientists at University of Michigan, have developed synthetic particles that closely mimic the characteristics and key functions of natural red blood cells, including softness, flexibility, and the ability to carry oxygen.

It has been seven months now and the experts are still analyzing the data when it comes to this mystery virus (supposedly leaked in a bio-safety level 4 lab) in Wuhan, China.

In a [recent ANP.com article, Susan Duclos](#) exposed many “new” developments with the COVID-19 virus. From a tragic murder-suicide of a researcher that was no suicide, to scientists saying a new “*dominant strain*” of the virus appears to be more contagious, to younger people suddenly developing a new symptom called “*Covid-Toes*.” Is this fake news?

Covid-Toes? Could this be for real? Probably not, but the pictures look like swollen-red human toes? From her article: *What is very alarming is the majority of people with this symptom never thought they were even exposed to the coronavirus.*”

People who had “*absolutely no symptoms of COVID at all,*” it goes on to say. Were suddenly dealing with half-cooked toes? Do these “*virus*” symptoms make any sense at all? Yes, if something very strange is going on as many people are coming to realize. Because no one can figure out what the hell is really going on. Which is by design and coming from a specific source.

There is a consortium of high-minded extremely wealthy people with exorbitant earthly power who jointly want to dictate terms to everybody else on earth and rule over all of the world’s populations. As if they are entitled to exercise power over all humanity. A hidden group behind the scenes we refer to most often as: “They”.

The nameless, faceless “They” are at it again. People talk about Them all the time. They want to rule the world. They want to kill us all. They commit all these fake murder-suicides and get away with it. They this, they that... They are coming for our guns. They are poisoning our skies. They have to be stopped!

But how does it help anything for us to always be “shadowboxing” at the wall? Jab, jab, jab, hook! Back up, keep your feet moving, come close to the wall again. Jab, jab, jab...

Doesn't seem like this is getting us anywhere, does it? Fighting the phantom "shadow people" THEY who actually do have real names and real facial recognition identities. One of them, we know is their favorite outspoken guru virus prophet: Billionaire Bill Gates!

According to studies done since the 1940's with many different versions published. We know a "general population" average of 87- to 90-per cent of the common populace make their decisions based on first-source information. The most recent quote I saw says only 7% of us these days look for a second source to corroborate the first source. And only 3% of us will routinely search out more than two sources to understand what's really going on.

Guess what?

"THEY" know this about us.

They play to this weakness directly. It's part of how They follow Their normal social engineering operating procedures, including "repeating the first official version" they publicize again and again. Even if They get exposed by the 3% and are busted by the conscientious few. They will stick to their guns and repeat stories like "Lee Harvey Oswald" assassinated John F. Kennedy by shooting him from a multi-story building in Dallas, Texas as a lone gunman. Because They know 87- to 90- per cent of the people will believe them. To this day 50% of the public still believes this nonsense.

Everyone knows the lone assassin theory has been debunked a thousand times in a thousand ways now. How then is this over-repeated version of the assassination still being told to us? How is it seriously still in Wikipedia? They are still repeating the first story They told us. Still repeating the cover story lie 50-years later. There is nothing new about this. So we have to improve our comprehension of, not only "who" They are, but also "what" They are really doing to us in real time.

The reason the people Susan referred to "had absolutely no symptoms of COVID at all," is because they did not really have the COVID-19 virus. The reason people with the new symptom of the virus called Covid-Toes "never thought they were even exposed to the coronavirus," is because they most likely were not exposed to the virus.

Consider how microwave ovens cook things, from the USDA's online page on this topic:

"Microwave ovens cook unevenly and leave 'cold spots,' where harmful bacteria can survive." Anybody who has used a microwave knows this. You get cold spots and hot spots when cooking in microwave ovens. You need the rotating bottom plate to cook more evenly.

Could this dynamic be happening to people who keep coming down with symptoms that match 5G EMF radiation exposure more than a virus? Where they develop signs of being slow-cooked and there are hotter spots in-or-on their bodies where 5G microwave

exposure is invisibly and unevenly roasting them inside-out?

One of the first deaths in the US from the Covid-19 virus was reportedly determined to be a coronavirus “massive heart attack.” Say what? Another so-called virus death was reportedly from a coronavirus “major stroke” hemorrhage in the brain. Really? Good grief everybody, RUN FOR THE HILLS !!! What kind of virus is this? The wild fantasy TV/Movie version?

Now we have Virus-Toes! And certainly with the MSM around everybody will start believing in Virus-Toes. Blatant deceptions with comical descriptions. I hope the virus doesn't morph into Virus-Ears!! Or Virus-Eyes!!! People this stuff is so unbelievable it's hard to believe you believe any of it! How stupid are 90% of us?

All humans today need to wake up and understand that in late 2019 planet earth and mankind embarked into a whole new realm of life together. Never before in the history of the planet have people been put into such an invisible microwave oven of 5G electromagnetic frequency. Let that sink into your brains.

NEVER BEFORE – EVER BEFORE IN HISTORY have large dense populations of people been put in such dangerous-to-our-health microwave grids. Never. Not for any period of time, much less an extended period of time. This just started the first of the year 2020. A dangerous military grade frequency that is not safe to human, animal or plant life is amongst us now. In many places people are getting cooked to death in

sickening tragic intentional 5G EMF attacks..

World life health danger “5G Electromagnetic Frequencies” are also getting positioned to send-back-to-earth 5G from Space! With some of these satellite signals already reaching their owner Elon Musk, he has reported. And thousands more satellites planned to be deployed above us.

Wherever the 5G EMF grids were rolled out in just this past year of 2019, the people living within the grids were the first ever humans to experience such a “5G life phenomenon.” This incredible new “Radiation Town” experience never existed before this time in time. This is like the “new frontier” from Star Trek reruns. None of us have ever been here.

Man is entering a new time with this RF radio frequency reality. We are literally “where no man has ever gone before!” We are there today, right now. Starting in late 2019 when the newly rolled out EMF telecom technology was switched on around the world, and Covid-19 showed up simultaneously. Isn't that a coincidence that these things happened in synchronization with each other.

It is not a coincidence. They did not happen by chance together. They happened by plan intentionally together. It is a dual weapon system. The virus + 5G EMF radiation = “COVID-19 Mass Murder Plot.”

It's hard to comprehend because we don't know anything like this 5G life phenomenon from previous human experience: To actually try living in this dangerous microwave frequency. But there are plenty of obvious signs that “something” has changed dramatically in our world and we just aren't used to distinguishing symptoms of radiation exposure from virus symptoms. This is all new territory. All new critically dangerous territory.

That “something” that has changed is having 5G EM cooking-heat frequencies in our midst 24-7. This isn't just a new swan song. This is something no man has any personal experience of “living in” until now. Everything about the maniacal so-called virus symptoms that don't add up, is most likely thanks to this new “5G EMF reality” in our midst day and night.

The 5G life phenomenon. Pay attention and see for yourself. Virus symptoms that don't make sense for a “real” virus, do make perfect sense for EMF radiation exposure. There's a CLUE for us! Isn't that odd. Right when 5G is first introduced all of this happens together in perfect sequence and synchronistic timing with the coronavirus.

My favorite news term of late? “Morphing Virus.” But there's a catch you might want to know about.

The Morphing Virus BS of the CDC and the WHO and Billionaire Bill Gates and the Mainstream Media's puppet reporters is a big joke. Because the so-called Morphing

Virus is totally harmless to humans. It won't hurt kids or old people. It can't kill anyone. Everyone has been running in panic and fear, but in reality it won't harm a flower in your hair. I mean it. Yet everyone is fearful of it as they hear MSM story after story about a "morphing virus" on the loose destined to kill millions!

No it's not. Not unless you're a cyborg. Nobody is going to die. Take a search engine look into this yourself and see what you learn.

"Morphing Virus" is a computer term, not a medical term.

Now do you see how utterly stupid and ignorant "They" think you are? Believe me They are laughing all the way to the bank as people go on believing humans worldwide are being infected by a computer virus! What a joke. Not a single person on the entire planet has been infected by a morphing computer virus.

The Morphing Virus is a made for TV MSM-Hollywood drama fear term – being used to scare people. The correct medical term is "mutating virus" not morphing. Some interesting things about mutations of viruses were recently discussed in the LIVESCIENCE.com article: "How fast can the coronavirus mutate?" From this article we learn:

"The new coronavirus, like all other viruses, mutates, or undergoes small changes in its genome." Nathan Grubaugh, an epidemiologist at the Yale School of Public Health explains further, "These slight changes likely wouldn't have a major impact if any at all, on the functioning of the virus."

And the mutations a virus undergoes worldwide "would take a nontrivial amount of

effort” and potentially “years to complete.” In other words, a lot of work and a long time.

#BirdsFallFromtheSky #TheHague #5GTest

Hundreds of Birds Fall From the Sky During 5G Test in The Netherlands

Grubaugh published his commentary in [the journal Nature Microbiology in February](#) of this year by the title: *"We shouldn't worry when a virus mutates during disease outbreaks."*

The word mutation, he says, "naturally conjures fears of unexpected and freakish changes. In reality, mutations are a natural part of the virus life cycle and rarely impact outbreaks dramatically." Grubaugh also notes how *"most mutations negatively affect the virus."*

What MSM reporters are saying about fast-morphing *"symptoms"* of Covid-19 strains is not true. Total Baloney Sandwich. Flying BS in the Wind nonsense. Ridiculous beyond belief. Scripted drama meant to cause fear. Almost fraud, if not actual fraud.

Making things harder for mutations to happen super-fast like you hear in the news, the author clarifies that: *"For a virus to become 'more severe or transmit more easily,' multiple genes would have to mutate. Despite high rates of mutation among viruses in general it's UNUSUAL to find viruses that change their mode of transmission between humans over such short time scales."*

Hello! Anybody listening to this? Anybody putting the pieces of the puzzle together here? The opposite of what the MSM news sources are telling you is actually the truth.

There is no scary morphing going on that is happening so fast nobody can keep up with the changing symptoms. The mutations that do happen are typically negative to the virus and do not make it stronger or more contagious.

It would be highly “*unusual*” for a virus to become more severe or transmit more easily in a short time. We’re being lied to by an intentional disinformation campaign complete with faux science forces pushing mandatory vaccine and testing agendas. And exactly what is the test that is being used to identify the virus these days anyway?

The testing is a total hoax. They aren’t testing for the virus! They can’t because the test doesn’t exist yet. It takes time to develop such a virus test, so what exactly are the tests testing for that MSM reporters keep telling us about?

Symptoms.

That’s right, the tests you hear about in the news are random non-uniform tests of all different kinds that can only identify symptoms, but not the actual virus itself. When a person “*tests positive*” for coronavirus that is actually not true. What really happens is they test positive for symptoms of coronavirus. Which symptoms could easily be from flu or many other illnesses and diseases?

Nobody in the whole world has tested positive for coronavirus even one time since this outbreak began. Believe it or not, not even one person. How could they, if there’s no test for it yet? This is a preplanned premeditated psyop-scamdemic for real folks. Things like this do not happen in concert together in perfect timing by accident. Be realistic in your thinking. Is any cover story ever true? No. Then don’t believe the cover story you’re told that doesn’t add up or make sense.

A deadly mass murder event is happening in real time and the weapon of choice being used to do most of the damage? Extremely harmful to human life 5G EMF radiation.

“*They*” who are doing this include Bill Gates and Dr. Anthony Fauci as the front men with lots of high-level executives, owners and other fascist players connected to Big Pharma, the WHO, the CDC, Mainstream Media, the depraved depopulation extremists behind the Georgia Guidestones, Big Tech, corrupt banking, Luciferian secret societies, corrupt and entrenched deep state political and military traitors. All wanting and predicting a massive depopulation of the earth from present population numbers. China is apparently not the only nation to release the weaponized virus on their own citizens.

Real viruses come and go in real life, and don't stick around and keep coming back to infect the same person again and again. That's not realistic at all. That is fantastic and imaginary. 5G radiation could do that, but not a real virus. We can't keep confusing 5G radiation exposure symptoms with Covid-19 symptoms by calling the 5G symptoms coronavirus.

Both of these things just started happening at the same time in late December 2019. And we've had lots and lots of viruses that didn't cause anything like this. How hard is it to see the difference between realistic virus symptoms and not-realistic at all virus symptoms that are actually clear evidence of the dangerous radiation in the [newly introduced 5G Network Grid Systems](#) rolled worldwide in 2019?

Making sense of the virus is impossible without recognizing people are getting zapped with 5G at the same time and completely separately too. This is causing people without the virus to develop radiation-related symptoms similar to a virus "*up to a point.*" Radiation exposure victims are getting counted as virus victims when they don't have the virus. Calling any of the "new" 5G exposure symptoms "*virus*" symptoms convolutes all tracking and numbers exponentially.

How perfect for generating fear among unsuspecting dumbed down citizens who refuse to see what's happening to them! This is what is happening. The deception ploy is so perfectly misleading and confusing. It is working well for Them since They can "*re-infect*" someone who was never infected to begin with – many times over with the [5G symptoms mimicking virus symptoms](#).

5G will result in a massive increase in inescapable, involuntary exposure to wireless radiation

Compromised health officials, and others in on this scam, are calling all similar symptoms Covid-19. Meaning, as long as the 5G deployed in 2019 is not turned off this "*plandemic*" will continue. The only way to save ourselves from the game being played against us is to stop 5G deployment and disable and remove all 5G already deployed whether on land or in space. It is a weapons grade frequency completely unsafe for densely populated areas. It is deadly and it will kill, kill and keep on killing. Far and away deadlier than any virus, it is killing people right now wherever people are caught in the severely harmful to human health radioactive microwaves.

There should have been no panic at all. This has been mostly scam-theater not reality,

except they are killing people with 5G EMF. All the requirements forced on populations the world over were unnecessary. Fear and panic were created intentionally by combining the simultaneous 5G attacks with the Covid-19 release to allow the new abuses of our freedoms and personal rights.

To that reality and affect a growing group of concerned professionals and individuals has formed to present an international appeal to stop all 5G on earth and in space. An excerpt from this international appeal describes the reality of what we're dealing with. *"Despite widespread denial, the evidence that radio frequency (RF) radiation is harmful to life is already overwhelming. The accumulated clinical evidence of sick and injured human beings, experimental evidence of damage to DNA, cells and organ systems in a wide variety of plants and animals, and epidemiological evidence that the major diseases of modern civilization—cancer, heart disease and diabetes—are in large part caused by electromagnetic pollution, forms a literature base of well over 10,000 peer-reviewed studies."*

On May 10, 2020, Paul Adams posted a video showing birds attacking the wiring on a 5G cell tower. I viewed it on Robert David Steele's site. Even the birds are not happy with what is being done to them.

This list of health issues was posted on a military veteran's web site. In the past two years I have experienced several issues noted here. I attribute it to a cell-tower that is precisely 2,500-ft. from my residence study. The issues that I have been experiencing are, in my opinion, due to the modulating of the energy used to serve area businesses and light manufacturing plants that feed the larger automotive and truck assembly plants in the Louisville and Georgetown, KY area.

5G technology is coming – linked to cancer, heart disease, diabetes, Alzheimer's and death. The new fifth generation (5G) cellular system that is being installed in major American cities such as Dallas, Atlanta, Waco, Texas, and Sacramento will intensify the microwave radiation health risks for everyone living in those cities. Eleven More Cities Targeted for 5G Deployments this Year

The new 5G cell systems that Verizon and AT&T are planning to install in other cities in 2018 will use shorter length microwaves than the existing 4G (fourth generation) systems. New generation cell phones will be able to communicate with either 5G or 4G microwave towers to optimize connectivity.

Copper phone lines will be replaced with 5G rooftop antennas on homes and businesses. These antennas will communicate with 5G cell towers and with the wireless equipment in homes and offices to provide phone and broadband services.

5G will be the foundation for the “smart cities” of the future.

The safety of 5G has not been tested. The microwave frequencies that are being used in this new generation 5G system are in the 1-millimeter wave length. The long-term health risks of these short microwaves have not been adequately tested and the Federal Communications Commission (FCC) and telecom companies are simply presuming that they are safe based on 1996 research. Scientists, physicists, and medical experts have been calling for the 1996 safety standards to be updated.

New research reveals harmful effects of Cellular Systems. Research on microwave frequency radiation conducted since 1996 shows that the existing 3G and 4G cellular systems are causing serious harm to human health.

The 5G systems will increase the level of harm to the level where illness and death can no longer be denied. The harmful effects are cumulative.

We now know that the development of cancer, heart disease, diabetes, Alzheimer's and numerous other diseases and disabling symptoms are linked to the cumulative effects of microwave radiation.

Cellular systems are pushing microwave radiation into our bodies and brains 24 hours a day regardless of whether we use a cell phone or even own one. A Million or More New 5G Towers will be erected in American Cities over the next five years.

I just finished reading Dr. Arthur Firstenberg's book *'The Invisible Rainbow – The History of Electricity and Life'*. I too would have been a skeptic of what the experts have been saying about 5G 60-gigahertz. I have been studying writing on the 5G EMF issues for a couple years and had no reason to distrust the telecoms hype being peddled to get people to install 5G technology in their homes. Since AT&T started promoting the 5G wonders, I have received now six brochures or package offers in the mail. We will not be going to the new 5G, and I am looking at removing Wi-Fi completely, going back to a hard-wire system, even if it means slower download speeds.

The 5G towers will be spaced approximately 500 feet apart and will be highly visible eyesores.

The "small cell" transmitters will be mounted on top of electric utility poles, municipal buildings, schools, and in city parks, on top of street signs, bus shelters, and anywhere else telecom companies wish.

In low lying areas they might need to erect new towers that are taller than electric utility poles to accomplish their objectives. Refrigerator size electrical boxes will be attached to each transmission tower.

If you happen to be in an area with underground electric service, then they will erect new towers that use the underground electrical lines.

If you live or work in a densely populated area where electrical poles are very close to buildings, then you might have a 5G cell tower located a few feet from your place of employment or your bedroom.

The 5G non-ionizing radiation of EMF mimics the Corona virus labeled COVID-19. As the above chart shows, it is so similar as to be able to hide the true cause.

It is estimated that the daily microwave exposure generated by the 5G system will be equivalent to living inside a microwave oven and turning it up to high and baking yourself for 19 minutes a day.

Telecom companies hold the upper hand on 5G tower placement. FCC regulations] make it illegal for government entities to try to delay or stop cell tower installation on the basis of health risks.

Telecom companies can sue cities and states that attempt to use health concerns to impede their cell tower building plans.

How harmful is 5G? Can we stop it? The remainder of this article provides detailed information about the health risks of 5G and explains why the public and government entities cannot stop the rapid build-out of the 5G system despite the massive health risks.

My previous articles on microwave radiation dangers will provide background information to those who are not familiar with this topic. To learn about the history of wireless communication from the 1950s to the present, and how the technology works, please watch this video: [Documented Health Dangers Linked to Microwave Radiation](#)

Long-term Microwave Exposure Equals Extreme Harm

The bottom line in microwave frequency radiation exposure is, "The longer the exposure, the more deadly the cumulative effects."

In 2011, Professor Karl Hecht from the International Research Center of Healthy and Ecological Technology in Germany reported three distinct phases of illness caused by microwave radiation.

During the first phase, lasting up to 3 years, the living organism struggles to cope and compensate for the exposure to microwaves. They may experience numerous symptoms and may be aware of illness indicators, but aren't able to fix their problems unless they stop the exposure. 3 to 5 years of microwave exposure Professor Hecht described the damage that occurs during the second phase of exposure – 3 to 5 years of microwave irradiation. He stated:

During this second phase, chronically irradiated people develop weakly visible, pathological neurasthenic symptoms with vagotonic reaction tendencies.

This means over activity or irritability of the vagus nerve, adversely affecting function of the blood vessels, stomach, and muscles. It also means that the parasympathetic autonomic system is overactive, while sleep disorders and daytime tiredness are common.

Neurasthenic symptoms involve: poor appetite or overeating, insomnia or hypersomnia, low energy and fatigue, low-self-esteem, poor concentration, difficulty making decisions and feelings of hopelessness.

In its most severe form, this phase may include a chronic disturbance of mood called dysthymia (depressive neurosis) in which a depressive mood accompanies the other physiological features listed here.

This might explain why millions of Americans need anti-depressant drugs and illegal narcotics to cope with their radiation-induced depressive symptoms.

By this end of this stage, the systemic damage may be irreversible, even if the radiation exposure ceases.

5 years or more of Microwave Exposure, according to Professor Hecht, during the third Phase (5 years or more), the body degenerates into exhaustion and severe states of disease. He stated:

“This final degenerative phase produces pronounced neurasthenic symptoms with increasing pathological lapses of the regulation system, sleep disorders, daytime tiredness, and general exhaustion. People who have progressed to this phase suffer a dramatic increase in chronic illnesses and elevated cancer incidence.”

After 30+ years of environmental Wi-radiation, America’s chronically-ill population certainly fits this description.

A 2016 study by researchers at Emory University confirms that over one half of the US adult population is now chronically ill: “The health of individuals is increasingly being defined by complexity and multi-morbidity, the co-occurrence of two or more chronic medical conditions.”

However, not one in a million would guess that the mortal misery of cancer, heart disease, diabetes, Alzheimer’s and even depressive mental illness, is inextricably connected to years of covert irradiation delivered by crafty Wi-profiteers who have been laughing all the way to their gold-lined vaults.

Russian Studies Revealed Microwave Harm Long Before the FCC Adopted Its Regulations

Professor Hecht evaluated nearly 900 studies from Russian sources, which demonstrated the harmful effects of microwave technology.

The Russian research took place between 1960 and 1996 — long before the 3G and 4G cellular systems were built.

Videos Explain the Harm of 3G, 4G and 5G

ConsumerWatch: 5G Cellphone Towers Signal Renewed Concerns Over Impacts on Health – YouTube:

They Do NOT Want You See This!! – Cell Phone Towers Exposed! – YouTube:

The FCC Says we have nothing to Fear.

This is the logic followed by the FCC to ensure safety — as long as the transmission of cell towers don't exceed the microwave radiation levels they set and cell phones don't exceed FCC standards, then the towers and phones are safe.

They have decreed that 3G and 4G towers operate at safe levels, therefore, the new 5G towers are also safe, because they use less powerful transmitters.

The FCC isn't taking into account the proximity of transmitters and the biological effects of the shorter wave lengths. It is as if they believe that a tower that is 30 feet away from a person is less harmful than a tower that is 20 miles away.

It is as if they believe very short microwaves in the gigahertz range are less harmful than longer microwaves in the megahertz range.

Both beliefs are false!

Instead of focusing on long-term and cumulative effects of microwave radiation exposure, the FCC keeps talking about the heating effects of cell phones.

It is not the heating of body tissue that should be our major concern. It is the 24-hour – 7-days a week – 365-days per year exposure to microwave frequency radiation that is literally the killer.

Public entities that delay 5G implementation can be sued. 1996 FCC regulation permit telecom companies to sue any municipality or state that prohibits the implementation of cellular service on the basis of health.

New FCC regulations adopted in 2017 have further weakened the opportunity to resist the plans of telecom companies to implement wireless systems for other reasons. President Trump has even signed an executive order permitting 5G towers on public lands to fulfill the national priority of building the fastest cellular system in the world.

Telecom companies are planning to implement the 5G system in every major city in America by the end of 2020. As it stands right now, they have the right to do so regardless of health concerns.

Telecom companies seek state regulations to give them even greater freedom! Telecom companies are currently working in most states to establish rules that will give them complete freedom to implement their 5G systems.

They want statewide legislation that will prevent municipal governments or planning boards from delaying their 5G building program because of aesthetic concerns or zoning conditions.

Telecom Companies simply want to inform municipalities of their plans and then start putting up cell towers.

Some states are not caving in to the telecoms. Not all states are rolling over and playing dead. Some are trying to maintain some level of authority with respect to the 5G rollout. Sadly, however, the issue of health is a low priority, because of potential lawsuits from telecom companies.

Summary: Are Technological Advances such as Driverless Cars and Instant Downloads of Movies more Valuable than Increases of Disease and Premature Death?

Believe it or not, some research continues to show that microwaves are harmless. A 2017 study showed that when human skin cells in a culture were exposed to varying frequencies of microwaves for 3 hours, 70 hours, and 96 hours there were no changes. These are the kinds of silly studies that the FCC and Telecom companies use to prove 5G safety.

They would have observed damage if the scientists had looked at the right kinds of cells. T-cells and B-cells are highly sensitive and many will die after 8 hours of microwave exposure. They also might have found damage if they did a very close look at the DNA in their cells.

The 4G system is actually still being enhanced and improved even while the 5G system is being installed and promoted. It is debatable whether the new 5G system will provide any more benefit to the average consumer than the current 4G system.

The cost of 5G service should not be measured by the dollars invested by telecom companies to build their systems.

It must be measured in terms of the destruction of human health.

Are the promised technological advances such as driverless cars and instant downloads of movies more valuable than the occurrence of disease and premature death that these systems will cause?

“When will America become sick enough to understand that mobile Internet in the pocket is not worth killing and dying for?”

We know that there is a massive literature, providing a high level of scientific certainty, For each of eight pathophysiological effects caused by non-thermal microwave frequency EMF exposures.

Such EMFs:

1. Attack our nervous systems including our brains leading to widespread neurological/ neuropsychiatric effects and possibly many other effects. This nervous system attack is of great concern.

2. Attack our endocrine (that is hormonal) systems. In this context, the main things that make us functionally different from single celled creatures are our nervous system and our endocrine systems – even a simple planaria worm needs both of these. Thus the consequences of the disruption of these two regulatory systems is immense, such that it is a travesty to ignore these findings.

3. Produce oxidative stress and free radical damage, which have central roles in essentially all chronic diseases.

4. Attack the DNA of our cells, producing single strand and double strand breaks in cellular DNA and oxidized bases in our cellular DNA. These in turn produce cancer and also mutations in germ line cells which produce mutations in future generations.

5. Produce elevated levels of apoptosis (programmed cell death), events especially important in causing both neuro-degenerative diseases and infertility.

6. Lower male and female fertility, lower sex hormones, lower libido and increased levels of spontaneous abortion and, as already stated, attack the DNA in sperm cells.

7. Produce excessive intracellular calcium [Ca²⁺] and excessive calcium signaling.

8. Attack the cells of our bodies to cause cancer. Such attacks are thought to act via 15 different mechanisms during cancer causation.

There is also a substantial literature showing that EMFs also cause other effects including life threatening cardiac effects. In addition substantial evidence suggests EMF causation of very early onset dementias, including Alzheimer's, digital and other types of dementias; and there is evidence that EMF exposures in utero and shortly after birth can cause ADHD and autism.

Each of these effects is produced via the main mechanism of action of microwave/lower frequency EMFs, activation of voltage-gated calcium channels (VGCCs). Each of them is produced via what are called downstream effects of VGCC activation.

It follows from this that we have a good understanding not only that these effects occur,

but also how they can occur. The extraordinary sensitivity of the VGCC voltage sensor to the forces of the EMFs tells us that the current safety guidelines allow us to be exposed to EMF levels that are something like 7.2 million times too high. That sensitivity is predicted by the physics. Therefore, the physics and the biology are each pointing to the same mechanism of action of non-thermal EMFs.

The different effects produced are obviously very deep concerns. They become much deeper and become existential threats when one considers that several of these effects are both cumulative and eventually irreversible. There is substantial evidence for the cumulative nature and eventual irreversibility of the neurological/neuropsychiatric effects, of the reproductive effects, the mutational DNA effects, the cardiac effects, of some but not other of the hormonal effects; any causation of ADHD and autism may add additional concerns (here the cumulative nature is probably limited to the perinatal period). When we know that sperm counts have dropped by more than 50% throughout the technologically advanced countries on earth, it is difficult to avoid the conclusion that the vast majority of the population in those countries is already substantially impacted. The same conclusion can be made based on the widespread nature of the neuropsychiatric effects in those countries. Both of those effects will get much much worse even with no increase in current exposures, due to the cumulative nature and irreversibility of these effects. I expect we will see crash in human reproduction almost to zero as happened in the Magras and Xenos mouse study which I estimate to occur within about 5 years, without any increases in our exposures. Obviously 4G and 5G will make the situation much worse. Similarly I expect that the deterioration in brain function that we are already seeing will seal our fate if we fail to act rapidly and vigorously. Our collective brain function may become completely incapable of dealing with such a mega-crisis situation.

Now it can be argued that some of these may not develop as I expect, although those expectations are based on the best available evidence. One may even be able to argue this for all of those expectations. However, when we have substantial risk of multiple existential threats to every single technologically advanced country on earth, failure to act vigorously means there is a very high probability of complete destruction of these societies. And the chaos which would inevitably ensue, in a world that still has nuclear weapons, may well lead to extinction. In the face of these types of risk, the only reasonable course is to move with great vigor to stop new exposures and lower current exposures. One can still access the internet, using wired connections. And we can lower cell phone tower and cell phone radiation substantially. Smart meters, if needed, can work via wired connections.

Unfortunately, the typical person will not grasp the full impact of what is far more sinister than a virus that has been studied for more than twenty years. This is all essentially the end of human freedom. This has profound implications for humanity. 5G EMF masks or hides behind the mimic effects of the so-called Corona virus. As I have noted, 5G is the technology that will be used to control humans, as genetically modified as artificial intelligence cyborgs. This is integral to DNA/RNA through a forthcoming "Vaccine" you will be required to have as proof of ones being vaccinated against a virus that does not

even exist. COVID-19 is the basic common cold but bio-engineered to give the impression it is a new virus, a TOTAL LIE FROM THE PIT OF HELL.

There is another possibility here that perhaps has evaded the world that perhaps reveals a sinister agenda into making humans into something less than what God made us. Below is the transcript between Dr. Kaufman and Spiro Skouras.

Dr Andrew Kaufman joins Spiro Skouras with his laser-like way of describing what is happening around the world with this Globalist "pandemic".

"In an unprecedented way, we see all of the governments around the world, with very few exceptions, all adopting the same policies, all at the same timeframe, right? This tells us that that this is a highly-coordinated effort, internationally and it tells us that there is a group of people or individuals who are directing the governments, essentially what to do.

"This is compatible with a Globalist agenda, moving towards a One World Government, with tighter control over the population, with a reduced population, with a new financial, monetary and currency system, and there's evidence for all these aspects and I think the overall plan has been well laid-out in the United Nations document, Agenda 21, later changed to Agenda 2030.

"There are many other supporting documents, like you pointed out, the Rockefeller document and there are several others, that essentially gives all the details to this plan and they all correlate to the policies that are taking place right now.

"They basically want to inject genes into us and they're using this procedure called 'electroporation', where they apply an electric current through two extra needles with the vaccine that creates little holes in our cells that allow the DNA to go inside our own cells and then they are supposed to make foreign proteins that supposedly generate immunity...

"They want to make us into Genetically-Modified Organisms, because this is the exact same procedure that they would be using to make a Genetically-Modified Organism."

Dr Kaufman is risking his reputation and his medical license to get this information out as widely as possible because he doesn't want his children to live in a world with no freedom, which he believes is where we're headed if this isn't rejected by the people.

Citing the CDC's own publicly-available data, updated daily on their website, Kaufman points out that there is no "excess mortality" charting. In fact, the number of deaths this season is lower than it has been for the past three years. This leads him to think that this so-called pandemic is a "manufactured public relations, marketing operation." There is no virus or disease but there are major changes to government policies in all areas that are severely limiting our freedoms.

He says the novel coronavirus has, in fact never been isolated and that its identity is

based on tiny snippets of DNA fed into a computer model - which, he says is also how the SARS virus of the 2003 was identified. The COVID-19 virus is being classified as a member of that SARS family because it shares 80% of its genetics with SARS, based on this very slipshod modeling.

For some perspective on how genetically distant 80% is, [human beings share 80% of our genomes with cattle](#).

Moreover, the sample population originally used to collect materials and identify the COVID-19 virus was 7 people - and there was no control group. None of the basic scientific standards have been met in the identification of the novel coronavirus, such as purifying and isolating the virus particle through a filter. Its identification is based solely on theoretical and digital modeling.

These are just a few examples of the bad science involved. There's much more that he details here. In short, this pandemic a massive medical fraud.

Since beginning of this #CoronaHoax, we've been hearing all kinds of contradictory information about the very nature of viruses, themselves, with some subscribing to Rudolf Steiner's suggestion that viruses don't exist at all but that they're the excreted toxicity of cells, aka exosomes.

Spiro asks Dr Kaufman, "At this point, they haven't been able to successfully isolate the COVID-19 virus, so we don't know if it really exists, because they haven't been able to prove it. And then, the testing, itself is very flawed...resulting in many false positives and the method by which they are testing does not really make sense, scientifically..."

"[Koch's Postulates](#), which are meant to prove and...reproduce the effect of viruses have never been accomplished for any viruses - so, would that call into question viruses, themselves, their existence?"

"And if that's the case, then how do you explain when people get sick, like when they catch the flu and they just feel like crap, I mean, we all thought it was viruses. What can you tell us?"

Dr Kaufman says it's true that Koch's Postulates have never been satisfied for the disease causation of any virus, which means that our ideas about viruses consist largely of dogma and are based on a scientific system that rewards this theory-based approach.

When asked about the bioweapons angle of this story, Dr Kaufman gives a surprising reply: "I'm sure there are Top Secret labs that are researching all kinds of weapons...but...if there's really no biological model for a virus to cause this disease, I'm not sure what they're engineering, exactly."

"I imagine that it would be extremely difficult to create some kind of biological organism that would cause disease, because most of the time when we have parasitic problems, they're opportunistic.

"They're there because there's something not right in our body and they're actually trying to help us get rid of that but in the process, they might get out of control and cause us problems. **But I'm not aware of any organisms that come in and take over when you're healthy. So, I think that would be a really tall order and I'm not sure that it's even possible.**

"But if they did want to make us sick, the easiest thing would be to put toxins into our bodies and there's many ways this can be done - and that has been done. For example, they're putting fluoride in our water supply, which is a known toxin to the central nervous system. And even the CDC put out a guidance in the early 2000s, instructing parents of newborns not to use fluoridated water to mix baby formula, because it would affect the children's neurological development, right? Yet, they put it in our water. You can look at what happened in Michigan, with the lead pipes and the lead poisoning from the water...

"But getting back to the mortality figures, we haven't seen excess mortality, so if there's any strategy like this, I don't see evidence that it's been deployed. Now, am I concerned that it will be deployed in a second wave or a future part of this psychological operation? Yeah, I'm concerned about that."

As for the "Contact Tracing" programs, now hiring tens of thousands of workers, aiming to remove individuals from their homes to put them into a quarantine prison, Dr Kaufman says that the term, "Contact Tracing" was created in the 1930s and all of this has been in the planning stages for a long, long time and that it absolutely does represent an end to our freedom.

The Royal Academy of Sciences journal in May of 2019 dedicated the entire issue to managing a pandemic and methods of controlling the population, which is what "Contact Tracing" is for.

"So, they took the easy way to do this, because if they just come up with a completely fake illness and get everyone to volunteer to give up all their rights, it's much easier and much less risky than unleashing some kind of poison on the population that would really make people sick and die - and that would also put themselves at risk. How would they make themselves invulnerable?"

"In a sense, it's a kind of genius plot but it's a very sinister genius plot.

"[Contact Tracing] is the next step to further get us to volunteer to give up our rights and this time, it's mostly about privacy. And they may say that, initially, they're doing it for the public health but we don't really know what their real intention is and I don't think there's going to be transparency.

"There was a Contact Tracing app...it would give you a red light or a green light and that would be to let you into your office building or to use public transportation. So, these things, where we have freedom of movement, now we have to be granted a privilege based on this...

"One of the [Contact Tracing recruitment] ads that you showed, they were looking for people with military experience...they know how to knock down doors, they know how to look for evidence and trash places, they know how to intimidate people. That's what they're doing and their training and their experience in a military operation. So clearly, there's an intention to use these types of tactics with our own citizens."

All of this is covered in the 2010 Rockefeller ["Scenarios for the Future of Technology and International Development"](#) paper, under the heading of "Lock Step".

Spiro says, "It's beyond Orwellian...Under the guise of this pandemic, it could be used to achieve many goals...one of them...is disappearing dissidents. Remember, at the beginning of this outbreak, at the beginning of the year? We had see all these videos coming out of China...there were so many videos of men in full hazmat suits...dragging people out of their homes, literally kicking and screaming. And if you look at who was filming those videos...they were *with* those dragging people from their homes. So, how did those videos get shared on social media, with the tight clampdown that China has? I think that there's a chance that they wanted the world to see those videos and to terrify people...and to normalize the idea."

Dr Kaufman says that if you want to know what the vaccine agenda is, it very easy to find out, you just need to read their Agenda 2030 [documents](#).

"All of these measures are really voluntary...If we rely on the authorities to give us approval to exercise our freedoms, they're going to take more freedoms away, as they've been doing. So, while I respect people who want to go and protest at city hall or at the state capital, they are coming from the right point of view but they're just asking the authority figures, the government to give them permission, when they don't need permission from the government, they already have permission because they have inalienable rights.

"It's not really a decision for me it's just what I feel that I have to do to preserve a way of life and the way that I want to live, for me and for my children."

Dr Andrew Kaufman has stated: "They Want to Genetically Modify Us with the COVID-19 Vaccine."

Dr. Andrew Kaufman's interview was posted at the web site Forbidden Knowledge TV.com. I do not have a specific link but it was part of their daily postings to subscribers of ForbiddenKnowledgeTV.com.

Dr. Kaufman made a significant point in the hour-long interview and that being that all the countries in the world were beginning this program simultaneously in the fall of 2019, which just happened to be the official starting point of 5G globally. Dr. Kaufman states there is no new Corona virus, but there is a new pathogen being called the Corona virus. It is a bio-engineered bio-weapon intended to kill once a person has it.

The indications and data suggests that this is a global plan for depopulation, to microchip the world's population, for "CONTROL" purposes. As I have stated in my series:

Wuhan Was a Test Run for Weaponized 5G

5G + Coronavirus + Vaccinations + Chemtrails = Depopulation Event

was in reality a Beta-test for the Global Elite of the world who direct the New World Order. All of the recent talk by Bill Gates and his ID2020, so-called proof of one's having been vaccinated has been so up front and revealing, it suggests that the process has gone well beyond that which has been revealed since January. The mistake you will make is that to believe the U.S. government would not use the public as "test subjects".

Intuition tells me that you do not want to submit to any door-to-door contact tracing as that which began in New York City on May 9/10th. [New York City Begins Largest Contact Tracing Surveillance Effort In United States in Stunning Harbinger Of What Life Will Be Like After Lockdown.](#)

The public entity, named the New York City Test and Trace Corps, will begin with 1,000 trained medical professionals who will track down suspected cases of the disease, test New Yorkers and trace their recent contacts. The containment strategy aims to get ahead of the disease before it can erupt into a full-scale outbreak that would require shutting society and businesses down again. "The New York City Test and Trace Corps is going to be a dedicated group of trained individuals who will lead the way in creating testing and tracing in a way we've never seen before in this city or this country," de Blasio said. "We want to find everyone who is positive and trace their close contacts," he said.

What they really want is your DNA and to subsequently give you the virus created, and known as COVID-19. The giving of the virus to the public comes in the very test they will administer when they use a Johnson & Johnson "Q-tip" laced with the Corona pathogen. You will think you are being tested when in fact you will be infected!

The challenge for you and I, as the various lockdowns begin to lift, will be to stay focused on all the end times nastiness once we resume our lives that were put on hold for the past two months. They are going to be implemented sweeping changes in how society functions, and using COVID-19 as the excuse, will begin digital surveillance on a level unimagined outside of George Orwell's dystopian '1984' novel.

Contact tracing, otherwise known as invasive digital surveillance, is here to stay, and it will be recording your every move. And when those markers start lighting up, the government will come in and curtail your movements. The parts of the United States Constitution that the Patriot Act didn't kill, contact tracing will.
