What does each of the above attacks on the American Republic have in common?

ANSWER: They are meticulously orchestrated prongs of a multi-pronged, multi-decade globalist strategy to destroy the United States of America. Throughout 2020, these and many other furtive assaults on the American people are being fastidiously choreographed to bring about the free-fall collapse of this nation. The implementation of the *New World Order* agenda can only proceed with the permanent destruction of the American Republic. As always, communists and socialists, anarchists and terrorists, Bolsheviks and insurrectionists are being enlisted to tear apart American cities. That riots, protests, violence, looting, business destruction and autonomous zones are being permitted and abetted in the Democrat-controlled cities and states proves that this named *Purple Revolution* is a highly organized plan to overthrow the US government by any means necessary. Again, all of the cataclysmic events listed above are being purposefully orchestrated for maximum dramatic effect to produce planned outcomes according to the NWO strategy and MO:

Problem~Reaction~Solution. In this way, the globalist perpetrators endeavor to manufacture consent until a critical mass of U.S. citizen's demand their own incarceration for the perceived safety in the maximum-security prison that is

being insidiously constructed nationwide. Just who is it that is stealthily using this Hegelian Dialectic stratagem, and how is it being slyly carried out IN BROAD DAYLIGHT today?

Within: The
Socialist's Plan to
Destroy America-**

If ever there was a timely [BREAKDOWN] that provides the single most critical exposé of what the American Republic is facing today, the video presentation posted below is it.

SOTN has been writing an extended essay on this same topic in which we draw parallels from the ongoing *Purple Revolution* in America to the French Revolution, 1917 Bolshevik Revolution and Cultural Revolution in China. However, this research project neglected to include the “Breakup of Yugoslavia”—a much more current event that also parallels the ongoing balkanization of the United States.

While the analysis that follows appropriately avoids some of the deeper issues regarding the *New World Order* agenda, *Deep State* schemes and globalist game plan, its primary purpose is to explain the basic current realities throughout the USA in simple terms. Hence, if there is one video that friends and family, co-workers and business acquaintances should watch sooner than later, this highly informative and deeply insightful production ought to be the one.

That the refreshingly candid narrator is a truth-speaking Yugoslavian woman who directly experienced in the Balkans what is happening to 50 state makes it an extraordinarily compelling analysis. She obviously has no agenda except to impart the stark realities as they unfolded in her home country during the early 1990s. This very brave and smart woman also has every reason to state the facts as she witnessed them, and as she perceives them evolving right now across the USA. Hence, the title:

“Yugoslavian Issues Warning To All Americans”

N.B. The following video ought to be required viewing for the American Patriot Movement. With that said, there are very good reasons why it has been posted over 35 times on this site. Very few people really understand just how serious

things are in these once United States of America. Therefore, everyone is strongly encouraged to find a post title that best suits their audience and send it out far and wide. **If the American People
do not heed this urgent warning,
the nation is quite likely to repeat
some extremely unpleasant history!
Therefore, if you find this video

The SOTN “State Of The Nation” web page has compiled a massive collection of evidence and has asked that it be shared with every patriotic American. The survival of the Republic is at a crossroads. With the likes of Hillary Clinton, Nancy Pelosi, George Soros, Adam Schiff, the House of Rothschild, and the Jesuit-Vatican, are pouring hundreds of millions of dollars into the effort to bring

down the United States of America. It is a war of Globalism vs. Nationalism. We face powerful elements of money that are committed to destroy the Republic. We have less than a hundred days to wake the nation.
