The Moderna Kill Shot!

The White House signed a \$1.5 Billion vaccine deal with Gates-backed Moderna on Thursday August 13, 2020.

The Trump administration this week announced the closing of a \$1.5 billion contract under which the federal government will purchase 100 million doses of an eventual COVID-19 vaccine produced by the biotechnology company Moderna, the sixth such deal reached since May.

This is alarming for a number of reasons. *“I’m pleased to announce that we have reached an agreement with Moderna to manufacture and deliver 100 million doses of their coronavirus vaccine candidate,”* the president said at a White House news conference. *“The federal government will own these vaccine doses, we’re buying them.”*

In a statement, Moderna Chief Executive Stéphane Bancel welcomed the deal. *“We appreciate the confidence of the U.S. government in our mRNA vaccine platform and the continued support,”* he said.

The Moderna vaccine will reportedly cost approximately \$15 per dose, though the government will provide them to the American public free of charge. How can it be free, when the American taxpayers paid for it through their voluntary income tax payments every April 15th? Give me a break!

As the U.S. Department of Health and Human Services (HHS) explained on Tuesday, *“If these doses are used in a COVID-19 [coronavirus disease] vaccination campaign, the vaccine would be available to the American people at no cost. As is customary with*

government-purchased vaccines, healthcare professionals could charge for the cost of administering the vaccine.”

Under the newly signed agreement, the government will also have the option of purchasing an additional 400 million doses.

According to the *‘Wall Street Journal’*, the U.S. government has “also invested in vaccine research and development, as well as supplies like vials and syringes.”

The administration has already signed five previous such deals with drug-makers such as Johnson & Johnson, Novavax, Pfizer and Sanofi, and AstraZeneca — all part of “Operation Warp Speed”, which seeks to obtain over 500 million vaccine doses.

President Trump has vowed to deliver a safe and effective vaccine by January 2021 through Operation Warp Speed.

“In creating a vaccine portfolio for Operation Warp Speed, the Trump Administration is increasing the likelihood that the United States will have at least one safe, effective vaccine by 2021,” HHS Secretary Alex Azar said in a statement on Tuesday.

Moderna is co-developing the vaccine in partnership with the U.S. National Institutes of Health (NIH), which is under HHS. The government has given Moderna nearly \$1 billion in U.S. taxpayer funds for its research work.

Currently, the Moderna vaccine candidate is the only one in the final phase.

“There’s never a guarantee that you’re going to get a safe and effective vaccine,” Dr. Anthony Fauci of the National Institute of Allergy and Infectious Diseases told lawmakers late last month, adding, *“We feel cautiously optimistic that we will have a vaccine by the end of this year and as we go into 2021.”* That seems strange since 82% of the volunteers testing the new vaccine have reported experiencing side effects!

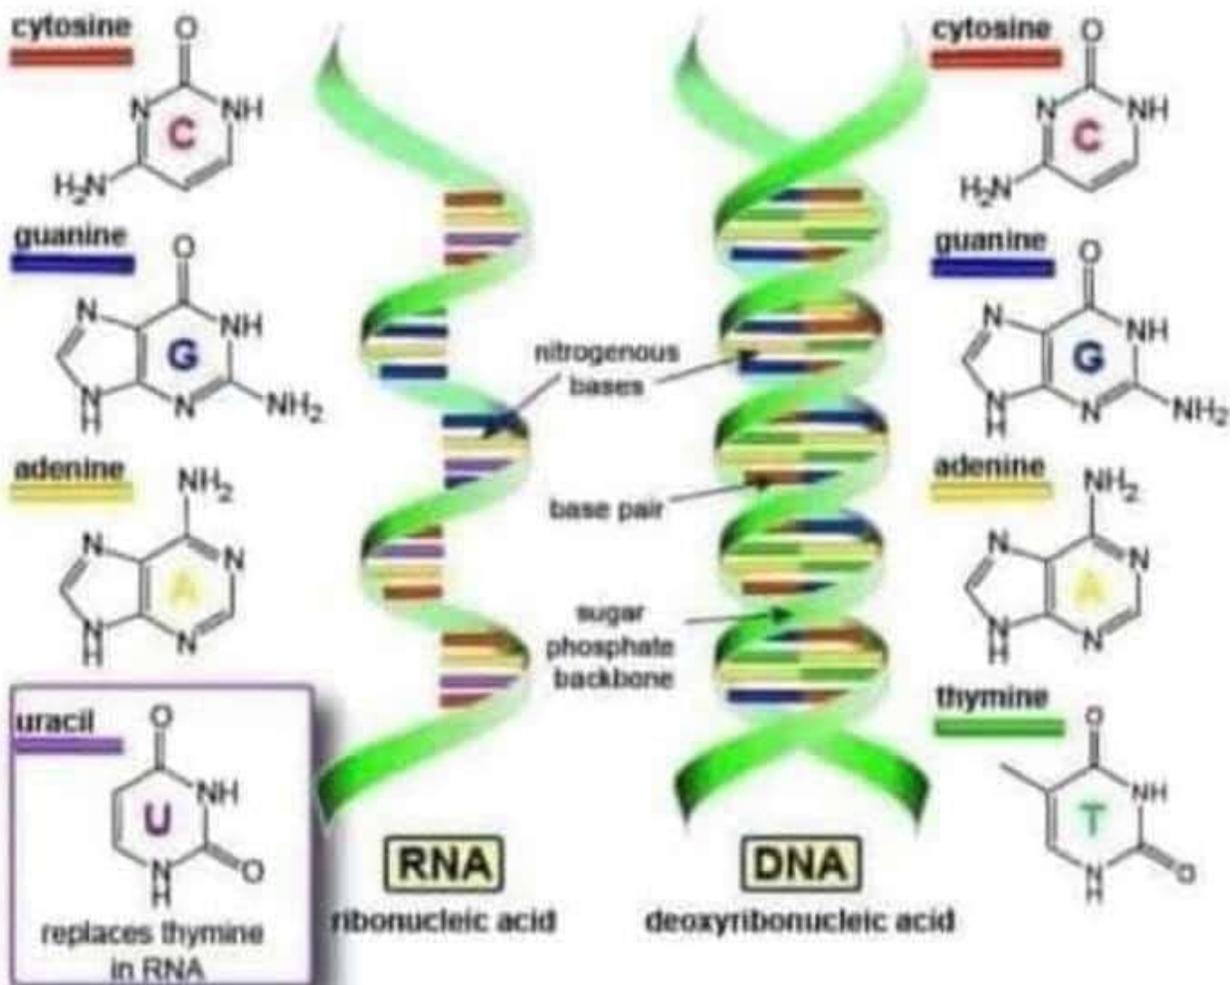

News of the deal between the Trump administration and Moderna sent the company’s stock surging 10 percent.

Moderna, whose work is focused on inserting mRNA into living cells, which, hopefully, reprogram the cells to develop autoimmune responses, has received millions of dollars in grant funding from the Bill & Melinda Gates Foundation.

Gates, a proponent of population control, is funding both an under-the-skin vaccine history device that can be read with infrared-equipped smartphones and a remote-controlled contraceptive microchip to go under women’s skin.

Under a partnership between the Bill Gates-supported GAVI vaccine alliance and Mastercard, a new program called Trust Stamp is being tested in West Africa that would use biometrics to verify people’s information.

The new vaccine for Covid-19 will be the first of its kind EVER. It will be an mRNA vaccine which will literally alter your DNA. It will wrap itself into your system. You will essentially become a genetically modified human being.

The goal is to integrate it into the GAVI-Mastercard “Wellness Pass,” a digital vaccination record and identity system, to enable the rapid verification of any given person’s vaccine history. Other elite organizations such as the Rockefeller Foundation are also giving money to develop this technology.

Trust Stamp co-founder Gareth Genner explains how the system [this is the “Mark” of the Beast] will work:

The hash has to work where there is no internet, no cellular connectivity, he says. It helps create a simple, low-budget way for children and their guardians to maintain medical records that cannot be confused with another child. Each time the child gets a vaccine and a new hash is created at the clinic, it is encoded with the updated health information. Algorithms can accurately predict if two different hashes belong to the same living person. “The hash evolves over time,” Genner says, “just as you evolve.”

If such a system is perfected, it would not even be necessary for governments to mandate a vaccine to get most people to receive it. Just as many large retailers and grocers now require customers to wear face masks to enter stores, they may likewise require proof of vaccination (verified through technology such as Trust Stamp) just to buy and sell. I have written an eBook on the Biblical “Mark” of the Beast over the past six years. Chapters 12, 13, and 14 are the most recent additions to my web page: www.pastorbobreid.com Six passages of the Bible define the full context of how God revealed the “Mark” of the Beast. Collectively, this is your basic guide as to why you do not want to take the “Mark” [666/999] and we know from Bill Gates, very own words, that this will alter your God-given DNA.

“And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.” –(Revelation 13:17).

“And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name.” –(Revelation 14:11).

“And I saw as it were a sea of glass mingled with fire: and them that had gotten the victory over the beast, and over his image, and over his mark, and over the number of his name, stand on the sea of glass, having the harps of God.” – (Revelation 15:2).

“And the first went, and poured out his vial upon the earth; and there fell a noisome and grievous sore upon the men which had the mark of the beast, and upon them which worshipped his image.” -(Revelation 16:2).

“And the beast was taken, and with him the false prophet that wrought miracles before him, with which he deceived them that had received the mark of the beast, and them that worshipped his image. These both were cast alive into a lake of fire burning with brimstone.” -(Revelation 19:20).

“And I saw thrones, and they sat upon them, and judgment was given unto them: and I saw the souls of them that were beheaded for the witness of Jesus, and for the word of God, and which had not worshipped the beast, neither his image, neither had received his mark upon their foreheads, or in their hands; and they lived and reigned with Christ a thousand years.” -(Revelation 20:4).

Below is the clinical medical virology definition of what constitutes a legitimate virus. This is a medical indisputable fact. Dr. Fauci is a LIAR, A JESUIT LIAR, AND A DEMONIC LIAR!

.....
: **To prove the existence of a virus you need to do three things. First, culture cells**
: **and find a particle you think might be a virus. Obviously, at the very least, that**
: **particle should look like a virus. Second, you have to devise a method to get that**
: **particle on its own so you can take it to pieces and analyze precisely what makes**
: **it up. Then you need to prove the particle can make faithful copies of itself. In**
: **other words, that it can replicate.**
.....

In Iceland their scientists have found that the virus mutated 246 times since it was isolated in Iceland. That was as of several weeks ago so who knows how many more mutations it has made in the last 3 weeks. There will be no safe vaccine for this just like there is no vaccine for HIV. The Iceland study disproves the existence of a Corona virus.

All of this for a virus that has a 99.98% survival rate. This Covid-19 operation is not about your health, it is about absolute control of the global population!

What in the world would Microsoft billionaire Bill Gates want with a convicted pedophile named Jeffrey Epstein? The disgraced Epstein had already been convicted of two counts of soliciting underage girls for prostitution before he met Gates. Still, Epstein's influence in the world of billionaires remained. Flight logs show that Bill Gates flew privately with Epstein in 2013, long after Epstein was a known trafficker of young women. In one meeting, Bill Gates flew privately with Epstein to his infamous Palm Beach mansion, where several abuses had been reported over the years. The two were so cozy that Epstein ultimately listed Bill Gates' former chief scientific adviser, Boris Nikolic, as an alternative executor to his final will. The biotech entrepreneur was "shocked" when this was revealed just days after Epstein's alleged prison suicide.

A spokesman for Bill Gates denies any business relationship with Epstein, but the flight records, shared biotech interests, and the internal emails don't lie. These two men had more in common than meets the eye. Both had shared interest in eugenics, a perverted form of science that seeks to genetically enhance the human population by getting rid of undesirables. Eugenics is about controlling human reproduction to breed the most desirable genetic characteristics. Bill Gates openly talks about depopulation and Jeffrey Epstein was infatuated with creating a genetically superior race using his own semen to impregnate select women. According to scientists who spoke with the child sex predator, Epstein expressed interest in impregnating up to twenty women at a time at

his New Mexico ranch to create “genetically superior” babies from some of the most successful people in society.

According to emails obtained exclusively by *‘The New Yorker’*, Jeffrey Epstein “directed” Bill Gates to donate \$2 million to a research lab in October 2014. MIT Media Lab directors handed over the emails and they clearly connect Gates to Epstein. Suspiciously, Gates has previously denied any business relationship with Epstein. A Gates spokesperson told *‘Business Insider’*, “*Although Epstein pursued Bill Gates aggressively; any account of a business partnership or personal relationship between the two is categorically false.*”

What else could Gates be lying about now?

Is pedophilia just the beginning of evils among the most powerful men in the world? What kind of research were Epstein and Gates trying to fund? Why would billionaire Bill Gates take direction from Epstein in the first place? Why was Gates so influenced by Epstein that he would obey Epstein’s research wishes to the tune of \$2 million? There are so many unanswered questions in this bizarre story.

The Gates spokesperson that refuted a business relationship between the two also refuted the MIT emails, stating, “*Any claim that Epstein directed any programmatic or personal grant making for Bill Gates is completely false.*”

However, according to *‘The New Yorker’*, MIT lab director Joi Ito and former Director of Development and Strategy, Peter Cohen, worked hard to get anonymous donations from Epstein and allowed the pervert to influence how the money was spent. Epstein helped MIT Media Lab secure donations from investor Leon Black and Microsoft founder Bill Gates. The October 2014 email, sent by lab director Ito, clearly contradicts Gate’s denial.

It reads, “*This is a \$2M gift from Bill Gates directed by Jeffrey Epstein.*” Cohen’s follow-up email read, “*For gift recording purposes, we will not be mentioning Jeffrey’s name as the impetus for this gift.*” In another follow-up email, Epstein instructs Ito to come up with a lab write-up by request of Bill Gates. When Ito asked Epstein what kind of write-up was needed, Epstein replied, “*more specofic [sic] so that he can fund.*” Epstein’s influence and the lab write-up helped secured \$7.5 million from Gates and Black. This revelation has led MIT’s General Counsel to conduct an internal investigation into the correspondence between MIT lab directors and Epstein.

The Bill Gates-funded evil that is parading in broad daylight is about depopulation!

This story isn’t about Bill Gates being a pedophile, nor does it accuse him of doing wrong for interacting with Jeffrey Epstein. It does however bring light to the eugenics-founded, population control scheme that Bill Gates is currently rolling out. It’s called “[Stratospheric Controlled Perturbation Experiment](#)” — a geo-engineering program that will inevitably alter the biosphere, cause food shortages, and eventual depopulation.

Now, in order to get this research funded and implemented across the skies, the people have to be convinced that there is a problem that demands swift, global intervention. This problem is sold to the public as “climate change,” and the answer for “climate change” that is now being accepted is a climate manipulation scheme called geoengineering. This Bill Gate’s-funded geoengineering experiment is an evil form of genocide and population control parading in broad daylight as *science*.

This lovely science project, SCoPEX, utilizes Gate’s limitless funds and enlists Harvard University to replicate the effects of a volcanic disaster by spraying the stratosphere with particulate matter to block the sun. The experiment is supposed to replicate the 1815 Mount Tambora eruption, which filled the atmosphere with so much particulate matter everyone called it “the year without a summer.” Because all plants need sunlight and carbon dioxide for photosynthesis to occur, this dimming of the sun caused food crops to fail and people to starve. Is this what Bill Gates really wants?

These depopulation efforts are no longer conspiracy; they are being carried out under the banner of “saving the planet from climate change” and are being carried out by the world’s richest, most powerful financiers.

CoronaVirus Predictive Programming by Dr. Leonard Horowitz**

[Coronavirus Predictive Programming](#) is a 52-minute docu-commentary freely and exclusively viewable online at RevolutionTelevision.net. This public education production is presented courtesy of award-winning filmmaker Dr. Leonard G. Horowitz in association with Medical Veritas International Inc.

Leading lab virus expert Horowitz slams international “crisis capitalists” in this video production, claiming coronavirus “predictive programmers” are accountable for neglecting, downplaying, and misdirecting the media and governments’ responses to the coronavirus pandemic expanding and risking millions of lives.

Shocking revelations in this video includes [the solid science proving the 2019 coronavirus out-breaking in China includes the AIDS-virus envelop gene weaponizing the mutant bioweapon against the human immune system.](#)

In addition, detailed analysis of the “Event 201” coronavirus preparedness conference sponsored by the Bill & Melinda Gates Foundation, Johns Hopkins University, and the World Economic Forum, provides ‘probable cause’ for officials to investigate ‘industrial espionage’ and ‘commercial bioterrorism’ as motive for the intentional release of the mutant virus. Dr. Horowitz evidences here, better than anyone, the purposeful release of the ‘corona/SARS/HIV lab virus’ by ‘Deep State’ special interests leveraging both governments—U.S. and China.

Is this the long anticipated “Big One” Bill Gates has promoted in the media? Otherwise, why are corporate-controlled news services and the networks censoring all of these most important details? The unprecedented media censorship, omissions, and

misrepresentations accompanying this pandemic fraud and coronavirus imposition evidences global depopulation foul play.

Coronavirus Predictive Programming and Media Censorship

Facebook and Google/YouTube is censoring this intelligence. Trying to link and discuss this film in the social media yields the censorship shown in the adjacent screenshot. (That is why we ask you to help spread this video.)

The facts presented in [Coronavirus Predictive Programming](#) condemn officials' "reckless negligence."

Several previous lab virus outbreaks, and the expanding risk of "mutigenic" germs recombining and intertwining their DNA, enabling cross-species jumping, is now proven to have happened to generate the coronavirus pandemic, as Horowitz and few others forewarned.

Independent media requests prompted the doctor to conduct a detailed analysis of the coronavirus planning conference held in New York in October, 2019, called [Event 201](#). That "exercise" was sponsored by the World Economic Forum, Bill & Melinda Gates Foundation, and Johns Hopkins University.

Each sponsor was financed by corporations profiting from genetically-engineered vaccines and anti-viral drugs.

In this film, the doctor condemns those who profit from misinforming citizens as well as "brain-washed" health officials complicit with disease planners and profiteers. Combined, they commit '*pan-genocide*.'

"The establishment, or 'ruling elite,' properly called the 'Deep State,' has placed civilization at risk of extinction," Dr. Horowitz says.

"The censorship surrounding this subject is unconscionable and criminal," he adds. *"People are dying as a result of officials who recklessly neglect common sense and scientific evidence, undermining humanity's health and safety."*

"The message in this film is you'd have to be an idiot or imbecile to trust leading health officials who jeopardize humanity for multinational corporate payoffs."

Besides this, Dr. Horowitz says, *"Simple self-care instructions and low cost solutions that could save millions of lives are recklessly neglected."*

Neglecting these warnings

This video features a group of preparedness experts who met in October, 2019, to predict what would happen following a coronavirus outbreak that suspiciously occurred two months later.

In addition, FOX News anchors are shown circumventing and diverting from these details.

All corporate-controlled media are guilty of reckless negligence and complicity in genocide for neglecting the doctor's accurate and relentless warnings. The risk to public health and safety of this kind of a mutant lab virus out-breaking into a deadly pandemic was immanent, according to Dr. Horowitz who has been shunned by all major news outlets despite his relentless notices.

Horowitz has been the world's most prolific, vocal, and generally-censored critic of biotechnology, genetic engineering, and bio-weapons research and development. He has argued in numerous books, films, science papers, and legislative hearings since 1996 that HIV/AIDS, for instance, broke out from science labs administered by a group of cancer and vaccine industrialists.

Now, the "reckless negligence" has resulted in a massive number of deaths, just as Horowitz forewarned. His science is corroborated by new genetic analyses published by a team of gene-sequencing experts affiliated with the Indian Institute of Technology (IIT), the University of New Delhi, IBM, and New York University at Stonybrook. The team's nine experts, led by Prashant Pradhan, the Chief Technical Officer for IBM in Asia, used the WATSON computer to identify a 'smoking-gun' in the new most deadly coronavirus.

The young Dr. Fauci at the time of the AIDS epidemic

Below - original article from Brasscheck.com, video provided as additional backup:

I have to respect Judy Mikovits's credentials and her peerless courage, but it looks like even she drank the AIDS Kool-Aid Fauci & Co. brewed up.

What's going on is far MORE sinister than she realizes.

I don't think Judy is doing it intentionally, but she's taking people down a rabbit hole that we can look at LATER.

The key issue: Is Covid treatable?

Answer: YES.

The second issue is: Does the shutdown make public health sense?

Answer: NO

Every other discussion right now is a distraction

The "HIV causes AIDS" hoax is the ORIGINAL Fauci scam and it's been his money pump and power base for 36 years.

He's using the same exact rhetorical tricks he used to sell "AIDS" to sell Covid. It's a complicated thing to explain to people because the Myth is so deeply rooted.

The Myth is this:

"HIV (which in fact has never been found in a human being, only "presumed" antibodies to it) causes AIDS (which is 30 plus separate diseases each with their own etiology)"

But before you reject the idea that the AIDS story – as it's told by Tony Fauci & Co – is a scam, consider the following...

Does any of this sound familiar?

- * The disease is caused by a new, never-before-seen virus
- * The virus' origins are unknown, but it probably involves some trans-species jump
- * It's easily transmissible
- * It's deadly
- * Everyone is going to get it
- * It constantly morphs into endless unpredictable forms
- * There are "secret carriers" who show no symptoms and they are very dangerous
- * Environmental and lifestyle factors determining who gets the disease are completely ignored
- * There is no known treatment

- * Cases are “presumed” and deaths are attributed to it without testing
- * Completely different diseases are called by its name to boost the statistics
- * So-called “deniers,” including Nobel Prize winning scientists, are either ignored or attacked by hack scientists and journalists. Hysterical members of the public are weaponized as attack dogs as well.
- * More research and testing are called for to the tune of endless billions of dollars
- * The CDC-approved “treatment” kills the patient
- * There is a desperate – and endless search – for a vaccine
- * Meanwhile the “experts” in the disease are fed endless of billions of dollars, assume awesome extra-legal political power, control the nation’s medical research agenda and receive massive but completely uncritical media attention.

Sound familiar?

I just described Fauci’s AIDS hustle.

Covid is the SAME scam. Different virus. Even bigger disaster.

Nobel Prize Winner Kary Mullis, who INVENTED PCR, was on the record loudly and frequently calling the AIDS mafia led by Fauci a total scientific fraud.

FACT: The HIV virus has NEVER found “in vivo” in any human being. Its existence was only presumed by complex laboratory legerdemain. Not only that, HIV is not a causative factor of what’s called AIDS.

AIDS is not even a disease – but by its own terminology a nebulous “syndrome.”

Functionally, what’s called AIDS is a patchwork of over 30 diseases that existed before AIDS and were and are treatable.

This was and is the opinion of some of the leading virologists and biochemists in the world including Mullis who passed away last summer.

These people were called “AIDS dissidents” and their reputations and careers were savaged. (Mullis didn’t care because he had his Nobel Prize and practical work, not begging for research dollars, was the source of his income.)

Basically, if a flawed test determined you “had AIDS” and if you had a certain T cell count (a count which fluctuates wildly during the day), you were declared an “AIDS patient” – even if you were 100% healthy in every way.

Thanks to the dark and dense psychic cloud Fauci cast with the help of the news media and Pharma flunkies, many who got the “diagnosis” assumed they were going to die and gave up and/or submitted themselves to powerful chemotherapy treatments like AZT which in fact killed them.

So Judy greatly underestimates the evil at work here because she buys the original flawed premise that: a) there is a virus called HIV and b) it causes a thing called AIDS that only Tony Fauci can deal with.

Not only has Fauci used the AIDS Hoax as his personal money pump – to the tune of HUNDREDS OF BILLIONS under his personal control – he is responsible for the death of countless people. (See AZT, the chemotherapy given to, and sometimes forced on, NON-SYMPTOMATIC people – including children – that resulted in death.)

Covid is the SAME scam.

1. Take a naturally occurring illness (in sick places with sick populations like Wuhan, Northern Italy and New York City)
 2. Attribute it to a “virus” that causes a new “brand name” disease
 3. Scare people out of their minds that the disease is fatal, easily transmissible and incurable.
 4. Change diagnostic criteria to dramatically multiply the number of “cases” – and create a lot of drama about its growth and spread
 5. Lie about the nature of the victims and their previous health and medical problems to make it appear anyone can get it. Across the board at least 25% of all Covid fatalities are nursing home patients. This is a disease that kills the already sick. For AIDS, the classic full blown “syndrome” only hit drug abusers and male homosexual drug abusers who were extraordinarily promiscuous. This was then painted as the fate of anyone with a positive HIV test.
 6. Exaggerate wildly about how it is “transmitted”.
 7. Viciously suppress any therapies that actually work and actively promote ones that don’t (vents) which creates a higher death rate. A course of AZT was a death sentence for “AIDS patients.”
 8. Viciously suppress any scientists, doctors or patients who question the bogus “science” behind the scam.
 9. Get the public to clamor for a “cure” and a “vaccine.”
- Got it?

Covid-19 is the AIDS playbook.

And the Swine Flu, Ebola, Zika etc. playbook too.

AND NOW GOOGLE, WHICH OWNS PHARMA AND VACCINE COMPANIES, IS IN THE GAME TOO

Q: How do you know when Google is lying?

A: When their lips are moving

Search “HIV AIDS” on Google and you’ll see that they provide this handy dandy score card. Content straight from their own pointy little heads.

Have you ever seen anything like this on Google?

Well, you have now.

Who needs to make money the old fashioned way, when you can get in on Fauci's protection racket? Speaking of Fauci's racket, senior executives have been unloading their shares as fast as possible. Maybe this has to do with the 82% of the volunteers having side effects from the Moderna tests.

Corporate Insiders Pocket \$1 Billion in Rush for Coronavirus Vaccine

Well-timed stock bets have generated big profits for senior executives and board members at companies developing vaccines and treatments.

A trial of a potential coronavirus vaccine announced by Moderna in January. Since then, Moderna insiders have sold shares totaling about \$248 million.

On June 26, a small South San Francisco company called Vaxart made a surprise announcement: A coronavirus vaccine it was working on had been selected by the U.S. government to be part of Operation Warp Speed, the flagship federal initiative to quickly develop drugs to combat Covid-19.

Vaxart's shares soared. Company insiders, who weeks earlier had received stock options worth a few million dollars, saw the value of those awards increase six fold. And a hedge fund that partly controlled the company walked away with more than \$200 million in instant profits.

The race is on to develop a coronavirus vaccine, and some companies and investors are betting that the winners stand to earn vast profits from selling hundreds of millions - or even billions - of doses to a desperate public.

Across the pharmaceutical and medical industries, senior executives and board members are capitalizing on that dynamic. They are making millions of dollars after announcing positive developments, including support from the government, in their efforts to fight Covid-19. After such announcements, insiders from at least 11 companies - most of them smaller firms whose fortunes often hinge on the success or failure of a single drug - have sold shares worth well over \$1 billion since March, according to figures compiled for the *'New York Times'* by Equilar, a data provider.

In some cases, company insiders are profiting from regularly scheduled compensation or automatic stock trades. But in other situations, senior officials appear to be pouncing on opportunities to cash out while their stock prices are sky high. And some companies have awarded stock options to executives shortly before market-moving announcements about their vaccine progress.

The sudden windfalls highlight the powerful financial incentives for company officials to generate positive headlines in the race for coronavirus vaccines and treatments, even if the drugs might never pan out.

Some companies are attracting government scrutiny for potentially using their associations with Operation Warp Speed as marketing ploys.

For example, the headline on Vaxart's news release declared: "Vaxart's Covid-19 Vaccine Selected for the U.S. Government's Operation Warp Speed." But the reality is more complex.

Vaxart's vaccine candidate was included in a trial on primates that a federal agency was organizing in conjunction with Operation Warp Speed. But Vaxart is not among the companies selected to receive significant financial support from Warp Speed to produce hundreds of millions of vaccine doses.

"The U.S. Department of Health and Human Services has entered into funding agreements with certain vaccine manufacturers, and we are negotiating with others. Neither is the case with Vaxart," said Michael R. Caputo, the department's assistant secretary for public affairs. *"Vaxart's vaccine candidate was selected to participate in preliminary U.S. government studies to determine potential areas for possible Operation Warp Speed partnership and support. At this time, those studies are ongoing, and no determinations have been made."*

Some officials at the Department of Health and Human Services have grown concerned about whether companies including Vaxart are trying to inflate their stock prices by exaggerating their roles in Warp Speed, a senior Trump administration official said. The department has relayed those concerns to the Securities and Exchange Commission, said the official, who spoke on the condition of anonymity. It isn't clear if the commission is looking into the matter. An S.E.C. spokeswoman declined to comment.

Andrei Floroiu, the chief executive of Vaxart, received stock options worth about \$4.3 million in June. A month later, they were worth more than \$28 million. *"Vaxart abides by good corporate governance guidelines and policies and makes decisions in accordance with the best interests of the company and its shareholders,"* Vaxart's chief executive, Andrei Floroiu, said in a statement on Friday. Referring to Operation Warp Speed, he added, *"We believe that Vaxart's Covid-19 vaccine is the most exciting one in O.W.S. because it is the only oral vaccine (a pill) in O.W.S."*

Well-timed stock transactions are generally legal. But investors and corporate governance experts say they can create the appearance that executives are profiting from inside information, and could erode public confidence in the pharmaceutical industry when the world is looking to these companies to cure Covid-19.

"It is inappropriate for drug company executives to cash in on a crisis," said Ben Wakana, executive director of Patients for Affordable Drugs, a nonprofit advocacy group. *"Every day, Americans wake up and make sacrifices during this pandemic. Drug companies see this as a payday."*

Executives at a long list of companies have reaped seven- or eight-figure profits thanks to their work on coronavirus vaccines and treatments.

Shares of Regeneron, a biotech company in Tarrytown, N.Y., have climbed nearly 80 percent since early February, when it announced collaboration with the Department of Health and Human Services to develop a Covid-19 treatment. Since then, the company's top executives and board members have sold nearly \$700 million in stock. The chief executive, Leonard Schleifer, sold \$178 million of shares on a single day in May.

Alexandra Bowie, a spokeswoman for Regeneron, said most of those sales had been scheduled in advance through programs that automatically sell executives' shares if the stock hits a certain price.

Moderna, a 10-year-old vaccine developer based in Cambridge, Mass., that has never brought a product to market, announced in late January that it was working on a coronavirus vaccine. It has issued a stream of news releases hailing its vaccine progress, and its stock has more than tripled, giving the company a market value of almost \$30 billion.

Moderna insiders have sold about \$248 million of shares since that January announcement, most of it after the company was selected in April to receive federal funding to support its vaccine efforts.

The stock of Moderna, which has its headquarters in Cambridge, Mass., has more than tripled during its work on a vaccine.

While some of those sales were scheduled in advance, others were more spur of the moment. Flagship Ventures, an investment fund run by the company's founder and chairman, Noubar Afeyan, sold more than \$68 million worth of Moderna shares on May 21. Those transactions were not scheduled in advance, according to securities filings.

Executives and board members at Luminex, Quidel and Emergent BioSolutions have sold shares worth a combined \$85 million after announcing they were working on vaccines, treatments or testing solutions.

At other companies, executives and board members received large grants of stock options shortly before the companies announced good news that lifted the value of those options.

Novavax, a drug maker in Gaithersburg, Md., began working on a vaccine early this year. This spring, the company reported promising preliminary test results and a \$1.6 billion deal with the Trump administration.

In April, with its shares below \$24, Novavax issued a batch of new stock awards to all its employees "in acknowledgment of the extraordinary work of our employees to

implement a new vaccine program.” Four senior executives, including the chief executive, Stanley Erck, received stock options that were worth less than \$20 million at the time.

Since then, Novavax’s stock has rocketed to more than \$130 a share. At least on paper, the four executives’ stock options are worth more than \$100 million.

So long as the company hits a milestone with its vaccine testing, which it is expected to achieve soon, the executives will be able to use the options to buy discounted Novavax shares as early as next year, regardless of whether the company develops a successful vaccine.

Silvia Taylor, a Novavax spokeswoman, said the stock awards were designed “to incentivize and retain our employees during this critical time.” She added that “there is no guarantee they will retain their value.”

Two other drug makers, Translate Bio and Inovio, awarded large batches of stock options to executives and board members shortly before they announced progress on their coronavirus vaccines, sending shares higher. Representatives of the companies said the options were regularly scheduled annual grants.

Vaxart, though, is where the most money was made the fastest.

At the start of the year, its shares were around 35 cents. Then in late January, Vaxart began working on an orally administered coronavirus vaccine, and its shares started rising.

Vaxart’s largest shareholder was a New York hedge fund, Armistice Capital, which last year acquired nearly two-thirds of the company’s shares. Two Armistice executives, including the hedge fund’s founder, Steven Boyd, joined Vaxart’s board of directors. The hedge fund also purchased rights, known as warrants, to buy 21 million more Vaxart shares at some point in the future for as little as 30 cents each.

Selling Vaxart stock made more than \$197 million in profit for Armistice Capital, a hedge fund that owned two-thirds of the company’s shares.

Vaxart has never brought a vaccine to market. It has just 15 employees. But throughout the spring, Vaxart announced positive preliminary data for its vaccine, along with a partnership with a company that could manufacture it. By late April, with investors sensing the potential for big profits, the company’s shares had reached \$3.66 — a tenfold increase from January.

On June 8, Vaxart changed the terms of its warrants agreement with Armistice, making it easier for the hedge fund to rapidly acquire the 21 million shares, rather than having to buy and sell in smaller batches.

One week later, Vaxart announced that its chief executive was stepping down, though he would remain chairman. The new C.E.O., Mr. Floroiu, had previously worked with Mr. Boyd, Armistice's founder, at the hedge fund and the consulting firm McKinsey.

On June 25, Vaxart announced that it had signed a letter of intent with another company that might help it mass-produce a coronavirus vaccine. Vaxart's shares nearly doubled that day.

The next day, Vaxart issued its news release saying it had been selected for Operation Warp Speed. Its shares instantly doubled again, at one point hitting \$14, their highest level in years.

"We are very pleased to be one of the few companies selected by Operation Warp Speed, and that ours is the only oral vaccine being evaluated," Mr. Floroiu said.

Armistice took advantage of the stock's exponential increase — at that point up more than 3,600 percent since January. On June 26, a Friday, and the next Monday, the hedge fund exercised its warrants to buy nearly 21 million Vaxart shares for either 30 cents or \$1.10 a share — purchases it would not have been able to make as quickly had its agreement with Vaxart not been modified weeks earlier.

Armistice then immediately sold the shares at prices from \$6.58 to \$12.89 a share, according to securities filings. The hedge fund's profits were immense: more than \$197 million.

"It looks like the warrants may have been reconfigured at a time when they knew good news was coming," said Robert Daines, a professor at Stanford Law School who is an expert on corporate governance. *"That's a valuable change, made right as the company's stock price was about to rise."*

At the same time, the hedge fund also unloaded some of the Vaxart shares it had previously bought, notching tens of millions of dollars in additional profits.

By the end of that Monday, June 29, Armistice had sold almost all of its Vaxart shares. Mr. Boyd and Armistice declined to comment.

Mr. Floroiu said the change to the Armistice agreement "was in the best interests of Vaxart and its stockholders" and helped it raise money to work on the Covid-19 vaccine. He and other Vaxart board members also were positioned for big personal profits. When he became chief executive in mid-June, Mr. Floroiu received stock options that were worth about \$4.3 million. A month later, those options were worth more than \$28 million. Normally when companies issue stock options to executives, the options can't be exercised for months or years. Because of the unusual terms and the run-up in Vaxart's stock price, most of Mr. Floroiu's can be cashed in now.

Vaxart's board members also received large grants of stock options, giving them the right to buy shares in the company at prices well below where the stock is now trading. The higher the shares fly, the bigger the profits.

"Vaxart is disrupting the vaccine world," Mr. Floroiu boasted during a virtual investor conference on Thursday. He added that his impression was that *"it's OK to make a profit from Covid vaccines, as long as you're not profiteering."*

Once the public realizes that Moderna's own executives are profiting on unloading their stock shares, given the fact 82% of volunteers had side effects, you would have to wonder whether it is in your best interest to receive the "free" vaccine, which taxpayer money paid to manufacture without the proper testing needed to bring to market a safe and efficacious vaccine in less than 8 months that normally takes 7 years!

How To Legally Decline A Vaccine

STEP 1.)
DO NOT refuse a vaccine. Otherwise you will be considered belligerent. Instead you can politely decline the service by doing the following:

STEP 2.)
Ask the doctor, **"Does the vaccine have MRC-5 in it?" (THEY ALL DO)**
These are aborted fetal cells and other DNA.
If the vaccine contains MRC-5 you have the **RIGHT** to decline.

STEP 3.)
Also ask, **"Is there a possibility of a "LATROGENIC REACTION?"**
(an adverse reaction caused by multiple compounds or drugs interacting with each other) from the vaccine **(THEY ALL DO)**.
- When the doctor says, "yes it does," that is your "Get Out Of Vaccine Free Card." **Thank the doctor for their offer and walk away.**

Remember doctors have sworn the Hippocratic Oath (Which is to do no harm) They must honour it.
This is how we can **legally (and respectfully)** decline their offered mandated services and there is absolutely nothing they can do about it. Now you know!

The image also features a syringe and several vials with colored liquids (blue, green, red, yellow) on the right side.

You might want to memorize the above steps to legally decline the Moderna vaccine of choice coming to market. With contracts for 600-million doses in the pipeline, there are going to be plenty for all, especially since 42% of the public will decline the kill shots!
