

## **Dr. David Martin joins Stew Peters to talk about how we can end this nightmare called COVID-19.**

David has been spending the past year and a half fighting to unravel what he says is the global criminal conspiracy of coronavirus. Parties include the American and Chinese governments, the International Monetary Fund and Blackrock.

David says these groups are guilty of terrorism.

### **THE LONG MARCH THROUGH RACKETEERING**

David says the plot goes all the way back to 1984, when Anthony Fauci took over at NIAID, "And two years later, railroaded the first step in a global conspiracy to actually create a human dependency on vaccines.

"It is important to realize that the [1986 Act](#), which famously gave vaccine manufacturers immunity from liability and put that liability on the shoulders of the American People, was in fact the first step in a very long march to this moment in time and the fact of the matter is, every single pathogen that has come out from 1986 until the present has unfortunately yielded a public that still is dubious about vaccines.

"And as Peter Daszak said in his very famous quote from the National Academy of Sciences in February of 2016, the issue is "We must create 'hype' to get the public to buy off on what now is a gene therapy being illegally marketed as a vaccine so that the human race becomes dependent forever on the modified genetics created by a vaccine industry out of control.

"This is, without question a financial racketeering domestic terrorism case, which has international implications and violates at least 7 criminal felony laws in the United States...We've got to be really clear on the fact that this was not a public health emergency, this was a criminal conspiracy to create a domestic terrorism event, pure and simple...

"There's no question that it is a bioweapon. In 1998, Ralph Baric at the University of North Carolina at Chapel Hill perfected what was called an 'infectious replication-defective clone of coronavirus, specifically amplifying the spike protein so that it targeted human lung- and cardiac epithelial and endothelial tissue.

"This was from a decade-long research he had done into using coronavirus to amplify cardiomyopathy in rabbits. In other words, picking a thing that was known to kill animals and amplifying it so that it would actually target humans.

"Anthony Fauci funded research in 1998 that was ultimately patented by University of North Carolina Chapel Hill in 2002 – and you heard that date correctly – 2002, a year

before we ever heard the word 'SARS' anywhere in the world – a year earlier, UNC Chapel Hill patented the coronavirus recombinant condition that actually made an infectious replication-defective clone of coronavirus specifically to target human tissue."

Stew notes that Fauci has testified before Congress three times and that no criminal referrals have ever been made. He says Ron Johnson has that authority, Rand Paul has that authority and yet neither have made them.

### **THE FELONIES**

According to David, the felonies committed are:

**18 USC §2339C** – *et seq.* – Funding and conspiring acts of terror. Punishable by 99 years in prison and up to \$100 million in fines if it involves corporations. Funding and conspiring to commit acts of terror is something Anthony Fauci and his criminal conspirators have been doing since 2002, when we knew that there was, in fact a successful NIAID platform, which was to essentially weaponize coronavirus.

**18 USC §2331 §§802** – Acts of domestic terrorism resulting in deaths of American citizens (The Patriot Act). Anything that is designed to coerce the public or governments into taking actions that they would not otherwise take is considered domestic terrorism. He says, "The reason why I'm actually careful with this one is because there is a published document for Pfizer that says that they have an 'acceptable death rate'...for their vaccines. That means there's pre-meditation loss of life. And we either have a Civil Action about Wrongful Death or a Criminal Action of Reckless Homicide or Murder, which is actually associated with any company that says that we have an 'acceptable death rate' for the products that are produced."

**18 USC §1001** – Lying to Congress. "Is not just the theater that Rand Paul and Anthony Fauci engage in but more insidiously, Stew and this one goes to the heart of the Racketeering Conspiracy: When Congress or the Congressional Budget Office, in the Fall of 2020 asked for an accounting from NIH on the patents and commercial interests that they owned in the proposed therapeutic interventions, including the vaccines and including other drugs, they failed to disclosed any – and listen carefully to what I'm saying – they failed to disclose any of NIH, NIAID or its affiliated financial organizations' financial interests in anything doing with coronavirus. That includes all of the mRNA platforms, that includes remdesivir and that includes Merck's most recent announcement, that in partnership with Ridgeback Pharmaceuticals, they are, in fact rolling out their new drug, which is like a remdesivir 2.0...none of those were disclosed in the published, audited report that was given to Congress in October of 2020.

**15 USC §1-3** – Conspiring to criminal commercial activity. "In this one, it's clear and simple. To get to an Emergency Use Authorization, you have to say there are no commercial alternatives. You have to disqualify every other treatment [as they have done with vitamins C and D, zinc, hydroxychloroquine, ivermectin, budesonide,

etc.]...they have taken treatment after treatment off the table so that the only solution that could be offered are drugs and injections that are, in fact incapable of standing up to the scrutiny of genuine clinical trials and must be authorized under Emergency Use Authorization only."

**15 USC §8** – Market manipulation and allocation. "They have manipulated the markets under three different felonies of our Antitrust laws...Over \$50 million has been awarded to the criminal conspirators without competition, meaning that the Federal Government is...giving the winners money [since 2012]...that is not open and fair competition."

**15 USC §19** – Interlocking directorates. "This is the most important one, in terms of the *prima facie* case...This is actually a law that's been on the books since the [Clayton Act](#) improvement to the [Sherman Act](#), our Antitrust laws in the United States and what it says is that you cannot allow people with commercial interlocking interests – in other words, people who should be in open competition – you cannot allow them to serve on the same board and accomplish anything, because, what will happen is they will have insider information, which makes their actions necessarily conflicted and by definition, anti-competitive..."

"These are not, by the way, crimes that require investigation. These are crimes by their own admission. Remember, that the quote that you read from Peter Daszak, from 2016...which says, 'We need the media to create hype to get the public to accept the thing, that is, by definition coercion. That is a felony, that is domestic terrorism and we must call it what it is. This is premeditated murder.'"

### **THE ATTORNEYS GENERAL ROUTE**

David says that Ron Johnson and Rand Paul have all of this information and in fact, every single sitting member of Congress has had this information for nearly 7 months. "Not a single person to date, save Rand Paul's one request for referral to the Department of Justice, not one sitting member of Congress has actually taken action on what we know to be *prima facie*."

Since our legislators will do nothing, David says, "The key thing right now is to get attorneys general to do what they did when it was – back in the day – when the Gremlin famously used to get rear-ended and the gas tanks exploded and it took a few people to actually say, 'Hold on a second, these cars need to get off the road and standing together, a number of AGs said, 'We're going to take action if the company doesn't.' The company took action, pulled the car off the road."

"Just like tobacco settlements, we forget about that...That was companies that knew they were making an addictive product. And ultimately, a number of attorneys general got together and said, 'We're going to prosecute this. We're going to end that criminal conspiracy.'"

"Every single time we have one of these, the only action that can be taken is a group – not one – but a group of attorneys general who actually are empowered by the people who elected them to do what they must do, which is to stand up and uphold the Constitution of the United States and uphold the constitutions of their respective states.

"The fact of the matter is, anyone not taking action in law enforcement right now is participating in a criminal conspiracy by omission, at least, if no commission."

David told an attorney general that he doubted that the Emergency Declaration that shut down the economy of his state had come out of his office and he said that of course it hasn't. David said it would be interesting to find out who did, "And that, we can only uncover with criminal discovery [because]...we will have the ability to find out who wrote those freaking memos, because we know they start with recital that we know are false.

"The only people who said there was a 'novel virus' all have undisclosed commercial interest in drugs that could only be authorized under an Emergency Use Authorization. There was not an independent member of the World Health Organization's International Committee on Taxonomy of Viruses. Not one! Not a single unconflicted party.

"So you actually have the people who made the determination that we have a pathogen happen to be the financially-interested parties, who only could get their drugs approved through an EUA. That's Racketeering, pure and simple."

David is optimistic that he may be able to get down the pathway of something slightly better than an attorney general action. He says that we must seize the communications of Peter Daszak, Anthony Fauci and Ralph Baric, as these hold records of this criminal conspiracy, dating to at least 2005, if not 2002.

#### **TRUMP'S E.O.**

David is asked about Trump's Executive Order and he says, "It's very disturbing. On September 18th, 2019, the World Health Organization announced that it would do a worldwide exercise in the release of a respiratory pathogen so that we could get a worldwide acceptance of a vaccine...

"The next day, within 24 hours, President Trump signed an Executive Order, which in fact laid out the pathway for this now-Warp Speed of developing alternative platforms for vaccines. The possibility that that was not coordinated is zero. That was a coordinated act. The President did not write an executive order overnight, having seen the World Health Organization publication the day before. There is no way that one day separating those two events is even theoretically possible.

"And in his testimony on December the 4th, in front of Congress in 2019 – remember, this is before anyone has heard – no one has heard of coronavirus! In fact, the World Health Organization declared it 'eradicated'. But on the 4th of December, 2019, Anthony

Fauci, in front of Congress made reference to that Executive Order, stating that it authorized him to build self-assembling nanoparticle vaccines and mRNA vaccines that needed to be done through the Department of Defense.

"This is a public admission that the administration in 2019 was manipulated and coerced into self-inflicted destruction. And I'm going to be really, really clear: You know I stick to only the facts, Stew, that's what I'm about. But there is something that is so deeply troubling in the sequence of events, that I have to go so far as to say, if this was not acts of Treason, I am shocked, because at no point do I actually believe that on September the 19th, that somehow, Donald Trump was convinced that somehow, he should be issuing executive orders to the DOD to actually make self-assembling nanoparticles and mRNA vaccines. My guess is he still doesn't entirely know what those things mean."

### **THE CRIMELINE**

Stew asks him who committed these acts of treason?

"Well, Fauci admitted it, so we might as well put him up where he belongs, because he, in fact admitted to the same. The good news is I'm not making an allegation. When you admit to something in advance of a public health emergency, you're actually admitting that you did it. Your fingerprints are on the gun and you're standing over the corpse...

"Do I think he acted alone? Absolutely not! Look at the fact that in 2016, when the UNC Chapel Hill paper was published that SARS coronavirus was "poised for human emergence", the SARS coronavirus they were making reference to was their modification of WIV1.

"WIV1, Stew is the Wuhan Institute of Virology Virus 1! That was 2016, people! That was not some sort of wet market, where somebody bought a bad bat in December of 2019. That was 2016 and it was called the Wuhan Institute of Virology Virus 1 because it was the COVID bioweapon that was designed from the 2013 samples taken from the six miners in China.

"That means that biological and chemical weapons laws were violated by transferring a known pathogen from China to the United States in 2016 to weaponize a virus against humanity."

Stew asks him why Rand Paul is stopping short of a criminal referral, here?

"Good fund-raising. Every time he does a smack-down with Fauci, he goes on all social media the next minute, going, "Look who's standing up for America, look who's holding Fauci accountable and people must know that he is actually failing to disclose the October 2014 letter from NIAID to the UNC Chapel Hill researchers, that said that their project was Gain-of-Function.

"Rand Paul has the letter in his possession. I know he has it, because I know it was given to him. And he refuses to drop the one piece of evidence which actually puts Fauci in jail."

This is why we have to directly to our attorneys general. These are the documents, which David is giving to attorneys general, which he encourages us to print out and send by Certified Mail to our states' attorneys general:
