

Depopulation

#1 Global Issue Since 1968

Part 17

Evidence of The Use of Pandemic Flu to Depopulate U.S.A.
by Jane Burgermeister

Although this information is dated but the scum have been doing the same thing now for over 100 years, AND UNDERSTAND SOMETHING, it was not influenza that killed millions of people in 1918, it was the vaccine created by a clan of Americans in their China factories.

Evidence that an international corporate criminal syndicate, which has annexed high government office inside the United States, is intent on carrying out a mass genocide against the people of the United States by using an artificial (genetic) flu pandemic virus and a forced vaccination program to cause mass death and injury and depopulate America in order to transfer control of the United States to WHO, the UN and affiliated security forces (UN troops from countries such as China, Canada, the UK and Mexico etc.).

I.

Introduction:

Summary of Claims There is evidence that an international corporate criminal syndicate, which has annexed high government office at Federal and State level, is intent on carrying out a mass genocide against the people of the United States by using an artificial (genetic) flu pandemic virus and forced vaccine program to cause mass death and injury and depopulate America in order to transfer control of the United States to the United Nations and affiliated security forces (UN troops from countries such as China, Canada, the UK and Mexico).

There is proof many organizations – World Health Organization, UN as well as vaccine companies such as Baxter and Novartis – are part of a single system under the control of a core criminal group, who give the strategic leadership, and who have also funded the development, manufacturing and release of artificial viruses in order to justify mass vaccinations with a bioweapon substance in order to eliminate the people of the USA, and so gain control of the assets, resources, etc. of North America.

The motivation for the crime is classical robbery followed by murder although the scale and method are new in history.

The core group sets its strategic goals and operative priorities in secret using committees such as the Trilateral Commission, and in person to person contact in the annual Bilderberg meeting. It can be identified as the "Illuminati", a mafia-like group with family dynasties at its center.

Specifically, evidence is presented that Defendants President Barack Obama, President of the United States, David Nabarro, UN System Coordinator for Influenza, Margaret Chan, Director-General of World Health Organization, Kathleen Sibelius, Secretary of Department of Health and Human Services (HHS), Secretary Janet Napolitano, the Department of Homeland Security, David de Rothschild, banker, David Rockefeller, banker, George Soros, banker, and Alois Stöger, Austrian Health Minister, among others, are part of this international corporate crime syndicate which has, marching as one phalanx to carry out their plan of genocide, have developed, produced, stockpiled and used biological weapons to eliminate the population of the United States for financial and political gain.

Evidence is presented for contending that the defendants did conspire with each other and with others to devise, fund and participate in the final phase of the implementation of a covert international bioweapons program involving, among other entities, the pharmaceutical companies Baxter and Novartis, by first instructing for the bioengineering and, then release of lethal biological agents, specifically, the so-called "bird flu" virus and, the "so-called" swine flu virus, in order to have a pretext to implement a forced mass vaccination programmer, which will be the means for the administration of a toxic biological agent using the delivery system of an injection, so causing death and injury to the people of the United States in violation of the Biological Weapons Anti-Terrorism Act of 1989 (BWATA) passed into law in 1990, which extended the scope of bio-warfare materials regulation to include private individuals and non-state organizations, including corporations.

There is clear, verifiable and unambiguous proof that Baxter AG, Austrian subsidiary of Baxter International, based in Deerfield, Ill, deliberately, willfully and knowingly, sent out 72 kilos of live bird flu virus as one the most deadly bioweapons and supplied by the World Health Organization, Geneva, Switzerland in the winter of 2009 to 16 laboratories in four countries and so nearly triggered a pandemic.

There is strong evidence that this event was part of a covert biological warfare against the targeted US population by infiltrating a spectrum of organizations so that they actually march as one phalanx to carry out their plan of genocide.

The defendants have created, resourced and sustained a covert bioweapons system for purposes of mass murder with the help of the:

- WHO
- EU
- National research labs such as the CDC
- Vaccine companies
- FEMA

- Homeland Security

These organizations are interacting with each other to develop and distribute biological weapons in secret.

They have leveraged funding through the banking system as well as through the drug trade they control.

They have leveraged technology to improve their capability to use biological agents to eliminate the population of the US by developing genetic viruses such as the bird flu and swine flu virus in labs.

They have developed vaccine companies to deliver the biological agents to the population through vaccines, which will be compulsory in the event of a pandemic.

They have positioned themselves to profit from any pandemic they themselves create by securing funding and lucrative contracts for “anti dote” vaccines with governments and international organizations such as WHO far in advance.

They have implemented an illegal and unconstitutional regulatory framework to compel people to accept mass vaccinations so that the people of America will not be allowed to refuse an untested vaccine and they will not be allowed to sue for compensation.

They have installed a covert infrastructure of genocide in the USA, including FEMA camps with incinerators and mass graves.

They have trained police and other security and health organizations such as Homeland Security and FEMA to carry out the program of genocide, and to target American patriots calling for a return to the Constitution as terrorists.

They use organizations such as the CIA and the Freemasons, and means such as offshore bank accounts and blackmail, to carry out their covert plans.

They have made use of their control of the mainstream media to ensure that the people of America are given faulty information about the pandemic and so are more likely to accept the vaccines from the very same companies suspected of being involved in starting those same pandemics.

By eliminating the U.S. population, they aim to acquire the resources and assets of the country at relatively little expense and without being held accountable because the programmer of genocide is disguised as a necessary public health measure by the media and government agents they control.

They aim to introduce a new North American Union, including Canada and Mexico, under the authority of the Federal Reserve and patrolled by UN troops to maximize their political and economic control of the USA.

Specifically, evidence is presented that the vaccine company Baxter's Austrian subsidiary deliberately released live bird flu virus in February, 2009, nearly triggering a pandemic.

According to § 175 (a) of BWATA, there is extraterritorial Federal jurisdiction over an offense under this section committed by or against a national of the United States.

The amount of material was 72 kilograms.

This material was sent to 16 labs in four countries under a false label.

The 72 kilos of live bird flu virus was destined for the seasonal flu vaccine.

The deadly mixture of live bird flu virus and human flu virus were mixed in a Biosecurity level 3 facilities where basic protocol and procedures would make it impossible to ever mix a live virus bioweapon with vaccine material by accident.

The mixture was a super-wide spectrum combination H3N2 seasonal flu viruses and live, unlabeled H5N1 viruses. If both strains were to incubate and recombine in a human host, a virus could mutate via "reassortment" into a virulent airborne weapon that would cause a pandemic.

The material was not radiated before it was sent out, leaving the deadly virus alive.

It was only detected when a lab member in a lab in the Czech Republic tested a portion on ferrets and these died.

Lab staff in Austria and the Czech Republic was subsequently given preventative treatment against the bird flu in hospitals in Vienna, Austria.

There is evidence the Austrian Health Minister is involved in a cover up because he sent a vet to examine the incident and Baxter was given a green light to continue as before.

WHO supplied the live bird flu virus which Baxter used in its 72 kilos of contaminated material.

WHO has supplied the funding, licenses and regulatory framework for the development of the bird flu virus in labs and the "anti-dote" vaccine.

WHO has deliberately and systematically suppressed and manipulated scientific facts on the virus and vaccines to serve the interests of the international crime syndicate group.

WHO issues talking points and statements that are propagandist in style and designed to sway public opinion in favor of the vaccine.

WHO has rushed to declare a pandemic level 6 in disregard for the science in order to justify commandeering, together with the UN, national US government agencies and authorities, setting up a control center in the WHO Pandemic Control Room which has supercomputers linked to the UN.

WHO redefined "Pandemic" as "Widespread, spreading from human to human but not particularly dangerous" changing it from its previous definition of "widespread, rapidly spreading and very dangerous.

Legislation is in place which would require Americans to either submit to vaccination once a pandemic is declared by either the Secretary of Health and Human Services, the Governor of your State or both.

Refuse this vaccine and you will find yourself confined either as a felon without benefit of judge or jury if the offence is a State level one, or involuntarily incarcerated in Federal FEMA holding camps if the offence is a Federal one.

If you are in the U.S., entering or leaving the U.S. at that time, will be to either submit to a weaponized substance being injected into our bodies or involuntary detention.

You will have no right to claim compensation in case of death or injury from the vaccination under special immunity laws.

WHO has rushed to give companies such as Baxter funding and contracts to develop the swine flu vaccine in spite of the fact that Baxter has mixed 72 kilos of live bird flu with human flu vaccine material in a BSL-3 facility, failed to radiate it and sent it out to 16 labs in four countries as for the seasonal flu vaccine material locations.

About eight weeks later, a genetically engineered virus for worldwide interspecies flu pandemic breaks out close to Baxter's facilities in Mexico City and the same company is given contracts to produce vaccines for the outbreak.

Furthermore, Novartis, which caused the death of at least 21 homeless people in Poland due to their fully licensed bird flu vaccine has been awarded huge contracts by WHO and other governments.

The swine flu virus is an artificial, lab engineered and there is evidence it was released from a lab.

The vaccine for it will be produced in cell cultures that have been responsible for viruses such as AIDs.

Dangerous adjuvants such as squalene are to be added.

There is evidence that key members of the international criminal corporate syndicate discussed depopulation at their annual Bilderberg meeting in Greece attended by David Rockefeller.

The financial links between Illuminati crime gang members such as the Rockefellers and the Rothschild's and WHO, the UN and the EU as well as the banks that hold shares in vaccine companies, in media and in offshore banking appear to be extremely complex and need investigation by the appropriate law enforcement agencies.

II. **Factual Background**

1. Timeline and facts that establish probable cause

A. The Model State Emergency Health Powers Act, the NATIONAL SECURITY PRESIDENTIAL DIRECTIVE/NSPD 51 and HOMELAND SECURITY PRESIDENTIAL DIRECTIVE/HSPD-20 and other laws.

1. NATIONAL SECURITY PRESIDENTIAL DIRECTIVE/NSPD 51 and HOMELAND SECURITY PRESIDENTIAL DIRECTIVE/HSPD-20 allows the governors in each state to suspend the government and law and, among other things, confiscate and destroy facilities and resources in the interest of the public health without compensation to the owners, per Article IV Section 402(a). The State Legislatures are barred from intervening for a period of 60 days.

2. Under the National Emergency Act, the President "may seize property, organize and control the means of production, seize commodities, assign military forces abroad, institute martial law, seize and control all transportation and communication, regulate the operation of private enterprise, restrict travel, and, in a variety of ways, control the lives of United States citizens."

3.. NSPD-51/ HSPD-20 have created the position of National Continuity Coordinator without any specific act of Congress authorizing the position.

4. NSPD-51/ HSPD-20 appears to negate any a requirement that the President submit to Congress a determination that a national emergency exists, suggesting instead that the powers of the executive order can be implemented without any congressional approval or oversight. http://www.dhs.gov/xabout/laws/gc_1219263961449.shtm#1

5. The Model State Emergency Health Powers Act has been adopted in 38 States makes it a misdemeanor to a felony to refuse to take a mandated vaccine.

6. Legislation would require Americans to either submit to vaccination once a Pandemic State is declared by either the Secretary of Health and Human Services, the Governor of your State or both.

Refuse this vaccine and you will find yourself confined either as a felon without benefit of judge or jury if the offense is a State level one, or involuntarily incarcerated in Federal FEMA holding camps if the offense is a Federal one.

Law enforcement officers are allowed to use deadly force against felony suspects. If you are in the US, entering or leaving the U.S. at that time, will be to either submit to a weaponized substance being injected into our bodies or involuntary detention.

7. The "Model State Emergency Health Powers Act" allows the Government to seize and/or quarantine a town and all the people within it.

For the specific versions of that Act enacted in each individual state see
<http://www.publichealthlaw.net/MSEHPA/MSEHPA%20Surveillance.pdf>
(Model State Emergency Health Powers Act)
<http://www.pandemicflu.gov/plan/states/stateplans.html>

Once a town is quarantined, the government is allowed to seize all property and seize the rights of the people to resist government i.e. confiscating all civilian owned firearms.

8. People who suffer death or injury as a result of a government-mandated vaccine will be barred from seeking compensation under immunity provisions.

9. Section 63, Vaccination and Treatment of The Model State Emergency Health Powers Act, A Checklist of Issues, indicates those unwilling to submit to a vaccine will be subject to isolation or quarantine.
<http://www.ncsl.org/programs/health/modelact.pdf>

10. Mandatory vaccine simulation drills are planned for at least three states including Texas, Ohio and Alaska. (Maloney, County plans to deal with unthinkable, 2009)
<http://www.seguingazette.com/story.lasso?ewcd=7067c6003405a409>

11. The Massachusetts Legislature is fast-tracking legislation for Martial Law and mandatory vaccines in response to the current „swine flu outbreak“. (AP, 2009)
http://news.bostonherald.com/news/politics/view/2009_04_28_Mass__Senate_approves_pandemic_flu_prep_bill/

12. Any physician or other health care provider who refuses to perform medical examination or vaccinations as directed shall be liable for delicensing and the inability to continue to practice in the State.

13. the Act criminalizes refusal of medical treatment, making citizens liable for a misdemeanor if they refuse mandatory vaccines, per Article V Section 504(b). The Act gives the public health authority the right to isolate or quarantine a person on an ex parte court order, with no hearing for at least 72 hours. If the public health authority decides that an unvaccinated person is a risk to others, even if uninfected, he could be quarantined, per Article V Section 503(e).

14. The Act removes the States accountability for harm or deaths resulting from mandatory vaccines citing the state immunity clause: "Neither the State, its political subdivisions, nor, except in cases of gross negligence or willful misconduct, the Governor, the public health authority, or any other State official referenced in this Act, is liable for the death of or any injury to persons, or damage to property, as a result of complying with or attempting to comply with this Act or any rule or regulations promulgated pursuant to this Act," per Article VIII Section 804.

15. President Bush announced a new International Partnership on Avian and Pandemic Influenza to a High-Level Plenary Meeting of the U.N. General Assembly, in New York on Sept. 14, 2005. The 2005 plan, operative until Bush announced the International Partnership on Avian and Pandemic Influenza, directed the State Department to work with the WHO and U.N.

<http://www.hhs.gov/pandemicflu/plan/appendixh.html>

16. The Security and Prosperity Partnership of North America Summit in Canada released a plan that establishes U.N. law along with regulations by the World Trade Organization and World Health Organization as supreme over U.S. law during a pandemic and sets the stage for militarizing the management of continental health emergencies.

17. the SPP plan gives primacy for avian and pandemic influenza management to plans developed by the WHO, WTO, U.N. and NAFTA directives – not to decisions made by U.S. agencies.

18. the U.S. Northern Command, or NORTHCOM, has created a web page dedicated to avian flu and has been running exercises in preparation for the possible use of U.S. military forces in a continental domestic emergency involving avian flu or pandemic influenza.

19. All 194 nation-states (members of U.N.) had until June 2007 to implement the WHO revised International Health Regulations (IHR) -- revised in 2005, which included passage of legislation empowering state surveillance and monitoring of their citizens under the guise of a potential worldwide pandemic (smallpox, polio, SARS or human cases of new strains of influenza). Stockpiling specific vaccines and anti-viral medications are part of compliance with IHR.

20. The U.N.-WHO-WTO-NAFTA plan advanced by SPP features a prominent role for the U.N. system influenza coordinator as a central international director in the case of a North American avian flu or pandemic influenza outbreak.

21. in Sept. 2005, Dr. David Nabarro was appointed the first U.N. system influenza coordinator, a position which also places him as a senior policy adviser to the U.N. director-general. Nabarro joined the WHO in 1999 and was appointed WHO executive director of sustainable development and health environments in July 2002.

22. In a Sept. 29, 2005, press conference at the U.N., Nabarro made clear that his job was to prepare for the H5N1 virus, known as the avian flu. He quantified the deaths he expected as follows: "I'm not, at the moment at liberty to give you a prediction on numbers, but I just want to stress, that, let's say, the range of deaths could be anything from 5 to 150 million."

23. The National Security and Homeland Security Presidential Directive, signed on May 9, 2007 declares that in the event of a "catastrophic event", George W. Bush can become what is best described as "a dictator":

"The President shall lead the activities of the Federal Government for ensuring constitutional government."

This directive gives the White House unprecedented dictatorial power over the government and the country, bypassing the US Congress and obliterating the separation of powers. The directive also placed the Secretary of Homeland Security in charge of domestic "security".

"(1) this directive establishes a comprehensive national policy on the continuity of Federal Government structures and operations and a single National Continuity Coordinator responsible for coordinating the development and implementation of Federal continuity policies. This policy establishes "National Essential Functions," prescribes continuity requirements for all executive departments and agencies, and provides guidance for State, local, territorial, and tribal governments, and private sector organizations in order to ensure a comprehensive and integrated national continuity program that will enhance the credibility of our national security posture and enable a more rapid and effective response to and recovery from a national emergency.

24.(b) "Catastrophic Emergency" means any incident, regardless of location, that results in extraordinary levels of mass casualties, damage, or disruption severely affecting the U.S. population, infrastructure, environment, economy, or government functions."

B. World Health Organization (WHO) and U.N.

25. The World Health Organization (WHO) is a specialized agency of the United Nations (UN) that acts as a coordinating authority on international public health. Established on 7 April 1948, and headquartered in Geneva, Switzerland, the agency inherited the mandate and resources of its predecessor, the Health Organization, which had been an agency of the League of Nations.

26. The WHO's constitution states that its objective "is the attainment by all peoples of the highest possible level of health."

27. The WHO and UN will become the controlling agencies in the U.S. in the event of a declared pandemic level 6.

28. The World Health Organization (WHO) has developed a global influenza preparedness plan, which defines the stages of a pandemic, outlines WHO's role and makes recommendations for national measures before and during a pandemic.

Phases

WHO Pandemic Influenza Phases (2009)

Phase Description

Phase 1 No animal influenza virus circulating among animals have been reported to cause infection in humans.

Phase 2 An animal influenza virus circulating in domesticated or wild animals is known to have caused infection in humans and is therefore considered a specific potential pandemic threat.

Phase 3 An animal or human-animal influenza reassortant virus has caused sporadic cases or small clusters of disease in people, but has not resulted in human-to-human transmission sufficient to sustain community-level outbreaks.

Phase 4 Human to human transmission of an animal or human-animal influenza reassortant virus able to sustain community-level outbreaks has been verified.

Phase 5 Human-to-human spread of the virus in two or more countries in one WHO region.

Phase 6 In addition to the criteria defined in Phase 5, the same virus spreads from human-to human in at least one other country in another WHO region.

Post peak period Levels of pandemic influenza in most countries with adequate surveillance have dropped below peak levels.

Post pandemic period Levels of influenza activity have returned to the levels seen for seasonal influenza in most countries with adequate surveillance.

29. "Efforts by the federal government to prepare for pandemic influenza at the national level include a \$100 million DHHS initiative in 2003 to build U.S. vaccine production.

30. Several agencies within Department of Health and Human Services (DHHS) — including the Office of the Secretary, the Food and Drug Administration (FDA), CDC, and the National Institute of Allergy and Infectious Diseases (NIAID) — are in the process of working with vaccine manufacturers to facilitate production of pilot vaccine lots for both H5N1 and H9N2 strains as well as contracting for the manufacturing of 2 million doses of an H5N1 vaccine.

31. On October 27, 2005, the Department of Health and Human Services awarded a \$62.5 million contract to Chiron Corporation to manufacture an avian influenza vaccine

designed to protect against the H5N1 influenza virus strain. This followed a previous awarded \$100 million contract to sanofi pasteur, the vaccines business of the sanofi-aventis Group, for avian flu vaccine.

32. According to The New York Times as of March 2006, "governments worldwide have spent billions planning for a potential influenza pandemic: buying medicines, running disaster drills, [and] developing strategies for tighter border controls" due to the H5N1 threat.

33. In October 2005, President Bush urged bird flu vaccine manufacturers to increase their production.

34. On November 1, 2005 President Bush submitted a request to Congress for \$7.1 billion to begin implementing the National Strategy To Safeguard Against The Danger of Pandemic Influenza. The request includes \$251 million to detect and contain outbreaks before they spread around the world; \$2.8 billion to accelerate development of cell-culture technology; \$800 million for development of new treatments and vaccines; \$1.519 billion for the Departments of Health and Human Services (HHS) and Defense to purchase influenza vaccines; \$1.029 billion to stockpile antiviral medications; and \$644 million to ensure that all levels of government are prepared to respond to a pandemic outbreak.

35. On 6 March 2006, Mike Leavitt, Secretary of Health and Human Services, said U.S. health agencies are continuing to develop vaccine alternatives that will protect against the evolving avian influenza virus.

C. 2009 Swine flu outbreak

36. In March and April 2009, an outbreak of a new strain of influenza commonly referred to as "swine flu" infected many people in Mexico and other parts of the world.

37. The new strain was first diagnosed in two children by the CDC, first on April 14 in San Diego County, California and a few days later in nearby Imperial County, California. [78] Neither child had been in contact with pigs.

38. The outbreak was first detected in Mexico City, where surveillance began picking up a surge in cases of influenza-like illness (ILI) starting March 18.

39. On April 18. The Mexican cases were confirmed by the CDC and the World Health Organization to be a new strain of H1N1.

40. Cases were also reported in the states of San Luis Potosí, Hidalgo, Querétaro and Mexico State. Mexican Health Minister José Ángel Córdova on April 24, said "We're dealing with a new flu virus that constitutes a respiratory epidemic that so far is controllable." Mexican news media speculate that the outbreak may have started in February near a Smithfield Foods pig plant amid complaints about its intensive farming practices, although no pigs in Mexico have tested positive for the virus.[citation needed]

41. The first death from swine flu occurred on April 13, when a diabetic woman from Oaxaca died from respiratory complications. The Mexican fatalities are alleged to be mainly young adults of 25 to 45.

42. Although by late April there had been reports of 152 "probable deaths" in Mexico, the WHO had received reports of only 7 confirmed deaths as of April 29 and explicitly denied the larger figure.

43. Mexico's Health Secretary declared that around 100 early suspected deaths from swine flu could not be confirmed because samples were not taken.

44. Cases were first discovered in the U.S. and officials soon suspected a link between those incidents and an earlier outbreak of late-season flu cases in Mexico. Within days hundreds of suspected cases, some of them fatal, were discovered in Mexico, with yet more cases found in the U.S. and several other countries in the Northern Hemisphere. Soon thereafter, the U.N.'s World Health Organization (WHO), along with the U.S. Centers for Disease Control and Prevention (CDC), expressed concern that the A(H1N1) could become a worldwide flu pandemic, and WHO then raised its pandemic disease alert level to "Phase 5" out of the six maximum, as a "signal that a pandemic is at the imminent level".

45. According to a Summary of latest H1N1 developments in the United States by Alexander S Jones May 19, 2009

A) H1N1 may have killed an infant in New York who developed cyanosis with rapid progression to death. This is an ominous parallel to 1918. This suggests viral pneumonia, but we have no confirmation. Whether this is from the New York 'consensus strain' or a new recombinant, mutant, or reassortant is unknown at this time.

<http://www.flutrackers.com/forum/showthread.php?t=105092>

http://www.myfoxny.com/dpp/health/swine_flu/090519_second_possible_death_from_swine_flu_in_new_york_city

B) Dr. Niman has estimated there are currently 1 - 10 million infections in the United States. This matches my own assessment. With a case fatality rate of 0.1%, we can expect 1000 - 10000 deaths -- although it has become clear at this point the authorities are covering up the spread of the virus. With a case fatality rate of 0.4%, we can expect 4000 - 40000 deaths.

http://www.recombinomics.com/News/05180901/Swine_H1N1_Japan_6.html

C) H1N1 is rapidly spreading in schools. The articles I have pasted below are only the tip of the iceberg -- this is across the country at this point.

Lowell had 123 students call in sick Monday and sent another 71 home with fevers and other flu like symptoms, the representative said

<http://www.flutrackers.com/forum/showthread.php?t=105174>

<http://www.bizjournals.com/phoenix/stories/2009/05/18/daily24.html>

The Dana Hall School in Wellesley has been shuttered for the next week after nearly 100 students and staff called in sick with fevers, sore throats, and other flu-like systems.

A spokeswoman for Dana Hall School in Wellesley said Tuesday there is no indication that swine flu is what prompted 90 students and eight faculty and staff members to call in sick on Monday, but the move was made after consulting with state and local public health officials.

A spokeswoman for the state Public Health Department says there are no confirmed swine flu cases at the school and no one associated with the school is being tested for the disease.

<http://www.flutrackers.com/forum/showthread.php?p=235635#post235635>

http://www.boston.com/yourtown/news/wellesley/2009/05/flu_closes_dana_hall_school_in.html

http://www.bostonherald.com/news/regional/view/2009_05_19_Wellesley_school_closes_after_ra_sh_of_illnesses/srvc=home&position=recent

D) There has been a death from a possible lethal coinfection, a dangerous event suggesting worse is to come -- see the case of the death from pneumonia of an oil platform worker who tested positive for multiple strains of the flu.

Possible Swine Flu Death in Little Rock

Reported by: KARK 4 News

Monday, May 18, 2009

The death of a 28-year-old man in a Little Rock hospital over the weekend could be linked to the H1N1 virus better known as Swine Flu.

That's according to Pulaski County Coroner Garland Camper , who tells KARK 4 that the man's autopsy revealed he had suffered from more than one strain of flu. Camper calls that "somewhat unusual."

Camper says the man was an offshore oil worker who had been in the hospital with flu-like symptoms, and had reportedly been ill for weeks.

<http://arkansasmatters.com/content/fulltext/news/?cid=222431>

E) Data has become available from case studies in California , from H1N1 hospitalizations.

15/25 patients have lung infiltrates, almost half have vomiting... this is somewhat disturbing.

The best predictive symptoms based on this data are:

- 1) Fever (97%)
- 2) Cough (77%)
- 3) Lung infiltrates (60%)

4) Vomiting (46%)

5) Shortness of breath (43%)

#3 and #4 are unusual for influenza

<http://www.flutrackers.com/forum/showthread.php?p=235601#post235601>

F) An article in Science from last week estimated the H1N1 case fatality rate is 0.4% -- four times higher than seasonal flu.

<http://www.flutrackers.com/forum/showthread.php?p=235601#post235601>

G) The ER in New York has become overwhelmed with patients -- on Tuesday, seeing double the number of children who present with respiratory symptoms.

Alan D. Aviles, the president of the city's Health and Hospitals Corporation, said that emergency admissions were running about 50 percent higher than usual for adults and "more than 100 percent above average" for children.

<http://www.flutrackers.com/forum/showpost.php?p=235577&postcount=23>

<http://cityroom.blogs.nytimes.com/2009/05/19/toddlers-death-stokes-flu-concerns/?hp>

46. "The first case was seen in Mexico on April 13. The outbreak coincided with the President Barack Obama's trip to Mexico City on April 16. Obama was received at Mexico's anthropology museum in Mexico City by Felipe Solis, a distinguished archeologist who died the following day from symptoms similar to flu, Reforma newspaper reported. The newspaper didn't confirm if Solis had swine flu or not. "

<http://www.bloomberg.com/apps/news?pid=20601087&sid=aEsNownABJ6Q&refer=worldwide>

47. The Paris-based World Organization for Animal Health (OIE) said April 27th that virus currently circulating in Mexico and the United States and which has killed at least 20 people had never been found before in any animal and was completely new.

"The virus has not been isolated in animals to date. Therefore, it is not justified to name this disease swine flu," the OIE said in a press statement.

The virus "includes in its characteristics swine, avian and human virus components," the OIE said, and urged that it be called "North American influenza," after its geographic origin.

The OIE said it was "urgent" that scientific research be carried out to determine the susceptibility of animals to what it said was a "new virus."

48. The new strain is an apparent reassortment of four strains of influenza A virus subtype H1N1. Analysis by the CDC identified the four component strains as one endemic in humans, one endemic in birds, and two endemic in pigs (swine).

49. **Alexander S Jones**, former employee the NIH, has analyzed the genome sequence of the virus and concluded we **“must seriously consider a laboratory origin for this virus”**.

“BLAST sequence homology of 'swine flu' indicates both the Hemagglutinin (HA) surface protein as well as the Non-structural (NS1) interferon Inhibition proteins are novel recombinants previously unidentified in nature. Both these influenza proteins, based on the genetic sequences released Friday May 1st by the U.S. Centers of Disease Control (CDC), share their closest genetic identity with turkey (avian) and pig (swine) strains from multiple continents including North America as well as Asia. Even the closest matches indicate 5% previously unidentified genetic material.

I submit this evidence, coupled with the lack of the presence of this virus at the pig farm near the proposed CDC's "patient zero" (a 5 year old from La Gloria, 80km away from the pig farm in Perote, Mexico), shows that the origin of the flu outbreak remains unidentified at this time, and cannot be ascribed to Mexican or North American swine.

Furthermore, I submit that since 5% of both these influenza A RNA sequences share no known homology in any public databases (in addition to the avian/swine hybrid nature of both these critical genes), that we must seriously consider a laboratory origin for this virus.

Future research that may be promising includes identifying critical SNPs, especially in the PB2 and the NS1 coding regions which may be markers for evolution of pathogen virulence, and should be closely monitored. The hemagglutinin protein should also be monitored for acquisition of a poly-basic amino acid site which would give the virus pantropic properties as in the 1918 pandemic. “(Alexander S Jones)

50. The World Health Organization on May 11 said leading vaccine producers including Baxter, Novartis, GlaxoSmithKline and Sanofi-Aventis had requested “wild type virus” samples of the A (H1N1) or swine flu virus. MedImmune, which is now part of AstraZeneca, Baxter, CSL and Solvay are also being sent samples, as are smaller developers Microgen, Nobilon International, Omnivest Vaccines and Vivaldi. The WHO is co-coordinating scientific discussions over the virus, and has said that, within the next few weeks, it is likely to make a recommendation on whether and how to produce a pandemic vaccine.

51. Latest Pandemic Time Estimates, based on Los Alamos Flu Simulation

<http://www.lanl.gov/news/images/bird4x3red.mov>

by Alexander S Jones

*using baseline U.S. zero day of April 20th, 2009

Monday April 20 Day 1

Monday April 27 Day 7

Monday May 4 Day 14
Monday May 11 Day 21
Monday May 18 Day 28
Monday May 25 Day 35
Monday June 1 Day 42
Monday June 8 Day 49 <-- WHO Declares Phase 6 (by Day 53, aka by Friday June 12th)
Monday June 15 Day 56
Monday June 22 Day 63 <-- Cases Go Exponential (by Day 60, aka by Friday June 19th)
Monday June 29 Day 70
Monday July 6 Day 77
Monday July 13 Day 84
Tuesday July 14 Day 85
Wednesday July 15 Day 86
Thursday July 16 Day 87 <-- Wave 1 Outbreak Peaks (by Day 87, aka by Thursday July 16th)
Wave 2 Outbreak Peaks at +90 days, so approx. mid-October

52. The CDC announced on 10 Jun 2009 that in the event of a pandemic, flights would be rerouted to Miami International Airport and 18 other major U.S. airports, according to plans by the CDC. The U.S. Centers for Disease Control and Prevention has set up stand-by quarantine/screening facilities at the 19 airports to which all flights from affected countries would be diverted.

53. WHO Director-General Dr. Margaret Chan announced that the World Health Organization is raising its pandemic alert to phase 6 on Thursday, June 11th.

54. The WHO Pandemic Six level declaration entitles President Obama to impose martial law and deploy FEMA and the Department of Homeland Security "Pandemic Task Forces". Each State Governor will be notified that the provisions of the Model State Emergency Health Powers Act (MSEHPA) will be implemented. This means that all Americans must consent to mass vaccinations, or be guilty of a felony crime. The legal situation is that anyone who refuses the vaccine, and/or resists forced relocation to a prepared "quarantine compound", can "legally" be shot and killed because police are allowed to use „deadly force“ against felony suspects.

III.

Evidence the “swine flu“ vaccines are bioweapons

The “bird flu” has been classified by the United States government in its own export regulations as a “biological weapon”, and there are grounds for believing the “swine flu”, likewise, is a bioengineered virus and a component of a biological weapons system as defined by Section 175 (a) of BWATA designed, like the “bird flu”, to deliver toxins and microorganisms so as to deliberately inflict disease or death on people while being disguised as injections for prophylactic, protective, or other peaceful purposes.

Commerce Department regulations supplement listing pathogens whose vaccines are subject to export restrictions for countries classified as sponsors of terrorism (see pages 57-60, 70)

<http://www.access.gpo.gov/bis/ear/pdf/ccl1.pdf>

The United States bars the export of vaccines for the bird flu, smallpox, yellow fever, and many other pathogens to five countries classified as sponsors of terrorism.

Under Department of Commerce rules, a long list of vaccines for viruses, bacteria, and biological toxins cannot be exported to Cuba, Iran, North Korea, Sudan, and Syria unless they obtain a special export license, which can take weeks. ***[the problem is the deep state and the private interests who run it, anyone with any god given sense left can see that China is also under attack right now. DC]***

The list of pathogens subject to the rules includes viruses that cause dengue fever, Ebola fever, Marburg fever, Rift Valley fever, and monkeypox. A list of animal pathogens covered by the restrictions includes highly pathogenic bird flu viruses. Bacterial pathogens on the restricted list include anthrax and the microbes that cause tularemia and plague. Not on the list are the causes of common vaccine-preventable diseases, such as measles, mumps, rubella, chickenpox, and seasonal influenza.

The ***Associated Press*** reports that vaccines for bird flu are barred from being exported to nations classified as terrorist.

"Deep inside the United States export regulations is a single sentence that bars U.S. exports of vaccines for avian bird flu and dozens of other viruses to five countries designated "state sponsors of terrorism."

http://news.yahoo.com/s/ap/20081011/ap_on_re_as/as_bird_flu_biological_warfare;_ylt=An9Wo LAijbbjeNwhYV6N98Ws0NUE

US controls bird flu vaccines over bioweapon fears

By ROBIN McDOWELL,

Associated Press Writer

Sat Oct 11, 7:14 AM ET

When Indonesia's health minister stopped sending bird flu viruses to a research laboratory in the U.S. for fear Washington could use them to make biological weapons, Defense Secretary Robert Gates laughed and called it "the nuttiest thing" he'd ever heard. [OH Yeah Washington has never done anything underhanded in its entire existence, god politicians disgust me DC]

Yet deep inside an 86-page supplement to United States export regulations is a single sentence that bars U.S. exports of vaccines for avian bird flu and dozens of other viruses to five countries designated "state sponsors of terrorism."

The reason: Fear that they will be used for biological warfare.

So, the United States government views vaccines as tools of biological warfare, giving indirect confirmation to the fears of the Indonesian Health Minister.

Furthermore, Ex-HHS Secretary Mike O. Leavitt refused to provide BIRD FLU VACCINES created by contract with Sanofi-Pasteur to rogue "terrorist" nations like Iran, North Korea, and Syria solely because the VACCINE could be used as a "BIOLOGICAL WEAPON" by "terrorist nations".

Leavitt recently declared that a pandemic is "nature's terrorist".

http://news.yahoo.com/s/ap/20090509/ap_on_he_me/med_swine_flu_pivotal_moments) and <http://www.federalnewsradio.com/?nid=35&sid=1670164>.

Here we have ex-HHS secretary Leavitt, declaring that a pandemic is a useful form of "terrorism".

Since untested, untried, and potentially lethal "experimental vaccines" are restricted as "biological weapons" from distribution to "rogue nations", why even contemplate forcing the same "vaccine" onto American citizens?

The only purpose for forcing American citizens to take these vaccines can be to cause death and injury under the guise of employing them for peaceful purposes because these vaccines are according to the United States government's own regulations so dangerous they have to be kept out of the hands of "terrorist nations" for fear they might use them in a terrorist attack.

Any group of American, dual- American citizens or citizens of other countries who knowingly develops, produces, stockpiles, transfers, acquires, retains, or possesses any biological agent, toxin, or delivery system for use as a weapon against the people of America, or knowingly assists a foreign state or any organization to do so, also employing deceit and fraudulent misrepresentation violates BWATA (see Attachment 1). "Section 175: Prohibitions with respect to biological weapons.

(a) IN GENERAL- Whoever knowingly develops, produces, stockpiles, transfers, acquires, retains, or possesses any biological agent, toxin, or delivery system for use as a weapon, or knowingly assists a foreign state or any organization to do so, shall be fined under this title or imprisoned for life or any term of years, or both. There is extraterritorial Federal jurisdiction over an offense under this section committed by or against a national of the United States."

The Act broadly defines several terms related to biological warfare of vector, toxin, biological agent and delivery system.

The "swine flu" virus fits the BWATA definition for classification as a bioweapon as: ***any micro-organism, virus, infectious substance, or biological product that may be engineered as a result of biotechnology, or any naturally occurring or bioengineered component of any such microorganism, virus, infectious substance, or biological product, capable of causing death, disease, or other***

biological malfunction in a human, an animal, a plant, or another living organism; deterioration of food, water, equipment, supplies, or material of any kind or deleterious alteration of the environment

The "swine flu" has killed and injured people in the United States alone and so meets the BWATA of a toxin:

- "Toxin: "whatever its origin or method of production -- any poisonous substance produced by a living organism; or any poisonous isomer, homolog, or derivative of such a substance".

The forced injections of the population with toxins under guise of offering prophylactic treatment are the delivery system as defined by BWATA. The vaccination process itself will release a fully weaponized virus:

- "Delivery system: "any apparatus, equipment, device, or means of delivery specifically designed to deliver or disseminate a biological agent, toxin, or vector".

Constituting the vector as defined by BWATA are the people of the United States who will be injected by force en masse with disease producing microorganisms, and so allow the virus to mutate and develop into more lethal strains.

- "Vector: "a living organism capable of carrying a biological agent or toxin to a host"."
- According to other sources, a top scientist for the United Nations, who has examined the outbreak of the deadly Ebola virus in Africa, as well as HIV/AIDS victims, has concluded that the current swine flu virus possesses certain transmission "vectors" that suggest the new strain has been genetically-manufactured as a military biological warfare weapon.

The UN expert believes that Ebola, HIV/AIDS, and the current A-H1N1 swine flu virus are biological warfare agents.

IV.

Scientific evidence the "swine flu" virus is an artificial (genetic) virus.

Evidence comes from the Paris-based World Organization for Animal Health (OIE), which said on April 27th the virus currently circulating in Mexico and the United States and which has killed at least 20 people has never been found in any animal.

"The virus has not been isolated in animals to date. Therefore, it is not justified to name this disease swine flu," the OIE said in a press statement.

The virus "includes in its characteristics swine, avian and human virus components," the OIE said, and urged that it be called "North American influenza," after its geographic origin.

The OIE said it was "urgent" that scientific research be carried out to determine the susceptibility of animals to what it said was a "new virus."

Also, Adrian Gibbs, the Australian virologist, who was one of the first to analyze the genetic construction of the swine flu virus, and who was part of the team which developed anti-flu vaccines Tamiflu and Relenza, believes the disease - which has spread across the world in recent weeks – was made in laboratories.

Gibbs and two colleagues analyzed the publicly available sequences of hundreds of amino acids coded by each of the flu virus's eight genes. He said he aims to submit his three-page paper today for publication in a medical journal.

The World Health Organization is investigating a claim by an Australian researcher that the swine flu virus circling the globe may have been created as a result of human error., according to a report on May 13 (Bloomberg)

<http://www.bloomberg.com/apps/news?pid=20601124&sid=aShZig0Cig4g>.

Andrew Rambaut, a viral geneticist at the University of Edinburgh, has said: ***“The new neuraminidase gene that came in from Eurasian swine is one we’ve never before seen circulating in humans.”***

“This is what we call a reassortment between two currently circulating pig flu viruses,” he said.

“Why it’s emerged in humans is anyone’s guess. It hasn’t been seen before in pigs as far as I know.”

<http://www.wired.co.uk/news/archive/2009-04/29/swine-flu-genes-from-pigs-alone.aspx>

V.

Scientific evidence the “swine flu” was bioengineered to resemble the Spanish flu virus of 1918.

Research scientist working on the recreation of the 1918 flu allege that the Spanish flu genetic material has been re-engineered to synthetically create what is now known as the A/H1N1 virus, or as the Centers for Disease Control (CDC) calls it, the “novel flu.”

The Spanish flu genetic material was obtained from the corpses of victims of the 1918 Spanish flu buried in the Arctic permafrost.

http://onlinejournal.com/artman/publish/article_4724.shtm

The history of the synthetic H1N1 flu virus and a not-so-rosy future

By Wayne Madsen

Online Journal Contributing Writer

May 21, 2009, 00:20

<http://www.waynemadsenreport.com/>

The history of the extraction of the genetic material from the corpses of victims of the 1918 Spanish influenza virus who were buried in Arctic permafrost is part “X-Files” and part “Jurassic Park.”

After an unsuccessful 1951 mission, that involved U.S. biological warfare specialists, to extract 1918 Spanish flu genetic material in 1951 from a cemetery in the Inupiat Eskimo village of Brevig Mission, Alaska, scientists made another attempt, a successful one it turns out, in 1997. ***[nothing good can come out of that, as a side note, how many of you caught the story of the 'perfectly intact bear from the ice age that the Russians found in a cave? some things are best left to lay in peace, I do not think this 'bear' should be disturbed. DC]***

Dr. True Ott has reported that the published definition of the swine flu by the NCSL is identical to what Jeffrey Taubenberger found in his 1997 initial findings concerning the 1918 killer virus which he successfully resurrected 6 years later.

It easiest to explain this highly improbable match between the two viruses by assuming the “swine flu” virus was deliberately, and systematically engineered to resemble the 1918 Spanish killer flu virus.

Dr. Ott explains that the Taubenberger initial 1997 report identified the 1918 killer virus as a “novel” (new) swine flu that “recombined” avian (H5N1) as well as human (H3N2) virus fragments in its RNA structure.

Taubenberger, so Dr. Ott argues as he reconstructs the events, then used a complex computer program to perfectly match the RNA and DNA structures, in order to replicate and “resurrect” the 1918 killer Spanish flu virus as a powerful biological weapon.

“SWINE FLU 2009” IS WEAPONIZED 1918 “SPANISH FLU”

By A. True Ott, PhD, ND

“The “Spanish” influenza pandemic killed at least 20 million people in 1918-1919, making it the worst infectious pandemic in history.

Understanding the origins of the 1918 virus and the basis for its exceptional virulence may aid in the prediction of future influenza pandemics. RNA from a victim of the 1918 pandemic was isolated from a formalin-fixed, paraffin-embedded, lung tissue sample. Nine fragments of viral RNA were sequenced from the coding regions of hemagglutinin, neuraminidase, nucleoprotein, matrix protein 1, and matrix protein */2. The sequences are consistent with a novel H1N1 influenza A virus that belongs to the subgroup of strains that infect humans and swine, not the avian subgroup.”

/* */ /*

SOURCE: Science Magazine Report, 21 March 1997, Dr. Jeffrey Taubenberger et. al. See <http://www.sciencemag.org/cgi/content/abstract/275/5307/179>

Taubenberger's initial report identified the 1918 killer virus as a "novel" (new) swine flu that "recombined" avian (H5N1) as well as human (H3N2) virus fragments in its RNA structure. Taubenberger used a complex computer program to perfectly match the RNA and DNA structures, and then successfully replicated and "resurrected" the 1918 killer flu as a powerful biological weapon in 2003, 6 years later. Now, indeed as Taubenberger foresaw in 1997, evil and conspiring men in positions of high power can not only PREDICT FUTURE INFLUENZA PANDEMICS, but they can also UNLEASH THEM AT WILL from laboratory test tubes in order to achieve socio-economic agendas.

It should concern EVERY MAN, WOMAN, AND CHILD in America (as well as the entire world) that according to the World Health Organization (WHO) and the Centers for Disease Control (CDC) in Atlanta, Georgia, the so-called "Swine Flu" infecting and killing human beings in Mexico and North America this spring and summer, is "a new subtype of the A/H1N1 not previously detected in swine or humans. This novel H1N1 influenza (swine flu) virus is a triple recombinant including gene segments of human, swine, and avian origin*."

<http://www.ncsl.org/?tabid=17089>

(Interestingly, the National Council of State Legislatures (NCSL) is an unelected bureaucracy of policy-makers instigated and promulgated by Utah's Dixie Leavitt, the father of Mike O. Leavitt the PANDEMIC FLU GURU of the Bush administration.)

This published definition by the NCSL is IDENTICAL to the Taubenberger 1997 initial findings concerning the 1918 killer virus which he successfully resurrected 6 years later. Is this just a bizarre, meaningless coincidence? You decide.

The 1918 virus pandemic was the direct result of TYPHUS FEVER VACCINES injected into 23 millions of soldiers during the Great War (WW I). John D. Rockefeller labs and factories in China produced these Typhus vaccines in 1916 by harvesting pus from infected humans, injecting the infectious matter into pig hosts, then mixing the harvested contaminants into chicken egg albumin to be injected into human hosts as a "vaccine".

Rockefeller, always a shrewd businessman, supplied both sides, (German as well as Allied armies) with his toxic and lethal vaccine brew. Immediately after vaccination, many soldiers fell ill with what was called at the time "Para-Typhoid" infection --- i.e. nausea, vomiting, diarrhea, and killing pneumonia. Subsequent waves spread across the globe, killing as many as 50 million innocent souls worldwide. (Source: The Horrors of Vaccination – Higgins, 1921)

Only much later did the world's medical establishment wrongfully label and name the deadly recombinant virus accidentally spawned by Rockefeller's vaccine the "1918 Spanish Flu". Of course, Rockefeller's multi-billion dollar pharmaceutical empire could not afford to label it what it really was: "Vaccine-Induced Disease of 1918".

Today, the stage is set for eugenics and genocide on a truly massive scale. The Taubenberger Frankenstein monster has been released and hundreds of millions of 1918 influenza vaccine serums have been produced.

It was an accident in 1918, however the subsequent cover-up is/was unconscionable. What is occurring now is inexcusable and criminal in the extreme. **[I disagree 100% on 1918 being an accident, That POS Rockefeller knew exactly what he was doing, and clearly the POS clan still has factories in China. DC].**

Mother Nature does not “naturally” recombine bird, swine and three human influenza viruses. (Birds do not exchange bodily fluids with pigs and humans in unnatural sexual liaisons --- only sick, warped scientists can create such a monstrosity.)

Mexico's top government epidemiologist said Wednesday that it is "highly improbable" that a farm in the Mexican state of Veracruz operated by Smithfield Foods Inc. is responsible for the nation's swine-flu outbreak.

Miguel Ángel Lezana, the government's chief epidemiologist, said in an interview that pigs at the farm are from North America, while the genetic material in the virus is from Europe and Asia.

<http://online.wsj.com/article/SB124105320874371313.html>

Dr. Leonard Horowitz states in a 10.41 mins YouTube clip that the swine-bird-human flu strain in Mexico could have only come from Dr. James S Robertson and colleagues because: **"nobody else takes H5N1 Asian-flu infected chickens, brings them to Europe, extracts their DNA, combines their proteins with H1N1 viruses from the 1918 Spanish flu isolate, additionally mixes in some swine flu genes from pigs, then reverse engineers them to infect humans."**

" <http://www.youtube.com/watch?v=GBeKB7aKzOs>

In addition, Dr. Horowitz indicates that there is hard evidence to show that **Dr. James Robertson** believes it is OK to prime populations worldwide by releasing viruses he and his colleagues are creating in advance of a pandemic.

Dr. Horowitz mentions the involvement of Dr. Rick Bright who has ties to the WHO, the CDC and Novovax Inc, and is involved in PATH - Influenza Vaccine Project in the Vaccine Development Global Program.

The author of this article has done an amazing recap history of how our own government has managed to deceive the public, while all along really been financing and overseeing the orchestrated efforts to cull the population through biological warfare. Since 1999, I have been keeping a file of documents like this. What I have been doing is saving hard copy of the first two pages of evidence from articles that show the American public has been the victim of a well-planned effort to reduce the population through pathogens created in its many BSL labs, both inside the U.S., and its operations in other countries around the world. In twenty-three years, I have had to

replace my computer at least three times due to hard-drive crashes or external attacks. By saving the first two pages, I am able to save the URL links of where the data can be found, and not have a basement full of printed documents. Even saving the first two pages of documents and reports, I filled up a Rubbermaid container of folders.

This series came as a result of the creation of the Club of Rome in 1968. Their elite benefactors set a course to reduce the world's population, even engraving the plan to keep the world's population at under 500-million. This series is the collective narrative of what the Rockefellers, Gates, and Rothschild's have poured their money into global genocide and eugenics through what is called "*Silent Weapons for Quiet Wars*".

Those in power have the advantage of people's ignorance [lack of knowledge], and since I was indoctrinated in college by Paul Ehrlich's book, '*The Population Bomb*', which was instrumental with world leaders, politicians, policy makers, pushing abortion and birth control that I saw a need to expose the truth a long time ago. Knowledge is power, and when you know the truth, you are unlikely to be coerced into taking a vaccine that was never needed. The entire criminal vaccine business was created to make billions for the big pharma industry and to ruin and destroy lives of children and their families. All of the vaccines since the 1950s have been a scam for this purpose. It will cost a family over a \$million dollars to care for a child with diagnosed with Autism.

God has a special place for those who maim and injure a child with the Jesuit needle of poison.

Blessings,

Pastor Bob, EvanTeachr@aol.com
