

## Dr. Tom Cowan & the Virus that is Not There

Dr. Cowan has a family medicine practice in San Francisco, where he focuses on nutrition, homeopathy and herbal medicine. He has served as vice president of the Physicians' Association for Anthroposophic Medicine and has written several books on these subjects.

He offers his Rudolph Steiner-influenced point of view about the coronavirus "global pandemic", which would look for the environmental causes of the illness, first.

He says, "In 1918, after the...biggest pandemic, the Spanish Flu pandemic of 1918, Steiner was asked what was this all about. And he said viruses are simply excretions of a toxic cell. Viruses are pieces of DNA or RNA, with a few other proteins. They butt out from the cell. They happen when the cell is poisoned. They are not the cause of anything.

Above is a picture of Dr. Tom Cowan's new book and a MUST READ if you want to have peace of mind in the world of insanity. It has only been out in the stores a few months and will have impact upon the criminal likes of Dr. Anthony Fauci, Dr. Robert Redfield, and Dr. Deborah Birx; and we must include the eugenics advocate

And we put satellites emitting radioactive frequencies in the Van Allen Belt. Within six months, we had a viral pandemic. Why viral? Because the people are poisoned. They excrete toxins. They look like viruses. People think it's a flu epidemic.

...you can read about this in a book called *'The Invisible Rainbow'*, by Arthur Furstenberg, who chronicles all the steps in the electrification of the Earth and how within six months, there was a new flu pandemic all over the world.

...how did it go from Kansas to South Africa in two weeks, so the entire world got the symptoms at the same time, in spite of the fact that the mode of transportation was horseback and boats. And there's no explanation for it. They just say we don't know how that happened.

But when you think about it, with these radio waves and other frequencies that some of you have in your pocket and on your wrist, you can send a signal to Japan and it arrives instantaneously. So any of you who don't believe there is an electromagnetic field that communicates globally within seconds, is just is not paying attention to this.

And I will only finish by pointing out that there has been a dramatic and quantum leap in the last six months with the electrification of the Earth. And I'm sure a lot of you know what that is, it's called: 5G, where there now have 20,000 radiation-emitting satellites, just like the radiation-emitting thing in your pocket and on your wrist and that you use all the time.

That is not compatible with health. I'm sorry to say it. It's not compatible with health. That is a water-destructuring device.

And for any of you who say, 'Yeah, well we're not electrical beings. We're just physical matter,' Then don't bother doing an EKG or an EEG or a nerve conduction test, because we are electrical beings and the chemicals are only the byproduct of those electrical impulses.

And I'll finish with, anybody want to make one guess as to where the first completely-blanketed 5G city in the world was? Wuhan, exactly.

So, when you start thinking about this, we are in an existential crisis here, Folks, the likes of which humankind has never seen and I don't want to go all Old Testament-prophet on you, but this is something that is unprecedented...

The susceptibility has to do with how much metal you have in your body, as well as the quality of the water in your cells.

So, if you start injecting aluminum in people, they become receptors for absorbing increased electromagnetic fields and that is a perfect storm for the kind of deterioration of the species, which is what we're now experiencing.

And I'm just gonna finish with one more thing, which I like to is a quote from Rudolf Steiner - and by the way, this was around 1917

'...In times when there were no electrical currents, when the air was not swarming with electrical influences,' we're talking 1917, 'it was easier to be human. For this reason, in order to be human at all today, it is necessary to expend much stronger spiritual capacities than was necessary a century ago.'

So, I just leave you with whatever you can do to increase your spiritual capacities, because it's really damn hard to be human being these days. Thanks for listening."

P.S. In 2019, I was de-platformed by two mass-emailing services for no good reason. It's the digital equivalent of having my house burned down. Twice. I'm still recovering.

Dr. Tom Cowan's short presentation at the conference where he was an invited guest speaker, and because of the panic over the Covid-19 issue, the conference was much smaller than planned for. An attendee at the conference taped the presentation and then later posted it on the Internet. That short ten-minute presentation went viral with several million views. Dr. Tom Cowan's new book co-authored with Sally Fallon Morrell points a number of important issues that are misunderstood by the health fields who continued to believe the lies of Louis Pasteur, namely the "Germ" theory. A basic premise of Dr. Tom Cowan's book is that so-called viruses are the result of bad water, sanitary conditions, environment toxins, including RF wireless energy, chemical pollution, for example, DDT was the cause of Polio from the 1940's onward until banned in 1972.

A few months ago, Dr. Carrie Madej created a video exposing the problems with the upcoming COVID-19 vaccine. One very serious problem with this vaccine is two-fold – it has bypassed Koch’s postulates; and, it uses recombinant DNA and recombinant RNA, which has never been used in humans. There are other serious problems as well, such as the possibility of the vaccine rewriting human DNA, essentially “creating” a new organism that is modified at the genetic level, which can then be “patented” and “owned” by the company who developed the vaccine; or, the insertion of nanobot technology into the body which can then be activated using an artificial intelligence interface to alter anything in your body and brain.

In her second video, Dr. Madej covers many of the same issues that have been reported. In it, she specifically mentions again Koch’s postulates. But, what are Koch’s postulates to the lay individual? They are everything about science!

For an entire tutorial on Koch’s postulate, see the four videos by Dr. Andrew Kaufman, MD. In simple terms, the four Koch’s postulates are shown in this chart below. Google “Dr. Andrew Kaufman Tutorial on Koch Postulates” to view his power point videos. He explains both the Koch Postulates and the Rivers Postulates, which differs in the process of determining criteria for a pathogen to cause disease.

## Koch’s Postulates

The steps that must be followed to determine if a particular micro-organism is responsible for causing a disease are known as Koch’s postulates and are given below:

1. The same micro-organism must be present in every diseased host.
2. The micro-organism must be isolated and cultured in the laboratory and accurately described and recorded.
3. When a sample of the pure culture is inoculated into a healthy host, this host must develop the same symptoms as the original host.
4. The micro-organism must be able to be isolated from the second host and cultured and identified as the same as the original species.

www.setyoufreeneews.com

However, there is a problem with Rivers postulates – genetic material (DNA, RNA) is not mentioned in any criteria. Yet, many of the studies claim to have isolated genetic

material. Moreover, even if all of Rivers postulates are met, it only produces a “fairly confident” assertion the disease is caused by the viral microorganism – it is still uncertain but one can “assume” a fair confidence of a viral microorganism causing the disease. Dr. Kaufman goes through the scientifically accepted method for isolating viruses. The key is that this method has not been used for COVID-19. Even if it were, scientists cannot conclusively say the supposed microorganism causing the disease is a virus.

In describing the method used with COVID-19, there are some serious pitfalls with the method, including claiming to isolate genetic material, which is not mentioned in Rivers postulates and using antibiotics that cause mammalian cells to produce exosomes. Dr. Kaufman covered four papers that attempted to satisfy Rivers with SARS-CoV1. In all the papers covering the studies by four different scientists, none of Rivers was actually satisfied.

Watch the entire presentation and you get the idea. Using the same Rivers postulates with COVID-19, the four papers that detailed the research studies to “isolate” COVID-19 did not meet any criteria of Rivers. The “Kim” paper boldly stated the coronavirus was the “causative agent” of the COVID-19 disease outbreak in Wuhan, China. However, the source the “Kim” paper quoted used “association” and “potential association” while calling for additional studies. This is a very huge issue. In essence, the “Kim” paper can be considered fraudulent and the basis for the entire fiasco the world has endured. Moreover, the McMasters University, Canada study expounded on the lie of the “Kim” paper to claim the coronavirus cause the pandemic in over 160 world countries.

This is disturbing, to say the least! Medical science and ethics have been compromised to the point that any study presented to the public should be viewed with great skepticism.

Could these be the papers that Dr. Fauci is relying upon and President Trump is backing to push forward a Bill Gates vaccine with nefarious purpose. That is the implication of what all I have been researching.

If you cannot isolate the causative agent, how do you know what causes a disease much less are able to develop a vaccine for it? You can't! This is a question that no one has answered but one that needs to be answered for the public in the name of disclosure and to provide informed consent.

Before continuing, a disclaimer is needed. This does not advocate for vaccines since vaccines have not been proven to be effective or safe. **The purpose is to show this vaccine is not based on accepted scientific methodology that resulted in the isolation of a microorganism and the steps in the development have taken shortcuts and safety measures are being sidestepped for Bill Gates and Big Pharma to produce a vaccine for COVID-19 that the US government is looking to make mandatory for all Americans.** It doesn't matter whether any

microorganism has been isolated or not. It doesn't matter whether it works or not. It doesn't even matter if it is unsafe. The government wants to forcefully inject Americans with only God knows what.

Now, let's look at the process for the development of a vaccine. The Center for Disease Control (CDC) identifies 6 phases for development. Knowing the proclivity for government agencies to lie to the public, this is taken at face value, but with skepticism. Clinical development is further divided into three phases. Once all of this is done, the product approval process begins. From the CDC website, this is another 6-phase process. Even after approval, adverse effects of the vaccine are tracked through the Vaccine Adverse Event Reporting System (VAERS).

So, how long does this 12-phase process take? That is variable. According to the book, "The Children's Vaccine Initiative: Achieving the Vision", the Food and Drug Administration's timeline for approving Product License Application and the Establishment License Application submitted by manufacturers can take as much as six months. This is down from approximately three years due to passage of the Drug User Free Act in 1992, which mandated pharmaceutical companies submit \$100,000 or more in fees for each application to expand the FDA staff that approves these vaccines. Conflict of interest much with the FDA? Standard applications will still take approximately one year. Yet, the public is being told a vaccine for COVID-19 will be ready for widespread administration in the near future.

The takeaway here is that there is a long and rigorous process that vaccines are supposed to travel through before being "approved" for widespread usage. Even when vaccines have gone through this process, it has been shown that vaccines have not been proven effective or safe. With the COVID-19 "vaccine" being fast-tracked, skipping even the most crucial steps using Rivers postulates, how would anyone know what is being injected into your body? The answer is you don't know. Nor do you know whether or not any of the 12-phase processes were followed or skipped.

All of these "processes" are designed to make sure that whatever is placed into the human body is safe and effective for the target population. Unfortunately, these "processes" are done through public-private partnerships, government agencies unconstitutionally created to "keep the people safe", and now, a private individual who holds no medical training whatsoever and is beholden to no one. This same individual (William Gates Jr.) is a eugenicist and responsible for hundreds of thousands of injuries and deaths of children in foreign nations. And, none of this has ever produced one safe and effective vaccine.

Considering the number of doctors who have come forward at great risk to themselves – Dr. Simone Gold was recently fired for her dissemination of factual information – to inform the public of effective treatment without a vaccine, why is the vaccine being pushed over a simple treatment that can be used also as a prophylactic? It all comes down to the money to be made by the game players on

the sacrifice of human health, well-being and lives; not to mention, it is the vector by which humans can be injected with tracking devices, nanobot technology, and other nefarious substances that the government can use to exact control over the population.

It is easy for some to proclaim this as “tin foil hat wearing” theory without considering sources and references that prove the claims made. So many are willing to take the “medical” advice of a man, Bill Gates, who has no medical training whatsoever and refuse to listen to actual medical doctors who have researched this extensively in good faith to inform the public of the lies visited upon them by government, Drs. Fauci, Gates, and President Trump. Moreover, so many are wearing masks despite the warnings of ineffectiveness against coronavirus and influenza and potential for serious health risks associated with prolonged mask-wearing. All of this because President Trump, Drs. Fauci, Birx, Redfield, and Bill Gates, and the main stream government-controlled propaganda entertainment and media suggested it.

Knowing this, it would be safe to say this would be the same population that would believe that Arizona has beachside property for sale at a reduced price due to coronavirus if these same people said so, while providing very little evidence to support their claim. How many would contact a real estate agent to get their slice of “beach pie”? Looking at the mask wearers and the “doubting Thomas”, it would be a good many. Another group will be hostile and negative toward the messenger. Why be angry at those trying to disseminate information to a public that is being denied information? The energy would be better spent dealing with those who have perpetrated the lie. Ask yourself this – why haven’t journalists who report on the advances in medical science and the developmental steps of new drugs and vaccines never asked any questions regarding the process of isolation or development of this COVID-19 vaccine?

Time to trash the cognitive dissonance. It’s difficult and could produce serious adverse emotional reactions. It won’t last long and you will be the better prepared with knowledge that could free you from your enslaved mind state. For those who can’t shake their willful ignorance, cognitive dissonance and anger toward the messenger, flame on!

Blessings,
