

“Depopulation” Predictive Programming

They told us what they planned to do years ago!

[Recently I had the opportunity to view an old movie from 2008 and in watching it I happened to be watching what is called Predictive Programming. Predictive Programming comes in many forms, television series like the “X” Files. In this case, it was titled “I Am Legend” starring Will Smith. He seems to appear frequently in suspense genre films such as “Enemies of the State”. I particularly liked this movie but “I Am Legend” was provocative after the fact since it seems to project “Predictive Programming” with recent history of 2020 and following. So I thought it would serve to prove to readers the elite, and the Freemasons in particular, regularly tell the public in advance just what they plan to do us before it actually happens.

Does the film “I Am Legend” foresee the following future events:

- Massive population reduction
- The planned release of a mega plague, under the disguise of a miracle cure
- A military quarantine engineered to maximize (not minimize) the death toll
- A genetically re-engineered human race
- The rise of a false savior that will seek to “restore” humanity with his own blood and death

“In five years, mankind’s struggle for survival will be lost”, screamed the trailer for “I Am Legend” in late 2007.

Synopsis of the film

In the year 2009, a miracle cure for cancer is announced. It involves a measles virus, genetically engineered to kill cancer cells.

This miracle virus mutates into a deadly plague. Military virologist (Lt. Col.) Dr. Robert Neville is assigned with the task of finding a cure. Three years later, he is still looking for that cure. The plague has killed off most of the world's population. Of the survivors, most of them have become the "*infected*," cannibalistic zombie-like mutants.

Dr. Neville is strangely immune to the plague, and spends his time searching for a cure using his own blood, while seeking to avoid becoming mutant food. He believes that he is the last normal human, but he eventually meets Anna and Ethan, two other normal humans. He discovers the cure to the plague just as the mutants discover his hide out.

He then kills himself with the mutants to preserve his cure.

Robert Neville, The Hero

The protagonist, Robert Neville, is portrayed as both the hero and the villain, a Christian and an antichrist. Let's look at how he is introduced.

The film opens with a TV news broadcast announcing the discovery of a cure for cancer. Dr. Alice Krippin describes how she has engineered a genetically modified measles virus to destroy cancer cells. Simplifying it for the audience, she describes the process as taking a fast car driven by a bad man, and replacing the "bad man" with a cop.

The next scene shows a deserted New York City on a sunny day, exactly how the population controllers want it.

Then enters Neville, speeding through the vacant streets. He is literally the bad man in the fast car. He is everything the New World Order hates. He is portrayed as a family man, with old photos of him spending time with his wife and daughter. He is the hunter out with his gun and his dog, not dependent on government breadlines. He is a Christian who is shown in prayer with his family. He is a survivalist, with his apartment stocked with food, weapons, and other supplies. Neville is portrayed as the full blooded human, standing in the way of the depopulation agenda.

He is the ENEMY of the New World Order agenda. It is desired that "bad man" Neville be replaced with a "cop," a regulated and controlled man.

Also, the refuge of survivors is located in the small rural town of Bethel ("house of God"), Vermont.

Robert Neville, A False Savior?

But Neville also has a darker side. While portrayed as a Christian at the time of the outbreak, he denies the existence of God at the end of the film. Also, Neville sacrifices himself to save others.

By staying in New York he risks his own life to be better able to find a cure. While this is a noble cause, the cure he seeks is derived from his own blood. On Neville's refrigerator is a copy of TIME magazine, with his photo, and the title "Savior?"

Neville, both as a family man, and a false savior with devil horns

(Film Position 9:48)

The photo is positioned such that the M in TIME forms devil horns on his head.

After he has found the cure, Neville screams at the infected,

"Look, look, look, I can save you. I can sa-- I can help you. You are sick, and I can help you. I can-- I can fix this! I can save everybody! I can fix everything! It's working. It's working! Stop! Stop! Let me save you! Let me save you!"

Even Neville believes that he is a savior. In one scene, a newscast is playing in the background.

The broadcast trails off:

"We are fully confident Dr. Neville can see us through these..."

This is more indication that Neville is viewed as a savior, as the world is placing their confidence and trust in him. At one point, Neville is within seconds of death, but is rescued by an angelic being (Anna). This appears to be a false death/resurrection, a mockery of Jesus's sacrificial death and resurrection.

Neville does die at the end of the film, sacrificing his life to defend the miracle cure derived from his blood. Neville's birthday reveals some important numerological clues. If one follows the video carefully, it is realized that his birthday is September 6th.

In occult numerology,

- $9 + 6 = 15$
- $1 + 5 = 6$
- September 6th is the 249th day of a non-leap year
- $2 + 4 + 9 = 15$
- $1 + 5 = 6$
- This gives three sixes, or 666

Could this possibly be the birthday of the beast? Also, the "cure" is found to be GA series 391, compound 6 (*"Hang in there, number six,"* Neville says to the lab rat.) So the protagonist Robert Neville is portrayed as both the hero and the villain.

However, he is not the only villain in the film.

Our own military also plays this role.

Military Quarantine

"I Am Legend" portrays a military quarantine that appears intended to maximize, not minimize the death toll. Only approved individuals were allowed to leave. The message *"Unless you have clearance, you cannot pass the checkpoint. Please return to your homes,"* is repeated to the masses.

Multitudes of healthy people were held back at gunpoint and forced to succumb and die. It is clearly a military quarantine. The Army patrols the streets with machine guns drawn, in direct violation of Posse Comitatus.

Why is Hollywood so desiring to show us the military patrolling the streets and enforcing quarantines in the United States?

The quarantine scenario in this film is very realistic. The quarantine is engineered to maximize, not minimize the death toll by limiting the number of refugees. However, the elite give their own minions an unwanted gift. The plague also kills the police and military enforcing the quarantine. This is a very realistic of what the genocidal elitists would do.

When will people realize that our own government has been hijacked by evil men who care for nothing but their own self interests?

The Plague

The plague was a genetically engineered cure for cancer that went horribly wrong. It was known as the Krippin Virus (KV) after the creator Dr. Alice Krippin.

This cure appears to have been announced in late September or early October, 2009, and there had been exactly 10009 clinical trials. This viral cure mutated, first into a contact strain, then an airborne strain. It is unclear when the first mutations occurred.

The plague had gone viral by Christmas of 2009, and had a 90% kill rate.

KV seems to have killed quickly, within a matter of days or weeks. The victims experienced massive hemorrhaging (bleeding) from their orifices, vomiting blood, and extreme fatigue. One percent of the population had a natural (genetic) immunity. The remaining 99% were transformed into mutants, possessing super-human strength and agility.

These mutants, the *“infected,”* behaved like beasts and had an extreme sensitivity to light, especially ultraviolet light.

Miracle Cures

The Krippin *“miracle cure”* was introduced by first mentioning two other miracle cures, the polio vaccine, and the heart transplant.

- The polio vaccine was the first pollution of human blood via vaccines, by inserting non-human DNA (dead or weakened virus) into human blood.
- As for heart transplants, due to lack of donors, swine hearts (unclean beast) are now being used as a human heart transplant; replacing a man's heart with a beast's heart.

Is this a modern fulfillment of Daniel 4:16,

“Let his heart be changed from a man's, and let a beast's heart be given unto him; and let seven times [years] pass over him.”

(see also Dan 5:21)

[Daniel is a book of end times prophecy. Although this passage speaks of King Nebuchadnezzar, does it also foresee events of the Great Tribulation? Will those who receive the Mark of the Beast have their hearts changed?]

Now, in the tradition of these two “miracle cures” the cure for “cancer” is introduced. Please note that no real cure for cancer will ever be announced, especially on national TV. All real cures for cancer have been suppressed.

Why? Cancer “*treatment*” is a **multi-billion dollar industry**. To find a cure would eliminate those profits. Rest assured, no real cure for cancer will ever be announced. But what if the “*cancer*” to be cured isn’t a disease plaguing the human race, but the human race itself.

Many globalists and their minions have stated that mankind is a virus, a cancer on the earth.

Humans as Cancer

A. Kent MacDougall, a professor emeritus at University of California, Berkley, argues that human civilization appears as a cancer on the earth, and something must be done to save “*Gaia*,” the mother earth goddess.

See:

- Humans as Cancer
- If Humans Are a Virus, Then What Is the End Game? - Global warming cult fronts as camouflage for depopulation agenda
- Juego Final - Plan de Esclavitud Global - Endgame - Blueprint For Global Enslavement

So, mankind is the disease, the “bad man” in the fast car that must be replaced with a “cop.”

Man must be *cured* or *replaced*.

Population Reduction - Fact

It is well established that certain individuals desire a decline in world population levels by 80-95%. This means that they would like for 6 billion of us to die. This is truly diabolical, as only the devil himself would want to exterminate the human race.

Read their own quotes below.

The **Georgia Guidestones** is a Stonehenge like monument having, in eight different languages, a list of ten guidelines for the new world order. Three of them relate to population control:

01. Maintain humanity under 500,000,000 in perpetual balance with nature
02. Guide reproduction wisely - improving fitness and diversity.
10. Be not a cancer on the earth - Leave room for nature - Leave room for nature.

"A total world population of 250-300 million people, a 95% decline from present levels, would be ideal."

- **Ted Turner**

in an interview with Audubon magazine.

"Childbearing [should be] a punishable crime against society, unless the parents hold a government license... All potential parents [should be] required to use contraceptive chemicals, the government issuing antidotes to citizens chosen for childbearing."

- **David Brower**

first Executive Director of the Sierra Club; founder of Friends of the Earth; and founder of the Earth Island Institute

- **quoted by Dixie Lee Ray, Trashing the Planet, p.166**

Dr. Eric Pianka - University of Texas – Says that 90% must die, and advocated Ebola as the killing agent.

"We've got airborne 90 percent mortality in humans. Killing humans. Think about that."

http://www.sas.org/tcs/weeklyIssues_2006/2006-04-07/feature1p/index.html

This is just a few quotes. There are many hundreds from such individuals that advocate mass murder and genocide.

Population Reduction - Fiction

The fictional plague in "I Am Legend" resulted in a 90% death toll. For the genocidal globalists, this is an idealistic scenario, and not likely to be achieved. One virus released in one location resulting in a 90% population drop world-wide is not likely.

The History Channel special "Life After People" is another example of the globalists bragging about their population reduction fantasy. In this documentary, which first aired in January 2008, the picture of what the world would look like in a world without people, similar to "I Am Legend."

"I Am Legend" is even packaged with "Life after People" as a *special* on *Amazon.com*.

Two months after "Life After People," the *National Geographic Channel* aired it's own version, titled *"Aftermath - Population Zero."* With these films and propaganda-documentaries released *within a four month span*, the globalists are openly boasting about their agenda.

Imagine if one minute from now, every single person on Earth disappeared.
All 8 billion of us.
Human history just stopped.
What would happen to the world without us...

The close release dates of these two films was NOT a circumstance. It appears the elite are throwing the population control/reduction agenda in our faces through these carefully timed film releases.

The globalists, being lovers of death, view decaying cities devoid of human life as attractive and desirable.

"I Am Legend" Director Francis Lawrence stated:

"We didn't want to make an apocalyptic movie where the landscape felt apocalyptic," he says. "A lot of the movie takes place on a beautiful day. There's something magical about the empty city as opposed to dark and scary."

**Jeff Jensen. "Will Smith: Making a 'Legend'", Entertainment Weekly, 2007-08-16
Retrieved on 2008-05-19. http://www.ew.com/ew/article/0,,20052055_2,00.html**

What is so magical about a ghost town filled with corpses and zombies? The elitist view is that a vacant, decaying city is beautiful.

In researching "I Am Legend," I have learned of other films released recently with a similar theme. These include:

- "Doomsday"
- "28 Days Later"
- "28 Weeks Later"

Are we being subliminally prepared for a coming mega plague? It seems so!

Mass extermination is not the only potential "cure" for the human race. Remember, the goal is to replace the "*bad man*" homo sapiens, with a "*cop*." This "*cop*" is always "*good*," it obeys the global masters in all things. What if mankind is to be re-engineered, programmed to never resist global tyranny, programmed to accept the New World Religion?

Transhumanism is a science/philosophy that seeks to make mankind “*better*” through emergent technologies:

- genetics
- robotics
- information technology
- nanotechnology
- artificial intelligence

Transhumanists seek to use these technologies to become post-human, a creature superior to the human race.

Of these technologies, genetic engineering is the most serious, as transgenic (genetically engineered) humans will no longer be made in the image of God.

The infected are Genetically Altered Posthumans

The “*infected*” in “I am Legend” have been genetically altered. However, Neville himself never refers to them as mutants. The infected are referred to mutants on the DVD case, where we read about “*Mutant plague victims...*” the “*Mutant trap*” scene.

In this “*Mutant trap*” scene, Neville uses his own blood to bait the infected. This indicates that his blood is significantly different from theirs. The infected would be cannibalizing each other if their blood was the same as Neville’s. But they only hunt Neville, and not each other.

Also, in the bonus animated comic “Shelter,” the father tells the infected daughter:

“This disease turns humans into something else, if you have it, we’ve already lost you.”

(Warning: I do not recommend watching these comics. They are far worse than the feature film.)

Also, the infected are shown with super human abilities, which suggest not just genetic alteration, but genetic ENHANCEMENT.

For example, Neville needs to fire multiple rounds from automatic and semiautomatic weapons to kill the mutants. Multiple rounds and a propane explosion do not succeed in killing the alpha male. The mutants head butt Neville’s vehicle and flip it over without any apparent injury.

They also quickly scale Neville’s residence, and easily break into his barricaded lab.

- Could a genetically altered virus really mutate into a form that can alter its victims' DNA?
- How could a mutated virus produce in its victims super human traits?
- Was it intended to do this all along?

- Was this genetic alteration built into the engineered virus?
- Will a “cure” be introduced that will re-engineer its victims genetically?
- Will this cure be thrust upon the population by forced vaccination?

Genetically Engineered Cure for a Genetically Engineered Plague

“The cure is in her blood.”

According to the film, Neville's cure consists of an altered version of his own blood, mixed with the blood of a mutant. This cure is transgenetic to the core. This ungodly cure, altered human blood mixed with hybrid transgenetic humanoid blood, brings about the “the restoration of humanity.”

The restoration of humanity is in her blood.

This is truly a counterfeit restoration, a genetically engineered cure to a genetically engineered plague.

Dates in “I Am Legend”

This genetically engineered cure was announced on September 9, 2012 at around 8:49 PM. This film “I Am Legend” used very specific dates.

The setting is one of the shocking aspects of this film, as it is set in the very near future. The outbreak occurs in late 2009, and the cure is found in 2012. This movie was released in late 2007, advertised with trailers declaring,

“In five years, mankind’s struggle for survival will be lost.”

Why 2012 (five years)? Will the real plague come in 2012, and not 2009, as portrayed in the film?

The “cure” for the plague is discovered on Sept 9, 2012 (09-09-12), at approximately 8:49PM. Why is this so specific?

On Sept 5, 2012, Neville states that this is “day 1001.”

This gives us a date of Dec 9, 2009 (12-09-09). This appears to be either the date the infection went viral, or the day the quarantine was initiated. Although this date is hidden in the film, it is still there for those who can see.

It is also not hard to determine when the “cure for cancer” is announced, by analyzing the sports news in the “miracle cure” broadcast. We hear that it is the end of baseball season, possibly into the playoffs. Also, by reading the news ticker, we read about the Knicks beating the Lakers, and the Patriots beating the Giants. Therefore, it is into basketball and football season.

This cure is therefore announced in early fall 2009, probably the last week of September or the first week of October. Again, this date is hidden, but it is not hard to find.

Is a staged outbreak in the works, with a specific date and time already chosen? The film was released near Christmas 2007. The plague struck near Christmas 2009. Will the real plague be released near the Christmas holidays?

History has shown that some sort of plague has followed every release of “I Am Legend,” both the book, and all film adaptations.

- “I Am Legend” (1954 book) Setting: 1976-1979.
Outbreak: 1957: flu pandemic (and Polio vaccine introduced)
- “The Last Man on Earth” (1964 film) – Setting: 1968.
Outbreak: 1967: flu pandemic
- “The Omega Man” (1971 film) – Setting: 1977
Outbreak: 1976 – swine flu scare
- “I Am Legend” (2007 film) – Setting 2009-2012
Outbreak: ??? What about SARS-CoV2 or Covid-19

Note that for all these films, the setting is only a few years after the release date, and the actual outbreak is BETWEEN the release date and the setting date.

Will we be struck by a major (staged) outbreak between now and the end of 2025?

Conclusion

There are two different plagues in “I am Legend,”

- One caused by the cancer cure gone bad
- The other caused by the genetically engineered cure for the first plague

The scenario could play out like this: a plague will be released, possibly under the guise of a miracle cure.

This plague kills enough to panic the population. The media does everything possible to panic the population. The population will beg the government for a cure. Martial law is instituted to enforce a military quarantine. This quarantine is engineered to increase, not reduce, the death toll, as ill and healthy alike are trapped to die.

A mysterious individual comes on the scene, touting a cure, a genetically engineered cure derived from his own blood. The population is force vaccinated with this cure.

Police and military assist in giving the injections. The cure appears to work, and the man is proclaimed a hero. However, this cure has unwanted side effects.

Gradually over time, it transforms the people into genetic hybrids, part man, part beast. It transforms them into the image of the false savior that provided the cure. It appears that this plague is slated for some time between now (2008) and 2012, and possibly as early as 2009. Or did it allude to 2020 with Covid-19.

The main message of “I Am Legend” is that the virus, the cancer, is humanity, created in God's image. The cure is purification by genetic alteration or purification by death.

The film gives the ultimatum: Become post-human or die.

All that said about “I Am Legend” leads us to consider this “Predictive Programming” is a form of torture; an even more devastating lesson has been confirmed by the Insurance Industry's Actuarial data from the events since March 11, 2020 and the present. Consider the report that follows defining Covid-19 as a 12 Sigma event!

12 sigma event

Insurance Industry's Actuarial Data Reveals True Scope Of Exploding Public Health Disaster Caused By Covid 'Vaccines'

Editor's Note: Decades prior to serving as one of the editors of **State of the Nation**, I was both a Personal Financial Planner and Business Financial Consultant. During the estate planning aspects of servicing my clients' needs I was involved with all the different types of insurance products and services. My father was a Chartered Financial Consultant and a crackerjack insurance broker, so I learned that business early on from him before joining his firm. The key point here is that I became acutely aware of the industry fact that “actuarial data” is taken very seriously or else the company can go bust.

So, when SOTN received the following submission, we knew just how serious a situation we were facing in the aftermath of the implementation of the Covid *Super Vaccination Agenda*. For the hard actuarial data does not lie. Yes, it can somehow be suppressed; but eventually talk of the unheard of “**12-SIGMA EVENT**” will leak out and eventually cause a sea change insurance industry-wide...which will then ripple through the Reinsurance Industry, and then through the entire Financial Services Industry.

In light of the early information published by VAERS concerning the Covid vaccine-induced deaths and injuries nationwide, it was clear from the outset that the U.S. military deployment of the weaponized Covid injections was a premeditated genocide of

the American people. However, the much greater manmade tragedy here concerns the countless vax-induced medical ailments and health conditions which have been reported by VAERS. In point of fact, it has been proven that even the VAERS statistics only account for 1% to 10% of the actual deaths and vaccine injuries caused by the Covid shots. The CDC stopped reporting VAERS data and were subsequently caught altering the data making it suspect.

In short, we have no idea just how big this thing yet is. For not only was **OPERATION WARP SPEED** rolled out as a full-blown depopulation scheme, it was also designed to irreversibly debilitate and incapacitate as many 'vaccine' victims as possible. What this really does is that it ties up the great majority of U.S. citizens so that they have no time or energy to hold their murderous government accountable. Likewise, all the institutional co-conspirators such as Big Pharma, Big Medical, Big Media, Big Tech, etc. skate... should the perps be successful in effectively covering up this highly organized and long-planned criminal conspiracy to commit mass murder.

N.B. The well stated points made below are very important for everyone to be aware of, so please disseminate this post far and wide—thank you.

The Ongoing Carnage From the Covid Injections

Submitted by an Insurance Industry Retiree

We are now a few months into year four since the Covid injections were rolled out in December 2020. There is now insurmountable evidence that the injections are not vaccines; they are an experiment in gene therapy that turns the human body into spike protein-producing factories, and these proteins accumulate and attack every organ in our bodies.

As I write in February, 2024, hardly a day goes by without more damning information being revealed about the tragic consequences of these injections. The evidence can be found everywhere, except of course in the controlled mainstream media which continues pushing this fraudulent narrative; but cracks in the MSM narrative are now everywhere, and the truth is slowly but surely coming to light.

I spent thirty-two years of my forty-five year career in the insurance and reinsurance industries, the last 19 years with one of the two largest reinsurance companies in the world. I was an underwriter, not an actuary, but I worked with actuaries every day, and the main point of this article concerns actuarial data confirming the devastating effects of the Covid injections on the global population. But before I get to that data, I want to share the most recent information about the catastrophic impact of these so-called vaccines.

In just the first few weeks of February, numerous oncologists have revealed a new epidemic of rapidly metastasizing cancers that have exploded across the population, particularly among younger people. This has never been seen before.

Renowned Canadian oncologist and radiologist Dr. William Makis, who has diagnosed 20,000 cancer cases of all kinds during his career, recently stated on camera at The People's Voice, that he and his colleagues feel like "kindergartners" trying to explain what they are seeing. He reports many of these "turbo cancers", as some have begun calling them, metastasize so rapidly that patients often die within days of diagnosis. He further reports that many of these new cases present at stage 4 at initial diagnosis, which he has also never seen before. Makis believes the Covid injections are the proximate cause of this explosion in cancer cases.

According to Makis, the pressure for Canadian doctors to get the Covid injections was so overwhelming that more than 99% complied. Within months of the injection campaign, Canadian doctors began dying, many at very young ages in their twenties and thirties. Many died shortly after being injected, and virtually all deaths occurred within a year of receiving the injections.

Some of the most disturbing data has been reported by the U.S. Group Life Insurance Industry. On 1/1/2022, a little over a year after the December, 2020 rollout of the Covid injections, the CEO of OneAmerica Life Insurance, Scott Davidson reported startling financial results. He reported death claims increased by 40% in the previous two quarters for policyholders in the company's group life division. This group of insureds is covered by group policies issued to corporations, and consist of what has historically been the healthiest population segment of 18-64 year olds.

Quoting Davidson:

"Just to give an idea of how bad that is, a three-sigma or a one-in-200 year catastrophe would be a 10% increase over pre-pandemic, so 40% is just unheard of".

Extrapolating from the numbers Davidson provided, if a 10% increase represents a three-sigma, or a one in 200 year event, a 40% increase represents a twelve-sigma, or a one in 800 year event. Nothing like this has ever been witnessed in the history of actuarial science.

But perhaps his most disturbing statement is that *"most of the claims for deaths are not classified as COVID-19 deaths"*, but from a myriad of other causes. Myocarditis has been the most widely publicized cause of death among the vaccinated. The UK-based website expose-news.com published a report on February 10th titled 'Shocking CDC Report – Autoimmune Heart Disease Skyrockets Post-Covid Vaccination'. The report states that the risk of suffering myocarditis following mRNA vaccination is around 133x, which means that COVID-19 vaccination increases the risk of suffering myocarditis by 13,000 percent.

If the Covid injections were safe and effective as advertised, one would expect to have seen the number of deaths level off, then decrease from pre-pandemic levels, but the opposite has happened. This has literally blown up the actuarial tables of the life

insurance industry. The findings of this study are corroborated by Ed Dowd's important book: **'Cause Unknown — The Epidemic of Sudden Deaths in 2021 and 2022'**.

The numbers Davidson reported are now a little over two years old, so the recent explosion in cancer deaths is not included in the numbers. At this point there is no telling how much worse the actuarial data will get as this new wave of cancer deaths become known.

I expect the life insurance industry will be under intense pressure to suppress this information, but financial results speak for themselves, so it's just a matter of time until this worsening picture is revealed. The criminal Pfizer organization has already positioned themselves to profit from this coming wave of cancer deaths caused by their mRNA injections, having completed a \$43 billion acquisition of Seagen in December of last year, thereby doubling their oncology pipeline. This is yet another case of problem-reaction-solution at work.

A Final Warning From The Late Dr. Luc Montaignier

Contrary to what was said at the beginning, these vaccines do not protect at all, and this is slowly emerging. This is scientifically recognized by all today. It is not only scientific experiments that say it, but also all patients on whom the effects have been analyzed to prove it. Instead, to protect as it was said, it can even promote other infections.

The protein that was used in vaccines for this virus is actually toxic, it is a poison. The vaccine was not born to kill, but to protect and there have been many deaths, even young sportsmen who have important problems, due to this vaccine. It is an absolute crime to give these vaccines to children today.

"Let's stop mass vaccination." It can also cause very serious nerve diseases in the brain. Due to the long-term effects of this vaccine, there are a lot of people who are dying. Neurological disorders can also occur from the first dose, and not only from the second. Even today, no one can predict how many of these people who have been vaccinated now will have major neurological problems in the future.

I ask all my colleagues to absolutely stop vaccinating with this type of vaccine. Doctors today are perfectly informed of what I am saying, and therefore they should intervene immediately because the future of humanity is at stake. Many countries have forgotten about treatments, there is not only the vaccine, there are drugs that have not been used and that work very well, such as antibiotics.

“The unvaccinated will save humanity.” It depends on you, especially on the unvaccinated, who will be able to save humanity one day. Only the unvaccinated will be able to save the vaccinated. Vaccinated who will, in any case, contact the medical centers to be saved. We must avoid listening and giving a voice to those who do not have the right to do so and let science speak. I repeat: it is the unvaccinated who will be able to save humanity.

May God deliver us from this most egregious crime against humanity in world history.
