

Dr. Fauci, The 30 Families, Covid And The Great Reset

By the Video Rebel's Blog

David Schwartzkopf who used to be the CEO of Kissinger Associates wrote Superclass in 2008. In the book he revealed that our world is ruled by 30 Families and their 6,000 Minions. Dr. Anthony Fauci is probably the best example of a Minion we could have.

It was Dr. Fauci who used NIH funds to take a coronavirus bioweapon made in a lab at the University of North Carolina and sent it to level 4 Chinese military facilities in Wuhan in 2014 with \$3.7 million in grant money where it could be enhanced to be what it is today. Fauci sent this money via Peter Daszak's EcoHealth Alliance which has \$40 million in Pentagon funding plus another \$20 million from other US government agencies. Dr. Daszak is another likely Minion as he was the only US citizen allowed by WHO to be on their Wuhan committee that exonerated the Chinese military. President Trump cut off EcoHealth Alliance from NIH funding as soon as he discovered they were working with the Chinese military to create bat coronaviruses.

Dr. Lee Merritt has said someone at the top has declared war on us. She also said that the mRNA injections are not vaccines. But they are binary weapons. She said two years after the mRNA bioweapons were injected into us that a second bioweapon could be released that will cause a mass level death event for humans.

We do know that 5 to 10% of people receiving their second injection from Pfizer or Moderna have severe adverse side effects. A third injection is promised for December or thereabouts. That should be worse than the second injection. But the death rate will not climb until they have injected enough people with the third dose to merit releasing its binary bioweapon counterpart. This makes sense from a military perspective of men who have decided to kill 7 billion people.

Let's get back to the 30 Families and those Minions. I once long ago wrote a satire on the American government. The people in charge of our governments are never voted out of power because they hold no offices. On the A level are the 30 Families. On the B level are the 6,000 Minions. Minions come and go. If they fall out of favor, they are gone and are replaced by someone else.

I would place the Deep State up there on the B level. Examples of the Deep State on the visible level would be the leadership of America's 17 intelligence agencies. The Cocaine Importing Agency (CIA) is useful. They distribute illegal drugs and weapons and help the human trafficking industry. Bankers depend on their CIA connections and are on both the A and B levels. The Bankers launder \$1.5 trillion a year in illegal weapons and drug sales, political bribes and human trafficking proceeds. This helps the 30 Families fund their Global Governance.

Other sources of funding for Global Governance would be the \$35 trillion “missing” from US agencies like the Pentagon and HUD. They are also allowed to sell US Treasury bonds and pocket a few trillion dollars sticking us with paying both the principal and the interest.

The C level of government would be the people like Presidents and Prime Ministers. Two members of the 30 Families, David Rockefeller and Sir Evelyn de Rothschild, founded the Bilderberg Society in 1954 which until Covid would meet annually to discuss issues and to get everyone on board with a common agenda for the coming year. I wrote short bios about the people who attended their meetings until their latest conclave in 2019. They have many mechanisms of control through the Foundations, the press, the Universities and other groups like the CFR and the RIIA.

The average taxpayer is down around level F and can do nothing to either change government or to remove the 30 Families from power. But there is a solution.

I mentioned the Great Reset which is a plan from hell to kill 7 billion human beings and reduce the remaining few to obedient servants of the Uber Billionaires. The World Economic Forum at Davos has said in 2030 we will own nothing. We will be so poor that we will not be able to buy clothes. We will have to lease them from billionaires. But they do promise that we will be happy in our servitude. Not so sure about that last part.

I have said they plan to use Hyperinflation to take away what we have and transfer it all to the 30 Families and their 6,000 Minions. Of course Hyperinflation has always caused riots and revolutions in the past. We could channel that indignation into a Jubilee or Worldwide Debt Cancellation. It is very possible that we could arrest the Bankers, seize what they stole from us and use those funds to cancel Unpayable Debts. That would also allow us to get control of government at all levels and dismantle their bioweapons projects, their human trafficking, and their surveillance state.

I mentioned that the 30 Families use the Bilderberg Society meetings to inject their talking points into the public agenda. Their last meeting was in 2019. You can read the short bios I made about the participants here: <https://vidrebel.wordpress.com/2019/05/29/bilderberg-2019-annotated-members-list/>

I mentioned the tens of trillions that went missing from government funds. I also mentioned the fact that the Bankers are allowed to sell trillions in US Treasury bonds pocketing the cash and sticking us with the bill for the principal and the interest. I mentioned the Jubilee which the Bible writers first encountered in Babylon. The kings of ancient Sumer and Babylon had used Debt Cancellation to painlessly end Depressions for 4,400 years. My plan would be to arrest the Bankers, take back what they stole from us and use those assets to fund worldwide Debt Cancellation. There are circumstances where an American military coup could gain support at home and abroad. A Guardian poll found 43% of US voters would support a military intervention to prevent a civilian government from shredding the Constitution and the Bill of Rights not to mention using bioweapons to kill voters by the tens of millions. Finally, I would like to stress that over population through unlimited immigration is the primary means of impoverishing people in the US and Europe. Read more here: <https://vidrebel.wordpress.com/2021/03/30/deep-state-democrats-to-cut-wages-60-then-it-gets-worse/>

I share this post by the Video Rebel for a reason that I hope others will take the time to read. There will never be justice in America unless the true story of 911 is revealed to the American public. Time is taking the toll on many who were responsible and many who were victims of the 911 attacks. Most important in the Video Rebel's posts is the story of Israel's involvement in the attack on America.

\$10 Trillion Here, 10 Trillion There

Wall Street steals ten trillion dollars here, there, everywhere. Pretty soon you are talking about the end of human freedom, the end of humanity, the end of everything and everyone we cared for.

Let us count the ways Bankers can legally rob us.

At Jekyll Island in 1910 agents of the Rothschild's, Rockefellers and Warburg's gave themselves the right to charge us interest on money they created out of nothing. Paying interest on fictitious debts transfers all that we worked for to Bankers for nothing in return. If we still had Lincoln's non-interest bearing Greenbacks, there would be no \$26 trillion national debt and no \$500 billion annual interest payment on that fiction.

Dr. Mark Skidmore in his latest update with Catherine Austin Fitts suggested that the US Treasury is selling trillions of dollars more in government bonds than they admit are on the books. These trillions of dollars in off the books bond sales are not part of the \$21 trillion that Dr. Skidmore had found that had gone missing from the Department of Defense (DOD) and Housing and Urban Development (HUD) budgets from 1998 to 2015. Additional money was probably stolen from other departments. Indira Singh said that were likely stealing from Social Security by transferring money into dummy recipient accounts.

I previously mentioned my favorite story of the Missing \$21 trillion. The US Army had an annual budget of \$122 billion a year. The Treasury sent them a check for \$800 billion and told them to plug up the holes. Guess what! They lost the \$800 billion too.

Dr. Skidmore is back with new stories. The DOD has \$6.5 trillion in unsupported ledger adjustments. The top 3 are for \$177,417,491,279, \$165,989,255,290 and \$163,114,566,279.

The US Army did not give Dr. Skidmore a lot of detail in his FOIA (Freedom of Information Act request). Just had little notes like vendor had no further information on the Missing \$165 billion.

Would you be surprised to learn that CNN, NBC, CBS, ABC, the NY Times and the Washington Post did not mention the missing trillions at all? Why is that?

Did you ever wonder why America is still in Afghanistan? President Bush told his allies that he was going to invade Afghanistan in the summer of 2001 several months before Israel did 911. So why did he invade? Was it part of the CIA's long term plan to addict as many young people as people as possible, to destroy as many lives as possible precisely so we would have the most corrupt government imaginable? If the people ever rose up in righteous anger against Wall Street, they would have to go through the Mafia and the Drug Cartels long before they got to the government. And politicians don't have real power so overthrowing the government might have limited benefits if they do not also dismantle the central banking systems. David Rothkopf, the former CEO of Kissinger Associates, in his book Superclass said that the world is run by the 30 Families and their 6,000 Minions.

The military took the old U2 spy plane and converted it into the Global Hawk surveillance drone. Later versions cost \$220 million each when fully equipped. They added a compartment to carry 3,400 pounds (1,542 kilograms) of opium from Afghanistan to an American airbase where it can be transported to America, to Europe or to wherever addicts are willing to pay the highest price. America was flooded with so much heroin that the average age of first time users dropped to 14 1/2.

Rob Kirby told us that the Cocaine Importing Agency (CIA) had stashed so much loot in their secret slush funds that they were able to buy trillions of dollars in US Treasury bonds when they were being dumped by Russia and China. Of course the US can always just print trillions more in US Treasury bonds than were authorized so they can do noble deeds like save Bankers from prisons for stealing hundreds of billions from pensioners.

There is a fly in this Uber Rich ointment. They need to steal trillions more each year to pay off the suckers who bought off the books bonds last year. I suppose they could sell trillions more each year to leading Zombie Banks and to the Federal Reserve. Jim Rickards is a financial consultant to both the CIA and the Pentagon. He expects a Financial Reset which will happen when America loses its international reserve currency status.

That means the US will no longer be able to buy trillions of dollars of useful things from overseas to subsidize the wages of the sheeple while paying foreigners in I Owe You Nothing Federal Reserve Notes. There will be a day when the US has to buy 2 ounces of gold for \$10,000 each so they can get a letter of gold credit to import things from foreigners. Too bad the Elite decided to overpopulate America by 200 million plus people so we have a permanent trade deficit. We now have to import natural resources.

Liberal Democrats will figure out their mistakes after ten million Americans have starved to death but they will still blame white racists.

I see everything coming to a head in the 2021 to 2023 time frame at the latest. Never underestimate the power of the Government's ability to print money. Think like a Banker. They know that they robbed everyone so they insist on a Surveillance State including digital certificates so they can track every citizen in real time and deny them employment and even the ability to buy food or gasoline. No traveling to a rally for you.

But they also know we are entering a period of Global Cooling just like the Maunder Minimum (1645-1715). In 1709 there was a Big Freeze and the ground froze to a depth of one meter (approximately 40 inches.) Bankers love Monopolies. If Bankers had a Monopoly on food, they could charge the people whatever they wanted to feed their children.

I can guarantee you Nationwide Food Riots in America's future. The Bankers have invested in lab grown meat and in cockroach milk. They have also invested in indoor farming with grow lights. They have taken over large abandoned properties and started raising food year round indoors. But that will not be enough food. Millions will likely die from starvation and violence. Bankers will promise food to loyal soldiers and policemen. But they will have to get that food from farmers in America below the 40th parallel as in a period of Global Cooling people north of there in the US will need climate battery greenhouses and indoor gardens to raise food. American cities near the 40th parallel are Philadelphia, Pennsylvania and Columbus, Ohio; as well as northern suburbs of Indianapolis, Indiana and Denver, Colorado.

Think what that implies. If you live in the northern US and can raise food indoors, it gives you a stronger bargaining position. If you live in the southern US states and can grow food in your backyard, you might be able to raise enough food to stop local food riots. The US has local restrictions on front yard gardening. I would suggest you raise sunflowers in your front yard. They are beautiful and the seeds are edible.

When I was a child, I knew there would never be a nuclear war. Nuclear weapons kill rich people. Killing poor folk is OK but killing rich people is forbidden. When I was older, I understood that in addition to killing poor people, starvation makes rich people even richer. How so? Because they can borrow a soon to be hyper inflated currency and buys all that food for 5 cents on the dollar and sells it back at 100 cents thus stripping the poor and the middle class of their few remaining assets. In the process there will be several billion fewer commoners and all wealth concentrated in a few hands.

That is the future the 30 Families has written for you. You will have to make other plans if you intend to survive.
