

Geoengineering Killing The Population with Chemtrails

Tracking the origin of the Covid-19 Scam-Demic

This is both a warning as to how the next phase of the alleged Covid-19 will be unleashed on humanity; and a confirmation that globalist powers have been spraying humanity with a chemical soup mix that has been known to cause respiratory health issues since the middle of 1996. First reports of hospital visits came in Kentucky during the winter and spring of 1996 and on through most of the year.

Chronic obstructive pulmonary disease (COPD) refers to two lung diseases: chronic bronchitis and emphysema. Both conditions cause obstruction of airflow that interferes with normal breathing. COPD is preventable and treatable. This definition of COPD does not include other obstructive diseases such as asthma, although uncontrolled asthma over a lifetime can result in damage and COPD. In late 2016 the Department for Public Health collaborated with state partners to create a Kentucky COPD Advisory Board.

At the time of the 1996 outbreak of respiratory illnesses such as asthma and COPD the press suggested it was likely to coal dust. That is easy to sell if you were looking at coal counties in southeastern KY; however, these outbreaks were not in coal country. They were being reported in central KY. The map on page 2 shows that the central part of the state is a non-coal area, and only economically affected servicing the coal mining

At Kosair Children's Hospital in Louisville, about 100 children in August tested positive for one of two viruses that include an enterovirus, but officials can't be certain how many might have been D68, if any. Hospital officials said they have seen hundreds of children recently with respiratory illnesses. This information was reported in summer and fall of 1996! To occur across 10 contiguous adjoining states, from Colorado to Kentucky across the country infers aerial spraying!

Where did it all begin?

In researching chemtrail sightings and theories, I was not surprised to learn that this phenomenon didn't begin with people noticing persistent contrails in the sky, wondering what they could be, and searching for explanations. Chemtrail theories actually began as a horror story about deliberate world depopulation, crafted and spread by a small network of Christian Patriot conspiracy researchers – including one rather infamous anti-Semite. We are well aware that the U.S. Air Force sprayed Vietnam with what today is known as Agent Orange, on the commercial market name of “Round Up.”

There are strong indications that at least some of these guys were trying to create a contrail cash cow for themselves, which forced me to rethink the entire chemtrail phenomenon. It was my original view that the chemtrail issue was very insidious, but not as the U.S. Air Force contends, a hoax. I believed that like most conspiracy theories, chemtrail theories evolved in organic fashion from various anecdotes and incidents.

That's not to say there haven't been hoaxes. Photos have been altered, then distributed among chemtrail researchers. Less than credible “whistleblowers” have told bizarre stories that can't be verified. Clearly, anyone who engages in this sort of fraud isn't searching for the truth. In my experience, the average chemtrail-watcher is searching for the truth. He is concerned about the potential effects of chemtrails, and he wants answers.

Now, after looking into the history of the Chemtrail phenomenon, I suspect the hoax allegation has some merit, after all. I still believe the average chemtrail-watcher is a genuinely concerned citizen who honestly believes he is seeing strange, unexplained vapor trails, and doing what he thinks is right. But I did not trust the motives of those who started the rumors of death-by-contrail.

To see why I reached this conclusion, we need to examine the history of chemtrails.

Early 1980s:

Farmers, environmentalists, and others in the eastern U.S. reported that ground water was contaminated with ethylene dibromide (EDB), a carcinogenic chemical used as a pesticide and as an anti-knocking agent in leaded aviation fuel (“avgas”) as well as automobiles. EDB has been never a component of jet fuel, because jet fuel does not contain lead.

1984:

EDB is banned for pesticide use in some places, phased out in others (it remains in use to this day in some areas).

Late 1980s:

EDB use in avgas is phased out.

1994:

HAARP installation begins in Gakona, Alaska.

1995:

Concerns about EDB contamination resume among some Christian Patriots. They suspected that the newly-introduced military jet fuel JP-8 contains some contaminant, or combination of contaminants, that were intended to kill us. The prime suspect is – guess what? – EDB. These concerns rapidly spread throughout the country via online message boards and mass emails.

The Conrail Science website contains links to what appear to be some of the earliest known online references to unusual contrails, which would later be called chemtrails. This material was originally published on The Patriot Page (the now-defunct website of Clarence Napier).

In emails distributed through BLOWAR-L (an email list service dealing with biological weapons), people exchanged information about “mysterious” persistent vapor trails left by military jets throughout the U.S., the health effects of EDB, and the depopulation conspiracy theory.

A few people submitted soil and water samples for lab testing, which confirmed the presence of EDB (not surprising, as it is known to persist in ground water). They concluded that EDB was coming from the sky. These test results, if they ever existed, were never actually reproduced.

Acting on information he allegedly received in 1993, Larry Wayne Harris of Lancaster, Ohio begins selling a self-published booklet (Bacteriological Warfare: A Major Threat to North America), warning that Iraqi sleeper cells will launch anthrax attacks against multiple cities in the U.S., aiming to reduce the U.S. population to 50 million by 2025. He conducted research for this booklet at the library of the Aryan Nations compound. He was a card-carrying member of Aryan Nations, which is not only America’s largest white supremacist organization, but also the nation’s largest and most violent prison gang. I’m sure we can trust their impeccable research skills. At the time, Harris believed Jews controlled the world and had to be opposed (according to the Anti-defamation League, he later renounced these views).

Harris claims the information about impending anthrax attacks was given to him by the daughter of a former Iraqi president. She allegedly told him that Iraqi women were smuggling massive amounts of weaponized anthrax into the U.S. in their vaginas, preparing for synchronized biological assaults on numerous U.S. cities that would reduce the nation's population to just 50 million souls by the year 2025.

Harris makes some cash selling his booklet about VAGTHRAX at gun shows and conspiracy conventions, scaring the hell out of his fellow Patriots and Aryan brethren.

Though Harris was supposedly teaching people how to defend themselves against terrorist attacks, it has been noted that his booklet appeared to double as an instruction manual for terrorism. For instance, it laid out in considerable detail how to sabotage power lines and launch large-scale biological attacks. Not exactly information the average American would need.

Harris was arrested and charged with mail fraud after posing as a research microbiologist to obtain bubonic plague from the American Type Culture Collection. He had stolen some stationery bearing the letterhead of the Ohio lab where he was employed as a water inspector to do this. Convicted of mail fraud, Harris is later placed on probation.

Harris claimed to be a CIA asset and a licensed microbiologist throughout most of the '80s and early '90s. He also boasted that he has scientifically proven the existence of God. None of these claims were true. He continues to warn about impending Iraqi bio-attacks for the next three years.

Most of the early Internet communications about poisonous contrails mention Harris as a good source of information on the topic. Christian Patriots are advised to submit soil and fuel samples to him for testing. At least one EDB/JP-8 researcher, radio evangelist Bill Brumbaugh, submitted a JP-8 sample to Harris for analysis in the late '90s. Harris, without supplying any documentation, reported that the jet fuel contained EDB. Questionable results like these were trumpeted throughout the Patriot/conspiracy community, adding literal fuel to the fire.

1996:

The Defense Department publishes a study, *Weather as a Force Multiplier: **Owning the Weather in 2025***. This paper will become central to the weather control/geo-engineering theories about persistent spreading contrails, which gradually overshadow the EDB/depopulation theory.

September 17, 1997

Richard Finke of Ohio distributes an email with the heading "Lines in the Sky Identified!". This may be the first mass email on the subject of "deadly" contrails. In it, Finke declares that lab testing of samples from "JP-8 contaminated fields" in Maryland

and Pennsylvania have revealed the presence of ethylene dibromide (again, not surprising, as EDB has been used as an agricultural pesticide for years). The testing was conducted by Aqua-tech Environmental. Finke wrote of contrails, "The lines are dispersed and may linger for hours, slowly filtering down to unsuspecting pests, and I guess we're the PESTS."

1998:

Richard Finke and Larry Harris set up a "defensive bio-war and disaster recovery" consulting firm called LWH Consulting. They promote their services by sending out mass emails warning that a biological attack on the U.S. is imminent, and posting information about poisonous contrails on message boards.

LWH Consulting was legally incorporated under the name of Harris' attorney, Curt Griffith, who was suspended from practicing law in the state of Ohio in 2004 for ripping off two of his clients. Griffith also defended Harris in court.

Just as the bio-warfare threat helped Harris sell his VAGTHRAX booklet, the EDB contamination scare may have helped Patriot radio broadcasters sell colloidal silver. You can't read any of the early chemtrail reports without running into mention of colloidal silver as a defense against contrail-created illnesses.

Later, chemtrail researcher Will Thomas began selling USANA brand vitamins and mineral supplements on his website, writing, *"You don't have to be a Gulf War veteran to be suffering daily effects from Chemical Warfare (CW) exposure. While researching major article on chemical sensitivities, I learned that Multiple Chemical Sensitivity can be triggered by massive repeated low level exposure to oil and other chemical releases..."*

In 2000 and 2001, Larry Harris hawked a line of Solutions-4-You® anti-microbial products and a lichen-based herb called Lechenya Meera that could supposedly protect you from anthrax and other biochem warfare agents. He claimed a Ph.D. at that time, though one could not find any confirmation that he had one, and billed himself as "one of 17 registered microbiologists in the US" (rather doubtful as the National Registry of Certified Microbiologists certifies dozens of registrants each year).

Because chemtrail information is so closely tied to product placement and dishonest self-promotion like this, we should not eliminate the possibility that chemtrail theories are driven – at least in part – by profit motives.

February 18, 1998:

Harris and a cohort, William Leavitt, are arrested in Vegas for possessing anthrax. When the anthrax turns out to be a virulent strain, Harris is charged only with probation violation and receives a longer, more restrictive probation for impersonating a CIA agent.

After the hearing, Curt Griffith reportedly warned him, “Don’t let the word ‘CIA’ come out of your mouth.”

Though Harris wasn’t in possession of any dangerous biological agents this time, the Vegas anthrax arrest scared the hell out of people and made national headlines. It was alleged that Harris wasn’t just warning the world about impending biological attack – he was planning one himself. A cohort had reported to authorities that Harris boasted about possessing enough anthrax to poison a U.S. city.

After Harris’ second arrest, the speculation about persistent contrails gradually shifted from EDB to other toxic ingredients (mostly metals). But the legend of EDB-contaminated jet fuel lives on. Joseph E. Mario, in his *Anti-Aging Manual* (1998), declared that EDB was being dispersed over the U.S. via JP-8 jet fuel exhaust (contrails) for the purpose of indiscriminate population reduction. As “evidence”, Mario noted that EDB had been detected in Cape Cod cranberry ponds, Maryland and Pennsylvania. Again, this can be explained by agricultural fumigation. There was no need to bring aircraft into the equation at all.

February 1998:

Tommy Farmer collects samples of what he calls “angel hair”, a fibrous material presumably deposited by aircraft on six occasions between February, 1998 and January, 1999. The term might be familiar to UFO buffs, as “angel hair” was a common feature of early close encounter reports. Farmer claims he fell ill after his first contact with the “angel hair” (today, sticky filaments known as “chemwebs” are still being reported).

After the initial hubbub of 1997 and early 1998, the poisonous contrail theories went sub rosa for several months, kept alive by only a handful of conspiracy researchers like Clarence Napier, John Hammell, Chip Tatum, Dot Bibbee, and Joe Burton.

1999, on the other hand, would be the Year of the Contrail.

January 1999:

Canadian journalist Will Thomas publishes his first two articles about the dangers of contrails, “Mystery Contrails May Be Modifying Weather” and “Contrails: Poison from the Sky”. In these two short pieces, Thomas laid out a number of suppositions that have since become entrenched as chemtrail factoids:

- The “poisonous” contrails are sprayed by “fleets” of aircraft flying in grid like patterns.
- The “spraying” is done by military jets. Thomas described the work of Tommy Farmer, a former engineering technician with Raytheon Missile Systems who had been tracking the patterns of jet contrails for more than a year. Farmer “positively identified” two of the

aircraft most often involved in aerial spraying as the Boeing KC-135 and the Boeing KC-10, both used by the U.S. Air Force for air-to-air refueling.

- The “spraying” is also done by unmarked military jets.
- Contrails may be part of HAARP-related experiments.
- Contrails may contain substances that facilitate weather modification, and substances that are harmful to us, such as bacteria.
- Contrails may cause a variety of ailments, ranging from respiratory difficulty to lupus. No direct evidence of a link between contrails and these ailments is provided by Thomas; he is content to rely upon anecdotal evidence. Anecdotal evidence is a great place to start. It is not a great place to finish.

Thomas also rehashes the EDB-in-jet-fuel theory, and mentions public concerns about fuel dumping

January 25, 1999:

Art Bell discusses contrails on the popular paranormal-themed radio show Coast to Coast AM for the first time, with guest Will Thomas.

February 10, 1999:

Will Thomas sends an email to John Hammell, warning that people throughout the U.S. and the U.K. are falling ill with flu because of contrails. He speculates that a virus may be in the jet fuel along with EDB, and strongly urges people to stay indoors when jets are flying overhead. The email is widely distributed. It is so hysterical in tone that it is reproduced here in its entirety to show you how speculation and misinformation were disseminated in the early days of the chemtrail phenomenon:

“Tell everyone to STAY INDOORS when contrails are being woven overhead. I’ve got a BBC photo of a freezer-semi filled with dead bodies in England – all from sudden respiratory ailments. We’re talking (according to the BBC) 6,000 deaths from respiratory failure in two weeks. People are VERY SICK here. And spraying continues, after heavy spraying last Friday over Asheville, Knoxville, Dallas and other US centers. I have this morning received reports of ‘many deaths’ from a ‘cough that never leaves’ in Louisiana. This is big. This is real. I have positively verified that Emergency Rooms are overflowing with acute respiratory cases from coast to coast. Doctors are telling the *‘New York Times’* that this is NOT the flu. The only lab test I have shown JP8 present in soil samples after spraying. The ethylene dibromide in JP8 is banned by the EPA as a known carcinogen and an extremely toxic substance that attacks the respiratory system at very low doses of exposure. There may be a viral component to the spraying, as well. I am tracking this and will get back to... STOP PRESSES! I have just this minute received a call that confirms my worst fears. According to a source within the Canadian Intelligence Service, heavy spraying taking place over Victoria, BC (near me) and other population centers throughout North America are classified ‘tests’. I now know what the ‘tests’ are aimed at achieving. And it is not pretty. This is a MAXIMUM RED ALERT for

everyone on your list, John. TAKE COVER! Stay indoors during spraying. This is NOT 'woo-woo'. This is NOT a drill."

The most astonishing thing about this email is that the epidemic Will Thomas describes didn't exist. There were no reports of a "mystery" respiratory illness published by the *'New York Times'* or the BBC in 1998 or 1999. Rather, there was one article in the Times about a well-known virus that affects infants and young children (respiratory syncytial virus, or RSV). If 6,000 people in England alone had perished from the same illness in two weeks, this would have been an epidemic on par with the influenza outbreak of 1918. Yet no one could not find a single 1998 or 1999 article (BBC or otherwise) that included information about 6,000 sudden deaths in the UK. There were plenty of media releases concerning outbreaks of respiratory illnesses that occurred that year (see this one on an illness in Afghanistan or this one about Nipah virus in Singapore and Malaysia, for instance). In these cases, dozens or even a few hundred people fell ill. But 6,000, in a single country? No, nothing on that scale happened in 1998-1999. If Thomas did, indeed, see a "BBC photo" of a truckload of corpses, it was either unpublished or misrepresented to him. As for the "many" coughing-related deaths in Louisiana, Thomas provides no verifying information. In short, this terrifying email does not contain any verified information. In the winter of 1998-1999, neither the flu nor respiratory illnesses other than RSV were particularly serious. In 2000, the CDC reported the "numbers and types of circulating influenza viruses are similar to the previous two seasons (1997-98 and 1998-99). These findings suggest that this year's flu season has not been unusually severe." Even if the flu or respiratory illnesses had been worse than usual in 1998-1999, the connection to contrails would not be a given. Such outbreaks are not uncommon.

In another post, we'll look more closely at Will Thomas's chemtrail research and some of the other bizarre misinformation he has been disseminating. It will be obvious that his scientific knowledge is extremely limited. This is not an insult; it is a statement of fact. Ignorance is nothing to be ashamed of, because it does not have to be a permanent condition. Mr. Thomas can brush up on his science skills anytime he chooses.

March 30, 1999:

Clarence Napier, a Christian Patriot conspiracist, claims to have located the "hidden" HQ for the death-spraying "United Nations" planes in Arizona. He declares that Arizona is the epicenter of contrail-poisoning activity (to this day, Phoenix remains a central hub of chemtrail-watching and activism). In the last post, we explored how firefighting planes (particularly Evergreen Aviation's Supertanker) have been repeatedly mistaken for "chemtrail-spraying" planes.

In his email, Napier wrote:

"To everyone in the Phoenix, Tucson, and Chandler, Arizona area, should try to check this location out. I'm shure [sic] I have located the airfield were [sic] the planes spraying

the contrails are based in Arizona. William Thomas said people have reported to him that they looked at these planes through telescopes, and reported that they are painted all white with no markings, and that is how I spotted this field, and the entrance to it is well hidden.”

Napier postulated that these unmarked planes were United Nations aircraft, and that the purpose of the spraying was to sicken and kill people all over the world. He posted photos of the “hidden” airfield on his website without identifying it.

One diligent researcher investigated and learned the airfield was Chandler Memorial Airport, an airfield owned by the area’s Pima and Maricopa Indian Nations. Since 1978, the airfield has been leased to International Air Response, an aviation outfit that had been contracting with the U.S. Forest Service to fight forest fires since the late ’60s. The entrance to the Chandler Memorial airfield was not hidden, and its operations were not secret.

March 1999:

The word “chemtrail” begins appearing online. A conjunction of the words “chemical(s)” and “contrail”, its exact provenance is unknown (I have been told by many chemtrail-watchers that Will Thomas coined the word. This may be true, but all I know for certain is that the word didn’t emerge until the spring of 1999. I have found no appearances of the word prior to March of that year). Jay Reynolds, who has been researching the contrail-related conspiracies since the late ’90s, has stated the word was coined by former USAF captain John Grace, who used the pseudonym “Val Valerian”.

In the early days, when the contrail theories revolved around a chemical pesticide, “chemical contrail” made sense. But today, when the theories are focused on metal oxides, “nanobots”, and fibers, “chemtrail” is a bit of a misnomer.

November 20, 1999:

Art Bell again discusses chemtrails on Coast to Coast AM, with guest Clifford Carnicom.

1999:

The white supremacist/conspiracy publication ‘*The Spotlight*’ begins publishing stories about contrails, promoting the theory that they are part of a secret military operation.

Clifford Carnicom sets up his first website about chemtrails. When it comes to chemtrails, I don’t think it would even be possible to overestimate the work Clifford Carnicom. He is, quite simply, the leader in the field of chemtrail research. It was the reporting of Cliff Carnicom where I became interested in the aerial spraying. Will Thomas and others are certainly influential, but it is Carnicom who has introduced each new “discovery” about chemtrails. Carnicom was the first person to produce a documentary about chemtrails (Aerosol Crimes, 2004). His was the first major website

devoted to chemtrails. He was the first person to publish articles on the alleged links between chemtrails and Morgellons disease. He was the first to document what he believes are “nanotech devices” in Morgellons sufferers. It’s safe to say that whatever theory Carnicom comes up with next, the majority of chemtrail-watchers will accept as probable. I purchased his book on chemtrails, and much of what was on the Internet on the subject underwent removal around 2010. Cliff Carnicom’s research work gave credibility to the issue of Chemtrails where many of those before were less reliable characters or sources. Serious investigation from 2000 forward takes hold in the observation, analysis of content falling from the sky, and documentation.

2001:

Chemtrails are mentioned under the heading of “exotic weapons systems” in a bill sponsored by Dennis Kucinich, H.R. 2977 (107th): Space Preservation Act of 2001. They are removed from subsequent versions of the bill.

2002:

On Coast to Coast AM, guest Will Thomas discusses the theory that the military is using jets to spray aluminum oxide and/or barium stearate into the air for weather modification and advanced radar/HAARP experiments.

2003

The bio-warfare theory of chemtrails, introduced to the public by Will Thomas in ’99, becomes much more popular in 2003. It is reinforced by the claims of Clifford Carnicom, who says he heard important information from another researcher, who heard it from a military source. Leaks were coming from Air Force Reserve crew members flying C130 aircraft based around the country.

According to Carnicom’s source, airplanes are dispersing polymer filaments with freeze-dried bacteria or viruses and metals (barium, aluminum, strontium) attached. The metals heat up from the sun, allowing the pathogens to survive in the cool air.

The ultimate goal of the spraying, Carnicom states, is the *“control of all populations through directed and accurate spraying of drugs, diseases”*. He declares that people who have *“tried to reveal the truth have been imprisoned and killed”*, but does not provide any names for verification.

2004:

The incredibly weird “sylph” sightings begin. Chemtrail watchers report seeing cloudlike forms absorbing chemtrails, then vanishing. Some believe the sylphs are living creatures. Others suspect they are supernatural entities along the lines of angels, or nanobot’s swarms that can be manipulated remotely (like the Smoke Monster in Lost).

Clifford Carnicom releases his self-produced documentary “Aerosol Crimes”, the first feature-length film about chemtrails.

As with any conspiracy theory that gains some traction, infighting and suspicion among researchers soon surfaces. Chemtrail-fighter Don Croft declares that Carnicom’s Aerosol Crimes is disinformation. Croft tries to eliminate chemtrails with Reichian orgone devices (bits of metal).

2007:

Lydia Mancini starts the website Barium Blues to document the “barium chemtrails” she has been seeing since about 2003.

Will Thomas publishes his book Chemtrails Confirmed.

August 2007:

The Discovery Channel program “Best Evidence” airs a show on chemtrails.

2008:

The Carnicom Institute becomes a registered non-profit organization.

“Toxic Skies”, a fictional movie dealing with chemtrails, is released in Australia. The second film from Canadian thriller/horror director Andrew C. Erin is a medical thriller, starring Anne Heche as a virologist struggling to identify a mysterious disease.

As a medical thriller, the film is deeply unimpressive (at one point Heche’s character declares, *“We don’t know if it’s Avian Flu or bubonic plague”*). The film receives attention in the conspiracy community for three reasons: It explicitly mentions chemtrails, the context is profoundly negative, and it was “banned” in North America.

Spoilers: The virus is being spread via pellets that have been mixed into jet fuel (must be one tough virus to survive not only the temperatures of a jet’s fuel system, but the cold temperatures of high altitude). The virologist develops a vaccine to inoculate people against the virus, and must race against the clock – and the bad guys- to deliver it.

The film was shot in Spokane, WA by a mostly Canadian crew, but premiered in Australia, causing some chemtrail researchers to cry out that it had been “banned” in the U.S. In reality, the film was simply picked up by a foreign distributor. The highest bidder gets the distribution rights, and the American distributors evidently weren’t impressed. After being screened in Australia, Toxic Skies began showing up everywhere else. It is available in the U.S. and Canada. It’s even on Netflix.

Then there were those who believed Americans were supposed to see the movie. You see, many conspiracy researchers believe in something they call “predictive programming”. In essence, they contend that the world’s elite (the Illuminati, the globalists, etc.) are required by some ancient code of conduct to have willing victims we see this “predictive programming” in relation the Simpsons, too Beavis and Butthead “predicting” 9/11). In other words, they have to tell us what they’re going to do to us before they do it. So they seed clues into TV commercials, cartoons, magazine articles, magazine covers and even low-budget medical thrillers. Chemtrail researchers who look for predictive programming would probably point to the vaccine in Toxic Skies as just another ploy. First, the Illuminati poisons you with a chemtrail virus, then they dupe you into taking a vaccine that will also kill you.

To my knowledge, no one has asked the director himself how he feels about chemtrails. Perhaps Mr. Erin just picked an interesting conspiracy theory to hang a thriller on, as so many screenwriters do. Looking at the list of conspiracy theories at Wikipedia you will find every one of them has become fodder for entertainment. FEMA camps? X-files. Fluoride? Dr. Strangelove. Morgellons? Bugs.

January 2008:

Local news station KSLA in Shreveport, Louisiana broadcasts a report on chemtrails. Producers sent water samples collected in August 2007, in Stamps, Arkansas to a lab. The man who collected the samples suspected that jets flying over his property were spewing chemicals or metals. The results showed the water to contain 68.8 parts per billion (68.8 µg/L) of barium. The EPA limit is 2 ppm (2000 µg/L), and the tests found 0.0688 ppm (68.8 µg/L), just 3.4% of the allowable limit. But the KSLA reporter misread 68.8 µg/L as 6.8 parts per million, over three times the EPA level. When the mistake was pointed out, KSLA later issued a correction to its report.

October 2008:

The chemical depopulation theory persists. MythicShadow posts the following on an online forum:

“STRANGE DAYS STRANGE SKIES YOU ARE NOW BREATHING ETHYLENE DIBROMIDE, NANO-PARTICULATES OF ALUMINUM AND BARIUM AND CATIONIC POLYMER FIBERS WITH UNIDENTIFIED BIOACTIVE MATERIAL: *“We the people have not been warned, advised or consulted but are certainly vulnerable to the outcomes.”* Lightwatcher.com *“Biologic components have been reported in airborne samples that include: modified molds, desiccated red blood cells and exotic strains of bacteria”* Additionally, award winning investigative reporter, Will Thomas, has reported findings of over 300 types of virally mutated fungi in the chemtrail fall out. The Idaho Observer has reported findings of 26 metals including barium, aluminum and uranium, a variety of infectious pathogens and chemicals and drugs including sedatives in chemtrail fallout. Dr. R. Michael Castle reports the finding of cationic polymer fibers. Others have reported findings of tiny parasitic nematode eggs of some type encased in

the fibers. Welcome to the brave new world of toxic barium skies, weather control, mind control and population control through the use of chemtrails modulated with electromagnetic frequencies generated by HAARP. Our health is under attack as evidenced by the skyrocketing rates of chemtrail induced lung cancer, asthma and pulmonary/respiratory problems as well as the emergence of a new plague, Morgellons Disease, an infection with a new and unknown pathogen that is seriously disabling and disfiguring. Things were beginning to heat up and become of serious health concerns.

Over 12,000 families in the U.S. are now infected with Morgellons. Our skies are increasingly hazed over with fake barium aluminum particulates, ethylene dibromide chemtrail clouds. Whether in the atmosphere or in the Ocean this added particulate matter is a hazard to the health of every living thing on this planet. Today there is a main-stream media blackout on this subject so the only way to get the word out is by word of mouth. People are already dying because of the chemtrails. Life expectancy is down. This situation presents an immediate and serious threat to you, your family and loved ones.

2010:

The first professionally produced, feature-length documentary about chemtrails is released. *“What in the World Are They Spraying?”*, directed by Michael J. Murphy, draws more attention to chemtrails than anything to date. The film centers on the geoengineering theory of chemtrails, though depopulation and a few other theories are mentioned.

Once again, a racist connection to chemtrail theories rears its ugly head: The executive producer of WITWATS is G. Edward Griffin. A disciple of Hitler-adoring conspiranoid Eustace Mullins, Griffin was a speechwriter for George Wallace’s presidential campaign. Like Mullins, he has made a career out of promoting a broad array of conspiracy theories and quacky medical “cures” while warning about the Commie menace. George Wallace wasn’t a racist. He just didn’t like black people, that’s all.

Next to the work of Clifford Carnicom, the release and distribution of WITWATS is probably the single most important event in the history of the chemtrail phenomena.

2012:

Paul Wittenberger, co-director of *“What in the World Are They Spraying?”*, releases a documentary about depopulation, *“The Great Culling”*. It is promoted as a follow-up to WITWATS, but Michael J. Murphy and his Truth Media Productions distance themselves from it. Other chemtrail researchers, like Rosalind Peterson, ask not to be included in the film. Francis Mangels, a retiree who threatened to shoot down jets to preserve his veggie garden during a county meeting, also distances himself from the “culling” theory of chemtrails and the Wittenberger documentary.

I know what I see with my own eyes and it matches up with patents for geoengineering. Try as you might, the stratospheric aerosol program is in full bloom and full sight. Chemtrails is a weather weapons program. NOT geoengineering to mitigate global warming as proposed by David Keith. If Chemtrails is not exposed and stopped, we will see TWO aerosol operations spraying pollution. One in the troposphere (chemtrails) and another in the stratosphere?

“The United States needs to incorporate the defense against directed energy weapons with the same intensity used developing anti-ballistic missile defenses. One of the major drawbacks to optical or directed energy systems is the inability to penetrate clouds or dense fog. Advances in technology are beginning to bring weather phenomena under our control. Greatly increased computing power and micronized delivery systems will allow us to create specific perturbations in local atmospheric conditions. These perturbations allow for the immediate and lasting ability to create localized fog or stratus cloud formations shielding critical assets against attack from energy based weapons. The future of nanotechnology will enable creation of stratus cloud formations to defeat DEW and optically targeted attacks on United States assets. The solution the weather control problem involves networked miniature balloons feeding and receiving data from a four-dimensional variation (4d-Var) computer model through a sensor and actor network. A network of diamond-walled balloons enters the area to be changed and then both measures and affects localized temperature and vapor content. This system effectively shortens the control loop of an atmospheric system to the point it can be managed. The capabilities in the diamond-walled balloons are based on the future of nanotechnology.”

Whatever one wants to believe about Chemtrails, you cannot dismiss the existence of such spraying where there should be none at all. Dean Wigington hosts the web page www.geoengineeringwatch.org/ads/dane-wigington Dean Wigington has an extensive background in solar engineering and was a former employee of Bechtel Power Corp. He has devoted the last ten years of his life studying climate change, weather modification and geoengineering. Dane has taken the chemtrail issue out of the world of the obscure to one of “in your face science”.

Dean Wigington was interviewed by Greg Hunter a few years ago and has validated there is something more to Chemtrails than what we know about. Lead researcher Dean Wigington for the global climate engineering informational website, www.GeoengineeringWatch.org, and says newly discovered U.S. government documents prove global climate manipulation, commonly referred to as chemtrails, is real. Not only that, but the document, that originated in the U.S. Senate, also proves weather manipulation has been going on around the world for decades. The exponential damage it is doing continues today, and Wigington explains, *“With the 750 page document, how much proof do people need? In this document, it describes the need for global cooperation between nations. There are some 50 or 60 countries named in the document involved with the programs, as well, even between nations that would*

otherwise have hostilities between them. . . . The document also names about 10 federal agencies, about 12 major universities, and it describes the need for complete immunity from liabilities created for all those involved in these programs. They have complete immunity for the damage they have done, basically. It is an extremely damning document. How big does the elephant in the room have to be? . . . There is no question these programs are real and ongoing.”

Dean Wigington goes on to say, “In this 750 page document, the express goal is for those in power to decide who should get more rain and who should get less rain. . . . Even though you have the damage by these programs, the desire to play God with the weather was not suppressed at all. In the 1978 document, they talk about further expanding the programs to a wider scope and scale. These people think they have a right to play God with the weather, with no regard for the consequences what-so-ever.”

So, why is geoengineering or weather modification harmful to the planet? Dean Wigington explains, “They have basically straight-jacketed the planet from being able to respond. In spite of a warming planet, which geoengineering can deflect and cause large areas of temporary cooling by blocking the sun, it comes with the cost of a worsened overall warming. They shred the ozone layer, they disrupt the rain cycle horribly. We have drought expanding around the globe, boreal forests are dying. So, the forests can’t absorb carbon that they otherwise would. The UV is cooking the trees. We have toxic metals raining down on us from what they are spraying with these programs. Aluminum, barium and strontium is poisoning the root system of these trees. They are trying to use the oceans, as well, to get them to absorb more carbon, and that is killing the oceans, as well. There are 400 dead zones around the planet. This is the ‘cure’ that is worse than the disease, and that is saying a lot. Climate engineering is the epitome, the absolute epitome, of human insanity and the quest for power and control. Ultimately, that’s what these programs are about—power and control.”

Dean Wigington also claims to have new information on government suppression of whistleblowers and gag orders given to NOAA and the National Weather Service. Wigington says climate engineering is a known secret in the highest offices of state and federal government. Wigington contends, “I was told by a Congressional aid off the record about 90 days ago, we all know what is going on and we don’t know what to do. This is the biggest elephant in the room. Everybody is afraid to step out of the shadows, but in the meantime, the ship is sinking, the entire ship, and we’re all on it.”

The truth is the government is spraying deadly chemtrails in hopes of population reduction. Furthermore they have been known to use chemtrails as biological testing agents on the populace; all while claiming they are nothing more than mere vapor.

NSA defector Edward Snowden, the hacker who gained access to every secret corner of the Internet during his tenure at the NSA, came forward in 2013 with details of a classified project to alter the world’s climate. The shocking truth, as he says, is that chemtrails are part of a benevolent program aimed at countering global warming. By cooperating in secret with jet fuel manufacturers, government agents have carefully kept

the massive chemtrail efforts completely under wraps. Snowden added, *“I am only revealing this program because there is no oversight in the scientific community, any public discussion, and little concern for the side-effects which are well known only to a few privileged people interested in continuing the decades-long chemtrail program in secret.”*

Because climate change is a threat to U.S. agriculture, it has been labeled a national security issue. With the influence and cooperation of Monsanto, a secret Geoengineering lab dubbed Muad'Dib has been operating since the late 1960s, and the chemtrail program is often referred to by insiders as its “crown jewel.” Muad'Dib has aimed to protect North America's climate at all costs – even if that means accelerating desertification in Sub-Saharan Africa or spreading trace amounts of carcinogens over lightly populated areas. Other side effects, which scientists at the secret Muad'Dib Geoengineering Lab have predicted, include droughts in the Amazon and powerful windstorms along the East Coast.

Snowden shared decisive documents with *'The Internet Chronicle'*, but out of concern for national security, only his testimonial can be published. These documents contain references to scientists who would surely be targeted by foreign counterintelligence, and their knowledge is vital to short-term survival of the United States.

Snowden said, *“If this program were to stop, the scientists behind it strongly believe that within just one year the North American climate would spiral out of control, and crop failures would lead to a series of devastating famines that would quickly depopulate urban centers.”*

Because the program has been carried out on such a massive scale, skeptics might find Snowden's story unbelievable. However, Snowden explained that the chemtrail program has been incredibly easy to hide, especially with the cooperation of jet fuel companies, a crucial part of the military-industrial complex. Snowden said, *“The chemicals which are released by passenger airplanes have been covertly introduced as ‘additives,’ supposedly to improve efficiency. Only as the plane reaches cruising velocity does the heat and atmospheric pressure cause a chemical reaction that synthesizes the top secret carbon-trapping molecule. This process is imperfect, and many of the by-products are incredibly dangerous even in trace quantities. The most dangerous thing is that although chemtrails are keeping the climate of the U.S. reasonably stable, citizens are bombarded every day with an invisible rain of carbon-laden molecules, and the effect on health is totally unknown.”*

Chemtrail spraying operations are an around the clock operation. When I lived in Pittsburgh during 1997-2012, on a night when the moon was full and clear, one could see clearly aircraft spraying against the backdrop of a full moon. The spraying missions are not restricted or affected by weather conditions. The few pictures that follow show both commercial and military aircraft of many models and variations, onboard equipped military aircraft spraying equipment.

In the fall of 2012 we relocated to Fredericktown, KY to help with the raising of six grandchildren. I would walk our two dogs for an outing around the noon hour, about the time the rural mail carrier made his stop on our dead-end street. As we strolled the corn field behind the stand of mail boxes, a friend of mine back in Monroeville, PA called me. As we talked, I noted to my friend the clear blue sky above me. What occurred to me next sent shivers up my spine. Virtually as I was talking, an aircraft in the sky laid down an "X" pattern Chemtrail directly overhead. I shared that with my friend and could not help but to believe that my cell phone call was being listened-in on and someone wanted to say hello, and send a message to me below.

If you use any search engine and search for pictures of Chemtrails, aircraft, sprayers, you will see a great deal of variety in the spraying conducted in the sky above us. It is not whether they exist, but of the question, what is their purpose. Although the Air Force has a program called "Operation Clover Leaf." Project Cloverleaf is a joint US-Canadian Military Operation involving distributing chemicals into the atmosphere above

Canada and the United States. Both US military refueling tankers and thousands of planes in private corporate aviation are used.

The purpose is to seed into the atmosphere multiple weather/climate modification chemicals for purposes of proactive environmental warfare, originally motivated by a climate change concern and to introduce highly humanly toxic metallic salts and aerosol fibers that facilitate atmospheric operations of HAARP technology (which is involved in climate manipulation).

Piggybacking on this, the covert distribution framework of the toxic metals & chemicals has been used in other covert military/civilian operations like massive biological experiments on whole cities and countryside of people/ecologies – tests which are unauthorized & without consent or even public knowledge.

The purpose is nothing less than the actual physical transformation of the earth's atmosphere in order to provide a platform for the latest chemical & electromagnetic technologies of warfare, communication, weather control, low-yield biological warfare, and control of populations through “non-lethal” chemical/electromagnetic means.

US environmental regulations limit all airborne particle concentrations less than 10 microns in diameter. In 1994: 10 micron aluminum oxide is called for in a patent issued to Hughes Aircraft Company.

‘Welsbach Seeding for Reduction of Global Warming’ refers to spreading highly reflective materials in the atmosphere to reflect enough incoming sunlight (1-2%) to slow rapidly-accelerating global warming.

The sky shield blueprint calls for dispensing microscopic particles of humanly toxic aluminum oxide and other reflective materials into the upper atmosphere. Computer simulations by Ken Caldeira at Lawrence Livermore National Laboratory calculated that this would be enough to stop warming over 85 per cent of the planet, despite an anticipated doubling of carbon in the atmosphere within the next 50 years.

Lawrence Livermore Labs priced the aerial spray program at U.S. \$1 billion dollars a year – a cheap fix to maintain massive private corporation petroleum profits in the face of Kyoto's internationally agreed carbon cutbacks.

IPCC warned against unpredictable upsets of the atmosphere & angry populaces reacting to, *"the associated whitening of the visual appearance of the sky"*.

Caldeira was so concerned he went public, warning deflecting sunlight would further cool stratosphere, concentrating icy clouds of ozone-gobbling CFCs that could destroy Earth's solar radiation shield. Dean Wigington is of the opinion it may have already happened.

However, they ignored the global atmospheric risks & the ecological and human health concerns for the sake of maintaining a quick-fix on private oil profits. Aluminum in 'Welsbach patent' was intended to be put into the fuel of jet airliners. If it is added to the plane's auxiliary fuel tanks, chemtrails will appear only at cruising altitudes after the flight crew switches to auxiliary fuel tanks.

Switching to main tanks for take-off and landing will leave no chemtrail clues close to the ground. According to a former engineer for Alcoa, aluminum oxide in the size ranges called for would polish jet turbine blades without harming them, & would form brilliant white plumes in skies.

The engineer warned that metallic particles intended to remain aloft for a year could settle quickly to the ground and become toxic. The Pentagon paper presented and published: "Weather as a Force Multiplier – Owning the Weather in 2025, A Research Paper Presented to Air Force 2025."

Quoting this paper:

"According to Gen Gordon Sullivan, former Army chief of staff, 'As we leap technology into the 21st century, we will be able to see the enemy day or night, in any weather- and go after him relentlessly.' A global, precise, real-time, robust, systematic weather-modification capability would provide war-fighting CINCs w/ a powerful force multiplier to achieve military objectives.

Since weather will be common to all possible futures, weather-modification capability would be universally applicable and have utility across the entire spectrum of conflict. Capability of influencing the weather even on small scale could change it from force degrader to force multiplier."

Recipe for creating “cirrus shields” was outlined, & it explained how “weather force specialists” were dispersing chemicals behind high-flying tanker aircraft in a process the air force calls “aerial obscuration”.

Early 1998:

“Months of ‘spraying’” by photo-identified US Air Force tanker planes over Espanola, Ontario, Canada. Former Ontario Provincial Police Officer and Supreme Court expert witness Ted Simola reported lingering Xs and numerous white trails, some of which “just ended” as if they had been shut off but remained in the sky.

Spring 1998:

Extremely high levels of aluminum powder in rainwater falling through thick sky plumes over Espanola, Ontario. Espanola lab tests conducted after residents began complaining to environment ministry of severe headaches, chronic joint pain, dizziness, sudden extreme fatigue, acute asthma attacks and feverless “flu-like” symptoms in a 50-square-mile area coinciding with “months of ‘spraying’” by photo-identified USAF tanker planes.

Disease-causing agents in chemtrails tested from rainwater samples by independent lab through Ontario Ministry of Environment: finds aluminum at 7x government safe levels. High enough, said lab, ‘to kill fish’.

Summer 1999:

Fine aluminum particles found in laboratory tests of chemtrail-contaminated rain taken in Espanola, Ontario.

The aluminum found in chemtrails over Ontario matches the 10 micron aluminum oxide called for in the 1994 patent. On the other side of the world, in Naples, Italy, the U.S. Navy's Kitty Chastain sat on her hotel balcony and watched aerial grids being laid all day just offshore over the Bay of Naples. *"People were coughing all over Naples,"* she wrote. On the bus ride in from the base, Chastain explained chemtrails to many sailors with hacking coughs.

Oct. 12, 1999:

Paris correspondent reported,

"...heavy activity from all directions, X upon X. The pilots here seem to like to play chicken; they fly right at each other and then one will swerve, their trails forming pitchforks and Xs."

No contrails were being left by "normal planes" in the same skies. But the next day, planes flying over Paris 'from all directions' obscured sky.

Nov. 1999:

NDP Defense critic Gordon Earle presented a petition signed by 550 Espanola residents to Parliament in November, 1999 demanding the end of aerial spraying by commercial or military aircraft, foreign or domestic. They are ignored.

2000 to present:

Beginnings of reports of unusual white plumes in Canada & U.S. noticed by Air Canada pilots, police officers, ex-military personnel.

April 27, 2000:

American tourist in Spain, John Hendricks, dashed off quick email from El Café de Internet: *"Were we surprised to see that the chemtrails are as bad here as they are anywhere, both in Mallorca and in Barcelona."*

May 2000:

'Project Cloverleaf' name revealed as the covert commercial airline aspect of the chemtrail spraying. An anonymous United States commercial aviation mechanic and airline corporate executive separately admit that commercial planes were rigged with

special equipment to distribute unknown chemicals into the air, using thousands of commercial planes in the United States.

The chemicals are discharged through disguised, hollowed-out static wicks on the planes' wings. Chemical solution tanks are covertly hidden on the planes. Covert operation is administered by the tiny number of outsourced private personnel who empty whole airports' multiple airline lavatory tanks – while they fill up the chem-tanks at the same time – the cover for Project Cloverleaf.

Airline executives are told by unidentified government agents that if they tell public that they are spraying the atmosphere with illegal unmonitored compounds, they could be imprisoned. Project Cloverleaf documents are kept in locked safes at the companies involved.

All commercial airlines in the United States have accepted payment from federal government to conduct aerial spraying as early as 1998. A mechanic was threatened with firing, he was framed, & his internet usage was monitored after he analyzed several rigged chem-planes.

June 2000:

By mid-2000, unprecedented aerial spray campaign over 13 allied nations, causing serious illness/fatalities; changing clouds & weather.

December 2000:

Canadian aviation authority Terry Stewart investigated a Victoria caller's complaint of intensive chemtrails over British Columbia capitol.

In taped phone message (later played to 15 million radio listeners), the environmental manager for the Victoria Int'l Airport checked with control tower, reporting:

"It's a military exercise, U.S. and Canadian air force exercise, that's going on. They wouldn't give me any specifics on it."

The aircraft making lingering X's & grids over Vancouver Island, Canada, photo-identified as U.S. Air Force KC-135 & KC-10 aerial refueling tankers.

The U.S. Air Force counts 650 four-engine KC-135 Stratotankers & 50 KC-10 Extenders in its active inventory. Canada without armadas of tankers reports of acute upper respiratory & gastrointestinal illness, fatigue, headaches, joint pain, and dizziness

March 12, 2001:

Multi-plane chem-missions verified in March, 2001 by FAA Air Traffic Control (ATC) manager for northeastern seaboard of United States. Confirms an ongoing East Coast 'Military Operation.'

Similar military activities ongoing in other regions, he added. On his 'scopes he could track the tankers flying north into Canadian airspace. In interview with freelance radio reporter S. T. Brendt, ATC Control manager said he's told on as many as 4 occasions in March, 2001 to re-route commercial air traffic around military craft in classified aerial operation in the northeastern seaboard... repeatedly conducted at altitudes between 37,000-40,000 ft.

While air traffic controllers normally ignore air traffic above 10,000 feet, he said he was ordered to divert incoming European air traffic away from the military planes. When asked why, he said. *"I was told there was a military exercise in the area. Of course, they wouldn't give me any of the particulars."*

Were the tankers involved in weather modification?

"That approximates what I was told."

3rd interview, question rephrased:

"Were tankers observed on ATC radars involved in climate modification?"

He confirmed this is what he was told was the object of the missions. USAF tankers spray a substance that showed up on ATC radars as a 'haze'.

More interviews led to statements that ATC Controllers at Chicago's O'Hare airport, all 3 major airports in New York, Los Angeles LAX, San Francisco, Atlanta, Cleveland, San Diego, Washington DC's Dulles and Jacksonville, Florida were being ordered to route airliners beneath formations of Air Force tanker planes spraying something that regularly clouds all their screens. One TV weather reporter, an ex-Marine meteorologist even commented in his weather report, that there was Chemtrail spraying to explain what the station's weather radar was showing on camera.

Every controller, without exception, is being told to divert traffic due to military exercises.

"One of them said, 'Aluminum or barium' that's not something you want to be breathing."

ATC told aerial operations involve 'climate experiments'.

June 17, 2001:

After photographing massive plumes over Gibsons, Ontario, Canada, Suzanne Smart checked with aviation authorities and found that no airline flight plans had been filed for that airspace at that time.

Official weather data showed that when her photos of multiple white plumes were taken, the 30 per cent humidity at 30,000 & 35,000 feet was less than half that needed for contrails to form. According to the National Center for Atmospheric Research in

Boulder, Colorado, the only way to form artificial clouds in warm dry air is to introduce enough particulates into the atmosphere to attract and accrete all available moisture into visible vapor.

If repeated often enough, the resulting rainless haze can lead to drought.

The above photo of a U.S. Air Force C-130 sporting spray nozzles located on either side of the tail section. The photo leaves no doubt as to Chemtrail spraying is a U.S. operation. The big question that remains unknown is who authorized it, who planned it, and what other aspects about the program that we are not told about. Our government is killing us without our knowing!

Summer 2001:

Chemtrail pictures sent to newspapers by Associated Press.

Oct. 2001:

United States House of Representatives bill HR2977 introduced by Ohio Rep. Dennis Kucinich. It called for the peaceful uses of space, and a ban on 'exotic weapons'.

Section 7 of the 'Space Preservation Act of 2001' sought specifically to prohibit 'chemtrails' by name.

Kucinich told the 'Columbus Alive' newspaper (Jan. 24, 2002) that despite official denials, as head of the Armed Services oversight committee he is well acquainted with chemtrail projects.

"The truth is there's an entire program in the Dept. of Defense – 'Vision for 2020' – that's developing these weapons," Kucinich told reporter Bob Fitrakis.

The U.S. Space Command's 2020 vision calls for 'dominance of space, land, sea and air'. Though "section vii" naming chemtrails, HAARP & other planet-threatening weapons were removed in a substitute bill, the removal was under pressure, according to Kucinich...

December 6, 2001:

A scientist working at Wright-Patterson Air Force Base recently told reporter Bob Fitrakis that two different projects are being conducted.

One involves cloud creation experiments to lessen the effect of global warming. Other chemtrails connected with the military's extremely high-power Radio Frequency beam weapon in Alaska called HAARP.

The scientist claims that the two most common substances being sprayed into chemtrails are:

- aluminum oxide
- barium stearate

When you see planes flying back and forth marking parallel lines, X-patterns and grids in a clear sky, that's aluminum oxide, according to the scientist.

Barium may be sprayed in a similar manner for the purpose of high-tech 3-D radar imaging.

Sprayings have only expanded since then. Complaints met with complete official denials and grandstanding. Whole cities repeatedly are being buzzed/sickened.

What if I told you "they" are killing us using Chemtrails?

Steve Allen back on June 22, 2017, said geoengineering chemtrails were being used for a very malevolent purpose and you don't believe it?

Have you been sick and gone to the doctor and he can't find a cause? Your sinuses are killing you. Your nose is stuffy. Your body aches, You're sweaty, coughing, sneezing and you don't have enough energy to get out of bed. All the symptoms of what educated doctors are calling "chemtrail flu."

Dr. Len Horowitz says, *"It's not the flu. It's a conspiracy."* His geoengineering opinion is not based on conspiracy theory but on conspiracy "fact."

Over the past 20 years, Dr. Len Horowitz has become America's most controversial medical authority. He is black-listed, de-platformed as much as Dr. Martin Pall is for his reports on the harm and danger of EMF radiation emitted through cell towers and wireless communications.

He's a university-trained medical researcher, and he charges that "elements of the United States government" are conspiring with major pharmaceutical companies to make large segments of the population sick. (Have you noticed the volume of pharmaceutical commercials on the nightly news shows? You'll see at least 2-3 every night.)

Mainstream media is reporting that hospital emergency rooms are jammed with patients suffering from "a bizarre upper respiratory infection" that doesn't quite seem like a virus.

They're reporting that it's "mystery" flu and that the flu vaccines are completely ineffective against it.

Dr. Horowitz says, *"The fact of the matter is, we have seen this type of an epidemic since the end of 1998 and the beginning of 1999. People have been hacking and coughing with this bizarre illness that does not seem to follow any logical viral or bacterial onset and transition period. If it was really a "bacterial or a viral infection," it would cause a fever, but it doesn't. It lasts for weeks, sometimes months.*

Sinus pressure and congestion, sinus drainage, cough, fatigue, general malaise. People just feel "off" and know that something's just not right in them.

Topics people search for when researching geoengineering chemtrails are many:

If it's not just natural causes for all of us getting the same symptoms, then WHO IS RESPONSIBLE?

The following information is NOT speculation. If you were to read "The Report From Iron Mountain," the top expert's analysis of military warfare, you would see the Rockefeller family as one of the major players in this conspiracy. They are one of the major players in "**world genocide and world population reduction.**" I wish it wasn't true, BUT IT IS! When you examine who owns the geoengineering fuel, whom the fuel company directors are, it becomes very clear, the Rockefeller family and the royal families – (Standard Oil and British Petroleum.)

And what are their other agendas? Reading their documents, proves they have funded, historically, "eugenics, racial hygiene, genocide, depopulation, family planning, maternal and child health," where they make and deliver vaccines, and contaminated blood supplies.

"These are the banksters, the same people who run the blood banking as well as the money banking industries," according to Dr. Horowitz. Are these really the ones responsible for spraying these aerosols and geoengineering chemtrails on our world?

Dr. John Coleman, who worked as a British Secret Service agent at the highest levels made it very clear who was running those companies.

Ironically, it all goes back to the highest level of the British royal family. These are the big money players using geoengineering chemtrails in skies all over our earth.

The Bush family, Rothschild family, the Rockefeller money, and the entire Rockefeller establishment is based upon Rothschild money and royal families.

If you can't explain the geoengineering chemtrails purpose rationally or any other way, you've got to consider conspiracy theories and eliminate the negative label that you've placed on conspiracy theories, which have been demonized along with holistic medicine.

If you're wondering if the elite pay people to "debunk" or try and convince people that there is no such thing as "chemtrails" or geoengineering chemtrails, you're absolutely right. The more people that attach "conspiracy theory" to them, the more they can continue their nefarious operations without bringing the public to seeing the reality of them. In August, 2020, it was discovered that Bill Gates has spent \$250-million for advertising and sources to debunk his anti-vaccine critics.

The Armed Forces Research Institute of Pathology has registered a patent for the "**pathogenic mycoplasma**" that is causing the Covid-19 epidemic. You can see the patent report in Dr. Len Horowitz's book, [Healing Codes for the Biblical Apocalypse](#).

The pathogen Mycoplasma is not really a fungus, it's not really a bacterium, and it's not really a virus. and it has no cell wall. But it is fatal and activated by EMF energy!

It goes deep into the cell nuclei thereby making it very difficult to mount an immune response against it. Dr. Martin Pall has exposed how EMF wireless radiation activates the **Mycoplasma** to attack the respiratory system. As I pointed out in my article listed below, **Mycoplasma** is watching for three things: 1. Body pH, 2. Oxygen level, and 3. the Immune system. When optimum balance is out on any of these three elements, the

Mycoplasma begins an attack that results in death/decomposition. **Mycoplasma** is part of the biome system of all life forms.

It's a man-made biological weapon. Yes, I said that geoengineering chemtrails are a "man-made" weapon. The patent report explains how it causes chronic upper respiratory infections that are virtually identical to what's going on right now." Yes, they really have a "**patent**" on geoengineering chemtrails they spray on us! ER doctors during the Covid-19 outbreak were reporting that victims experienced death by Hypoxia, a medical term that describes lack of oxygen!

In my series "Covid-19 Con Job Satanic Plan-Demic/Scam-Demic – Part 8," I suggested that the alleged Covid-19 was 5G activated Mycoplasma! It is not a virus, but a pathogen known as "**Mycoplasma.**" The evidence that supports that allegation is documented in the same article.

CHEMTRAILS DESTROY YOUR IMMUNE FUNCTIONS

*"I believe the chemtrails are responsible for a "**chemical intoxication**" of the public, which would then **cause a general immune suppression**, low grade to high grade, depending on exposure. The immune dysfunction allows people to become susceptible to opportunistic infections, such as this mycoplasma and other opportunistic infections", says Dr. Leonard Horowitz.*

"I first began to investigate chemtrails when some were sprayed over my home in Northern Idaho. I took pictures of them, and then contacted the Environmental Protection Agency of the state who were clueless and referred me to the Air Force. They got me in touch with Centers for Disease Control Toxicology, and after about a week I received a letter from one of their chief toxicologists saying, indeed there was some amount of "ethylene dibromide" in the jet fuel."

Most people at the state levels have NO clue about chemtrails and geoengineered aerosols. (As I found out contacting my local state air quality offices.)

"Ethylene dibromide is a known human chemical carcinogen that was removed from unleaded gasoline because of its cancer-causing effects. Now suddenly it's appeared in the jet fuel that high-altitude military aircraft are emitting!"

Ethylene dibromide is coming out of the jet fuels causing immune suppression and weakening people's immune system. Plus, the **Mycoplasma** microbe or a fungus that causes an upper respiratory illness.

Now, you develop a secondary bacterial infection. Then doctors prescribe ANTIBIOTICS, and the antibiotics cause your body chemistry to go acidic. This causes you to get rashes and other things, your liver gets full of toxins and comes out through your skin in rashes and you get hyper allergenic reactions associated with the other chemicals.

Friends in the Bahamas, Bermuda, Toronto, British Columbia, Midwest and Florida are all reporting the same geoengineering seeding of the atmosphere. This ongoing crime is just despicable!

"All of a sudden now you've got human beings completely out of balance and infected by two, three or four microbial co-factors as well as intoxicated by a variety of different chemicals... and you've got somebody who's going to be chronically ill", says, Dr. Horowitz.

THE BLACK BUDGET FOR GEOENGINEERING CHEMTRAILS

*"The Frank Church Congressional Hearings of 1975 exposed the CIA's biological weapons contracting firms – Litton Bionetics and the Army Corp of Engineers who were developing and utilizing various biological weapons on populations. And this is **all done under black operations, covert operations**, where they get funding and congressional people are never really informed where this money is going. **It's the black budget**", says Horowitz.*

*"And in the contemporary warfare arena, where experts in biological chemical warfare convene and discuss the ways that are ideal to conduct warfare today, to really take an enemy out, you don't want to kill the people. You want to produce people who are **chronically ill and become dependent on the state and totally sap the resources of the country.** (i.e. Obamacare)*

And then you can move in with your military-medical-industrial complex and your international medical-pharmaceutical cartel. You sell these defeated countries all of the pharmaceuticals and chemicals that they need to maintain any semblance of healthy function.”

They're completely depleted. They can't put together a military. You create a dependence and thereby you weaken the population, and weakened populations are easy to control. So you've got population control, and you make vast fortunes doing it, versus just blowing up a nuclear weapon and devastating the infrastructure that you own... You and your colleagues own that infrastructure. You want to get rid of the people. You don't want to get rid of infrastructure”

The ruling crime families are making vast fortunes off humanity's suffering. The **Rockefellers monopolized American medicine in the 1920s**. They, along with **I.G. Farben**, Germany's leading industrial organization, held the monopoly on the world's chemical and pharmaceutical industries.

The Rockefellers and I.G. Farben worked together before World War II and during World War II. For all practical purposes, the Rockefellers and I.G. Farben were the Third Reich.

Who else is involved? The **Merck Pharmaceutical Company**. Their president, George W. Merck, was America's "biological weapons industry director" during World War II. He was personally appointed by President Roosevelt and Secretary of War Stimson.

The Nazis planned for the New World Order. They even had a term for it – "Neue Ordnung," which means New Order, New World Order. This today, this New World Order, is the rise of the Fourth Reich. This is precisely what they envisioned and then carried out on a global scale. **The goal of the Fourth Reich is population control and genocide.**

Most Masons have no clue what they're really up to at the highest levels. they give you increased knowledge at every higher degree of Freemasonry. When you get beyond the 33rd degree, you get the highest indoctrination into what's called the Ancient Arcana, the ancient sacred knowledge described in the book *'Healing Codes of the Biblical Apocalypse.'* That's where the "devil-doers," (Luciferians) who are running this planet are nesting.

How does a person become that high in the Masonic organization? Through bloodlines. You've got to be major royalty, ideally a descendent or you've got to be somebody who is very close to the royalty, the major bloodlines.

WHO ARE THEY TARGETING WITH GEOENGINEERED AEROSOLS?

Who are they targeting for genocide? If there's an attempt underway to reduce the population of the planet, why doesn't it look like it's happening?

"Look at countries in Africa, Third World nations that have been heavily targeted with HIV/AIDS. And consider that 73% of HIV/AIDS patients in America today are Black or Hispanic. Statistically, 55 percent of gay men in America are already dead. Are you seeing depopulation specifically targeting minority groups now?

They don't want to totally eliminate populations completely, just certain populations. They've got a covert depopulation agenda that very few have picked up on yet. It's ideally what they want to do. The Georgia Guide Stones down in Elberton, GA says they want to keep the population at 500-million. They have to get rid of 7.3-billion. We are told they have taken nuclear holocaust off the table. So what is left? An EMP attack or a Chemtrail genocide? Increasing resistance to the Fauci/Gates vaccine has grown steadily to where it is now over 60 per cent of the U.S. public say they will not take the vaccine.

It's not just about the money. There's a Satanic and evil ideology behind their geoengineered chemtrails. President Nixon himself once said, referring to the Rockefellers, – **"It's not about money for these people, it's about power."**

At the end of the geoengineering chemtrails Monopoly game, what do you do? One person wins, they own all of the treasure, they own all of the assets, they've wiped all the other players and the game is over. You can put the game away in your closet. But you don't do that on the earth.

The person who wins at the end of this geoengineering chemtrails Monopoly Game gets to "rearrange the board." And that's precisely what we've been seeing.

You've haven't seen the biggest fish eating the biggest fish in international commerce, you've seen the "mega-whales" eating the mega-whales in these mega-mergers.

All these little companies that produce your vitamins are a subsidiary of a major conglomerate. Today a Warner Lambert or Glaxo Wellcom, all of these huge, huge corporations own all the little fish. They buy them out.

Total control is power for the globalists and elites. That's how they're getting away with the Geoengineering Killing The Population With Chemtrails.

When the outbreak of the Corona virus occurred, it came from three different directions into the U.S. In a previous article, I included the map and the direction of the various strains of the virus that entered the U.S. The virus leaves its own audit trail for researchers, and so can be tracked back to starting points. The nation of Finland reported over 30 strains of the virus. All along while it was still possible for infected carriers that came through air travel, it is more likely that the pathogen **Mycolasma** was released in Chemtrails.

Simply on the basis of Dr. Anthony Fauci and Bill Gates, their own words, we should expect a more viral virus during the next few weeks of late September through November, 2020. They could not contain their arrogance while predicting a second but more virulent wave attack! Another virus, more lethal, delivered through Chemtrails becomes the instrument of death to billions of innocent victims.

The book of Revelation gives us a hint in Revelation 9:15: ***“And the four angels were loosed, which were prepared for an hour, and a day, and a month, and a year, for to slay the third part of men.”*** Today, a third part of men would be 2.5-billion people.

If it is true that the elite of the world have ruled out a nuclear holocaust because of its destruction of infrastructure and assets, what other options are on the table for consideration. An EMP attack on the national electrical grid would affect the elite as well. I see a Chemtrail-delivered virus as an answer to all their diabolical goals. We have U.S. Patent Office proof that the Covid-19 virus was patented in 2007 and 2018, hence we know they have the antidote for its global distribution.

Recalling the words of Dr. Fauci and Bill Gates, we would pay attention to the next virus outbreak by its consequences. I don't care to speculate on their implications other than to note that it will be worse.

I am attaching their 5G Strategy Plan and Agenda to this article noting that it takes in both the “Smart” Meter side of how 5G will be implemented and its effects, separate from the use of EMF cell towers. The switch from Analog meters to digital “Smart” meters across the nation has been slowed greatly due to various factors. Whereas, cell towers are virtually everywhere as the network of cell towers has matured across the nation since the first build out began more than twenty-five years ago.

The two-page 5G Strategy Plan and Agenda describes the details of what they project will occur from release until all life is dead.

There is a passage of Scripture that really speaks to this 5G EMF radiation. Ephesians 2:2: ***“Wherein in time past ye walked according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience.”***

Satan is the prince of the power of the air! Wireless communications takes place in the air! This verse further depicts the lost condition of mankind by specifying the forces working against them. First, unbelievers walk "according to the course of this world." This is a way of saying that fallen creatures manifest their state of spiritual death by living lives of enslavement to the world's standard of values, values that are human-centered, not God-centered.

Secondly, the rest of the verse informs us of the power that works behind this "spirit" of the age, or the ways of this world. Satan takes advantage of man's lost condition. He is at work "in the children of disobedience" or he is "operating in the sons of disobedience."

Here Paul depicts the forces which war against believers as they seek to live godly lives: the world, the flesh, and the devil. The world is an external foe, its evil influences surrounding the believer. The flesh (the self-life) is an internal enemy, its weaknesses making it susceptible to temptation*. Satan is an infernal foe, going about like a roaring lion, seeking whom he may devour. He uses the influences of the world to seduce believers, and he takes advantage of believers by attacking them at their weakest points. But God has not left believers at the mercy of these enemies of the soul. He is the eternal Friend and Deliverer who will bring victory.

*It may surprise the reader to know that 2-days of continuous cell use are the equivalent of 1,200 X-rays at the hospital.

There is something to think about in reading their 5G Strategy Plan and Agenda. As a believer in Jesus Christ, we can find great comfort in knowing God will “Deliver Us From This Wrath” of Satan. But it cuts both ways, in that our hope is “The Blessed Hope” and for those who want to live in rebellion will fulfill Satan’s plan for humanity!

5G Strategy and Agenda

Smart Meters

NOTE: Average Smart Meter (4G) is ~7 gigahertz. Airport security scanning machines are ~10 gigahertz.

The following is the “frog in the pot of boiling water” scenario, where the frog is placed into a pot of water and the heat is gradually turned higher and higher and the frog is paying no attention to the rising temperature until it is too late to jump out, and the frog then dies.

Day 1 (October 28th)

Meter 10 gigahertz – People are not noticing that their smart meter has been slightly cranked up.

Day 7 (November 4th)

Meter 20 gigahertz – Some people are now noticing change in frequency but do nothing.

Day 10 (November 7th)

Meter 35 gigahertz – At this frequency, electrons on oxygen are spinning and people begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus.

Day 10-14 (November 7th thru 11th)

Meter 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, the majority (~75%) of people are dead.

Day 15-18 (November 12th thru 15th)

Meters 50 gigahertz. By Day 16 ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, life is still surviving. (People living on the fringes of the “safe” zone are now dead.) People living deep inside the “safe” zones, may not know it, but they are now trapped inside the “kill” zone.

Day 19 (November 16th)

“Kill” zone meters cranked up to 60 gigahertz. There are people still alive deep inside the “safe” zones inside the “kill” zone. They believe they are still safe. The 60 gigahertz frequency surging through the “kill” zone smart meters causes mass explosions and all the houses and buildings in the “kill” zone burst into flames and are reduced to ashes. People deep inside the “safe” zones are absolutely terrorized (planned agenda) out of their wits as they witness the “kill” zone holocaust. (fulfillment of Nostradamus prophecy)

Day 20-21

(See Cell Towers Agenda for how people in the “safe” zones die.)
Go to Tower Agenda (next page)

Cell Towers

Day 1-9 (October 28th thru November 6th)

Cell towers in the “kill” zones 10 gigahertz. People are experiencing effects, for example, ringing in ears, headaches and other signs of the 4G. Some may complain but the majority of people will go on with their daily lives. Cell towers in the “safe” zones 4G (7 gigahertz).

Day 10 (November 7th)

Cell towers in the “kill” zone 35 gigahertz – At 35 gigahertz, electrons on oxygen are spinning and people begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 10-14 (November 7th thru 11th)

Cell towers in “kill” zone are 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, ~75% of people are dead. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 15-17 (November 12th thru 14th)

Day 15, cell towers in the “kill” zone 50 gigahertz. By Day 16, ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, people are still alive. (People living on the fringes of the “safe” zone are dead.) People who are alive deep inside the “safe” zones do not know they are now trapped inside the “safe” zone. Cell towers in the “safe” zones still 4G (~7 gigahertz).

Day 18-21 (November 15th thru 18th)

Day 18, “kill” zone towers cranked up to 60 gigahertz. Absolutely nothing will be able to survive in the “kill” zone now. People are still alive deep inside the “safe” zones. They believe they are safe. However, they begin to experience oxygen deprivation from the effect of the “kill” zone towers’ 60 gigahertz frequency. “Safe” zone towers are still at 4G (~7 gigahertz).

Day 19 the same day “safe” zone people witness “kill” zone holocaust, “safe” zone towers are cranked up to 35 gigahertz. Terrorized and traumatized, “safe” zone people are feeling the full effect of oxygen deprivation. People panic as they realize they are trapped in a “kill” zone. Some try to escape out of the “kill” zone, only to be “cooked” alive by the “kill” zone towers’ 60 gigahertz frequency, an even more horrible and painful death than if they had stayed.

Day 20, painfully suffering from severe oxygen deprivation, the few remaining “safe” zone people are filled with anxiety and despair, as they realize they are dying and will share the same fate as those who were incinerated in the “kill” zone on Day 19th.

Day 21, ALL LIFE in the entire “kill” zone is dead. The “safe” zone meters are cranked up to 60 gigahertz. All houses and buildings in the “safe” zone immediately explode, ignite and burn and are reduced to ashes.

Day 22-50 (29 days)

Day 22, cell towers in the “kill” zone are cranking out 60 gigahertz frequency. Soon, all plant life in the “kill” zone will be “cooked” and dead. Anyone attempting to enter the “kill” zone will die within two days.

Day 50, the cell towers in the “kill” zone are shut down. Not until **one year** has passed will the “kill” zone have enough breathable oxygen to sustain life.
