Really, what in the world is going on regarding the unparalleled flurry of UFO disclosures and alien leaks over the past year?!

It's totally crazy as in crazy like a dangerously crazy Khazarian fox.

Now read this crazy little leak from a “Veteran Intelligence Analyst and Longtime UFO Researcher” about the exceedingly momentous 2016 POTUS election.

Hillary Clinton embracing her real father-in-law Laurance Rockefeller

The photos both above and below of Hillary Clinton with her father-in-law Laurance Rockefeller tell the whole story. The reason why William Jefferson Clinton’s father is listed as William Jefferson Blythe Jr. is because he was actually sired by Laurance Rockefeller of the famously wealthy and powerful Rockefeller family. The false fatherhood story was obviously floated early on to hide Bill Clinton’s radioactive Rockefeller pedigree.

Blythe was quite conveniently murdered in a car accident only 3 months before Bill Clinton’s birth so that the cover story would never be put in jeopardy (see the following reference).

Death [edit]

On May 17, 1946, while traveling from [Chicago, Illinois](#), to Hope, Arkansas, Blythe lost control of his 1942 [Buick](#) on [U.S. Route 60](#) outside of [Sikeston, Missouri](#), after one of his car's tires blew out. He survived the crash after being thrown from the car, but drowned in a drainage ditch. There was only three feet (1 meter) of water in the ditch.^[13] Three months later, Blythe's widow, Virginia, gave birth to their son, whom she named [William Jefferson Blythe III](#) in honor of his father and grandfather. In 1950, Blythe's widow married [Roger Clinton Sr.](#); 12 years later, Blythe's posthumous son legally adopted his stepfather's surname. He has a granddaughter, [Chelsea Clinton](#), and 3 great-grandchildren.

Now here's the back story: Laurance Rockefeller had an extraordinary interest in all things related to UFOs and Aliens. He was an authentic truther in this particular regard from early on in his life. In fact, Rockefeller was such an open enthusiast and sincere zealot that it appears that he represented a powerful faction within the global power structure who wanted full "Disclosure". And, he wanted the raw truth out there in his lifetime. Which is why his son — Bill Clinton — was tasked with the responsibility of revealing EVERYTHING, and in a way that only he could do.

John Podesta of Pedogate and Pizzagate fame was selected as the point-man within the Clinton administration whose main job was to grease the wheels for total "Disclosure"; first officially by the U.S. Federal Government followed immediately by a coordinated worldwide release by key governments such as the UK's (Podesta was Clinton's White House Chief of Staff during his second term and his White House Staff Secretary during his first term). The public record is replete with Podesta's pronouncements and pertinent documentation which categorically confirms that this Clinton "Disclosure" initiative was all driven by Podesta (as well as Hillary from behind the scenes).

Then came the unusually lurid Monica Lewinsky scandal: an engineered scandal that was deliberately designed to threaten Clinton to cease and desist from all presidential endeavors where they concerned "Disclosure". It worked like a charm.

Nevertheless, Laurance was undeterred in his resolve to expose the issue (via the U.S. government) so that humanity would know the truth that "**We are not alone**". So, he bided his time and groomed his daughter-in-law Hillary for the very same task.

However, *The Powers That Be* did not want disclosure at that time ... for reasons that are well beyond the scope of this exposé. And, they would do everything in their

pervasive power to prevent it. Which meant that Hillary Clinton could not be permitted to win the 2016 POTUS election.

****Hillary Clinton is on record for approaching the various concerned organs within the US government and telling staff that if they did not release any and all documents and evidence on the UFO/Alien matter, they would ALL be fired—SAME DAY. Laurance really impressed upon her that this was to be her main mission, should she occupy the Oval Office.****

So, we come to Election Day 2016 and late that night the vote tallies come in and Donald Trump is quite surprisingly declared the winner. First, watch the reaction of the Clinton campaign toward that outcome—**they were all totally floored**. Then go back and view the reactions of Team Trump—**they simply could not believe they won**. Speechless...all of them!

It's true, not even Trump really knew why he was set up to win the White House at Hillary's expense and who was *Deep State's* obvious choice. Who really won the election is anybody's guess, although Hillary was the most hated POTUS candidate in American history so her loss seemed real BUT BY PURPOSEFUL DESIGN. But regardless of who got the most votes, Clinton would not be allowed to carry out the Rockefeller "Disclosure" agenda—NO MATTER WHAT.

KEY POINT: JFK assassination criminal investigators and deep researchers are all well aware that President Kennedy's intention to carry out his own "Disclosure" was in the top 3 reasons for his brutal murder by the **Khazarian Cabal**. So we know such a massive "Disclosure" data dump will never occur until permitted by those well-concealed rulers of the realm.

This is also why the rapid succession of unprecedented "October Surprises" in 2016 were — BY FAR — the biggest in U.S. political history. Between the damning Wikileaks, shocking Pizzagate revelations, stunning Seth Rich assassination, all preceded by Hillary's quite serious email/server crime wave, it was abundantly clear that someone was out to sabotage her presidential prospects—FOREVER!!! And so they did."

UFO & Alien Truth and Falsehood

Next we come to some irrefutable facts and falsehoods about this entire realm of UFOlogy and Alienology. As follows:

Number 1: The vast majority of UFO sightings are of highly advanced U.S. military manmade spacecraft, which were manufactured in super-secret military bases from reverse engineered alien technology.

Number 2: The very notion of “First Contact” is a bad Khazarian joke. Extraterrestrial civilizations have been coming to Earth for eons; and there is presently a tremendous body of hard evidence proving these visitations.

Number 3: Like everything else, there are good ETs and bad ETs. However, the alien races that have been making continuous contact with the most powerful governments on Earth since World War II are mostly evil aliens. Only malevolent ETs would ever provide such destructive technologies and advanced sciences to governments that are profoundly and hopelessly wicked.

Number 4: At the same time there are many good alien races monitoring everything that’s going on inside, on and above our planet, often mitigating the most precarious hotspots. It’s only because of their great benevolence that humanity has made it this far without blowing the whole place up.

Numbers 5,6,7,8 & 9: To be continued later in this post

NASA’S PROJECT BLUE BEAM

In terms of highly deceptive and distracting false flag operations, it simply does not get any bigger than NASA’S **PROJECT BLUE BEAM**.

MUST READ: [PROJECT BLUE BEAM](#)

In view of the spate of strange MSM reports showing up all over the CIA’s *Mockingbird Media* this year, it’s now clear that the **Khazarian Cabal** is up to something big—VERY BIG!

So, the first important question about these ridiculously contrived reports by UFO whistleblowers and Alien leakers alike is: **“Why now?”** Why the barrage of fake ‘disclosures’ during the lead-up to the most consequential POTUS election in US history?

Ron DeSantis's Biggest Donor Is a Budget Hotel Tycoon With a Passion for UFOs

- Bigelow's \$10 million puts him at top of contributor list
- Florida's governor taps \$164 million for re-election bid

SOURCE: <https://www.bloomberg.com/news/articles/2022-10-25/desantis-s-biggest-donor-is-budget-hotel-tycoon-with-ufo-passion?>

Especially after what just happened to candidate Ron DeSantis in the wake of his own disclosure about his biggest donor being Robert Bigelow is there obviously a HUGE war going on behind the scenes. His campaign has mysteriously nosedived ever since that unusual relationship was made public; kind of like Hillary's did after her Rockefeller-enkindled "UFO enthusiasm" made it to prime time. (Really, does Hillary seem like a POTUS candidate who would ever be a UFO truther; ditto that for Ron DeSantis)

Bigelow is the founder of Bigelow Aerospace and "*has provided financial support for investigations of UFOs and parapsychological topics*". Not only that, but Bigelow's is the largest company in America that vigorously participates in the biggest Public-Private Partnership that concerns itself with UFO deep research and reverse engineered alien technology. In this way, that top-secret enterprise (not so public after all) is protected from FOIA requests that would expose the whole operation were it conducted by the US government.

So, what's the point here?

There are quite a few noteworthy takeaways.

However, the most significant revelation by all of these unprecedented dramas is that there are definitely two distinct camps at the very top of peak of the pinnacle of the world power pyramid where it concerns "Disclosure".

One camp of power-players wants it right now — for some time-sensitive reason — and the other does not.

The most weighty time-sensitive reason appears to be directly related to the roll-out of the present phase of the civilization-wrecking Great Reset. As follows:

[Khazarian Cabal's Crazy Convoluted Global Scheme of Distraction, Diversion and Misdirection during the Great Reset](#)

There has never been another subject matter that has been so intentionally obfuscated and covered up, complicated and obscured by the U.S. Federal Government as the UFO/Alien presence.

And, there are several crucial nuances and well-concealed purposes concerning this highly organized conspiracy to keep the American people in the dark which must and will be addressed during these *End Times*. The following short disquisition provides an indispensable understanding about what's really going on behind the scenes of this never-ending "Greatest Show On Earth".

[COSMIC RESET: Project Blue Beam, Mirage Men and the Fight for the Future](#)

KEY POINTS: The main upshot from the preceding link is this: Whoever controls the process of "Disclosure" here on Earth, determines the narrative that humanity will follow for a long time to come. On the dark side, there are numerous competing narratives all vying for acceptance so that their new control mechanisms can be foisted onto populations everywhere. As for the light, there's only one truth narrative; and, it would undoubtedly serve to liberate people around the globe from so much fear and ignorance and limiting understanding. Which means that everyone's litmus test by which to recognize "Disclosure" truth when it appears is whether it's fear-producing or peace-producing.

What else is going on with this juvenile global psyop to impossibly deceive the world community of nations about a matter of such great import?

Well, whenever there is so much money involved you know the Khazarian-owned and -operated Military-Industrial Complex is right there front and center. And so they are, with their hand out attempting to legally steal TRILLIONS more from the US taxpayer. Is there anything more costly than systematically weaponizing space?

[UFOgate & ALIENgate: Two Prongs of Stealthy MIC Strategy to Weaponize Space](#)

More coming soon in this same post: "**The Greatest "Shock and Awe" False Flag Operation of the Common Era**". This is going to be a long one because of the sheer depth and breadth of this multi-decade Khazarian conspiratorial plot to brazenly deceive all of humanity.
