

Hydrogel in the COVID-19 Injections Has Been Programmed for 5G Activation

Dr. Rashid Buttar

Dr. Rashid Buttar joins Maria Zeee with a litany of horrifying details about the various permutations of the Death Shot. This is a transcript of their interview that is confirming of others like Tod Calendar, attorney representing U.S. military personnel. The importance of this report is that **5G** will be the instrument to activate pre-programmed vaxxes at a designated point in time.

DEADLY PFIZER LOTS

He says that Pfizer vaxxine lot numbers ending in -20A and -21A are deadly. The lot ending in -20A has resulted in 1,700 to 1,900 out of every 20,000 doses causing instances of adverse events and death. The lot ending in -21A has resulted in 30-70 out of every 20,000 doses causing instances of adverse events and death.

He says, "It's interesting that one group has 30-70 and one group has 1,700 to 1,900 but it tells us clearly that there are different components within these vaxxines...these jabs have distinct differences in patient outcomes based upon those ending letters and digits in these lot numbers."

"Why would that be, unless there was some consistency among this lot number; it's going to have this variant and that lot number is going to have that variant?"

"So, it's very sinister and I've heard before that the vaxxines that were shipped out to Africa and India were actually different than the ones that were used in Europe and North America. I don't have verification of that but that's what I was told by a person that is involved in the vaxxine manufacturing aspect and they asked me not to reveal their identity."

"I'm sure you know who Dr. Michael Yeadon is...He's been a very outspoken past Vice President at Pfizer. Dr. Yeadon also confirmed that there's variance in these different types of vaxxines. I've also heard – which, again I'm not privy to further details – but I've also heard that there's a difference between the vaxxines that are trying to affect women vs men."

STERILIZATION SHOTS

"Now, it is clearly obvious that there is something happening to the reproductive systems from these vaxxines...It was found that the spike protein peaked at 72 hours within the ovaries... subsequent studies have found that the spike protein will peak in the testicles."

"So why are these spike proteins, 24 to 96 hours post-inoculation peaking in the reproductive organs? Organs that are essential for reproduction? And the reason is because they're obviously targeting population control, reproduction rates, etc., etc."

FREQUENCY-ACTIVATED BIOWEAPONS

Later, Dr. Buttar gets into the topic of lethal pathogens being delivered by the hydrogel nano-capsules in the shots:

"There's evidence – there's overwhelming evidence – that there are at least 3 pathogens we know of – probably more – but... Marburg is one. It is the pathogen that causes hemorrhagic fever and essentially, it causes hemorrhage [bleeding] from the eyes, ears, throughout the body. 88% mortality from exposure. So that means that if one person's walking down the street and encounters somebody that has it, there's an 88% chance they will die from that exposure."

"But that's from exposure. Here, in this case, it's in the hydrogel, so it's already in your body, so it's probably a 99% mortality."

"The second one is Ebola. We all know was Ebola is." He mentions that Dr. Judy Mikovits was involved in gain-of-function research with Ebola at the NIH over 20 years ago."

"Then, we have a mutated form of E. coli."

Dr. Buttar says these three pathogens are in the jabs and they remain inert in the body while they are encapsulated within the hydrogel, *"Almost like a sleeper cell,"* he says.

He says when they are activated – and no one knows for sure what does this – but colleagues of his, like [Todd Callender](#), who's been in touch with over 500 whistleblowers avows that when an [18 GHz signal](#) is broadcast for one minute, in a sequence of three pulses, it will cause the hydrogel aka "lipid nanoparticles" encapsulating the pathogens to expand and release their toxic contents.

Dr. Buttar tells Maria Zee that, *"In 2014, patents were issued and perfected, issued to AT&T and Microsoft, for the 'transmission of data through the human vector', i.e., skin and bones..."*

"The patents already issued, the technology's already been introduced into the bodies of anybody who's taken the vaxxines or the boosters, and now, 'Hey, you've got our patented technology in your body, which allows us to own the data that's being transmitted through our technology in your body!"

"So, this is part of the transhumanism agenda that's coming up. I'm sure you've already covered the parts where they can hear your thoughts, they can tell you to 'Be at this

ditch and dig this many hours and if you don't show up, you don't get paid.' They know everything about your movements, everything about your habits."

Dr. Buttar explains that the burgeoning **5G** network is what will allow the 2-way communications with the various technologies that have been injected into peoples' bodies, like the self-assembling nano-circuitry, in addition to the nano-capsules releasing the spike proteins and pathogens.

UPCOMING MARBURG PLANDEMIC

Rights activist attorney, [Todd Callender](#) has been defending U.S. servicemen from being forced to take the Death Shot. He believes the next plandemic will occur with the release of the Marburg pathogen, which he says will be the excuse used to force the unvaxxed into FEMA [quarantine camps](#), where they will be administered the Death Shot.

Dr. Buttar has the same information as Todd Callender: that those who have received the COVID shots already have in their bodies the dormant Marburg virus encapsulated in lipid nanoparticles, which would be released into their tissues via a specific pattern of pulsed frequencies delivered through the 5G network.

[Todd told Jeffrey Prather last May](#) that the Department of Health and Human Services has already invoked the Marburg Provision in the December 2020 Notice of Declaration Under the PREP Act for [Countermeasures Against Marburg Disease](#) and they have already spent money "preparing" for it under the [HHS Enabling Statute](#) to build quarantine camps, among other things, throughout the United States.

If we've learned anything from Event 201 and the [SPARS document](#), such declarations and drills can indicate that we will be seeing the rollout of what they're declaring and training for.

Todd said, *"Think of the lipid nanoparticles as little bombers. What happened is the various manufacturers of these shots included three separate HIV proteins in each of them, including the [AD5 adjuvant](#)."*

"The reason for that was to disable, to disarm peoples' immune systems so that those little fat bombers could go inside of the cell and deliver their payloads, in order to re-program the person's body to produce synthetic DNA. In this case, they call it the [S-proteins](#)."

"When they turn that Marburg switch on, it will be will be [N-proteins](#). It will cause the people to produce the Marburg pathogen, themselves..."

LEGAL SELF-HELP AT [VAXXCHOICE.COM](#)

"From a documentary point of view and self-legal help, Vaxxchoice.com is a full repository of everything that we're talking about and other things; self-help legal documents, that if you sign up, you can get a daily update. There's no donation button, there's no nothing. We just put this out for peoples' benefit."

"Separately, there's TruthForHealth.org. [Dr. Lee Vliet](#) is in charge of that and she's put out a Marburg fact sheet, along with some things that we can do to try and stop what's coming or at least prevent it..."

"Of course, the CDC got rid of those therapeutics in its advisory, saying the only thing you can do to treat Marburg is a vaxxine. There's one actually already prepared for this. I think it's getting its Emergency Use Authorization, right now, which also tells us this is going to happen..."

"My point in telling you this, Folks is that we have tools to not fall for this again. There are therapeutic drugs that are available. I think one of them is called [Fenben](#) in the 444mg and then, I understand, from talking to doctors in Africa that have treated this, that ozone, either IV or insufflate, it also tends to work."

WE MUST DEFEAT THE NWO

Todd continues, "So, this is your One World Government, all being created at one time with this particular emergency. Your rights, as a human being are gone, by the way."

"There are two UN conventions: The International Convention on Civil & Political Rights and the International Convention on Human Rights, that says they cannot force you to do medical experiments. Guess what? Those don't count anymore. Your Constitution doesn't count, anymore."

"We're in a position where, We, the People, at a county level...we take back our country from our own traitors in our government or we're done. We're done, as a species."

"My biggest issue is this: the next shoe to drop is coming and then, they will cause 30 million people to pour across our borders. Most of those will be enemy occupiers. Some are already housed on our military reservations, as our military members are falling out, because they were forced to get these shots. Others are prepared to walk in and take over."

"The Law of War states that when alien occupiers take over substantial government functions, your nation is dead. That is happening, as we speak, right now and we've got to take our country back now, or it's never."

This concluded the transcript video post between Dr. Rashid Buttar and Maria Zeee on horrifying details about the various permutations of the Death Shot. While I am aware of this information, I knew several years ago that **5G** EMF wireless energy would be a factor in depopulation of the planet. At least eight years ago I knew that **5G** EMF

wireless energy could be used to activate such pathogens as Brucellosis Mycoplasma. I became infected with Lymphedema after being exposed to Wi-Fi being installed in my home back in June, 2010. Everyone carries the pathogen Brucellosis Mycoplasma that is dormant in the human body until activated by wireless energy. Through the **5G** EMR wireless energy which is activated through Electroporation induced through the skin pores of the human body.

How do I know everyone has the pathogen Brucellosis Mycoplasma within their body? We have been sprayed with geo-engineering (chemtrails) containing many different toxins since the mid-1990s. Analysis of the residue that settles on the surfaces of such things as windshields of vehicles, trees, flower bushes, plants, agricultural products, lakes, ponds, sources of water have been found to contain the parasite pathogen known as Brucellosis Mycoplasma.

Mycoplasma appears to monitor 4 basic factors in the human body while in its dormant state:

1. Blood-oxygen level
2. pH level
3. Immune system
4. Stress level

For more information on the parasite Brucellosis Mycoplasma you can go to my article linked below:

[Mycoplasma The Pathogen That Will Kill You without Your Knowledge!, Part 5](#)

I know that people will scoff at that the idea they are being poisoned from the sky. I have many friends, contacts, and even family members who deny this but it has been going on at least since 1996. The above 46-page article has pictures from inside the aircraft and close-up external spraying that are used to spray their toxic poisons on humanity, and unless you have lived in a bubble all of your life your body contains these invisible pathogens waiting to be activated and begin to attack your body at your weakest points.
