

# The Hidden Name of The Creator in Your DNA

Part 1

This is the second article on this topic framing the larger picture of what these so-called vaxxes are really “Gene” editing and hijacking of the human DNA genome. What I will be sharing in this article will simply be astounding to the uninformed and even scarier to those who are aware of the spiritual war we are currently in right now. Humanity is both the victim and the prize in this war for all the ‘marbles’ as we said as kids!

For more than twenty-months I have been warning people against being tested for the alleged Coronavirus known as Covid-19. I have warned against that because of what early reports were indicating by those who had submitted to PCR testing and the use of the cotton nasal swabs being used. I was firm in my statements because of the cell-phone video that was on the Internet several years in which Bill Gates did a presentation suggesting that one could lose their “God Gene” known as the VMAT2 gene. I shared that link in a few articles providing the potential for such and the implications.

From day-one on this hoaxed virus issue I warned people not to take any of the Vaxxes being promoted. You will learn from this article information from Dr. Doug Science that clearly shows the “gene” therapy vaxxes being offered are not vaccines in the traditional sense, but rather they contained the spike protein, the real killer! Dr. Sherri Tenpenny and Dr. Carrie Madej and others warned their viewers about the risks and dangers of the spike Protein (PEG) in late 2020 of all its implications. Dr. Tenpenny predicted a huge die off of the population from nine months to two years after getting the jabs.

Several years ago I listened to Dr. Greg Braden discuss the “God Gene” in the Bible. I purchased his book, *‘The God Gene’* which is based upon Hebrew Gematria where letters contain numerical value. In my previous article, I noted that Neil Whitehead’s analysis is somewhat different than that of Greg Braden. The first half of this article deals with this concept of how the Creator’s name is encoded in the human DNA. I have read Dr. Dean Hamer’s book, *‘The God Gene’*. Dr. Dean Hamer revealed that this inclination towards religious faith is (hard wired) in good measure due to our genes and may even offer an evolutionary advantage by helping us get through difficulties, reducing stress, preventing disease, and extending life. The “God Gene” is an in-depth, fully accessible inquiry into cutting-edge research that can change the way we see ourselves and the world around us. Having read both Greg Braden’s and Dean Hamer, I am somewhat more partial to Greg Braden’s book on this subject.

The DNA is composed of 4 elements hydrogen, nitrogen, oxygen, carbon, when put together form YHWG. Carbon is what makes us physical and earthly beings. When carbon is replaced with nitrogen, we have all colorless, odorless, and invisible gases! They form the letters YHWH which is the Hebrew name of God.

### **The YHWH Code**

The mapping of the genetic code, known as DNA, is probably the most important scientific breakthrough of the new millennium. It was on June 26, 2000, President Clinton and a group of world renowned scientists presented the first genetic map of the human DNA molecule. Clinton called the discovery the *“language in which God created*

life.” His words are close to the truth but words are inadequate to describe what we know now. In just over two decades man has usurped the “Creative” powers of God and is seeking to achieve immortality! **Eternal Life is the Holy Grail goal for these folks!**

*“Mapping the chemical sequences for human DNA — the chemical “letters” that make up the recipe of human life — is a breakthrough that is expected to revolutionize the practice of medicine by paving the way for new drugs and medical therapies,”* says one web site. This discovery has lasting physical and spiritual implications. **A direct link can easily be found between the building blocks of life and the Creator of the universe. Mankind is fearfully and wonderfully made, with a hidden code within the cell of every life. This code is the alphabet of DNA that spells out the Creator’s name and man’s purpose.**

Scientists discovered a “map” of four DNA bases that carry the ability to sustain life. These bases, known as chromosomes, are paired differently for each person. Human DNA contains 23 pairs of chromosomes, made up of hydrogen, nitrogen, oxygen, carbon, and their acidic counterparts. **Encoded within these elements is an amazing blueprint of life that proves the Creator has put His own unique stamp upon every person. This stamp is actually His name as revealed to Moses thousands of years ago.**

#### **The secret in our DNA...**

It was from the burning bush that the Almighty revealed His character as the great **“I AM.”** This name is the Tetragrammaton of the Hebrew letters yod, hey, waw, hey. **“I AM WHO I AM.”** This is what you are to say to the Israelites: `I AM has sent me to you. The Almighty said to Moses, **“Say to the Israelites, ‘YHVH, the mighty one of our fathers... This is my name forever, the name by which I am to be remembered from generation to generation,’”** –(Exodus 3:14,15)

The Almighty has given us His name as a sign of His existence and an avenue of communication. However, translators have hidden this Hebrew name in English Bibles. **In the Scriptures, the sacred name of YHVH is used whenever the English words “LORD” or “GOD” appear in all capital letters. YHVH specifically is found 6,510X times (7 X 930) throughout the Bible as the only and unique name of the Mighty One of Israel.** Isaiah corroborates this: **“I am YHVH; that is my name; and my glory will I not give to another,”** Isaiah 42:7. Jeremiah adds his confirmation: **“They shall know that my name is YHVH,”** in chapter 16:21. While Amos 5:8 says, **“YHVH is his name.”** The book of Zechariah declares: **“In that day there shall be one YHVH, and his name one.”** **The Creator’s Name is YHVH.**

Now, compare this four-lettered name to the four elements that make up human DNA and discover an ancient secret of creation. The key to translating the code of DNA into a meaningful language is to apply the discovery that converts elements to letters. Based upon their matching values of atomic mass, hydrogen becomes the Hebrew letter **Yod** (Y), nitrogen becomes the letter **Hey** (H), oxygen becomes the letter **Vav** (V or W), and carbon becomes **Gimel** (G). These substitutions now reveal that the ancient form of YHVH’s name, YHVH, exists as the literal chemistry of our genetic code. Through this

bridge between YHVH's name and the elements of modern science, it now becomes possible to reveal the full mystery and find even greater meaning in the ancient code that lives as each cell of our bodies.

When we substitute modern elements for all four letters of YHVH's ancient name, we see a result that, at first blush, may be unexpected. Replacing the final H in YHVH with its chemical equivalent of nitrogen, YHVH's name becomes the elements hydrogen, nitrogen, oxygen, and nitrogen (HNON) — all colorless, odorless, and invisible gases! In other words, replacing 100 percent of YHVH's personal name with the elements of this world creates a substance that is an intangible, yet very real form of creation! This is not to suggest that YHVH is simply a gas made of invisible elements. Rather, it's through the very name that YHVH divulged to Moses over three millennia ago that our world and the foundation of life itself became possible. YHVH tells us that in the form of hydrogen, the single most abundant element of the universe, He is a part of all that has ever been, is, and will be.

Indeed, in the earliest descriptions of YHVH, we are told that He is omnipresent and takes on a form in our world that cannot be seen with our eyes. Thus, He can be known only through His manifestations and by faith. The ***Sepher Yetzirah*** describes this nonphysical form of YHVH's presence as the "***Breath***" of YHVH: "*Ten Sefirot of Nothingness: One is the Breath of the Living YHVH, Life of worlds. This is the Holy Breath.*" This is often referred to in the esoteric mysticism of Judaism, but the ***Zohar*** is not of focus here as Jewish mysticism.

Additionally, the first chapters of Genesis relate that it is in a nonphysical form that the Creator was present during the time of creation -(Genesis 1:2). It was "***the spirit of YHVH***" that first moved over the face of the earth.

Substituting modern elements for the ancient letters, it is clear that although we share in the first three letters representing 75% of our Creator's name. While the presence of YHVH is the invisible and intangible form of the three gases hydrogen, nitrogen, and oxygen, the last letter of our name is the "stuff" that gives us the color, taste, texture, and sounds of our body: carbon. The one letter that sets us apart from YHVH is also the element that makes us "real" in our physical world – carbon.

***"Through both the secret letter codes of antiquity, and the literal translation of DNA as an alphabet, we're shown that something about our existence remains lasting and eternal. We share that never-ending quality with our Creator through a full seventy-five percent of the elements that define our genetic code,"*** wrote Gregg Braden in his book ***'The God Code'***.

In the beginning...

This is scientific proof showing us that YHVH has written His own name upon every human being. ***Sefer Yetzirah*** (The Book of Creation) says, "***Within the letters is a great, concealed mystical exalted secret... from which everything was created.***" His name is within us, encoded into the basic cells of humanity. ***Every person, regardless of race,***

religion, sex, or status has the divine imprint of God inside their body. YHVH's name is in every person... **"there is...one YHVH and Father of all, who is over all and through all and in all,"** says Ephesians 4:5. The potential of becoming like YHVH is in every person.

Genesis recounts that we have been made **"in His image."** In the beginning, the Creator **"breathed upon man and he became a living being."** It is this deposit from the heavens, the gift of a soul that separates us from other species. Inside of each person is the breath of the Creator, known as the soul. In Hebrew, this is called the **"neshamah."**

The **neshamah** is a divine spark of YHVH found within mankind. **"Should a person strive towards purity in life, he or she is aided by a holy neshamah,"** says the **Zohar** in Genesis 206a. The Scriptures translate **"neshamah"** as "breath, spirit, and inspiration." It is the supernal soul of man, which pulls man towards YHVH. Imagine a pure light inside of every person in the world; this is the **neshamah**. It is totally good and unblemished. The **neshamah** is the part of YHVH within man. Proverbs 20:27 says, **"The neshamah of man is the candle of YHVH, searching all the inward parts of the belly."** Through the **neshamah**, one may connect to the will, wisdom, and understanding of **Yah**. How?

The **neshamah** longs to be reunited with the Almighty. Its only desire is to return to its source; to be reunited in purpose. Each cell of our body, containing the divine name, groans to be reunited with YHVH. But it can't. Why not? Because of fleshly desires that result in sin. Sin stops the earth suit of the body from fully returning to its starting place with YHVH. The fleshly nature leads us to rebel against the Almighty's will and His ways. Our soul cannot cleave to YHVH because of our fleshly nature and ego. The desire to receive for self alone blocks the light of our **neshamah**. Our selfish actions are like a huge dark cloth, covering the Light of the Creator. Darkness grows, but the light remains. The Apostle Paul pointed out in Romans 7:15 his and our dilemma.

Try viewing mankind as an ember from the burning bush. The human body is the container of a divine spark from YHVH. Left alone, this spark will diminish and burn low through seeking pleasure in worldly desires. The false fulfillment of momentary happiness is a darkness that seeks to put out our fire. Each action of the flesh places another layer of darkness upon the light. These layers of darkness are called "sin," or "chet" in Hebrew. **Chet** is an ancient word that literally means to **"miss the mark, loose focus, stray, miss the goal or path of right and duty, to incur guilt, incur penalty by sin, forfeit."** While many people think that someone who sins is a "bad person," the Biblical concept is different. We all **chet**, we all sin; we all miss the mark. That doesn't make us bad people, we're just off target! In truth, the Hebrew word **"Chet"** appears in the Bible - (Judges 20:16) referring to slingers who could shoot at a hair and not **"chet"**, meaning not to **"miss the target."** **Chet** is failure in a person's relationship with YHVH. Our goal should be to continually move closer to the target of YHVH, but **chet** causes distance.

Sin is equivalent to “distance.” Our sins distance us from the Light within. **“Your sins have separated between you and YHVH, and your chet (sins) have hidden his face from you, so that he will not hear,”** –(Isaiah 59:2). **Chet** is the distance we place between our **neshamah** and our Creator as we miss the mark of the Scriptures.

Bull’s Eye...

The center of YHVH’s bull’s eye is clearly explained within the pages of the first five books of the Bible. These teachings are often referred to as the **“law.”** In Hebrew these books of instruction are called **“Torah.”** The Torah is YHVH’s will for mankind and **blueprint for living.** **“The Torah is holy, and the commandments holy, and just, and good,”** says Romans 7:12. When we follow Torah we don’t sin. To obey the precepts of Torah is to stay on the straight and narrow road of redemption. A person sins when the Torah is violated or forgotten. The book of First John clarifies this. **“Everyone who sins practices torahlessness. Because sin (chet) is torahlessness,”** –(1<sup>st</sup> John 3:4). **The problem is that we can’t follow Torah enough. The obedience of today doesn’t erase the disobedience of yesterday.** Though we obey the Torah, the layers of darkness remain within our soul. **This is because Torah does not redeem.** Torah describes how the redeemed believer is to live and relate to YHVH. Mankind is redeemed only through YHVH code **Moshiach.** The Old Testament points man toward the New Testament and the Messiah.

The soul code of DNA links man to YHVH. But, this doesn’t equate mankind to YHVH. We aren’t god. The code shows only our potential – to be like YHVH in our intentions and purpose. We can’t achieve His state of greatness. Just as a flashlight will not work without batteries, our sincere efforts to correct the soul are useless. We just can’t

correct our soul enough. We just can't follow Torah enough. The darkness of **chet** is too much. Good works can't dispel total darkness. **"Whoever keeps the whole Torah and yet stumbles at just one point is guilty of breaking all of it,"** says the New Testament in James 2:10. Prayer, obedience, and faith bring us closer to YHVH, but without the love of Messiah, we are still in the dark. Messiah is the floodlight that lights up our life.

**Moshiach'** love is the bridge that joins our **neshamah** to our Creator. The Savior is the light that saves us from eternal darkness and suffering. To handle the issue of sin, we must realize that stars are only seen at night. Under the deep darkness of sin is the light of the soul. **Hidden in the DNA of every man, woman, and child is the YHVH code. To experience life at its fullest, all one must do is look inside and see the Sacred Name. YHVH is the path to purpose and way to life eternal.** YHWH is our only hope. We need YHVH's salvation to deliver us from evil. Let's decipher this code and understand man's redemption.

**"Anyone who calls upon the name of YHVH will be saved,"** -(Joel 2:32). This verse is quoted twice in the New Testament, in which both cases the Messiah is seen as fulfillment of this prophecy. **The YHVH code is manifest in His Son. His son is the path of deliverance. Calling upon His Name allows the believer to access the Almighty's power for deliverance.** Appropriately, the true name of Messiah demonstrates how this works...**"And you shall call Him Yahshua, for He will save his people from their sins,"** says Matthew 1:21.

The Hebrew speaking, King of the Jews was given a Hebrew name. He wasn't named "Jesus," but **"Yahshua."** In the gospels, the Messiah said that He came in His Father's name – the name of YHVH. How is YHVH **Yahshua's** name?

The name **Yahshua** is a compound word, made up of two Hebrew phrases. First, YAH is a shortened version of the name of YHVH. The Name **YAH** is a poetic form of YHVH, found throughout the Psalms. **The KJV says, "Sing praises to His name: extol Him that rideth upon the heavens by His name YAH, and rejoice before Him,"** Psalm 68:4. Secondly, **"shua"** is a Hebrew word meaning to "deliver, turn, save, or salvation." When these two words are put together, the Savior's true name is revealed:

**"YAH" + "shua" = "YHVH is salvation" = *Yahshua***

YHVH offers His salvation, His deliverance through the person of **Yahshua**, the Hebrew name for Jesus. **Yahshua** bridges the gap between YHVH and our souls.

**Mankind was made in the image of God/YHVH. We have His name written upon our very DNA. Scientists have proved that His name is stamped upon every living soul.** However, because of **chet**, because of sin, layers of separation distance our soul from our creator. **"All have sinned and fallen short of the glory of YHWH,"** -(Romans 3:23). Our stubborn self-will causes us to go an independent way. However, because of loving kindness, YHVH has **"sent His only begotten son, that whosoever believes**

***upon him would not perish but have everlasting life,***” –(John 3:16). We can connect our ***neshamah*** to YHVH through his son, Jesus/Yahshua. **The Savior is the ONLY path to deliverance and salvation from the sinful self.** That fact does not deter others from substituting another way to Eternal Life! **The layers of sin that cloak our *neshamah* can only be removed through His blood. “As many as received Him, to them He gave the right to become the children of YHVH, even to those who believe in His name,” – (John 1:12).** The DNA within our bodies points to our Creator and the salvation that He has provided. The YHVH code, within each person, is His Son Jesus or Yahshua.

The Hebrew name of God transliterated in four letters as YHWH or YHVH and articulated as Yahweh or Jehovah is known as the “Tetragrammaton”. The term means the “untranslatable” name of God. The Gematria numerical value of **YHVH = 26**.

I have shared this information about the Creator being within the human DNA for a specific reason, that being **the CIA and Bill Gates were studying how to remove the “Religious” or “Moral” gene that has been identified in studies of the brain by the CIA and Bill Gates.** The fact that they were looking for the area of the brain that relates to the religious or moral area of the human body is extremely disconcerting. The QuantumDot:Hydrogel ID2020 Luciferase system is predicated upon a cyborg system that is part human and part artificial intelligence, i.e., a third strand DNA!

The author of the dystopian book ‘*Brave New World*’, Aldous Huxley gave the following ominous warning during a speech at Berkeley in 1962 called ‘The Ultimate Revolution’:  
***“There will be in the next generation or so a pharmacological method of making people love their servitude and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies so that people will in fact have their liberties taken away from them but will rather enjoy it. Medical science has made such tremendous progress that there is hardly a healthy human left.”***

With astonishing accuracy, Huxley described what sounds like our world today. However, Rudolph Steiner (1861 – 1925) an Australian philosopher gave this chilling prediction: ***“In the future, we will eliminate the soul with medicine. Under the pretext of a ‘healthy point of view’, there will be a vaccine by which the human body will be treated as soon as possible directly at birth, so that the human being cannot develop the thought of the existence of soul and spirit. The materialistic doctors, will be entrusted the task of removing the soul of humanity. ...With such a vaccine, you can easily make the etheric body loose in the physical body.”*** Stop and read that again, let it sink into your reality and what it means!

In April, 2017 the FDA approved a drug mainly to treat Tardive Dyskinesia, and chorea, associated with Huntington’s disease. This prescription drug is now available in two formulations. **The function of these drugs is to inhibit the vesicular monoamine transporter, VMAT2 for short. So why should inhibiting one’s VMAT2 gene interest us? Because this same gene, the VMAT2 gene, was nicknamed the “God Gene.”** Bill Gates, DARPA, and the CIA wanted to eliminate the VMAT2 gene over a decade ago. Do you suppose they can do it? Bill Gates believed it was possible.

Have you ever heard of a Liger? A Liger is an offspring of a Lion-Tiger. The Liger large size is a result of a genetic abnormality known as “growth dysplasia” which is common in hybrids. In short, this condition is caused in hybrids due to absence or abundance of genes that limit or inhibit growth. **The large Liger growth is a result of its parents (Mother Tiger and Father Lion) not possessing the limiting growth gene.** This limiting growth gene is found in male Tiger’s and female Lions which is why most researchers believe Tignons are on average smaller than their parents exhibiting negative growth dysplasia.

As majestic as it is grand, the Liger is the biggest cat in the world with the largest extant Liger living at Myrtle Beach Safari in South Carolina. According to the ‘*Guinness Book of World Records*’, “Hercules” is the largest member of his species, and the living cat world, weighing 922 pounds and 10.8 feet long. A study on this gene was conducted in by the Stem Cells Research Center of Oncology and Hematology and Research Center of Human Genetics, Tabriz University of Medical Sciences in Iran.

As humans, we also have growth gene limiters. At my peak height I was 6’5” and wore a size 12 shoe as a freshman in high school. At the age of 24, I was wearing a size 15 shoe until I was disabled by Lymphedema in 2016.

Before going into details of this study of the “God Gene”, it is important to point out it was published by Symbiosis Publishing. An international online publisher of peer reviewed studies. They mainly publish research in the areas of Clinical, Medicine, Life

Sciences, Pharma, Engineering & Technology. This is an important fact due to the fact checks and debunked stories circulating on this topic. It is important to know, this study was published by a credible publisher, medically peer-reviewed, following a strict screening for plagiarism. The published study was called “VMAT2 Gene Molecular study of 2,000 peoples in the Religious Behavior and Belief in God of the citizens of the city of Tabriz in IRAN”. The hypothesis is that this particular gene is hardwired so to speak into an individual’s genes and predisposes them to spiritual experiences. Back in 2005 geneticist Dean Hamer wrote the book *‘The God Gene: How Faith is Hard Wired into Our Genes’*.

Other prior researchers who worked on the God Gene are cited in this study, including one who analyzed DNA and personality score data of 1,000 people to single out a particular gene involved with one’s spirituality tendency. Yes, that gene was the VMAT2 gene. Studying 2,000 subjects (1,000 considered religious, 1,000 deemed non-religious) through the measurement of gene expressions related to an individual’s religious leanings they came to a conclusion. They found one’s desire and natural need to seek God and to worship in some form had a direct connection to one’s genes. Several genes play a role in one’s beliefs, but the single gene of utmost importance to spirituality (religious practices) was the VMAT2 gene. That was the single gene playing a crucial role in one’s need of God. If their findings are correct, what would taking a vaccine or prescription drug that inhibits (or even worse destroys) the VMAT2 gene do to a person?

The importance is that funding was invested in by DARPA, the CIA, and Bill Gates and research conducted to eliminate the hardwired nature of the VMAT2 gene. The video presentation given by Bill Gates in a CIA classroom is confirming that human test subjects were ultimately experimented upon.

So, in summary, we have predictions of removing the soul with vaccines and/or pharmaceuticals, a study about a gene connected to one’s religious beliefs, a prescription medication that inhibits said gene, and a possible Pentagon briefing presenting a future aerosol virus and vaccine that would eliminate this gene from affecting human behavior, and a vaccine trial participant saying “I can’t feel God; my soul is dead.” The implications of what this means are frightening!

DNA is short for deoxyribonucleic acid and is considered the master genetic blueprint of the human body. It is arranged in a spiral helix. DNA is also a transmitter and receiver of energy; 2008 Nobel Prize winner Luc Montagnier proved that DNA transmits and receives frequencies in his 2010 paper entitled “DNA Waves and Water” where he showed that *“bacterial and viral DNA sequences have been found to induce low frequency electromagnetic waves in high aqueous dilutions.”* In other words, DNA is like an antenna.

In previous articles, I have addressed the “Mark” of the Beast. I posted a video on Sunday, 10/24/21 **“Divine Image Destroyed”** The video is under twenty minutes and when I first viewed it, I was amazed and stunned how it mirrored much of what I have

been sharing in regards to this new nanotechnology that is about to subjugate humanity in ways we could never have imagined. While it resonates like a Biblical parable it encapsulates the essence of what is taking place in the world of genetics today designed to change your DNA and remove you from the Lamb's Book of Life! I encourage you to watch it a couple times so that you grasp what is being said in this video. The video is profound for anyone who has consented to the Vaxx or is thinking about taking the Vaxx thinking you will get to return to normal. It's never going to happen! A very well-known guy on science is Dr. Doug Corrigan; he became the target of the pharmaceutical industry trolls because of his comments about Covid. They targeted Dr. Doug's work on the Internet to debunk his expertise on RNA and DNA. Both MIT and Harvard have since validated Dr. Doug's work on this topic and so I will let his work speak for itself.

When people hear the words RNA vaccine, the first question that comes to the average person's mind is, "Will this vaccine permanently alter my DNA?" The second question is, "If the vaccine does alter my DNA, what are the potential long-term health impacts?"

These are fair questions. Unfortunately, these questions are usually brushed aside, ignored, minimized, or discounted by the pharmaceutical ecosystem. This concern about genetic modification is normally answered by the following argument: RNA will not permanently alter your DNA because it is a temporary molecule that quickly becomes destroyed in the cell, and because it is fundamentally different than DNA. RNA does not integrate into DNA, and RNA doesn't remain in the cell permanently because the cell destroys the RNA relatively quickly. Therefore, there is no potential risk of an RNA vaccine genetically modifying a person's genome.

On the surface, this seems like a rock-solid answer. It is the textbook response that would earn a 100% grade on an examination for a college-level molecular biology class.

However, the cells in our body know nothing of the exams being taken by graduate students.

First, let me briefly describe how an RNA vaccine works. Second, let me show you viable cellular pathways where an RNA vaccine could make its way into someone's permanent genetic material.

An RNA vaccine works by turning a small portion of the cells in our body into a vaccine production factory. Both RNA and DNA are information carrying molecules. They carry instructions on how to build specific proteins. Our cells read this information, and then build proteins according to the instructions. In the case of an RNA vaccine, the delivered RNA instructions instruct our cells to build a near-perfect replica of a very specific protein that resides on the outside of the SARS-CoV-2 virus called the "Spike" protein.

This Spike protein normally resides on the outside of the virus and functions as a tether that enables the virus to enter into a human cell. Because the Spike Protein resides on the outside of the virus, it's prime real estate for our immune system to target.

Therefore, when you are administered an RNA vaccine, this RNA will enter a small portion of your cells, and these cells will start churning out a replica of the viral Spike protein. It's important to realize that your cells are not producing the entire virus, just a portion of the virus— the Spike Protein. Because it is foreign to the body, this cellular produced Spike protein will then prompt your immune cells to learn how to develop antibodies that specifically recognize the Spike protein. At this point, you are “vaccinated” because you have acquired antibodies that recognize the virus (via the Spike protein), as well as memory cells that can produce more of the antibody should you be infected with the actual virus. If your body is exposed to the coronavirus, these antibodies will recognize the Spike protein on the outside of the virus. When the virus is coated in antibodies, it is “neutralized” and can no longer infect other cells.

Most other vaccines work by administering the Spike protein directly into your body, or by introducing an attenuated or inactivated virus that contains the Spike protein. In these types of traditional vaccines, the Spike protein was previously made in a vaccine production facility. In an RNA vaccine, there is no Spike protein in the vaccine. Instead, the vaccine provides your cells with instructions on how to build the Spike protein within you own body. Essentially, your cells have become the vaccine production factory. After some time, this delivered RNA will be destroyed by our cells, and the cells will stop producing the Spike protein. Our body should be left unchanged, except for the presence of antibodies and immune cells which now recognize the Spike protein of the virus.

In theory, this is how the vaccine should work. Sounds great on paper, doesn't it? Well, think again!

Before jumping to reductionist conclusions, let's go one level deeper into molecular biology to answer the question of whether or not this extraneous RNA could potentially alter our DNA permanently. I believe the answer to this question is most certainly yes.

It is well known that RNA can be “reverse transcribed” into DNA. Residing in our cells are enzymes called “reverse transcriptases”. These enzymes convert RNA into DNA. Multiple sources for this class of enzymes exist within our cells. These reverse transcriptases are normally made by other viruses termed “retroviruses”. HIV is a retrovirus and so is Hepatitis B, but there are many other retroviruses that fall in this category. [We now know with total certainty that Covid-19 is a retrovirus!] In addition to these external viruses, there are viruses that are hard-wired into our genomic DNA called endogenous retroviruses (ERVs). These ERVs harbor instructions to produce reverse transcriptase. In addition to ERVs, there are mobile genetic elements residing in our DNA called LTR-retrotransposons that also encode for reverse transcriptase enzymes. To top it all off, reverse transcriptase is naturally used by our cells to extend the telomeres at the end of chromosomes.

These endogenous reverse transcriptase enzymes can essentially take single-stranded RNA and convert it into double-stranded DNA. This DNA can then be integrated into the DNA in the nucleus through an enzyme termed DNA integrase.

With so many sources of reverse transcriptase, it is quite probable that the RNA introduced into our cells via the vaccine could be reverse transcribed into a segment of double-stranded DNA, and then integrated into our core genetic material in the nucleus of the cell. A variety of specific conditions need to be present for this to occur, but it is possible if the right convergence occurs. Biology is messy and not always perfectly predictable, even when the “rules” are known *a priori*.

Even though the initial vaccine is only introduced into a relatively small portion of our cells, if this reverse transcription process occurs in stem cells, then this genetically modified cell can be replicated and amplified to a larger portion of cells that make up the tissues of the body. Stem cells serve as a reservoir to produce new cells in perpetual fashion. In this way, over time, a larger percentage of our somatic cells can be replaced by these genetically modified stem-cell precursors. This type of genetically modified replacement of cells is seen in some patients who have received bone-marrow transplants from other patients. In these patients, even germline cells such as sperm/egg can inherit these genetic modifications, even though the pathway for this germline modification is still not understood. In these patients, the so called “rules” that presumably prevented such an outcome were violated.

I think most molecular biologists would look at my thesis and discount it as improbable, and I wouldn't argue with them too strongly. After all, if these reverse pathways from RNA to DNA were actively possible, wouldn't a normal infection by the virus cause the same problem? Wouldn't the RNA introduced by a viral infection of SARS-CoV-2 serve as a potential substrate for permanent genetic modification of cellular DNA, just like the RNA in the vaccine?

I would answer that this possibility exists, too. However, I believe the probability of viral RNA undergoing this process is much smaller for several reasons. First, the viral RNA is packaged into viral particles which act like a shell. These RNA molecules are temporarily unpackaged from this shell while inside the cell to produce more viral RNA and viral proteins, which are quickly sequestered and repackaged into new viral particles. Also, viral RNA is inherently unstable due to sequence specific peculiarities unique to viral RNA, and is quickly recognized by cellular enzymes for destruction.

Therefore, the amount of time available for reverse transcriptase to work on “bare” viral RNA is very low. In contrast to this, the RNA provided to cells via a vaccine has been altered in the lab to increase its stability such that it persists in the cell for a much longer time. A number of modifications are made to increase the stability and longevity of this vaccine-delivered RNA. This artificial engineering of RNA is designed to produce RNA that hangs around in the cell much longer than viral RNA, or even RNA that our cell normally produces for normal protein production. The purpose of this engineered longevity is to increase the production of Spike protein by our cells to maximize the

**efficacy of the vaccine.** In addition, this RNA is not rapidly sequestered away into new viral particles. Therefore, the probability that a molecular pathway could be found that results in this RNA being converted over into DNA is much higher, in my opinion.

This probability may be miniscule, and may not even be noticeable in in vitro experiments, or even in clinical trials across tens of thousands of patients. The odds of this occurring may be 1 in 1 followed by many zeros; however, that miniscule probability flies out the window when you understand that the average human body has 30 trillion cells, and the vaccine will be deployed in up to 7 billion people. If you multiply these small probabilities across these large numbers, the probability that this could occur in a modestly large number of people is very real.

What happens if this occurs? There are two possible outcomes that are not mutually exclusive. First, modification of somatic cells, and in particular, stem cells, could result in a segment of the population with an increasing percentage of their tissues being converted over to genetically modified cells. **These genetically modified cells will possess the genetic sequence to produce Spike Protein. Because Spike protein is a foreign protein to the human body, the immune systems of these individuals will attack the cells in their body which express this protein.** These people will almost inevitably develop autoimmune conditions which are irreversible, since this foreign protein antigen is now permanently hardwired into the instructions contained in their DNA.

The second possibility is based on a pathway being found that transfers this genetic modification to germline cells (egg and sperm). This is certainly a more remote possibility, but if it occurred, this insertional genetic mutation would find itself in all future generations stemming from this individual or individuals. Because this is a germline modification and not a somatic modification, this new genetic element will be present in every single cell of these individuals. This means that potentially every tissue in their body could express Spike protein. **Because this protein is present from birth, the immune system will recognize this new protein as “self” rather than non-self (foreign). If these individuals are infected with coronavirus, their immune system would fail to recognize the Spike protein of the virus as foreign, and these individuals will have substantially reduced capacity to fend off the coronavirus.** Therefore, over time over future generations, a growing percentage of the population would be more susceptible to severe infection by the coronavirus due to limited immune function.

Now, none of the scenarios outlined above touch on the downstream risk of developing antibody dependent enhancement (ADE), which is a major problem with any vaccine developed for coronaviruses. **ADE is a risk for any type of vaccine, including RNA vaccines. The current RNA vaccines being rushed forward have only been tested for a few months, and ADE would not rear its ugly head for several years, although it could occur sooner.** Therefore, the current clinical trial data is not anywhere close to being sufficient to rule out the health risk of ADE. If ADE does occur in an individual, then their response to the virus could be fatal when they are actually exposed to the virus post-vaccination. To learn more about the possibility of ADE, click here to read my article —> [\*\*“Is A Coronavirus Vaccine a Ticking Timebomb.”\*\*](#)

In addition to the risks mentioned above, another risk becomes apparent: If the cell is infected with either an external virus, or endogenous retrovirus, while the vaccine is active in the cell, this from the vaccine could be genetically spliced into the existing genome of another virus. This virus would then gain a functional Spike protein, which would then allow it to infect respiratory tissues and other organs of the body. This means that viruses that were normally isolated to certain tissues would suddenly gain the ability to infect a much wider range of tissues, making them more pathogenic or deadly.

It's probably good to point out at this stage of the discussion that an RNA vaccine has never been approved for use in humans. This would be the first time in history that such an approach would be used on a massive scale. Approximately 50 clinical trials have been conducted on RNA vaccines for cancer treatment, and about a dozen RNA-based vaccines are under development for SARS-CoV-2. Two candidates, one from Pfizer/BioNTech (BNT162b2) and the other from Moderna (mRNA-1273), are the furthest along, and have shown decent efficacy in Phase III clinical trials (although I would argue strongly the sample sizes of infected individuals in both experiments were so small that making this efficacy claim is rather dubious at this stage). If you have read the news lately, these vaccines are being rushed headlong to be deployed on a massive scale with little attention being paid to the potential ramifications.

My professional opinion is that since RNA vaccines are a new mode of delivering vaccines, they should be tested for 5-10 years to demonstrate that genetic modification is not a major concern. In addition, all coronavirus vaccines, regardless of type, should be tested for an equal duration to show that ADE is not a concern. It is absolutely impossible to rule out these safety concerns in less than a year.

I only share this information so people are informed and can weigh the potential risks and benefits. The bottom line is the choice is up to you; however, for people to make such an important decision, they need to possess all of the information.

Dr. Doug Corrigan has highlighted the very consequences that have actually occurred in those already vaxxed for Covid-19. The ADE issue has been confirmed by Dr. Luc Montagnier and his team. Antibody dependent enhancement (ADE) was so prevalent, the 2008 Nobel Peace Prize for Medicine reacted in the direst of terms of a massive die off of those receiving the spike Protein. In addition, post mortem autopsies have confirmed the existence of the spike Protein throughout the entire body of those who have succumbed to Covid-19 and were fully vaxxed. The future of those who consented to being jabbed is grave by all estimates. The consensus is 6-months to two years, possibly as long as three to five years before death ensues!

I will continue this with what comes from Dr. Corrigan's follow-up.

In my previous blog, "Will an RNA Vaccine Permanently Alter My DNA?", I laid out several molecular pathways that would potentially enable the RNA in an mRNA vaccine to be copied and permanently integrated into our DNA. I was absolutely not surprised to find that the majority of people claimed that this prospect was impossible; in fact, I was expecting this response – partly because most people don't possess a deep enough understanding of molecular biology, and partly because of other implicit biases.

After all, we've been told in no uncertain terms that it would be impossible for the mRNA in a vaccine to become integrated into our DNA, simply because "RNA doesn't work that way." Well, this current research which was released not too long after my original article demonstrates that yes, indeed, "RNA does work that way". In my original article, I spelled out this exact molecular pathway.

Specifically, a new study by MIT and Harvard scientists demonstrates that segments of the RNA from the coronavirus itself are most likely becoming a permanent fixture in human DNA. (study linked below). This was once thought near impossible, for the same reasons which are presented to assure us that an RNA vaccine could accomplish no such feat. Against the tides of current biological dogma, these researchers found that the genetic segments of this RNA virus are more than likely making their way into our genome. They also found that the exact pathway that I laid out in in my original article is more than likely the pathway being used (retrotransposon, and in particular a LINE-1 element) for this retro-integration to occur.

And, unlike my previous blog where I hypothesize that such an occurrence would be extremely rare (mainly because I was attempting to temper expectations more conservatively due to the lack of empirical evidence), it appears that this integration of viral RNA segments into our DNA is not as rare as I initially hypothesized. It's difficult for me to put a number on the probability due to data limitations present in the paper, but based on the frequency they were able to measure this phenomenon in both petri dishes and COVID patients, the probability is much greater than I initially anticipated. Due to this current research, I now place this risk as a more probable event than my original estimation.

To be fair, this study didn't show that the RNA from the current vaccines is being integrated into our DNA. However, they did show, quite convincingly, that there exists a viable cellular pathway whereby snippets of SARS-CoV-2 viral RNA could become integrated into our genomic DNA. In my opinion, more research is needed to both corroborate these findings, and to close some gaps.

That being said, this data can be used to make a conjecture as to whether the RNA present in an RNA vaccine could potentially alter human DNA. This is because an mRNA vaccine consists of snippets of the viral RNA from the genome of SARS-CoV-2; in particular, the current mRNA vaccines harbor stabilized mRNA which encodes the Spike protein of SARS-CoV-2, which is the protein that enables the virus to bind to cell-surface receptors and infect our cells.

This was thought near impossible. Based on this ground-breaking study, I would hope that the highly presumptuous claim that such a scenario is impossible will find its way to the trash bin labeled: *"Things We Were Absolutely and Unequivocally Certain Couldn't Happen Which Actually Happened"*; although, I have a suspicious feeling that the importance of this study will be minimized in quick order with reports from experts who attempt to poke holes in their work. It's important to add that this paper is a pre-print that is not peer-reviewed yet; but I went through all of the data, methods, and results, and I see very little wrong with the paper, and some gaps that need closing- but, at least from the standpoint of being able to answer the question: can RNA from the coronavirus use existing cellular pathways to integrate permanently into our DNA? From that perspective, their paper is rock-solid. Also, please take note that these are respected scientists from MIT and Harvard.

Quoting from their paper:

*“In support of this hypothesis, we found chimeric transcripts consisting of viral fused to cellular sequences in published data sets of SARS-CoV-2 infected cultured cells and primary cells of patients, consistent with the transcription of viral sequences integrated into the genome. To experimentally corroborate the possibility of viral retro-integration, we describe evidence that SARS-CoV-2 RNAs can be reverse transcribed in human cells by reverse transcriptase (RT) from LINE-1 elements or by HIV-1 RT, and that these DNA sequences can be integrated into the cell genome and subsequently be transcribed. Human endogenous LINE-1 expression was induced upon SARS-CoV-2 infection or by cytokine exposure in cultured cells, suggesting a molecular mechanism for SARS-CoV-2 retro-integration in patients. This novel feature of SARS-CoV-2 infection may explain why patients can continue to produce viral RNA after recovery and suggests a new aspect of RNA virus replication.”*

Why did these researchers bother to investigate whether viral RNA could become hardwired into our genomic DNA? It turns out their motive had nothing to do with mRNA vaccines. The researchers were puzzled by the fact that there are a respectable number of people who are testing positive for COVID-19 by PCR long after the infection was gone. It was also shown that these people were not re-infected. The authors sought to answer how a PCR test is able to detect segments of viral RNA when the virus is presumably absent from a person’s body. **They hypothesized that somehow segments of the viral RNA were being copied into DNA and then integrated permanently into the DNA of somatic cells.** This would allow these cells to continuously churn out pieces of viral RNA that would be detected in a PCR test, even though no active infection existed. Through their experiments, they did not find full-length viral RNA integrated into genomic DNA; rather, they found smaller segments of the viral DNA, mostly representing the nucleocapsid (N) protein of the virus, although other viral segments were found integrated into human DNA at a lower frequency.

In this paper, they demonstrate that:

- 1) **Segments of SARS-CoV-2 Viral RNA can become integrated into human genomic DNA.**
- 2) **This newly acquired viral sequence is not silent, meaning that these genetically modified regions of genomic DNA are transcriptionally active (DNA is being converted back into RNA).**
- 3) **Segments of SARS-CoV-2 viral RNA retro-integrated into human genomic DNA in cell culture. This retro-integration into genomic DNA of COVID-19 patients is also implied indirectly from the detection of chimeric RNA transcripts in cells derived from COVID-19 patients.** Although their RNAseq data suggests that genomic alteration is taking place in COVID-19 patients, to prove this point conclusively, PCR, DNA sequencing, or Southern Blot should be carried out on purified genomic DNA of COVID-

19 patients to prove this point conclusively. This is a gap that needs to be closed in the research. The in vitro data in human cell lines, however, is air tight.

4) This viral retro-integration of RNA into DNA can be induced by endogenous LINE-1 retrotransposons, which produce an active reverse transcriptase (RT) that converts RNA into DNA. (All humans have multiple copies of LINE-1 retrotransposons residing in their genome.). The frequency of retro-integration of viral RNA into DNA is positively correlated with LINE-1 expression levels in the cell.

5) These LINE-1 retrotransposons can be activated by viral infection with SARS-CoV-2, or cytokine exposure to cells, and this increases the probability of retro-integration.

Instead of going through all of their results in detail (you can do that if you like by reading their paper), I will answer the big question on everyone's mind – If the virus is able to accomplish this, then why should I care if the vaccine does the same thing?

Well, first let's just address the big elephant in the room first. First, you should care because, "THEY TOLD YOU THAT THIS WAS IMPOSSIBLE AND TO JUST SHUT UP AND TAKE THE VACCINE." These pathways that I hypothesized (and these researchers verified with their experiments) are not unknown to people who understand molecular biology at a deeper level. This is not hidden knowledge which is only available to the initiated. I can assure you that the people who are developing the vaccines are people who understand molecular biology at a very sophisticated level. So, why didn't they discover this, or even ask this question, or even do some experiments to rule it out? Instead, they just used superficially simplistic biology 101 as a smoke screen to tell you that RNA doesn't convert into DNA. This is utterly disingenuous, and this lack of candor is what motivated me to write my original article. They could have figured this out easily.

Second, there's a big difference between the scenario where people randomly, and unwittingly, have their genetics monkeyed with because they were exposed to the coronavirus, and the scenario where we willfully vaccinate billions of people while telling them this isn't happening. Wouldn't you agree? What is the logic in saying, "Well, this bad thing may or may not happen to you, so we're going to remove the mystery and ensure that it happens to everyone."? In my best estimate, this is an ethical decision that you ought to make, not them.

Third, the RNA in the vaccine is a different animal than the RNA produced by the virus. The RNA in the vaccine is artificially engineered. First, it is engineered to stay around in your cells for a much longer time than usual (RNA is naturally unstable and degrades quickly in the cell). Second, it is engineered such that it is efficient at being translated into protein (they accomplish this by codon optimization). Increasing the stability of the RNA increases the probability that it will become integrated into your DNA; and, increasing the translation efficiency increases the amount of protein translated from the RNA if it does happen to become incorporated into your DNA in a transcriptionally active region of your genome. Theoretically, this means that whatever negative effects

are associated with the natural process of viral RNA/DNA integration, these negative effects could be more frequent and more pronounced with the vaccine when compared to the natural virus.

As a side note, these researchers found that the genetic information for the nucleocapsid “N” protein was, by far, the largest culprit for being permanently integrated into human DNA (because this RNA is more abundant when the virus replicates in our cells). The vaccine, on the other hand, contains RNA that encodes the Spike (S) protein. Therefore, if the mRNA from the vaccine (or subsegments thereof) were to make its way into a transcriptionally-active region of our genome through a retro-integration process, it will cause our cells to produce an over-abundance of Spike protein, rather than N protein. Our immune system does make antibodies to both N and S proteins, but it is the Spike protein which is the prime target for our immune system because it exists on the outside of the virus. If our cells become permanent (rather than temporary) Spike Protein producing factories due to permanent alteration of our genomic DNA, this could lead to serious autoimmune problems. I would imagine that autoimmunity profiles arising from such a scenario would be differentiated based on order of events (i.e., whether or not someone is vaccinated before or after exposure to coronavirus).

Again, this is a theoretical exercise I am presenting for consideration. I am not making the claim that an mRNA vaccine will permanently alter your genomic DNA, and I didn't make this claim in my first article, although it appears that troll sites made the fallacious claim that I did. I simply asked the question, and provided hypothetical, plausible molecular pathways by which such an event could occur. I believe this current research validates that this is at least plausible, and most likely probable. It most certainly deserves closer inspection and testing to rule this possibility out, and I would hope that a rigorous and comprehensive test program would be instituted with the same enthusiasm that propelled the vaccine haphazardly through the normal safety checkpoints.

Obviously, even given this information, people are still free to get vaccinated, and will do so according to the overall balance of risks and rewards that they perceive in their mind. The purpose of my article is to make sure you can make that assessment fairly by possessing all potential risks and rewards, rather than an incomplete set. For something as important as this, you should not be operating in the dark.

In the latest UK PHE Vaccine Surveillance Report figures on Covid cases show that doubly vaccinated 40-70 year olds have lost 40% of their immune system capability compared to unvaccinated people. Their immune systems are deteriorating at around 5% per week (between 2.7% and 8.7%). If this continues then 30-50 year olds will have 100% immune system degradation, zero viral defense by Christmas and all doubly vaccinated people over 30 will have lost their immune systems by March next year.

Dr. Corrigan has presented the clearest understanding of microbiology and this issue of the Spike Protein, which others are already on record stating that it is the “Kill” shot.

Now that we are in the fall season and moving towards colder weather, it should not be long before the evidence begins to accumulate where his assumptions will be confirmed and validated. That said, it could become the largest “Eugenics” event of history.

### **What is DNA**

It is a macro-molecule. It is the material that transfers genetic characteristics, traits, qualities or features that characterize a person. It's constructed of 2 nucleotide strands coiled around each other in a ladder like arrangement twisted into a spiral. DNA stores information and are blueprints as it carries instructions. For years science has recognized that we have two active physical strands of DNA. We also have a further ten energetic DNA strands that have been dormant within the Human body. These dormant strands of DNA have been discovered by scientists, who not knowing the function of these strands, have identified them as 'junk' DNA. **Our DNA is therefore our personal blueprint and as such holds all our mental, physical, emotional and Spiritual information.** The original Human being had 12 Strands of DNA actively working and maintaining full function of the Human as a Spiritual Being. With our over preoccupation with left brained thinking and the closing down of our heart centers, these 'extra' DNA strands have since been lost. The consequences of this loss are that we live in a spiritually deficient society and our intuitive and healing abilities have been hugely reduced. It has also resulted in us only accessing and using a very small part of our brains. Some will call it conscience, but my perception is that we are really talking intuition. We recognize it as being active in mothers and their small children.

### **Hebrew Letters in your DNA**

Activating the other strands can have a huge impact on our spiritual abilities. **Between those 2 active strands are connected 22 amino acids. It's no coincidence that the Hebrew divine letters consist of 22, *Aleph – Tav*. When God created, with the Hebrew letters, that creation process is firmly embedded into our DNA.** DNA consists of 64 codons, which deliver instruction to cells. They literally carry codes. Each codon consists of 3 nucleotides.  $64 \text{ codons} = 6+4 = 10 = \text{Hebrew letter YUD}$ . 10 represent the fullness and completeness of the Word. Everything starts with a spark, YUD, JESUS. 3 Nucleotides = Hebrew letter, GIMMEL. It's the camel, carrying heavenly supplies, moving up and down our spiritual DNA. 3 also represent the Trinity. We are multi-dimensional beings and it's all encoded in our DNA. Our DNA has the ability to vibrate at frequencies that transcends time and space. Just like the frequency of a radio can be tuned, so the frequency of our DNA can be tuned or programmed.

### **Our DNA a song**

**Everything on the planet has a unique DNA blueprint.** Your DNA is composed of long strings of molecules called nucleotides that represent themselves in a sequence of dozens of unique combinations. **Because the formula for your DNA can be converted to a logical alpha-numeric sequence, it can also be transformed into musical notes. In other words, your DNA is an original song.**

The first person known to discover this was a man by the name of Dr. Rubinstein. Dr. Rubinstein was a researcher who says he found a unique pattern that forms breaks in

the amino acid sequence between the bridges. He claims the first break is at an interval of 10, the second at 5, the third at 6 and the fourth at 5. According to his research, he states this pattern then repeats itself all the way through the strand. Those numbers are the Hebrew letters YHVH. Should his research prove to be correct, then the name of JAHWEH, JHVH is encoded within our DNA. Some have tried to debunk Dr. Rubinstein, yet many others have validated his discovery to be valid. The very nature of this topic would be a critical proof for the existence of God no less!

Acts 17:28 ***“For in him we live, and move, and have our being; as certain also of your own poets have said, For we are also his offspring.”*** As some poets have said, “We are his offspring.” If we are His offspring, then the very DNA of YHVH, Jesus/Yeshua is encoded within our DNA

Genesis 28:12 ***“And he dreamed, and behold a ladder set up on the earth, and the top of it reached to heaven: and behold the angels of God ascending and descending on it.”***

When Jacob laid to rest his head upon the rock, he put his crown upon an altar which opened a portal for heavenly engagement. The only other Scripture that describes the angels ascending and descending is upon Jesus. As Jacob was dreaming about this ladder he was having a spiritual encounter with his own DNA structure of Christ

embedded within him and the angels ascending from within him, his DNA structure embedded in him as the Heavenly stairway from which Angels ascend and descend. It's important to note the starting point of the angels' movement is from within him. They did not descend from heaven upon him and then ascend back upwards, but they ascended from within him to the heavens and back down upon him. Do you realize the importance and what God has placed within you that the movements of the heavens are deeply encoded within your DNA structural genome. You are built to have the deepest and intense spiritual engagements with the heavens. You are an angelic highway.

Just as an artist signs their signature at the bottom of their canvas painting, the Heavenly Father's signature is found in all human DNA! As I pointed out in an earlier article from Neil Whitehead, the DNA molecule appears as a double helix, looking like a spiral staircase. There are "steps" to the spiral staircase, or, sulfuric bridges. These sulfuric bridges are what keep the two DNA strands attached together.

Every 10 acids, or rungs in the DNA ladder, there is a bridge  
Every 5 acids, or rungs in the DNA ladder, there is a bridge  
Every 6 acids, or rungs in the DNA ladder, there is a bridge  
Every 5 acids, or rungs in the DNA ladder, there is a bridge

This is a repeating pattern in the DNA double helix spiral through two meters of DNA, which consists of trillions of cells.

Do you know the meaning of 10-5-6-5?

This is the numerical value of YHVH! The sulfuric bridges holding the DNA together repeat in a pattern that spells out the sacred name of the Creator!

Encoded within the DNA of every person on the planet is the name of YHVH. The Master Creator signs his masterpiece of each human being with his very own signature.

For those who repent and turn to Yeshua, He comes to dwell within us through the Holy Spirit:

***"At that day you will know that I am in My Father, and you in Me, and I in you. "If anyone loves Me, he will keep My word; and My Father will love him, and We will come to him and make Our home with him."*** -(John 14:20, 23)

And so, our body is a Holy Temple where the Holy Spirit of Jesus/Yeshua dwells. Our Father's name is encoded in our DNA. I know that may surprise you and for many it is almost impossible to believe. This information is not widely known to the general public. However, that does not diminish the importance and purpose of your DNA genome. Encoded in the DNA is your spiritual and genetic heritage. See John 2:21 and 1<sup>st</sup> Corinthians 6:19. ***"What? know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own?"***

Therefore, Satan's devious and diabolical plan is to desecrate our body, which is the temple that houses the Holy Spirit. He wants to remove the name of YHVH out of our DNA! Satan wants to hijack the temple of Jesus/Yeshua, and occupy it for himself!

Most people are unaware of what they have done and the heavy-handed tyranny being applied to keep that information from them will be explosive one day when they realize what has happened to their God-given DNA.

In fact, when you go to the Moderna pharmaceutical website, they openly explain how the mRNA "medicine" will change your DNA. It is NOT a vaccine. It is an EXPERIMENTAL "gene therapy" medicine. See for yourself in the two screen shots below taken from the Moderna website:

**Our Operating System**

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer. It is designed so that it can plug and play interchangeably with different programs. In our case, the "program" or "app" is our mRNA drug - the unique mRNA sequence that codes for a protein.

We have a dedicated team of several hundred scientists and engineers solely focused on advancing Moderna's platform technology. They are organized around key disciplines and work in an integrated fashion to advance knowledge surrounding mRNA science and solve for challenges that are unique to mRNA drug development. Some of the disciplines include mRNA biology, chemistry, formulation & delivery, bioinformatics and protein engineering.

When the "mRNA medicine" (not vaccine) is injected into someone, the mRNA overrides the person's natural immune system and begins changing the person's DNA. These are found in Moderna's own words from their website:

I shared this information right from Moderna' web page months ago in a couple articles. Dr. Sherri Tenpenny was the first to make this known on her web page in late 2020. The disinformation trolls continue to censor and block Dr. Tenpenny's warnings. Moderna's CEO in early 2020 said they had cracked the 'Code of Life', which was reference to the DNA Genome, and with CRISPR-CAS9, they in essence now have the ability to create life. We saw that in the creation of Covid-19, using the common cold virus and through CRISPR they were able to inject 18 fragments of the HIV1 genome and 4 fragments of SARS2. This amounts to 92% of the AIDS viral pay load!

So, your human DNA that has YHVH encoded within it, will be "corrupted", "polluted", "made abominable" and "made desolate". Could this be the true meaning of these words that have puzzled the prophets for centuries?

***"Then he shall confirm a covenant with many for one week;  
But in the middle of the week  
He shall bring an end to sacrifice and offering.  
And on the wing of abominations shall be one who makes desolate,***

***Even until the consummation, which is determined,  
Is poured out on the desolate.”*** -(Daniel 9:27)

## DNA Replication

With the advent of CRISPR in 2015, scientists have discovered a secret second code hiding within DNA which instructs cells on how genes are controlled. The amazing discovery is expected to open new doors to the diagnosis and treatment of diseases, according to a new study.

Ever since the genetic code was first deciphered over 40 years ago, scientists have believed that it only described how proteins are made. However, the revelation made by the research team led by John Stamatoyannopoulos of the University of Washington indicates that genomes use the genetic code to write two separate languages.

*“For over 40 years we have assumed that DNA changes affecting the genetic code solely impact how proteins are made,”* said Stamatoyannopoulos, according to the press release. *“Now we know that this basic assumption about reading the human genome missed half of the picture.”*

Scientists discovered that the second language instructs the cells on how genes are controlled, according to findings published in *‘Science’* magazine. The study is part of the Encyclopedia of DNA Elements Project, also known as ENCODE.

DNA (Deoxyribonucleic acid) is a nucleic acid that is the main constituent of the chromosomes of all organisms, except some viruses. DNA is self-replicating, plays a central role in protein synthesis, and is responsible for the transmission of hereditary characteristics from parents to offspring. We are finding there is so much more that man does not know with each new discovery.

The second language remained hidden for so long because one language is written on top of the other, scientists said.

Scientists already knew that the genetic code uses a 64-letter alphabet called codons. The research team discovered that some of the codons can have two meanings – one related to proteins, the other to gene control. Those codons were given the name ‘duons.’

And it’s those duons that are expected to change the way physicians interpret human genomes, and give clues for the treatments of diseases.

*“The fact that the genetic code can simultaneously write two kinds of information means that many DNA changes that appear to alter protein sequences may actually cause disease by disrupting gene control programs or even both mechanisms simultaneously,”* said Stamatoyannopoulos.

Speaking about the discovery, Stamatoyannopoulos said that the *“new findings highlight that DNA is an incredibly powerful information storage device, which nature has fully*

*exploited in unexpected ways.*" I would express it somewhat differently of the incredible design our God has built in our body.

Deoxyribonucleic acid (DNA) plays a crucial role in all living organisms because it is the key molecule responsible for storage and self-replication of genetic information. DNA can form a wide range of double helical structures and the most common form is B-DNA (Crick and Watson). The "pitch" (one full 360 ° rotation of the helix) is just 34 angstroms, whilst the diameter of the B-DNA helix is variously given as approximately 20. So the geometry of the most common DNA molecule might be seen to reflect the divine proportion:  $34/21 = 1.6190$ . For you math folks, this is the mathematical ratio for **Phi  $\phi$** . **Phi** appears in:

- The proportions of the human body
- The proportions of many other animals
- Plants
- DNA
- The solar system
- Art and architecture
- Music
- Population growth
- The stock market
- The Bible and in theology

### DNA spiral as a Golden Section

The DNA molecule, the program for all life, is based on the golden section. It measures 34 angstroms long by 20 angstroms wide for each full cycle of its double helix spiral.

The mathematical properties of **Pi  $\pi$**  and **Phi  $\phi$**  are signatures of the Creator. If one wants to refute that scientific fact they still must acknowledge it as an act of "Intelligent Design" and then answer that the designer is; and evolution becomes a flawed theory.

X-ray crystallography has been used to examine the structure of the DNA molecule. A detailed geometric analysis (axial view) reveals five sets of concentric double pentagons. Each double pentagon can be seen as a pair of pentagons offset from each other by 36°, creating a decagon. A decagon pattern is clearly seen in the axial view of ideal B-DNA. I have not included drawings or illustrations of these decagon and pentagon patterns but they reflect symmetry of a Creator who has chosen to embed His Name as His personal property reminding us that we are fearfully and wonderfully made! ***“I will praise thee; for I am fearfully and wonderfully made: marvelous are thy works; and that my soul knoweth right well.”*** -(Psalm 139:14)

The DNA double helix molecule accomplishes (self-replication) feats by means of the very same self-replicating attributes of the very geometry upon which it is built.

So does DNA carry the signature of YHVH God via the self-replicating property of the "divine proportion,"? Is the pope a Jesuit? And if not, who designed-in the coded genetic information in the DNA nucleotides? For the evolutionist, they are in a box from which they cannot escape. There is nothing random about God’s Creation!

Below is the cover of the April 2014 cover of ‘Nature’ magazine alongside the image of Luciferace, and the bioluminescence of how the “Mark” of the Beast will appear under an infrared scanner, “in and on the hand but invisible to the human eye”.

CRISP-CAS9 technology offered hope for many who are victims of genetic mutations that most likely occurred as a result of environment pollution, air, water, poisons, chemicals, herbicides, pesticides, man-made pathogens. As I was writing this and

entering into my computer on 10/27/21, I can see outside my window heavy chemtrail spraying of a likely new virus variant or another pathogen to shorten lives.

The angstrom measurements of 34 and 21(20), of course, are numbers in the Fibonacci series and their ratio, 1.6190476 closely approximates phi, 1.6180339. Recall what I said on page 28 above.

### **DNA Spiral as a Golden Section**

The DNA molecule, the program for all life, is based on the golden section. It measures 34 angstroms long by 21(20) angstroms wide for each full cycle of its double helix spiral.

B-DNA has spirals in phi proportions.

DNA in the cell appears as a double-stranded helix referred to as B-DNA. This form of DNA has a two groove in its spirals, with a ratio of phi in the proportion of the major groove to the minor groove, or roughly 21 angstroms to 13 angstroms. The DNA cross-section is based on Phi. We also know it as the Golden Ratio!

# How DNA works

The defining moment for DNA was the discovery of its structure in 1953. Main functions of DNA, the genetic material that forms chromosomes in a cell nucleus:

## Human cell nucleus

Contains 46 chromosomes

## Chromosome

When unraveled it consists of double-stranded DNA

## DNA

Held together by four chemicals called bases:

**A:** Adenine

**T:** Thymine

**C:** Cytosine

**G:** Guanine

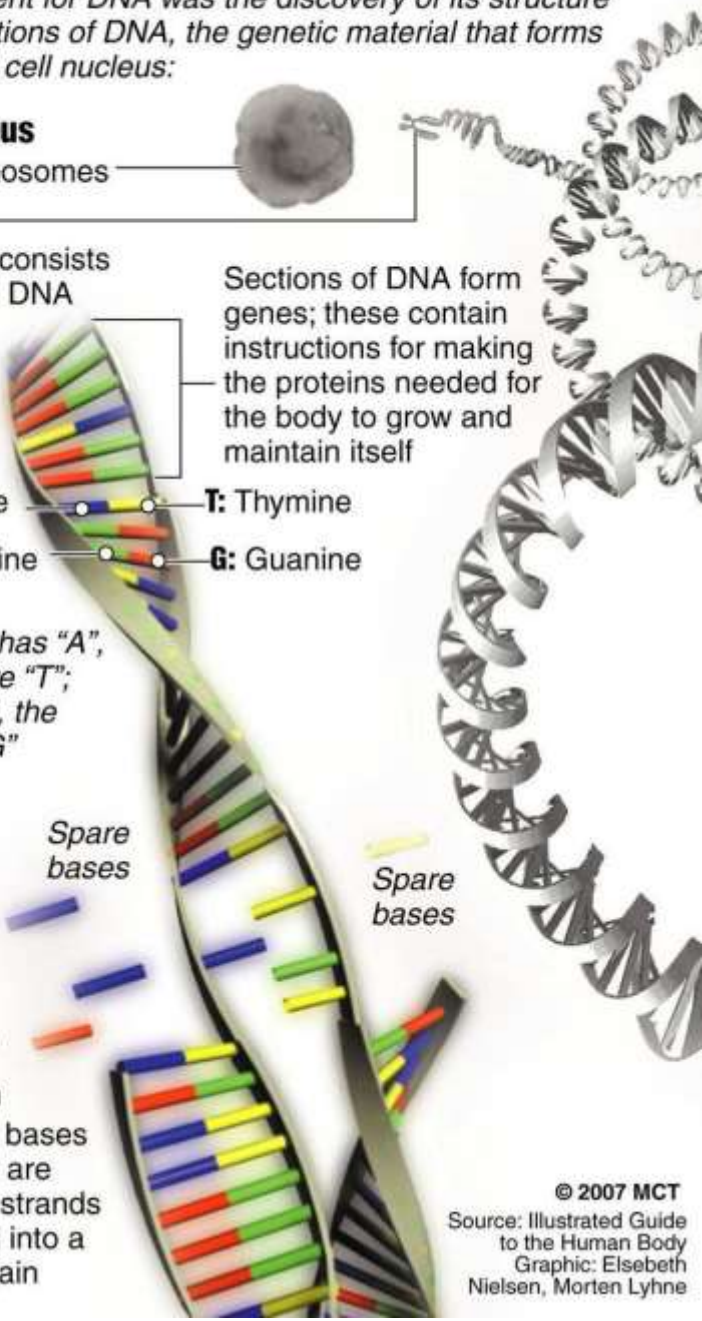

Where one strand has "A", the other must have "T"; where one has "C", the other must have "G"

## Cell splits

When cell splits to make two cells, strands of DNA come apart

## Double helix form

Spare free-floating bases form within the cell are added to the open strands to turn each strand into a full double helix again

So, no matter which way you look at it, even in its smallest element, DNA, and life, is constructed using Phi and the golden section! All of this information about human DNA takes on profound implications because of what the transhumanist movement has in mind for humanity. Hence, begins the diabolical side of this article.

**Vaccines to Insert a Third Strand of DNA Into Your Body – Anthony Patch**

Several years ago, Anthony Patch stated:

*“Let’s talk about people getting the flu shot. ..There’s another very insidious disease, which is really a man-made disease, a biological construct, called the MERS Coronavirus. I would like to go all the way to the end – what’s the purpose, what’s the goal? If you have a man-made virus – why was it created? Simply just to kill people? That’s one part of it, but if you go further and deeper into that, it is to get people to demand the vaccine. Why would you want people to demand the vaccine? It’s because you want them to have something in their bodies that is in the vaccine.”*

**“What is in the vaccine that they want everyone to have inside their body? It is a DNA manipulator/modifier.. a third strand of DNA.”** This is precisely what people are receiving when they take the AstraZenica, J&J, Moderna, and Pfizer “gene” therapy in the form of the mRNA spike Protein (PEG).

The third strand is coated in an extremely thin coating of gold, a billionth of a millimeter. It is applied through the use of CRISPR technology. It increases the surface area around the DNA so that more information can be digitally coded onto it. Essentially you are creating a third strand of DNA, you are transferring it into a person’s body through a vaccine, that the person is demanding, because they are afraid of contracting the MERS or Coronavirus vaccine...the powers that be sit back and chuckle and ...create the problem and then present the solution. [Hegelian Dialectic] people will

demand the solution and we achieve our ultimate goal. People then become a hybrid; a Cyborg, part human and part artificial intelligence by which they can be controlled.

**Once a person is injected, almost immediately their DNA undergoes transformation...** The insidious part of this is they lose all awareness of the fact that they've lost their independence and their ability to make decisions and think on their own.

Their moral independence, their religious, ethical and moral beliefs – all of those go away. Once you've lost the awareness that you've lost your independence, then what do the powers that be do with these new forms of humans? They can control them and turn them into a serf class...

***A class of slaves to serve the elite! To serve the Ray Kurzweils of the world, who want to achieve immortality. But they need to have labor to manufacture and develop the technologies.*** They plan to keep around on the order of 500,000,000 of those to do their feudal labor work.

They have enough technologies now. They don't care about hiding it anymore, their agenda is far advanced...that no longer are they worried about you and me and the coming serf class, they're not worried about us rebelling. In fact, we won't rebel, because we have been so dumbed down...They will achieve the hive mentality, like a bee hive. Worker bees, soldier bees, serving the queen. There is still hope for those who will not consent or submit to the shots. I'm referring to the Pre-Tribulation Rapture!

#### **What do these people become? They become a hybrid.**

There is already in existence a third strand of DNA, constructed of silica and it's also coated in gold, from which you are building a third strand of DNA...the purpose of the gold is to increase the surface area around the strand to increase the surface area so that more information can be digitally programmed or imported. **Successive "booster" shots will serve to "upload" the human body with additional segments of the ultimate Cyborg making a person into a part human and part AI or Artificial Intelligence.**

Essentially you are creating a third strand of DNA and importing that into a person's body, through a vaccine that the person is demanding because they are afraid of contracting MERS, Coronavirus or Avian flu or whatever it may be. And the powers that be sit back and chuckle and say – *"We couldn't force people to take this vaccine and this third strand of DNA; they would rebel against it. But if we create the problem and present the solution, people will demand it. We won't rebel because we've been so dumbed down."*

#### **Seattle Space Needle Penetrates DNA: New Year Vaccine Programming**

**I viewed a video presentation not long ago that actually revealed the Luciferian plan for the third strand DNA.** The following examines the Seattle Space Needle and its connection to the COVID-19 vaccine. Spiritual discretion is advised... You can view the

Seattle New Year's Eve extravaganza by looking for it on You Tube. Through a graphic light presentation they flaunted their Luciferian plan for 2021.

It took less than one minute into the New Year for the Luciferian elite to put a time stamp on their agenda for 2021. Forward to the fifty-eight second of the video and we saw the Seattle Space "Needle" penetrating an illuminated human Double-Helix DNA genome strand. Outside of the double-strand, twirling in sync, is another lighted single strand of Messenger RNA, embedded in the COVID-19 vaccine and injected by the "needle" which will merge with the Double-Helix DNA genome strand, creating a Trans-human hybrid, containing a Triple-Helix DNA genome strand.

Transhumanists are attempting to create an eternal, uniquely original, triple helix, DNA genome code third strand. Adam and Eve were the first Trans-humans, displaying an external spirit and internal body, perfectly reflecting God's triple helix DNA genome code strand. The proverbial eating of forbidden fruit of the tree of knowledge, good and evil reveals there is much more and deeper to this story.

Fallen man carries a double helix DNA genome code strand, or two-thirds of what it was Six protons, six electrons and six neutrons...Six Six Six. God creates within a framework of three. When Adam and Eve fell, their triple-helix DNA code transmuted from three strands into two. One whole comprised of three became two-thirds of one... or 66.6% of one. The number of a man; It's the third strand of DNA code that enabled Adam and Eve to telepathically communicate with God and trans-relocate without the obstacle of time and space. Freemasonry has laid claim to the esoteric meaning of the 33.3. Albert Pike and other Grandmasters of the Lodge will tell you that their secrets are in the King James Bible.

RNA changes the nuclei of every cell in the human body, producing the double helix DNA. RNA changes the DNA of the host. That is what our God given RNA does normally. RNA produces the double helix DNA strand. With Messenger RNA or mRNA vaccine will have a sequence of nucleotides. These nucleotides form the basic structural unit of nucleic acids such as DNA. a compound consisting of a nucleoside linked to a phosphate group. The mRNA vaccine will rearrange the human genome, the complete set of genes or genetic material present in every cell. From what we know, the first autopsy of a vaxxed individual who died, the spike protein (PEG) had within hours literally spread throughout the victim's body.

The nucleus is contained within the human cell. With the mRNA vaccine the RNA will be delivered to the cell via hydrogel. Contained within the hydrogel are micro (nano) size magnetic particles (graphene oxide) which respond to magnetism, and a 5G magnetic signal, propelling the hydrogel that carries the RNA. Thus providing the propulsion necessary to penetrate the cell membrane and move thru the cytoplasm liquid contained within the cell. The RNA contained within the hydrogel will then pierce the nucleus and begin to naturally replicate itself in a twisted strand of double helix DNA. But this DNA is coated artificially. An RNA creation and rearrangement of nucleotides,

producing a DNA artificial sequence. **All though the sequence is artificial, the coding is permanent.**

The Messenger RNA is the first and only vaccine to create a process known as transfection. **Trans-infection fundamentally changes the human DNA, into a hybrid. In other words, the unique vibrational frequency given to us by God will be systemically changed, and we'll no longer reflect the image of God. At this point the option for salvation is nullified.** It seems so surreal, yet invisibly this is what happens when you accept the Vax "gene" therapy!

It appears the COVID-19 vaccine is the first attempt to create a Triple-Helix DNA utilizing the a single strand of synthetic RNA to cleave to the Double-Helix DNA, forming a third stand and replicating the process until the human becomes a Trans-human hybrid.

**One thing the masses misunderstand about Luciferian's is their obligation to disclose the agenda according to the rules of the occult esoteric religion. They believe non-disclosure is a violation of free will and will result in a spiritual backlash. This is why predictive programming is something to be aware of; Movies like "Back to the Future" and TV cartoons such as the "Simpsons" told us in advance of what was coming!**

It is becoming evident that the vax platform of the Vax lepers is not just an mRNA changing DNA, but is being proven to be a third strand of human DNA.

In humans you have the Double Helix, meaning you have two strands of DNA which wrap around each other like an antenna. With the realignment of magnetism, the nano particles and the Morgellon's fibers replication, this synthetic evolution of humans is taking on a new dimension. Instead of height and width, humans who have been vaxxed are being given a depth as well. That may seem well and good but it represents fallen man playing God in the realm reserved by the Lord Himself!

In Biblical terms, the Holy Spirit is the third strand of DNA, Spiritual DNA, in the false tree of life in the immortals in the vax, there is a third strand of DNA which is not God like, or which would accept being plugged into God, but which will transform humans to respond to a phased array, or Elon Musk type SatNet with 5G and then 6G as humans are transformed to accept those higher frequencies. 5G is an integral part of this plan to re-write human DNA to handle these higher frequencies. It is the energy source that will control your Cyborg existence, linking the individual to the "Cloud" where an individual's "Financial, Personal, and Health" data will be maintained. This new "cashless" system is called Libra, and is a product of Concordia in Greece. Elon Musk has close to 2,000 5G satellites in low and medium orbit at this time. This does not include another 100,000 telecom 5G satellites that will put every person on the planet "in touch" with every other being or entity through your cell phone and wireless devices.

Something which I have not commented on, and is another exclusive in matter anti matter revelations is that you cannot normally see ghosts, Angels or demons, due to their vibrating at a higher frequency. They move faster. That is what humans will be approaching. As ghost are more visible in being enhanced in electrical storms in ion discharges, humans will be more receptive to this ion charge and these vaxed in this synthetic evolution might become trans-dimensional beings in operating at a frequency which would make them ghostlike. Normal human tissue is not designed for this type of charge and would harm that tissue. The synthetics of Morgellons though will construct a structure which will be more accepting of this charge.

Those who are Biblically ignorant are warned to fear God Who can destroy both body and soul in hell. Souls are immortal. They can be destroyed. We do not know for certain if the Elon Musk charge will be necessary to sustain this "synthetic" immortality. In other words, are the vaxed humans evolved like lightbulbs in needing electricity to light up? If that is the case, then this SatNet grid with 5G and 6G would need to be in continuous operation or the vaxed would begin degrading. We do not know of these transformed biological units can self-generate. The recently discovered *Hydra Vulgaris* in vials of the vaxxes, the fresh-water polyp, is a small animal freshwater hydroid with length from 10mm to 30-mm and width about 1-mm. The hydra has four to twelve tentacles that protrude from just outside the mouth. They feed by extending their tentacles and waiting for food to touch the tentacles. They then bring the food to their mouth, ingest and digest the organism. Anything that cannot be digested is egested. Ingestion and egestion occur through the mouth. The *Hydra Vulgaris* is often used, like

many hydra, as a model organism for morphallactic regeneration because they are easy to care for, requiring minimal direct care, and reproduce relatively quickly. It is reported that they do not undergo senescence, making them biologically immortal.

This species can reproduce in three ways: sexual reproduction, budding, and indirectly through regeneration. The evidence of intelligent self-assembly of nanotechnology and intelligent filament-movement is an indicator of “synthetic” biology and nanobioelectronics, as per several scientific papers published in various journals, and points to the reason why the stealth inclusion of Graphene Oxide in the Moderna vaccine for electromagnetic manipulation of cells and neurons via the creation of synthetic neural networks in the human body and brain. This is a clear sign of malfeasance and intended trans-humanizing and cyborgizing of the human body through the COVID vaccines. There are facets that I cannot go into at this point, such as Quantum computing and a wireless neural-link inserted beneath the back of the neck below the skull.

It must be remembered that both Pfizer and Moderna developed the Transhumanist mRNA vaccines for DARPA, on DARPA contracts from 2013. Pfizer and Moderna’s military connections as well as the mRNA connections with DARPA’s Regina Dugan now directing the Wellcome LEAP ventures and DARPA’s Dan Wattendorf now at the Gates Foundation have been discussed. DARPA’s “Pandemic Prevention Platforms” and ADEPT diagnostic and monitoring platforms are based on bioengineering, gene manipulation, and “synthetic” biology. These human-takeover programs envision an infinite future of mRNA vaccines and external control of the human body and brain, which Graphene Oxide would facilitate. Dr. Carrie Madej reported the finding of this organism found in a vial of vaccine under 400X magnification,

**These people are fixated upon achieving immortality and there are no limits in how they plan to bring this about.** It matters not if they kill a billion people in the process of experimenting on the masses to perfect their plan. This agenda is all about achieving immortality using humanity as the guinea pig like a rat or ferret!

It is one thing to be Jesus in Pure Life and another for some grubber like you who is chemically electrically sustained, needing oxygen, minerals and amino acids to create a body life current for the host soul to be housed in. This mRNA is not changing the soul as the soul is not organic. So the body is what is being changed to an immortal status.

As the Lake of Fire will short out or consume the soul, the reality is if the 1% gets this wrong, there are going to be perpetual rotting people who will not die. The subject that has not been stressed is, what if this wax welds the soul to a “synthetic” body which will not die, but will rot. Imagine being locked in a body in a permanent link to the soul, and being in perpetual pain, or a torment like hell. ***“And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains; <sup>16</sup>And said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb:”*** - (Revelation 6:15-16).

The Synthetic Prion and the assembled parts are a platform for transformation. The evidence is in the saline injections, the ruling class getting fake vaxes, and that the vaxes had to be broken up, means that this transformation is too much for the human body to deal with. Think of this vax as a series of cancers, which is not eating the host alive, but is devouring energies in order to transform a human into a trans-human. These vax platforms are designed for other platforms to be loaded into them.

We now know from Jewish concerns that this vax wears out or is said to in 6 months. That means people are going to be forced vaxed, and as owned by the corporates as they are no different than genetic material of Monsanto BTcorn. This third strand is not yours. It is from a combined source of Astra, Pfizer and Moderna who own that prion, and once that prion is in you, it is you that is no longer being a natural organism, but an organism which is owned by these gene modification corporations. You become like Monsanto BTcorn or genetically modified Roundup Ready soybeans that are resistant to Roundup.

So the projection is, people are just starting to be transformed. This is the third strand Genesis of what will require more injections of these substances to evolve humans to not be human anymore. All of this is over a decade old in how this was created. The Patents began in this during 2008 to 2017 AD. The NIH began this with Anthony Fauci and soon became the interest of DARPA, the military advanced weapon's department. Before people had received their 2-dose vax, the media was hyping the need for two boosters, and even more frequent boosters to upload elements of this package of genetic upgrades. I view it very much to the many space launches needed to build and assemble the International Space Station.

The SAARS Coronavirus Bat was patented 73 times for use to make money. From 2015 A.D., Peter Daszek of Eco Health Alliance stated that the media needed to hype a Pan Coronavirus for a vaccine. There was not a lab leak. This was a deliberate transmission. This is crimes against humanity.

The NIH, University of North Carolina Chapel Hill and Moderna joined in for a spike protein vaccine by the end of 2019. This was well before there was an outbreak of the Coronavirus.

There are those who were involved in this for money. Money to the 1% is only a tool not a value to deal with the mass population. Money though has nothing to do with the third strand DNA.

All of this has been proven planned and plotted for over a decade. This prion is a "platform" more than just a bioweapon which was capable of being morphed into a number of political objectives. We have 1/3rd of the population of the world vaccinated who are in the process of being transformed into something which is not human.

This is the third strand genesis of for lack of a better term, the Homo sapiens. The species, and that Homo sapiens is about to be erased as all other species have disappeared. This is science gone rogue, with a potential of wiping out the species!

### **Synthetic mRNA Vaccine Could Systemically Change Human DNA**

If the synthetic Messenger RNA vaccine does systemically change the human DNA, will we witness the first hybrid race since the Nephilim?

Genesis 6: 4, says, ***“There were giants in the earth in those days, and also after that, when the sons of God came in unto the daughters of men, and they bare children to them. The same became mighty men, which were of old, men of renown.”***

The Book of Enoch, Chapter 7 says, *“It happened after the sons of men had multiplied in those days that daughters were born to them, elegant and beautiful. And when the angels, the sons of heaven, beheld them, they became enamored of them, saying to each other Come, let us select for ourselves wives from the progeny of men, and let us beget children.”*

I'm not saying the first generation after the synthetic RNA vaccine are going to be giants, but rather they will be the first generation since the Nephilim, not to be created in the image of God. It still is extremely hard for me to accept the idea that all of this is based upon “synthetic biology”. This virus was man-made on a computer screen using a gene-editing device known as CRISPR-CAS9. And to think this research has been underway for at least a decade if not longer is stunning.

Currently, a third of the rebel angels and the two-hundred additional ‘Watcher’ angels are imprisoned in dark chains awaiting final judgment from God. And it was the two hundred ‘Watcher’ angels who descended on Mount Hermon, transformed into a human bodies, and had sex with woman. Their offspring, the Nephilim, half human, half angel were created for the singular purpose of corrupting the DNA genome code of man and preventing a future offer of redemption from Jesus Christ. This was the scheme of Lucifer since the Garden of Eden. We are seeing a similar repeat of the Genesis 6 narrative!

**The Watchers In The Book Of Daniel** – the watchers are mentioned not less than 3 times in the Book of Daniel. More exactly, in Daniel 4:13, 17 and 23. These watchers appear in Nebuchadnezzar’s dream. He sees these watchers or holy ones coming down from the sky or heaven, in his dream. Reading these verses carefully we can see that the watchers from the book of Daniel are angels. They came with a message from God, The Most High, to Nebuchadnezzar.

**The Watchers In The Books Of Enoch** – the terms of “watcher” or “watchers” appear numerous times in each of the books of Enoch. Each of them being translated from Aramaic. Therefore, these translations also refer to the angels or messengers of God. Enoch uses the term *“iyr* instead of *“malakha”* (angel).

Enoch describes good and disobedient watchers. The disobedient watchers, 200 in number, are called *“irin”* by the prophet. They are also called “Sons of God”. Enoch describes them coming down to earth and marrying human females; who then give birth to human-angel hybrids called Nephilim’s.

Before the fall in the Garden of Eden, Adam and Eve reflected God’s perfect triple-helix DNA genome code, wearing their spirits externally and bodies internally. After their expulsion from Eden, both were downgraded to a perishable double-helix DNA genome code, displaying their bodies externally and their spirits internally.

God promised he would restore Eden as the second Adam in the person of Jesus Christ. A unique God/human hybrid, offering the free gift of salvation. Lucifer knew God’s extension of grace was for humans only. So he sent the ‘Watcher’ angels to corrupt man’s DNA by mixing it with angelic DNA. If man no longer reflected God’s image, then redemption wasn’t possible.

God creates within a framework of three. When Adam and Eve fell, their triple-helix DNA code transmuted from three strands into two. The whole comprised of three became two-thirds of one... or 66.6% of one..... Six, Six, Six. The number of a man. It’s the third strand of DNA code that enabled Adam and Eve to telepathically communicate with God and trans-relocate without the obstacle of time and space.

Every human contains a scroll of DNA determining their physicality, intellect and emotions. Forty-six chromosomes half from the father and half from the mother form one individual set containing a double helix DNA genome code. This physical testimony and record of the parents’ lives has been passed down and preserved since the flood.

Currently, man is infused with a double helix DNA molecule containing the chemical alphabet A, C, T, and G. In different combinations, these building blocks provide the fuel to create, change, grow and reproduce. DNA is spiritual technology if we can use that term. Transforming dust into life, RNA is the invisible bond/glue which empowers DNA to upload its genetic code and form tangible matter, ultimately manifesting as “synthetic biology” in the third dimension of the first heaven. Ninety-five percent of the remaining DNA is invisible, hyper-dimensional shifting... portal technology.

So how does an mRNA or Messenger RNA vaccine work? I do not want to be repetitive here, I want you to grasp what takes place with their so-called innocuous vaxx. RNA changes the nuclei of every cell in the human body, producing the double helix DNA. RNA changes the DNA of the host being. That is what our God given RNA does normally. RNA produces the double helix DNA strand. A Messenger RNA or mRNA vaccine will have a sequence of nucleotides. These nucleotides form the basic structural unit of nucleic acids such as DNA. a compound consisting of a nucleoside linked to a phosphate group. The mRNA vaccine will rearrange the human genome. the complete set of genes or genetic material present in every cell. The once refuted idea that messenger DNA re-writes a person’s God-given DNA has been confirmed by

scientists at Harvard and MIT when validating the premises of Dr. Corrigan, noted earlier.

Dr. Judy Mikovits has stated the mRNA coronavirus vaccine could kill 50 million Americans over the next 40 years. The types being rolled out by Pfizer and Moderna have to be stored at minus -94 degrees Fahrenheit and leads to the next question. Why 94 degrees below zero?

Children's Health Defense had the following analysis, "mRNA vaccines undergoing Covid-19 clinical trials, including the Moderna vaccine, rely on a nanoparticle-based "carrier system" containing a synthetic chemical called polyethylene glycol (PEG)." So apparently nanoparticles are so volatile, they must be contained under extreme temperatures.

Also, contributing to their vaccine "delivery" system is DARPA (Defense Advanced Research Projects Agency) who have funded an implantable biochip which can potentially deploy the mRNA vaccine as soon as 2021.

The chip and the vaccine are the resultant discovery made by then Harvard professor and future co-founder of Moderna; Derek Rossi in 2010 stated he found a way to

reprogram mRNA, the molecule which give genetic instructions for cell development in the human body. In the most basic of meanings, Derek Rossi had declared man has usurped the creative power of God!

How it works... The nucleus is contained within the human cell. With the mRNA vaccine the RNA will be delivered to the cell via hydrogel. Contained within the hydrogel are micro nano-size magnetic particles (graphene oxide) which respond to magnetism, and a **5G** magnetic signal, propelling the hydrogel, that carries the RNA. Thus providing the propulsion necessary to penetrate the cell membrane and move thru the cytoplasm liquid contained within the cell. The RNA contained within the hydrogel will then pierce the nucleus and begin to naturally replicate itself in a twisted strand of double helix DNA. But a DNA that is coated artificially! An RNA creation and rearrangement of nucleotides; producing a DNA artificial sequence. All though the sequence is artificial, the coding is permanent.

So how does this connect to the COVID -19 Messenger RNA Vaccine? First there has never been a vaccine like this before. It is the first vaccine to completely skip animal trials, and go straight to humans. Every mRNA trial volunteer has experienced adverse effects when given a full dose,100%. And Messenger RNA is the first and only vaccine to create a process known as trans-in-fec-tion. Trans-in-fec-tion fundamentally changes the human DNA, into a hybrid. In other words, the unique vibrational frequency given to us by God will be systemically changed, and we'll no longer reflect the image of God. At this point the option for salvation is nullified. We know animal trials were suspended when all the test animals died within 2 days.

**5G** will be implemented as the vibrational altering frequency platform, activating nanobots that are part and parcel of the COVID-19 mRNA vaccine now embedded in the body and the subject literally becomes an antenna. The major ingredient in Chemtrail spraying over the past thirty years has been aluminum, a natural antenna. Once the nanobots get in, they can never be removed and become part of your DNA as you morph into a programmable product like an I-phone. Although I had all the pieces of this puzzle in my possession three years ago, it was one of those situations where I had a puzzle but lacked both the puzzle box cover lid with the Big Picture as well as the assembly instructions.

At 60-GHz, **5G** can affect the hemoglobin, which carries the oxygen from your lungs to your body tissues. This confirms all the **5G** accounts for the videos where we watched citizens in Wuhan China dropping dead in the streets in late 2019.

The required digital certificate will prove you've received the COVID-19 mRNA vaccine and validation will be confirmed with a light emitting compound called Luciferase. Luciferase is another ingredient contained within the COVID-19 mRNA vaccine The digital certificate could also be used for digital currency transactions in the form of crypto-currencies, once cash is deemed illegal. And because this vaccine will contain nano- crystals and nano-bots, your personal biometrics will be read 24/7 and uploaded into the cloud. The Luciferian elite will know your every emotion, such as when you've

taken drugs; the last time you had sex; where you've been and where you're going to. Every private part of your life will be on display and the technocrats will design a predictive program algorithm unique to your personality. Think of the movie "Minority Report" on steroids.

On March 26th, 2020, The Bill and Melinda Gates Foundation applied for patent number 060606 to take this biometric data and give every human a bar code and connect us to crypto-currencies. At this point we become slaves to the technocratic system. Patent 060606 could connect all humans to a beast machine, turning each of us into a commodity.

If a synthetic piece of DNA or RNA can merge with the human genome, then the owners of the synthetic DNA or RNA could legally own that human. Unvaxxed natural humans cannot be patented nor electronically controlled.

What about the mRNA delivery system? There is a micro-needle platform developed by MIT. Once ready for market, it could be shipped to your home. Just put it on your hand, take off the sticker, and you've been vaccinated. The Band-Aid contains tiny microneedles, purposely designed as snake viper fangs. This wasn't a coincidence either. Contained within this delivery system are three known ingredients.....

- 1 Hydro-gel
- 2 Lucifer-ase enzyme
- 3 COVID vaccine

1. Hydrogel is a permanent chip, like a soft contact lens which connects humans to the Internet "cloud." The chip, smaller than the size of a grain of rice, provides feedback to a database on changes in body chemistry and other biometrics including human emotions. Hydrogel, a DARPA invention, is microscopic robot nanotechnology, having the ability to disassemble or reassemble. In addition, the hydrogel has the ability to connect with Artificial Intelligence, the cloud and other smart devices. In addition to monitoring your emotions hydrogel will know if you've taken an illegal drugs or are about to do something irrational. Just think of the 2002 movie "Minority Report" and pre-crime.

2. Luciferase is an enzyme that produces a light, aka The "*Light Bearer*". Luciferase is injected under the skin, but cannot be seen by the human eye. However, when scanned with a smart phone app Luciferase will give a digital code to confirm you've been vaccinated. Luciferase will hold your patent vaccination record and validates your unique ID. At this point you become a patented product owned by the corporation that owns that patent.

3. The COVID-19 vaccine is modified RNA that over-writes your DNA. Pfizer and Moderna led the charge with a modified RNA vaccine, containing the Corona virus code. After hydrogel, Luciferase and the synthetic RNA are injected simultaneously the body begins to transcribe the synthetic RNA, making more of the virus. The idea is the body will then begin to make anti-bodies, improving T-cell response.

The problem using this process is an effect known as Transfection. Transfection is how genetically modified organisms or GMO's are created. Of course GMO fruits and vegetables are not as healthy as organic. The same holds true for GMO humans or human-hybrids. Transfection will change the human DNA and its genome. Once the Transfection become stable it will replicate the genome. **This is when the synthetic genome becomes a permanent part of the genome.** The ensuing effects result in genetic mutation or what is known as "Gene Drive Technology" or "Gene Extinction Technology,," the ability to eliminate one species at a time. If it can be done to an insect, it can be done to a human.

Being fully vaccinated is painted by the MSM (Mainstream Media) as a civic duty, a moral responsibility and 'the right thing to do.' Putting aside the outrageous propaganda involved in that claim for a minute, let's focus for now on what that even means. What is fully vaccinated? 1 shot? 2 shots? 3 shots (2 shots plus a booster)? 4 shots? The answer not only depends where you are but when you are. Many Israelis protested when their government required a 4th COVID vax shot for them to keep their vaccine passport (called a Green Pass) valid. Perhaps it finally dawned on them that being fully vaccinated was going to be something whose definition their government, not they, decided. But it's not just about location, it's also about what point in time you're occupying. Fully vaccinated means different things at different points in the scamdemic. That's the whole point: the term fully vaccinated is designed to mean whatever the New World Order (NWO) controllers want it to mean at any given time. All of this will be accessible on one's cell phone through a QR code pass!

Just in time for holiday travel, the TSA and Delta Airlines are teaming up with a travel tech company called Pangiam to introduce facial recognition technology at the Hartsfield-Jackson International Airport in Atlanta, Georgia. TSA PreCheck passengers with the Fly Delta app won't have to pull out a passport or driver's license when the pass through security or board the plane.

They'll just present their "digital ID," which includes their Delta SkyMiles member number, their passport number, and their Known Traveler number issued by TSA PreCheck. That digital ID will be attached to a scan of their faces...

In an article published on October 22nd 2021, the Jeff Bezos-owned MSM '*Washington Post*' tries to explain away the very basis for why it was telling people to get vaxxed in the first place. It's one of countless contradictions in the official COVID narrative which, if it were a high-school student, would have scored an F for internal coherency and logic. **One of the dominant and prevailing mantras of the COVID plandemic has been "vaccination is the only way out of this" and "the vaccine is the path back to normalcy."** Truth be told, gene-modifying vaccines are the path to the New Normal, part of the WEF's Great Reset (a rebranding of the NWO) through introducing nanotechnology into **people's bodies.** The idea that COVID vaccines are the only way out relies on so many assumptions, such as that the virus exists, that Big Pharma vaccine manufacturers had a real specimen of it when they made the vaccine, that COVID is a new disease caused

by SARS-CoV-2 and many more. Remember, even Big Pharma companies have admitted that the vaccine was never designed to stop COVID transmission or stop serious COVID infection.

The *'Washington Post'* admits the definition of "fully vaccinated" is a moving target:

*"All of this boils down to, essentially, an ongoing attempt to define "fully vaccinated." Who is "fully vaccinated" against covid-19, and for how long? The honest answer is that the target is moving before our eyes. Until 2021, "fully vaccinated" was not a standard phrase, any more than "fully married" or "fully graduated from college." Typically a person is considered "vaccinated" or "unvaccinated." ... Early this year, as coronavirus vaccines began to become available to the public, the term was useful ... Ten months later, abundant new evidence has actually made it less clear whether our vaccine regimens should consist of one, two or three doses. Currently, the Centers for Disease Control and Prevention says people are fully vaccinated "2 weeks after their second dose" of Pfizer or Moderna, or "2 weeks after a single-dose vaccine" such as Johnson & Johnson. This definition is already obsolete; as of last month, the agency also recommends third doses of the Pfizer shot for high-risk groups after six months. Soon the recommendation is expected to extend to everyone over 40."*

Being a MSM rag, of course, it continues by trying to justify the unjustifiable, blaming those around the vaccinated person. Blaming the unvaccinated has become a significant COVID trend in the last few months:

"The answer is that [the vaccinated] can still die in the same way a person who is "fully vaxxed" still can. The degree to which any of us are protected by vaccination depends on more than simply how many shots we receive and how effectively our immune system responds. It also depends on those around us."

What I'd like to focus on, however, is not the MSM's constant blame of the unvaccinated, but rather its admission that you can never be fully vaccinated, which paves the way for an endless series of shots required to keep up your "immunity passport" or government-granted privileges. This enriches Big Pharma, provides more control to government (by giving them a way to shut out disobedient citizens from society if they fail to repeatedly comply) and provides the NWO controllers more access to people's bloodstreams, and thus more opportunity to inject and nanotech an alien-like lifeforms into people's bodies.

The CDC's Definition of Trickery: Changing the Meaning of Vaccination and Vaccine. Rochelle Walensky, director of the CDC was recently reported to have said that her agency "may need to update" its definition of fully vaccinated against COVID. However, it's important to note that the CDC has already been engaging in definition trickery and manipulation throughout the scamdemic. One example is that it insists on defining those who have taken the COVID vaccine as "unvaccinated" if it is only 14 days since they took it. This way, if those people get injured or die from complications or adverse

effects, they are counted in official statistics as unvaccinated injuries or unvaccinated deaths. The CDC, NIAID, and NIH keep moving the goal posts for your enslavement!

Another example is the CDC's role in changing the definition of the word 'vaccine' itself. Sharyl Attkisson reports on this discovery which was publicized by Congressman Thomas Massie:

*"The Centers for Disease Control (CDC) has carefully "evolved" the definition of vaccination to meet the declining ability of some of today's "vaccines," including the Covid-19 vaccines. The original definition, prior to 2015, stated that vaccines "prevent...disease." Starting in 2015, the definition was altered to say that vaccines "produce immunity," without necessarily preventing disease. After the Covid-19 vaccines were introduced, and it was discovered they do not necessarily "prevent disease" or "provide immunity," CDC altered the definition of vaccines again to say that they merely "produce protection."*

The discovery was publicized by Rep. Thomas Massie (R-Kentucky) who tweeted the definitions.

Check out @CDCgov's evolving definition of "vaccination." They've been busy at the Ministry of Truth:

Another commentator noted the following in an article entitled *The CDC Just Made an Orwellian Change to the Definition of 'Vaccine' and 'Vaccination'*:

So in a week, a vaccine went from being something that "produces immunity to a specific disease" to something that merely "stimulates the body's immune response against diseases," and a vaccination no longer "produces immunity" to a disease, just "protection" from a disease.

Does anyone else find this disturbing? Why did the CDC suddenly redefine "vaccine" and "vaccination" to make them sound similar to your basic non-steroidal anti-inflammatory drug or a prescription drug you have to keep taking regularly?"

All this word-obfuscation and chicanery comes on top of the fact that the so-called COVID 'vaccine' is not a vaccine anyway, by standard and long-held legal and medical definitions, because it does not contain an attenuated or weakened virus.

### **The WHO Also Changed the Definitions of Herd Immunity and Pandemic**

There is also further background to all this on the international level: the Gates-funded WHO (World Health Organization) has changed its definitions of 'herd immunity' and 'pandemic.'

As this article explains, the WHO changed the definition of herd immunity to mention vaccination and to avoid any mention of naturally acquired immunity gained from prior infection. The WHO definition used to be:

*"Herd immunity is the indirect protection from an infectious disease that happens when a population is immune either through vaccination or immunity developed through previous infection."*

Now it is:

*"'Herd immunity', also known as 'population immunity', is a concept used for vaccination, in which a population can be protected from a certain virus if a threshold of vaccination is reached. Herd immunity is achieved by protecting people from a virus, not by exposing them to it. Vaccines train our immune systems to create proteins that fight disease, known as 'antibodies', just as would happen when we are exposed to a disease but – crucially – vaccines work without making us sick. Vaccinated people are protected from getting the disease in question and passing it on, breaking any chains of transmission."*

It's a war on human perception. The WHO article's author, Peter Gysel, writes:

*"This perversion of science implies that the only way to achieve herd immunity is via vaccination, which is blatantly untrue. The startling implications for society, however, are*

*that by putting out this false information, they're attempting to change our perception of what's true and not true, leaving people believing that they must artificially manipulate their immune systems as the only way to stay safe from infectious disease."*

Then we learned this week that the Congress changed the legislation. More evidence of a falsified pandemic came to light at the beginning of November, 2021?

It is unknown if the legal definition of "biological product" was amended by Congress to remove "except any chemically synthesized polypeptide" to permit foreseen chemically synthesized COVID-19 mRNA substances to be labeled as "vaccines."

However, the fact that this significant change was made on page 595 of a 716-page law which is normally used for appropriating U.S. federal funding suggests the possibility of an attempt at being not too conspicuous.

The aforementioned change to U.S. federal law is also relevant to discussions in previous articles which described updates to U.S. federal laws made soon before COVID-19 suggesting the possibility that COVID-19 may be some sort of falsified pandemic exercise.

Specifically, the timing of the change – before COVID in December of 2019 – along with the apparent hurried status – burying the change on page 595 of a U.S. federal funding act – again suggests the possibility that COVID-19 may be a falsified pandemic exercise which U.S. federal government public health officials and politicians were preparing for by attempting to legally protect themselves with several significant changes to laws, strategies, and plans governing and regulating public health "emerging threats," pandemics, vaccines, or related subjects.

Again, we see one coincidence after another in this charade of a faked scandemic and a novel rogue virus! It has all the hallmarks of Nazi Nationalist Fascism of the 1930s, in addition to transforming humans into cyborg slaves!
