Covid Vax Truth Florida Breaks Out Into The Open—Unprecedented Disclosures About *Big Pharma* & Big Govt Criminal Collusion

The Republican Party in eight counties throughout the State of Florida have now issued official statements declaring the COVID-19 ‘vaccines’ a deliberately manufactured “bioweapon”.

The most recent Florida County GOP to issue an official statement is the Brevard County Republican Executive Committee (BREC). The following assertions were made by the BREC in their letter to Gov. Ron DeSantis.

The committee explained that recent “strong and credible evidence” revealed both COVID-19 and the vaccine “are biological and technological weapons.” “Whereas Pfizer’s clinical data revealed 1.223 deaths, 42,000 adverse cases, 158,000 adverse incidents, and approximately 1,000 side effects. Whereas an enormous number of humans have died and or have been permanently disabled. Whereas strong and credible evidence exists that COVID-19 mRNA shots alter human DNA,” the letter continued. “Whereas government agencies, media and tech companies, and other corporations, have committed enormous fraud by claiming COVID-19 injections are safe and effective.”

“On behalf of the preservation of the human race, the Brevard County Republican Party calls upon Governor DeSantis and the state legislature to prohibit the sale and distribution of COVID-19 injections and all related injections in the state of Florida, and for the state Attorney General to immediately seize all COVID-19 injections and mRNA injections in the state of Florida and have a forensic analysis conducted to determine if the ingredients pose a danger to recipients,” the letter added.

On top of this rapidly evolving development and unparalleled governmental initiative to hold *Big Pharma* and *Big Govt* accountable for so much intentional 'vaccine'-induced death and injury, Florida Governor Ron DeSantis has formally requested a grand jury to determine exactly what laws were broken by all the mRNA vaccine-producing pharmaceutical companies who have manufactured the Covid 'vaccine' bioweapons.

Alt Media truth-telling

Make no mistake, it was only because of the relentless COVID-19 'vaccine' truth-telling by a vast segment of the *Alt Media* that this tremendous success has occurred. In point of fact, the following graph further demonstrates the extraordinary power and influence that the *Alt Media* had on the termination of the Covid *Super Vaccination Agenda* worldwide. Had the highest level perpetrators behind the weaponized Covid injections gotten their way, the graph below would have shown those 2021 vaccination rates throughout the entire decade; instead, the *Alt Media* effectively killed the trajectory at the beginning of 2023.

The State of Florida and all Americans owe this initial victory to the results of the relentless work and exposure by former Pfizer technical expert in interpreting patents Karen Kingston, and the implications that the Federal Government, Big Pharma, Health Agencies, and the Military have colluded to kill the citizens of the U.S.A. Karen Kingston even provided on her sub-stack, a six-page procedures for counties to bring actions before the attention of elected sheriffs of their respective counties. The Brevard County of Florida will be a land-mark case to show and prove that the alleged vaccines are nano-particle “bio-weapons”. They are not vaccines but rather mechanisms or machines designed to harm, injure, and murder. Below is an on the record statement by Karen Kingston in her attempt to bring Pfizer and Moderna to accountability and justice.

June 23, 2023: In 2020, the formerly secretive multi-trillion dollar nanotechnology/synthetic biology industry exploded around the globe with the introduction of COVID-19 injections. The nanotechnology industry is an unregulated, ‘dual-use’ industry with military weapons’ and consumer applications that has been causing mild-to-severe cognitive dysfunctions, infertility, cardiovascular diseases, cancers, and death for decades.

The COVID-19 injections are engineered modRNA nanoparticle injections that are classified as electromagnetic devices. Don’t believe me? Then just read the Pfizer DoD contract and FDA guidance that clearly defines the mRNA nanoparticles as electromagnetic devices. Or read Dr. Ana Mihalcea’s SubStack articles where you can ‘see for yourself’ the nanotechnology in the blood of the vaccinated and unvaccinated.

Lying about the Use of Nanotechnology Has Made the Medical Freedom Movement Powerless in their Efforts to Prosecute Pfizer and other Criminals.

This case has huge implications and as Dr. David L. Martin reminds us, proof of fraud vitiates contract law. Simply proving fraud in one case literally invalidates the justification and use of the totality of an alleged vaccine which is really a bioweapon.
