

Implanted “Vaccine Package” ID: Germany’s Parliament Has Ratified GAVI’s Digital “Agenda ID2020”

By Peter Koenig
Global Research, February 03, 2021

This is Alarming News: In Germany the Parliament (Bundestag) ratified on 29 January 2021, the implementation of **Agenda ID2020**.

This is a centralized general electronic data collection of every citizen to which every government agency, police – and possibly also the private sector would have access.

It covers all that is known about an individual citizen, now up to 200 points of information and possibly more as time goes on, from your bank account to your shopping habits, health records (vaccination records, of course), your political inclinations, and probably even your dating habits and other entries into your private sphere.

Agenda ID2020 was designed by Bill Gates as part of the “vaccination package”. It is backed by the Rockefeller Foundation, Accenture, the WEF and GAVI (Global Alliance for Vaccines and Immunization, now simply called the Vaccine Alliance), also a Gates creation (2001), with HQ in Geneva, Switzerland.

GAVI is located next door to the WHO. GAVI is called a public private partnership,

The public part being WHO, plus a number of developing countries;
The private partners are, of course a series of pharmaceutical companies, i. e., Johnson & Johnson, GlaxoSmithKline, Merck & Co. ... and the Bill and Melinda Gates Foundation.

The German extra-governmental Corona Commission, consisting of hundreds of medical doctors, virologists, immunologists, university professors – and lawyers, *including Dr. Reiner Füllmich, co-founder of the Commission, has special concerns that the current Corona-Vaccines (Pfizer, Moderna), may include nano-particles that could be accessible to electro-magnetic radiation, i. e. 5G and the subsequent 6G.*

This is precisely what was foreseen in the design of Agenda ID2020, in which Bill Gates and GAVI had a major role, and in which case the ID2020 might be vaccine-implanted and be remote-accessible by EM-gearred computers, robots or algorithms (see, in German [“Wirkungsweise und Gefahren der aktuellen Corona-Impfungen in Deutschland mittels mit Nanopartikeln umhüllter mRNA-Impfstoffe – Corona Ausschuss Germany 37th Conference”](#) (31 January 2021)

The adoption of Agenda ID2020 still has to be approved by the German Federal Council, but there is little chance the Council will reject it.

Agenda 2020 in Switzerland

Similarly, in Switzerland, Agenda ID2020 – an all-electronic ID – linking everything to everything of each individual citizen will come to a popular vote on 7 March 2021.

And that’s not all; the Swiss government wants to outsource management of Agenda ID 2020 to the private sector — unbelievable!!! – You imagine a bank or insurance company dealing (and selling) your data!!!! — Just imagine what will happen with your personal information – unthinkable.

In the longer-run – who knows how long – as foreseen by Bill Gates, the properties for an electronic ID – i. e., an electromagnetic field (EMF) – will be implanted in your body, either along with a vaccine – maybe it’s already happening with the covid jabs, or separately in the form of injectable nano-chips. [think both!]

Early trials were carried out mid-last year in school classes of remote villages in Bangladesh.

With the complacent Swiss being what they are, it is very possible if not likely that the government’s proposal will be accepted on 7 March. Then what?

Is this the beginning of adopting the all-digitized Agenda ID2020 throughout Europe, the world?

Or – maybe other EU countries have already quietly and secretly – no questions asked – envisaged inserting the Agenda ID2020 in their Constitution.

These men will run the world shortly, Prince Charles of Wales [Mr. 666, the Antichrist], Klaus Schwab, WEF, and William Gates of Microsoft renown. The Prince is so excited in this picture of his agenda to enslave the world into “Sustainable Development”. Note: Most or nearly all of these organizations are headquartered in Switzerland!

For more details of Agenda ID 2020 – see below.

[The Coronavirus COVID-19 Pandemic: The Real Danger is “Agenda ID2020”](#)

By [Peter Koenig](#), April 26, 2020

Once every citizen on the planet – according to Bill Gates – about 7 billion-plus will be **ID-chipped**, the control of a small globalist elite will be close to total.

With an electromagnetic field and with 5G / 6G EM-waves allowing inputs and access of data in your body – the control of each individual is almost complete. The “almost” refers to the planned access to your brainwaves.

This is supposed to be happening through a [Brain Computer Interface \(BCI\)](#), called *Neurolink* (<https://neuralink.com/>) – developed by **Elon Musk**. [\(see video\)](#)

It presents an interface of electronic waves with the human brain which, by then, will have been converted into an electromagnetic field (EMF), so that it can receive digital commands that will influence our behavior, or can be turned off – RIP – as may be its most convenient for the Global Cabal.

Let's not let this happen.

//

I was sent the post below the dash ----- lines by a friend who belongs to several face book groups. This example below is from someone who is rather naïve about life, the subtlety of the adversary, his minions, and naïve to be so misguided on how far we have come in twenty years since the human Genome Project had been finished. The fact that the person who wrote this is a Pre-Trib believer and does not begin to fully understand the complexity of what the six important verses of Revelation reveals about the "Mark" of the Beast. [The six verses are found on page 9 below] I have not changed anything the writer says, including spelling as it appeared in what was sent to my email.

I have a daughter-in-law who is a RN and if I did not know better, I would have said my daughter-in-law wrote it, despite being a RN, it reveals her ignorance of genetics, DNA, vaccines, nano-particles, nano-medicine, biochemistry, bioelectrical medicine, etc. My daughter-in-law sounds exactly like this person who wrote it. An example would be that your DNA has been barcoded.

My daughter-in-law argues with me that your DNA cannot be changed even after being presented with the evidence. Talk about cognitive dissonance! My daughter-in-law is not familiar with what is called CRISPR from Osaka University researcher Yoshizumi Ishino and his colleagues in 1987. She is oblivious to 5G and Electroporation, the process of injecting DNA nanoparticles directly into the human body through electrical energy. The same for synthetic 3rd strand DNA. There is a lot more so stay with me here. What you don't know can hurt you!

Things we KNOW about the mark of the beast (Rev 13, Rev 14):

1. It is tied in to the beast and associated with his worship
2. It is brought in by the false prophet
3. It is an actual mark ON the right hand or forehead (check the interlinear, it is ON)
4. The technology for it almost certainly exists today
5. It comes into place during the beast's rule, see #1-2
6. The beast doesn't gain world-wide rule until after his death and apparent resurrection, at which point he commits the abomination of desolation (also see Matt 24)

7. The abomination of desolation is mid-tribulation; the beast's rule is the final 1260 days of the 70th week of Daniel
8. No believer today needs to worry about it, as it comes into being at least 3.5 years after the rapture of the church
9. Any unbeliever today doesn't need to worry about it either; if they believe enough in the mark they can certainly believe in Jesus, see #5
10. It's not our job to focus on the mark. Our eyes are supposed to be fixed on Jesus
11. An angel from the Lord will encircle the globe warning everyone not to take the mark of the beast (see! Told you it wasn't your job). This, no one will take it without knowing what it means. An angel from the Lord, guys.
12. The Antichrist will deceive even the very elect *if it were possible*, which it is NOT, and thus, no elect (saved) will be deceived. NO elect will take the mark.

It would seem no one will be forced to take it, or will take it unknowingly, but will WANT to take it. They will have been warned by an angel NOT to but will do so anyways. Kinda like how they respond to God's warning wrath:

And men were scorched with great heat, and blasphemed the name of God, which hath power over these plagues: and they repented not to give him glory. (Rev 16:9)

Please focus on Jesus and don't let the enemy focus you on his mark. It's a distraction. Share God's love and grace ♥☐

Yup the technology is likely here. Yup the man who will become the antichrist is likely alive and an adult already. Those things would have to be ready for the rapture to be near ❖❖ Do we need to worry about it? NO!!!! Eyes on CHRIST! You may have OTHER reasons to be concerned about microchipping yourself or vaccinations, but those are a matter of conscience between yourself and God. The god of this world is currently Satan so we must be wise as serpents but innocent as doves. Do your research, but remember that Christ has overcome. We do not need to fear or obsess over everything down here. ❖❖

My first reaction was one of shock and disbelief in the thoughts expressed in this theological statement. There is nothing to hint of the question, "What don't we know about the "Mark" of the Beast and why it is the more important issue?" What is KNOWN is really dwarfed by the unknowns, real or alluded to in the six verses of Revelation that address the "Mark". The 12 points the writer make are gross simplifications and more importantly imply there is much more here not being considered. I would agree that keeping our eyes on Jesus is essential; however, keeping our eyes on Jesus Christ is part of our need to keep learning as part of living for Christ.

"Wherefore, my beloved, as ye have always obeyed, not as in my presence only, but now much more in my absence, work out your own salvation with

fear and trembling." -(Philippians 2:12). Paul followed his profound description of the self-humbling of Christ with a practical application to the situation in the Philippian church. The apostle was just as practical as he was profound. Furthermore, he did not divorce learning from living. The "wherefore" in verse 12 seems to be a return to the exhortation in 1:27-30 to emulate Christ's example in conduct. It sounds as if Paul was saying, *"Because you have the example of Christ's humility to imitate, the example of His exaltation to encourage you, you need to obey Him and continue steadfastly in your faith."* The example of Christ served as a much stronger incentive to good works than Paul's own physical presence with them.

The Apostle Paul carefully informed the Philippians that they were responsible before God for their own salvation. They could not lean upon him, so his absence should not make a difference in whether or not they were faithful to God. Paul, of course, did not tell the Philippians they should work for their salvation. A person cannot "work out" what he does not have. Nowhere in Scripture is the paradox of divine sovereignty and human responsibility more clearly shown than here. "Work out" contains the idea of carrying out to an ultimate conclusion. In this process, which obviously is a reference to the work of sanctification, the attitude must be one of serious caution.

The naivety of the writer's premise is to ignore learning about how this nano-technology by which the vaccine serves as a "delivery" system (Pfizer's words, not mine) will "gift" you with what is called a 'Spiked' protein that will engulf your vaccine and transform the human body into a trans-human beast. Part 3 of the **"Covid is A Bioweapon"** series explains that human DNA can be modified by several methods. Today, our **DNA can be "barcoded" like a can of Campbell's baked beans.** The QuantumDot/Hydrogel ID2020 has a Luciferase - "Luciferase is a generic term for the class of oxidative enzymes that produce bioluminescence, and is usually distinguished from a photoprotein." This is the very system for which the government of Germany is considering mandating of its entire national population. In this article, I wanted you to focus you on what Germany is presently doing and what will soon come to the U.S.A. Peter Koenig writes for the Canadian web site Global Research. Keep in mind, the once elusive "Mark" of the Beast is here right now! You need to be thinking about how you will deal with it now!

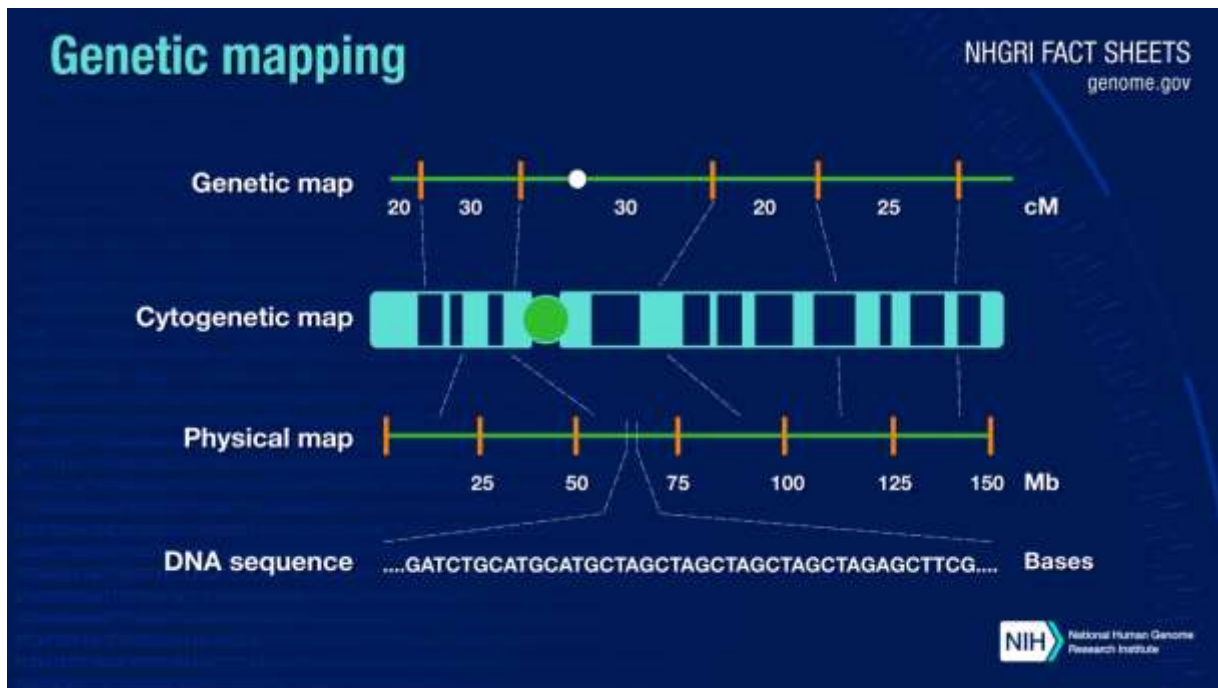

The last three chapters of my eBook: **"666/999: 5G, 666, and the UPC Barcode"** deal specifically with Bill Gates Vaccine Package ID2020.

One of the most comprehensive genome mapping projects in the world is the Human Genome Project (HGP), which began in 1990 and reached completion in 2003. The international project, which was coordinated by the National Institute of Health and the U.S. Department of Energy, was undertaken with the aim of sequencing the human genome and identifying the genes that are contained in it.

Among the main goals of the Human Genome Project (HGP) was to develop new, better and cheaper tools to identify new genes and to understand their function.

One of these tools is genetic mapping. Genetic mapping - also called linkage mapping - can offer firm evidence that a disease transmitted from parent to child is linked to one or more genes. Mapping also provides clues about which chromosome contains the gene and precisely where the gene lies on that chromosome.

Genetic maps have been used successfully to find the gene responsible for relatively rare, single-gene inherited disorders such as cystic fibrosis and Duchenne muscular dystrophy. Genetic maps are also useful in guiding scientists to the many genes that are believed to play a role in the development of more common disorders such as asthma, heart disease, diabetes, cancer, and psychiatric conditions.

How do researchers create a genetic map?

To produce a genetic map, researchers collect blood or tissue samples from members of families in which a certain disease or trait is prevalent. Using various laboratory techniques, the scientists isolate DNA from these samples and examine it for unique patterns that are seen only in family members who have the disease or trait. These characteristic patterns in the chemical bases that make up DNA are referred to as markers.

DNA markers don't, by themselves, identify the gene responsible for the disease or trait; but they can tell researchers roughly where the gene is on the chromosome.

This is why: when eggs or sperm develop, the paired chromosomes that make up a person's genome exchange stretches of DNA. Think of it as a shuffling process, called recombination. The single chromosome in a reproductive cell contains some stretches of DNA inherited from the person's mother and some from his or her father.

If a particular gene is close to a DNA marker, the gene and marker will likely stay together during the recombination process, and they will likely be passed on together from parent to child. If each family member with a particular disease or trait also inherits a particular DNA marker, it is very likely that the gene responsible for the disease lies near that marker.

The more DNA markers there are on a genetic map, the more likely it is that at least one marker will be located close to a disease gene-and the easier it will be for researchers to zero in on that gene. One of the first major achievements of the HGP was to develop dense maps of markers spaced evenly across the entire human genome.

To produce a genetic map, researchers collect blood or tissue samples from members of families in which a certain disease or trait is prevalent. Using various laboratory techniques, the scientists isolate DNA from these samples and examine it for unique patterns that are seen only in family members who have the disease or trait. These characteristic patterns in the chemical bases that make up DNA are referred to as markers.

DNA markers don't, by themselves, identify the gene responsible for the disease or trait; but they can tell researchers roughly where the gene is on the chromosome.

This is why: when eggs or sperm develop, the paired chromosomes that make up a person's genome exchange stretches of DNA. Think of it as a shuffling process, called recombination. The single chromosome in a reproductive cell contains some stretches of DNA inherited from the person's mother and some from his or her father.

If a particular gene is close to a DNA marker, the gene and marker will likely stay together during the recombination process, and they will likely be passed on together from parent to child. If each family member with a particular disease or trait also inherits a particular DNA marker, it is very likely that the gene responsible for the disease lies near that marker.

The more DNA markers there are on a genetic map, the more likely it is that at least one marker will be located close to a disease gene-and the easier it will be for researchers to zero in on that gene. One of the first major achievements of the HGP was to develop dense maps of markers spaced evenly across the entire human genome.

What are genetic markers?

Markers themselves usually consist of DNA that does not contain a gene. But because markers can help a researcher locate a disease-causing gene, they are extremely valuable for tracking inheritance of traits through generations of a family.

The development of easy-to-use genetic maps, coupled with the HGP's successful sequencing of the entire human genome, has greatly advanced genetics research. The improved quality of genetic data has reduced the time required to identify a gene from a period of years to, in many cases, a matter of months or even weeks

For those who insist the KJV states that because the Mark will be “IN” the hand or in the forehead is more accurate than the NKJV which reads “ON” the hand are missing the central point by splitting hairs over the nuances of the Greek text, not to mention the motives of the translation team who created the NKJV translation. The Luciferase in the Gates ID2020 is an oxidative enzyme that produces bioluminescence, meaning it glows “**neon purple**” from within the epidermis of the hand. You could say it is both “IN” and “ON” the hand.

As to the writer’s third point about checking the Interlinear, the Interlinear is not the proof of all to settle this issue. An Interlinear does not give you ALL the meanings of a word. You have to compare how the specific word is used in different settings or periods of time. i.e., classical Greek era, Koine Greek era, the cultural use of the word and how that may have changed over centuries such as from 5th century BC to 20th century AD. An Interlinear Bible does not show the nuances that shade the meaning of a word. An Interlinear Bible is the next best thing to a formal course in the Hebrew and Greek languages but it can’t replace the academic training. The most widely known Interlinear is that by J.P. Green. We know of many words of our day that have experienced dynamic change in meaning through cultural changes where the meaning has flipped 180-degrees, such as the word “gay”. Need I say more?

Translation and interpretation of meanings or understanding is not a simple process. This is sort of like asking God to spell it out for you in the details. The six passages of Revelation that deal with the “Mark” of the Beast are like “Abstracts” found in scientific papers, where the author[s] provide a brief overview of the deeper topic of their research work being presented for publishing. An “Abstract” is a brief overview. The primary passages on the “Mark” of the Beast are found in **Revelation 13:17; 14:11; 15:2; 16:2; 19:20; and 20:4**; and they are essentially the equivalent of an “Abstract” work or presentation by Jesus Christ Himself.

Collectively, these six passages are an invitation to us to figure out and understand for ourselves what occurs or its meaning. Prophecy is simply history being told in advance of the days which we now find ourselves today in 2021. When I took Advanced Greek in seminary, our text was the Greek text of the book of Revelation. Our class assignments required us to translate the Greek text into what we believed to be the most understandable meaning for our day. It is a lot harder than you might think.

I am telling you that vaccines being offered to the public are without any question whatsoever and are the early phase of the “Mark” of the Beast! Even in virology today, vaccines are not the same as originally designed or functioned as. Pfizer revealed their dirty secret when they used the term “delivery” system in their procedure instruction page. What they do not tell you is what “gift” is being delivered to you?

The vaccine is part and parcel of the “delivery” system precisely as Pfizer has revealed in their documentation for their experimental multi-\$15-billion dollar profit venture. Celeste Bishop Solum, formerly a manager for DHS/FEMA has pointed out that there is no going back once a person has been “injected” with the mRNA vaccine, which

technically is not a vaccine. As Pfizer states in their literature, it does modify and changes one's DNA. Your DNA is a double-stranded Helix that turns 10X times for each strand segment of the human Genome. By using the mRNA strand as a “messenger” means of inserting what is contained in the “injection” it become a “third” strand of the person’s DNA. All of the pharmaceutical companies state that they use fetal tissue from live aborted fetuses. This has moral and ethical issues in itself, but my point is exactly what Celeste Bishop Solum states, you cannot go back to a previous point. It’s not like doing a re-set on your computer. **Once injected, you become a trans-human being**. This is extremely important in considering whether you choose to take any vaccine. With Pfizer and Moderna having the lead of administering their vaccines to the public, we cannot rule out what Johnson & Johnson or any other of Big Pharma companies may include in the way of nanoparticles. What you can’t see can do you harm!

The U.S. military and public health agencies have confirmed that individuals previously vaccinated for the flu and other reasons increases the risk of harm when taking the Pfizer and Moderna vaccine. So if you have taken a yearly flu shot you have increased the risk of suffering side effects or even death. Each time a person receives a vaccine, their immune system is weakened. God never intended the human body to be abused with vaccines in order to create antibodies or immunity other than by nature processes.

Those who tell you the vaccine is not the Mark of the Beast have been deceived. Dr. Robert Jeffress of Dallas First Baptist Church has foolishly said, the vaccines are a “gift from God”. He knows nothing about the process, what it does, and how it changes a person’s “humanness” or the chemical-biological process. Jesus said that even the elect could be deceived. ***“For there shall arise false Christs, and false prophets, and shall shew great signs and wonders; insomuch that, if it were possible, they shall deceive the very elect.”*** -(Matthew 24:24).

Two paragraphs up I mentioned the “messenger” mRNA inserts of what are described as a “third strand of DNA”. I can’t get into the details here, and access to this kind of information is closely guarded, but research on creating a “third strand of DNA” began back in 2003, almost twenty years ago. I do know that scientists at universities in Germany and elsewhere have been able to construct such a synthetic “third strand of DNA”. In 2005, ‘*Chemistry World*’ announced that research being done had been successful. Publicity of this and other advances have not been made public for reasons I will have share in a future article. But I can say they have a “dark” element that is not for your benefit.

The DNA double helix can under certain conditions accommodate a third strand in its major groove. Researchers in the UK have now presented a complete set of four variant nucleotides that makes it possible to use this phenomenon in gene regulation and mutagenesis.

Natural DNA will only form a triplex if the targeted strand is rich in purines – guanine (G) and adenine (A) - which in addition to the bonds of the Watson-Crick base pairing can

form two further hydrogen bonds, and the 'third strand' oligonucleotide has the matching sequence of pyrimidines - cytosine (C) and thymine (T). Any Cs or Ts in the target strand of the duplex will only bind very weakly, as they contribute just one hydrogen bond. Moreover, the recognition of G requires the C in the probe strand to be protonated, such that the triplex formation will only work at low pH. I know I lost you at this point so I will not go any further.

To overcome all these problems, the groups at the University of Southampton have developed modified building blocks, and have now completed a set of four new nucleotides, each of which will bind to one DNA nucleotide from the major groove of the double helix.

The critical point that is so important to understand is that once a vaccine is injected into the human genome, the viral package/payload by its very definition begins to replicate and change the DNA in every cell of the body. It is the nature of a virus to reproduce or replicate itself. Thus, the Pfizer and Moderna vaccine is really a "gene therapy" system that modifies and by definition changes the God-given DNA of that person into a man-made upgrade. As that payload package enters the body, it replicates and changes every gene in your body. You are transformed into a "trans-human" beast.

COMPARISON OF COVID VACCINES			
CREATOR	Moderna	Pfizer	AstraZeneca
VACCINE TYPE	mRNA	mRNA	Virus vector
EFFECTIVENESS	94.50%	95%	62%
UK PRICE (per dose, estimated)	£24-28	£14.80	£2.23
ORDERS	7million (for March)	40million	100million
STORAGE	Fridge 2-8°C	Freezer -70°C	Fridge 2-8°C

I have been interested in learning what the types of side effects people have been experiencing after each of the 2-shot program. Despite the fact that coronavirus vaccines are at least **50X** times more deadly than flu shots, the CDC sees absolutely nothing wrong with their continued use. In fact, the agency issued a statement claiming there is *“no evidence to suggest a safety problem with these vaccines.”* According to previous CDC studies, this passive surveillance system, the Vaccine Adverse Event Reporting System, (VAERS) captures fewer than 1 percent of vaccine injuries. To make matters worse, these serious injuries are reported weeks, and many times, months after the vaccine injury occurred. The data coming in to the CDC is not current. The CDC uses this passive surveillance system to minimize the relevance of vaccine injury, and to promote vaccine injury as a rare occurrence. In this way, the CDC is manipulating the data to make vaccine injury seem minuscule compared to complications from a naturally-acquired infection. The CDC has been a corrupt organization since its creation in the 1940s. It is not a “Government” agency, but a private corporation!

These vaccine injuries in the VAERS database are not adequately addressed or extrapolated to make up for widespread data reporting errors that are a result of relying on passive vaccine injury surveillance systems. Many vaccine injuries in the elderly population are omitted from the database due to rigged hospital coding systems; likewise, self-reporting of vaccine injury is often discouraged or goes unheard. Many doctors do not look for vaccine injury or report it because they do not believe it is real. The CDC is now telling the public that fever, chills, profuse sweating, aches and fatigue after vaccination is the result of the individual’s immune system. This is now the alibi to cover up the severity of vaccine injury: Victims are told that their own immune system caused the vaccine injury.

As I noted in my 3-part series on **“Covid is a Bioweapon”**, I provided the proof from researchers in four different countries: China, France, India, and Australia, sources that confirmed that 18 fragments of HIV-1 and SARS-2 were found in the virus itself, thus it was confirmed to be a Bioweapon. The fragments of HIV-1 and SARS-2 constituted 80% of the payload in the standard HIV genome. The obvious intent is to debilitate but not necessarily to kill the person infected. We have historical evidence to the affect that the U.S. military developed viruses adapting to their needs and desired objective in the 1940s and even earlier. The Coronavirus later renamed Covid-19 was produced in a class BSL-4 military lab.

On the next page is a color map of the Human Genome Project (HGP), which began in 1990 and reached completion in 2003. The Human Genome Project took 10 years and cost \$3 billion USD (U.S. Dollars), while the Celera genome sequencing project took two years and cost just \$300 million USD. Both projects concluded in 2000 or 2001, depending on what is considered a "complete" human genome sequencing.

The illustration on the next page does not do it justice. Years ago I had a laminated 16x20 copy of the Human Genome. Note it is arranged in correspondence to the 22 chromosomes of a human volunteer at the time of completion of the HGP. It also shows the gender chromosomes of X and Y. It is scientific proof we were created as **“male”**

THE HUMAN GENOME MAP 1990

Results of efforts to map and sequence the human genome, either published or in press by July 31, 1990, are depicted in the bars surrounding the ideogram of each of the 24 chromosomes. Each type of bar is labeled at the top of the wall chart. The data are filtered so colored intervals according to logarithmic or linear scale, as shown in the legend. Further information, including a description of the allocation and estimation procedures, appears on the back and in the accompanying article (J. C. Stephens et al.) in the October 12, 1990 issue of Science.

The G-values density bar indicates progress towards determining the complete DNA sequence of each chromosome band. An estimate of progress for each band was obtained by dividing the length of known DNA sequence currently allocated to the band by the length

that was estimated to exist in that band.

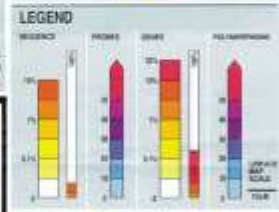

The P-values distribution bar reflects the extent of scientific research activity for each band by showing the number of probes obtained pieces of DNA, including clones and PCR primers allocated to the band.

The G-values density bar shows progress towards identifying all genes in each band. As with sequence, an estimate of progress was calculated by dividing the number of known genes allocated to the band by the estimated total number of genes in the band.

The Locus Map, shown as the hairy right border of the polyphenon bar, depicts relative order and distance

in centromeres for loci selected from published maps to give an illustrative map with a resolution averaging 10 to 20 cM. The P-values bar indicates the number of known polymorphic loci allocated to the cytogenetic intervals formed by the linkage map. Lines connect the bar to the ideogram for those loci with a precise cytogenetic map location.

Representative genes are identified by their alpha-numeric symbols to the left of the ideogram. Vertical bars show the band (or bands) of low passively mapped loci known to contain each gene. Names and disease associations are in the table on the back. These genes were included because of their location in bands of high information content or because of their interest to the broad scientific community or the general public.

and “**female**” just as the Bible states in Genesis 1:27. High School and college science teachers are being fired from their teaching position because it is “politically incorrect” to use such terms as “male” and “female”. I am shocked at the reports of college science teachers being fired for their teaching scientific facts to their students who want to believe there are many genders. This lunacy confirms the world is imploding and devolving into chaos! Humanity has lost its moral and ethical as well as cultural compass.

In actuality, the Project ended up taking less time (~13 years rather than ~15 years) and requiring less funding - ~\$2.7 billion. But the latter number represents the total U.S. funding for a wide range of scientific activities under the HGP's umbrella beyond human genome sequencing, including technology development, physical and genetic mapping, model organism genome mapping and sequencing, bioethics research, and program management.

Back to the “Mark” and the vaccines. All indications from the knowledge pool of what we know indicate the complete process has to be a two-phase process. The body has to be prepped, or prepared for the procedure to complete ID2020 system, which will track over 200 specific tasks and monitoring the trans-human beast as noted in the opening page of this article on the German plan to adopt the Gates’ ID2020.

There is a second phase of this operating system. Once people have been vaccinated with the “delivery” system, as described by Pfizer’s own documents, a payload for “gene therapy”, the so-called Covid-19 vaccine, their body will undergo replication of their DNA with a payload that modifies from their existing 2-strand DNA to work in tandem needed for the new Cyborg upgrade to their planned ultimate 3-strand DNA, they will have been readied for the rest of the procedure and the complete package of what Bill Gates as labeled it the QuantumDot / Hydrogel ID2020.

As Celeste Bishop Solum shared with David Icke, there will be side effects, and problems will not necessarily be the same for all receiving the vaccine. Side effects become a “cost of doing business”, meaning that collateral health issues are expected. Reports are that side effects are **50X** greater than for receiving the yearly flu shot. Studies show that less than 2% of all side effects get reported so side effects up to including death will take down millions world-wide. Robert Kennedy Jr., attorney for the Children’s Health Defense newsletter reported: **501 Deaths + 10,748 Other Injuries Reported Following COVID Vaccine, Latest CDC Data Show as of February 5th, 2021.**

Dr. Judy Mikovits, a molecular biologist and virologist states that up to 55 million in the U.S. will die due to the Spiked enzyme that will overload their immune system. She bases that figure on past known studies and research of the number of people having been identified to be carrying the antibodies created for earlier pathogens of the SARS-2CoV-19. Today, it is still disputed as to whether the SARS-2CoV-19 ever existed. No virus in the past 60 years has ever been confirmed by microbiologists or virologists by using what is considered the “Gold” standard of Koch Postulates. This simply means

that the CDC, NIAID, NIH, WHO, all lied and based their opinion on assumptions that those viruses existed. **Honest science is not based on assumptions, only by evidence.** They had ZERO proof and panicked the public needlessly to enrich their benefactors. They have made \$\$\$billions on deception and the ignorance of the public.

Koch's Postulates

- 1890 Robert Koch Established List of Criteria to Judge Whether or Not a Given Microbe Was Responsible for a Given Disease
 - The organism must be present in every case of the disease
 - The organism must be isolated from the diseased host and grown in pure culture
 - The specific disease must be reproduced when the pure culture is inoculated into a healthy susceptible host
 - The organism must be recovered from the experimentally infected host

So, what is the connection between the Covid-19 vaccine of Pfizer, Moderna, and others coming to market and the Gates' QuantumDot / Hydrogel ID2020, which the German Bundestag is considering for its population? They are obviously different or appear to be so.

Looking at the agenda of the World Economic Forum, the Great Reset, there appears to be a two-fold agenda with the Scamdemic: The first is Genocide or depopulation, and the second is the creation of a breed of trans-humans beasts, which the world elite plan on keeping around to do their required unskilled labor and service-related tasks, to be their slaves.

This fits with the Georgia Guidestones declaration to maintain the world population at 500,000,000. These would be controlled cyborgs or trans-human beasts to service in those areas where robotics cannot be implemented. Klaus Schwab's WEF 4th Industrial Revolution is all about merging man and machine, another way of saying getting rid of

human labor. Machines do not ask for raises, health benefits, or coffee breaks, paid time off for holidays, vacations, taking a child to their dentist appointment, etc.

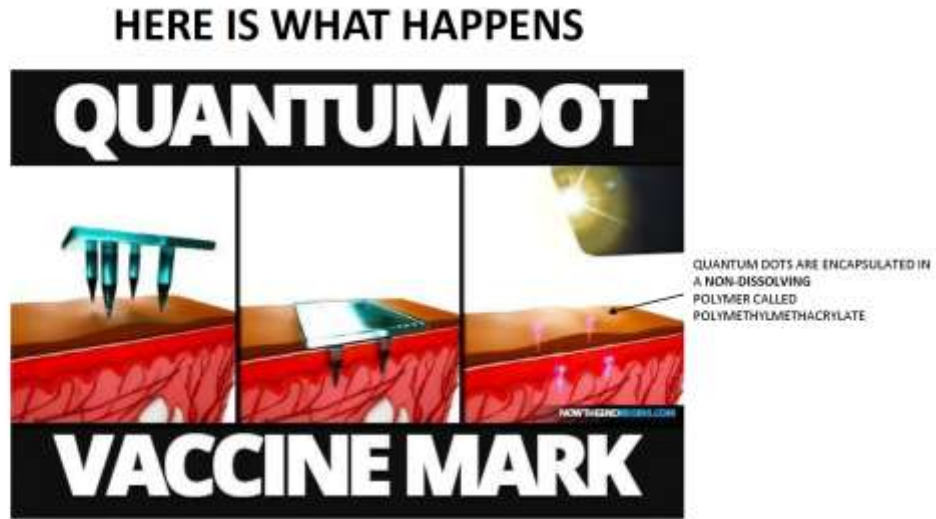

The evidence at this point lies somewhere within the 250-levels of the WEF web site. I am in an ongoing search for the rest of the answers. As Celeste Bishop Solum stated to David Icke, the WEF write their manuals in elusive language. An example of this is their manual on eradication of diseased animals.

Below follows some illustrations used to describe the larger topic of the Bill & Melinda Gates plan to Microchip the entire world with their QuantumDot/Hydrogel ID2020. I devoted three chapters, 12, 13, and 14 in my eBook series: **“666/999: 5G, 666, and the UPC Barcode”** where I deal specifically with Bill Gates Vaccine Package ID2020. The WEF web site discusses the **“Barcode of Life”** quite extensively and confirms their agenda to catalog, ID, any and every thing with a numerical bar code.

Celeste Bishop Solum in her interview with David Icke shows how everything will be digitally bar-coded, easily scanned for identification purposes, whatever that might be or mean. In the mindset of the global elite, you and all of your family will be tracked by our personal DNA barcode.

This is the ultimate of Binary ID, through a numerical system of 0's and 1's. (Continued on page 18)

EXCERPT FROM
PATENT

5 In some embodiments, the NIR emitting inorganic dye is semiconducting nanocrystals of copper or silver, which may be encapsulated in a poly methyl methacrylate (PMMA) microparticle for embedding in the microneedles.

Here is the summary!

- Microneedle vaccine does not fully dissolve-tips remain
- Microneedle vaccine delivers quantum dots that glow under IR
- Microneedle delivers semiconductors, dyes, active agents such as DNA modifiers, and other metallic components like silver
- Microneedle vaccine creates a biometric identification through patterns, spacing, and fluorescent wavelengths
- Microneedle vaccine uploads to Cloud to validate medical records
- Microneedle vaccine will serve as a mark for buying and selling through patent application ending in 060606
- Bill Gates and ID2020 and House Bill 6666 all promote this agenda

When I left off on page 16, I was discussing Celeste Bishop Solum's remarks about the phraseology and language of the WEF and DHS/FEMA documents. In the WEF manual on 'eradication of diseased animals', the manual refers to humans as "animals". This is an important point, and animals can be removed by three ways: gassing, stabbing (i.e., needle), and guillotine. The essential point of mentioning this is that the guillotine was made famous for executing humans by the French during their revolution. This information is found in the WEF manual "Stamping Out" dealing with Disease Eradication of Animals. Humans are listed as "animals" in this WEF manual.

"And I saw thrones, and they sat upon them, and judgment was given unto them: and I saw the souls of them that were beheaded for the witness of Jesus, and for the word of God" –(Revelation 20:4)

Believers have long been warned that decapitation is the preferred method of execution in the end times. Beheading is in the Word of God and the Word of God is the truth. And so, death by decapitation has been in the news. At least a decade ago there were reports that FEMA had 19,000 guillotines in a Georgia warehouse. The news media has been steadily promoting the idea of the once-unthinkable: the return of the guillotine and death by decapitation. I have read that this method of execution was the most preferred for organ harvesting.

The link between the Covid-19 test/vaccine and Bill Gates' QuantumDot/Hydrogel ID2020 is not obvious at the first glance, but in my analysis, it will be the application of 5G and 6G EM technologies that unifies the connection. There have been numerous reports, including that of Celeste Bishop Solum, confirming that a nano-particle in the form of "a magnetic beacon" is being inserted in the deepest recess of the nasal cavity just beneath the blood-brain barrier at the point when people were encouraged to be tested for Covid-19. Since Covid-19 has never been proven to be a virus through the Koch Postulates, it made no sense to be tested, unless they had a "gift" to leave behind in a person's brain region attained through the nasal cavity. The nose-swab was a six-inch-long Q-tip, and it came in a plastic tube in some form of liquid solution.

We are looking at Artificial Intelligence (AI) in all of this and the race for market share in the 5G rollout last year to spread the network of 5G satellites and ground antenna went on throughout the world-wide lockdown, and had the U.S. government deeming the telecoms' employees as "essential" workers during the pandemic of 2020. As of this moment I am writing this, February 5, 2021, there are 19,349 5G networks in fully operational with another 200+ 5G networks in testing mode. When I checked a month ago there were just over 18,000 5G networks in operation. Since I first began monitoring the roll out of 5G world-wide, approximately 1,000 5G networks go live each month.

Human life as we have been made in the image of God is not really conducive for the world of the electrical radiation which first occurred in 1996 with the marketing of the popular cell phone. Unfortunately at the Giga-Hertz levels of 5G and 6G, we are destined for extinction-level history. By that I am saying, we either accept the upgrade

of the Gates' QuantumDot/Hydrogel ID2020, or be eradicated by Lucifer's signs and wonders! Lucifer is the Prince of this world. ***"Wherein in time past ye walked according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience:"*** -(Ephesians 2:2). Several months ago, I awoke in the dark hours of morning with this passage implanted in a dream. It speaks to the fact that all wireless communications are in the air! I keep plastic clipboards with ruled pads at my bedside for recording what I consider to be words from the Lord! I rarely ever reveal the content of my dreams even to my wife.

I noted above that this is a two-phase plan on page 14. There is an aspect of part 1 that is foreboding for the elderly. During the Nazi WWII regime, old people, along with the infirm and feeble, were exterminated first. Old people carry memories of real truth and memories and so must be murdered in order for the state to continue its lies and propaganda effectively.

The UK Vaccine Minister stated days ago: All Over Age of 50 Must Be Vaccinated Before Lockdown Lift Begins! 95% of those deaths blamed on Coiv-19 were the elderly. Regardless of comorbidity issues, this simple fact is the primary reason for anyone over the age of 60 should NOT voluntarily submit to any test or injection. From April of 2020, I stated that the Coronavirus/Covid-19 was a culling [killing] of the elderly. Related to this we have witnessed an almost stampede-like rush to have people be tested for the virus. My question was, why? An American biochemist, Kary Mullis, in recognition of his invention of the polymerase chain reaction (PCR) technique, he shared the 1993 Nobel Prize in Chemistry with Michael Smith and was awarded the Japan Prize in the same year; he died in 2019 and before his death he said the PCR was unable to determine any viruses and it was not invented for that purpose. Shortly before his death, Kary Mullis called Dr. Anthony Fauci a liar and a fraud. The video has been widely aired on the Internet.

All that said, the evidence suggests a dishonest attempt by the powers and voices of public propaganda to get everyone, especially the elderly to be tested. The likely reason now seems to be for the insertion of the nano-particle or "magnetic beacon" placed in the upper area of the nasal cavity.

It's not about the vaccine but it is all about the transformation of the human body to a cyborg and the Global Reset and WEF 4th Industrial Revolution!

Over the past five years I have written over 70 articles on 5G technology, Covid, and have done close to 20,000 hours of research, and at least 1,000 hours on bioelectrical medicine. The Corona virus and its vaccine is part and parcel of the Biblical "Mark" of the Beast! This has been a binary biological weapon; Voluntary for the present but not for too much longer! Thousands of magnetic nano-particles the size of an atom are inside each of us awaiting the EM frequencies activation signal that accompanies these 'gifts' from mad scientists and the men who fund their research. There is no turning back, but do not get tested, and do not take any vaccine offered. Stand your ground

and do not allow yourself to be intimidated by anyone. Your eternal destination depends upon your choices.

The Rothschild's have a second wave in store for the world, and that came from Jacob Rothschild himself just a few months ago. "If the people do not comply, undoubtedly a second wave will come their way, and with that food shortage, and complete government domination in order to usher in all of our proposed changes." The chart of those changes and goals are found below.

NEW WORLD ORDER
UN Agenda 21/2030 Mission Goals

- One World Government
- One World cashless Currency
- One World Central Bank
- One World Military
- The end of national sovereignty
- The end of ALL privately owned property
- The end of the family unit
- Depopulation, control of population growth and population density
- Mandatory multiple vaccines
- Universal basic income (austerity)
- Microchipped society for purchasing, travel, tracking and controlling
- Implementation of a world Social Credit System (like China has)
- Trillions of appliances hooked into the 5G monitoring system (Internet of Things)
- Government raised children
- Government owned and controlled schools, Colleges, Universities
- The end of private transportation, owning cars, etc.
- All businesses owned by government/corporations
- The restriction of nonessential air travel
- Human beings concentrated into human settlement zones, cities
- The end of irrigation
- The end of private farms and grazing livestock
- The end of single family homes
- Restricted land use that serves human needs
- The ban of natural non synthetic drugs and naturopathic medicine

In all of what I have shared, there is a ray of positive hope to the end to all of this; and anyone who has read the back of the Book knows, God wins in the end. We have abundant evidence to know He is not going to leave us or forsake us. We are close to our “Exodus” event. Moses knew God would not let him and the 1.5 million Israelites drown at Yom Suph on the Egyptian side of the Red Sea!

The Exodus [deliverance before judgment] of the Israelites is the prototype for Bible-believing Christians of our **“Harpazo”** or Rapture in the English vernacular! I have done an extensive series of articles on the Typology Biblical theme encoded within the very Bible on “Deliverance Before Judgment!” Nearly twenty years ago I was writing and publishing a copyrighted church worship bulletin insert series titled “Biblical Forensics” and in the series I covered 300+ examples of the theme “Deliverance Before Judgment”. These “diamonds & nuggets” can be found from Genesis to Revelation!

Our faith is not in vain and our greatest promise for these stressful days is: ***“Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth.”*** –(Revelation 3:10). My next Blessed Hope #51 will address this passage in greater detail.

Blessings,

Pastor Bob, EvanTeachr@aol.com
