

Covid Vaxxes Installed Marburg Payloads in Victims – Triggered by 5G What Did He Say?

Listen up folks! In the last few months scattered among the news dominated by Covid-19, I have been hearing about rumors of an outbreak of Marburg virus or Ebola coming this fall. In hearing that it seems it was in 2014 when there was a major outbreak of Ebola. What I am about to share with you in this article should be taken to heart if you want to escape this predicted virus that would get everyone's attention.

In 2015, Bill Gates predicted an epidemic would kill millions. Here's what he says now.

No, *"The Simpsons" did not predict the coronavirus outbreak. Neither did author Dean Koontz, nor "Jeopardy!"*

But Bill Gates came pretty close.

The billionaire Microsoft mastermind had an I-told-you-so moment Monday on *"The Ellen DeGeneres Show,"* reflecting on a harrowing prediction he made during a 2015 TED Talk titled *"The next outbreak? We're not ready."*

"If anything kills over 10 million people in the next few decades, it's most likely to be a highly infectious virus rather than a war — not missiles but microbes," he said at the time. *"We have invested a huge amount in nuclear deterrents, but we've actually invested very little in a system to stop an epidemic. We're not ready for the next epidemic."*

While video-chatting with Gates from home, DeGeneres reminded the tech mogul of his prescient lecture now that the world is struggling to contain a public health crisis similar to what he outlined.

"You predicted this would happen, and so I'm sure you're very prepared because you knew this was going to happen," the host said. *"Do you feel like you prepared for this?"*

"Well, the goal of the 2015 talk ... was so that the government would do the work to be ready for the next epidemic," Gates replied. *"That would have meant that we would have had diagnostics very quickly, drugs very quickly, even a vaccine — all of those things — dramatically faster than what we're going through here."*

The philanthropist also noted that he and his wife, Melinda Gates, have made efforts in the last five years to prepare for an epidemic through their foundation, which recently donated \$100 million to fight the spread of COVID-19.

“We had epidemics like the Ebola epidemic in Africa that should have gotten us ready,” he said. “Then we had Zika. But a respiratory pandemic that’s very widespread, really, we haven’t seen anything like this for 100 years.”

Citing the responses of other countries such as China and South Korea, Gates seemed optimistic about the possibility of flattening the curve with strict quarantine practices and an efficient testing system.

But he doesn’t foresee life going *“back to normal until we have that phenomenal vaccine or therapeutics that is over 95% effective.”* Echoing the projections of health care professionals and world leaders, Gates estimated such a solution won’t arrive for another 18 months.

“I feel very confident that this time, we won’t ignore the potential for the next epidemic—that this is such a dramatic thing that has reshaped our lives and the economy and created so many tragedies, we will get ready,” he said. “I also think we have great examples of heroics where people are stepping up or communities are coming together to solve these problems.”

“And so although it’s very bad news and almost a worst-case scenario, the ingenuity of people, the compassion of people ... hopefully this will renew our sense that we’re in this together in our communities, in our country and in the world.”

A deadly cousin of Ebola, Marburg can kill nine out of ten people it infects, and international travel has taken it from Africa to Europe twice in the past 40 years. Will increasing globalization make this virus more likely to erupt around the world?

In August 1967, a cluster of patients in Marburg and Frankfurt, in Germany, and in Belgrade (then Yugoslavia, now Serbia), began showing symptoms of an infectious disease – a high fever, chills, muscle ache, and vomiting. The patients worsened over the next few days, until they began bleeding from every orifice in their body, including needle puncture wounds. In total 31 people died.

Three months after this outbreak, virologists in Marburg had discovered the first filovirus, a cousin of the equally-deadly Ebola virus. The virus had been carried by infected African green monkeys from Uganda.

Avoiding handling or eating bush meat is also critical to avoid any potential infection that could spread from animals.

After this first sighting, the virus was then mostly seen in African countries, in bat-infested caves or mines. About 40 years later, however, the virus re-emerged in Europe through a traveler returning to the Netherlands from a trip to Uganda where she had been visiting caves.

The largest known outbreak of Marburg virus, in Angola in 2004, infected over 250 people and had a 90 percent fatality rate.

Marburg virus can persist in the eyes and testes of people who have recovered, and in pregnant women it can persist in the placenta and amniotic fluid as well as breast milk. This can be extremely dangerous. In early 2021, there were reports that Ebola, closely related to Marburg, could lay dormant in people only to emerge many months after an epidemic had ended, triggering another outbreak.

DISEASE: MARBURG

Where is it circulating? Most outbreaks have been in Africa, with cases reported in Angola, the Democratic Republic of the Congo, Kenya, South Africa, Uganda and Zimbabwe. However, there have been outbreaks in Europe and the USA.

Pandemic threat: As Marburg virus can spread from human to human through contact of bodily fluids, much like Ebola. As outbreaks in Europe and the US have already shown, increasing globalization and international travel mean that the risk for global spread is high, especially when the incubation period could be up to three weeks. This could be disastrous given its high death rate.

How is it spread? The Egyptian rousette fruit bats often harbor the virus. African green monkeys have in the past spread the virus to people in Uganda, but pigs can also become infected and can be a source of infection. Marburg virus is spread through direct contact (through broken skin or mucous membranes) with the blood, secretions, organs or other bodily fluids of infected people, and also through any materials such as bedding, that have been contaminated with the infected fluids. As a result, health workers have often become infected by treating patients with Marburg virus. Burial ceremonies in which people have direct contact with the body can also drive the spread of the virus.

Case fatality rate: Marburg is one of the deadliest viruses we know of, killing as many as 88% people it infects.

Incubation period: The incubation varies from as short as two days to up to 21 days, though some studies have suggested the virus can incubate for as long as 26 days.

Symptoms: Marburg virus begins with a fever, severe headache and muscle pains. This is often followed by watery diarrhea, stomach pain, and nausea and vomiting, accompanied by extreme exhaustion and lethargy. Many people go on to develop severe viral hemorrhagic fever, and in severe cases have blood in their vomit and faces, and may bleed from their nose, gums and vagina. The onslaught of the virus is so extreme that most people die 8-9 days after infection, often because of extreme loss of blood.

Diagnosis: Marburg can be difficult to distinguish clinically from other diseases, such as malaria, typhoid fever, meningitis and other viral hemorrhagic fevers. Diagnosis can be

confirmed using techniques that detect the presence of immune response to the virus, such as antibody-capture enzyme-linked immunosorbent assay (ELISA), or the presence of virus in people presenting with symptoms, via antigen-capture detection tests, reverse transcriptase polymerase chain reaction (RT-PCR) assay, or virus isolation by cell culture. However, often none of these diagnostic tools are available in the countries with highest risk of Marburg outbreaks. In addition to having the diagnostic tests available, countries need to have laboratories that can ensure maximum biological containment conditions due to the fact that the samples are an extreme biohazard risk.

Are there vaccines or treatments, or ongoing R&D?

There is currently no specific therapeutics for Marburg virus. However, supportive care including rehydration with oral or intravenous fluids can improve survival. This can mean maintaining oxygen status and blood pressure, replacing lost blood and clotting factors, and treating any complicating infections. Potential treatments, including blood products, immune therapies and drug therapies, are currently being assessed. Marburg virus vaccine candidates are being investigated, and in 2019, for example, IAVI (the International AIDS Vaccine Initiative) began researching a recombinant vesicular stomatitis virus (VSV) vector Marburg virus vaccine candidate, called rVSVΔG-MARV-GP. Another vaccine candidate MVA-BN Filo containing both Marburg and Ebola virus antigens could potentially protect against both hemorrhagic viruses. It is currently in phase 3 trials, and seems to trigger good immunity against the Ebola Zaire strain but it has not yet been tested against Marburg virus.

HOW COULD WE LOWER THE RISK OF IT BECOMING A PANDEMIC?

Since Marburg virus can spread between people, extremely stringent infection control measures are needed to avoid people being in any contact with each other, to ensure any laboratory samples are disposed of carefully, and to ensure safe burial procedures. Avoiding handling or eating bush meat is also critical to avoid any potential infection that could spread from animals. International travel is a major risk factor for the spread of Marburg virus beyond Africa and rapid diagnostics to ensure that cases are picked up before people carry the virus to other countries will be important.

For more on Marburg virus disease, here is WHO's fact sheet: <https://www.who.int/news-room/fact-sheets/detail/marburg-virus-disease>

[A Possible Marburg-RiVax Final Solution](#)

In my research I came across this article by Kieran Morrissey that should be of great interest, and it correlates with much of the research that I have been doing for three years. I have well over 68,000 documents on this alleged pandemic. Most important has been the revelations of an attorney in the insurance industry, Todd Callender. He appeared on Mike Adams, the Health Ranger's web page at Brighteon on 4/25/2022. The link to that interview is directly below and when I first viewed the segment, I experienced a huge relief about what the world has been forced to deal with since late 2019 and early 2020. IT IS A MUST VIEW AND AFTER ONE LISTENS TO IT, I BELIEVE YOU WILL UNDERSTAND WHY!

Covid Vaxxes Installed Marburg Payloads in Victims - Triggered by 5G - Todd Callender, JD

<https://www.naturalnews.com/2022-04-25-claim-covid-vaccines-installed-marburg-payloads-in-human-victims-5g-broadcast-signal.html>

Once you have read this article in its totality you will begin to understand that we are the victims of a “Man-Made” bio-engineered weapon created as a multiple-part genocidal eugenics program to “Depopulate” the planet! The above interview with attorney Todd Callender ties together what I have been saying for more than five years would involve Wireless Energy EMF to activate biochemistry of the human body that would result in diminished life-span and death from comorbidity health issues.

September 22, 2021

While it would now appear from Mainstream Media’s propaganda and the relaxation of some of the draconian restrictions on freedom, that the war on the COVID pandemic war is being won, however I believe that this is a ruse, reinforcement part of a larger PSYOPS to complete an ongoing Eugenics agenda. Features of the COVID-19 pandemic are very worrying as follows: –

COVID-19 disease has now been overwhelmingly proven to be just another treatable cold / Influenza which was medically mis-managed by denying early treatment which caused premature deaths in very elderly and people with underlying health conditions, this gave the misconception that there were excess deaths occurring and created mass hysteria.

Mainstream Media coverage of a possible Wuhan Lab virus leak heightened the fear that a perceived sudden increase in deaths could have been the result of a deadly bioweapon escape and caused further panic to develop a vaccine to stop the spread of COVID, it was stated that this would take at least 10 years further raising public fears.

The use of the now debunked real-time PCR test to diagnose COVID produced large numbers of positive results, dubbed “cases” without any symptoms, i.e. asymptomatic infections which is known not to exist, and this further terrorized the population. We now know that at least 97% of those positive results were false due the excessive cycle thresholds used in testing labs. Real-time PCR was developed as a research tool and is considered not suitable for diagnostic purposes.

New COVID mRNA and Viral Vector gene therapy technology “vaccine” injections were hastily developed, These injections were administered in a frenzy, in a mass global unlicensed experiment, without informed consent, causing many adverse reactions including symptoms similar to hemorrhagic fever i.e. bleeding and clots, The clots and bleeding have been found to be caused by the spike proteins generated by the body in response to the injections, and this is compounded by an undisclosed ingredient, Graphene Oxide, in the injections which is also known to cause clots and bleeding.

The first and second doses of the COVID injections have now weakened the overall health of the population as can be seen by the current situation in hospitals which are well above capacity during the summer months with patients suffering adverse reactions from the injections; many patients have symptoms similar to hemorrhagic fever.

The planned COVID booster injections claimed to be necessary due to waning immunity of the initial vaccinations, plus proposed injection of children, will undoubtedly cause more severe hemorrhagic fever like symptoms and also be more widespread.

During my research into the false claims of excess deaths caused by COVID-19 and the pseudo-sciences which supports it, I have stumbled over some very worrying developments which I will summarize due to the urgency I feel to highlight them to the public as follows:

Bill Gates [GAVI](#) published an article on 22-Apr-2021 titled “*The next pandemic: Marburg?*” There have been numerous Mainstream Media articles highlighting an upcoming threat Marburg and referencing the WHO in recent months.

[Marburg Virus](#) is a relatively rare hemorrhagic fever which was first described in 1967, there have only been a total of 376 related deaths, and only 16 deaths since 2005.

Primer-design developed a one-step Real-Time PCR test [genesig®](#) in 2018 for Marburg hemorrhagic fever. Why would they develop a test in 2018 for an illness which has not had a major outbreak since 2005?

Soligenix, are currently rushing to trial a ricin-rich vaccine [RiVax®](#) for Marburg hemorrhagic fever. RiVax has Fast Track designation for the prevention of ricin intoxication by the US FDA. Approval of ricin toxin vaccine will utilize the FDA [Animal Rule](#) to eliminate the phase 1, 2 & 3 trials. Why such a rush now, to trial a vaccine for which there has only been a total of 376 deaths since 1967 and only 16 deaths since 2005? The main component of the Rivax vaccine is Ricin is a lectin and a highly potent toxin produced in the seeds of the castor oil plant.

Soligenix [shareholders](#) include Black Rock Fund Advisors, Goldman Sachs & Co. LLC, etc.

[Ricin](#) is a lectin and a highly potent toxin produced in the seeds of the castor oil plant. Ricin is very toxic if inhaled, injected, or ingested. It acts as a toxin by inhibiting protein synthesis. It prevents cells from assembling various amino acids into proteins according to the messages it receives from messenger RNA in a process conducted by the cell's ribosome (the protein-making machinery) – that is, the most basic level of cell metabolism, essential to all living cells and thus to life itself.

A paper titled [Asymptomatic Infection of Marburg Virus](#) was published by the NIH in January 2021.

The fabrication of the COVID-19 pandemic and its apparent failure leads me to believe that there is a second phase or final solution at hand to catch the public while they are off-guard. Hemorrhagic fever symptoms can be easily increased and made more visible by forcing COVID booster injections on vulnerable, COVID injection injured patients, who are now prisoners in hospitals and nursing homes, plus injecting children. The hemorrhagic fever symptoms would appear as a huge Marburg pandemic and could be confirmed by the new Marburg PCR test causing mass hysteria like the world has never seen. RiVax could be quickly deployed using the existing COVID injection infrastructure and the public would be easily convinced to take it using PSYCOPS on Mainstream Media. The toxic ricin in the RiVax would kill billions of people very quickly and effectively before they realized what was happening as the deaths would be attributed to Marburg hemorrhagic fever based on the symptoms. People who refused the RiVax could be labelled as asymptomatic spreaders and placed in camps like they are doing in Australia claimed to be a COVID protection measure.

If you read my previous two COVID articles you will have seen that I began this journey in early 2020 as a vaccine hesitant person. As a result of my recent study of Virology and Immunology in an attempt to understand the SARS-CoV-2 virus, my previously held beliefs in the theories being peddled by official science and medicine has been completely upended.

I now understand that Louis Pasteur fabricated his [Germ Theory of Disease](#) in the 1850's stating that invisible microorganisms known as pathogens or "germs" lead to disease. Pastures ideas on Viruses were concocted upon similar theories going back to Ancient Greece and Rome, more like a developing religion or cult rather than real scientific discovery.

I now believe that the theory developed by [Antoine Bechamp](#) (Pasteur bitter rival) [Terrain Theory](#) which states that microorganisms (germs) feed upon the poisonous material which they find in the sick organism and prepare it for excretion, much more similar to the natural immune response which we know to be true. However, Terrain Theory has been actively blocked due to a bias for the Germ Theory by Big Pharma due to its immense profitability.

The practice of Variolation dated back to the 16th century in China and is the precursor of the first [Vaccine](#) invented for smallpox in 1796 by English physician Edward Jenner. I have discovered that the widespread use of vaccines has killed far more people than they have saved.

VIRUSES DO NOT EXIST

They are an invention by the pharmaceutical industry, which uses Louis Pasteur's flawed Germ Theory, financed by Rockefeller, to sell medicines and vaccines to the people for monetary gain and population control.

It's the reason why Antoine Béchamp, his rival and creator of the Terrain Theory, was suppressed.

**IF GERM THEORY WERE CORRECT,
NO HUMAN BEING WOULD BE ALIVE TODAY.**

"Viruses" are protein-based exosomes within our RNA. They are everywhere.
Life is made up of these things.

So-called diseases are purely symptoms of underlying toxicity within the cells. And so-called viruses are manufactured within our own bodies as a protection mechanism against extreme toxicity.

Our body creates a natural detoxification process called flu, cold or pneumonia to rid itself of deadly toxins.

Contagion is a myth.
The only way you can catch a "virus" is if it were to be injected via a vaccine.

Pasteur famously recanted his own theory on his death bed stating: "I was wrong. The microbe (germ) is nothing, the terrain (milieu) is everything."

A bookkeeper, [John D. Rockefeller](#) who made his fortune in the oil business was the first philanthropist and his foundations pioneered developments in medical research. [The Rockefeller Institute for Medical Research](#) founded in 1901, was in the forefront of research in virology and principal investigator Louis O. Kunkel had researched the biology and pathology of the mosaic virus diseases. Beginning in 1930, the Rockefeller Foundation provided financial support to the Kaiser Wilhelm Institute of Anthropology, Human Heredity, and Eugenics, which later inspired and conducted eugenics experiments in the Third Reich. [The Rockefeller empire](#) in tandem with Chase Manhattan Bank (now JP Morgan Chase), owns over half of the pharmaceutical interests in the United States today. No alternative approach to the Germ Theory in virology, immunology or medicine including the increasing use of vaccines, has been possible due to the indoctrination of the sciences by the most powerful and wealthy industry in the world. Banking and Big Pharma who now control Mainstream Media and all medical and scientific institutions.

Please do your own research, quickly, use your critical thinking and let us unite to stop this madness. I believe the Marburg-RiVax final solution could be deployed suddenly while we are relaxing after the worst of COVID and distracted by the now daily revelations on Mainstream Media regarding the Government fraud and public health mismanagement which created the COVID emergency.

Not only could hemorrhagic fever symptoms be caused by the currently deployed COVID gene therapy injections but health departments are frantically pushing the HPV vaccine for girls and boys, this vaccine and even the MMR vaccine could be deliberately contaminated with nanoparticles of Graphene Oxide or other adjuncts which cause clots and bleeds, the hemorrhagic fever symptoms of Marburg.

We must stop all vaccinations immediately and destroy all stockpiles of vaccines and the pharmaceutical manufacturing plants which make the.

In following “little Billy Gates, for more than two decades, I have had a chance to see that his philanthropy is not out of pure kindness or goodness of his heart but merely masks a disingenuous effort to reduce the world’s population, most famously noted in a 2010 TED Talk presentation Billy gave. The so-called Fact Checkers rebut that but interestingly Google has the rebuttal at the top of search lists as a misunderstanding of the Microsoft founder. They fail to mention that William Gates Senior was president of Washington State Planned Parenthood as well as his mother Mary Maxwell Gates being a the first woman to serve on the board of directors of Washington’s ‘First Interstate Bank.’ She was also instrumental in helping her son’s company ‘Microsoft’ strike a deal with IBM) which was a defining moment in Microsoft’s history.

Suffice it to say, little Billy Gates “masks” his words and public statements so as to nuance his speech whereby people can draw different meanings from what he says.

FDA DOCUMENTS: mRNA VACCINE CAUSES DEATH + 21 SIDE EFFECTS

AN INTERNAL FDA DOCUMENT REAVELED A SHOCKING REVILATION THAT THE FDA KNOWS ABOUT THE SERIOUS SIDE EFFECTS FROM THE mRNA COVID VACCINES -INCLUDING DEATH. YET WILL NOT PUBLICLY WARN US. CITIZENS, WHOM THEY ARE SUPPOSED TO PROTECT. ON PAGE 16 ARE LISTED THE 22 ADVERSE SIDE EFFECTS: (1)

- GUILLAIN-BARRÉ SYNDROME
- ACUTE DISSEMINATED ENCEPHALOMYELITIS
- TRANSVERSE MYELITIS
- ENCEPHALITIS/MYELITIS/ENCEPHALOMYELITIS/MENINGOENCEPHALITIS/MENINGITIS/ENCEPHALOPATHY
- CONVULSIONS/SEIZURES
- STROKE
- NARCOLEPSY & CATAPLEXY
- ANAPHYLAXIS
- ACUTE MYOCARDIAL INFARCTION
- MYOCARDITIS/PERICARDITIS
- AUTOIMMUNE DISEASE
- DEATHS
- PREGNANCY & BIRTH OUTCOMES
- OTHER ACUTE DEMYELINATING DISEASES
- NON-ANAPHYLACTIC ALLERGIC REACTION
- THROMBOCYTOPENIA
- DISSEMINATED INTRAVASCULAR COAGULATION
- VENOUS THROMBOEMBOLISM
- ARTHRITIS & ARTHRALGIA/JOINT PAIN
- KAWASAKI DISEASE
- MULTISYSTEM INFLAMMATORY SYNDROME IN CHILDREN
- VACCINE ENHANCED DISEASE

STEVE ANDERSON, "CBER PLANS FOR MONITORING COVID-19 VACCINE SAFETY AND EFFECTIVENESS", *CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC)*, 10.30.20, [HTTPS://WWW.CDC.GOV/VACCINES/ACIP/MEETINGS/DOWNLOADS/SLIDES-2020-10/COVID-ANDERSON.PDF](https://www.cdc.gov/vaccines/acip/meetings/downloads/slides-2020-10/COVID-ANDERSON.PDF)

What most people do not know is largely an unpublished scientific secret. Since 2007, the CRISPR (Clustered regularly interspaced short palindromic repeats) system was

first identified in archaea as an [adaptive defensive mechanism that confers resistance to foreign genetic elements](#). Later on, the CRISPR-Cas system was engineered into a versatile [gene-editing tool enabling manipulation](#) of protospacer adjacent motif (PAM) downstream DNA. Now, CRISPR-Cas9 has [facilitated robust genome editing in virtually any organism including: human cells](#), rat, mice, zebra fish, bacteria, fruit flies, yeast, nematode and etc.

In 1987, Japanese scientists discovered a set of 29nt repeats interspaced by five intervening 32nt non-repetitive sequences in the Escherichia coli genome. The body of interspaced repeat sequences from different bacterial and archaeal strains is quickly expanding, and the nomenclature of microbial genomic loci consisting of an interspaced repeat array was unified as CRISPR (Clustered regulatory interspaced short palindromic repeats) in 2002. Over the next few years, [CRISPR-Cas9 technology has been rapidly and widely adopted by the scientific community to target, edit, and modify the genomes of a vast array of cells and organisms while elucidating and refining the mechanism of CRISPR-Cas9 library genome editing](#). CRISPR-Cas9 has been [harnessed for applications in screening for drug targets, human gene therapy, and pathogen gene disruption](#).

Let me stop here and point out that the above two paragraphs are the most important thing you should understand about what we have been dealing with known as Covid-19. What did he just say?

The short of those two paragraphs is simply this: DNA can be changed, added to, cut from, by use of the CRISPR-Cas9 science.

CRISPR-Cas9 Hijacked for Genome Editing

In 2012, George Church, Jennifer Doudna, Emmanuelle Charpentier, and Feng Zhang discovered that by [designing guide RNA](#) to target a specific region in the genome, “[the CRISPR-Cas9 system can be used as a “cut-and-paste” tool](#)” to modify genomes. As a DNA-editing tool, CRISPR-Cas9 can remove or introduce new genes as well as silence or activate genes. CRISPR-Cas9 has been used to switch off genes that limit the production of lipids in microalgae, leading to increased lipid production and higher yields of biofuel. In the near future, CRISPR-Cas9 may also be used to cure genetic disorders such as sickle-cell anemia and cystic fibrosis. In fact, there is already a wide range of [CRISPR applications in disease](#), including cancer and infectious diseases.

On the next page is a photo of Jennifer Doudna receiving an award from Jacob Rothschild for her discovery work on CRISPR. Jacob Rothschild representing the Academy of Achievement presented Jennifer Doudna, PhD, Biochemistry an award for her work in the discovery of CRISPR. If you would like to learn more about Jennifer Doudna and her discovery, you can read: [The Code Breaker: Jennifer Doudna, Gene Editing, and the Future of the Human Race](#) by [Walter Isaacson](#).

Keep in mind, her financial benefactor is Jacob Rothschild, and also keep in mind that Covid-19 was patented in 2015 and 2017 See patents below page 14-19.

ATOMIC BOMBSHELL: ROTHSCHILDS PATENTED COVID-19 BIOMETRIC TESTS IN 2015. AND 2017.

Info (verbatim

copy):

A method is provided for acquiring and transmitting biometric data (e.g., vital signs) of a user, where the data is analyzed to determine whether the user is suffering from a viral infection, such as COVID-19. The method includes using a pulse oximeter to acquire at least pulse and blood oxygen saturation percentage, which is transmitted wirelessly to a smartphone. To ensure that the data is accurate, an accelerometer within the smartphone is used to measure movement of the smartphone and/or the user. Once accurate data is acquired, it is uploaded to the cloud (or host), where the data is used (alone or together with other vital signs) to determine whether the user is suffering from (or likely to suffer from) a viral infection, such as COVID-19. Depending on the specific requirements, the data, changes thereto, and/or the determination can be used to alert medical staff and take corresponding actions.

ONE KEY DETAIL STRUCK ME ON THESE REGISTRATIONS:
Both were filed and updated years ago, but they were SCHEDULED to be made public in September 2020.

Also Read: [WORLD BANK SAYS COVID-19 TEST KITS ARE BEING SOLD SINCE 2017](#)

This is sufficient evidence that they knew in 2015 what's going to happen in September 2020!

THIRD REGISTRATION: US, 2017 (ACTUALIZATION FROM 2015)

The screenshot shows the FPO website interface. At the top, there is a search bar with the text 'Enter your search here' and a 'Search' button. To the right of the search bar, there are links for 'Email' and 'Password'. Below the search bar, there is a navigation bar with 'SEARCH' and 'TOOLS & RESOURCES' links. The main content area displays the following information:

- Title:** System and Method for Using, Biometric, and Displaying Biometric Data
- United States Patent Application 20170229149** (highlighted with a red box)
- Filed Code:** A1
- Abstract:** A method is provided for processing and displaying biometric data of a user, either alone or together (in synchronization) with other data, such as video data of the user during a time that the biometric data was acquired. The method includes storing biometric data so that it is linked to an identifier and at least one time-stamp (e.g., a start time, a sample rate, etc.), and storing video data so that it is linked to the identifier and at least one time-stamp (e.g., a start time). By storing data in this fashion, biometric data can be displayed (either in real-time or delayed) in asynchronization with video data, and biometric data can be searched to identify at least one biometric event. Video corresponding to the biometric event can then be displayed, either alone or together with at least one biometric of the user during the biometric event.
- Inventors:** Rothschild, Richard A. (London, GB) (highlighted with a red box), Macklin, Dan (Stafford, GB), Slomkowski, Robin S. (Eugene, OR, US), Hamischfeger, Taska (Eugene, OR, US)
- Application Number:** 15/495485
- Publication Date:** 08/10/2017 (highlighted with a red box)
- Filing Date:** 04/24/2017 (highlighted with a red box)

At the bottom of the page, there is a 'SILVIEW.media' logo.

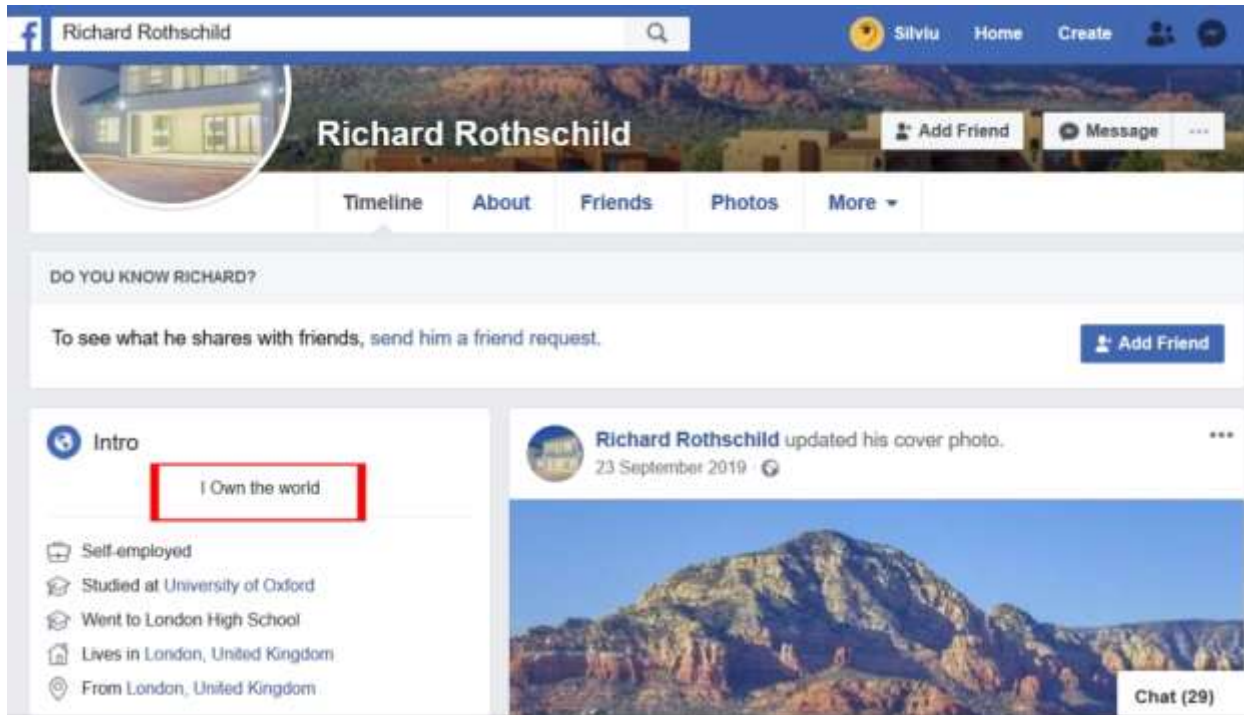

[Source](#)

Richard Rothschild appears on the patents shown in this article as both “inventor” and “assignee”. Definition of assignee. 1: a person to whom an assignment is made. 2: a person appointed to act for another. 3: a person to whom a right or property is legally transferred.

Before we present the patent technical details, let’s contemplate inventor’s Facebook for a moment or two:

For the purpose of this article, I have excluded the some thirty pages of the legal patent technical details and kept the Facebook page of Richard Rothschild. Note the words inside the **red box** at the top of the page. If we look at the

(Natural News) Believe it or not, the coronavirus strain that’s currently spreading throughout China and abroad is [a patented virus](#) that’s owned by an entity called The Pirbright Institute, which is partially funded [by the Bill and Melinda Gates Foundation](#).

The [patent page](#) for coronavirus explains that it “may be used as a vaccine for treating and/or preventing a disease, such as infectious bronchitis, in a subject,” suggesting that this is just [another weaponized viral strain](#) designed to sell more useless, deadly vaccines, while at the same time killing off a few thousand, or perhaps a few *million*, people.

A close look at the patent page also shows that the Pirbright Institute owns all sorts of other virus patents, including one for African swine fever virus, which is listed as a “vaccine.” It is thus no surprise that Bill Gates is a Pirbright Institute financial backer, seeing as how he’s one of the most aggressive, vaccine-pushing “philanthropists” on the planet.

The way this whole coronavirus situation is taking shape would seem to be exactly what Gates [once proposed](#) as a “solution” to the alleged problem of “overpopulation.” At an infamous TED Talk, Gates explained that vaccines are one of the keys to reducing global population levels, and what better way to do that than to unleash patented coronavirus on the masses in order to later introduce a patented vaccine for it?

Bill and Melinda Gates hosted “Event 201” back in October, described as a “high-level pandemic exercise”

What’s further interesting is that the Bill and Melinda Gates Foundation co-hosted a “high-level pandemic exercise” back in October that involved discussions about how “public / private partnerships will be necessary during the response to a severe pandemic in order to diminish large-scale economic and societal consequences.”

Held in partnership with the Johns Hopkins Center for Health Security and the World Economic Forum, this latest endeavor by Bill Gates is highly suspicious, to say the least, especially when considering that it was held just in time for the coronavirus outbreak.

As is usually the case with suspicious disease outbreaks that get the media and academia talking about new vaccines and public-private partnerships, Bill Gates’ fingerprints are almost always hiding in the background. And this is exactly the case with coronaviruses, which could accomplish many of Gates’ expectations for the future, including mass depopulation, mass vaccination and mass consolidation of government power.

“These events are increasing, and they are disruptive to health, economies, and society,” reads an announcement about “Event 201,” as they called it, or the meeting with Gates and his cronies from back in October.

“Managing these events already strains global capacity, even absent a pandemic threat. Experts agree that it is only a matter of time before one of these pandemics becomes global – a pandemic with potentially catastrophic consequences. A severe pandemic, which becomes ‘Event 201,’ would require reliable cooperation among several industries, national governments, and key international institutions.”

This reads like a *predictive script* for what we’re now seeing with coronavirus, as governments around the world scramble to “manage” this deadly outbreak with martial law, vaccine fast-tracking, quarantines and plenty of fear-mongering.

“If we do a really great job on vaccines, health care, reproductive health services, we could lower [the global population] by perhaps about 10 to 15 percent,” Gates is infamously quoted as saying about the true intent of his “humanitarian” efforts.

While the following news report has had little coverage in the American media, not so in Europe. **DECEMBER 20, 2021.** In a stunning 46-page legal filing to the International Criminal Court on December 6, an intrepid attorney and seven applicants accused Anthony Fauci, Peter Daszak, Melinda Gates, William Gates III, and twelve others of numerous violations of the Nuremberg Code. These included various crimes against

humanity and war crimes as defined by the Rome Statutes, Articles 6, 7, 8, 15, 21, and 53.

<https://www.riotimesonline.com/brazil-news/modern-day-censorship/covid-19-pharmaceutical-giants-gates-fauci-uk-officials-accused-of-crimes-against-humanity-in-international-criminal-court-complaint/>

Whistleblower activists file complaints with International Criminal Court alleging Big Pharma, Gates, Fauci, UK officials committed crimes against humanity. [Article and Video](#)

Besides the four kingpins, twelve others were named, including the CEOs of the leading vaccine corporations and the health leaders held accountable for the United Kingdom.

Albert Bourla, CEO of Pfizer, Stephane Bancel, CEO of Moderna Pascal Soriot, CEO of Astra Zeneca, Alex Gorsky, CEO of Johnson and Johnson, Tedros Adhanom Ghebreyesus, Director-General of the WHO, Boris Johnson, UK Prime Minister, Christopher Whitty, UK Chief Medical Adviser, Matthew Hancock, former UK Secretary of State for Health and Social Care, Sajid Javid, current UK Secretary of State for Health and Social Care, June Raine, UK Chief Executive of Medicines and Healthcare products, Dr Ravid Shah, President of the Rockefeller Foundation, Klaus Schwab, President of the World Economic Forum.

Perpetrators:

- **BORIS JOHNSON**, Prime Minister for the United Kingdom
- **CHRISTOPHER WHITTY** Chief Medical Officer for England and Chief Medical Adviser to the UK Government
- **MATTHEW HANCOCK**, (former) Secretary of State for Health and Social Care
- **SAJID JAVID** (current) Secretary of State for Health and Social Care,
- **JUNE RAINE** Chief Executive of Medicines and Healthcare products Regulatory Agency (MHRA),
- **TEDROS ADANHOM GHEBREYESUS**, Director-General of the World Health Organisation
- **WILLIAM GATES III** and Co-chair of the Bill and Melinda Gates Foundation
- **MELINDA GATES** Co-chair of the Bill and Melinda Gates Foundation,
- **ALBERT BOURLA** Chairman and Chief executive officer of Pfizer,
- **STEPHANE BANCEL** Chief Executive Officer of AstraZeneca,
- **PASCAL SORIOT** Chief Executive Officer of Moderna,
- **ALEX GORSKY**, Chief Executive of Johnson and Johnson
- **DR RAJIV SHAH** President of the Rockefeller Foundation,
- **DR ANTHONY FAUCI** Director of the National Institute of Allergy and Infectious Disease (NIAID),
- **KLAUS SCWAB** Founder and Executive Chairman of the World Economic Forum
- **DR PETER DASZACK** President of EcoHealth Alliance

Dr. Ravid Shah, having worked for the Gates Foundation since 2001, was named a World Economic Forum 'Young Global Leader' in 2007. He now presides over the Rockefeller Foundation, a group funding ID2020 along with the Gates Foundation.

[DOCUMENT PDF](#)

Dr. Mark Trozzi has stated that the Coronavirus messenger RNA creates permanent changes in the human genetic code. On April 26, 2022, an article titled **“Comparing Monsanto's past, with Big Pharma's present”**

The forced covid injections being administered in the Western nations are forms of genetic “therapy”. Some including Pfizer and Moderna using lipid nanoparticles to get patented messenger RNA for a synthetic variation of the coronavirus spike protein into the victims’ cells. Others including Astrazenica and Johnson and Johnson use modified monkey adenoviruses to get DNA for the artificial spike protein in the victims’ cells.

Pfizer and Moderna have repeatedly deceived the public claiming that the injections are safe and effective, that they don’t invade the whole body, and that they do not modify the victims’ own genetic structure. We have previously presented some of a growing body of evidence that this is not true, [including research involving human liver cells.](#)

I want to thank my friend and fellow courageous covid truth teller, Dr Daniel Nagase, for sharing another article relating to this. It was published May 2021 in the Proceedings of the National Academy of Sciences and is titled:

Reverse-transcribed SARS-CoV-2 RNA can integrate into the genome of cultured human cells and can be expressed in patient-derived tissues

by Liguo Zhang, Alexsia Richards, M. Inmaculada Barrasa , Stephen H. Hughes , Richard A. Young, and Rudolf Jaenisch

What this study shows

This study explains why some people continue to produce coronavirus mRNA long after a covid infection is resolved. It shows that the Coronavirus mRNA can be reverse transcribed, or written into the injected humans’ DNA genetic code. This creates a permanent change in the subject, and they can continue to produce coronavirus parts long term, but from their own, now-modified human genetic code. The term “Chimira” used in this article refers to a living thing that is made by combining the genetic codes for multiple distinct species or life forms: in this case a cross of human with coronavirus.

Theorizing beyond this study

We've discussed before the pliability of coronavirus species that makes them suitable for their weaponization or "gain of function research" that Fauci, Gates, Big Pharma and others are deeply invested in. It is such weaponized "gain of function" patented man-made coronaviruses that they released against us at least once, possibly more times, since late 2019.

Beyond releasing their viruses on us, the same scum are even more obsessed with injecting us with various substances, both declared and not declared, including the genetic code for their patented man made coronavirus spike proteins, with enhanced persistence and toxicity.

The above study demonstrates that even with coronavirus infection, coronavirus mRNA can be used to create corresponding DNA which can be incorporated into our human DNA, permanently modifying us, so that our own cells continue creating viral mRNA and perhaps also the proteins for which they code.

There is also evidence that injected synthetic coronavirus mRNA in the so-called "vaccines" is reverse transcribed and written into injection victims' permanent DNA genetic code. This has been [demonstrated in other studies with the Pfizer injection](#).

We have [previously discussed](#) that on laboratory analysis of the forced injections (covid-"vaccines") there is much more complex organic material in the injections than should not be there based on the claimed amount of mRNA for the patented spike protein. Is this just because the injections are very "dirty" or poorly made, with lots of random contaminants in them? Alternatively, the unaccounted complex organic material may be more mRNA that the injection promoters want to also have incorporated into our genetic code. I suspect the latter: intentional extra genetic material, rather than just random contaminants. If this is correct, in light of this and other research showing the reverse transcriptase effect; then Bill Gates, Fauci and their accomplices may be intentionally modifying the genetic codes of their victims. No one signs up for that, when they roll up their sleeve to take the forced and coerced so-called "vaccine".

Comparing what is now happening to humans with what Monsanto has been doing to plants for decades.

I hope the reader is aware of Monsanto, a corporation repeatedly voted as the most evil corporation on Earth. Monsanto created genetically modified glyphosate resistance plants, and other biologic abominations involving food crops and seeds. Monsanto routinely invade fields from neighboring land with genetically modified pollen. This permanently changes and contaminates the heirloom crops of traditional people. Next Monsanto lays claim over the people's crops whose seeds are forever tainted with their genetic manipulation.

In summary, Monsanto invades and destroys a farmer's traditional crops and seeds. Then adding insult to injury, Monsanto sues the farmers for "using" their patented genes without a license. The farmers lose their traditional seed lines, and are either forced out of farming, or into forever paying Monsanto for genetically modified seeds and growing their "Frankenstein" crops.

I believe in many ways, that what Monsanto has been doing to plants for decades, big pharma and their accomplices are now doing to humans: genetically modifying them without their knowledge, and against their will.

We are caught up in a global plan to depopulate the world through "man-made" viruses abetted to by scientists and researchers who do know what CRISPR-Cas9 has been used for largely unbeknownst to the world. I have read several books and many papers on CRISPR and I can tell you that this is a medical scandal of the decades particularly how corrupt insiders are using this technology to "create" a virus about every two years. Now what you are reading may seem to be science-fiction, it is all true and worse since it is in the hands of the world's richest family, i.e., the House of Rothschild.

Pfizer Knew of mRNA Trial Deaths but Approved the Covid Vaxxes Anyway

<https://www.naturalnews.com/2022-04-26-pfizer-vaccine-trial-deaths-fda-approved-anyway.html#>

Moderna Asks FDA to Authorize COVID Vaccines for Kids Under 6, Changes Efficacy Claims to Meet Guidelines

Moderna today asked the U.S. Food and Drug Administration to authorize its COVID-19 vaccine for children under age 6. The company claimed its trials for the 6-month to 2-year age group showed the vaccine was 51% effective — only 1% above the requirement — after last month stating the product was only 43.7% effective. This is a crime against your children.

In light of what I am sharing in this article, the first of a series, on the crimes being conducted against the World by Big Pharma, Big Government, the Health Community of the world, they will reap the wrath of God. Once the world becomes fully knowledgeable of what CRISPR-Cas9 technology can do and how it is being applied to

create viruses that maim and kill, the vaccine industry will go the way of blood-letting in the 19th centuries. Blood-letting was practiced for 2,500 years only to be discredited as hack medicine. Experimental work using CRISPR-Cas9 is being used for Lupus, Sickle Cell Anemia, Huntington's, that will benefit humanity but unfortunately there are those who have crossed the bounds agreed upon by the scientific community.

I am reading *'The CRISPR Generation: The Story of the World's First Gene-Edited Babies'* by Kiran Musunuru. It is the story of a Chinese doctor Dr. He Jiankui of Shenzhen, China, who used CRISPR technology to gene-proof his twin daughters so they could not get HIV1 or AIDS. He was sentenced to three years in prison for crossing the agreed upon limits of creating designer babies. CRISPR has reduced the cost of genetic therapy DNA and messenger RNA to mere pennies before its discovery a couple decades ago.

The bottom line of Covid-19 is that it is a "biological weapon". Indian scientists in early March, 2020 discovered the common cold virus had been re-engineered with 4 "cut and paste" inserts, three of which contained 18 fragments of the HIV1 and HIV2 virus and 4 fragments of SARS-CoV2 virus. These inserts were inserted for "Gain-of-Function" designed to increase its potential for infection, using CRISPR technology. The Nobel Peace Prize recipient in 2008 for Medicine, Dr. Luc Montagnier confirmed the work of the Indian scientists. In subsequent segments of this expose I explain how wireless energy 5G EMF is used to "cut and paste" this process through Electroporation.

Given Bill Gates uncanny ability to predict pandemics, and multiple references to Marburg and Ebola, I will provide pre-exposure prophylaxis (vitamins and nutraceuticals) that are being used to effectively ward off Covid-19). These two viruses (Marburg and Ebola) are LOW transmissibility but high mortality. PREVENTION and early treatment are keys to survival.

As a reminder, do watch the interview with Todd Callender, JD and what he has revealed concerning how pre-packaged pathogens have been inserted in the spike Protein of the so-called vaxxes messenger MRNA being administered under Emergency Use Applications. They are death shots with a delayed activation that will come through a future 5G EMF wireless execution. What did he say?

Blessings,

Pastor Bob, EvanTeachr@aol.com
