

Media Exaggerations

US reaches record daily toll of 3,309 coronavirus deaths

Last Updated: Dec. 12, 2020 at 5:05 p.m. ET First Published: Dec. 12, 2020 at 4:13 p.m. ET

By [Associated Press](#)

The increase comes as millions of doses of the COVID-19 vaccine developed by Pfizer start rolling into hospitals on Monday.

I don't recall the country losing its collective minds in 2009 after this unfit clown allowed the Swine Flu pandemic to rage for 6 months, infect 60 million, hospitalize 300 thousand and claim the lives of 17 thousand people in the United States before finally declaring a national health emergency.

imgflip.com

The U.S. has reached a record 3,309 daily coronavirus deaths, according to data compiled by Johns Hopkins University. **That is just one case per county in the U.S.A. There are only 3,142 counties if you include the**

District of Columbia. Does an average of one death per county seem as if there is a crisis or is some- one yanking your chain?

The deaths reported Friday exceeded by 6% the previous high of 3,124 deaths reported Wednesday, December 9th, 2020. That was just short of the rate of 1 per county. Where's the pandemic, or should we say epidemic?

The U.S. also reached a record-daily confirmed infections at 231,775, according to a tally by Johns Hopkins University. That's nearly 4,000 more than the previous high on Dec. 4. Johns Hopkins University knows how to lie with statistics to exaggerate the facts!

The U.S. has reached a record 3,309 daily coronavirus deaths, according to data compiled by Johns Hopkins University.

The deaths reported Friday exceeded by 6% the previous high of 3,124 deaths reported Wednesday. 3,309 is **0.0010119266055046%** of 327,000,000. The U.S. Bureau of the Census says the U.S. population is 327-million people. **This is just a shade over 1,000th of a percent!** If 1% of the population died of the alleged Covid virus it would have claimed 3,270,000 people. Now that is what a pandemic would look like.

The U.S. also reached a record daily confirmed infections at 231,775, according to a tally by Johns Hopkins University. That's nearly 4,000 more than the previous high on Dec. 4.

The increases come as millions of doses of the COVID-19 vaccine developed by Pfizer start rolling into hospitals on Monday. Given that Australia just canceled its vaccine program, you might not want to rush out for the vaccine. Dr. Anthony Fauci was upset that the UK Commonwealth Nations jumped the gun in vaccinating two weeks earlier than the US.

The first vaccines will go to hospital staff and other health care professionals.

The U.S. leads the world in confirmed cases at 15.9 million and deaths at more than 296,000. The coronavirus has caused more than 1.6 million

global deaths. **These figures are exaggerated to make it seem to be much worse than it really is!**

U.S. officials say the nation's first COVID-19 vaccine will begin arriving in states Monday morning. Trucks will roll out Sunday morning as shipping companies deliver Pfizer's vaccine to nearly 150 distribution centers across the United States.

Meanwhile, President Donald Trump hasn't publicly acknowledged this week's record number of coronavirus deaths, hospitalizations and cases. He hailed the vaccine but made no mention of the toll the virus has taken.

The Federal Aviation Administration says pilots may receive the COVID-19 vaccine but may not fly for 48 hours.

The FAA says it is requiring the observation period "to maintain the highest level of safety" in the airspace it regulates. The 48-hour observation also applies to air traffic controllers.

The U.S. Food and Drug Administration on Friday approved emergency use of a vaccine developed by Pfizer and shipments are expected in various states on Monday.

The Pfizer vaccine requires two doses taken three weeks apart. The 48-hour period applies after both doses.

The FAA says it will monitor reaction to the vaccine. It requires similar waiting periods after aviation employees receive other vaccines, such as tuberculosis and typhoid.

They are not telling you that Australia just a few days ago cancelled its vaccine program after a series of deaths from the first vaccine being given a week in advance of the U.S. program.

Are you familiar with the Koch Postulates? Permit me to explain what they are and why Covid-19 is not a virus!

Koch's Postulates

- 1890 Robert Koch Established List of Criteria to Judge Whether or Not a Given Microbe Was Responsible for a Given Disease
 - The organism must be present in every case of the disease
 - The organism must be isolated from the diseased host and grown in pure culture
 - The specific disease must be reproduced when the pure culture is inoculated into a healthy susceptible host
 - The organism must be recovered from the experimentally infected host

The Koch Postulates are the “Gold” standard in biochemistry and biology of what is and what can be classified as a virus. The vaccine industry has pulled a confidence game on the world over the past century. I have spent close to \$200 for books on immunity, virology, biochemistry, and other medical books exposing the lies of vaccination.

Covid-19 is a scam, plain and simple! The tragedy comes in that many will die. If you are like most people, you believe your government cares about your health. There is a dark side to this scam, but keep this in mind. Covid-19 was patented in 2007, and again in 2017/18. By patenting a pathogen, the patent holder earns royalties on the profits from those vaccines. The fact that a patent has been issue previously proves that the vaccine for this alleged pathogen has existed for 13 years. That’s correct.

The pharmaceutical firms have blanket immunity from legal claims for damage resulting from their vaccines. You cannot sue them, thanks to our government providing them legislative immunity of being sued!

I am keeping this short as I can get very detailed. I can prove every word of this article as factual and true. The media, like the Associated Press source of the basic press release which I am exposing as a fake, a lie, a deception. Your television networks are playing a terrible psyop on you if you believe their excrement.

*You are welcome to share
This with anyone you wish!*
