## US Daily 2021 Coronavirus Deaths

Part 6 – Update for the Year 2021 (Proof It’s Just the Flu!)  
 Summary for January, 2021 through October 31, 2021

In my first article, I took to task the Associated Press article of fear-porn through the statistical insignificance of this fraud known as Covid-19. This is one of those times when Jesus was speaking about being deceived and the need for discernment. Three times in the Gospels, Jesus raised the warning about being deceived, and that even the very elect might be deceived. –(Matthew 24:24, 31; Mark 13:22).

The Associated Press reported record death rate of 3,309 was for December 12<sup>th</sup>. In that article I noted that my data is from the official government reporting itself. What I want you to recognize is that these people at the government public health agencies lie worse than a child seeking to avoid a good spanking. This article has the daily summary for the entire month of December, 2020, and you can draw your own conclusions from what I share about the vaccine wizards as to whether the facts justify calling this a Pandemic, Epidemic, Plandemic, or a Scamdemic.

What does this chart suggest or tell you? Keep in your mind, the nation only has 3,242 counties, 3,241 plus the District of Columbia. [100 counties are in the Territories]

1. The population of the U.S.A. is 331,000,000 million. (U.S. 2020 Official Census Data).
2. Only two days, the 30<sup>th</sup> & 31<sup>st</sup>, have a death rate greater than **1/1000<sup>th</sup> of a percent**.
3. On seven days, the 12<sup>th</sup>, 17<sup>th</sup>, 18<sup>th</sup>, 23<sup>rd</sup>, 24<sup>th</sup>, 30<sup>th</sup> and 31<sup>st</sup> have more than **1 death nationwide per the total 3,142 counties in the U.S.**
4. On twenty-four days of December the death rate was **less than 1/10,000<sup>th</sup> of a percent**.
5. The **U.S. national average death rate** (total for all causes, accidents, homicides, natural causes, heart attacks, suicides, etc.) **is approximately 7,800 per day**. The CDC states **7,700**. A difference of one hundred deaths a day is an insignificant statistic and an acceptable number for this study.

This year's flu season 2020/2021 is not being counted for deaths labeled as the flu. This has never occurred in past years. The CDC has for some unstated unspecified reason decided NOT to count deaths to flu as a specific category in years past. Why so? My intuition tells me it was so that they could label all those who have died from the flu as being included in with the alleged Covid-19. Isn't this just convenient for those pushing vaccines? Either their decision are due to plain stupidity or intentional deceit; and perhaps in order to inflate the numbers of infections and the cases alleged died of Covid-19.

Consider this in perspective, if on any single day during December, 2020, if the death rate was just **1%** that would equate to **3,310,000** deaths in the nation. That would be a pandemic! We are only seeing a real death rate of **1/1,000<sup>th</sup> percentage**. December 31<sup>st</sup> had **3,744 deaths**. This is still less than half the average number of deaths in the U.S. based upon the daily average number of people dying on a given day!

Last year, the WHO or World Health Organization changed the rules by which define a pandemic. The rules now state a pandemic can be declared when there is a single case of a like disease in just three countries. Yes, all it takes to declare a pandemic is a total of three deaths with the same symptoms, one per country. The WHO is a UN

institution and reflects poor leadership, poor data tracking, ineptness, and fraudulent corrupt behavior. The WHO Director was formerly a Top Member of the Violent Ethiopian Communist Party which was listed as a Terrorist Organization by the U.S. Government. Tedros Adhanom Ghebreyesus, as well as being the first WHO director without a medical degree, and also has a somewhat political background compared to his predecessors. <https://conservativeus.com/who-director-was-top> .

Another issue has since been noted that we should watch carefully the data.

In perhaps the most controversial point we can confirm that official data shows that the first and second waves of alleged Covid deaths correspond with the roll out of this year's WHO-approved flu vaccines.

Evidence from the WHO's own records shows that the vaccine shots are known to kill 5 out of every 1,324 healthy adults, as well as causing 344 to have medically attended adverse events. Damning evidence from the WHO implicitly states that the current batch of UK flu shots is expected to kill 377 of every 100,000 healthy adults, between 18 and 65. However, that mortality rate would obviously increase substantially for the elderly and sick, who were the largest UK demographic to receive it by 26/03/2020 [8.5 million of the 14 million vaccinated by that date].

A U.S. male nurse who previously tested negative to the alleged Covid, received the Pfizer vaccine, was then tested eight days later and was said to have the virus. Did he receive a mysterious "gift" in the vaccine?

The various private and public or government health agencies, such as the NIH, CDC, NIAID, and WHO are conducting a psyop fraud hoaxed upon the American people from day 1, back on March 23<sup>rd</sup>, 2020. It has been orchestrated by Dr. Anthony Fauci of the NIAID and William Gates, his financial benefactor. Emails do exist showing that Bill Gates hired an advertising company to push the virus scare spending \$200-million on media coverage. Bill Gates owns a patent share for the particular gene that has been labeled Covid-19 through the Rothschild-owned Pirbright Institute in Surrey, UK. That patent was issued in 2017, along with one issued in 2006, for the SARS-vid-2 pathogen family from which the alleged Covid-19 is part of. Check the link here:

[The Pirbright Institute \(UK\) is the patentee of the CORONAVIRUS U.S. Pat. No. 10,130,701](#) .

Here is definitive proof that **Anthony S. Fauci, MD and Bill Gates** are engaged in a massive conflict of interest regarding the Coronavirus outbreak and Gates' association with the Pirbright Coronavirus patent?

Furthermore, In June, 2020, Gates lied about his involvement with Microchips Biotech in a CBS interview, saying, *"I've never been involved in any sort of microchip-type thing."* Ten days later, his foundation gave Microchips Biotech another \$1 million grant. In fact, Gates lied not only about Microchips Biotech, but about another microchip project - one with strong ties to COVID-19 tracking initiatives.

Below is a copy of a letter I received in my email during the week of Christmas, 2020, from a Public Health professional at a university hospital lab in southern California.

### **Letter testimony from a CA Public Health expert in Virology and Immunology**

Rob ?+&%#\$ [Name removed to protect identity]

Officially its the flu.

"I have a PhD in virology and immunology. I'm a clinical lab scientist and have tested 1500 "supposed" positive Covid 19 samples collected here in S. California. When my lab team and I did the testing through Koch's postulates and observation under a SEM (scanning electron microscope), we found NO Covid in any of the 1500 samples. What we found was that all of the 1500 samples were mostly Influenza A and some were influenza B, but not a single case of Covid, and we did not use the B.S. PCR test. We then sent the remainder of the samples to Stanford, Cornell, and a few of the University of California labs and they found the same results as we did, NO COVID. They found influenza A and B. All of us then spoke to the CDC and asked for viable samples of COVID, which CDC said they could not provide as they did not have any samples.

"We have now come to the firm conclusion through all our research and lab work, that the COVID 19 was imaginary and fictitious. The flu was called Covid and most of the 225,000 dead were dead through co-morbidities such as heart disease, cancer, diabetes, emphysema etc. and they then got the flu which further weakened their immune system and they died. I have yet to find a single viable sample of Covid 19 to work with.

"We at the 7 universities that did the lab tests on these 1500 samples are now suing the CDC for Covid 19 fraud. the CDC has yet to send us a single viable, isolated and purified sample of Covid 19. If they can't or won't send us a viable sample, I say there is no Covid 19, it is fictitious. The four research papers that do describe the genomic extracts of the Covid 19 virus never were successful in isolating and purifying the samples. All the four papers written on Covid 19 only describe small bits of RNA which were only 37 to 40 base pairs long which is NOT A VIRUS. A viral genome is typically 30,000 to 40,000 base pairs. With as bad as Covid is supposed to be all over the place, how come no one in any lab world wide has ever isolated and purified this virus in its entirety? That's because they've never really found the virus, all they've

ever found was small pieces of RNA which were never identified as the virus anyway.

“So what we're dealing with is just another flu strain like every year, COVID 19 does not exist and is fictitious. I believe China and the globalists orchestrated this COVID hoax (the flu disguised as a novel virus) to bring in global tyranny and a worldwide police totalitarian surveillance state, and this plot included massive election fraud.”

-----

The media are not telling you that Australia just a few weeks ago cancelled its vaccine program after a series of deaths from the first vaccine being given a week in advance of the U.S. program were contaminated with AIDS. The vaccine had been reported to have been enhanced with elements of AIDS, and SARS-CoV2 for “gain of function” or enhanced lethality. This could not occur naturally but had to be done in a lab by those engineering a bioweapon.

The obvious agenda was to increase the death rate potential. Dr. Anthony Fauci was involved in a program with the Chinese Communist Party to do work on “gain of function”. He paid the CCP a total of \$7.4-million dollars for China to enhance virus lethality! He did this illegally, even after being shut down by President Donald Trump.

The CDC in August, 2020 released new data that depicts how many Americans who have died from COVID-19 also had other contributing health conditions.

According to the report, only **6%** of deaths have COVID-19 as the only cause mentioned, revealing that **94%** of patients who died from the Coronavirus also had other comorbidity “health conditions and contributing causes.” **6% does not suggest the existence of a pandemic, nor does it even suggest an epidemic!** Think more of it being both a scamdemic an plandemic!

Are you familiar with the Koch Postulates? The author of the reproduced letter above states his lab use this universal protocol to determine the existence of a virus. Permit me to explain what they are and why Covid-19 is not a virus!

The Koch Postulates are the “Gold” standard in biochemistry and biology of what is and what can be classified as a virus. The vaccine industry has pulled a slick confidence game on the world over the past century. I have purchased and read a dozen books on immunity, pathogens, virology, biochemistry, and other medical books exposing the lies of vaccination. There are many falsely labeled viruses that have failed to produce any existence using the Koch Postulates. Every two years a new pandemic scare is released on the public, bat flu, bird flu, zika, Ebola, swine flu, AIDS, etc.

Covid-19 is a scam, plain and simple! The tragedy comes in that many will die needlessly. If you are like most people, you believe your government cares about your health. There is a dark side to this scam, but keep this in mind. Covid-19 was first

patented in 2007, and again in 2017/18. By patenting a pathogen (Covid-19), the patent holder earns royalties on the profits from their useless vaccines. The fact that a patent has been issued previously proves that the vaccine for this alleged pathogen has existed for 13 years. That's correct. The dark "evil" side is the Vaxxes are not vaccines. They are "experimental" Gene Therapy experiments. With each shot a person receives, their life expectancy will decline significantly.

The pharmaceutical firms have blanket immunity from legal claims for damage resulting from their vaccines. You cannot sue them, thanks to our government providing them legislative immunity of being sued!

## Koch's Postulates

- 1890 Robert Koch Established List of Criteria to Judge Whether or Not a Given Microbe Was Responsible for a Given Disease
  - The organism must be present in every case of the disease
  - The organism must be isolated from the diseased host and grown in pure culture
  - The specific disease must be reproduced when the pure culture is inoculated into a healthy susceptible host
  - The organism must be recovered from the experimentally infected host

I am keeping this short as I can get very detailed. I can prove every word of this article as factual and true. The media, like the Associated Press source of the basic press release which in my first article, I was exposing as a fake, a lie, a manufactured deception. Your television networks – ABC, CBS, NBC, FOX, and CNN are playing a terrible psyop on you if you believe their undocumented claims. The links on page 3 and 4 confirm the facts stated in this report. **NO ONE HAS PRODUCED A BONAFIDE VIRUS CALLED COVID-19 USING THE KOCH POSTULATES! The same is true for the SARS2-CoV-02 virus.**

There have been no days since February 14<sup>th</sup> when the daily death rate equaled or exceeded a single death per the 3,142 counties in the U.S.

September had **5 days** with at least 1 death per U.S. county.

Days with low numbers correspond to weekends and explain the sudden decline or drops from days with higher numbers. Spring and summer months are not as noticeable but as we have moved into the cooler months when the cold and flu season become more evident, the disparity becomes evident.

<u>31/31 / 31/31</u>		

October had zero days with at least 1 death per county in the U.S. While public health officials keep beating the drum for vaxxes, the data does not support their claims of a pandemic, not even an epidemic. The fear-mongering, false narrative, continues to obfuscate the truth. As the government does so efficiently, it continues its mantra to “Confuse, Divide and Conquer.” On the majority of days, the percentage of deaths are in the 10-thousandth percentile range, highlighted by the number in **red**.

In Italy, the government has had to confess up to the fact that Covid was not much more than a common cold. Anyway, here is the Italian bombshell report translated into English and released a week ago. The mainstream media is not touching this story, and one can easily tell why.

Franco Bechis, October 21, 2021

According to the new report (which had not been updated since July) from the Higher Institute of Health on mortality from Covid, the virus that brought the world to its knees would have killed far fewer than a common flu.

It seems a bizarre and contra-vax statement, but according to the statistical sample of medical records collected by the institute, only 2.9% of the deaths registered since the end of February 2020 were caused by Covid 19.

So of the 130,468 deaths registered by official statistics at the time of preparation of the new report only 3,783 would be due to the power of the virus itself.

Because all the other Italians who lost their lives had from one to five diseases which, according to the ISS, therefore already left them little hope.

Even 67.7% would have had more than three contemporary diseases together, and 18% at least two together.

Now I personally know many people, but none who have the misfortune of having five serious illnesses at the same time. I would like to trust our scientists, then I go to read the ailments listed which would be no secondary reason for the loss of so many Italians and I begin to feed some profound doubts.

According to the ISS, 65.8% of Italians who are no longer with us after being infected with Covid were ill with arterial hypertension, that is, they had high blood pressure. 23.5% were also suffering from dementia, 29.3% added some diabetes to their ailments, 24.8% also atrial fibrillation.

And that's not enough: 17.4% already had sick lungs, 16.3% had had cancer in the last 5 years; 15.7% suffered from heart failure.

I have been tracking the official deaths attributed to Covid-19 since December of 2020. The reporting period I have focused on covers the period from January 1, 2021 until early November, 2021. I merely attached the current data tracking to my original report for December, 2020.

There are 3,142 counties in the U.S. mainland. There are 100 counties in the U.S. territories of America Samoa, Guam, Northern Mariana Islands, Puerto Rico, and the Virgin Islands. These are not part of the CDC reporting data.

The last date this year where the death rate was greater than 1 per 3,142 counties was February 25<sup>th</sup>, 2021. We have had 7 full months with deaths recorded to Covid-19 with fewer than 1 death per county

in the U.S. That certainly proves that this is about something other than a rogue novel virus. **Then on September 10<sup>th</sup>, 2021 the CDC reported 3,709 deaths for that date.**

The U.S. stopped tracking the seasonal flu during early 2020, and has ceased to report deaths to the flu. They actually lumped deaths to the flu as being Covid-19. Dishonest at the least!

An examination of death certificates has been ongoing since earlier this year. Of the original data, approximately 169,000 deaths, only 9,000+ actually can be confirmed as Covid-19. The other deaths were due to comorbidity health issues related to heart, lungs, kidneys, and liver diseases.

The CDC states that 7,900 citizens die each day in the U.S.

The last day of July 31, 2021, 671 deaths were reported due to Covid-19, or **0.00020271903323263% of a population of 331,000,000. This is the equivalent to 2/10,000ths of a percentage point.**

As death records have been subsequently re-studied, there is serious reason to now doubt all the CDC data. They have failed to provide slide samples of this so-called “novel” virus to nearly a hundred countries seeking samples for study. They have been caught cheating, and hiding the evidence to support their premises. Their latest excuse to deceive has been to delay the data reporting for months.

We now know the reason they have not been able to provide slide samples is because none exists. There is no such thing as a Covid-virus. It was created as “synthetic” biology on a computer screen. That is hard for people to grasp, but this originated in a virus lab as a computer code.

As you can see, tell a lie long enough, and loud enough, people will come to the point of believing the lie as truth! The globalists want us all dead and they are using the media to sell their propaganda.

Can you think of any virus in your lifetime that posed an exaggerated threat rate of death to the population of one person for every county in the U.S. which has 3,142 counties in the continental U.S.?
