

Mass Murder

Part 1

**CDC: 1,265 DEAD 25,212 Injuries
Following Experimental COVID-19 mRNA 'Vaccines'**

The CDC added more data yesterday into the Vaccine Adverse Event Reporting System (VAERS), a [U.S. Government funded database](#) that tracks injuries and deaths caused by vaccines.

The data goes through February 26, 2021, with [25,212 recorded adverse events](#), including [1,265 deaths](#) following injections of the experimental COVID mRNA shots by [Pfizer](#) and [Moderna](#).

From the 2/26/2021 release of VAERS data:

Found 25,212 cases where Vaccine is COVID19

Table

 Event Outcome	  Count	Percent
Death	1,265	5.02%
Permanent Disability	479	1.9%
Office Visit	3,888	15.42%
Emergency Room	22	0.09%
Emergency Doctor/Room	4,908	19.47%
Hospitalized	2,742	10.88%
Hospitalized, Prolonged	1	0%
Recovered	9,236	36.63%
Birth Defect	36	0.14%
Life Threatening	886	3.51%
Not Serious	8,948	35.48%
TOTAL	† 32,409	† 128.55%

† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 25,212 (the number of cases found), and the Total Percentage is greater than 100.

Besides the recorded 1,265 deaths, there were 4,930 visits to Emergency Room doctors, 479 permanent disabilities, and 2,743 hospitalizations.

The CDC also updated their [Selected Adverse Events Reported after COVID-19 Vaccination](#) page on March 1st this past week, and according to this report, VAERS has received 1,381 reports of death.

For some reason, the CDC does not immediately release this data to the VAERS system, sometimes publishing it weeks later.

Historically, less than 1% of all vaccine injuries and deaths are ever reported to VAERS: Although 25% of ambulatory patients experience an adverse drug event, less than 0.3% of all adverse drug events and 1-13% of serious events are reported to the Food and Drug Administration (FDA).

Likewise, less than 1% of vaccine adverse events are reported. Low reporting rates preclude or slow the identification of “problem” drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed. ([Source](#))

So we really have no idea what the true numbers are, since the CDC controls all the data, and the CDC has proven many times that they are corrupt and not reliable, since they own over 56 patents on vaccines, and many of their scientists earn royalties from the sale of vaccines. ([Source](#)).

But there is one thing that the CDC wants to assure the public with: these tens of thousands of injuries and hundreds of deaths that are occurring following the COVID mRNA injections have nothing to do with the vaccines. Not one of these deaths is related to the vaccine.

CDC and FDA physicians review each case report of death as soon as notified and CDC requests medical records to further assess reports. A review of available clinical information including death certificates, autopsy, and medical records revealed no evidence that vaccination contributed to patient deaths. ([Source](#))

We also reported earlier this week that the VAERS system is reporting numerous miscarriages and pregnancy complications following the experimental COVID vaccines, and one whistleblower nurse claims that these injuries and fetal deaths are being hid from the public.

There’s another stone-cold Jesuit agent intentionally installed to sicken and kill the U.S. citizenry, who attended all Jesuit schools and is hell-bent on the final destruction of the Republic? Dr. Anthony Fauci of the NIAID and Dr. Robert Redfield of the CDC are Jesuits – educated at Jesuit institutions of higher learning but loyal to their Jesuit masters, founded to fight and wage the Counter Reformation of 1517. This is a religious spiritual war against non-Catholics in the world. Besides the two [experimental mRNA COVID “vaccines”](#) now being used on the American public to complete their Phase III drug trials in an effort to get full FDA approval, a third experimental COVID vaccine by Johnson and Johnson was also just given emergency use authorization (EUA) to test on the American public.

All of these EUAs are illegal, as safe and effective treatments for COVID-19 are readily available, including [hydroxychloroquine](#) and [ivermectin](#), and also [high-dose Vitamin C](#) administered via IV fluids.

One family in New York had to go all the way to the New York Supreme Court to allow them to save their mother’s life by giving her ivermectin, which the hospital refused to do, and would have rather stood back and watched her die.

[Big Pharma](#) cannot admit that these older drugs, already approved by the FDA, but where the patents have expired and therefore cannot qualify for the \$TRILLIONS of government money being spent on novel new drugs and vaccines, are effective against COVID, because it would be basically admitting that they are criminals who do not care about cures for peoples’ health, but only in profitable new drugs.

But thousands of ethical doctors around the world are using these older drugs successfully, and some have even published their protocols online.

[Dr. Meryl Nass, MD](#), has published a resource guide to find these drugs if your own doctor is unwilling to prescribe it.

This report came last week, on the same day the Covid-19 statistics were posted. If you die from Coronavirus 'vaccine', your life insurance won't pay as it's an 'experimental medical intervention'

Tap News – by Tapestry

Check with your insurer before you have the vaccine. It's reported that some or all life insurance won't pay out for COVID vaccine related deaths, as the 'vaccine' is experimental. If this is too big a risk for your insurers, should you be taking it?

Even having had a COVID test could mean you are no longer eligible for insurance. You need to do some careful research, contact your insurers, before getting vaccinated or tested.

You could read between the lines of the following from ABI –

Can I still buy life insurance?

Many insurers are still accepting life insurance applications and some have now included a coronavirus related question (see below for expected questions). Some insurers are delaying applications if you are currently testing positive for coronavirus and need to provide medical evidence, but this does not mean you cannot apply again in the future.

What questions should I expect to be asked on coronavirus when applying for life insurance?

Life insurance companies have developed specific questions to assess the risk around coronavirus for new applications. This is simply to make sure that they have the full picture when they assess your health and medical circumstances.

Coronavirus questions may include:

- Have you tested positive for coronavirus?
- Are you currently in self-isolation?
- Have you had any symptoms of coronavirus?

- Have you been in direct contact with anyone who has been diagnosed or suspected of having a coronavirus?

If you answer yes to some of these questions, your decision may be delayed until you have recovered. The decisions may vary between insurers.

If you're classed as being high-risk because of your medical condition such as people with severe Diabetes, Asthma, Heart Conditions, Auto-immune Diseases, and a number of other conditions, then you won't be classed as 'self-isolating' unless you've got symptoms. People who are being advised to stay at home to keep themselves safe will just be classed as a standard low-risk individual.

Obviously having the vaccine is a separate issue which they don't mention, but individuals who ask insurers will they pay out on death caused by the vaccine are being told NO as it is not a vaccine, but an experimental medical intervention. Be advised.

This will be a regular Monday posting, supporting the evidence is nothing short of Mass Murder!!
