

Mass Murder

Part 14

This has never been about a virus, it's still not about a virus, and it will never be about a virus. This is an hour and 45-minute interview given by Dr. Peter McCullough, who has exposed the Vaxx for what it is not. Dr. McCullough has previously discussed this topic but his report was expunged from Google, and other social media platforms. Dr. McCullough is well-qualified to speak to this issue from a medical standpoint. His credentials are given below.

I suspect Dr. McCullough does have an idea or inclination what is behind this by the nature of his contacts in the medical community. You owe it to you and your family to hear what Dr. McCullough has to say.

A MUST WATCH: Dr. Peter McCullough discusses the dangers of the novel COVID vaccine and its roll out. This is a product that had minimal testing but is being pushed on the masses. Must we all get the shot for things to “go back to normal”? Are you going to get the shot?

Dr. Peter McCullough has been the world's most prominent and vocal advocate for early outpatient treatment of SARS-CoV-2 (COVID-19) Infection in order to prevent hospitalization and death. On May 19, 2021, he was interviewed regarding his efforts as a treating physician and researcher. From his unique vantage point, he has observed and documented a PROFOUNDLY DISTURBING POLICY RESPONSE to the pandemic — a policy response that may prove to be the greatest malpractice and malfeasance in the history of medicine and public health.

Dr. McCullough is an internist, cardiologist, epidemiologist, and Professor of Medicine at Texas A & M College of Medicine, Dallas, TX USA. Since the outset of the pandemic, Dr. McCullough has been a leader in the medical response to the COVID-19 disaster and has published “Pathophysiological Basis and Rationale for Early Outpatient Treatment of SARS-CoV-2 (COVID-19) Infection” the first synthesis of sequenced multidrug treatment of ambulatory patients infected with SARS-CoV-2 in the American Journal of Medicine and subsequently updated in Reviews in Cardiovascular Medicine. He has 40 peer-reviewed publications on the infection and has commented extensively on the medical response to the COVID-19 crisis in The Hill and on FOX NEWS Channel. On November 19, 2020, Dr. McCullough testified in the US Senate Committee

on Homeland Security and Governmental Affairs and throughout 2021 in the Texas Senate Committee on Health and Human Services, Colorado General Assembly, and New Hampshire Senate concerning many aspects of the pandemic response.

Fake Science today is being led by an Eugenicist with no medical background, a drop out from Harvard by the name of Bill Gates, and a former terrorist heads the World Health Organization, another moron with no Medical training or experience. You know they do not pull the strings, but are simply gophers for the world elite. This is all about global government and the New World Order Global Government!

Mike Adams' Intel You Need to be Aware of in this War on Humanity

With new information provided by a contact in the federal government, I've been able to further refine the escalation hierarchy of vaccine compliance that's being pursued by the Biden regime. There are five distinct phases to this escalation:

Phase 1 – Voluntary (pushed by media propaganda, paying off social media influencers, doctors, etc.). This phase ensnares those who are gullible enough to think getting injected with spike protein biological weapons will somehow “save” them or set them free.

Phase 2 – Incentives (lottery tickets, free beer, free donuts, etc.). This phase ensnares those who are stupid enough to trade their lives for beer and donuts. There are a lot of these people, and even the globalists realize that such low IQ people have nothing to contribute to human civilization.

Phase 3 – Private sector punishments – in this stage they use corporations to deny people access to services (such as air travel, cruise ships, restaurants, sporting events, concerts, etc.). This phase hopes to make being unvaccinated extremely inconvenient. WE ARE HERE NOW.

Phase 4 – Criminal fines or jail time (government sector) – This phase will kick in after the fake news media blames the unvaxxed for continued spike protein outbreaks that are killing people. Laws will be passed in some jurisdictions that require constant vaccines and booster shots. Any who refuse to comply will be fined or jailed. You can expect this push to originate in blue states.

Phase 5) – Kinetic (military sector) – open biological and kinetic warfare on the American people, carried out by the “woke” military against the citizens. This phase will take place *after* the vaccine deep state works with the Biden / Obama regime to stage a massive false flag shooting tragedy that can be blamed on anti-vaxxers and gun owners. Once this event is carried out, Biden and the Democrats will call for turning the U.S. military against the citizens to carry out nationwide gun confiscation and force covid-19 vaccines at gunpoint.

As I was told by a government insider, the Biden regime has been ordered to achieve a 70% vaccination rate among U.S. adults *no matter what it takes*. The false flag attack being engineered by the deep state will serve to provide the “moral justification” narrative to violate any last shred of civil rights, human rights or medical ethics when it comes to assaulting innocent Americans with deadly spike protein injections (also called “vaccines”).

In essence, **a vaccine holocaust is the plan.**

Depopulation is the desired outcome of this nefarious plan, followed by economic collapse and the destruction of the United States of America. The very people carrying out this plan are the same people who rigged the 2020 election and achieved a political

coup to illegally seize power. Now they are using that power to turn America against itself in an act of national suicide.

Today's Situation Update podcast explains these five phases in more detail, revealing how the vaccine deep state will *pretend* to be "the good guys" right up until the day they show up at your door and stick a rifle in your face. And remember: Confiscating guns is their most important step because **forced vaccine injections can only be successful when the population is disarmed first.**

Deagel Organization Predicts Massive Global Depopulation of 50 to 80% by 2025. Historically, a change in the economic paradigm.

I have followed this military intelligence site for two decades after I learned of its existence. I understand that it has since been taken down a few months ago. If you doubt that this is a global genocidal depopulation, then perhaps the Deagel Report will convince you. I have been warning people since 2003 of what was being planned for humanity.

Deagel.com

- Deagel, a true intelligence organization for the U.S. government, predicts a massive 50-80% global depopulation by 2025. Few people are familiar with this website and even more say the organization does not legitimately exist. Despite the overwhelming removal of its significance, WikiLeaks documents revealed that it was legitimately used as a reference material in a Stratford report on the technological capabilities of the North People's Republic of Korea.
- According to its own website, Deagel provides news and information on international military aviation and advanced technologies. The website contains articles from 2003, but little is known about the real owners. Many online researchers have mistakenly confused this site with "deagle.com" which is owned by Edwin A. Deagle, Jr., Assistant to the Secretary of Defense and Assistant Secretary of Defense.
- Deagel's reports, particularly the aforementioned research on North Korea, were also provided to the president during presidential briefings. Deagel thus provides information which is then used by global intelligence communities and governments. Here is a partial list of known Deagel partners and customers, according to their own websites: National Security Agency, North Atlantic Treaty Organization (NATO), Organization for Economic Co-operation and Development (OECD), the Organization for Security and Cooperation in Europe (OSCE), the Russian Defense Procurement Agency, Stratford, the World Bank and the United Nations.
- The advantage of these forecasts is that the Deagel site has no conflict of interest in these forecasts. They are literally mercenaries. The site analyzes which budgets will be allocated to which markets to purchase military aircraft. That's all that really matters to them. These forecasts are based on the reconciliation of various publicly available reports from institutions such as the

CIA, the IMF and the UN. They also include a small amount of data from a variety of "dark sources" such as web gurus. But all of these sources are on the internet. The list is constantly evolving. Forecasts of population growth or decline, military spending, and purchasing power parity across countries around the world have fluctuated somewhat, but since 2015 one prediction has not changed: China will be the largest economy on the planet in 2025.

The U.S. will lose 230 million (see page 7 below). Are any of you leaving the country?

Massive global depopulation of 50 to 80% according to Deagel.

- This highly regarded intelligence organization has bleak prospects for the United States in the years to come, including an 81% decline in its population, from 327 million in 2017 to 100 million in 2025. In fact, it predicted a similar cataclysmic fate for the UK, Australia, Germany, Japan, Denmark, and other US allies. For example, according to Deagel, the population of France will decrease from 67 million inhabitants in 2017 to 39 million in 2025, that of England will decrease from 66 million to 15 million, that of Australia from 23 million to 15 million. , that of Germany from 81 million to 28 million, while the population of Canada will grow negatively from 36 million in 2017 to 26 million in 2025.
- To make matters even stranger, a statement on Deagel's predictions page apparently claims that the population movements are due to suicide and assures us that the organization is not "a merchant of death or satanic worship":

- “Historically, a shift in the economic paradigm has resulted in a death toll that is seldom highlighted by mainstream historians. When the transition from rural areas to large cities occurred in Europe, many people unable to accept the new paradigm committed suicide. They committed suicide by a psychological factor. This is not common but it is true. A new crisis combines old, well-known models with new ones. We are not a dealer in death or in satanic worship or in weapons as there are rumors floating around the Internet about this. ”
- “Take into account that the forecast is nothing more than a model, whether it is wrong or correct. It is not the word of God or some magical device that predicts the future. ”- Deagel.com
- Most of the economic and demographic data used to make the forecasts are widely available from institutions such as the CIA, IMF, UN, US government, etc.
- There is a tiny fraction of the data coming from a variety of shadow sources such as internet gurus, unsigned reports and others. But all of these sources come from the Internet and are in the public domain for at least a minority. For example, several years ago, Dagong, the Chinese rating agency, published a report analyzing the physical economy of states by comparing it to that of China, Germany and Japan. The conclusion was that the US GDP was between \$ 5,000 and \$ 10,000 billion instead of \$ 15 trillion, as the USG officially stated. We assume that official data, especially economic data, published by governments are false or distorted to some extent. Historically, it is well known that the former Soviet Union drew up false statistics years before its collapse. The West and other countries are now inventing their numbers to hide their real situation. We are sure that many people can find government statistics in their own country which, through their own personal experience, are hard to believe or are so optimistic that they may belong to another country.
- Despite the "quantity" of digital data, there is a "quality" model that does not translate directly into digital data. The 2014 strain of Ebola has a death rate of 50-60%, but tries to imagine what would happen if there was an Ebola pandemic with hundreds of thousands or millions of people infected with it. Virus. So far, the few cases of people infected with the Ebola virus have “benefited” from intensive health care with antiviral and respiratory assistance, but mostly with abundant human support from doctors and nurses. In a pandemic scenario, this type of health care will not be available for the overwhelming number of infected, leading to a dramatic increase in the death rate due to the lack of appropriate health care. The “quality” factor is that the death rate could increase by 80-90% in a pandemic scenario from the reported rate of 50-60%. The number itself does not matter what is relevant is the fact that the scenario may evolve beyond the initial conditions of a 50% balance sheet to over 90%. By the way, no pandemic or nuclear war is included in the forecast.
- The key to understanding the process America will enter the next decade is migration. In the past, especially in the 20th century, the key factor that enabled the United States to achieve its status as a colossus was immigration with the benefits of population expansion favoring credit expansion and brain drain. the rest of the world for the benefit of States. The collapse of the Western financial system will wipe out the standard of living of its people while putting an end to

Ponzi schemes such as the stock market and pension funds. The population will be hit so hard by a full array of bubbles and Ponzi schemes that the migration engine will start to work in reverse acceleration due to ripple effects, leading to the demise of states. This situation invisible to states will cascade with unprecedented and devastating effects on the economy. The offshoring of jobs will surely end with many American companies relocating abroad thus becoming foreign companies !!!!

- We see a significant portion of the American population migrating to Latin America and Asia while migration to Europe - suffering from a similar illness - will not be relevant. Nonetheless, the death toll will be horrendous. Take into account that the population of the Soviet Union was poorer than Americans today or even then. The ex-Soviets suffered during the next struggle in the 1990s with a significant death toll and loss of national pride. Could we say "twice the pride, twice the fall"? Nope. America's standard of living is one of the highest, well over double that of the Soviets while adding a service economy that will accompany the financial system. When retirees see their retirement disappearing in front of their eyes and there are no service jobs, you can imagine what will happen next. At least young people can migrate. Never in human history have there been so many elders in the population. Over the past centuries, people have been fortunate enough to reach their 30s and 40s. America's downfall is expected to be much worse than that of the Soviet Union. A confluence of crisis with a devastating result.
- The demographic crisis in the former Soviet Union countries extended for more than two decades, if we admit that it ended at the beginning of this decade (2010s). The demographic crisis will hit the world in the near future and is expected to last between three and eight decades more or less depending on technological advances and environmental issues. The consequence is more likely a frozen picture with the number of populations remaining the same for a very, very long period of time. Countries expect population figures to reflect births / deaths as well as migratory movements. Many countries will increase their gross populations as a result of immigration while their indigenous populations may decrease.
- Over the past two thousand years we have seen Western civilization built around the Mediterranean Sea move to Northern Europe, then in the mid-twentieth century move to an Atlantic axis and finally focus on the United States. United for the past 30 years. The next step will see civilization centered on Asia with Russia and China at the top. Historically, a shift in the economic paradigm has resulted in a death toll that is seldom highlighted by mainstream historians. When the transition from rural areas to large cities occurred in Europe, many people unable to accept the new paradigm committed suicide. They committed suicide by a psychological factor. This is not common but it is true. A new crisis combines old, well-known models with new ones.
- Sorry to disappoint many of you with our forecast. They have worsened more and more each year since the start of the pre-crisis in 2007. It is already said that this site is non-profit, built on free time and we provide our information and services AS IS without others. explanations and / or guarantees.

- We are not tied to any government in any way. We are not a dealer in death or in satanic worship or in weapons as there are rumors floating around the Internet about this. Be aware that the forecast is nothing more than a model, whether it is wrong or correct. It is not the word of God or some magical device that predicts the future. Posted by Guy Boulianne.

Proof the mRNA Lipid NanoParticles Distributed Throughout the Body Horrorful study reveals mRNA vaccine nanoparticles are circulated throughout the entire body: Brain, heart, liver, ovaries, testes and more

([Natural News](#)) Not surprisingly, everything the establishment tells us about Covid vaccines has been a calculated lie. One of the biggest and most treacherous lies is that “mRNA vaccine shots stay in the arm and don’t circulate nanoparticles around the body.” Now we know that is a complete lie, as new research conducted in Japan shows that Lipid NanoParticles (LNPs) containing the mRNA code are widely circulated around the body after vaccination, reaching the brain, spleen, large intestine, heart, liver, lungs and other organs.

The study paper, originally written in Japanese and auto-translated into English, can be found [at this link on Natural News servers \(PDF\)](#).

Labeled, “Pfizer confidential,” the study is known as a **bio-distribution study** that uses luciferase enzymes and radioisotope markers to accurately track the distribution of Pfizer’s mRNA LNPs across the body. The first section is labeled:

SARS-CoV-2 mRNA Vaccine (BNT162, PF-07302048)

2.6.4 Summary of pharmacokinetic study

The study reveals how mRNA LNPs are distributed across the body, even affecting ovaries and testes, raising huge questions about fertility in those receiving mRNA vaccine shots. The following chart shows the mass of LNPs (in micrograms) found in each organ following mRNA vaccination. Notice how it attacks the adrenals?

Pro-vaccine doctor raises the alarm bells: “We made a big mistake.”

A pro-vaccine doctor named Dr. Byram W. Bridle, PhD. was [interviewed by Alex Pierson of the “On Point” podcast](#). That interview is also mirrored on Brighteon.com and shown here. It is approximately 9 minutes in duration:

[Brighteon.com/3d683a15-fc3d-432d-a057-3313969eb075](https://www.brighteon.com/3d683a15-fc3d-432d-a057-3313969eb075)

In the interview, Dr. Bridle says the following stunning things. Remember as you read this that Dr. Bridle is 100% pro-vaccine and has no criticism about other vaccines: (emphasis ours)

“...the spike protein, on its own, is almost entirely responsible for the damage to the cardiovascular system. If it gets into circulation, indeed, if you inject the purified spike protein into the blood of research animals, they get all kinds of damage to the

cardiovascular system, and it can cross the blood-brain barrier, and cause damage to the brain.”

“They found the spike protein in circulation, so in the blood of 11 of those 13 healthcare workers that had received the vaccine. What this means is, so we have known for a long time that **the spike protein is a pathogenic protein. It is a toxin. It can cause damage in our body if it gets into circulation.** Now, we have clear cut evidence that the vaccines that make our bodies or the muscles or the cells in our deltoid muscles, manufacture this protein, not the vaccine itself, plus the protein gets into blood circulation. When in circulation, the spike protein can bind to the receptors that are on our platelets and the cells that line our blood vessels. When that happens, it can do one of two things. It can either cause platelets to clump and that can lead to clotting. **That’s exactly why we’ve been seeing clotting disorders associated with these vaccines.** It can also lead to bleeding. And of course, the heart’s involved, it’s a key part of the cardiovascular system. That’s why we’re seeing heart problems. The protein, it can also cross the blood brain barrier and cause neurological damage. That’s why also in the fatal cases of blood clots, many times it’s seen in the brain.”

“**In short, the conclusion is we made a big mistake.** We didn’t realize it until now. We saw the spike protein was a great target antigen. We never knew the spike protein, itself, was a toxin and was a pathogenic protein. So, by vaccinating people, we are inadvertently inoculating them with a toxin, and in some people this gets into circulation. And when that happens in some people, it can cause damage, especially with the cardiovascular system. I don’t have time, but many other legitimate questions about the long-term safety there for this vaccine. For example, with accumulating in the ovaries, one of my questions is, “will we be rendering young people infertile, some of them infertile?” So, I’ll stop there.”

Dr. Bridle is now saying exactly what I have been saying, of course. The spike protein is the toxin, and it is what’s causing blood clots and deaths.

There is already talk about the possible need for Wuhan coronavirus (Covid-19) “booster” shots because getting double-jabbed with mRNA poison is apparently not enough to “stop the spread.”

Mainstream medicine, at the cue of Big Pharma, is rolling out stories as we speak claiming that people may need to get vaccinated several times a year because wealthy pharmaceutical CEOs say that not getting regularly injected for the Chinese Virus will cause another plandemic.

The claim is that the “immunity” brought about by the injections wanes over time, and must continually be re-upped in order for people to stay “safe” against future Chinese Virus infections.

Using language like “breakthrough infections” and “variants” to continue scaring the gullible, Big Pharma is already setting the stage for constant jabs that people can get regularly while on the way to work or going through the drive-thru at McDonald’s.

While not flat-out declaring as of yet that those already injected for the Chinese Virus will need to get even more injections, the media and Big Pharma are setting the stage for it by publishing nonsense about how “science” may at some point determine it to be necessary.

“To me, the threshold for boosters would be to see fully vaccinated individuals getting breakthrough infection severe enough to land them in the hospital,” stated Dr. Amesh Adalja, a senior scholar at the Johns Hopkins Center for Health Security in Baltimore.

“We have not crossed that threshold.”

America has crossed the Rubicon into total medical fascism!

Anyone familiar with even basic virology will immediately see that these so-called “vaccines” are hardly such if they do not provide lasting immunity. The whole point in getting vaccinated is to produce lasting immunity, not just a few months of protection followed by the need for ever more injections.

In what parallel universe is talk about such a scenario even taken seriously at all? At what point did modern medicine become a never-ending infomercial for nonstop Big Pharma injections?

We have really crossed the Rubicon into total medical fascism, and millions of Americans see nothing wrong with it. Heck, many of them are eager to line right up for their next injection, followed by the next, until eventually they just die from the toxic overload.

Pfizer-BioNTech and Moderna, the two manufacturers of mRNA injections for the Chinese Virus, say that their jabs only remain “effective” for six months. Pfizer officials announced back in February that they are already testing a third booster shot for those who already received the company’s first two shots.

AstraZeneca, which manufactures an adenovirus injection containing actual spike protein, says its booster shot could be necessary every three months.

Anthony Fauci is in agreement that regular booster shots are needed to keep everyone “safe” against Chinese Germs. He told a Senate subcommittee recently that he does not believe that existing Chinese Virus injection protection “is going to be infinite.”

“It’s just not,” Fauci whined. “So I would imagine we will need, at some time, a booster.”

The private corporation known as the Centers for Disease Control and Prevention (CDC) is doing its part to spread the propaganda by claiming that booster shots are perfectly normal, and exist with the dozens of other injections that are routinely given to children and newborn babies.

Regular booster shots for the Wuhan Flu of course mean big bucks for Big Pharma, which is chomping at the bit to rake in additional billions every few months on continual vaccine sales. Based on this and Americans' seeming unwillingness to resist such medical tyranny, we expect that China Virus booster shots will soon become a thing.

The Covid-19 Crime Cover Up **Dr. Judy Mikovits Predicted the Mass Murder Agenda in 2020** **She Claims Dr. Fauci Was Covering Up for His Crimes in 1984**

Dr Judy Mikovits several days ago in an interview with Mike Adams and she's dismayed, that despite all of her best efforts to warn people for the past year and the best efforts of people like Dr Luc Montagnier, Dr Dolores Cahill, Dr Sherri Tenpenny and many others who predicted this mass murder, and yet it happened, anyway.

"100 million Americans have been injected with a synthetic virus with...the most dangerous spike protein, consisting of HIV, XMRV and SARS."

FAUCI IS BEHIND EVERY PANDEMIC SINCE 1984

She reminds us that the lab origins of the current pandemic are hardly novel; that every "pandemic" has had lab origins since 1984, when Anthony Fauci started working at the NIAID, starting with AIDS.

"HIV/AIDS; you'll remember the story of how we were lied to by Tony Fauci, Bob Gallo, the people at the top of NIH, CDC, FDA, even then. So the scenario, the game plan is exactly the same..."

"We knew the spike protein, alone, the envelope protein, alone is the disease, so they can all backtrack, because they just injected everyone in the world with a synthetic deadly virus. They injected the poison. The word 'virus' means 'poison' and they injected it into everybody in the world, so they can back off now, because they've accomplished their end game. You will have customers for life and you will succeed at mass-murder."

"You're going to kill everyone with HIV, you're going to kill the 6% of America that had XMRV, when we were supposedly debunked. Xenotropic Murine Leukemia Virus is the mouse's syncytin gene. So we knew the mouse virus was in everybody from the vaccines. We knew the flu vaccine put people at risk of dying of COVID...what I think what everybody has to wake up to is NEVER, EVER, EVER get another shot and we will never, ever, ever see another pandemic."

COVID MOTIVE IS TO KILL SICK PEOPLE TO AVOID TRILLIONS IN INSURANCE

"We've been creating these in our labs my entire career. This was a job." She says their motivation is "To kill people and cover up these crimes. Remember, they're cremating people, so you can't realize it was the vaccine strain, so you can't realize that we were right in 2011, in 1984..."

"When our paper that was ultimately published in 'Science', in October of 2009...and the entire upper echelons of the government realized that these things were coming out of our laboratories and they re-wrote history then. They called it...an 'unintended spread of a Biosafety Level 2 contaminant.'"

"It's not 'Biosafety Level 2', when it's contagious cancer, contagious prostate cancer, contagious ovarian cancer, lung cancer! And who are the people now, who they're inoculating? We never inoculated an AIDS patient! They have an acquired immune dysfunction or deficiency! They can't make an appropriate antibody or immune response of any kind, that's why they're sick. So why, now would you inject them, if the intention is now to kill them and call it 'COVID' – it's not COVID! You created the cancer. You created the disease and now you're murdering the victims to cover up your crimes..."

"We've been lied to for 40 years... [HIV] was spread by a Hepatitis vaccination program with a contaminated vaccine. Who dies in the first wave of HIV? All the people that had HIV and XMRV; mouse viruses from a contaminated blood supply. This is what our book showed..."

"You mean you can't mix animal tissue, aborted fetal tissue; that you're actually injecting into the most vulnerable people another animal's virome? And other viruses? Mycoplasma, mold, Borrelia, think of the explosion of so-called 'tick-borne diseases', chronic Lyme disease. No, they're not tick-borne, when you have no possibility for exposure. They're injected! Animal cell lines all have ticks! Mycoplasma, mold, Borrelia, animals get bit in farms. Our animals are vaccinated heavily with these toxic things, activating their viromes to be expressed and when you inject it, you don't need a transmissible virus."

"So this is a big cover-up, because you're going to have to pay tens of millions of dollars...In HIV/AIDS, at the height of the epidemic, it was one million Americans. Now it's 25 to 50 million Americans. Kill them, call it 'COVID' and you don't have to pay life insurance, you don't have to pay off the penalties to take care of these people for the rest of their lives. It's trillions of dollars."

THERE IS LOTS OF HOPE

But she says there is good news in all of this and she does have a message of hope. "We know that everything that would have prevented the infection naturally will prevent the disease causation. So you want ozone therapy, you want hyperbaric oxygen therapy. You never want to take another drug...you want quercetin, you can take nice, ozonated cream, like I just put on my skin."

“Remember, I got infected with deadly XMRV from the lab...and I’m just fine...Magic Johnson’s just fine. What do you do? You stop the expression, you never inject yourself, and you don’t do immune activation. No GMOs, no fake food. Take their entire industry down. As Zach Bush says, ‘Know your farmer, not your doctor.’ Eat clean, get out of their system. End it. End it all today and you’ll realize health.”

CDC Shill Walensky: ‘Get vaccinated’

CDC Director Dr. Rochelle Walensky.

Centers for Disease Control and Prevention director [Dr. Rochelle Walensky](#) appeared on Thursday’s “[CBS This Morning](#)” to push for more Americans to get the COVID-19 vaccine.

“You know, we want to get the majority of America vaccinated,” Walensky said. “And after we get to 70%, my goal is going to be to get to 80%. I think what we really understand is that this virus is an opportunist, and it will go to places where people are not vaccinated. And so, you are safe if you are vaccinated. You are not safe if you are not vaccinated. And my job is to keep America safe.”

As far as her current worries, Walensky said, “I am worried about what’s happening around the world. I’m worried about variants, if we have continued circulating virus. I’m worried that there will be people who don’t believe that this vaccine will protect them

and that we are relying on each and every individual to step up.”

This lady is nothing more than a shill, a huckster for what we recognize as a “bioweapon” intended to send people to an early grave. She and many others have exploited the dependency of people on the medical establishment. This industry rakes in over a \$trillion dollars a year. We are the world’s leading nation for health care and yet we have the sickest nation on the planet.

Latest VAERS Data Show: 5,165 Deaths Reported Following COVID Vaccines

VAERS data released today showed **294,801** reports of adverse events following COVID vaccines, including **5,165 deaths** and **25,359 serious injuries** between Dec. 14, 2020 and May 28, 2021. By Megan Redshaw

This week’s number of reported **deaths among all age groups following COVID vaccines passed the 5,000 mark, up 759 from last week**, according to data released today by the Centers for Disease Control and Prevention (CDC). The data comes directly from reports submitted to the [Vaccine Adverse Event Reporting System \(VAERS\)](#).

[VAERS](#) is the primary government-funded system for reporting adverse vaccine reactions in the U.S. Reports submitted to VAERS require further investigation before a causal relationship can be confirmed.

Every Friday, VAERS makes public all vaccine injury reports received as of a specified

date, usually about a week prior to the release date. Today's data show that between Dec. 14, 2020 and May 28, a total of [294,801 total adverse events](#) were reported to VAERS, including [5,165 deaths](#) — an increase of [759](#) over the previous week. There were [25,359 serious injuries](#) reported, up [3,822](#) compared with last week.

Among 12- to 17-year-olds, there were [40 reports](#) of heart inflammation and [16 cases](#) of blood clotting disorders.

The screenshot shows the National Vaccine Information Center logo and search results for COVID-19 cases. It states that 294,801 cases were found from the 5/28/2021 release of VAERS data. Below this is a table titled 'Table' with columns for Event Outcome, Count, and Percent. The table lists various adverse events such as Death, Permanent Disability, Office Visit, Emergency Room, Hospitalized, etc., with their respective counts and percentages. A note at the bottom explains that the total count is greater than 294,801 because some cases have multiple vaccinations and symptoms.

Event Outcome	Count	Percent
Death	5,165	1.75%
Permanent Disability	2,804	1.00%
Office Visit	51,031	17.34%
Emergency Room	44	0.01%
Emergency Doctor/Room	58,378	19.82%
Hospitalized	17,375	5.92%
Hospitalized, Prolonged	40	0.01%
Recovered	112,304	38.13%
Birth Defect	107	0.04%
Life Threatening	8,318	2.82%
Not Serious	115,416	39.17%
TOTAL	294,801	100.00%

† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 294,801 (the number of cases found), and the Total Percentage is greater than 100.

In the U.S., [292.1 million](#) COVID vaccine doses had been administered as of May 28. This [includes](#) 123 million doses of [Moderna's](#) vaccine, 158 million doses of [Pfizer](#) and 11 million doses of the [Johnson & Johnson](#) (J&J) COVID vaccine.

Of the 5,165 deaths reported as of May 28, [24% occurred](#) within 48 hours of vaccination, [16% occurred](#) within 24 hours and [38% occurred](#) in people who became ill [within 48 hours](#) of being vaccinated.

This week's data for 12- to 17-year-olds show:

- [4,740](#) total adverse events, including [117](#) rated as serious and [four reported deaths](#) among 12 to 17-year-olds. The [youngest deaths](#) reported include two 15-year-olds (VAERS I.D. [1187918](#) and [1242573](#)), a 16-year-old (VAERS I.D. [1225942](#)) and one 17-year-old (VAERS I.D. [1199455](#)). There were other reported

deaths in children under 17 that could not be confirmed or contained obvious errors.

- [635 reports](#) of anaphylaxis among 12- to 17-year-olds with 97% of cases attributed to [Pfizer's vaccine](#), 2% to [Moderna](#) and 0.31% (or two cases) to [J&J](#).
- [40 reports](#) of myocarditis and pericarditis (heart inflammation) all attributed to Pfizer's COVID vaccine.
- [16 reports](#) of blood clotting disorders, all [attributed to Pfizer](#).

This week's total VAERS data, from Dec. 14, 2020, to May 28, 2021, for all age groups show:

- 17% of deaths were related to cardiac disorders.
- 52% of those who died were male, 45% were female and the remaining death reports did not include gender of the deceased.
- The [average age](#) of death was **74.4**.
- As of May 28, [1,831 pregnant women](#) reported adverse events related to COVID vaccines, including 596 reports of [miscarriage or premature birth](#).
- Of the [2,876 cases of Bell's Palsy reported](#), 52% were reported after [Pfizer](#) vaccinations, 41% following vaccination with the Moderna vaccine and 253 cases, or 9%, of Bell's Palsy cases were reported in conjunction with J&J.
- [280 reports of Guillain-Barré Syndrome](#) with 46% of cases attributed to Pfizer, 40% to Moderna and 20% to J&J.
- [83,684 reports of anaphylaxis](#) with 40% of cases attributed to [Pfizer's vaccine](#), 51% to [Moderna](#) and 9% to [J&J](#).
- [5,159 reports](#) of blood clotting disorders. Of those, [2,213 reports](#) were attributed to Pfizer, [1,617 reports](#) to Moderna and [1,289 reports](#) to J&J.

Seven cases of heart inflammation reported in teen boys, new study shows

On June 4, [The Defender reported](#) seven boys between the ages of 14 and 19 in the U.S. [reportedly developed](#) chest pain and heart inflammation within four days of receiving a second dose of the Pfizer vaccine, according to a [study](#) published today in Pediatrics.

Heart imaging tests detected a rare type of heart muscle inflammation called myocarditis and pericarditis. None of the teens were critically ill but all were hospitalized.

Only one of the seven boys in the Pediatrics report displayed evidence of a possible previous [COVID](#) infection, and doctors determined none of them had a rare inflammatory condition linked with COVID or pre-existing conditions. It is possible myocarditis or pericarditis may be an additional rare adverse event related to systemic [reactogenicity](#), but currently no causal association has been established between this vaccine and myopericarditis, the [authors concluded](#).

A search in VAERS revealed [628 cases](#) of myocarditis and pericarditis, among all age groups reported in the U.S following COVID vaccination between Dec.14, 2020 and May 28. Of the 628 cases reported, [392 cases](#) were attributed to Pfizer, [206 cases](#) to Moderna and [27 cases](#) to J&J's COVID vaccine.

Of the 628 total cases of heart inflammation, [40 cases](#) occurred in children ages 12 to 17, all attributed to Pfizer's COVID vaccine.

[CHD Calls on FDA to Take COVID Vaccines Off the Market - Submit a Comment](#)

Israeli health officials find probable link between Pfizer vaccine and heart inflammation
As [The Defender reported](#) June 2, Israeli health officials found a probable link between Pfizer's COVID vaccine — which the country has relied on almost exclusively in its vaccination drive — and dozens of cases of heart inflammation in young men following the second dose.

[A study by Israeli health officials](#) identified 275 cases of myocarditis in Israel between December 2020 and May 2021, including 148 cases that occurred within a month after vaccination. Of those 148 cases, 27 occurred after the first dose and 121 after the second dose. About half of the cases involved people with previous medical conditions.

Many of the [cases were reported](#) among men 16 to 30 years old, and most often in 16- to 19-year-olds. Most of the patients were discharged from the hospital in less than four days, and 95% of the cases were considered mild.

New research shows COVID vaccine spike protein travels from injection site
On June 3, [The Defender reported](#) on research obtained by a group of scientists showing the COVID vaccine spike protein can travel from the injection site and accumulate in organs and tissues including the spleen, bone marrow, liver, adrenal glands and in “quite high concentrations” in the ovaries.

COVID vaccine [researchers had previously assumed](#) mRNA COVID vaccines would behave like traditional vaccines. The vaccine's spike protein — responsible for infection and its most severe symptoms — would remain mostly in the injection site at the shoulder muscle or local lymph nodes.

The new research for the first time provided scientists the opportunity to see where [messenger RNA](#) [mRNA] vaccines go after vaccination.”

Woman who almost died after J&J vaccine stuck with \$1 million in medical bills
As [The Defender reported](#) June 2, a 38-year-old woman who suffered multiple organ failure from J&J's COVID vaccine said victims should be compensated by the government for taking the risk.

Kendra Lippy was diagnosed with [severe blood clots](#) resulting in 33 days of hospitalization. She suffered organ failure, and was left without most of her small intestine — and with crippling medical bills.

Lippy's case was one of the six that led federal agencies to temporarily [pause the J&J shot in mid-April](#).

Because the government shielded vaccine makers from liability, Lippy can't sue J&J. She also doesn't have a legitimate legal route to sue the government. The only current option for people who have suffered COVID vaccine injuries is the [Countermeasures Injury Compensation Program](#) (CICP), which turns down most applicants. Fewer than one in 10 people receive compensation after applying.

According to [data from CICP](#), more than 701 claim filings since 2010 have been received from individuals requesting compensation for injuries. Of the 701 claims, only 29 claims were compensated totaling \$6 million. Another 452 claims were deemed ineligible. There are 210 cases pending. As of May 26, CICP had received [152 claims involving COVID vaccines](#), and 293 involving other treatments.

Moderna applies for full FDA approval of its COVID vaccine

On June 1, [CNBC reported](#) Moderna asked the U.S. Food and Drug Administration (FDA) for full U.S. approval of its COVID vaccine — the second drug maker in the U.S. to seek a biologics license that will allow it to market the shots directly to consumers. The mRNA vaccine is currently only approved under an Emergency Use Authorization, which was granted by the FDA in December. The FDA approval process is likely to take months.

On May 10, the FDA amended the [Emergency Use Authorization](#) for Pfizer's COVID vaccine to include 12- to 15-year-olds. On May 7, the vaccine maker also [applied for full approval](#) of its vaccine. Currently, only Pfizer's vaccine is approved for emergency use in the 12 to 15 age group.

88 days and counting, CDC ignores The Defender's inquiries

According to the [CDC website](#), "the CDC follows up on any report of death to request additional information and learn more about what occurred and to determine whether the death was a result of the vaccine or unrelated."

On March 8, [The Defender](#) contacted the CDC with a [written list of questions](#) about reported deaths and injuries related to COVID vaccines. After repeated attempts, by phone and email, to obtain a response to our questions, a health communications specialist from the CDC's Vaccine Task Force contacted us on March 29 — three weeks after our initial inquiry.

The individual received our request for information from VAERS, but said she had never received our list of questions, even though employees we talked to several times said CDC press officers were working through the questions and confirmed the representative had received them. We provided the list of questions again along with a new deadline, but never received a response.

On May 19, a CDC employee said our questions had been reviewed and our inquiry was pending in their system, but would not provide us with a copy of the response. We were told we would be contacted by phone or email with the response.

On June 4, the CDC employee we contacted said our request was pending in the system, but nobody had responded to our inquiries. We were advised to submit our questions again, which we have done numerous times.

It has been 88 days since we sent our first email inquiring into VAERS data and reports. [Children's Health Defense](#) asks anyone who has experienced an adverse reaction, to any vaccine, to file a report following [these three steps](#).

In early 2020, there was a lot of chatter about where the virus, later named SARS-CoV-2, actually came from.

In an excellent, detailed article written earlier this month for the Bulletin of the Atomic Scientists, former *'New York Times'* science writer Nicholas Wade described how two short pieces published in March 2020 — one in *'The Lancet'* and one in *'Nature Medicine'* — determined how this chatter would be channeled to the public.

These two extraordinarily influential pieces, each published under the heading "correspondence," were parroted by mainstream media for a year. Both were plainly intended to shut down any discussion of the possibility that the virus originated in a lab. It was reported on Friday, June 4th, 2021, that under the FOIA, thousands of E-mails to and from Dr. Anthony Fauci were made available to news media, many of which are all over the Internet, suggest that we will see law suits that will take years to settle.

What we find is that all of the leading national health officials are deeply involved in a criminal cover up as well as supporting the view of a false pandemic, for reasons that have yet been fully revealed. In essence, all of this is confirmation of the dishonesty and unreliability of public and private health services. The remarks by Dr. Judy Mikovits will explain a lot of what was likely behind, or partially behind what brought this country to a virtual shutdown in March of 2020. And so far **5,165** U.S. citizens have lost their life by being Vaxxed!

Dr. Fauci E-Mails Are Indicting Proof of Bioweapon

It appears from an email sent to Dr. Anthony Fauci that the novel coronavirus, which became COVID-19, was INTENDED to be a Bioweapon. Anthony Fauci apparently KNEW this, and the email below, sent to Fauci shows how it was intentionally manufactured with Fauci's actual knowledge:

Hello Anthony,

This is how the virus was created.

Intervirion Fusion. HIV-luc(ACE2) (500 ng of p24) was mixed with 1,000 ng of p24 of HIV-gfp particles incorporating ASLV-A envelope, SARS-CoV S protein, or both envelopes in PBS at 4°C for 30 min to allow binding. Samples were raised to 37°C for 15 min to allow for conformational rearrangements. Virions were adjusted to the desired pH with 0.1 M citric acid. PBS, TPCK-trypsin (final concentration 10 µg/ml), CTSL, cathepsin B (CTSB) (final concentrations 2 µg/ml) or CTSL buffer alone was then added. Recombinant CTSL (R & D Systems) was preactivated by incubation for 15 min at 10 µg/ml in 50 mM Mes, pH 6.0, on ice. Recombinant CTSB (R & D Systems) was preactivated in 25 mM Mes, 5 mM DTT, pH 5.0, for 30 min at 25°C. After a 10-min incubation at 25°C, proteolysis was halted by the addition of 300 µl of DMEM10 containing leupeptin (25 µg/ml) and STI (75 µg/ml). Virions were then incubated at 37°C for 30 min to allow membrane fusion. 100 µl of the virion mixture was added in quadruplicate to HeLa-Tva cells pretreated for 1 h with leupeptin (20 µg/ml). The cells were spin-infected and incubated at 37°C for 5 h

Hal Turner Editorial Opinion:

If this email proves what it seems to prove, then government officials all over the world KNEW this was, in fact, a **bio-weapon**, and ALL OF THEM CONCEALED THE TRUTH FROM THE PUBLIC.

Every single government employee and official who concealed this truth should be instantly removed; no matter whom they are, or what job/office they hold. If they knew this was a Bioweapon and they intentionally concealed that fact, then they covered up the release of a deadly **bio-weapon**, and repeatedly LIED to the general public, saying it was a naturally-occurring bat-virus.

Their lies, their deliberate omissions, literally resulted in the deaths of millions around the world, hundreds-of-thousands here in the USA alone.

These liars and concealers are accomplices to what can now legitimately be called mass manslaughter. And that is being kind in presuming the release of the virus was accidental. Obviously if it comes out the release was intentional, then it would be mass murder.

The lawyers are going to have a field day with this. The wrongful death lawsuits

Oh my God

Oh, and how about all the people PUT OUT OF WORK by the release of this virus and the concealing of its status as a "Bioweapon." Every person who lost work, every BUSINESS that had to close for upwards of a year, every FAMILY who lost their life savings or their business, or their home All now have legal standing to file suit for damages they incurred and the money they lost; not only from the release of the virus, but more importantly, from it being concealed. The cover-up imparts liability!

This brings us to state officials. What did the Governors know and when did they know it? Which Governors were told this was a bioweapon?

What did state Health Officials know, and when did they know it?

State governments, if they conspired to conceal this truth, would be **accomplices after the fact** and they would incur liability as well.

A cover-up is not covered by Qualified Immunity or even by Sovereign Immunity. A wilful cover-up of a deadly situation may also be CRIMINAL. So finding out who knew what, and when they knew it, is of vital importance.

Word is out as RUMOR that the Centres for Disease Control are not actually a GOVERNMENT entity, but rather a private foundation/corporation. If this is true, then the CDC and its subsidiary NIAID will likely be financially wiped out by this revelation. As a private entity, the legal concept of Immunity might not apply.

It is also RUMORED - and as yet UNCONFIRMED - that Glaxo Smith Kline (GSK) has some ongoing relationship with, or ownership interest in, the Wuhan Virology Laboratory. Today's email revelation also begets the question "What is Glaxo-Smith-Kline's (GSK) relationship to the Wuhan Virology Lab and what did GSK know about the production of this bioweapon?" Is GSK now also "on the hook" for what this virus has

done? This is a rapidly developing story, check back for updates. . .

Adding to this story posted by Hal Turner, this is but one of 3,200 e-mails, from over 30,000 acquired through the Freedom of Information Act by 'Buzz Feed'. In another article of mine I said Dr. Fauci would be gone by July 4th. This one E-mail alone could reduce my guesstimate!

This has huge implications for the national health agencies such as the CDC, NIAID, and NIH; and will by association expose the Big Pharma corruption as well; This scandal has led to perhaps the greatest crimes against humanity since the Nuremberg trials. The real conspirators who lied about Corvid's origin, funded fraudulent trials of therapeutics, and controlled the Coved pandemic are the top public health leaders.

Keep looking up and pray for the peace of Jerusalem. It is not the end of the world, there are at least 1007 years left! Remember, Jesus told us all what was coming in advance so that we should know what to watch for as a sign of His soon calling us home. The Rapture of the church could happen at any moment, all the remaining signs are for His prophetic return!

Blessings, Jesus is at the door!
