Sentara Norfolk General Hospital in Virginia is Murdering its Patients for Money

by Paul Craig Roberts

How many times can a man turn his head, and pretend that he just doesn't see?

Dr. Paul Marik is chief of pulmonary and critical care medicine at Eastern Virginia Medical school and director of Intensive Care at Sentara Norfolk General Hospital. He has been prevented by the hospital from saving patients' lives with known safe treatments for Covid. Instead, Sentara requires him to use ineffective but expensive drugs like Remdesivir, which also attacks the body's organs such as the kidneys, because the hospital has financial incentives to use Remdesivir. Therefore, the hospital sacrifices people's lives for its revenues.

Dr. Marik has filed a lawsuit against the hospital over its ban on administering life-saving drugs to Covid patients. In an effort to deny the doctor standing in the law suit, the hospital suspended Dr. Marik from his duties but withheld that information from the court. This article in *The Defender* is about the unethical and illegal behavior of the hospital in the lawsuit, when it should really be about a hospital murdering its patients for money: <https://childrenshealthdefense.org/defender/paul-marik-lawsuit-hospital-remdesivir-ban-life-saving-drugs/>

In his motion, Marik said patients are dying “unnecessarily and unlawfully” because Sentara Healthcare is “preventing terminally ill COVID patients from exercising their right to choose and to receive safe, potentially life-saving treatment determined to be appropriate for them by their attending physician.”

In an interview with *The Defender*, Marik said the hospital is prohibiting the use of a COVID protocol called “Math +.” The protocol includes treating COVID patients with many drugs approved by the U.S. Food and Drug Administration (FDA) which has determined the drugs are safe and effective.

Instead, according to the lawsuit, Sentara recommends doctors use “toxic drugs” like Remdesivir — an expensive medication associated with severe side effects — because the hospital receives a bonus each time doctors prescribe it.

A person naturally wonders how many people actually died from Covid as compared to the ones hospitals killed for money.

The real reason the Government wants you to get a COVID-19 Booster Jab every 3 months is because the Vaccinated are developing a new form of AIDS

By [The Exposé](#) on [November 30, 2021](#)

The UK's minimum gap for Covid-19 booster jabs will be halved from six months to three, after the UK Government accepted advice from the Joint Committee on Vaccination and Immunizations to speed up the programmer.

Criminally, the Government also accepted the [JCVI's advice](#) to offer all children over the age of 12 a second dose of the Pfizer vaccine, twelve weeks following the first dose, despite knowing the risk of myocarditis and pericarditis is much higher following the second dose.

The UK Government and its scientific advisers claim that the reason for cutting the time people must wait to get a booster dose of the Covid-19 vaccine to just three months, is to limit the spread of the alleged new Omicron variant, of which they know next to nothing about.

But the real reason is that they know from their own data the Covid-19 vaccines are decimating the immune systems of the vaccinated and they urgently need to get the boosters into arms to halt the progression of vaccine induced Acquired Immunodeficiency Syndrome.

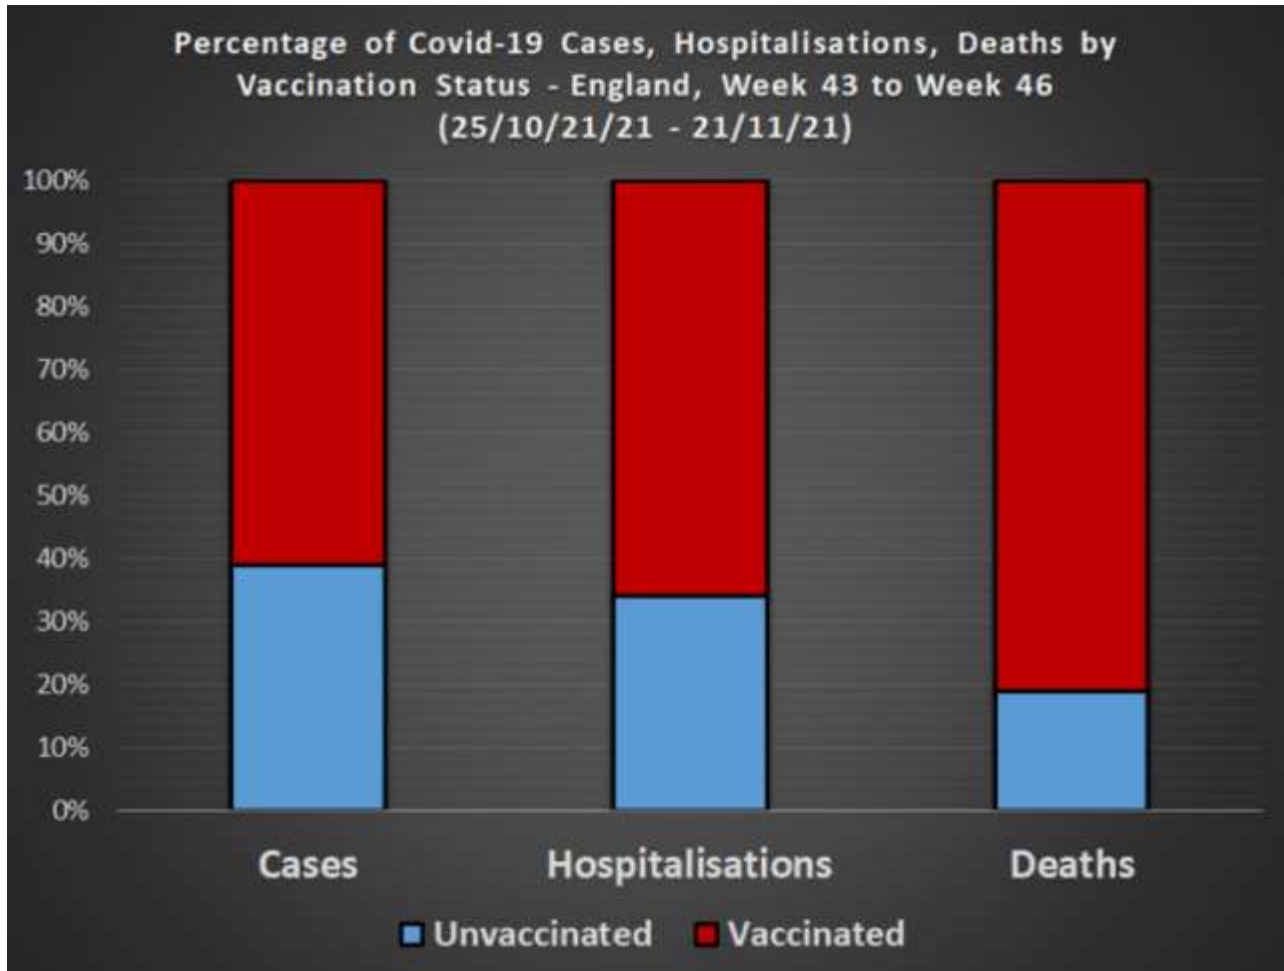

With the [most recent data](#) showing the vaccinated population accounted for 61% of all cases, 66% of all hospitalizations, and 81% of all Covid-19 deaths between October 25th and November 21st

But whilst the number of Covid-19 deaths have increased significantly alongside the percentage attributed to the fully vaccinated since June, other things have decreased significantly, but unfortunately for the vaccinated population, what's decreased is the effectiveness of the Covid-19 vaccines.

Pfizer claim that their Covid-19 mRNA injection has a vaccine effectiveness of 95%. They were able to claim this because of a simple calculation ([full details of which can be viewed here](#)) performed on the number of infections confirmed amongst the vaccinated group and the not-vaccinated group during the earliest stages of the still ongoing clinical trials.

Now, thanks to a wealth of data published by the new UK Health Security Agency we are able to use the same calculation that was used to calculate 95% effectiveness of the Pfizer vaccine, to calculate the real world effectiveness of the Covid-19 vaccines, and

the data unfortunately suggests the vaccinated population are developing some new form of AIDS induced by the Covid-19 injections.

The report is accurate based upon what Indian scientists discovered in the spring of 2020 and what the Australian government discovered in early 2020. More information on this was revealed in my article Covid-19 is a Retrovirus. Link: [Covid-19 Is A Retrovirus](#)

Covid-19 Vaxx Exemptions

Guess who's exempt from all requirements and mandates to get the COVID-19 "vaccine"? The following people are totally exempt: all U.S. Senators and House Representatives plus all Congressional staff; 6,000 White House employees; all employees of Pfizer (2,500), Moderna (1,500), and Johnson & Johnson (120,000); 15,000 CDC workers; and 14,000 FDA employees.

The United Auto Workers, the U.S. Post Office, and a number of "essential" workers are also exempt, but not the U.S. Navy, Army, Marines, Air Force, and Coast Guard. The U.S. Navy denied all religious exemptions. Wake up folks and smell the coffee!

Now do you see the elephant in the room? The Pharma-controlled politicians, the vaccine companies, the corrupt CDC and FDA health agencies owned by Big Pharma, the government officials who are forcing the death-shots on the rest of us...They are all EXEMPT from getting the jab. They know what's in the poisonous serum and what harm it can do. But you must take it or lose your job. You must get jabbed with the genetic cocktail if you want to go shopping or eat at a restaurant.

Do you see how insane and criminal this is? Do you still think it's a "crazy conspiracy theory"? You're close. It's an insane conspiracy indeed, hatched by eugenicists, depopulation advocates, super-wealthy oligarchs, and One World Government proponents over twenty years ago.

Oh, I almost forgot... Two million illegal aliens are also exempted from the vaccines by the unelected President Biden, so that they can flood the country, get bussed or jet-planned to Republican states, and spread sickness and death while they receive endless government hand-outs and vote Democrat. And the Republicans are letting it happen.

Why is Trump given a hall pass on killer injections?

By Leo Hohmann.com

The "vaccines" now being forced on the global population are shaping up to be perhaps the most successful eugenics program in human history, and the scam of the century is that these shots are being sold as a treatment that will keep you healthy, wink, wink.

Even the CDC has admitted the injections have failed to prevent people from getting the very virus it purports to "protect" us from. Nor have they stopped people from being hospitalized and they certainly haven't stopped the spread. Many of the unjabbed are no doubt catching the virus from their jabbed friends.

The death tally attributed to Covid in 2021 has already exceeded that of 2020 when there was no miracle "vaccine" available. And if we look at the most vaccinated countries in the world, Israel, Gibraltar and Singapore, they've all been experiencing a surge in deaths attributed to Covid, while the least-vaccinated nations, such as India and nations in central and northern Africa, have the lowest rates of infection and death.

Yet, for some reason, former President Trump continues to promote the "vaccine" as though it's a wonder drug sent from heaven upon him placing a personal take-out order. Trump says it's a "great vaccine" and thinks everyone should get it.

Not coincidentally, it was Trump's administration that ordered the first debilitating lockdown in 2020, an unprecedented affair that saw churches and small businesses declared "non-essential" and shuttered while big-box stores and online giant Amazon profited greatly. Today's supply-chain problems can be traced to that lockdown.

The typical development schedule for a vaccine is 10 years but Trump brags about how several stages of testing were skipped so that the Covid shots could be delivered from Big Pharma to Americans' arms within months, not years.

So I ask, why is it that Trump gets let off the hook for not only setting what amounts to a globalized eugenics program in motion with his Operation Warp Speed, but now he continues to try to sell these same experimental, gene-altering injections to his supporters as safe and effective?

After being overrun by an army of Soros- and Gates-funded fact-checkers "debunking" that the shots change your genetic code, even Forbes magazine now concedes that the fact checkers were selling us a pile of stinky manure. The shots do change your DNA, just a tiny bit, but it's good for you, says Forbes healthcare contributor Steven Salzberg.

Since leaving office, Donald Trump has repeatedly encouraged his supporters to receive the mRNA shots offered by Pfizer and Moderna or the viral-vector DNA injections offered by Johnson & Johnson.

Moderna is a relatively new company that shares a patent on its mRNA shots with the National Institutes of Health, an arm of the federal government [no conflict of interest there].

Pfizer and Johnson & Johnson are central players in the biomedical-pharma complex that was created with seed money from the Rockefeller family back in the early 20th century. Both of these players have a checkered history of manufacturing drugs that get approved by the FDA only to later be found to cause serious health side effects, up to and including death. In short, these are criminal enterprises that get cover from the corporate media, which just so happens to feed off of ad revenue provided by these very same criminal enterprises.

Trump claims to be the premier champion of America-first policies. I've yet to hear a single reporter, from the left or the right, ask him to explain how it helps America to shoot experimental gene-based "vaccines," which the chief medical officer of Moderna compared to a computer operating system, into the bodies of every man, woman and child?

Illegal immigration, a serious problem Trump likes to talk about, and rightly so, could destroy the United States as a sovereign nation over a period of a couple of decades. These vaccines have the potential to destroy our country in a couple of years. They are clearly a genocidal bioweapon being waged by globalists against the Western democracies in preparation for the Great Reset, aka global government.

These shots serve as a destroyer of bodies and a disrupter of economies. The goal is that out of the chaos a new system, a new global order, can emerge based on digital, programmable money and a more controlled digital society inhabited by fewer people.

Compliments of The Covid Blog, here are five examples in 2021 in which Donald Trump played cheerleader in chief for the experimental injections that are now killing people by the tens of thousands, causing permanent harm to others, while a complicit corporate media covers it up and social media giants censor and suspend the accounts of truth tellers.

1. Trump to Fox News' Maria Bartiromo: *"It's a great vaccine. It's a safe vaccine."* March 2021

Bartiromo asked Trump if he would recommend "the vaccine" to the Fox News audience:

"I would recommend it to a lot of people who don't want to get it. And a lot of those people voted for me frankly. We have our freedoms. But it's a great vaccine. It's a safe vaccine."

2. Trump encourages all Republicans to receive "vaccines" on Sean Hannity – April 2021

"A lot of our people don't want to take vaccines. You know, I don't know what this is exactly. Republicans? Don't know what it is. I encourage them to take it. I do." Hannity then asked Trump if he received the injections. *"Yes I did. I had [COVID] and I took [the "vaccine"]."*

"That's the worst thing the FDA could have done" re: pausing the J&J viral vector DNA injection in April after several cases of blood clots.

3. Trump to New York Post: *"I'm all in favor of the vaccine"* – April 22, 2021

Here are the rest of his quotes via 'New York Post' columnist Michael Goodwin:

"It's pretty amazing stuff. If we didn't have a vaccine, it would have been just like the 1918 Spanish flu. The vaccine is a great thing and people should take advantage of it. Nobody should be forced, we have our freedoms. But I strongly recommend it because it's a real lifesaver."

4. Trump tells crowd at Alabama rally: *"I recommend [you] take the vaccines."* August 2021

It's almost like the crowd didn't know how to react. The *"chosen one"* is encouraging them all to receive injections of an experimental nature when he's supposed to be the anti-Fauci. *"It was three days less than nine months, and you know what, it's great... but I recommend taking the vaccines, I did it, it's good, take the vaccines... But, you got your freedoms but I happened to take the vaccines. If it doesn't work, you'll be the first to know... but it is working."*

5. Trump tells conservative radio host John Fredericks: *"I'm very proud of [the vaccines]."* September 2021

"I am a strong believer. You wouldn't have vaccines if it wasn't for me. And, please, I love our people. So I want our people to take the vaccines."

Fredericks chimed in and said he got the Moderna injection, helping the former president push his narrative that Covid "vaccines" are good for us. I wonder if Fredericks and Trump have made their appointments for their "boosters" yet.

Let's be clear. Trump won the 2020 election, which was stolen by the deep state and handed to the illegitimate administration of Joe Biden. Trump should be the president right now, period. But that does not mean we should gloss over or ignore his fatal flaw, which just happens to be the biggest issue in the world right now and could even evolve into something biblical, something like the mark of the beast. If you think that sounds crazy, you haven't been paying attention.

Almost every nation seems to be operating from the same script, either directly forcing people to get these shots, or, in the case of Biden, using private corporations to force them on their employees.

Sweden is already experimenting with a program that lets you get your digital vaccine passport in a chip in your hand. Governments all over the world are experimenting with tying everyone's identity and bank account to their vaccination status. So let's stop trying to deny where this is heading. We all know where it's leading and that, left alone, it's going to bulldoze every ounce of freedom left in the world.

It's time to end this global beast system before it gets too far down the road of implementation. And the one man who has the biggest power base behind him, and could turn millions against the vaccine with a mere word from his mouth, refuses to do so. It's time to swallow your pride, Mr. Trump, and admit your "vaccines" are a complete and utter failure, and must be stopped immediately. The cost of not doing so is immeasurable in terms of human lives lost through miscarriages, blood clots, strokes, cardiac arrest due to inflammation of young hearts, and untold numbers of sterilizations. You can't say you are pro-life and support these injections, and that goes for everyone, not just Trump.

Eighty House Republicans voted with Democrats on Tuesday to pass the Immunization Infrastructure Modernization Act, which if passed by the Senate and signed into law would fund a federal vaccination database. This is dangerous legislation, more government overreach!

According to the bill, also called H. R. 550, the government would provide \$400 million in taxpayer dollars to fund "immunization system data modernization and expansion," a system otherwise defined as "a confidential, population-based, computerized database that records immunization doses administered by any health care provider to persons within the geographic area covered by that database."

The text specifically outlines an expansion of Centers for Disease Control and Prevention (CDC) and Public Health Department capabilities and the ability for state and local health departments, as well as public and private health care providers, to share health data with the federal government.

In a [statement](#), the bill's main sponsor, Democrat Rep. Ann Kuster (NH), said the system would be used to "remind patients when they are due for a recommended vaccine" and identify areas with low vaccination rates to "ensure equitable distribution of vaccines." Notably, the bill has four Republican co-sponsors: Reps. Larry Bucshon (R-IN), James Baird (R-IN), David McKinley (R-WV), and Brian Fitzpatrick (R-PA). Not one Democrat voted in opposition to the bill.

Rep. Mary Miller (R-IL), who was one of the 130 Republicans to vote "no," told Breitbart News exclusively on Wednesday that **the legislation would enable the federal government to "track" unvaccinated Americans who "will be targeted and forced to comply with Biden's crazy 'global vaccination' vision."**

"These systems are designed to allow for the sharing of crucial information and maintenance of records. Do we really trust the government to protect our medical records?" Miller said. "The bill's author even bragged in her press release that these systems will help the government remind patients when they are due for a recommended vaccine and identify areas with low vaccination rates to ensure equitable distribution of vaccines. This was clearly a legislative tool to enforce vaccine mandates and force their Orwellian rules onto those who do not comply."

Rep. Byron Donalds (R-FL) also voted "no" on the bill, citing *"Democrats' habitual pattern of reckless and wasteful spending"* in an exclusive statement to Breitbart News. The congressman said the legislation only serves to expand the power of the federal government and trample individual rights.

"This legislation would unnecessarily appropriate millions of taxpayer funds intended to expand bureaucracy in Washington. A database solely created to record and collect confidential vaccination information of Americans explicitly encroaches upon individuals' fundamental right to medical privacy," Donalds said. *"As a fiscal conservative, I cannot in good faith support legislation that contributes to the Democrats' habitual pattern of reckless and wasteful spending and the intrusive heavy hand of government."*

Miller noted that the legislation paves the way for the government to give blue states millions in taxpayer's funds to enforce vaccine mandates. According to the bill's text, the government could award grants and cooperative agreements to health departments or other local governmental entities for agreeing to adopt the new data collection guidelines set by the CDC. Any agencies hoping to receive a grant must agree to comply with security standards to protect personal health information.

The government may also develop *"public-private partnerships"* to help with *"technical assistance, training, and related implementation support."* When Breitbart News asked

Miller if public-private partnerships could potentially obscure data collection activities from the public, she said the government cannot be trusted to be transparent.

“...The government has become so large, you cannot expect them to keep anything private anymore. There is hardly any congressional oversight into studies these agencies conduct,” she added.

Kuster is urging the Senate to quickly pass the legislation, saying the pandemic showed just how underprepared the country’s “*vaccine infrastructure*” is. She emphasized that the legislation would help better prepare healthcare systems for “*future public health crises*.” She said in part:

COVID-19 pulled back the curtain on our vaccination systems and highlighted the urgent need for upgrades. I’m proud the House passed my bipartisan Immunization Infrastructure Modernization Act to expand the enrollment and training of vaccine providers, update public health information technology to efficiently manage vaccine supply, and allow patients and providers to communicate securely in real-time.

Miller contended that the government has “no reason” to collect more vaccination data on Americans.

“As I’ve said many times before, the government is not your doctor. The federal government has no business inserting itself into private healthcare matters of Americans. There is no reason for them to collect this data, it is an affront to our liberties and health freedoms,” she said. *“This kind of legislation is always passed because the government has its hands in everything nowadays, often at the expense of the freedoms and privacy of Americans. This bill would allow the government to collect, study, and share your private health data. There are endless ways the government could potentially use that information against you – purposefully and accidentally.”*

As Dr. Judy Mikovits revealed in her new book ‘Plague of Corruption’, Big Pharma has more lobbyists at the federal government level than all the senators and legislators combined. That represents 535 Big Pharma lobbyists waving cash to their re-election campaign every two years for legislators and every six years for senators. Is there any doubt why Dr. Fauci has not been arrested for his crimes. Dr. David Martin has presented the evidence to every member of the Senate and yet Dr. Death still is treated like a saint.

Dr. Fauci has committed at least 6 felonies of U.S. Statutes. Read my article posted a few days ago, [Dr. David Martin joins Stew Peters to talk about how we can end this nightmare called COVID-19.](#) Dr. Martin cited the specific felonies that Dr. Anthony Fauci has committed, but is virtually protected by corrupt politicians and bureaucrats in the National Health agencies that are supposed to protect the public health in general. Dr. David Martin and his team have provided a packet of information relative to Dr. Fauci to every member of the U.S. Senate. Sen. Rand Paul has had multiple chances to have Dr. Fauci arrested but chooses to grand-stand to use the Dr. Death crimes to

raise money for his own re-election. Robert F. Kennedy Jr. released his new book, *'The Real Dr. Fauci'*, the last week of November, 2021. It is a block-buster but the media is blocking out its existence and what it reveals about the Jesuit Dr. Fauci.

It was Dr. Anthony Fauci who has stated we will have Covid with us forever. It is most obvious that with a survival rate of the above CDC data, Dr. Fauci is either a LIAR and a CRIMINAL, or plain STUPID. Since he is a product of Jesuit-learning, I will rule out the latter that he is stupid. Jesuits are certainly not stupid, and in fact they are highly educated and skilled in the art of deception of their craft.

A saint Dr. Fauci is not! I recommend Robert Kennedy's new book *'The Real Dr. Fauci'*. He is a modern-day Josef Mengela from a tragic era of civilization, repeating itself!

OBEY THE FAUCI: Cardiology researchers are BURYING their own research showing spike protein mRNA damage due to fear of losing grant money controlled by Fauci.

Dr. Fauci demands Fox punish Lara Logan for comparing him to Nazi 'Angel of Death' Josef Mengele: Hints at legal action as he calls the attack 'slandorous' and 'disgusting' might be a bit premature once you read Robert Kennedy's new book *'The Real Dr. Fauci'*! It was my thought all along that Dr. Fauci's own words would convict him of his crimes.

Dr. Anthony Fauci criticized Fox Nation host Lara Logan Thursday for her comments comparing him to an infamous Nazi war criminal earlier this week, calling the conservative journalist's comparison 'slanderous' and 'disgusting.'

Speaking to MSNBC host Chris Hayes Thursday night, Fauci called on Fox to take disciplinary action against the journalist - who faced backlash Monday after she compared the chief White House medical adviser to Josef Mengele, a Nazi doctor whose hideous experiments on Jewish concentration camp victims during World War II earned him the chilling moniker 'Angel of Death.'

"It's an insult to all of the people who suffered and died under the Nazi regime in the concentration camps," Fauci, 80, fumed on Hayes' primetime political commentary program All In.

"I mean, it's unconscionable what she said."

"What I find striking, Chris," the irate immunologist continued, *"is how she gets no discipline whatsoever from the Fox network."*

"How they can let her say that with no comment and no disciplinary action? I'm astounded by that!"

Logan, 50, slammed Fauci Monday during a discussion on [Fox News](#) Primetime about the Biden administration's response to the new super-mutated [Omicron COVID-19](#) variant.

Fox Nation presenter Lara Logan sparked a firestorm on Monday when she compared Dr Anthony Fauci to the Nazi doctor Josef Mengele.

During the televised talk, the journalist - whose career took a hit in 2013 when a 2012 report on the Benghazi attack from the then CBS correspondent was exposed as false - offered her insight on the emergence of new Omicron variant after host Pete Hegseth, a known critic of coronavirus vaccine mandates and masking policies, accused the Biden administration of overhyping the still largely unknown strain.

'There's no justification for putting people out of there jobs or forcing mandates for a disease that's ultimately very treatable, it's cheap to treat, medicines are available all over the world, and it has death rates that compare very much to seasonal flu,' Logan declared during the Monday night discussion.

“This is what people say to me, that he doesn't represent science to them. He represents Joseph Mengele,' Logan said of Dr Fauci. Mengele, dubbed the 'Angel of Death,' was a doctor at the Auschwitz death camp in occupied Poland who performed hideous experiments on prisoners.”

The South African journalist, who joined Fox last year, then set her sights on Fauci, and made the contentious comparison.

“In that moment, what you see on Dr. Fauci, what people say to me, is that he doesn't represent science to them. He represents Josef Mengele – the Nazi doctor who did experiments on Jews during the second world war and in the concentration camps.”

Logan added: *“I'm talking about people all across the world who are saying this.”*

"The response from COVID,' she continued, 'what it has done to countries everywhere, what it has done to civil liberties, the suicide rates, the poverty - it has obliterated economies. The level of suffering that has been created because of this disease is now being seen in the cold light of day, i.e. the truth - and people see that there is no justification for what is being done."

The comments prompted immediate backlash from a slew of social media users and organizations aligned against anti-Semitism, like the Anti-Defamation League and American Jewish Committee - both demanding apologies from the firebrand journalist.

Fox, meanwhile, has remained silent amid the controversy - whereas Logan has stood by her comments, going as far as to encourage attacks on the Auschwitz Museum for condemning her Nazi analogy.

Appearing on MSNBC's All In on Thursday night, Fauci was asked by host Hayes to weigh in on the Fox personality's incendiary remarks, playing a short clip highlighting Logan's attack on the medical adviser - hours after he appeared at a press conference beside President Joe Biden to talk about the new variant, encouraging Americans to get renewed doses of the vaccine to quell its spread.

"I know that you want to talk about Omicron and I want to talk about Omicron, and I want to talk about the winter," Hayes, 42, began in the Thursday interview.

"But I feel like I'm talking to you and you've become this character, in the imagination of tens of millions of people in this country, because they think that you represent some tyrannical plot to keep the boot of COVID restrictions on the neck of free people."

The anchor then asked Fauci how he felt about Logan's comments, spurring the medical professional to go on a tirade condemning the journalist. *"I just wonder how you respond to that,"* Hayes asked.

"Look, Chris," Fauci began after viewing the contentious clip, visibly agitated. *"I think the response is with so many people throughout the country and the world are responding to that absolutely preposterous and disgusting comparison that she makes."*

Fauci added: *"So not only is she being slanderous and disrespectful to so many people who were killed in the concentration camps by Dr. Mengele, but she absolutely has no idea what she's talking about. She's completely incorrect in everything she says."*

Republican Senators Paul and Cruz slammed the scientist Sunday, after Fauci stated during an interview on CBS' Face the Nation that those who criticize him actually criticize science.

Republican Senators Rand Paul and Ted Cruz slammed Fauci on separate Fox News interviews Sunday, after the White House's chief medical adviser stated during an

interview on CBS' Face the Nation earlier that day that those who criticize him criticize science.

Paul slammed Fauci for displaying 'absolute hubris' through his comments, which he viewed as overly brazen, while Cruz contended that Fauci has done more to hurt the credibility of science and doctors by being 'dishonest,' 'political,' and 'partisan.'

During the interview, Fauci dismissed the political attacks against him as nothing more than '*nonsense*' and '*noise*.'

Fox talking head Tucker Carlson also took a shot at Fauci this week, after his appearance alongside Biden Monday, comparing the infectious disease expert to another disreputable figure from that period of history - Fascist dictator Benito Mussolini. 'After two years of being nonstop media adulation, Tony Fauci has morphed into an even shorter version of Benito Mussolini,' Carlson condescendingly commented during Monday's installment of Tucker Carlson Tonight - ignoring the fact that Fauci and the Italian leader both stand, and stood, respectively, at 5-foot-7.

Despite his status as a target for criticism from right-wing figures for more than a year, since the start of the pandemic, the nation's foremost disease expert seems to no longer be shying away from such attacks - perhaps spurred by Logan's comments earlier in the week.

Prior to his interview with Hayes, Fauci was lauded by President Biden Wednesday for his strategies to quell the spread of the coronavirus, as the politician unveiled his plan to deal with the new Omicron variant this winter.

Saint Anthony Fauci might need the pope to get him off from his crimes of 50 years as Director of NIAID, where he has squandered billions of taxpayer dollars!

([Natural News](#)) There is a [massive cover-up](#) taking place with regard to the substantial spike in heart disease that is now occurring ever since Wuhan coronavirus (Covid-19) “vaccines” were introduced under Operation Warp Speed.

Dr. Aseem Malhotra appeared on *GB News* (U.K.) to discuss the findings of a new abstract published in the journal *Circulation*, which basically found that cardiovascular events are skyrocketing now that hundreds of millions of people have gotten injected.

'They aren't going to publish their findings, they are concerned about losing research money'.

Dr. Aseem Malhotra reveals a cardiology researcher found similar results to a new report showing an increase in risk of heart attack following the mRNA COVID vaccine.
— GB News (@GBNEWS) [November 25, 2021](#)

What used to be an 11 percent risk of heart attack over five years among those with some form of underlying heart disease has soared to 25 percent. The inflammatory markers associated with heart disease progression are basically now [off the charts](#), and the only thing that has noticeably changed was the introduction of the jabs.

Since one study is typically not enough to prove something like this, Dr. Malhotra also referenced additional research at a prestigious British research institution that he says a whistleblower told him is being suppressed due to fear that the pharmaceutical industry will stop supplying grant money.

Researchers in the department of that facility that deals with this kind of thing identified a direct link between inflammation around the coronary arteries and the injections they are calling covid “vaccines.”

“We know since July there’s been almost 10,000 excess non-covid deaths,” Dr. Malhotra told the host. *“And most of those, or a significant proportion of those, have been driven by circulatory disease, in other words heart attack and stroke.”*

“There’s been a 30 percent increase in people dying at home, and often these are because of cardiac arrest.”

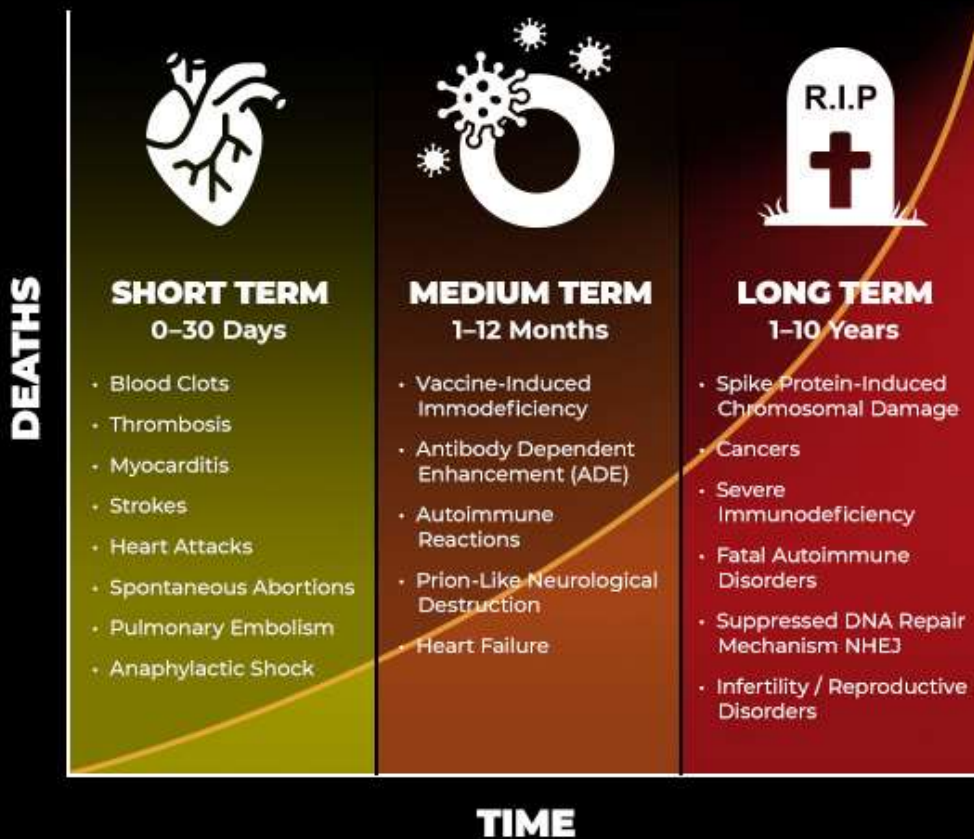

Dr. Malhotra’s own father is part of these statistics as he died of cardiac arrest at his home on July 26.

Plandemic tyranny needs to end otherwise mass genocide will continue unabated

Another contributing factor to this sudden and dramatic rise in cardiac events are the lockdowns, which have driven many people to adopt very unhealthy lifestyles marked by sedentary behavior and junk food binge eating.

“People’s diets got worse in general over lockdown and there was pandemic stress,” Dr. Malhotra further explained. *“Chronic psychological stress is a significant risk factor.”*

THE **THREE PHASES** OF COVID VACCINE MORTALITY

**Covid vaccines are known to
cause myocarditis.**

**Myocarditis alone is fatal in 56% of patients
in less than 5 years. Giant-cell myocarditis
causes over 80% mortality in 5 years.**

Feb. 14, 2006, Vol 113, Issue 6.

Since very few people are taking any of this seriously, probably because of the political ramifications, Dr. Malhotra is calling for an investigation, particularly by the Joint Committee of Vaccines and Immunization (JCVI).

"I personally think this needs investigating, so I think the Joint Committee of Vaccines and Immunization should absolutely investigate this," he said.

"I think that the researchers need to take a look in the mirror and realize that they should publish this stuff because their duty primarily is to patients, not the interests of the drug industry," he further added.

Policymakers also need to stop tyrannizing people with lockdowns, mask mandates and other forms of medical fascism and terrorism. These "cures" for an alleged virus are worse than the supposed disease itself.

"It's high time that policymakers around the world put an end to the mandates," Dr. Malhotra says. *"History will not be on their side and the public will not forgive them for it"* if they do not, he added.

According to a commenter on Twitter, Prof. Norman Fenton from the [Queen Mary University of London](#) actually had his work censored by the U.K. government and the Office for National Statistics (ONS).

"His paper querying the statistics U.K. government / ONS were using was refused from being published," this person wrote in a plea. *"Please interview him. Something unethical is going on. We are being manipulated."* Chinese Virus injections are killing thousands.

Top 9 non-Covid-caused ways people are dying shortly after getting Covid vaccines

From Mike Adams, the Health Ranger

#1. [Blood clots](#) from Covid jabs cause myocarditis, heart attacks and strokes.

#2. Vaccine-induced death described as "died suddenly" or "[died unexpectedly](#)" from unknown (or natural) causes, even with perfectly healthy athletes and soldiers.

#3. Suicide from isolation, destitution, [hopelessness from lockdowns](#), social distancing, closed businesses, virtual school/life, and fake friends on social media.

#4. Pre-existing conditions/diseases driven to the brink by the Covid clot shots that cause severe inflammation, [vascular degeneration](#), loss of oxygen and nutrient flow in the blood.

#5. “Vaccidents” – deadly automobile or airplane accidents caused by adverse events from Covid jabs that take place while driving/flying; such as loss of consciousness, mini-stroke, anaphylaxis, etc.

#6. The Covid vaccines [lower immune system function](#) (ADE) causing the person to die from just about any bacterial, viral, parasitic or pathogenic infection.

#7. Bacterial infections of the mouth, throat and lungs from wearing a mask all day turn into pneumonia, which ends up killing the person.

COVID mRNA shots are a ‘technology designed to poison people’: Canadian doctor

Tue Nov 23, 2021 - 4:57 pm EST

WATERLOO, Ontario ([LifeSiteNews](#)) — A Canadian doctor and microbiologist explained the toxic dangers of the mRNA COVID vaccines and why he considers the shots a “*technology designed to poison people.*”

Dr. Michael Palmer, a Canadian board-certified doctor, medical microbiologist, and professor of pharmacology and toxicology at the University of Waterloo, [briefly explained](#) in a video posted online last month how the mechanisms within the novel mRNA COVID-19 vaccines function. He also articulated why he thinks the experimental injections present a serious and potentially fatal toxicity risk to recipients.

“[The mRNA shots] have two components. One is the messenger RNA (mRNA) which contains the blueprint for ... the spike protein that occurs normally on the surface of the virus particles, and the idea is to sneak this messenger RNA into our own body cells in order to have them make the actual protein to which the immune system responds to,” Palmer explained.

“The second component is the lipid nanoparticles,” the doctor continued. *“These lipids, fat-like molecules, they encase the messenger RNA and they serve two purposes. One is to protect the messenger RNA while it is in transport and secondly also to help it enter the body cells.”*

According to Palmer, the issue that arises from this is that one of the components of these lipid nanoparticles, the “*cationic*” or “*electrically positively charged lipid,*” is “*known to be quite toxic*” as a “*general property.*”

As a result, once these toxic lipids enter the cell, *“they tend to disrupt the mitochondrial respiration, the cell respiration,”* which is a process that humans need *“for producing energy.”* Palmer states that if this process is disrupted, the oxygen from respiration is not properly *“reduced to water”* but instead is reduced to *“reactive oxygen species”* that can *“react with anything,”* including *“our DNA”* in a way that inflicts *“damage.”*

Even worse, Palmer elaborates that the result of this mechanism is the same result radiation treatments for cancer patients produce, which he says means there are strict limits on how much the human body can withstand before dying.

“With radiation there is a ... total lifetime dose limit that you can survive,” Palmer outlined. *“What that means is the total lifetime dose of these messenger RNA vaccines that you can tolerate before you die is limited. We don’t know the exact amount because there [is] simply not enough experimental data.”*

“That’s one of the great scandals of these vaccines is that no proper toxicity studies have been carried out ... But ... we can be certain that in principle, we can be quite certain that the total dose of these vaccines that you can tolerate before you die is limited,” Palmer added. *“So this is really a technology designed to poison people, there’s really no two ways about it. That is my considered opinion as a medical doctor.”* This is not the first time Palmer has sounded the alarm regarding the COVID-19 vaccines. In October, Palmer [wrote a letter to his employer](#), the University of Waterloo, condemning them for imposing a vaccine mandate for everyone wishing to go on campus.

At the time, Palmer fielded similar concerns regarding the safety of the experimental jabs and told [LifeSiteNews](#) by email that his opposition to the vaccine was *“not in spite of [his] medical education, but BECAUSE of it.”*

“There is just no way that any competent medical scientist who makes an honest effort to himself could not see that these vaccines – in particular the mRNA vaccines, which are touted as ‘the safe choice’ – will cause grave harm, and with a sufficient number of cumulative doses certain death.”

Despite approval from the likes of Health Canada, all currently available COVID-19 vaccines are experimental, with [clinical trials not set for completion](#) until 2023. Further, data from the [World Health Organization](#), the [European Union](#), and America’s [Vaccine Adverse Event Reporting System](#) (VAERS) show reports of millions of injuries and tens of thousands of deaths are linked to the shots, which is more than all vaccines combined since 1990.

Court Orders FDA To Comply With FOIA and Release Information On Pfizer Vaccine – First Batch of Documents Shows Over 1,200 Vaccine Deaths WITHIN FIRST 90 DAYS

The Food and Drug Administration (FDA) **released the first batch of documents related to Pfizer’s Covid-19 vaccine after a federal judge ordered that they must**

comply with a massive Freedom of Information Act (FOIA) request that was filed by a government accountability group called [Public Health and Medical Professionals for Transparency](#).

The esteemed group of more than 30 professors and scientists asked the federal government to share any and all data that factored into the agency's hasty decision to grant Pfizer's experimental mRNA vaccine an emergency use authorization (EUA) – which amounts to a trove of over 329,000 documents.

In a shameless effort to bury the information, the FDA challenged the FOIA request in court. After the agency was told that it must turn over the documents, **Justice Department lawyers representing the FDA asked a federal judge to allow them an unthinkable 55 years to process the request, saying that they would be able to release just 500 pages a month.**

In other words, Elon will make it to Mars way before the documents would be fully released – in the year 2076.

A [motion](#) that was also filed by the same group of doctors and scientists is currently pending in federal court that would force the FDA to expedite processing and releasing these documents.

Meanwhile, the FDA still has to comply with the original order to begin turning over documents. Lo and behold, the first release is a bombshell.

According to an official Pfizer document that is titled [Cumulative Analysis of Post-Authorization Adverse Event Records Reports](#), **in just the first 90 days of the vaccine's roll out under the FDA's EUA – from December 1st, 2020 – February 28th, 2021 – there were TENS OF THOUSANDS of reported adverse reactions, including OVER 1200 DEATHS.**

The report only included adverse events to the vaccine that researchers considered “serious cases,” **there were thousands more submissions that were left out of this data.**

Any cases deemed “non-serious” would be processed within 90 days, **but this report was released before 90 days of Pfizer's vaccine being available had even passed.**

*“Due to the large numbers of spontaneous adverse event reports received for the product, **the MAH has prioritized the processing of serious cases**, in order to meet expedited regulatory reporting timelines and ensure these reports are available for signal detection and evaluation activity.*

Non-serious cases are processed as soon as possible and no later than 90 days from receipt. Pfizer has also taken a multiple actions to help alleviate the large increase of adverse event reports.”

In all, the report states that there were a **total of 42,086 case reports of individuals who had an adverse reaction to Pfizer's vaccine worldwide**, with the largest number (13,739) coming from the United States and from the UK (13,404).

According to the documents women (29,914) were over **3x more likely to experience a reaction** than men (9182). **A total of 1223 individuals had a fatal reaction to the experimental Pfizer vaccine.**

How did the FDA not immediately pull the experimental jab out of circulation? Let alone grant multiple extensions of the EUA to Pfizer while working with the fraudulent Biden regime to push a needle into the arm of every single American.

The document also makes it clear that the data only includes *“recorded adverse events,”* which even the author admits is likely just a portion of the true number of adverse reactions that took place.

Again, keep in mind, this is within the first 90 days of the Pfizer jab's availability.

From the Pfizer document:

“Reports are submitted voluntarily, and the magnitude of underreporting is unknown.”

“Some of the factors that may influence whether an event is reported include: length of time since marketing, market share of the drug, publicity about a drug or an AE, seriousness of the reaction, regulatory actions, and awareness by health professionals and consumers of adverse drug event reporting, and litigation.”

Pfizer's “confidential” Covid-19 vaccine adverse reaction review ends with thousands of conditions that are of “special interest” and could possibly develop after taking their experimental jab. The single-space typed list continues for an astonishing 9 pages.

Yet somehow the paper concludes that the “review of available data” was good enough and demonstrated a “favorable benefit-risk balance” for the rushed vaccine.

What's the benefit-risk balance on a virus that has a 99.9% recovery rate? The benefit – at least for Pfizer – is clear; It doesn't matter how many otherwise healthy lives are lost – they are CASHING IN to the tune of \$1,000 PER SECOND with a projected \$36 BILLION in profit this year from the vaccine alone – it's criminal.

The FDA clearly agreed with Pfizer, extending the EUA despite the high number of deaths and serious reactions in the short amount of time Pfizer's jab had been available.

What else are they hiding?

This is a stunning report and certainly refutes Alfred Bourla's remarks in what was included in last week's Mass Murder #39 and all that talk about what his mother and father taught him. They obviously taught him that it is OK to lie, steal and commit manslaughter / murder under Big Pharma protection from being sued for damages. This report is justification for anyone never again be coerced into receiving an unproven vaccine product. The EUA procedure should be revoked with prejudice!

"Sudden Deaths" of Children Under the Age of 12 Start Surfacing After COVID-19 Shots Approved for This Age Group

by **Brian Shilhavy**
Editor, Health Impact News

The surge in "sudden deaths" now being reported on a daily basis has apparently begun in children under the age of 12, as children between the ages of 5 and 11 were recently approved for injections by the Pfizer COVID-19 shots.

Unless a grieving parent works up enough courage to admit they made a mistake in letting their child get one of these bioweapon shots, and is willing to face the backlash that will certainly come from those in the Vaccine Cult, which will probably include their own family members, do not expect the media to even mention the COVID-19 "vaccination status" of these sudden deaths.

Tragically, the two unexpected deaths of these children that we are reporting on today both happened on Thanksgiving Day last week.

Juliana Rechten. 11-year-old Juliana Rechten, of Matawan, New Jersey, passed away suddenly on Thanksgiving Day, November 25, 2021, according to her obituary.

Like many other sudden deaths being reported right now, Juliana was apparently athletic.

Juliana Rechten, 11, of Matawan, New Jersey, passed away suddenly on November 25, 2021. She was born on January 11, 2010 in Long Branch, New Jersey, and has spent her childhood growing up in Hazlet and Matawan. Juliana was a 6th grade student at Matawan Aberdeen Middle School. Juliana was a beautiful, vibrant young girl. She loved huskies, and especially adored her beloved dogs, Stasia and Blu. Juliana also enjoyed playing basketball and was planning on trying out for her school basketball team next school year. ([Source](#).)

She reportedly died in her sleep, and the cause of her death “was not made known to the public.”

Juliana Rechten Death, Cause Of Death – *Juliana Rechten age 11 has passed away peacefully on Thanksgiving morning Thursday, November 25, 2021. [Justine Marie](#) Shuey announced the passing of Juliana Rechten on her Facebook page. Juliana’s cause of death was not made known to the public.*

“Thanksgiving morning Juliana Rechten, a bright, beautiful, healthy 11 year old didn’t wake up. It seems she passed away peacefully in her sleep. I’ve known her father since

I was even younger than that and I can't even imagine what her family is going through right now. A GoFundMe has been started to raise funds for funeral expenses. Please donate if you can, share if you can't." [Justine Marie Shuey](#) posted on her Facebook page. ([Source.](#))

Destiny Gibson.

Destiny Gibson, a 9-year-old girl from Rhode Island, died “unexpectedly” on Thanksgiving Day due to a severe asthma attack.

Community mourns sudden death of Doran student – by Audrey Cooney, [The Herald News](#)

A local family and their community are left mourning after a beloved young girl died unexpectedly last week.

“There are no words for the pain within our family at this time,” Erica Gibson said about her niece, Destiny Gibson. “Destiny was an outgoing child filled with love and light that she shared with everyone she comes in contact with.”

Destiny, 9 years old and a third grade student at John J. Doran Community School, suffered a severe asthma attack and died at her family’s Fall River home on Thanksgiving.

Eric Bradley, Doran’s principal, said on Monday they had extra counselors from across the Fall River school district on hand at the school to speak with students who needed support. Other administrative staff worked at Doran to free up more counselors from things like lunch and recess duty.

He said that, especially because students attend Doran from kindergarten through eighth grade, the school feels like a real family and has been hit hard by the sudden loss of a student.

“We definitely recognize that there’s no one correct way to manage grief. We’ve been really trying to let kids feel how they need to feel and have the adults here for them so they can feel heard and safe and remind them they’re going to be okay,” he said. ([Full article.](#))

There is no mention of her having any previous issues with asthma, and she too appeared to be athletic based on what her family wrote on their [GoFundMe page for her.](#)

Hi, my name is Erica Gibson (Auntie Erica). I am fundraising for the family of my 9 year old niece Destiny Gibson.

On Thanksgiving morning, while preparing and excited to spend family time together, Destiny began screaming in panic for her mother Tiffany.

She was mounting a devastating Staticus Asthmaticus attack and informed her mother immediately to call 911. Desperately performing CPR on her own child while waiting for the EMS, Destiny lost all blood flow and oxygen and passed out.

With no pulse, she was pronounced dead upon arrival by EMS. She was intubated and transported to our local emergency room and then to Hasbro Children’s Hospital in Providence, RI.

She has been sustained on life support and physicians have desperately searched for any brain activity. With no evidence found after thorough examinations Destiny has joined our deceased loved ones in heaven.

Destiny was an outgoing child filled with love and light that she shared with everyone she comes in contact with. She loved soccer and Karate, playing with her friends and cousins and enjoying life to the fullest. There are no words for the pain within our family at this time.

This family is God loving and we are struggling to grasp why this precious angel is being taken into Gods arms so early and young. ([Full article.](#))

Without confirmation from the families that these two young girls had received a dose of the Pfizer shots, we have no way of knowing if the shots were involved in their deaths.

But sudden, unexplained, deaths in this age group are extremely rare, and this continues a trend of young people, especially those involved in athletics, suddenly dying, usually due to some issue with their heart, as myocarditis and pericarditis are known side effects of the COVID-19 shots.

And while the families of these children are apparently not revealing the vaccination status of these young girls who just died, here are some testimonies from parents who did.

This is on our [Bitchute channel](#). Share this video far and wide, because these voices are NOT being heard in the pharma-owned corporate media.

5-Year-Old Died 4 Days After Pfizer Shot, CDC VAERS Data Show

VAERS data released today by the Centers for Disease Control and Prevention included a total of **927,740 reports of adverse events** from all age groups following COVID vaccines, including **19,532 deaths** and **146,720 serious injuries** between Dec. 14, 2020, and Nov. 26, 2021.

The Centers for Disease Control and Prevention today released new data showing a total of [927,740 reports of adverse events](#) following COVID vaccines were submitted between Dec. 14, 2020, and Nov. 26, 2021, to the Vaccine Adverse Event Reporting System (VAERS). VAERS is the primary government-funded system for reporting adverse vaccine reactions in the U.S.

The data included a total of [19,532 reports of deaths](#) — an increase of 283 over the previous week — and [146,720 reports of serious injuries](#), including deaths, during the same time period — up 3,325 compared with the previous week.

Excluding “[foreign reports](#)” to VAERS, [672,373 adverse events](#), including [8,986 deaths](#) and [57,143 serious injuries](#), were reported in the U.S. between Dec. 14, 2020, and Nov. 26, 2021.

[Foreign reports](#) are reports received by U.S. manufacturers from their foreign subsidiaries. Under U.S. Food and Drug Administration (FDA) regulations, if a manufacturer is notified of a foreign case report that describes an event that is both serious and does not appear on the product’s labeling, the manufacturer is required to submit the report to VAERS.

Of the 8,986 U.S. [deaths reported](#) as of Nov. 26, 20% occurred within 24 hours of vaccination, 26% occurred within 48 hours of vaccination and 61% occurred in people who experienced an [onset of symptoms](#) within 48 hours of being vaccinated.

In the U.S., 454 million COVID vaccine doses had been administered as of Nov. 24. This [includes](#) 264 million doses of Pfizer, 173 million doses of Moderna and 16 million doses of Johnson & Johnson (J&J).

Every Friday, [VAERS](#) publishes vaccine injury reports received as of a specified date. Reports submitted to VAERS require further investigation before a causal relationship can be confirmed. Historically, VAERS has been shown to report only [1% of actual vaccine adverse events](#).

U.S. VAERS data from Dec. 14, 2020, to Nov. 26, 2021 for 5- to 11-year-olds show:

- 2,586 [adverse events](#), including [34 rated as serious](#) and 2 [reported deaths](#). One death occurred in an 11-year-old girl from Georgia vaccinated Sept. 14, prior to the authorization of Pfizer's COVID vaccine in the 5 to 11 age group.

The second death (VAERS I.D. [1890705](#)) occurred in a 5-year-old girl who died four days after receiving her first dose of Pfizer.

- 1,581 [adverse events](#) have been reported in the 5 to 11 age group since Nov. 1.

U.S. VAERS data from Dec. 14, 2020, to Nov. 26, 2021 for 12- to 17-year-olds show:

- 23,871 [adverse events](#), including [1,453 rated as serious](#) and [31 reported deaths](#).

The most recent death involves a 16-year-old girl from Georgia (VAERS I.D. [1865389](#)) who died reportedly from a heart condition and multi-organ failure two days after receiving Pfizer's COVID vaccine.

- [60 reports](#) of anaphylaxis among 12- to 17-year-olds where the reaction was life-threatening, required treatment or resulted in death — with 96% of cases attributed to [Pfizer's vaccine](#).
- [563 reports](#) of myocarditis and pericarditis (heart inflammation) with [553 cases](#) attributed to Pfizer's vaccine.
- [139 reports](#) of blood clotting disorders, with all cases attributed to Pfizer.

U.S. VAERS data from Dec. 14, 2020, to Nov. 26, 2021, for all age groups combined, show:

- 19% of deaths were related to cardiac disorders.
- 54% of those who died were male, 42% were female and the remaining death reports did not include gender of the deceased.
- The [average age](#) of death was **72.7**.
- As of Nov. 26, [4,480 pregnant women](#) reported adverse events related to COVID vaccines, including 1,411 reports of [miscarriage or premature birth](#).
- Of the [3,219 cases of Bell's Palsy](#) reported, 51% were attributed to [Pfizer](#) vaccinations, 41% to [Moderna](#) and 8% to [J&J](#).
- 764 reports of [Guillain-Barré syndrome](#) (GBS), with 42% of cases [attributed to Pfizer](#), 29% to [Moderna](#) and 27% to [J&J](#).
- [2,163 reports](#) of anaphylaxis where the reaction was life-threatening, required treatment or resulted in death.
- [11,334 reports](#) of blood clotting disorders. Of those, [5,024 reports](#) were attributed to Pfizer, [4,037 reports](#) to Moderna and [2,222 reports](#) to J&J.
- [3,257 cases](#) of myocarditis and pericarditis with [2,025 cases](#) attributed to Pfizer, [1,085 cases](#) to Moderna and [137 cases](#) to J&J's COVID vaccine.

Athletes experience devastating injuries following COVID vaccines

As [The Defender reported](#) Dec. 2, several high-performing professional athletes are facing the end of their careers after COVID vaccines destroyed their health.

World record-holder in static breath-hold freediving, veteran triathlete, professional tennis player, professional mountain biker—all high-performing athletes until COVID vaccines ruined their health + their careers.

Dagoury said he now struggles to reach an 8-minute breath-hold, feels an urge to breathe doing 40-minute dives, can't keep his heart rate low and experienced a 30% decrease in his diving performance.

Veteran triathlete Antoine Méchin, 32, is also facing the potential end to his career after experiencing a pulmonary embolism after receiving [Moderna's COVID vaccine](#).

The symptoms, which included breathing problems and arm pain, started after the first dose, but doctors brushed off his shortness of breath as related to stress and fatigue.

[Jeremy Chardy](#), a 34-year old professional tennis player ranked 73rd in the world, suspended his season due to a severe adverse reaction to a COVID vaccine, which left him unable to engage in intense activity.

[Kyle Warner](#), a 29-year-old professional mountain bike racer, developed pericarditis, postural orthostatic tachycardia syndrome (POTS) and reactive arthritis following his second dose of Pfizer's COVID vaccine.

Warner's [reaction](#) was so severe that, as of October, he was still spending days in bed, overwhelmed by too much mental or physical exertion.

Two professional soccer players collapse during games

A professional soccer player collapsed suddenly on Nov. 25, during a Real Madrid's Champions League game with Sheriff Tiraspol, a Moldovan soccer club, [ZeroHedge reported](#).

Adama Traore, 26, a winger for Sherriff Tiraspol, was seen clutching his chest as he slumped to the ground in the middle of the game as medics rushed to revive him. The reasons behind Traore's collapse and why he was suffering from chest pains have not been confirmed.

Traore's collapse occurred the night after another player, Sheffield United's John Fleck, went down during a match against Reading. Fleck was taken off on a stretcher after receiving lengthy treatment.

When a radio pundit questioned whether Fleck had [received the COVID vaccine](#), his live feed to the show was cut.

A major German newspaper, [Berliner Zeitung](#), recently published a report attempting to answer why an "unusually large number of professional and amateur soccer players have collapsed recently."

The article listed many recent cases of players who experienced heart problems or collapsed on the field — in some cases resulting in death.

Pfizer seeks authorization for boosters shots for 16- and 17-year-olds

Pfizer CEO Albert Bourla [said in a tweet](#) on Tuesday the pharma giant, along with BioNTech, formally asked the FDA to authorize COVID booster doses for 16- and 17-year olds.

If approved, the shot would be the first booster available to people under 18.

The FDA could approve [Pfizer's booster doses](#) for 16- and 17-year olds as soon as next week, according to people familiar with the matter.

COVID vaccines may be associated with heightened risk of myopericarditis among men

To help determine whether a [correlation exists](#) between COVID vaccines and myopericarditis, researchers tracked data from more than 268,000 adults in Massachusetts who received at least one dose of a COVID vaccine between August 2020 and May 2021.

The researchers compared the data to a control group made up of 235,000 of the same patients — from 2018 and 2019, well before they had received any doses of a COVID vaccine.

In a study [published](#) in the American Journal of Cardiology, the researchers found the age-adjusted incidence rate of myopericarditis in men was higher in the vaccinated than the control population, while the incidence rate of myopericarditis in women was the same between the vaccinated and control populations.

They also found an increased incidence of myocardial injury in both men and women in 2021 compared to 2019, although they suggested some of the apparent increase in the diagnosis of myopericarditis after vaccination may be attributable to factors unrelated to the COVID vaccines.

Moderna CEO says Omicron COVID booster could be ready by March

Moderna President Stephen Hoge said Wednesday boosters of its COVID vaccine targeting the [Omicron variant](#) could be ready for U.S. authorization as early as March.

Moderna is also developing a multivalent vaccine targeting Omicron and three other COVID variants, although the shot will not be available for several more months, [Forbes reported](#).

March is the earliest date an Omicron booster could be approved under current FDA guidelines, though the company can start manufacturing the vaccine during testing.

Hoge said he thinks existing vaccines “will be able to slow down, if not completely stop, the Omicron variant.”

COVID Vaccines Are a War on Children

By [Stella Paul](#) Global Research, November 24, 2021

The first battles in the Covid War on Children began with the lockdown, forcing kids into isolation, depriving them of education, smothering them with masks, strangling their innate joy and playfulness, and denying them contact with God-given images of human faces.

The tyrants won those first battles, vanquishing our kids. Children are committing [suicides](#) in numbers never before seen; their health has plummeted with terrifying rates of [obesity](#) and [diabetes](#), their intellectual and social development is languishing, and they are suffering intensely.

Now with children sicker and weaker than ever before, and with parents desperate for a return to “normal,” the tyrants are moving in for the kill with vaccines. The Pop Culture Brigade unleashed Big Bird to [tweet](#) about the joys of the jab, promised kids [super powers](#) from the vaccines in a grotesque Pfizer ad, and invited a [pop star](#) to the White House to push “*Let’s end this pandemic together*” to kids.

The medical establishment enthusiastically joined the attack. The American Medical Association [urged](#) parents to “*seize the opportunity to vaccinate younger kids against Covid-19,*” warning them, “*Now it is time for parents to act.*” The American Academy of Pediatrics [flogged](#) the need for instant FDA approval, while its New York branch demanded vaccine mandates for kids to attend school, helpfully [adding](#) that “*religious or philosophical exemptions should not be given.*”

And, of course, the government struck hard with the ultimate power of coercion. California became the first state to [mandate](#) vaccines for kids ages 5 and older, denying kindergartners an education until they’re jabbed. New York, fresh from deploying Covid to kill [15,000](#) nursing home residents, pivoted to kids with a [bribery](#) campaign conceived in the pits of hell. Mayor de Blasio announced that jabbed kids are eligible for a \$100 gift, which he cheerfully informed them “buys a whole lot of candy.” Sugar destroys the immune system and sets up kids for a lifetime of metabolic dysfunction, but who cares about that? The vaccines are for their health!

Pfizer Says COVID Vaccine for 5- to 11-Year-Olds Is Safe and Shows 'Robust' Antibody Response, Experts Say Not So Fast [What about the three deaths in the above reports. This is not vaccine health, it is Mass Murder!]

The tyrants have been consistent in their messaging onslaught from the beginning: healthy living and natural immunity play no part in overcoming Covid; only the divine gift of pharmaceutical experiments can confer redemption from the viral demon. Now the tyrants are salivating at the profits to be made by plunging lucrative gene modulators into children's flesh. Already, Pfizer is **boasting** that it will make as much money from its Covid vaccine in 2021 than it made from all its products in 2020. And wait until 2022, when Fauci **assures** us that even babies and toddlers will be stabbed with the jab! The tyrants have decreed their right to colonize and exploit your children's bodies, and your job as parents is to thank them, pay them, and submit.

In this face of this blitzkrieg of intimidation, coercion, and agitprop, how can parents protect their children? What weapons do parents have to fight back? As in any war, the way to win is through courage, unity, and knowledge of the enemy. So, I've provided some facts to fortify your information and share with others.

The vaccine is already proven to be dangerous. On November 12th, the CDC released the **latest figures** from the VAERS (Vaccine Adverse Event Reporting System). To date, children ages 12 to 17 have suffered 22,782 total adverse events, including 1,400 rated as serious, and 29 reported deaths. Among the deaths: a 17-year-old girl from Washington, a 12-year-old girl from South Carolina, a 13-year-old girl from Maryland, and a 17-year-old girl from Texas. 59 cases of life-threatening anaphylaxis were reported in this age group – with 96% attributed to Pfizer's vaccine. 552 cases of myocarditis and pericarditis (heart inflammation) were reported, with all but 10 linked to Pfizer, and 131 cases of blood clotting disorders, with 100% linked to Pfizer.

Vaccine injuries in kids are being censored from the media and buried by the FDA. Maddie de Garay is a 13-year-old girl in Ohio whose mother signed her up for Pfizer's Covid vaccine clinical trial. She is now catastrophically disabled and has been hospitalized three times in recent months. Yet Comcast **refused** to show an ad about Maddie, frustrating Maddie's mother who hoped it would force those responsible to admit to Maddie's injuries. You can see Maddie's ad **here**. Mrs. de Garay documented Maddie's medical records and **submitted** them to the CDC, FDA, and NIH's National Institute of Neurological Disorders and Stroke without getting any meaningful response. Pfizer has categorized Maddie's systemic injuries as "functional abdominal pain."

Sweden, Denmark, Finland, and Taiwan have stopped vaccinating younger groups because of reported heart damage and other injuries. (See **here**, **here**, and **here**.) All four countries report worrisome rates of myocarditis and pericarditis, which cause heart inflammation, in younger people injected with Covid vaccines. And in **Germany**, federal data shows that children aged 12 to 17 were far more likely to be damaged from Covid vaccines than from Covid. Children were hospitalized post-vaccine

with myocarditis, pericarditis, thrombosis, pulmonary embolism, and Guillain-Barre Syndrome. Around the world, children are suffering from Covid vaccines.

Pfizer conducted NO long-term studies on their vaccine's impact on kids – none, nada, zilch, zip. Pfizer [admits](#) in its application to the FDA that they will study the long-term effects on kids AFTER they receive authorization. Pfizer's clinical trials consist of just two small studies of approximately 2,000 kids each. One group was followed for about two weeks after vaccination; the other for two months. That's it. Two months! That's the entire basis for injecting millions of kids with experimental vaccines that have unknown consequences for their genetic, reproductive, neurological, immunological, respiratory, and cardiovascular health. What on earth happens to our future if something goes wrong?

Fauci and the FDA admit they don't know if the vaccines are safe for kids. "The real question that we have not yet answered is the safety data of an mRNA vaccine in young people vis-a-vis myocarditis," Fauci [told](#) Reuters in October. And Dr. Eric Rubin, a voting member of the FDA panel that endorsed the vaccine and editor-in-chief of The New England Journal of Medicine, casually [noted](#), "We're never going to learn about how safe the vaccine is unless we start giving it. That's just the way it goes." In other words, what's important to these "experts" isn't protecting your kids. It's protecting the vaccine, with your kids as the unfortunate guinea pigs.

Children's risk of Covid death or serious illness remains extremely low. Large studies in Britain [confirm](#) that children's risk of being hospitalized or dying from Covid is negligible. 25 children out of 12 million kids in Britain died of Covid, and most of them had severe co-morbidities. Furthermore, children are [not](#) significant drivers of infection, and pose almost no risk to adults. They do not get frequently infected, and if they do, they typically have mild symptoms.

Prominent doctors have formed [The Unity Project](#) to help parents and groups fight vaccine mandates for children.

The tyrants who want your children's bodies are relentless. They've orchestrated the battlefield so that you're mandated to permanently alter your children's biology with unknown substances for protection against a disease for which they're not at risk. In times of chaos and despair, return to the time-tested basics. **The best way to shield your kids is by bolstering their God-given immune system with healthy whole foods, sunshine, joyful play and exercise, sleep, and family time for gratitude. The war will be won by parents who protect their kids.**

Bill Gates Charged with Murder for COVID-19 Vaccine Death in India's High Court – Death Penalty Sought.

by **Brian Shilhavy**

Editor, Health Impact News

The Indian Bar Association is [reporting that murder charges have been filed in India's High Court](#) against two billionaires responsible for the AstraZeneca's COVID-

19 vaccine, Covishield, for the murder of a 23-year-old man who was injected with the shot.

The two named defendants are Bill Gates, and Adar Poonawalla, the CEO of Serum Institute of India (SII), reportedly the world's largest vaccine maker. According to [corporate news sources](#), Adar Poonawalla's company produces not only the COVID-19 vaccine Covishield, but also over 50% of the world's vaccines that are injected into babies.

The unnamed defendants are *“other Government officials and leaders involved in the murder of a 23 year old man, who lost his life because of vaccination.”*

Bill Gates and SII CEO Adar Poonawalla. [Image source](#)

The deceased took the Covishield vaccine by believing in the false narrative that the vaccine is completely safe and also owing to the compliance requirement set by the Railways that only double vaccinated people would be allowed to travel.

[The article also states](#) that the Government of India's AEFI (Adverse Event Following Immunization) Committee has recently admitted that the death of 33-year-old Dr. Snehal Lunawat, was due to side effects of the Covishield vaccine.

The Government of India's AEFI (Adverse Event Following Immunisation) Committee has recently admitted that the death of Dr. Snehal Lunawat, was due to side effects of the Covishield vaccine.

The said report has exposed the falsity of the claim made by vaccine syndicate that vaccines are totally safe.

You can read more about [Dr. Snehal Lunawat's murder by COVID-19 injection here](#). The article goes on to quote case law in India which:

“makes it clear that before giving a vaccine or any treatment to a person, he should be informed about the side effects of the medicine and also about the alternate remedies available.

If any person is vaccinated by suppressing the facts or by telling a lie that the said vaccines are completely safe, amount to the consent being obtained under deception.

In India, vaccination under deception or by force/coercion or by putting certain stifling conditions, is a civil and criminal wrong.”

According to the article, this makes Bill Gates and Adar Poonawalla co-conspirators to mass murder.

Bill Gates and Adar Poonawalla, the partners in manufacturing the Covishield (AstraZeneca) vaccine are made accused for their involvement in conspiracy.

*In India, the person allowing the false marketing of his product is also held to be guilty due to his act of commission and omission. In this regard the provisions of **Section 120(B), 34, 109 etc. of IPC** get attracted to make Bill Gates and Adar Poonawalla guilty of mass murders i.e. **Section 302, 115, etc. of IPC.***

If convicted, they face the death penalty.

As per the expert opinion, considering the proofs of sterling nature, Bill Gates and Adar Poonawalla will get death penalty.

A previous case against Bill Gates for murdering 8 female children during vaccine trials for the HPV vaccine Gardasil in India is also mentioned.

*The Petitioner also relied upon the criminal antecedents of Bill Gates in killing 8 female children by unauthorized trial of HPV vaccines in India and judgment of Constitution Bench of the Supreme Court in **Kalpna Mehta's Case (2018) 7 SCC 1**, which is a strong proof against Bill Gates and his vaccine syndicate.*

The India Polio vaccine program sponsored by Bill Gates is also referenced in the charges.

Petitioner has also referred to the proofs of sinister plan of Bill Gates in polio program which spoiled the lives of 4.5 lakh children in India as they suffered new type of paralysis. This is also an additional proof of Bill Gates' pervert and criminal mindset.

The article states that bail will be denied to Bill Gates, and that his assets in India will soon be confiscated.

As per experts, there is no chance of Bill Gates getting bail in the case and all the movable and immovable properties of the accused will be confiscated soon.

Citizens of India now apparently have the authority to conduct Citizen Arrests of both Bill Gates and Adar Poonawalla to hand them over to the authorities.

*Various social organizations and common people have decided to exercise citizen's right to arrest the accused as provided under **section 43 of Cr.P.C.** As per the said section, any citizen can arrest Bill Gates, Adar Poonawalla and other accused and handover them to the police.*

While it is encouraging to read that charges of mass murder are actually being filed against billionaire Globalists for their crimes against humanity for the gene-altering COVID-19 injections, the question remains as to whether or not this case will ever be brought to trial.

Does India have the ability to run a covert military operation to extract Bill Gates from the U.S., for example, and bring him to trial in India?

CV19 Booster Shot Also a Bioweapon – Karen Kingston

By Greg Hunter On November 27, 2021

By Greg Hunter's [USAWatchdog.com](#) (Saturday Night Post)

Karen Kingston is a biotech analyst and a former Pfizer employee who has researched and written about many cutting edge pharmaceutical issues. Kingston thinks that Covid 19 and the so-called vaccines and boosters are here to stay for a long time. Kingston explains, *"The reason why it keeps going is because Covid 19 is now a multi-trillion dollar industry many times over that has been forecasted out for the next ten years and beyond. I do have numerous business plans that have been put up on numerous biotech industry websites. I am in the mecca of the biotech industry. I am in San Diego, and most people do not know we are the biotech industry of the world."*

Kingston says there are untold billions of dollars being invested into CV19 injections. Just one fund alone has already invested a half billion dollars into research, and Kingston points out, *"There is a \$500 million fund that has a partnership with Qualcomm that will map out all the genetic variations of Covid 19. Covid 19 is really just code for human beings, and they want to map out our genetic makeup. So, if Covid 19 goes away, where does the half billion dollar project go? . . . They just announced here in Carlsbad, California, that they are going to create a new manufacturing facility to produce 600 million rapid Covid 19 tests a year. If Covid 19 goes away, where does that manufacturing facility and the billion dollar a year company go? These are just two small examples of tens of thousands of examples. So, that's why it's not going away. . . . That's why there are such strong mandates for our schools and for our city and state employees. . . . 740 of the 1,850 police here in San Diego are not vaccinated and don't want to be. Mayor Todd Gloria gave them two choices: You can surrender your body to be injected with this biological agent, or you can surrender your badge and gun. I gave the police a third option which was arrest the Mayor."*

Kingston says the CV19 so-called vaccines are not vaccines but bioweapons and goes on to say, *"The hot water that Pfizer is in is they never demonstrated anything even remotely being a vaccine, and their mechanism of action is defined by the FDA under viral gene-based therapy, which is what it is. They met no criteria as a vaccine. On top of that, the FDA has approved other products in this category for cancer treatments. So, if there is a serious attorney out there that wants to engage me and my analysts, this is actually a big case. Pfizer broke their (liability) shield, and the FDA was grossly negligent. The data is right there to show you this goes beyond false and misleading labeling and off-label claims They told doctors that this was a vaccine—when it's not."*

Dr. Fauci now claims that a booster is "essential" for protection against CV19. Does Kingston recommend a CV19 booster shot? Kingston warns, *"I don't think anyone should inject themselves with a bioweapon, so, no. I also think nobody should have the right to inject their children with a bioweapon. This is a firm No. This has to stop. . . . If I did not have any bad reactions (from the CV19 injections), I would drop to my knees and thank God. . . . I would pray for forgiveness that I was deceived."*

Pastor Bob's Article Confirms Karen Kingston's Claim That Covid-19 is a "Bioweapon!"

By admin on Sat, 11/27/2021

I posted an article today validating Karen Kingston's claims that Covid-19 is a Retrovirus "Bioweapon". This was confirmed by the 2008 Nobel Peace Prize in Medicine Dr. Luc Montagnier over a year ago, he confirmed the evidence of a group of Indian scientists who discovered "inserts" of HIV1 and SARS2. This report is accessible by clicking on the link below. The creator of Covid-19 "inserted" 18 fragments of HIV1 and 4 fragments of SARS2 into the genome of a common cold virus. This is equal to 92% of the HIV1 viral load that eventually attacks the human health which succumbs to ultimate death!

[Covid-19 Is A Retrovirus](#)

Dr. Luc Montagnier defined the 18 fragments of HIV1 (as = to 92%) of the full blown HIV and weakens the Immune system over time. Reports from scientists in the UK and other countries report that the vaxxed individuals are losing 2% to 8% of their immunity by the month, ultimately at a point that result in death from an overloaded immune system.

The New COVID Variant Scam was Simulated in Israel Weeks before it was "Discovered"

by **Brian Shilhavy**

Editor, Health Impact News

The flames of "COVID fear" are being stoked again, as the Big Pharma Globalists unleash their new plan to increase profits and exert more tyrannical control over

populations by using their corporate media and puppet politicians in an attempt to extend the false “COVID pandemic.”

Within just a couple of days after announcing that a “new variant” has been discovered in Africa, Big Pharma has now promised the world that they are rushing to rescue everyone with new drugs and new vaccines to fight this “deadly new variant.”

What kind of people are still watching this Hollywood-like scripted show and actually believing it is true??

For those who do not worship the medical system as their savior, it is very easy now to see through the propaganda and hype that is broadcast around the world 24/7 in an effort to usher in their Great Reset and New World Order.

Israel’s Prime Minister Naftali Bennett is seen following the completion of the COVID-19 ‘war games’ exercise. [Source](#).

What I am going to do in this article today is clearly show how this new variant they are promoting like a new motion picture that they want everyone to watch is a complete scam, and then expose just what it is they want to accomplish through this new round of fear mongering, which is the only “pandemic” that is real, a *pandemic of fear*.

All Variants are Scams as SARS-CoV-2 is a Scam.

Back in July of this year when the Globalists unleashed the “Delta variant” we [published an interview](#) with Dr. David Martin, PhD, who was interviewed by Attorney Reiner Fuellmich.

David Martin was featured in the 2020 documentary, Plandemic, where he revealed that there have been government patents on Sars Corona viruses since 1999, and that there is nothing “novel” about Sars-CoV-2.

If you have not yet watched this documentary, it is must viewing to understand how this all came about in the first place, and that it was in the planning stages for many years. See:

[PLANDEMIC: Full Feature Film Released Online Amidst Tremendous Opposition and Attempts to Censor it](#)

In his interview with Attorney Reiner Fuellmich last July, he explained how there are no variants of COVID-19. They are all computer simulations of specific gene sequences. We extracted about 19 minutes of that interview and it is on our [Bitchute channel](#).

At around the 14-minute mark of this video, Dr. Martin states:

There is no such thing as an alpha, or beta, or gamma delta variant. This is a means by which what is desperately sought is a degree to which individuals can be coerced into accepting something that they would not otherwise accept.

There has not been in any of the published studies in what has been reportedly the delta variant, there has not been a population “are not” calculated, which is the actual replication rate.

What has been estimated, are computer simulations.

There has been no ability to identify any clinically altered gene sequence, which then has a clinically expressed variation.

And this is the problem all along. This is the problem going back to very beginning of what's alleged to be a pandemic, is that we do not have any evidence that the gene sequence alteration had any clinical significance whatsoever.

There has not been a single paper, published by anyone, that has actually established that anything novel since November of 2019 has clinical distinction from anything that predates November of 2019.

The problem with the 73 patents that I described, is that those 73 patents all contain what was reported to be novel in December and January of 2019 and 2020 respectively. So the problem is that even if we were to accept that there are idiopathic pneumonias, even if we were to accept that are some set of pathogen induced symptoms, we do not have a single piece of published evidence that tells us that anything about the subclades Sars-CoV-2 has clinical distinction from anything that was known and published prior to November 2019 in 73 patents dating to 2008.

There is no, and I am going to repeat this, there is no evidence that the Delta variant is somehow distinct from anything else GISAID.

The fact that we are now looking for a thing does not mean it is a thing, because we are looking at fragments of things, and the fact is that if we choose any fragment, I could come up with, you know, I could come up with variant "omega" tomorrow.

And I could come up with variant "omega" and I could say I'm looking for this sub strand of either DNA or RNA, or even a protein, and I could run around the world going "Oh my gosh! Fear the omega variant!"

And the problem is, that because of the nature of the way in which we currently sequence genomes, which is actually a compositing process, is what we call in mathematics an "inter-leaving," we don't have any point of reference that actually know whether or not the thing we are looking at is in fact distinct from either clinical or even genomic sense.

And so we're trapped in a world where unfortunately, if you go and look, as I have, at the papers that isolated the Delta variant, and actually ask the question, is the Delta variant anything other than the selection of a sequence in a systematic shift of an already disclosed other sequence, the answer is, it's just an alteration in when you start and stop what you call the reading frame.

Israel Simulates COVID-19 "War Game Omega Exercise" on November 11, 2021

Two weeks before this current new variant suddenly appeared in Africa and started making the news cycle, Israel, which has been Pfizer's human laboratory to test their

COVID shots, ran a “war games” simulation to prepare for a “deadly new variant” which at the time had not yet been named. They called this future variant “Omega,” and [the simulation was carried out on November 11, 2021](#).

The [Jerusalem Post reported](#):

Dozens of top officials took part in what Prime Minister Naftali Bennett called a COVID-19 war exercise on Thursday to gauge the country’s preparedness for the next wave of the pandemic.

“We are starting an unprecedented event here,” the prime minister said at the start of the exercise – “not only on an Israeli scale but on a global level. We are conducting a war exercise to prepare for a new variant that does not even exist yet.”

The “Omega Exercise,” as Bennett called it, was held in the format of a “war game,” the Prime Minister’s Office said. Bennett has regularly referred to the “Omega strain,” the next harmful COVID-19 variant that has not yet been discovered. A war game is a game of the mind; no physical exercises took place.

Bennett said that Israel has surfaced from the Delta wave without locking down, proving that “with proper management, the pandemic can be defeated.” ([Full article](#) – and thanks to the Robin Monotti, Dr. Mike Yeadon & Cory Morningstar [Telegram Channel](#) for pointing this out.)

Africa is Chosen to be the Source of the New Variant Scam

Up until now, Africa has been an enigma to the Globalists’ narrative on the COVID-19 plandemic, as the continent has the lowest rates of COVID-19 vaccination, while also having the fewest amounts of “COVID-19 deaths.” [It also has the smallest footprint for **5G** technologies, could there be a correlation here and **5G**/Covid? -Pastor Bob]

Ryan McMaken of the [Mises Institute reported](#):

Since the very beginning of the covid panic, the narrative has been this: implement severe lockdowns or your population will experience a bloodbath. Morgues will be overwhelmed, the death total toll will be astounding. On the other hand, we were assured those jurisdictions that do lock down would see only a fraction of the death toll. Then, once vaccines became available, the narrative was modified to “Get shots in arms and then covid will stop spreading. Those countries without vaccines, on the other hand, will continue to face mass casualties.”

The lockdown narrative, of course, has already been thoroughly overturned. Jurisdictions that did not lock down or adopted only weak and short lockdowns [ended up with](#) covid death tolls that were either similar to—or even better than—death tolls in countries that adopted draconian lockdowns. Lockdown advocates said locked-down countries would be overwhelmingly better off. These people were clearly wrong.

Undaunted by the increasing implausibility of the lockdown narrative, the global health bureaucrats are nonetheless doubling down on forced vaccines—as we now see in Austria—and we continue to be assured that only countries with high vaccination rates can hope to avoid disastrous covid outcomes.

Yet, the experience in sub-Saharan Africa calls both these narratives into question: Africa's numbers have been far, far lower than the experts warned would be the case.

For example, [the AP reported this week](#) that in spite of low vaccination rates, Africa has fared better than most of the world:

There is something “mysterious” going on in Africa that is puzzling scientists, said Wafaa El-Sadr, chair of global health at Columbia University. “Africa doesn't have the vaccines and the resources to fight COVID-19 that they have in Europe and the U.S., but somehow they seem to be doing better,” she said....

Fewer than 6% of people in Africa are vaccinated. For months, the WHO has described Africa as “one of the least affected regions in the world” in its weekly pandemic reports. Yet disaster for Africa has long been predicted for several reasons even beyond the availability of vaccines. For instance, it is known that lockdowns are especially impractical in the poorest parts of the world.

This is because populations in places with undeveloped economies can't simply sit at home and live off savings or debt. Rather, these people must go out into the world and earn a living on a day-to-day basis. Starvation is the alternative.

Moreover, much of this work is done in the informal economy, so enforcing lockdowns becomes especially difficult.

It was also assumed covid would be especially deadly in Africa due to the fact many large households live in small housing units.

But that “conventional wisdom” flies in the face of the reality of covid in Africa, which is that there have been fewer deaths. ([Full article here.](#))

But this new fake variant has been reportedly found in South Africa, with the supposed first detections coming from Botswana. The variant now has a name, Omicron, and while the corporate media is hyping it up and creating fear over it, the people in Africa themselves are not concerned.

Paul Joseph Watson of [Summit News reports](#):

The new ‘Omicron’ variant of COVID-19 was first detected in four people who were fully vaccinated, according to a public statement by the Botswana government.

The new variant, which some claim is three times more contagious, was initially discovered in Botswana before it spread across South Africa.

The news was met with global alarm, prompting financial markets to plummet and new travel bans to be put in place.

According to a public statement by the Botswana government, the new mutation was first discovered in four people who had received both doses of the COVID-19 vaccine. The Botswana Government says that the new COVID variant (named Omicron) was first detected in four patients who were FULLY VACCINATED for COVID. <https://t.co/twfaWmK2Gu>

— Robby Starbuck (@robbystarbuck) [November 26, 2021](#)

According to the report, four cases of the new variant “were reported and recorded” on November 22.

“The preliminary report revealed that all the four had been completely vaccinated for COVID-19,” according to Botswana authorities.

In a subsequent statement, the government revealed that the new variant “was detected on four foreign nationals who had entered Botswana on the 7th November 2021, on a diplomatic mission.”

Meanwhile, South Africa’s medical chief Dr. Angelique Coetsee described the panic as a “storm in a teacup,” adding that she had only seen “very very mild cases” of the variant so far. ([Full article here.](#))

South African Health Minister, Joe Phaahla, has also stated that the corporate media is making this into more of an issue than it should be.

What are the Globalists Planning to do with this New Fake Variant?

This is not a difficult question to answer. All one has to do is turn on their TV to a corporate news broadcast, or read one of their publications, because they will all mostly say the same thing.

Kit Knightly, writing for [Off-Guardian.org reports](#):

If you want to know exactly how the Omicron variant is going to affect the narrative, well The Guardian has done a handy [“here’s all the bullshit we’re gonna sell you over the next couple of weeks”](#) guide:

- The Omicron variant is more transmissible, but they don’t know if it’s more dangerous yet (keeping their options open).
- It originated in Africa, possible mutating in an “untreated AIDS patient” (sick people are breeding grounds for dangerous “mutations”).

- *“it has more than double the mutations of Delta...scientists anticipate that the virus will be more likely to infect – or reinfect – people who have immunity to earlier variants. (undermining natural immunity, selling more boosters, keeping the scarefest going).*
- *“Scientists are concerned” that current vaccines may not be as effective against the new strain, they may need to be “tweaked” (get your boosters, and the new booster we haven’t invented yet)*
- *“Scientists expect that recently approved antiviral drugs, such as Merck’s pill, will work as effectively against the new variant” (more on this later)*
- *It’s already spreading around the world, and travel bans may be needed to prevent the need for another lockdown*

We’re already seeing preparations for more [“public health measures”](#), with the press breathlessly quoting “concerned” public health officials. We’re being told that a new lockdown won’t be necessary...as long as we remember to get boosted and wear masks and blah blah blah.

Generally speaking, it’s all fairly boilerplate scary nonsense. ([Source.](#))

And of course, Big Pharma already has their “magic pills” almost ready for emergency use authorization to come in and “save the world.”

Kit Knightly [continues](#):

Let’s go back to the Guardian’s “Omicron” bullet points, above:

- *Scientists are concerned by the number of mutations and the fact some of them have already been linked to an ability to **evade existing [vaccine-created] immune protection.***
- *Scientists expect that recently approved antiviral drugs, such as **Merck’s pill, [will work effectively] against the new variant***

The “new variant” is already being described as potentially resistant to the vaccines, but NOT the new anti-viral medications.

Pharmaceutical giants Merck and Pfizer are both working on “Covid pills”, which as recently as [three days ago](#), were being hyped up in the press:

US may have a ‘game changer’ new Covid pill soon, but its success will hinge on rapid testing In the US, an emergency use authorization can only be issued if there is no effective medication or treatment already available, so the vaccines not being proof against Omicron would be vital to rushing the pills onto the US market, at least.

If Omicron is found to be “resistant to the vaccines”, but NOT the pills, that will give governments an excuse to rush through approving the pills on an EUA, just as they did with the vaccines.

So, you bet your ass that testing is gonna be “rapid”. Super rapid. Blink-and-you’ll-miss-it rapid. Rapid to the point you’re not even sure it definitely happened. And now they have an excuse.

Really, it’s all just more of the same.

A scare before the new year. An excuse to make people believe their Christmas could be in peril. An exercise in flexing their control muscles a bit, milking even more money out of the double-jabbed and boosted crowd, now newly terrified of the Omicron variant, and a nice holiday bump to Pfizer’s ever-inflating stock price.

At this point either you can see the pattern, or you can’t. You’re free of the fear machinery, or you’re not. ([Source](#).)

Targeting the Children

If you watched the 2-minute video above about the Israeli “war games” simulation for a “new variant” which at the time was allegedly not even known yet, you might have noticed that they are saying that children will be “more susceptible” to this variant, as they were “largely spared” from the “actual virus.”

The Israeli simulation predicted “massive hospitalizations and school closures” among children.

How could they predict that, since children have been mostly immune to COVID-19?

They predicted that because Israel, along with the U.S., just recently started injecting children between the ages of 5 and 11 with the Pfizer COVID-19 gene-altering shots, and they know full well that injuries and deaths in this age group will soon follow.

You can be sure that when reports start coming in soon about these children suffering heart disease, blood clots, and DEATHS, that they will blame it on this new fake variant. And to make matters worse, and create even more fear, the hospitals will be overloaded and unable to care for many of these children, NOT because the “new variant” is so strong and destructive, but because they have gutted the ERs and hospitals by firing or forcing many of the staff to quit because of COVID-19 vaccine mandates.

We have already seen this begin to happen with just a handful of children who were hurt in the parade attack in Waukesha, Wisconsin last week. See:

[Loss of Medical Staff due to Mandatory Vaccines Affecting Care of Children in Wisconsin Critically Injured in Parade Attack as ERs Nationwide Begin to Close](#)

This could be a very dark winter, especially for those who trust in the medical system and offered up their children as sacrifices to the vaccine gods.

These COVID-19 bioweapon shots are now what is driving the fake “pandemic.”

Last year they accomplished this by simply reclassifying the flu as “COVID-19,” as the actual overall death rate did not increase much last year, and those in the funeral industry have confirmed that, while also confirming that massive deaths have only happened this year, 2021, after the COVID-19 shots were introduced.

This year, the deaths are REAL, they are following the COVID-19 shots, and they are being blamed on COVID-19, and now they will be blamed on this new fake variant.

Is There Anything that is True About this “New Variant?”

Yes, everyone agrees that the “vaccines” and other measures that have been taken to supposedly combat “COVID-19” have failed.

With the creation of this new fake variant, they have actually had to admit that those who have been fully vaccinated and have their health passports, will soon need to start from scratch again, and agree to all the new drugs and repurposed vaccine booster shots to be able to have a “passport” that allows them to participate in society.

How many will hold to the adage: **“Fool me once, shame on you. Fool me twice, shame on me.”?**

We’re about to find out.

The LORD will keep you free from every disease. He will not inflict on you the horrible diseases you knew in Egypt, but he will inflict them on all who hate you. (Deuteronomy 7:15)

Your children who follow you in later generations and foreigners who come from distant lands will see the calamities that have fallen on the land and the diseases with which the LORD has afflicted it. (Deuteronomy 29:22)

There is no need for this vaxx (gene therapy) based upon the World Health Organization! Wake Up! This is World War III. Here is the WHO’s own data!

Anyone who has followed the reports shared on this web page can see **Public Health is not the number one aspect of concern.** We see total disregard for the true recovery rate from Covid-19, which I have included in virtually every segment to date. Below you can see exactly what the World Health Organization is reporting on the recovery rate for those having had Covid in 10 countries or regions. **Achieving a recovery rate of 99.93% or better is prima facie evidence – obvious, self-evident, sufficient to establish the fact that Covid-19 is a crime by those wanting to exploit it for financial and political gain!** Two years ago Bill Gates told Becky Quick at Davos, Switzerland on her program *Squawk Box* of CNBC, his investment in vaccines yielded a 20 to 1 return! I would say that it is all about the money for most but for Klaus Schwab, it is more about power and control of humanity!

Instead of "death" rate..
LETS LOOK AT COVID "SURVIVAL" RATE??

Ten OMICRON “variant” predictions for 2022 and beyond... globalist authoritarian playbook stripped naked

Saturday, November 27, 2021 by: [Mike Adams](#)

[\(Natural News\)](#) The omicron “variant” media hysteria is pure fiction. It’s nothing but a 1984-style Orwellian psychological terrorism operation that has been engineered to keep the populations of the world enslaved and obedient while terrorist governments carry out their global depopulation / genocide programs.

The evil genius of this narrative is that **it requires no evidence whatsoever**. Since no one can actually see a “variant” — and since no isolated omicron viral samples exist anywhere in the world for lab test confirmations — a coordinated mass media hysteria campaign simply implants human consciousness with the illusion of omicron, accompanied by extreme fear.

To date, no one in America has even been diagnosed with the variant, and no one has died from it anywhere on the planet. Yet thanks to mass media journo-terrorism, half of America is now freaking out over something that likely doesn't exist at all. "Omicron" is almost certainly a coordinated fabrication.

Yet out of nowhere, the media has managed to program the population to lose their minds upon mention of the word, "mutations." Although random mutations in genetic material take place literally millions of times each day in every human being's own body, suddenly "mutations" are the scariest thing imaginable, according to the hyperventilating media. (Which is why I call omicron a "scariant," not a variant.)

Over the last two years, globalists have confirmed that FEAR, not "science," is their ultimate mechanism of control over humanity

Remember when we were all told in 2020 that if just 60 – 70% of the country agreed to take two shots, everything would return to normal and covid would be over? **It was all a calculated lie from the start.**

The lie promised *freedom* if people would just comply, but what it delivered was tyranny and *fear*... along with never-ending obedience to government-coerced vaccine compliance.

What 2020 and 2021 have now exhaustively proven to the globalists is that *fear* is their ultimate weapon against humanity. Through the use of coordinated fear, they can convince about half the population of the world to be injected with deadly [spike protein gene therapy shots](#) that will kill them over time. Conveniently, all those deaths can be blamed on something else — like cancer — thereby avoiding any blame being focused on the vaccines.

Why is there already a 29X increase in stillborn babies, by the way? As [Steve Kirsch writes at Substack.com](#):

There is a 29X increase in the rate of stillborn babies in Waterloo, Ontario that started after vaccination program rolled out. All the mothers of the stillborn babies were vaccinated...

Yes, this is a big deal. But nobody is listening. Cardiac risk could go up 1,000X after vaccination and it wouldn't matter. Nobody is listening.

As psychologists know very well, when *fear* is combined with *sensory overload* (i.e. too much news, too many voices, conflicting reports, etc.), people **naturally default to anything that resembles authority**. Their rational mind is completely shut down, and they can no longer engage in critical thinking. Once they are sufficiently pounded into relentless fear, the governments of the world herd them into vaccination centers for their obedient depopulation shots. With a page ripped right out of the Stanford prison experiment, they also transform obedient vax recipients into societal "prison guards" /

enforcers who demand that everyone else be injected with the same concoction... or else.

This is why so many vaxxed people have turned into raging lunatics who try to force their death shots on everyone around them. (And just maybe, the vaccine prions are eating their brains, too, causing aggressive personality changes...)

Ten predictions for how omicron hysteria will be exploited by terrorist governments to accelerate their murderous genocide against humanity:

Over the last several months, I have publicly predicted the release of a new, scarier bioweapon narrative. The coordinated mass media omicron freakout was easily predicted, and many of us across independent media are on the record predicting exactly this.

But what will they do next? That's also very easy to see, since it all comes from the same playbook as covid. Omicron hysteria will be aggressively pushed and used in every way imaginable to achieve totalitarian control over the masses, which will then be lined up and taken to death camps for efficient extermination.

Here are my ten predictions for Omicron and 2022:

Prediction #1: Omicron variant hysteria will be used to reset everyone's vaccine passports to zero, coercing people into a whole new round of vaccines for this new variant. Those stupid enough to go along with omicron variant vaccines will be signing up for a never-ending series of spike protein bioweapons injections, which will eventually kill them.

Prediction #2: Omicron hysteria will be exploited to justify aggressive vaccine mandates, demanding that this "new emergency" overrides all human rights, medical freedom and body autonomy.

Prediction #3: Although the omicron variant has so far only been found in fully vaccinated people, **the lying corporate media will blame its origins on the unvaccinated.**

Prediction #4: The omicron variant will be used as a cover story by the corporate media to try to explain away all the Antibody Dependent Enhancement (ADE) deaths caused by covid vaccines. Even as vaccinated people die in large numbers, the media will blame the unvaccinated (see #3, above) and demand that unvaccinated people be completely locked down and denied access to society.

Prediction #5: Omicron hysteria will be used to attempt to criminalize dissent against vaccines, mandates, government "authority" or the covid criminals behind the gain-of-function research, such as Anthony Fauci. All such dissenting speech will be designated a "danger to society," and those who utter such speech will be accused of killing people.

Prediction #6: Mass hysteria pushed by the journo-terrorist media will justify governors ordering more lockdowns, leading to more supply chain failures, product scarcity and price inflation.

Prediction #7: If the media can push the omicron hysteria with enough ferocity, it will be used to either **cancel the 2022 mid-term elections or demand universal mail-in voting**, citing the “extreme dangers” of anyone going out in public.

Prediction #8: Every economic failure caused by the incompetent, criminal Biden regime will be blamed on omicron. This imaginary “variant” instantly becomes the scapegoat for sky-high energy prices, supply shortages and empty grocery store shelves. The media will blame everything on omicron, and then they will blame omicron on the unvaccinated.

Prediction #9: At some point, either the omicron variant or the next one that’s unleashed will be used to justify door-to-door mandatory vaccines in America, along with the medical kidnapping of anyone who resists, taking them away to covid concentration camps for efficient extermination. (This practice has already begun in Australia, where the military is kidnapping indigenous people and taking them away to camps at gunpoint.)

Prediction #10: Omicron won’t be the last variant that’s used to evoke mass hysteria and multi-billion dollar government payouts to Big Pharma. This scandemic will be repeated every year or so, in perpetuity, for as long as the people remain in fear and go along with it.

**Bleed to death on the inside from graphene hydroxide in vaxx
trial roulette**

Nov 30 Posted by Editor, cairnsnews

It's not just about mRNA. And the Australian Government wants to give this deadly concoction to kids?

Dr. Andreas Noack did a heartfelt video call out (Austria) in regards to the graphene allegedly discovered in the Pfizer shots.

He was arrested by Austrian police and assaulted during his filming testimony shortly

afterwards and the latest alleged report by his partner is that he is now dead. You read that correctly! **He was murdered!**

<https://tokentube.net/v/3033406015/Has-DR-ANDREAS-NOACK-been-killed-after-publishing-his-findings-about-the-vaccines->

This was his educated explanation as transcribed:

“There is a Professor in the University of Almeida, Professor Dr. Pablo Campra. He studied the vaccines for the presence of graphene oxide using Micro-Raman Spectroscopy.

It is the study of frequencies.

There are frequency bands. Two of those bands are important.

They show that it is not graphene oxide but rather graphene hydroxide.

I would like to explain what graphene hydroxide is.

Dr. Andreas Noack investigated nanoscale tiny razor blades injected into body and victim bleeds to death on the inside, He recently died under mysterious circumstances.

It is a mono-layer activated carbon.

There are C6 rings. He found it in all samples. Every corner is a carbon atom.

This is on a nanoscale. If it is 5 nm long, there are 500 rings in a row. These are hydroxy groups (OH). In graphene oxide you have double bonded oxygen, but in

graphene hydroxide you have an OH group. The electrons are delocalized (fully mobile).

The piece is 50nm (nanometre) long but only 0.1nm thick. These C6 structures are extremely stable. You can make braking pads out of this. It is not biologically decomposable.

These nanoscale structures can best be described as razor blades.

These razor blades are injected into the body.

Nano-scale tiny razor blades. Only one atom thick layer.

The OH hydroxy groups can split off a proton. When the proton is split off, they gain a negative charge spread out over the whole system.

It is basically an acid.

It suspends well in water because of the negative charge.

So these are razor blades spread homogeneously in the liquid.

This is basically Russian roulette. It cuts the blood vessels.

The blood vessels have epithelial cells as their inner lining. It is extremely smooth, like a mirror and it is cut up by these razor blades. That is what's so dangerous.

If you inject the vaccine into a vein, the razors will circulate in the blood and cut up the epithelium.

The thing is, toxicological tests are done in a petri dish so you will not find anything.

These are the sharpest imaginable structures because they are only one atom layer thick.

I am a Specialist in Activated Carbon. In my Doctoral thesis I have converted graphene oxide to graphene hydroxide. I joined the world leading activated carbon Manufacturer. I was in charge of new carbon activated products...

If you perform an autopsy on the victims you will not find anything.

Toxicologists do their tests in petri dishes.

They can't imagine that there are structures that can cut up blood vessels.

People bleed to death on the inside.

The top athletes who are dropping dead have fast flowing blood. The faster the blood, the more damage the razors will do.

As a chemist, if you inject this into the blood, you know you are a murderer.

It is a new material, toxicologists are not aware of it yet.

You see people collapse immediately after a vaccination and have a seizure. These people have bad luck in this Russian roulette.

Very likely a vein was hit by the syringe.

Do you think a Pediatrician understands what graphene oxide is?

An important concept in Science is disputation.

A Scientific debate.

The basis of medicine or pharmaceuticals is chemistry.

Completely new substances, unknown to nature are brought in with the vaccines.

Everyone is talking about mRNA which is complex.

But every chemist understands what graphene hydroxide does.

The mRNA story is possibly a diversion.

I cannot imagine that anyone will be able to give me, as a Carbon specialist, a proper explanation as to why these carbon razor blades are in the vaccine.

This is war.

Even if the people don't drop dead immediately, it cuts up the blood vessels little by little. It destroys the heart. All the heart attacks. All the strokes. The brain is cut up. Blood vessels are cut up.

These graphene structures are so stable, they are not degradable. Every chemist knows this.

The epithelial cells become rough when cut up like this, and things stick to it.

This material is declared an experimental vaccine for a reason. In Germany or Austria there is nobody with my expertise. The leading German carbon Specialist Dr. Harmut von Kienle was my mentor for one year. I wrote my thesis in this field..."

So user beware. You don't know what batch you are getting. It's a Clinical trial after all.

Pfizer CEO Declares “Annual Revaccination” For COVID Is Coming!

Pfizer CEO Albert Bourla again declared Monday that the “most likely scenario” in the near future is “*annual revaccination*” for COVID.

Bourla made the comments in an CNBC interview, noting “*I made a projection months ago that the most likely scenario is that we would need after the third dose, annual revaccination against Covid.*”

“I think we’re going to have an annual revaccination and that should be able to keep us really safe,” Bourla added.

Bourla’s comments came just a short time before the CDC recommended every U.S. adult over 18 get the third Covid booster shot to counter the ‘Omicron’ variant.

“Today, CDC is strengthening its recommendation on booster doses for individuals who are 18 years and older,” CDC Director Rochelle Walensky said in a statement.

“The recent emergence of the Omicron variant further emphasizes the importance of vaccination, boosters, and prevention efforts needed to protect against COVID-19,” she said.

Moloch is a name or a term which appears in the Hebrew Bible several times, primarily in the book of Leviticus. The name was attributed to a Canaanite deity associated with the practice of child sacrifice. Although Moloch is referred to sparingly in the Old Testament, the significance of the god and the sacrificial ritual cannot be underestimated, as the Israelite writers vehemently reject the related practices, regarding them as murderous and idolatrous. Moloch's malevolent status in the Old Testament, described in Isaiah 57.9 where the prophet parallels sacrifice to Moloch with a journey into the underground world of Sheol.

The Moloch factor comes to light in modern times where we see the covid-19 vaccine

being forced upon our children when there is absolutely no medical justification for young healthy children receiving the covid-19 vaccine. All over the world regulatory authorities are lining up children to the covid-19 vaccine gods regardless of the following.

- ✓ Fetal deaths following COVID-19 shots injected into pregnant women continue to increase, as there are now 2,620 fetal deaths reported in VAERS (the Vaccine Adverse Events Reporting System).
- ✓ When we run the exact same search in VAERS and exclude the COVID-19 shots, we find 2,225 fetal deaths following ALL vaccines injected into pregnant women for the past 30+ years.
- ✓ Last month (October, 2021) the New England Journal of Medicine admitted that the original study used to justify the CDC and the FDA in recommending the shots to pregnant women was flawed.
- ✓ Since then, researchers in New Zealand have conducted a new study on the original data, and concluded: A re-analysis of these figures indicates a cumulative incidence of spontaneous abortion ranging from 82% (104/127) to 91% (104/114), 7–8 times higher than the original authors' results.
- ✓ And yet the CDC and FDA continue to recommend the COVID-19 shots, which now also include booster shots from Pfizer and Moderna meaning a pregnant woman can now be injected with 3 COVID-19 shots during her pregnancy (if it lasts long enough).

The opening article of this Mass Murder segment #38 has proven Albert Bourla is absolutely wrong. If you found the section quoted above to be too complex, here's the take-home message from Dr. Joseph Mercola: The mRNA shot may be causing an exceptionally low level of platelets through a mechanism that involves antibodies against the spike protein (anti-spike antibodies) resulting in depletion of platelets by activating them.

Platelets are specialized cells that stop bleeding, and they have ACE2 receptors, which is what the SARS-CoV-2 spike protein binds to. When the spike protein binds to the ACE2 receptor on the platelets, it activates them.

This platelet activation can lead to disseminated intravascular coagulation, i.e., a pathological overstimulation of your coagulation system that can result in abnormal, and life threatening, blood clotting, as well as thrombocytopenia (low platelet count) and hemorrhaging.

Doctors for COVID Ethics described this mechanism in a February 28, 2021, letter to the European Medicines Agency (EMA). In that letter, they warned that, based on this

mechanism, spike protein-based COVID shots are likely to cause blood clots, cerebral vein thrombosis and sudden death, which is precisely what we've been seeing ever since.

In essence, you basically end up with so many blood clots throughout your vascular system that your coagulation system is exhausted, hence the low platelet count. The low platelet count, in turn, is what allows for hemorrhaging (abnormal bleeding).

A mystery that remains to be solved is why only certain people with antibodies to the spike protein (anti-spike antibodies) go on to develop symptoms of platelet activation and thrombocytopenia. Why not all of them? "One hypothesis is that platelet activation is dependent on unique spike protein epitopes, which are only recognized by a minority of identified antibodies," the authors suggest. In closing, they state:

"Our case ... highlights the applicability of the SRA to detect platelet activation disorders aside from HIT [heparin-induced thrombocytopenia]. Although classically done in the presence of heparin, it can be modified to include various antigens to elicit immune complex formation and identify platelet activation ..."

Ultimately, the role of SARS-CoV-2 Spike protein requires further clarification in regards to platelet activation, as well as the role of vaccine- and PEG-dependent platelet activation. We postulate that a small subset of antibodies against the Spike protein, formed after vaccination, can activate platelets and cause thrombocytopenia.

The prevalence of this phenomenon remains to be clinically determined. Regardless, the modified SRA presented here may be a useful diagnostic test as more cases of vaccine-induced thrombocytopenia are recognized."

COVID Jab Risks Clearly Outweigh Any Potential Benefit

Since well before the rollout of these COVID shots, scientists and doctors have sounded the alarm, pointing out a host of potential mechanisms by which they may cause harm. Now, nearly a year into it, many of our fears are turning out to have been warranted. They're causing very serious cardiovascular damage, blood disorders, and reproductive dysfunction.

Worst of all, our health authorities have abandoned the mandate to protect public health and are covering up the wreckage on behalf of the profit makers. On top of that, doctors and nurses who speak out about the collateral damage they're seeing are being silenced and persecuted by medical boards and government officials alike.

Now, we're injecting these kill shots into children as young as 5. I see no way for this to end on a pleasant note. As a society, as the deaths and injuries, especially in children, continue to escalate, we're going to face some excruciatingly difficult times.

To remind you of where this article started, people who have received two mRNA shots have more than doubled their five-year risk of acute coronary events, on average. If

you've not yet taken the jab, I reckon you probably won't at this point. But if you've already taken one or two, I strongly urge you to review the mechanisms of harm, and evaluate whether it's worth it to continue with a third.

The adverse changes caused by the shots persist for at least 2.5 months. That's the low end. We still do not know what the upper time limit is. It could be a year or more, and the risks certainly do not diminish with subsequent additional doses. In the November 12, 2021, Open VAERS report, they added a graph showing vaccination rates and VAERS reports by state.

As you can see, there's a clear correlation between the rate of "fully vaccinated" in a given state and the number of COVID injuries reported from that state. (Indiana, for some reason, sticks out as a lone exception with a disproportionately high number of reports to the number of fully "vaccinated.")

The gray zones are population; blue bars are the number of fully vaccinated; the red bars are the number of reported injuries. (All numbers have been divided by 1,000.) This is yet another piece of evidence that we have a serious problem on our hands.

Post COVID-19 Vaccine Injury Reports by State

What Can You Do if You Have Jab Remorse?

If you now believe that getting the COVID jab was a mistake and wish to lessen your doubled risk of cardiac complications, there are a few basic strategies I would advise.

1. Make certain you measure your blood vitamin D level and take enough vitamin D orally (typically about 8,000 units/day for most adults) to make sure your level is 60 to 80 ng/ml (150 to 2000 nmol/l).
2. Eliminate all vegetable (seed) oils in your diet, which involves eliminating nearly all processed foods and most meals in restaurants unless you convince the chef to only cook with butter. Avoid any sauces or salad dressings in restaurants as they are loaded with seed oils. Also avoid chicken and pork

Consider taking around 500 mg/day of NAC, as it helps prevent blood clots and is a precursor for your body to produce the important antioxidant glutathione.

4. Consider fibrinolytic enzymes that digest the fibrin that leads to blood clots, strokes and pulmonary embolisms. The dose is typically two, twice a day, but must be taken on an empty stomach, either an hour before or two hours after a meal. Otherwise, the enzymes will digest your food and not the fibrin in the blood clot.

Albert Bourla may spin his trash about Pfizer but everyone in the industry knows the results of its spike Protein (PEG) that is causing all the problems with its vaxx. Folks. It was all about the money between Albert Bouria and Israeli former Prime Minister Benjamin Netanyahu. Dr. Vladimir Zelenko holds the view that this will be a second holocaust, and I have written about this possibility as well. 93 Israeli doctors have signed a joint letter of protest calling to refrain from administering Covid-19 vaccines to children. It is spiritual warfare on a global scale unlike anything the world has experienced. Mr. Bouria stated that they will make \$32 billion dollars this year from sale of its poisoned vaxx.
