

Mass Murder

By Sovereign State Sanctioned Syringe Needle!
Part 66

Pfizer appears to have committed fraud, and if it can be proven in court then the company will be liable for ALL injuries and deaths caused by its covid vaccines

05/13/2022 / [By Ethan Huff](#)

The so-called “*clinical trials*” that Pfizer conducted on its messenger RNA (mRNA) Wuhan coronavirus (Covid-19) “*vaccine*” appear to have been [completely fraudulent](#), which means the company could one day be held liable for all associated injuries and deaths.

Documents released in November 2021 by the U.S. Food and Drug Administration (FDA) as part of a court-mandated information dump reveal that enrollment at one particular trial site happened at warp speed, just in time to meet the safety deadline for the FDA’s VRBPAC meeting on Dec. 10, 2020.

This meeting is where the FDA discussed granting Emergency Use Authorization (EUA) for the Pfizer-BioNTech injection in people 16 years of age and older.

(Related: The contents of the Pfizer jab were [recently shown](#) to “stick” to bodily organs.)

“The allegedly suspicious-looking clinical trial data surrounds ‘the biggest recruiter by far,’ site 1231 (site 4444 was assigned site id 1231) in Argentina,” reported Undercover DC.

“Adding to the confusion, in five short days before the safety deadline (including a Sunday, 9/27/20), the trial recruited 1,275 of the 4,501 people using site number 4444. In just three weeks, the site recruited 4,501 patients – 10% of the entire trial at one site.”

“Overall, Pfizer rapidly recruited roughly 44,000 people for their trial, which took place at 152 locations worldwide and was overseen by numerous investigators, including Dr. Fernando Polack, who led the Argentinian study at Hospital Militar Central.”

Does Pfizer do ANYTHING honestly and above board?

Polack, as explained by investigative reporter Steve Kirsch, holds the position of Scientific Director at the INFANT Foundation in Buenos Aires. This Vanderbilt-affiliated foundation facilitates biomedical translational research and pediatric rotations at hospitals and medical centers throughout the city.

Polack personally coordinates 26 hospitals in Argentina involving 467 doctors who were all immediately recruited into the Pfizer trial. Kirsch says that on paper, the data that resulted *“looks too good to be true,”* though he says *“it’s quite possible they pulled it off”* by coordinating the trial in record time.

“So if all 26 hospitals participated fully then that’s 57 patients per week per hospital which is possible if the sites have done this before and have a coordination framework for getting all 26 sites up and running at the same time,” Kirsch writes. *“This means that everyone who was doing something else dropped what they were doing to switch over to the trial all at the same time.”*

Prof. Norman Fenton from [Queen Mary University of London](#) added in his own two-part Substack series that what was supposedly pulled off in Argentina on behalf of Pfizer is *“basically impossible.”*

“If this really happened,” he wrote, *“it would be a wonder of the world, and they should publish the process with pride and win 27 different prizes for it.”*

“They claim to have enrolled seven days a week for three weeks with zero gaps. Each patient requires a 250-page case report form,” Fenton added. *“The lead investigator seems to have been Fernando Polack.”*

“If indeed, the best way to get things done is to give them to busy people, then this was a great choice because, from the look of things, Fernando is one busy fellow and connected up the wazoo to boot. He also works with Vanderbilt, the FDA, and the Infant Foundation, funded by the Gates Foundation and the NIH.”

In the disclosure forms associated with a ‘*New England Journal of Medicine*’ (NEJM) paper on Pfizer’s injection, Polack’s conflicts of interest are revealed. They show personal fees he accepted from not only Pfizer but also Janssen (Johnson & Johnson), Regeneron (monoclonal antibodies), Merck & Co. and Novavax.

Should any of this make it to court, Pfizer will be in a whole lot of trouble – and rightfully so. Perhaps justice will eventually prevail.

FDA Authorizes Pfizer Booster for Kids 5 to 11, Bypasses Advisory Panel

The U.S. Food and Drug Administration today granted Emergency Use Authorization for Pfizer’s COVID-19 booster for children ages 5 to 11, without convening its vaccine advisory panel and despite the latest data showing higher case rates in vaccinated children compared with those not vaccinated.

By Megan Redshaw

The U.S. Food and Drug Administration (FDA) today authorized a booster dose of the Pfizer-BioNTech COVID-19 vaccine for children ages 5 to 11, without convening its vaccine advisory panel of independent experts to discuss Pfizer’s data on 5- to 11-year-olds — and based on a study subset of only 67 children, [CNBC reported](#).

The FDA granted Emergency Use Authorization (EUA) for the boosters despite data showing [higher infection rates](#) among fully vaccinated children in the 5 to 11 age group compared to unvaccinated children, no studies [testing the efficacy of the vaccine](#) against the current dominant [BA.2 COVID-19 variant](#) and [two new studies](#) showing that for vaccinated people who get Omicron, the infection provides better protection against future infections than a second booster dose. The vaccine advisory panel for the Centers for Disease Control and Prevention (CDC) is scheduled to meet Thursday. The agency and its director, Dr. Rochelle Walensky, are expected to sign off on the boosters, [The Washington Post reported](#).

Dr. Peter Marks, director of the FDA’s Center for Biologics Evaluation and Research, [said data increasingly show](#) protection provided by two shots [waned over time](#), but the agency determined a third shot could help boost protection for children in the 5 to 11 age group and the “benefits outweigh the risks.”

The FDA authorized the third shot after analyzing data from an ongoing Pfizer clinical trial in which a small subset of only 67 children in the age group had higher antibody levels one month after receiving a booster dose.

As [The Defender reported](#), antibody levels alone are not indicative of immune protection. When it comes to COVID-19, T cell and natural killer cell responses are the crucial part of immune protection.

Pfizer [has not published](#) its actual data, precluding experts from conducting this analysis.

The authorized booster dose, the same strength as the first two doses, generated neutralizing antibodies to Omicron and the ancestral Wuhan version of the virus, [according to The New York Times](#).

The FDA said it did not identify [any new safety concerns](#) and found the children in the trial experienced the [same mild side effects](#) other people do after receiving a booster.

However, a subset of only 67 children is not [large enough to detect](#) potential adverse events like [myocarditis](#), and it is unknown how rapidly any protection provided wanes because trial participants were not followed beyond a 28-day period.

About [8.1 million](#), or 28%, of children ages 5 to 11, received their primary series of two COVID-19 vaccine doses as of May 11, [according to data](#) from the American Academy of Pediatrics.

Those children [will now be eligible](#) for a third dose five months after their second dose based on data obtained from the 67 children who were followed for only one month.

COVID cases higher in vaccinated children aged 5 to 11, CDC data show.

According to the latest [CDC data](#), since February, higher COVID-19 case rates were recorded among fully vaccinated children compared to unvaccinated children in the 5 to 11 age group.

The CDC on Feb. 12 [reported](#) a weekly case rate of 250.02 per 10,000 population in fully vaccinated children ages 5 to 11, compared to 245.82 for unvaccinated children in the same age group.

The trend continued through the third week of March, which is the latest week of available data.

“Several factors likely affect crude case rates by vaccination and booster dose status, making interpretation of recent trends difficult,” CDC spokesperson Jasmine Reed [told The Epoch Times](#) in an email.

“Limitations include higher prevalence of previous infection among the unvaccinated and unboosted groups, difficulty in accounting for time since vaccination and waning protection, and possible differences in testing practices (such as at-home tests) and prevention behaviors by age and vaccination status,” Reed said. ***“These limitations appear to have less impact on the death rates presented here.”***

According to [CDC data](#), the gap between fully vaccinated and unvaccinated individuals in all age groups has [grown increasingly smaller](#), with the death rate showing the same trend for people over age 50.

For people under age 50, death rates are almost identical between the vaccinated and unvaccinated since the beginning of the vaccine rollout.

Data show COVID-19 vaccines have a “negligible effect” on people, said Dr. Peter McCullough, a prominent cardiologist and epidemiologist.

“With these results in hand, it is clear the vaccines are having a negligible effect in populations,” McCullough [told The Epoch Times](#) in an email.

“Given the overall poor safety profile and lack of any assurances on long-term safety, Americans should be cautious in considering additional injections of these products.”

Having COVID may be more effective than getting a booster, studies show.

Two new studies show, for people who are vaccinated against COVID-19, getting a breakthrough Omicron infection may provide better protection than receiving a second booster, [Fortune reported](#).

One study conducted by German biotechnology company BioNTech SE [assessed vaccinated individuals](#) who had breakthrough COVID-19 infection associated with the Omicron variant.

BioNTech found these individuals had a better B-cell response than individuals who had received a booster but had not been infected.

According to [MD Anderson Center](#), B cells are a type of white blood cell that creates antibodies that bind to pathogens or foreign substances and neutralize them. B cells bind to a virus and prevent it from entering a normal cell causing infection. They also recruit other cells to help destroy infected cells.

A [second study](#) by the University of Washington and Vir Biotechnology investigated the immune responses of various groups based on vaccination and infection status.

The study analyzed blood samples of individuals who had been vaccinated and then caught the Delta or Omicron variants and compared them with those who had COVID-19 first and were then vaccinated, those who had been vaccinated but were not previously infected and those who were infected but had never received a COVID-19 vaccine.

The study found vaccinated individuals with breakthrough Omicron infection produced antibodies that formed a strong defense against other variants of the virus. Unvaccinated people who caught Omicron did not have a similarly robust immune response.

Efficacy of Pfizer's COVID vaccine wanes rapidly.

A [study](#) published May 13 in the Journal of the American Medical Association (JAMA) found protection from Pfizer's COVID-19 vaccine turned negatively effective among children and adolescents five months after receiving a second dose — meaning recipients were more likely to get COVID-19 five months after being vaccinated.

Vaccine effectiveness “was no longer significantly different from 0 during month 3 after the second dose,” the researchers wrote. They also found protection against hospitalization waned significantly over time.

In adolescents, the authors said, efficacy increased again with boosters.

Most [non-randomized studies](#) attempting to determine vaccine efficacy (VE) had “common flaws,” including no accounting for baseline prior COVID-19 infection, no reporting for those who received a booster within a six-month time window and no adjudication of hospitalization or death due to COVID-19 or other conditions, McCullough told The Epoch Times.

“As a result, most studies of COVID-19 VE have biases towards overestimating any clinical benefit of vaccination,” McCullough said.

As [The Defender reported](#) on May 13, a different study published in JAMA showed second and third doses of Pfizer's COVID-19 vaccine provided protection against the Omicron variant for only a few weeks.

“Our study found a rapid decline in Omicron-specific serum neutralizing antibody titers only a few weeks after the second and third doses of [the Pfizer-BioNTech] BNT162b2,” the authors wrote.

A [preprint study](#) released in February showed Pfizer's two-dose regimen of its COVID-19 vaccine for children was [only 12% effective](#) against Omicron in children ages 9 to 11, and the effectiveness of the vaccine "declined rapidly" for children 5 to 11.

Researchers at the New York State Department of Health and the University at Albany School of Public Health examined the effectiveness of the vaccine in children 5 to 11 and adolescents 12 to 17 from Dec. 13, 2021, to Jan. 30, 2022, and determined the effectiveness of Pfizer's COVID-19 vaccine declined rapidly for children, particularly those 5-11 years.

According to a [Danish study](#) of 128 people who had received two or three doses of Pfizer's COVID-19 vaccine, levels of Omicron-specific "neutralizing" antibodies decline rapidly after a second and third dose of Pfizer's shot.

Compared to original and Delta variants, [researchers found](#) the proportion of Omicron-specific antibodies detected in participants' blood dropped "rapidly" from 76% four weeks after the second dose to 53% at weeks 8 to 10 and 19% at weeks 12 to 14.

After the third shot, neutralizing antibodies against Omicron fell 5.4-fold between week 3 and week 8.

Last month, Moderna requested [EUA](#) for its COVID-19 vaccine for children aged 6 months to 6 years. Pfizer plans to seek EUA for a three-dose regimen for the same age group.

The FDA's top vaccine official [told a congressional committee](#) on May 6 COVID-19 vaccines for children under 6 will not have to meet the agency's 50% [efficacy threshold](#) required to obtain EUA.

This is totally irresponsible for a government agency tasked with public health and safety. IT IS A DERLICTION OF GOVERNMENT TASKED RESPONSIBILITY!

The REAL Threat From the Pandemic Treaty That Most Are Completely Ignoring
<https://nogreport.com/2022/05/17/the-real-threat-from-the-pandemic-treaty-that-most-are-completely-ignoring/>

The UK government admits that the COVID-19 Experimental mRNA "vaccine" has damaged the natural immune system of those who have been double-dosed.

The government has confessed that double-vaxxed (or more) people, will never -- ever -- be able to acquire full natural immunity to COVID variants - or possibly any other virus.

Keen observers of this COVID debacle are now saying "The real pandemic will now begin" because all the people whose immune systems are permanently damaged, may not be able to fight-off any future viral infection!

In its Week 42 "COVID-19 Vaccine Surveillance Report," (Direct Link [HERE](#)) the UK Department of Health admits on page 23 that:

"N antibody levels appear to be lower in people who become infected after two doses of [the vax]."

It goes on to say that this drop in antibodies is essentially - get this - permanent. What does this mean? Well, we know that the wacky vax does not prevent infection or transmission of the China virus (indeed, the report elsewhere shows that vaxxed adults are now much more likely to be infected than unvaxxed ones).

The British now find that the vax interferes with the body's ability to make antibodies after infection not only against the spike protein but also against other

parts of the virus. In particular, vaxxed persons do not appear to form antibodies against the nucleocapsid protein - the envelope of the virus (which is a crucial part of the response in unvaccinated people).

In the long term, the vaxxed are far more susceptible to any mutations in the COVID spike protein, even if they have already been infected and cured once or more.

The unvaccinated, on the other hand, gain lasting - if not permanent - immunity to all strains of the alleged virus after being naturally infected with it even once.

A win-win for those who kept their heads, and didn't buy-into all the COVID hype.

A no-win for those who went with the crowd, or were willfully obtuse, intellectually lazy, or arrogant.

One of the most informative books on the Rockefeller Medical Industry was published in 2016. *'Murder by Injection: The Story of the Medical Conspiracy Against America'* by Eustace Mullins. The late Eustace Mullins has authored a number of expose category books, among the more famous is *'The Secrets of the Federal Reserve System'*.

A picture of *'Murder by Injection'* has been included below. This book is a truth-telling expose of how the famous oil magnate John D. Rockefeller used his fortune to take over the medical and health profession over a century ago. The Rockefeller's about fifteen years ago threw in their assets and power with the House of Rothschild to bring about the ultimate destruction of the United States.

Most of you would not know this but in 1911 when the Rockefeller Standard Oil was broken up through legislation under the Sherman Anti-Trust Act into what is commonly referred to as the "Seven Sisters" oil companies, Rockefeller was heard to have said that he would destroy America one day.

Health care and medicine today is a product of the Rockefeller "Allopathic" medicine, i.e. "drugs, radiation, and surgery; pretty much the exact opposite of "Naturopathic" or "Homeopathic" medicine. Most doctors will admit that in their medical training they learn nothing about nutrition, vitamins, nutrients, natural therapies, clean air, water, food, and sanitation.

The Rockefeller school of medicine is all about chemicals and their derived drugs to treat people. Eustace Mullins book shows how Rockefeller money was used to capture health care and creating customers rather than curing people!

The “Seven Sisters” have since merged in recent years from what the U.S. government had broken the Standard Oil Trust into:

SEVEN SISTERS

NEW SEVEN SISTERS

Marburg Pathogen will be activated in the Vaxxed via 5G source:

This next report is further evidence that the past two years has not been about a rogue novel virus but proof of the long ago planned “Depopulation” of the world. The known evidence confirms that those behind this Global MASS MURDER used many vectors of attack on humanity. By this we know that not all vaccine doses were identical. It was revealed many months ago that specific LOTS of the Vaxxes were more poisonous or toxic than others. Victims were subject to the luck of the draw through the lot distribution system of the vials of vaxxes.

This is going to be important with the next phase of the virus scare factor. The next phase is likely to be a combination of more toxic and lethal pathogens such as the Bird Flu, Marburg, Ebola, Covid-20, etc. The data shows those who are fully vaxxed with at least one booster shot are going to experience re-infection. This will in turn be used to scare those who refused to take the jabs the first time into submitting as this next phase begins in a couple months. The Biden administration has already purchased millions of doses for a monkey pox virus now we have monkey pox – a viral infection that is traditionally mild and rare in humans – popping up all across the Western countries. Oddly enough, the virus is seemingly spreading from person to person like never before, leaving many people, including those in the scientific community, scratching their heads and asking themselves: ‘what is going on?’

With a recent surge of over a 100 cases in Europe, the first positive case being confirmed in the U.S. on Wednesday in Massachusetts, and a second potential case Now being investigated by health officials in New York City, the Biden administration is wasting no time in ‘preparing’ for the next public health emergency.

On Thursday, the Federal government ordered 13 million monkey pox vaccines from the European biotechnology company Bavarian-Nordic, according to Newsweek. In all, a total of \$119 million was spent on the ‘Jynneos’ vaccines, which works out to about \$ 9.15 per dose.

Many of us recall the video clip showing Microsoft co-founder Bill Gates and Melinda Gates smirking while talking about a second wave of the pandemic has gone viral on Twitter. The clip shared widely by those opposing Gates has given rise to yet another set of conspiracy theories related to the power couple. Bill Gates said *"the next one [pandemic] will really get our attention"* and Peter Schwartz, author of Operation Lockstep, said *"we are in an era of pandemics; this is not the last one."*

This is a huge lie that Bill Gates and Peter Schwartz can use to hide the fact that through CRISPR-Cas9 technologies, man can create an "endless" string of man-made viruses without the public knowing the truth! I began reporting on CRISPR-Cas9 two years ago as to what it could do in the wrong hands with nefarious goals in mind.

Marburg Pathogen will be activated in the Vaxxed via 5G
source: (Marburg Virus has a 88% fatality rate!)

<https://www.bitchute.com/video/4ajhXs6ykjhs/>

Todd Callender joins the The Prather Point to discuss the next PLANdemic (the Marburg pathogen), which will be the excuse used to force the unvaxxed into quarantine camps (FEMA) where kill-shots will be administered.

He also says that those who received the Covid shots already have the dormant Marburg virus encapsulated in lipid nanoparticles, which can be activated via 5G frequencies. Those who have Marburg will then become zombie-like, because it affects frontal cortex brain function.

<https://rumble.com/v14zdrf-marburg-will-be-activated-in-the-vaxxed-via-5g.html>

If you have any doubt that “Depopulation” has been the #1 issue for the past half-century, I challenge you to read and listen to the plandemic’s next phase. Marburg Virus is related to Ebola and the plan is to activate those already vaxxed through the use of a frequency of wireless energy. They plan to use the 18 GHz signal frequency to further cull the population. The powers at be will flip the **5G** switch and those having taken the vaxx will be used to finish them off.

In articles that I have written on **5G** wireless energy, I have shared information on the process of “Electroporation” in which wireless energy can be used to induce, insert, and alter a person’s DNA. The combination of CRISPR-Cas9 and wireless energy beams a dose of energy to attack human life form. This is the ultimate in what is essentially a “Directed Energy Weapon.”

.....
/ In electrophoresis, charged solid particles move under an external electrical field. /
/ And electroporation is the DNA transfer into the cell. It has been shown recently /
/ that electrically induce electrically DNA transfer into cell is a fast vectoral process /
/ with the same difference as DNA electrophoresis transfer into external electrical /
/ field.. Truly the weapon that leaves no smoking gun behind! /
.....

You now know why the world has been racing to debut its 5th generation of wireless energy. That said, they are well along in the process of work on the next stage that will make humans dispensable.

And that is, inside of these shots, that people already received, inside the lipid nanoparticles, the Hydrogel, there exist pathogens, inside of the particles that have not yet opened. Those pathogens are chimeric. They include e coli, Marburg, Ebola, staphylococcus and Brewer’s Yeast, amongst others.

We know that, upon the broadcast from the **5G** system, that is now employed across the United States – and the world, for that matter – when they broadcast an **18 GHz signal** [satellite TV frequency range] for one minute, three different times, as a pulse, it will cause those lipid nanoparticles to swell and release these pathogenic contents, thereby causing a Marburg epidemic, that they’ve already spent the money on. It’s already done, right?

The Marburg epidemic, for the purposes of the law has happened and now, we just need the actual disaster to happen and there are actually worse parts to it

than that, including the 1p36 Gene Deletion that effectively will turn those poor people into zombies. As odd as that sounds, our government's preparing for that.

Rights activist attorney, [Todd Callender](#) has been defending U.S. servicemen from being forced to take the death shot. He joins Jeffrey to discuss the next pandemic, with the release of the Marburg pathogen, which he says will be the excuse used to force the unvaxxed into FEMA [quarantine camps](#), where they will be administered the death shot.

Todd says that those who received the COVID shots already have in their bodies the dormant Marburg virus encapsulated in lipid nanoparticles, which would be released into their tissues via a specific pattern of pulsed **5G** frequencies.

He says those who have Marburg will then become zombie-like, due to the [1p36 Gene Deletion](#), which affects the frontal cortex of the brain and is listed alphabetically by Pfizer as the first "adverse event of special interest", in [documents that they were forced to release by FOIA](#) request several weeks ago.

I've looked at the Pfizer document and this 1p36 Gene Deletion is listed first as an adverse event, not because it is the most common but because "1p36" is alphabetically the first adverse event, among the thousands listed.

It will be hard to find anything on use of wireless energy, yet to substantiate what he says, below about the 18 GHz frequency being pulsed three times to cause the lipid nanoparticles to expand and release the Marburg pathogen into the bodies of the vaxxinated. Todd says he's been contacted by some 500 whistleblowers so maybe he got that information from one of them. With CRISPR-Cas9 there is great secrecy on the military research.

It's very, very weird that all kinds of government agencies have been training for a [Zombie Apocalypse](#) for over a decade but I'm not too concerned about brain-eating zombies from the *Night of the Living Dead* attacking me.

I think we're already living in a Zombie Apocalypse of people who believe the fake news and who are actually giving their infants the death shot.

What I can verify and what I do think is worthy of concern is the HHS' December 2020 Notice of Declaration Under the PREP Act for [Countermeasures Against Marburg Disease](#).

If we've learned anything from Event 201 and the [SPARS document](#), such declarations and drills can definitely indicate that we will be seeing the rollout of what they're declaring and training for.

**////////////////////////////////////TRANSCRIPT////////////////////////////////////
OF PROGRAM INTERVIEW FOLLOWS**

TODD CALLENDER: What I want to impart to you is, under [42 CFR parts 70 and 71](#), that's the enabling statute for Health and Human Services to assume power upon the declaration of a Public Health Emergency. They've already done that, as you indicated with the COVID crisis that has resulted in the suspension of our Constitution. It's already happened.

The next one is coming. In that statute, you will see that Marburg is already identified, you will note that the PREP Act has a [Marburg Provision](#), that allows for additional spending, when invoked.

The Health and Human Services has already invoked the Marburg Provision, meaning they've already parted ways with money and spent it, under the [HHS Enabling Statute](#) to build quarantine camps, among other things, throughout the United States.

We interrupted two, one of which was in Cochise County, Arizona, where they were going to build a \$1.9 million facility that houses the now-merged four branches under HHS: the Judiciary, Law Enforcement, Corrections and Public Health are now all one and the same. And they're all housed in the same facility.

So, all these quarantine centers are there, we understand that there could have been a Marburg release that Dr. Chambers will get into. We think that one has already happened. We know that Marburg is not particularly contagious but it has an extraordinarily high rate of fatality and we know the mechanism by which this will be released.

And that is, inside of these shots, that people already received, inside the lipid nanoparticles, the Hydrogel, there exist pathogens, inside of the particles that have not yet opened. Those pathogens are chimeric. They include e coli, Marburg, Ebola, staphylococcus and Brewer's Yeast, amongst others.

We know that, upon the broadcast from the **5G** system, that is now employed across the United States – and the world, for that matter – when they broadcast an [18 GHz signal](#) [satellite TV frequency range] for one minute, three different times, as a pulse, it will cause those lipid nanoparticles to swell and release these pathogenic contents, thereby causing a Marburg epidemic, that they've already spent the money on. It's already done, right?

The Marburg epidemic, for the purposes of the law has happened and now, we just need the actual disaster to happen and there are actually worse parts to it than that, including the 1p36 Gene Deletion, that effectively will turn those poor people into zombies. As odd as that sounds, our government's preparing for that.

JEFFREY PRATHER: But the FEMA have already put out [zombie commercials](#) and CONOPS on that, correct?

TODD CALLENDER: That's correct. If you look at [CONPLAN 8888](#), Stratcom put that out in 2011, on page 2, they say, *"Oh, this is just for example, it's just for demonstration, don't worry about it. It's so we don't offend other countries."*

The problem with that is you look through that and it's all about five different kinds of zombies. There isn't anything in there about opposition forces, there isn't anything about winning political battles, or counterinsurgencies, and it is only about a "Zombie Apocalypse", defending it.

And you will see that every [NIMS-compliant](#) – practically – agency, whether that's state, local or federal has already had their Zombie Apocalypse Preparedness Training, they've already done their practice.

The CDC has had a [Zombie Apocalypse Preparedness](#) website up for the last 5 years, now they've reduced it to a PDF cartoon.

Even in the [Amazon Web Services contract, the force majeure clause](#), I believe it's Article 41, states that, *"We're not liable for damages, in case there's a Zombie Apocalypse."*

This is coming, Folks. And the [Serious Adverse Event Report Pfizer put out, post-marketing](#) – they have put out, it's part of a FOIA – the number one Serious Adverse Event was the 1p36 gene deletion [this appears on page 30 in the document above and it appears first, because alphabetically, "1p36" is the first of thousands of debilitating conditions that Pfizer admitted to have been caused by the vaxx by February of 2021. – A. Bruce].

If you look up the symptomology for that, it is the elimination of the frontal cortex and the propensity to bite.

What's very odd about this is this was the symptom, post-vaccination. That disease is a congenital disease. It means you're born with it. So how was it, then possible that this is the number one Adverse Event from the Pfizer shots?

It's here, Folks. And then, you've got Dr. Chambers, here to tell you that I'm not just a raving lunatic!

JEFFREY PRATHER: No, no. These are both very serious, credentialed folks and Patriots in their fields. I just met Dr. Chambers but just hearing his military résumé impresses me and Todd and I have known each other for quite some time.

And I also now work in corporate, competitive biotech intelligence – only for the Good Guys – that's my company, it's [GRINX, which is Genetics, Robotics, Information and Nanotechnology](#), don't talk about that much...So, I have some understanding of what's going on, here.

So, the lipid fat is what encases the delivery and then it is activated and released by pulsing the 18 GHz. Is that correct, Todd?

TODD CALLENDER: Yeah. That's exactly right. Think of the lipid nanoparticles as little bombers. What happened is the various manufacturers of these shots included three separate HIV proteins in each of them, including the [AD5 adjuvant](#).

The reason for that was to disable, to disarm peoples' immune systems so that those little fat bombers could go inside of the cell and deliver their payloads, in order to re-program the person's body to produce synthetic DNA. In this case, they call it the [S-proteins](#).

When they turn that Marburg switch on, it will be [N-proteins](#). It will cause the people to produce the Marburg pathogen, themselves...

First and foremost, from a documentary point of view and self-legal help, [Vaxxchoice.com](#) is a full repository of everything that we're talking about and other things; self-help legal documents, that if you sign up, you can get a daily update. There's no donation button, there's no nothing. We just put this out for peoples' benefit.

Separately, there's [TruthForHealth.org](#). [Dr. Lee Vliet](#) is in charge of that and she's put out a Marburg fact sheet, along with some things that we can do to try and stop what's coming or at least prevent it.

Just like the COVID situation, there are medications that Dr. Chambers can talk about, there is therapeutics. Of course, the CDC got rid of those therapeutics in its advisory, saying the only thing you can do to treat Marburg is a vaxxine. There's one actually already prepared for this. I think it's getting its Emergency Use Authorization, right now, which also tells us this is going to happen.

Secondarily, yesterday, we got information from a source, from a whistleblower, showing us that they are now training people on Urban Collection, Isolation and Detention, in reference to a Public Health Emergency.

So they're now training. This training happens next week in South Carolina and once again, in July. I'm sure that this is happening in more than one place.

[The United Nations has already hired specialists in quarantining](#). That is on their payroll. That happened last year. I haven't seen if they've done it more recently.

My point in telling you this, Folks is that we have tools to not fall for this again. There are therapeutic drugs that are available. I think one of them is called [Fenben](#) in the 444mg and then, I understand, from talking to doctors in Africa that have treated this, that ozone, either IV or insufflate, it also tends to work.

I also have one whistleblower inside of FEMA, who said that the plan is to scare the hell out of everybody and scare them into going to the quarantine centers, because they don't think they can collect everybody, by themselves. The doors will be open and then of course, in there, you'll get your mandatory shot, because you came in voluntarily.

So what we'd like to do is help people understand: Don't run into the FEMA camps, because you're going to get one of these shots, just like the COVID ones. And number two, you can treat this yourself, there's preparation you can do and if we get the word out sufficiently, I think we can stop this, like we did in Cochise County and like another lawyer friend of mine, Jamie Scheer did in New York. We've got to get the word out, we've got to stop this...

Upon the invocation of these Emergency Powers, which are now permanent, by the way, in all 50 states. There is never again going to be a Constitution and [all of that power is being ceded in the WHO](#) – now, by contract. It was by charter. Now, it's by contract.

So, this is your One World Government, all being created at one time with this particular emergency. Your rights, as a human being are gone, by the way.

There are two UN conventions: The International Convention on Civil & Political Rights and the International Convention on Human Rights, that says they cannot force you to do medical experiments. Guess what? Those don't count anymore. Your Constitution doesn't count, anymore.

We're in a position where, We, the People, at a county level – and Dr. Chambers will talk about this – we take back our country from our own traitors in our government or we're done. We're done, as a species.

My biggest issue is this: the next shoe to drop is coming and then, they will cause 30 million people to pour across our borders. Most of those will be enemy occupiers. Some are already housed on our military reservations, as our military members are falling out, because they were forced to get these shots. Others are prepared to walk in and take over.

The Law of War states that when alien occupiers take over substantial government functions, your nation is dead. That is happening, as we speak, right now and we've got to take our country back now, or it's never.

JEFFREY PRATHER: Well, thank you so much, Todd and I'll probably have you guys both on my cast next week or the week after that, if you're available.

This is really important. I'm going to ask Mike Adams and Bob Day at Brighteon TV to write up articles about this and get this and get this out.

It's really important. Thanks. And again, your website is? Both of them?

TODD CALLENDER: Vaxxchoice.com and TruthForHealth.org
Thank you, Jeffrey. I appreciate you having me.

VAERS Data Show New Deaths, Injuries After COVID Vaccines, As CDC Signs Off on 3rd Shot for Kids 5-11

VAERS data released Friday by the Centers for Disease Control and Prevention show 1,268,008 reports of adverse events from all age groups following COVID-19 vaccines, including 28,141 deaths and 230,364 serious injuries between Dec. 14, 2020, and May 13, 2022. By Megan Redshaw

The Centers for Disease Control and Prevention (CDC) today released new data showing a total of [1,268,008 reports of adverse events](#) following [COVID-19](#) vaccines were submitted between Dec. 14, 2020, and May 13, 2022, to the Vaccine Adverse Event Reporting System (VAERS).

VAERS is the primary government-funded system for reporting adverse vaccine reactions in the U.S.

The data included a total of [28,141 reports of deaths](#) — an increase of 173 over the previous week — and [230,364 serious injuries](#), including deaths, during the same time period — up 1,887 compared with the previous week. There were 6,859 additional total adverse events reported to VAERS over the previous week.

Excluding “[foreign reports](#)” to VAERS, [817,538 adverse events](#), including [12,961 deaths](#) and [82,544 serious injuries](#), were reported in the U.S. between Dec. 14, 2020, and May 13, 2022.

[Foreign reports](#) are reports foreign subsidiaries send to U.S. vaccine manufacturers. Under U.S. Food and Drug Administration (FDA) regulations, if a manufacturer is notified of a foreign case report that describes an event that is both serious and does not appear on the product’s labeling, the manufacturer is required to submit the report to VAERS.

Of the 12,961 U.S. [deaths reported](#) as of May 13, 16% occurred within 24 hours of vaccination, 20% occurred within 48 hours of vaccination and 59% occurred in

people who experienced an [onset of symptoms](#) within 48 hours of being vaccinated.

In the U.S., 581 million COVID-19 vaccine doses had been administered as of May 13, [including](#) 343 million doses of Pfizer, 219 million doses of Moderna and 19 million doses of Johnson & Johnson (J&J).

From the 5/13/2022 release of VAERS data:

Found 1,268,008 cases where Vaccine is COVID19

[Government Disclaimer on use of this data](#)

Table

Event Outcome	Count	Percent
Death	28,141	2.22%
Permanent Disability	52,299	4.12%
Office Visit	192,534	15.18%
Emergency Room	120	0.01%
Emergency Doctor/Room	128,940	10.17%
Hospitalized	156,747	12.36%
Hospitalized, Prolonged	378	0.03%
Recovered	340,695	26.87%
Birth Defect	1,076	0.08%
Life Threatening	31,437	2.48%
Not Serious	573,782	45.25%
TOTAL	† 1,506,149	† 118.78%

† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 1268008 (the number of cases found), and the Total Percentage is greater than 100.

Every Friday, [VAERS](#) publishes vaccine injury reports received as of a specified date. Reports submitted to VAERS require further investigation before a causal relationship can be confirmed.

Historically, VAERS has been shown to report only [1% of actual vaccine adverse events](#).

U.S. VAERS data from Dec. 14, 2020, to May 13, 2022, for 5- to 11-year-olds show:

- [10,745 adverse events](#), including [279 rated as serious](#) and [5 reported deaths](#).
- [22 reports](#) of myocarditis and pericarditis (heart inflammation). The CDC uses a [narrowed case definition](#) of “myocarditis,” which [excludes cases](#) of cardiac arrest, [ischemic strokes](#) and deaths due to heart problems that occur before one has the chance to go to the emergency department. The Defender has noticed over previous weeks that reports of myocarditis and pericarditis have been removed by the CDC from the VAERS system in this age group. No explanation was provided.

- [43 reports](#) of blood clotting disorders.

U.S. VAERS data from Dec. 14, 2020, to May 13, 2022, for 12- to 17-year-olds show:

- [31,572 adverse events](#), including [1,824 rated as serious](#) and [44 reported deaths](#). VAERS [reported](#) 44 deaths in the 12- to 17-year-old age group last week.
- [64 reports](#) of anaphylaxis among 12- to 17-year-olds where the reaction was life-threatening, required treatment or resulted in death — with 96% of cases attributed to [Pfizer's vaccine](#).
- [651 reports](#) of myocarditis and pericarditis with [639 cases](#) attributed to Pfizer's vaccine.
- [168 reports](#) of blood clotting disorders with all cases attributed to Pfizer.

U.S. VAERS data from Dec. 14, 2020, to May 13, 2022, for all age groups combined, show:

- 20% of deaths were related to cardiac disorders.
- 54% of those who died were male, 41% were female and the remaining death reports did not include the gender of the deceased.
- The [average age](#) of death was **73**.
- As of May 13, [5,527 pregnant women](#) reported adverse events related to COVID-19 vaccines, including 1,732 reports of [miscarriage or premature birth](#).
- Of the [3,622 cases of Bell's Palsy](#) reported, 51% were attributed to [Pfizer](#) vaccinations, 40% to [Moderna](#) and 8% to [J&J](#).
- 880 reports of [Guillain-Barré syndrome](#), with 42% of cases [attributed to Pfizer](#), 30% to [Moderna](#) and 28% to [J&J](#).
- [2,291 reports](#) of anaphylaxis where the reaction was life-threatening, required treatment or resulted in death.
- [1,707 reports](#) of myocardial infarction.
- [13,972 reports](#) of blood-clotting disorders in the U.S. Of those, [6,266 reports](#) were attributed to Pfizer, [4,989 reports](#) to Moderna and [2,679 reports](#) to J&J.
- [4,194 cases](#) of myocarditis and pericarditis with [2,570 cases](#) attributed to Pfizer's, [1,427 cases](#) to Moderna's and [183 cases](#) to J&J's COVID-19 vaccines.

[Children's Health Defense](#) (CHD) asks anyone who has experienced an adverse reaction, to any vaccine, to file a report following [these three steps](#).

CDC vaccine advisory panel follows FDA lead, endorses 3rd Pfizer shot for kids 5 to 11.

The CDC's independent vaccine advisory panel on Thursday [endorsed a third dose](#) of the Pfizer-BioNTech [COVID-19](#) vaccine for children ages 5 to 11.

CDC Director Dr. Rochelle Walensky signed off on the Advisory Committee on Immunization Practices (ACIP) recommendation, clearing the way for healthcare workers to begin administering the shots.

The ACIP recommendation came two days after the FDA [granted Pfizer's request](#) for Emergency Use Authorization (EUA) of a single booster dose for this age group, saying the third shot should be administered at least five months after the initial two-dose primary series with the Pfizer-BioNTech vaccine.

The FDA granted the EUA without convening its vaccine advisory panel of independent experts to discuss Pfizer's data on 5- to 11-year-olds.

The authorization was based on a study subset of only 67 children who exhibited higher antibody levels one month after receiving a booster dose.

The FDA granted EUA for the boosters despite data showing higher infection rates among fully vaccinated children in the 5-to-11 age group compared to unvaccinated children, no studies testing the efficacy of the vaccine against the current dominant [BA.2 COVID-19 variant](#) and [two new studies](#) showing that for vaccinated people who get Omicron, the infection provides better protection against future infections than a second booster dose.

The FDA said it did not identify any new safety concerns and found the children in the trial experienced the same mild side effects other people do after receiving a booster.

However, a subset of only 67 children is not [large enough to detect](#) potential adverse events like [myocarditis](#), and it is unknown how rapidly any protection provided wanes because trial participants were not followed beyond a 28-day period.

Pfizer documents show many adverse events deemed 'unrelated' to vaccine.

The [latest release](#) by the FDA of Pfizer vaccine documents raises questions about how frequently adverse events experienced by clinical trial participants were reported as "unrelated" to the vaccine.

The 80,000-page document cache [released](#) May 2 includes an extensive set of Case Report Forms (CRFs) from Pfizer trials conducted at various locations in the U.S.

The reports are from participants who suffered some type of adverse event during their participation in Pfizer's vaccine trials.

As the [documents reveal](#), despite the occurrence of a wide range of symptoms including serious cardiovascular events, almost none were identified as being “related” to the vaccine.

Only one adverse event is clearly specified as being related to the vaccination: a participant who suffered from psoriatic arthritis, with no prior history of the condition.

In addition, several CRFs indicated exposure during pregnancy or during a partner’s pregnancy. However, the documents provided do not appear to have provided any follow-ups regarding any outcomes or potential adverse events for the participants, their partners or their newborn babies once born.

In some instances, while the CRFs claimed the adverse events suffered by patients were unrelated to the vaccine, their cause was unspecified — simply indicated as “other” — while in another case, a participant’s “unplanned” small bowel obstruction and panic attacks were listed as being unrelated to the vaccination despite no relevant medical history pertaining to the severe adverse events in question.

Louisiana governor reverses COVID vaccine mandate for students.

Louisiana Democratic Governor John Bel Edwards on Wednesday reversed the [state’s mandate](#) requiring students in daycare through college to be fully vaccinated against COVID-19.

The announcement reversed an [earlier decision](#) by the governor’s administration and the Louisiana Health Department (LHD) requiring students to be fully vaccinated beginning in the 2022-23 school year.

Edwards [said](#) he based the decision on the fact that the FDA has not fully approved the vaccines for people under age 16, and his administration will continue to recommend all children age 5 and over get the vaccine — a recommendation the LHD endorsed Wednesday in a [news release](#).

In their statements, the governor and the LHD implied COVID-19 vaccines for people over age 16 are fully approved.

However, while the FDA did grant full licensing to Pfizer’s Comirnaty and [Moderna’s Spikevax](#) COVID-19 vaccines — for people 16 and older and 18 and older, respectively — those vaccines [are not available](#) in the U.S.

All COVID-19 vaccines being administered in the U.S. are still available only under EUA.

World governments have launched a silent war upon their own people, using quiet weapons, lies and propaganda. The mainstream media is enabling this deception and genocide. Our mission in this war it to bring you the truth.

Because I am not a scientist, I AM NOT CONSIDERED CREDITABLE to prove my contention that Covid-19 was genetically engineered through the use of CRISPR-Cas9 “gene” engineering methods. I have done my homework and diligence on this premise. Even the article below that I have retained the past three or four segments provides circumstantial evidence (if not causal) that the spike protein as a vector was manipulated in an infinite number of ways to confuse the medical and scientific community.

It was Pfizer’s CEO, Albert Borla who said that “We cracked the Code of Life”. He called his vaxx a “Delivery System” which in itself infers that it was delivering more than a vaccine. Dozens of articles shared in this series have confirmed human manipulation of what people were injected with is not therapeutic but toxic and potentially fatal! It is the use of CRISPR-Cas9 “gene” editing that can be used for good but can also be used for evil nefarious applications!

The Many Ways The Spike Protein Annihilates Human Life

'The Spike Protein Is What The 'Vaccine' Is Supposed To Make In Your Body...The Spike Protein Is One Of The Most Contrived Toxins or Poisons That Man Has Ever Made...And The Aim Of This Toxin Is To KILL Billions Without Anyone Noticing It.' - Dr. Shankara Chetty

The diabolical pathways the spike protein uses to destroy the human body are many. As Dr. Chetty makes clear, there has never been anything more deadly in human history than the spike protein. Below are just some of the methods its creators built into it to make 100% certain billions will die. The techniques the spike protein uses are often referred to as 'cascades'. Whatever term you use, from avalanche to tsunami, once the spike protein has entered your body it is just a matter of time for it to do its demonic work...

AIDS - Total Immunological Collapse And Failure

...This includes widespread auto-immune diseases

Explosion Of Cancer In The Body

...Cancers of all types, including reactivated and brand new cancers...even cancers never seen before

Sterilization

...Destruction of male and female reproductive organs and system

Clotting And Hemorrhaging

...Clotting from the spike protein is abnormal and resistant to degradation

Systemic Fibrosis

...Extensive scarring throughout the entire body

Neuro Degenerative Diseases

...Prions (CJD), Amyloid Deposits (Alzheimers, Parkinsons, ALS, etc.)

Cytokine Storm And ADE (Antibody Dependent Enhancement)

...Hypersensitivity to the Spike Protein

The creators of this “Gene Therapy” are likely to have known the harm the “Spike Protein” would do over time. With more than two years to document the results of the Vaxx since administering the first shots in December of 2020, the VAERS reporting system has documented 1.2+ million adverse reactions among the population.

In the late summer of 2020, Dr. Sherri Tenpenny and Dr. Carrie Madej were calling out those pushing the new “Gene Therapy”. It was known that from early animal test studies the animals all died from this experimental treatment and the animal studies were abruptly canceled. The accumulating evidence to date leaves one to conclude that his experiment was criminal and that responsible need to be indicted and prosecuted for criminal negligence, manslaughter, and pre-meditated murder.

**Our Government wants you DEAD!
This includes the CDC, NIH, NIAID,
and the World Health Organization!!
The “Depopulation” agenda began
Shortly after the 1968 publication of
*“The Population Bomb”***

by Dr. Paul Ehrlich and his wife Anne.

“Depopulation has been the World’s #1 Issue since 1968!” It underlies every global issue since. Whether it is climate change or the Global Reset, “**depopulation**” is at the core of everything!! It’s all about Sustainable Development!

Anyone who is a skeptic of my statement should Google search the term “Georgia Guidestones” and read their goal engraved in granite stone back in 1980. The stone structure calls for the eradication of 93% of the world’s population.

Blessings,

Pastor Bob, EvanTeachr@aol.com
