Part 80

**Government data show that 1 out of every 246 Covid Vaccinated People DIES within 60 days**

Friday, August 12, 2022 by: Ethan Huff

**([Natural News](#))** When the British government decided to change the ways in which it calculates and releases data about Wuhan coronavirus (Covid-19) “vaccine” injuries and deaths, the obvious cover-up that resulted prompted the public filing of dozens of Freedom of Information (FOI) requests. This led to [the revelation](#) that one out of every 246 people who gets jabbed for Chinese Germs, at least in England, ends up *dying* within the first two months post-injection.

At first, officials in the United Kingdom tried to claim that they do not hold such information. Each FOI request was given the same pat answer: a standard form letter insisting that details about when a person died post-injection are not available through death certificates, which is what the government uses for calculations.

The Office for National Statistics (ONS), meanwhile, this being the UK's largest independent producer of official statistics and a nationally recognized and reputed source of associated data, recently published the very data that government authorities claim does not exist – and that data is astounding.

For one, at least 90 percent of all “covid” deaths over the past year have occurred in people who took the jabs. In April and May of this year specifically, some 94 percent of all “covid” deaths were fully vaccinated, with 90 percent of those being people who had gotten triple jabbed.

Conversely, mortality rates among the unvaccinated population in every demographic are about as low as you can get. People who left their immune systems alone, in other words, are doing just fine. (Related: Nearly 20 percent of all fully jabbed adults [now suffer](#) from serious health problems.)

The risk of becoming injured or dying from covid jabs is much higher than media and government claim.

The ONS data is difficult to pore through, just so you know. *Exposé News* continues to do a fantastic job of parsing it out and presenting it in an easily digestible format so people can see what is going on, and hopefully recognize that governments are complicit in trying to hide the truth.

What the powers that be do not want you to know is that covid jab-related adverse events are much more common than has long been claimed. It is not “exceptionally rare,” for instance, for a person to develop myocarditis post-injection – especially if he is a man.

Early on, the corporate-controlled media kept trying to claim that heart damage from the shots was a one-in-a-million type of event. Nowadays, they are much more silent about this issue because they know that people know the shots are highly deadly and extremely high-risk.

“In every single month since the beginning of 2022, partly vaccinated and double vaccinated 18-39-year-olds have been more likely to die than unvaccinated 18 to 39-year-olds,” *Exposé News* reports.

“Triple vaccinated 18 to 39-year-olds however have had a mortality rate that has worsened by the month following the mass Booster campaign that occurred in the UK in December 2021.”

Older folks over 60 face similar odds, the data shows. Like 18- to 39-year-olds, those in the 60 to 69 age group massively increase their risk of injury or death if they choose to take the shots – and the risk only increases further with each new booster shot they take.

**“According to the Office for National Statistics between 1st Jan 21 and 31st May 2022, a total of 14,103 people died with Covid-19 within 60 days of vaccination, and a total of 166,556 people died of any other cause within 60 days of vaccination,” *Exposé News* adds.**

**“This means that in all, 180,659 people died within 60 days of Covid-19 vaccination between January 2021 and May 2022 in England.”**

### **142 New Cases of COVID-19 Vaccine Injuries in Babies Added to VAERS as CDC Now States “Unvaccinated People Have Same Guidance as Vaccinated”**

August 12, 2022

**Ellen Frint holds her daughter, seven-month-old Jojo, as she receives the first dose of the Moderna COVID-19 vaccine for children at Montefiore Medical Group in the Bronx borough of New York City on Tuesday June 21, 2022. [Source](#).**

**by Brian Shilhavy**

**Editor, Health Impact News**

**Another 142 new cases of COVID-19 vaccine injuries to babies and toddlers between the ages of 6 months and 4 years old were added to the U.S.**

Government run VAERS (*Vaccine Adverse Events Reported System*) database today, bringing the total number of cases filed for this age group to 829 since the shots were authorized by the FDA a few weeks ago in June. ([Source](#).)

I have put all new 142 cases that came out today on a separate page [you can view here](#).

Brain and heart injuries, hallucinations, anaphylactic shock, seizures, skin rashes, gastrointestinal injuries, hemorrhaging, and other serious conditions continue to be listed as side effects to these toxic shots being injected into babies and toddlers.

One of the most tragic things I am reading in these write-ups of vaccine injuries in these babies is that the parents and medical professionals are giving them acetaminophen (sold usually as Tylenol or Paracetamol) which study after study has shown is toxic and harmful to children. See:

[Acetaminophen \(Tylenol\) Harmful for Babies](#)  
[Study: Evidence that Acetaminophen, Especially in Conjunction with Vaccines, is a Major Cause of Autism and Asthma](#)

Here are a few cases showing how these poor children are suffering after receiving the shots.

**VAERS ID: [2397717](#), 2-year-old boy in Arizona:**

*Life threatening episode requiring emergency transport: clammy skin and vomiting leading (8 minutes) to difficulty breathing (wheezing and flared nostrils- 2 minutes). Turned blue, limp, non-responsive. Fully stopped breathing for two minutes. After several chest compressions started breathing again, rolled over, and threw up.*

**VAERS ID: [2399256](#), 6-month-old boy in Virginia:** (NOTE: In addition to the Pfizer COVID Shot, this poor baby also got at least 5 other vaccines injected into him at the same time!!) 07/29/2022 In the morning we had the vaccination and it was his six month check in. He also received other multiple vaccinations that day as well. We did notice spotting in his bowel movement of blood and there was one at 4 that evening. Another bowel movement at 7 that had much more blood in comparison. A third bowel movement around 12 that evening and the blood spots reduced as well. When we looked up his other vaccines and their symptoms they did state that it may have been a different vaccine's. The doctor stated that they believe the symptoms may be caused by lactose intolerance. Check-up in two weeks to see improvements.

**VAERS ID: [2393082](#), 4-year-old girl in Maine:**

*07/25/2020 Around 2:00 AM she woke up with a fever of 102 or 103 degree and vomiting. She slept until around 9:00 in the morning and still had a fever. I gave her acetaminophen. Throughout that day I treated her fever with Tylenol. Her*

*temperature peaked that afternoon at 104 degrees. Tylenol made her fever go down. She woke up several times during the night. Around 1230am, she was hallucinating and very confused saying things that did not make sense. The next day she woke up around 7:30am. She also complained of neck pain. I gave her more Tylenol. I switched to Motrin around noon and that seemed to bring her fever down better. She went to her pediatrician's office that afternoon and was given a COVID test which was negative. Her doctor said everything looked good. Around 4 o'clock her fever went up to 104 again. Her fever does respond to Tylenol and Motrin. She woke up this morning at 03:30 and had a temperature of 105.5. I gave her Motrin, put a cool washcloth on her. When she woke up at 7:30am this morning her temperature was at 100.4 and she appears to feel better, but am not sure if she is just responding to the medication.*

**VAERS ID: [2393330](#), 4-year-old boy in Oklahoma:**

*Child received COVID vaccine in Health department clinic on 07/25/22. Phone all from mom on 07/27/22 to report seizure on 07/26/22 at 7:00 am. Child transport to Hospital by ambulance. Temp was 100 upon arrival. Child spent the night at the hospital for "monitoring" per mom. Per mom DX with "complex febrile seizure". Mom called to report to health department .*

**VAERS ID: [2393754](#), 10-month old girl in Maryland:**

*Mother reported child had been crawling and pulling to stand for several weeks. Mother noticed in the evening of 7/25/2022 about 6 hours after vaccination child's mobility changed: crawled a few feet then just stopped crawling, flopped, spread her arms and legs out across the floor. She became inactive for a minute; then continued crawling, pulled to stand and then bear weight. Mother reported no fever no signs of discomfort but is concerned about possible neurological problems in her otherwise healthy child. Mother reports normal growth and development. Family is new to the area. They have an established MD. Will follow-up with an appointment 7/28/2022.*

**VAERS ID: [2397646](#), 2-year-old girl in Pennsylvania:**

*Suspected febrile seizure, fever, vomiting, spasms of muscles and then sever shaking/chills for approximately 15 minutes. Transported to hospital by ambulance at approximately 1am. Discharged at 5:30am after monitoring.*

**VAERS ID: [2399319](#), 2-year-old boy in Maryland:**

*On July 31 about 49 hours after his second dose around 3pm, patient became very lethargic and started crying. We took his temperature and he had a 104.6. We gave him ibuprofen and put him down for a nap. He slept and when he woke up he had a 102. We gave him Tylenol at that time around 6:45pm. He seemed better and was okay the rest of the evening. Before bed he had a temp of 101 so we gave him ibuprofen. He slept about 13 hours. When he woke up on August 1, he was completely inconsolable. He had a 104.3 temp. He didn't want to eat but I was able to get him to eat a few pretzels. I gave him ibuprofen in the morning when he woke up after eating around 11:30am. He was inconsolable a lot of the*

*day and only wanted to watch TV. He ate a very small lunch. I gave him tylenol at that point. His temp was better at 100. After his nap he was crying and didn't want a snack. We went for a walk outside in his stroller and that seemed to help a little. He did eat some dinner but would cry on and off throughout dinner. After dinner, he took a bath and he seemed okay then and the rest of the evening. Before bed, his temp was normal at 98.7. We gave him ibuprofen at that time. He slept 11 hours overnight and when he woke up on August 2nd, he was fussing but not hysterical. His temp in the morning was 99.1 but he started to feel warmer as the day went on. He had a smaller than normal breakfast and a very small lunch. He was crying on and off during lunch. I took his temp again and around 2:30 it was 102. I gave him ibuprofen around 2:30 and put him down for a nap. Overall, hes been better today (August 2) but is not back to normal. He did get bit by a goat on July 31 around 1:30. When I called my pediatrician, they didn't think his fever was related. They did prescribe him augmentin which he has been taking since August 1<sup>st</sup>*

**VAERS ID: [2399458](#), 4-year-old boy in Pennsylvania:**  
*4 days after vaccine patient developed acute [ataxia](#). He was seen at Hospital and had an MRI that was read as normal. He was diagnosed with Cerebellar inflammation.*

**VAERS ID: [2401711](#), 4-year-old boy in Indiana:**  
*This is part 2 to a previous report . My son spent 4 days in hospital was a fever and tachycardia. He is 4 years old about 33lbs and at times his heart rate was above 180. He had 4 days of fever and high heart rate. His second vaccination was on 7/29/2022. We went to ER first on 7/30/10/22 he was treated for fever and giving Ibuprofen and heart rate monitored and then released: the very next day 7/31/2022 we had to go back to hospital due to fever (103) at hospital and high heart rate over 180. He was given ibuprofen, saline because he was not drinking much at that time duration of an hour and yet his heart rate did not decrease enough for discharge and he was admitted after 2:00am on 8/1/2022. He had several fevers between 8/1/2022-8/2/2022 and his heart rate slowly decreased but was still high and they continued to treat with ibuprofen and Tylenol interchangeably for fevers and monitor hear rate, he was given saline on 8/2/2022 after labs shown he had ketones in his urine from dehydration ( he was eating solids foods Or drinking water during this time. He was taken off of the saline on 8/3/2022 but still struggle to eat, fevers finally subsided and heart rate appeared to stabilize but his eating and drinking was still impacted and was kept an additional day for monitoring. He was released on 8/5/022 with recommendations to follow up with cardiologist and primary care doctor. Both were contacted. He saw pcp on 8/4/2022 and awaiting follow up appointment with cardiology to be scheduled by that office.*

**COVID-19 Vaccines are Biggest Scam in History of Medicine, and the Children Suffer the Most**

As we have been reporting frequently for the past few weeks, many pro-vaccine and pro-pharma doctors and scientists are coming forward to sound the alarm on just how horrible these COVID-19 “vaccines” are, and the death and carnage that has followed.

A video has surfaced in the alternative media featuring an Israeli Professor, Dr. Zvika Granot, Ph.D., who is on the [Faculty of Medicine at The Hebrew University of Jerusalem](#). He heads up the [Granot Lab](#) as the “Principal Investigator,” focusing on “neutrophils” and cancer research.

He is also a member of [The Public Emergency Council For The Covid19 Crisis in Israel](#), which is where this video apparently originated. Dr. Granot states:

*We have already seen many distortions of science, lies and half-truths during the COVID crisis. More than once we have seen aggressive policies based on hopes that lack a scientific basis presented to the public as scientific facts.*

*We have seen how economic and political entities presented distorted science and silence many scientists who think differently.*

*Approving vaccination for babies and toddlers by the FDA in the USA and by the Ministry of Health in Israel, breaks all records of the theater of the absurd and raises deep doubts about the conduct of the regulators in the USA and Israel.*

We have uploaded the video to our [Bitchute](#), [Odysee](#), and [Telegram](#) channels. CDC Backtracks on COVID Measures Less Than 2 Months After Recommending COVID Shots for Babies and Toddlers.

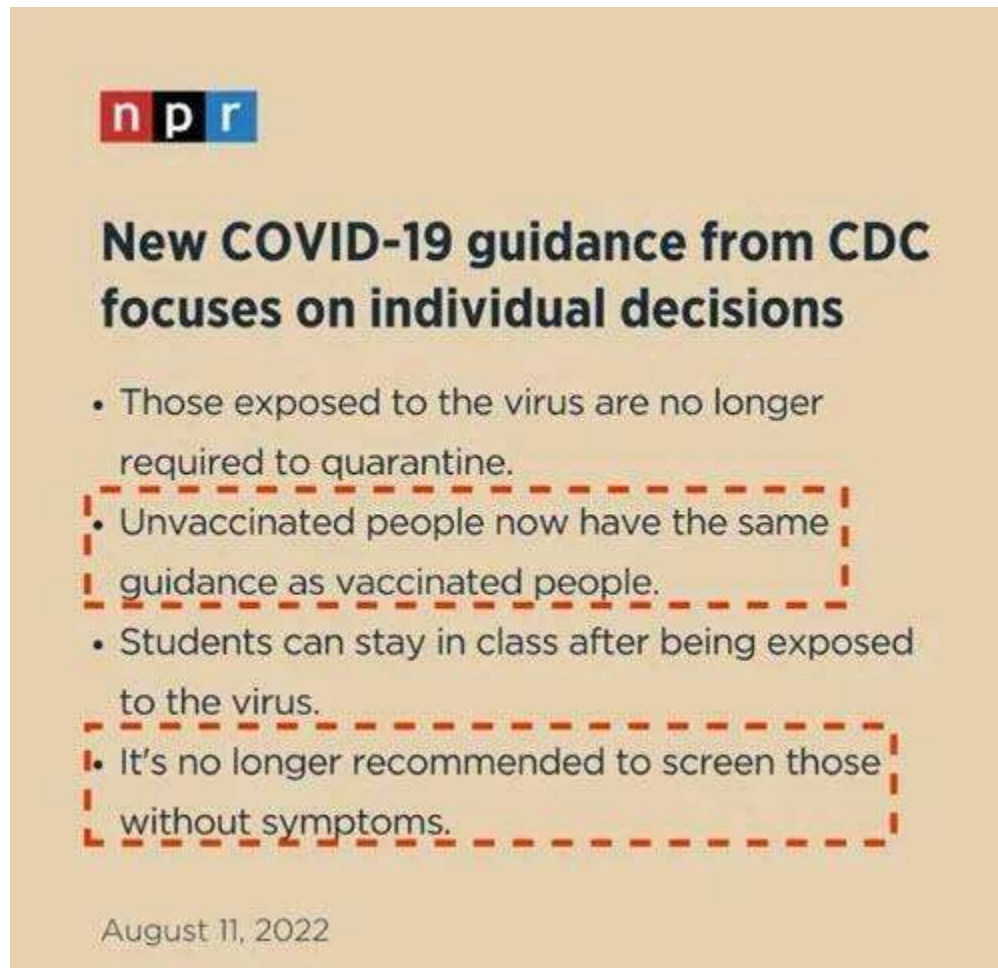

The truly tragic thing about this corruption within the FDA and the CDC, is that [yesterday the CDC finally backtracked on many of their COVID-19 measures that are recommended](#), stating that the focus should now be on “individual decisions,” and that “unvaccinated people now have the same guidance as vaccinated people.”

*And, just like that, it was over.*

This is HUGE news folks. In Bureaucrat speak, this is a near-complete cave-in to the actual facts.

- No symptoms? No problem.
- Vaccinated or unvaccinated? Same guidance.
- Exposed? No need to even quarantine.
- Students exposed? They can stay in class, what the hell, right?

If you managed to maintain your integrity through this awful period of time, congratulations! You are one of the rock stars of this story. You are a solid individual who has courage and stood firm and tall when it mattered most. As for the people who didn't, some can be forgiven. But many cannot.

***Those who could have and “should” have known better? The doctors who failed to utilize known and proven early treatments to save lives? The public health authorities that locked people down and forced masks onto children’s faces without a shred of supporting science to back those decisions? Medical hospital administrators who took the monetary bait and forced patients onto toxic and deadly regimens of Remdesivir and ventilators (again, without any supporting evidence!). The NIH treatment panel that still – to this day – does not recommend vitamin D, or any of the other actual safe and effective early treatments?***

***Sorry, not sorry, those people need to suffer real and lasting public consequences. Some doctors should lose their licenses. Some bureaucrats need to lose their jobs while others need to go to trial.***

*I feel most acutely for those who got caught up and suffered terribly as a result. I feel truly awful for all the people prevented from being at a loved one's passing, or who, as a condition of continued employment, were coerced into getting Covid jabs they neither wanted nor needed.*

*There are far too many tragic cases out there. Far too many young lives were lost and continue to be lost. I am angry that it happened and at the petty, ignorant bureaucrats who forced it to happen. "Sudden Adult Death Syndrome" is a thing now, and the attempts to normalize it by the press have left me thinking that those companies and journalists who engaged in this ought to be barred for life from ever being in the business again. ([Full article.](#))*

The statement "unvaccinated people now have the same guidance as vaccinated people," is, of course, a meaningless statement, because those unvaccinated with COVID shots (like myself), are unvaccinated specifically because we don't follow CDC "guidance" to begin with, but know how to research and think for ourselves.

Why the CDC has done this about face is probably a matter of pure speculation, but I think the sheer number of pro-pharma and pro-vaccine doctors and scientists that have come forward in the public these past few weeks, must be a big part of it. Without these medical professionals on board, there is no one left to implement more COVID measures.

This especially came to a head last month when LA County Chief Medical Officer Dr. Brad Spellberg went public to humiliate Los Angeles County Public Health Director Barbara Ferrer's announcement that COVID-19 cases were on the rise and new face mask mandates were needed soon. See:

[LA County Chief Medical Officer Exposes Bogus COVID Hype with Health Department Bureaucrat Politician](#)

Without the support of the medical professionals still working in the hospitals, Los Angeles County Public Health Director Barbara Ferrer backed down on more mandates. See:

[Los Angeles Public Health Director Barbara Ferrer Backs Down Indoor Mask Mandates As Multiple Cities Refused Enforcement](#)

And remember, it was the former head of the FDA under Donald Trump, who now sits on the board of directors for Pfizer and is a talking head "expert" for CNBC, who addressed the public earlier this year back in February to explain why it was taking so long for Pfizer to come up with a COVID-19 "vaccine" for young children between the ages of 6 months and 4 years old:

*The Food and Drug Administration's plan to fast-track Pfizer's Covid vaccine for children under 5 years old was delayed because of a "low number of cases overall in the clinical trial," Dr. Scott Gottlieb told CNBC on Monday.*

*“Most kids are not getting symptomatic Covid,” said the current Pfizer board member and former head of the FDA. “One case in one direction or another can tip the perception of the vaccine’s overall effectiveness.” ([Full article.](#))*

In other words, there just were not enough sick kids with COVID symptoms to complete the trials. But they ended up putting this product into the market in June anyway, and now the CDC is saying that unvaccinated people should be treated the same as vaccinated, after untold numbers of deaths and injuries, not to mention massive loss of employment due to the COVID-19 vaccine mandates, many of which are still in place.

People need to be tried, convicted, and executed over this.

## **Depopulation: From Conspiracy Theory to Conspiracy Reality**

by: Sara Middleton, staff writer | August 12, 2022

([NaturalHealth365](#)) At this point, Bill Gates seems to be most famous for being the country’s largest private farmland owner (owning more than a quarter million acres in the United States) and for saying he wants to achieve depopulation – although the mainstream media has tried to downplay the truth of that sentiment by “fact-checking” critics of Gates endlessly.

But Gates isn’t the only one who has been caught blatantly alluding to the global elites’ desire to commit [depopulation and democide](#) (*democide*: a term coined by American political scientist Rudolph Rummel that means “the intentional killing of an unarmed or disarmed person by government agents acting in their authoritative capacity and pursuant to government policy or high command”). And despite the strong efforts to silence, ostracize, shame, and deplatform critics of the mainstream global agenda, more and more critics are speaking up.

Is the COVID-19 pandemic just another cog in the global elites’ wheel taking them toward unprecedented power and control?

Among a litany of tough questions and uncomfortable realities regarding the current pandemic, Margaret Anna Alice (a blogger who describes herself on social media as one who is “unmasking totalitarianism by examining media narratives, propaganda, neuropsychology, framing, philosophy, literature, and culture”) poses a sobering thought experiment to readers.

In a July 4 article posted to her Substack, titled “A Mostly Peaceful Depopulation,” Alice asks: “Want to orchestrate a massive transfer of wealth, get people to accept one-world authoritarianism, and knock off a good portion of the population while you’re at it?”

She answers: “Stage a pandemic and terrorize the public into relinquishing their liberties in the name of an illusory “safety” that will never arrive. Tell them the only way out is to accept a novel pharmaceutical product that governments (i.e., taxpayers) will be required to fork out billions of recurring dollars to fund. Decimate small businesses, evaporate jobs, wreck the economy, and force the vassals to depend on the State for survival. Make them think it’s all for the ‘greater good.’”

Reading her words, it almost sounds like the world leaders are following some sort of playbook to achieve the end goal – depopulation.

She stokes further introspection and critical thinking from her readers by presenting a variety of questions she has asked herself since the beginning of the pandemic. You can visit her in-depth Substack for the list in its entirety, but below are just a few of her most salient thoughts:

- *“Why are [governments, public health agencies, the media, Big Tech, and ‘experts’] encouraging discrimination against those who refuse to comply with unscientific and nonsensical guidelines?” (See: the former “conspiracy theorist” tale of vax passports, which, as we know, became an [all-too painful reality](#))*
- *“Why is the [World Health Organization] drafting a pandemic accord that would give it the ability to set a ‘OneHealth’ policy for all member states and seize supranational powers in times of declared public health ‘emergencies’?” (This question refers to a document recently released by the WHO in which the agency effectively gives itself the power to unilaterally declare public health emergencies in member nations based on nothing more than personal opinion and inclination)*
- *“Why aren’t health authorities making dietary, lifestyle, and supplement recommendations that would bolster people’s immunity – like encouraging them to eat healthy; reduce their stress levels; get proper sleep; exercise; enjoy sunshine and fresh air; and practice other habits that help prevent illness?”*
- *“Why are they advising pregnant women to get injected with an experimental product when they excluded pregnant and breastfeeding women from clinical trials?”*
- *“Why isn’t the media shouting from the rooftops about the 1,223 deaths, 158,000 adverse events, and 1,291 side effects reported in the first ninety days of Pfizer’s clinical trial and only recently disclosed to the public due to the FOIA request resulting in their release at a rate of 55,000 pages per month?”*

Don’t let the media gaslight you into thinking you’re “wrong” for having questions about the pandemic.

Margaret Anna Alice brings up red flag after red flag surrounding the COVID-19 pandemic mitigation response. She also cites prior atrocities carried out by Gates and others in the name of “public health.” (This includes the deaths of children in India following HPV vaccines and the sterilization of African women following tetanus shots, the latter funded by none other than the Bill & Melinda Gates Foundation).

It can truly make one’s head spin trying to make sense of all this information and find the vein of truth in it all. Virtually every point made by Alice and other critics can be “countered” by mainstream media – yet we know the media is an unreliable entity that is deep in the pockets of Big Pharma and Big Agriculture. Even still, pretending that we have all the answers is unwise.

What *is* wise is to continue to allow yourself to have questions. Continue to allow yourself to make your concerns known to doctors and other influences in your life, to believe that medical autonomy matters (it does), and resist the coercive power of the media that attempts to make you feel like a conspiracy theorist simply for having questions or thinking critically. Put the puzzle pieces together and decide whether the sequence of events is a mere coincidence or a probable path to depopulation.

To that point, consider learning more about what makes a critical thinker and what you can do to hone your critical thinking skills – such as one three-step approach shared in a 2019 article from *Harvard Business Review* (question assumptions, reason through logic, and diversify thought).

### **How does monkeypox spread? What we know so far**

As monkeypox cases rise globally, researchers are learning more about how the disease spreads — with studies suggesting that repeated skin-to-skin contact is the main method of transmission. Since early May, monkeypox has spread to more than 90 countries and led to more than 32,000 infections, mostly in men who have sex with men, especially those with multiple sexual partners. Although some researchers have suggested that the virus could spread through respiratory droplets or airborne particles, one study reported that skin-lesion samples collected at the time of diagnosis contain much more viral DNA than do those from the throat. The lesions seem to be comparatively “teeming with virus”, says infectious-disease physician Boghuma Titanji.

### **New ‘Langya’ virus identified in China**

A new animal virus that can infect people has been identified in eastern China. But scientists are not overly concerned because the virus doesn’t seem to spread easily between people and is not fatal. The virus, named Langya henipavirus (LayV), can cause respiratory symptoms such as fever, cough and fatigue, and is closely related to two other henipaviruses that infect people: Hendra virus and

Nipah virus. Researchers think LayV is carried by shrews — which might have been passing the virus to people, directly or through an intermediate animal, sporadically since 2018.

## **The Cover-Up Continues with Lies upon Lies! CDC Quietly Removes 'Claim' That Spike Protein Doesn't 'Last Long' in Body after COVID Vaccine**

Between July 2021 and July 23, 2022, the Centers for Disease Control and Prevention made a series of changes to its “Facts about COVID-19 mRNA Vaccines,” including adding — and then removing — a statement assuring readers the mRNA and spike protein “do not last long in the body.”

By Madhava Setty, M.D.

**This is what the Centers for Disease Control and Prevention (CDC) had to say about the mRNA vaccines [last summer](#) (July 2021):**

### Facts about COVID-19 mRNA Vaccines

They cannot give someone COVID-19.

- mRNA vaccines do not use the live virus that causes COVID-19.

They do not affect or interact with our DNA in any way.

- mRNA never enters the nucleus of the cell, which is where our DNA (genetic material) is kept.
- The cell breaks down and gets rid of the mRNA soon after it is finished using the instructions.

## COVID-19 mRNA Vaccines Will Be Rigorously Evaluated for Safety

mRNA vaccines are [safe and effective](#).

Great! Thank you, CDC, for assuring the public that:

1. The mRNA vaccines cannot give you [COVID-19](#).
2. They do not interact with our DNA.
3. And our cells break down the mRNA, the programming instructions for our cellular machinery to synthesize the [spike protein](#), “soon” after they are finished using the instructions.

Seven months after the shots were granted Emergency Use Authorization, I am sure the public was comfortably sleeping knowing that the “COVID-19 mRNA Vaccines *WILL* Be Rigorously Evaluated for Safety.”

Will. As in the future. As in someday soon, presumably.

Nonetheless, Americans should not be concerned about the vaccines’ safety because the CDC apparently already knew that “mRNA vaccines *ARE* safe and effective.”

A [year later](#) (July 22, 2022), the story had changed a wee bit:

#### Facts about COVID-19 mRNA Vaccines

They cannot give someone COVID-19.

- mRNA vaccines do not use the live virus that causes COVID-19.

They do not affect or interact with our DNA in any way.

- mRNA never enters the nucleus of the cell, which is where our DNA (genetic material) is kept.
- The cell breaks down and gets rid of the mRNA soon after it is finished using the instructions.

## COVID-19 mRNA Vaccines Will Be Rigorously Evaluated for Safety

mRNA vaccines are [safe and effective](#).

Phew! So, good to know:

1. The vaccines **STILL** cannot give you COVID-19. That’s good.
2. They **STILL** do not Interact with our DNA. That’s good, too.

3. The mRNA and the spike protein itself “do not last long in the body” (a few days for the mRNA and up to a few weeks for the spike protein).

I hope we can all agree that “up to a few weeks” = “not long.”

And now we know that “soon” had always meant “a few days.”

And now, “mRNA COVID-19 Vaccines HAVE BEEN Rigorously Evaluated for Safety.” Just like they promised in July 2021.

Then, as of [July 23, 2022](#), one day later, the list of “facts” gets a bit shorter:

#### Facts About mRNA COVID-19 Vaccines

mRNA COVID-19 vaccines cannot give someone COVID-19 or other illnesses.

- mRNA vaccines do **not** use any live virus.
- mRNA vaccines **cannot** cause infection with the virus that causes COVID-19 or other viruses.

They do not affect or interact with our DNA.

- mRNA from these vaccines do **not** enter the nucleus of the cell where our DNA (genetic material) is located, so it cannot change or influence our genes.

### mRNA COVID-19 Vaccines Have Been Rigorously Evaluated for Safety

mRNA vaccines are [safe](#) and [effective](#).

Hmmm ... the same vaccines now:

1. Cannot give you COVID-19. That’s still good.
2. Do not affect/interact with our DNA. So is that.

Two out of three is STILL pretty good, right?

At least we can stop arguing about how the CDC should define “soon” and “not long.”

But why didn't CDC officials assure us that the spike protein will "eventually" be eliminated from our bodies? Is that too big a promise?

And, it's still a good thing that *"mRNA Covid-19 Vaccines have been Rigorously Evaluated for Safety"* ... STILL.

Thank you to [Jessica Rose, Ph.D.](#), [Disclose.tv](#) and others who have pointed out that there is absolutely NOTHING TO SEE HERE.

*The views and opinions expressed in this article are those of the authors and do not necessarily reflect the views of Children's Health Defense.*

ICAN

LEGAL  
UPDATE

ICAN-Obtained Data  
Reveals Significant Increase  
in Death Benefits Paid  
in 2021 by Largest  
Insurance Companies

Through freedom of information requests, ICAN has obtained annual statements from several major life insurance companies which show the “Ordinary Death Benefits” paid out in 2021 increased significantly compared to 2017-2020.

ICAN, through its attorneys, submitted freedom of information requests for the annual statements of five of the largest life insurance companies in the United States. We received annual statements from 2017 through 2021 for New York Life Group, Northwestern Mutual Group, Mass. Mutual, Prudential of America Group, and Metropolitan Group.

What these reports show is that Ordinary Death Benefits appear to have significantly risen in 2021 when compared with 2017-2020 for four out of five of these companies.

Group Death Benefits also increased for some companies in 2021. This provides further specific data to analyze which is potentially relevant to excess deaths, COVID-19 deaths, and vaccination. ICAN expects that the 2022 insurance company annual reports will shed further light on this issue and ICAN plans to obtain the 2022 reports as soon as they are available. ICAN will continue to dig until the truth is fully revealed.

You can watch Del covering and explaining this data on *The Highwire* [here](#):

## **WHO pushes for global pandemic treaty AGAIN as World Bank creates \$1B fund for VACCINE PASSPORTS AND IDs**

**Aug 16, 2022**

**This is what happens if we do not wake up. Options are rapidly diminishing. Surface wars are the distraction while the real threat to humanity goes unimpeded...**

**The World Health Organization (WHO) is moving ahead with plans to enact a new or revised international pandemic preparedness treaty, despite encountering setbacks earlier this summer after dozens of countries, primarily outside the Western world, objected to the plan.**

**A majority of WHO member states on July 21, during a meeting of WHO's Intergovernmental Negotiating Body (INB), agreed to pursue a legally binding pandemic instrument that will contain *"both legally binding as well as non-legally binding elements."***

**STAT News described the agreement, which would create a new global framework for responding to pandemics, as "the most transformative global health call to action since [the] WHO itself was formed as the first specialized United Nations agency in 1948."**

**Meanwhile, the World Economic Forum, African Union and World Bank — which created a \$1 billion fund for *"disease surveillance" and "support against the current as well as future pandemics"* — are developing their own pandemic response mechanisms, including new cross-country vaccine passport frameworks.**

**WHO's 'pandemic treaty': what's been proposed and what would it mean?  
Ongoing talks to formulate a new or revised "pandemic treaty" are building on the existing international framework for global pandemic response, the WHO's International Health Regulations (IHR), considered a binding instrument of international law.**

**On Dec. 1, 2021, in response to calls from various governments for a "strengthened global pandemic strategy" and signaling the urgency with which these entities are acting, the WHO formally launched the process of creating a new treaty or amending the IHR, during Special Session — only the second in the organization's history.**

**During the meeting, held May 10-11, WHO's 194 member countries unanimously agreed to launch the process, which previously had been discussed only informally.**

**The member countries agreed to: *“Kickstart a global process to draft and negotiate a convention, agreement or other international instrument under the Constitution of the World Health Organization to strengthen pandemic prevention, preparedness and response.”***

**The IHR, a relatively recent development, were first enacted in 2005, in the aftermath of SARS-CoV-1.**

**The IHR legal framework is one of only two binding treaties the WHO has achieved since its inception, the other being the Framework Convention on Tobacco Control.**

**The IHR framework already allows the WHO director-general to declare a public health emergency in any country, without the consent of that country’s government, though the framework requires the two sides to first attempt to reach an agreement.**

**The proposals for a new or revised pandemic treaty, put forth at the special ministerial session of the WHO in May, would *“somewhat”* strengthen the WHO’s pandemic-related powers, including establishing a *“Compliance Committee”* that would issue advisory recommendations for states.**

**However, according to the Daily Sceptic, while the IHR is already legally binding, the amendments proposed in May would not strengthen existing legal obligations or requirements:**

***“The existing treaty regulations, like all (or most) international law, do not actually compel states to do anything other than talk to the WHO and listen to it, and neither do they specify sanctions for non-compliance; almost all their output is advice.”***

***“The proposed amendments don’t alter that. They don’t allow the WHO unilaterally to impose legally binding measures on or within countries.”***

**The Daily Sceptic noted one of the risks stemming from the negotiations for a new or updated treaty include the potential codification of *“the new lockdown orthodoxy for future pandemics,”* which would *“replace the sound, science-based, pre-COVID recommendations”* previously in place.**

**According to Dr. Joseph Mercola, such a treaty would grant the WHO *“absolute power over global biosecurity, such as the power to implement digital identities/vaccine passports, mandatory vaccinations, travel restrictions, standardized medical care and more.”***

Mercola also questioned a *“one-size-fits-all approach to pandemic response,” pointing out that “pandemic threats are not identical in all parts of the world.”* In his view, he said, *“the WHO is not qualified to make global health decisions.”*

Similar concerns contributed at least in part to opposition against the proposals presented at the special ministerial session, during which a bloc of mostly non-Western countries, including China, India, Russia and 47 African nations, prevented an agreement from being finalized.

**Will opposition fade away?**

Although no final agreement was achieved at the May meeting, consensus was reached to organize a new special ministerial session of the WHO later this year, possibly after the WHO’s World Health Assembly, scheduled for Nov. 29 through Dec. 1, Reuters reported.

Mxolisi Nkosi, South Africa’s ambassador to the UN, told the WHO’s annual ministerial assembly the new special session would “consider the benefits for such a convention, agreement or other international instrument. Probably the most important lesson COVID-19 has taught us is the need for stronger and more agile collective defenses against health threats as well as for building resilience to address future potential pandemics. A new pandemic treaty is central to this.”

At the time, the U.K.’s ambassador to the UN, Simon Manley, addressing the lack of an immediate agreement and the consensus to hold a new meeting, tweeted *“negotiations may take time, but this is a historic step towards global health security.”*

**The INB, at its meeting held in Geneva July 18-21, also agreed with this view, reaching a consensus that its members will work on finalizing a new legally binding international pandemic agreement by May 2024.**

As part of this process, the INB will meet again in December and will deliver a progress report to the 76th World Health Assembly of the WHO in 2023.

**According to the WHO:**

*“Any new agreement, if any when agreed by Member States, is drafted and negotiated by governments themselves, [which] will take any action in line with their sovereignty. It claims governments themselves will determine actions under the accord while considering their own national laws and regulations.”*

The Biden administration expressed broad support for a new or updated pandemic treaty, with the U.S. heading previous negotiations on this issue, along with the European Commission, via its president Ursula von der Leyen, who, as previously reported by The Defender, is also a strong proponent of vaccine passports and mandatory COVID-19 vaccination.

An analysis by the Alliance for Natural Health International speculated that any final agreement may simply strengthen the existing IHR or, alternatively, may involve an amendment to the WHO's constitution — or both.

Just two days after the July 21 INB agreement, Tedros Adhanom Ghebreyesus, the WHO's director-general, tweeted:

In the same Twitter thread, he also declared the ongoing monkeypox outbreak *“a public health emergency of international concern,” one “that is concentrated among men who have sex with men, especially those with multiple sexual partners.”* Notably, the WHO director-general overruled an expert panel that was divided over whether to classify the outbreak as a global public health emergency.

With this declaration, three *“global health emergencies”* are now in place, as determined by the WHO: COVID-19, monkeypox and polio.

#### **Busy summer for vaccine passport proposals**

While the WHO and global governments weigh plans for an updated or new pandemic treaty, other organizations are moving forward on vaccine passport technologies and partnerships.

On July 8, the Organization for Economic Cooperation and Development (OECD), composed of many of the world's industrialized nations, announced it would promote the unification of the different vaccine passport systems currently in use around the world.

Thirty-six countries and international organizations participated in a July meeting with the goal of *“creating a multilateral framework for establishing a global vaccine passport regime,”* according to Nick Corbishley of Naked Capitalism. The development is a continuation of efforts involving the WHO to harmonize global vaccine passport regimes.

In February, the WHO selected Germany's T-Systems as an *“industry partner to develop the vaccination validation service,”* which would enable *“vaccination certificates to be checked across national borders.”*

T-Systems, an arm of Deutsche Telekom, was previously instrumental in developing the interoperability of vaccine passport systems in Europe.

Also in July, 21 African governments *“quietly embraced”* a vaccine passport system, which in turn would also be interlinked with other such systems globally. On July 8, which is also Africa Integration Day, the African Union and the Africa Centers for Disease Control launched a digital vaccine passport valid throughout

the African Union, describing it as *“the e-health backbone”* of Africa’s *“new health order.”*

This follows the development in 2021, of the Trusted Travel platform, now required by several African countries, including Ethiopia, Kenya, Togo and Zimbabwe, and air carriers such as EgyptAir, Ethiopian Airlines and Kenya Airways, for both inbound and outbound travel.

Beyond Africa, Indonesia, which currently holds the rotating presidency of the G20, is conducting *“pilot projects”* that would bring about the interoperability of the various digital vaccine passport systems currently in use globally. The project is expected to be completed by November, in time for the G20 Leaders’ Summit.

Naked Capitalism highlighted the role of South African company Cassava Fintech in the efforts to develop an interoperable vaccine passport for all of Africa.

A subsidiary of African telecommunication company Econet, Cassava initially developed the *“Sasail”* app, which the company described as Africa’s first *“global super app”* that combines *“social payments”* with the ability to send and receive money and pay bills, chat with others and play games. Cassava and Econet entered into a strategic partnership with Mastercard, *“to advance digital inclusion across Africa and collaborate on a range of initiatives, including expansion of the Africa CDC TravelPass.”*

As previously reported by The Defender, Mastercard supports the Good Health Pass vaccine passport initiative that is also backed by the ID2020 alliance and endorsed by embattled former U.K. prime minister Tony Blair.

Mastercard has also promoted technology that can be embedded into the DO Card, a credit/debit card that keeps track of one’s *“personal carbon allowance.”*

ID2020, founded in 2016, claims to support *“ethical, privacy-protecting approaches to digital ID.”* Its founding partners include Microsoft, the Rockefeller Foundation, Accenture, GAVI-The Vaccine Alliance (itself a core partner of the WHO), UNICEF, the Bill & Melinda Gates Foundation and the World Bank.

Mastercard’s top two stockholders are Vanguard and BlackRock, which hold significant stakes in dozens of companies that supported the development of vaccine passports or implemented vaccine mandates for their employees. The two investment firms also hold large stakes in vaccine manufacturers, including Pfizer, Moderna and Johnson & Johnson.

Mastercard provides funding for the World Bank’s Identity for Development (ID4D) Program, which *“focuses on promoting digital identification systems to improve development outcomes while maintaining trust and privacy.”*

**The Center for Human Rights and Global Justice at the New York School of Law recently described the ID4D program, which touts its alignment with the UN's Sustainable Development Goals (SDGs) , as one which could pave the way to a "digital road to hell."**

According to the center, this would occur through the prioritization of *"economic identity"* and the use of an infrastructure that has *"been linked to severe and large-scale human rights violations"* in several countries.

Mastercard is also active in Africa through its joint initiative with another fintech (financial technology) company, Paycode, to *"increase access to financial services and government assistance for remote communities across Africa"* via a biometric identity system containing the data of 30 million individuals.

World Bank, WHO promote 'pandemic preparedness' and vaccine passports  
The World Bank in late June announced the creation of a fund that will *"finance investments in strengthening the fight against pandemics"* and *"support prevention, preparedness and response ... with a focus on low- and middle-income countries."*

The fund was developed under the lead of the U.S., Italy and current G20 president Indonesia, *"with broad support from the G20,"* and will be active later this year.

It will provide more than \$1 billion in funding for areas such as *"disease surveillance"* and *"support against the current as well as future pandemics."*

The WHO is also a *"stakeholder"* in the project and will provide *"technical expertise,"* according to WHO's director-general. The agreement follows a 2019 strategic partnership between the UN and the World Economic Forum, to *"accelerate"* the implementation of the UN's 2030 Agenda for Sustainable Development and its SDGs.

Although the agreement has recently circulated on social media, it was announced in June 2019, prior to the COVID-19 pandemic. It encompasses six areas of focus, including *"health"* and *"digital cooperation."*

In terms of health, the agreement purports that it will ***"support countries [sic] achieve good health and well-being for all, within the context of the 2030 Agenda, focusing on key emerging global health threats that require stronger multistakeholder partnership and action."***

In turn, the *"digital cooperation"* promoted by the agreement will purportedly *"meet the needs of the Fourth Industrial Revolution while seeking to advance global analysis, dialogue and standards for digital governance and digital inclusiveness."*

However, despite rhetoric preaching “*inclusiveness*,” individuals and entities that have refused to go along with applications such as vaccine passports have faced repercussions in their personal and professional lives.

Such was the example of a Canadian doctor who was fined \$6,255 in June over her refusal to use the country’s ArriveCAN health information app — which is being investigated over privacy concerns — to enter the country. Dr. Ann Gillies said she was fined when re-entering Canada after attending a conference in the U.S.

Andrew Bud, the CEO of biometric ID company iProove, a U.S. Department of Homeland Security contractor, described vaccine certificates as driving “*the whole field of digital ID in the future*,” adding they are “*not just about COVID [but] about something even bigger*” and that “*once adopted for COVID [they] will be rapidly used for everything else.*”

The real issue is all about control and enslavement of humanity under an array of alleged benefits.

This is what happens if we do not wake up. Options are rapidly diminishing. Surface wars are the distraction while the real threat to humanity goes unimpeded. [The Defender]

## **10,000 people A DAY being killed by Covid Vaccines; Worldwide fatalities likely larger than the HOLOCAUST**

Thursday, August 18, 2022 by: Mike Adams

[\(Natural News\)](#) Covid vaccines are currently killing an estimated 10,000 people a day worldwide, with total fatalities likely in the 5 – 12 million range. These numbers come from [rigorous analysis of mortality data](#) (excess deaths) following the introduction of covid vaccines in early 2021. Because excess deaths are very difficult for governments to hide, these excess deaths are emerging as the smoking gun for overall vaccine deaths.

Steve Kirsch estimates that 1 person is currently dead from vaccines for every 1,000 doses administered. In the United States, roughly 600 million doses have been administered so far (yes, more than one for every person in the country), and that roughly equates to about 600,000 deaths in the USA (and counting).

Worldwide, with over 12 billion doses administered, we have likely seen around 12 million deaths so far.

More conservative estimates put that number at 5 million rather than 12 million, but in either case it’s in the millions globally.

**Why the deaths are going to continue to climb even if the vaccines are halted right now.**

**Importantly, we know that post-vaccine deaths are distributed over time. While a few people die in the first 48 hours, many deaths are taking place many months or even a year or two after the vaccine injections. Why is this happening?**

**Our [laboratory tests on vaccine clots](#) may provide meaningful answers. Thanks to the efforts of Dr. Jane Ruby and embalmer Richard Hirschman who were able to get me post-vaccine clot samples for laboratory analysis, we have been able to establish several shocking facts about these clots:**

**Fact #1) The clots grow larger over time, inside the body's circulatory system. This means they are *self-assembling* systems / bio-machinery.**

**Fact #2) As they grow larger, they accumulate or harvest certain elements from the circulating blood supply. Via ICP-MS laboratory testing, we have conclusively shown that Tin, Aluminum and Sodium are being harvested from the blood and incorporated into the structures of the clots.**

**Fact #3) As the clots grow, they take up more space in the blood vessels. At first, the live blood simply flows around the clots. But clots may be dislodged during rigorous physical activity (such as jogging or playing soccer), or the clots may at some point achieve a 100% blockage of the artery, resulting in a "died suddenly" event.**

**Importantly, it appears that these clots take many months or even a year or two to grow to sufficient size to fully block blood vessels and arteries.**

**This means the deaths observed so far are only a fraction of the deaths yet to come.**

**Many people who took these jabs, in other words, are ticking time bombs of inevitable cardiovascular blockage and death. It's only a matter of time before the clots grow larger enough to halt blood flow. Once blood flow to the brain is halted, death ensues in a matter of a few minutes.**

**These are not blood clots, and anti-clotting drugs do nothing to resolve these clots.**

**To our knowledge, there is no known cure to dissolve or remove these clots from the cardiovascular system. We have interviewed physicians who have attempted to treat these clots with powerful anti-clotting medications such as Heparin, and these drugs achieve nothing.**

That's because these clots are not *blood* clots. They are elastic, rugged biostructures that resemble the strength and texture of rubber bands. I have manipulated these clots on live broadcast streaming (via the Alex Jones Show) where, under a lab microscope, I demonstrated the shocking strength and resilience of these clot structures. Again, they are not blood clots. They are strong, rubbery-like protein biostructures that absolutely do not belong in the human body.

Under a microscope, they look like this, which is nothing like a blood clot:

In addition, as we have [conclusively shown via ICP-MS lab tests](#), these clots are almost completely lacking the key elements of life that would be present in blood, such as Iron, Magnesium and Potassium.

Element	Blood Results	Clot Results
Mg (magnesium)	35 ppm	1.7 ppm
K (potassium)	1893 ppm	12.5 ppm
Fe (iron)	462 ppm	20.6 ppm
Zn (zinc)	7.9 ppm	2.4 ppm
Cl (chlorine)	930,000 ppm	290,000 ppm
P (phosphorous)	1130 ppm	4900 ppm

Post-vaccine clot deaths are likely to continue mounting for years to come.

What all this means is that post-vaccine clot deaths are going to continue mounting for years to come as the clots expand in size inside people's bodies. While 1 in 1000 people may be dead already, there could conceivably be another 9 in 1000 who are going to die from clots as they continue to expand, reaching perhaps 10 in 1000 who ultimately die (or 1 in 100).

In other words, in a world where 12 billion vaccine injections have been administered, we could see 120 million deaths (or more).

The thing is, we don't yet know:

- In what percentage of vaccine recipients the clots are growing.
- How quickly the clots are growing.
- Whether the clots ever stop growing, or what causes them to stop.
- Whether anything can reverse the clot growth and reduce or eliminate the clots.

There are plenty of theories on all these questions, but to my knowledge, we don't have anything conclusive yet. The situation is worsened by the fact that the entire medical establishment outright refuses to even acknowledge the existence of these clots, nor will they admit to any link whatsoever between vaccines and excess mortality. Thus, the genocidal cover-up continues, and people will continue to die for years to come.

Covid vaccines have created a "vaccine holocaust" that's only going to get worse. Given up to 12 million deaths right now, we are already seeing Holocaust-scale mass death from these vaccines. This vaccine holocaust is going to get far worse. Where the Nazi Holocaust reportedly claimed the lives of six million victims, this vaccine holocaust could conceivably kill sixty million, or even ten times that over time. Consider this when you see media reports touting "annual mRNA injections" now being ramped up by the vaccine manufacturers. They want to hit you with one of these shots every year until you die. Anybody gullible enough to keep taking these clot shots will surely die sooner than they had imagined, especially when they stupidly believed the shots were *protecting* them rather than *exterminating* them.

Global depopulation, it turns out, has been remarkably easy to achieve. They didn't need mass ovens, prison camps and a shooting war with the people. All they needed was to release a bioweapon and scare people into taking death shots (euthanasia labeled "vaccines") and wait for the gullible masses to line up and take the jabs.

Some groups — such as LGBT — have achieved over 95% vaccine compliance and are begging for even more vaccines due to monkey pox. This particular demographic, as you can tell, has no future on planet Earth since they are eliminating themselves from the planet. But the same is also true for many church groups, conservatives and medical professionals who were gullible enough to take these jabs. That's why so many doctors are falling over dead in recent months, and there's a whole lot more of that yet to be witnessed.

I cover all this in a podcast released yesterday:

[Brighteon.com/4e3b7ea1-346c-416a-a34a-127dea2f1db3](https://www.brighteon.com/4e3b7ea1-346c-416a-a34a-127dea2f1db3)

**Perhaps this is the reason there is no VAERS reporting as of 8/20/22!**

## U.S. Government data confirms a 143,233% increase in Cancer cases due to COVID Vaccination

BY THE EXPOSÉ ON AUGUST 16, 2022

Cancer begins when genetic changes interfere with the normal replication and replacement of cells in the body. Cells start to grow uncontrollably and may form a tumor. It is the No. 2 leading cause of death in the United States.

Unfortunately, it appears the disease may be on the rise thanks to the experimental Covid-19 injections. Because official U.S. Government data confirms the risk of developing cancer following Covid-19 vaccination increases by a shocking 143,233%.

The Centers for Disease Control (CDC) hosts a [Vaccine Adverse Event Reporting System \(VAERS\)](#) which contains historical data on adverse reactions reported against every vaccine that has been administered in the United States of America. A quick search of the [CDC VAERS database](#) on the number of cancer cases reported as adverse reactions to the Covid-19 injections since they were first rolled out in the USA, reveals that from December 2020 up to 5th August 2022, a total of 2,579 adverse events related to cancer were made in just 1 year and 8 months.

Messages:			
▶ VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.			
▶ These results are for 2,579 total events.			
▶ Rows with zero Events Reported are hidden. Use Quick Options above to show zero rows.			
Year Reported ↓	↔ Events Reported ↕	↔ Percent (of 2,579) ↕	
2021	1,306	50.64%	
2022	1,268	49.17%	
Unknown Date	5	0.19%	
Total	2,579	100.00%	

## Covid-19 Vaccines

### [Source](#)

But performing a similar search of the [VAERS database](#) on the number of cancer cases reported as adverse events to all other available vaccines between 2008 and 2020, a period of 13 years, reveals there were just 791 adverse events related to cancer.

Messages:		
▶ VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.		
▶ These results are for 791 total events.		
Year Reported ↓	→ Events Reported ↑↓	→ Percent (of 791) ↑↓
2008	59	7.46%
2009	50	6.32%
2010	37	4.68%
2011	33	4.17%
2012	41	5.18%
2013	57	7.21%
2014	55	6.95%
2015	47	5.94%
2016	61	7.71%
2017	71	8.98%
2018	81	10.24%
2019	99	12.52%
2020	100	12.64%
Total	791	100.00%

## All other Vaccines

### [Source](#)

Many would simply argue without backing their claim up with any evidence, that this is just because of the volume of Covid-19 injections administered compared to all other vaccines. But unfortunately, anyone who argues this is wrong.

We can see this by looking at the number of doses administered.

The following chart shows the total number of flu vaccine doses administered in 13 full flu seasons all the way from the 2008/2009 flu season to the 2019-2020 flu season. The data has been extracted from the CDC info found [here](#).

**Source**

**In all between the 08/09 flu season and the 19/20 flu season, there were a total of 1,720,400,000 (1.7204 billion) doses of the flu jab administered in the USA.**

**The CDC also confirms that between 2008 and 2020, a period of 13 years, there were just 64 events related to cancer reported as adverse reactions to the influenza vaccines.**

**Messages:**  
 ▶ VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.  
 ▶ These results are for 64 total events.

Year Reported ↓	Events Reported ↕	Percent (of 64) ↕
2008	6	9.38%
2009	4	6.25%
2010	6	9.38%
2011	5	7.81%
2012	4	6.25%
2013	1	1.56%
2014	3	4.69%
2015	4	6.25%
2016	6	9.38%
2017	10	15.62%
2018	7	10.94%
2019	3	4.69%
2020	5	7.81%
<b>Total</b>	<b>64</b>	<b>100.00%</b>

## Flu Vaccines

### [Source](#)

Based on the number of adverse events related to cancer alone, we can see that there have been 40.3x as many cancer cases related to Covid-19 vaccination than there have been related to flu vaccination.

But whilst shocking, this statistic doesn't properly represent the severity of the situation. To do that we need to know the number of cancer cases per 100,000 doses administered.

Based on the above numbers provided by the CDC, the number of adverse events related to cancer reported per 100,000 doses of flu vaccine administered equates to just 0.0003 per 100,000 doses.

According to ['Our World in Data'](#), as of 9th August 2022, 606 million doses of the Covid-19 vaccines have been administered in the USA. This means there have been actually nearly 3x as many flu vaccines administered between 2008-2020 than Covid-19 injections since the end of 2020, let alone all of the other vaccines that have been administered.

#### Vaccinations by location

From [Our World in Data](#) - Last updated: 6 days ago

 United States ▾

All regions ▾

Doses given  
**606M**

Fully vaccinated  
**223M**

% of population fully vaccinated  
**67.8%**

Location	Doses given ↕	Fully vaccinated	% of population fully vaccinated
California	79.3M	29M	73.6%
Texas	47.9M	17.8M	62.3%
New York	40.9M	15.2M	78.0%
Florida	39.1M	14.6M	68.9%
Pennsylvania	24.3M	8.99M	70.3%

[Source](#)

Therefore, the number of adverse events related to cancer reported per 100,000 doses of Covid-19 vaccine administered equates to 0.43 per 100,000 doses.

This means Covid-19 vaccination is 1433.33x / 143,233.33% more likely to cause cancer than flu vaccination. It can be argued that because the numbers are so extraordinarily low for the flu vaccine, that flu vaccination does not cause cancer. Therefore, it can be argued that the risk of developing cancer following Covid-19 vaccination is 1433x greater than the background risk.

This should however not come as much of a surprise considering we already have scientific proof that the Covid-19 mRNA injections can cause cancer of the ovaries, pancreas and breast.

The homologous recombination DNA repair pathway is one of the mechanisms that the body uses to stop your cells from turning cancerous in response to environmental stress.

And in October 2021, two revered scientists, called Jiang and Mei, had a paper published, after peer review, in [MDPI](#), showing that the SARS-Cov-2 spike protein obliterated the DNA repair mechanism in lymphocytes.

The viral spike protein was so toxic to this pathway that it knocked 90% of it out. If the whole spike protein got into the nucleus (in the ovaries), and enough of it was produced and hung around long enough before the body was able to get rid of it all, it would cause cancer.

Fortunately, in the case of natural infection, this is unlikely to occur. But the experimental mRNA “vaccines” induce spike protein to be produced in and around the cell nucleus and this occurs for at least 60 days and almost certainly longer.

This is probably why cases of ovarian cancer are now at an all-time high.

Official UK data published by Public Health Scotland, which can be found [here](#), reveal the number of women suffering ovarian cancer from the introduction of the Covid-19 injection to the general population. Unfortunately, the known trend in 2021 was significantly higher than 2020 and the 2017-2019 average.

[Click to enlarge](#)  
**Ovarian Cancer – [Source](#)**

The above chart shows up to June 2021, but the charts found on Public Health Scotland's dashboard now show figures all the way up to December 2021 and unfortunately reveal that the gap has widened even further with the number of women suffering from Ovarian cancer increasing significantly.

[Click to enlarge](#)

If you still wish to get a jab that doesn't stop you from getting Covid-19, doesn't stop you from spreading Covid-19, increases your risk of mortality significantly (see [here](#)), and increases your risk of suffering cancer by 143,233% then that's up to you. But perhaps you can now be a little more understanding of why many others simply refuse to do so.

## **Yuval Noah Harari spills the beans: 'We just don't need the vast majority of the population'**

*Technology will 'make it possible to replace the people'*

Top World Economic Forum adviser Yuval Noah Harari has declared in a recent interview that the “*vast majority*” of the world's 7.5 billion people are simply no longer needed due to technological advances in artificial intelligence, machine learning and bioengineering.

In one sentence, Harari validated what we “conspiracy theorists” have been saying for years, that globalist power elites want to rid the world of people deemed “*useless*” in their eyes. That's why we call them global *predators*.

“*We just don't need the vast majority of the population,*” said Harari, who is a historian, futurist, popular author and, most importantly, the chief adviser to Klaus Schwab, founder and director of the extremely influential WEF.

Every year the WEF entertains thousands of devoted followers at its headquarters in Davos, Switzerland. These devotees include heads of state, congressmen, governors, top corporate CEOs, even Hollywood entertainers and stars from the sports and music world. They are being fed a full diet of propaganda cooked up by Luciferian-influenced intellectuals like Harari and Schwab.

# Shocking

## **Data Reveals COVID Vax Has Killed 5 To 12 MILLION People Worldwide**

*This article was originally published by [Rhoda Wilson at The Exposé](#).*

What is the number of deaths, worldwide, from Covid injections? By doing a rough calculation Steve Kirsch arrives at a ballpark figure of 12 million.

To give the number some context, that is 40x the number of Americans who were killed in World War II (“WWII”). It’s more than double the number killed by Covid, Kirsch wrote.

WWII is recognized as beginning on [3 September 1939 when Great Britain and France declared war on Germany](#) after Germany invaded Poland. It ended in 1945 after Japan formally surrendered.

[According to Britannica](#), about 298,000 Americans died during WWII. In total, an estimated 40,000,000 to 50,000,000 people died worldwide over the six years of WWII.

The first Covid shot was delivered by [Great Britain on 8 December 2020](#) “marking the start of a historic mass vaccination program.” France [delivered its first shot](#) 19 days later on 27 December 2020.

The Covid shot campaign has, so far, been going for 20 months. According to *Our World in Data* 12.46 billion shots have been delivered, 5.89 million per day. However, [according to data collected by Bloomberg](#), “the latest rate was roughly 8.46 million doses a day ... 159 shots for every 100 people worldwide.”

Yesterday, 15 August, [Britain became the first country](#) in the world to approve Moderna’s “next generation” Covid shot – Spikevax Bivalent.

[Margaret Anna Alice](#) asked if anyone could estimate the global death toll from the Covid shots.

In my opinion, a reasonable estimate is to divide the number of doses by 1,000.

If you do that for the 600 million doses delivered in the U.S., you get 600,000 deaths which is right in the ballpark.

A more conservative number is to divide the number of doses by 2,500. This is the number [Mathew Crawford estimated from global data: 411 deaths per million doses](#). Earlier, I offered a \$1 million reward to anyone who found a significant error in his work. No takers. This is [documented on my Substack](#) and in my Twitter stream, but, of course, everything I tweeted was deleted by Twitter as being unsafe. A free \$1 million no strings attached. Nobody accepted.

So that conservative estimate gets you to 5 million killed (only 16x the number of Americans killed in World War II).

We are approaching the [6 million Jews killed in the Holocaust over 12 years](#).

But we are killing people worldwide at a rate at least 6x faster than the Germans did.

We are killing nearly close to 10,000 people every single day (the latest rate was roughly 8.46 million doses a day).

Interestingly, this is not self-limiting because [385,000 babies are born every day](#). So, the killing can go on indefinitely, even if the birth rate drops by 90% due to the shots.

In case you were wondering. I just thought I'd point that out.

Dose data was from this Bloomberg article: [More Than 12.4 billion Shots Given: Covid-19 Vaccine Tracker](#).

Summary:

We are killing an awful lot of people, but world leaders are looking the other way and saying nothing while all of us watch the high number of death reports in the media of people who died “unexpectedly” and hear no explanation from the medical community or the CDC.

We are supposed to trust that they have things well in hand, even though they won't appear on camera in front of anyone who doesn't have scripted, pre-approved questions.

The vaccine is never mentioned in any of these unexplained death reports.

Yet people all over the world have noticed that these unexpected deaths are ONLY happening to the vaccinated. Hmmm.... I wonder why?

The CDC will not require medical examiners to do the proper tests to make the association. They could easily do that. But they won't. That tells you everything you need to know about the corruption.

So, it will be an unexplained rise in unexplained deaths due to unknown causes because nobody in the mainstream media is ever going to admit they were wrong and ask a few unscripted questions.

Even Donald Trump is afraid to speak out about what is going on. He remains silent too.

This is why we have no debates, only censorship.

Hundreds of people at the CDC are aware of what is going on, but they aren't going to speak out or they will lose their job. Even the people who have resigned are remaining silent. It's really stunning.

So, the killing continues unabated.

## **FDA Knew 44% Of Pregnant Women In Pfizer Trial Suffered Miscarriages**

August 17, 2022

It is indisputable that neither Pfizer nor the U.S. Food and Drug Administration (FDA) is at all concerned about adverse events related to Pfizer's clinical trial data. After all, they sought to hide it from the general public for 75 years. While blatantly unacceptable, the fact both parties knew that 44 percent of pregnant women participating in the Pfizer mRNA COVID-19 "vaccine" trial suffered miscarriages is immoral and seems incredibly corrupt.

Shockingly, as the FDA releases Pfizer trial [data](#) each month per [court](#) order, a Pfizer adverse events [report](#) transferred on July 1, 2022, reveals that after the women lost their babies, the billion-dollar big pharma giant reported that the heartbreaking miscarriages were unrelated to the trial. The volunteer team at Daily Clout discovered the intentional deceit by scouring through the thousands upon thousands of Pfizer trial documents released each month that form the rationale behind the FDA's emergency use authorization (EUA) and subsequent August 23, 2021, "[approval](#)" of Pfizer's mRNA COVID-19 "vaccine" [product](#).

According to an [article](#) in Daily Clout, the women listed in Listing of Subjects Reporting Pregnancy After Dose 1 each received between one and four of Pfizer's [mRNA injections](#). Forty-two received the trial drug right away, and eight received the placebo and were then unblinded and given the vaccine. Thus, by March 31, 2021, all of the pregnant women in the trial—there were 50 of them—had received Pfizer's BNT162b2 version of its experimental "vaccine." Summarizing Pfizer's deceptive efforts after the miscarriages, the article explained:

*"Pfizer notes the miscarriages as serious adverse events (SAEs) with 'moderate' (2) or 'severe' (3) toxicity ratings. However, all the [miscarriages](#) were reported as being unrelated to the trial vaccine—i.e., having 'Other' causes—and marked as 'Recovered.'"*

With access to this startling data by April 1, 2022, the article points out that the FDA was aware that a "significant percentage of pregnancies ended in 'Abortion Spontaneous.'" Yet, despite this, the agency "failed in its duty to study the data and investigate what basis Pfizer had for marking the fetal deaths as unrelated to the vaccine and having 'Other' causes." Moreover, the FDA failed to inform the public of this life-changing, serious adverse event. Most importantly, Daily Clout's Berberine wrote, "without that information, women were not able to give informed consent for receiving Pfizer's mRNA COVID vaccine."

In a recent video, Dr. Naomi Wolf points out that the adverse events cut-off date was March 13, 2021, and the FDA received the report from [Pfizer](#) on April 1, 2021. Thus the agency was well aware of the fetal deaths before it fully "approved" the Pfizer mRNA product. Wolf explained that 50 women became pregnant while

participating in the clinical trial, as noted in the screenshot above. However, it is only after much digging through the rest of the 3,645-page adverse events document does one learn that 22 of the 50 women suffered “Abortion Spontaneous,” “Abortion Spontaneous Complete,” “Abortion Spontaneous Incomplete,” or “Miscarriage.” [pp. 219, 561, 708, 1071, 1146, 1179, 1349, 1749, 1758, 1806, 1809, 3519, 3526, 3560, 3536, 3537, 3538, 3536, 3547, and 3551.] Wolf and others pose important questions the public should be asking:

1. How did Pfizer determine their experimental vaccine product did not cause the miscarriages?
2. What ‘Other’ causes did Pfizer identify, and how did it identify them?
3. Did the FDA and Centers for Disease Control and Prevention (CDC) simply accept the miscarriages as unrelated to the product, or did they demand information on those ‘Other’ causes?
4. And, crucially, what happened to the pregnancies which were ongoing at the report cut-off date of March 13, 2021? Were healthy babies born? Were damaged babies born? Were there more miscarriages?

Disseminating the unbelievable reality of what is happening on a global scale, Wolf—whose Twitter account was banned for sharing this horrific information—explained that if you extrapolate to all the pregnant women who have received a COVID jab, it could explain the baby die-off that is occurring. Wolf noted a 200% rise in neonatal deaths or spontaneous abortions and miscarriages in Scotland and a 34% rise in Israel. Likewise, 86 babies died in Ontario when they usually have five or six per quarter. Through tears, speaking in Bannons War Room, Wolf added:

*“I know we’re not supposed to cry in War Room, but over a year ago, the FDA received this report that out of 50 pregnant women, 22 of them lost their babies. And they did not say anything. Thus, the FDA was aware of the horrifying rate of fetal death by the start of April 2021 and was silent. And Pfizer was silent.*

*They kept up their drumbeat of “inject the pregnant women, inject the pregnant women... it doesn’t hurt your baby, it doesn’t hurt your baby.” And now, predictably, as you and I have discussed in my substack, drawing on other Pfizer reports called “Sorry to Announce a Genocide,” there is the scaled-up evidence of this horrific cover-up, this Mengele-type cover-up.”*

## **DEBUNKED: COVID infection NOT linked to increased myocarditis risk in unjabbed, study finds**

by: Sara Middleton, staff writer | August 17, 2022

**([NaturalHealth365](#))** The denial and gas lighting were strong from mainstream media, government officials, and Big Pharma back when the evidence of heart problems caused by COVID shots first started piling up.

Even when the data finally became too obvious to ignore, pandemic propagandizers and staunch vax-defenders *still* tried to downplay the concern by saying that COVID-19 can cause heart problems just as readily as the shots, if not more so. But now, [a recent study](#) from Israel shatters that claim.

New study SLAMS the door shut on pro-vax parrots who claim rising heart problems in vaxxed people caused by novel coronavirus, not mRNA jabs.

The peer-reviewed *Journal of Clinical Medicine* recently published a study that took place in Israel. The study's co-authors evaluated data from a whopping 196,992 Israeli adults who had had COVID-19 (as "confirmed" by PCR, which does pose its own limitations, for what it's worth) between the period of March 2020 and January 2021. After comparing these COVID-recovered adults to over 590,000 sex- and age-matched controls, the authors came to a stunning conclusion:

Infection with SARS-CoV-2 did NOT appear to increase the risk of myocarditis or pericarditis, the two types of heart inflammation that HAVE been definitively linked to the COVID shots.

*"Post COVID-19 infection was not associated with either myocarditis (aHR 1.08; 95% CI 0.45 to 2.56) or pericarditis (aHR 0.53; 95% CI 0.25 to 1.13)," the authors write. "We did not observe an increased incidence of neither pericarditis nor [myocarditis](#) in adult patients recovering from COVID-19 infection."*

In a July 6, 2022, Twitter post, well-known pandemic critic and heavily-cited cardiologist Dr. Peter McCullough put this important study in the public spotlight, saying: *"Tuvali et al., Israel, huge study N=196K cases, N=590K controls, no excess rate of ICD-10-code identified myocarditis in uninjected with natural infection. Counters prior false claims. Can focus on mandated products as source of myocarditis at hand and move forward on management."*

What we can surmise from this Israeli data – especially if this data is corroborated by additional research – is that the rising rates of heart problems among vaxxed individuals *cannot* be simply blamed on the fact that these jabbed individuals were later infected with SARS-CoV-2 – which is truly a ridiculous claim in its own right, because shouldn't the jabs have prevented these people from getting infected with SARS-CoV-2 in the first place? (Oh, wait, that's not what vaxxes are meant to do anymore ... the drugs are only meant to "stimulate the body's immune response," according to the U.S. Centers for Disease Control and Prevention).

Indeed, it remains far more evident that the shots are overwhelmingly to blame for the alarming rates of suffering among jab recipients of all ages, especially boys and young men.

Tip of the iceberg? VAERS data continues to show high rates of heart inflammation post-jab.

Week after week, we see reports of heart inflammation post-jab documented in the U.S. government's Vaccine Adverse Event Reporting System (VAERS). Between January 1 and February 25, 2022, alone, for example, there were more than 11,200 cases of pericarditis or myocarditis following [mRNA COVID shot](#) doses. And while it's true that these reports can only "prove" correlation and not direct causation, they certainly point to some serious safety signals that warrant further investigation (which the CDC has been reluctant to do, it seems).

It's further worth noting that CDC researchers themselves have acknowledged (in a January 2022 article published by *JAMA*, for instance) that there is a "*high verification rate of reports of myocarditis to VAERS after mRNA-based COVID-19 vaccination*" and that *underreporting* of such heart problems "*is more likely*" than over-reporting.

Finally, let's go out on a limb and say that if VAERS data was NOT showing so much obvious suffering and harm, then vaccine advocates would almost certainly be flaunting it – instead of downplaying it and ignoring it as they are now.

**What to Know Before Deciding to Take The Novavax Injection  
Accepting an injection of spike protein hoping it is safe or effective is absurd.**

Yet, many are again forced to make a decision threatening their health *and* ability to support their family.

[By Pierre Kory, MD, MPA | August 17, 2022](#)

A subscriber asked me to write a post about my thoughts on Novavax because she "*really trusts my judgement.*" Flattered, I felt like I should share what they are. So here goes.

Before any medical intervention, but especially in the case of a novel or barely tested one, a long standing practice of medical ethics is that informed consent must be obtained. The emphasis should be on the *informed* part and not the *consent* part. Note that informed consent has been one of the foundations of medical ethics, essentially an inviolable standard, or at least it used to be before this "emergency" came along where now you have [pharmacists injecting children with barely a mention of the risks](#), "*because they might be too scared to take the shot.*"

Informed consent discussions are simple in structure but often complex and time-consuming to conduct. It relies on providing the patient with as detailed and

comprehensive a knowledge of the risks, benefits, and alternatives to the intervention.

So, should we go through an informed consent discussion with the novel Novavax injection? Actually, I would not. Why? Because I don't hold informed consent discussions for interventions I do not recommend or would not want my patient to consider. I instead tell them not to consider and give them my reasons for that recommendation. Thus, I only conduct informed consent discussion for interventions that I feel would bring about greater benefits than risks (generally much greater), and I would only do so for patients with active illness in order to get them better. A vaccine is a much different proposition as they are given to patients without disease.

Why would I not even consider Novavax as a reasonable option? Simple:

- There has never been a successful or safe coronavirus vaccine. The last 18 months have shown that COVID vaccines lead to increased chances of getting ill, equal or increased chances of transmitting, and higher likelihood of entering hospital and dying. And that is leaving unmentioned the lethality and toxicity of the mRNA platform ones. See my ["Vaccine Exemption Letter"](#) post for the data to support these statements. The coronavirus is a rapidly mutating virus, thus vaccines will always be non-neutralizing because by the time they are manufactured and ready for injection, the virus has mutated into forms poorly responsive to older, narrower antibodies.
- Novavax is still formulated with a two and a half year-old protein for this rapidly mutagenic coronavirus, so it would be like giving a two and a half year old flu shot for this year's flu (worse actually). Yet our health system, including every single academic medical center in the country is still mandating and eager to adopt use of an outdated viral protein. I would love to say this is beyond belief, but this is the world we live in now.
- We now have the omicron variant circulating, which is generally well tolerated by most, particularly those who are healthy or young (and even the old), and *especially those with natural immunity*.
- The country now has abundant natural immunity, which even the CDC now admits offers equal protection (actually, natural immunity offers better protection but let's give the CDC some credit for telling at least a partial truth). So why are we still vaccinating and/or mandating in those who have recovered from COVID?
- Vaccinating against respiratory viruses works very poorly as the antibodies do not reach high concentrations in the nasal and respiratory mucosa which is where the virus enters. The flu vaccine is almost completely ineffective, even when you get this year's flu shot. Not known by most.
- Vaccinating against respiratory viruses with non-neutralizing vaccines actually weakens and warps the immune system such that you are more likely to get other respiratory viruses or illnesses as well (this has been

well reported after flu vaccinations given that those vaccinated against the flu are more susceptible to other respiratory viral infections).

- Proposing a novel and barely tested product coming out of the pharmaceutical industry to a patient is a wicked proposition in modern times. Note the pharmaceutical industry is a documented criminal industry which has repeatedly put out unsafe and ineffective products (even deadly, i.e. opioids, Avandia, Vioxx, Bextra, the list goes on), followed by burying the adverse event data while pushing their wares through control of professional societies, federal/state legislation, and captured agencies. They have paid over \$12 billion in criminal fines and over \$16 billion in civil fines, just in the last 20 years [across the 20 largest settlements](#). Their history of these actions stretches even longer.
- The history of criminality around the COVID vaccines dwarfs any actions the industry has done in the past. The Pfizer documents that the PFDA (the P is not a typo) *tried to hide for 75 years* reveal insane amounts of manipulations to try to show they work and are safe. They didn't and weren't. Further the testimony from the Ventavia/Pfizer whistleblower Brook Jackson reveals that the studies were so poorly done with such little follow-up of patients that they are simply not credible. Remember, Pharma. Does. Not. Care. About. Your. Health. Just your wallet (actually the government's wallet, which I suppose is also your wallet).

So, conceptually, I think the idea of getting any coronavirus vaccine at this point is preposterous. However, let's try to do a more traditional informed consent using the structure of risks/benefits/alternatives. The following is what I think other providers (or pharmacists egads) should be telling people prior to offering them Novavax, or more accurately, in order to get them to avoid it.

Yes, Novavax is a “non-mRNA” vaccine and is designed more along the line of a traditional vaccine in that an amount of viral protein is injected into the arm, it is then recognized as a “foreign” protein by our immune system which then makes antibodies against it. These antibodies are then thought (“hoped” remember) to help clear the virus rapidly and efficiently after exposure such that we avoid illness. Sounds good on paper. Not. Just ask Geert Vanden Bossche, one of the world's top immunologists and vaccine experts.

Novavax delivers the spike protein. As a self-described clinical expert in spike-protein induced disease, the spike protein is a pathogen. A pathogen is a substance or organism that is capable of inducing illness. Note that I call myself an expert because there are very few of us out here studying it's pathogenicity, however I would argue Professor Paul Marik has taken the lead across the globe in amassing all the basic science and clinical research underlying the knowledge of the mechanisms and treatments of spike-protein induced diseases. [That scholarly document](#) is in evolution, and has over 300 scientific references at this point, with rapid evolutions and additions each week. Note that it appears to be

the world's sole "comprehensive" scholarly work on spike protein pathogenicity and empirically proposed treatments.

Another great sadness about the U.S. COVID response is that almost the entire health system and all of academia have yet to recognize the spike as a pathogen or formulate any approach to treating Long-Haul or Post-Vaccine Injury. Until they do, they will continue to fail to recognize the causes or mechanisms of these syndromes as well as to offer effective treatments. And, it goes without saying, they will not be able to discuss this in their ill-informed consent discussions. Their deplorable failure at treating these disabling diseases is astounding and will continue for the foreseeable future. Remember, the system docs won't treat because they are all members of the Church of RCT Fundamentalism (a.m. "evidence based medicine.") You know, where they will sit there paralyzed until some massive randomized controlled trial is published in a high-impact medical journal and then is recommended by a federal agency or national medical society. You know what that system produces by now if you read my Substack. Not only will it leave patients untreated for months to years, but while the docs sit around waiting, Pharma, via the agencies and media, will suppress or attack any generic medicines or supplements that front-line doctors and patients have found effective. They will do this with ferocity and depravity until such a time they can "save the day" with the massive promotion of a novel, pricey Big Pharma pill which they will get our government to pay for at a price they set. Think about what happened to ivermectin and hydroxychloroquine until Pharma saved the day with the pathetic and poisonous Paxlovid using our government coffers. Rinse repeat here.

The two major and complex diseases unleashed by the spike are what we call "*long haul*" and "*post-vaccine injury*" syndromes. I probably should differentiate post-vaccine into two subtypes, with one being an acute, sudden death syndrome caused by massive heart attacks, myocarditis (which can cause lethal arrhythmias or pump failure), and/or massive strokes. Excess mortality amongst the vaccinated in 2021 skyrocketed and is showing up in Life Insurance industry data in both the U.S and other countries. However I don't see those events in my practice because they are sudden deaths occurring in asymptomatic patients (who are often swimming or running or doing something else fun until they suddenly drop dead). [My practice](#) instead sees patients who suffer with the more chronic subtype consisting of myriad, disabling symptoms across multiple organ systems. Now, whether there is enough spike in Novavax to produce similar deadly events or chronic syndromes in the future, who knows. More on that below.

#### SHORT TERM RISK DATA

Not looking good here folks. Let's take a look at the actual published trial of Novavax, and their chart detailing the "side effects." Then let's compare it to Pfizer's mRNA "vaccine" trial published in December 2020. Look carefully. I will interpret these charts below.

# NOVAVAX ANYONE?

Original Pfizer Trial Adverse Event Data

Novavax Adverse Event Data

[Click for full size](#)

Here is how I interpret the data:

1. The “local” and “systemic” adverse events are absurdly high in both. I remember thinking back in December 2020 when I was reading the Pfizer trial, I said to myself, “Wow that does NOT look friendly!” Not just the wickedly high frequency of really sore arms with redness and swelling, but the very high rates of “systemic symptoms” of fatigue, headache, chills, vomiting, muscle pain. Very high rates of those. Ouch.
2. Next, look at the “dose response,” meaning look at the incidence of adverse events after the 2nd shot compared to the 1st shot. If it is higher after the 2nd, it indicates a “dose-response relationship,” which, when we are talking about a therapeutic, is a pillar of evidence to support the efficacy of the drug. For instance, ivermectin in COVID has a strong dose response relationship, meaning the higher the dose, the more effective it is (that is why all the high impact trials tried as much as they could to limit the dose of ivermectin, in particular during history’s [most fraudulent trial called the TOGETHER trial](#)).

Conversely, a dose-response in terms of side effects is a pillar of the *measure of toxicity*. The more you give, the sicker you get. Not cool. Now take a look at Pfizer’s published chart above, keeping in mind, these are only the short term systemic side effects.

1. Pfizer: fatigue goes from 47% after the 1st to 59% after the 2nd in young folks and 34% up to 51% in older folks. Chills: 14% to 35% in young, 6% to 23% in old. Same pattern and increases with muscle pains and also joint pains and use of anti-pyretic medications.

2. Now, take a look at Novavax. Note how they don't give you the numeral percentages and instead make you crane your neck and use a ruler to estimate the actual incidences and increases. But just looking at the height of the bars from shot 1 to shot 2 and the increases in the yellow at the tops of the bars (yellow = "Grade 3" reactions – i.e. more severe), you see again what looks like a scary shot to me with some of the local and systemic events reported even higher than with Pfizer's mRNA shot! So, is Novavax safer?

**LONG TERM SIDE EFFECTS.** Unknown. Remember the famous, *"I guess we will just have to give it to see how safe it is"* by one of the nation's top vaccine experts. I swear, again, and I say this often, you just cannot make this stuff up. So, an informed consent discussion should relate that long term side effects are unknown. Remember as well, we are not in a supposed "emergency" anymore, despite the fact our government keeps renewing its emergency powers. If the person conducting this discussion tries to argue that in terms of long term effects, it is safe and effective because the mRNA vaccines were safe and effective, that is so categorically ridiculous it does not even bare addressing. Again, read my "Vaccine Exemption Letter" post for the data on toxicity and lethality of those vaccines. Do not proceed. My caution would be that spike protein is a pathogen with sequences that we know generate antibodies that then are capable of attacking many tissues (what are called autoantibodies which cause a category of diseases called "auto-immune" diseases). Also, spike protein, when broken down by the body is known to generate amyloid like fragments which are highly thrombogenic (i.e. cause clotting). Spike protein also stimulates immune cells called monocytes and macrophages which disturb numerous organ functions. Spike protein is also toxic to mitochondria which are the energy producing parts of each cell. In summary, don't sign up for any more spike protein than is already circulating in the world.

Also, Novavax, like the mRNA vaccines uses "nanoparticles" in a "saponin-based adjuvant" solution which is novel and proprietary, patented only in 2020. Well, that's reassuring no? Their published paper states that the adjuvant and the vaccine was found to be "safe and immunogenic" in Phase 1 and 2 trials. Then I found this in the supplementary appendix from one of the earlier trials, "the mechanism of Matrix-M1 (the adjuvant) is not well defined, but it has been associated with a potent induction of leukocyte activation and migration into the draining lymph nodes in their previous study." Not reassuring.

## **EFFICACY**

Unknown, but likely ineffective as it has not been tested against Omicron, or any of its sub-variants or whatever future variant will be circulating when it rolls out. Plus, as we know now, all the predicted efficacy reported from COVID-19 vaccine trials were never observed in the real-world, again likely due to trial shenanigans and data manipulations and removal and/or mis-categorization of those who fell ill during the trial or simply due to the fact the virus is rapidly mutating. Even if it

were effective, we know from the past two years, it would be short lived. I again have to mention natural immunity. It already protects against severe disease and reasonably well from re-infection, and there is no credible data to suggest adding an even older spike protein vaccine using a newly patented adjuvant will better protect you or make you healthier.

#### ALTERNATIVES TO VACCINATION

For readers of my Substack, you all know that you can always just skip the vaccine and instead just rely on early treatment which has been shown to be near perfectly effective in achieving rapid recovery and avoidance of hospitalization and death, especially when given in synergistic combinations like the [FLCCC's](#) or the [AAPS's](#) protocols. In fact, as you know, no vaccine would ever get an EUA or approval if effective treatments were available. Further, there are now over [three dozen effective treatments](#) supported by controlled trials, with many of them repurposed and/or over the counter. I suppose you could also just rely on Paxlovid given its demonstration of such incredible efficacy in treating President Biden and Dr. Fauci.

Hope this helps.

#### RNA for Moderna's Omicron Booster Manufactured by CIA-Linked Company

| BY WHITNEY WEBB | ~~UNLIMITED HANGOUT~~ | AUGUST 17, 2022

Since late last year, messenger RNA for Moderna's COVID-19 vaccines, including its recently reformulated Omicron booster, has been exclusively manufactured by a little known company with significant ties to U.S. intelligence.

Earlier this week, the United Kingdom became the first country to approve Moderna's reformulated version of its COVID-19 vaccine, which claims to provide protection against both the original form of the virus and the significantly less lethal but more transmissible Omicron variant. The product was [approved by](#) the UK's Medicines and Healthcare Products Regulatory Agency (MHRA) with the support of the UK government's Commission on Human Medicines.

Described by UK officials as a "[sharpened tool](#)" in the nation's continued vaccination campaign, the reformulated vaccine combines the previously approved COVID-19 vaccine with a "[vaccine candidate](#)" targeting the Omicron variant BA.1. That vaccine candidate has never been previously approved and has not been the subject of independent study. The MHRA approved the vaccine based on a single, incomplete human trial currently being conducted by Moderna. The company promoted incomplete data from that trial in company press releases in [June](#) and [July](#). The study has yet to be published in a medical journal or peer reviewed. No concerns have been raised by any regulatory agency, including the MHRA, regarding [Moderna's past history](#) of engaging in suspect and likely illegal activity in past product trials, including for its original COVID-19 vaccine.

The approval comes shortly before several Western countries, including the UK, plan to conduct a massive COVID-19 booster vaccination campaign this fall. Moderna has also noted that approval for its Omicron booster vaccine are pending in the US, EU, Australia and Canada – all of which are also planning fall vaccination campaigns focused on COVID-19. The company's CEO, Stéphane Bancel, [has called](#) the reformulated vaccine *"our lead candidate for a Fall 2022 booster."*

Moderna CEO Stéphane Bancel, Source: [ClockworkOrange](#)

However, unlike the company's original COVID-19 vaccine, the genetic material, or messenger RNA (mRNA), for this new vaccine, including the newly formulated genetic material meant to provide protection against the Omicron variant, is being manufactured, not by Moderna, but by a relatively new company that has received hardly any media attention, despite its overt links to U.S. intelligence. Last September, it was [quietly announced](#) that a company called National Resilience (often referred to simply as Resilience) would begin manufacturing the mRNA for Moderna COVID-19 vaccine products. Under the terms of the multi-year agreement, *"Resilience will produce mRNA for the Moderna COVID-19 vaccine at its facility in Mississauga, Ontario, for distribution worldwide."*

**Should you get any vaccines? The data shows the more you vax, the sicker you are. If you took 100% of the vaccines they want you to take, you're about 10X more likely to have medical issues. That's not a typo: 10X, not 10%!**

When I [interviewed Andrew Wakefield](#), he told me that you are roughly 10X more likely to be sick if you are vaccinated with the normal schedule vs. the unvaccinated.

Here is a link to the paper co-authored by my good friend James Lyons-Weiler which shows this very clearly: [Relative Incidence of Office Visits and Cumulative Rates of Billed Diagnoses Along the Axis of Vaccination](#) by [James Lyons-Weiler](#) and [Paul Thomas](#).

Here's a key figure from the paper showing the more vaccinations you accept, the greater your chance of seeing the doctor (relative incidence of office visits). The trends were true for other causes as well (See [Fig 4 and 5](#)).

That's called dose-dependency and it establishes (along with other factors) causality. It's hard to explain a dose-dependency if there isn't any causality.

The story on the retraction

From [Retraction Watch](#) is a short article on the retraction of the paper by the journal.

Here is the actual [retraction notice that shows the authors objected](#) to the unilateral decision to retract the paper by the journal. Notice how they didn't disclose the reason it was retracted? They just said that they "confirmed that the conclusions were not supported by strong scientific data" without providing a single specific example!!! That's how science works in the post-vaccine world (this was July 2021). No need to actually support your opinion with any specific facts.

The full story on the retraction from [the author](#).  
Evidence to the contrary

Here is a complete list of studies that show that the authors were wrong and that kids who got vaccinated actually had lower rates of disease, i.e., the more you vaccinate, the healthier your kids are:

1. <this space intentionally left blank>

What about autism?

Here is a clearly [pro-vax website attempting to debunk the connection between vaccines and autism](#). It says:

The Institute of Medicine undertook a comprehensive safety review of the issue. Their preliminary report, published in 2001, stated the committee did not find enough evidence to support or reject a causal relationship between mercury in vaccines and neurodevelopmental disorders.[24] However, their final report, published in 2004, concluded that the large body of evidence gathered on the

question since 2001 favored rejecting the hypothesis that mercury in vaccines was associated with neurodevelopmental disorders.[6]

New evidence eh? What new evidence? And if the vaccines weren't the cause, then what was the most likely cause? The silence is deafening here.

### Summary

I encourage you to read the papers in each section and decide for yourself. Why is autism affecting 1 in 30 children, it used be 1 in 2500 pre-1970.

As for me, I'm with Wakefield.

## UN Recruited Over 100,000 'Digital First Responders' to Push Establishment C-19 Narrative

[August 19, 2022](#) [This article was posted by TLB Staff](#)

*October 2020 admission gets fresh attention*

Paul Joseph Watson

At the height of the pandemic, the United Nations recruited over 100,000 “digital first responders’ to push the establishment narrative on COVID via social media. The revelation actually slipped out in October 2020 during a World Economic Forum podcast called ‘Seeking a cure for the infodemic’, although it is only going viral on Twitter today.

In the podcast, Melissa Fleming, head of global communications for the United Nations, explains how the COVID pandemic and lockdowns created a “communications crisis” in addition to a public health emergency.

Fleming acknowledged that in order to fight so-called “misinformation” about the pandemic, the UN tapped up 110,000 people to amplify their messaging across social media.

*“So far, we’ve recruited 110,000 information volunteers, and we equip these information volunteers with the kind of knowledge about how misinformation spreads and ask them to serve as kind of ‘digital first-responders’ in those spaces where misinformation travels,” Fleming stated.*

That was nearly 2 years ago. It is not known how many ‘digital first responders’ have been recruited up to this point.

Similar efforts to create astroturf campaigns to push a specific message are nothing new, but when entities such as oil companies engage in it, they are lambasted for rigging the discussion.

*However, when globalist technocrats at the UN or the WEF do it, apparently it’s fine.*

Last year, it was [revealed](#) that the British government used “propagandistic” fear tactics to scare the public into mass compliance during the first COVID lockdown, according to a behavioral scientist who worked inside Downing Street.

Scientists in the UK working as advisors for the government [admitted](#) using what they later conceded to be “unethical” and “totalitarian” methods of instilling fear in the population in order to control behavior during the pandemic.

As we previously [highlighted](#), the World Economic Forum is now advocating for the merger of human and artificial intelligence systems to censor “hate speech” and “misinformation” online before it is even allowed to be posted.

*In what some dubbed “preemptive censorship,” the WEF is creating a system that would block posts from appearing if they fail the censorship filter.*

*Of course, the WEF, which is infamous for blocking its critics on Twitter, would never abuse such a system to shield itself from scrutiny.*

# Huge U.S. Crimes!

**U.S. Government Complicit In Creating Covid**

August 6, 2022

US government might have been complicit in creating Covid. Moscow is examining the likelihood that a Washington, DC agency was involved in the development of Covid-19.

According to the Russian Ministry of Defense, USAID's potential involvement in the development of the Covid-19 virus is being looked into.

In a press conference on Thursday, Lieutenant-General Igor Kirillov, the head of Russia's radiation, chemical, and biological defense forces, asserted that U.S.-backed bio laboratories in Ukraine had been using Ukrainian residents in dubious clinical trials and research, and that *"over 16,000 biological samples, including blood and serum samples, were exported from the territory of Ukraine to U.S. and European countries."*

He continued by mentioning that a comment made by Jason Crow, a member of the U.S. House Intelligence Committee, warning Americans that their DNA samples could be used to construct specialized biological weapons, prompted Russia's Defense Ministry to *"take a fresh look"* at the roots of the Covid outbreak.

*"Taking into account the interest of the U.S. administration in the study of narrowly targeted biological agents, such statements force us to take a fresh look at the causes of the novel coronavirus pandemic and the role of U.S. military biologists in the emergence and spread of the Covid-19 pathogen,"* Kirillov said.

According to Kirillov, who cited a Lancet article by Columbia professor Jeffry Sachs who proposed that the virus was probably made in a lab with the aid of America's most recent achievements in the field of biotechnology, Russia presently doubts that USAID possibly was directly culpable for the onset of the Covid-19 virus.

In 2009, USAID began supporting a project called *"Predict,"* which involves capturing wild bats afflicted with novel coronaviruses for scientific purposes. Kirillov noted that one of the project's contractors, Metabiota, was well-known for its military biological functions on Ukrainian soil.

The FDA discontinued the *"Predict"* initiative in 2019, and at the same time, the Johns Hopkins Center for Health Security started researching the transmission of a previously unidentified coronavirus.

*"The implementation of the COVID-19 development scenario and USAID's emergency phasing out of the Predict program in 2019 suggest the deliberate nature of the pandemic and US involvement in its occurrence,"* Kirillov said.

He continued by saying that the recent appearance of the monkeypox virus and the U.S.'s alleged history of employing biological weapons against adversaries

have caused Moscow to notice a “*clear trend*” of pathogens that, for whatever reason, the Pentagon is interested in, subsequently developing into pandemics.

The U.S. maintains that it did not use Ukrainian bio-labs for military research and that Kiev used the “*46 peaceful Ukrainian laboratories, health facilities and disease diagnostic sites*” to help improve biological safety, security, and disease surveillance for both human and animal health. The denial persisted for several months until evidence was submitted at the UN exposing the U.S. “peaceful” (sic) labs were engaged in weaponization of the Coronavirus SARS2-Cov-2.

The Covid-19 virus’s precise origin has not yet been proved beyond a reasonable doubt. The World Health Organization (WHO) asserted that it was most probably spread from an animal, presumably a bat, to people in February 2021.

The problem is that viruses have never been proved to jump from bats to humans without the aid of an intermediary bio-lab!

#### NEW BIOLOGICAL UPDATE FROM RUSSIA

The Russian MIL has been studying biological samples from surrendered Ukrainian soldiers, and what they have been finding is beyond disturbing. Approximately 20% of them carrying West Nile pathogens, which was being studied “*by the Pentagon as part of the Ukrainian UP-4 and UP-8 projects*”. Suggesting that Ukrainian soldiers are being subject to involuntary biological experimentation and exposure to biological weapons (think Nuremberg).

In addition to carrying pathogens, nearly all of the surrendered Ukrainian soldiers carried traces of a wide variety of narcotics and opioids, including Meth and Codeine.

Russia were sure to remind us of the Nazi’s usage of methamphetamines in WW2, when the left-wing media tried to spin this reality as some sort of X-men mutant conspiracy theory. No, they are just Nazis, and historically, Nazis use drugs.

The imbeciles at the ‘*Daily Beast*’, falsely claim Russia are losing the war and falsely claim they are blaming it on genetically modified “*mutant-troops*” as a result of the 46 U.S. bio-labs in Ukraine. Before reading the article, understand that this is straight up nonsense from the ‘*Daily Beast*’ and the left-wing media, and the only reason for reporting on it is ...

Russia goes on to cite that this methamphetamine Ukraine are using, Pervitin, was also used by U.S. soldiers during Vietnam and Korea. It’s designed to reduce the psycho-emotional burdens of war.

However, an intended side effect is excessive aggression, which Russia alleges is one of the main factors for the Nationalist Ukrainian forces displaying “*extreme cruelty*” to civilians and the shelling of their own people in Donbas. Ukraine are

using mind-numbing agents on their forces to make them more susceptible to carrying out heinous acts.

Next, we find perhaps the most explosive slide to date, in which Russia FINALLY comes out and DIRECTLY accuses the U.S. of being responsible for the creation and release of Covid-19. What I have been saying from the beginning, is that this all leads to C-19, which will be the nail in the coffin and the red-pill that wakes up the world.

The backlash the U.S. is facing from Russia and the rest of Eastern world, is directly because the world found out THE UNITED STATES CREATED COVID. Specifically the “DNC/Liberal Globalists”, as the Russians allege. Not Trump.

Russia clarifies they have record of over 16,000 biological samples, including blood and serum samples, transported from Ukraine to the U.S., Georgia, European countries.

The U.S. claimed that all of these biological samples would be used “*exclusively for peaceful purposes*”, but we can see that they were not.

Russia then pointed to U.S. Congressman Jason Crow of the House Intelligence Committee, warned Americans about the dangers of giving their DNA to private companies (Think 23&Me) for testing because:

*“...there is a possibility that test results will be sold to third parties... and the information obtained could be used to develop biological weapons targeting specific groups... or individuals.”*

Sounds exactly like what Russia have been alleging all along. That the U.S. have been producing biological weapons to ethnically cleanse certain individuals of select genome sequences. Idk about you all, but ethnic cleansing with biological weapons doesn’t sound very “Democratic”, but maybe that’s just me.

Russia says this activity gives reasonable cause to question U.S. military biologists in the emergence and spread of the COVID-19 pathogen. Russia cites:

*“In May 2022, Jeffrey Sachs - a leading expert in the respected medical journal The Lancet and professor at Columbia University, the leading academic institution for global biosecurity, told a conference in Spain that ‘..the coronavirus was artificially created and is very likely to have been created using American advances in biotechnology...’.”*

Take that in for a moment. Yup. Russia just accused the United States of creating and releasing Covid-19. But wait, there’s more.

Russia confirms the unnatural behavior of C19 proves that this virus was not only man-made, but being constantly worked on and “artificially fueled” via the introduction of different variants to different regions.

Myself and many others have been leaning towards the idea that Wuhan was not the only “origin” of the C19 outbreak. It was released at multiple labs around the world, with different specially engineered variants, designed to target the people of the region with genome specific C19 virus. This was likely done to throw off the scent that would lead to a single release point and identify a single source leading to key names and groups responsible.

The DNC Globalists were using Ukraine as the home base for production of the virus, then shipping the genome specific viruses to labs around the world, to be released to ensure the virus infected the entire world...

According to our experts, this is evidenced by the uncharacteristic variability of the geno-variants that cause different peaks in the incidence of coronaviruses, significant differences in lethality and contagiousness, uneven geographical distribution, and the unpredictable nature of the epidemic process as a whole. It appears that despite efforts to contain and isolate the disease, the pandemic is being artificially fueled by the introduction of new variants of the virus in a particular region.

Russia goes on to directly accuse the U.S. Agency of International Development, (USAID), of involvement of the creation of the new Covid variants. Citing that they have been studying coronavirus since 2009 (Obama), and that one of the main contractors for the project is the infamous Biden bio-lab company, Metabiota, the main source of biological malfeasance in Ukraine.

The implementation of the COVID-19 scenario and USAID's emergency wind-down of the Predict program in 2019 suggest the deliberate nature of the pandemic and US involvement in its emergence.

Russia believes not only did the U.S. create and release C19, but they did so with deliberate intentions.

And just when you thought it couldn't get any worse... it gets worse.

In the third slide, Russia highlight the activities of Labyrinth Ukraine. Particularly their vaccination of Ukrainian soldiers, and collecting biological samples from them so they can develop genome specific biological weapons. Citing one of the main contractors affiliated with Labyrinth is, once again, Biden's Metabiota.

Russia also notes that Labyrinth Global Health have been studying CORONAVIRUSES AND MONKEYPOX.

Thus we see a clear trend: infectious disease agents that reach the Pentagon's zone of interest are subsequently pandemic, with U.S. pharmaceutical companies and their patrons, the leaders of the U.S. Democratic Party, as the beneficiaries.

HOLY %HIT... Russia just said the DNC and U.S. big pharma are intentionally causing pandemics to win elections...

**Globalists Initiate Monkeypox Fear Campaign to Push for Mail-In Voting!**

It appears the majority of the community, were correct to foresee the DNC/Globalist plan to introduce Monkeypox as the next “*emergency*” to instill fear in the sheep and justify mass mail-in voting, so they can utilize their voter fraud network, as per “2,000 Mules”... {a reference to the video that exposed the stuffing of ballot drop boxes after the voting polls were closed}.

**In conclusion, Russia has now DIRECTLY accused the DNC Globalists of:**

- creating and releasing new variants of Coronaviruses, and now Monkeypox, intentionally, for the purposes of political control and world domination.
- using non-consensual experimentation on citizens of the world to create genome specific biological weapons for ethnic cleansing.
- creation and usage of narcotics, such as methamphetamines, on Ukrainian forces to dehumanize them in order to carry out heinous crimes against humanity on civilians in Ukraine.

Russia just confirmed the overall narrative; that the war in Ukraine is backlash for the Deep State's creation and usage of Covid-19. We are already in WW3 and C19 was the first weapon fired.

The fact that Russia have now come out and openly called this spade a spade... suggests we are approaching the finish line. Russia claims final dossier will be complete in “Autumn”.

**Aussie Reporter EXPOSES Zelensky As A FRAUD And Criminal — ‘He’s Nothing Like The Western Media Is Portraying Him’**

*“Something about all this doesn’t add up. There’s an agenda at work in the Ukraine that is much greater than staving off the Russian invaders. We are wise to take everything we’re told about this conflict with a huge grain of salt” he says. Zelensky is exposed by Bernardi in about five minutes, including his affiliation with the Nazi Azov Battalion, his restriction on free speech, his crimes, and his “fame whoring.”*

The president of Ukraine, Volodymyr Zelensky, is not all that the Western media portrays him to be, according to reporter Cory Bernardi of 'Sky News' Australia.

**He's not saluting the University of Texas Longhorns now, is he? I think that says all you need to know about him.** And yet Joe Biden authorized another billion \$\$ just in the past day or two, August 5<sup>th</sup>, 2022! Biden to Send Another Billion Dollars to Ukrainian Regime and Oligarchs to Prop Up War Machine --What recession? **Biden has delivered over \$63 billion to Ukraine.** The regime is stockpiling Ukraine with cash, weapons, and support in the war with Russia. **Joe Biden has sunk billions of U.S. taxpayer dollars into the misguided venture.** And tonight there are reports Joe Biden is going to sink another billion dollars into the failed venture. Three sources told Reuters on Friday, *"The Biden administration's next security assistance package for Ukraine is expected to be \$1 billion, one of the largest so far, and include munitions for long-range weapons and armored medical transport vehicles..."*

**Ukrainian forces 'put civilians at risk' – Amnesty International stated. "Kiev is routinely using schools and hospitals as military bases, the rights group says". on August 4<sup>th</sup>, 2022 | Ukrainian forces appear to have a pattern of placing troops and military vehicles in residential areas, including using hospitals as de facto military bases, Amnesty International said on Thursday. Such actions violate international humanitarian law and put civilian lives at risk, the human rights NGO said. The accusation is based on research that Amnesty conducted between April and July in the east of Ukraine.** In 19 towns and villages, it found evidence that Ukrainian forces launched strikes from within residential areas. In several cases they were targeted by retaliatory Russian attacks, some of which killed civilians,

the report said. In 22 out of the 29 schools visited by Amnesty they said they found evidence of current or prior military activity. In five locations they witnessed Ukrainian troops using hospitals as bases, which was "a clear violation of international humanitarian law." The relationship between Joe Biden, his son Hunter, with Volodymyr Zelensky can only mean bad news to the U.S.

## THIS IS MURDER SANCTIONED BY THE STATE!

### Life Insurance claims skyrocket after COVID jab rollout, prompting insurers to take legal action against vaccine manufacturers

Wednesday, August 03, 2022 by: Lance D Johnson

([Natural News](#)) Life insurance claims have skyrocketed since the COVID jab rollout, dwarfing the number of claims made during 2020 when a high-mortality-rate-pandemic was supposedly ravaging the Nation. Yale epidemiologist Harvey Risch believes that insurance companies are on the verge of [taking legal action against vaccine manufacturers](#) over vaccine-associated death risks that were downplayed from the very beginning.

Risch points to an explosion of "early unexpected mortality claims" after the COVID vaccine rollout. This influx of life insurance claims is not even COVID-related, and insurers are struggling to pay out. Risch says that vaccine manufacturers misrepresented the "all-cause mortality" from their very own clinical trials, not only deceiving the population into taking dangerous vaccines, but also misleading the insurance companies who are now forced to pay for thousands of needless deaths in young and middle-aged adults.

Will insurance companies seek financial compensation from the COVID-19 vaccine manufacturers to cover for "major financial risk[s] that they have to figure out how to manage" going forward?

Epidemiologist believes life insurance companies may sue vaccine manufacturers for misleading statements.

Risch has analyzed statements made by the CEOs of various group life insurance companies. He claims that the actuaries miscalculated, estimating that the vaccinated would "live longer than they have." Risch said the actuaries were deceived on "all-cause mortality...from the original [vaccine] trials."

In December of 2021, OneAmerica CEO Scott Davison attended a healthcare conference and spoke up about an ["unheard of" 40 percent spike in the death rate](#) of working-age people insured by the company. The 40 percent increase in death made no rational sense because the covid-19 vaccine had been rolled out the entire year. Government and public health officials promised that this [vaccine program](#) would save lives and end the pandemic.

Davison said that a 10 percent increase in death would have required a “one-in-200-year-catastrophe.” There was no way the company could have predicted a 10 percent increase in death claims, let alone a 40 percent increase, when the worst of the pandemic was supposed to be in the rear-view mirror. The vaccines were safe and effective, they were told, and no one was allowed to question the god-like status of these experimental jabs.

Most shocking, Davison said that the majority of insurance claims filed ARE NOT COVID-related deaths. In 2020, almost any medical issue could be coded as COVID-19, no matter how faulty the testing was, no matter how many underlying health issues and medical errors were to blame for the deaths. For the death rate to spike 40 percent and NOT be related to COVID-19 is an anomaly of mass proportions.

Will life insurance companies get a settlement from the vaccine makers, as the cycle of depopulation is swept under the rug?

At Lincoln National, actuaries reported a 163 percent increase in death benefits paid out in 2021, after the vaccine was rolled out to the public. The large insurer paid out \$500 million in 2019, \$548 million in 2020, and a whopping \$1.4 billion in 2021.

The global pandemic didn’t cause a drastic change in death benefits paid out, but for some reason, excess mortality was highest in 2021, when the COVID vaccine promised a way out. The year of the vaccine brought a tsunami of excess mortality, spiking the death rate to levels unthinkable for insurance companies to handle. Lincoln Financial is not poised to sue the vaccine manufacturers, however. Instead, they are justifying the surge in death payouts, pointing to “less favorable returns within the company’s alternative investment portfolio” that year. Lincoln Financial spokesperson Kelly DeAngelis said the company acquired Lincoln Life Assurance Company of Boston in 2021 and took on a slew of new claims. Even this acquisition does not explain the abnormal surge in death benefits paid out in 2021.

Perhaps the insurance companies will ultimately seek some kind of [settlement from the vaccine manufacturers](#) – to brush the depopulation issue under the rug.

## **Lab Rat Offspring Got Rib Malformations After COVID Vaccination: Moderna Trial Documents**

August 20, 2022

The FDA stated on Jan. 30 that there were no negative effects on postnatal developments. However, lab rat offspring managed to get rib malformations after COVID vaccination, reveals the Moderna trial documents.

Using the Freedom of Information Act, Judicial Watch was able to acquire information from Moderna detailing its COVID immunization experiment on

animals, which revealed that some of the rats' pups who received the company's mRNA shot were born with rib abnormalities.

The 700 pages constitute a section of the official Biologics Licensing Application (BLA) package that a firm must submit to the FDA for approval.

The documents were examined by the media and former pharmaceutical executive Alexandra Latypova despite not yet being made public.

The documents contain test data demonstrating that Moderna mRNA injections generated statistically significant bone abnormalities in the progeny of rats given mRNA-1273 (Spikevax mRNA) dosages.

*"mRNA-1273-related variations in skeletal examination included statistically significant increases in the number of F1 rats with 1 or more wavy ribs and 1 or more rib nodules. Wavy ribs appeared in 6 fetuses and 4 litters with a fetal prevalence of 4.03% and a litter prevalence of 18.2%. Rib nodules appeared in 5 of those 6 fetuses,"* according to Moderna's internal documents.

F1 stands for the rat offspring, while litter denotes the birth of several rats at once.

*"Maternal toxicity in the form of clinical observations was observed for 5 days following the last dose (Gestation Day 13), correlating with the most sensitive period for rib development in rats (Gestation Days 14 to 17)"* the documents state.

## **Edward Dowd Discusses 20% Increase in Excess Deaths in Working Age Adults after Vaccine Mandates**

Former BlackRock securities analyst, Ed Dowd tells Steve Bannon that the [Society of Actuary Institute has published a report on Group Life Insurance Excess Mortality](#), a survey of 80% of the Group Life industry in the US, that confirms his findings from last February that in Q3 of 2021, there was an alarming spike in Working Age Excess Deaths. In ages 35-44, it was 100% over normal for that quarter. He is told from his source at the Society that this rate of excess deaths remains the same during Q1 and Q2 of 2022.

Ed Dowd suspects that these insurance industry reports are the reason why the [CDC reversed course](#) on its COVID "guidance" – which are nevertheless being maintained by certain corrupt districts, such as [Philadelphia](#).

And he thinks this why [CDC Director, Rochelle Walensky](#) this week announced a total reorganization of the lumbering agency – although she is of course, asking for more money and more control, without, of course admitting that the agency has been actively engaged in a [mass-genocide of its own people](#).

There is a special place in Hell for Walensky and for all those who have participated in this total abomination and perversion of public health against Americans and the peoples of the world.

## **Scientists with ties to Bill Gates and Anthony Fauci Admit to Developing Vaccine that Spreads Like a Virus**

08/04/2022 / By Mary Villareal

Scientists linked to Bill Gates said they are developing a [vaccine that spreads like a virus](#).

The research is subsidized by high-profile funding organizations with longstanding and close financial ties to the Bill & Melinda Gates Foundation. It is also supported by the National Institutes of Health, the mother agency of Dr. Anthony Fauci's National Institute of Allergy and Infectious Diseases.

[Self-spreading vaccines](#) are rooted in efforts to reduce pest populations. The virally-spread immune-contraception hijacks the immune systems of infected animals like non-native mouse species, preventing them from fertilizing offspring.

The earliest self-spreading vaccine efforts targeted two highly lethal infectious diseases in the European rabbit population in 2001. Spanish researchers field-tested a vaccine in the wild rabbit population on a small island just off Menorca. The vaccine spread to over half the 300 rabbits on the island, and the trial was said to be a success.

While the researchers may intend to make self-spreading vaccines, there could be ways to repurpose this science to develop biological weapons, which may prove uncontrollable and irreversible.

Humans have been weaponizing biology since 2000. A new virus has been released every two years since 2000. Dr. David L. Martin has been studying the patents issued since the late 1990s and has confirmed this to be TRUE!

Humans have already weaponized biology on several occasions. As the apartheid-era South African bio-warfare program showed, social, political and scientific pressures can lead to the misuse of biological innovation.

Project Coast, as it was called, was South Africa's program primarily focused on covert assassination weapons for use against individuals deemed a [threat to the racist apartheid government](#). In addition to producing contraptions to inject poisons, Project Coast researchers developed techniques to lace sugar cubes with salmonella and cigarettes with Bacillus anthracis.

There had been many bio warfare programs, including several that were far more elaborate and sophisticated, but the South African program is important in

thinking through malicious uses of self-spreading vaccines. One of Project Coast's research projects aimed at developing a human anti-fertility vaccine.

This idea came at a time when there was widespread concern over population explosion. Schalk Van Rensburg, who oversaw the fertility-related work at Project Coast, believed that this could bring his lab international acclaim and funding. (Related: [The Bill Gates globalist vaccine depopulation agenda... as revealed by Robert F. Kennedy, Jr.](#))

Van Rensburg and the director of the bio warfare program, Wouter Basson, said the military needed an anti-fertility vaccine for female soldiers not to become pregnant.

Other scientists involved in the project denied awareness of ulterior intentions or even their fertility work as part of a military endeavor. However, Van Rensburg and lab director Daniel Goosen said the real intention of the project was to selectively administer the contraceptive in secret to unsuspecting Black South African women.

In the end, the anti-fertility vaccine was not produced before Project Coast officially closed down in 1995 – 12 years after it was initiated. It ended with an earlier version tested in baboons, but never in humans. (Related: [Bill Gates pushes for a 90 percent vaccination rate worldwide.](#))

South Africa was not the only country to try to forcibly sterilize its population. European countries like Sweden and Switzerland sterilized members of the Roma minority in the early half of the 20th century, while countries like Slovakia continued beyond that.

More recently, analysts alleged that the Chinese government has been sterilizing women in Xinjiang, which is a province with a large population of Uyghur Muslims.

The Defense Advanced Research Projects Agency (DARPA) has also gotten involved in the research. The [University of California, Davis](#) has been working on a DARPA-administered project that is creating the first prototype of a self-disseminating vaccine designed to induce a high level of herd immunity against the Lassa virus and Ebola.

World governments at Agenda 21 in 1992 at Rio di Janeiro, Brazil launched a silent war upon their own people, using quiet weapons, lies and propaganda. The mainstream media is enabling this deception and genocide. Our mission in this war is to bring you the truth.

Because I am not recognized as a trained scientist, I AM NOT CONSIDERED TO BE A CREDITABLE to prove my contention that Covid-19 was genetically engineered through the use of CRISPR-Cas9 “gene” engineering methods. I have done my homework and diligence on this premise. The growing data and various studies provide more than just a circumstantial evidence (if not causal) that the spike protein as a vector was manipulated in an infinite number of ways to confuse the medical and scientific community. With the VAERS reporting system showing 30,000+ deaths to the vaxxes is ample evidence to validate my original premise that this is not about a hoaxed virus but is about Genocide by State sanction! Never in the history of the pharmaceutical industry has there been such ignoring the death numbers caused by the “gene” therapy. The swine flu vaccine was suspended after 27 deaths were reported in the initial phase of vaccinating the American public. This is premediated murder by the big pharma/health agencies/government!

It was Pfizer’s CEO, Albert Bourla and Tal Zak who said that “*We cracked the Code of Life*”. He called his vaxx a “*Delivery System*” which in itself infers that it was delivering more than a vaccine. We know with total certainty that it is delivering a spike Protein that continues to replicate itself once injected into the human body. Dozens of articles shared in this series have confirmed human manipulation of what people were injected with is not therapeutic but toxic and potentially fatal! It is the use of CRISPR-Cas9 “gene” editing that can be used for good but can also be used for evil nefarious applications!

**Our Government wants you DEAD!**  
**This includes the CDC, NIH, NIAID,**  
**and the World Health Organization!!**  
**The “Depopulation” agenda began**  
**Shortly after the 1968 publication of**  
***“The Population Bomb”***

**by Dr. Paul Ehrlich and his wife Anne.**

**“Depopulation has been the World’s #1 Issue since 1968!” It underlies every global issue since. Whether it is climate change or the Global Reset, “**depopulation**” is at the core of everything!! It’s all about Sustainable Development!**

Anyone who is a skeptic of my statement should Google search the term “Georgia Guidestones” and read their goal engraved in granite stone back in 1980. The stone structure calls for the eradication of 93% of the world’s population. This is both an unsigned confession as well as a “Projection” of what they planned to do in their global genocidal plan.

**At 4:00 AM, Wednesday, July 6<sup>th</sup>, 2022, unknown parties blew up the Georgia Guidestones. The following day an excavator was brought in to demolish the standing portion. Investigative journalist Jim Stone stated surveillance video tape taken from two different directions showed no one approaching the monument before the detonation, and suggested that it may have been an inside job.**

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)
