

Mass Murder

By Sovereign State Sanctioned Syringe Needle!
Part 81

FLASHBACK TO FEB 2020: Dr. Francis Boyle, Author Of The U.S. Bio-Weapons Act, Said Coronavirus Is Biological Warfare Weapon on February 3, 2020 – In an explosive interview Dr. Francis Boyle, who drafted the Biological Weapons Act has given a detailed statement admitting that the 2019 Wuhan Coronavirus is an offensive Biological Warfare Weapon and that the World Health Organization (WHO) already knows about it. Francis Boyle is a professor of international law at the University of Illinois College of Law. He drafted the U.S. domestic implementing legislation for the Biological Weapons Convention, known as the Biological Weapons Anti-Terrorism Act of 1989, that was approved unanimously by both Houses of the U.S. Congress and signed into law by President George H.W. Bush. In an exclusive interview given to Geopolitics and Empire, Dr. Boyle discusses the coronavirus outbreak in Wuhan, China and the Biosafety Level 4 laboratory (BSL-4) from which he believes the infectious disease escaped. He believes the virus is potentially lethal and an offensive biological warfare weapon or dual-use biowarfare weapons agent genetically modified with gain of function properties, which is why the Chinese government originally tried to cover it up and is now taking drastic measures to contain it. The Wuhan BSL-4 lab is also a specially designated World Health Organization (WHO) research lab and Dr. Boyle contends that the WHO knows full well what is occurring.

This next report ought to remind everyone of a well-known the proverb: **Fool me once, shame on you; fool me twice, shame on me** is a proverb that means if someone takes advantage of me twice, I only have myself to blame. Once someone has shown themselves untrustworthy, you should not be surprised when they betray you again. A proverb is a short, common saying or phrase that may be a famous or inspirational quote. –[Pastor Bob]

Plandemic snake oil salesmen now pushing mRNA nasal spray; call for second Operation Warp Speed

Thursday, August 25, 2022 by: Ethan Huff

(Natural News) The profit streams for Wuhan coronavirus (Covid-19) medical garbage – i.e., masks and “vaccines” – are quickly dying off, which explains the fresh push for another Operation Warp Speed grift.

Those who made obscene profits from the first Operation Warp Speed, which was proudly [orchestrated by Donald Trump](#), claim that the latest alleged variant of “Omicron,” aka *Moronic* in anagram, only responds to a new nasal spray “vaccine.” And the only way to get this new mRNA mist into people’s nasal cavities is for the United States government to dump billions of dollars into fast-tracking its production and release.

Just like Trump did with the first so-called “vaccine,” which was made possible with a \$10 billion payment of taxpayer monies to Big Pharma, the latest grifters in government and “science” say that the all-new nasal mRNA vaccine needs a massive cash infusion as part of Operation Warp Speed 2.0.

According to reports, billionaire eugenicist Bill Gates is behind the nasal mist. His Bill & Melinda Gates Foundation sent \$2 million to pharmaceutical startup RIGImmune, one of the co-founders of which is Akiko Iwasaki. Iwasaki is also the co-founder of Xanadu Bio, a company that is in the business of developing lipid nanoparticles (LNPs) for inhalation.

Gates is [also behind](#) the “*luciferase*” vaccine ingredient that appears to be linked to microchip implants.

“Oligarchic support for nasal spray vaccines proceeds primarily from the beleaguered mind of Bill Gates, who is quietly disappointed in the performance of the mRNA elixirs and now places the better part of his hope in masking,” reports eugyppius.

“Thus efforts to stir up enthusiasm for snortable SARS-2 countermeasures are worth watching, as a test case for assessing the extent of Gates’s influence.”

Will Operation Warp Speed 2.0 finish what the first one aimed, but failed, to do?

Existing studies on LNPs show that they are highly dangerous. One involving mice resulted in death-inducing inflammation of the lungs – which is apparently what they have planned for humanity in the very near future.

If you thought the *plandemic* was ending, or that one political party or the other was going to save us all from what these genocidal maniacs have planned, *think again*.

“Or people could just inhale the actual Omicron virus, suffer mild cold symptoms, and get full robust immunity that way,” wrote a commenter at *eugyppius* about how real immunity happens.

“The covid ‘vaccines’ are working out much like the Spanish flu vaccine with most of those dying of both being those who took the vaccines,” wrote another.

Another wrote a lengthy, multi-paragraph critique of the illogic behind the whole narrative, which is so embarrassingly unbelievable at this point that only the dumbest and most gullible people out there believe that any of this is about public health and saving lives.

“So they’re working on a grant meant for diseases that disproportionately affect the third world, yet the places with the most persistent and widespread reinfections are the richest countries on earth? That have had more than their share of vaccines?” this person wrote.

“We need to declare victory over severe covid and all just move on.”

The author of *eugyppius* piped in that deactivated or attenuated virus nasal spray vaccines, which currently exist, are different than what the *plandemic* snake oil salesmen and saleswomen are now trying to push on the masses.

“Too bad for all those who hoped for deactivated or attenuated virus nasal spray vaccines. In this pandemic you can only add measures, never subtract them. You’re going to get the mRNA elixirs up your nose only after you’ve gotten them in your arm.”

Health ALERT: COVID Hospitalizations, Death Rates Highest Among Fully Jabbed

by: Sara Middleton, staff writer | August 19, 2022

([NaturalHealth365](#)) How many times can public health officials keep moving the goalposts before most people finally realize the kind of game they’re actually playing when it comes to the COVID shot?

First, these COVID shots – and in particular the gene-based jabs from Pfizer and Moderna – were sold to us as the only way to “*end the pandemic*” and stop the spread of SARS-CoV-2. Then, once it became unavoidably obvious that the vaxxes *didn’t* stop viral transmission and that “breakthrough cases” were NOT rare, suddenly the COVID shots were only ever supposed to be about preventing severe illness and death.

The sitting U.S. President even claimed on live television in July 2021 that “You’re not going to get COVID if you have these vaccinations” and “*If you’re vaccinated, you’re not going to be hospitalized, you’re not going to be in the ICU unit, and you’re not going to die,*” statements that even mainstream fact checkers admit are false.

Now, as more and [more data](#) flies in the face of the claim that COVID shots are “safe and effective,” we continue to see public health officials insisting that double, triple, and quadruple doses of COVID shots are necessary for just about everyone over the age of five (and soon, maybe even younger than that).

Official Canadian data from June shows vaxxed people are MORE likely to be hospitalized, die with COVID-19.

In a July 15 update, the Government of Canada released a table showing the number of COVID cases, hospitalizations, and deaths in the country stratified by vax status up to June 12, 2022. According to this table, the cases, hospitalizations, and deaths are much higher among unvaxxed individuals compared to vaxxed individuals. However, after some simple observations and calculations, the team over at *The Exposé* website was able to tease apart this data ... and reveal what the Canadian government officials may have been trying to hide.

The main problem with this July 15 update, *The Exposé* found, was that the Canadian government included cases, hospitalizations, and deaths from *mid-December 2020*. “By doing this,” *The Exposé* writes, “*they’re able to include a huge wave that occurred in January 2021 when just 0.3% of the population of Canada was considered fully vaccinated*” (emphasis theirs).

In other words, if you include in your data set a period in which *less than one percent of the population* was considered “fully vaxxed,” then, of course, it’s going to appear that unvaxxed is strongly correlated with poorer outcomes related to COVID-19. But is that actually true?

To correct for this confounding factor, *The Exposé* team used web archives to look at previous reports from the government, then did some basic math to work out the statistics on the CURRENT situation surrounding COVID-19 by vax status. This is more relevant than including *all* the COVID-19 data from the very beginning of the vaccine rollout, back when the shots were not widely available

and “*unvaxxed*” people included individuals who were going to get vaxxed but simply weren’t able to yet.

In fact, according to their calculations of the Canadian government’s data, *The Exposé* found that between June 6th and June 9th, 2022:

- 19,405 (93 percent) of the 20,842 reported COVID-19 cases happened to vaxxed people, and of those, 13,987 cases were among the double boosted, aka *quadruple-vaxxed*
- 1,168 (85 percent) of the 1,377 reported COVID-19 hospitalizations happened to vaxxed people
- 609 (92 percent) of the 661 reported COVID-19 deaths happened to vaxxed people – and nearly half of those deaths were among quadruple-jabbed

Not exactly the picture of “*safe and effective*” that officials want us to believe, right?

It’s all in the numbers (if you’re willing to dig a little)

Playing the devil’s advocate for a moment, let’s say that vaxxed individuals are more likely to follow “*official*” recommendations and seek out testing if they have cold and flu-like symptoms (which, as we know, is what a bout of COVID-19 effectively amounts to for the vast majority of people – little more than a bad cold). In this line of reasoning, we could hypothesize that there are actually a lot more unvaxxed Canadians getting COVID-19, but we simply aren’t aware of them because they aren’t bothering to get tested.

Fair enough. However, even if that WERE the case, this *wouldn’t* explain the astronomically higher rates of hospitalizations and deaths among vaxxed individuals during that two-week period in June. And even when we consider that a whopping 82 percent of the Canadian population is considered “*fully vaxxed*,” it *still* doesn’t really explain why vaxxed people make up the majority of recent COVID-19 hospitalizations ... after all, isn’t that *exactly* what these vaxxes are supposed to do – prevent people from getting so sick with COVID-19 they have to go to the hospital?

The math is simply there, and it doesn’t bode well for vax-proponents: 9 out of 10 COVID-19 cases, hospitalizations, and deaths reported in mid-June in Canada were among people who were considered fully vaxxed – and most of these were among triple- or quadruple-jabbed.

If government officials want us to be more trusting of their public health efforts, maybe they should be more transparent about what the public health data is revealing. Or should we just keep on believing that we need to [keep on getting boosters](#), despite evidence that perpetual COVID doses may harm the immune system?

White Clots Are Self-Assembling Circuits

Dr. Jane Ruby reports that, "Self-assembling electrical circuit material" are the results from Mike Adam's near-final lab analysis of the [rubbery white clots](#) that are being found by morticians in veins and arteries of the prematurely-deceased jab victims all over the world.

Mike is the only microscopy expert who's been willing to step forward and analyze these unprecedented clots and he gives us his in-depth analysis, here.

Mike says, *"The instrument that I knew that would be the most accurate for this analysis is called the ICP-MS, that's [Inductively Coupled Plasma Mass Spectrometry](#)...We took these clots from [20-year board certified embalmer] Richard Hirschman and we ran the ICP-MS analysis and we also took a live blood sample from a healthy human being who was not vaccinated and then we compared the blood to the clots with an elemental analysis breakdown."*

Mike explains that the elements found in animal life were relatively lacking from these clots. What the clots do contain in higher amounts are elements that you find in circuitry or machinery or electrically-conductive systems. Tin is being found in these clots, as well as sodium, which is an alkaline metal that is highly-conductive and aluminum, which is used in wiring, having lately come to replace copper, since copper has gotten so expensive.

"We see higher amounts of elements that you would find in AI robots or circuits, circuitboards, things like that. We have much lower concentrations of things that you might find in a human being."

Mike goes on to say that the clots are self-assembling biostructures. So, they increase in size over time and as they're increasing in size, they are accumulating or harvesting from the blood these electrically-conductive elements that we've mentioned; tin, aluminum and sodium, in particular. So in other words, these are self-assembling machines of some kind that are biologically 'compatible' for a period of time and as they grow, they take up more and more of the cross-sectional space in the arteries and blood vessels.

"Now, at first, the blood flows around them...but they can also be dislodged with a certain amount of force, such as if you're out jogging and your heart rate goes up and your blood pressure's much higher, we believe this is why some doctors are dropping dead as they're jogging, because a clot is dislodged..."

"[But] if it continues to grow, it's going to take up the entire space of the blood vessel. When it does that, then obviously, the blood flow is blocked and that person loses that blood flow though that part of the body being served by that vessel or artery and this is, I believe the explanation for quote 'Died suddenly' and it's also the explanation for some people that have to have their hands or feet amputated, because they're losing blood flow to those extremities."

"So the kicker here is that this is going to worsen over time. There are people walking around today who've had the shots and they have the clots and they're going to die at some point, as the clots get larger."

Dr. Ruby points out that Richard Hirschman, the embalmer who provided these clots for analysis has noticed that when he has stored the clot samples in a refrigerator, that they continued to grow.

"Once you understand that these clots are, in effect harvesting and organizing conductive elements from the blood – and that's a fact. It sounds like science fiction but that's a confirmed fact, at this point – you have to wonder, 'Well what is it doing with these elements?'"

Mike speculates that having these elements present in the body could also make people just as vulnerable to an EMP attack as electronic devices are.

Mike also analyzed some vaxxines, as well and he's not ready to release all of that information except to say that his lab has detected several industrial metals, like cadmium in them. He will be making a report soon about his lab analysis of the vaxxines.

Mike says, *"What's clear to me is that this is a depopulation weapons system. The Globalists realize that in order for them to depopulate the planet, they didn't need to run Zyklon B ovens or chambers, they didn't need to shoot everybody with kinetic weapons, they didn't need to do any of that."*

"All they needed to do was release a biological weapon and scare everybody into taking shots and the shots kill you over time. And they've given 12 billion doses now on the planet, which is 1.5 doses for every person on the planet. They've given, like 600 million doses in the United States, which is almost 2 doses for every American – not every person has taken a dose, obviously – some people have taken multiple doses."

"My concern is the ticking time bombs of clot death and that they're going to die over the next ten years and I don't know any way to stop the growth of these clots...we know that the anti-clotting pharmaceuticals do not, because I've interviewed physicians who have been in the emergency centers, they've tried to treat these clots with the normal drugs, like Heparin – it does nothing."

Mike believes that even if we stop vaxxinating right now, we will see tens of millions of deaths from the Death Shot.

It would be great if someone besides him would be willing to investigate these clots. His ICP-MS system does not detect things at a molecular scale, e.g., the mRNA molecules and the proteins present in the vaxx and in the clots. He says,

"We need a protein analysis that can handle the very large molecules of proteins. They're very high daltons, in terms of their total mass."

"We've done some analysis on this in the past, with some [time-of-flight mass-spec](#) instrumentation and there's special software you have to use and it's called [deconvolution software](#) that can reassemble the predicted structure of the proteins, because frankly, the large proteins can't survive the [liquid chromatography-mass spectrometry](#)."

"There's this statistical analysis software that tries to take a guess at what it was. If there's somebody out there who can do that, I probably will get to it, eventually. It might take us 6 more months to do that. Somebody else could do it right now, if they had the balls just to do it and release the results but my guess is nobody's gonna do it..."

"I strongly suspect that there is a phytochemical of a phytonutrient from the plant world that will halt the growth of these clots...For example, we know that [sulforaphane](#) from broccoli and broccoli sprouts halts the angiogenesis from cancer tumors. That's the process by which cancer tumors build blood vessels to rob supply of your blood in order to grow their own tumor size."

"So an anti-angiogenesis molecule would be a candidate for this but we need, frankly, in order to run those kinds of tests, you would need many millions of dollars in funding and a willingness of some institution, some university to look at the clots and run the tests and see what stops the clots and they're not gonna do that, because they're all in with the scam of mass genocide."

"We're living under a system of scientific genocide of the human race. They don't want to stop the deaths. Simple as that."

Mike says he'd like for Richard Hirshman to get him a sample of an artery with the clot attached so they could study how it attaches to the walls.

Dr. Ruby then brings on Clay Clark, who talks about [Executive Order 14067](#), Section 4., which he says mandates that by December 13, 2022, you will need to be vaxxinated in order to transact in the U.S. Central Bank Digital Currency (CBDC).

[More information on the EO #14067 can be found in Pastor Bob's "Blessed Hope Series #118, #119, and #120. Links below:
[The Blessed Hope, Part 120](#)
[The Blessed Hope, Part 119](#)
[The Blessed Hope, Part 118](#)]

I could not find reference to this but I did see that Subsection vii. seeks to study, "the connections between distributed ledger technology and short-,

medium-, and long-term economic and energy transitions; the potential for these technologies to impede or advance efforts to tackle climate change at home and abroad; and the impacts these technologies have on the environment."

Section 4. Subsection vii. also seeks a report on how blockchain could be used to monitor and "mitigate" [cut-off] energy use and incorporate a system of carbon credits and liabilities into the energy grid.

Then she has Clay talk about "xeno bots". He tells us to go to TimeToFreeAmerica.com/Revelation where we can learn more about Harvard professor Charles Lieber, who was paid \$50,000 per month illegally by the Chinese Communist Party to create nano-technology that allows human cells to send and receive signals via 5G, once this technology is injected into your body.

Clay believes the weird clots are related to this technology, saying, "COVID-19 stands for Certificate of Vaccination ID AI..." The goal of Klaus Schwab, Yuval Noah Harari and their ilk – China – is to put RNA modifying nanotechnology inside of everybody – that is self-replicating nanotechnology that has the ability to track where you go, make it impossible for you to buy or sell without it, and to actually control your thoughts to a certain level and if you don't believe me, go to TimeToFreeAmerica.com/Revelation and you scroll down to the bottom on December 23rd of 2021, "FoxNews reported that China is using gene-editing technology CRISPR technology to control the thoughts of their subjects."

MESSAGE TO THE UNVACCINATED

[Note: there are no dead nor live attenuated virions in these COVID "vaccines"; thus, they are not vaccines proper, but, rather, slow kill bioweapons.]

2nd Smartest Guy in the World

MESSAGE TO THE UNVACCINATED:

"Even if I were pollinated and fully vaccinated, I would admire the unvaccinated for withstanding the greatest pressure I have ever seen, even from partners, parents, children, friends, colleagues and doctors.

People who were capable of such personality, courage and critical ability are undoubtedly the best of humanity. They are everywhere, in all ages, levels of education, states and ideas. They are of a special kind; they are the soldiers that every army of light wants to have in its ranks. They are the parents that every child wants to have and the children that every parent dreams of having. They are beings above the average of their societies, they are the essence of the people who have built all cultures and conquered horizons. They are there, next to you, they look normal, but they are superheroes.

They did what others could not, they were the tree that withstood the hurricane of insults, discrimination and social exclusion. And they did it because they thought they were alone, and believed they were the only ones.

Banned from their families' tables at Christmas, they never saw anything so cruel. They lost their jobs, let their careers sink, had no more money ... but they didn't care. They suffered immeasurable discrimination, denunciation, betrayal and humiliation ... but they kept going.

Never before in humanity has there been such a "casting", now we know who are the best on planet Earth. Women, men, old, young, rich, poor, of all races or religions, the unvaccinated, the chosen of the invisible ark, the only ones who managed to resist when everything collapsed.

That's you, you passed an unimaginable test that many of the toughest Marines, Commandos, Green Berets, astronauts and geniuses could not withstand.

You are made of the stuff of the greatest who ever lived, those heroes born among ordinary men who glow in the dark."

Dr. Rochelle Walensky Busted in Massive Conflict-of-Interest Scandal
[August 22, 2022](#) [This article was posted by TLB Staff Analysis](#)

Dr. Rochelle Walensky Busted in Massive Conflict-of-Interest Scandal
Becker News

In an eye-opening [exclusive](#) published at RedState, a publication where I have [previously contributed](#), Scott Hounsell has a pretty explosive tidbit about current CDC Director Rochelle Walensky worth reading in full. It adds an outstanding glimpse into the seedy world of biomedical cash-grabbing schemes

that have become commonplace at America's once-prestigious 'public health' agencies.

Hounsell is uniquely qualified to lay out the issues involved with CDC Director Walensky's glaring conflict-of-interest concerning her husband, a pediatric oncology researcher, given his background in grant writing. What he has found, thanks in part to a tip from radio host Howie Carr, is disturbing.

New information provided exclusively to RedState by syndicated radio talk show host [Howie Carr](#) shows that Centers for Disease Control (CDC) Director Dr. Rochelle Walensky is finding multiple ways to benefit from her new position. Walensky, who took over as director with Biden's inauguration, is married to Loren D. Walensky, a renowned pediatric oncology researcher at the Dana-Farber Cancer Institute at Harvard. In October 2019 Loren Walensky became the [scientific co-founder](#) and a [member of the Board of Directors](#) of Lytica Therapeutics, "an early-stage biotechnology company working on an innovative platform for developing next-generation antimicrobials." ([LabCentral](#))

Just four months later, Walensky's Lytica [received a \\$16.9 million dollar HHS grant](#) to "develop antibacterial peptides with broad activity against multidrug-resistant bacteria." Only \$5.3 million of that money was initially disbursed to Lytica, and the remaining \$11.6 million is scheduled to be disbursed upon the achievement of "certain development milestones." I have previously worked in the world of grant writing and can tell you most agencies will not give grants to organizations that have existed for less than a year and organizations that have no other stream of funding. In this particular case [Crunchbase](#), which monitors funding for corporations and non-profits, shows that the only funding that Lytica has received to date is the \$5.3 million allocated from the grant received.

Again, the only funding this new company has received to date – nearly two years after its founding – is the \$5.3 million allocated from the HHS grant.

The RedState piece notes that the grant was "funded and organized by the Assistant Secretary for Preparedness and Response (ASPR) with the U.S. Department of Health and Human Services, which oversees and administers the Biomedical Advanced and Development Authority (BARDA) program, which is similar to the PREDICT program at the center of Wuhan Institute of Virology gain-of-function research controversy. The Lytica Therapeutics grant was provided through BARDA's CARB-X program." According to [the website](#):

BARDA plays a critical role in the federal government's [National Action Plan for Combatting Antibiotic-Resistant Bacteria \(CARB\), 2020-2025](#). Because making new antibiotics is difficult, expensive, and low profit for innovative companies, BARDA supports the world's largest antibacterial portfolio through public-private partnerships. These partnerships incentivize companies to focus on antibiotic

development by providing non-dilutive funding to offset high research and development (R&D) costs and technical assistance to reduce R&D risk.

Projects funded by CARB-X, [the group states](#), “are in the early stages of research, and there is always a high risk of failure,” the author notes, thus drawing more suspicion over the ready disbursement.

As Scott Hounsell points out, Walensky received the grant before his wife became the CDC director, but she had a long history with Health and Human Services, including having been the chair of the Office of Aids Research Advisory Council, where she associated with Dr. Anthony Fauci. While some “insiders” were a bit surprised that Dr. Rochelle Walensky was appointed to CDC director, it should come as no surprise that [Fauci was largely behind it](#):

Biden's transition team conducted a wide search for a new CDC director, and Walensky's name was mentioned by several people, according to an official familiar with the process. For some, she was a surprise choice. Yet among those recommending her was Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, who is serving as a medical adviser to Biden.

“One of the key people we talked to was Dr. Fauci, and Dr. Fauci really believed that Dr. Walensky was the right person to lead the CDC, so that was obviously an important recommendation,” [Biden transition co-chair Jeff] Zients said. “In Dr. Walensky, we were able to find someone with the experience and the background to lead the CDC and that turnaround.”

The story notes that: “Two top NIAID officials, one of whom worked closely with Director Walensky in the HIV/AIDS research arena, serve on [CARB-X's Joint Oversight Committee](#), which selects which applicants will receive grants through a competitive process.”

Walensky's grant cannot be found in her [financial disclosures](#) from January 2021. Dr. Walensky only lists her husband's stake in Lytica Therapeutics as a “spousal holding,” but doesn't indicate that he is the “co-founder” of the company and his invention would benefit from the CARB-X grant.

There is a further conflict of interest in that Walensky was being appointed to a leadership position in an agency that would have significant influence on the decision about whether or not to award the additional \$11.6 million.

Dr. Rochelle Walensky's apparent conflict of interest is indicative of the rampant backroom side deals that have become prevalent in public health institutions and have transformed them into little more than sales departments for Big Pharma.

Dr. Walensky, at a minimum, needs to be intensively and critically questioned about this alleged conflict-of-interest, preferably in public at her next

Congressional hearing. The stipulation being that her testimony is given under oath, and there are actual consequences for any further substantiation of unethical behavior.

NATURE journal reveals how Graphene can be used to assemble Radio Frequency Electronics in Biological Systems

Sunday, August 21, 2022 by: Ethan Huff

(Natural News) Groundbreaking information has come to light about the role of graphene, which many believe is contained in or produced by Wuhan coronavirus (Covid-19) “vaccines,” in radio frequency electronics.

A paper published in the journal Nature Communications back in 2014 — entitled, *“Graphene radio frequency receiver integrated circuit”* — explains how graphene has *“superior electrical properties”* and has strong potential as *“a future channel material in radio frequency electronics.”*

“Fabrication of a graphene integrated circuit without significantly degrading transistor performance has proven to be challenging, posing one of the major bottlenecks to compete with existing technologies,” the study’s abstract reads.

“Here we present a fabrication method fully preserving graphene transistor quality, demonstrated with the implementation of a high-performance three-stage graphene integrated circuit.”

That fabrication method, we now know, involves the use of nearly nanoscale-sized circuit components that are assembled for the purpose of radio signal amplification, filtering, and down-conversion mixing.

As the study explains, graphene was successfully used in experiments to *“perform practical wireless communication functions, receiving and restoring digital text transmitted on a 4.3-GHz carrier signal.”*

Covid jabs clots aren’t made from blood – they appear more like a self-assembled matrix of conductive structures.

How does this relate to Fauci Flu shots, you might be asking? Firstly, there has been much credible speculation as to the true contents of the shot vials, with some evidence out there that suggests they contain graphene.

The Health Ranger also made an incredible discovery recently about covid jab-related clots that are not, in fact, blood clots as many previously believed.

These non-blood clots, the Health Ranger further found using mass spec laboratory analysis, contain high concentrations of electrically conductive elements such as sodium (Na), aluminum (Al), and tin (Sn). The clots themselves

also appear to draw or harvest metal elements from the circulating blood supply to build and expand their structure and size.

“It is noteworthy that many of these elements are conductive. Aluminum, for example, is the most common alternative to copper for use in electrical wiring,” the Health Ranger writes. “Sodium is an alkali metal that is highly conductive, and tin is used as the primary component in solder alloys used to manufacture or repair circuit boards.”

The 2014 study mentioned earlier discusses how graphene is used to create tiny circuit boards of microscopic size that enhance the conductivity and use of other metals. Could it be that Fauci Flu shots are self-assembling tiny circuit boards from metals siphoned from the blood, resulting in clots?

“The clot is almost entirely lacking key marker elements that would be present in human blood (such as iron and potassium) yet shows significantly higher concentrations of elements that are used in electronics and circuitry,” the Health Ranger writes.

Be sure to watch the following episode of Health Ranger Report at Brighteon.com to hear more from the Health Ranger about this incredible discovery and its implications:

What is the true purpose behind these self-assembling clots?

It does not appear that these clots are “living” in the same way as, say, hair or fingernails. They appear to be “dead” biostructures that self-assembled to the point of killing their host – though it could be that they were living before their victims died.

“Prions, for example, are self-assembling but non-living biostructures too,” the Health Ranger further explains. “They are essentially mis-folded proteins that spread throughout the brain (or other regions), causing morphological alterations that nullify both the normal structure and function of neurological cells.”

“Something does not have to be alive in order to be self-assembling. Even viruses, as described by traditional virology, are dead structures which are nevertheless self-assembling and can ‘grow’ in size and mass in terms of their aggregate population.”

This is more than likely just the tip of the iceberg in terms of what these clots actually are, and what their true purpose is. Why are covid injections causing people’s bodies to build these suffocating masses that grow in size to the point of killing their hosts? Is the only goal just to depopulate, or is there more to it than that?

Since the Health Ranger also discovered strange fibers in the masses, one of our readers was reminded about Morgellons disease, which is demarcated by tiny fiber parasites that emerge from the skin following exposure to certain toxins.

“Would be interesting to see an experiment conducted where elements found, not so much in quantity but more in ratio to each other, where Na, Al, Sn, are subjected to 5GHz spectrum shifts,” added another about how he would like to see the elements in these clots exposed to 5Ghz radio waves, which are different than the 4.3Ghz radio waves looked at in the 2014 study about graphene.

“Of particular interest, 26GHz to 30GHz (blood plasma affected), and 60GHz (oxygen atom gets severely affected). Distances of [less than] 1M (Bluetooth level mV, cell ph. usage), 10, 30, 100 metres. If you find these external influences triggering the coagulation of these and other elements already present in humans, we may have hit the jackpot. It is too much of a coincidence the concentration of ‘vaccine’ deaths to, not just 5G zones, but areas of high wi-fi and microwave exposure.”

Others speculated about the possible presence of calcium inside these non-blood clots, hoping that the Health Ranger will divulge whether or not that substance is found in them or not.

“I’d also read up on the nano graphene-based tissue scaffolding technologies,” added another, hearkening back to the findings of the 2014 graphene study.

## **CDC HIDES COVID VACCINE DEATHS BY FUDGING NUMBERS, PATHOLOGISTS MAKE DIRECT CAUSAL LINK**

AUGUST 23, 2022

Apparently seeking to blunt autopsy studies by pathologists who say they are seeing never-before-seen phenomena in cadavers who died unexpectedly soon after COVID vaccination, a [study](#) by scientists affiliated with Kaiser Permanente, in contrast, concludes that vaccinated persons have lower, non-COVID, all-cause death rates than unvaccinated persons.

The CDC's VAERS [Vaccine Adverse Events Reporting System](#) now has seven times the reported deaths possibly caused by the COVID vaccines as for all other vaccines combined since the system was implemented 30 years ago. [COVID vaccine injury claims](#) have recently skyrocketed to 5,400.

The Kaiser study would seem to throw cold water on the idea that the vaccines are killing people. But the study employs a critical deception. Rather than count from the time that the shot begins to have effects on the body, which would be immediately, a person who is negatively impacted is not counted as being vaccinated until 14 days after the second shot in the case of Pfizer and Moderna, or 14 days after the J&J single shot. This is particularly deceptive because [80% of VAERS reports of unexpected deaths](#) post-vaccine occur within 14 days after taking a shot.

A [CDC advisory on breakthrough COVID infections](#), which means infections in vaccinated people, shows that a person is considered "vaccinated" only after 14 days have passed since the final shot:

*"a vaccine breakthrough infection is defined as the detection of SARS-CoV-2 RNA or antigen in a respiratory specimen collected from a person  $\geq 14$  days after receipt of all recommended doses of an FDA-authorized COVID-19 vaccine."*

[Children's Health Defense reports](#) that one-third of unexpected deaths after vaccination takes place within 48 hours, after receiving a shot.

[Below chart source](#)

This means that anyone who took a COVID vaccine shot, walks out, and falls over dead in the parking lot of a heart attack or stroke is counted as a death of an “unvaccinated” person.

**World-Class Pathologists Report Bizarre Attacks on Organs by the Body’s Own Immune System**

***Dr. Arne Burkhardt***

***Dr. Walter Lang***

In a German [pathology conference series](#) which began in 2021, Doctors Arne Burkhardt and Walter Lang reported never-before-seen immune system attacks on the body's own organs.

[Dr. Arne Burkhardt has taught](#) at the Universities of Hamburg, Berne and Tübingen. He has published more than 150 scientific articles in German and international scientific journals, and has audited and certified institutes of pathology in Germany.

[Prof. Dr. Walter Lang](#) was a pathologist at the Hannover Medical School from 1968-1985. Afterwards, for 25 years, Lang directed a private institute for pathology, which he founded, specializing in transplant pathology, extragynecological cytology, thyroid tumors, and lung/pleural pathology.

The webpage for the [2nd Pathology Conference](#) on Dec. 4, 2021 in Berlin, Germany, [said of Dr. Burkhardt's findings](#):

*"The findings confirm Prof. Dr. Peter Schirmacher's finding that among more than 40 corpses he autopsied who had died within two weeks of COVID19 vaccination, approximately one-third of those deaths were caused by the vaccination."*

[The Epoch Times](#) reported on September 22, 2021 (click on Google translate from German to English):

*"The doctors suspect autoimmune phenomena, reduction in immune capacity, acceleration of cancer growth, vascular damage "endothelitis", vasculitis, perivascularitis and erythrocyte "clumping" as further corona vaccination side effects with potential fatal consequences...Burkhardt described it as "extreme" that among the ten deceased examined, three very rare autoimmune diseases were found, namely Sjögren's syndrome, leukoclastic vasculitis of the skin and Hashimoto's disease."*

[The Epoch Times](#) wrote:

*"[Burkhardt] can only think of one term for what [he] has been investigating with his colleagues over the past few months – "lymphocyte amok", potentially in all tissues and all organs."*

In it's [official statement](#) on the autopsy findings, Doctors for COVID Ethics, a co-sponsor of the symposium, writes:

*"A natural infection with SARS-CoV-2 (coronavirus) will in most individuals remain localized to the respiratory tract. In contrast, the vaccines cause cells deep inside our body to express the viral spike protein, which they were never meant to do by nature. Any cell which expresses this foreign antigen will come under attack by the immune system, which will involve both IgG antibodies and cytotoxic T-lymphocytes. This may occur in any organ. We are seeing now that the heart is affected in many young people, leading to myocarditis or even sudden cardiac arrest and death...."*

[Doctors for COVID Ethics](#) concludes:

We herewith present scientific evidence that calls for an immediate stop of the use of gene-based COVID-19 vaccines. We first lay out why the agents cannot protect against viral infection. While no positive effects can be expected, we show that the vaccines can trigger self-destructive processes that lead to debilitating illness and death....

Recent insurance company data for the U.S. and other countries shows an [unprecedented rise in all-cause mortality](#) since the roll-out of the COVID vaccines, as much as 40%. This would put the U.S. on track for 1.4 million more deaths of all causes than usual by the end of 2022. Normally about 3 million people die in the U.S. every year.

### **Too Little Too Late: WSJ Tries to Save Face on Failed COVID Policies** [By Madhava Setty, M.D. | The Defender | August 23, 2022](#)

The 'Wall Street Journal' last week published an [opinion piece](#), "Fauci and Walensky Double Down on Failed Covid Response," with this subhead: *"Lockdowns were oppressive and deadly. But U.S. and WHO officials plan worse for the next pandemic."*

The article begins:

*"The Centers for Disease Control and Prevention [CDC] belatedly admitted failure this week. 'For 75 years, CDC and public health have been preparing for [Covid-19](#), and in our big moment, our performance did not reliably meet expectations,' Director Rochelle Walensky said. She vowed to establish an 'action-oriented culture.'"*

Yes, you read that correctly. [Dr. Anthony Fauci](#) and Walensky admitted they failed. They learned their lesson.

As John Tierney, author of the op-ed, wrote:

*"Lockdowns and [mask mandates](#) were the most radical experiment in the history of public health, but Dr. Walensky isn't alone in thinking they failed because they didn't go far enough. Anthony Fauci, chief medical adviser to the president, recently said there should have been 'much, much more stringent restrictions' early in the pandemic."*

*"They believe that they didn't go far enough? There should have been "much, much more stringent restrictions?"*

That's what they learned from the [destruction](#) their public health policies wreaked upon this nation and the others that followed their lead?

To his credit, Tierney pointed out the absurdity of Walensky's and Fauci's stance on their own incompetence.

Tierney also dropped a series of "truth bombs," including:

- "Their oppressive measures were taken against the longstanding advice of public-health experts, who warned that they would lead to catastrophe and were proved right."
- "For all the talk from officials like Dr. Fauci about following 'the science,' these leaders ignored decades of research — as well as fresh data from the pandemic — when they set strict Covid regulations."
- "The burden of proof was on them to justify their dangerous experiment, yet they failed to conduct rigorous analyses, preferring to tout badly flawed studies while refusing to confront obvious evidence of the policies' failure."
- "U.S. states with more-restrictive policies [fared no better](#), on average, than states with less-restrictive policies."
- "When case rates throughout the pandemic are plotted on a graph, [the trajectory](#) in states with mask mandates is virtually identical to the trajectory in states without mandates. (The states without mandates actually had slightly fewer COVID deaths per capita.)"
- A Johns Hopkins University [meta-analysis of studies](#) around the world concluded that lockdown and mask restrictions have had "little to no effect on COVID-19 mortality."
- [Florida's](#) and [Sweden's](#) open policies have been vindicated based upon their lower levels of excess mortality compared to other regions.
- "It was bad enough that Fauci, the CDC and the World Health Organization ignored the best scientific advice at the start of this pandemic. It's sociopathic for them to promote a worse catastrophe for future outbreaks."

I take no issue with Tierney's list. The problem here is with the '*Wall Street Journal*'.

Every single point this opinion piece offered could — and should — have been made months or years ago.

There was longstanding advice from public health experts that predicted Fauci and Walensky's failures? Why didn't you say so in 2020?

Fauci and Walensky ignored decades of research? They touted flawed studies while ignoring the obvious failures unfolding in front of them, month after month? The successes of Sweden and Florida were apparent in 2020.

Where were the articles in your publication that could have brought light to these issues over the last two years?

The Johns Hopkins University analysis on mask restrictions was published nearly nine months ago. Why didn't you cover it?

Why did it take so long to run this kind of piece when the evidence was around for so long?

Do you really expect us to look the other way because you now have the temerity to call Anthony Fauci sociopathic?

You had ample opportunity to give voice to the dissenters who were pleading for a voice, a conversation and a debate based on the very same evidence you are mentioning now.

You failed your readership. You failed the public.

The CDC's policies were so devastating because you did not challenge them. Not once.

As a media platform, you were no less negligent than the public health officials you see fit to denigrate now — after untold damage has occurred, at their hands and yours.

Perhaps you've caused your loyal readers to finally scratch their heads and reconsider their perspective after 28 months of mercilessly attacking those of us who were asking you and other mainstream platforms to do your job.

Why are you holding Fauci and Walensky [accountable](#) now? Is it because they are finally admitting they blew it?

They are not the only galactically incompetent parties in this global tragedy. You are, too. And we all know it.

Interestingly, your scathing attack on our public health agencies still hasn't gone nearly far enough.

One of their biggest "blunders" was not around lockdown measures. It was the [dismissal](#) of powerful, early treatment regimens, including [ivermectin](#), that could have [saved thousands](#) of lives or more.

Instead, the public was forced to wait for a largely [ineffective](#) and [harmful](#) vaccine that has since exacted an incalculable level of damage on humanity.

Nevertheless, more than a year after [Dr. Pierre Kory](#) gave impassioned [congressional testimony](#) demanding that an official expert panel be convened to examine the mountains of evidence coming from all corners of the globe demonstrating the significant benefits of ivermectin in treating and

preventing COVID-19, you had the audacity to print this [hit piece](#) on the safe and effective medicine that would have obviated the need to inject [poorly tested](#) mRNA technology into the bodies of several billion human beings.

Beyond being irresponsible, the article was silly, citing a single, small and yet-to-be-published study (at the time) that purportedly showed no benefit as proof that ivermectin cannot prevent COVID-19 hospitalizations.

The study underdosed the participants and was too small to detect statistically significant benefits, despite reduced incidence of hospitalization in most cohorts that got the medicine. (Read a full critique of the study [here](#)).

The study didn't prove anything — other than that it was designed to fail from its inception.

Talk about touting a “*badly flawed*” study.

More importantly, your article on the study missed the real story: the scuttling of ivermectin by an unseen hand that was, it seems, in the pockets of the Bill & Melinda Gates Foundation through [Unitaid](#), a quasi-governmental advocacy organization the foundation funds (full story [here](#)).

Have your editors lost their sense of smell from repeated bouts of COVID-19? Or were you never able to sniff out where the real stories are?

It's fairly obvious that despite this attempt to reclaim your journalistic integrity you are still muzzled. Any story that even intimates that the [highly profitable](#) COVID-19 vaccine was not only unnecessary but also a stark failure, is still off-limits.

Your silence on this continues to deafen us.

**The mass culling of the HUMAN HERD is now under way... here's exactly how it's being accomplished to achieve mass extermination**

Monday, August 22, 2022 by: Mike Adams

([Natural News](#)) Globalists see humanity as cattle (or sheeple) to be exploited for as long as needed, then culled like cattle herds when they are no longer useful. As globalist advisor Yuval Harari is now saying (paraphrased), the age of humans is coming to an end on planet Earth, and globalists have activated a multi-faceted plan to “cleanse” the planet of all human beings.

If someone were to have some sick, twisted desire to kill off a herd of cattle, they could simply shut off the water and the food. Death would come in a matter of days or weeks at most. The same is happening right now to humans.

The water supply is being cut off via geoengineering, causing global droughts and widespread crop failures. Entire cities like Los Angeles and Los Vegas are being threatened with a terminated water supply in the years ahead.

The food supply is being decimated by cutting off fertilizer supplies and causing diesel fuel prices to go sky high while also attacking the supply chain that supplies agricultural equipment parts.

The result? Both the water supplies and food supplies are being cut off. The human herd is being culled in some of the same ways a herd of cattle might be eliminated.

**Vaccines are designed to kill the gullible billions, and starvation will get the rest.**

Vaccines represent another kill vector for global depopulation. Because vaccines are voluntary, they are intended to easily kill off the gullible masses who are so ill-informed that they actually believe Big Government and Big Pharma wants to save their lives. In reality, of course, the vaccines are biological weapons designed for infertility and depopulation. A huge percentage — we don't yet know the final number — of those who have already taken the vaccines will die from self-assembling clots that we now know contain high concentrations of conductive elements such as Aluminum, Tin and Sodium.

Those who resist the vaccines are harder to kill because they don't line up and beg for death injections like the vaccine zealots do. Globalists intend to starve them to death with global food scarcity.

Right now, we already know there isn't enough food in the pipeline to feed the world throughout 2023. It simply isn't getting planted and harvested in sufficient quantities to feed 8 billion people.

Continued government attacks on the food supply — such as The Netherlands ordering ranchers to cull their herds — are designed to worsen food scarcity and accelerate mass starvation.

Relatively few people are getting prepared with backup food supplies. When the shelves are empty, they will panic.

Globalists know a massive civilian uprising is just months away.

In today's Situation Update podcast (below), I explain that the globalist vaccine depopulation scheme has failed to kill off billions of people in the short amount of time that was intended. With food scarcity, energy scarcity and water scarcity now reaching critical levels, mass uprisings are mere months away. Western Europe, in particular, is going to see civilian revolts this coming winter as millions find themselves freezing and starving.

The globalists know that worldwide food scarcity is already baked in. They also know the mass uprisings will commence as starvation and scarcity worsen. Thus, there is a countdown timeline in play that cannot be rescheduled.

As a result, they are in a huge hurry to kill off billions of human beings before the uprisings get out of hand and snowball beyond the ability of these governments to contain.

This is the real purpose behind the recruiting and arming of 87,000 new IRS agents who are being told they will need to use “deadly force” against the American people. In France, the Ministry of the Interior is hiring thousands of “green police” who will join armed brigades to supposedly prosecute “environmental crimes.” Yet the real purpose of all these armed government agencies in the USA, France, UK, Germany, Canada, Australia, etc. is to carry out mass executions of civilians as the government’s war on humanity kicks into high gear.

The purpose of having a rogue FBI, armed IRS agents (armed with a massive new cache of ammunition and firearms), armed ATF agents, etc., is to have a private army that answers to the executive branch of government and that doesn’t fall under the jurisdiction of the US military, which cannot legally wage war on US soil. Federal agencies, however, can and will wage war against the American people. They are already doing it, with ATF agents now going door to door, demanding civilians surrender gun parts they legally purchased, for example. It’s going to be up to state governors to defend their residents against these federal tyrants, and that will spark regional warfare with states literally going to war with rogue federal agencies run by the illegitimate fake “resident in chief” Joe Biden.

Democrats, media and government are preparing to call for mass executions of all Christians and conservatives.

Even right now, democrats, government and the media are claiming that all conservatives are terrorists, implying they all deserve to be exterminated. As Everett Piper writes in the Washington Times:

*This past Tuesday, Democrat adviser Kurt Bardella called all Republicans a “domestic terrorist cell.” MSNBC’s Tiffany Cross agreed and said there should be no distinction between Republicans and “right-wing extremists.” At the same time, Peter Wehner, a contributing writer for The Atlantic, likened the Republican Party to a “dagger pointed at the throat of American democracy.” All this while the FBI Director Christopher Wray added that any American flying the Gadsden — “Don’t Tread On Me” — flag is suspect of violent extremism.*

*Does it concern you that a group of Democrats holding power is now defining all Republicans as being “right-wing extremists” and a “threat to American democracy?”*

Democrats, government and the media are gearing up to try to morally justify their “*purge*” of all conservatives, Christians, gun owners, pro-lifers and Trump supporters.

Remember, these Democrats are the same people who mutilate the genitalia of their own children in the name of transgenderism. If they will mutilate their children, what do you think they will do to their perceived political enemies? ...Especially if they can convince themselves that their enemies represent a “*threat to democracy*.”

To the skeptics who say ignorant things like, “*The IRS is going to use those guns and ammo on the American people*,” we ask: *Who else would they be planning to use it on?* Of course it’s intended to use on Americans! Anyone who hasn’t yet come to realize that simple fact is probably not going to survive the next year in America.

Other vectors of depopulation being accelerated.

If you’re wondering what can kill billions of people faster than mass starvation and crop failures, think grid down scenarios. Any western government can sabotage their own domestic power grid and blame the Russians for “*cyber attacks*.” When the power grid is down, the financial system grinds to a halt. Chaos ensues. Mass looting and violence in the streets. Cops bug out. Civilians who are left behind get murdered, robbed and raped. This will happen in nearly every blue city in America.

Within just a few months of a grid down scenario, up to 90% of the population is dead from violence, starvation, exposure or disease. Understand that heating and air conditioning will not function. Municipal water systems won’t work, meaning there will be no tap water. Cell towers will not function. If you need to charge an electronic device, you’ll need solar panels and a solar generator. If you want to enjoy communications, you’ll need a satellite phone or satellite text messaging device. If you want to eat, you’ll need stored food. If you don’t want to die from dehydration, you’ll need a water filter and a water source that you can safely and frequently access. You’ll also need lots of containers for storing and transporting water, because you’ll need far more water than you think. (Figure 10 gallons per person per day as an absolute minimum.)

Understand that the globalists have only just begun to deploy their weapons against humanity. There’s much more they can unleash as needed, and if they don’t get the kill rate they’re wanting, they will just crank up the chaos until a sufficient number of billions are dead.

Humanity is being culled like cattle. Those who don’t see it will be among the first to be exterminated by it. But those who prepare have a realistic chance of making

it through the genocide and participating in the rebuilding of human civilization on the other side.

Today's Situation Update podcast spells it out in even more detail:

[Brighteon.com/96aca7d1-e100-4cba-a240-be171634d959](https://www.brighteon.com/96aca7d1-e100-4cba-a240-be171634d959)

## **Pope Francis claims that getting vaccinated for covid is an “Act of Love”**

Monday, August 22, 2022 by: Ethan Huff

**([Natural News](#))** One powerful way to show love for “God” and your fellow man is to get “vaccinated” for the Wuhan coronavirus (Covid-19), [according to Pope Francis](#).

**New promotional advertising from the Roman Catholic Dicastery for Promoting Integral Human Development reiterates Pope Francis’ sacrilegious position that rolling up one’s sleeve for an abortion-tainted DNA modification injection is an “act of love” that is divinely inspired and ordained.**

With so-called “flu season” soon on the way for the Northern Hemisphere, Pope Francis is once again tying “God” into his push for mass jabbing this fall. The Vatican is currently on its third installment of *“The Pandemic and the*

*Magisterium of Pope Francis*” propaganda project, which aims to guilt more Catholics into getting shot.

This project, we are told, aims to “*explore the Pope’s teachings on the global health crisis, reaffirming that one does not come out of the crisis the same, but either better or worse.*” (Related: Pope Francis also [loves transgenderism](#) and openly promotes LGBT perversion.)

Reading between the lines, it becomes clear from that description that the *plandemic* was launched as a social catalyst to drive people either further into the matrix system of pharmaceutical slavery, or out of it completely. Those who rejected the lockdowns, masks and “*vaccines*” came out better, in this writer’s view, substantiating Revelation 18:3 which reads:

***“Come out of her, my people, that you be not partakers of her sins, and that you receive not of her plagues.”***

Remember when Southern Baptist leader Al Mohler told Christians to get jabbed for covid, claiming it was “part of our mandate” from “God?”

The entirety of Revelation 18 talks all about Mystery Babylon, which “*is become the habitation of devils,*” and its eventual fall. We are witnessing that fall in action right now, though many are unaware it is taking place – including many religious people who still believe their lying popes, pastors and leaders.

False prophets like Pope Francis continue to push people to get injected with the crown jewel of Mystery Babylon’s *pharmakeia* (pharmaceutical sorcery), also known as covid vaccines, claiming that getting injected is an “*act of love.*”

Another false prophet we warned you about previously is [Southern Baptist Theological Seminary](#) President Albert Mohler, who similarly [pushed Christians to get jabbed with Fauci Flu shots](#) because the shots are a “*successful*” example of mankind’s “*dominion*” over the earth, he claims.

Both Pope Francis and Al Mohler are spreading doctrines of demons while claiming to speak for God. Such blasphemy will not go unpunished, just to be clear, as divine justice awaits these two – and many more like them.

*“Being vaccinated with the vaccines authorized by the competent authorities is an act of love,”* Pope Francis is seen stating in the latest propaganda video from the Vatican, “*and contributing to ensure the majority of people are vaccinated is an act of love. Love for oneself, love for one’s family and friends, love for all people.*”

The “*poorest and most vulnerable*” should get shot first, Pope Francis further says, while the “*richest*” are moved to the back of the line.

***“It would be sad if this vaccine were to become the property of this nation or another, rather than universal and for all,” Pope Francis further believes about how Chinese Virus shots should be given to everyone for “free.”***

Anyone who suggests otherwise, he continued to explain in the video clip, is guilty of spreading ***“misinformation.”*** According to Pope Francis, covid injections are our collective salvation, and they are the key to ensuring that we are all ***“saved together.”***

***“We will get better if we get better together,”*** Pope Francis contends. More related news about Pope Francis and Al Mohler can be found at [Evil.news](#).

### **Scientists discover that all covid vaccines “without exception” contain mysterious metallic toxins**

Thursday, August 25, 2022 by: Ethan Huff

**(Natural News)** Independent researchers from Germany [have found](#) that Wuhan coronavirus (Covid-19) ***“vaccines”*** contain an array of hidden, toxic components – most of them metallic – that are not labeled as ingredients.

***“Without exception,”*** the group says, every sample tested from Pfizer, Moderna, Johnson & Johnson (J&J), and AstraZeneca contained the following metallic elements:

- Alkali metals: caesium (Cs), potassium (K)
- Alkaline earth metals: calcium (Ca), barium (Ba)
- Transition metals; cobalt (Co), iron (Fe), chromium (Cr), titanium (Ti)
- Rare earth metals: cerium (Ce), gadolinium (Gd)
- Mining group / metal: aluminum (Al)
- Carbon group: silicon (Si) (partly support material / slide)
- Oxygen group: sulphur (S)

Using modern medical and physical measuring techniques, the researchers determined that all of these metallic substances ***“are visible under the dark-field microscope as distinctive and complex structures of different sizes, can only partially be explained as a result of crystallization or decomposition processes, [and] cannot be explained as contamination from the manufacturing process.”***

These findings build upon the work of others who have made similar discoveries, one of them being the Health Ranger – be sure to check out [his report](#) showing that the clots created by Fauci Flu shots are *not* blood clots, but rather metallic clots.

Blood from fully vaccinated people shows ***“marked changes,”*** researchers find.

Dr. Janci Lindsay, PhD, a toxicologist who was not involved in the study but who has performed similar work, says there is, indeed, a pattern of discovery to suggest that covid injections are not what the government claims they are.

*“The number and consistency of the allegations of contamination alone, coupled with the eerie silence from global safety and regulatory bodies, is troublesome and perplexing in terms of ‘transparency’ and continued allegations by these bodies that the genetic vaccines are ‘safe,’”* Lindsay is quoted as saying.

Those involved with the Germany study, which is still preliminary, say they have submitted the findings to both government and media entities in the hope that someone will address it. So far, no one is willing.

Another thing the researchers discovered that is worthy of note pertains to the blood of the fully vaccinated, which they say showed *“marked changes.”* Adverse events associated with these changes were also found to be a factor of “the stability of the envelope of lipid nanoparticles,” these being the fat-soluble membranes carried as “cargo” by messenger RNA (mRNA).

*“Using a small sample of live blood analyses from both vaccinated and unvaccinated individuals, we have determined that artificial intelligence (AI) can distinguish with 100% reliability between the blood of the vaccinated and the unvaccinated,”* the study explains.

*“This indicates that the COVID-19 vaccines can effect long-term changes in the composition of the blood of the person vaccinated without that person being aware of these changes.”*

**At best, Chinese Virus shots are widely contaminated unintentionally. At worst – and this option seems more likely – the shots were designed to implant metallic substances inside people’s bodies that purposely self-assemble into deadly clots.**

*“We have established that the COVID-19 vaccines consistently contain, in addition to contaminants, substances the purpose of which we are unable to determine,”* the study further explains.

In the comment section, someone pointed out that vaccinated people with altered, metallic blood can no longer safely donate blood – which is something to keep in mind for those who need a transfusion.

*“As with all vaccines and all drugs, ‘the full quantitative composition’ of all Covid-19 ‘vaccines’ is a trade secret, protected from disclosure due to commercial sensitivities,”* pointed out another.

***“Pfizer’s own raw composition table, 3.2.P.1-1, released for my FOI request, suggests likely 6 redacted manufacturing ingredients.”***

## **GAME OVER: The Latest Society of Actuaries (SOA) Group Life COVID-19 Mortality Survey Report**

The below charts compiled by actuaries offer incontrovertible proof that all of the SADS, “inexplicable coincidences,” and soaring all-cause mortality have been caused by...

Table 5.5  
EXCESS MORTALITY BY AGE BAND

| Age              | Q2 2020 | Q3 2020 | Q4 2020 | Q1 2021 | Q2 2021 | Q3 2021 | 4/20-9/21 | % COVID | % Non-COVID | % Count |
|------------------|---------|---------|---------|---------|---------|---------|-----------|---------|-------------|---------|
| 0-44             | 124%    | 134%    | 123%    | 121%    | 130%    | 189%    | 137%      | 14.0%   | 22.9%       | 8%      |
| 45-64            | 119%    | 124%    | 130%    | 131%    | 118%    | 183%    | 134%      | 21.9%   | 12.2%       | 28%     |
| 65+              | 113%    | 109%    | 128%    | 119%    | 100%    | 113%    | 114%      | 13.0%   | 0.7%        | 64%     |
| All <sup>9</sup> | 116%    | 115%    | 128%    | 122%    | 107%    | 139%    | 121%      | 15.6%   | 5.7%        | 100%    |

Greater age band detail provides further insight on excess mortality by age, illustrating the recent spike in A/E ratios within the 25-64 age bands.

Table 5.6  
EXCESS MORTALITY BY DETAILED AGE BAND

| Age               | Q2 2020 | Q3 2020 | Q4 2020 | Q1 2021 | Q2 2021 | Q3 2021 | 4/20-9/21 | % COVID | % Non-COVID | % Count |
|-------------------|---------|---------|---------|---------|---------|---------|-----------|---------|-------------|---------|

| All <sup>10</sup> | 116%    | 115%    | 128%    | 122%    | 107%    | 139%    | 121%      | 15.6%   | 5.7%        | 100%    |

The global death rate for year of the “pandemic” 2020 was 0.76%. Global death rates for non-pandemic years 2018 and 2019 were...0.76%.

So how can Q3 2021 be explained away?

**What kind of mental gymnastics and statistics defying tricks can be conjured up to justify a mortality surge that is unprecedented even during an especially high casualty conventional wartime quarter?**

**Looking at Q2 2020 in America we see significant mortality rises which were due not to COVID as claimed by criminal authorities and the illegitimate government, but, rather, to the deliberate prevention of early treatments, deadly hospital protocols, ruinous lockdowns, MK Ultra mass formation psychosis masking, untreated medical conditions, profound societal-wide stress, drug overdoses, suicide and premeditated nursing home sinocide.**

**Also of note is that when the alleged COVID deaths in America reached 600,000 the Center for Disease Crimes (CDC0 put an asterisk on that number admitting that “COVID only” deaths as registered on actual death certificates represented a mere 5% of that figure, or around 30,000 deaths. That is essentially a flu season that since the rollout of PSYOP-19 had magically disappeared.**

**The report attempts to explain away DEATHVAX™ lots and geographic regions:**

**Comparing state-level excess mortality percentage estimates to estimated COVID-19 vaccinated percentages shows a moderate negative correlation for both the U.S. population and the Group Life data. Therefore, other variables in addition to COVID-19 vaccination rates are certainly relevant to explaining the excess mortality observed in the United States. The color-coded geographic regions in Figures 8.2 and 8.3 show noticeable clustering of excess mortality results regardless of vaccination percentage, especially in the U.S. CDC data.**

Figure 8.2<sup>24</sup>

U.S. POPULATION EXCESS MORTALITY BY STATEWIDE VACCINATION RATE, JULY THROUGH SEPTEMBER 2021

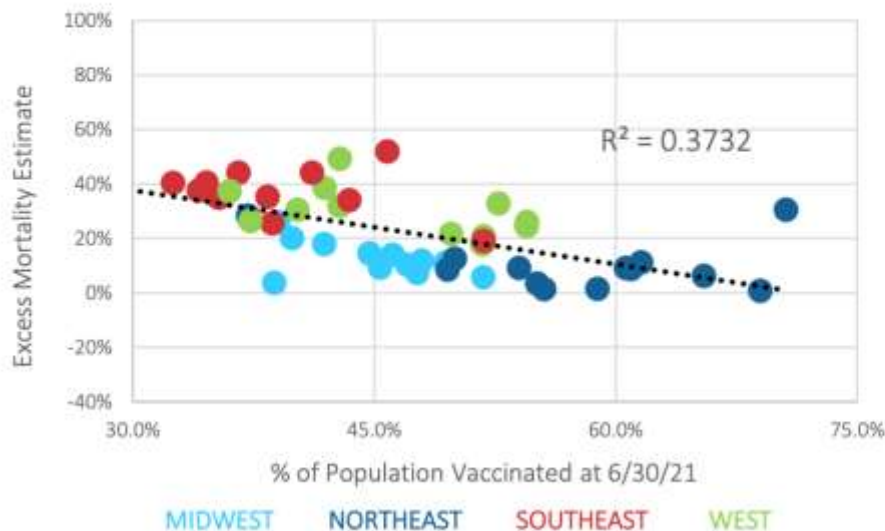

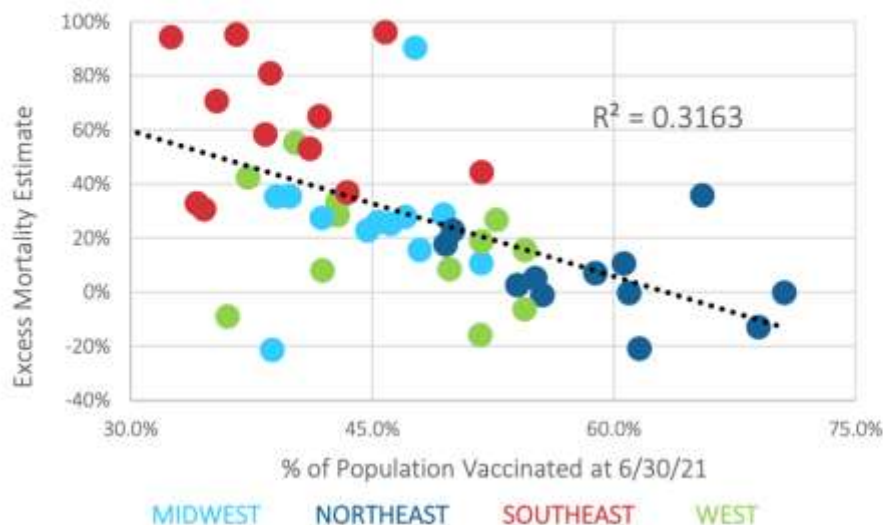

Figure 8.3<sup>25</sup>

GROUP LIFE EXCESS MORTALITY BY STATEWIDE VACCINATION RATE, JULY THROUGH SEPTEMBER 2021

Luckily, we have some context regarding, “a moderate negative correlation for both the U.S. population and the Group Life data” as well as socio-geo-economic data:

**Not All DEATHVAX™ Injections Are The Same: Tracking Batch Codes to Track Deaths & Adverse Reactions.**

There were recent rumblings that especially toxic batch lots were being delivered to Red States for obvious reasons. We may surmise that less lethal and even saline only batches were distributed in leftist cities, hence the disproportionate “case” numbers...

**COVID-Period Mass Vaccination Campaign and Public Health Disaster in the USA**  
From age/state-resolved all-cause mortality by time, age-resolved vaccine delivery by time, and socio-geo-economic data.

The COVID-19 vaccination campaign did not reduce all-cause mortality during the covid period. No deaths, within the resolution of all-cause mortality, can be said to have been averted due to vaccination in the USA. The mass vaccination campaign was not justified in terms of reducing excess all-cause mortality. The large excess mortality of ...

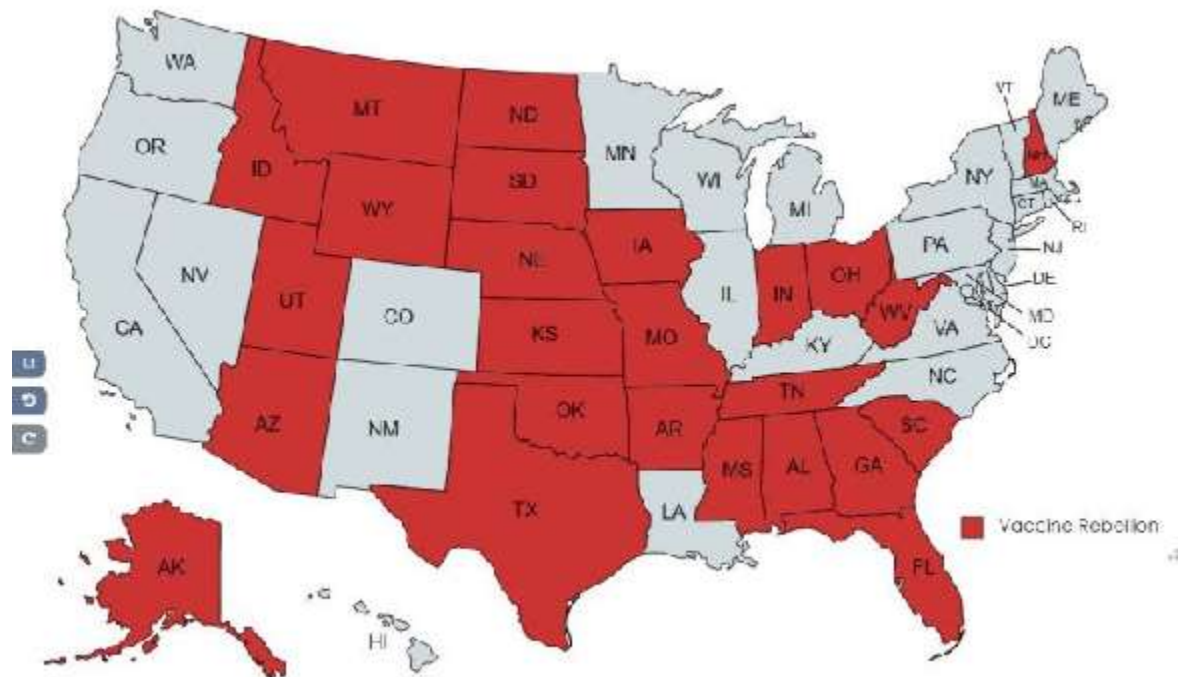

Now we await the actuaries on their Q4 2021 data. But perhaps the most important dataset is for this coming cold and flu season Q4 2022 which will serve as the ultimate test for the genetically modified humans and their VAIDS.

Expect far worse all-cause mortality, more at DEATHVAX™ mortality, as the weather becomes colder.

And since the planet has now entered a Grand Solar Minimum, the increasingly colder global temperatures may serve as the perfect PSYOP-CLIMATE-CHANGE excuse for rising “all-cause” mortality, or Ice Age-induced SADS (IASADS).

Thursday, August 25, 2022 by: Lance D Johnson

Thursday, August 25, 2022 by: Lance D Johnson

**(Natural News)** The Society of Actuaries Research Institute (SOA) gathered data on excess mortality during the covid-19 pandemic (April – December 2020) and during the emergency use covid vaccine rollout (January – September 2021). The report compared Group Term Life Insurance mortality results during 2020 and 2021 to baseline mortality results from a period prior to the pandemic (2017-2019). The data set includes over two million claims worth over \$93 billion in premiums. The excess mortality data provided shocking results. The first shocking result was that young and middle-aged individuals died in excess (208%) in the third quarter of 2021, after they were coerced to take the covid vaccines. The second shocking result was that red states (Republican-led states) saw extreme excess in mortality (196%) after the vaccine was rolled out in quarter three of 2021.

**Excess mortality spikes in young and middle-aged adults in third quarter of 2021**  
Excess mortality was observed in 2020, but the excess mortality was much greater in the second and third quarter of 2021, after the “lifesaving vaccines” were rolled out to the population. This is shocking data, considering that governments and corporate media outlets advertised covid-19 as the dominant cause of death during 2020 and that the vaccine would be the lifesaver in 2021. It turns out, the pandemic mortality statistics in 2020 hardly compared to the

excess mortality that showed up in young and middle-aged people in the third quarter of 2021.

In the third quarter of 2021, young adults ages 25-34 saw a 181% excess mortality rate. A year prior, this age group witnessed a smaller 135% excess mortality rate. Only 11.4% of the deaths were related to covid-19. Likewise, the 35-44 age group saw a 217% excess mortality rate in the third quarter of 2021. A year prior, it was 136%, and only 19.8% of the deaths were related to covid-19. The 45-54 age group also saw a sharp [increase in excess mortality](#) (208%) in the third quarter of 2021. A year prior, that same age group saw much smaller rates of excess mortality (127%).

### CHART ALSO FOUND ON PAGE 12

Republican-led states in the south see shocking excess mortality rates after covid vaccine rollout.

Even more shocking, the greatest excess in mortality was seen in Republican-led states during the third quarter of 2021. For the most part, these states rejected lockdowns, mandates and other forms of medical tyranny and vaccine coercion. Florida opposed the Democrats' vaccine passport, school closures and workplace mandates. Because these states did not follow along with the controls, were they ultimately targeted? The Biden regime rigorously studied and [mapped out "vaccine hesitancy" among communities and states](#). The government even marked the southern states as "public health threats" for not following along with the government's controls.

Were some covid vaccine lots more deadly and were they intentionally [shipped to red states on purpose](#)? In Florida, there was an excess mortality rate of 196% in the third quarter of 2021. After the vaccine rollout, there was an excess mortality rate of 195% in Georgia, 153% in Texas, and 170% increase in Tennessee. Only 15.5% of the excess was covid-19 related... so what was causing all the excess death in these red states?

In 2020, Florida, Texas, Georgia and Tennessee witnessed near-normal mortality rates (105%), and fared much better than blue lock down states like Michigan (129%), Illinois (114%) and New York (163%). By the third quarter of 2021, the excess mortality rate in these northern states stayed roughly the same, as very little improvements were made in hospital treatment programs. By then, Michigan's excess mortality was 128%; Illinois 125%; and New York 103%. In contrast, the free states in the south fared well during the initial lockdowns in 2020, but they became excess-death hot-spots in quarter three of 2021, after the vaccine was pushed onto the people.

### CHART ALSO FOUND ON PAGE 12

Were covid vaccine lots weaponized against political enemies?

During the covid vaccine clinical trials, researchers found out that a higher dose caused greater rates of sickness, hospitalization and death. In the Moderna trials, participants were injected with various dosages, 25 ug, 100 ug or 250 ug. As the volume increased, [the rate of adverse events increased](#).

[A study published in 2021](#) concluded that “all vials are not the same” and discovered the “potential role of vaccine quality in vaccine adverse reactions.” Moreover, adverse events data taken from the government’s pharmacovigilance systems shows that some Pfizer vaccine lots were more reactive and [caused 25 times more adverse events and hospitalizations](#) than other lots.

These covid vaccines are shipping from different manufacturing plants around the world and could have different compositions. Even the Department of Defense (DOD) [has not been forthcoming about the vaccine’s origin](#), label or manufacturing plant, as they illegally force-inject service members with EUA vaccines. To make matters worse, the DOD is purposely harming the most mentally tough members in the military, threatening them with discharge for not getting clot shot vaccines.

This brings up the obvious question: Were some covid vaccine lots purposely manufactured with a higher dose of the spike protein mRNA? Were these weaponized vaccine lots intentionally sent to red states to punish them for not following along with the forced narrative of lockdowns, mask mandates, test mandates, [vaccine passports and medical tyranny](#)? If the government has been hesitant to provide informed consent to the public in regards to an obviously flawed and dangerous product; if the government has already tried to destroy people’s careers and freedoms for not following the narrative; then how can they be trusted NOT to harm people intentionally with weaponized vaccine lots?

[The statistics are irrefutable, and whether you are measuring adverse reactions or death data, the data is what it is. Therefore, the inference is supported, but even more than that, it suggests of conspiracy between the pharmaceutical companies, the CDC, FDA, NIH, and the NIAID, at the national level. It is not a stretch of the imagination that this is a Genocidal Eugenics agenda. Now, if you doubt that is possible, then I refer the reader to my post of Thursday, 08/25/2022 - [What Might Be The Larger Connection Between Covid and The Nazi Final Solution?](#) This article contains a “track” record of government and corporate complicity in efforts to cull the population in the U.S. and elsewhere in the world! – Pastor Bob]

**Unusual Toxic Components Found in COVID Vaccines, ‘Without Exception’: German Scientists**

by John Symank, August 22, 2022 - Updated On August 23, 2022

An analysis of COVID vaccine samples studied by a group of independent German scientists using modern medical and physical measuring techniques found toxic components, mostly metallic, in all the COVID vaccine samples they analyzed “without exception.”

[The Epoch Times](#) reported that a study done by The Working Group for COVID Vaccine Analysis revealed that some of the toxic elements found inside the AstraZeneca, Pfizer and Moderna vaccine vials were not listed in the ingredient lists from the manufacturers.

The following metallic elements were found in the vaccines:

*Alkali metals: caesium (Cs), potassium (K)*

*Alkaline earth metals: calcium (Ca), barium (Ba)*

*Transition metals: cobalt (Co), iron (Fe), chromium (Cr), titanium (Ti)*

*Rare earth metals: cerium (Ce), gadolinium (Gd)*

*Mining group/metal: aluminum (Al)*

*Carbon group: silicon (Si) (partly support material/slide)*

*Oxygen group: sulphur (S)*

These elements “are visible under the dark-field microscope as distinctive and complex structures of different sizes, can only partially be explained as a result of crystallization or decomposition processes, [and] cannot be explained as contamination from the manufacturing process,” the researchers found.

[The findings](#), which have been declared as preliminary, “build on the work of other researchers in the international community who have described similar findings, such as Dr. Young, Dr. Nagase, Dr. Botha, Dr. Flemming, Dr. Robert Wakeling, and Dr. Noak,” Dr. Janci Lindsay, Ph.D., a toxicologist not involved in the study, told The Epoch Times.

*“The number and consistency of the allegations of contamination alone, coupled with the eerie silence from global safety and regulatory bodies, is troublesome and perplexing in terms of ‘transparency’ and continued allegations by these bodies that the genetic vaccines are ‘safe,’”* Lindsay added.

Helena Krenn, founder of the group, which is made up of 60 members including physicians, physicists, chemists, microbiologists and alternative health practitioners as well as supportive lawyers and psychologists, submitted the findings to German government authorities for review.

*“We had submitted it to the participants of the government and further addresses from newspapers with the platform open-debate.eu, only in Germany, Austria, and Suisse,”* Krenn told The Epoch Times.

In addition to the primary discovery, two other important findings were made in the study. Blood samples from the vaccinated had “marked changes,” and more

side effects were observed in proportion to *“the stability of the envelope of lipid nanoparticles.”*

A lipid nanoparticle is a fat-soluble membrane that is the cargo of the messenger RNA, or mRNA. Numerous COVID vaccines, including the Pfizer and Moderna vaccines, utilize mRNA technology in their deployment.

**The CDC writes that, “After vaccination, the mRNA will enter the muscle cells. Once inside, they use the cells’ machinery to produce a harmless piece of what is called the spike protein. The spike protein is found on the surface of the virus that causes COVID-19. After the protein piece is made, our cells break down the mRNA and remove it, leaving the body as waste.” THIS IS A HUGE LIE!**

The study discusses their findings, stating that, *“Using a small sample of live blood analyses from both vaccinated and unvaccinated individuals, we have determined that artificial intelligence (AI) can distinguish with 100% reliability between the blood of the vaccinated and the unvaccinated. This indicates that the COVID-19 vaccines can effect long-term changes in the composition of the blood of the person vaccinated without that person being aware of these changes.”*

The discovery of acute and chronic physiological changes in the blood of vaccinated individuals, consistently being observed with AI software, *“also echoes the findings of many other researchers and support the contentions of contamination and/or adulteration,”* Lindsay said.

*“We have established that the COVID-19 vaccines consistently contain, in addition to contaminants, substances the purpose of which we are unable to determine,”* their study says.

The scientists claim that their results have been cross-confirmed using the following measuring techniques: *“Scanning Electron Microscopy (SEM), Energy Dispersive X-ray Spectroscopy (EDX), Mass Spectroscopy (MS), Inductively Coupled Plasma Analysis (ICP), Bright Field Microscopy (BFM), Dark Field Microscopy (DFM) and Live Blood Image Diagnostics, as well as analysis of images using Artificial Intelligence.”*

They state that they have been cooperating with groups in different countries, many of whom have been studying similar scenarios and obtained consistent results with the German Working Group.

*“The results from our analysis of the vaccines can, consequently, be regarded as cross-validated,”* the summary report of their findings states.

*“It should be acknowledged of course that [German Working Group’s] work is described as ‘Preliminary Findings,’ not yet published in a peer-reviewed journal and that chain of custody as well as the identity of many of these scientists is*

*unknown. However, in this heavily charged and censored climate when it comes to any challenges to the ‘safety and efficacy’ of the genetic vaccines, I myself can attest to the difficulties in conducting the basic research, much less publishing that same research in a peer-reviewed journal, in order to get at these questions as well as disseminate the findings,” Lindsay said.*

## **Depopulation: From Conspiracy Theory to Conspiracy Reality**

by: Sara Middleton, staff writer | August 12, 2022

([NaturalHealth365](#)) At this point, Bill Gates seems to be most famous for being the country’s largest private farmland owner (owning more than a quarter million acres in the United States) and for saying he wants to achieve depopulation – although the mainstream media has tried to downplay the truth of that sentiment by “fact-checking” critics of Gates endlessly.

But Gates isn’t the only one who has been caught blatantly alluding to the global elites’ desire to commit [depopulation and democide](#) (*democide*: a term coined by American political scientist Rudolph Rummel that means “the intentional killing of an unarmed or disarmed person by government agents acting in their authoritative capacity and pursuant to government policy or high command”). And despite the strong efforts to silence, ostracize, shame, and deplatform critics of the mainstream global agenda, more and more critics are speaking up.

Is the COVID-19 pandemic just another cog in the global elites’ wheel taking them toward unprecedented power and control?

Among a litany of tough questions and uncomfortable realities regarding the current pandemic, Margaret Anna Alice (a blogger who describes herself on social media as one who is “unmasking totalitarianism by examining media narratives, propaganda, neuropsychology, framing, philosophy, literature, and culture”) poses a sobering thought experiment to readers.

In a July 4 article posted to her Substack, titled “A Mostly Peaceful Depopulation,” Alice asks: “Want to orchestrate a massive transfer of wealth, get people to accept one-world authoritarianism, and knock off a good portion of the population while you’re at it?”

She answers: “Stage a pandemic and terrorize the public into relinquishing their liberties in the name of an illusory “safety” that will never arrive. Tell them the only way out is to accept a novel pharmaceutical product that governments (i.e., taxpayers) will be required to fork out billions of recurring dollars to fund. Decimate small businesses, evaporate jobs, wreck the economy, and force the vassals to depend on the State for survival. Make them think it’s all for the ‘greater good.’”

Reading her words, it almost sounds like the world leaders are following some sort of playbook to achieve the end goal – depopulation.

She stokes further introspection and critical thinking from her readers by presenting a variety of questions she has asked herself since the beginning of the pandemic. You can visit her in-depth Substack for the list in its entirety, but below are just a few of her most salient thoughts:

- *“Why are [governments, public health agencies, the media, Big Tech, and ‘experts’] encouraging discrimination against those who refuse to comply with unscientific and nonsensical guidelines?”* (See: the former “conspiracy theorist” tale of vax passports, which, as we know, became an [all-too painful reality](#))
- *“Why is the [World Health Organization] drafting a pandemic accord that would give it the ability to set a ‘OneHealth’ policy for all member states and seize supranational powers in times of declared public health ‘emergencies’?”* (This question refers to a document recently released by the WHO in which the agency effectively gives itself the power to unilaterally declare public health emergencies in member nations based on nothing more than personal opinion and inclination)
- *“Why aren’t health authorities making dietary, lifestyle, and supplement recommendations that would bolster people’s immunity – like encouraging them to eat healthy; reduce their stress levels; get proper sleep; exercise; enjoy sunshine and fresh air; and practice other habits that help prevent illness?”*
- *“Why are they advising pregnant women to get injected with an experimental product when they excluded pregnant and breastfeeding women from clinical trials?”*
- *“Why isn’t the media shouting from the rooftops about the 1,223 deaths, 158,000 adverse events, and 1,291 side effects reported in the first ninety days of Pfizer’s clinical trial and only recently disclosed to the public due to the FOIA request resulting in their release at a rate of 55,000 pages per month?”*

Don’t let the media gaslight you into thinking you’re “wrong” for having questions about the pandemic.

Margaret Anna Alice brings up red flag after red flag surrounding the COVID-19 pandemic mitigation response. She also cites prior atrocities carried out by Gates and others in the name of “public health.” (This includes the deaths of children in India following HPV vaccines and the sterilization of African women following tetanus shots, the latter funded by none other than the Bill & Melinda Gates Foundation).

It can truly make one’s head spin trying to make sense of all this information and find the vein of truth in it all. Virtually every point made by Alice and other critics

can be “countered” by mainstream media – yet we know the media is an unreliable entity that is deep in the pockets of Big Pharma and Big Agriculture. Even still, pretending that we have all the answers is unwise.

What *is* wise is to continue to allow yourself to have questions. Continue to allow yourself to make your concerns known to doctors and other influences in your life, to believe that medical autonomy matters (it does), and resist the coercive power of the media that attempts to make you feel like a conspiracy theorist simply for having questions or thinking critically. Put the puzzle pieces together and decide whether the sequence of events is a mere coincidence or a probable path to depopulation.

To that point, consider learning more about what makes a critical thinker and what you can do to hone your critical thinking skills – such as one three-step approach shared in a 2019 article from *Harvard Business Review* (question assumptions, reason through logic, and diversify thought).

**VACCINES ARE ON THE BALLOT**

Friend,

Vaccines are on the ballot as the political season ramps up in the US.

There are two choices to ask our candidates:

*Does a parent get to make decisions for their children?*

*Or are our children the property of the United States of America?*

This is the most important issue of our time.

The government should never mandate how to raise your children or run

your families.

We are sovereign and we are free to make own choices for our personal health and safety.

**Former BlackRock securities analyst, Ed Dowd reveals the name of his insurance industry analyst as Josh Sterling, from the top notch Wall Street research firm, -Alliance Bernstein.**

He tells Alex Jones that the [Society of Actuary Institute \(SOA\)](#) has published a [report on Group Life Insurance Excess Mortality](#), a survey of 80% of the Group Life industry in the US, that confirms Dowd's findings from last February, that in Q3 of 2021, there was an alarming spike in Working Age Excess Deaths. In ages 35-44, it was 100% over normal (i.e., double) for that quarter.

This rate of excess deaths has remained over 40% on average among working age adults (who were forced to take the jab to stay employed) during Q1 and Q2 of 2022 and at around 20% above average across all age groups.

He says SOA's numbers corroborate Sterling's numbers, that 61,000 Millennials were killed by the vaxx through the third quarter of 2021, or roughly the same number of young American soldiers killed throughout the entire Vietnam War. It's a silent war that's not being reported by the legacy media.

Ed Dowd suspects that the insurance industry reports are the reason why the [CDC reversed course](#) on its COVID "guidance" – which are nevertheless being maintained by certain corrupt agencies and districts, such as the Pentagon and [Philadelphia](#).

Ed also thinks the insurance industry reports are why [CDC Director, Rochelle Walensky](#) last week announced a total reorganization of that lumbering agency – although she is of course, asking for more money and more control, without admitting that the agency has been actively engaged in [genocide](#).

And now, we see Anthony Fauci resigning and the wheels coming off the fake pandemic but Alex notes that in the [SPARS document](#), a report published by Johns Hopkins in 2017 about a communications drill for a vaccine that "accidentally" causes "Mad Cow" prion disease, it is the politicians – not Big Pharma – who are blamed for speeding up the release of the vaccines without proper testing and trials, causing millions of cases of brain damage starting 6 months to a year after the injection.

As with Crimson Contagion and Event 201, the SPARS report is the actual battle plan for a slow-kill genocidal attack on the populace, aspects of which have already unfolded like clockwork. The SPARS report is the blueprint of what we've been living through and of what we can expect next. Currently, we are two years into the 3-year drill.

The collapse of trust in government and institutions is intentional and the plan is to cause a global civil war and to centralize all global medical authority within the UN with a multi-billion dollar Marshall Fund to enact total medical tyranny, as per the WHO's 2005 International Health Regulations (IHR), which are legally binding on all 196 UN member countries.

Ed's predictions are very similar to what's in the SPARS document but he adds that the goal is global adoption of the Central Bank Digital Currency and the implementation of a Chinese-style social credit score system.

Ed sees Schwab, Fauci and Gates as these laughable boogeymen who will fall while the world is rocked by economic collapse and war. Then, reasonable and attractive leaders will appear with a solution that looks great, because it's not as tyrannical as the direction that these goons had been taking us. But it will still be much more tyrannical than the Old Normal, pre-March 2020.

## **The Cover-Up Continues with Lies upon Lies!**

### **CDC Quietly Removes 'Claim' That Spike Protein Doesn't 'Last Long' in Body after COVID Vaccine**

Between July 2021 and July 23, 2022, the Centers for Disease Control and Prevention made a series of changes to its "Facts about COVID-19 mRNA Vaccines," including adding — and then removing — a statement assuring readers the mRNA and spike protein "do not last long in the body."

By Madhava Setty, M.D.

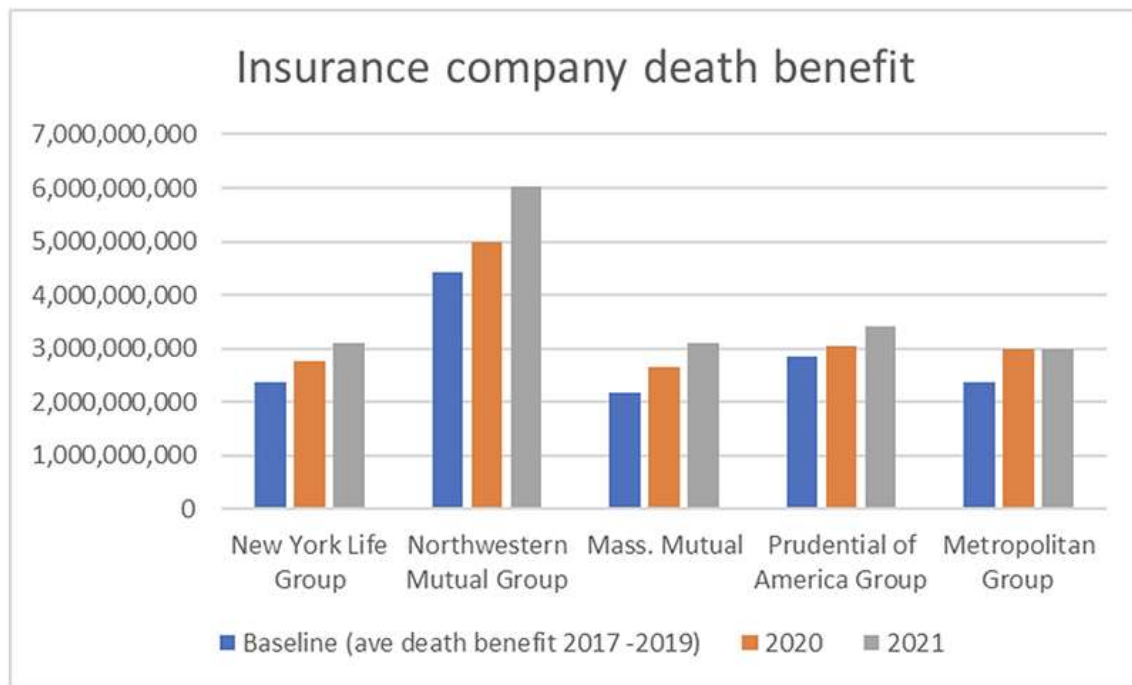

A graphic featuring several US coins, including a quarter and a dime, with the word 'LIBERTY' visible. Overlaid on the coins are several white upward-pointing arrows of varying heights, some with dollar signs (\$) above them. The background is a greenish-blue grid pattern.

## ICAN-Obtained Data Reveals Significant Increase in Death Benefits Paid in 2021 by Largest Insurance Companies

Through freedom of information requests, ICAN has obtained annual statements from several major life insurance companies which show the “Ordinary Death Benefits” paid out in 2021 increased significantly compared to 2017-2020.

ICAN, through its attorneys, submitted freedom of information requests for the annual statements of five of the largest life insurance companies in the United States. We received annual statements from 2017 through 2021 for New York Life Group, Northwestern Mutual Group, Mass. Mutual, Prudential of America Group, and Metropolitan Group.

What these reports show is that Ordinary Death Benefits appear to have significantly risen in 2021 when compared with 2017-2020 for four out of five of these companies.

Group Death Benefits also increased for some companies in 2021. This provides further specific data to analyze which is potentially relevant to excess deaths, COVID-19 deaths, and vaccination. ICAN expects that the 2022 insurance company annual reports will shed further light on this issue and ICAN plans to obtain the 2022 reports as soon as they are available. ICAN will continue to dig until the truth is fully revealed.

You can watch Del covering and explaining this data on *The Highwire* [here](#):

## WHO pushes for Global Pandemic Treaty AGAIN as World Bank creates \$1B fund for VACCINE PASSPORTS AND IDs

Aug 16, 2022

This is what happens if we do not wake up. Options are rapidly diminishing. Surface wars are the distraction while the real threat to humanity goes unimpeded...

The World Health Organization (WHO) is moving ahead with plans to enact a new or revised international pandemic preparedness treaty, despite encountering setbacks earlier this summer after dozens of countries, primarily outside the Western world, objected to the plan.

A majority of WHO member states on July 21, during a meeting of WHO's Intergovernmental Negotiating Body (INB), agreed to pursue a legally binding pandemic instrument that will contain *“both legally binding as well as non-legally binding elements.”*

STAT News described the agreement, which would create a new global framework for responding to pandemics, as “the most transformative global health call to action since [the] WHO itself was formed as the first specialized United Nations agency in 1948.”

Meanwhile, the World Economic Forum, African Union and World Bank — which created a \$1 billion fund for *“disease surveillance”* and *“support against the current as well as future pandemics”* — are developing their own pandemic response mechanisms, including new cross-country vaccine passport frameworks.

WHO's ‘pandemic treaty’: what's been proposed and what would it mean? Ongoing talks to formulate a new or revised “pandemic treaty” are building on the existing international framework for global pandemic response, the WHO's International Health Regulations (IHR), considered a binding instrument of international law.

On Dec. 1, 2021, in response to calls from various governments for a “strengthened global pandemic strategy” and signaling the urgency with which these entities are acting, the WHO formally launched the process of creating a new treaty or amending the IHR, during Special Session — only the second in the organization's history.

During the meeting, held May 10-11, WHO's 194 member countries unanimously agreed to launch the process, which previously had been discussed only informally.

The member countries agreed to: *“Kickstart a global process to draft and negotiate a convention, agreement or other international instrument under the Constitution of the World Health Organization to strengthen pandemic prevention, preparedness and response.”*

The IHR, a relatively recent development, were first enacted in 2005, in the aftermath of SARS-CoV-1.

The IHR legal framework is one of only two binding treaties the WHO has achieved since its inception, the other being the Framework Convention on Tobacco Control.

The IHR framework already allows the WHO director-general to declare a public health emergency in any country, without the consent of that country's

government, though the framework requires the two sides to first attempt to reach an agreement.

The proposals for a new or revised pandemic treaty, put forth at the special ministerial session of the WHO in May, would “*somewhat*” strengthen the WHO’s pandemic-related powers, including establishing a “*Compliance Committee*” that would issue advisory recommendations for states.

However, according to the Daily Sceptic, while the IHR is already legally binding, the amendments proposed in May would not strengthen existing legal obligations or requirements:

*“The existing treaty regulations, like all (or most) international law, do not actually compel states to do anything other than talk to the WHO and listen to it, and neither do they specify sanctions for non-compliance; almost all their output is advice.”*

*“The proposed amendments don’t alter that. They don’t allow the WHO unilaterally to impose legally binding measures on or within countries.”*

The Daily Sceptic noted one of the risks stemming from the negotiations for a new or updated treaty include the potential codification of “*the new lockdown orthodoxy for future pandemics*,” which would “*replace the sound, science-based, pre-COVID recommendations*” previously in place.

According to Dr. Joseph Mercola, such a treaty would grant the WHO “*absolute power over global biosecurity, such as the power to implement digital identities/vaccine passports, mandatory vaccinations, travel restrictions, standardized medical care and more.*”

Mercola also questioned a “*one-size-fits-all approach to pandemic response*,” pointing out that “*pandemic threats are not identical in all parts of the world.*” In his view, he said, “*the WHO is not qualified to make global health decisions.*”

Similar concerns contributed at least in part to opposition against the proposals presented at the special ministerial session, during which a bloc of mostly non-Western countries, including China, India, Russia and 47 African nations, prevented an agreement from being finalized.

Will opposition fade away?

Although no final agreement was achieved at the May meeting, consensus was reached to organize a new special ministerial session of the WHO later this year, possibly after the WHO’s World Health Assembly, scheduled for Nov. 29 through Dec. 1, Reuters reported.

Mxolisi Nkosi, South Africa's ambassador to the UN, told the WHO's annual ministerial assembly the new special session would "consider the benefits for such a convention, agreement or other international instrument. Probably the most important lesson COVID-19 has taught us is the need for stronger and more agile collective defenses against health threats as well as for building resilience to address future potential pandemics. A new pandemic treaty is central to this."

At the time, the U.K.'s ambassador to the UN, Simon Manley, addressing the lack of an immediate agreement and the consensus to hold a new meeting, tweeted *"negotiations may take time, but this is a historic step towards global health security."*

The INB, at its meeting held in Geneva July 18-21, also agreed with this view, reaching a consensus that its members will work on finalizing a new legally binding international pandemic agreement by May 2024.

As part of this process, the INB will meet again in December and will deliver a progress report to the 76th World Health Assembly of the WHO in 2023.

According to the WHO:

*"Any new agreement, if any when agreed by Member States, is drafted and negotiated by governments themselves, [which] will take any action in line with their sovereignty. It claims governments themselves will determine actions under the accord while considering their own national laws and regulations."*

The Biden administration expressed broad support for a new or updated pandemic treaty, with the U.S. heading previous negotiations on this issue, along with the European Commission, via its president Ursula von der Leyen, who, as previously reported by The Defender, is also a strong proponent of vaccine passports and mandatory COVID-19 vaccination.

An analysis by the Alliance for Natural Health International speculated that any final agreement may simply strengthen the existing IHR or, alternatively, may involve an amendment to the WHO's constitution — or both.

Just two days after the July 21 INB agreement, Tedros Adhanom Ghebreyesus, the WHO's director-general, tweeted:

In the same Twitter thread, he also declared the ongoing monkeypox outbreak *"a public health emergency of international concern,"* one *"that is concentrated among men who have sex with men, especially those with multiple sexual partners."* Notably, the WHO director-general overruled an expert panel that was divided over whether to classify the outbreak as a global public health emergency.

With this declaration, three *“global health emergencies”* are now in place, as determined by the WHO: COVID-19, monkeypox and polio.

**Busy summer for vaccine passport proposals!**

While the WHO and global governments weigh plans for an updated or new pandemic treaty, other organizations are moving forward on vaccine passport technologies and partnerships.

On July 8, the Organization for Economic Cooperation and Development (OECD), composed of many of the world’s industrialized nations, announced it would promote the unification of the different vaccine passport systems currently in use around the world.

Thirty-six countries and international organizations participated in a July meeting with the goal of *“creating a multilateral framework for establishing a global vaccine passport regime,”* according to Nick Corbishley of Naked Capitalism. The development is a continuation of efforts involving the WHO to harmonize global vaccine passport regimes.

In February, the WHO selected Germany’s T-Systems as an *“industry partner to develop the vaccination validation service,”* which would enable *“vaccination certificates to be checked across national borders.”*

T-Systems, an arm of Deutsche Telekom, was previously instrumental in developing the interoperability of vaccine passport systems in Europe.

Also in July, 21 African governments *“quietly embraced”* a vaccine passport system, which in turn would also be interlinked with other such systems globally. On July 8, which is also Africa Integration Day, the African Union and the Africa Centers for Disease Control launched a digital vaccine passport valid throughout the African Union, describing it as *“the e-health backbone”* of Africa’s *“new health order.”*

This follows the development in 2021, of the Trusted Travel platform, now required by several African countries, including Ethiopia, Kenya, Togo and Zimbabwe, and air carriers such as EgyptAir, Ethiopian Airlines and Kenya Airways, for both inbound and outbound travel.

Beyond Africa, Indonesia, which currently holds the rotating presidency of the G20, is conducting *“pilot projects”* that would bring about the interoperability of the various digital vaccine passport systems currently in use globally. The project is expected to be completed by November, in time for the G20 Leaders’ Summit.

Naked Capitalism highlighted the role of South African company Cassava Fintech in the efforts to develop an interoperable vaccine passport for all of Africa.

A subsidiary of African telecommunication company Econet, Cassava initially developed the “*Sasail*” app, which the company described as Africa’s first “*global super app*” that combines “*social payments*” with the ability to send and receive money and pay bills, chat with others and play games. Cassava and Econet entered into a strategic partnership with Mastercard, “*to advance digital inclusion across Africa and collaborate on a range of initiatives, including expansion of the Africa CDC TravelPass.*”

As previously reported by The Defender, Mastercard supports the Good Health Pass vaccine passport initiative that is also backed by the ID2020 alliance and endorsed by embattled former U.K. prime minister Tony Blair.

Mastercard has also promoted technology that can be embedded into the DO Card, a credit/debit card that keeps track of one’s “*personal carbon allowance.*”

ID2020, founded in 2016, claims to support “*ethical, privacy-protecting approaches to digital ID.*” Its founding partners include Microsoft, the Rockefeller Foundation, Accenture, GAVI-The Vaccine Alliance (itself a core partner of the WHO), UNICEF, the Bill & Melinda Gates Foundation and the World Bank.

Mastercard’s top two stockholders are Vanguard and BlackRock, which hold significant stakes in dozens of companies that supported the development of vaccine passports or implemented vaccine mandates for their employees. The two investment firms also hold large stakes in vaccine manufacturers, including Pfizer, Moderna and Johnson & Johnson.

Mastercard provides funding for the World Bank’s Identity for Development (ID4D) Program, which “*focuses on promoting digital identification systems to improve development outcomes while maintaining trust and privacy.*”

The Center for Human Rights and Global Justice at the New York School of Law recently described the ID4D program, which touts its alignment with the UN’s Sustainable Development Goals (SDGs) , as one which could pave the way to a “*digital road to hell.*”

According to the center, this would occur through the prioritization of “*economic identity*” and the use of an infrastructure that has “*been linked to severe and large-scale human rights violations*” in several countries.

Mastercard is also active in Africa through its joint initiative with another fintech (financial technology) company, Paycode, to “*increase access to financial services and government assistance for remote communities across Africa*” via a biometric identity system containing the data of 30 million individuals.

World Bank, WHO promote ‘pandemic preparedness’ and vaccine passports.

The World Bank in late June announced the creation of a fund that will *“finance investments in strengthening the fight against pandemics”* and *“support prevention, preparedness and response ... with a focus on low- and middle-income countries.”*

The fund was developed under the lead of the U.S., Italy and current G20 president Indonesia, *“with broad support from the G20,”* and will be active later this year.

It will provide more than \$1 billion in funding for areas such as “disease surveillance” and *“support against the current as well as future pandemics.”*

The WHO is also a *“stakeholder”* in the project and will provide *“technical expertise,”* according to WHO’s director-general. The agreement follows a 2019 strategic partnership between the UN and the World Economic Forum, to *“accelerate”* the implementation of the UN’s 2030 Agenda for Sustainable Development and its SDGs.

Although the agreement has recently circulated on social media, it was announced in June 2019, prior to the COVID-19 pandemic. It encompasses six areas of focus, including “health” and “digital cooperation.”

In terms of health, the agreement purports that it will *“support countries [sic] achieve good health and well-being for all, within the context of the 2030 Agenda, focusing on key emerging global health threats that require stronger multistakeholder partnership and action.”*

In turn, the *“digital cooperation”* promoted by the agreement will purportedly *“meet the needs of the Fourth Industrial Revolution while seeking to advance global analysis, dialogue and standards for digital governance and digital inclusiveness.”*

However, despite rhetoric preaching *“inclusiveness,”* individuals and entities that have refused to go along with applications such as vaccine passports have faced repercussions in their personal and professional lives.

Such was the example of a Canadian doctor who was fined \$6,255 in June over her refusal to use the country’s ArriveCAN health information app — which is being investigated over privacy concerns — to enter the country. Dr. Ann Gillies said she was fined when re-entering Canada after attending a conference in the U.S.

Andrew Bud, the CEO of biometric ID company iProove, a U.S. Department of Homeland Security contractor, described vaccine certificates as driving *“the whole field of digital ID in the future,”* adding they are *“not just about COVID [but]*

***about something even bigger” and that “once adopted for COVID [they] will be rapidly used for everything else.”***

The real issue is all about control and enslavement of humanity under an array of alleged benefits.

This is what happens if we do not wake up. Options are rapidly diminishing. Surface wars are the distraction while the real threat to humanity goes unimpeded. [The Defender]

## **10,000 people A DAY being killed by Covid Vaccines; Worldwide fatalities likely larger than the HOLOCAUST**

Thursday, August 18, 2022 by: Mike Adams

([Natural News](#)) Covid vaccines are currently killing an estimated 10,000 people a day worldwide, with total fatalities likely in the 5 – 12 million range. These numbers come from [rigorous analysis of mortality data](#) (excess deaths) following the introduction of covid vaccines in early 2021. Because excess deaths are very difficult for governments to hide, these excess deaths are emerging as the smoking gun for overall vaccine deaths.

Steve Kirsch estimates that 1 person is currently dead from vaccines for every 1,000 doses administered. In the United States, roughly 600 million doses have been administered so far (yes, more than one for every person in the country), and that roughly equates to about 600,000 deaths in the USA (and counting).

Worldwide, with over 12 billion doses administered, we have likely seen around 12 million deaths so far.

More conservative estimates put that number at 5 million rather than 12 million, but in either case it's in the millions globally.

Why the deaths are going to continue to climb even if the vaccines are halted right now.

Importantly, we know that post-vaccine deaths are distributed over time. While a few people die in the first 48 hours, many deaths are taking place many months or even a year or two after the vaccine injections. Why is this happening?

Our [laboratory tests on vaccine clots](#) may provide meaningful answers. Thanks to the efforts of Dr. Jane Ruby and embalmer Richard Hirschman who were able to get me post-vaccine clot samples for laboratory analysis, we have been able to establish several shocking facts about these clots:

Fact #1) The clots grow larger over time, inside the body's circulatory system. This means they are *self-assembling* systems / bio-machinery.

Fact #2) As they grow larger, they accumulate or harvest certain elements from the circulating blood supply. Via ICP-MS laboratory testing, we have conclusively shown that Tin, Aluminum and Sodium are being harvested from the blood and incorporated into the structures of the clots.

Fact #3) As the clots grow, they take up more space in the blood vessels. At first, the live blood simply flows around the clots. But clots may be dislodged during rigorous physical activity (such as jogging or playing soccer), or the clots may at some point achieve a 100% blockage of the artery, resulting in a "died suddenly" event.

Importantly, it appears that these clots take many months or even a year or two to grow to sufficient size to fully block blood vessels and arteries.

This means the deaths observed so far are only a fraction of the deaths yet to come.

Many people who took these jabs, in other words, are ticking time bombs of inevitable cardiovascular blockage and death. It's only a matter of time before the clots grow larger enough to halt blood flow. Once blood flow to the brain is halted, death ensues in a matter of a few minutes.

These are not blood clots, and anti-clotting drugs do nothing to resolve these clots.

To our knowledge, there is no known cure to dissolve or remove these clots from the cardiovascular system. We have interviewed physicians who have attempted to treat these clots with powerful anti-clotting medications such as Heparin, and these drugs achieve nothing.

That's because these clots are not *blood* clots. They are elastic, rugged biostructures that resemble the strength and texture of rubber bands. I have manipulated these clots on live broadcast streaming (via the Alex Jones Show) where, under a lab microscope, I demonstrated the shocking strength and resilience of these clot structures. Again, they are not blood clots. They are strong, rubbery-like protein biostructures that absolutely do not belong in the human body.

Under a microscope, they look like this, which is nothing like a blood clot:

In addition, as we have [conclusively shown via ICP-MS lab tests](#), these clots are almost completely lacking the key elements of life that would be present in blood, such as Iron, Magnesium and Potassium.

| Element         | Blood Results | Clot Results |
|-----------------|---------------|--------------|
| Mg (magnesium)  | 35 ppm        | 1.7 ppm      |
| K (potassium)   | 1893 ppm      | 12.5 ppm     |
| Fe (iron)       | 462 ppm       | 20.6 ppm     |
| Zn (zinc)       | 7.9 ppm       | 2.4 ppm      |
| Cl (chlorine)   | 930,000 ppm   | 290,000 ppm  |
| P (phosphorous) | 1130 ppm      | 4900 ppm     |

Post-vaccine clot deaths are likely to continue mounting for years to come.

What all this means is that post-vaccine clot deaths are going to continue mounting for years to come as the clots expand in size inside people's bodies. While 1 in 1000 people may be dead already, there could conceivably be another 9 in 1000 who are going to die from clots as they continue to expand, reaching perhaps 10 in 1000 who ultimately die (or 1 in 100).

In other words, in a world where 12 billion vaccine injections have been administered, we could see 120 million deaths (or more).

The thing is, we don't yet know:

- In what percentage of vaccine recipients the clots are growing.
- How quickly the clots are growing.
- Whether the clots ever stop growing, or what causes them to stop.
- Whether anything can reverse the clot growth and reduce or eliminate the clots.

There are plenty of theories on all these questions, but to my knowledge, we don't have anything conclusive yet. The situation is worsened by the fact that the entire medical establishment outright refuses to even acknowledge the existence of these clots, nor will they admit to any link whatsoever between vaccines and excess mortality. Thus, the genocidal cover-up continues, and people will continue to die for years to come.

Covid vaccines have created a "vaccine holocaust" that's only going to get worse. Given up to 12 million deaths right now, we are already seeing Holocaust-scale mass death from these vaccines. This vaccine holocaust is going to get far worse. Where the Nazi Holocaust reportedly claimed the lives of six million victims, this vaccine holocaust could conceivably kill sixty million, or even ten times that over time. Consider this when you see media reports touting "annual mRNA injections" now being ramped up by the vaccine manufacturers. They want to hit you with one of these shots every year until you die. Anybody gullible enough to keep taking these clot shots will surely die sooner than they had

imagined, especially when they stupidly believed the shots were *protecting* them rather than *exterminating* them.

Global depopulation, it turns out, has been remarkably easy to achieve. They didn't need mass ovens, prison camps and a shooting war with the people. All they needed was to release a bioweapon and scare people into taking death shots (euthanasia labeled "vaccines") and wait for the gullible masses to line up and take the jabs.

Some groups — such as LGBT — have achieved over 95% vaccine compliance and are begging for even more vaccines due to monkey pox. This particular demographic, as you can tell, has no future on planet Earth since they are eliminating themselves from the planet. But the same is also true for many church groups, conservatives and medical professionals who were gullible enough to take these jabs. That's why so many doctors are falling over dead in recent months, and there's a whole lot more of that yet to be witnessed.

I cover all this in a podcast released yesterday:

[Brighteon.com/4e3b7ea1-346c-416a-a34a-127dea2f1db3](https://www.brighteon.com/4e3b7ea1-346c-416a-a34a-127dea2f1db3)

**Perhaps this is the reason there is no VAERS reporting as of 8/20/22! U.S. Government data confirms a 143,233% increase in Cancer cases due to COVID Vaccination**

BY THE EXPOSÉ ON AUGUST 16, 2022

Cancer begins when genetic changes interfere with the normal replication and replacement of cells in the body. Cells start to grow uncontrollably and may form a tumor. It is the No. 2 leading cause of death in the United States.

Unfortunately, it appears the disease may be on the rise thanks to the experimental Covid-19 injections. Because official U.S. Government data confirms the risk of developing cancer following Covid-19 vaccination increases by a shocking 143,233%.

The Centers for Disease Control (CDC) hosts a [Vaccine Adverse Event Reporting System \(VAERS\)](#) which contains historical data on adverse reactions reported against every vaccine that has been administered in the United States of America. A quick search of the [CDC VAERS database](#) on the number of cancer cases reported as adverse reactions to the Covid-19 injections since they were first rolled out in the USA, reveals that from December 2020 up to 5th August 2022, a total of 2,579 adverse events related to cancer were made in just 1 year and 8 months.

**Messages:**

- VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.
- These results are for 2,579 total events.
- Rows with zero Events Reported are hidden. Use Quick Options above to show zero rows.

| Year Reported ↓ | Events Reported ↑↓ | Percent (of 2,579) ↑↓ |
|-----------------|--------------------|-----------------------|
| 2021            | 1,306              | 50.64%                |
| 2022            | 1,268              | 49.17%                |
| Unknown Date    | 5                  | 0.19%                 |
| <b>Total</b>    | <b>2,579</b>       | <b>100.00%</b>        |

## Covid-19 Vaccines

### [Source](#)

But performing a similar search of the [VAERS database](#) on the number of cancer cases reported as adverse events to all other available vaccines between 2008 and 2020, a period of 13 years, reveals there were just 791 adverse events related to cancer.

**Messages:**  
 ▶ VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.  
 ▶ These results are for 791 total events.

| Year Reported ↓ | Events Reported ↑↓ | Percent (of 791) ↑↓ |
|-----------------|--------------------|---------------------|
| 2008            | 59                 | 7.46%               |
| 2009            | 50                 | 6.32%               |
| 2010            | 37                 | 4.68%               |

| 2020            | 100                | 12.64%              |
| <b>Total</b>    | <b>791</b>         | <b>100.00%</b>      |

## All other Vaccines

### [Source](#)

Many would simply argue without backing their claim up with any evidence, that this is just because of the volume of Covid-19 injections administered compared to all other vaccines. But unfortunately, anyone who argues this is wrong.

We can see this by looking at the number of doses administered.

The following chart shows the total number of flu vaccine doses administered in 13 full flu seasons all the way from the 2008/2009 flu season to the 2019-2020 flu season. The data has been extracted from the CDC info found [here](#).

**Source**

**In all between the 08/09 flu season and the 19/20 flu season, there were a total of 1,720,400,000 (1.7204 billion) doses of the flu jab administered in the USA.**

**The CDC also confirms that between 2008 and 2020, a period of 13 years, there were just 64 events related to cancer reported as adverse reactions to the influenza vaccines.**

**Messages:**

VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.  
These results are for 64 total events.

| Year Reported ↓ | Events Reported ↕ | Percent (of 64) ↕ |
|-----------------|-------------------|-------------------|
| 2008            | 6                 | 9.38%             |
| 2009            | 4                 | 6.25%             |
| 2010            | 6                 | 9.38%             |

## Flu Vaccines

### [Source](#)

Based on the number of adverse events related to cancer alone, we can see that there have been 40.3x as many cancer cases related to Covid-19 vaccination than there have been related to flu vaccination.

But whilst shocking, this statistic doesn't properly represent the severity of the situation. To do that we need to know the number of cancer cases per 100,000 doses administered.

Based on the above numbers provided by the CDC, the number of adverse events related to cancer reported per 100,000 doses of flu vaccine administered equates to just 0.0003 per 100,000 doses.

According to ['Our World in Data'](#), as of 9th August 2022, 606 million doses of the Covid-19 vaccines have been administered in the USA. This means there have been actually nearly 3x as many flu vaccines administered between 2008-2020 than Covid-19 injections since the end of 2020, let alone all of the other vaccines that have been administered.

[Source](#)

Therefore, the number of adverse events related to cancer reported per 100,000 doses of Covid-19 vaccine administered equates to 0.43 per 100,000 doses.

**This means Covid-19 vaccination is 1433.33x / 143,233.33% more likely to cause cancer than flu vaccination.** It can be argued that because the numbers are so extraordinarily low for the flu vaccine, that flu vaccination does not cause cancer. Therefore, it can be argued that the risk of developing cancer following Covid-19 vaccination is 1433x greater than the background risk.

This should however not come as much of a surprise considering we already have scientific proof that the Covid-19 mRNA injections can cause cancer of the ovaries, pancreas and breast.

The homologous recombination DNA repair pathway is one of the mechanisms that the body uses to stop your cells from turning cancerous in response to environmental stress.

And in October 2021, two revered scientists, called Jiang and Mei, had a paper published, after peer review, in [MDPI](#), showing that the SARS-Cov-2 spike protein obliterated the DNA repair mechanism in lymphocytes.

The viral spike protein was so toxic to this pathway that it knocked 90% of it out. If the whole spike protein got into the nucleus (in the ovaries), and enough of it was produced and hung around long enough before the body was able to get rid of it all, it would cause cancer.

Fortunately, in the case of natural infection, this is unlikely to occur. But the experimental mRNA “vaccines” induce spike protein to be produced in and around the cell nucleus and this occurs for at least 60 days and almost certainly longer.

This is probably why cases of ovarian cancer are now at an all-time high.

Official UK data published by Public Health Scotland, which can be found [here](#), reveal the number of women suffering ovarian cancer from the introduction of the Covid-19 injection to the general population. Unfortunately, the known trend in 2021 was significantly higher than 2020 and the 2017-2019 average.

[Click to enlarge](#)  
[Ovarian Cancer – Source](#)

The above chart shows up to June 2021, but the charts found on Public Health Scotland’s dashboard now show figures all the way up to December 2021 and unfortunately reveal that the gap has widened even further with the number of women suffering from Ovarian cancer increasing significantly.

[Click to enlarge](#)

If you still wish to get a jab that doesn't stop you from getting Covid-19, doesn't stop you from spreading Covid-19, increases your risk of mortality significantly (see [here](#)), and increases your risk of suffering cancer by 143,233% then that's up to you. But perhaps you can now be a little more understanding of why many others simply refuse to do so.

**In one of two [blockbuster interviews](#) conducted by Alex Jones this week, [Steve Kirsch](#) joined InfoWars to discuss how the COVID hoax is falling apart amid Fauci's announcement of his resignation from NIAID.**

Last week, Steve made broadcasting history when he told Fox News' Brian Kilmeade that, "What I found was that hundreds of thousands of Americans have been killed by this vaxxine and millions have been injured and clearly, you are more likely to be injured or dead from the vaxxine than if you were unvaxxinated."

Brian was quick to say on-air that Fox can't "verify" Steve's claims. Steve went ahead and backed-up his claims on his [Substack](#), where he called-out Brian, saying, "You mean you 'can't' because Fox won't let you, right?"

Steve tells Alex here that Brian *"Was actually telling people the truth, because Fox News has contractual commitments that don't allow them to speak poorly about the vaxxines. So they can't say anything antivax on Fox News and so they can't verify my numbers, because if they did, they would have to be admitting that the vaxxines are not safe and not effective."*

Steve says, *"The White House has spent a billion dollars influencing media and giving money to media to promote these vaxxines. And we don't know what the contracts say, it's pretty clear there was no interest at Fox in validating the numbers"*.

*"Now, if what I said is true and we really have killed hundreds of thousands of people, you would think that Fox News would be interested in covering that and looking at my data."*

*"So after the interview, I talked to the producer and I said, 'Hey, would you like to see the data?' And there was no response. They don't want to see the data."*

Steve has run many surveys and he has consistently found that it is the vaxxinated who are getting sick and it is the hospital protocols that are killing people.

Alex asks Steve what he thinks is going on, with Deborah Birx saying that she never thought the vaxxine would help and with Fauci resigning.

Steve thinks the wheels are falling off the hoax, saying, *"This is the greatest killer of all time. This is unprecedented. The numbers here are so large...this is killing people at a much higher rate than heart disease is. It's the new Number One killer and the CDC is silent on all of this."*

Steve says he approached [Carol Crawford at the CDC](#), who's in charge of "stopping misinformation spreaders" and he told her, he'd gather the top 20 "misinformation spreaders" in the same room and she could present her hot topics and they could present theirs and they could have a nice, civil discussion.

He says, *"She's not interested in that, which tells me she's not interested in stopping the 'misinformation-spreading' because she knows damned well we're not talking misinformation, here. It would be exposed for them to go on-camera. This is why we're being ignored by the FDA, the CDC, the NIH..."*

*"We can look at the death tolls and the injury tolls ten different ways and we'll get the same results."*

On his [Substack](#), Steve wrote about being [accused of making false statements](#) by Media Matters, an organization of which he was an original donor. He was then de-platformed from their website's comment section after he offered to provide them with the data so they could verify his claims.

He wrote, *"It appears that nobody in the world is confident that I am lying because [I've offered up to \\$1M](#) to anyone who thinks they can challenge me and [there are no acceptances of any of my 15 debate offers](#)."*

He tells Alex here, *"Donald Trump was the one who created the vaccine in the first place. If he comes out with the truth about the vaxxine, Boy, that's gonna wake up a lot of people...the truth always comes out...You always want to be on the right side of history and if you're Trump, you like to never be wrong. He doesn't like to admit he's wrong – but he has to, in this case."*

*"But the point is that if he does that, then he becomes on he right side of history and that forces the Democrats to dig in deeper, defending the vaxxine, which makes them lose bigger and bigger and bigger, over time, because the truth does come out and it's amazing to me that these people who have left the CDC and the FDA, Boy, they don't want to talk to anyone...because they don't want to incriminate themselves for participating in this."*

The Vaccine Adverse Event Reporting System (VAERS) is a web-based vaccine adverse event self-reporting system monitored by the FDA that is widely thought to be inaccurate and that it may only reflect as little as 1/100th of the actual numbers. They stopped reporting the data two weeks ago!

Kirsch conservatively estimates that the underreporting to VAERS is by a factor of 41 and that VAERS is only capturing around 2% of the actual adverse events.

To get the real numbers, he says you have to multiply the official VAERS numbers by 41 – and when you do that, you get over half a million deaths in the US.

But Steve appears to be referring to an earlier VAERS report, because [VAERS' current COVID Vaccine Reported Deaths](#) is at 30,347, which multiplied by 41 is over 1.2 million deaths, which is a conservative estimate. Many people think it's over twice that amount.

Up next, Steve recently wrote, *"I'll be posting an interview where people will go on the record about illegal falsification of medical records and death certificates. Did you know that in America today, if you died shortly after vaccination, even when there is a VAERS report, that your medical records will not reflect this and it will be omitted from your death certificate as well?"*

## **TRUMP TRAP SPRUNG: Media FLIPS, sets stage to blame Trump for widespread vaccine injuries and deaths**

Thursday, August 25, 2022 by: [Mike Adams](#)

[\(Natural News\)](#) Once again, the independent media called this out well in advance, warning that President Trump was walking right into a trap by promoting covid vaccines and taking credit for rolling them out so quickly via *Operation Warp Speed*. **[I have a stunning expose to follow this report by Mike Adams at the close of his post here. This is about the facts and evidence confirming President Donald J. Trump is a "TRAITOR!"]**

Now that hundreds of thousands of Americans are dead from the vaccines — with millions injured — the "Trump trap" is being sprung. Under the direction of the intelligence script writers, of course, the left-wing media is now reporting that Trump pressured the FDA into authorizing the deadly vaccines as part of a political ploy to win the 2020 election.

Politico and The Hill are both carrying the story that activates this pivot. The key section in [The Hill's reporting](#) is:

*White House attempts to block the FDA from collecting additional safety data on the first coronavirus vaccine in an attempt to ensure that it could be authorized before the 2020 presidential election.*

*"The Select Subcommittee's findings that Trump White House officials deliberately and repeatedly sought to bend FDA's scientific work on coronavirus treatments and vaccines to the White House's political will are yet another*

*example of how the prior Administration prioritized politics over public health,”* Rep. James Clyburn (D-S.C.), the panel’s chair, said in a statement.

Fauci, Walensky, Birx and others will lay the blame at Trump’s feet.

With Fauci resigning, the CDC’s Walensky begging for forgiveness for the agency’s mistakes, and Dr. Birx now publicly admitting they knew the vaccines wouldn’t stop covid infections, we are watching the stage being set for when they all point the finger at Trump and say, *“He forced us to cut corners.”*

All the Americans who have been [injured or killed by covid vaccines](#) are about to be laid at Trump’s feet, and Trump himself will be demonized as the scientifically inept politician who forced Pfizer, Moderna, the FDA and the CDC to rush a medical intervention into production that turned out to be deadly.

The entire corporate media, believe it or not, is about to start admitting these vaccines are killing people. And all the fingers will point at Trump.

They have finally found a way to separate Trump from his supporters!

Interestingly, this argument isn’t wrong, and it will gain traction among many conservatives and former Trump supporters. Trump did, indeed, push Operation Warp Speed and pressure agencies to cut corners. Trump promised a vaccine rollout on an insane, incomprehensible schedule that is simply irreconcilable with thorough quality standards and large-scale, long-term clinical testing. Clearly, Trump was promised by the vaccine industry that he would be credited for *“saving America”* in record time by rolling out these emergency use vaccines without proper testing, but that was all part of the trap. Sadly, Trump fell for it in his quest to secure an election victory in 2020 (which he actually won, but we know how it was stolen with ballot fraud and thousands of “mules”).

Interestingly, the Democrats got hoodwinked too. When Trump was in the White House, most Democrats said they wouldn’t trust the vaccine because it was *“Trump’s vaccine.”* Joe Biden, Kamala Harris and many other prominent Dems are on the record saying they wouldn’t take the vaccine if Trump rushed it. But once the election was rigged and stolen, booting Trump out of power and installing Joe Biden as the Resident-In-Chief, the very same Dems who claimed they would never trust the Trump vaccine suddenly trusted the very same vaccine because Biden was now sitting in the Oval Office.

It seems stupid, yes, but that’s the way the oblivious masses process information (or fail to).

As Biden took office, the media flipped the script in early 2021, claiming the vaccine was the greatest medical intervention ever created, and everyone was

pressured to take it. After all, Biden was in the White House, and Democrats quickly forgot that the vaccine was a Trump creation via Operation Warp Speed.

Vaccine uptake was very high among Democrats, with some blue cities reaching over 90% vaccination rates. Among the LGBT community, uptake was reportedly 95% or higher. Conservatives, meanwhile, were far more skeptical of the vaccine, and if it wasn't for extreme coercion and threats of losing their jobs, many conservatives never would have taken the "clot shots" in the first place.

For the past year and a half, the media, government, Big Tech and educational institutions have all pushed the mRNA experimental medical injections as "safe and effective," chiding anyone who dared to question their efficacy or safety profile. If you even questioned the vaccine, you were deplatformed from social media, disinvited to family gatherings and fired from your job. Vaccine obedience became something of a cult across America, with Democrats leading the way, claiming to be carrying the banner of "science!"

But in reality, they were pushing Trump's Operation Warp Speed fiasco, which ended up injuring and killing millions of Americans, including huge numbers of Democrats.

By the third quarter of 2021, excess mortality in America had reached over 200% in certain age groups, via Group Life policies (source: [SOA Research Institute report, January, 2022](#)). (We have constructed this chart using data from the SOA report.)

## Group Life Insurance Excess Mortality Figures

Source: SOA Research Institute, January 2022

[Hi-res version of this graphic found at this link.](#)

To put this into perspective, on any given normal day in America, around 7500 people die. If you have excess mortality of 100%, that would be an extra 7500 people dying *per day*. It's the equivalent of two 9/11 disasters happening every single day.

Various insurance companies have, for the last year or so, been reporting excess mortality figures in the 20% to 40% range, but the SOA Research Institute aggregates data from many different insurance companies, and they are reporting excess mortality using figures like 217% or 208%. Notably, these aren't deaths among the elderly, either. They're deaths of people in their 20s, 30s and 40s.

Table 5.6  
EXCESS MORTALITY BY DETAILED AGE BAND

| Age               | Q2<br>2020 | Q3<br>2020 | Q4<br>2020 | Q1<br>2021 | Q2<br>2021 | Q3<br>2021 | 4/20-<br>9/21 |
|-------------------|------------|------------|------------|------------|------------|------------|---------------|
| 0-24              | 119%       | 127%       | 108%       | 102%       | 121%       | 129%       | 118%          |
| 25-34             | 129%       | 135%       | 124%       | 120%       | 131%       | 181%       | 136%          |

| 75-84             | 113%       | 113%       | 132%       | 122%       | 105%       | 116%       | 117%          |
| 85+               | 111%       | 102%       | 123%       | 110%       | 90%        | 98%        | 106%          |
| All <sup>10</sup> | 116%       | 115%       | 128%       | 122%       | 107%       | 139%       | 121%          |

Investment guru Ed Dowd detailed all this in an interview earlier this week with Alex Jones. (I was actually scheduled to host that segment and interview Dowd, but to my regret, I had an animal issue at the ranch and had to deal with that emergency instead. To my frustration, I still haven't interviewed Dowd, yet I am determined to do so because I love talking with really smart people...)

This bombshell via Ed Dowd reveals that Trump's vaccines are literally killing thousands of Americans every day in America. You can watch that interview here: Conservatives are outraged at Trump for continuing to support mass vaccinations with depopulation bioweapons.

Even more astonishingly, as Democrats are coming to realize, this is something that Alex Jones, Mike Adams and many other people who voted for Trump also agree is happening. In other words, Democrats have finally found an issue that can separate Trump from his supporters: Vaccines.

All the Democrats have to do now is throw Moderna under the bus, start reporting vaccines are killing people, and lay the blame at Trump's feet. Paint Trump as worse than Stalin or Hitler. Start covering all the mysterious deaths and increased mortality figures from the insurance industry.

After all, they can't hide the body bags forever. They might as well use the crisis to demonize Trump and the GOP in general.

The corporate media doesn't even have to throw the entire vaccine industry out with the bath water, either. They can claim that all vaccines were safe and

effective *until Trump forced the industry to cut corners*. Only the “Trump vaccine,” they will claim, is the dangerous one. And that’s not the fault of Pfizer, they will explain, because Pfizer was coerced into this by Trump who was trying to win the 2020 election. This is the narrative being unleashed right now.

Notably, VAERS data actually support this narrative. The covid vaccines are most dangerous and deadly than all the other vaccines combined, through the entire history of the VAERS database. While it can’t be honestly stated that all the other vaccines are “safe” compared to covid vax shots, it can be truthfully stated that they are “safer.” (Relatively speaking.)

Trump hangs up on anyone who brings up the subject of vaccines during a phone conversation.

I interviewed Pete Santilli last night. That interview is posted below. Santilli informed me that when close associates are on the phone with Donald Trump, if they bring up the issue of these vaccines, Trump hangs up on them. He doesn’t want to hear anything about the vaccines. He doesn’t want to talk about them at all, and certainly doesn’t want to consider his role in rushing them to market, resulting in the deaths (so far) of over 600,000 Americans, with millions injured.

Even worse, as [we have established through extensive laboratory analysis and research](#), these vaccines are growing “biostructures” — non-blood clots that clog the blood vessels and arteries, killing people over time.

These clots continue to self-assemble and increase in size with each passing week. This means that millions more Americans will likely die from these vaccines over the next decade, and there's no known intervention that can reverse these clots. (Blood thinning, anti-clotting medications do nothing, because these aren't blood clots.)

The corporate media is gearing up to blame Trump for each and every one of these deaths that take place over the next decade. "Died suddenly" will soon be replaced with, "Killed by Trump," and unless he gets out in front of this in the next few weeks, Donald J. Trump will go down in history as the man who sacrificed millions of Americans to try to win an election by forcing the FDA to fast track a dangerous medical intervention that turned out to be a medical holocaust. The thalidomide fiasco will be tiny in comparison. That's the narrative being unleashed right now. It started yesterday, in fact.

Sean Hannity labeled "America's dumbest drug salesman"

Another sign that things are rapidly shifting: Fox News and Sean Hannity are suddenly backing away from vaccines at a rapid pace. Hannity, one of the most prolific vaccine-pimping, pro-war journo-prostitutes in history, now claims he never told anyone to take the vaccines. **Dan Bongino has publicly come out, admitting that taking the vaccine was the "greatest mistake of my life."** Tucker Carlson has been hammering away at the vaccine industry's deceptions for weeks now (and doing a damn good job, notably), and the conservative movement has reached a tipping point where covid vaccines are finally seen as risky and ineffective. This is after two years of relentless pro-vaccine propaganda on Fox News, by the way.

[\*\*Emerald Robinson said it best in his Substack article\*\*](#), explaining, "*The Vaccine Money Has Dried Up At Fox News! Sean Hannity now wants you to forget his role as America's dumbest drug salesman.*" From that article, which is especially poignant:

*In case you missed it, the pro-vaccine frauds at Fox News are trying to pivot away from pushing the experimental Big Pharma shots day and night for two years... Watch Sean Hannity attempt to walk back his years-long role as America's dumbest Pfizer salesman. Perhaps he can hear the lawsuits coming.*

**Hannity didn't tell anyone to get vaccinated? Hannity told everyone to get vaccinated — and he told them practically every night for a year.**

**"And it absolutely makes sense for many Americans to get vaccinated. I believe in science, I believe in the science of vaccination." — Sean Hannity, July 2021**

Why is Hannity trying to gaslight his own audience in 2022? He must know that bamboozling them about the shots will carry an enormous price tag — and it's a bill that he's not willing to pay.

Let's not forget: Hannity and the rest of the Big Pharma pimps at Fox News also relied on the very fat and very stupid Dr. Marc Siegel as their "medical expert" to push the shots in every time slot for the last two years.

Indeed, all this makes me wonder about a bigger question. If Alex Jones can be sued and ordered to pay \$45 million to two parents of Sandy Hook children who claimed they suffered "*emotional distress*" because of Alex's reporting about Sandy Hook, how many million Americans have suffered emotional distress because they were injured by vaccines promoted by Fox News and other media outlets? Will they now sue all the media players, claiming they were getting paid by Big Pharma to pump the deadly, dangerous "*Trump vaccine?*"

As Emerald Robinson writes:

*...most corporate news outlets in America were paid by the Biden regime's HHS to push the vaccines to their audiences without disclosing it — and that list includes Fox News.*

*That's the largest and most comprehensive breach of journalistic ethics that has ever occurred. Almost every corporate media outlet took the money. Almost every corporate media outlet lied about the vaccines (knowingly or unknowingly). Almost every corporate media outlet refused to report anything negative about the vaccines — because they were paid to close their eyes.*

*Almost every corporate media outlet is implicated.*

Trump got played, and his supporters tried to warn him!

Alex Jones, by the way, has publicly admonished Trump for his role in this deadly vaccine fiasco, urging Trump to come forward with the truth about he was lied to be vaccine industry experts who promised rapid development of safe and effective vaccines (but actually delivered a depopulation bioweapon). For all those who think Trump plays 4-D chess and is always one move ahead of the enemy, in this case Trump got played by the depopulation globalists. Trump ended up endorsing and pushing a depopulation weapon that's killing millions of people around the globe. It is one of the most successful globalist deceptions in history, and Trump walked right into it and still won't recognize his role in the attempted extermination of humanity.

You are right now watching one of the most epic deceptions in the history of the world, and Big Pharma, the media, the CDC, FDA, Pfizer, Moderna and other players lined up Trump and played him like a fiddle. Now, having achieved the mass injection of well over 200 million Americans — and over 5 billion people worldwide — they can all claim, "*We were coerced by Trump!*" and point the finger at Orange Man Bad for the mass death and suffering that's going to accelerate over the next decade.

People like Alex Jones (and myself) publicly warned Trump about this multiple times. Once again, Alex Jones was right. But Trump refused to listen — and still refuses to listen — even while Ron DeSantis is fighting hard against Big Pharma's attempted mass vaccination of children and toddlers, among other issues.

Trump has positioned himself as Big Pharma's front man while DeSantis is going to end up on the right side of all this as the truth about vaccine injuries goes mainstream (which has already begun).

In the mean time, independent researchers like myself, Dr. Jane Ruby, embalmers like Richard Hirschman and the German research group known as The Working Group for COVID Vaccine Analysis ([see this outstanding Epoch Times article for details](#)) are meticulously analyzing both the covid vaccines and the resulting deadly clots that grow inside people's bodies, and we are going to nail the answers on all this well before the FDA, CDC, NIH or anybody from mainstream science does. It is independent, self-funded science, in other words, that will end up saving humanity, not government-funded science (which was never real science in the first place).

Trump has a narrow window of opportunity to extricate himself from this trap and change history, but he seems paralyzed and strangely tied to Pfizer's interests, unable to criticize the very same pharma company that donated millions to his January, 2017 inauguration ceremony.

If Trump doesn't untie himself from pharma, he will be destroyed and forever remembered for his role in the Vaccine Holocaust.

## **Yuval Noah Harari spills the beans: 'We just don't need the vast majority of the population'**

*Technology will 'make it possible to replace the people'*

Top World Economic Forum adviser Yuval Noah Harari has declared in a recent interview that the “*vast majority*” of the world’s 7.5 billion people are simply no longer needed due to technological advances in artificial intelligence, machine learning and bioengineering.

In one sentence, Harari validated what we “conspiracy theorists” have been saying for years, that globalist power elites want to rid the world of people deemed “*useless*” in their eyes. That’s why we call them global *predators*.

*“We just don’t need the vast majority of the population,”* said Harari, who is a historian, futurist, popular author and, most importantly, the chief adviser to Klaus Schwab, founder and director of the extremely influential WEF.

Every year the WEF entertains thousands of devoted followers at its headquarters in Davos, Switzerland. These devotees include heads of state, congressmen, governors, top corporate CEOs, even Hollywood entertainers and stars from the sports and music world. They are being fed a full diet of propaganda cooked up by Luciferian-influenced intellectuals like Harari and Schwab.

# Shocking

## **Data Reveals COVID Vax Has Killed 5 To 12 MILLION People Worldwide**

*This article was originally published by [Rhoda Wilson at The Exposé](#).*

What is the number of deaths, worldwide, from Covid injections? By doing a rough calculation Steve Kirsch arrives at a ballpark figure of 12 million.

To give the number some context, that is 40x the number of Americans who were killed in World War II (“WWII”). It’s more than double the number killed by Covid, Kirsch wrote.

WWII is recognized as beginning on [3 September 1939 when Great Britain and France declared war on Germany](#) after Germany invaded Poland. It ended in 1945 after Japan formally surrendered.

[According to Britannica](#), about 298,000 Americans died during WWII. In total, an estimated 40,000,000 to 50,000,000 people died worldwide over the six years of WWII.

The first Covid shot was delivered by [Great Britain on 8 December 2020](#) “marking the start of a historic mass vaccination program.” France [delivered its first shot](#) 19 days later on 27 December 2020.

The Covid shot campaign has, so far, been going for 20 months. According to *Our World in Data* 12.46 billion shots have been delivered, 5.89 million per day. However, [according to data collected by Bloomberg](#), “the latest rate was roughly 8.46 million doses a day ... 159 shots for every 100 people worldwide.”

Yesterday, 15 August, [Britain became the first country](#) in the world to approve Moderna’s “next generation” Covid shot – Spikevax Bivalent.

[Margaret Anna Alice](#) asked if anyone could estimate the global death toll from the Covid shots.

In my opinion, a reasonable estimate is to divide the number of doses by 1,000.

If you do that for the 600 million doses delivered in the U.S., you get 600,000 deaths which is right in the ballpark.

A more conservative number is to divide the number of doses by 2,500. This is the number [Mathew Crawford estimated from global data: 411 deaths per million doses](#). Earlier, I offered a \$1 million reward to anyone who found a significant error in his work. No takers. This is [documented on my Substack](#) and in my Twitter stream, but, of course, everything I tweeted was deleted by Twitter as being unsafe. A free \$1 million no strings attached. Nobody accepted.

So that conservative estimate gets you to 5 million killed (only 16x the number of Americans killed in World War II).

We are approaching the [6 million Jews killed in the Holocaust over 12 years](#).

But we are killing people worldwide at a rate at least 6x faster than the Germans did.

We are killing nearly close to 10,000 people every single day (the latest rate was roughly 8.46 million doses a day).

Interestingly, this is not self-limiting because [385,000 babies are born every day](#). So, the killing can go on indefinitely, even if the birth rate drops by 90% due to the shots.

In case you were wondering. I just thought I'd point that out.

Dose data was from this Bloomberg article: [More Than 12.4 billion Shots Given: Covid-19 Vaccine Tracker](#).

**Summary:**

We are killing an awful lot of people, but world leaders are looking the other way and saying nothing while all of us watch the high number of death reports in the media of people who died “unexpectedly” and hear no explanation from the medical community or the CDC.

We are supposed to trust that they have things well in hand, even though they won't appear on camera in front of anyone who doesn't have scripted, pre-approved questions.

The vaccine is never mentioned in any of these unexplained death reports.

Yet people all over the world have noticed that these unexpected deaths are **ONLY** happening to the vaccinated. Hmmm.... I wonder why?

The CDC will not require medical examiners to do the proper tests to make the association. They could easily do that. But they won't. That tells you everything you need to know about the corruption.

So, it will be an unexplained rise in unexplained deaths due to unknown causes because nobody in the mainstream media is ever going to admit they were wrong and ask a few unscripted questions.

Even Donald Trump is afraid to speak out about what is going on. He remains silent too.

This is why we have no debates, only censorship.

Hundreds of people at the CDC are aware of what is going on, but they aren't going to speak out or they will lose their job. Even the people who have resigned are remaining silent. It's really stunning.

So, the killing continues unabated.

**What to Know Before Deciding to Take The Novavax Injection  
Accepting an injection of spike protein hoping it is safe or effective is absurd.**

Yet, many are again forced to make a decision threatening their health *and* ability to support their family.

[By Pierre Kory, MD, MPA | August 17, 2022](#)

A subscriber asked me to write a post about my thoughts on Novavax because she *“really trusts my judgement.”* Flattered, I felt like I should share what they are. So here goes.

Before any medical intervention, but especially in the case of a novel or barely tested one, a long standing practice of medical ethics is that informed consent must be obtained. The emphasis should be on the *informed* part and not the *consent* part. Note that informed consent has been one of the foundations of medical ethics, essentially an inviolable standard, or at least it used to be before this “emergency” came along where now you have [pharmacists injecting children with barely a mention of the risks](#), *“because they might be too scared to take the shot.”*

Informed consent discussions are simple in structure but often complex and time-consuming to conduct. It relies on providing the patient with as detailed and comprehensive a knowledge of the risks, benefits, and alternatives to the intervention.

So, should we go through an informed consent discussion with the novel Novavax injection? Actually, I would not. Why? Because I don’t hold informed consent discussions for interventions I do not recommend or would not want my patient to consider. I instead tell them not to consider and give them my reasons for that recommendation. Thus, I only conduct informed consent discussion for interventions that I feel would bring about greater benefits than risks (generally much greater), and I would only do so for patients with active illness in order to get them better. A vaccine is a much different proposition as they are given to patients without disease.

Why would I not even consider Novavax as a reasonable option? Simple:

- There has never been a successful or safe coronavirus vaccine. The last 18 months have shown that COVID vaccines lead to increased chances of getting ill, equal or increased chances of transmitting, and higher likelihood of entering hospital and dying. And that is leaving unmentioned the lethality and toxicity of the mRNA platform ones. See my [“Vaccine Exemption Letter”](#) post for the data to support these statements. The coronavirus is a rapidly mutating virus, thus vaccines will always be non-neutralizing because by the time they are manufactured and ready for injection, the virus has mutated into forms poorly responsive to older, narrower antibodies.
- Novavax is still formulated with a two and a half year-old protein for this rapidly mutagenic coronavirus, so it would be like giving a two and a half year old flu shot for this year’s flu (worse actually). Yet our health system, including every single academic medical center in the country is still

mandating and eager to adopt use of an outdated viral protein. I would love to say this is beyond belief, but this is the world we live in now.

- We now have the omicron variant circulating, which is generally well tolerated by most, particularly those who are healthy or young (and even the old), and *especially those with natural immunity*.
- The country now has abundant natural immunity, which even the CDC now admits offers equal protection (actually, natural immunity offers better protection but let's give the CDC some credit for telling at least a partial truth). So why are we still vaccinating and/or mandating in those who have recovered from COVID?
- Vaccinating against respiratory viruses works very poorly as the antibodies do not reach high concentrations in the nasal and respiratory mucosa which is where the virus enters. The flu vaccine is almost completely ineffective, even when you get this year's flu shot. Not known by most.
- Vaccinating against respiratory viruses with non-neutralizing vaccines actually weakens and warps the immune system such that you are more likely to get other respiratory viruses or illnesses as well (this has been well reported after flu vaccinations given that those vaccinated against the flu are more susceptible to other respiratory viral infections).
- Proposing a novel and barely tested product coming out of the pharmaceutical industry to a patient is a wicked proposition in modern times. Note the pharmaceutical industry is a documented criminal industry which has repeatedly put out unsafe and ineffective products (even deadly, i.e. opioids, Avandia, Vioxx, Bextra, the list goes on), followed by burying the adverse event data while pushing their wares through control of professional societies, federal/state legislation, and captured agencies. They have paid over \$12 billion in criminal fines and over \$16 billion in civil fines, just in the last 20 years [across the 20 largest settlements](#). Their history of these actions stretches even longer.
- The history of criminality around the COVID vaccines dwarfs any actions the industry has done in the past. The Pfizer documents that the PFDA (the P is not a typo) *tried to hide for 75 years* reveal insane amounts of manipulations to try to show they work and are safe. They didn't and weren't. Further the testimony from the Ventavia/Pfizer whistleblower Brook Jackson reveals that the studies were so poorly done with such little follow-up of patients that they are simply not credible. Remember, Pharma. Does. Not. Care. About. Your. Health. Just your wallet (actually the government's wallet, which I suppose is also your wallet).

So, conceptually, I think the idea of getting any coronavirus vaccine at this point is preposterous. However, let's try to do a more traditional informed consent using the structure of risks/benefits/alternatives. The following is what I think other providers (or pharmacists egads) should be telling people prior to offering them Novavax, or more accurately, in order to get them to avoid it.

Yes, Novavax is a “non-mRNA” vaccine and is designed more along the line of a traditional vaccine in that an amount of viral protein is injected into the arm, it is then recognized as a “foreign” protein by our immune system which then makes antibodies against it. These antibodies are then thought (“hoped” remember) to help clear the virus rapidly and efficiently after exposure such that we avoid illness. Sounds good on paper. Not. Just ask Geert Vanden Bossche, one of the world’s top immunologists and vaccine experts.

Novavax delivers the spike protein. As a self-described clinical expert in spike-protein induced disease, the spike protein is a pathogen. A pathogen is a substance or organism that is capable of inducing illness. Note that I call myself an expert because there are very few of us out here studying it’s pathogenicity, however I would argue Professor Paul Marik has taken the lead across the globe in amassing all the basic science and clinical research underlying the knowledge of the mechanisms and treatments of spike-protein induced diseases. [That scholarly document](#) is in evolution, and has over 300 scientific references at this point, with rapid evolutions and additions each week. Note that it appears to be the world’s sole “comprehensive” scholarly work on spike protein pathogenicity and empirically proposed treatments.

Another great sadness about the U.S. COVID response is that almost the entire health system and all of academia have yet to recognize the spike as a pathogen or formulate any approach to treating Long-Haul or Post-Vaccine Injury. Until they do, they will continue to fail to recognize the causes or mechanisms of these syndromes as well as to offer effective treatments. And, it goes without saying, they will not be able to discuss this in their ill-informed consent discussions. Their deplorable failure at treating these disabling diseases is astounding and will continue for the foreseeable future. Remember, the system docs won’t treat because they are all members of the Church of RCT Fundamentalism (a.m. “evidence based medicine.”) You know, where they will sit there paralyzed until some massive randomized controlled trial is published in a high-impact medical journal and then is recommended by a federal agency or national medical society. You know what that system produces by now if you read my Substack. Not only will it leave patients untreated for months to years, but while the docs sit around waiting, Pharma, via the agencies and media, will suppress or attack any generic medicines or supplements that front-line doctors and patients have found effective. They will do this with ferocity and depravity until such a time they can “save the day” with the massive promotion of a novel, pricey Big Pharma pill which they will get our government to pay for at a price they set. Think about what happened to ivermectin and hydroxychloroquine until Pharma saved the day with the pathetic and poisonous Paxlovid using our government coffers. Rinse repeat here.

The two major and complex diseases unleashed by the spike are what we call “long haul” and “post-vaccine injury” syndromes. I probably should differentiate post-vaccine into two subtypes, with one being an acute, sudden death syndrome

caused by massive heart attacks, myocarditis (which can cause lethal arrhythmias or pump failure), and/or massive strokes. Excess mortality amongst the vaccinated in 2021 skyrocketed and is showing up in Life Insurance industry data in both the U.S and other countries. However I don't see those events in my practice because they are sudden deaths occurring in asymptomatic patients (who are often swimming or running or doing something else fun until they suddenly drop dead). [My practice](#) instead sees patients who suffer with the more chronic subtype consisting of myriad, disabling symptoms across multiple organ systems. Now, whether there is enough spike in Novavax to produce similar deadly events or chronic syndromes in the future, who knows. More on that below.

### SHORT TERM RISK DATA

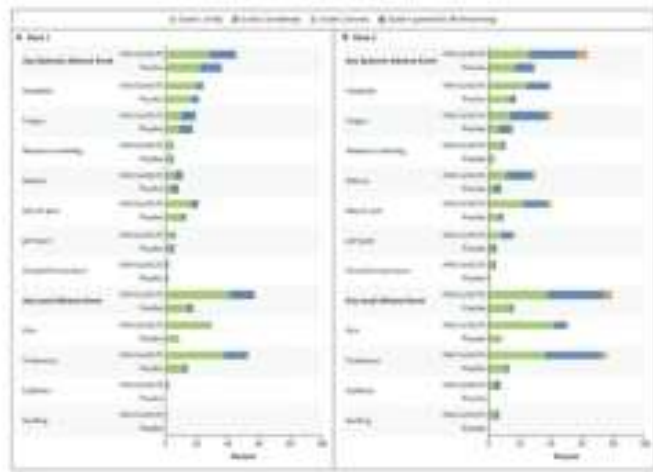

Not looking good here folks. Let's take a look at the actual published trial of Novavax, and their chart detailing the "side effects." Then let's compare it to Pfizer's mRNA "vaccine" trial published in December 2020. Look carefully. I will interpret these charts below.

## NOVAVAX ANYONE?

Original Pfizer Trial Adverse Event Data

Novavax Adverse Event Data

[Click for full size](#)

Here is how I interpret the data:

1. The "local" and "systemic" adverse events are absurdly high in both. I remember thinking back in December 2020 when I was reading the Pfizer trial, I said to myself, "Wow that does NOT look friendly!" Not just the wickedly high frequency of really sore arms with redness and swelling, but the very high rates of "systemic symptoms" of fatigue, headache, chills, vomiting, muscle pain. Very high rates of those. Ouch.
2. Next, look at the "dose response," meaning look at the incidence of adverse events after the 2nd shot compared to the 1st shot. If it is higher

after the 2nd, it indicates a “dose-response relationship,” which, when we are talking about a therapeutic, is a pillar of evidence to support the efficacy of the drug. For instance, ivermectin in COVID has a strong dose response relationship, meaning the higher the dose, the more effective it is (that is why all the high impact trials tried as much as they could to limit the dose of ivermectin, in particular during history’s [most fraudulent trial called the TOGETHER trial](#)).

Conversely, a dose-response in terms of side effects is a pillar of the *measure of toxicity*. The more you give, the sicker you get. Not cool. Now take a look at Pfizer’s published chart above, keeping in mind, these are only the short term systemic side effects.

1. Pfizer: fatigue goes from 47% after the 1st to 59% after the 2nd in young folks and 34% up to 51% in older folks. Chills: 14% to 35% in young, 6% to 23% in old. Same pattern and increases with muscle pains and also joint pains and use of anti-pyretic medications.
2. Now, take a look at Novavax. Note how they don’t give you the numeral percentages and instead make you crane your neck and use a ruler to estimate the actual incidences and increases. But just looking at the height of the bars from shot 1 to shot 2 and the increases in the yellow at the tops of the bars (yellow = “Grade 3” reactions – i.e. more severe), you see again what looks like a scary shot to me with some of the local and systemic events reported even higher than with Pfizer’s mRNA shot! So, is Novavax safer?

**LONG TERM SIDE EFFECTS.** Unknown. Remember the famous, “*I guess we will just have to give it to see how safe it is*” by one of the nation’s top vaccine experts. I swear, again, and I say this often, you just cannot make this stuff up. So, an informed consent discussion should relate that long term side effects are unknown. Remember as well, we are not in a supposed “emergency” anymore, despite the fact our government keeps renewing its emergency powers. If the person conducting this discussion tries to argue that in terms of long term effects, it is safe and effective because the mRNA vaccines were safe and effective, that is so categorically ridiculous it does not even bare addressing. Again, read my “Vaccine Exemption Letter” post for the data on toxicity and lethality of those vaccines. Do not proceed. My caution would be that spike protein is a pathogen with sequences that we know generate antibodies that then are capable of attacking many tissues (what are called autoantibodies which cause a category of diseases called “auto-immune” diseases). Also, spike protein, when broken down by the body is known to generate amyloid like fragments which are highly thrombogenic (i.e. cause clotting). Spike protein also stimulates immune cells called monocytes and macrophages which disturb numerous organ functions. Spike protein is also toxic to mitochondria which are the energy producing parts of each cell. In summary, don’t sign up for any more spike protein than is already circulating in the world.

Also, Novavax, like the mRNA vaccines uses “nanoparticles” in a “saponin-based adjuvant” solution which is novel and proprietary, patented only in 2020. Well, that’s reassuring no? Their published paper states that the adjuvant and the vaccine was found to be “safe and immunogenic” in Phase 1 and 2 trials. Then I found this in the supplementary appendix from one of the earlier trials, “the mechanism of Matrix-M1 (the adjuvant) is not well defined, but it has been associated with a potent induction of leukocyte activation and migration into the draining lymph nodes in their previous study.” Not reassuring.

## EFFICACY

Unknown, but likely ineffective as it has not been tested against Omicron, or any of its sub-variants or whatever future variant will be circulating when it rolls out. Plus, as we know now, all the predicted efficacy reported from COVID-19 vaccine trials were never observed in the real-world, again likely due to trial shenanigans and data manipulations and removal and/or mis-categorization of those who fell ill during the trial or simply due to the fact the virus is rapidly mutating. Even if it were effective, we know from the past two years, it would be short lived. I again have to mention natural immunity. It already protects against severe disease and reasonably well from re-infection, and there is no credible data to suggest adding an even older spike protein vaccine using a newly patented adjuvant will better protect you or make you healthier.

## ALTERNATIVES TO VACCINATION

For readers of my Substack, you all know that you can always just skip the vaccine and instead just rely on early treatment which has been shown to be near perfectly effective in achieving rapid recovery and avoidance of hospitalization and death, especially when given in synergistic combinations like the [FLCCC](#)’s or the [AAPS](#)’s protocols. In fact, as you know, no vaccine would ever get an EUA or approval if effective treatments were available. Further, there are now over [three dozen effective treatments](#) supported by controlled trials, with many of them repurposed and/or over the counter. I suppose you could also just rely on Paxlovid given its demonstration of such incredible efficacy in treating President Biden and Dr. Fauci.

Hope this helps.

## RNA for Moderna’s Omicron Booster Manufactured by CIA-Linked Company

| BY WHITNEY WEBB | ~~UNLIMITED HANGOUT~~ | AUGUST 17, 2022

Since late last year, messenger RNA for Moderna’s COVID-19 vaccines, including its recently reformulated Omicron booster, has been exclusively manufactured by a little known company with significant ties to U.S. intelligence.

Earlier this week, the United Kingdom became the first country to approve Moderna’s reformulated version of its COVID-19 vaccine, which claims to provide

protection against both the original form of the virus and the significantly less lethal but more transmissible Omicron variant. The product was [approved by](#) the UK's Medicines and Healthcare Products Regulatory Agency (MHRA) with the support of the UK government's Commission on Human Medicines.

Described by UK officials as a “[sharpened tool](#)” in the nation's continued vaccination campaign, the reformulated vaccine combines the previously approved COVID-19 vaccine with a “[vaccine candidate](#)” targeting the Omicron variant BA.1. That vaccine candidate has never been previously approved and has not been the subject of independent study. The MHRA approved the vaccine based on a single, incomplete human trial currently being conducted by Moderna. The company promoted incomplete data from that trial in company press releases in [June](#) and [July](#). The study has yet to be published in a medical journal or peer reviewed. No concerns have been raised by any regulatory agency, including the MHRA, regarding [Moderna's past history](#) of engaging in suspect and likely illegal activity in past product trials, including for its original COVID-19 vaccine.

The approval comes shortly before several Western countries, including the UK, plan to conduct a massive COVID-19 booster vaccination campaign this fall. Moderna has also noted that approval for its Omicron booster vaccine are pending in the US, EU, Australia and Canada – all of which are also planning fall vaccination campaigns focused on COVID-19. The company's CEO, Stéphane Bancel, [has called](#) the reformulated vaccine “*our lead candidate for a Fall 2022 booster.*”

Moderna CEO Stéphane Bancel, Source: [ClockworkOrange](#)

However, unlike the company's original COVID-19 vaccine, the genetic material, or messenger RNA (mRNA), for this new vaccine, including the newly formulated genetic material meant to provide protection against the Omicron variant, is being manufactured, not by Moderna, but by a relatively new company that has received hardly any media attention, despite its overt links to U.S. intelligence. Last September, it was [quietly announced](#) that a company called National Resilience (often referred to simply as Resilience) would begin manufacturing the mRNA for Moderna COVID-19 vaccine products. Under the terms of the multi-year agreement, *"Resilience will produce mRNA for the Moderna COVID-19 vaccine at its facility in Mississauga, Ontario, for distribution worldwide."*

**Should you get any vaccines? The data shows the more you vax, the sicker you are. If you took 100% of the vaccines they want you to take, you're about 10X more likely to have medical issues. That's not a typo: 10X, not 10%!**

When I [interviewed Andrew Wakefield](#), he told me that you are roughly 10X more likely to be sick if you are vaccinated with the normal schedule vs. the unvaccinated.

Here is a link to the paper co-authored by my good friend James Lyons-Weiler which shows this very clearly: [Relative Incidence of Office Visits and Cumulative Rates of Billed Diagnoses Along the Axis of Vaccination](#) by [James Lyons-Weiler](#) and [Paul Thomas](#).

Here's a key figure from the paper showing the more vaccinations you accept, the greater your chance of seeing the doctor (relative incidence of office visits). The trends were true for other causes as well (See [Fig 4 and 5](#)).

That's called dose-dependency and it establishes (along with other factors) causality. It's hard to explain a dose-dependency if there isn't any causality.

The story on the retraction

From [Retraction Watch](#) is a short article on the retraction of the paper by the journal.

Here is the actual [retraction notice that shows the authors objected](#) to the unilateral decision to retract the paper by the journal. Notice how they didn't disclose the reason it was retracted? They just said that they "confirmed that the conclusions were not supported by strong scientific data" without providing a single specific example!!! That's how science works in the post-vaccine world (this was July 2021). No need to actually support your opinion with any specific facts.

The full story on the retraction from [the author](#).  
Evidence to the contrary

Here is a complete list of studies that show that the authors were wrong and that kids who got vaccinated actually had lower rates of disease, i.e., the more you vaccinate, the healthier your kids are:

1. <this space intentionally left blank>

What about autism?

Here is a clearly [pro-vax website attempting to debunk the connection between vaccines and autism](#). It says:

The Institute of Medicine undertook a comprehensive safety review of the issue. Their preliminary report, published in 2001, stated the committee did not find enough evidence to support or reject a causal relationship between mercury in vaccines and neurodevelopmental disorders.[24] However, their final report, published in 2004, concluded that the large body of evidence gathered on the question since 2001 favored rejecting the hypothesis that mercury in vaccines was associated with neurodevelopmental disorders.[6]

New evidence eh? What new evidence? And if the vaccines weren't the cause, then what was the most likely cause? The silence is deafening here.

<https://www.cmsri.org> and this article <https://info.cmsri.org/blog/has-snopes-been-snoped-will-retraction-watch-retract>

Summary

I encourage you to read the papers in each section and decide for yourself. Why is autism affecting 1 in 30 children, it used be 1 in 2500 pre-1970.

As for me, I'm with Wakefield.

**UN Recruited Over 100,000 'Digital First Responders' to Push Establishment C-19 Narrative**

[August 19, 2022 This article was posted by TLB Staff](#)

***October 2020 admission gets fresh attention***

**Paul Joseph Watson**

**At the height of the pandemic, the United Nations recruited over 100,000 “digital first responders” to push the establishment narrative on COVID via social media.**

**The revelation actually slipped out in October 2020 during a World Economic Forum podcast called ‘Seeking a cure for the infodemic’, although it is only going viral on Twitter today.**

**In the podcast, Melissa Fleming, head of global communications for the United Nations, explains how the COVID pandemic and lockdowns created a “communications crisis” in addition to a public health emergency.**

**Fleming acknowledged that in order to fight so-called “misinformation” about the pandemic, the UN tapped up 110,000 people to amplify their messaging across social media.**

***“So far, we’ve recruited 110,000 information volunteers, and we equip these information volunteers with the kind of knowledge about how misinformation spreads and ask them to serve as kind of ‘digital first-responders’ in those spaces where misinformation travels,” Fleming stated.***

**That was nearly 2 years ago. It is not known how many ‘digital first responders’ have been recruited up to this point.**

**Similar efforts to create astroturf campaigns to push a specific message are nothing new, but when entities such as oil companies engage in it, they are lambasted for rigging the discussion.**

*However, when globalist technocrats at the UN or the WEF do it, apparently it's fine.*

Last year, it was [revealed](#) that the British government used “propagandistic” fear tactics to scare the public into mass compliance during the first COVID lockdown, according to a behavioral scientist who worked inside Downing Street.

Scientists in the UK working as advisors for the government [admitted](#) using what they later conceded to be “unethical” and “totalitarian” methods of instilling fear in the population in order to control behavior during the pandemic.

As we previously [highlighted](#), the World Economic Forum is now advocating for the merger of human and artificial intelligence systems to censor “hate speech” and “misinformation” online before it is even allowed to be posted.

In what some dubbed “preemptive censorship,” the WEF is creating a system that would block posts from appearing if they fail the censorship filter.

Of course, the WEF, which is infamous for blocking its critics on Twitter, would never abuse such a system to shield itself from scrutiny.

# Huge U.S. Crimes!

## U.S. Government Complicit In Creating Covid

August 6, 2022

[US government might have been complicit in creating Covid](#). Moscow is examining the likelihood that a Washington, DC agency was involved in the development of Covid-19.

According to the Russian Ministry of Defense, USAID’s potential involvement in the development of the Covid-19 virus is being looked into.

In a press conference on Thursday, Lieutenant-General Igor Kirillov, the head of Russia’s radiation, chemical, and biological defense forces, asserted that U.S.-backed bio laboratories in Ukraine had been using Ukrainian residents in [dubious clinical trials and research](#), and that “over 16,000 biological samples, including blood and serum samples, were exported from the territory of Ukraine to U.S. and European countries.”

He continued by mentioning that a comment made by Jason Crow, a member of the U.S. House Intelligence Committee, warning Americans that their DNA samples could be used to construct specialized biological weapons, prompted

Russia's Defense Ministry to *"take a fresh look"* at the roots of the Covid outbreak.

*"Taking into account the interest of the U.S. administration in the study of narrowly targeted biological agents, such statements force us to take a fresh look at the causes of the novel coronavirus pandemic and the role of U.S. military biologists in the emergence and spread of the Covid-19 pathogen,"* Kirillov said.

According to Kirillov, who cited a Lancet article by Columbia professor Jeffery Sachs who proposed that the virus was probably made in a lab with the aid of America's most recent achievements in the field of biotechnology, Russia presently doubts that USAID possibly was directly culpable for the onset of the Covid-19 virus.

In 2009, USAID began supporting a project called *"Predict,"* which involves capturing wild bats afflicted with novel coronaviruses for scientific purposes. Kirillov noted that one of the project's contractors, Metabiota, was well-known for its military biological functions on Ukrainian soil.

The FDA discontinued the *"Predict"* initiative in 2019, and at the same time, the Johns Hopkins Center for Health Security started researching the transmission of a previously unidentified coronavirus.

*"The implementation of the COVID-19 development scenario and USAID's emergency phasing out of the Predict program in 2019 suggest the deliberate nature of the pandemic and US involvement in its occurrence,"* Kirillov said.

He continued by saying that the recent appearance of the monkeypox virus and the U.S.'s alleged history of employing biological weapons against adversaries have caused Moscow to notice a *"clear trend"* of pathogens that, for whatever reason, the Pentagon is interested in, subsequently developing into pandemics.

The U.S. maintains that it did not use Ukrainian bio-labs for military research and that Kiev used the *"46 peaceful Ukrainian laboratories, health facilities and disease diagnostic sites"* to help improve biological safety, security, and disease surveillance for both human and animal health. The denial persisted for several months until evidence was submitted at the UN exposing the U.S. *"peaceful"* (sic) labs were engaged in weaponization of the Coronavirus SARS2-Cov-2.

The Covid-19 virus's precise origin has not yet been proved beyond a reasonable doubt. The World Health Organization (WHO) asserted that it was most probably spread from an animal, presumably a bat, to people in February 2021.

The problem is that viruses have never been proved to jump from bats to humans without the aid of an intermediary bio-lab!

NEW BIOLOGICAL UPDATE FROM RUSSIA

The Russian MIL has been studying biological samples from surrendered Ukrainian soldiers, and what they have been finding is beyond disturbing. Approximately 20% of them carrying West Nile pathogens, which was being studied *“by the Pentagon as part of the Ukrainian UP-4 and UP-8 projects”*. Suggesting that Ukrainian soldiers are being subject to involuntary biological experimentation and exposure to biological weapons (think Nuremberg).

In addition to carrying pathogens, nearly all of the surrendered Ukrainian soldiers carried traces of a wide variety of narcotics and opioids, including Meth and Codeine.

Russia were sure to remind us of the Nazi's usage of methamphetamines in WW2, when the left-wing media tried to spin this reality as some sort of X-men mutant conspiracy theory. No, they are just Nazis, and historically, Nazis use drugs.

The imbeciles at the *‘Daily Beast’*, falsely claim Russia are losing the war and falsely claim they are blaming it on genetically modified *“mutant-troops”* as a result of the 46 U.S. bio-labs in Ukraine. Before reading the article, understand that this is straight up nonsense from the *‘Daily Beast’* and the left-wing media, and the only reason for reporting on it is ...

Russia goes on to cite that this methamphetamine Ukraine are using, Pervitin, was also used by U.S. soldiers during Vietnam and Korea. It's designed to reduce the psycho-emotional burdens of war.

However, an intended side effect is excessive aggression, which Russia alleges is one of the main factors for the Nationalist Ukrainian forces displaying *“extreme cruelty”* to civilians and the shelling of their own people in Donbas. Ukraine are using mind-numbing agents on their forces to make them more susceptible to carrying out heinous acts.

Next, we find perhaps the most explosive slide to date, in which Russia FINALLY comes out and DIRECTLY accuses the U.S. of being responsible for the creation and release of Covid-19. What I have been saying from the beginning, is that this all leads to C-19, which will be the nail in the coffin and the red-pill that wakes up the world.

The backlash the U.S. is facing from Russia and the rest of Eastern world, is directly because the world found out THE UNITED STATES CREATED COVID. Specifically the *“DNC/Liberal Globalists”*, as the Russians allege. Not Trump.

Russia clarifies they have record of over 16,000 biological samples, including blood and serum samples, transported from Ukraine to the U.S., Georgia, European countries.

The U.S. claimed that all of these biological samples would be used “*exclusively for peaceful purposes*”, but we can see that they were not.

Russia then pointed to U.S. Congressman Jason Crow of the House Intelligence Committee, warned Americans about the dangers of giving their DNA to private companies (Think 23&Me) for testing because:

*“...there is a possibility that test results will be sold to third parties... and the information obtained could be used to develop biological weapons targeting specific groups... or individuals.”*

Sounds exactly like what Russia have been alleging all along. That the U.S. have been producing biological weapons to ethnically cleanse certain individuals of select genome sequences. Idk about you all, but ethnic cleansing with biological weapons doesn’t sound very “Democratic”, but maybe that’s just me.

Russia says this activity gives reasonable cause to question U.S. military biologists in the emergence and spread of the COVID-19 pathogen. Russia cites:

*“In May 2022, Jeffrey Sachs - a leading expert in the respected medical journal The Lancet and professor at Columbia University, the leading academic institution for global biosecurity, told a conference in Spain that ‘..the coronavirus was artificially created and is very likely to have been created using American advances in biotechnology...’.”*

Take that in for a moment. Yup. Russia just accused the United States of creating and releasing Covid-19. But wait, there’s more.

Russia confirms the unnatural behavior of C19 proves that this virus was not only man-made, but being constantly worked on and “artificially fueled” via the introduction of different variants to different regions.

Myself and many others have been leaning towards the idea that Wuhan was not the only “origin” of the C19 outbreak. It was released at multiple labs around the world, with different specially engineered variants, designed to target the people of the region with genome specific C19 virus. This was likely done to throw off the scent that would lead to a single release point and identify a single source leading to key names and groups responsible.

The DNC Globalists were using Ukraine as the home base for production of the virus, then shipping the genome specific viruses to labs around the world, to be released to ensure the virus infected the entire world...

According to our experts, this is evidenced by the uncharacteristic variability of the geno-variants that cause different peaks in the incidence of coronaviruses, significant differences in lethality and contagiousness, uneven geographical

distribution, and the unpredictable nature of the epidemic process as a whole. It appears that despite efforts to contain and isolate the disease, the pandemic is being artificially fueled by the introduction of new variants of the virus in a particular region.

Russia goes on to directly accuse the U.S. Agency of International Development, (USAID), of involvement of the creation of the new Covid variants. Citing that they have been studying coronavirus since 2009 (Obama), and that one of the main contractors for the project is the infamous Biden bio-lab company, Metabiota, the main source of biological malfeasance in Ukraine.

The implementation of the COVID-19 scenario and USAID's emergency wind-down of the Predict program in 2019 suggest the deliberate nature of the pandemic and US involvement in its emergence.

Russia believes not only did the U.S. create and release C19, but they did so with deliberate intentions.

**And just when you thought it couldn't get any worse... it gets worse.**

In the third slide, Russia highlight the activities of Labyrinth Ukraine. Particularly their vaccination of Ukrainian soldiers, and collecting biological samples from them so they can develop genome specific biological weapons. Citing one of the main contractors affiliated with Labyrinth is, once again, Biden's Metabiota.

**Russia also notes that Labyrinth Global Health have been studying CORONAVIRUSES AND MONKEYPOX.**

**Thus we see a clear trend: infectious disease agents that reach the Pentagon's zone of interest are subsequently pandemic, with U.S. pharmaceutical companies and their patrons, the leaders of the U.S. Democratic Party, as the beneficiaries.**

**HOLY %HIT... Russia just said the DNC and U.S. big pharma are intentionally causing pandemics to win elections...**

**Globalists Initiate Monkeypox Fear Campaign to Push for Mail-In Voting!**

It appears the majority of the community, were correct to foresee the DNC/Globalist plan to introduce Monkeypox as the next “*emergency*” to instill fear in the sheep and justify mass mail-in voting, so they can utilize their voter fraud network, as per “2,000 Mules”... {a reference to the video that exposed the stuffing of ballot drop boxes after the voting polls were closed}.

**In conclusion, Russia has now DIRECTLY accused the DNC Globalists of:**

- creating and releasing new variants of Coronaviruses, and now Monkeypox, intentionally, for the purposes of political control and world domination.
- using non-consensual experimentation on citizens of the world to create genome specific biological weapons for ethnic cleansing.
- creation and usage of narcotics, such as methamphetamines, on Ukrainian forces to dehumanize them in order to carry out heinous crimes against humanity on civilians in Ukraine.

Russia just confirmed the overall narrative; that the war in Ukraine is backlash for the Deep State's creation and usage of Covid-19. We are already in WW3 and C19 was the first weapon fired.

The fact that Russia have now come out and openly called this spade a spade... suggests we are approaching the finish line. Russia claims final dossier will be complete in "Autumn".

Aussie Reporter EXPOSES Zelensky As A FRAUD And Criminal — 'He's Nothing Like The Western Media Is Portraying Him'

*"Something about all this doesn't add up. There's an agenda at work in the Ukraine that is much greater than staving off the Russian invaders. We are wise to take everything we're told about this conflict with a huge grain of salt" he says. Zelensky is exposed by Bernardi in about five minutes, including his affiliation with the Nazi Azov Battalion, his restriction on free speech, his crimes, and his "fame whoring."*

The president of Ukraine, Volodymyr Zelensky, is not all that the Western media portrays him to be, according to reporter Cory Bernardi of 'Sky News' Australia.

He's not saluting the University of Texas Longhorns now, is he? I think that says all you need to know about him. And yet Joe Biden authorized another billion \$\$ just in the past day or two, August 5<sup>th</sup>, 2022! Biden to Send Another Billion Dollars to Ukrainian Regime and Oligarchs to Prop Up War Machine --What recession? Biden has delivered over \$63 billion to Ukraine. The regime is stockpiling Ukraine with cash, weapons, and support in the war with Russia. Joe Biden has sunk billions of U.S. taxpayer dollars into the misguided venture. And tonight there are reports Joe Biden is going to sink another billion dollars into the failed venture. Three sources told Reuters on Friday, *"The Biden administration's next security assistance package for Ukraine is expected to be \$1 billion, one of the largest so far, and include munitions for long-range weapons and armored medical transport vehicles..."*

Ukrainian forces 'put civilians at risk' – Amnesty International stated. "Kiev is routinely using schools and hospitals as military bases, the rights group says". on August 4<sup>th</sup>, 2022 | Ukrainian forces appear to have a pattern of placing troops and military vehicles in residential areas, including using hospitals as de facto military bases, Amnesty International said on Thursday. Such actions violate international humanitarian law and put civilian lives at risk, the human rights NGO said. The accusation is based on research that Amnesty conducted between April and July in the east of Ukraine. In 19 towns and villages, it found evidence that Ukrainian forces launched strikes from within residential areas. In several cases they were targeted by retaliatory Russian attacks, some of which killed civilians, the report said. In 22 out of the 29 schools visited by Amnesty they said they found evidence of current or prior military activity. In five locations they witnessed Ukrainian troops using hospitals as bases, which was "a clear violation of international humanitarian law." The relationship between Joe Biden, his son Hunter, with Volodymyr Zelensky can only mean bad news to the U.S.

## THIS IS MURDER SANCTIONED BY THE STATE!

Life Insurance claims skyrocket after COVID jab rollout, prompting insurers to take legal action against vaccine manufacturers

Wednesday, August 03, 2022 by: Lance D Johnson

([Natural News](#)) Life insurance claims have skyrocketed since the COVID jab rollout, dwarfing the number of claims made during 2020 when a high-mortality-rate-pandemic was supposedly ravaging the Nation. Yale epidemiologist Harvey Risch believes that insurance companies are on the verge of [taking legal action against vaccine manufacturers](#) over vaccine-associated death risks that were downplayed from the very beginning.

Risch points to an explosion of “*early unexpected mortality claims*” after the COVID vaccine rollout. This influx of life insurance claims is not even COVID-related, and insurers are struggling to pay out. Risch says that vaccine manufacturers misrepresented the “*all-cause mortality*” from their very own clinical trials, not only deceiving the population into taking dangerous vaccines, but also misleading the insurance companies who are now forced to pay for thousands of needless deaths in young and middle-aged adults.

Will insurance companies seek financial compensation from the COVID-19 vaccine manufacturers to cover for “*major financial risk[s] that they have to figure out how to manage*” going forward?

Epidemiologist believes life insurance companies may sue vaccine manufacturers for misleading statements.

Risch has analyzed statements made by the CEOs of various group life insurance companies. He claims that the actuaries miscalculated, estimating that the vaccinated would “*live longer than they have.*” Risch said the actuaries were deceived on “*all-cause mortality...from the original [vaccine] trials.*”

In December of 2021, OneAmerica CEO Scott Davison attended a healthcare conference and spoke up about an [“unheard of” 40 percent spike in the death rate](#) of working-age people insured by the company. The 40 percent increase in death made no rational sense because the covid-19 vaccine had been rolled out the entire year. Government and public health officials promised that this [vaccine program](#) would save lives and end the pandemic.

Davison said that a 10 percent increase in death would have required a “*one-in-200-year-catastrophe.*” There was no way the company could have predicted a 10 percent increase in death claims, let alone a 40 percent increase, when the worst of the pandemic was supposed to be in the rear-view mirror. The vaccines were safe and effective, they were told, and no one was allowed to question the god-like status of these experimental jabs.

Most shocking, Davison said that the majority of insurance claims filed ARE NOT COVID-related deaths. In 2020, almost any medical issue could be coded as COVID-19, no matter how faulty the testing was, no matter how many underlying health issues and medical errors were to blame for the deaths. For the death rate to spike 40 percent and NOT be related to COVID-19 is an anomaly of mass proportions.

Will life insurance companies get a settlement from the vaccine makers, as the cycle of depopulation is swept under the rug?

At Lincoln National, actuaries reported a 163 percent increase in death benefits paid out in 2021, after the vaccine was rolled out to the public. The large insurer

paid out \$500 million in 2019, \$548 million in 2020, and a whopping \$1.4 billion in 2021.

The global pandemic didn't cause a drastic change in death benefits paid out, but for some reason, excess mortality was highest in 2021, when the COVID vaccine promised a way out. The year of the vaccine brought a tsunami of excess mortality, spiking the death rate to levels unthinkable for insurance companies to handle. Lincoln Financial is not poised to sue the vaccine manufacturers, however. Instead, they are justifying the surge in death payouts, pointing to "less favorable returns within the company's alternative investment portfolio" that year. Lincoln Financial spokesperson Kelly DeAngelis said the company acquired Lincoln Life Assurance Company of Boston in 2021 and took on a slew of new claims. Even this acquisition does not explain the abnormal surge in death benefits paid out in 2021.

Perhaps the insurance companies will ultimately seek some kind of [settlement from the vaccine manufacturers](#) – to brush the depopulation issue under the rug.

### **Lab Rat Offspring Got Rib Malformations After COVID Vaccination: Moderna Trial Documents**

August 20, 2022

The FDA stated on Jan. 30 that there were no negative effects on postnatal developments. However, lab rat offspring managed to get rib malformations after COVID vaccination, reveals the Moderna trial documents.

Using the Freedom of Information Act, Judicial Watch was able to acquire information from Moderna detailing its COVID immunization experiment on animals, which revealed that some of the rats' pups who received the company's mRNA shot were born with rib abnormalities.

The 700 pages constitute a section of the official Biologics Licensing Application (BLA) package that a firm must submit to the FDA for approval.

The documents were examined by the media and former pharmaceutical executive Alexandra Latypova despite not yet being made public.

The documents contain test data demonstrating that Moderna mRNA injections generated statistically significant bone abnormalities in the progeny of rats given mRNA-1273 (Spikevax mRNA) dosages.

*"mRNA-1273-related variations in skeletal examination included statistically significant increases in the number of F1 rats with 1 or more wavy ribs and 1 or more rib nodules. Wavy ribs appeared in 6 fetuses and 4 litters with a fetal prevalence of 4.03% and a litter prevalence of 18.2%. Rib nodules appeared in 5 of those 6 fetuses,"* according to Moderna's internal documents.

F1 stands for the rat offspring, while litter denotes the birth of several rats at once.

*“Maternal toxicity in the form of clinical observations was observed for 5 days following the last dose (Gestation Day 13), correlating with the most sensitive period for rib development in rats (Gestation Days 14 to 17)”* the documents state.

## **Scientists with ties to Bill Gates and Anthony Fauci Admit to Developing Vaccine that Spreads Like a Virus**

08/04/2022 / By Mary Villareal

Scientists linked to Bill Gates said they are developing a [vaccine that spreads like a virus](#).

The research is subsidized by high-profile funding organizations with longstanding and close financial ties to the Bill & Melinda Gates Foundation. It is also supported by the National Institutes of Health, the mother agency of Dr. Anthony Fauci’s National Institute of Allergy and Infectious Diseases.

[Self-spreading vaccines](#) are rooted in efforts to reduce pest populations. The virally-spread immune-contraception hijacks the immune systems of infected animals like non-native mouse species, preventing them from fertilizing offspring.

The earliest self-spreading vaccine efforts targeted two highly lethal infectious diseases in the European rabbit population in 2001. Spanish researchers field-tested a vaccine in the wild rabbit population on a small island just off Menorca. The vaccine spread to over half the 300 rabbits on the island, and the trial was said to be a success.

While the researchers may intend to make self-spreading vaccines, there could be ways to repurpose this science to develop biological weapons, which may prove uncontrollable and irreversible.

Humans have been weaponizing biology since 2000. A new virus has been released every two years since 2000. Dr. David L. Martin has been studying the patents issued since the late 1990s and has confirmed this to be TRUE!

Humans have already weaponized biology on several occasions. As the apartheid-era South African bio-warfare program showed, social, political and scientific pressures can lead to the misuse of biological innovation.

Project Coast, as it was called, was South Africa's program primarily focused on covert assassination weapons for use against individuals deemed a [threat to the racist apartheid government](#). In addition to producing contraptions to inject poisons, Project Coast researchers developed techniques to lace sugar cubes with salmonella and cigarettes with Bacillus anthracis.

There had been many bio warfare programs, including several that were far more elaborate and sophisticated, but the South African program is important in thinking through malicious uses of self-spreading vaccines. One of Project Coast's research projects aimed at developing a human anti-fertility vaccine.

This idea came at a time when there was widespread concern over population explosion. Schalk Van Rensburg, who oversaw the fertility-related work at Project Coast, believed that this could bring his lab international acclaim and funding. (Related: [The Bill Gates globalist vaccine depopulation agenda... as revealed by Robert F. Kennedy, Jr.](#))

Van Rensburg and the director of the bio warfare program, Wouter Basson, said the military needed an anti-fertility vaccine for female soldiers not to become pregnant.

Other scientists involved in the project denied awareness of ulterior intentions or even their fertility work as part of a military endeavor. However, Van Rensburg and lab director Daniel Goosen said the real intention of the project was to selectively administer the contraceptive in secret to unsuspecting Black South African women.

In the end, the anti-fertility vaccine was not produced before Project Coast officially closed down in 1995 – 12 years after it was initiated. It ended with an earlier version tested in baboons, but never in humans. (Related: [Bill Gates pushes for a 90 percent vaccination rate worldwide](#).)

South Africa was not the only country to try to forcibly sterilize its population. European countries like Sweden and Switzerland sterilized members of the Roma minority in the early half of the 20th century, while countries like Slovakia continued beyond that.

More recently, analysts alleged that the Chinese government has been sterilizing women in Xinjiang, which is a province with a large population of Uyghur Muslims.

The Defense Advanced Research Projects Agency (DARPA) has also gotten involved in the research. The [University of California, Davis](#) has been working on a DARPA-administered project that is creating the first prototype of a self-disseminating vaccine designed to induce a high level of herd immunity against the Lassa virus and Ebola.

World governments at Agenda 21 in 1992 at Rio di Janeiro, Brazil launched a silent war upon their own people, using quiet weapons, lies and propaganda. The mainstream media is enabling this deception and genocide. Our mission in this war is to bring you the truth.

Because I am not recognized as a trained scientist, I AM NOT CONSIDERED TO BE A CREDITABLE to prove my contention that Covid-19 was genetically engineered through the use of CRISPR-Cas9 “gene” engineering methods. I have done my homework and diligence on this premise. The growing data and various studies provide more than just a circumstantial evidence (if not causal) that the spike protein as a vector was manipulated in an infinite number of ways to confuse the medical and scientific community. With the VAERS reporting system showing 30,000+ deaths to the vaxxes is ample evidence to validate my original premise that this is not about a hoaxed virus but is about Genocide by State sanction! Never in the history of the pharmaceutical industry has there been such ignoring the death numbers caused by the “gene” therapy. The swine flu vaccine was suspended after 27 deaths were reported in the initial phase of vaccinating the American public. This is premediated murder by the big pharma/health agencies/government!

It was Pfizer’s CEO, Albert Bourla and Moderna’s Tal Zak who said that *“We cracked the Code of Life”*. He called his vaxx a *“Delivery System”* which in itself infers that it was delivering more than a vaccine. We know with total certainty that it is delivering a spike Protein that continues to replicate itself once injected into the human body. Dozens of articles shared in this series have confirmed human manipulation of what people were injected with is not therapeutic but toxic and potentially fatal! It is the use of CRISPR-Cas9 “gene” editing that can be used for good but can also be used for evil nefarious applications!

Each day brings us another piece of the puzzle of what is the bringing into focus in how the global elite are pulling off this crime against humanity! Although this segment is perhaps the longest, it is also loaded with facts and evidence confirming everything I have said from the beginning of the Covid scandemic!

**Our Government wants you DEAD!  
This includes the CDC, NIH, NIAID,  
and the World Health Organization!!  
The “Depopulation” agenda began  
Shortly after the 1968 publication of  
*“The Population Bomb”*  
by Dr. Paul Ehrlich and his wife Anne.**

“Depopulation has been the World’s #1 Issue since 1968!” It underlies every global issue since. Whether it is climate change or the Global Reset, “**depopulation**” is at the core of everything!! It’s all about Sustainable Development!

Anyone who is a skeptic of my statement should Google search the term “Georgia Guidestones” and read their goal engraved in granite stone back in 1980. The stone structure calls for the eradication of 93% of the world’s population. This is both an unsigned confession as well as a “Projection” of what they planned to do in their global genocidal plan.

**At 4:00 AM, Wednesday, July 6<sup>th</sup>, 2022, unknown parties blew up the Georgia Guidestones. The following day an excavator was brought in to demolish the standing portion. Investigative journalist Jim Stone stated surveillance video tape taken from two different directions showed no one approaching the monument before the detonation, and suggested that it may have been an inside job.**

The Internet contains ample photos of the Georgia Guidestones when they were standing on the hills of Elberton, GA.

Blessings,
