

# MOTIVE FOR THEIR INVASION: RUSSIA REVEALS THEY COLLECTED EVIDENCE OF AVIAN FLU PATHOGENS WITH LETHALITY RATE UP TO 40% IN HUMANS AT U.S. BIOLAB IN UKRAINE

It wasn't that long ago that Mitt Romney was [threatening former Rep. Tulsi Gabbard](#) for suggesting the U.S. was funding biolabs in Ukraine.

This from [thegatewaypundit.com](#).

Back in March 2022, RINO Senator Mitt Romney accused former Democrat Rep. Tulsi Gabbard of spreading 'treasonous lies' for simply talking about the U.S.-funded biolabs in Ukraine.

Gabbard said at the time:

There are 25+ U.S.-funded biolabs in Ukraine which if breached would release and spread deadly pathogens to U.S./world.

She added:

We must take action now to prevent disaster. U.S./Russia/Ukraine/NATO/UN/EU must implement a ceasefire now around these labs until they're secured and pathogens destroyed.

Tulsi Gabbard made her statement based on testimony from the Undersecretary of State for Political Affairs in Eurasia, Victoria Nuland.

Victoria Nuland admitted during testimony before a U.S. Senate committee the existence of biological research labs in Ukraine.

**Less than 24 hours later, White House Press Secretary Jen Psaki said that reports of biolabs in Ukraine were [fake news propagated by Russia](#).**

**The communist/globalist-mass propaganda media complex then attacked anyone who brought up the biolabs in Ukraine.**

Mitt Romney lashed out at Tulsi Gabbard, saying:

Tulsi Gabbard is parroting false Russian propaganda. Her treasonous lies may well cost lives.

**Then this happened:**

**Russia released alleged captured documents from Ukraine exposing evidence of U.S. Military Biolabs in Ukraine.**

**And Russia made the accusations in front of the United Nations General Assembly.**

**The Pentagon in June 2022 finally admitted [in a public statement](#) that there are 46 U.S.-funded biolabs in Ukraine.**

**This is after months of lies and denials by communists/globalists, the Obiden Regime, and their colluding mass propaganda media!**

**The Pentagon FINALLY came clean.**

**Now Russia is accusing the U.S. of experimenting with Avian flu pathogens at a U.S. biolab in Ukraine with a lethality rate up to 40% in humans.**

Russian officials [announced their findings](#) on Friday:

The Ministry of Defence of the Russian Federation continues to analyze the military and biological activities of the U.S. and its allies in Ukraine and elsewhere in the world.

We noted earlier that during the special military operation, **documentary evidence was obtained** confirming that employees of the Biosphere Reserve in Askania Nova, Kherson region, were studying the migration routes of migratory birds and selecting and transferring biological material abroad.

The task force of the Russian Ministry of Defence together with officers of the Federal Security Service and Rosselkhoznadzor have **confirmed the collection and certification of avian influenza virus strains with a high potential for epidemic spread and the ability to cross the species barrier**, particularly the H5N8 strain, whose **lethality in human transmission can reach 40%**. Remember that 1% of new coronavirus infections result in death.

Despite efforts by the Reserve's staff to destroy the biomaterials by cutting off the power to the refrigeration units and destroying the cryopreservoir with liquid nitrogen, **specialists from the 48th Central Research Institute of the Russian Ministry of Defence found traces of genetic material of highly pathogenic avian influenza, Newcastle disease virus, and avuloviruses even in the samples that had undergone decomposition.**

According to the employees who remained in the Reserve, the Ukrainian side offered them a large cash reward for removing or destroying the research results.

**Documents seized in the Reserve's veterinary laboratory confirm** the involvement of the Kharkov Institute of Veterinary Medicine in the work of the American UP-8 and P-444 Projects and preparations for the Flu-Fly-Way project.

Their goal was to evaluate the circumstances in which the transmission of diseases associated with economically significant infections may become uncontrollable, result in economic harm, and constitute a threat to food security.

It is necessary to emphasize that once more that **the U.S. Department of Defense, an organization that has nothing to do with the research of bird migratory routes, commissioned the projects.**

| Final thoughts: The ~~democrat~~ communist/globalist crime syndicate must be outlawed, destroyed, and prevented from ever metastasizing again. All those involved in any of the plethora of crimes of the communist/globalist crime syndicate must be incarcerated, prosecuted, and dealt with most severely.

Easier said than done. This is WAR and it will last for years and then require many more years of clean up.

God speed to Conservatism and to the Take Back of our Constitutional Republic.

Blessings,
