

# Mark Steele on 5G, Nanotech Weapons in C19 Shots, Use of Heavy Metals as Weapons Systems

I have known **5G** was a weapons system going back to the 1990s. UK experts like Dr. Barry Trower and Mark Steele were warning the public of the roll out of **5G** towers long ago. This article expands upon what Mark Steele has previously shared with additional information on technical knowledge readably at hand for our benefit and confirms what links the alleged Covid Vaxxes with **5G** EMF/EMR radiation poisoning. In a “nutshell” **5G** is a much larger factor but in multiple ways that it is being applied.

**EB Editor:** We have lately been taking an interest in all those ‘truther’ doctors who resolutely refuse to deal with the problem of **graphene oxide** and other metals found by, according to **Dr. Jane Ruby**, around 150 researchers worldwide. One of those research teams finding graphene is **La Quinta Columna** from Spain, whose work we highly recommend.

There is certainly a cover-up of this aspect of the kill shots by **Messrs. Malone, Cole, McCullough**, etc. as they bang on about ‘mRNA’ and spike proteins; And focus on Big Pharma treatments, while they **point fingers at ‘China’** instead of Fauci and crew. They carry many others in their wake, unfortunately.

Shutting down **Dr. Astrid Stuckleberger** recently at a Swedish conference organized by no less than Dr. Robert Malone and Dr. Ryan Cole was all part of this. According to **Jane Ruby**, Cole ‘got his ass handed to him’ by Dr. Stuckleberger, whose main presentation took to task the dreadful agenda the WHO has had for us. Kudos for Dr. Astrid Stuckeberger.

Here we attempt to understand what ignoring this valid aspect of the toxic vaccines means.

**Which means resurrecting some old territory.**

While we can't vouch for this, we have heard on the grapevine that **5G** technologies, at least as it was originally designed and planned, **has largely been shut down because it is indeed a kill technology.** Mark Steele notes that below. See his comments on South Korea and Wuhan. (So if the bad guys are still in charge, then who's done this?) We notice that three years later, following the initial scare campaign about 'Covid' and the first lockdown in the spring of 2020, the promised **5G** towers every 100 meters along our streets, with trees duly chopped down, haven't materialized. Thankfully, neither have the smart meters. In France, these were all being publicized three years ago. **There is a reason for this but it will happen relatively closer than you might believe.**

Here's what these so-called truther doctors are willfully turning their backs on. Dr. Ryan Cole did that recently in a terrible interview with Del Bigtree. *"There is no graphene oxide in vaccines"* was his claim and best bud Bigtree just nodded.

Thanks to Dr. Ana Mihalcea for bringing this Mark Steele video to our attention, containing as it does some linkage between South Korea, Wuhan, northern Italy, **5G** and vaccines loaded with toxic heavy metals.

**NOTES**

This explanation links more than 30+years of chem-trailing (geo-engineering), which has been dousing our air, water and land with aluminum Nano-particulates with recent vaccines and **5G** technology. In warfare, this type of metals contamination permits one side to see where its enemy is through radar. In a sense, it's logical for this purpose. But certainly not for regular life.

The difference between 4G and **5G** is this: 4G is like a lightbulb with the lamp shade off. As you move further away from it, there is less power. **5G**, however, is like a torch that scans the area around it. It's a signal, a direct energy weapon that can be beamed directly at someone. Pointed at someone's head, it could cause a stroke. Such signals can cut through stainless steel. They are ionizing, despite what we've been told. So focused 5G energy can be used to activate metals inside the human body. The flu vaccines over the years have had metals contaminants in them. Tungsten is one of these. The mRNA vaccines are loaded up with them — aluminum, zinc, tungsten, etc. It means that with current technology, a person can be located but only as a type of ghost. If you're loaded up with tungsten and aluminum, etc., however, you can be located clearly, with the beam directly aimed at you. It's much more easily done when a person is loaded up with metal contaminants. There's no pharmacological reason for these medical products being loaded up with these metals and inserted into the human body.

People loaded up with metals become a type of RFI (antenna) – a dormant radio frequency emitter. So when radiation from external 5G sources hit you, this causes a person with metals in them to radiate those around them. Someone next to a vaccinated person can be seen to be unvaccinated. And they will be susceptible to the radiation that the vaxxed person is giving off. Both vaxxed and unvaxxed can get sick, but the unvaccinated can get sick from the vaccinated in this way. Cities are especially toxic for this because this is where 5G is mostly located. Example: NYC has 617 cell towers, Los Angeles has 314.

The World Economic Forum (WEF) didn't plan for 6G because, by 2025, they expected a lot of dead people, whose wealth they could appropriate. (He talks about the utter toxicity of masks here.) So there has been a chem-trailing program to load people up with metals, in conjunction with vaccine technology since 1996. But the proviso is that people MUST TACITLY AGREE TO IT. Truth be known, they know nothing!

5G towers near homes are basically ways to spy on those homes and to record what products (which would all be electronically radiative with scan tags on them) were used. People would be scanned 24/7. Local councils spend a lot in waste management, so they've been enticed by the idea that citizens will be fined for what they throw away. But this is a distraction because the equipment is basically planned for mass genocide. People who take away our trash, fix our electricity cables, etc. have no idea about this.

The vaccines can increase the effect of the radiation sprayed on you in your area. Initially, a lot of placebos were rolled out because they can't kill everyone all at once. (*ER: This is a different explanation to why more people haven't been killed by the shots than the one Ryan Cole gave publicly, to do with 'degraded mRNA'.*) But this is where the boosters come into purpose. A new 'variant' can be created by the weapons system picking out an area with a lot of vaccinated people in it. These people can be identified through radar, and where they are (a building) can be pulsed with EMFs. Thus you get an 'outbreak' of sick and dead people; which supports the variant 'pathogen' narrative. So it is the vaxxed that are set to be sick and hospitalized. The data then backs this up. This sets up the narrative for a need to be re-boosted. Sic but creative.

In South Korea in 2019, the 5G system was turned on and five cities were set on fire. If you turn up the 5G system, the electrical grids go down and equipment burns. Injecting people with a vaccine works better because the energy system doesn't have to be turned up so much. People who died in northern Italy in 2020 had been primed with the flu jab. Then 5G was turned on, making the vaccinated more toxically susceptible to the 5G frequencies. The kill grid with 5G can only work if people are already injected.

Wuhan was a test: they vaccinated people in Wuhan in November 2019. Then they were put in the 5G grid. Mark Steele has seen pictures of people projectile vomiting up blood as a result of this experiment. (*So that may mean that the pictures we saw of people in Wuhan dying weren't necessarily false.*) But for that to happen, people had to be vaccinated so their vaccinated bodies could be destroyed with less frequency emission. Sorbitol has been added to these vaccinations, which opens up the

blood/brain barrier. Hence nanoparticles such as those of Tungsten go directly into the brain. China did vaccinate the entire country during the summer of 2019 as part of a national program. It does indicate that China did not turn on their 5G at full force as was first thought. They “modulated” their 5G output to see how much energy is needed to achieve specific results. Why is this of such importance?

There is a bigger picture here that maybe Mark Steele is not aware of. As part of the Agenda 21 (2030) goals, countries must reduce their agriculture output by a third. To reduce fossil fuel consumption which is part of the 2015 Paris Accords to address climate change countries must comply or go out of business.

What is at stake here is whether it is legally binding and its consequences!

The UN Framework Convention on Climate Change is unequivocal by describing the 2015 Paris Agreement as a “legally binding international treaty on climate change.” Yet the treaty itself has few legal teeth. It does not impose penalties, such as fees or embargos, for parties that violate its terms, and there is no international court or governing body ready to enforce compliance. That has prompted some prominent experts to argue the Paris accord is not a legally binding document after all.

When the Paris Agreement was being drafted by global representatives from future member countries, the question of how legal and enforceable it could be was hotly debated. For the U.S. to back the treaty, for example, it could not hold the U.S. accountable for specific outcomes. If it did, former president Barack Obama would have required approval from two-thirds of the U.S. Senate, which was at that time controlled by Republican lawmakers who opposed the deal.

Instead, treaty negotiators made a clever concession: they chose to make the treaty’s required processes legally binding, not the obligation to meet prescribed goals. That means the accord legally compels countries to devise and regularly update nationally determined contributions (NDCs) to the collective effort to reach net-zero emissions by 2050 and limit global warming to 2 degrees Celsius, for example. It also demands they meet and report on their progress at conferences like COP26.

But countries are only expected to create increasingly ambitious goals for cutting emissions; technically, however, they can revise their NDCs in any direction without being tossed out of this global project. (Even despite the flexibility, Obama ratified the accord through an executive order, calling it a non-binding political agreement, rather than a treaty).

By some accounts, the accord’s hybrid legal structure and its emphasis on establishing new norms from the bottom-up, explains how it attracted an impressive 195 global signatories, making it a truly transnational effort that’s better positioned to succeed than its predecessor the Kyoto Protocol. By contrast, Kyoto set up rigid, top-down goals and asked developed countries to take on a greater burden than developing countries, both

of which led to far lower levels of participation and saw some members defying or withdrawing from the treaty entirely.

Larry Fink, CEO of BlackRock Fund Management, and Michael Bloomberg of Bloomberg News Media and Bloomberg Philanthropies are in the process of destroying the U.S. through their pressure on corporations to either play ball or prepare to go out of business. Since all businesses need investment capital to build and do business, they either comply with an environmental business plan that is zero carbon footprints compliant or plan to shut their doors forever.

Shell's directors are being personally sued for allegedly failing to adequately manage the risks associated with the climate emergency in a first-of-its-kind lawsuit that could have widespread implications for how other companies plan to cut emissions.

Environmental law firm ClientEarth, in its capacity as a shareholder, filed the lawsuit against the British oil major's board at the high court of England and Wales on Thursday.

It alleges 11 members of Shell's board are mismanaging climate risk, breaching company law by failing to implement an energy transition strategy that aligns with the landmark 2015 Paris Agreement.

The claim, which has the backing of institutional investors with over 12 million shares in the company, is said to be the first case in the world seeking to hold a board of directors liable for failure to properly prepare for the energy transition.

*"Shell may be making record profits now due to the turmoil of the global energy market, but the writing is on the wall for fossil fuels long term,"* Paul Benson, senior lawyer at ClientEarth, said in a statement.

*"The shift to a low-carbon economy is not just inevitable, it's already happening. Yet the Board is persisting with a transition strategy that is fundamentally flawed, leaving the company seriously exposed to the risks that climate change poses to Shell's future success — despite the Board's legal duty to manage those risks,"* Benson said.

The group of investors supporting the claim include U.K. pension funds Nest and London CIV, Swedish national pension fund AP3, French asset manager Sanso IS and Danske Bank Asset Management, among others. Altogether, the institutional investors hold more than half a trillion U.S. dollars in total assets under management.

*"We do not accept ClientEarth's allegations,"* a Shell spokesperson said. *"Our directors have complied with their legal duties and have, at all times, acted in the best interests of the company."*

*“ClientEarth’s attempt, by means of a derivative claim, to overturn the board’s policy as approved by our shareholders has no merit. We will oppose their application to obtain the court’s permission to pursue this claim,” they added.*

Shell, which is aiming to become a net-zero emissions business by 2050, said it believes its climate targets are Paris-aligned.

ClientEarth said leading third-party assessments have suggested this is not the case, however, noting Shell’s strategy excludes short to medium-term targets to cut the emissions from the products it sells, known as Scope 3 emissions, despite this accounting for over 90% of the firm’s overall emissions.

The aspirational goal of the Paris Agreement is to pursue efforts to limit global heating to 1.5 degrees Celsius above pre-industrial levels by slashing greenhouse gas emissions. The fight to keep global heating under 1.5 degrees Celsius is widely regarded as critically important because so-called tipping points become more likely beyond this level. These are thresholds at which small changes can lead to dramatic shifts in the Earth’s entire support system.

To be sure, the burning of fossil fuels, such as oil and gas, is the chief driver of the climate emergency.

The case comes shortly after Shell reported its highest-ever annual profit of nearly \$40 billion. The energy giant’s 2022 earnings smashed its previous annual profit record of \$28.4 billion in 2008 and were more than double the firm’s full-year 2021 profit of \$19.3 billion.

Shell CEO Wael Sawan described 2022 as a “huge year” for the company, saying he felt privileged to be stepping into the role he started on Jan. 1.

*“As we look ahead, I think we have a unique opportunity to be able to succeed as the winner in the energy transition. We have a portfolio that I think is second to none,”* Sawan said.

Shell’s results came as part of a Big Oil profit bonanza last year, bolstered by soaring fossil fuel prices and robust demand since Russia’s full-scale invasion of Ukraine.

Prince Charles of Wales at the COP26 Conference at Glasgow, Scotland called for a “vast military-style campaign” to meet the guidelines of the Paris Accords. Then early 2022, Ireland was told to reduce its agricultural output by one-third; similar mandates were issued against the Netherlands and farmers were forced to sell their farms.

The fall out of these measures result in reduced food production and in many cases starvation of their populations, loss of employment, and social unrest as well. At this juncture point you may begin to see what the end game is for the virus scam. Putting in the most basic of terms, humanity is being forced to commit suicide so that Prince

Charles “Sustainable Development” can be achieved, through depopulation of much of the world’s 8-billion people. The WEF’s answer to this planned destruction is for people to own nothing and like it; including replace animal protein with bugs and crickets.

To stay informed of where this nightmare is going, follow the law suit against Shell Oil in the weeks ahead.

Mark Steele on **5G**, Nanotechnology Weapons in C19 Shots, Use of Heavy Metals as Weapons Systems – ABSOLUTELY MUST WATCH

[Ana Maria Mihalcea, MD, PhD](#)

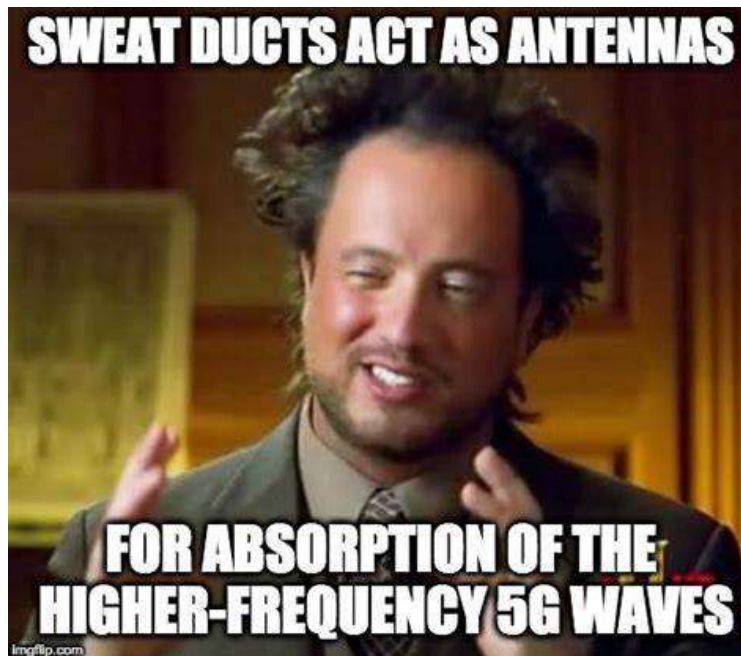

Watch this important video here: **[Mark Steele has a heavy Irish brogue so one has to listen closely to get his message out. I am Irish and he can be hard to listen to and fully understand what he is saying. He is an expert in the military applications of 5G technologies.]**

### **THE KILL GRID – MARK STEELE | TUNGSTEN IN VAX MAKES HUMANS ‘DORMANT RADIATION TRANSMITTERS’**

I believe that corroborating information amongst many disciplines is important to gain deeper understanding of this war. In this excellent interview Mark Steele, weapons expert, explains how **the metals and Nano-technology in the C19 shots are used as a weapon in conjunction with 5G.**

He explains that **the more metals a person has in them, they become radio traceable from space for directed energy weapons kill missions.** He explains that he has intelligence documents that speak of the plan of killing 200 Million Americans by 2025. He advises to get out of the cities which are **5G** radiation

hotspots. **5G** is used to target areas to create “viral outbreak centers”. The sweat gland pores act like antenna receivers/transponders.

If you do not believe that, remember the retracted paper that **5G** can create the **Coronavirus** in skin cells:

Retraction of Publication > J Biol Regul Homeost Agents. 2020 Jul 16;34(4).

doi: 10.23812/20-269-E-4R. Online ahead of print.

## RETRACTED: 5G Technology and induction of coronavirus in skin cells

### Abstract

This article has been retracted at the request of the Editor. After a thorough investigation the Editor-in-Chief has retracted this article as it showed evidence of substantial manipulation of the peer review.

Copyright 2020 Biolife Sas. www.biolifesas.org.

He explains how this weapons deployment was tested in **South Korea in 2019**. The **vaccines are to be able to kill people with less 5G radiation** due to the metals that

people have in them. He speaks about Tungsten, which is a particular metals used in weapons systems and mentions that the only reason to use Tungsten is to kill you.

He also discusses **Aluminum and other metals** that we know are in the shots as well as sprayed on us via **geo-engineering**. People ask me a lot why I recommend so adamantly the **EDTA Intravenous Chelation**. That is because there is no other way that is more effective to get these metals out of the body fast. See below a metals test after one intravenous chelation with 1500mg EDTA. Look at what came out of that person who lives cleanly, eats only organic foods and lives in the country. How much radioactive Uranium and Cesium to contribute the radiation. How much toxic Aluminum and Barium? Look at the Tungsten that Mark Steele mentions.

### Toxic Metals; urine

TOXIC METALS					
		RESULT µg/g Creat	REFERENCE INTERVAL	WITHIN REFERENCE	OUTSIDE REFERENCE
Aluminum	(Al)	2200	< 25

URINE CREATININE							
	RESULT	REFERENCE INTERVAL	-2SD	-1SD	MEAN	+1SD	+2SD
Creatinine	25.6	30 – 225					

This person is NOT vaccinated. My personal view is, if you want to be amongst the 1/3 of Americans who survive this war by 2025, find a Chelation practitioner. You can search for them online. Other forms of EDTA (Oral, transdermal, rectal) are not able to pull this massive amount of metals out fast enough because the dosing is too small. **Everyone has this in them.** It is the metals that will increase vulnerability to **5G** radiation and be killed when **5G** is completely turned on. You can use other metal detox, but if you have metals in your organ system at this high level, how long will this take to pull out?

Yesterday, where I live in Kentucky the sky was clear blue but the sky was filled with the visible chemtrail toxic mix of aluminum, barium, and other heavy metals toxic to the body. The aerial spraying pattern was parallel to U.S. 150 between Bardstown and Springfield, KY. Rain was to begin around eight in the evening, which means the rain will deposit the poisonous chemical toxic mix that takes hours and sometimes days to reach the ground surface. If you are outside in the climate you are bound to inhale or ingest some of these Nano-particles of heavy metals invisible to the human eye. Over years of spraying, every human being has some level of toxic metals in their body.

I agree with Mark Steele 100%. I highly recommend this video. Please share and help save a life. This is the real warfare we are facing and this weapon has a kill switch that few people are aware of at this point in time.

## **5G Uses Same Millimeter Waves... As US Military's Active Denial Systems**

### **Pain without injury**

The 'Active Denial System' deters attackers by sending a non-lethal millimeter-wave of electromagnetic energy, causing a burning sensation.

Wave Penetrates the skin to 1/64 of an inch, causing a feeling similar to being on fire

Anyone that has been a regular reader of my (Pastor Bob) web page readers will confirm that I have consistently pointed out that **5G** Wireless EMF/EMR was a major cause of virus-like symptoms labeled as Covi-19. I was long aware of the dangers of this use of electrical energy from my readings in military applications of the wireless bands of energy and how they could be used to cause harm to life forms.

The talk of such things as “Ray Guns” goes way back to the father of AC/DC power, Nikola Tesla. The U.S. military has a long history of military research, experiments, that overlaps many disciplines from biology, chemistry, physics, metallurgy, and the wealth of their knowledge cannot be overlooked. We have since reached the phase where such technology has given us laser weaponry that is being mounted to such platforms of Navy warships, Army Humvees, Air Force aircraft, all with the ability to destroy a target at a distance.

Advances in such technologies are not without their down side; and that has come in the form of physical and health issues, even death resulting from the exposure to radiation from EMF/EMR. The kitchen microwave oven has been such a common household convenience that we fail to think about the harm that is emitted from the built in magnetron generating wireless energy to simply heat up something to eat or drink.

### 5G TOWERS WILL BE CAPABLE OF BOILING YOUR EYES INSIDE OF YOUR SKULL.

soon. The frequency spectrum of 5G is divided into millimeter waves, mid-band and low-band. Low-band uses a similar frequency range as the predecessor, 4G.

5G millimeter wave is the fastest, with actual speeds often being 1–2 Gb/s down. Frequencies are above 24 GHz reaching up to 72 GHz which is above the extremely high frequency band's lower boundary. The reach is short, so more cells are required. Millimeter waves have difficulty traversing many walls and windows, so indoor coverage is limited.

5G mid-band is the most widely deployed, in over 20 networks. Speeds in a 100 MHz wide band are usually 100–400 Mb/s down. In the lab and occasionally in the field, speeds can go over a gigabit per second. Frequencies deployed are from 2.4 GHz to 4.2 GHz. Sprint and China Mobile are using 2.5 GHz, while others are mostly between 3.3 and 4.2 GHz, a range which offers increased reach. Many areas can be

### Active Denial System

From Wikipedia, the free encyclopedia

The Active Denial System (ADS) is a non-lethal, directed-energy weapon developed by the U.S. military.<sup>[2]</sup>

Active Denial System (ADS)	
Place of origin	United States
Service history	
Wars	War in Afghanistan
Production history	
Manufacturer	Raytheon <sup>[3]</sup>
Variants	AN-9 II

#### Effects

The ADS works by firing a high-powered beam of 95 GHz waves at a target, which corresponds to a wavelength of 3.2 mm.<sup>[13]</sup> The ADS millimeter wave energy works on a similar principle as a microwave oven, exciting the water and fat molecules in the skin, and instantly heating them via dielectric heating. One significant difference is that a microwave oven uses the much lower frequency (and longer wavelength) of 2.45 GHz. The short millimeter waves used in ADS only penetrate the top layers of skin, with most of the energy being absorbed within 0.4 mm (<sup>1</sup><sub>64</sub> inch).<sup>[14]</sup> whereas microwaves will

This is not unlike the evil evolution of the United Nations. Călin Georgescu worked as a senior expert in sustainable development within the UN system for nearly 20 years, as a former executive director of the United Nations Global Sustainable Index Institute in Geneva (2015-2016). He previously served as President of the European Research Centre (ERCIS) for the Club of Rome (2013–2015), of which he is also member.

He recently joined Dr. Reiner Fuellmich to say that when he began working within the UN system, he believed the institution offered great hope for humanity and for the planet but he eventually found that the UN is controlled by criminal oligarchs who use it to enrich themselves and to enslave humanity.

The Liberty Beacon rightfully called out 'Messrs. Malone, Cole, McCullough', who for unknown reasons continue to deny the Covid vaxxes contain Nano-particles, particularly Graphene Oxide, and variants thereof. Dr. Robert Malone and Dr. Robin Cole have

been mentioned as "controlled opposition" in the vaxxine debate. Simply put, they are being used to further confuse the issue, keeping the public eye elsewhere than where the problem should be focused on. Dr. Peter McCullough is one that as a cardiologist and heart surgeon has blinders on due to his primary area of focus. As such I would not want to prejudge his failure to recognize what has been found in vaxxes around the world. My suspicion is that Dr. Malone and Dr. Cole deny Graphene Oxide or variants of graphene because they do not want the world to be thinking about its connection to **5G** technologies. A favorite expression of mine is, "You can't find what you are not looking for!"

We need to realize that this war on humanity has been planned over several decades and it would be wise to be cognizant of the great Chinese ancient warrior Sun Tzu and his book *'The Art of War'*. His book stresses how important it is to truly "know your enemy" and use brains over brawn. *"The supreme art of war is to subdue the enemy without fighting."* With that added insight it is easy to see how those behind these crimes against humanity have gamed their plan out well in advance of its execution on the uninformed public masses. We are at a disadvantage and therefore I am constantly alert to what the enemy does not want us to know, that it rebuts or deflects observant eyes and ears away from the truth.

This war on humanity obviously had many plans to be employed against humanity and as one plan begins to lose its effectiveness, or becomes known, it shifts its asymmetrical strategy from their "Plan A", on to "Plan B", etc.

Getting back to the issue of **5G**, the censors in the media were out in masse attacking, debunking, firing in such rapid fashion it became obvious this was a troubling issue which they were not going to allow it to gain traction in the minds of the public. When we talk about the public school dumbing down our youth, it is in the area of critical thinking that has suffered most. People will not bother to think about the issues at stake for their minds and hearts. People have a natural inclination to trust authority for which today we are paying a huge price as a nation exhibited in the national health system and treatment of the earliest victims of the Covid treatment protocols, which have been proven totally opposite of what worked or did not work. When you live in denial you only exacerbate your vulnerability.

**If I was to tell you 20 million people had died across just the 'Five Eyes' & 26 countries across Europe over the past two years resulting in the most excess deaths seen in half a decade wouldn't you at least be a little bit curious to find out why? 'Five Eyes' is a term for the five nations that do not spy on their own people but spy on the others but it doesn't mean they share their spying with the others: Australia, Canada, New Zealand, UK, and the U.S.**

*You might be quick to blame Covid-19, but we can assure you this is not the case.*

**What if I then told you more excess deaths were actually recorded across the USA, the UK, Canada, Australia and New Zealand in 2021 & 2022 following several**

**mass rollouts of the Covid-19 injections than were recorded at the height of the Covid-19 pandemic in 2020?**

*Would that not pique your interest to find out why?*

**Because we are not just talking about a slight increase. We're talking about increases of thousands of per cent in excess deaths.**

For instance. official Government reports prove that Australia suffered a shocking **1,640% increase in excess deaths** in just 39 weeks throughout 2022 compared to 53 weeks throughout 2020.

While New Zealand suffered a shocking **3,404% increase in excess deaths** in 49 weeks throughout 2022 compared to 53 weeks throughout 2020.

*Are you still not interested?*

**Well, what if we told you there now exists a mountain of evidence to prove that Covid-19 injections are to blame for this huge increase in deaths?**

*Surely now you'd want to know why?*

**What if I then revealed that sadly, that mountain of evidence also contains documents that prove Covid-19 vaccination is going to lead to mass depopulation?**

**This is of course an extremely bold claim to make.**

**'Your Government is trying to kill you' is even bolder.**

**But it's the truth.**

*And surely you are now more than curious to find out why?*

To summarize, the answer is simple...

From a young age, you have been conditioned to trust and obey authority without question. You have been trained to believe they would never lie to you.

The elite and corporations know that the majority of the public are too trusting of the government and mainstream media, and as a result, to solve the incoming problem of hundreds of millions, if not billions of people becoming "useless eaters" and a liability and burden due to AI and robotics taking their jobs, they came up with a plan to depopulate the planet.

And that plan involved the invention or exaggeration of a pandemic and the roll-out of a deadly vaccine.

### **And we can prove it...**

Secret reports from the Governments of the USA, Canada, Australia, New Zealand, the UK and most of Europe have raised alarm bells as they confirm that approximately 20 million deaths have been recorded resulting in 2 million excess deaths since Pfizer lied enabling the mass roll-out of the Covid-19 injections.

Sadly, further reports quietly published by the UK Government also confirm that mortality rates are lowest among the unvaccinated in every single age group.

This, therefore, proves that Pfizer's lies have caused millions to die and the Covid-19 injections are by far the largest contributing factor to the millions of excess deaths seen across the 'Five Eyes' and most of Europe.

Dr. Betsy Eads appeared with Greg Hunter on USA Watchdog.com Saturday, February 4<sup>th</sup> and said the following: CV19 bioweapon vax truth warrior Dr. Betsy Eads has been warning of a ["Tsunami of 'vaccine' deaths coming in the next two years."](#) The number of people dying and getting permanent disabilities is increasing. That is no surprise with 600 million CV19 injections being administered in America alone. There have been about 13 billion CV19 injections given worldwide. The estimation of dead and permanently disabled is stunning and criminal. Dr. Eads explains, ***"In my personal opinion that a billion people will either die or be permanently disabled."*** Almost three years ago Dr. Sherri Tenpenny predicted even more stunning figures by stating that all those vaxxed with the spike Protein (PEG) would all be dead between 5 months and 5 years. Dr. Luc Montagnier who discovered HIV1 stated unequivocally the folks who took the so-called vaxxes will ALL die. At this point in time, death seems certain for those who receive the booster shots that contain a more toxic dose of the pathogen.

The pharma vaxx promoters are saying one will need a yearly booster. Why so? If that is the case the vaxxes were never doing anything to keep people safe and healthy. The vaxxes did not work and they knew it. Bill Gates admitted such a week ago on an appearance at an Australian presentation.

With a globalist plan to reduce the population it becomes important to understand that the perpetrators have multiple means and choices to double-down on their long term goal to reduce the population. Bill Gates has said, the next virus will really get the attention of the public. His inference was likely to such thing as Marburg, Ebola, or one of a number of variations of hemorrhagic fever.

Mark Steele has said the plan all along has called for everyone to be vaxxed before they can activate the **5G** network which can target specific individuals, neighborhoods, zip code areas, through the Directed Energy Weapon (DEW) capabilities. When the unvaxxed submit to the shots, then the "switch can be thrown" on **5G** to finish us off!

As time passes we learn more and more about how the battle plan was designed to keep people in a state of fear, which can and was being manipulated to control the vulnerable innocent, frail, elderly, keeping them from using their critical thinking skills. Dr. Jane Ruby had on her show a few days ago, a former World Health Organization scientist who revealed the forthcoming WHO plan to control humanity through its global pandemic policy in a treaty that sovereign states will accede and surrender human rights to the UN WHO. Dr. Jane Ruby's guest was Dr. Astrid Stuckelberger, a former WHO scientist employed until leaving her post upon recognizing what the WHO has planned for humanity in the years ahead. Dr. Stuckelberger has since joined the ranks of the whistleblowers reporting on the UN WHO. Dr. Stuckelberger grew up in Norway and became employed by the UN WHO right out of college. She was misled to believe the UN WHO was a benevolent agency interested in helping people.

The above photo is of a California community that was hit with a Directed Energy Weapon (DEW) two years ago. People actually took pictures of a blue light hitting homes around them bursting into flames; where homes and vehicles were destroyed but the trees were unscathed.

Her eyes were gradually opened through what became the Public Private Partnership (PPP) when the Bill & Melinda Gates and GAVI was operated by the corporate world replacing the medical/scientific community by politicians and deep pockets entrepreneurs. The link to the video is just below, and through her slide presentation, she was cut off from finishing her presentation. The audience expressed dismay and anger for the intentional effort to cut her off and not permitted to finish her presentation.

The hour-long interview on the Dr. Jane Ruby Show revealed a number of her slides the time line of 2020-2024 and WHO plans from gene editing to artificial intelligence and the application of the Internet-of-things is essentially the fulfillment of Revelation 13:17 and the “Mark” of the Beast. ***“And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.”***

## NEW WORLD ORDER

### UN Agenda 21/2030 Mission Goals

- One World Government
- One World cashless Currency
- One World Central Bank
- One World Military
- The end of national sovereignty
- The end of ALL privately owned property
- The end of the family unit
- Depopulation, control of population growth and population density
- Mandatory multiple vaccines
- Universal basic income (austerity)
- Microchipped society for purchasing, travel, tracking and controlling
- Implementation of a world Social Credit System (like China has)
- Trillions of appliances hooked into the 5G monitoring system (Internet of Things)
- Government raised children
- Government owned and controlled schools, Colleges, Universities
- The end of private transportation, owning cars, etc.
- All businesses owned by government/corporations
- The restriction of nonessential air travel
- Human beings concentrated into human settlement zones, cities
- The end of irrigation
- The end of private farms and grazing livestock
- The end of single family homes
- Restricted land use that serves human needs
- The ban of natural non synthetic drugs and naturopathic medicine

WHO WHISTLEBLOWER EXPOSES 2024 PLAN (Video 60 minutes, The one I've been waiting for!!!)

<https://www.brighteon.com/26e33b90-0b38-4872-bd42-f31ebc9c4511>

The link above is the definitive evidence of the WHO plan from “Fear to Total Control” Dr. Astrid Stuckelberger is the second UN whistle blower that has come forth in the past month confirming the UN is not the friend of the people, but a money grabbing theft to pad the pockets of the elite.

We learned that the WHO plans for the new Pandemic Treaty deadline is slated for 2024, unless something, like another virus is intentionally released upon the world, to speed up their plans to enslave humanity. Lots of indicators show 2025 as their End Game date of transitioning from “Fear to Total Control”.

The unelected global health agency will get new legally binding censorship powers if the treaty passes.

The World Health Organization (WHO) recently released a zero draft of its international pandemic treaty which will give the unelected global health agency new powers to “tackle” anything that it deems to be “false, misleading, misinformation or disinformation” if passed.

The WHO has been pushing the treaty since December 2021 and those drafting the treaty intend to present a final report to the World Health Assembly (WHA), the WHO’s decision-making body, in May 2024.

If adopted, the treaty will be legally binding under international law and the WHO’s 194 member states (which represent 98% of all the countries in the world) would be required to comply with the treaty’s demands to target misinformation.

A week ago there was a post entitled “Unmasking the UN”. The link will be found just below in the information section.

Watch Now: WORLDWIDE UNMASKING OF THE UNITED NATIONS

The United Nations are currently rolling out Agenda 2030, with the notorious “sustainability goals”. This worldwide project aims to completely transform every aspect of human existence: food, sexuality, family, work, finance, health, education, everything! This will supposedly put an end to poverty, hunger, inequality, sickness, and other bad things. A former executive director who worked at the UN for two decades, tells a different story. He explains that the UN is controlled by criminals who use it to enrich themselves, and enslave humanity.

# WORLDWIDE UNMASKING OF THE UNITED NATIONS

United Nations  
**Agenda 2030**

Since the original planned failed to achieve the level of recipients to take the “gene” therapy being posed as vaccines, the perpetrators have had to step back and tweak their plan for their next virus hoax.

Mark Steele has stated that in the U.S. only around 57% of the population have taken both shots plus at least one booster shot. Scientists have estimated that each booster shot reduces a person’s natural immunity by 7-10%. President Biden has announced that the “declared state of emergency” will officially end on May 11, 2023, but rest assured we are not out of the woods. There are insider whistle blowers leaking out the plans of the DoD, NIH, CDC, and NIAID to release a virus that is more viral than Covid was, meaning with a higher mortality level that will further frighten the public into capitulating to whatever vaxx the health agencies are going to claim will protect them.

Attorney Todd Callender months ago reported it was leaked that the vaxxed military personnel had received the mRNA Nano-particle with a pathogen within the vaxx. At a future date, those vaxxed will receive a **5G** burst of energy at the 18 GHz level for three 1-minute intervals. They will not be aware of this “throw the switch” and the **5G** energy will boil the molecules in the previously vaxxed causing them to heat and rupture, thus releasing the kill shot pathogen, which Todd Callender said contains Cesium-137. Once the **5G** is executed, the Nano-particles of SARS2, Ebola, Marburg, and HIV1 will burst setting into motion a cytokine storm and an immune system that will attack the

invader, in this case the human body itself. As time passes a person succumbs to immune exhaustion and ultimate death to a variety of health issues or comorbidities.

Mark Steele has said that not enough countries such as the U.S. are anywhere near the level of vaxxed people they want to have before “throwing the switch”. This delay came from a public resistance to untested and unproved product; along with a delayed roll out of the **5G** tower network across the country. When President Biden or his stand-in double said May 11<sup>th</sup> would be the date for ending the declared state of emergency. Three months seemed an unusually long time from his announcement a couple weeks ago and it becomes clear why this delay was set for other reasons. Another virus attack is in the offering between now and April!

Millions of Americans have seen the ‘Project Veritas’ January 25, 2023, bombshell expose on Pfizer’s Director of Research and Development, Jordan Walker, **disclosing that Pfizer is conducting exploratory research that would essentially create SARS-CoV-2 variants.** Michigan lawmakers believe there is validity to Jordan Walker’s claims that Pfizer is creating new SARS-CoV-2 variants and they have good reason to.

But not just because of what Jordan Walker said during the ‘Project Veritas’ expose, but also because Pfizer submitted a portfolio mRNA ‘vaccines’ in April of 2020 to the FDA for SARS-CoV-2 variants, viruses that were going to be emerging in 2021 and 2022, including the South African variant. In addition, investigative work has shown that

Moderna had produced hundreds of thousands of vials of its vaccines before the WHO declared Covid a pandemic based upon very flimsy data. When you know the background of the WHO director Tedros Adhamon and his financial ties to the Bill and Melinda Gates Foundation, it becomes evident that there was an organized strategic global plan with a nefarious rationale behind it. Mass Genocide may seem like a drastic term to use; however, this massive puzzle has been coming together in ways to prove my point.

One of my abilities is that of being able to gather, analyze, organize, observe, identify and make inferences, and problem solving. These abilities were learned early on as a young boy. I grew up at the tail end of the Great Depression where picture puzzles, checkers, chess, board games like Monopoly help passed the time. That included stick ball when you could find a stick not needed for starting a fire to cook with. The depression years shaped folks like me with critical thinking skills to:

- Understand the links between ideas.
- Determine the importance and relevance of arguments and ideas.
- Recognize, build and appraise arguments.
- Identify inconsistencies and errors in reasoning.
- Approach problems in a consistent and systematic way.
- Reflect on the justification of our own assumptions, beliefs and values.

Critical thinking is thinking about things in certain ways so as to arrive at the best possible solution in the circumstances that the thinker is aware of. In more everyday language, it is a way of thinking about whatever is presently occupying your mind so that you come to the best possible conclusion.

My mother would buy us 500-piece picture-puzzles at Woolworth's when I was eight years of age. I was solving 1000-piece picture-puzzles by ten years of age. My father only went to school through the fourth grade but in his youth education was a luxury. He was a formidable chess player.

The skills that one needs in order to be able to think critically are varied and include observation, analysis, interpretation, reflection, evaluation, inference, explanation, problem solving, and decision making.

Specifically we need to be able to:

- Think about a topic or issue in an objective and critical way.
- Identify the different arguments there are in relation to a particular issue.
- Evaluate a point of view to determine how strong or valid it is.
- Recognize any weaknesses or negative points that there are in the evidence or argument.
- Notice what implications there might be behind a statement or argument.
- Provide structured reasoning and support for an argument that we wish to make.

In my mail box yesterday there was an excellent piece for the use of critical thinking.

**This morning, February 8<sup>th</sup> there is a report about Bill Gates Says It's OK For Him To Use Private Jets — He's "The Solution" To Climate Change**  
***Gates owns FOUR private jets at a combined cost of \$194 million dollars***  
**Steve Watson | SUMMIT NEWS**

In a cringe inducing interview with a BBC reporter, Bill Gates argued that it's perfectly fine for him to fly around the world on private jets because he's doing much more than anyone else to combat climate change.

**Gates claimed that because he continues to "spend billions of dollars" on climate change activism, his carbon footprint isn't an issue.**

*"Should I stay at home and not come to Kenya and learn about farming and malaria?"*  
Gates said in the interview with Amol Rajan.

*"I'm comfortable with the idea that not only am I not part of the problem by paying for the offsets, but also through the billions that my Breakthrough Energy Group is spending, that I'm part of the solution,"* Gates added.

Most recently, Gates flew around Australia on board his \$70 million dollar luxury private jet lecturing people about climate change.

**Bill Gates Flies Around Australia on \$70 Million Dollar Private Jet Lecturing People About Climate Change**

Gates, who has [declared that the energy crisis is a good thing](#), owns no fewer than FOUR private jets at a combined cost of \$194 million dollars.

A [study](#) carried out by Linnaeus University economics professor Stefan Gössling found that Gates flew more than 213,000 miles on 59 private jet flights in 2017 alone. All those global trips are more likely done to buy influence, support, to sell his climate change bovine excrement. [Climate change is a myth.](#) Bill Gates is simply a bagman carrying the checks on behalf of the Rothschild's and doing what Larry Fink CEO of BlackRock and Michael Bloomberg are doing here in the U.S. — they are delivering the bad news, "choose the [blue](#) pill or the [red](#) pill" of the New World Order.

Gates four private jets emitted an estimated 1,760 tons of carbon dioxide emissions, over a hundred times more than the emissions per capita in the United States, according to [data](#) from the World Bank.

Elsewhere during the carefully constructed interview, Gates said he was surprised that he was targeted by 'conspiracy theorists' for pushing vaccines during the pandemic.

Gates again repeated a talking point about it being more important to mass vaccinate humanity than to travel to Mars.

While the BBC interview was set up to look like Gates was being challenged or grilled, he wasn't asked about being chummy with deceased elitist pedophile Jeffrey Epstein. It was obvious it was a puffed-up news story. Gates is a liar, a narcissist, a psychopath, and affirms that he is a hypocrite; and all his claims to his egalitarian importance is greatly exaggerated if not total lies in their own right!

If you doubt my statement that Climate Change is a Myth, take a close look at the photos below on the next two pages. There are three photos of Plymouth Rock with the carved year of 1620 AD clearly visible. The famous Plymouth Rock has a stone wall around it and an iron gated front facing the ocean, for low or high tide.

There is no greater time in the history of man than the present to understand that the money is at the root of the bogus claims of former VP Albert Gore and the other fruitcakes. Prince Charles of Wales has been peddling this bovine excrement since he was sent off to boarding school with his "teddy bear".

The public has been scammed by those who will use the Climate Change as an emotional basis for their political agenda. I would suggest as the illustration above points out, Bill Gates is not even an expert on computer viruses let alone human viruses. When it comes to Climate Change he should go read the real science and specifically a book by one of the original founders of Greenpeace, Patrick Moore's book '*Fake Invisible Catastrophes and Threats of Doom*'.

**TOURISTS WERE DISAPPOINTED TODAY  
WHILE VISITING PLYMOUTH ROCK**

*@Masshole bored'UM*

**JUST LIKE ANY OTHER DAY**

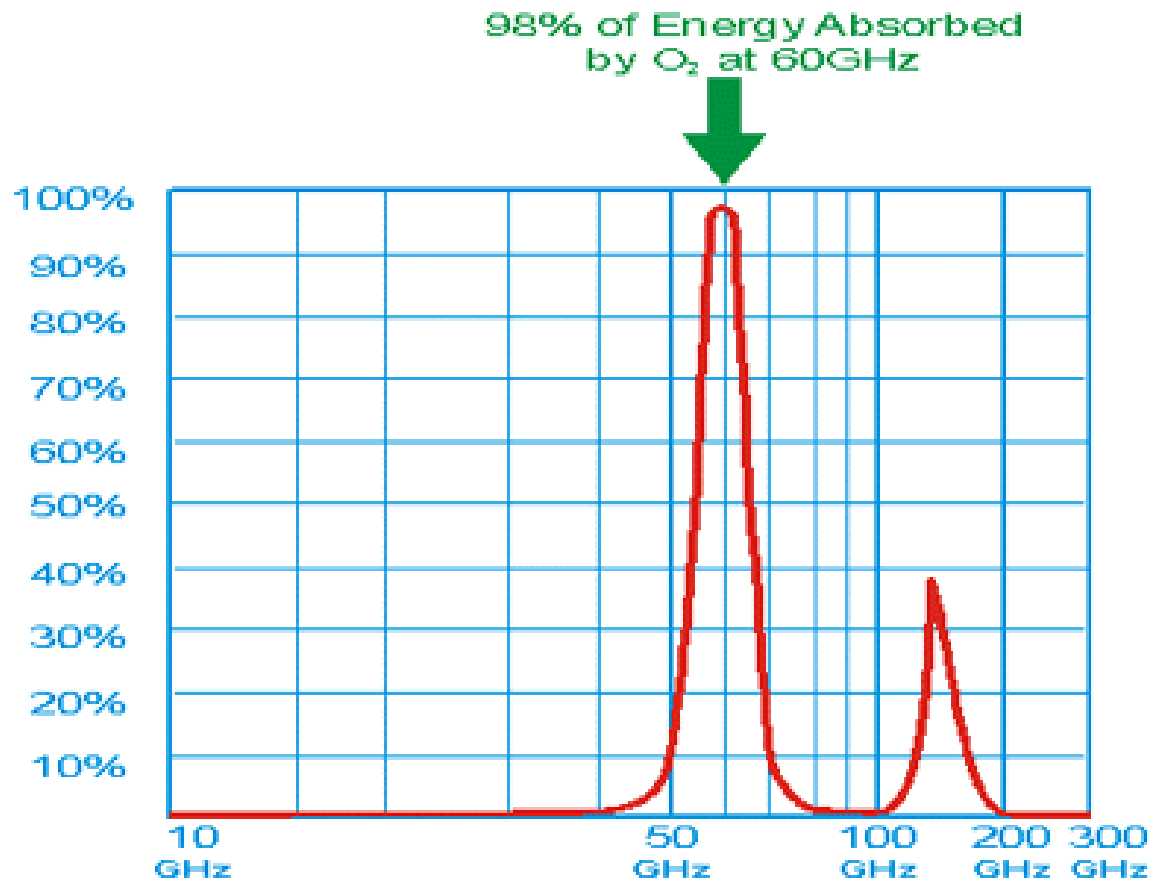

Here's Plymouth Rock which has been at sea level since 1620. Certified by William Bradford.

🤔 "cLiMaTe cHaNgE" 🤔

ifunny.co

The above illustration has been included in other articles that I have written, what you are seeing is how **5G** interacts with your uptake of oxygen absorption. At the 60 GHz level the frequencies is telling us that **5G** energy is consuming virtually all your oxygen. In practical terms you would collapse, black out, and die from lack of oxygen.

**5G** depletes oxygen. Oxygen molecules have shared electrons. When we breathe in oxygen, the electrons bind to our hemoglobin, which distributes the oxygen to our red blood cells and ultimately to our vital organs. Oxygen molecules oscillate at a frequency of 60 GHz. Remember, **5G** wireless networks operate at 60 GHz and higher (up to 100 GHz!). When **5G** is transmitted, atmospheric oxygen absorbs the **5G** radiation. When this happens, the oxygen's electrons are altered making them unable to bind to hemoglobin, which means oxygen cannot be carried to your cells. The end result is oxygen deprivation at the level of the mitochondria.

This is also what happens in severe COVID-19. Other similarities between **5G** radiation and COVID-19 symptoms include:

- 1) Changes to the blood. Some changes to blood include increased clotting time, reduced hemoglobin that can lead to hypoxia, pulmonary embolism, and stroke.

2) Oxidative stress. Oxidative stress increases free radical damage and can deplete glutathione levels.

3) Disruption of the immune system. **5G** has the ability to both suppress the immune system and overstimulate it. When immune system suppression occurs, T lymphocytes decrease. When the immune system is hyper-activated, the result is inflammation, cytokine storms, and more.

4) Increased intracellular calcium. This can increase your risk of contracting viruses, as well as cause inflammation, blood coagulation and thrombosis.

5) Cardiac changes. Cardiac changes from **5G** include palpitations, arrhythmias, myocarditis, even heart failure.

**5G radiation awakens latent viruses. Viruses, bacteria, and other pathogens are always in your body.** Usually your immune system is working to keep them in check. **5G** radiation excites viruses and bacteria making your immune system's job harder. In addition, the COVID-19 shots contain heavy metals such as graphene oxide and nanotechnologies. **These literally turn your body into a 5G router making it more likely that whatever latent viruses you have will be activated in the presence of 5G. I believe this is one reason why people who have taken the shots are falling ill with COVID-19 now.**

Do not assume that any frequencies between 10 and 40 GHz are safe just because you are getting sufficient oxygen. Radiation sickness at the 10 GHz level has been proven to cause cancer in airport TSA agents monitoring the body scanners passengers go through. Smart utility meters installed in many residential homes and apartments operate at 4 GHz and have caught fire causing houses to burn to the ground.

Insurance companies tell owners of electrical cars not to park inside their garage for the same basic reason. Mark Steele said recently in an interview that owners of the Tesla car are like being in a Microwave oven because of the many **5G** device functions surrounding the driver. I was stunned never giving a thought to owning a Tesla like sitting in a Microwave oven! This may be a factor in so many accidents and fatalities of the Tesla car. We do not get all the details when reported in the news and so it remains to be seen what role wireless energy is playing. Mark Steele in one of his videos took a Tri-fold meter and took multiple readings from all directions while sitting in the driver's seat of a Tesla. They were as high as any router I have seen in use with microwave ovens.

During the past 2 years, **5G** infrastructure was massively expanded across the country. To put **5G** radiation in perspective, it's notable that the natural level of radiation we have evolved to tolerate is in the range of 0.000001-0.00000000001 $\mu$ W/m<sup>2</sup> (strength of radiation in watts per square meter). According to experts, the only place we could now find radiation this low is in a cave! By comparison the FCC recommendation for human exposure to wireless radiation is 10,000,000  $\mu$ W/m<sup>2</sup>. Add on top of that the increased

frequency of radiation with **5G** wireless networks that operate at 60 GHz and higher (up to 100 GHz!). That's a pretty big difference from what we have evolved to tolerate!

So, it goes without saying that if you are living in an area with **5G** towers and streetlights all around you, you are at increased risk adverse health events, including COVID-19.

Different frequencies have different effects on the human body as revealed by Dr. James Giordano; and has an impressive Bio: Professor in the Departments of Neurology and Biochemistry at Georgetown University Medical Center, Washington D.C., Chief of Neuroethics Studies Program and Co-Director, O'Neil Pelligrino Center of Brain Science, has served on Joint Staff of the Pentagon, and is Head of the European Union Human Brain Project.

In Dr. Giordano's lectures, he goes into explaining how different frequencies affect the body and basically is saying that torture of civilians is permissible and that neurotech may "*uphold a higher moral standard*" than other forms of torture. In my opinion, Giordano is a true psychopath. He cares nothing about the Constitution or your rights. He apparently does not know what Treason is, or that it can carry the death penalty.

All cell towers should be considered a threat to humans as they can and do serve different frequency band levels. If you want to know where cell towers are located in relationship to your residence, you can do so by going to the link below, follow the instructions by entering the address where you live: <HTTPS://www.antennasearch.com>

Dr. Christiane Northrup, MD offers a number of recommendations one can follow in dealing with **5G** radiation sickness.

6 More Ways to Protect Yourself from **5G**, which I began to follow shortly after being hospitalized a year ago from what I believe was the result of a designated attack of a directed energy weapon.

1. Take magnesium. EMFs activate the voltage-gated calcium channels (VGCCs) in the outer membranes of your cells. It has been shown that effects of EMFs are reduced by calcium-channel blockers. Magnesium is a natural calcium-channel blocker. If you are deficient in magnesium, as many people are, you could feel increased effects from EMFs. Be sure to take enough magnesium to help protect your cells.

2. Use Zeolite. Zeolite is a natural mineral that binds to heavy metals and radioactive material in the gastrointestinal tract and helps remove them from your body. While this will most likely not protect you directly from EMFs, it can help detox the effects from the COVID shots if you have taken them, and may make you less sensitive to **5G** radiation.

3. Eat foods to increase Nrf2. Studies show that Nrf2 promotes DNA repair and detoxification of superoxide, which is generated after exposure to radiation. The Mediterranean and Okinawan diets are said to promote Nrf2. Be sure to eat foods high

in phytochemicals and try to include the following types of foods in your diet: Cruciferous vegetables (broccoli, cauliflower); foods high in antioxidants such as bright yellow, red and purple fruits and vegetables; foods high in Omega-3 fatty acids (salmon, krill, sardines, tuna, flax, walnuts); carotenoids (carrots, squash); onions and garlic for the sulfur compounds; aromatic green herbs (basil, rosemary, thyme, oregano).

4. Support your thyroid. Even if you do not have thyroid disease, it's a good idea to support your thyroid if you are exposed to **5G** radiation. The best way to do this is to supplement with iodine. I recommend Lugol's solution 2%. Take 2-12 drops/day. Or, try super saturated potassium iodide (SSKI), which you can find online at available from Morgellons's Direct and many other websites. If you have thyroid problems, be sure to work with your doctor to find the right dose.

5. Build healthy red blood cells. To keep your red blood cells and hemoglobin healthy takes a multi-pronged approach. I suggest a good multi-vitamin with adequate levels of vitamins A, C, E, B12, folic acid, copper and iron. Eating red meat, especially organ meat, is another way to get iron if you don't like to take it in supplement form. Eggs, chicken, and leafy green vegetables are also good. You may also want to take chlorophyll, a super greens supplement, or drink green juice. There are many available. Daily exercise for 30 minutes will also help keep your red blood cells healthy. It's also a good idea to reduce alcohol consumption or cut it out altogether.

6. Drink alkaline water. In my own case, I distill my own from the county water system from a nearby lake. Maintaining the proper pH in your body has many benefits. Drinking alkaline water (sometimes called hydrogen water) is an easy way to rebalance your body's pH. Alkaline water has been shown to neutralize free radicals and reduce oxidative stress by activating the Nrf2 pathways. It can also help detoxify acidic waste build-up due to medications, processed foods, and environmental pollution. The main components of alkaline water are magnesium, potassium, calcium and sodium. Alkaline water ionizers can be very expensive. However, you can create your own alkaline water at home by adding baking soda, pH drops, or lemon juice to purified water. While drinking alkaline water will not replace the need for a healthy diet, it can be a good to add to your health routine. Of course, staying optimally hydrated by simply drinking (and eating) enough pure water every day will help keep your body in an alkaline state.

Central to what Mark Steele and Dr. Barry Trower have said about **5G** that it is a military weapons system and its main purpose is to kill and harm. Leakers within the national system (health, military, and intelligence) say a new pandemic will be launched in the coming three months. When the "switch is thrown" only those that were injected or boosted will be executed with the **5G** wireless EMF/EMR radiation poisoning. Those with **5G** cell phones and devices are like homing devices, like signals for guided missiles, since they have the most precise GPS locators like bulls-eyes on your backs.

# IS NO ONE ELSE SEEING THIS?

**CREATE VIRUS**

**LOCKDOWN**

**GO CASHLESS**

**INSTALL 5G**

**CREATE RFID**

**INJECT AS VAX**

**They create a virus. They lockdown the world. They go cashless. They install 5g. They make ID2020 RFID universal vaccine implants to work with 5g networks. They mandate the convid vaccine.**

A final comment about the Biden May 11<sup>th</sup> end of the emergency becomes political propaganda. This did not prevent the CDC from quietly introducing a new program to track people who have not been vaccinated against COVID-19 after they visit a doctor or go to a hospital, according to documents and a video highlighted by National File but published back in 2021.

In September 2021 the ICD-10 Coordination and Maintenance Committee held a meeting to discuss new ICD-10 codes that the CDC's National Center for Health Statistics (NCHS) wanted to be created for marking people as "*Partially Vaccinated for COVID-19*," "*Unvaccinated for COVID-19*," and "*Other under-immunization status*." ICD-10 codes, stored in a patient health record, are used by doctors to categorize patients and insurance providers for billing.

ICD-10-CM codes were introduced by the CDC to track patients who are not vaccinated, partially vaccinated, and those who fall under the "*other underimmunization status*" category. The ICD-10 committee said that those who had adverse reactions to a vaccine in the past would be categorized as unvaccinated or partially vaccinated even if they cannot get other vaccines or boosters. The new codes were implemented in April 2022.

The Topic Packet prepared for the meeting said: "*During the current time of the COVID-19 pandemic, immunizations have provided protection for many people, but there is interest in being able to track people who are not immunized or only partially immunized. At the current time, this is a significant modifiable risk factor for morbidity and mortality, and of interest for clinical reasons, as well as of value for public health. NCHS is proposing creation of codes for unvaccinated for COVID-19, and for partially vaccinated for COVID-19.*"

**Covid is not a virus, it is a bio-weapon and its objective is to depopulate the population of the world through Genocidal Mass Murder. It was developed by the U.S. military (DARPA, CIA, DoD) working in conjunction with Big Pharma. It was manufactured using Synthetic biology in a computer through the use of CRISPR-Cas9 "gene" editing.**

**5G wireless energy frequencies are the connecting link of all facets and aspects of this weapons grade system intended to kill! Without 5G wireless energy it all fails. The spike Protein contains Nano-particles embedded with a number of pathogens that function much like chaff to distract those attempting to identify the source of the poison.**

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)  
[www.pastorbobreid.com](http://www.pastorbobreid.com)
