'Ye are Many, They are Few': Nonviolent Resistance to the Elite's Covid-19 Coup

QUESTIONING COVID-19

By Robert J. Burrowes, Ph.D. – TRANSCEND Media Service

[Pastor Bob's preface to this article: I have had this in my file for over a year and as is often the case, time can both blur memories as well as reveal overlooked elements that get lost in the urgency of the day. In this case Dr. Burrowes hits on both points. **This article is extremely important since to the present day, no one has proved the existence of something called Covid-19, or any of its variants.** In 22 months I have accumulated and saved over 65,000 documents, scientific papers, abstracts, studies, intelligence data, videos that support the case that **5G** is the real cause of the so-called Covid. Most important is the evidence that preceded the media hype about the Coronavirus beginning on October 31st in China on the exact day **5G** was unveiled in Wuhan, China.

For any of you reading this article by Dr. Burrowes, I trust that you will share it and feel free to read some 200 other articles I have shared on Covid and **5G**. Keep in mind that the people pushing **5G** and **6G** have potential profits of up to \$17-trillion dollars at stake. Need I point out that \$17-trillion will buy lots of disinformation, corruption, lies, false narratives, and censoring of the real truth?]

On 16 August 1819, an estimated 60,000 pro-democracy and anti-poverty activists were peacefully protesting the utterly corrupt nature of the Parliament in Westminster and demanding the reform of parliamentary representation (which afforded less than 2% of people the right to vote). The gathering took place in St Peter's Field, Manchester in England.

The protest was precipitated by the acute economic slump, including chronic unemployment and harvest failure, following the conclusion of the Napoleonic Wars as well as by enforcement of the Corn Laws which kept the price of bread high, by blocking (or imposing tariffs on) the import of cheap grains, at the expense of ordinary people.

After arresting some key figures on the speaker's cart at the gathering, the cavalry was ordered to disperse the crowd. Charging with sabers drawn, approximately eighteen people were killed and nearly 700 seriously injured, with the event dubbed the 'Peterloo massacre' by radical media in a bitterly ironic reference to the bloody Battle of Waterloo some four years earlier.

In his evocative tribute to those peaceful activists gathered at St Peter's Field, Percy Shelley penned what might be considered the first modern words to capture a sense of nonviolent resistance in his poem *'The Masque of Anarchy'*. The poem's 38th verse, repeated in the 91st (and final) one, is as follows:

Rise like Lions after slumber
In unvanquishable number,
Shake your chains to earth like dew
Which in sleep had fallen on you —
Ye are many — they are few.

The history of much of human existence since the Neolithic Revolution 12,000 years ago can be written simply: the endless struggle by those who are oppressed and enslaved against the insane elite that oppresses, enslaves and kills them. For brief explanations, see ['Why Activists Fail'](#) and ['The Global Elite is Insane Revisited'](#). For insight into the terrified psychology that traps members of the elite, and their agents, in an endless cycle of profit-making and wealth accumulation at the expense of the rest of us, see ['Love Denied: The Psychology of Materialism, Violence and War'](#).

Of course, nothing has changed although four important points have given the latest manifestation of this perpetual struggle a profound importance that far exceeds earlier (and other ongoing) versions.

The elite coup currently being conducted is taking place under cover of a non-existent 'virus' that has been labeled SARS-CoV-2.

If the evidence that the virus does not exist, such as that cited in ['Halting Our Descent into Tyranny: Defeating the Global Elite's Covid-19 Coup'](#), has not persuaded you so far, you are invited to consider the further evidence by watching ['Do Germs Actually Make You Sick?'](#) or reading ['Flaws in Coronavirus Pandemic Theory'](#).

As David Crowe writes in the article just cited: *'What is being published in medical journals is not science, every paper has the goal of enhancing the panic by interpreting the data only in ways that benefit the viral theory, even when the data is confusing or contradictory. In other words, the medical papers are propaganda.'*

Another option you have if you are seriously interested in the truth is to spend the time to seek out the documented scientific proof that the 'virus' labeled SARS-CoV-2 has been isolated, purified and proven to cause a consistent set of disease symptoms among those it 'infects', which is then labeled Covid-19. So far, the many of us who have searched for this document – including some of the world's leading virologists – have not found it.

This coup involves all of humanity, not just a local, provincial or national population.

For just two of the many detailed exposés of the coup and what it portends, see the report written by the Association of French Reserve Army Officers [‘Investigative Report on the COVID-19 Pandemic and its Relationship to SARS-COV-2 and other Factors’](#) and the video [‘Plandemic II’](#).

As Pepe Escobar characterizes this coup in his article [‘From 9/11 to the Great Reset’](#):

A drive by design towards ironclad concentration of power and geo-economic diktats was first conceptualized – under the deceptive cover of “sustainable development” – already in 2015 at the UN ([here it is, in detail](#)).

Now, this new operating system – or technocratic digital dystopia – is finally being codified, packaged and “sold” since mid-summer via a lavish, concerted propaganda campaign.

The whole Planet Lockdown hysteria that elevated Covid-19 to post-modern Black Plague proportions has been consistently debunked...

The de facto controlled demolition of large swathes of the global economy allowed corporate and vulture capitalism, worldwide, to rake untold profits out of the destruction of collapsed businesses.

And all that proceeded with widespread public acceptance – an astonishing process of voluntary servitude.

Unless we succeed completely in defeating this coup the very essence of what it means to be human will be taken from us.

Introducing her careful explanation of the agenda of the transhumanists, in her video Dr. Carrie Madej opens with the following words:

“So what do you think about going from human 1.0 to human 2.0? Transhumanism... is about taking humans, as we know ourselves, and melding with artificial intelligence.... That might seem kinda cool to you, we might have some superhuman abilities... that’s the idea, that’s what you see in sci-fi movies... Thinking about this topic... I [had thought that it was] many years in the future.”

However, this question, this idea is now right in this moment. We need to make a decision... because I investigated the proposed Covid-19 vaccine and this is my alarm call to the world. I looked at the pros and cons and it frightens me.

And I want you to know about this, you need to be very well informed because this new vaccine is not like your normal flu vaccine. This is something very different, this is something brand new, something completely experimental on the human race. And it’s not just about being a different vaccine. There are technologies that are being

introduced with this vaccine that can change the way we live, who we are and what we are. And very quickly....

Some people... like Elon Musk, who is the founder of SpaceX and Tesla Automotive, as well as Ray Kurzweil, who is one of the bigwigs of Google, are self-proclaimed 'transhumanists'. They believe that we should go to human 2.0 and they are very big proponents of this. There are a lot of other people... involved with this.... I think the easiest way to explain this to you is to go with one of the frontrunners for the vaccine and go into a little bit of the history and tell you how they want to make the vaccine and I think that will speak volumes. So, for instance, Moderna was one of the frontrunners for the Covid-19 vaccine.... Watch the video [‘Human 2.0 – Transhumanist Vaccine – A Wake Up Call to the World’](#):

Whitney Webb provides further insight into the elite intention in this regard. In one of her meticulously-researched articles – [‘Coronavirus Gives a Dangerous Boost to DARPA’s Darkest Agenda’](#) – she outlines the hidden technological agenda behind the Covid-19 coup that might well be delivered as part of any vaccination program by the Pentagon’s Defense Advanced Research Projects Agency (DARPA). After carefully outlining the history and ‘logic’ of what is taking place – such as the development of ‘cyborg “super soldiers”’ and ‘injectable Brain Machine Interfaces (BMIs) with the capability to control one’s thoughts’ – she concludes with the chilling words:

“Technology developed by the Pentagon’s controversial research branch is getting a huge boost amid the current coronavirus crisis, with little attention going to the agency’s ulterior motives for developing said technologies, their potential for weaponization or their unintended consequences....”

Those who are fearful and desperate will not care that the vaccine may include nanotechnology or have the potential to genetically modify and re-program their very being, as they will only want the current crisis that has upended the world to stop.

In this context, the current coronavirus crisis appears to be the perfect storm that will allow DARPA’s dystopian vision to take hold and burst forth from the darkest recesses of the Pentagon into full public view. DARPA’s transhumanist vision for the military and for humanity presents an unprecedented threat, not just to human freedom, but an existential threat to human existence and the building blocks of biology itself.

And one consequence of this coup will be human extinction in the near term, by one or more of four possible paths: nuclear war, the collapse of biodiversity, the deployment of 5G, and the climate catastrophe.

For fuller explanations of each of these four points, together with the evidence for the paths to extinction, see [‘Halting Our Descent into Tyranny: Defeating the Global Elite’s Covid-19 Coup’](#).

But to highlight just one symptom of the accelerating climate crisis, for example, you can read the daily update on the 100 or so extreme wildfires in the western United States (including Alaska) on the [National Interagency Fire Center website](#). Importantly, however, you can also read or watch Dane Wigington's accounts of the role of climate engineering in precipitating these catastrophic fires to destroy forests on [GeoEngineering Watch](#).

And for a taste of the accelerating collapse of Earth's biodiversity, this article briefly explains some lowlights of the latest [Living Planet Report: Bending the Curve of Biodiversity Loss](#) – see '[Humans behind 70% fall in world's wildlife over last 50 years](#)' – while this brief report highlights another of the largely ignored risks to biodiversity and life itself. See '[Sellafield nearly goes bang, and The Guardian totally misses story](#)'.

So why is this being allowed to happen?

Unfortunately, despite the enormous gravity of the situation in which we find ourselves, most people remain too frightened to seriously investigate and consider the evidence regarding what is taking place and to respond powerfully. Why? Because our parenting and education models mass-produce unconsciously terrified and submissively obedient individuals. See '[Why Violence?](#)' and '[Fearless Psychology and Fearful Psychology: Principles and Practice](#)'.

For these individuals, it is far less frightening to simply accept the elite-driven narrative, promulgated by the World Health Organization, the medical industry, governments and the corporate media, and to submissively accept the savage curtailment of our rights and freedoms. And to powerlessly hope that this assault on our identity, liberty and future will all go away 'once we have the "virus" under control'.

But as anyone who understands political history or has even the vaguest genuine understanding of modern geopolitics well knows, this will not happen. If we do not struggle, it will be our own obedience, our own cooperation that will condemn us all to the fate being orchestrated by the global elite.

Moreover, given the depth, complexity and multifaceted nature of the threats we now face, unless we struggle strategically there is no real prospect of succeeding.

Resisting the Elite Coup so Far

Fortunately, courageous individuals all around the world are doing what they can to inform and mobilize people before it is too late. These range from individuals writing articles or producing videos to expose the simple fact that the virus known as SARS-CoV-2 does not exist and the non-existent disease labeled Covid-19 is being used to 'cover' the elite coup, it involves individuals working to defend our hard-won rights and freedom by using legal challenges to the Covid-19 lockdown measures and, vitally, it involves those people taking nonviolent action to defeat the coup or aspects of it.

And, of course, these measures are having impact as evidenced by the actions being taken by elite agents to suppress awareness of this effort and to thwart it. These actions range from censorship of resistance documents and videos, public disparagement of those resisting (perhaps by being labeled 'conspiracy theorists' or 'anti-vaxxers'), the corporate media ignoring or misrepresenting those protesting, and sham scholarship purporting to describe those resisting as psychologically disordered – see ['Psychopathic traits linked to non-compliance with social distancing guidelines amid the coronavirus pandemic'](#) and ['Adaptive and maladaptive behavior during the COVID-19 pandemic: The roles of Dark Triad traits, collective narcissism, and health beliefs'](#) – to police harassment, intimidation and arrest of those who take action to resist the coup or one of its features.

But for a taste of the most recent mobilizations, here are some examples.

At the rally in Berlin on August 29, 2020, Robert F. Kennedy Jr. spoke the following words:

“The pandemic is a crisis of convenience for the elite who are dictating these policies. It gives them the ability to obliterate the middle class, to destroy the institutions of democracy, to shift all of our wealth to a handful of billionaires [while] impoverishing the rest of us. And the only thing between them and our children is this crowd that has come to Berlin.... Thank you all very much for fighting.” See ['Robert F. Kennedy Jr. Speaks at Berlin Rally for Freedom and Peace'](#).

You can see a compelling photo of police at the Berlin rally removing their helmets in solidarity with the people at ['Peaceful Rallies Around the World to Champion Freedom'](#). At the Unite for Freedom Rally in Trafalgar Square, London, also on 29 August, David Icke spoke as follows:

“We gather here today because a dangerous disease, a deadly disease is sweeping across this land and across this world and it's not Covid-19, it is fascism.... This world is controlled by a tiny few people because of a simple sequence of imposition and acquiescence. All the way down the pyramid: imposition-acquiescence.... How do we break that sequence? We stop acquiescing! Human race get off your knees!... Stay in your home? No! Wear a mask? No! Let your kids be psychologically dismantled? No!”

It is well past the time when we learn the lessons of history. The entirety of human history is one of the few controlling the many because the many acquiesce to the few. Enough!... And I say to the police opposite: *'You have children, you have grandchildren. And you are enforcing the fascism which your own children and grandchildren will have to live with. Join us, for goodness sake and stop serving the psychopaths.'* There are billions of us and the core of the core of these psychopathic wimps.... I think I can see a way out of this. Come on people of the world. Let's go! See ['David Icke's Speech at the Unite for Freedom Rally'](#).

But apart from earlier gatherings of large numbers of people to protest the coup that I have previously reported – see, for example, [‘Halting Our Descent into Tyranny: Defeating the Global Elite’s Covid-19 Coup’](#) – you can read a report of the demonstration in Ottawa on 29 August 2020 here: [‘Parliament Hill protestors denounce “tyranny,” demand end to COVID-19 restrictions’](#).

There was also an [‘Anti-mask and anti-vaccination demonstration in Zurich’](#) on August 29, 2020.

And you can see a selection of videos from around the world here: [‘People of the World Do not Consent to Tyranny’](#).

Meanwhile, the government of the state of Victoria (in south-eastern mainland Australia) continues to cling tenaciously to its record as the most repressive police state on Earth, even arresting people for encouraging others to attend protest rallies. See [‘Victorian woman charged over alleged anti-lockdown protest plans’](#) and [‘Australian Woman Arrested For Making A Facebook Post About A COVID Protest’](#).

This is occurring despite the obvious illegality of federal and state government actions in Australia (and Victoria particularly) which have been carefully detailed, for example, by Victorian lawyer Serene Teffaha who explains the substantial range of laws that are being violated by the government of Victoria (including sections 60, 61, 88, 90, 91, 92 and 95 of the Australian [‘Biosecurity Act 2015’](#) which takes precedence over its Victorian equivalent, the [Public Health and Mental Well-being Act 2008](#)) in her video [‘Lawyer Serene Teffaha explains the Law re: Bio-security act – forced medical measures & procedures’](#).

If you thought that the rule of law would protect you from government overreach, it might be a good time to review your belief. The law is simply another tool in the elite’s armory against you and it is being used with devastating impact right now. See [‘The Rule of Law: Unjust and Violent’](#).

In his 77-minute recorded statement to police after his own arrest – ‘The accused at Greater Melbourne between the 16th of August 2020 and the 27th of August 2020 did incite another person/persons to pursue a course of conduct that involved the commission of an offence by promoting a planned protest with the intention to incite person/persons to contravene namely s 203 (1) of the Public Health and Wellbeing Act 2008 by encouraging them to not wear masks and also to leave their residence without a specified reason as provided by the stay at home directions’: see [‘Solihin Millin Interview with Victorian Police After Arrest’](#) – 76 year old scientist Solihin Millin stated the following:

“We live in a supposedly free society, surely we can debate.... Then we use our intellect and our ability to choose. It is stifled, it is censored everywhere by the Australian government, by the Victorian government, by unfortunately the police, who in my words are supporting extortion because [Victorian premier Daniel Andrews] knows that the

way to people's hearts is through their pockets and so he is extorting money from us to make us do his will and, of course, everyone is filled with fear. This is not an epidemic of a virus, it is an epidemic of fear...."

I follow the value of truth, I follow the value of unconditional love, I follow the value [of] virtue... ('help ever, hurt never'), [I follow] the value of peace and the value of nonviolence.... Our behavior has to be Godly, it has to be pure, it has to be peaceful. However, the sword that we hold in our hand is the sword of truth.... And that is what's not being allowed. And you will find that I have been arrested because I have a particular point of view which is against these dictates of the health minister.... So I have been arrested.

And within two seconds I can... prove to you there is no pandemic. Just some simple arithmetic: How many people have died [in Australia]? Three, four hundred? How many Australians are there? 26,000,000. How long has this nonsense been going? Seven months. This is rubbish! And they are stealing – and this is absolutely guaranteed scientifically – they are stealing old-age deaths, with comorbidity features – cancer, heart attacks, pneumonia, diabetes – and they are assigning those old-age deaths to Covid-19. And you know if you look on the [Australia Bureau of Statistics website](#) all they have to do is assume Covid-19. They don't even have to test for it! Watch '[Solihin Millin Interview with Victorian Police After Arrest](#)'.

Resisting the Elite Coup Strategically

So while there is considerable ongoing resistance to this coup, given the extraordinary nature of what is at stake, my own preoccupation is to encourage and facilitate a strategically-focused resistance to it so that we have the impact we need in each of the dimensions – including those threatening human extinction – necessary for us to be successful.

Hence, if you already understand what is at stake – or you are willing to consider the evidence more carefully – but you are not yet ready to act powerfully in response, I invite you to focus more intently on how you feel in response to the threats posed and to give yourself adequate time to do so. By gaining a clearer sense of your emotional response – fear, anger, despair, frustration... – you will be better able to utilize this, along with other mental faculties such as your intellect, conscience and intuition, to craft an integrated and powerful way forward. See '[Putting Feelings First](#)'.

And, depending on your interests and circumstances, there is a range of possible responses that will each make an important difference (with many entailing no risk whatsoever).

Fundamentally, you might consider making '[My Promise to Children](#)' which will include considering what an education for your children means to you, particularly if you want powerful individuals – not ones who are submissively obedient to elite directives and project their fear onto others – who can perceive reality and resist violence. See '[Do We Want School or Education?](#)'

You might consider supporting others to become more powerful. See [‘Nisteling: The Art of Deep Listening’](#).

You might also consider how your diet and healthcare could usefully be revised to empower you to resist medical propaganda, particularly given the extensively documented death-dealing for which corporate medicine is responsible. See, for example, [‘Pharma Death Clock’](#).

If you wish to strategically resist the elite coup, you can read about nonviolent strategy, including strategic goals for doing so, from here: [Coup Strategic Aims](#).

Remaining pages on this website fully explain the twelve components of the strategy, as illustrated by the [Nonviolent Strategy Wheel](#), as well as articles and videos explaining all of the vital points of strategy and tactics, such as those to help you understand [‘Nonviolent Action: Why and How it Works’](#) and [‘Nonviolent Action: Minimizing the Risk of Violent Repression’](#).

Given the complexity of the configuration of this conflict, however, which involves the need to fight simultaneously to retain our essential humanity, defeat the elite coup and avert near-term human extinction, it is important that our tactical choices are strategically-oriented (as are those listed on the Strategic Aims page nominated above). Hence, three further considerations assume importance.

First, choose/design tactics that have strategic impact, that is, they fundamentally and permanently alter, in our favor, the power relationship between the elite and us.

Second, when tactical choices are made, focus them on undermining the elite coup, not just features of it, such as ‘social distancing’ or the lockdowns. At its most basic, this can be achieved by using tactical choices that mobilize people to act initially, as is happening, but then inviting them to consider taking further, more focused, action as well (such as those nominated in the strategic goals referenced above). This is important if our actions are to have impact on key underlying measures, such as those being taken by the elite to advance the fourth industrial revolution, including the robotization of humans for work and war-fighting.

Third, choose/design tactics that also have strategic impact on the greatest threats to human survival, including the collapsing biodiversity on Earth, the threat of nuclear war, the climate catastrophe and the deployment of **5G**. Given the incredibly short timeframe in which we are now working to avert human extinction, while people are mobilizing it is important to use this opportunity to give them the chance to perceive the ‘big picture’ of what is taking place – beyond lockdowns and other measures supposedly being used to tackle Covid-19 – and to act powerfully in response.

Fortunately, as more people become aware of the deeper strands of what is taking place, the energy to break the lockdowns, resist other limitations on our rights and freedoms (such as contact tracing, Covid-19 testing/temperature checks, mask-wearing

and vaccinations) as well as resist the coup itself will gather pace. As I have previously outlined, using a locally relevant focus, or perhaps several, for which many people would traditionally be together – a cultural, religious or sporting event, a nonviolent action, a community activity such as working to establish a community garden to increase local self-reliance, a celebration and/or a return to work – we can mobilize people to collectively resist. As has been happening.

If you wish to focus on powerfully resisting one of the primary threats to human existence – nuclear war, the deployment of 5G, the collapse of biodiversity and/or the climate catastrophe – you can read about nonviolent strategy, including strategic goals to focus your campaigns, from here: [Campaign Strategic Aims](#).

You might also consider joining those who are powerful enough to recognize the critical importance of reduced consumption and greater self-reliance as essential elements of these strategies by participating in [‘The Flame Tree Project to Save Life on Earth’](#). While you over-consume or are dependent on the elite for your survival, in any way, you are vulnerable.

In addition, you are welcome to consider signing the online pledge of [‘The People’s Charter to Create a Nonviolent World’](#).

Or, if you want something simpler, consider committing to:

The Earth Pledge

Out of love for the Earth and all of its creatures, and my respect for their needs, from this day onwards I pledge that:

I will listen deeply to children. See [‘Nisteling: The Art of Deep Listening’](#).

I will not travel by plane

I will not travel by car

I will not eat meat and fish

I will only eat organically/biodynamically grown food

I will minimize the amount of fresh water I use, including by minimizing my ownership and use of electronic devices

I will not own or use a mobile (cell) phone

I will not buy rainforest timber

I will not buy or use single-use plastic, such as bags, bottles, containers, cups and straws

I will not use banks, superannuation (pension) funds or insurance companies that provide any service to corporations involved in fossil fuels, nuclear power and/or weapons

I will not accept employment from, or invest in, any organization that supports or participates in the exploitation of fellow human beings or profits from killing and/or destruction of the biosphere

I will not get news from the corporate media (mainstream newspapers, television, radio, Google, Facebook, Twitter...)

I will make the effort to learn a skill, such as food gardening or sewing, that makes me more self-reliant

I will gently encourage my family and friends to consider signing this pledge.

Conclusion

There is no SARS-CoV-2 virus. There is no Covid-19 disease. Therefore, you cannot be tested for it, you cannot 'prevent' infection by social distancing, wearing a mask, vaccination or being under house arrest. You cannot 'catch' a virus that does not exist.

However, under cover of this manufactured 'health crisis' the global elite is fundamentally reshaping global society to serve its own purpose with millions (in industrialized countries) being marginalized and millions (in countries throughout Africa and Asia particularly, where disruption of food distribution systems has hit hardest) being killed in the process. See ['WFP chief warns of "hunger pandemic" as Global Food Crises Report launched'](#) and ['COVID-19 could kill more people through hunger than the disease itself, warns Oxfam'](#).

Fortunately, awareness of what is at stake is now steadily rising. And so is the resistance. But we are a long way from dealing effectively with either the coup – and all that this portends – or the primary paths to imminent human extinction.

In the words of David Icke: 'Human race get off your knees!'

A great many people have followed this narrative around the pandemic for almost two years now and I saw through this façade since the outbreak of **5G** sickness in October of 2019. China activated its new **5G** wireless energy system on October 31st, 2019. Every Chinese citizen was vaccinated in September, 2019, but I have not been able to confirm for what specific purpose. As we enter the beginning of cold weather, we are expecting to see massive "die-offs" of those who were double-vaxxed earlier in 2021, and most certainly those who have taken the "booster" shot. This was never about public health and safety. In the nearly two years I have been investigating Covid-19 and **5G**, I have saved over 65,000 documents, files, data, 775 videos, studies to confirm what all I have posted on my web page, www.pastorbobreid.com .

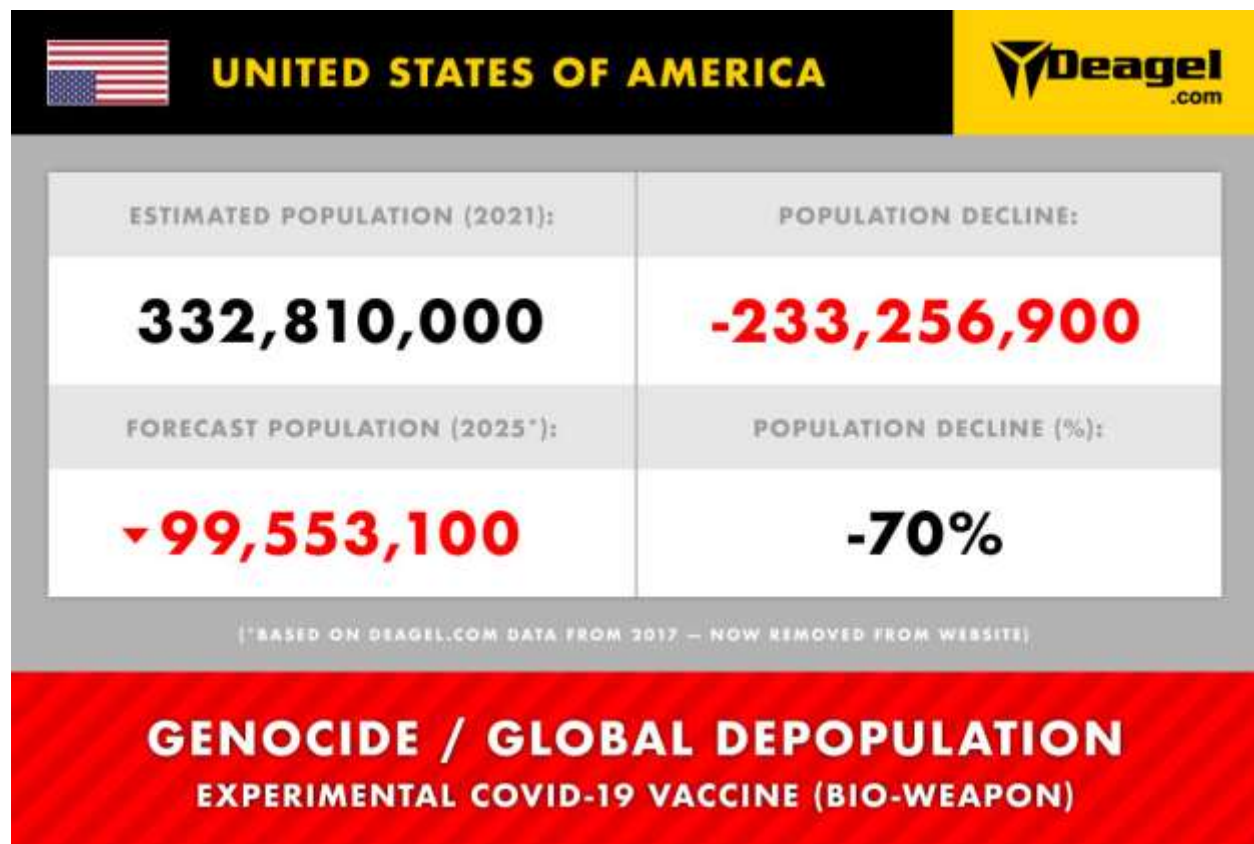

Throughout these past twenty-two months they have executed the Hegelian Dialectic with brain-surgery-like precision.

The goal was there for anyone to see. Use the power of "fear" that a rogue novel virus breaking out in China. Get people fixated on contagion of a virus on a cruise ship, the *Diamond Princess*. It only took the death of 14 Japanese cruisers and over 700+ passengers being diagnosed with Coronavirus-like symptoms. A month of sequestering the passengers and the public glued to the television was all they needed to create confusion, division, and sit back and watch the world devolve. The Deagel Report told those of us who were watching their grand plan being rolled out was to eliminate 260-million people. The Georgia Guidestones broadcast their global agenda from a hillside

northeast of Atlanta in Elberton, GA that they wanted to eliminate seven billion people worldwide.

We believe that citizens should be free to exercise their natural right to practice medicine as they see fit – in retention both of bodily sovereignty and civil liberties. To that end, we orient ourselves around the foundational premises that the body is inherently wise, that symptoms are meaningful, and that radical healing is eminently possible when we align with the earth and honor our place in the natural world.

As Robert J. Burrowes, Ph.D, presented the picture of a historical time past, humanity has been manipulated once again to the psychology of tyrants, humanity is being led by the nose once again through fakery and stealth.

We believe this crisis represents a world-changing opportunity to expose and transform antiquated ideologies that restrict health freedom. Germ theory is a scientifically bankrupt paradigm based in warfare models of pathogenic invasion. This theory has been leveraged as an instrument for geopolitical and social control – largely in the form of a vaccination agenda – to subdue the populace through coerced and forced bodily penetration and associated disability, mortality, and surveillance. As a result, conventional Western medicine functions as a sort of religion based on consensus assumptions and dogmatic medical monotheistic posturing. At its core, this approach is not salugenic or scientific and thus violates its stated ethical parameters around informed consent, beneficence, and an uncompromised evidence base.

The hysteria so prevalent today only makes sense when you recognize that most people are truly not thinking for themselves, but are instead programmed to run scripts and programs that have been prepared for mass consumption.

Here's a look at how hypnosis (and mass media) hack your mind to control your behavior. The mass psychosis the country has been in came about through hypnosis.

First of all, let's acknowledge the power of hypnosis. Therapeutic hypnosis is widely used clinically for the management of pain, depression, anxiety, stress, phobias, and habit disorders, such as smoking.

Stage hypnotists are well-known for inducing some extraordinarily illogical and ridiculous behavior in their subjects. In a matter of minutes, an accomplished stage hypnotists can get complete strangers to do absurd things like believe their hands are glued together, forget their own name, lose the ability to drink water, to be unable to see a person or object right in front of their face, to jump up and yell something bizarre when they hear a code word, and on and on.

Hypnotism is real, and anyone is susceptible to it, in varying degrees. any person. a subject needs to be intelligent, as a key requirement for hypnotism is the ability to focus on the imagery, speech and commands of the hypnotist; he gives us a simple exercise to show that certain people can be more or less susceptible to hypnosis.

If you watch the television, then you are a prime candidate for hypnosis. If you got your news on Covid from the television you were set up to believe the lies and propaganda written for public consumption.

IS NO ONE ELSE SEEING THIS?

They create a virus. They lockdown the world. They go cashless. They install 5g. They make ID2020 RFID universal vaccine implants to work with 5g networks. They mandate the convid vaccine.

The media has exploited the fear-factor to induce its hypnosis of society. Break that hold by abandoning the face diapers, a symbol of control. If we do not break that mask we are allowing the elite to enslave us to their tyranny!

Stories about the Wuhan outbreak of Corona virus are now getting so crazy that it's rather difficult to see the real truth about what's been going on there.

Is there a connection between the reported outbreak of COVID-19 Coronavirus in Wuhan and the fact that Wuhan was a model city for demonstrating **5G** wireless technology in China?

Was it just a coincidence that the crippling health effects known about **5G** wireless technologies were in effect in a full scale deployment in Wuhan starting October 31, 2019?

These are some of the questions we will attempt to address here in this expose:

5G Wireless Coronavirus Connection Exposed

There has been a whirlwind of speculation about the Coronavirus COVID-19 (2019-nCoV) being a bioweapon. While there is quite a bit of evidence that this coronavirus has features that point toward a man-made virus this doesn't mean that there's not also a connection between this "outbreak" and the **5G** Wuhan test city.

In getting to the meat of this hypothesis it's important to start with what we know that **5G** wireless can do to your immune system.

5G as well as plenty of other non-ionizing radiation sources affect the voltage gated ion channels in your cellular and mitochondrial membranes. What this means is that the non-ionizing radiation puts extra forces on the voltage gate that is designed to protect your cells and keep them in balance.

This additional force or pressure that's put on the voltage gate opens the "gate" and throws off the balance of the cell.

Keep in mind that the cellular membrane is actually considered by many biologists to be the "brain" of the cell. It's thought of this way because this "brain" is the regulator of the cell as it knows what ions to let in and when, as well as what to let out of the cell and when.

Putting more voltage pressure on this gate actually has catastrophic effects. These effects are in some cases irreversible. To dig deeper into this subject you can check out Dr. Martin Pall's work and presentations. He's researched this subject for many years and published extensive journal articles on it which you can also find on PubMed if you are into that sort of research.

Now let's discuss what **5G** really is...

5G deployment (a military term which is used in all discussion of **5G**!) involves installation of thousands of small cell transmitter antennas along with specially designed LED streetlights in cities where full scale **5G** network access is being sold. These transmitters and LED streetlight work in conjunction with each other to provide the network access utilizing an array of different frequency bands for different purposes.

Some of the frequencies used in **5G** networks are sub-Gigahertz which corresponds with much of the 4G LTE networks while other much higher frequencies at 28 Gigahertz and higher are used for massive data compression short distance communication. Because these higher frequencies are limited to shorter distance transmission capability and are easily blocked by any physical object whether it's a tree or the wall on a building, or even a sheet of copy paper, many more small cells are needed in a city in order to deploy full scale, high bandwidth **5G**.

More small cells means a denser background of non-ionizing radiation everywhere which is why you hear **5G** being discussed as the “densification” of wireless technology. In order for it to work the background radiation in any city must be much higher than it's ever been with previous technologies.

As you can see higher intensity background radiation in a city means that **5G** affects everyone whether you use it or not.

And for this reason it also affects your sensitive voltage gates on your cellular and mitochondrial membranes.

Other reports explain this as opening up your skin, and while this is part of the issue it's not JUST your skin that's affected.

We can think of our skin as the membrane that is protecting our internal structure but these forces will penetrate throughout your body as even if we think higher frequencies may have a stronger effect on the first few millimeters of our skin, the associate EMF will penetrate throughout your body and essentially ring your internal organs with the same frequency of the radiation.

Here's the bottom line, it's not a surprise to the scientists that study the effects of EMF that **5G** deployment has already been shown to cause flu-like symptoms in the populations that's exposed to it.

After all the frequencies used in **5G** networks are much the same as those used in the Active Denial System used for crowd control which I discussed in **5G** EMF wireless. Considering those systems made people feel like their “skin was on fire” forcing an immediate response to run away it's not too surprising the type of effects that it may have caused in Wuhan.

Harmful effects of RF-EMF exposure are already proven by thousands of independent studies by scientists around the world conducted since the advent of the cell phone. The FCC refuses to update the 1996 warnings because of the financial and legal issues dogging **5G** EMF radiation by the huge telecoms.

Over 230 scientists from more than 40 countries have expressed their “serious concerns” regarding the ubiquitous and increasing exposure to EMF generated by electric and wireless devices already before the additional **5G** roll-out. They refer to the fact that “numerous recent scientific publications have shown that EMF affects living organisms at levels well below most international and national guidelines”. **Effects include increased cancer risk, cellular stress, increase in harmful free radicals, genetic damages, structural and functional changes of the reproductive system, learning and memory deficits, neurological disorders, and negative impacts on general well-being in humans. Damage goes well beyond the human race, as there is growing evidence of harmful effects to both plants and animals.**

We know that as of late October, 2021, that 88% of all Covid-19 deaths had at least two comorbidity issue making them vulnerable or susceptible to **5G** EMF radiation sickness or symptoms. Scientists and doctors warn of potential serious health effects of **5G** to individuals dealing with heart, lung, kidney, liver, cancer, related debilitating illnesses.

Wuhan National Biosafety Laboratory

This is being reported as the only laboratory in China equipped to study dangerous pathogens. This is something that was done in the research laboratory at Plum Island off the coast of Long Island, New York historically. That location was chosen specifically because it was disconnected from the US by the Long Island sound. The idea behind that location was that it could avoid the accidental release of (possibly engineered) pathogens onto mainland U.S.

It’s been reported that there were risks with this laboratory in Wuhan:

Scientists warned in 2017 that a SARS-like virus could escape a lab set up that year in Wuhan, China, to study some of the most dangerous pathogens in the world.

Now, a SARS-like coronavirus has infected more than 800 there, spread to at least 10 other countries and killed 25 in Wuhan and nearby provinces.

China installed the first of a planned five to seven biolabs designed for maximum safety in Wuhan in 2017, for the purpose of studying the most high-risk pathogens, including the Ebola and the SARS viruses.

Tim Trevan, a Maryland biosafety consultant, told *‘Nature’* that year, when the lab was on the cusp of opening, that he worried that China’s culture could make the institute unsafe because ‘structures where everyone feels free to speak up and openness of information are important.

Event 201 “A Global Pandemic Exercise” and the Wuhan Military World Games

In October 2019 in both New York and Wuhan some very suspicious activity was going on...

Wuhan military games **5G** from October 18-27th 2019, Wuhan hosted the Military World Games and specifically used **5G** (for the first time ever) for the event. Also on October 18th, 2019 in New York, the Johns Hopkins Center in partnership with World Economic Forum (WEF) and the Bill and Melinda Gates Foundation hosted Event 201 – “A Global Pandemic Exercise” which is a simulation of a pandemic. **Guess what virus they happen to choose for their ‘simulation’? A coronavirus! Guess what animal cells they use? Pig cells! (COVID-19 was initially reported to be derived from a seafood market, and the fish there are known to be fed on pig waste).** Event 201 includes the UN (since the WEF now has a partnership agreement with UN), Big Pharma (Johnson and Johnson), Bill Gates (key figure in pushing vaccines, human microchipping and Agenda 2030) and both China and America’s CDC. Participants in Event 201 recommended that governments force social media companies to stop the spread of ‘fake news’ and that ultimately the only way to control the information would be for the WHO (World Health Organization, part of the UN) to be the sole central purveyor of information during a pandemic.

Connection to DNA Vaccines & Forced Vaccination Agenda

An interesting side note to this story relating to vaccines and vaccination profiteering is the InOvivo corporation. This was astutely pointed out by Annie Logical this year in her expose on this subject. The crux of the story is this...

Dr. David Weiner and Dr. Joseph Kim are the principles of InOvivo and have been pioneering a new type of DNA infused vaccine which involves the use of electroporation from an electrical pulse to infuse DNA by opening pores in cellular membranes using the voltage gate described above.

This pair has previously been involved in engineering vaccines for Ebola and Zika virus but Dr. Weiner’s pioneering DNA transfer method using electroporation is a method of actually infusing foreign DNA into the subject being injected with the vaccine.

Dr. Kim was funded by Merck for his education, he produced something called PCV2 which is Porcine Circovirus, they were working on a veterinary drug that would help pigs escape a wasting disease.

So this was evaluated by the Dept. of Homeland Security and Plum Island animal research, this DNA plasma for pigs had approval in 2005, in 2009, then Dr. Weiner and Dr. Kim were filing for a patent for their swine flu vaccines.

In 2009 Dr. Kim’s company was filing with FDA to start trials on humans for the swine flu. Dr. Kim has many Merck Insiders on his board. They created PCV1 and 2, which is Pig DNA. Later on PVC1 and PCV2 were discovered in vaccines such as Gardasil, Rotatec and Rotarix.

A couple of years after they were given the patent for this pig DNA vaccine using PCV2 that same ingredient was found to be in Merck's Rotarix vaccine for diarrhea and GSK vaccine Rotateq for diarrhea.

Now how does pig virus magically turn up in a vaccine for diarrhea? It doesn't! It gets put there. And what is unbelievable is that even though both vaccines were suspended and it transpired that all the vaccines for 2 years had been contaminated, the FDA suspended them for a few months then let them carry on. (The Information about the two drugs being suspended was found on the Medworm website and the article was written by none other than Dr. Kim)....

Prof Weiner is not only the world's DNA technology expert but he is also a special employee and adviser to the FDA.

These shows the depths to the corruption of this industry when an advisory to the supposed regulatory body is also a producer of vaccines that he advises on!

He has perfected a new method of giving these DNA vaccines via "Electroporation" which is an electro-magnetic pulse that opens up the cells, injects foreign DNA and then it closes. Imagine using a laser weapon to kill a person, i.e., no smoking gun, no expended cartridge, no evidence like bullet grooves and twists studied in crime forensics. This is the potential ultimate weapon of a criminal wanting to commit the perfect murder. It is all conducted invisibly under the guise of 5G EMF wireless energy beamed right into your sweat glands and skin pores. It has multiple applications and vectors and known only by the individual utilizing this technology.

This method/system of "Electroporation" has been stated by Molecular Biologists to be unsafe as it could lead to death or cancer. Few people are aware of the potential use of

inducing Brucellosis-Mycoplasma through “Electroporation”. I have discussed this in my articles on Mycoplasma, a well-kept military secret since the 1950s.

This is the same action that **5G** technology uses in pulsed waves and the corona virus was reported to have started in an area in China that had rolled out **5G** technology!

So we can see how geneticists using scientists are tampering with the building blocks of our existence and what is disturbing is that Prof. Wiener is a HIV pioneer and we know that soon after the Polio vaccines were given to millions in Africa that HIV emerged.

They have perfected the art of injecting animal or bird DNA into human chromosomes which alters our DNA and causes things like hemorrhaging, fever, cancers and even death.

If you dig into this sort of information you’ve probably already heard about the Bill & Melinda Gate Foundation connection to the Pirbright Institute who owns a patent on a Coronavirus which is stated can be used for a vaccine for treating and/or preventing a disease such as infectious bronchitis.

So what’s the agenda here? This pretty much sums it up:

Here’s how this con job goes and although it repeats itself under different names, year after year (Corona, HIV, AIDS, SARS, Ebola, Zika, Mad cow etc. etc.) most of the uninformed public react as programmed hypnotized, simply because fear is PROVEN to trigger a narrowing of the mind, a lowering of IQ, a stimulation of the child ego (that looks for an adult to save it) and a reflexive obedience toward perceived authority.

The con job goes like this.

Step 1) poison the population purposely to create disease that does not and would never occur naturally.

Step 2) parlay the purposely created disease as being caused by something invisible, outside the realm of control or knowledge of the average person.

Step 3) create a toxic vaccine or medication that was always intended to further poison the population into an early grave.

Step 4) parlay the vaccine or medication poisoning as PROOF the disease, which never existed, is much worse than anticipated.

Step 5) increase the initial poisoning, which is marketed as a fake disease, and also increase the vaccine and medication poisoning, to start piling the bodies into the stratosphere.

Step 6) repeat as many times as possible upon an uninformed population because killing a population this way (the art of having people line up to kill themselves with poison.....known as a “soft kill” method) is the only legal way to make sure such eugenic operations can be executed on mass and in plain sight.

The best way to understand why the coronavirus pandemic exploded worldwide in the very same year that the military deployment of **5G** was greatly advanced in China, Italy, South Korea, United States and other IT-savvy nations is to view them both as a binary weapon system, which is then coordinated with vaccine programs and chemtrail operations to function as a quaternary weapon system.

Only when viewed through the “quaternary weapon system” lens can the apocalyptic events of 2020 be properly comprehended and successfully responded to.

5G & COVID-19

The following personal testimony is presented in order to gain crucial insight into what is really going on wherever a coronavirus cluster mushrooms out of nowhere right in the middle of a **5G**-intensive region.

The Wuhan Virus And 5G 60 GHz Are Binary Weapons

The excerpt below offers some critical perspective on how the direct relationship between the Wuhan coronavirus outbreak and the accelerated **5G** roll-out which took place in Hubei Province during 2019. By the way, why was that deployment of **5G** in Wuhan so speeded up just before the coronavirus outbreak in December, 2019?

“China was long ago set to be the **5G** showcase for the world. Major metro areas and technology hubs like Wuhan were selected to be official **5G** Demonstration Zones. Only such a high concentration of **5G** radio-frequency transmitters and microwave towers would permit a citywide build-out of the Internet of Things. 2019 was the year Wuhan, the capital of Hubei, was “expected to have 10,000 **5G** base stations by the end of 2019, said Song Qizhu, head of Hubei Provincial Communication Administration”. Then the coronavirus hit, so the whole world was told. What really happened was that a new variant of the coronavirus was released in Wuhan after the **5G** experimenters saw an epidemic of **5G** Syndrome explode. The **5G** guinea pigs were literally dropping like flies as soon as they flipped the **5G** switch. The ERs and urgent care clinics were overwhelmed. The **5G** scientists watching the burgeoning public health crisis immediately activated Plan B: **Blame it on a virulent flu—a bioengineered coronavirus that produces symptoms similar to 5G Syndrome.**”

(Source: Wuhan coronavirus pandemic was STAGED to cover-up the public health crisis caused by the intensive **5G** roll-out in Wuhan in 2019)

The connection between **5G** and the Coronavirus has been firmly established and can no longer be ignored, especially by smartphone-addicted Americans. In point of fact, many smartphone users suffer from either a low-grade **5G** Flu or full-blown **5G** Syndrome. In both cases, they are usually unaware of the primary cause of their chronic illness—their smartphone, wireless home environment and/or workplace Wi-Fi.

Now add Covid-19 into the mix. Clearly, the result is a highly consequential global predicament the mainstream media has labelled the coronavirus pandemic. However, what we're really seeing is a new man-made plague called Coronavirus Syndrome. See: CORONAVIRUS SYNDROME: The Ultimate Genocidal Bioweapon System.

These synchronistic developments regarding both **5G** Flu and **5G** Syndrome and the rapidly intensifying coronavirus outbreaks throughout the USA and world-at-large are well explained in the following excerpt.

KEY POINTS: **5G** Syndrome is a much more serious medical ailment than **5G** Flu. **5G** Syndrome represents a much more extensive list of severe symptoms, some of which are life-threatening. However, as the whole world has witnessed, **5G** Flu can also kill you—FAST—depending on your overall health profile and the strength of your immune system. That's why the elderly and infirm succumb to **5G** Flu so quickly ... and children seem to have a natural immunity. The Children's Defense Fund posts the CDC data weekly on Friday, and throughout the entire time I have posted my series on "Mass Murder by Syringe Needle", the average age of death has been between 72 and 75!

Nonetheless, it's **5G** Syndrome that is the quiet killer because of how many symptoms will occur completely under the radar over years. Also, many of those symptoms will be routinely misinterpreted as other disease processes by medical and holistic doctors alike. This kind of misdiagnosis and under-diagnosis by physicians everywhere has occurred over several decades regarding Electro-hypersensitivity illness, often by the intentional design of the Medical-Big Pharma Complex.

Then there are those individuals who suffer from both **5G** Flu and early-onset **5G** Syndrome; they're the ones dropping like flies in Wuhan, China. Their addiction to smartphones and other wireless devices blinded them to the adverse health effects caused by the sudden influx of **5G** energies (which include extremely high radiofrequency signal ranges and ultra-strong microwave transmissions) when they flipped the switch in 2019 in Hubei Province.

In general, **5G** Flu is more of an acute illness whereas **5G** Syndrome is a long-term, chronic disease. They mutually support and feed off each other which is what makes them so dangerous and increasingly fatal. A person who has **5G** Syndrome is much more susceptible to contracting **5G** Flu. And, a person with **5G** Flu is a good candidate for developing **5G** Syndrome.

One who repeatedly gets the Wuhan coronavirus (or **5G** Flu), as many Chinese sufferers have to date, will exhibit a greater likelihood of developing **5G** Syndrome; that is, if they don't already have a case of it. The extraordinary re-infection rates for COVID-19, also known as the coronavirus bioweapon triggering **5G** Flu, offer compelling circumstantial evidence that it's really an electromagnetic radiation-driven disease more than a bioengineered coronavirus; although, it's really both co-factors working in tandem to turbo-charge each other.

Truly, the 'inexplicable' re-infection rates tell the hidden back story about this swiftly unfolding pandemic. The only plausible reason for multiple re-infections, when compared to all previously studied coronavirus outbreaks prior to the Wi-Fi era, is that the former COVID-19 patients have stepped back into their wireless environment, they live in a **5G** hotspot, they are creating their own IoT and/or they still sleep with their smartphones — TURNED ON — under their pillows.

5G Syndrome insidiously develops over a period of sustained exposure to a **5G** power grid and/or usage of even a small-scale version of a home-based IoT or a full-scale office build-out of the Internet of Things. The longer any individual sits in those unsafe levels of **5G**-disseminated EMFs and microwaves, the more likely they will experience the evolution of their own unique form of **5G** Syndrome. Eventually, they will become vulnerable to not only **5G** Flu (i.e. Wuhan coronavirus), but also to the whole host of other bioengineered flu strains and naturally occurring influenzas.

The most critical point here is that every long-term, habitual smartphone user is at great risk for developing either **5G** Flu and **5G** Syndrome, or both. During the annual flu seasons, they will be more susceptible than others to any type of influenza that passes through the neighborhood, especially a coronavirus bioengineered to be highly contagious.

(Source: CORONAVIRUS SPECIAL REPORT: Worldwide Outbreaks of **5G** Syndrome and **5G** Flu Driving Pandemic)

KEY POINT: When a practicing physician like Dr. Thomas Cowan, M.D. discusses the direct connection between the coronavirus and **5G**, it's time to pay close attention. His compelling video presentation has been censored: M.D. Physician Says Coronavirus Likely Caused by **5G** (Video). Unfortunately, censors have either expunged the video or blocked its viewing at other sites. Dr. Cowan was the first one to point this out in March of 2020, to a conference in Scottsdale, AZ. I was fortunate to view it several times before Internet censors expunged it.

First, it's of paramount importance to understand that the Super-Vaccination Agenda has been implemented since World War I. Secondly, that vaccines represent a profound assault against the human body often with consequences that are irreversible. In numerous cases, children are killed by these toxic formulations, just as adults can be debilitated for life by a single flu vaccine. Does anyone know for sure what's in these Big Pharma-manufactured chemical and biological time bombs?!

Vaccines, especially flu shots, play an integral part in this Quaternary Weapon System. The annual flu vaccine, that's aggressively pushed each and every year because it's so vital to this global depopulation scheme, contains a cocktail of harmful biological material and unsafe chemical compounds. Some of the vaccine ingredients are nano-sized particles that are both digitized and controllable by remote, which can wreak havoc with the human immune system.

The elderly are quite easily scare-mongered into receiving their annual flu shot. With each flu vaccine, they are injected with "digitized, controllable RNA", which can then be activated by 5G-disseminated 60 GHz millimeter wave bands. This is why older folks who get the coronavirus are totally incapacitated so quickly, with a high percentage of them dying in short order. The spike protein in the vaxxes was developed in the 1990s and provided Big Pharma over two decades to find out its potential for damage!

Even the mortality rate for young adults is increasing, especially for those who have been regular flu shot recipients and are regular smartphone users. Children in the United States are now exhibiting a much higher infection rate than other countries because of the vigorously enforced childhood vaccination schedules and wireless home environments. The extraordinarily high incidence of ADD and ADHD, Autism and Asperger's, Dyslexia and Developmental Disabilities are all proof of the extreme neurological impacts from the dangerous vaccines mandated for delicate babies and fragile young children.

The American people, collectively, are the biggest victim of the Super-Vaccination Agenda in the world because of the overwhelming political power and corporate influence of the Big Pharma-Medical Complex. Hence, a significantly higher infection rate and mortality rate can be expected from COVID-19 in all 50 states, particularly in those cities and counties with the most vaccine compliance, 5G-intensive power grids, chemtrailed skies and coronavirus releases.

Chemtrails

Chemical geoengineering has seen numerous technological developments this millennium that only makes chemtrails more hazardous by the year. The heavy metals alone, such as aluminum, are irreversibly altering the atmosphere to make it more conductive for the powerful 5G electromagnetic frequencies and microwave transmissions. Just imagine how much aluminum oxide has been sprayed into the troposphere over three decades? See: U.S. Government Spraying Tons of Toxic Coal Fly Ash Into Atmosphere Via Chemtrails.

The real problem here lies with the facts of life in 2020 that very few understand. For example, most of us live under constantly chemtrailed skies. Hence, we are all breathing polluted air that is saturated with chemically mobile aluminum as well as barium salts, strontium, lithium and many other chemical contaminants.

Living a lifetime under chemclouds and chemcloud cover has contributed substantially to our toxic load or total body burden. Therefore, the more anyone's sky is streaked with

chemtrails, the more susceptible they are to coming down with any type of flu or coronavirus infection. These noxious air pollutants only serve to tax the upper respiratory system thereby creating a conducive environment for a coronavirus to first colonize there, and then proliferate and migrate into the lungs. Three years ago I purchased HEPA UV air cleaning filters to negate what might enter our house through our oil furnace and central air-conditioning system.

There is compelling evidence now available which indicates that the global chemtrail operations are being coordinated with the release of the coronavirus bioweapon. In other words, the specific chemical and biological ingredients being put into the chemtrail aerosol formulations are designed to weaken immunity, toxify the body and sufficiently undermine overall health. In so doing, the COVID-19 bioweapon will produce a much greater of likelihood infection, disease and death in areas with intensive chemical geo-engineering operations. Evidently, these two prongs of the incessant bio-attacks are working closely in tandem to pave the way for a full-blown pandemic.

Really, is there any more effective way to prep the human airways for a coronavirus infection than to fill them with airborne toxic chemicals and biologicals.

KEY POINTS: Four of the biggest coronavirus clusters in the world mushroomed practically overnight in large urban areas which had four common denominators. Each of those major cities experienced (i) an intensive 5G roll-out, (ii) continuous chemtrail spraying over years, (iii) a high level of flu vaccine compliance, and (iv) numerous coronavirus bioterrorist attacks using COVID-19 or variant. In order of appearance of these 4 well-documented coronavirus cluster explosions, first there was Wuhan, China; next there was Milan, Italy; which was followed by Kirkland, Washington (neighboring Seattle); and now we are witnessing the greater New York City area in real time. In each case, the “quaternary weapon system” was fully activated to bring about what appeared to be a spontaneous coronavirus outbreak. However, hard evidence is now surfacing that proves a highly coordinated international criminal conspiracy to engineer a pandemic in order to trigger a panic.

Conclusion

What other conclusions to this transparent scheme to manufacture a global pandemic while staging a 24/7 panic can there be?

Yes, there are these hidden and not-so-hidden agendas being implemented during 2020; however, G E N O C I D E with the explicit intention to D E P O P U L A T E the planet on the way to a global L O C K D O W N are the main goals of the New World Order globalist cabal.

Here's a much more detailed discussion of this multi-decade, international, criminal conspiratorial plot to rule the entire planetary civilization via genocidal enterprises that employ biological, chemical and frequency warfare: OPERATION CLOVERLEAF: The

Most Dangerous Weapons Testing Program In World History. Another name these aerial sprayings goes by is *'The New Manhattan Project'* by Peter Kirby.

BOTTOM LINE: Who else could fund, develop and systematically launch a "QUATERNARY WEAPON SYSTEM" over the past 100 plus years but the International Banking Cartel & Crime Syndicate. That's right, no other international entity exists that could also keep this multi-century crime spree completely covered up by their wholly owned and controlled mainstream media. See: Nothing changes until those who secretly rule U.S. are prosecuted for 9/11, JFK, OK City, 5G, Chemtrails, Vaccines, COVID-19....

The International Banking Cartel & Crime Syndicate is really a front organization for numerous secret societies, criminal cabals, corporate camarillas and international mafias. These clandestine agents of globalism are variously known as the Black Nobility, Illuminati Families, Committee of 300, Council on Foreign Relations, Bilderberg Group, Rothschild Crime Family and especially the Khazarian Mafia. Video Rebel's Blog

"I am convinced that The Powers That Be want us dead. Why? Maybe because they stole our pension money and don't feel like making restitution? Or maybe they figure it is cheaper to kill a few billion people rather than clean up the environment? We never really know another's motivations. In any event, I do remember this quote:"

"For the first time in human history it is infinitely easier to kill a million people than to control them." Zbigniew Brzezinski. November 17, 2008.

Let me explain what a binary weapon is. I went to university in Boston many years ago. While there, I remember a locally produced TV documentary which featured a binary weapon. Two CIA thugs were trying to get a binary weapon from the U.S. to the Mideast on commercial airliners. The man they selected to carry their binary warhead through customs underneath his raincoat was drunk so they had to call up fellow criminals at MI-6 to get their man through. His binary weapon was a nerve gas. The warhead had two compartments. If one compartment leaked, customs would have arrested the drunk but nobody would have died. But, if both compartments released on impact as it was designed to do, the two chemicals would have mixed and produced a nerve gas that would have killed nearly everyone at Heathrow airport that day.

Both the Wuhan virus and the **5G** 60 GHz networks are harmful. But the virus seems to be more virulent in the presence of **5G** 60 GHz frequencies. And people who recover from hospitals do go home to **5G** 60 GHz cell towers in the neighborhoods and continue to live.

The *'Scientific American'* had an article entitled "We Have No Reason to Believe **5G** Is Safe." The link is below. I also found this on Google: Joe Imbriano warns that **5G** technologies will broadcast at 60-GHz, which is the absorption spectrum of oxygen molecules, which means it can kill at a distance. At the molecular level, these frequencies affect the orbit of electrons, and that affects the ability of blood hemoglobin to bind with oxygen. In the short of this, **5G** at 60-GHz will consume 98% of the oxygen in the human lungs. Hint: Humans need oxygen to live.

The coronavirus has been proven beyond any doubt to have been created in a lab. Likely, the U.S. and not China as it has two HIV strands of 18 fragments of the HIV genome and 4 of SARS2 with a spliced in SARS ACE2 cellular inhibitor which in the original epidemic attacked Asians more with fatal consequences than the rest of us.

Now imagine that you have combined the two bioweapons and people start dying in countries with the most **5G** 60 GHz, two of which are China and Iran.

I wrote an article explaining that we can survive this bioweapon.

One key is cytokine storms. But, if you build a gut barrier, you will reduce your cytokine responses by 80%. And there are ways you can survive that intense cytokine storm.

Giving up sugar might help too as Dr. Tom Cowan have said that eating simple sugar decreases the ability of the capillaries to move oxygen.

This might be our last chance to say No to those who want us to die by the billions.

The New World Order globalist cabal will not allow anything to impede the military deployment of **5G** worldwide. That's it!

5G Syndrome Maps Perfectly with Coronavirus Outbreaks

There's a LOT of hard evidence now emerging the further away we get from the original crime scene in Wuhan, China and as the coronavirus popped up around the world in **5G** Hotspots that indicates this pandemic is being manufactured for multiple reasons.

As it turns out, those nations with the most advanced **5G** roll-outs have the highest incidence of COVID-19 cases, both infection rates and death rates.

In those countries that have permitted IoT build-outs where the **5G** power grids are the most developed, the coronavirus infection rate is taking off.

What's really interesting is that Africa has thus far shown very few cases. As of this weekend there were only 3 medically acknowledged cases on the entire continent. Which begs the question: How do the Third World countries in Africa avoid such a contagious strain of the coronavirus given the pervasive lack of proper sanitation and necessary hygiene?

In light of how deeply involved the Chinese are with development projects all over Africa, it's quite curious how that infection number is still so low. Perhaps it's directly related to the absence of **5G** roll-outs in the vast majority of African nations.

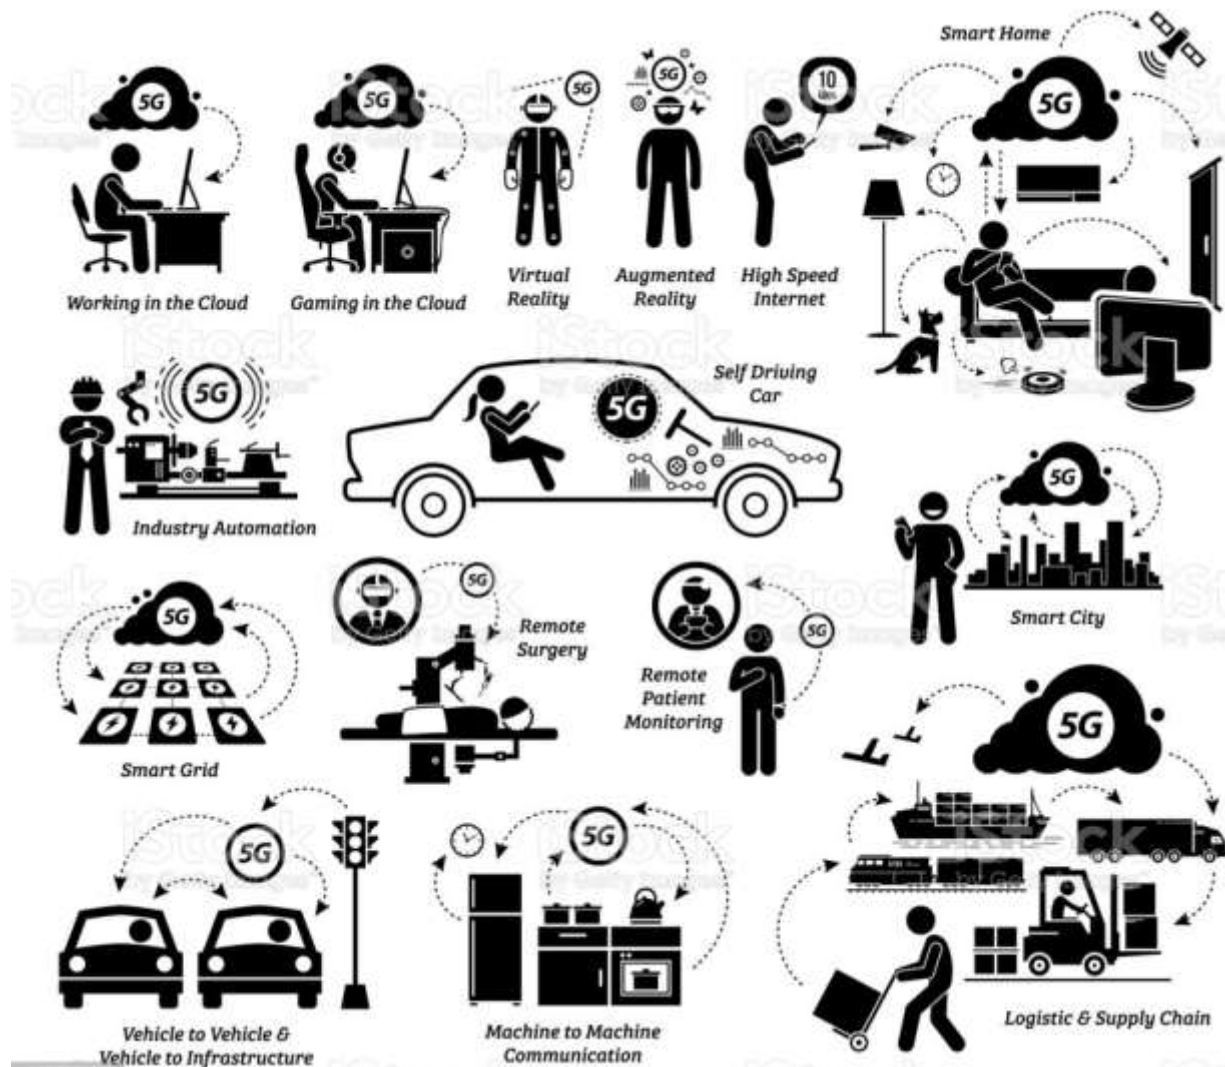

Before those nations suffering the greatest number of coronavirus infections to date are further investigated — China, South Korea, Italy, Iran, Japan, Singapore, Hong Kong, Germany, United States, France, Spain, Kuwait — another curious development ought to be looked at closely.

The Proof is in the Cruise Ships

The single best proof of the quite obvious **5G**-Coronavirus linkage are the various cruise ships that have seen an inexplicable mushrooming of coronavirus cases, even after all the passengers were quarantined.

Many of the biggest cruise lines advertise the fact that they have the latest and greatest **5G** technologies in place. The most advanced cruise ships actually possess the best examples of what the Internet of Things (IoT) will look like in the future ... if the build-outs proceed unimpeded by the very serious health concerns and safety issues.

KEY POINT: Cruise-goers, by and large, love to stay connected with the folks back home. They especially enjoy texting their many photos-by-smartphone back to family and friends. Businessmen have a need to stay in touch with the office as other passengers want to stay abreast of all the breaking news in 2020. Hence, nearly every cruise ship has become a **5G**-IoT paradise if they're not already.

What really happened on the quarantined cruise ships is that those folks were likely quite vulnerable to the flu bug for a variety of reasons. Then, when they entered the fully operational **5G** space* on the ships, their immunity was profoundly weakened so that they would be susceptible to any influenza strain, including the Wuhan coronavirus—COVID-19.

*The cruise lines have literally put their **5G** technology on super-steroids as seen in their promotion: MedallionNet™: The Best Wi-Fi at Sea. My first article on cruise ships was titled, “The Best Wi-Fi at Sea”. You are not hearing about Covid-19 on the cruise ships, intentionally so, but Covid-19 cases are being covered up!

Cruise Ships Reported 1,359 COVID-19 Cases, Resulting in Dozens of Medevacs and Hospitalizations, to the CDC Between June 26 and October 21, 2021

The Centers for Disease Control and Prevention (CDC) will require cruise lines sailing from U.S ports to continue to follow the CDC's protocols for COVID-19 on ships subject to its jurisdiction through January 15, 2022. The agency's conditional sailing order (CSO) was set to expire this past weekend, on November 1, 2021, but was just extended to January 15, 2022. After January 15th, if the CDC does not again extend the CSO, cruise lines will be permitted to voluntarily follow their own policies to detect and control the spread of COVID-19 on their ships.

The CDC stated that when cruise lines began resuming "revenue voyages" from the U.S. in the last four months, between June 26 – October 21, 2021, there were **1,359** laboratory confirmed cases of COVID-19 on cruise ships reported to the CDC.

COVID-19 Remains A Problem on Cruise Ships Despite High Vaccination Rates

The resumption of cruises in the U.S. has led to the "introduction and sustained transmission of COVID-19" among cruise ships, despite high vaccination rates among both crew and passengers.

According to [@CDCgov](https://www.cdc.gov)'s extension of conditional sailing order [#cruise](#) ships subject to CDC jurisdiction experienced total of 1,357 confirmed [#COVID19](#) cases involving pax & crew including 3 ships with total of 275 positive virus cases over multiple cruises <https://t.co/aw9HbsWpQ0> pic.twitter.com/HZlxgvpPly

— James (Jim) Walker (@CruiseLaw) [October 27, 2021](#)

It does not appear that COVID-19 cases where guests disembarked the cruise ship and then tested positive were included in this total, even where the guest was exposed to COVID-19 during the cruise and likely contracted the disease there.

The CDC did not state any details regarding COVID-19 outbreaks on cruise ships sailing from U.S. waters. For example, the federal health agency did not disclose the name of a single cruise line or cruise ship whatsoever.

It is my educated belief that the Cruise Lines have since last year's experiences learned what the real cause of the 14 deaths and 700+ cases on the *Diamond Princess* and are now modulating their **5G** communications at the lowest energy level possible so as to avoid potential future deaths. This level would be between 10 GHz and 24 GHz, and that they may still be using the GOES-East and GOES-West satellites for wireless communications at latitudes of 55-degrees north and 55-degrees south in the southern hemisphere.

The original installation purpose of **5G** EMF was to provide full global communications without the need to use the U.S. government GOES satellites and their expensive costs for cruise passengers' convenience. The cruise industry had been increasing their

cruises to the exotic waters of the northern and southern hemisphere and the need to “stay in touch” became a sales feature for cruise ship operators.

Cruise Passengers Remain in the Dark

Cruise lines, of course, never disclose to the public when their guests or crew members are infected, unless there is information first released by the media. Foreign health agencies sometimes publish news article about outbreaks. The health department in Belize, for example, disclosed the number of infected crew members following a [significant COVID-19 outbreak on the *Carnival Vista*](#) earlier this summer.

Here is the report by News 7 Belize on the visits by the Infected Carnival Vista to [#Belize](#) on Wednesday [#Belize](#) [#COVID19](#) [#Cruise](#) @CarnialCruise <https://t.co/vmzv2y8XZR> pic.twitter.com/bNvVQKntt4
— James (Jim) Walker (@CruiseLaw) [August 15, 2021](#)

Cruise lines like Carnival will never disclose when a passenger dies due to COVID-19. Nor will the cruise lines admit when there are repeated virus outbreaks on consecutive cruises.

A Slew of Large COVID-19 Outbreaks

The CDC, in its recent order extending the conditional sailing order until next year, highlighted what it described as “*several large outbreaks*” on cruise ships:

- **21 infected** – on July 24, 2021, one symptomatic passenger who tested positive for COVID-19 on a cruise ship (Cruise Ship A) was epidemiologically linked to 20 additional COVID-19 cases over two voyages, including 2 passengers and 18 crew members.
- **58 infected** – between July 24 – August 28, a cruise ship (Cruise Ship B) reported 58 laboratory-confirmed COVID-19 cases among passengers and crew.
- **13 infected** – between July 29 – 31, 2021, three symptomatic passengers tested positive for COVID-19 on a cruise ship (Cruise Ship C). Contact tracing and testing identified an additional 12 laboratory-confirmed cases of COVID-19, including 10 passengers and 2 crew.
- **7 infected** – between July 26 – August 6, a cruise ship (Cruise Ship D) reported 7 laboratory-confirmed COVID-19 cases among passengers and crew.
- **105 infected** – between August 19 – September 7, a cruise ship (Cruise Ship E) reported 105 laboratory-confirmed COVID-19 cases among passengers and crew on a total of four consecutive voyages.
- **112 infected** – between August 21 – September 7, a cruise ship (Cruise Ship F) reported a total of 112 laboratory-confirmed COVID-19 cases among passengers and crew on four consecutive voyages

Other than a brief mention of the above referenced 315 COVID-19 cases, the CDC did not mention any of the other over 1,000 positive COVID-19 shipboard cases.

Most Positive Virus Case Involve “Breakthrough Infections” of Vaccinated Passengers and Crew

The COVID-19 vaccination rates on all of these unnamed ships were at or very near to 100% for crew and between 96.4% and 100% for passengers. Some of the cases apparently involved unvaccinated children, but the majority involve fully vaccinated adults.

Dozens of Medevacs and Hospitalizations Involving Cruise Ship Guests & Crew Due to COVID-19

The CDC also mentioned that cruise lines reported that the COVID-19 cases resulted in a number of hospitalizations (49) and medical evacuations from the ships (28).

Other than one passing reference to the death of a passenger who died of COVID-19, the CDC did not mention how many passengers and crew members on ships sailing into U.S. waters have died due to COVID-19. This summer we reported on at least recent [one crew member](#) and [one guest](#) who sailed on Carnival ships who died from the dangerous virus.

We have reported on cruise passengers who have required life-saving emergency medical treatment when developing COVID-19 symptoms while cruising. Usually the source of our information is the foreign press. See for example – [Cruise Passenger in “Bad Shape” in Hospital in Belize](#).

The MSC Virtuosa – An Example of a Cruise Ship Not Subject to the CDC

There were several deaths of guests on the [MSC Virtuosa](#), sailing this summer from the U.K., in a series of consecutive cruises where over at least 200 passengers and over 50 crew members were infected. MSC Cruises reportedly overcrowded this new cruise ship and did not enforce mask protocols and social distancing procedures.

The *MSC Virtuosa* was not under the jurisdiction of the CDC because it did not sail from U.S. ports or in U.S. waters during these cruises. It is a good example of what would happen if the U.S. federal health agency does not oversee the health and safety of foreign flagged cruise ships and cruise lines become free to ignore their own mask and social distancing protocols.

How Do Consumers Make Informed Decisions Regarding the Risk of Infection on a Particular Cruise Ship When Neither the Cruise Line Nor the CDC are Being Transparent?

James Walker said, a follower of our Cruise Law News Facebook page left the following comment:

“I do wish there was more transparency. I would like to know, for each cruise taken, how many people were on board, if there were any cases and how many, and what was the vaccination rate. Then people can make their own assessment of the risk. For some people these cases seem to be an acceptable amount but not for others.”

There are significant differences between Carnival, Royal Caribbean, MSC Cruises and NCL regarding their COVID-19 protocols and their general attitudes toward the health and safety of their guests and crew. But, currently, it is not possible to calculate the per capita rate of contracting COVID-19 on one ship or one cruise brand versus another. This is largely because cruise lines go out of their way to conceal the true information when a COVID-19 outbreak occurs on their ships.

I would suggest that, as a general matter, taking a voluntary leisure cruise during a deadly pandemic remains dangerous and foolhardy.

But for those looking to minimize the risk of contracting this disease, here are a few recommendation I have to offer:

- Become vaccinated (and learn which vaccines have the highest efficacy rates);
- Observe all CDC masking and social distancing protocols;
- Avoid cruise lines and cruise ships which operate at full or high capacity;
- Avoid cruise ships that have not upgraded their ventilation and air conditioning systems and installed high quality HEPA filters;
- Avoid internal cabins without balconies (book only cabins with balconies);
- Avoid cruise ships which allow unvaccinated passengers (including children) aboard;
- Avoid itineraries which call on ports of call with low vaccination rates;
- Avoid cruise lines (like Carnival Cruise Line) with a history of guests mocking people who wear masks (for example, read [Carnival Panorama: The Latest “Fun” Ship With COVID-19 Aboard](#)).

5G Nations

It has also been astutely observed that those nations with the most pervasive and powerful **5G** networks fully functioning are those that have suffered the biggest outbreaks of the coronavirus to date. Why should anyone be surprised at this wholly predictable outcome?

The following excerpt comes from: CORONAVIRUS BOMBSHELL: This proves it should be named “**5G** COVID-19”

The importance of viewing the coronavirus COVID-19 as a “Telephone Disease” is that by doing so it explains some perplexing mysteries about the spread of this disease—such as why this disease has struck the Gulf nations and monarchies in the Persian Gulf region, but becomes explainable when one notices their ongoing **5G** revolution—most particularly in Iran, where this country is completely blanketed to its smallest village with 4G technology coverage—but who are now putting the finishing touches on rolling out **5G** technology throughout their entire nation in the coming weeks—finishing touches that included Iran activating their Chinese bought **5G** technology for testing—that was immediately met by Iran having more coronavirus cases and deaths of any nation outside of China—and whose Vice President is one of seven of their top government officials now infected.

Coronavirus COVID-19 disease outbreak begins to spread in Persian Gulf nations and monarchies activating **5G** technology.

Both **5G** Demonstration Zones such as Wuhan, China and floating **5G** cruise liners are correctly considered **5G** Hotspots. These **5G** Hotspots, for the uninitiated, are really KILL ZONES because many folks will die early the longer they bask in those dangerously high levels of **5G** radio-frequencies and microwave radiation.

The following excerpt from a previous exposé provides critical links for every individual who lives, works and/or plays in a **5G** Super-Hotspots.

Which brings us to the single most perilous aspect of the military deployment of **5G**—KILL ZONES.

All the scientific evidence available in the public domain now indicates that wherever **5G** infrastructure is located in the greatest concentration generating the most powerful EMFs and microwaves, those **5G** Super-Hotspots will effectively function as kill zones. As follows:

5G Super-Hotspots: You better know where the “kill zones” are located!

In order to fully grasp the highly destructive and deadly potential of these rapidly emerging **5G** Super-Hotspots, the following video exposé presents a scenario where the most powerful “directed energy weapons” will be located within these **5G** kill zones.

5G WEAPONRY: Microwave Radiation Technology Being Deployed as Depopulation Warfare, Full Spectrum Dominance & Total Human Control (Video)

Which bring us to the primary purpose of this article—5G Syndrome.

5G Syndrome is a relatively new disease that has yet to go main stream because of how its official recognition would immediately terminate the ongoing **5G** roll-out.

Exactly what are the symptoms of **5G** Syndrome?

There are many, and they manifest differently in each victim of this insidious disease.

Of course, a good number of typical flu symptoms mimic **5G** Syndrome.

But what’s most important is that these two illnesses — Influenza and **5G** Syndrome — will mutually sustain each other. In that way, it can be quite confusing to accurately tease out which symptoms are associated with which disease. The chart on the next page identify the major shared symptoms of both **5G** and Covid-19.

In other words, if you have the flu, your exposure to **5G** will make it much worse. Likewise, if you have a case of full-blown **5G** Syndrome, you will be much more susceptible to getting the flu, and if you do, it will be significantly worse.

Back to the primary symptoms. The best medical reference that we have at this point, since **5G** Syndrome is still a relatively new medical phenomenon, is another disease known variously EMF Hypersensitivity Illness and Electro-hypersensitivity (EHS). This has been my issue since we had Wi-Fi installed back in Pennsylvania in 2010.

What follows are just a few of the most common symptoms that are frequently experienced by people who know they have EHS. (Also, see the preceding diagram.)

- Nausea, headaches and migraines
- Ringing in the ears
- Numbness in the face or other body parts
- Dry eyes and sight problems
- Inability to concentrate and unexplained fatigue
- Depression
- Tachycardia and cardiac arrhythmia
- Hyperactivity and insomnia
- Redness and rashes
- Itching of hands and arms or back
- Dryness in the throat and mouth
- Swollen sinuses and symptoms rhinitis

(Source: Electrohypersensitivity: What you need to know about the allergy of the 21st century)

There are several other symptoms that are also being recognized as the direct result of intensive EMF and microwave exposures. As follows:

- Headaches, migraines
- Chronic exhaustion
- Inner agitation
- Sleeplessness, daytime sleepiness
- Tinnitus
- Susceptibility to infection
- Nervous and connective tissue pains, for which the usual causes do not explain even the most conspicuous symptoms.

KEY POINT: It's essential to correctly comprehend the difference between **5G** Syndrome and **5G** flu. While there are several similarities, it's the differences that really matter. Hence, every smartphone user and IoT enthusiast is compelled to contemplate any new health conditions or unusual symptoms or inexplicable sickness, particularly those that have been chronic and/or long term. See: CORONAVIRUS SPECIAL REPORT: Worldwide Outbreaks of **5G** Syndrome and **5G** Flu Driving Pandemic Conclusion

The Wuhan coronavirus pandemic has awakened many to the reality of **5G** Syndrome.

Perhaps it took all of humanity to get freaked out by a scary frankenvirus — COVID-19 — in order to wake up to this extreme and growing danger in our midst—**5G** technology and the slowly emerging IoT.

With this crucial understanding, at least now we know what we're really dealing with. So, the best thing informed people can do is share this information and get the word around: It's really **5G** and your smartphone that is causing the current pandemic, not necessarily the coronavirus or even any of the many other flu bugs circulating around the planet in 2020. The so-called variants do not exist but do frighten people even more so. Remember, Covid-19 has never been "isolated" in a "gold standard" test of confirmation of viruses using the Koch Postulates.

Now many folks will naturally get a bad case of one of the many types of influenzas, or even the coronavirus itself, and they will need to take that illness/disease very seriously. If they are elderly or infirm or suffer from other illnesses, they especially need to follow the best advice out there.

It's important to note that the **5G** Syndrome angle presented here is only one of several perspectives concerning what is really an ongoing series of bioterrorist attacks being carried out in **5G**-intensive zones. The perpetrators are continuing the bio-attacks wherever they must cover up an epidemic of **5G** syndrome so that the worldwide military deployment of **5G** is not jeopardized by disclosures about the extremely serious health dangers and safety hazards.

Do you see how they do it?!

The NWO globalists are very clever, aren't they?

This "CORONAVIRUS HOAX" does not mean there is not a highly contagious bio-engineered coronavirus that is being released as a bioweapon in the nations that have experienced the ongoing bioterrorists attacks. It means that these stealthy bio-attacks were meant to cover up the raging epidemics of **5G** Syndrome in those specific locations. So, the coronavirus is quite real just as SARS and MERS, Bird Flu and Swine Flu were real. But, the Wuhan coronavirus was specifically bioengineered in order to create and hype a global pandemic around COVID-19. Again, the hoax aspect does not refer to a non-existent coronavirus bioweapon; that frankenvirus is quite real indeed and being cunningly used as a decoy.

It's of paramount importance to understand that the proven **5G**-Coronavirus connection is just one piece of this [ONGOING] orchestrated series of bioterrorist attacks and **5G** assaults, their systematic cover-ups and the subsequent psyops. Given the fact that in the past two weeks Bill Gates has hinted that the Spanish Flu might reoccur, we ought not to ignore his remarks. He even remarked that the next virus would get our attention! One thing that you can count on with these evil demonic-possessed people is their weird ethic that they must tell you in advance what they plan to do.

The global elite have double-downed and are prepared to fight to the end to achieve their plan of murdering and enslaving the human race. They are not going away, and they cannot be negotiated. This is primarily a spiritual war and so there is no negotiating with the devil. You lose and only the Lord Jesus Christ will bring this to an end. The past two years have confirmed that strength comes in resisting the dark world of the Antichrist and his False Prophet and their hoard of lieutenants doing their bidding. It is a fight to the death!

After learning about the World Economic Forum from one of Celeste Solum's video, I spent a couple days drilling down into their vast plan on their web site pages on the Internet, and it was vibrantly clear this was for the takeover of the planet and to remove anything that was Christian. I do not think anyone of us could have imagined or could have foreseen how chaotic and unnerving this would all be.

I am confident that the Lord Jesus Christ will intervene very soon and what might seem to be His tarrying for many, was for our benefit. By allowing us to experience the shock and awe of the Antichrist plan, many would turn to His Word and seek His Face and His Deliverance, many would recognize Jesus came to save the lost and redeem His children before He lets the godless have their wishes rewarded.

I began writing my "Blessed Hope" series last year as a means of encouragement and reminder that God did provide us a "prototype" of how He would deliver us from judgment. The Exodus event of the Bible was not a Sunday School children's story but a historical narrative based upon the deliverance of 1.5 million Israelites out of the jaws of defeat to Pharaoh's army on the sands of the Red Sea. I am working on Blessed Hope #83 and have much more to share, substance that we can trust and remain unmoved in our faith.

Thomas D. Williams, PhD wrote from Rome — "Humanity needs a global reset because the unjust, pre-pandemic world is not worth going back to," [Pope Francis](#) asserted Monday.

In a [message](#) to the Paris Forum on Peace, the pope painted a dire picture of a pre-coronavirus world dominated by corruption, war, and capitalistic oppression.

"The reality we knew before the pandemic was that wealth and economic growth were reserved for a minority while millions of people were unable to meet the most basic needs and lead a dignified life," Francis said, *"a world in which our Earth was plundered by a myopic exploitation of resources, by pollution, by 'disposable' consumerism, and wounded by wars and experiments with weapons of mass destruction."*

"Return to normal would also mean a return to old social structures inspired by self-sufficiency, nationalism, protectionism, individualism and isolation," he added, *"and excluding our poorest brothers and sisters. Is this a future we can choose?"*

Woke Pope Francis goes all in! Calls for 'Green economics,' 'Green spirituality,' and 'Green education'!

“In this globalized but torn world, the decisions we make today to get out of the crisis determine the ‘route’ of the generations to come,” he declared, and thus “we need a new way out” to “come out better than before.”

“Hope invites us to dream big and give space to the imagination for new possibilities,” he said. “Hope is bold and incentivizes action based on the knowledge that reality can be changed.”

Our conscience calls us “not to follow the easy way of returning to a ‘normality’ marked by injustice, but to accept the challenge of assuming the crisis as a concrete opportunity for conversion, transformation, to rethink our lifestyle and our economic and social system,” he said.

The pope’s vision for a new world begins with “a concrete collective commitment in favor of integral disarmament,” he noted.

“World military spending has now exceeded the level recorded at the end of the ‘cold war’ and is systematically increasing every year.”

Pope Francis said Sunday that he hears the cries of migrants in Libya and appealed for an end to repatriation and the establishment instead of “*regular migration routes.*”

The pontiff criticized arguments based on deterrence as “*an abused idea*” that in many cases “*has been found to be fallacious, leading to major humanitarian tragedies.*”

“It should also be emphasized that the logic of deterrence has been associated with the logic of the liberal market that armaments can be considered on a par with all other manufactured products and therefore, as freely marketable worldwide,” he warned. *“It is therefore no coincidence that for years we have uncritically witnessed the expansion of the arms market globally.”*

I wonder if Jesuit Pope Francis’s green spirituality means for humanity to hug trees or what. Francis has a legacy that not even a Catholic person could be proud of. His episcopacy in South America was grossly aligned with fascist and communist dictators. The real story of Pope Francis in Argentina is exposed in the 2018 book ‘*The Dictator Pope: The Inside Story of the Francis Papacy*’. Even traditional Roman Catholics wish that this Jesuit would go away! Francis has many ghost writers, good ones at that, but they can never paper over 500 years of Jesuit crimes against humanity!

Hal Lindsey wrote these words for our day:

“In the last few years, there has been a disturbing movement in the Church to disregard or even disavow the Old Testament. It’s part of a misguided attempt to make God’s message more “agreeable” to modern minds. But Jesus and the New Testament are intrinsically linked to the Old Testament. The Lord tied His own credibility to that of the Old Testament. He proved His authenticity through an appeal to Old Testament prophecy.

*In John 5:39, Jesus said to the religious leaders of His day, “**You search the Scriptures, for in them you think you have eternal life; and these are they which testify of Me.**” [NKJV]*

*Luke 24:27 describes how Jesus spoke to the two disciples on the road to Emmaus. It says, “**Beginning with Moses and all the Prophets, he explained to them what was said in all the Scriptures concerning Himself.**” [NIV]*

The New Testament hadn’t been written down yet. Jesus showed them how He had been revealed in the Old Testament. Through the prophets, God had long before given key details about the life of Jesus. According to GotQuestions.org, “Conservatively, Jesus fulfilled at least 300 prophecies in His earthly ministry.” That number is indeed conservative. The real number may be closer 500.

Use of Old Testament prophecy in the presentation of the Gospel began with the first sermon of the Church age. On the day of Pentecost, Peter began his sermon with a

long quote from the Book of Job. The authenticity of the Christian message is rooted in the prophetic message of the Old Testament.

*Revelation 19:10 says, “**The testimony of Jesus is the spirit of prophecy.**” [NKJV]*

*In Acts 10, Peter preached another historic sermon. In bringing Gentiles into the Christian fold, Peter said of Jesus, “**He is the one all the prophets testified about.**” [New Living Translation] This time, Peter was not preaching to Jewish believers, but to Gentiles. Yet he still linked Jesus to the prophetic message of the Old Testament.*

*Many who want to witness for Jesus have been tied up in knots because they keep hearing that you can only use the Bible when speaking to people who already believe. Hebrews 4:12 proves that wrong. It says, “**The word of God is living and powerful, and sharper than any two-edged sword, piercing even to the division of soul and spirit, and of joints and marrow, and is a discerner of the thoughts and intents of the heart.**” [NKJV]*

A surgeon doesn't have to convince his patient that his scalpel is sharp. He uses the scalpel no matter what the patient believes. We should wield the word with that same confidence. It is alive and sharp, piercing to the innermost parts of human beings — including unbelievers.

If you love Jesus, don't throw away the great and precious Old Testament record of God's actions, His words, and even His thoughts. That record testifies of Him.”
