

**Operation Warp Speed Reveals COVID  
Vaccine Distribution Plan by Military:  
“All of America Must Receive the  
Vaccine Within 24 Hours”  
After FDA Fast-track Approval**

**by Brian Shilhavy - Editor, Health Impact News**

While the nation continues to be fixated on the aftermath of the U.S. Presidential elections, the news of which is dominating BOTH the Corporate Pharma-funded media, and the Alternative media, a far more significant public briefing occurred in Washington D.C. yesterday that seems to have “slipped through the cracks” of media coverage.

And perhaps this was intentional.

**I tried to save this article from Health Impact News only to find AOL censoring the story and would not permit me to download and save it. It is time for America to Refuse to Comply with the Government, even if we have die in the process. I choose to die on my feet as a Christian before dying on my knees as a slave!!!**

This briefing concerned **Operation Warp Speed**, and the presenters were Army Gen. Gustave F. Perna, chief operations officer for Operation Warp Speed, Health and

Human Services Secretary Alex M. Azar II, and Dr. Moncef Slaoui, chief advisor for Operation Warp Speed.

To learn more about Dr. Moncef Slaoui, who has a history working with Bill Gates, Anthony Fauci, the director of the CDC, and others, see:

[Trump Mobilizes Military to Deliver Coronavirus Vaccine – Appoints Another Bill Gates Funded Big Pharma Exec as Chief Military Advisor](#)

You can watch the entire briefing on the *U.S. Department of Health and Human Services* [YouTube channel here](#). We will also upload a copy to the *Health Impact News* [Bitchute channel](#), just in case it disappears.

The entire briefing is 55 minutes long, but we have lifted out a 2-minute segment from General Gustavo Perna's presentation with something he said that should concern all Americans. (The video is still processing on Bitchute at the time of publication.)

Quote from General Perna:

Two things we must have.

One, upon emergency use authorization (by the FDA), all of America must receive the vaccine within 24 hours.

I think this is incredibly important. Fair and equitable distribution of the vaccine throughout the country, simultaneously.

There is no haves and have nots. It is an equitable distribution, and we are driving hard to make sure that happens.

It is important to take these comments in context with the entire briefing, because the military only plans to have enough vaccines for about 20 million people in December.

So there is no way they could try to vaccinate all 350 million Americans by the time the first vaccines are issued FDA emergency use authorization, even if that is what he meant.

In other words, you are not likely to see soldiers at your door forcing you to receive a vaccine whether you want one or not, at least not anytime soon.

The plan is to distribute these vaccines through Walgreens, CVS, and hospitals.

The General's comments are disturbing, nonetheless. Because this is a very fluid situation where everyone has to do their part, including the FDA who has to fast-track the approval process to allow this to happen.

That is a serious step, and the FDA knows it, because it lets the pharmaceutical company off the hook from legal liabilities should the vaccine prove to be harmful with injuries and deaths.

Yesterday (November 18, 2020), Peter Marks, head of the FDA's Center for Biologics Evaluation and Research and the main person tasked with deciding whether or not to give fast-track approval, made the rounds in the media trying to reassure the public that the FDA would take its time in reviewing the new Pfizer and Moderna COVID experimental vaccines, a process that he said would take "weeks," not "days."

They are fully aware of the "vaccine hesitancy" among the American public right now towards an experimental COVID vaccine, as he reportedly stated:

What we need here is confidence. Everything that we are trying to do here, this is all about ensuring the public re-develops the kind of trust they once had in vaccines. ([Source.](#))

Pfizer World Headquarters in Manhattan, New York.

The problem is that the public never should have trusted the pharmaceutical companies and the government who produce and approve vaccines.

Any information contrary to the propaganda they want the public to believe about vaccines, which is that they are “safe and effective” and that the “science is settled” when it comes to vaccines, has NEVER been true, and any dissenters, including medical doctors and scientists, who try to engage in an intelligent debate about vaccines, are always censored.

When you listen to the full briefing by these people running Operation Warp Speed, they want the American public to trust the pharmaceutical companies producing these vaccines, but they are not worthy of anybody’s trust! They are proven liars and criminals!

Last week, when Pfizer announced that the COVID vaccine was “90% effective,” I published an article exposing how Pfizer is perhaps the largest criminal organization in the world.

In 2009 they reached a fraud settlement with the U.S. Department of Justice for \$2.3 BILLION, the largest ever fraud settlement in the history of the DOJ at that time. ([Source.](#))

Since then, they have faced numerous other criminal investigations, the most recent one [being reported just last week](#), November 10, 2020, with the foreign corruption units at the U.S. Securities and Exchange Commission (SEC) and the Department of Justice (DOJ) looking into their activities in China and Russia. See:

[\*\*Criminal Pfizer Inc. Wins COVID Vaccine Race? Hundreds of Millions of Doses Expected to be Ready Within Weeks\*\*](#)

And these are the kind of people we are being called upon to “trust” over an experimental, new kind of vaccine that has never been in the market before?

The Future Does NOT Look Good Unless People Start Resisting  
The Globalists have not been secretive at all during the COVID [Plandemic](#) as to what their plans are.

These Wall Street Billionaires and Central Bankers want a New World Order, which is now being labeled “[The Great Reset](#),” which is well under way right now.

We have already seen trillions of dollars added to the National Debt, with most of that going to Big Pharma, which has more lobbyists in Washington D.C. than all other industries combined, where they control the political process as well.

The roll-out of the new COVID vaccine is the next phase of their plan, as they seek to demolish liberty and install medical tyranny in its place.

The Presidential elections in the U.S. was really just a side show, not the main event, and almost everyone is falling for it.

Because this “Great Reset” and the destruction of what liberties we have left in the U.S., will march full speed ahead at “Warp Speed” no matter who is declared President.

The militarization of America’s cities seems to be the next phase also, not only to distribute the COVID vaccine, but probably to deal with riot control as well, after President Trump is declared the actual winner of the November elections, which will infuriate the Biden Democrats and be used as an excuse to cause widespread riot, looting, and unfortunately probably killing as well.

Those who take to the streets to protest, even if they have peaceful intentions, will also risk getting caught up in Operation Warp Speed and soon find out their biggest threat is not who becomes President, but the military forcing them to take their COVID vaccine.

Since there are only going to be enough vaccines for 20 million people or so in December, where might this be rolled out?

The briefing mentions “64 jurisdictions” which includes all 50 states, territories, and 6 metropolitan areas.

I have been unable so far to identify which 6 metropolitan areas are included, but in a document published by the CDC in September this year titled [COVID Vaccination Planning with Five Pilot Jurisdictions](#), Florida, California, Minnesota, and Philadelphia participated.

Philadelphia is the only metropolitan area among that group, which also included North Dakota targeting Native Americans, but it could also include the Twin Cities in Minnesota, the LA area and San Francisco Bay areas of California, and the greater Miami area of Florida.

Please understand that there are now two ways of militarizing our cities. President Trump has [recently fired Defense Secretary Mark Esper](#), as well as some top Pentagon officials in what appears to be political moves to allow him to send in federal troops to the cities once he is declared President again. See:

### [What does President Trump’s Firing of Defense Secretary Mark Esper Mean?](#)

Once they are in the cities, they will probably remain there indefinitely to maintain “peace and order,” and until the pharmaceutical companies can ramp up production to have enough vaccines to **vaccinate all Americans**, which we now know is the stated goal of General Perna and the military.

So what can we do?

RESIST!    RESIST!    RESIST!    RESIST!    RESIST!    RESIST!

The rule of tyrants cannot succeed without the consent of the ruled.

Do not consent! We outnumber them, by far, and they fear us!

Here are the main people who will be on the front lines that need to consider carefully **now** how to resist, because your lives literally depend on it.

### **Armed Forces**

If you serve in the military, do NOT consent to open war on American soil against your own citizens! That is NOT why you joined the military! Whether for political or medical reasons, DO NOT COMPLY! And do NOT take the vaccine!

Your fellow citizens are NOT the enemy! Our common enemy are the Globalists who at the very top are part of a Satanic Occult that is growing fast and becoming even bolder. See:

[Unmasking Who is Behind the Plandemic and Rioting to Usher in the New World Order](#)

### **Medical Staff**

During the first round of lockdowns earlier this year, the media falsely portrayed all of the hospitals across the U.S. as being overwhelmed by COVID.

They were lying! Yes, some hospitals were busy, but because people who had other medical conditions besides COVID were told to go home, there were massive layoffs of doctors and nurses nationwide as many hospitals across the country were almost empty. See:

[Crisis in America: Hospitals Across the Country Begin to Close due to Lack of Patients – Nurses and Doctors being Laid Off](#)

Many doctors and nurses were considered expendable to promote their “pandemic” and fear, and they will do it again!

Medical professionals are to be among the first ones to receive the new COVID vaccines.

Resist! Do NOT get it, and do NOT give it to others! Join the hundreds of thousands of other medical professionals and scientists worldwide who are resisting! See:

[World’s Top Epidemiologists Oppose Madman Fauci and Call for End to Lockdowns](#)

[Doctors for Truth: Tens of Thousands Medical Professionals Suing and Calling for End to COVID Tyranny](#)

This includes the many of you working at pharmacies, especially Walgreens and CVS. RESIST!!

### **Educators**

After the medical professionals, they are going after the “weak and vulnerable,” which will include children.

A bill was just passed in Washington D.C. that [allows schools to vaccinate children as young as 11 years old WITHOUT PARENTAL CONSENT!](#)

Teachers and other school officials and parents need to RESIST THIS! Join the [National Vaccine Information Center](#) and stay informed about vaccine policies for children in your state.

**Do NOT trust in the Government – Either Political Party!**  
**Do NOT trust in the Pharmaceutical Industry! They are corrupt!**

Trust in God alone, and stand together to resist tyranny! United we stand, divided we fall.

**This is the time for everyone to pray to God for wisdom, discernment, and courage to oppose evil.**

Your life and the lives of the people around you depend upon it.

I posted yesterday on my web page, Part 10 of **“Depopulation #1 Global Issue Since 1968”**. This just did not happen this year, it has been in planning for a long time, decades. On the next page is an enlarged document of the smaller image on page 4 of Part 10. I had to turn the document on its side to enlarge it as large as I could to fit a single page. It was published in 2009, and it explains how they are going to trick those who refuse the vaccine, into taking the test, which will contain the vaccine. This surreptitious approach reveals how evil the U.S. government is, both political parties are as corrupt as their World Economic Forum handlers. Folks, Dr. Anthony Fauci, Dr. Robert Redfield, Dr. Deborah Birx, Microsoft Bill Gates, the WEF founder Klaus Schwab and the House of Rothschild have played their cards on the table now and “The Sustainable Prince” will be making his debut onto the world stage in a short while.

***“And the first went, and poured out his vial upon the earth; and there fell a noisome and grievous sore upon the men which had the mark of the beast, and upon them which worshipped his image.”*** -(Revelation 16:2).

When the first of these seven angels pours out his bowl on the earth those who had accepted the mark of the beast receive marks of a different sort. They had turned their backs on the worship of the true God and chosen to worship the beast and his image with all its satanic involvements. Now, this plague brings a bad, foul, and angry sore on them, men and women alike.

It is not an ordinary sore, but is abscessed, ulcerated, and malignant. Such sores were called ***“a sore botch that cannot be healed”*** -(Deuteronomy 28:35). Job's "boils" -(Job

2:7) were probably ulcerous sores of an infectious nature. They not only itched and hurt, but had a terrible odor, darkened his skin, and so disfigured him that his friends hardly recognized him -(Job 2:8, 12; 7:5; 17:1; 30:30)

The same word used of the sores caused by the outpouring of the first golden bowl is used in the Septuagint translation of Exodus, of the plague of boils "breaking forth with blains (blisters full of corrupt matter)" in the plagues of Egypt -(Exodus 9:8-11). Thus this plague is similar, but it is even worse and more painful than those suffered by Job and by the Egyptians. Some interpreters wish to treat this plague as speaking of moral corruption, but the results and the pain show literal sores are meant.

In Revelation 16:2, those who take the "Mark" of the Beast receive what can only be described as physical cancerous sores.

(a noisome – **kakos**) (grievous - **ponēros**) (sore - **helkos**)

The reader might want to say this is not the "Mark" of the Beast, it's only a vaccine, but you do not know what all is in this vaccine; however, Bill Gates in his arrogance and pride told us so much about his QuantumDot/Hydrogel ID2020, one would have to be illiterate to believe it is not the "Mark" of the Beast. He has said enough to tell us the mRNA will modify one's God-given DNA.

Blessings in Jesus,

# THE TEST IS THE VACCINE! DO NOT GET TESTED, NO MATTER WHAT!

## Nanoparticles for nasal vaccination

Noemi Csaba et al. Adv Drug Deliv Rev 2009.

### Abstract

The great interest in mucosal vaccine delivery arises from the fact that mucosal surfaces represent the major site of entry for many pathogens. Among other mucosal sites, nasal delivery is especially attractive for immunization, as the nasal epithelium is characterized by relatively high permeability, low enzymatic activity and by the presence of an important number of immunocompetent cells. In addition to these advantageous characteristics, the nasal route could offer simplified and more cost-effective protocols for vaccination with improved patient compliance. The use of nanocarriers provides a suitable way for the nasal delivery of antigenic molecules. Besides improved protection and facilitated transport of the antigen, nanoparticulate delivery systems could also provide more effective antigen recognition by immune cells. These represent key factors in the optimal processing and presentation of the antigen, and therefore in the subsequent development of a suitable immune response. In this sense, the design of optimized vaccine nanocarriers offers a promising way for nasal mucosal vaccination. @THELIBCOMMIE

## Hydrogel nanoparticles and nanocomposites for nasal drug/vaccine delivery

### Abstract

Over the past few years, nasal drug delivery has attracted more and more attentions, and been recognized as the most promising alternative route for the systemic medication of drugs limited to intravenous administration. Many experiments in animal models have shown that nanoscale carriers have the ability to enhance the nasal delivery of peptide/protein drugs and vaccines compared to the conventional drug solution formulations. However, the rapid mucociliary clearance of the drug-loaded nanoparticles can cause a reduction in bioavailability percentage after intranasal administration. Thus, research efforts have considerably been directed towards the development of hydrogel nanosystems which have mucoadhesive properties in order to maximize the residence time, and hence increase the period of contact with the nasal mucosa and enhance the drug absorption. It is most certain that the high viscosity of hydrogel-based nanosystems can efficiently offer this mucoadhesive property. This update review discusses the possible benefits of using hydrogel polymer-based nanoparticles and hydrogel nanocomposites for drug/vaccine delivery through the intranasal administration.

## Nasal vaccine innovation

### Abstract

The current vaccine market is gaining momentum in the development of alternative administration routes, namely intranasal, oral, topical, pulmonary, vaginal, and rectal; the nasal route offers the most promising opportunity for vaccine administration. It can enhance convenience, safety, elicit both local and systemic immune responses; thus potentially provide protection from pathogens at the site of entry. Nasal vaccine innovation comes with both opportunities and challenges. The innovative strategies used by industry and researchers to overcome the hurdles are discussed in this article: these include live-attenuated vaccines, adjuvants, mucoadhesives, particulate delivery systems, virus-like particles, vaccine manufacture, challenges of regulatory authorities, and the nasal vaccine impact on market potential. Critical issues for effective nasal vaccination are the antigen-retention period that enables its interaction with the lymphatic system and choice of an adjuvant that is nontoxic and induces the required immune response. Co-adjuvanting by means of a mucoadhesive technology addresses some of these issues. ChSiSys<sup>®</sup>, a natural bioadhesive with proven intranasal safety profile, has already demonstrated efficacy for several nasally delivered vaccines including norovirus. With the looming threat of a pandemic, alternatives such as intranasal vaccination will ultimately facilitate greater public compliance and rapid mass global vaccination.

★ AND THERE WILL BE MUCH GREATER "PUBLIC COMPLIANCE" WHEN THE PUBLIC IS BEING TOLD THEY'RE TAKING A TEST AND NOT A VACCINE, AND THEY MUST TAKE THIS "TEST" IN ORDER TO GO TO WORK, SCHOOL, ETC...
