

Proof the Government (CIA) and Big Pharma is Killing the Public!

There are 36 different shellfish toxins and snake venoms showing up in COVID-19 patients. How did this end up in their blood, feces, or urine? Some experts believe this so-called “respiratory” disease is actually an envenomation from the vaccine. They’ve targeted people with toxins for decades. Why wouldn’t this be the case now? Did you know that the word “corona” means “crown for the king” and virus in Latin actually means “venom” so coronavirus very closely translates to “king venom”? *COVENOM-19* asks the question, are these startling facts merely coincidence, or is the world witnessing the largest genocide of all time?

This is but one of many toxins and pathogens that have been inserted into the so-called vaxxes, (gene therapy) authorized by the criminal FDA and criminal pharmaceutical industry. This is Genocide Depopulation.
