

# Radioactive Cesium and Chemtrails

In my series “The 5G’s (End Game) Trap Will Soon Be Activated!”, [The 5G’s \(End Game\) Trap Will Soon Be Activated! Part 10](#), I shared critical information about what attorney Todd Callender revealed what has been found inserted in the vaxxes.

Cesium-137 has been found in the mRNA vaxxes and it is a direct link to the **5G** component of the genocide plan to kill humanity. Todd Callender states that Cesium-137 has also been inserted in insulin and all injectable shots such as the yearly flu virus vaxx. Here is the connection: Cesium-137 binds to skin tissue and thus enabling the amplification of the **5G** signal of wireless energy.

The average person only has a cursory understanding of what **5G** means, and very little on how it could transform the global balance of power. But **5G** without cesium-137 doesn't work. The new **5G** cellular wireless tech will transfer data and the correct time faster than ever before - fast enough and accurately enough to transform industries. In other words, **5G** technology will rule the world because it can create a continuous, real-time connection for every single device that exists and every single device that will be made because of it. Cesium-137 is a critical element in all of this, and it could mean the difference between real-time responsiveness and **5G** failure. The battleground for **5G** is also a battleground for cesium, and so far, China is winning by a landslide.

Cesium-137 (US) (it has a half-life of 30.6 years) or radiocaesium, is a radioactive isotope of Caesium that is formed as one of the more common fission products by the nuclear fission of uranium-235 and other fissionable isotopes in nuclear reactors and nuclear weapons. Trace quantities also originate from spontaneous fission of uranium-238. It is among the most problematic of the short-to-medium lifetime fission products.

A few years ago I recall that in the issue of “Chemtrails” and Geoengineering, a number of reports relative to about the analysis of the aerial spraying residue found on cars and shrubbery and plants. I decided to do some checking and since the fall of 1996 when chemtrail spraying became a regular daily event, the aerial spraying were found to have been spraying Cesium-137 and Mycoplasma, which itself is one of those items not considered to be natural in the atmosphere.

## Who discovered cesium and cesium-137?

In 1860, Gustav Kirchhoff and Robert Bunsen discovered nonradioactive cesium in mineral water in Germany. Radioactive cesium-137, and many other radionuclides that are used in nuclear medicine, was discovered in the late 1930s by Glenn T. Seaborg and his coworker, Margaret Melhase.

## Where does cesium-137 come from?

Nonradioactive cesium occurs naturally in various minerals. Radioactive cesium-137 is

produced when uranium and plutonium absorb neutrons and undergo fission. Examples of the uses of this process are nuclear reactors and nuclear weapons. The splitting of uranium and plutonium in fission creates numerous fission products. Cesium-137 is one of the more well-known fission products.

### **What are the properties of cesium-137?**

Cesium, as well as cesium-137, is a soft, malleable, silvery white metal. Cesium is one of only three metals that is a liquid near room temperature (83 °F). The half-life of cesium-137 is 30 years. It decays by emission of a [beta particle](#) and [gamma rays](#) to barium-137m.

### **What is cesium-137 used for?**

Cesium-137 is one of the most common radioisotopes used in industry. Thousands of devices use cesium-137:

- moisture-density gauges, widely used in the construction industry
- leveling gauges, used in industries to detect liquid flow in pipes and tanks
- thickness gauges, for measuring thickness of sheet metal, paper, film and many other products
- well-logging devices in the drilling industry to help characterize rock strata

Cesium-137 is also used in medical therapy to treat cancer.

Exposure to Cesium and Cesium-137

### **How does cesium-137 get into the environment?**

Cesium-137 in the environment came from a variety of sources. The largest single source was fallout from atmospheric nuclear weapons tests in the 1950s and 1960s, which dispersed and deposited cesium-137 world-wide. However much of the cesium-137 from testing has now decayed.

Nuclear reactor waste and accidental releases such as the Chernobyl accident in the Ukraine release some cesium-137 to the environment. Spent nuclear fuel reprocessing plant wastes may introduce small amounts to the environment. However, the U.S. does not currently reprocess spent nuclear fuel.

Although hospitals and research laboratories generate wastes containing cesium-137, they usually do not enter the environment. Occasionally, industrial instruments containing cesium-137 are lost or stolen. Anyone who unwittingly handles them may be exposed. These devices are typically metal, and may be considered scrap metal and sold for recycling. If they find their way into a steel mill and are melted, they can cause significant environmental contamination. They may also be discarded and sent to a municipal landfill, or sold for other reasons. These devices should be considered

dangerous.

### **How does cesium-137 change in the environment?**

Cesium-137 undergoes radioactive decay with the emission of beta particles and relatively strong gamma radiation. Cesium-137 decays to barium-137m, a short-lived decay product, which in turn decays to a nonradioactive form of barium. The major dose from cesium-137 is from the barium-137. The half-life of cesium-137 is 30.17 years. Because of the chemical nature of cesium, it moves easily through the environment. This makes the cleanup of cesium-137 difficult.

### **Short Term Effects of Chemtrails:**

- Allergies
- Anxiety
- Asthma
- Brain Fog
- Breathing difficulties (Unexplained)
- Chronic sore or raspy throat
- Dizziness
- Eye and skin irritations
- Flatulence (gas)
- Flu-like symptoms
- Headaches

itching (Unexplained)  
Nausea and Vomiting  
Nose bleeds (Unexplained)  
Panic attacks  
Persistent coughing  
Respiratory problems  
Stomach aches  
Suicidal thoughts  
Tinnitus (distant ringing in ears or high pitched sound after spraying)  
And many other symptoms

---

**Long Term Effects of Chemtrails:**

Acid Reflux  
(ADHD) Attention Deficit Hyperactivity Disorder  
Allergies  
Alzheimer's Disease  
Aluminum build up in Pineal Gland  
Asthma  
Autism (evidence links autism to mercury)  
Autoimmune Diseases  
Blood in the Urine  
Borderline personality disorder  
Cancer (linked to many types of cancers)  
Chronic Fatigue  
Constipation  
Depression  
Easy Bruising  
Eye problems - \* Nearsightedness & Farsightedness (by altering interocular fluid eye pressure)  
Fibromyalgia  
Floaters In the Eyes  
Gastritis  
Heart Arrhythmia (irregular heartbeat)  
Heart Disease  
High Cholesterol  
Hypoglycemia

Hyperglycemia  
Irritable Bowel Syndrome (IBS)  
Insomnia  
Learning Disabilities  
Lung diseases  
Lupus Erythematosus  
Multiple Sclerosis  
Oily Skin (Elevated DHT)  
Parkinson's Disease  
Rheumatoid Arthritis  
Schizophrenia  
Short-Term Memory Loss  
Sleep Disorders  
Spider Veins  
Tinnitus (ringing in the ears – 700 million cases of Tinnitus reported worldwide)  
White Coating On the Tongue  
And many other symptoms

---

Relative to the issue of Chemtrails one of the most important books that I have read on this topic has been Peter A. Kirby's book '*Chemtrails Exposed: A New Manhattan Project*'. 2<sup>nd</sup> Edition 2020. This book is more exhaustive than anyone could imagine!

Anyone following the web site "GeoengineeringWatch.org" with Dane Wittington knows that our government has been trying to do "dimming" the Sun! There is a video by this title as well "The Dimming" and the greater harm being done to the environment through spraying of toxic poisons, from coal fly-ash, to an infinite list of waste sickening and killing life of all forms. We will look at that in a bit but here is the link to Dane's post for the other day: **Full article:** <https://www.geoengineeringwatch.org/geoengineering-watch-global-alert-news-november-12-2022-379/> Dane Wittington posted his 379<sup>th</sup> weekly report on 11/12/22. There is a link in the report to the video "*The Dimming*" which everyone should view. Life of any form is in grave danger of global collapse.

The COP 27 global climate conference is being carried out in Egypt with government representatives from all over the world in attendance. Are they there to discuss greenhouse gas reductions? Or, in fact, are climate intervention operations the primary focus of the gathering in "*behind closed door*" meetings? An unprecedented coast to coast engineered cool down is scheduled for the contiguous 48 U.S. states that will make the U.S. the only "*below normal temperature*" region in the entire northern hemisphere. Is this a climate engineering demonstration being conducted by the world's largest military machine? Is technology going to save us from ourselves at the final hour? Or is it ensuring our common near term demise?

I know from my studies on "Depopulation" over the past fifty years that it is within the realm of those who signed onto the Rio Summit in 1992 for Agenda 21; and as part of the signatories of that treaty, each nation agreed to reduce its population, however,

without having to reveal how they would achieve that goal. That was in 1992, and “chemtrails” became a full-blown event by the fall of 1996. “Chemtrails” are denied by the government but they have had their “leakers” revealing details and specifics over the years. We know that both military and commercial aircraft are involved. In fact, in previous articles, I included pictures of equipment tanks, nozzles, sprayers, aircraft involved, so don’t buy the bovine excrement that “chemtrails” do not exist. They are as real as the air you breathe!

There is more to “chemtrails” than anyone can imagine and after reading Peter A. Kirby’s book you can begin to see how huge this project is and what it is for. Raytheon, the MITRE Corporation, Lawrence Livermore National Laboratories, the Defense Advanced Research Projects Agency, the Department of Energy, the Massachusetts Institute of Technology, and countless others consisting of just about every famous scientific institution in the Western world are hereby implicated in the development and execution of the largest scientific effort in Human history.

Possibly over a trillion dollars has been spent. Hundreds of applicable patents have been filed. Thousands of papers have been published. It’s called the ‘New Manhattan Project’ and just like the original Manhattan Project, you’re not supposed to know about it. We all paid for it, but we also paid for a gigantic disinformation campaign designed to keep us as mushrooms; in the dark and covered in manure. Please read *"Chemtrails Exposed"* and learn about where the New Manhattan Project comes from, who put it together and who is doing it today. No other single book gives you the detailed history and current state of this Project like *"Chemtrails Exposed."*

*"Chemtrails Exposed"* is light on the science and heavy on the information enquiring minds want to know; the who, what, when, where, why, and how. It’s heavy on presenting well-organized information from the best sources in an easy to read and understand fashion. It’s not Earth’s climatological temperature fluctuations which threaten Man’s very existence here on this planet. Man’s existence is threatened by mad scientists and corrupt governments conducting reckless experiments while claiming that the guinea pigs are to blame. This book serves as a preliminary investigation into violations which should result in the largest class-action lawsuit in history. I suggest that you read and understand just exactly what it is that they have been up to. The arrogance of the establishment is killing us and our planet.

The below statement comes from a “Chemtrails” watchdog group in California trying to awaken the public to what is going on and it is certainly appropriate for any other state in the Union.

The people of California need to:

- Demand public investigation of chemtrails spraying in California
- Demand an immediate cease to all chemtrail spraying until we know the short and long term effects of chemtrails on the general population.
- Introduce legislation to create “No-Chemtrail Spraying Zones” in California.

- Give immunity and protection to anyone willing to blow the whistle on chemtrail operations.
- Boycott products made by any companies who make or produce chemtrail related products.
- Identify who is responsible for allowing us to be sprayed on the city/county/state/global level.
- Demand that each city/county/state be given a 72 hour warning before spraying so people can choose to protect themselves.
- Demand an explanation for chemtrail spraying on the city/county/state/congress/senate levels and do not accept the denial that spraying is going on.
- Prosecute anyone who continues to aid these illegal chemtrail operations and hold those companies responsible that produce toxic chemicals, toxic metals, biological toxins, and any other submicron particles that cause chemtrail related diseases that affect the general population.

Investigations and inquiries on the state level and above are being ignored and chemtrail spraying is being denied at the highest levels of our government. The only way to halt chemtrail toxic spraying on us is for the general population to wake up and demand that it stop.

When a free people no longer have a say in the air that they breathe, they are no longer free. Think about it, someone or some group of persons, non-elected, now have the power over the air we that we breathe in on a daily basis. They are now deciding what to put in the air and therefore are affecting our overall health and wellness. This means that we are potentially “one spray” away from a potential disaster that could kill/contaminate everyone in the U. S. and all NATO countries. What will happen if an enemy country gains control over these toxic sprays? If you see a chemtrail above your head you are now at risk.

The same California group addressing the problem of “chemtrails” had on its web page a list of related chemtrail information, chemicals and toxins found in chemtrails, etc. The one in particular that has had my interest for several years has been that of Mycoplasma since it can be induced and activated in the human body through **5G** wireless energy. Mycoplasma is a “primer”, almost invisible albeit to the most advanced electron microscope in existence.

As I noted at the opening, **5G** “microwave radiation” and Cesium-137 were made for each other, a match from Hell! **5G** is known to amplify the signal from Cesium-137 that binds to the skin tissue of the human body. Karen Kingston brought up on a recent Stew Peters show by emphasizing the role of **5G** in all the so-called vaxxes. The thing to remember here is that all the so-called vaxxes are really “gene therapy” and the patented information is “proprietary content”. They do not tell what all is in the vaxxes as a matter of secrecy of patented “proprietary content”. Karen Kingston is a former Pfizer analyst and an interpreter of patent information and translates to others in the medical field just what a specific drug can do. In her conversation with Stew Peters,

Karen points us back to Dr. Joseph Giordano, a CIA expert who is on video presentations to West Point Academy telling what they can do to create havoc and social chaos. Dr. Giordano discusses how through aerial spraying they can create “bioweapons” that deliver pathogens to paralyze any society through deliberate confusion.

Dr. Giordano stated they only need to do selected locations and it is only a matter of days before an entire nation can be struck down through fear. When I learned of this, I immediately purchased a HEPA UV air filter unit. It was simply good sense to do so, as we are sprayed almost daily here in central Kentucky and I know that my family members track in particles that fall on the driveway and grass area up to my side porch. Even with door mats it is impossible not to track in some invisible fragments. I was previously aware of Mycoplasma being found in the chemtrails and learned later that Graphene Oxide was also being sprayed through chemtrails. HEPA UV air filters kill all bacteria. Many large hospitals clean their rooms with mobile UV robots. I run my air filter system at specific times; when I know someone is coming, or my wife is returning home.

---

## **Mycoplasma and Chemtrails**

---

### **What is mycoplasma infection?**

Mycoplasma infection is respiratory illness caused by *Mycoplasma pneumoniae*, a microscopic organism related to bacteria.

### **Who gets mycoplasma infection?**

Anyone can get the disease, but it most often affects older children and young adults.

### **When do mycoplasma infections occur?**

Mycoplasma infections occur sporadically throughout the year. Widespread community outbreaks may occur at intervals of four to eight years. Mycoplasma infection is most common in late summer and fall.

### **How is mycoplasma spread?**

Mycoplasma is spread through contact with droplets from the nose and throat of infected people especially when they cough and sneeze. Transmission is thought to require prolonged close contact with an infected person. Spread in families, schools and institutions occur slowly. The contagious period is probably fewer than 10 days and occasionally longer.

### **What are the symptoms of mycoplasma infection?**

Typical symptoms include fever, cough, bronchitis, sore throat, headache and tiredness.

A common result of mycoplasma infection is pneumonia (sometimes called "walking pneumonia" because it is usually mild and rarely requires hospitalization). Infections of the middle ear (otitis media) also can result. Symptoms may persist for a few days to more than a month.

### **How soon after exposure do symptoms appear?**

Symptoms generally begin 15 to 25 days after exposure. The symptoms generally develop slowly, over a period of two to four days.

### **How is mycoplasma infection diagnosed?**

Mycoplasma infection is usually diagnosed on the basis of typical symptoms. A nonspecific blood test (cold agglutinins) is helpful in definitive diagnosis, but is not always positive. The use of more specific laboratory tests is often limited to special outbreak investigations.

### **Does past infection with mycoplasma make a person immune?**

Immunity after mycoplasma infection does occur, but is not life-long. Second infections are known to occur, although they may be milder. The duration of immunity is unknown.

### **What is the treatment for mycoplasma infection?**

Antibiotics such as erythromycin, clarithromycin or azithromycin are effective treatment. However, because mycoplasma infection usually resolves on its own, antibiotic treatment of mild symptoms is not always necessary.

### **What can be done to prevent the spread of mycoplasma?**

At this time, there are no vaccines for the prevention of mycoplasma infection and there are no reliably effective measures for control. As with any respiratory disease, all people should cover their face when coughing or sneezing.

[http://www.health.state.ny.us/diseases/communicable/mycoplasma/fact\\_sheet.htm](http://www.health.state.ny.us/diseases/communicable/mycoplasma/fact_sheet.htm)

---

Mycoplasma is a genus of bacteria that lack a cell wall. Without a cell wall, they are unaffected by many common antibiotics such as penicillin or other beta-lactam antibiotics that target cell wall synthesis. They can be parasitic or saprotrophic. Several species are pathogenic in humans, including *M. pneumoniae*, which is an important cause of atypical pneumonia and other respiratory disorders, and *M. genitalium*, which is believed to be involved in pelvic inflammatory diseases.

**Molecular Terrorism By Mycoplasma - Genetically Engineered Stealth Microbes May Be The Source Of Your Health Problems**

source: by Gary Tunsky / Crusador Newsletter / Portland IndyMedia

You wake up dead tired. You feel like you've been hit by a truck. Sleep becomes sporadic, if at all. When sound sleep occurs, the restoration of energy is minimal causing you to meticulously save your energy like a miser hoards gold. If you force yourself into activities beyond the scope of your normal daily chores, you pay a heavy price. A possible consequence is being bedridden for days. You have trouble concentrating. Short-term memory losses make you feel like you're trapped in a brain fog. You have unexplained muscle aches and joint pains like a never-ending flu. Your spouse and family don't understand this new metamorphic change in you, going from active and bubbly to sick and decrepit in the prime of your life almost overnight. Your social life has disintegrated and once close friends are slowly drifting away because the monotonous explanation that you're too tired to see a movie or go out to dinner has waned thin. You're taking an abundance of sick time and your boss is starting to question your sanity. Nobody understands. Nobody believes. Nobody offers help. Well, almost...Read more

### **Mycoplasma Variants Linked To Numerous Diseases**

The seven weaponized Mycoplasma variants that enter fluid and blood circulation that were created covertly by the U.S. government and are now wreaking havoc on the population are the following:

- 1.) M. Fermentans (incognitas strain). The term fermentans reveals fermentation process (i.e.: yeast, molds, fungus, spores, cancer).
- 2.) M. Penetrans penetrate the cell membrane and invade host cells.
- 3.) M. Pneumoniae attacks upper respiratory epithelial cells, inflaming them and causing upper respiratory infections and chronic pneumonia.
- 4.) M. Genitalium (Genitalia) invades urethral tissue and cells in the genital area causing pelvic inflammation and urethritis.
- 5.) M. Hominus is found in joint tissues in rheumatoid arthritis.
- 6.) M. Pirum is found in AIDS as a co-factor accelerating AIDS progression.
- 7.) M. Salivarium is found in salivary glands and joint tissues in rheumatoid arthritis.

High-level exposure of Mycoplasma to blood, semen, mother's milk or vaccines will lead to AIDS. Low-level exposure to bodily fluids where concentrations are less will contribute to chronic fatigue syndrome, fibromyalgia, multiple sclerosis and other autoimmune diseases. Specific diseases can be targeted by controlling the Mycoplasma concentrations to bodily fluids.

## **Mycoplasma Thrives On Cholesterol**

What makes these designer diseases so elusive is that they're genetically engineered only for DNA replication, transcription and translation with no organelle or cell wall. They have lost their genes for amino acid and fatty acid synthesis, forcing them to invade and steal proteins, sugars and sterols (cholesterol) from healthy neighboring cells to survive.

These cholesterol dependent molecular terrorists immediately take up residency in the individual's genetically pre-disposed weaknesses, (the weak link in the chain of organs or systems), or the path of least resistance. Since Mycoplasma has absolute dependence upon the uptake of preformed sterols (cholesterol structures), they have an affinity toward cell membranes, nerve cells, sex hormone cell factories, glands and the gray matter in brain tissue, where cholesterol sterols are found. Since cholesterol is a co-factor in glandular hormone production, the endocrine balance is drastically altered with cholesterol being pulled out of the cell cycle. That is why pathogenic changes are seen most often during pregnancy, hormone replacement therapy, steroid therapy, menstrual cycles and xenoestrogens from pesticides, herbicides, meat and dairy.

With the disruption of the hormones, comes an open invitation for the RNA directed HIV to replicate. The newly formed HIV RNA makes its way to the host cell surface where it connects and breaks away carrying with it a GP 120 protein envelope that was hijacked from the previous cell's surface. It repeats by countering another cell, adheres to the cell surface and accesses the interior genetic material of its new host where the cascade process is repeated.

Unless Mycoplasma penetrates into tissues and cells they cannot exert their terrorist effects. They will lay dormant, sometimes for a decade, until physical or emotional trauma, severe stress or vaccine contaminants wake up the sleeping giant to invade and feed on the cell's genetic material like an intracellular parasite, taking the cell hostage until it ruptures and dies.

## **Mycoplasma Triggering Mechanisms**

Mycoplasma is activated and stimulated by initiators (ignition) and potentiators (promoters). The potentiators are the toxic substances in our food, beverages, environment, pharmaceuticals, heavy metals (Mycoplasma amalgams) and chemicals that we bath in, etc. that store in fat cells and weaken our cellular terrain and immune system to allow the initiators (i.e. stress, viruses, bacteria, fungus, parasites, emotional and physical trauma, fear, increased estrogen, anger, etc.) to ignite or light up the gasoline that's poured on the barn -Mycoplasma.

If the gray matter of the brain tissue is the target of Mycoplasma invasion, you'll portray symptoms of dementia, Alzheimer's, Parkinson's, Creutzfeldt-Jakob disease or memory and cognitive thinking disturbances depending on the area of the brain terrorized.

If the spinal cord is the victim, you will exhibit symptoms of neurodegenerative diseases

like myasthenia gravis, Guillain-Barré and ALS (Lou Gehrig's disease). If your weakness happens to be the synovial fluid cells in your joints, rheumatoid arthritis with severe joint pain will be your disease. In fact, many of the 21st century diseases that were thought to be autoimmune turned out to be Mycoplasma invasions. I do not believe that God made our immune systems that stupid to attack our own tissues.

If Mycoplasma invades the beta cells in the pancreas that manufactures insulin, you can't regulate blood sugar and Diabetes Mellitus will be your demise. If your cardiac tissues are your weak link, cardiomyopathy will manifest. If *M. Pneumoniae* or *M. Fermentans* attacks the bronchial lining of the bronchial tubes, the inflammation will trigger asthma and upper respiratory infections. If the myelin sheaths of the nerves are targeted, you will exhibit neurological symptoms of multiple sclerosis. If the intestinal lining is penetrated, the damage to the mucosal lining will perpetrate Crohn's disease or leaky gut. In the case of Lou Gehrig's disease, 80% of the patients have detected at least two Mycoplasma strains -*M. Penetrans* and *M. Fermentans*.

In ALS, the oligodendritic nerve cells which require cholesterol to synthesize neurosteroids are eaten. If Mycoplasma population is large enough, they gobble up so much cholesterol they diminish neurosteroid synthesis which leads to severe central nervous system malfunctions. Even Lyme disease, which is the fastest growing infectious disease in the U.S. and possibly Europe, with the exception of AIDS, was found to be linked to both *Borrelia* and Mycoplasma infections as a co-infection. The Mycoplasma species of *M. Pneumoniae* and *Chlamydia* invading the pericardium lining of the heart, seem to be common dominators of myocarditis and pericarditis infections.

Mycoplasma steroid stealing properties also make the energy producing mitochondria leaky by robbing cholesterol lipids that are necessary in mitochondrial membrane integrity. When mitochondria bleed, they cannot generate ATP energy necessary for cell energy and function and nerve cells are the most sensitive to energy deprivation. This explains why chronic fatigue and neurological disorders are the main symptoms of the trinity diseases chronic fatigue syndrome (CFS), fibromyalgia (FMS) and Gulf War illness (GWI). In my opinion, they are the same disease ideology with all three characterizing common symptom traits of chronic fatigue, short term memory loss, low grade fevers, tissue and lymph swelling, joint and muscle pain, stomach and digestive disorders, immuno-suppression and severe systemic chronic infections that invade various organs, tissues and cells including the brain, nervous system and heart.

### Mycoplasma Infection Leads To A Medical Merry-Go-Round

Since the disease pattern of CFS, FMS and GWI affect all major body systems (cardiovascular invasion involving the left ventricle, neurological damage ranging from mild cognitive problems to bi-polar depression or schizophrenia, genitourinary damage presenting incontinence or urethritis, pulmonary symptoms of asthma and the development of fibro masses or nodules in the lungs etc.), this multi-faceted symptomatology is causing a medical merry-go-round in the medical profession starting with a general practitioner who will usually prescribe an anti-inflammatory and a short-

term antibiotic regimen for the chronic infection.

Since you also exhibit symptoms of neurological disorders and your general practitioner is not versed in neurology, you will be referred to a neurologist.

After the examination with a neurologist and a couple scripts later for your anxiety and insomnia, you will be pawned off on an endocrinologist for your hormonal imbalance because the neurologist has limited knowledge in endocrinology.

Due to the combined adverse side effects of the antibiotics, anti-inflammatories, analgesics and tranquilizers, you may exhibit signs of gastric disturbances and skin reactions where you will be further drugged by a dermatologist or a gastrologist.

Next in line on the "gist" medical treadmill is the cardiologist who will push a beta-blocker or a diuretic on you for your cardio-myopathies. After seeing ten different disease specialists and spending thousands of dollars on MRI's, CT Scans, X-Rays, surgery, pharmaceuticals, etc., without finding a solution to your dilemma, you will be labeled psychosomatic, hypochondriac or suffering from severe depression where you will end up with a psychologist. You're now a walking drug store with more complications than what you started with thanks to the combined adverse reactions of the drugs and the limitations of medical doctors who specialize in only 1/10th of the body. What a racket!!!

The government perpetrates non-detectable, virulent, stealth pathogens on the population by way of mosquito vectors (West Nile), primary aerosol, chemtrails, vaccines and possibly the food chain, and then you're put through a medical merry-go-round of disease specialists that know little or nothing about Mycoplasma ideology and do not have access to the necessary diagnostics for detection. The pharmaceutical companies and the warlocks in Washington and Wall Street are laughing all the way to the bank as they profit hundreds of billions of dollars on humanity's suffering while fulfilling their agenda of population control.

### Protocols To Treat Mycoplasma

Since Mycoplasma cannot be successfully treated with the usual short course duration of antibiotics due to their intracellular location, slow proliferation rate and inherent resistance to most antibiotics, the few Mycoplasma experts that specialize in this field are recommending six-months to one year of non-stop treatments using strong antibiotics such as Cipro and Doxycycline. However, if a patient does not want to destroy their body and immune system with Cipro and Doxycycline, a total overhaul of every cell from head to toe using a multi-faceted, non-toxic, holistic treatment approach is absolutely necessary to overcome Mycoplasma infections naturally. This is why vitamins and nutritional supplementation are so important in the therapy. Chronic illness patients must also be weaned off antidepressants and other potential immune suppressing drugs before they can fully recover from their illnesses.

### **Short Term Effects of Chemtrails:**

- Allergies
  - Anxiety
  - Asthma
  - Brain Fog
  - Breathing difficulties (Unexplained)
  - Chronic sore or raspy throat
  - Dizziness
  - Eye and skin irritations
  - Flatulence (gas)
  - Flu-like symptoms
  - Headaches
  - itching (Unexplained)
  - Nausea and Vomiting
  - Nose bleeds (Unexplained)
  - Panic attacks
  - Persistent coughing
  - Respiratory problems
  - Stomach aches
  - Suicidal thoughts
  - Tinnitus (distant ringing in ears or high pitched sound after spraying)
  - And many other symptoms
- 

### **Long Term Effects of Chemtrails:**

- Acid Reflux
- (ADHD) Attention Deficit Hyperactivity Disorder
- Allergies
- Alzheimer's Disease
- Aluminum build up in Pineal Gland
- Asthma
- Autism (evidence links autism to Mycoplasma)
- Autoimmune Diseases
- Blood in the Urine
- Borderline personality disorder
- Cancer (linked to many types of cancers)
- Chronic Fatigue
- Constipation
- Depression
- Easy Bruising
- Eye problems - \* Nearsightedness & Farsightedness (by altering interocular fluid eye

- pressure)
  - Fibromyalgia
  - Floaters In the Eyes
  - Gastritis
  - Heart Arrhythmia (irregular heartbeat)
  - Heart Disease
  - High Cholesterol
  - Hypoglycemia
  - Hyperglycemia
  - Irritable Bowel Syndrome (IBS)
  - Insomnia
  - Learning Disabilities
  - Lung diseases
  - Lupus Erythematosus
  - Multiple Sclerosis
  - Oily Skin (Elevated DHT)
  - Parkinson's Disease
  - Rheumatoid Arthritis
  - Schizophrenia
  - Short-Term Memory Loss
  - Sleep Disorders
  - Spider Veins
  - Tinnitus (ringing in the ears – 700 million cases of Tinnitus reported worldwide)
  - White Coating On the Tongue
  - And many other symptoms
- 

People need to be proactive in this war against humanity. The U.S. Government, Military, Health, Education, Industrial-Complex have used public tax money to design, manufacture, and the distribution network to secretly use *'Silent Weapons for Quiet Wars'* to "Depopulate" the world. The greatest mistake made has been to trust your government. We can share volumes to the effect that they want us dead!

Blessings,

Pastor Bob, [EvanTeachr@aol.com](mailto:EvanTeachr@aol.com)  
[www.pastorbobreid.com](http://www.pastorbobreid.com)
