

# Why wasn't the Church Raptured on Rosh Hashanah – the Feast of Trumpets?

This question begs an answer for many reasons!

## Part 2 Follow Up

### An Answer to Seriously Consider!

What I am about to share with you is as astonishing as it is simple. Yet it can be complex for many, particularly those who are unprepared for serious Bible Math. We did not see this coming because we have traditionally understood the 2,520 days [seven years] of the Tribulation period as commonly divided into two periods of 1) 1,260 days, or 2) 42 months, or 3) 3-1/2 years, or 4) a time, times, and half of a time. Do you recall my article, **“God is the Master Mathematician: Riddle of 2,520 Revealed”**? In that article I organized all of the Bible’s notations on the number **2,520** and how it was presented in the entire Bible, and suggested it was like the Creator’s Finger Print.

This follow-up to my post a few days following the September 22/23 date for the Feast of Trumpets (Rosh Hashanah/Yom Teruah) was meant to assure readers there must be an answer that eluded us all as to why the anticipated Rapture did not occur. I believe we may have the answer to that question. Further, we may be just days away from the correct date for the Rapture of the Bride/Church made up of “born-again” believers who continue to trust in the Lord Jesus Christ. This is an alert and a warning to stay vigilant and watchful during the next week to ten days!

I want to share with you an incredible insight that has given us reason for hope of the closeness of the Rapture! What follows below is a post by Pastor Steve Sewell of **“Heavenly Sign 2017”** posted two days before I am sharing it with you. The important point here is that the information presented by Pastor Steve Sewell suggests the Rapture could take place in just a few days. Why is this so?

I sent my E-book **‘The Season of the Rapture: God’s Three-Fold Witness’** to Pastor Steve Sewell this past June and in a post today, October 14, 2017, Pastor Steve Sewell put specific information quoted from my E-book on the Gematria value of **3168** affirming God is a God of numbers up on his site! Recall, the Gematria value of **“3168”** is the numerical value of the name **“Lord Jesus Christ”**. Chapters 1 and 2 of my E-book deals with the Gematria encoded in the

universe and the Three-Fold Witness of God. God really gave man the Gospel in three forms: 1. **Gospel in Stone** (Great Pyramid); 2. **Gospel in the Stars** (“*Mazzaroth*”); and 3. **The Written Word**. The implications of this revelation are as profound as they are mathematically self-evident.

There are many new readers to my posts that have not read the significant content that stated my premise that God is the Master Mathematician and how all that is revealed in the universe as well as in the King James Bible. The most recent post sent out dealt with the Mathematical Properties of **Pi**, **Phi**, and **Euhler** in the Gematria of the Bible. I have never had the time or the money to host my own web site and so I rely on sharing with those who do maintain a web site such as Pastor Steve Sewell. If you are a new reader and you would like to read the content of my E-book, send me your E-mail address and I will send you a copy. There is no cost and you can have it in minutes.

Below is Pastor Steve’s remarks at his site, followed by a 31-minute video discussing why the Tribulation may be just days away. It is titled “**Our Final Conclusion**”. I will put a link at the close of this article for readers to view. In Daniel chapters 11 and 12, the prophet Daniel discusses the numbers 1,260, 1,290, 1,335, 2,520, 2550, 2,560, 2,625, in terms of days. All these numbers are enough to cause a hissy fit, if not to do as Daniel was told to literally: “***shut up the book!***”

*“But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased.”* –(Daniel 12:4)

*The blood moons... People say nothing happened. **It did!**  
The eclipse... Some say nothing happened. **It did!**  
The Revelation 12 sign... they say nothing happened.  
**IT DID!***

While most other Watchmen are either scratching their heads as to "what went wrong", we maintain nothing really went wrong at all. But that we have simply traveled inside our timeline we have held to for nearly a year now. Many are grasping at straws in an effort to understand why the Church is still here. I hope that this update will clear up that confusion as it regards where we stand on this phenomenal issue.

The only place where I can see that we assumed something that didn't hold water, was the position of the rapture in all this. We thought the church needed to be gone for all this to start (the 'taking away of the continual'), but really, the timeline is about Israel, not us (the Church). So now we're thinking that the 'taking away of the continual' means something along the same lines... that is, the end of what is 'normal', the ending of this current dispensation and moving into the next. The 'taking away' is tied to the beginning of the Hebrew calendar, Sept. 21, 2017, and the Revelation 12 sign which appeared at the end of the Feast of Trumpets.

*“And from the time that the daily sacrifice shall be taken away, and the abomination that maketh desolate set up, there shall be a thousand two hundred and ninety days.”* –(Daniel 12:11)

The 1290 days MUST occur at the beginning (starting with Feast of Trumpets – Sept. 21, 2017)... there has to be time for the 2 witnesses to show up and be dead before the Abomination of Desolation can occur at the midpoint. Just like the church restrains the evil in the world now, so, too, the 2 witnesses keep the Antichrist from being worshiped until after Passover, (when he kills them).

On the 1st-2nd of April, will be when the Abomination of Desolation appears, the 2 witnesses are resurrected, and the 'woman' flees. If this is so, the 2 witnesses will appear approximately on October 15, 2017, the Lord will confirm the covenant on the 20th if not sooner and BANG... we're off and running into the 70th week of Daniel. We maintain the Lord could come anytime between now and then, and that the dispensation of the age of grace will officially end with the arrival of the 2 witnesses. **This is VITAL to understand...**

If the 'day counts' don't fall on days that 'mean something' to the Jews, they can't know if they have the day counts in the 'right' places. They could land anywhere. And, we have to start at a significant date on the 2625-day timeline. The beginning of the Hebrew year 5778 is a great place to start. The death of the two witnesses on Passover 'means something', too. As does the end date of the Day of Atonement and the 24th day of the 9th month. If most of the dates have no significance, they would not know if they are calculated and placed correctly.

I have personally run the dates for 2018 looking at the same 1290/1260 days beginning with a number of significant dates. The - (dash) dates indicates the day falls on a non-significant (nothing) day on the Hebrew calendar. You may find this interesting, especially when you COMPARE it with our 2017-2024 Timeline. It reveals an unlikely 2018 Rapture.

## 2625 Day Timeline Projections: 1290/1260 for years 2018 - 2025

**TIMELINE FOR THE 70TH WEEK OF DANIEL**

**70th Week of Daniel Timeline for a Jubilee Year in 2017**

Brenda Weltner 10/1/17

Pastor Steve Sewell is saying that the Biblically significant dates for all years other than 2017, do not fit properly in relationship to their prescribed Hebrew Feast dates of Leviticus 23. Only the year 2017 fits all the dates and the Holy days prescribed by Leviticus 23 precisely. In both his drawing above and in his video, Pastor Steve places the 30 day period between the Feast

of Trumpets of September 23<sup>rd</sup>, 2017 and the beginning of the first half of the **2,520**. **2,520** is significant as I shared in an earlier post I did on the meaning of **2,520** a few months ago. **2,520** days = 7 years. Daniel's 70<sup>th</sup> week represents a "seven" year period of **2,520** days. Divided by two you get two equal periods of 1,260 days. Daniel 12:11-12 notes two extensions, one of 30 days and one of 45 days.

**Daniel 12:11** - *"And from the time that the daily sacrifice shall be taken away, and the abomination that maketh desolate set up, there shall be a thousand two hundred and ninety days."* Subtracting 1,260 from 1,290 = 30 days extension.

**Daniel 12:12** - *"Blessed is he that waiteth, and cometh to the thousand three hundred and five and thirty days."* Subtracting 1,260 from 1,335 = 45 days extension.

It is here where interpretations of Scripture have failed. The traditional view rendered the prophetic time line as: 1,260 days + 1,335 days [1,260 + 30 + 45] = 2,625 days

**Daniel 12:13** - *"But go thou thy way till the end be: for thou shalt rest, and stand in thy lot at the end of the days."* Daniel 12:13 ends the chapter and the book of Daniel.

Pastor Steve Sewell is saying that readers of Daniel 12:11 errantly assumed the placement of the 30 days but the text does not state where those additional 30 days are to go. Theologians and prophecy scholars merely assumed it went at the end of the second half of the Tribulation period. By placing these 30 days at the beginning of the time period we refer to as the "Seven" year Tribulation period, or the 'Day of the Lord', Steve has found that all the significant dates fall on their key Jewish feast dates through to 2024.

In years past, I found various scholars suggesting the time period between the Rapture and the beginning of the Tribulation ranging between these numbers: 1, 30, or 45 days. At one time, Dr. Chuck Missler showed a chart with a 45 day gap between the Rapture and the beginning of the Tribulation. Bible scholars and prophecy experts disagreed on this point as to when the Tribulation began following the Rapture of the Bride/Church.

By using Pastor Steve Sewell's calculations, he is suggesting that the arrival of the two witnesses of Revelation 11:3 appear before the beginning of the first half of the Tribulation. Remember the church is absent from chapters 4-19 in Revelation, and is not mentioned again until chapter 20. Those two witnesses are totally irrelevant to believers being "caught up" or Raptured ("*Harpazo*") out before the beginning of the Tribulation. They are relative only to Israel in the context of the "Seven" year Tribulation.

We have a new moon beginning on October 20/21, 2017. Thursday October 19<sup>th</sup>, 2017 is a moonless night, and ideal for a U.S. attack on North Korea. The 20<sup>th</sup> is the first sliver of a new moon and the 21<sup>st</sup> is likely a time when the new moon would be "certified" by the Jewish Sanhedrin. Sunday, October the 22<sup>nd</sup> is an even better date for the new moon! People reported the new moon last month (September, 2017) a day earlier than it could be certified by the

Sanhedrin court requirements. The 23<sup>rd</sup> of September met dozens of data points required for the Rapture on Rosh Hashanah and the Revelation 12 sign in the heavens.

Before I forget, the potential of a U.S. attack on North Korea has yielded additional evidence for war. Australia has sent 6 warships to the waters off Korea and Japan. It includes an assault helicopter aircraft carrier and a nuclear submarine as well. In a report Friday, September 13<sup>th</sup>, 2017, I learned the U.K. is, or has also dispatched a couple naval warships, including its only working aircraft carrier. The Secretary of Defense, James Mattis made a trip to India in late September to get reassurances of India's permission to use Indian air space in an attack on North Korea. The U.S. air base at Diego Garcia in the Indian Ocean will play a key role in an attack on North Korea. The U.S. super-carrier USS Theodore Roosevelt will be on station by Wednesday of this week and the USS Ronald Reagan is close by. The USS Nimitz is or was in the Indian Ocean not far away if needed.

If you recall last month everyone prematurely called the new moon a day early and disregarded the Biblical requirements. I had an issue with those calling the barley abib/aviv back in the spring. There was not a 100% consensus agreement and those who dissented had just cause as I recall. But since I wasn't there I could not be absolutely sure. Calling a date for the barley abib/aviv (ripe for harvest) in God's agricultural calendar is vitally important on this matter. The determination of when the barley is ripe then sets the religious calendar dates for the Feasts of Passover, Unleavened Bread, First Fruits, Pentecost, Feast of Trumpets, Yom Kippur, and Sukkot. The Israeli government does not observe the Biblical calendar. This was the same reason for what happened in 2016; the Christian community observed Easter, a full month before the Jews celebrated Passover. You can't celebrate the Resurrection of Christ before the Passover! Yet, that is exactly what occurred in 2016. Is it any wonder people are confused about these matters when they do not follow the Bible's instructions?

Getting back to President Trump's decision regarding the Obama/Iran deal, Trump's decision to hold up making a decision for 60 days is extremely important despite the fact that it might be seen as a cop-out, thereby forcing the congress to act on owning its decision.

Obama signed the P5+1 Treaty deal without congressional input. Trump is covered here in that he did not exercise presidential authority. He can't be blamed for what Obama did and/or what the consequences of the deal brings and he can say he left it to what remains largely an Obama congress, with slight changes. Why this matters I will explain. President Trump has had excellent advice or possibly divine guidance in this matter.

The downside to this decision yesterday's address (October 14, 2017) puts pressure on Iran. We know they are actively securing missile technology from all over Europe. The intelligence community has reported that Iran was in touch with just about everyone in Western Europe to acquire advanced missile technology. The US knew this and Obama never cared since he was opposed to Israel in every way possible. Iran now is in a race against time since it can't predict what happens in the next sixty days. They succeeded in a missile test launch two weeks ago (weekend of the Feast of Trumpets) with the launch of a missile range capable of 2,000

kilometers. That is approximately 1,243 miles. The distance between Tel Aviv and Tehran is 1,188 miles. So Iran's new missile test is capable of reaching Tel Aviv with 155 miles to spare.

As I see it, Iran is working 24/7 to produce enough of the new missiles and to marry a nuclear warhead to their new missile. Money is no object for them since Obama gave Iran \$1.7 billion in cash (foreign currency, not US dollars). In the two-month Trump freeze, Iran should be able to produce between 20 and 50 of their new missiles. While Israel is a 2-nuke target, any number more than that assures Iran of the ability to destroy Israel's three major coastal cities.

I personally see the Psalm 83 war as a first stage attack, a prelude to the Ezekiel 38/39 war. I foresee the Psalm 83 war lasting a week or less, and quickly moving to the Ezekiel 38/39 scenario. Psalm 83 is a diversion to my frame of thinking.

The world globalists are behind the death to America by a thousand cuts via multiple crises. They are led by the Jesuits/Masons determined to destroy the US Constitution, capitalism, freedom as we know it and replace it with a Roman Catholic form of Marxist-Socialism state but also subordinate to the Roman Catholic Church-led U.N. Back when Bill Clinton was president he was carrying out Rockefeller goals of returning the nation's coast lines to their primitive state, part of a plan to move people away from the ocean shores. The strategy was intended to force people to move inland and create a 200-mile buffer zone around the entire country, including the Canadian border. They carried this out through orchestrated geo-engineered hurricanes back then and the plan was increased again this year. The Bush administration temporarily set aside the agenda in order to fight the wars in Iraq and Afghanistan. They want to destroy the economy first and foremost. The greatest borrowing by the government occurred in the 8 years of Bush and 8 years of Obama. I posted a segment on the Beast Empire showing the lien taken out by the IRS/Federal Reserve against the USA, filed a few years ago. This becomes their legal means to execute repossession claims on all the real estate, buildings, people, as collateral for the \$20.3 trillion dollars of debt financed by the Federal Reserve since 1913-1914. They are going to do this all nice and proper and business like through fraudulent laws such as the Federal Reserve Act which was unconstitutional, and the Income Tax Act of 1913-1914 which was never ratified by the required number of states. The 16th Amendment was never ratified and so the Income Tax is illegal, not to mention that in a Supreme Court ruling it was declared unconstitutional, not once but twice if my memory is still that good.

We went to war in Iraq because Saddam Hussein was about to demand payment for his oil in gold, and not U.S. dollars. This was what Muammar Gaddafi was going to do as well. He created the gold dinar and these countries wanted to use a different method of payment than the US Petrodollar. This began years before at the Bretton Woods Convention, where it was decided that all countries would pay for oil in U.S. dollars. This worked perfectly well until President Nixon took the country off the gold/silver standard in 1971. The US dollar began to inflate from over-printing U.S. (FRN's) dollars. The Nixon-Kissinger deal worked out with Saudi Arabia was that the US would invest their oil money in US businesses, banks, railroads, and everything they could buy stock in. The US dollar continued to shrink due to inflation and devaluation and so the Arab oil states and Muslim countries realized they were being taken

advantage of and so they sought to change the terms of selling their oil. The wars since 1990 have all been about oil, i.e., control, profits, and cheap dollars. General Wesley Clark tells the Pentagon's plan was to take down 7 countries in five years. Unfortunately, the government lies have caught up with them and they can no longer hide the truth. As I said in my series on the Beast Empire, America is part and parcel of the Beast System.

In his video, Steve Sewell noted that at the Rapture, America will be distracted by an event of massive proportion and unable to come to the aide of Israel. Amir Tsarfati posted a report this morning and dealt with this very topic: What might be an event of such massive proportion that would bring the USA down? You know what he said? He repeated what Steve Sewell said in his latest video. Both noted the Yellowstone caldera would be something of such significance. Barry Stagner in his Thursday edition of World News on HIS Channel mentioned the Yellowstone eruption may come sooner than scientists first thought. So, three different sources come back to a Yellowstone volcanic eruption and that it would impact virtually the entire country, thus precluding the U.S. from coming to the aide of Israel in the Psalm 83 and Ezekiel 38/39 war.

You may not know this but the Mississippi River and the Ohio River in areas around St. Louis, MO have virtually dried up, creating serious shipping problems on the rivers. The summer drought has dried up the two big rivers in southern Illinois, south to Memphis, and north to Quincy, IL. We have also had a series of earthquakes in recent weeks and months in the New Madrid geological fault region near St. Louis.

If all of this does not prove my point about June 25, 1962 and June 26, 2015 being the marking of dates for Judgment on America, I could cite a hundred other reasons why God is not happy with the new American Babylon. Remember Dave Reagan's address at the July 2017 Conference in McKinney, TX when he said that only 10% of Americans are born-again Bible believing Christians. The rest he said were merely cultural or cafeteria Christians. For those unfamiliar with the two dates noted above, the first was the Supreme Court ruling of prayer in schools unconstitutional, and the second was to legalize sodomite marriage. The other Supreme Court ruling that should be included is that of the legalization of abortion on January 22, 1973.

God's judgment on the USA was set in those three Supreme Court decisions. I am saying bluntly, that the USA is burnt toast in the eyes of the Creator. I have written extensively on God's Master Plan for Redemption, primarily in my multi-32-part series on "Deliverance before Judgment". Presently, I do not have any articles planned so this will likely be my last and final posting. That said, watch the next ten days closely and be sure to be right with God. If you are left behind, you will be looking at a planned Antifa communist/Marxist/socialist revolution planned for November 4<sup>th</sup>, 2017 across the nation.

Be blessed and alert, Jesus is at the door!
