

The Spiritual Implications of the Vaccine Insanity

I posted an article by Dr. Zev Zelinko in September of 2021 in which Dr. Z as he is often referred entitled '*The Vax is Human Sacrifice*'. Perhaps you might want to read it as a reminder to what I am about to unveil in this article. The link is below:

The Vax Is Human Sacrifice By admin on Tue, 09/21/2021 - 12:52

[The Vax Is Human Sacrifice](#)

In the ensuing months following the outbreak of the Covid "bioweapon" in March of 2020, I was tuned into the spiritual dimension implications. Behind the façade of this plandemic there were abundant indications that we were confronted with a much deeper dimension of spiritual warfare than most people can understand. I do not exaggerate by saying that Covid is a "bioweapon".

This reality was first discovered by Indian scientists who discovered an uncanny similarity to the HIV1 virus. Prashant Pradhan and a team of 10 scientists were the first to report this fact. This was in early 2020, and it was subsequently verified to be fact by the 2008 Nobel Peace Prize winner in Medicine, Dr. Luc Montagnier. An article later appeared in the December, 2020 issue of '*Entangled*' magazine. The headline on the cover read "Covid-19 is a Retrovirus". The National Human Genome Research Institute describes a retrovirus, including HIV-1: *a retrovirus is a virus that uses RNA as its genetic material. When a retrovirus infects a cell, it makes a DNA copy of its genome that is inserted into the DNA of the host cell. There are a variety of different retroviruses that cause human diseases such as some forms of cancer and AIDS.*

In this case, the DNA resides within the nucleus of human cells. Once fused, the DNA copy of HIV-1 and 2019-nCoV/COVID-19 permanently alters the existing DNA of the human host.

The important thing about their discovery was the fact that World Health Organization and other groups rebuffed their proof of an adulterated virus with four specific inserts, three of which contained 18 fragments of the HIV1 genome; the fourth insert contained 4 fragments of the SARS2 genome. Dr. Luc Montagnier went on to say the inserts constituted 92% of the HIV1 viral pathogen. The WHO likewise rebuffed the findings and confirmation by Dr. Luc Montagnier. You do not simply brush off the work of a Nobel Peace Prize recipient in Medicine without reason but from the beginning it was evident that a "fix" was in that something else was afoot. The diabolical picture was

beginning to make itself evident and yet it seemed impossible to believe what we were seeing before our eyes. Today, the two most censored people on the Internet are Robert F. Kennedy, Jr. and Dr. Naomi Wolf. The Biden administration has ordered Facebook to censor “*misinformation*” about Covid vaxxine that goes against the “*official*” narrative of the CDC or public health agencies. Censorship is the tool of tyrants. The U.S. has taken the position that it is the final arbitrator of truth and disagreement will not be allowed! The corruption in the CDC and FDA is notorious within Big Pharma.

The CDC is not a government entity and has many conflicts of interest: The agency does what it is supposed to do – promote and advance the interests of its stakeholders. It is most infamous for funding the Tuskegee Experiments that deliberately left black Americans with syphilis.

Later in 2020 Australian scientists discovered that the virus had been “weaponized” with HIV1 and HIV2; and this led to Australian canceling its \$5-billion vaccine investment. Throughout the entire declared pandemic on March 10, 2020, and even to the present time, I have read and saved well over 70,000 documents, reports, videos, and data that have exposed the Covid scamdemic to be the greatest crime against humanity.

As of June, 2022, the vaxxine death rate is now 20% above normal across the board of all death categories. What does that mean? First point is that birth and death statistical data is an important function of government data. Year-to-year death data over several decades’ show a detailed pattern over the course of any given year, and multiple years. A second very important point is the industry that requires accurate data relative to death is the insurance industry. The insurance industry bases premium rates on statistical data which projects deaths per age and life expectancy.

When people go to work for a company, most large companies provide their employees life insurance benefits as a perk benefit. In the case of executive and professional managerial personnel, many companies take out corporate insurance on them where the company is the beneficiary as well. This is a routine practice in the corporate world. This is related to the fact replacement of highly qualified employees are not replaced overnight easily and it is not unusual to require as long as a year or more to replace a key position like that of CEO, CFO, General Counsel, or the President or a VP.

Recruiting and interviewing is an expensive proposition at most levels of employment but increase with the value of the position being filled. So, Edward Dowd, a former Black Rock Fund has recently revealed that insurance claims among working age people have skyrocketed since the first Covid-19 vaxxines given in December, 2020. An increase of 2% might not draw attention to be of overly concern, but 20% raises red flags in the insurance industry. Edward Dowd predicts that this spike of insurance payouts will rise significantly over the next few years. The funeral industry has had a booming business since December of 2020. Again, this is a further sign that something is seriously askew in our society. We have seen massive spikes in the death of healthy college and professional sports figures around the world this past year.

As of today, Wednesday, June 8th, 2022, The European (EEA and non-EEA countries) database of suspected drug reaction reports is EudraVigilance, verified by the European Medicines Agency (EMA), and they are now reporting **45,316 fatalities**, and **4,416,778 injuries following injections of five experimental COVID-19 shots**. Last week's U.S. VAERS data released Friday by the Centers for Disease Control and Prevention show **1,287,595 reports of adverse events** from all age groups following COVID-19 vaccines at **28,532 deaths** and **235,041 serious injuries** between Dec. 14, 2020, and May 27, 2022. I remind you that this does not represent the world at large with 194 nations where the figures are likely to be astronomical and be overlooked by the world.

The question that some people are asking is, ***"Is this God's judgment upon the world?"*** If not then perhaps we should be asking another question, ***"Has God allowed this to happen for a reason?"*** Was the 'Pandemic' the Perfect Cover for The Great Reset?

In recent years, some world leaders have been promoting a coming "Great Reset" that will affect people all over the world in terms of financial and societal issues. However, this is merely symptomatic of greater spiritual issues that are emerging. In light of this, it might be worth our while to understand seven great resets of human DNA in history related to the unseen spiritual realm.

Since the time when God created Adam and Eve, deoxy-ribonucleic acid (DNA) has been at the center of spiritual conflict. Basically, a person's DNA not only uniquely defines who a person is at a genetic level. It also identifies him or her at a spiritual level. It is the expression God's creative genius –(Psalm 139:13,14), and to some extent it is an indicator of how God views a person in light of choice he or she has made as well as choices that his or her ancestors have made. These choices have not been made in a vacuum. Instead, they are the result of constant struggle between good and evil in people's hearts and souls. And this includes how people deal with temptation from Satan. **It is highly likely that God designed it this way as a test of our faith and loyalty.**

Anthony Patch has stated that human DNA over history has gone through a number of great resets, including how it has changed, how it is being changed today, and how it will change in the near future. His analysis is thought provoking as I see what has been taking place around the world and the insanity in the whirlwind left behind.

1. Immortal DNA lost

After God created Adam, He gave him meaningful work to do and lots of freedom. The only test of faith and loyalty was linked to the fruit of the tree of the knowledge of good and evil. God said not to eat it or else Adam would die –(Genesis 2:16,17). After God created Eve, Adam taught her this command. Sadly, God's adversary, Satan, tempted Eve by twisting God's words and appealing to her sense of beauty, her appetite, and her desire for forbidden knowledge, so she got scammed. Adam was not deceived –(1st Timothy 2:14), but he went along to get along. After all, Eve was the most beautiful woman on earth at that time, and he loved her –(Genesis 3:1-6).

At that very instant, they died spiritually –(Romans 6:23), became separated from God – (Isaiah 59:2) and experienced the first great reset of human DNA. This involved God changing their DNA to a degraded form so that they lost their ability to live forever in their physical bodies. In fact, Adam died when he was 930 years old –(Genesis 5:5), which was within 1,000 years – what God considers to be one day –(Psalm 90:4; 2nd Peter 3:8). Since Adam’s DNA was degraded, it got passed on to all his children. This DNA degradation also included tendencies to sin as well as curses that got passed on to future generations –(Numbers 14:18; Jeremiah 32:18; Romans 5:12-21; and 1st Corinthians 15:21,22).

The following chart summarizes these seven great resets:

No.	Reset	Nature	Cause	Result
1	Immortal DNA lost	Judicial (Past)	Eating forbidden fruit	Death
2	Chimeric DNA phase	Adversarial (Past)	Forbidden sexual	Hybrids and much evil
3	Chimeric DNA phase	Adversarial (Past and	Forbidden sexual	Hybrids and much evil
4	Immortal DNA	Redemptive (Past,	Blood, grace, faith	Salvation and redemption
5	Chimeric DNA phase	Adversarial (Present)	Genetic engineering	Synthetic humans
6	Chimeric DNA phase	Adversarial (Future)	Nanoparticles, DNA	Satanic possession
7	Immortal DNA	Inherited (Future)	Resurrection at the last	Glorified body, no sin

2. Chimeric DNA phase 1

The second genetic reset began as a Chimeric DNA change. Although Satan was successful in getting Adam and Eve to lose their immortal DNA, he has never ceased in his desire to further mess up God’s beautiful creation in any way possible, especially the human DNA. So after a few hundred years, some of his subordinate angels (aka the “sons of God” – Job 1:6, 2:11, 38:7) deserted their own dwelling in heaven –(Genesis

6:1-4; Jude 6) to entice human women to marry them. These women made freewill choice to enter into forbidden marriages, and the result was giving birth to evil giants with hybrid DNA or “chimeric DNA” as it might be called in scientific literature today. This resulted in the introduction of new forms of evil and the rapid spread of evil all over the world. After a few hundred years, human DNA was also widely corrupted through hybrids marrying or raping normal women, so that all their offspring had corrupted DNA. This made God grieved and angry, so He destroyed all the evil giants and all humans and animals with Chimeric DNA in a global flood. Only Noah, his wife, their three sons, their sons’ wives and pair of non-chimeric animals survived on Noah’s Ark –(Genesis 6:1-8:33).

Genesis 6:9 says that Noah was a just man and perfect in his generations. The word “perfect” is “*tamin*” in Hebrew, and it can also be translated as “*without blemish or spot,*” as in Exodus 12:5, where God required the Passover lamb to be without blemish. Furthermore, the LXX Greek Septuagint of the Old Testament uses “*teleios*” for “*tamin*”, and “*teleios*” also means complete or perfect. Since Noah had sin like the rest of us –(Romans 3:23), his perfection was related to his genetic make-up, i.e., his DNA. Thus Noah and his family passed God’s test, but everyone else failed.

3. Chimeric DNA phase 2

Moving on in this DNA reset, according to Genesis 6:4, another group of disobedient angels also deserted their dwelling in heaven and impregnated women after the global flood, and we actually have more details about their gigantic offspring –(Numbers 13:32,33; Deuteronomy 2:10-12, 20-23; 3:11; 1st Samuel 17:4,5; 2nd Samuel 21:18-22; and Amos 2:9). Some people also believe that this happened throughout history, although many hybrids have allegedly looked like normal humans in size and appearance. Could this have something to do with certain blood types as well?

4. Immortal DNA partially restored

In the next reset, immortal DNA is partially restored. 2nd Corinthians 5:17 says, “***If anyone is in Christ, he is a new creature: old things are passed away, behold, all things are become new!***” Thus, when a person repents of his sin, trusts in the Lord Jesus Christ as his Master and Saviour and is born again, God begins to change his DNA back towards what it was like for Adam before the fall. Ongoing changes can be accomplished in a supernatural way (without medical assistance) through fearing God and turning away from evil –(Proverbs 3:7,8), explicitly breaking curses by faith – (Galatians 3:13,14) and receiving deliverance –(Luke 10:19,20) and healing –(James 3:14,15).

5. Chimeric DNA phase 3

The next reset is Chimeric DNA phase 3. The Lord Jesus Christ said, “***The thief comes to steal and kill and destroy***” –(John 10:10). He was talking about Satan, just as man has produced all kinds of modern technology. Satan has produced new tricks. In fact, he has been the driving force behind much of modern science and technology, and his covert plan is now manifesting globally.

Tragically billions of people around the world have been making freewill choices to receive experimental injections that are based on a virus that was designed in a computer. Since the virus includes HIV1 genomic fragments for gain-of-function, the injections are able to function as Baltimore Class VI retroviruses to reverse transcribe and change people's DNA, producing "chimeric DNA" according to scientific literature.

This technology has been under development for decades. Experts in the field of synthetic medicine or biology believe that they can use this "*gene and cell therapy*" (GCT) to "fix" people's genetic defects, and the injection mandates have kick-started GCT, turning people into synthetic humans or "*synths*." It is utter pride and vanity, because it is going against God's plans and purpose, and nobody but God can foresee all the long-term side effects. Frankly, it makes God very angry!

In the spiritual realm, the result is the setting up or establishing of the "***Abomination that causes desolation***" as spoken of by Daniel the prophet. –(Daniel 11:31, 12:11) (To avoid confusion, note that Daniel 9:27 is unrelated, because it is talking about the overspreading or nullification of abominations.) The Lord Jesus Christ explained that this desolation would be standing or put "*hitem*" in the "*holy place*" –(Matthew 24:15-22) or where it should not be –(Mark 13:14-20), i.e., the Temple of God. When he spoke, He was responding to His disciples' enquiry about the destruction of the Temple buildings –(Matthew 24:1-3; Mark 13:1-4; Luke 21:3-7), but He knew that the bodies of His followers would soon become the new Temple of God –(Acts 2:1-4; 1st Corinthians 3:16,17; 6:19,20; 2nd Corinthians 6:16; Ephesians 2:21,22), just as His body at that time was a Temple of God. –(John 2:18-21)

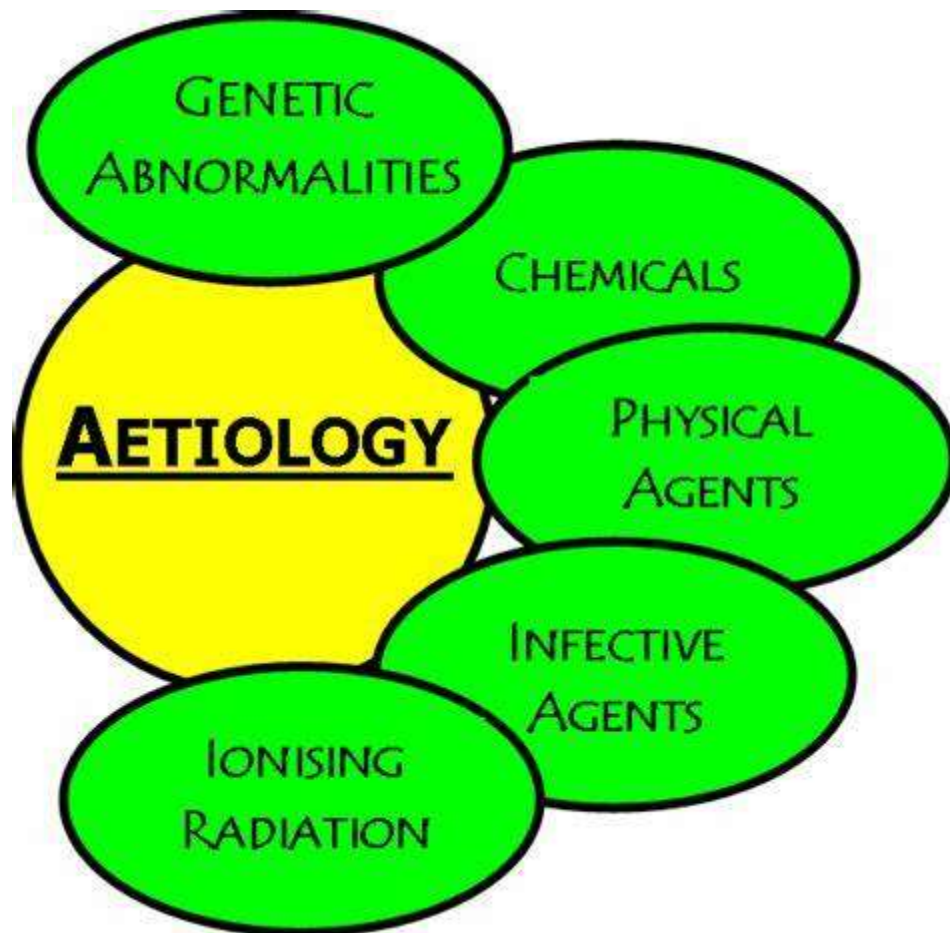

Being God, He knew that the establishment of the "*abomination that causes desolation*" would be at a cellular and a genetic level, not in a temple building. After all, He had already declared that the temple building would be left desolate –(Matthew 23:37,38), repeating what the Angel Gabriel told Daniel hundreds of years earlier –(Daniel 9:26). In other words, the temple building became desolate spiritually upon His death –(Matthew 27:51) and desolate physically when the Romans destroyed it in 70 A.D. Jerusalem will remain desolate until He returns, and construction of a third temple before that –(Revelation 11:1,2) will not change that.

The abomination that causes desolation is currently the most existential threat to humanity. It is also called the "**Mark**" of the 7-headed Beast that is described in Revelation 13, as it adds Satan's chimeric genetic markers to people's DNA. It is part of a strong delusion that God has sent to make people believe the lies of the official narrative, because they have not loved the Truth –(2nd Thessalonians 2:10,11).

6. Chimeric DNA phase 4

The next Chimeric DNA is phase 4. The injections being given globally today include billions of lipid nanoparticles that have various functionalities. The identity of the nanoparticles can be determined through a reverse engineering process called aetiology. This is what makes Covid-19 a retrovirus. The mRNA is transcribed back into the DNA, which re-writes a new genetic DNA ladder, call it what you like, modified,

changed, new, but it re-writes your God-given DNA into that of the adversary, the one we call Satan.

Satan's endgame is to use some of these nano devices to serve as 5G, 6G Wi-Fi signal transceivers so that the new race of "synths" can undergo further transformation into fully "synths" and have enough nano devices delivered into their bodies by a hypodermic needle or microneedle array patch, a switch will be flipped to activate the DNA original process. Then, all the "synths" will have their DNA folded into quantum annealing processors. Many will die when that switch is activated as well.

This will help you to understand why they are so obsessed with the idea of vaxxing children ages five and younger. They are not infected with a virus but they are being vaxxed with a "gene therapy" that will change their DNA into that of a "synth".

This will then enable them to be quantum entangled with a global quantum computer system, so that Satan will be able to make himself like the Most High –(Isaiah 14:14). Then, his assistant, the Antichrist, will be able to virtually sit in the Temple of God and proclaim himself to be God –(2nd Thessalonians 2:4, since he will be able to command and control the brains and memories and perceived reality of all the "synths". For these pitiful souls, it will be like living in virtual reality without a headset or OFF switch. They

may feel good at first, but when God begins to send painful stings from nasty locusts that sting like scorpions –(Revelation 9:2-12) or loathsome and malignant sores – (Revelation 16:2) they will not be feeling too good about their new “*extreme reality.*” Eventually they will end up in the lake of fire, and they will suffer great regret – (Revelation 14:9-11).

7. Immortal DNA regained

The good news is that for the sake of the elect, the Lord Jesus Christ will return and cut those days short –(Matthew 24:22). All the elect have to do is resist the Mark of the 7-headed Beast and endure until the end so that they can enter their rest –(Hebrews 3:5-4:11). Then the Lord Jesus Christ will return and transform their DNA to an immortal state and bring them to Heaven and the Great Marriage Supper –(Matthew 22:1-14; 25:1-13; 1st Corinthians 15:20-58; Revelation 19:7-10). This new DNA may be even better than what Adam and Eve had before the fall! It is definitely something that is worth waiting for and suffering for now.

It's Always Been A War Against Christianity!

I received a special request that had a good reason to re-post the "divine image destroyed" video... This video on the “*divine image destroyed*” should broaden your understanding of what the Bible amazingly enables you to grasp the larger implications of the role that DNA transcends the physical and speaks to the spiritual destiny.

Obviously it is banned on Youtube. There has been secondary confirmation that this video is spot on, and that the shot really does erase you from the “*book of life*” by removing the name of God. Prior to seeing this video, I was already aware (for about 30 years) that the name of God is written into your DNA over and over again, as it is spelled in the Hebrew Scriptures. And it has been well-known that what is called "junk DNA" has portions of the Bible written into it. We are indeed in the last days, and I'd like to remind people that all shots, no matter what they are should be considered tainted.

The war is on. see the attached mp4....

<http://194.233.91.97/videos/divineimagedestroyed.mp4>

When Isaacson writes that scientists have cracked the “*code of life*” and can do “*precise*” gene edits, those statements are true only in a narrow sense; more broadly, they mislead. When molecular biologists use words such as “*editing,*” “*engineering,*” “*coding,*” “*programming,*” and “*mapping,*” they generally know—or at least should know—that these are limited metaphors. In ordinary usage (i.e., outside biology), those words involve systems in which all the parts and roles are well understood. But that's not remotely the reality in the fields of genetics and molecular biology. Although it's

rarely advertised, computational biologist Lior Pachter argues, *“the reality is that we have no idea how the genome functions, or what the vast majority of genes or variants actually do.”* Isaacson does little to clarify this confusion or to counter the field’s glamorous hype-fest.

Saying we’re *“learning the language in which God created life,”* to quote from President Bill Clinton at a White House event celebrating the Human Genome Project, hints at a handier analogy. This god language of the genome is written in a script that scientists can transcribe into English letters (A, C, T, and G). But researchers know what only a small fraction of the resulting words mean. Most of the approximately 20,000 entries in the human genome *“dictionary”* remain completely blank. It’s as if we had an Enigma decryption device but only a limited understanding of a smattering of German words.

Back in 2020 Pfizer CEO Albert Bourla said *“we have cracked the code of life,”* my intuition was really saying what Bourla was all about playing God with human DNA, and the pandemic scare was really about humanity being used as a grand experiment in which all of us were being used as the lab samples for their experiments. The brazened Albert Bourla flaunted his arrogance to suggest that science will merge humanity with artificial intelligence through genetic engineering.

Their agenda is transforming *“homo sapiens”* into the *“homo novus”* (species). There can be no legitimate reason for small children from six months to five years being vaccinated other than to use them as experimental subjects or to steal them out of God’s Hands. If many die in the process, they will have served to advance the idea that medical science can deliver immortality through CRSIPR “gene editing”. Those who have been damaged and will be damaged from the mRNA spike Protein merely become collateral damage in their grand experiment in raising humanity’s consciousness.

The Biden Administration Makes Available 10 Million Doses of COVID Vaccine for Kids Under 5 — Before FDA Authorizes Shot!

The Biden administration today, June 9, 2022, said it has made available 10 million doses of COVID-19 vaccines for children under age 5 to states and healthcare workers with *“millions more available in the coming weeks.”* How generous Satan’s minions are with the people’s money! This may well be the threshold from which God intervenes in the life of humanity. I knew those behind the vaxxes or “Gene Therapy” were not going to stop their campaign of Hell. We are perhaps days away from the Rapture of those born-again in Christ. This might be your last warning to seek the Face of the Lord! If you are not saved from the wrath to come, I urge you to take this serious! Things may look hopeless and if you are aware of how the world is devolving around you, then I urge you to read this to the end.

Eighteen sitting Congressional members wrote a strong letter on June 7th, 2022, to the FDA demanding answers prior to the decision by regulators to approve COVID-19 vaccines for babies and young children aged 6 months to 4 years old. The FDA VRBPAC advisory panel is scheduled to meet on June 15 to discuss authorization and

this letter addresses the fact that there are questions and facts that the FDA must consider prior to EUA authorization.

Members of Congress Demand Answers

The use of COVID vaccines for babies and children is about to be decided based on?

[Robert W Malone MD,](#)
[MS](#)

June 9

The letter clearly states that COVID-19 poses little risk to babies and young children, that the vaccines have little effectiveness against new variants, that there are many unanswered questions about the safety of the vaccines and that there is evidence of significant adverse events. Therefore, the lawmakers queried the FDA panel as to why these vaccines are necessary for this age group.

“The broad approach of the CDC and FDA to date has been a one-size fits all policy—get the vaccine regardless of age, risk factors, the underlying health of the individual, or previous infection,” the members wrote to FDA Commissioner Robert Califf and members of the advisory panel in a June 7 letter obtained by The Epoch Times. *“Yet, to date there remain many unanswered questions about these EUA-approved COVID-19 vaccines and only a small percentage of the safety data about these vaccines that are in the possession of the FDA and the manufacturers has been released for review.”*

The document states that 68% percent of children aged 1 to 4 have recovered from COVID-19 and that those rates are even higher for older children, according to a cited May 2022 CDC study. The lawmakers note that the rates for natural immunity are even higher now than when the study was conducted, with an estimated 80% of children across all age cohorts being seropositive against COVID. As natural infection yields better protection than vaccination against COVID, plus children who contract COVID-19 have a high survival rate and have little risk of experiencing severe disease, there is little reason to vaccinate at this time.

The lawmakers want the FDA to answer a series of questions before issuing its decision on the EUA requests from Moderna and Pfizer.

The questions below are taken directly from the letter to the FDA (a link to the full letter can be found at the end of the questions). Please make your own interpretations:

- 1. Why has the FDA been slow to release the hundreds of thousands of pages of data from pre-approved manufacturers studies, post-approval adverse events state, other post-approval manufactures data submitted to the FDA as required by law??**
- 2. What is the FDA doing to expedite the release of this data and when can we expect all of the data in the FDA’S possession on these vaccines to be publicly released?**

3. Should the FDA approve EUA COVID vaccines for children under age 5, will the FDA release the data to the public with 14 days of approval that served as the basis for FDA EUA approval? If not, why not? If not within 14 days, when will the FDA release all of this data to the public?

4. When will the FDA and CDC provide the public with more details on those children who have had the most serious adverse outcomes from COVID-19 infections?

As of 'April 2022, the CDC reported 484 COVID-related deaths among children ages five and under (over a two+ year period). According to the CDC there are about 24,000" deaths overall in children ages 0-5 annually. Each of these deaths is tragic for these families and society. As the FDA and CDC consider COVID vaccine policies, we believe it is important to understand facts related to these COVID-related deaths, including any underlying conditions that may have been a factor in their death. This is important data for parents, health care providers and public health officials so that they can make fully informed decisions about the best healthcare decision for each child, particularly if the child is seropositive and has no other known risks for adverse outcomes from COVID. It is also noteworthy that as the older population has seen increasing hospitalizations and death with waves of COVID cases, CDC cumulative data show significantly less adverse impact on children under age five even during such waves.

5. What are the cardiac risk factors in administering these EUA COVID vaccines to children? As COVID vaccines were administered to larger numbers of those ages 5-18, public health officials began to notice a previously unknown risk factor related to cardiac inflammation, pericarditis and myocarditis in particular. Not only have there been a number of deaths but the long-term effects of those who suffered cardiac-related inflammation are as yet unquantified by public health officials.

6. Why has the FDA recently lowered the efficacy bar for COVID vaccines for youngest children? This change significantly lowers the expected benefits from any COVID vaccination recommendation for young children and of particular concern given that over 70% of this age cohort are already seropositive. Recall that when FDA gave EUA approval to COVID vaccines for those ages 16 and older, it did so based on data demonstrating over 90%' effectiveness in "preventing confirmed COVID infection." We now know that the efficacy is considerably lower.

7. The FDA decided to evaluate effectiveness of this vaccine on a measurement of neutralizing antibodies to the original SARS-CoV2 spike protein. What evidence does FDA have if any that "immunobridging" is an adequate surrogate to the disease prevention metrics used for previous EUAs? Please explain and provide us with FDA data that demonstrates the correlation between immunobridging and disease prevention comparisons between vaccinated and unvaccinated children.

8. Is it a possibility that administering the proposed COVID vaccines in young children could predispose them for increased risk from future novel COVID variants? These COVID vaccines were developed using the original SARS-CoV-2 strain and published studies indicate that vaccine efficacy wanes after subsequent doses and as new COVID variants arise in the population.

9. World renowned immunologists have raised concerns about the possibility of antibody dependent enhancement phenomenon (ADE) resulting from COVID vaccines, noting that ADE was a problem in unrelated COV vaccine trials. What studies has the FDA relied upon when examining the possibility of ADE resulting from EUA COVID vaccines in children ages five and under, or any age group for that matter? Will the FDA affirm with 100% certainty that ADE is not a risk factor for children receiving this vaccine?

10. If approved and widely used amount children age five and under, how many lives does the FDA estimate will be saved in the age group over the next year? Given the injuries reported in the FDA's own VAERS system, how will the FDA evaluate potential tradeoffs of serious vaccine injuries versus serious COVID outcomes?

11. If approved, what does FDA estimate will be the cost of administering these vaccines to this age group?

12. CDC reports "seropositivity of 68% of children 1-4 years, 77% for those 5-11, and 74% children ages 12-17. With two additional COVID waves since this data was reported and corresponding increases in seropositivity, what percentage does the FDA consider herd immunity?

13. According to the FDA, how many children ages five and under with pre-existing medical conditions have died from COVID or its variants?

14. According to the FDA, how many healthy children ages five and under without pre-existing medical conditions have died from COVID or its variants?

15. According to the FDA, how many children ages five and under with pre-existing medical conditions have been hospitalized due to (not with) COVID or its variants?

16. According to the FDA, how many healthy children ages five and under without pre-existing medical conditions have been hospitalized due to (not with) COVID or its variants?

17. According to the FDA, how many children ages five and under with pre-existing medical conditions that have required treatment due to COVID or its variants?

18. According to the FDA, how many healthy children ages five and under without pre-existing medical conditions have required treatment due to COVID or its variants?

19. Please list the medical emergencies of children 0 to 4 years old that enables the FDA to approve the COVID vaccine for children using its EUA.

The data show that the risk of serious adverse outcomes of r COVID for children five and under is very low and as such the standard for evaluating EUA interventions must be very high.

We believe each question raised about is not just important, but essential questions for the FDA, VRBPAC and the CDC when it comes to doing a thorough job of evaluating the potential benefits and potential risks of these vaccines for which you have been asked to consider granting an Emergency Use Authorization.

Signed by members of both parties in both houses of Congress:

In biology, words like “*engineering*” and “*programming*” perpetuate a deeply mistaken genes-are-like-code belief to which Silicon Valley entrepreneurs and many in the thinkerati seem highly susceptible. For instance, Elon Musk has said that “*synthetic RNA (and DNA) ... basically makes the solution to many diseases a software problem.*” Ray Kurzweil predicted we will “*realistically model all biology*” by 2030. Mark Zuckerberg and Priscilla Chan’s foundation will “*cure all diseases*” by 2100. These Silicon Valley titans seem to express a combination of tacit creationism, the first step fallacy, and plain old hubris. They don’t seem to have a handle on the tremendous intricacies involved in biology’s level of complexity and its radical conceptual differences from human-built tech.

To say that scientists now understand life’s “*code*” is a stretch. So, from the very title of Walter Isaacson’s latest biography, *‘The Code Breaker: Jennifer Doudna, Gene Editing, and the Future of the Human Race’*, he’s off to a rocky start. And that isn’t the only conceptual gap papered over by this beautifully built behemoth. To suggest that Doudna is a “*code breaker*” is to compare her to, say, the British code breakers of World War II who cracked the notorious German Enigma code. But when it comes to DNA, our code breaking isn’t all it’s cracked up to be: if the Allies had had the same level of expertise in actual cryptology that scientists now have with DNA, they might well have lost World War II.

I quoted just above from Jag Bhalla’s review of Walter Isaacson’s book which I have been reading since my own miraculous healing from the hospital with congestive heart failure back in March. I suffer from a lack of words that fully describe my twelve days in two hospitals. I escaped death by mere hours because I recognized my kidneys were not functioning and fluids had filled my lungs with pneumonia fluids and I was simultaneously experiencing hypoxia. I had my wife take me to the local hospital, while

not fully cognizant of my life-threatening condition The Lord Jesus Christ chose to extend my life on borrowed time for a short while longer. What He has for his faithful is available to everyone who will admit their pride has kept them from receiving the Greatest Gift to “homo sapiens”. Do it now!

In retrospect, my greatest fear was that of the mass formation psychosis paranoia in hospitals where patients were being labeled as Covid victims and that I would end up on a ventilator from which 90% do not survive. This article was in the works months before Dr. Zelenko made his presentation to Israel's senior rabbis. I was pondering and reflecting on much of the work being broadcast by Bill Gates' boastings in regards to his QuantumDot:Hydrogel ID2020 several years before the hoaxed Coronavirus scandemic that really was just a prelude to the Antichrist global system coming at us in ways we are vulnerable. A Great Reset is coming and Klaus Schwab at least got the name right but it will not be as he and Prince Charles are planning for humanity. Seek the Face of Jesus immediately, we could be gone in the twinkling of an eye!

Blessings,
