

# Significance of the Nuremberg Code

The Nuremberg Code has not been officially accepted as law by any nation or as official ethics guidelines by any association. In fact, the Code's reference to Hippocratic duty to the individual patient and the need to provide information was not initially favored by the American Medical Association. The Western world initially dismissed the Nuremberg Code as a "code for barbarians" and not for civilized physicians and investigators. Additionally, the final judgment did not specify whether the Nuremberg Code should be applied to cases such as political prisoners, convicted felons, and healthy volunteers. The lack of clarity, the brutality of the unethical medical experiments, and the uncompromising language of the Nuremberg Code created an image that the Code was designed for singularly egregious transgressions.

However, the Code is considered to be the most important document in the history of clinical research ethics, which had a massive influence on global human rights. The Nuremberg Code and the related Declaration of Helsinki are the basis for the Code of Federal Regulations Title 45 Part 46, which is the regulations, issued by the United States Department of Health and Human Services for the ethical treatment of human subjects, and are used in Institutional Review Boards (IRBs). In addition, the idea of informed consent has been universally accepted and now constitutes Article 7 of the United Nations' International Covenant on Civil and Political Rights. It also served as the basis for International Ethical Guidelines for Biomedical Research Involving Human Subjects proposed by the World Health Organization.

The Nuremberg Code was initially ignored, but gained much greater significance about 20 years after it was written. As a result, there were substantial rival claims for the creation of the Code. Some claimed that [Harold Sebring](#), one of the three U.S. judges who presided over the [Doctors' Trial](#), was the author. [Leo Alexander](#), MD and [Andrew Ivy](#), MD, the prosecution's chief medical expert witnesses, were also each identified as authors. In his letter to [Maurice H. Pappworth](#), an English physician and the author of the book [Human Guinea Pigs](#), Andrew Ivy claimed sole authorship of the Code. Leo Alexander, approximately 30 years after the trial, also claimed sole authorship. However, after careful reading of the transcript of the Doctors' Trial, background documents, and the final judgements, it is more accepted that the authorship was shared and the Code grew out of the trial itself.

Discussing permissible medical practices, the Nuremberg Code mandates consent and prohibits coercion, following Hippocratic Oath principles of doing no harm. This is vitally important given the madness today with over 110 studies being conducted in COVID-19 vaccine development projects are underway. Billions of dollars are the incentive for which may steam roller real issues of health and safety, not including efficacy studies. The Nuremberg Code is one of several foundational documents that influenced the principles of Good Clinical Practice (GCP). Good Clinical Practice is an attitude of excellence in research that provides a standard for study design, implementation,

conduct and analysis. More than a single document, it is a compilation of many thoughts, ideas and lessons learned throughout the history of clinical research worldwide.

Vaccines affect human health — notably when development is rushed like now. Instead of providing protection as claimed, vaccines time and again cause diseases they're supposed to prevent. This Corona virus is being driven by huge profit potential. There is no better example than is than with the epidemic of Autism. Today Autism affects 1 in 22 male children. In 1989 Autism was virtually non-existent. The need for Special Education in public schools has mushroomed since the early 1990's.

Either in pre-clinical or human trials, Big Pharma firms and their foreign counterparts is racing to develop and market what no one should touch when one or more vaccines become available later this year or in early 2021.

All vaccines with no exceptions contain a toxic concoction of harmful materials. Vaccines have cumulative effects to the human body's natural immunity.

Under normal conditions, vaccine development and testing takes years, 5 to 8 years in fact, as a standard.

The origin of the Nuremberg Code began in pre-World War II German politics, particularly during the 1930s and 1940s. The pre-war German Medical Association was considered to be a progressive yet democratic association with great concerns for public health, one example being the legislation of compulsory health insurance for German workers. However, starting in the mid-1920s, German physicians, usually proponents of racial hygiene, were accused by the public and the medical society of unethical medical practices. The use of racial hygiene was supported by the German government in order to create an Aryan "master race", and to exterminate those who did not fit into their criteria.

Racial hygiene extremists merged with National Socialism to promote the use of biology to accomplish their goals of racial purity, a core concept in the Nazi ideology. Physicians were attracted to the scientific ideology and aided in the establishment of National Socialist Physicians' League in 1929 to "purify the German medical community of 'Jewish Bolshevism'." Criticism was becoming prevalent; Alfons Stauder, member of the Reich Health Office, claimed that the "dubious experiments have no therapeutic purpose", and Fredrich von Muller, physician and the president of the Deutsche Akademie, joined the criticism.

In response to the criticism of unethical human experimentation, the Reich government issued "Guidelines for New Therapy and Human Experimentation" in Weimar, Germany. The guidelines were based on beneficence and non-maleficence, but also stressed legal doctrine of informed consent. The guidelines clearly distinguished the difference between therapeutic and non-therapeutic research. For therapeutic purposes, the guidelines allowed administration without consent only in dire situations, but for non-therapeutic purposes any administration without consent was strictly forbidden. However, the guidelines from Weimar were negated by Adolf Hitler. By 1942, the Nazi party included more than 38,000 German physicians, who helped carry out medical programs such as the Sterilization Law.

After World War II, a series of trials were held to hold members of the Nazi party responsible for a multitude of war crimes. The trials were approved by President Harry Truman on May 2, 1945 and were led by the United States, Great Britain, and the Soviet Union. They began on November 20, 1945 in Nuremberg, Germany, in what became known as the Nuremberg trials. In one of the trials, which became known as the "Doctors' Trial", German physicians responsible for conducting unethical medical procedures on humans during the war were tried. They focused on physicians who conducted inhumane and unethical human experiments in concentration camps, in addition to those who were involved in over 3,500,000 sterilizations of German citizens.

Several of the accused argued that their experiments differed little from those used before the war, and that there was no law that differentiated between legal and illegal experiments. This worried Drs. Andrew Ivy and Leo Alexander, who worked with the prosecution during the trial. In April 1947, Dr. Alexander submitted a memorandum to the United States Counsel for War Crimes outlining six points for legitimate medical research.

The Nuremberg code, which stated explicit voluntary consent from patients are required for human experimentation was drafted on August 9, 1947. On August 20, 1947, the judges delivered their verdict against Karl Brandt and 22 others. The verdict reiterated the memorandum's points and, in response to expert medical advisers for the prosecution, revised the original six points to ten. The ten points became known as the "Nuremberg Code", which includes such principles as informed consent and absence of coercion; properly formulated scientific experimentation; and beneficence towards experiment participants. It is thought to have been mainly based on the Hippocratic Oath, which was interpreted as endorsing the experimental approach to medicine while protecting the patient.

What we are really dealing with is the rush of one or more to market is all about wanting to cash in big on a profit bonanza, potentially worth billions of dollars — regardless of the unacceptable risk to human health. You see this is not about public health; it is all about greed and profits.

The World Health Organization (WHO) pushes Big Pharma interests. It pushes a very Big Lie claim that COVID-19 vaccines will protect public health and safety. It promotes rushing COVID-19 vaccine development to make them available as soon as possible those risks making a bad situation worse. Its goal is mass-vaxxing around two billion people before end of 2021.

Earlier it defied reality, falsely claiming that “there is currently no evidence that wearing a mask by healthy persons in the wider community setting, including universal community masking, can prevent them from infection with respiratory viruses, including COVID-19.”

We know from the true data being compiled and you can clearly see that on average, 42% of all COVID-19 deaths in the U.S. have occurred in nursing homes, assisted living and other long-term care facilities. This is extraordinary considering this group accounts for just 0.62% of the population.

Some states have nursing home mortality rates that are significantly higher than the national average. In Minnesota, over 81% of all COVID-19 deaths have occurred in nursing homes and assisted living facilities. In Massachusetts and Connecticut, COVID deaths per 10,000 nursing home and assisted living facility residents were 703 and 827 respectively. In New Jersey, nearly 10% of all long-term care facility residents have died of COVID-19.

March 25, 2020, instructions from the New York Department of Health stated nursing homes were not allowed to deny admission or readmission of a COVID-19-positive patient. Nursing homes were even “prohibited from requiring a hospitalized resident who is determined medically stable to be tested for COVID-19 prior to admission or readmission”

New York’s directives seem particularly questionable, considering the Navy hospital ship USNS Comfort was docked in New York City harbor, yet treated only 182 patients, and the temporary hospital facility at the Javits Convention Center, which had a capacity of 2,500, closed after treating just over 1,000 patients.

### Share of COVID-19 Deaths Occurring in Nursing & Assisted Living Facilities (Based on Data Reported by May 12, 2020)

Dr. Anthony Fauci and other US public health officials promote Big Pharma interests — why trusting their advice is hazardous to human health, especially about hazardous to health vaccines, notably for COVID-19 when available.

The 2016 documentary film “Vaxxed: From Cover-Up to Catastrophe” discusses the link between the MMR (measles, mumps, rubella) vaccine and Autism. The film exposes CDC corruption and fraud in deference to private industry profit-making — why it should be called the sickness, not the healthcare, industry.

Health and nutrition expert Gary Null and former senior biotechnology and genomic industries research analyst Richard Gale warned that vaccines are “unsafe at any dose.”

When development is rushed like what's going on to make COVID-19 vaccines available as soon as possible, they'll be especially harmful to human health. No one should allow themselves and family member to be part of a diabolical human experiment that's all about maximizing Big Pharma profits.

Safety and efficacy claims by the industry and CDC aren't supported by medical science. An alarming correlation exists between mass childhood vaxxing and illnesses they experience, as well as autoimmune diseases in adults. The CDC claim that vaccines are "unavoidably safe" is unsupported by scientific evidence. No vaccine developed and marketed was safe as claimed. We now know that no vaccines given to children have ever been tested for safety and efficacy!

COVID-19 vaccines when available are virtually certain to be hugely toxic and potentially extremely harmful to human health. It's essential to just say NO when all-out industry and government efforts push people to get vaxxed.

The ten points of the code were given in the section of the verdict entitled "Permissible Medical Experiments".

1. The voluntary consent of the human subject is absolutely essential.
2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.
4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

If all of what I have been saying is not alarming, consider a report by Robert F. Kennedy Jr. released on his web site: New documents obtained by [Axios](#) and [Public Citizen](#) suggest that the National Institute of Health (NIH) [owns half the key patent](#) for Moderna's controversial COVID vaccine and could collect half the royalties. In addition, four NIH scientists have filed their own provisional patent application as co-inventors. Little known NIH regulations let agency scientists collect up to [\\$150,000.00 annually in royalties](#) from vaccines upon which they worked. These rules are recipes for regulatory corruption. Dr. Fauci has reaped millions of dollars since he and Dr. Robert Gallo created their cocktail of drugs required by HIV/AIDS victims.

NIH's stake in the job may explain why Anthony Fauci moved Moderna's vaccine to the front of the line and to let Moderna [skip animal trials](#) despite the [experimental technology](#) and the [inherent dangers of Coronavirus vaccines](#). Every prior coronavirus vaccine has proven problematic and can be lethal to animals due to COVID's unique penchant for "[pathogenic priming](#)." Death occurs only after a vaccinated animal encounters [the wild virus](#).

Public health advocates and scientists criticized Dr. Fauci's decision to skip animal trials as [reckless](#). It may also explain why Dr. Anthony Fauci arranged a [\\$483 million grant to Moderna from a sister NIH agency, BARDA](#), despite the fact that Moderna [has never brought a product to market](#) or gotten approval.

Dr. Fauci publicly announced he was 'encouraged' by Moderna's catastrophic Phase 1 clinical trials despite the fact that groups of super healthy volunteers had Grade 3 'severe or medically significant' reactions following vaccination.

Dr. Fauci's infusion made Moderna CEO [Steve Bancel a billionaire](#) and further enriched Fauci's mentor and co-investor [Bill Gates](#). It may also explain why [Fauci publicly announced he was "encouraged"](#) by Moderna's catastrophic Phase 1 clinical trials despite the fact that [20% of the high dose and 6% of the low dose groups](#) of super healthy volunteers had Grade 3 "[severe or medically significant](#)" reactions following vaccination. Those results would have spelled DOA for any other medical product. After getting the abysmal news, Bancel and four other Moderna executives immediately dumped [more than \\$89 million in stock](#) and Dr. Fauci was forced to make his [optimistic public assessment](#) to save Moderna's plummeting shares from death spiral.

Fauci knows from experience that no matter how dangerous a vaccine, the easy part is convincing people to take it. Pharma, after all, controls the media.

Dr. Fauci painted lipstick on that lame donkey and now he's trying to convince everyone it's a thoroughbred. Moderna and NIH began manufacturing the first of [1 billion doses](#) of the deadly vaccine this month. Fauci knows from experience that no matter how dangerous a vaccine, the easy part is convincing people to take it. Big Pharma, after all, controls the media. They do that through being the major advertising in the media, even sponsoring news media celebrities such as CNN Anderson Cooper.

The report that Robert F. Kennedy released a few days ago smacks of conflict of interest by Dr. Fauci, Dr. Birx, Gates Foundation, CDC, NIH, WHO, and all scientists who receive profits from vaccines bought and paid for by taxpayer funds.

Hosea 4:6 is a warning to all: ***“My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children.”*** We have no assurance that President Trump will act on behalf of the American people, he has waffled before on this issue of vaccines. He has admitted he does not take the flu shot, and then earlier this year, he told people to get their flu shots. In the matter of COVID-19, he said the vaccines would be a matter of choice, but has aligned himself with Bill & Melinda Gates and GAVI. In watching President Trump over the past three and a half years, the one thing that has been predictable, and that is his waffling with almost every issue!

Look closely at the chart on the next page which shows the influence to buy power by Bill Gates. I have written in previous articles to the extent this evil eugenics advocate has gone unchecked from killing and maiming children in African countries where he has bribed politicians into giving him a free hand to vaccinate innocent children in the name of health. He has managed to benefit personally and financially, by investing in companies with grant money that will profit him as his ventures materialize into adoption by world politicians. The grand agenda in all of this bogus vaccine in the name of health and safety is nothing more than a front to achieve the first goal of the Georgia Guidestones down in Elberton, GA. The first and most controversial rule etched into the granite stones is to **“Maintain humanity under 500,000,000 in perpetual balance with nature.”**

If President Trump ordered ahead in the U.S. or elsewhere with drug giants, mass-vaxxing for COVID-19 will be a flagrant Nuremberg Code breach. The likely irreversible harm to vaxxed individuals will far outweigh claimed benefits that are unsupported by scientific evidence. There is no law but the public has been intimidated by Big Pharma, and the agencies that profit from the poisons injected into children, and now they are coming for adults.

It would be laughable if it were not so pathetic, that the FDA said they hope for a 50% efficacy for the Moderna vaccine. Give me a break folks, 50% means a failure rate of the same rate. How stupid do they think we are?

One of the primary goals of the Bill & Melinda Gates Foundation is to impose highly toxic childhood vaccination schedules on schoolchildren throughout the Third World.

Another goal is to vaccinate all adults and children with annual flu vaccines that not only do not work; they actually cause major outbreaks of the flu strains being inoculated for.

However, the main goal of the Bill & Melinda Gates Foundation (B&MGF) in 2020 is to see a mandatory COVID-19 vaccine administered to every living person. Not only that, such a draconian global vaccine regimen will be enforced with immunity certificates if Gates has anything to say about it.

There's something very wrong when the predictive programming is accurate down to the exact year of the predicted event. That has happened more than once in the case of Bill Gates.

In light of the various enterprises that Bill Gates is directly and indirectly connected to, it's clear he and his silent business partners have set up a horizontal and vertical monopoly that exploits the "Pandemic Problem~Panic Reaction~Vaccine Solution" like a charm. However, sometimes that foreign business ventures crash and burn like this one did in India. (Why is it that poor Indian and African children are often experimented on and with such great consequences?)

- One World Government
- One World cashless Currency
- One World Central Bank
- One World Military
- The end of national sovereignty
- The end of ALL privately owned property
- The end of the family unit
- Depopulation, control of population growth and population density
- Mandatory multiple vaccines
- Universal basic income (austerity)
- Microchipped society for purchasing, travel, tracking and controlling
- Implementation of a world Social Credit System (like China has)
- Trillions of appliances hooked into the 5G monitoring system (Internet of Things)
- Government raised children
- Government owned and controlled schools, Colleges, Universities
- The end of private transportation, owning cars, etc.
- All businesses owned by government/corporations
- The restriction of nonessential air travel
- Human beings concentrated into human settlement zones, cities
- The end of irrigation
- The end of private farms and grazing livestock
- The end of single family homes
- Restricted land use that serves human needs
- The ban of natural non synthetic drugs and naturopathic medicine

Clearly, Big Pharma and the B&MGF have been joined at the hips from day one, just as there is a swiftly revolving door between the Bill & Melinda Gates Foundation and the CDC, NIH, FDA and HHS.

It's crucial to correctly comprehend the true depth and breadth of this genocidal enterprise, ongoing depopulation exercise and disease-causing operation.

As the front man, Bill Gates was selected as the face of the Big Pharma-Medical-Government Complex where it concerns COVID-19. According to this duplicitous

scheme, the wrath of truth seekers everywhere is being directed at him alone just like it was often during his tenure at Microsoft.

Yes, Dr. Anthony Fauci, Dr. Robert Redfield, Dr. Deborah Birx are also on the front line of this immense conspiracy to permanently lock down Earth and imprison humanity but they occupy their positions temporarily and will all be fired or resign sooner than later only to be replaced by other stooges from the Big Pharma-Medical-Government Complex. See: Dr. Shiva Ayyadurai, MIT PhD Crushes Dr. Fauci, Exposes Birx, Clintons, Bill Gates & W.H.O. (Video)

Each of those three co-conspirators of Bill Gates have been selected because they have vested interests in both the creation of COVID-19 as well as in the pre-planned vaccine solution. Fauci, Redfield and Birx were each chosen to play their prominent roles because of their personal contributions to the bioengineering of COVID-19. How can they possibly leave the BPMGC reservation when they have so much skin in the game? Dr. Birx is window dressing to the Dr. Fauci and Dr. Redfield [both Jesuit coadjutors] part of a globalist agenda being orchestrated by the Jesuit-controlled Vatican. The Vatican emissaries move quietly around the world delivering their instructions under the guise of being priests. This misconception has had 55-years of well-planned ecumenism wall-papering designed to deceive and lull the world that Rome changed; it has never changed other than to skill their soldiers into the use of stealth! Rome sits atop the world of child-trafficking and pedophile sex crimes. In the U.S. alone, the Roman Catholic Institution faces \$5-billion in law suits for sex crimes against children and parishioners. Many Catholic Diocese have filed bankruptcy in order to escape paying the billions of fines for their perverted abuse of children.

Moreover, a close auditing of their investment portfolios will reveal either a HUGE stake in companies associated with the coronavirus crisis, substantial payments made to them individually or corporately for vague consulting services, and/or various forms of consideration secretly given to family members or business associates.

In the absence of any of these typical acts of bribery and extortion, there is also the great likelihood of blackmail and coercion via Pedogate transgressions which always take place at this high level of government and corporate leadership. But getting back to Mr. William Gates:

This past April 9th, 2020, Robert F. Kennedy Jr. summed up well Bill Gates game plan:

*“Vaccines, for Bill Gates, are a strategic philanthropy that feed his many vaccine-related businesses (including Microsoft’s ambition to control a global vaccine ID enterprise) and give him dictatorial control over global health policy—the spear tip of corporate neo-imperialism.”*

*“Gates’ obsession with vaccines seems fueled by a messianic conviction that he is ordained to save the world with technology and a god-like willingness to experiment with the lives of lesser humans.”*

*“Promising to eradicate Polio with \$1.2 billion, Gates took control of India’s National Advisory Board (NAB) and mandated 50 polio vaccines (up from 5) to every child before age 5. Indian doctors blame the Gates campaign for a devastating vaccine-strain polio epidemic that paralyzed 496,000 children between 2000 and 2017. In 2017, the Indian Government dialed back Gates’ vaccine regimen and evicted Gates and his cronies from the NAB. Polio paralysis rates dropped precipitously. In 2017, the World Health Organization reluctantly admitted that the global polio explosion is predominantly vaccine strain, meaning it is coming from Gates’ Vaccine Program. The most frightening epidemics in Congo, the Philippines, and Afghanistan are all linked to Gates’ vaccines. By 2018, ¾ of global polio cases were from Gates’ vaccines.”*

*“In 2014, the Gates Foundation funded tests of experimental HPV vaccines, developed by GSK and Merck, on 23,000 young girls in remote Indian provinces. Approximately 1,200 suffered severe side effects, including autoimmune and fertility disorders. Seven died. Indian government investigations charged that Gates funded researchers committed pervasive ethical violations: pressuring vulnerable village girls into the trial, bullying parents, forging consent forms, and refusing medical care to the injured girls. The case is now in the country’s Supreme Court.”*

*“In 2010, the Gates Foundation funded a trial of a GSK’s experimental malaria vaccine, killing 151 African infants and causing serious adverse effects including paralysis, seizure, and febrile convulsions to 1,048 of the 5,049 children.”*

*“During Gates 2002 MenAfriVac Campaign in Sub-Saharan Africa, Gates operatives forcibly vaccinated thousands of African children against meningitis. Between 50-500 children developed paralysis. South African newspapers complained, “We are guinea pigs for drug makers”*

*“Nelson Mandela’s former Senior Economist, Professor Patrick Bond, describes Gates’ philanthropic practices as “ruthless” and “immoral”.”*

*“In 2010, Gates committed \$10 billion to the WHO promising to reduce population, in part, through new vaccines. A month later Gates told a Ted Talk that new vaccines “could reduce population”. In 2014, Kenya’s Catholic Doctors Association accused the WHO of chemically sterilizing millions of unwilling Kenyan women with a phony “tetanus” vaccine campaign.”*

*“Independent labs found the sterility formula in every vaccine tested.”*

*“After denying the charges, WHO finally admitted it had been developing the sterility vaccines for over a decade.”*

*“Similar accusations came from Tanzania, Nicaragua, Mexico and the Philippines.”*

*“A 2017 study (Morgensen et al. 2017) showed that WHO’s popular DTP is killing more African than the disease it pretends to prevent. Vaccinated girls suffered 10x the death rate of unvaccinated children.”*

*“Gates and the WHO refused to recall the lethal vaccine which WHO forces upon millions of African children annually.”*

*“Global public health advocates around the world accuse Gates of – hijacking WHO’s agenda away from the projects that are proven to curb infectious diseases; clean water, hygiene, nutrition and economic development.”*

*“They say he has diverted agency resources to serve his personal fetish – that good health only comes in a syringe.”*

*“In addition to using his philanthropy to control WHO, UNICEF, GAVI and PATH, Gates funds private pharmaceutical companies that manufacture vaccines, and a massive network of pharmaceutical industry front groups that broadcast deceptive propaganda, develop fraudulent studies, conduct surveillance and psychological operations against vaccine hesitancy and use Gates’ power and money to silence dissent and coerce compliance. In this recent nonstop Pharmedica appearances, Gates appears gleeful that the Covid-19 crisis will give him the opportunity to force his third-world vaccine programs on American children.”*

**WHAT HAPPENED IN 1986?**

- In 1986, Reagan passed a law that gave legal immunity to vaccine manufacturers.
- They could no longer be sued for injuries or death caused by their products. Safe vaccines wouldn't need such protection.
- Once that law passed, we suddenly 'needed' 48 additional doses of vaccines. (Do you remember any outbreaks in 1989?)
- Also, since that law was passed, U.S. Federal Government has paid out more than \$4 Billion in vaccine injury compensation, and that's only a fraction of actual injuries.
- The U.S. gives more vaccines than most developed countries, yet we have the sickest kids

**GUESS WHAT?**

The CDC has only ever tested MMR and Thimerosal for a link to autism. The remaining 13 vaccines and 37 common ingredients remain untested for links to autism.

**THERE ARE RISKS | YOU HAVE CHOICES**

The above 2019 Childhood Vaccine Schedule is prima facie proof of quasi-science gone awry in the U.S. It portends of years of special needs issues that financially break and destroy families. I can speak to this from personal experience. In late 1995, I was hired as a substitute teacher for both a county and a small city school districts where I was

also the pastor of a small United Methodist Church in the county. I was planning to move back to Pennsylvania to my new full-time appointment the following July when the Annual Conference appoints pastors to their new churches. I only expected to substitute two days a week. Was I surprised? Every morning the phone would ring at 6:00am, and I do mean “every” morning, Monday through Friday. 60% of my substitute teaching assignments were for Special Education, often called Exceptional Education. Since 1996, the number of school children in the two different systems I worked in has quadrupled. The State of KY shows 13.6% of students with disabilities, nationally the figure is 12.9%.

The rate of Autism in 2000 was 1 in 150 children, (these are CDC statistics.

2002	1	150
2004	1	125
2006	1	110
2008	1	88
2010	1	68
2012	1	69
2014	1	59
2016	1	54

The CDC has not reported data newer than 2016; however, non-CDC data sources are reporting 2020 Autism rates of 1 in 24 boys and 1 in 30 girls. Ask yourself this question, does this indicate that good health only comes in a syringe?

The facts do not support the validity that vaccines are safe or efficacious. To the contrary, historical evidence shows that vaccines have been routinely used to harm and even kill millions of people. This came out several years ago that approximately 65-million American school children received SV-40 tainted polio vaccines which led to an epidemic of cancer in the past twenty years.

Fight back! Whenever you are offered violence, fight back! The aggressor does not fear the law, so he must be taught to fear you. Whatever the risk, and at whatever the cost, fight back!

It cannot be overstated that Bill Gates' entire life was deliberately shaped for him to make the seamless transition from overseeing an unparalleled computer virus deceit to a cataclysmic corona virus deception. The fateful progression of his notorious career path profoundly hinged on that baneful reality. It also provides grist for another great meme.

Before closing this article, you have to ask yourself as well, why Bill Gates would have flown on the Epstein "Lolita" Express.

Bill Gates and his spokespeople refuse to explain why he flew from Teterboro Airport in New Jersey to Palm Beach on March 1, 2013 with Jeffrey Epstein.

- Epstein told people in the past that he was a financial adviser to Gates, who was still the chairman of Microsoft at the time
- A rep for Gates' humanitarian foundation denied that Epstein ever worked for billionaire founder of Microsoft, but would not comment on the 2013 flight
- Gates' spokesperson also stated that there were no financial or charitable ties between the two men
- Epstein had just been released from prison four years prior after pleading guilty to two counts of soliciting a minor under the age of 18 for sex.

Earlier this year I shared a report that has been scrubbed in the press concerning his [Bill Gates] collection of child porn collection as well as one of Gates' employee being arrested at Microsoft for child porn.
