

The Science Strongly Suggests 5G Wireless is the Cause of the Covid-19 Virus

Over this past year, I have written numerous articles on 5G Wireless Communications and its relationship to the alleged Corona virus, later renamed Cov-19. I've noted that I have a health issue that began one week after having Verizon Wi-Fi installed in the summer of 2010. Blistering on the shins of my legs began to occur and leak fluid. I went to the UPMC McKeesport Hospital, where they admitted me and conducted a series of tests and after five days, the doctors were unable to determine what my problem was. I was discharged from the hospital. The issue continued but seemed to diminish somewhat. In the fall of 2012 we relocated back to central Kentucky to help with the raising of our five grandchildren.

Then in late February or early March, 2013, the winter snow had stripped the leaves from the trees surrounding us. We lived on a dead-end street at the base of a high hill, secluded with trees all around the three house on the short street. I experienced another attack of what I was to learn later was Lymphedema. The blistering attack returned and I did a search to see where there might be cell towers in relationship to our residence. As it turned out, a cell tower was located on a hill across the valley from us approximately a mile away. Later in the fall of 2014, we moved again about ten miles north. We rented and moved in to the parsonage of a church in early October, 2014. We lived at this location some twenty-five years prior when I was the pastor for four years. Within two weeks my legs were fire-engine red and greatly inflamed. The leg issue was back, only I found a cell tower was 2,500-ft. from my study window. At this point my Lymphedema had led to full-blown Lymphorrea which leaks lymph fluid.

Being hypersensitive to electricity, I began what has been a seven-year study on wireless energy and its effect on the human body. Being retired and disabled has provided an ideal period of time to research that few would have been able to do. I have invested between 12,000 and 20,000 hours into this work. The eye-opening book for me was Dr. Arthur Firstenberg's book, *'The Invisible Rainbow: The History of Electricity and Life'*. It was reading this book that prefaced my journey in discovering the dangers of wireless communications and discovering the implications of 5G wireless, which originally was a weapons system.

Over the past year of 2020, I have posted one of the most extensive coverage of 5G technology and related aspects that tie wireless EMF communications and its role in activating the **Brucellosis Mycoplasma** that is dormant in almost every adult in this world. Unless you have read my recent articles on **Brucellosis Mycoplasma** the chances of your being familiar with it is about zero. Read what Dr. Martin Pall has to

say about 5G and its relationship to the Corona virus. The foremost scientist in this battle is the gentlemen in the picture below. Dr. Pall is the telecommunications industry nemesis! He tagged 5G as a **“Extinction Level Event!”**

Martin Pall, PhD

Two documents reprinted on [1], each argue that there are reasons to think that 5G radiation is greatly stimulating the coronavirus (COVID-19) pandemic and therefore, an important public health measure would be to shut down the 5G antennae and particularly the small cell 5G antennae in close proximity to our homes, schools, businesses, house of worship and hospitals.

The first of these documents [1] published by Miller et al., concerns the impact of 5G radiation on the immune system of the body and also suggests that 5G radiation may also increase the replication of the virus. In both of these ways, 5G radiation may be expected to make the COVID-19 pandemic much worse.

The second of these documents [1] is my own and is derived from a larger document on 5G radiation effects [2]. It starts with the history of 5G in Wuhan, China, the epicenter of the COVID-19 epidemic. Wuhan is China's first 5G “smart city” and is the location of China's first 5G highway where 5G radiation is being used to test self-driving vehicles. Approximately 10,000 5G antennae were installed and activated in Wuhan in 2019, with approximately 75 to 80% of these installed and activated in the last 2-½ months of the year. The epidemic was first detected near the beginning of that 2-½

month period and became vastly more severe, with extremely large increases in numbers of cases and in deaths by the end of 2019. That may, of course be coincidental. South Korea, which became the site of the worst epidemic outside of China, has large numbers of 5G antennae all over the country. The Milan area of Italy, the worst epicenter in Europe also is a 5G center. And Seattle area, the worst area in the U.S. is also a major 5G area. Reports predict that New York City will shortly become the largest epicenter in the US is another 5G site. These non-Chinese epidemic areas are not discussed in my paper, but these findings are accurate. Again, the locations of these epicenters in 5G areas may be coincidental.

Electromagnetic fields, including the highly pulsed and therefore highly dangerous 5G millimeter wave radiation, act via activation of voltage-gated calcium channels (VGCCs) with VGCC activation producing five different effects, each of which have roles in stimulating the replication and spread of coronaviruses:

1. Excessive intracellular calcium
2. Oxidative stress
3. NF-kappaB elevation
4. Inflammation
5. Apoptosis (programmed cell death)

The predominant cause of death in the COVID-19 epidemic, is pneumonia and each of these five effects also have roles in pneumonia, such that each of them is predicted to greatly increase the percent of people dying death in this epidemic. It seems highly plausible that 5G radiation is greatly increasing the spread of the epidemic and also the death rate in individuals that are infected.

You may wish to consider all of this in conjunction with the broader findings with regard to the dangers of 5G and other effects apparently produced by 5G exposures [2].

How then did we get to this state? Many independent scientists, including myself, have argued that there should be no 5G rollout until there is extensive biological safety testing of genuine 5G radiation with all of its dangerous modulating pulses. However the industry has refused to get independent 5G testing and the FCC and other regulatory agencies have refused to require such testing. Furthermore, the EMF “safety guidelines” which are supposed to protect us from health impacts of EMF radiation have been shown, based on eight different types of highly repeated studies, to fail massively to predict biological effects. They therefore fail to predict safety [3]. It follows from this that all assurances of safety based on these “safety guidelines” are fraudulent. Consequently, there is no evidence whatsoever of 5G safety and much evidence of lack of safety.

It is my opinion, therefore, that 5G radiation is greatly stimulating the coronavirus (COVID-19) pandemic and also the major cause of death, pneumonia and therefore, an important public health measure would be to shut down the 5G antennae, particularly the small cell 5G antennae in close proximity to our homes, schools, businesses,

houses of worship and hospitals. I will list some of my professional qualifications following the citations.

The VGCC activation mechanism has been amazingly well accepted in the scientific literature.

My first (2013) paper on it was placed on the Global Medical Discovery web site as one of the top medical papers of 2013. That paper has been cited 255 times according to the Google Scholar database. Most new scientific paradigms are only slowly accepted and this is much, much faster than usual.

I have given 59 invited professional talks on this topic in 15 countries, including 4 prestigious keynote addresses. I had been scheduled to give 1 more prestigious keynote address in April (has been postponed because of COVID-19).

Two of my papers, my neuropsychiatric paper and my Wi-Fi paper, are each described by the publishing journal as being the most often downloaded paper in the history of each journal – stunning scientific interest in both papers.

My recent talks, one sponsored by the Dept. of Engineering and Applied Science at Queens University and the other at the World Congress on Physics in Berlin (where I was given a certificate of recognition) show together that both engineers and physicists are starting to realize the importance of this mechanism.

Role of 5G in the Coronavirus Epidemic in Wuhan China

– by Martin Pall, PhD, Professor Emeritus, Washington State University

Wuhan, the capital of Hubei province in China, was chosen to be China's first 5G "smart city" and the location of China's first smart 5G highway. Wuhan is also the center of the horrendous coronavirus epidemic. The possible linkage between these two events was first discussed in an Oct. 31, 2019 article entitled: "Wuhan was the province where 5G was rolled out, now the center of deadly virus" <https://5g-emf.com/wuhan-was-the-province-where-5g-was-rolled-out-now-the-center-of-deadly-virus/>

The question that is being raised here is not whether 5G is responsible for the virus, but rather whether 5G radiation, acting via VGCC activation may be exacerbating the viral replication or the spread or lethality of the disease. Let's backtrack and look at the

recent history of 5G in Wuhan in order to get some perspective on those questions. An Asia Times article, dated Feb. 12, 2019 (<https://www.asiatimes.com/2019/02/article/china-to-launch-first-5g-smart-highway>) stated that there were 31 different 5G base stations (that is antennae) in Wuhan at the end of 2018. There were plans developed later such that approximately 10,000 5G antennae would be in place at the end of 2019, with most of those being on 5G LED smart street lamps. The first such smart street lamp was put in place on May 14, 2019 (www.china.org.cn/china/2019-05/14/content_74783676.htm), but large numbers only started being put in place in October, 2019, such that there was a furious pace of such placement in the last 2 ½ months of 2019. These findings show that the rapid pace of the coronavirus epidemic developed at least roughly as the number of 5G antennae became extraordinarily high. So we have this finding that China's 1st 5G smart city and smart highway is the epicenter of this epidemic and this finding that the epidemic only became rapidly more severe as the numbers of 5G antennae skyrocketed.

Are these findings coincidental or does 5G have some causal role in exacerbating the coronavirus epidemic? In order to answer that question, we need to determine whether the downstream effects of VGCC activation exacerbate the viral replication, the effects of viral infection, especially those that have roles in the spread of the virus and also the mechanism by which this coronavirus causes death.

Accordingly, the replication of the viral RNA is stimulated by oxidative stress:

J Mol Biol. 2008 Nov 28;383(5):1081-96. Variable oligomerization modes in coronavirus non-structural protein 9. Ponnusamy R, Moll R, Weimar T, Mesters JR, Hilgenfeld R.

Other aspects of viral replication including those involved in the spread of the virus are stimulated by increased intracellular calcium [Ca²⁺]_i, oxidative stress, NF-kappaB elevation, inflammation and apoptosis, each of which are increased following EMF exposure. The first citation below shows an important role of VGCC activation in stimulating coronavirus infection.

The predominant cause of death from this coronavirus is pneumonia. Pneumonia is greatly exacerbated by each of those five downstream effects of VGCC activation, excessive intracellular calcium, oxidative stress, NF-kappaB elevation, inflammation and apoptosis. The first of the citations listed below shows that calcium channel blockers, the same type of drugs that block EMF effects, are useful in the treatment of pneumonia. This predicts that EMFs, acting via VGCC activation, will produce increasingly severe pneumonia and therefore 5G radiation as well as other types of EMFs may well increase pneumonia deaths.

These all argue that 5G radiation is likely to greatly exacerbate the spread of the coronavirus and to greatly increase the lethality of the infections produced by it. The good news is that it is likely that those of us that live in areas with no 5G radiation and who avoid other EMFs wherever possible will probably escape much of the impacts of this prospective global pandemic. It is highly probable that one of the best things Wuhan can do to control the epidemic in the city is to turn off the 4G/5G system.

Geoengineering Produces Toxic Skies Everywhere *Chemtrails* Are Sprayed By the [The Health Coach](#)

For those who have never heard of **CHEMTRAILS**, please click on the link below for a quick primer.

[**CHEMTRAILS: A Planetary Catastrophe Created by Geoengineering**](#)

For those who are aware that they have been exposed to this planetary scourge, now is the time to understand the profound correlations between your day-to-day health status and the incidence/intensity of regular *chemtrailing* of the skies overhead. Here is an excellent internet-based resource which may answer many questions and concerns about *chemtrails*, their fallout, as well as the broader geo-engineering agenda.

[**Chemtrails Explained; HAARP Exposed; Geoengineering Expounded**](#)

The numerous anecdotal and clinical observations which follow are the product of various healthcare professionals and practitioners, homeowners and homemakers, businessmen and businesswomen, farmers and meteorologists, etc. Because *chemtrails* affect every resident on the planet, many have catalogued or journaled the most common adverse health effects, which they inevitably produce. As a result, the world now has a growing body of anecdotal evidence which clearly illustrates their profound and deleterious effects on human life.

**When the skies are toxic, the air we breathe is toxic.
What is more important than clean air in maintaining wellness?**

What follows is a fairly exhaustive list of symptoms associated with *chemtrail* spraying. Each symptom has been identified by various individuals who have clocked their occurrence with the onset of chemtrails being laid down over their homes or businesses. This list has been organized in a descending order, with the most commonly experienced symptoms at the top.

- **Headache**
- **Brain fog**
- **Persistent cough, scratchy throat**
- **Congestion in chest and/or sinuses**
- **Fatigue**
- **Low energy**
- **Compromised immunity**
- **Disorientation**
- **Difficulty paying attention and concentrating**
- **Sinusitis**
- **Skin discomfort/irritation**
- **Joint pain**
- **Muscle pain**
- **Asthmatic (breathing difficulties)**
- **Dizziness**
- **Insomnia**
- **Disturbed sleep**
- **Memory loss**
- **Eye problems (blurred or fuzzy vision)**
- **Nausea**
- **Liver problems**

- Gallbladder dysfunction
- Tinnitus (distant ringing in ears or high pitched sound after spraying)
- Neck pain
- Sore throat
- Allergy symptoms
- Hay fever out of season
- Flu-like symptoms
- Susceptibility to colds
- General weakness
- Anxiety
- Lightheaded or faint
- Depression
- Coughing up phlegm
- Sneezing
- Shortness of breath
- Vertigo
- Anger/Rage/Frustration issues
- **MORGELLONS disease**

Each of these symptoms is a normal occurrence in areas around the world where *chemtrails* have become a fact of life. Therefore, the first question one should ask themselves is the extent to which the “*Chemtrail Coverup*” is taking place right above them. The following essay may assist in that determination:

[CHEMTRAILS: The Biggest Coverup of All Time](#)

Chemtrails give new meaning to government cover-ups, don't they?

Chemtrail Syndrome is finally recognized in the alternative health realm

The previous list of common symptoms has been reported for years by many within the anti-**Chemtrail** community who have recognized patterns between *chemtrail* spraying and symptom manifestation. One point has been made with great emphasis in this regard:

The more *chemtrails* that appear overhead, the worse these symptoms are. Likewise, the longer the *chemtrails* persist, the longer these same symptoms are experienced.

When any number of *chemtrail* symptoms are experienced by an individual, it is now appropriate to explore the possibility that they are experiencing *Chemtrail syndrome*. There is not at this time a specific threshold or certain standard by which the syndrome is said to occur. The various *chemtrail* formulations are too numerous and often unknown to create a definitive set of chemical contaminations which must be present to constitute the syndrome. Therefore, until we have the full cooperation of the US Federal Government, we are forced into a speculative posture, based on a great volume of anecdotal evidence.

The very last medical condition on the preceding list — *Morgellons disease* — is not a symptom; rather, it is a full blown disease process that usually takes years to manifest in its most serious form. In fact, there are websites dedicated exclusively to the research and treatment of *Morgellons disease*. Some of them very specifically demonstrate how *chemtrails* appear to provide some of the primary chemical co-factors in the causation and subsequent development of this extremely unusual and inscrutable multi-infection syndrome.

Here is another list known as “The Big 4” which one website has featured for those who are at high risk for the following medical conditions:
(Per GlobalSkyWatch.com)

Symptoms Associated with Chemtrails

They are called "The Big 4". They are the 4 most common serious illnesses associated with chemtrails:

- **Aneurysms** - Components of chemtrails are believed to block arteries and weaken arterial walls leading to aneurysms and eventually to deadly strokes.
- **Strokes** - Nano-particle aluminum builds up in capillaries causing blockages eventually leading to aneurysms and strokes.
- **Heart Attacks** - Barium dramatically lowers potassium in mammals leading to heart fibrillations and heart attacks. In fact, barium is used in animal testing to artificially induce heart attacks.
- **Cancer** - Most of the components of chemtrails suppress the immune system. When the immune system is suppressed for extended periods, cancer grows and thrives.

The Single Greatest Co-factor Is The Condition Of The BIOTERRAIN

Since virtually every inhabitant of Planet Earth is now exposed to *chemtrail* toxins and pollutants to some degree, it is important to point out that those with the cleanest bioterrain suffer the least from the aforementioned symptoms. Exactly what is [bioterrain](#)?

Without getting into a scientific explanation of bioterrain, suffice to say that the cleaner one's body is, the less likely pathogenic micro-organisms will make a home in the GI tract or elsewhere. By clean we mean the blood, the lymph, the tissues and organs, etc. In other words, the fewer chemicals, toxins, pollutants, contaminants, poisons, insecticides, fungicides, herbicides, chemical fertilizers, heavy metals, food additives, food colorings, excipients, etc. that concentrate in our various organs and tissues, the less likely the bad bugs will take up residence.

However, the problem that has emerged is that the typical living environment is now permeated with more chemical, radioactive and electro- pollution than ever. The ever-increasing toxic burdens are now overwhelming the detoxification pathways of those folks who don't maintain a healthy lifestyle. Therefore, it has become necessary for those with compromised immune systems, degraded GI tracts, congested livers/gallbladders, and other weakened organ systems to take deliberate remedial initiatives. These compensatory measures can range from performing regular gallbladder flushes and liver cleanses to kidney purges and colon cleanses.

***Chemtrails* Contribute Significantly To The Chemical Stewpot Of Planet Earth**

Herein lies the real danger associated with the constant onslaught of *chemtrail* toxins and chemicals which fall to the Earth by way of rain and air movement. Depending on the regularity of *chemtrailing* in any given area, the various chemical cocktails which are dropped on the populations below will need to be detoxified. The human body is designed to process and rid itself of these chemicals, but only if the primary detox organs are functioning well.

The liver and GI tract, lymphatic system and skin are the most important in sustaining an efficient and thorough daily detoxification process. Should any of these function at a substandard level, imbalance will appear somewhere in the body. If allowed to fester over years, serious diseases like *Morgellons* or *Hypertoxicity syndrome* can develop. Which is why it is so essential to maintain a healthy lifestyle and wellness routine whenever possible.

Below is a list of some of the known chemicals found in a *chemtrails*.

A ***Chemtrail Cocktail*** is one that contains the basic ingredients such as barium chloride, aluminum oxide, synthetic polymers, bio-nano particles, and ethylene dibromide. An independent analysis of *chemtrail* fallout has conclusively identified many of these toxic chemicals:

Aluminum Oxide Particles
Arsenic

Bacilli and Molds
Barium Salts
Barium Titanates
Cadmium
Calcium
Chromium
Desiccated Human Red Blood Cells
Ethylene Dibromide
Enterobacter Cloacal
Enterobacteriaceae
Human white Blood Cells-A (restrictor enzyme used in research labs to snip and combine DNA)
Lead
Mercury
Methyl Aluminum
Mold Spores
Mycoplasma
Nano-Aluminum-Coated Fiberglass
Nitrogen Trifluoride
Known as CHAFF)
Nickel
Polymer Fibers
Pseudomonas Aeruginosa
Pseudomonas Florescens
Radioactive Cesium
Radio Active Thorium
Selenium
Serratia Marcscens
Sharp Titanium Shards
Silver
Streptomyces
Stronthium
Sub-Micron Particles(Containing Live Biological Matter)
Unidentified Bacteria
Uranium
Yellow Fungal Mycotoxins
~ List provided by StopSprayingCalifornia.com

Of course, the most logical question about this unsavory list of noxious ingredients is: "Why are there so many known toxins included in the mix?"

More specifically, the preponderance of barium salt (barium chloride) and alumina (aluminum oxide), which are said to exist in the greatest concentration in *chemtrails*, is particularly alarming. Why? Because barium is well known to decrease and/or impair immune function. Aluminum oxide has its own set of problems, especially when inhaled

in certain concentrations over prolonged periods of time. Aluminum, in any form, is not very easy for the body to detoxify, especially when it finds a home in the lungs.

Chemtrails represent the quintessential pharmaceutical approach by the geo-engineers, as they feebly attempt to address the global warming challenge.

Many of us in the alternative health and wholistic wellness movement intuitively know that it is always better to avoid pharmaceutical medications whenever possible. The very common and well known adverse side effects associated with medical drugs contribute to the breakdown of the bioterrain. Likewise, the massive dosing of the skies around the world with *chemtrail* chemicals also has its attendant side effects on every person who is exposed to them. Likewise, these same chemicals slowly degrade the living environments wherever *chemtrails* are sprayed.

What the *chemtrail* “pharmaceutical approach” really represents is the utter failure of many of the existing scientific paradigms and technological applications in use around the world today. That modern science feels compelled to lay down blankets of toxic chemicals around the globe 24/7 is a glaring testimony to its ignorance (*Chemtrails* are toxic.), arrogance (*Chemtrails* can’t fix the problem.) and powerlessness (Let’s do anything we can, even it makes the problem much worse.).

What’s the point? The point is to dramatize just how much the geo-engineers are out of their league ... as well as out of control. The situation is quite similar to the physicians of the world who for decades over-prescribed antibiotics, only to create pervasive antibiotic resistance, which has given rise to the deadly MRSA’s which are found virtually everywhere now. Overuse and over-exposure to antibiotics, which are contraindicated for a viral infections, have now placed the health of many at great risk.

By way of analogy, the different geo-engineering techniques are having the same negative impacts on the environment. Because of the relentless spraying of the skies throughout the world, the planetary environment will, too, hit a major breakpoint. **This form of gross over-compensation in the form of weather modification *chemtrailing* will not –cannot — end well, so misguided and unsound are the scientific principles undergirding the whole enterprise.** Truly, there is now “**A Global Pandemic Of Epic Proportions**” in the making.

After all, just how long can the skies across the entire planet be subjected to such invasive procedures and chemical assaults. Eventually there will be a [HUGE](#) blowback. The toxic side effects to all life in the biosphere, the collateral damage to the planetary environment, and many other unintended consequences will simply overwhelm Mother Earth. Certainly, the radical and profound shifts in the climate patterns of the world stand as testimony to these eventualities. So do the many violent and unpredictable weather events which seems to jump off anywhere and everywhere these days.

[Global Climate Change: Causing Worldwide Weather Apocalypse](#)

When the weather goes berserk, human health will always suffer. You know the old adage that it's not the cold or the heat, the rain or the drought that causes the proliferation of illness throughout the community. It is usually the dramatic and precipitous changes in temperature, in precipitation, in pressure which really challenge the human body. The various internal monitors that keep the body functioning smoothly are thrown off by such meteorological surprises. Hence, we always see a spike in illness during the change of seasons. And, during a periods of frequent temperature fluctuations, nonstop precipitation, sporadic high winds, and other unseasonal weather events.

Chemtrailing the skies of the world has greatly contributed to this global weather dynamic by exacerbating already wacky weather occurring regionally. This, in turn, wreaks havoc on the human immune system making the body much more susceptible to the many infectious diseases that continue to proliferate during this new millennium. Likewise, the *chemtrail* fallout which incessantly falls on people and animals, homes and business, organic gardens and farm fields, lakes and rivers, forests and grasslands, etc., inevitably contributes to the total body burden that each individual must process.

This toxic load, as it is also known, must be properly metabolized so as not to accumulate in the adipose tissue, glands, circulatory system, brain, kidneys and other major organs. The quicker and more efficiently chemical toxins are sloughed off by the body's detoxification pathways, the less likely they will cause damage. Therefore, it is very easily understood that *chemtrails* have placed a tremendous burden on the planet, especially on the many national populations that are routinely sprayed with the these atmospheric engineering chemicals.

Treatments and Remedies, Detox Therapies and Holistic Modalities

There is a whole host of different ways to address the toxic overload, which will often occur under continuously *chemtrail*-laden skies. Rather than outline the many different remedies and therapies, we have listed the most important links from TheHealthCoach1.com. Each of these coaching sessions concerns itself with an essential element(s) in the healing routine which ought to be considered when detoxing or tonifying the body. All of them revolve around the philosophy of rejuvenating the human body so that it can more efficiently detox and tonify, heal and rebalance itself.

KEEP YOUR SHOES OUTSIDE

We now live in a *Chemtrail*-covered world to which few have properly adapted.

The foregoing health articles take up a variety of very serious health challenges and medical problems which did not exist a hundred years ago. Because of the awesome changes brought about by this “Age of Applied Science and Advanced Technology”, many have not recognized the very real need to wisely adapt, in order to preclude or resolve health problems. The new and unavoidable necessities regarding sustained wellness, brought about by sky *chemtrailing* alone, are both numerous and varied.

For this reason it is highly recommended that every individual perform an audit of their living space and determine the ways that *chemtrail* chemicals can be reduced in their living space. First identify the various vectors of chemical dissemination; then address each one that can be reasonably controlled. Especially for those who are immuno-suppressed, suffering from multi-infection syndromes and/or afflicted with chronic degenerative disease, this tack ought to be taken. You and your family will be much happier and healthier for doing so.

Chemtrail Rage — Much More Serious Than Road Rage

There is one other major mental health issue which has emerged in the wake of indiscriminate, systematic, and wide-area *chemtrailing* of our skies. **Chemtrail rage**, as it is known, has been known to make the most peaceful resident red with anger. Truly, nothing makes the blood boil more quickly than seeing a beautiful blue sky turned gray with *chemtrail*-created cloud cover.

What we recommend to those who are prone to such uncontrollable emotional outbursts is that they set up a surface to air missile battery (Just kidding! (-;)). Actually, what we really recommend is that you consider doing your part in the global effort to ensure *chemtrail*-free skies everywhere. Here's a great example of an advocacy group that is doing its part to raise awareness and remedy the *chemtrail* situation.

Taking A Stand Against The Unrelenting Chemtrail Assault

Especially those who suffer with upper respiratory illness and diseases, will *chemtrails* pose an unwanted assault to their already compromised health. Individuals who have Lung cancer, Emphysema, Tuberculosis, Crest syndrome, COPD (Chronic obstructive pulmonary disease), Asthma, Chronic bronchitis, Allergic rhinitis, Hay fever, Seasonal allergies, Acute and/or Chronic sinusitis, and other conditions of the respiratory system will inevitably serve as the “canaries in the coal mine”. When the skies have been *chemtrailed* at night while we sleep, as they often are, these folks will know before they even get out of bed in the morning.

What else can we do at this moment of time to constructively address the ongoing chemical assault taking place above us? The things we can control is where we ought

to start. Fortifying our constitutional health, living a squeaky clean lifestyle, engaging in the relevant self-care therapies whenever appropriate, and maintaining a good mental/emotional state will only help. Making connections between our ill health and *chemtrail* activity will also help us in avoiding those situations which are avoidable (i.e. Don't run a marathon on a foggy morning after a night of obvious *chemtrailing* — low pressure systems are known for exacerbating all the symptoms associated with *Chemtrail syndrome*).

Conclusion:

No, it's not a very pleasant message. Nevertheless, it is one we all need to understand going forward. *Chemtrail syndrome* is a "New Age malady" which will have to be dealt with, by some more than others. Those of us who are now in the know can inform our family and friends, if and when appropriate.

Especially in the process of disease management will this knowledge come in very handy for the health professionals among us. When the correlations between chemtrailing and the various symptoms become so obvious that they cannot be denied, the medical establishment will be forced to acknowledge their existence. As well as their negative impacts on human health. That will be a step in the right direction for everyone.

May you enjoy great health,
