

The Satanic Talmud & The Synagogue of Satan

Part 10

“For nothing is secret, that shall not be made manifest; neither anything hid, that shall not be known and come abroad.” -(Luke 8:17) ***“For God shall bring every work into judgment, with every secret thing, whether it is good, or whether it is evil.”*** -(Ecclesiastes 12:14). ***“For there is nothing covered, that shall not be revealed; neither hid, that shall not be known. Therefore whatsoever ye have spoken in darkness shall be heard in the light; and that which ye have spoken in the ear in closets shall be proclaimed upon the housetops.”*** -(Luke 12:2-3). ***“For there is nothing hid, which shall not be manifested; neither was anything kept secret, but that it should come abroad.”*** -(Mark 4:22).

Around the year 2001, I was drawn to something akin to a phenomenon of news reports and exposes; that were unearthing the “dirty laundry” as such on the Internet. In fact, I began a series of articles that addressed the topic: ***“God Promised to Expose Evil in the Last Days”***. It seems to me that I did seven parts during 2018. I did not continue the series since I was working on other projects of importance. I am a one-man watchman on the wall being led by the Holy Spirit to address cogent topics and issues of the day. On any given day, I have between three and six topics in process, writing, editing, etc. It would be nice to focus on one issue at a time but the chaos in the world being perpetrated upon humanity begs our attention and God has not to my knowledge decided He wants to take me home just yet.

At this point in time, my wife and I are living in sequestered “self-home-arrest” based upon the local government recommendations for the elderly. My wife and I are considered high risk for the so-called COVID19. As I continue to research and investigate, the trail of evidence was leading me to the conclusion that the Corona virus is a ruse being used to scapegoat the true cause of the so-called virus is really a problem of 5G 60-gigahertz technology.

As cities across the planet activate their 5G technology, initially these cities are operating below the threshold level of serious radiation energy illness. Not all areas of the country are going live at the same time. In an area where I am, the major town is Bardstown, KY, a population of just over 13,000. There are many distilleries in the county and Bardstown itself. Bardstown, KY is the bourbon capital of the U.S. There are lots of light industry in the area in the manufacturing of automobile parts and components. They supply the huge Toyota plants in Georgetown, KY; the Ford plants in Louisville, KY, and the GM Corvette plant in Bowling Green, KY. These companies are most likely already operating with 5G technology, but not at its maximum power output.

I am not denying the existence of the Corona virus, but it has been around for more than a decade and it has been the label for other viruses introduced into the calendar from September to April. We are not even sure that all those other viruses noted in the last segment were not the Corona virus but given different labels. Who is credible enough to confirm the truth?

The CDC propagandist Dr. Anthony Fauci has been a recipient of \$100-million grant from the generous Bill and Linda Gates Foundation. Knowing that fact is controversial enough since Bill Gates is focused on reducing the world's population by 10-15%. We know that the CDC has one patent on the so-called CORVID-19 and the Pirbright Institute of the UK has a patent for another strain of the Corona virus. Having a patent on a virus enables the patent holder to make billions in granting/selling the rights to those who would like to use the virus.

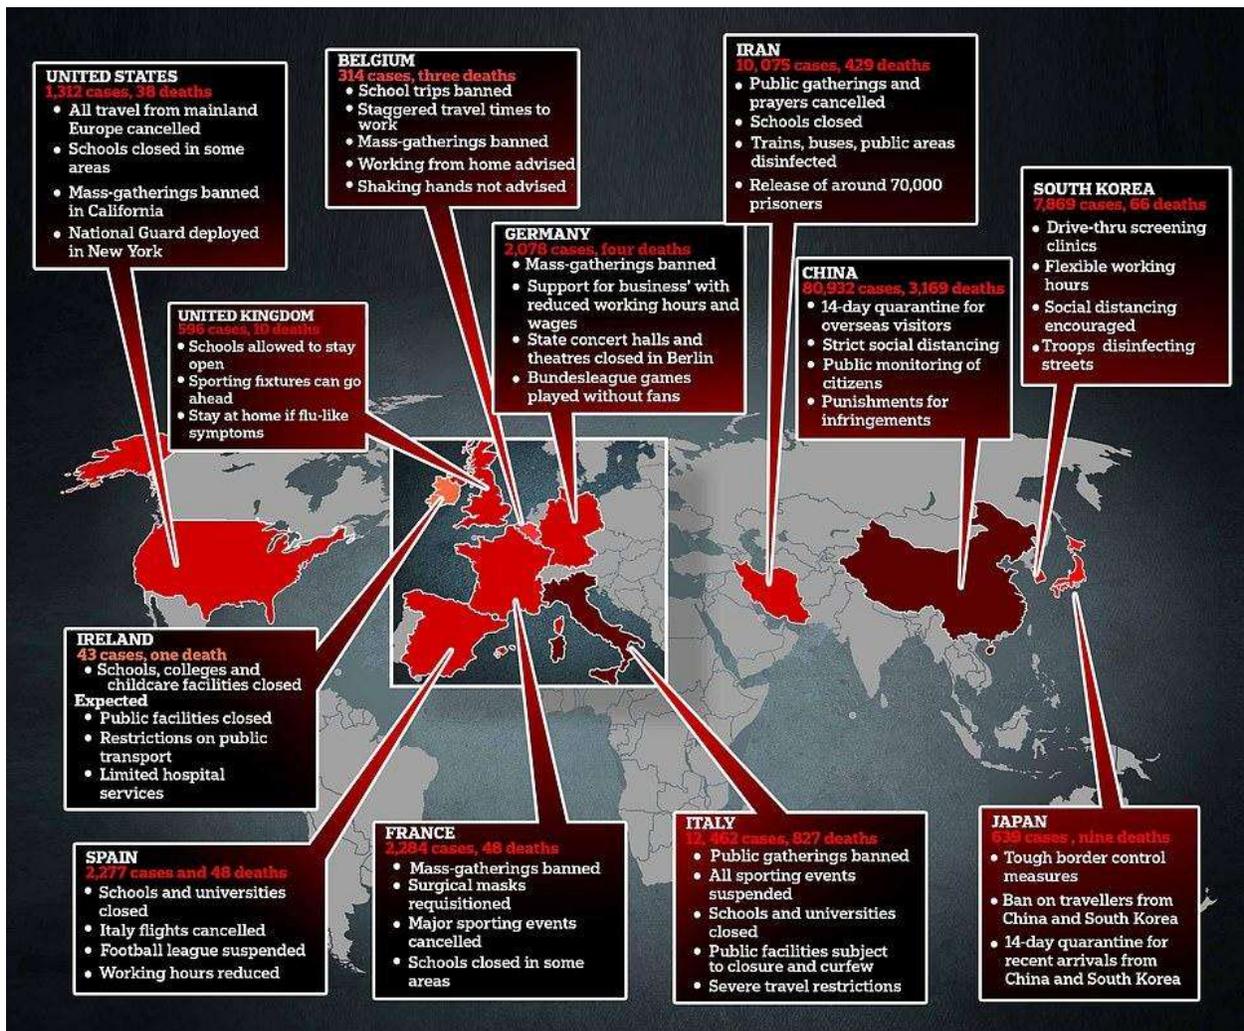

I need to explain something here to help the reader understand what is really happening under our noses. The controls that regulate 5G 60-gigahertz are similar to that of a toy train transformer. When you turn the transformer on you here the buzz, and as you turn up the rheostat controller, the energy begins to increase until the locomotive begins to move along the track. At maximum wattage the locomotive will go faster and faster until it derails on a section of curved track for which is not intended to be operated at a faster speed. Industrial plants, schools, office buildings, hospitals, large retail big box stores are all on the 5G network already since they are operating with 5G technology.

As the 5G technology at 60-gigahertz gains a growing consumer base and small businesses it becomes necessary to dial-up the transformer output to handle the added demand of those going online to the 60-gigahertz energy level needed to have **"Blazing-Fast"** Internet. This is the term used in the Dish Network promotional literature I received the first week of March, 2020. AT&T literature came two days later after I had received the Dish Network promotional package offers. I will most likely receive other offer of 5G Wi-fi service as Louisville ramps up its new 5G 60-gigahertz network.

Note closely the map below showing all the problems being blamed on the Corona virus. These twelve countries are the first to go online with the "blazing fast" Internet. As of Sunday, March 15th, there have been 58 deaths blamed on the COVID19. What is interesting in this illustration is the fact we see nothing reported on in Africa, no virus infections, no deaths, nothing. That tells me that Africa does not have 5G technology being rolled out, no Africans taking ocean cruises, no Apple cell phones, no Wi-fi, no Netflix, in a country with 1.5-billion people all breathing oxygen and not dying from the lack of oxygen, as the case with victims of the Corona virus. Strange, would you not agree?

On Friday, March 13th, Bill Gates resigned from the board of Microsoft, the company that he founded. Simultaneously Bill Gates resigned from the board of Berkshire-Hathaway, the company of another billionaire Warren Buffet. This has implications and overtones of bigger issues. Bill Gates is getting greater news media coverage because of his views regarding depopulation of the world. The famous statement that Bill Gates made years ago about

“doing a great job, we can reduce the world population by 10-15%” is a confession that would convict him in a court of law.

The world public is in panic mode which will get worse by the day, and all for naught. The COVID-19 is a patented virus by both the CDC and the Pirbright Institute of the UK. It is a false flag event, gladdened with multiple goals and agenda. The list of the 16 major points was listed on pages 7 & 8 in Part 9 of this series. Save that list, share it, do not lose it, because it is the key to all of what is coming at us like the waves crashing ashore on a beach somewhere. The world elite are in full offence mode. There are lots more dirty tricks on the way that will lead us to forced mandated vaccination, no exemption. The removing of the U.S. dollar as the Petro-dollar reserve currency is on its last leg if not already history. The

cashless society is closer than you can imagine. You know cash is dirty and carries those pesky germs like the CORVID-19.

[Dr. Anthony S. Fauci running damage control for Pirbright Institute](#)

CDC propagandist Anthony S. Fauci, MD received major funding from The Bill and Melinda Gates Foundation—who also funded the Coronavirus patent holder The Pirbright Institute (UK).

Fauci just recently received [\\$100 million grant from Gates](#).

The Gates Foundation is also a major funder of The Pirbright Institute (UK) with DARPA, The Wellcome Trust (UK), DARPA, WHO, EU, DERA

[The Pirbright Institute \(UK\) is the patentee of the CORONAVIRUS U.S. Pat. No. 10,130,701](#)

Is Anthony S. Fauci, MD running damage control for the British Pirbright Institute (Merial China), DARPA, EU, WHO, British DERA, Wellcome Trust and the Coronavirus outbreak?

Did Fauci disclose his Coronavirus conflict of interest to President Trump?

Is Fauci lying to President Trump?

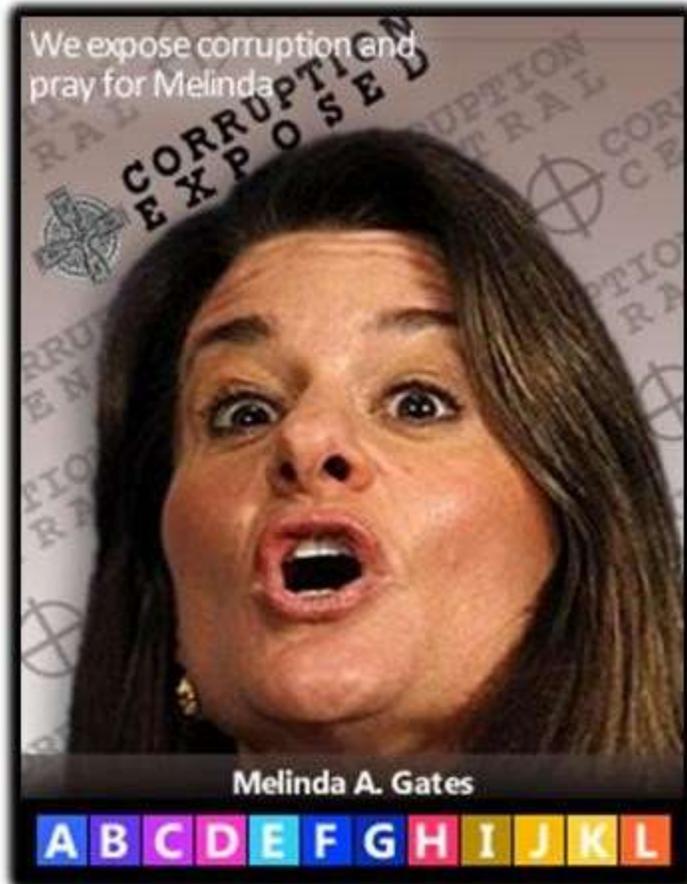

Ben Garrison's cartoons are real gems and the one below may be humorous but our worst fears may soon be realized as the elite of George Soros, Bill Gates, the Pirbright Foundation, and the Zionist Rothschild's have already spread their shadow on a world seeking to free itself from the elite and their New World Order.

Here is definitive proof that Anthony S. Fauci, MD and Bill Gates are engaged in a massive conflict of interest re. The Coronavirus outbreak and Gates' association with the Pirbright Coronavirus patent?

Ian Greenhalgh writing for 'Veterans Today' has stated, *"We have been intensively studying the virus outbreaks ever since the first cases appeared in Wuhan. However, it is only now that we have worked out what is going on and who is behind it.*

Sometimes clues come from the most unexpected sources, a couple of days ago we got one such clue from a notorious, disgraced Israeli disinfo shill who wrote about the 'nice people' at the Gatestone Institute and how they had published a story about the virus has escaped from a Chinese bio lab in Wuhan.

The mere mention of the Gatestone Institute immediately set off my bullshit detector and I decided to look into the matter. Long time VT readers will be familiar with the Gatestone Institute and its notorious head, Nina Rosenwald the arch Zionist pro-Israel former board member of AIPAC and JINSA, two organizations at the heart of the Israeli lobby in the U.S. that are deeply complicit in Israeli's nefarious meddling in US politics. These are not 'nice people', they are anything but, these are the traitorous scum of the earth that have actively assisted the rape and murder of the USA by the Zionist criminals.

The offending article was penned by an Italian called Giulio Meotti and can be found here: [Coronavirus: China's War on the Truth by Giulio Meotti, March 7, 2020](#)

The article is a disgusting piece of anti-Chinese black propaganda, its main purpose is to promote the notion that the Chinese are thoroughly bad, untrustworthy people and are themselves responsible for the virus outbreak as it escaped from a Wuhan research laboratory.

I'll cut to the chase – this article is utter bullcrap and Giulio Meotti is an Israeli disinfo operative.

So, why do we have a bunch of notorious Israeli stooges promoting a fraudulent narrative about the origins of the virus?

The answer is obvious they are covering for the fact that the virus outbreak is the work of the Israelis, an act of bioterrorism on a grand scale."

I have already explained why China is being attacked in my intro to Gordon's article published yesterday, which is essential reading for an understanding of the current situation:

Here is an extract:

"Of course, the hidden hands that control virtually the entire globe and its economy were not prepared to allow the Chinese to become the dominant economic, industrial and military power, so they decided to wage war on China; an undeclared war that is unlike any that preceded it as it is not being fought on battlefields by militaries nor in the skies by aircraft and missiles.

A quick rundown of some of the offensive actions taken against China leaves one in little doubt that a concerted campaign is being waged against the Asian powerhouse:

- ***The CIA-sponsored uprising in Xianjing province by the Muslim Uighurs, has cost the Chinese huge sums of money and the expenditure of vast efforts to put down and even today is still being dealt with.***
- ***The decimation of China's pig farms by swine flu***
- ***The outbreaks of bird flu that caused such panic and did serious damage to the Asian economies.***
- ***Trump's trade war and the US sanctions on China.***
- ***The demonization of 5G technology, in particular, that of the market leader with the best technology – Huawei***
- ***The illegal arrest of Huawei's CFO in Canada***
- ***The attack on the port of Tianjin with a nuclear weapon***
- ***The US-sponsored protests in Hong Kong***
- ***The provocative encroachments into the South China Sea & Straits of Taiwan by US Navy flotillas.***

That's just a short list off the top of my head, there are many more that could be added to the list. but the picture is clear – China has been under sustained attack for the last few years."

That covers China, but what about Italy? That country has been second hardest hit and the scale of the outbreak there dwarves every other country, clearly, Italy has been singled out for special punishment above and beyond everyone apart from the Chinese.

The answer to why Italy is under attack is not hard to discover, just read the opening paragraphs of this article by the European Council on Foreign Relations:

Ecfre.eu: [Italy's Chinese dilemma](#)

"Ahead of Xi Jinping's visit to Italy, China's Belt and Road Initiative (BRI) has joined the long series of issues that divide Italy's ruling parties

One only has to glance at the Italian media to know that, across the political spectrum, Italy's public debate is dominated by discussions of whether the Chinese government is attempting to buy the country. Following Rome's official endorsement of the Belt and Road Initiative (BRI) earlier this month, most prominent Italian decision-makers and political commentators seem to have put aside urgent challenges on the European agenda to focus on this unexpected shift to the east. Even issues as divisive as migration and the powers of the European Union – pillars of the ruling Five Star Movement's and League's political identity – now seem somewhat outdated.

The debate pits those who prioritize strengthened economic relations with China against those who fear that the initiative will turn Italy into the "next Africa or Greece". In many ways, the recent increase in Italian enthusiasm for closer economic relations with China began in 2014, when Matteo Renzi, then prime minister, conducted a high-profile tour of the

country. Renzi's successor, Paolo Gentiloni, continued the effort to court Beijing, as has the current Italian government.

China and Italy are currently negotiating a memorandum that includes 50 economic, cultural, and infrastructural agreements, most of which concern Italian state-owned and private companies, including national champions. The memorandum – which, unlike those Beijing has with 13 other European states, is not legally binding – will be signed during President Xi Jinping's 21-24 March trip to Italy (the first such visit by a Chinese leader since Hu Jintao attended the G8 summit in L'Aquila in 2009). Prime Minister Giuseppe Conte, a former lawyer, has repeatedly emphasized that the memorandum will include all necessary references to the European and multilateral values Italy has asked China to respect. He aims to reassure Rome's European and other partners – primarily Washington – that Italy remains committed to the EU and the transatlantic relationship."

So there you have it in a nutshell – Italy has been forging strong ties with China, especially economic ones. As the ECFR article so succinctly puts it:

Rome now seems stuck between Beijing and Washington – between economic opportunities and security guarantees.

Italy has broken away from the herd and dared to forge ahead with trade & economic policies that are drawing it into China's orbit, this is simply not acceptable to the international Zionist criminals, they want China to be isolated, bereft of allies and therefore vulnerable.

Italy's 'reward' for daring to ally itself with China is to become a victim of Israeli bio-terrorism and it will be hit very hard, just to make sure that every other nation is scared off from forging deals with China or joining its Belt & Road Initiative.

Given that Italy has an elderly population and its public services have been underfunded for many years, the potential for the outbreak turning into a truly horrendous situation is strong. Italian authorities are not blind to this fact and are taking very strong measures, the country is in a virtual lockdown, travel is banned, those breaking the ban risk being imprisoned, the police & the army are being held on standby to enforce the quarantine lockdown.

Expect things to get much worse in Italy, for they are being made an example of and the punishment is going to be severe in order to thoroughly scare and intimidate any and all world leaders.

The message is clear – ally with China and you face the same fate as Italy.

As we get closer to the End Days scenario, we are going to need to be resolved to be prepared for the unexpected. Satan comes to steal, destroy, and kill, so with that we know we have to be at our very best in deflecting the adversary's barbs and arrows.

Psalm 91 provides me great courage as we face the constant array of Satan's attacks on the righteous today. Many of you are not familiar with the late Hilton Sutton, Hilton went home in the winter of 2012. Hilton Sutton gave me courage when I was embroiled in an issue where I became a target of the LGBTQ element in the United Methodist Church. I always remember one of his favorite statements, *"When the bombs are descending, the saints will be ascending."* Hilton was reminding us that God will intervene at a time when all around us looks dark and gloomy. God's time will always be at the precise moment of need to intervene and so as we struggle with the Rothschild's New World Order, keep in mind. The essence of my point here is to remain strong and do not loose heart or faith.

God is on the throne!

Blessings,
