

# The Blessed Hope!

**“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)**

*Diamond & Nugget #121*

Most of the country is sweltering in the dog days of summer. I began typing this at 7:45 pm on Sunday, August 28, 2022. The temperature is 90 and feels like 97. All day the temp has been hovering at 97 with a feels-like temp of 104. The thermometer on my side porch was reading 100 degrees all day.

As of Wednesday, August 31<sup>st</sup>, we have 27 days until Rosh HaShanah or the Feast of Trumpets. Events are unfolding at a Kentucky Derby pace. Virtually every day something is released, leaked, or reported that confirms we are on track for the Rapture on this date of Rosh HaShanah, September 26, 2022. It is a 2-day event that runs from sundown the 26<sup>th</sup> through sundown the 28<sup>th</sup>. This is as close as we can come to expect the date of the Rapture event that has overshadowed the church since the 1960s. Since Jesus fulfilled the spring and summer feasts, the next Feast of the Lord date on the calendar clock is Yom Teruah, a.k.a. Feast of Trumpets / Rosh Hashanah.

The past three segments of the Blessed Hope series have laid out major changes coming in the next six months that are connected to the date of September 26<sup>th</sup>, 2022.. The following were an overview of what is taking place at the threshold of Daniel's 70<sup>th</sup> Week. Blessed Hope #118, #119, #120, covered these in their primary significance. In this segment, I will recap these key points and their significance. [Links at close below]

1. A Treaty signing event will take place at the UN on September 26, 2022 [194 countries (***the many***)] will sign (***the covenant***) with the Antichrist, a.k.a. Prince Charles of Wales along with Klaus Schwab, and Secretary-General António Guterres. This ***“covenant of the many”*** will be the original Oslo Accords of 1993, and you may remember that it was President Bill Clinton who failed to get Yasser Arafat to sign the agreement with his Israeli counterpart Yitzak Rabin on the White House lawn hosted event. The Oslo Accords were secretly negotiated through back channels between Prince Charles of Wales and PLO president Yassar Arafat in Oslo, Norway.
2. The World Health Organization (WHO) will later this year bring up the Global Pandemic Treaty for official approval. 194 countries have all essentially agreed to this Treaty earlier this past June, and to satisfy some African nations, some changes of wording has been needed to meet their satisfaction and approval.

When signed, the WHO will have virtual control over the world through its decision-making power to declare pandemics and national compliance and vaccine program. The scam of Covid-19 ought to be sufficient proof to know why this is a means of genocide eugenics. No one knows what all was in the EUA vaccines and upwards of 12-million have died so far and all-cause mortality have skyrocketed since the fall of 2021.

3. President Joe Biden (or one of his “doubles”) signed into law his Executive Order #14067, which goes into effect on December 13, 2022. It became law since the Congress and Senate did not challenge it within sixty days of its signing. The EO was signed by Joe Biden or his double on March 12<sup>th</sup>, 2022. This will begin the **“Cashless Economy”** and transition the nation to the Cryptocurrency know as the Blockchain. In Europe it is called “Libra”. It will operate exactly like the Chinese “QR” (Quick Response) Code System used in China, which incorporates the Chinese ‘Social Credit Score’. Your FRNs or dollars become worthless after that date unless the Federal Reserve decides to permit a grace period of 30, 60, or more days.
4. It has since been revealed the requirements to “participate” in the Blockchain “Cashless eCommerce”, which operates on the “QR” ID system, through **5G** technologies in the use of “Near Field Communication”, a simple wave of your **5G** phone will have your “QR” ID and you are on your way. No cash, no cash register, simply a wave of the phone across a ID scanner. We now have learned that in order to participate in the Great Reset, the public will have to be vaxxed, of course. The reason is that the Blockchain contains your personal data, financial data, and health records to confirm you have been included in the Cloud Computing System. The QuantumDot/Hydrogel ID2020 system was developed by Microsoft billionaire Bill Gates nearly a decade ago.

The New World Order sounds so wonderful and young people the world over are ecstatic about doing everything with their **5G** cell phones. Yes, everyone will have to get a new **5G** cell phone. As wonderful this all seems few have bothered to realize let alone take the time to figure out where this all goes and its implications of control over your life. The Chinese have developed technology with which to read their citizen’s minds!

Five years ago on a cold Saturday morning, I watched a two-hour long video on how the Chinese “QR” (quick response) ID cashless commerce works. I hope to take time and go back in my files and try to pull up the link to the video as it laid it all out for us. China was the beginner of this system. My jaw dropped while watching it. The narrator was an executive for a U.S. bank and he went through the process of demonstrating the simplicity of the system. He went into a local 7-Eleven in a large city, scanned his phone, the door opened. He went to a dairy case and waved his hand across the door handle which then opened. He took out a bottle of Coke and then went to rack of sweet rolls and took one and passed his cell phone over the package and went to the counter where there was no cash register, no sales clerk, simply a scanner equipped with the

Near Field Communications Technology, then departing the store. The only employee was a person from behind the partitioned wall stocking the refrigerated cases and shelves.

This narrator of the video then went out and used his “QR” ID and ordered a taxi, which took him to the subway where he boarded a modern high-speed local train paying with his “QR” ID. Departing the suburban train station, he ordered an Uber ride which was there in less than two minutes. Off he went to a local car dealership whereby he proceeded to purchase a brand new Tesla automobile. The transaction sale was all conducted through the use of his cell-phone “QR” code. The narrator knew that he had the money in his account and there was no red tape or delay. Taking possession of the vehicle’s “keys” for lack of a better word to describe the device, he was back out on the road in his new vehicle.

A “QR” code (an initialism for quick response code) is a type of matrix barcode (or two-dimensional barcode) invented in 1994 by the Japanese automotive company Denso Wave. A barcode is a machine-readable optical label that can contain information about the item to which it is attached. In practice, QR codes often contain data for a locator, identifier, or tracker that points to a website or ... a point of sale (POS).

In order to better protect against Covid-19, Starbucks announces they will be going “Cashless” from now on with contactless mobile App & QR Codes for payment.

Starbucks has been growing one of the more powerful contactless payment services in the industry. And now *“it’s planning to go cashless to keep employees and customers safe in the wake of the COVID coronavirus outbreak.”* The feckless peddlers of coffee are using the Covid-19 story as a front to eliminate employees. It is all about my point #3 above.

***“And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.”*** –(Revelation 13:16,17)

In a letter to Starbucks employees and customers this week, CEO Kevin Johnson said Starbucks is planning to expand the number of cashless options available to customers.

*“We will also shift toward more cashless experiences, knowing that the handling of cash creates consumer concerns about the spread of viruses,” Johnson said. “We predict the mobile app will become the dominant form of payment.”*

The news came alongside Johnson’s announcement that Starbucks plans to reopen 85 percent of its cafes across the U.S. by the end of this week. It also highlights how important Starbucks’ contactless payment service has become.

Competing with Apple Pay, Google Pay, and others, Starbucks has its own contactless service, allowing users to load cash onto their accounts and pay with a bar code scanned by Starbucks employees. It’s one of the fastest-growing contactless apps in the industry and now has 20 million users — far more than many competitors.

While Starbucks has always encouraged customers to use the app for rewards and other perks, it could take on a new importance now. **Starbucks, like other companies, is cognizant that customers may worry about using cash and the possibility of spreading coronavirus from it.** With its contactless app, Starbucks can sidestep those concerns and make customers (and employees) feel more comfortable.

It’s a lesson other businesses may want to pay attention to as parts of the U.S. reopen. From retailers to cafes to restaurants, limiting the exchange of cash may be the best move. And accepting contactless payment options like Apple Pay and others could go a long way toward protecting customers. Of course, for small businesses, there’s a cost associated with upgrading payment systems to contactless support. And at a time when coronavirus is negatively impacting businesses, that cost may be too much of a burden for some.

The booming crossover business chains such as Walgreens, Rite Aid, CVS, and a number of regional pharmacies have introduced to their customers versions of customer

loyalty 'perks' cards as well with their own "QR" cards that when used can earn the customer points that convert to redeemable value when using the new "QR" customer cards. Walgreens has 8,081 stores, CVS has 7,500 stores and Rite Aid has over 4,600 stores. Now that the word is out on Executive Order #14067, you can look forward to all chain retailers, and this includes smaller retail outlets, will be accelerating their program introduction in order to meet the requirements of President Biden's agenda to eliminate cash from the equation. Anyone that resists the tide will be frozen out as Revelation 13:16-17 states.

The top ten national pharmacies are:

1. Walgreens — 8,081
2. CVS Caremark — 7,500
3. Rite Aid — 4,623
4. Walmart — 4,546
5. Health Mart — 3,138
6. Kroger — 1,948
7. Target — 1,653
8. Shoppers Drug Mart — 1,295
9. Safeway — 1,201
10. Kmart — 922

Financial expert Catherine Austin Fitts had been promoting the idea of "Cash" Fridays by encouraging people to use only cash on Friday, leave the credit card and debit card at home. This was part of an effort to delay the planned shift to the "cashless society". I knew at the time that it sounded like a smart move but it was really only a delay tactic. People are in for a huge surprise with what is coming in a matter of months.

The above four significant global actions noted are our greatest proof that we are at the point of God's Time Markers that the world is upon the threshold of Daniel's 70<sup>th</sup> Week, the Great Tribulation, and the Pre-Tribulation Rapture of Bible-believing Born-Again Christians. From a calendar time point of importance, the very first is the definitive marker, that being the fulfillment of Daniel 9:27 on September 26<sup>th</sup>, which is the beginning of the Feast of Trumpets. In the Biblical order of fulfillment of the Feasts of Leviticus 23, Rosh HaShanah or Feast of Trumpets is the next in order to be fulfilled by the Lord Jesus Christ.

In addition to the four points I've listed above, we have considerable external evidence that suggests the Rapture will occur in the September 26-28 window. We have C.J. Lovik, Mark Biltz, Luis Vega, all prophecy teachers who frame their studies and work on the Gospel in the Stars and the Hebrew Shemitah cycles linked to Biblical Jubilees. They all are pointing to the same date of these events taking place in four weeks. The one thing that is rock solid about the timing of things is that the next Shemita cycle starts on Rosh Hashanah of this year, and that the Tribulation has to start then. Mark Biltz did a video earlier this year showing this synchronzation pattern aligned precisely.

In addition to that noted so far, there are other global economic events predicting a stock market crash later this month, on Friday, August 26<sup>th</sup> the Dow-Jones dropped by a 1,008 points in reaction to what was said by the Fed Chairman Jay Powell at the yearly gathering of central bankers meeting in Jackson Hole, WY. **By far the most critical factor is the derivative markets of a quarter-trillion dollar potential house of cards collapse. The National Debt went past \$30-trillion dollars this past January, and is more like \$31-trillion at this point in time.** Derivatives are a beast that most people are oblivious too, they are a gambling concept that become financial chaos when the bets unravel and settlement requires financial institutions to pay up the winners!

When the markets reacted to Fed Chairman Jay Powell's remarks on Friday, it was likely due to his reference to further interest rate increases this year. The housing market is already in the tank following a short boom earlier in the spring. The simple fact is that every nation in the world is so deep in debt that there is no visible practical way of turning the economic ship around. The reports are horrendous of companies in Europe shutting production down because the price of energy makes it futile to manufacture goods.

China with its Evergrande Real Estate bankruptcy debacle has brought it to a cross road point which questions its future ability to provide economic stability to its growing 1.4+ billion population that needs to be fed and kept calm and compliant socially.

Fed Chair Jerome Powell, in his to-the-point speech at the economic policy symposium in Jackson Hole, appears to have attempted to pull the rug out from under the tightening-deniers that had been fanning out across the internet, the social media, and the TV circuits over the past few months, with their contorted theories of "pivot" and "rate cuts" and "dovish Fed" or whatever....

His speech was a series of hawkish comments that boil down to this: We're going to crack down on inflation, and we're going to *"use our tools forcefully"* and we'll take *"forceful and rapid steps,"* to bring down demand, and there won't be any *"stop"* or *"pause"* in the rake hikes until rates are "sufficiently restrictive" to "return inflation to our 2 percent goal." —(Wolf Street).

Powell even admitted the pain to come, taking back the hopes he created of a soft landing. If your plane lands hard enough to cause pain, that is not a soft landing, which I have claimed all along would prove to be impossible. To make the no-pivot message pointedly sharp because the addled market was bound to miss the point, Powell stated outright, the FOMC will continue to fight inflation *"until the job is done."*

So, the market started plunging last Friday into a period with some necessary trade action bringing additional downward pressure that is baked into market positioning and with a seasonal track record of declining, even if all things in the world hold about as they are. On top of that, the largest buyers in the market — the stock-buyback corporations — will be entering their quarterly blackout on September 15. It was right at the doorstep of this seasonal environment that Powell decided to pull the carpet out

from under market fantasy. It would seem that Powell suspects he felt he needed to break delusions that were causing the market to act as a countervailing force to the Fed's tightening and needed to try to let some air out of the obviously bloated stock bubble that was trying to reflate — the last thing he wanted to see.

The truth of the matter is that the global economic and debt problems cannot be fixed. We passed the point of reversing all of this doom and gloom in the markets around the world back in 2010. The Ponsi system is in disarray. San Francisco shop owners and businesses are refusing to pay taxes unless the city begins to deal with the homeless, crime, and filth that has taken over the city. Silver-advocate Bix Weir posted that as European banks begin to collapse, those in the U.S. have but two weeks to take their money out of the banks. The number of homeless is about to skyrocket in the US as 3.8 million renters will likely be evicted in the next two months. Another 20 million households are facing shut-off notices for electric and gas. Think about it.

Almost every tyranny being perpetrated by the U.S. government against the citizenry—purportedly to keep us safe and the nation secure—has come about as a result of some threat manufactured in one way or another by our own government. It will get worse in the U.S. because of what is occurring in Europe and the UK.

Rolling blackouts have begun in Kosovo because the country cannot find enough supply of natural gas to keep power plants running at full capacity. Other European countries, from the UK to Bulgaria, are also developing plans to cut off electricity. Russian state energy giant Gazprom has said it has cut off gas supplies to France's utilities company Engie. The French side has failed to pay for the gas deliveries in July in full, the Russian company added.

Gazprom informed Engie that it would cease the gas deliveries starting September 1 until the moment it gets the payment for the already supplied gas in full, the energy giant said in a statement. It also noted that the French side had failed to make the payment by Tuesday evening, making any further gas deliveries impossible under the Russian law.

Earlier on Tuesday, Engie said that Gazprom informed it “*of a reduction in gas deliveries*” and cited “*a disagreement between the parties on the application of some contracts,*” according to Bloomberg. It did not provide any details about the nature of the disagreements and did not specify the level of delivery reductions.

French Energy Minister Agnes Pannier-Runacher accused Moscow of using its gas exports as a weapon on Tuesday. She also said that France “*must prepare for the worst-case scenario of a complete interruption of supplies.*” Her statement was made before the Gazprom announcement.

Engie maintained it “*had already secured the volumes necessary to meet its commitments towards its customers and its own requirements,*” adding that it would

*take measures to “significantly reduce any direct financial and physical impacts”* of the potential supply interruption by Gazprom.

The developments come as the EU governments are trying to fill up their gas storages in the face of the approaching heating season and reduced supply from Russia – one of the continent’s major gas suppliers. Earlier on Tuesday, Gazprom also said that Nord Stream 1 would be completely stopped from August 31 to September 2 for maintenance since it has only one operational compressor.

On Monday, Engie Executive Vice President Claire Waysand said that France has had its storages filled up by 90% and adding that it should be enough to get through the winter. Talk about wishful thinking or maybe blowing smoke at the public, France has been shutting down its nuclear power plants right at the time they will be needed more than ever!

The reason: These countries imposed economic sanctions upon Russia over its Special Military Operation into Ukraine, and as a result of their own Sanctions, these countries now refuse to buy Russian oil and natural gas.

Rather than mind their own business when it comes to the Russia-Ukraine problems, Europe has decided that its citizens can live in the dark, so Europe can virtue signal how wonderful they are, by not buying Russian natural gas.

The politicians in Europe have personally caused this energy problem and the price hikes, by imposing sanctions upon Russia.

Citizens in Europe should get rid of these politicians before winter arrives, and folks start freezing to death from no heat due to no natural gas. Their leaders are convinced that the U.S. will win a war against Russia. The war in the Ukraine is being manipulated by the WEF as a means to so weaken the U.S. that it will be like an emperor with no clothes, and that it would have to surrender to the WEF globalist agenda. War drains a nation’s assets faster than anything else possible. It was revealed two weeks ago by active military personnel that the U.S. Pentagon has drawn down armaments and munitions it would have needed in a direct war of its own. The Pentagon has removed specific types of weapons from U.S. Army and Marine Corp units in order to provide additional weapons to the Ukrainian Army, who burn through supplies as if they had an endless supply. This suggests that Ukraine is not doing well against the Russian military and that the war is over for the Ukraine. But worse is the fact that in the event of the U.S. going to war with an adversary such as North Korea, the U.S. faces dangerous levels of weapons and munitions that require long lead time to produce and re-supply front-line troops.

Are things on a path toward global war 3.0? Is it inevitable? Will it be waged with nukes able to end life on earth by mass destruction and nuclear winter?

Cities turned to smoldering rubble can be rebuilt. Radioactive contamination is long-lasting. It occurs from enough detonations, nuclear winter threatens all life forms with extinction. I first recall the impressions left from the 1959 movie *"On the Beach"* with Gregory Peck, a drama of what it might be like following a nuclear radiation fall out over the northern hemisphere. The strange experience was doubly concerning since I was assigned to the 264th FA Bn (280mm Gun) and redesignated as 3rd Gun Bn, 82nd Arty on 1 June 1958.) Our unit crest was named for the saint of artillery, "St. Barbara".

This is a photo of the Atomic cannon, 280mm at Grafenwoehr/Vilseck, where we trained and fired the big guns, we spent a full month in the summer and again in the winter, we were so close to the border of the Iron Curtain, we could hear the Czech guns firing.

The very first 280mm (11 inch) shell with a gun-type fission warhead was fired 10,000 meters (6.2 miles) and detonated 160 meters (525 ft) above the ground with an estimated yield of 15 kilotons. 15 kilotons today is like a BB gun in comparison with what the Russians possess in the event of a nuclear exchange with the U.S. and NATO.

The Russian military has nuclear torpedos designed to be launched from sea that are designed to create tsunami waves that just one launched from either the Atlantic or Pacific waters can wipe out the entire coast of every city within a hundred miles of the coast line. Russia's Status-6 "*Poseidon*" torpedo has excited the fears -- or the overactive imaginations -- of Russia's enemies.

Calling it is a torpedo is a misnomer. While the precise capabilities of the weapon are mysterious, it appears to be about 80 feet long -- which makes it more like a mini-submarine or an underwater ballistic missile. Poseidon is propelled by a nuclear reactor to a speed of 115 miles per hour and operates at deep depths up to 3,300 feet. It is armed with a massive 100-megaton warhead powerful enough to generate a giant tidal wave to destroy coastal cities. The "*Poseidon*" was placed into service two years ago.

President Putin several weeks ago threatened the UK with a tsunami that would cover all of the UK, England, Wales, Scotland, and Ireland. His remarks were an inference to the "*Poseidon*" and its potential. The leadership of Russia has made it clear that they would refrain from using nuclear weapons unless they felt it was a life and death scenario and they saw no other options. U.S. support for the Ukraine has broken any trust that may have existed to seek diplomatic resolution to the division created by the former Obama/Biden administration that was rife with corruption, graft, blackmail, and puppet Neo-Nazi elements exploiting the Ukrainian people.

With more than 12 million Ukrainian refugees scattered across Europe, Canada, the UK, and the U.S., several countries have stopped supplying the Zelensky regime with munitions and armaments for various reasons. The Zelensky leadership have been buying real estate in places like Switzerland and the U.S., to which they can exit the country when it becomes evident that the war has been lost.

Physician, nuclear expert, anti-war activist, Helen Caldicott, earlier explained the following:

*"If present trends continue, the air we breathe, the food we eat, and the water we drink will soon be contaminated with enough radioactive pollutants to pose a potential health hazard far greater than any plague humanity has ever experienced."*

A "*single failure of nuclear deterrence (could) start nuclear war.*" Devastating consequences would follow, potentially killing "*tens of millions of people, and caus(ing) longterm, catastrophic disruptions of the global climate and massive destruction of earth's protective ozone layer.*"

# Russian doomsday torpedo is real

The U.S. has confirmed that Russia is developing a giant nuclear torpedo capable of wiping out a coastal city

**KANYON** (Known in Russia as *Ocean Multipurpose System Status-6*)

## Specifications (est.)

Speed: 100 knots (185km/h)

Range: Up to 10,000km

Max. operating depth: 1,000m

**Warhead: 100-megaton thermonuclear weapon is twice as powerful as *Tsar Bomba* – most powerful nuclear device ever detonated**

## KHABAROVSK SUBMARINE

Main launching platform of Kanyon likely to be new nuclear-powered *Khabarovsk* submarine

Khabarovsk thought to be custom built to field up to six Kanyon torpedoes fired forward

Two side-by-side pressure hulls in bow

**Weapon:** Reported to be "salted" with highly radioactive *cobalt-60*, rendering contaminated areas off-limits to humanity for up to 100 years

*“The result would be a global nuclear famine that could kill up to one billion people.”*  
Nuclear winter is the ultimate nightmare.

Einstein stressed the following:

*“The unleashed power of the atom has changed everything save our modes of thinking, and thus we drift toward unparalleled catastrophe.”*

The risk is greatly heightened by Washington’s criminal class, especially undemocratic Dems.

Paul Craig Roberts stressed it saying:

*A Dem-controlled “new Third Reich...Nazi” regime runs hegemon USA — “one far more dangerous thanks to the digital revolution (and thermonukes), a godsend for tyrants.”*

*The vast majority of Americans and others throughout the West haven’t escaped from “The Matrix in which their minds are trapped.”*

So they don’t realize how greatly their lives and well-being are endangered by diabolical gangsterism running their nations.

On August 26, ResponsibleStatecraft.org (RS below) explained the following:

The Biden regime intends *“naming” a Pentagon “military assistance mission in (Nazified) Ukraine...”*

It’ll be a separate command like Operation Desert Storm or Operation Enduring Freedom — a US general and support staff running it.

This step represents a virtual US declaration of war on Russia in less than so many words.

It indicates no end to what RS called a *“a long hard slog.”*

It signals longterm U.S. military support for Nazified Ukraine and use of its territory as a Pentagon base for perpetual confrontation with Russia.

It risks crossing the line from proxy to hot war between the world’s dominant nuclear powers.

Planned months in advance — begun 4 weeks after the made-in-the-USA mother of all false flags to that time — preemptive war on non-threatening, non-belligerent Afghanistan by the empire of lies lasted weeks shy of 20 years before a humiliating Biden regime pullout last August.

Will a U.S. war on Russia surpass it in length? I would not bet on it! Or will nukes be used to end it sooner — and with it planet earth as now exists and all its life forms?

Perpetual war on invented enemies is longstanding U.S. policy — how military Keynesianism on steroids operates.

Enemies are invented to advance hegemon USA's aims for unchallenged control of world community nations, their resources and populations — by brute force and other diabolical means. There are well over 1,000 Pentagon bases worldwide are platforms for waging forever wars on humanity.

Their existence threatens everyone everywhere, including: Large-scale Main Operating Bases, Forward Operation Sites (major installations but are smaller than MOBs) and Cooperative Security Locations. The latter posts are to preposition weapons, munitions, and modest numbers of troops. The existence of the above bases has nothing to do with providing homeland or regional security. They're launching pads for perpetual U.S. aggression on invented enemies.

Almost \$100 Billion has been officially sent to Ukraine which is around the amount of money required to end all poverty in America. The illegitimate administration waging a full spectrum soft war on 'We the People' on behalf of their One World Government handlers has to date gifted nearly \$100 billion to the illegitimate CIA-run Ukrainian government. Congress is the only government entity that may vote for war. It has not voted for a single war since WW2. Thus, all of the wars since Korea, Vietnam, Iraq, Afghanistan and every other war America has been engaged in have all been illegal.

America is currently illegally engaged in a proxy war with Russia. This too is illegal. Nowhere in the Constitution does it allow for even a cent of money to be sent to foreign nations for their wars. This is theft.

The official number is staggering, but the shadow books sum is far larger. These funds are primarily being used as CIA black ops money laundering and kickbacks to D.C. politicians and various assets and entities. The latest IRS scam serves to reinforce the WEF and UN Great Reset agenda perfectly, because this illegitimate government is only beholden to the One World Government which necessitates the destruction of the American populace it pretends to serve.

In cahoots with diabolical CIA actions, they're also for toppling independent governments by coups or color revolutions, assassinating their leaders, propping up friendly despots, illicit drug trafficking, suppressing beneficial social change, and replacing democracy as it should be with vassal rule subservience to US interests.

A state of permanent war defines how the empire of lies operates at home and worldwide. On establishing a new military command for perpetual war in Ukraine on Russia, RS quoted senior advisor to Concerned Veterans of America, Dan Caldwell, saying the following:

*“This move could signal to other actors in the conflict — particularly (Ukraine and Russia) — that (hegemon USA) is planning on getting significantly more directly involved in the war itself.”*

That of course could lead to the war being prolonged and raise the risk of escalation between (US-dominated) NATO, and” the Russian Federation. Separately, retired US Lt. Col. Daniel Davis explained the following:

*“Putting a name on an operation is far more significant than merely coming up with a catchy tagline.”*

*“It confers an intent to provide longterm, sustained, and expensive support to one side of a war”* against invented enemy Russia.

It’s at a time of growing economic crisis conditions throughout the U.S./West — a reason for dominant Biden regime hardliners to want the the subject changed as a way to try staying in power.

Separately the Libertarian Institute noted what I discussed in two articles where I asked the question, *“How Long Do You Think It Will Be Before Putin Decides to Nuke the USA?”*

Likely incoming UK prime minister, Liz Truss, replacing BoJo in early September, *“declared (her willingness) to kick off thermonuclear warfare”* once in power in a matter of days. Last week, she minced no words, saying: *“I’m ready to do it.”*

In cahoots with Washington’s criminal class, humanity trembles with the likes of them in charge — their fingers on the nuclear trigger, their willingness to squeeze it.

As a Bible student and teacher, I have spent countless hours studying the book of Revelation. Numerous passages warn us that a **“third”** of man will die in what can only be seen as a nuclear war. Read Revelation 9:15 and 9:18 below; Scripture never lies nor has it been proven to be wrong! ***“And the four angels were loosed, which were prepared for an hour, and a day, and a month, and a year, for to slay the third part of men.”*** -(Revelation 9:15). ***“By these three was the third part of men killed, by the fire, and by the smoke, and by the brimstone, which issued out of their mouths.”*** -(Revelation 9:18).

With what we know, you might say nuclear war is “baked in the cake.” The Bible’s use of metaphoric language merely masks the imagery of death. The fire, the smoke, and the sulfur that keep coming out of the mouths of the horses are all lethal. They become the demonic means by which one-third of mankind is killed. Think about what that “one third” means in literal numbers. We are told the world population will hit 8-billion in November of 2022. One-third of 8-billion is rounded off to approximately 2.7-billion that will die in the next year or two of Daniel’s Seventieth Week. They are distinguished in this verse as three separate plagues, each bringing death to some. This may mean

some of the horses spew out fire; some, smoke; and some, sulfurous gases. In the first woe rebellious sinners have been tortured by the demon locusts. Now in this second woe demonic horses cause some to be burned by the flames, some to be suffocated by the smoke, and some to be poisoned by the sulfur dioxide gas until the full third have been executed.

The use of fire, smoke, and sulfur is a reminder of God's judgment on Sodom and Gomorrah -(Genesis 19:24, 28; cf. Jude 7). It should be a reminder that a world that is going the way of Sodom and that thinks the Bible is joking when it talks about judgment cannot escape the judgment of God.

If all of this is not causing you concern you might think of what reason is behind Pope Francis' move of Vatican assets held around the world be repatriated back to the Vatican Bank. This headline appeared in a news report on August 30<sup>th</sup>, 2022:

**Ahead Of The Imminent PSYOP-22 Pope Francis Instructs Vatican Entities To Move All Funds To Vatican Bank By Sept. 30 As Chinese University Students In NY Cancel Fall Classes & Are Returning To China.**

As the source of this substack has been warning a new "pandemic" in PSYOP-22 is being planned for this fall and winter. It will not only serve to coverup the cold and flu season bloodbath for the VAIDS sufferers, but it will extend and amplify all of the other various psyops concurrently in play heading into midterm elections. We are in what was predicted back in the fall of 2020, a period of accelerated die off of those vaxxed. As of today, Siri News has reported that American longevity has declined by two years+, only exceeded by the period of the Spanish Flu in 1918. The excess death rate from all-cause mortality is skyrocketing into the stratosphere.

The Vatican is the Luciferian Cult node that along with the dynastic banking families and the City of London are coordinating this technocommunist Great Reset takeover. As such, the Pope knows exactly what is going to be perpetrated this fall and winter; to wit: It appears that the higher up Cult assets and their offspring have been tipped off.

Pope Francis has ordered that the Holy See and connected entities move all financial assets to the Institute for Works of Religion (IOR), commonly known as the Vatican bank.

The pope's [rescript](#), issued August 23, clarifies the interpretation of a paragraph in the new constitution of the Roman Curia, *Praedicate Evangelium*, promulgated in March.

According to Francis' rescript, financial and liquid assets held in banks other than the IOR must be moved to the Vatican bank within 30 days of September 1, 2022.

The IOR, based in Vatican City State, has 110 employees and 14,519 clients. As of 2021, it looked after 5.2 billion euros (\$5.6 billion) of client assets.

As the Cult becomes increasingly desperate, the Vatican is telegraphing the consolidation of their ill gotten assets. The irony of a Catholic “central” bank that has trillions if not quadrillions in assets should not be lost on anyone.

**THE ABC'S OF SALVATION**

**A** **ADMIT**  
Admit you are a sinner and have made mistakes.

**B** **BELIEVE**  
Believe that Jesus is God's Son, died on the Cross for you, and rose up from the grave on the third day.

**C** **CONFESS**  
Confess Jesus as the Lord of your life. And commit yourself to a life of following Jesus, and serving others.  
(Romans 3:23; John 1:12; Romans 10:9)

Amen

You are witnessing the final spiritual battle between Rome and Constantinople being played out in this spiritual war that has existed since 1050 A.D. The Vatican and the New World Order anticipate the end of their nemesis, the Orthodox Catholic Church.

The pope's decree will force Holy See institutions, including the Secretariat of State, to move their financial assets to the IOR by the end of September. The Secretariat of State is known to have had accounts in [Swiss financial institutions](#), including Credit Suisse, through which the controversial London building investment [was initially carried out](#).  
[Source](#).

Criminal banks operating out of the City of London are along with the Vatican also contingency planning for PSYOP-MARKET-CRASH and possibly PSYOP-WW3, PSYOP-POWER-GRID-OUTAGE, PSYOP-HYPERINFLATION, PSYOP-CLIMATE-CHANGE and so on and so forth.

Everything is on the table for maximum societal pain.

Meanwhile, in New York:
