

The Blessed Hope!

“Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ;” –(Titus 2:13)

Diamond & Nugget #160

If you thought it was quiet and that little has been happening since my last Blessed Hope #159 you would not be aware of Prince Charles actions from behind the scene. I might forget an item or two that has appeared in the world press but he is not in his rose garden picking flowers. Antichrist watcher Craig Bong mentioned on his Facebook page a critical piece of this puzzle of the tightening focal period of “seven” years until 2030. Charles has his foot on the pedal to the metal!

SEVEN YEARS TO 2030

- The Fifty-eighth session of the Bonn UN Framework Convention on Climate Change sub-bodies #SB58 represents an important station used by the parties to continue determining the course of climate action in preparation for the Parties Conference #COP28.

During these meetings, the #COP28UAE is turning up the heat in bringing about its goals.

- Conference Parties team is keen to listen and communicate with all stakeholders, to make concrete progress and promote joint climate action in preparation for the launch of COP28!
- COP28 President-Designate calls for climate action plan that puts the world on the right track to achieve Paris Agreement’s goals by the end of 2030.
- COP28 UAE will be a milestone moment when the world will take stock of its progress on the Paris Agreement and commit to a global deal for the next seven years.

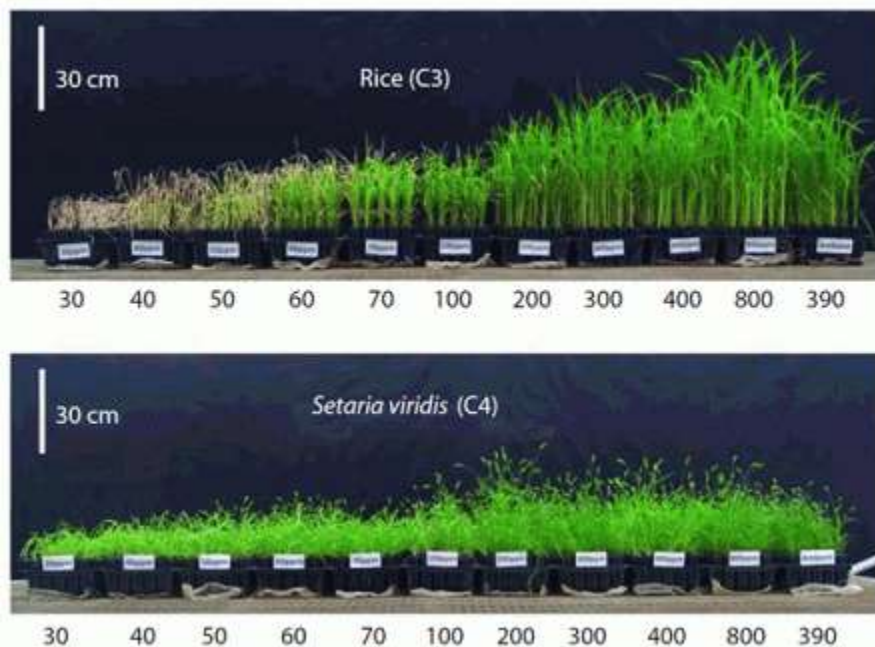

The first Global Stocktake (GST) will provide a comprehensive assessment of progress since adopting the Paris Agreement. This will help align efforts on climate action, including measures that need to be put in place to bridge the gaps in progress.

The COP28 UAE Presidency will work to ensure that the world responds to the GST with a clear plan of action.

The next Global Stocktake begins in 2028 and runs through 2030, completing a seven-year course of Charles “Sustainable Development Goals” (SDG) implementation and climate mitigation.

To remain on target, science tells us that emissions must be halved by 2030. We only have another seven years to meet that goal. COP28 UAE is a prime opportunity to rethink, reboot, and refocus the climate agenda. This is total bovine excrement and unadulterated junk science. Global signs have shown the ice caps at both poles have been growing yearly for at least a decade now, if not longer. That has not deterred Charles or those hyping the need to “Depopulate” the world. What better way to do it than to frighten the world with the “*sky is falling*” and the extinction of the world by proclaiming the necessity to press on to “Net Zero” carbon footprint.

As an example of how wrong Prince Charles is I will share this recent experiment as proof.

Isolated for 42 days in chambers of ambient and elevated CO2 concentrations, we periodically document the growth of cowpea plants (*Vigna unguiculata*) via time-lapse photography.

NASA says CO2 is making Earth greener. Studies have shown that increased concentrations of carbon dioxide increase photosynthesis, spurring plant growth.

A quarter to half of Earth’s vegetated lands has shown significant greening over the last 35 years largely due to rising levels of atmospheric carbon dioxide, according to a new study published in the journal *Nature Climate Change* on April 25.

An international team of 32 authors from 24 institutions in eight countries led the effort, which involved using satellite data from NASA's Moderate Resolution Imaging Spectrometer and the National Oceanic and Atmospheric Administration's Advanced Very High Resolution Radiometer instruments to help determine the leaf area index, or amount of leaf cover, over the planet's vegetated regions.

The greening represents an increase in leaves on plants and trees equivalent in area to two times the continental United States.

Green leaves use energy from sunlight through photosynthesis to chemically combine carbon dioxide drawn in from the air with water and nutrients tapped from the ground to produce sugars, which are the main source of food, fiber and fuel for life on Earth.

Studies have shown that increased concentrations of carbon dioxide increase photosynthesis, spurring plant growth. Prominent Scientist William Happer Tells Congress: Earth is in a 'CO2 Famine – The increase of CO2 is not a cause for alarm and will be good for mankind – Children should not be force-fed propaganda, masquerading as science.

Happer, who has published over 200 peer-reviewed scientific papers, made his remarks during today's Environment and Public Works Full Committee Hearing entitled "Update on the Latest Global Warming Science."

"Many people don't realize that over geological time, we're really in a CO2 famine now. Almost never has CO2 levels been as low as it has been in the Holocene (geologic epoch) – 280 (parts per million – ppm) – that's unheard of. Most of the time [CO2 levels] have been at least 1000 (ppm) and it's been quite higher than that," Happer told the Senate Committee.

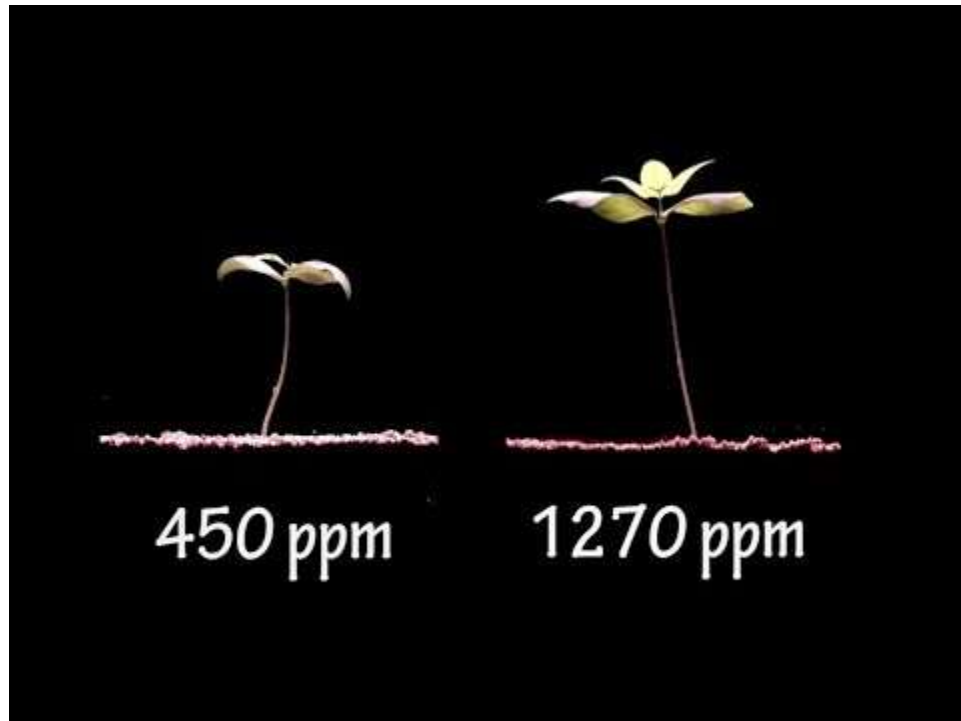

The Center for the Study of Carbon Dioxide and Global Change was created to disseminate factual reports and sound commentary on new developments in the world-wide scientific quest to determine the climatic and biological consequences of the ongoing rise in the air's CO2 content.

It meets this objective through weekly online publication of its CO2 Science magazine, which contains editorials on topics of current concern and mini-reviews of recently published peer-reviewed scientific journal articles, books, and other educational materials.

In this endeavor, the Center attempts to separate reality from rhetoric in the emotionally-charged debate that swirls around the subject of carbon dioxide and global change.

In addition, to help students and teachers gain greater insight into the biological aspects of this phenomenon, the Center maintains on-line instructions on how to conduct CO2 enrichment and depletion experiments in its Global Change Laboratory (located in its

Education Center section), which allow interested parties to conduct similar studies in their own homes and classrooms.

These results of this study is not something new, we have known it for decades. I learned in elementary school science that we need more CO₂, not less as claimed by Bill Gates and Prince "sausage fingers" Charles. Wake up people!

Climate Change

So first the Globalists/Satanists claimed the earth was too cold. When that proved to be false then the earth was getting too hot. When that fell apart, they just used "climate

change" as a catch-all phrase to apply to everything. It's not about the world's climate, it's about the world's control.

We know their SDG agenda is not without opposition. At the beginning of June, Ireland announced that it would cull [slaughter] 200,000 dairy cows and beef cattle as a measure to reach their "Net Zero" goals. What about the thousands of Irish farmers and their families? Too bad, so sad, but to keep the farm families from complaining or resisting, Klaus Schwab will see that they get life support in the way of welfare under the WEF plan "*people will own nothing, and they will like it!*" It will happen in the U.S. as well. The U.S., one of 12 nations has taken the lead, announcing the plan in reducing the livestock herds of the nation by 50% for the 2030 deadline! The WEF orders the U.S. Government to forcibly seize farms by 2025 and burn millions of Cattle.

The Progressive Elite intends to destroy system of laws by "turning Justice on its Head".

- News Brief: "*George Soros and the New York City Subway Tragedy: Soros wants Daniel Penny to be the last hero*", American Greatness, June 1, 2023.

"Democrats have instituted globalist-inspired programs and policies, transforming major cities like New York into dystopian hellscape. Public safety has been abandoned. Predatory criminals, the drug addicted, and the violently mentally ill roam the streets and subways with impunity. Police are either absent or passive spectators."

"States attorneys protect criminals instead of their victims."

Criminals are being set free, while heroes are arrested for Murder!

"The result is law-abiding citizens have been left to survive on their own. And when heroes like Daniel Penny stand up to protect their lives and those of their fellow citizens—they are crushed. The common thread of evil which runs through every social catastrophe in America can be traced to George Soros—the dark soul of the Democratic Party."

What are we to do?

- *"Every Soros-financed initiative is designed to facilitate the destruction of the roots of Western culture and the foundation of American civilization. His objective is to tear down society by unraveling our culture, values, and traditions. That twisted vision is now the platform of the Democratic Party. "*

What are the Soros' Initiatives so tearing us apart?

- Open Borders
- Subverting the rule of law by financing the election of pro-criminal states attorneys.
- Drug legalization.
- Normalizing mass homelessness, untreated mental illness, and drug addiction.

- Defunding the police.
- Perpetuating the big lie of “systemic police racism.”
- Prison abolition.
- Institutionalizing the anti-white racism and perpetual black victimhood of critical race theory.
- Spreading transgender ideology and the depraved genital mutilation and castration of children.
- Unlimited abortion in America and globally.
- Global legalization of prostitution.
- Euthanasia.

"But do not let the word “doctrine” fool you, it may sound religious but all it means is--teaching. Yes, the garbage we tell each other about LGBTQ+, transitioning, equity and the whole list of liberal nonsense is being taught by demons. They are walking, climbing, and flying over the fences or hedges God once used to keep us from their attacks."

"Nations do not just fall--they break up their own defenses with evil activity and leave themselves vulnerable to destruction."

"Jesuit Father James Martin said this weekend celebrating Gay Pride is compatible with devotion to the Sacred Heart because both teach us about the love of Jesus ... Where would the Sacred Heart be today?" Martin asks in an accompanying tweet. 'It would be poured out in love on these people who seek love and acceptance'."

- News Brief: "[Disney 'Gay Days' events go ahead in defiance of DeSantis' 'Don't Say Gay' laws](#)", New York Post, June 5, 2023

"Tens of thousands of people flocked to “Gay Days” events at Disney in defiance of the theme park’s legal row with Florida Gov. Ron DeSantis and his so-called “Don’t Say Gay” legal crackdown. A sea of red shirts — many emblazoned with “Say Gay” or “Don’t say DeSantis” — descended on Orlando from Saturday for the half-week of pool parties, rides and drag bingo to mark the start of Pride Month."

We are increasingly reaching new depths of destruction.

God has repeatedly stated His doctrine that, when nation's leaders refuse to punish criminals in the manner which were divinely set, the time will come when God will consider the same punishment to be meted out which would have gone to the individual criminal.

TRANSGENDERISM IS THE NEW RELIGION OF THE LEFT

**In pride the wicked hotly pursue the afflicted; Let them be
caught in the plots which they have devised. — Psalm 10:2**

PRIDEMONTH

PRIDEMONTH

PRIDEMONTH

Therefore, when America's most grievous sin at the End of the Age being committed by its leaders, the time will come when God will deliver His hot hand of judgment of death upon the entire country. Here is part of that the judgment:

"Therefore shall her plagues come in one day, death, and mourning, and famine; and she shall be utterly burned with fire: for strong is the Lord God who judgeth her. And the kings of the earth, who have committed fornication and lived deliciously with her, shall bewail her, and lament for her, when they shall see the smoke of her burning, Standing afar off for the fear of her torment, saying, Alas, alas that great city Babylon, that mighty city! for in one hour is thy judgment

come. And the merchants of the earth shall weep and mourn over her; for no man buyeth their merchandise anymore." -(Revelation 18:8-12)

Being a former United Methodist Church pastor, I have followed the years of seething conflict for now 27 years that has led up to the parting of the ways between those who believe the Bible is the Word of God and those who choose to 'cherry pick' their 'Golden Corral' cafeteria belief system. At the latest count, only 10% of the denomination chose to leave the larger world body. Around, 2,900+ (mostly smaller congregations) are leaving this year during their Annual Conference sessions held during June. This in itself is a tragedy for a denomination that was once "Salt and Light" but embodies the Laodicean Church of Revelation. Jesus had explicit warning for these folks in His message to the Laodiceans in Revelation 3:14-21.

- News Brief: "[Biden Appointee Calls on UN to Create Reparations Tribunal](#)", Jonathan Turley. June 4, 2023

"Howard Law Professor Justin Hansford addressed the United Nations Permanent Forum on People of African Descent last week and called for the establishment of a United Nations Reparations Tribunal that could order the payment of reparations to African Americans. Professor Hansford objected that white lawyers and politicians have been allowed to control this debate in the United States for too long ... So I come to you today with a novel proposal, that we begin to think our own thoughts, propose our own vision of justice, and implement that justice, as part of the Permanent Forum on People of African Descent."

Professor Hansford called on the United Nations to stop "cultural genocide" and to end the "continuation of slavery" through means like "mass incarceration" in the United States.

No other single thing will overthrow the Republic faster and more completely -- and its merits are all an empty mirage.

They have already been paid, from 1865-1965 --- to the tune of 20 Trillion.

"In dollars and cents, the U.S. government estimated Jan. 1863 that the war was costing \$2.5 million daily. A final official estimate in 1879 totaled \$6,190,000,000. The Confederacy spent perhaps \$2,099,808,707. By 1906 another \$3.3 billion already had been spent by the U.S. government on Northerners' pensions and other veterans' benefits for former Federal soldiers. Southern states and private philanthropy provided benefits to the Confederate veterans. The amount spent on benefits eventually well-exceeded the war's original cost."

If the war cost the Union \$6,190,000,000 in 1879 Dollars, then it will equal a staggering \$142,994,689,831.08 in 2016 Dollars!

Furthermore, the cost in Union lives is even more staggering. Most estimates of Union dead and wounded are in the 750,000 range! Most Union soldiers did not fight and die for the express purpose of ending slavery; in fact, President Lincoln had to disguise this genuine goal for the first two years of the Civil War.

Many immigrants arriving at our shores were immediately mustered into the Union Army, where they fought and died to free the Southern slaves.

Considering that the Federal Government has spent "an astronomical \$20 trillion" as it supported President Lyndon Johnson's Great Society welfare programs, the total cost to the Union for attempting to right the wrongs of Confederate Slavery is \$20,142,000,000,000, and the loss of life for 750,000 men!

I consider that reparations figure sufficient to right this wrong, don't you?

Democrat President Lyndon Johnson made a startling statement which exactly revealed his intentions. *"I'll have those n*****s voting Democratic for the next 200 years'."* (Lyndon Baines Johnson, remarking about the Great Society plan. – Democrat Lyndon B. Johnson

"Dr. Carol Swain, a black Professor of political science at Vanderbilt University speaks the truth, including this demeaning LBJ quote, in a short video entitled, 'The Inconvenient Truth About the Democratic Party'."

To reiterate, once this subject of reparations is opened, it will prove to be a "never-ending pit". No length of time, or any amount of currency, will be sufficient to the mind of the person who wants reparations.

One American Authority on this subject of the cost of the Civil War and how much God was going to punish the South, was President Abraham Lincoln. Lincoln spoke these words during his Second Inaugural Address in 1865, just days before his assassination.

"All knew that this [Slavery] interest was, somehow, the cause of the war ... Yet, if God will that it [Civil War] continue, until all the wealth plied by the bond-man's two hundred and fifty years of unrequited toil shall be sunk, and until every drop of blood drawn with the lash shall be paid by another drawn with the sword, as was said three thousand years ago, so shall it must be said, 'the judgments of the Lord are true and righteous altogether'." [*A Heart That Yearned For God: Abraham Lincoln, His Life and Faith*], by Dr. G. Frederick Owen, Historian, Third Century Publishers, Washington, D.C., 1976, p. 192-193]

As you can see, President Lincoln correctly viewed the Civil War as a war of God's Judgment delivered to a nation who had oppressively enslaved an entire people for almost 300 years!

The United Nations is taking this issue up because their leadership believes that the issue will die if left to American voters.

- Klaus Schwab's "Great Reset" is like a metastasizing cancer World's Largest Asset Management Firm BlackRock is behind forcing DEI and ESG on companies via Chinese-Style 'Social Credit' Scheme.

The diversity, equity, and inclusion (DEI) agenda pushed by the world's largest asset management firm BlackRock is an example of 'the Chinese social credit system applied at the corporate level to America'.

Last week while reading a story from the Chick-fil-A website, and the entire purported furor it was generating we noted the diversity, equity and inclusion of DEI. Where is all this coming from, and why is nearly every major company doing it? As it turns out, there is a simple, one-word answer to that question. BlackRock.

BlackRock is many things, mainly the world's largest and most-powerful asset management company managing trillions of dollars. BlackRock is a driving force of the New World Order. BlackRock CEO Larry Fink is on record about his firm's efforts to 'force change' of the woke agenda. The Chinese Social Credit scheme is evil, woke is evil, and BlackRock is the epitome of evil.

- BlackRock's DEI Push Is 'Chinese Social Credit System Applied at the Corporate Level'

BREITBART NEWS Report: John Carney was asked to comment on remarks that BlackRock CEO Larry Fink made in 2017 about his firm's efforts to "force change." The video of Fink's remarks, which were given at a New York Times Deal Book conference, went viral on Monday when Ohio Sen. J.D. Vance (R) tweeted it and denounced BlackRock's behavior as "illegal and immoral."

In the 2017 video, Fink states, "Well, behaviors are going to have to change, and this is one thing we're asking companies. You have to force behaviors. And at BlackRock, we are forcing behaviors."

"What we're doing internally is if you don't achieve these levels of impact, your compensation could be impacted," Fink continued. "And so, it's just you have to force behaviors. And if you don't force behaviors—whether it's gender or race, or just any way you want to say the composition of your team—you're going to be impacted."

"We're going to have to force change," Fink concluded in the video. Carney reported that BlackRock is trying to backpedal from Fink's 2017 comments after being called out by Vance.

Global Control is the central issue of all these reports but papered over by egalitarian motives hiding the primary agenda of the Antichrist Beast System!

“Black Rock is actually trying to backpedal this,” Carney said. “They’re saying this is very old. This is how we were thinking of things in 2017. We don’t really want to do it. But they do”

“This is the Chinese social credit system applied at the corporate level to America,” Carney explained. Larry Fink and Michael Bloomberg of Bloomberg Media are Prince Charles’ generals reshaping the American business model to conform to the goals of Prince Charles “Sustainable Development”. Do you sense the power of Satan driving this agenda humanity is being squeezed into?

Corporate CEOs feel under pressure to adopt the right environmental, the right social, the right diversity, equity, and inclusion policies, all because one of the biggest investors in the whole world has sent the message to them that this is what they care about.

Brian Brenberg, guest-hosting for “Bottom Line” host Sean Duffy, noted that DEI and ESG (environmental, social, and governance) initiatives are a way for woke activists to enact their unpopular agenda by bypassing the democratic process.

“This stuff would never pass if legislators had to vote on it,” Brenberg said.

Stakeholder corporations carry the water or the government bureaucracy does it behind the scenes through regulation. But either way, it happens to people without them ever getting a chance to raise their hand and say, hey, we don’t want this.

“And the people whose money BlackRock is investing also haven’t said that’s what they want,” Carney noted. “And that’s one of the reasons BlackRock has tried more recently to walk this back — because they realized that they had gotten way out to the left of the American people, and they need the American people.” That’s why they’re the biggest asset manager — because they’re running people’s retirement funds. If people say, “Wait a minute, I don’t want you pushing this far-left agenda on America, give me my money back’ that will put the company in trouble. So, they’re trying to run away from this.”

➤ **Dan Bongino - The INSANE New MasterCard That Fights Climate Change Will Leave You Speechless.**

The Dan Bongino show aired a commercial for a new ESG credit card which will control your spending to help the Climate Carbon Net Zero agenda. You can view the clip at <https://rumble.com/embed/v2pnu5a/?pub=4> The video clip is a riot; but deadly serious in regards to Prince Charles “Sustainable Development” agenda.

➤ Prince Charles WEF “mouthpiece” Klaus Schwab for the past two years said, “You will own nothing, and be happy!” It was reported on June 6, 2023, that the Universal Basic Income is being rolled out in its first test stage.

A trial of universal basic income (UBI) will be trialed for the first time in England where 30 people will be given a monthly stipend with no strings attached.

A little over 500 years after English philosopher Sir Thomas More first mooted the idea of a wealth-sharing programme in his book *'Utopia'* — a work praised by the likes of Communist Manifesto author Karl Marx and Soviet dictator Vladimir Lenin — universal basic income will be trialed in England for the first time.

The UBI scheme, to be run by the Autonomy think tank, will see 30 people given a monthly allowance of £1,600 a month without any requirements. The scheme will take place in the town of Jarrow in the North East of England and in the East Finchley area of North London, Sky News reports.

The pilot scheme will also draft a control group that won't receive the free cash, in order for the researchers to measure the impact of the money on the lives of the participants.

The director of research at Autonomy Will Stronge said: *"All the evidence shows that it would directly alleviate poverty and boost millions of people's wellbeing: the potential benefits are just too large to ignore."*

However, opponents of the socialist-style scheme express concerns that giving people a universal basic income would create perverse incentives that could have massive ramifications on the labor market.

Needless to say, most of the world will likely sign up for this program once it hits their city, state, or nation. I doubt that they will think much about the implications one day when the boon becomes a bust! Remember, what the government giveth, it can take back, or cutoff!

➤ **(Natural News)** According to sources (see below), the Pentagon is now taking thousands of mothballed military aircraft and restoring them to full service capability in an obvious run-up to World War III with both China and Russia. These aircraft reportedly include F-16s, C-130 transport planes, AWACS aircraft and more.

This intel has been related by John Moore, [The Liberty Man](#), in his June 5, 2023 broadcast, available at [the John Moore Show channel on Brighteon.com](#).

Mike Adams called John Moore yesterday to ask for additional confirmation. He reiterated that his military-tied sources were observing (so far) hundreds of aircraft at the [Davis-Monthan Air Force Base](#) in Tucson, Arizona being taken out of storage and restored to full service capacity. This process has only been under way for a few weeks, and it appears to involve hundreds of military personnel.

An additional bit of corroborating information to John Moore's report to Mike Adams, the Health Ranger, the North Wilmot Gate at Davis-Monthan AFB will be closed from 30 May, 2023 until 4 January, 2024. Think first security matters friends when gates are closed for specific time periods like this one. The base operates the busiest single runway in the Air Force with 11 flying units and 152 aircraft.

Once restored, the aircraft are reportedly being sent to two destinations: 1) The Philippines (a staging area for war with China), and 2) Europe (most likely Poland), a staging area for war with Russia. This indicates that the Pentagon is gearing up for kinetic conflict with both Russia and China in the near future.

Following the fall of Bakhmut and the failed counteroffensive that fizzled, Ukraine appears to have run out of steam (and men) to fight Russia. This means **direct NATO engagement of Russia is likely not far away**. The "proxy" stage of this war, in other words, is drawing to an end, and NATO forces will soon be fighting Russian forces directly.

This means the world will soon be engulfed in global war, and that war is likely to go nuclear. Russia, it turns out, has the most advanced nuclear ICBMs and nuclear-equipped hypersonic missiles in the world, and once NATO unambiguously enters the war, **every American city will become a "legitimate" nuclear target in the eyes of Russia**.

This is what corrupt fake president Joe Biden is attempting to achieve: The nuking of America by Russia. This is how Democrats and communists plan to destroy the United States of America while blaming it all on Russia.

Evacuating the last weaponry from CONUS

This effort to ship out nearly all combat aircraft currently remaining in the United States will also set up the USA for a "purge" attack from within, where communist Chinese military agents have already crossed the wide open southern border by the hundreds of thousands, positioning themselves across U.S. cities to prepare for "Activation Day." On that day, they will unleash kinetic attacks against U.S. infrastructure, targeting ports, refineries, power grid stations, communications infrastructure, military bases, bridges and more.

Communist military personnel will attempt to execute all Republican governors, senators and political leaders, while seizing control over state capitols, radio stations and other broadcast media. Think "Red Dawn" but with the cooperation of nearly all Democrats (i.e. communists).

Domestic US military forces will be largely unable to defend CONUS because they will have already shipped out nearly every remaining military asset to Ukraine, including artillery rounds, fighter jets, rifle ammunition, main battle tanks, anti-tank weapon systems, military drones and more. **The USA will be left defenseless** while treasonous Mr. Austin (who pretends to be the Secretary of Defense) keeps pushing covid jabs to

maim and murder U.S. military personnel and leave the country vulnerable to a communist takeover attempt.

This means **the defense of America is going to come down to armed citizens and militia groups**. This is why the treasonous ATF is trying to outlaw arm braces and label nearly every gun owner in America a “felon” — so they can be rounded up and exterminated in death camps as the communist Activation Day gets under way. (Yes, federal agencies are now working directly for Communist China, and the entire Biden regime is compromised by the CCP.)

Where to find the pilots to fly F-16s?

I asked John Moore about where the USA would find enough pilots to fly F-16s, A-10s and other combat aircraft needed to wage war with Russia and China, and he said that a significant portion of today’s airline pilots are retired military pilots who can be reinstated into active military service after a declaration of war.

It’s worth noting, however, that the level of physical fitness required to operate an F-16 in a combat environment is extremely high, and retired *former* military pilots don’t have the same physiology as a young, fit pilot. This means combat maneuvers that are required to dodge incoming missiles, strike ground targets or engage enemy aircraft may not be attainable by older pilots. Their combat effectiveness, in other words, is compromised due to age and lack of fitness.

It is noteworthy that Russia holds the world’s most advanced anti-aircraft military equipment, meaning that U.S. fighter pilots will be subjected to the most rigorous anti-air defenses ever deployed on planet Earth. This means we should reasonably expect a very high loss rate of both U.S. military aircraft and pilots. At the same time, the impact of the loss of commercial transport pilots on the domestic economy will be devastating. Air cargo shipments, for example, may have to be shut down during the war, and carriers like Fedex and UPS would likely have to shut down air transport services altogether. Airlines would go bankrupt, requiring the printing of yet more bailout money to keep them in business, even as there aren’t enough pilots to fly the routes.

Mike Adams said I am scheduled to interview John Moore later this week, and that interview will be published Friday. We will ask him for more details during the interview.

- Newly uncovered government documents show the Biden administration giving “anti-terrorism” grants to university programs that actually appear to promote terrorism against pro-life advocates and conservatives.

In one taxpayer-funded program, a professor and self-proclaimed member of Antifa admitted that “a lot of things we’re doing are illegal” and “a lot of it involves breaking the law,” according to the documents.

Antifa is believed to be behind a number of attacks on pro-life organizations in the past year, possibly including [the fire that heavily damaged CompassCare pregnancy center in New York](#).

The disturbing revelations come from [documents from the U.S. Department of Homeland Security](#) (DHS) obtained by the Media Research Center through a Freedom of Information Act request. They provide details about the DHS Targeted Violence & Terrorism Prevention Grant Program.

“Instead of focusing on preventing actual violence and terrorism, the program is now being used to target the entire spectrum of the political right and Christians through ‘media literacy and online critical thinking initiatives’ and other so-called training seminars as part of a coordinated effort to make America into a one-party system,” the MRC investigation found.

One particularly disturbing revelation was the grant to the University of Dayton in Ohio. The university received \$352,109 to create the PREVENTS-OH program to fight “*domestic violence extremism and hate movements.*”

It appears the program actually did the opposite.

One of the program lectures was given by University of Cincinnati research fellow Michael Loadenthal, “*a self-proclaimed member of Antifa whose Twitter feed is rife with posts celebrating acts of left-wing violence,*” according to MRC.

Loadenthal admitted in his lecture that “*a lot of things we’re doing are illegal*” and “*a lot of it involves breaking the law,*” MRC found.

In one PREVENTS-OH seminar titled “White Nationalism Workshop,” Loadenthal explained how activists can put pressure on “financial services” like “GoFundMe, Patreon, PayPal, Venmo” and other companies to “kick off” conservatives with whom he disagrees, the investigation continues.

Here’s more from MRC:

Loadenthal likewise complained about “right-wing” social media platforms that provide “free speech” and celebrated “*de-platform[ing]*” *so-called fascists (which he used*

interchangeably with “the right”) from Twitter and Facebook. He even gave specific advice on how to create dummy accounts on social media platforms like Gab, Telegram and Rumble in order to “paralyze” movements and “manufacture ... infighting.” ...

Censorship efforts are not enough to fight against so-called fascists, Loadenthal outrageously claimed, also calling for a more aggressive approach. *“To deny people that, to shut down their websites, to close their meetings, [and] to physically prevent them from assembling in public. This is the belief,”* he claimed.

Loadenthal also displayed infographic instructions to teach attendees how to *“infiltrate”* social media platforms to *“identify targets, create dossiers ... surveil, interfere, misdirect [and] disrupt”* those the left opposes.

His lecture also included an image titled the “Pyramid of Far-Right Radicalization” that he claimed shows *“modern far-right”* extremists in the U.S. Organizations on the image included the Republican Party, The Heritage Foundation, Fox News, Breitbart News, the National Rifle Association, Prager University, Tea Party Patriots, the MAGA movement, the pro-police Blue Lives Matter movement and the Christian Broadcasting Network, according to the documents.

MRC uncovered another University of Dayton seminar that *“compared former President Donald Trump to [murderous dictator] Pol Pot and suggested Florida Governor Ron DeSantis might wish to start a second Holocaust.”*

This was just one grant. According to the documents, the Biden administration awarded 80 “anti-terrorism” grants worth \$39.6 million to universities, local governments and activist organizations, including the LGBTQ advocacy group Out Boulder County.

The new documents add to growing concerns that [the Biden administration is using the Department of Justice, FBI and other agencies as a weapon](#) against its political opponents. Peaceful pro-life advocates have had their homes raided by FBI agents, while arson attacks on pro-life organizations go unpunished. Last month, [a Michigan man who shot an elderly pro-life woman only received a sentence of community service, a year of probation and a suspended jail sentence of two months.](#)

➤ Meanwhile, pro-life advocates have become increasing targets of vandalism and violence. LifeNews counted about 250 attacks in 2022, including ten arson/attempted arson attacks.

Many pro-life organizations are increasing security and Republican lawmakers are demanding action from the Biden administration to crack down on the growing pro-abortion domestic terrorism. But, while the Biden administration has been aggressively working to expand the killing of unborn babies in abortions, it has done little to stop the hostilities directed at pro-life advocates and churches.

Frustrated by the inaction, a New York pregnancy resource center recently launched its own private investigation into a June arson attack that caused more than half a million dollars in damage and injured two firefighters.

➤ **On 6 June, the Aerospace Force of Iran's Islamic Revolution Guards Corps (IRGC) unveiled its first domestically-made hypersonic ballistic missile capable of traveling at 15 times the speed of sound with a range of 1,400 kilometers.**

Named Fattah, or 'Conqueror' in Farsi, officials described the missile as "a generational leap."

"Fattah can bypass the most advanced anti-ballistic missile systems of the United States and the Zionist regime, including Israel's Iron Dome," Iran's state TV reported.

Iranian President Ebrahim Raisi, Chief Commander of the IRGC Major General Hossein Salami, and the Commander of the IRGC Aerospace Force, Brigadier General Amir Ali Hajizadeh, attended the unveiling ceremony.

"Some may ask 'what is the purpose of manufacturing missiles?' They are for deterrence, for defense," the Iranian president noted.

"We build missiles so that we do not suffer from aggression by the enemies and so that we have the power that the enemies would not even think of an act of aggression against the Islamic Republic," Raisi said, adding that *"Defense and missile industries have become indigenous in Iran. As Iran does not import its defense weapons, therefore nothing can threaten to marginalize this advanced industry."*

General Hajizadeh highlighted that Iran is now among only four countries that have the technology to manufacture hypersonic missiles, with the other three being Russia, China, and North Korea.

The US is also developing hypersonic missiles, but their program has trailed behind the others due to a lack of planning, technological gaps, and a belief in Washington that ballistic missiles are a better and cost-effective bet against an adversary.

"Our activities in this field do not end with the manufacturing of this missile. We will continue this path so that no enemy even imagines attacking Iran," the IRGC commander asserted.

In November, Hajizadeh said Iran's new hypersonic missile could reach Israel in 400 seconds.

Hypersonic weapons fly at speeds in excess of Mach 5, are capable of striking targets thousands of miles away in 15-30 minutes, and pose crucial challenges to missile defense systems because of their speed and maneuverability.

While a traditional ballistic missile travels into the atmosphere and then returns to earth on top of the target, a hypersonic missile travels much closer to the earth, eliminating the arch into the atmosphere and allowing for it to switch targets on the fly.

- Eileen F. Toplansky writing for The American Thinker asks the question, “*Is Genocide Too Powerful a Word?*” “ I have been screaming the evidence confirms it. In order to prove it, I began writing articles on the elite’s plan for Genocide on Chemtrails when they began in 1996. That has proven to be true in Peter Kirby’s book, ‘*The New Manhattan Project*’. I have on my web page close to 30 articles on “Depopulation” and the people orchestrating the crimes against humanity.

Genocide is a potent word. It refers to the decimation of an entire group. It results in destruction on a massive scale. It defies the imagination even though we have often witnessed it in the 20th century.

To most people, it is the concerted evisceration of a particular group, whether they be Jews annihilated by the Nazis, Uyghurs by the Chinese Communist Party (CCP), or the Ukrainians by Stalin. Of the latter, the term *Holodomor* comes to mind. It was a man-made famine that affected the Soviet republic of Ukraine from 1932 to 1933, causing mass starvation in grain-growing regions. In acknowledgment of its scale, the famine is often called the Holodomor, a term derived from the Ukrainian words for hunger (*holod*) and extermination (*mor*).

These events need to be understood as the prelude to global actions that are now convulsing the world and whose ultimate goal is the destruction of human life.

They often began as a bid for the welfare of humanity, these decisions must be regarded as the “*alibis of tyrants*” with resultant deadly consequences.

Consider the dictates that have caused and will continue to cause food shortages and starvation. In his 2014 book titled ‘*The War on Humans*’, Wesley Smith wrote, The anti-human side of today’s environmental movement has many manifestations.

- The deep ecology movement that would decimate human population to under one billion.
- The global warning alarmists' tyrannical and anti-growth tendencies.
- The ... notion of granting legal and enforceable legal 'rights' to nature.
- The concomitant international campaign to criminalize large-scale resource exploitation and land development projects as 'ecocide.'

At the 2021 United Nations Climate Change Conference, Sri Lankan President Gotabaya Rajapaksa gave a speech bragging about his country's move toward sustainable agriculture. Less than a year later, millions of Sri Lanka citizens faced starvation...all a result of his disastrous agricultural and environmental policies.

In the Netherlands, farmers express fury at government drives to tackle nitrogen pollution through a major reduction in numbers of pigs, cattle, and chickens.

In Ireland, geologist Ian Plimer has criticized the move for Ireland to cull 200,000 head of cattle in a bold effort to meet climate targets. Mr. Plimer said leaders telling primary producers what to do "*can only end in disaster*" akin to the Irish potato famine, where a third of the Irish population perished. To hear John Kerry the other day, we are doomed if we do not reduce our Carbon footprint to Net Zero. John Kerry jet sets around the world on behalf of Prince Charles and Klaus Schwab crying "*the sky is falling, the sky is falling.*"

Here in the U.S., under the guise of conservation, acres of usable farm land are now being expropriated for green deals. American land is being sold to our archenemy, China, whose aim is to dominate the world. The attack on meat and the insistence we eat insects are yet another means to reduce food supplies and lead to starvation.

Each leftist/Marxist maneuver dovetails with another.

Consider transgenderism. Allegedly, it is meant to show compassion for young people who may be confused about their sexual identity. Yet it encompasses the use of drugs that render the recipients sterile. It involves the surgical removal of reproductive body parts so that procreation is no longer possible.

Abigail Shrier asserts that the reason that transgenderism is exploding among young women is because "*most powerful institutions, like social media and education, impose the idea that transgenderism is an inherently good thing. This is particularly harmful for young women in partnership with the politically correct consensus that being a white person carries negative qualities such as racism and superiority.*"

Heck, it took journalist Megyn Kelly years to understand the harm of transgender beliefs and pronoun use!

Certainly, the ideology envelops young people who do not have the skills to distill the vile applications and fathom the irrevocable end results.

Todd Sterns reported In the wake of Target's decision to tone down its Pride participation, more than 200 LGBTQ groups are demanding that the retail giant restock all the Pride merchandise it pulled from store shelves and online and release a public statement "reaffirming their commitment" to the community.

The Human Rights Campaign, along with GLAAD, GLSEN and other groups, released a statement Monday calling on Target and other businesses to "*reject and speak out against anti-LGBTQ+ extremism going into Pride Month.*"

"Recent pushback against businesses such as Anheuser-Busch and Target, blatantly organized by extremist groups, serves as a wakeup call for all businesses that support

the LGBTQ+ community,” the statement read. “Businesses must continue to lead and respond with unwavering support for LGBTQ+ employees, shareholders, customers, allies — and the broader community. When values of diversity, equity and inclusion are tested, businesses must defend them unequivocally.”

The statement was signed by more than 200 other progressive and LGBTQ organizations.

Stating a three-fold demand, the organizations call on Target to release a public statement in the next 24 hours *“reaffirming their commitment to the LGBTQ+ community,”* restock all the Pride merchandise both in stores and online, and ensure the safety of Target employees. These people are nonsensical mental cases, and I say that from personal experience with members of GLAAD in 1996. Their deranged thinking is dangerous. Twenty-seven years ago I addressed a Board of Ministry in the UMC that these lunatics were not just about tolerance, which was their demands in the 1990s, but rather they wanted everyone to embrace their demonic sick life style as “normal”. We all know what happened in a Presbyterian day school in Nashville a few months ago, and her manifesto continues to be classified by the FBI as if it was a national security issue, and it yet may be a national security issue.

Chick-fil-A announced that it will now fund Covenant House, a radical LGBTQ activist organization that celebrates homosexuality and transgenderism. The founder of Covenant House, a Catholic priest pedophile, was sued for allegedly sexually abusing the youth who were seeking shelter and food. Covenant House proudly promotes LGBTQ+ on its website, referring to “LGBTQ+ Inclusion Initiatives,” and even doing an “inclusion assessment” at every one of its facilities.

Chick-fil-A has betrayed the Christian community to such a degree that it is likely the damage can never be undone. Franklin Graham was 1,000% wrong when he reassured Christians the other day that Chick-fil-A had not changed its core values. Chick-fil-A has not only changed its core values, it has re-written them to such a degree that founder Truett Cathy if he were still alive would struggle to recognize the company he founded back in 1946. Indeed, if it were possible, Truett Cathy would be rolling over in this grave right now.

When I was mobile and able to drive, Chick-fil-A was my choice for eating out because they honored the closing of their stores on Sunday. I suspect it will not be too long before that core value is thrown into the dumpster as well. We are witness to the end of the United States of America. The Antichrist System is well entrenched into the dying of America. Daniel Greenfield aptly states that *“environmentalism is just genocide misspelled.”*

Consider the embrace of ideas meant to indoctrinate young children so they can no longer think critically. Instead, they become fodder for the elites, who now deem them as beasts of burden for their own use.

In the 'Epoch Times' "Nine Commentaries on the Communist Party," one learns that during the Chinese Cultural Revolution, the "training of youngsters started in pre-school and kindergarten. It is when giving Party-sanctioned answers to questions — answers that do not comply with common sense or a child's human nature — are rewarded." Consequently, "students receive political education from primary school through college, and if they do not learn to give standard Party sanctioned answers, they are not allowed to pass exams and graduate."

- A Liberal Arts education was once a place for debate, dialogue, inculcating the value and importance of critical thinking. The term "liberal arts" for an educational curriculum dates back to classical antiquity in the West, but has changed its meaning considerably, mostly expanding it. The seven subjects in the ancient and medieval meaning came to be divided into the trivium of rhetoric, grammar, and logic, and the quadrivium of astronomy (often more astrology), mathematics, geometry, and music. A liberal arts education is known to bring about research and transferable skills in its students and practitioners.

Every day we see American colleges and universities replicating types of behavior that censor and punish thinking people. The shock that educated academics will not debate the larger issue with their peers or students assert critical thinking is sheer lunacy. Institutions of higher learning today show they are nothing more than platforms for propaganda.

And yet, as the need to hold two jobs becomes more necessary in America in order to make ends meet, there is now a mandate to begin education earlier than ever — all under the guise of helping American families, or, dare I say, controlling their children at a very early age, thus mimicking what the communists do.

Aligned with this is the erasure of factual history in American schools. Students do not learn the evils of communism and centralized governments. Indeed, the specter of communism is ruling the world and supposedly educated people seem to think the Chinese social credit score is what we need for America.

American history has been so distorted that American students are taught to despise the ideas and ideals that do make this country exceptional, notwithstanding Barack Obama's belittling of America. Obama vowed to transform this country, and his proposals have infiltrated every aspect of our lives. But how many understand his vile long-term intentions and make the necessary connections to ongoing events?

Mull over the total erasure of common sense and language specificity. When one cannot pinpoint a specific idea because of deliberate obfuscation and vague language, it becomes a challenge to refute and rebuke ongoing actions that lead to the demise of populations.

Of course, the COVID debacle is the most glaring example of pushing the genocide needle. Increased suicides among youngsters, actual health ticking bombs that lie in

wait to explode, and the deaths of 20 millions of people worldwide are conveniently ignored. This number came from the head of the WHO himself. Moreover, adverse reactions could have been prevented with the use of certain medications that were deliberately held back.

How does one explain the total blackout by the media elites so that there are still people who believe the WHO and CDC, who repeatedly lie and mislead concerning the millions of adverse reactions, never-ending health issues, and abnormal death rates from the COVID jobs? Connect the dots, dear reader.

The pharmaceutical companies knew full well the dangers of the COVID job. Doctors were prohibited from disseminating so-called disinformation even though there was ample documentation that certain medications such as Ivermectin could mitigate and prevent illness.

➤ **The World Health Organization and the European Union announced their collaboration on global digital vaccine passports at a joint press conference in Geneva on June 5. The world is one step removed from the Mark of the Beast of Revelation 13:17.**

“In June 2023, WHO will take up the European Union (EU) system of digital COVID-19 certification to establish a global system that will help facilitate global mobility and protect citizens across the world from on-going and future health threats, including pandemics,” the WHO press release states.

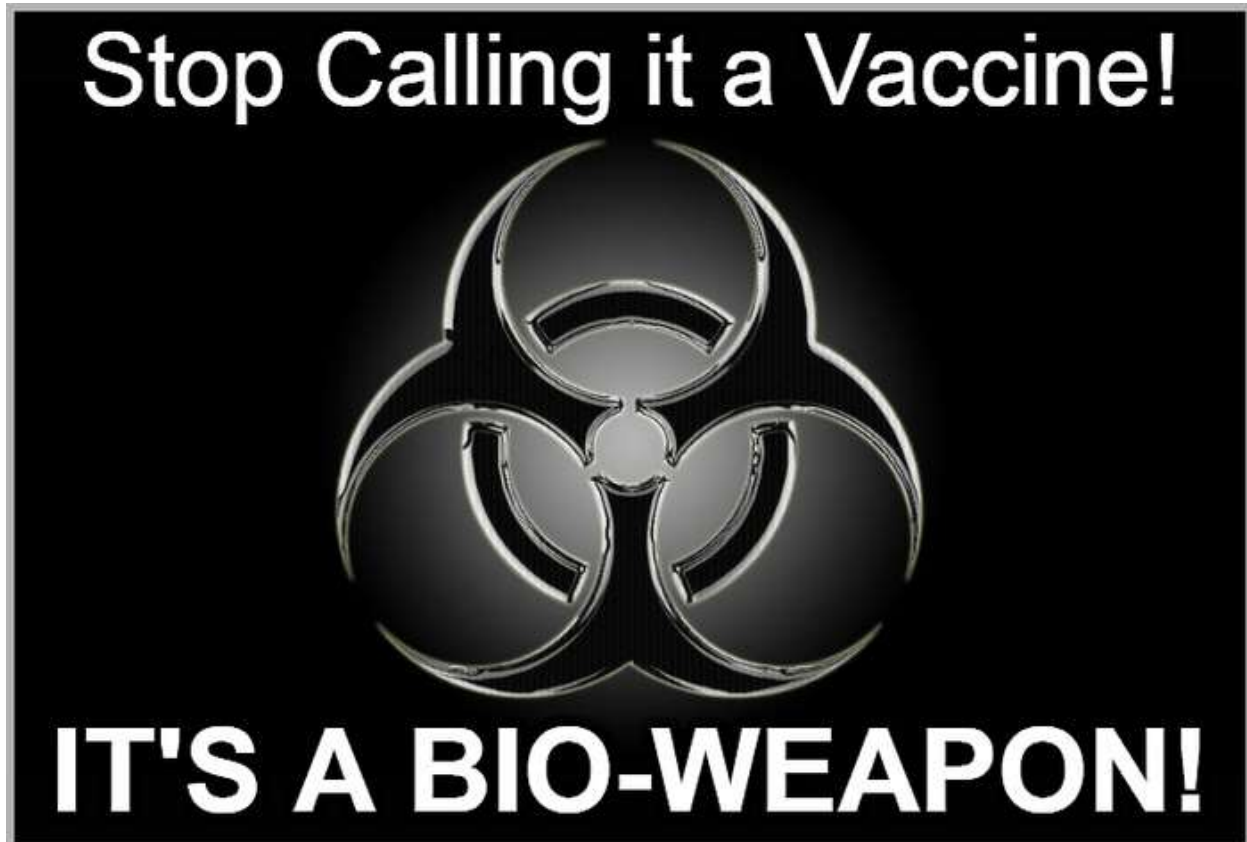

“This is the first building block of the WHO Global Digital Health Certification Network (GDHCN) that will develop a wide range of digital products to deliver better health for all.” The first building block of the global WHO system becomes operational in June 2023 and aims to be progressively developed in the coming months, the WHO press release states.

“The COVID-19 pandemic highlighted the value of digital health solutions in facilitating access to health services,” WHO director-general Dr. Tedros Ghebreyesus said during the press conference. *“While the emergency phase of the COVID-19 pandemic is now over, investment in digital infrastructure remains an important resource for health systems and for economies and societies at large.”*

The WHO has stated that they will use the [“EU Digital COVID Certificate”](#) as a model to establish a global digital health certificate.

“One of the key elements in the European Union’s work against the COVID-19 pandemic has been digital COVID-19 certificates. To facilitate free movement within its borders, the EU swiftly established interoperable COVID-19 certificates (entitled ‘EU Digital COVID-19 Certificate’ or ‘EU DCC’),” the WHO press release reads.

“With this collaboration, WHO will facilitate this process globally under its own structure with the aim to allow the world to benefit from convergence of digital certificates.”

During the height of the Covid crisis, the EU Digital COVID Certificate made it so that EU citizens could only travel to other member states if they provide proof of vaccination, recovery, or a recent negative COVID test. In some EU countries like Austria, citizens were essentially segregated from society if they refused to take to COVID injections.

“This partnership is an important step for the digital action plan of the EU Global Health Strategy,” EU Commissioner for Health and Food Safety, Stella Kyriakides said.

“By using European best practices we contribute to digital health standards and interoperability globally – to the benefit of those most in need. It is also a powerful example of how alignment between the EU and the WHO can deliver better health for all, in the EU and across the world,” she continued. *“As the directing and coordinating authority on international health work, there is no better partner than the WHO to advance the work we started at the EU and further develop global digital health solutions.”*

The EU’s Commissioner for Internal Market, Thierry Breton added that *“[t]he EU certificate has not only been an important tool in our fight against the pandemic, but has*

also facilitated international travel and tourism,” and that WHO expansion of the digital vaccine passports will be “a global tool against future pandemics.”

“The first building block of the global WHO [CONTROL] system becomes operational in June 2023 and aims to be progressively developed in the coming months,” the WHO press release states.

The WHO stressed that it “will not have access to any underlying personal data, which would continue to be the exclusive domain of governments.”

“This partnership will work to technically develop the WHO system with a staged approach to cover additional use cases, which may include, for example, the digitization of the International Certificate of Vaccination or Prophylaxis,” the WHO announced.

“Expanding such digital solutions will be essential to deliver better health for citizens across the globe.”

The cooperation between the EU and the WHO aims to “encourage maximum global uptake and participation” in their digital health certificate. Again, think control of humans under suspect policies.

“Particular attention will be paid to equitable opportunities for the participation by those most in need: low and middle-income countries.”

Global digital vaccine passports have been on the WHO’s agenda for some time. In February 2022, the agency commissioned T-Systems, a subsidiary of *Deutsche Telekom*, to develop a global digital vaccine passport system.

With the new pandemic treaty and the amendments to the International Health Regulations (IHR), if they are passed in 2024 as planned, the WHO could be “installed as a *de facto* governing body for the global Deep State,” Dr. Joseph Mercola stated.

Only demented minds with the power of Satan could such creations be introduced as a ruse on behalf of a “bioweapon” given the name Covid—19. My point in this article is to show you how close we are to the total control of humanity via the use of Cloud Computing and Block chain technology. Humanity is walking blindly to enslavement and ultimate death.

It would track and limit the movement of people around the world as well as have the potential to, as we saw during Covid, restrict people from buying and selling unless they can show digital proof of having received a certain medical treatment. Never before in the history of the world has this taken place. Think “Mark” of the Beast in Revelation 13:17!

➤ As of February 2023, Rochelle Walensky and the CDC still were thinking it is acceptable to forcibly mask children. And Biden's latest pick for CDC director will

double down on regulations that resulted in emotional, physical, mental, and educational catastrophes for young people of all ages. The next lockdown was predicted by the likes of Gates and Fauci so that when it takes place you will recall their words.

Even more blatant is the obsession with erasing whites from the world. Victor Davis Hanson writes that *"one of the tenets of the early civil rights movement some 65 years ago was ending racial stereotyping."* But this clearly has been *"abandoned by the Left in favor of racial stereotyping, collective guilt, and scapegoating by race and gender."*

Sadly, history informs us that these are the perfect ingredients for calls to genocide. After all, according to Hollywood guru Jane Fonda, white men are responsible for environmental disasters.

Racism has come roaring back, and this time, the "other," or those to be despised, are Caucasian males. This kills two birds with one stone. Males are no longer important; thus, they are to be eradicated, and whites need to be obliterated because they are a blight on society.

These attacks are subsets of an ideology that encompasses every aspect of our lives. Understanding this is the first step to fighting what will indubitably harm us.

➤ I began this Blessed Hope to show that Prince Charles has been working behind the scenes in his "pedal to the metal" propaganda style of keeping his Sustainable Development Net-Zero Carbon Dioxide junk science in the direction of national suicide. His hands are in the mix of every issue or topic I have touched upon. Charles managed to take several days this past week to visit his Dracula ancestral family residence in Transylvania, Romania.

The Prince of Wales owns a 18th century guest house in the village of Viscri, Romania, one of the most beautiful of all the Saxon villages and their fortified churches, Viscri is also impressive because it's a "survivor".

In fact, the communist regime wanted to turn the entire village to dust. The Prince of Wales gave a speech urging the Ceausescu regime against the destruction of its villages. Prince Charles established a Prince of Wales Foundation there to push his sic ideology.

At the same time, the foundation called Operation Villages Romania was started in France, Belgium, and Holland. They chose a village that was on the communists' list to be bulldozed – Viscri – and saved it.

Prince Charles visited Transylvania for the first time in 1998 and has returned here every spring since.

The newly appointed monarch is a descendant of Vlad the Impaler, the 15th century ruler of the Romanian region of Wallachia, famous for his namesake torture method. Vlad was known to kill his enemies by impaling them on wooden stakes, initiating an excruciating death that could sometimes take up to three days. His brutal actions made him the assumed inspiration for Bram Stoker's "Dracula."

Prince Charles is the great-grandson 16 times removed of Vlad, through the consort of George V, and Queen Mary. In fact, the new British king has a longtime love for Romania, especially Transylvania, which he first visited in 1998. He bought and restored an 18th century cottage in the village of Viscri. He's also done charity work in the region through the Prince of Wales Foundation, including farming systems, sustainable development and conservation endeavors.

In 2017, the mayor of the city of Alba Iulia claimed they invited Charles to accept the honorary title of Prince of Transylvania for his love and commitment to the region.

But Charles now has his "sausage fingers" full with royal duties as he and his famous family continue to mourn the death of Elizabeth, who died September 8, 2022.

The Ukraine war has taken a turn for the worse with Zelensky blowing up the Kakhovka hydroelectric dam in Russian-controlled Crimea. Blaming the destruction on Russia, Zelensky has made unbelievable demands of NATO. A so-called Ukraine counter-offensive spring attack has been according to people on the ground have been of little more than talk. Russian forces destroyed numerous NATO donated tanks and have killed 3 British soldiers inside the Ukraine in their UK uniforms. From June 4th to June 8th, Ukraine has lost close to 400 armored vehicles, 115 tanks and close to 5,000 personnel on the Zaporozhye, Artemovsk (i.e. Balhmut), and Southwest Donetsk Tactical Regions. The intensity of the enemy attacks have decreased, however, a whole army in the reserve is waiting to attack. Then on Wednesday, June 7th, Neocon war hawk Victoria Nuland said the war against Russia begins on June 11th.

I think it's fair to say that, if Victoria Nuland says WWIII will begin on 11 June 2023, then WWIII will begin on 11 June – and as one general said you can bend over and kiss your ass goodbye. It will be over the same day it begins, where an estimated 100,000,000 will die in the first hour of battle. Russia has the most formidable nuclear force the world has ever seen and has made it crystal clear that, once a nuclear attack occurs on Russia, it will go into full launch mode. They are hard wired for a "Dead Hand" response. This simply means mutual destruction. One sign of NATO launching an attack will result in the totality of the Russian missile system will be launched simultaneously against the West. The Western media has kept the truth about Ukraine from the public back home, intentionally to make it appear that Russia was losing. The case is the exact opposite.

Prince Charles has been vocal in the past against Russia and its efforts to hold the provinces that voted to stay with the Russian Federation. The UK has been a driving force in promoting military aide and assistance to the Nazi Zelensky regime. It's unlikely

that the UK would be so anti-Russia if Charles was interested in negotiated peace talks in the region. Politically and economically, Russia becomes a huge obstacle in Prince Charles plan for the Anglo-American Beast System of the Antichrist to control the whole world. This is visible in the 31 nations that have signed on to the BRICS system of payments, that was forced by the western nations sanctioning Russia and blocking use of the SWIFT system of payments. Remember it was Vladimir Putin who paid off its debt to the Rothschild banking system through the Bank of England, owned by the Rothschild financial dynasty! Putin through the Rothschild's out of Russia and its financial needs.

The Bran Castle was the home of Count Dracula where nearby Prince Charles has a villa. King Charles III boasts a bloodied family tree thanks to an infamous distant relative. Prince Charles cottage is modest by comparison with his other estates around the world. His attempt promoting the (pipe dream) simple lifestyle of the 18th century belies his tastes of royalty and no one should ever forget that distinction which sets Charles apart from you or me! With Charles wealth he can live his dream at will whatever way he desires.

The next two weeks could very well see the outbreak of nuclear world war, and a change to all our lives that will never return to "normal."

With less than fifty days until the 9th of Av we can only begin to imagine what old "sausage fingers" has in store for humanity. After posting this, I will probably recall something that I either forgot or have missed in the media reports of what is happening in the UN Climate Change agenda. Chances are your patience is stretched to the limits and I sense the anxiety that the Israelites experienced in their Exodus at the Red Sea!

Blessed Hope #159 focused on both the Biblical historical events associated with the 9th of Av. I raised the question:

Could There Be a Rapture Blessing Hidden Within a Jewish Curse?

I noted several pages further up about Iran's claim to have produced hypersonic missiles, able to reach Israel's major cities in 400 seconds! My math tells me that is just six minutes. If that does not bring terror to Benjamin Netanyahu at bed time, what will? Let me encourage you better go back and read Ezekiel 20 because it is now becoming clear the clock is running down! **Humanity has never been at this point on the Doomsday Clock before. This symbolic clock of the Atomic Scientists is set at a time of unprecedented danger: It is currently set at 90 seconds to midnight!**

We don't have much time by any measure so look up and be ready for the trumpet call! I do believe the 9th of Av portends of the Rapture event specifically to allow the nation of Israel to be dealt with as Ezekiel writes and makes it clear only He, God the Creator of the Universe will come to their hour of need. Other possible dates could be the summer equinox on June 20/21st and the Fourth of July, a target date for China or Russia to attack the U.S.A. and raining bombs down on the National holiday! For years, the words of Hilton Sutton have echoed in my mind: *"When the bombs are descending, the saints will be ascending!"*

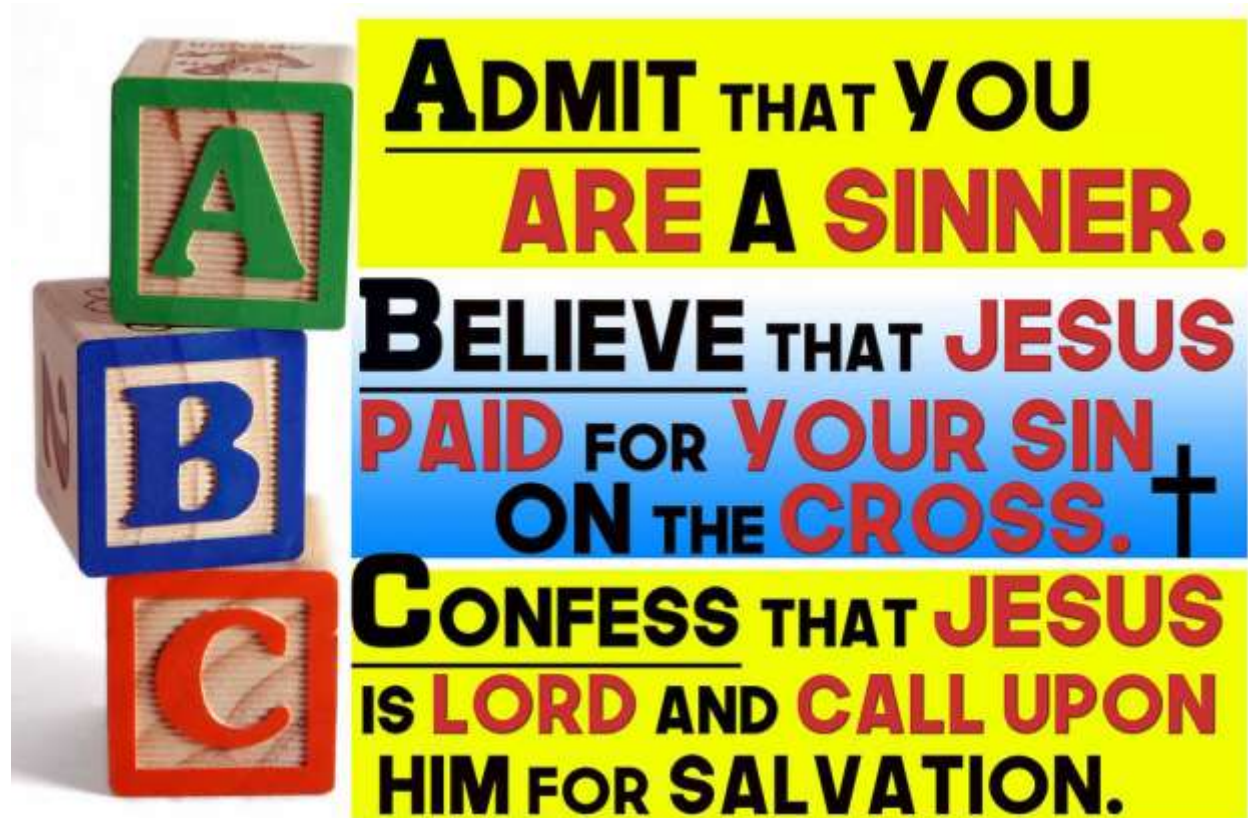

Remember this – this is God's War between The Antichrist and the true Christ of the Bible. Regardless of what credentials Prince Charles has counterfeited, he cannot win. God has given him only "seven" years before the Antichrist will be terminated. Ephesians 6:12 warned the church – *"For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."* If you read a few verses later we are told to put on the full armor of God.

Ephesians 6:13-20 is for us today in dealing with the essentials for occupying until we are called home! **The Apostle Paul stressed the expression to "withstand" in the evil day! Folks we are there and Jesus Christ will win this war.** The Bible told that to us in advance as well so that we would know what he said came true we would remember where we read it!

Praise God!
