Ukrainian military lost most of the M2 Bradley AFVs that were used in its recent counter-offensive

June 13, 2023

Ukrainian soldiers said that most U.S.-made M2 Bradley armoured vehicles were destroyed during the counter-offensive in the Zaporozhye region. According to *AFP*, the vehicles were destroyed just outside the small town of Orikhiv.

“Of nine vehicles attached to the group’s mechanized infantry unit — not the only one involved in the battle — six were wrecked, three damaged but repairable, and one was unscathed,” AFP reported, adding that a Ukrainian soldier said only “very small progress” was made against the Russian army.

“Who would be happy receiving those orders, ‘Go and take those Russian positions which are well protected’?” a senior officer, who asked not to be identified, said according to *AFP*.

In early June, Russian Defense Minister Sergei Shoigu said that in the direction of Zaporozhye, Ukrainian troops consisting of 1,500 fighters and 150 armoured vehicles tried to break through Russian defenses but lost up to 350 troops and 30 tanks in two hours. The minister stressed that the Ukrainian brigade was stopped in all zones toward Zaporozhye.

With the Ukrainian offensive underway, Kiev has virtually no gains to show. In contrast, images of destroyed Leopard tanks and Bradley infantry fighting vehicles used by Ukrainian troops have circulated on social media. For this reason, several experts have warned about a heavy military defeat for Ukraine and another geopolitical failure for NATO, which again is resorting to intervention in remote territories outside its jurisdiction to achieve its objectives against Russia.

While the U.S. and its allies have generously provided Ukraine with weapons and military vehicles during the current conflict, Ukrainian forces are institutionally and operationally incapable of successfully absorbing the wide and inconsistent array of equipment and weaponry on the battlefield.

Nonetheless, the U.S. and the UK need Ukraine to launch a counteroffensive as they are the main financiers of Kiev's escalation but are experiencing growing poverty and economic crises and therefore need to justify to their citizens the vast money sent to Ukraine.

Former Central Intelligence Agency agent and Executive Director of the Council for the National Interest, Philip Giraldi, warned that Western media are trying to make it appear that the Ukrainian counter-offensive is succeeding and that Ukraine's forces are encroaching on Russian positions. In this sense, and despite what is happening on the battlefield, Giraldi stressed that U.S., UK, and German politicians are obliged to speak positively about the situation in Ukraine.

Despite the rhetoric, images of destroyed M2 Bradley infantry fighting vehicles and German-built Leopard 2A6 tanks abandoned and burning on the Ukrainian battlefield, the harsh truth about the futility of defeating Russia is starting to sink in. The reality is that Ukraine never had the capabilities to achieve its stated goal of piercing Russian defenses to sever the land bridge connecting Crimea to Russia proper.

The Western hope was that Russia would be demoralized by these casualties and accept a negotiated end to the conflict on terms acceptable to Ukraine and its Western allies. Evidently, Ukraine and its allies have failed.

The genesis of this failure can be attributed to two things. First, the low opinion that Ukraine and its NATO allies had of the combat capabilities of the Russian Army and the forces deployed in the Zaporozhye region, and second, the unrealistic expectations placed on the NATO training and equipment that were provided to Ukrainian forces and assigned to the task of breaking through Russian defenses.

It is reasonable to assume that, using intelligence assessments that highlighted perceived command and control weaknesses and low morale among Russian forces, NATO and Ukrainian military planners believed that Russian defenses in the Zaporozhye sector would collapse under the weight of a NATO-style assault.

Although fighting in Zaporozhye is not yet over, initial results on the battlefield show that contrary to the expectations of Ukraine and its NATO partners, the Russian military professionally performed their tasks, decisively defeating Ukrainian forces. NATO and Ukraine gambled that Russia lacked the military capability to successfully implement its military doctrine, believing that Russian command teams lacked the necessary communications to coordinate the complex operations needed and that Russian forces — especially those that were recently mobilized — lacked the training and morale to perform well in stressful combat conditions.

NATO and the Ukrainian high command threw the Ukrainian brigades into the grip of the Russian defensive lines without adequate fire support, thinking that the Russians were unable to maximize their superiority in artillery and air power to neutralize and destroy the forces of Ukrainian attackers before they could generate the momentum

expected. Instead, this led to the humiliating loss of most of the US-made M2 Bradley provided to the Ukrainian military for this front.

The administration of US President Joe Biden is going to approve the provision of depleted uranium tank munitions to Ukraine, US media reported on Tuesday, citing US officials.

After weeks of internal debated on how to equip the Abrams tanks that the United States has provided to Kiev the White House is expected to agree on the transferring of depleted uranium tank shells to Ukraine, the newspaper said, citing administration sources.

Although some officials say that there are no serious obstacles to approving the shipment of depleted uranium munitions, others express concern that due to the transfer of such shells; Washington could be criticized for providing weapons that pose a danger to human health and the environment, according to the newspaper.

In addition, the White House is still discussing the possibility of providing cluster munitions to Ukraine, among other arms, according to the news outlet.

In late April, UK Deputy Defense Minister James Heapey said that London had sent Kiev thousands of shells for the Challenger 2 main battle tanks it donated, including some with depleted uranium. Kremlin spokesman Dmitry Peskov, commenting on the transfer of depleted uranium shells to Ukraine said that London will have to bear responsibility for the consequences.

Biden's Special Presidential Envoy for Climate, the former Senator John Kerry, has declared that it's time to follow in the Netherlands' footsteps and crackdown on privately owned farms to fight climate change.

According to Kerry, the United States must massively reduce farming to meet the radical "green agenda" goals laid out by World Economic Forum (WEF) and the United Nations (UN).

"A lot of people have no clue that agriculture contributes about 33 percent of all the emissions of the world."

"Depending a little bit on how you count it, but it's anywhere from 26 to 33. And we can't get to net zero, we don't get this job done, unless agriculture is front and center as part of the solution. So all of us understand here. The depths of this mission."

But most people are still refusing to understand the real depths of this mission – and who exactly is pulling Kerry's puppet strings.

Delivering these remarks at the Agriculture Innovation Mission (AIM) for Climate Summit held in Washington, D.C., Kerry neglected to acknowledge the undeniable fact that the agriculture industry plays a vital role in providing sustenance and ensuring the survival of all approximately 8 billion people worldwide.

According to Kerry, America must follow the WEF blueprint for eradicating farmers to meet the "green agenda" goals laid out by the globalist elites.

Kerry claims that the agriculture sector *"needs innovation now more than ever. We're facing record malnutrition, at a time when agriculture more than any other sector is suffering from the impacts of the climate crisis."*

The answer to malnutrition, according to Kerry and his masters in the WEF, is a diet rich in insects, bugs, and crickets, and extremely low in meat, vegetables, grains, nuts and fruit – the foods that have nourished humanity since the dawn of the time.

And the answer to the climate crisis, according to Kerry, is handing over our sovereignty to the global elite.

This is the same Kerry who in 2021 hysterically warned that humanity only had ["nine years left"](#) to avoid a cataclysmic event brought on by climate change.

You can be sure that date will come and go with Kerry's prediction unfulfilled.

Modern doomsayers have been predicting climate and environmental disaster since the 1960s. They continue to do so despite being proved wrong time and time again.

None of the [apocalyptic predictions](#) with due dates as of today have come true.

Despite being categorically and repeatedly wrong about everything, Kerry and the climate cultists are doubling down, and declaring the time is now to seize private property and hand it over to the global elite.

Listen closely to his words – *if we don't get control of what we are doing.*

The WEF-infiltrated country of Ireland has [announced](#) plans to slaughter millions of cows as part of a plan to reduce the country's greenhouse gas emissions.

Not only that, but the taxpayer will be footing the bill to cull the cows. Talk about sadistic. Not only are the WEF forcing the Irish government to incinerate their cows, they are making the people pay for it.

This is a pattern that is emerging in WEF conquered countries. The global elite reduce the quality of life for ordinary people – *and* they rub their noses in it while doing so.

In Canada, the Trudeau government has made a plan to reduce emissions from agriculture, of which the sector contributed 10 percent to the nations CHG emissions in 2019, punishing farmers and pushing them to the brink of bankruptcy by forcing them to reduce their use of nitrogen fertilizer, even though Canada is already among the most sustainable growers in the world.

According to the WEF-penetrated Canadian government, if the farmers don't like being reduced to poverty and becoming reliant on government welfare, they can always apply to be euthanized by the state.

The Netherlands launched a plan to seize vast swathes of farmland to supposedly reduce emissions from agriculture by [buying and closing farms](#) and [restricting](#) the use of nitrogen fertilizer.

These are dark and dangerous times.

The last time a government embarked on a large-scale farm seizure program, the country was plunged into man-made famine. Robert Mugabe's Zimbabwean government [seized](#) large swathes of land from white farmers in the country, triggering a rapid downturn in the country's economy.

The United States and Europe are not Africa, but forcibly seizing farmland for any reason is always a bad idea and always has disastrous consequences for ordinary people. Here is the man behind Klaus Schwab at the WEF, he is the Biblical Antichrist. The world has yet to wake up to old "sausage fingers" who will be 75 on November 14, 2023. If you doubt me, I can provide you with the evidence. I have dozens of articles on old "sausage fingers" (picture below). In fact, I will include with this picture below, most of the Bible references to the Antichrist. Prince Charles still dominates the Apple© Siri News on the cell phone app presenting him as a docile king of the people. It's all bovine excrement!

Zimbabwe went from being an agricultural export powerhouse, known as the breadbasket of Africa, to having to rely on handouts from the United Nations' World Food Programme.

Hyperinflation, famine, and a multi-decade economic depression followed.

This is exactly what the global elite have planned for us.

Charles apparently suffers from edema or swelling of the hands. It is listed as Lymphedema and can be quite painful. I have suffered with Lymphedema of the lower legs and feet since we got Wi-Fi installed in June of 2010. I am hyper-sensitive to electricity.

The Dutch Prime Minister Mark Rutte, a close friend and confidante of Klaus Schwab, has made it clear what the global elite are planning for us. The policy to bankrupt small farmers and forcibly buy the rest out is well under way.

So what comes next? According to Rutte, the global food supply will be controlled by the WEF, with four global food hubs, controlled by Bill Gates, America's top owner of farmland, and the largest farming corporations on the planet.

How terrible for the good people of Holland to be under evil fascist WEF control, and only 78 years after the end of the Nazi regime.

But if we are not careful, the new fascism will have even worse consequences for the people of the world.

The Dutch Prime Minister gave us an insight into the stakeholder capitalism model that Klaus Schwab has been promoting in the lectures halls of Davos for decades.

A few huge corporations will be merged with the government, which is penetrated and controlled by the global elite. And we, the peons who have been allowed to survive, will be fully subservient and reliant on the elites.

These psychopaths think they have it all worked out. But there is just one problem for John Kerry, Justin Trudeau, Mark Rutte and their globalist cronies. We are onto them. We have been exposing their lies and failed predictions for years. Mainstream media is refusing to hold the elite to account, so we have had to fill the breach.

And we are succeeding in our goals. With every passing day, more and more people are waking up and, thanks to people like yourself who are spreading the word regarding the real agenda of the elite, the globalist's plans are starting to fall apart at the seams.

THE BIBLICAL PROPHECIES CONCERNING THE RISE AND FALL OF ANTICHRIST

Don't let anyone deceive you in any way, for that day of *gathering (the rapture)* will not come until the great apostasy occurs and the man of lawlessness is revealed (*present tense with the falling away, rebellion*), the man doomed to destruction. –(2nd Thessalonians 2:3)

Craig Bong is an Antichrist watcher and recently shared a list of 60 passages that Prince Charles fulfills and the Identity of Mr. “666”. You might ask why are these passages scattered throughout the Bible in the first place? Most people do not believe the Bible is the Word of God, and that is true for most denominations. God knew one day that a need would exist to bring to an end to the evil in the world and God “seeded” Scripture with text that would easily be recognized as the identity of this false messiah. God even included a passage to this effect: **“For precept must be upon precept, precept upon precept; line upon line, line upon line; here a little, and there a little:”** -(Isaiah 28:10). God repeated it in similar fashion in Isaiah 28:13! When the Bible was written, the writers had no idea of what they were recording for future readers far into time.

The Bible is multi-layered in its understanding but there is so much more that we know about God's Word. One of the most astonishing passages of the Old Testament is Isaiah 19:19-20. It is called "The Great Pyramid Text". These two verses contain 30 words in English and Hebrew text which yields a hidden numerical [Gematria] value. The total numerical value of those 30 words is **5,449**. This is the exact height of the unfinished Great Pyramid in Pyramid Inches. The Pyramid Inch is the standard British measurement used by archeologists in the 18th century. From the base of the Great Pyramid to the unfinished apex the physical height is **5,449** inches.

The KJV text reads as follows and you can know for certainty not just the location but also who it was responsible for its construction:

¹⁹"In that day shall there be an altar to the LORD in the midst of the land of Egypt, and a pillar at the border thereof to the LORD. ²⁰And it shall be for a sign and for a witness unto the LORD of hosts in the land of Egypt: for they shall cry unto the LORD because of the oppressors, and he shall send them a saviour, and a great one, and he shall deliver them."

The Hebrew Gematria for Prince Charles of Wales is found in chart form on the next page. His name converted from Hebrew Gematria is "**666**" in English, Hebrew, and Greek. **PRINCE CHARLES OF WALES IS THE ANTICHRIST OF REVELATION 13!**

Book of Revelation' Predictions Occurring Right Now!

River Euphrates Drying Up Rapidly

"Saying to the sixth angel which had the trumpet, Loose the four angels which are bound in the great river Euphrates." -(Revelation 9:9)

Every person on Earth who do not take their Bibles personally will be in "heap big trouble" very soon. An overwhelming prophecy is literally occurring right here and right now.

The Euphrates River is really and truly drying up, fulfilling this prophecy:

" The sixth angel poured out his bowl on the great river Euphrates, and its water was dried up, to prepare the way for the kings from the east." –(Revelation 16:12-16)

"And I saw, coming out of the mouth of the dragon and out of the mouth of the beast and out of the mouth of the false prophet, three unclean spirits like frogs. For they are demonic spirits, performing signs, who go abroad to the kings of the whole world, to assemble them for battle on bathe great day of God the Almighty ... Armageddon." -(Revelation 16:13-15)

One-third of Mankind will be murdered by the four angels whom God has released from the dried-up Euphrates River!

Prophecy Being Fulfilled RIGHT NOW!

"And the sixth angel sounded, and I heard a voice from the four horns of the golden altar which is before God, .Saying to the sixth angel which had the trumpet, Loose the four angels which are bound in the great river Euphrates. And the four angels were loosed, which were prepared for an hour, and a day, and a month, and a year, for to slay the third part of men." -(Revelation 9:13-15)

In other words, when Mankind sees the River Euphrates drying up, we shall see another sign being fulfilled, the four massively powerful Fallen (Evil) Angels, coming forth to ravage, pillage, and kill.

"Together with the Tigris, the Euphrates carves through present-day Syria and Iraq before emptying into the Persian Gulf. For thousands of years, the twin rivers have allowed farming communities and grand cities to flourish in Mesopotamia, which is considered the cradle of some of the world's earliest civilizations. However, for several decades, it's become increasingly apparent that the Tigris–Euphrates river system is drying out. A government report in 2021 warned that the rivers could run dry by 2040 due to declining water levels and droughts ..."

How great are the scientific statistics?

"... data show an alarming rate of decrease in total water storage in the Tigris and Euphrates river basins, which currently have the second fastest rate of groundwater storage loss on Earth, after India," said Jay Famiglietti, principal investigator of the study and a hydrologist and professor at UC Irvine ..." (Ibid.)

"The strain is already starting to show, but a total collapse of the river system would spell disaster for the region. Millions of people across Turkey, Syria, and Iraq rely on the Tigris-Euphrates for water. As the rivers start to struggle, international disputes over

access to water are already heating up. These arguments have also prevented governments from effectively reaching any solution to the problem. " (Ibid.)

Inhabitants of Earth will literally wilt under the crushing burden of evil angels being let loose from their Supernatural prison all at once!

The Biblical point of emphasis here is completely different than the ones emphasized above.

The Bible emphasizes the reality that, as the waters recede, structures looking like prisons have been uncovered. This shocking reality means that God is about to prove, once again, the reality of His End Times Prophecies. One of God's prophetic plans is to loose the most malevolent , vicious demons in all of world history. God had to preserve His creation by seizing those four fallen angels and imprison them under the Euphrates River.

**"Loose the four angels which are bound in the great river Euphrates."
Waters have receded enough so that prison bars have emerged! ("The Euphrates River FINALLY Dried Up: But Now Something Has Emerged" -(Revelation 9:5-15)**

When these evil Fallen Angels are finally released from God's 5,000-year prison term, they are going to be filled with supernatural hatred for all mankind and they are not going to waste any time ripping and mutilating human victims. (Remember, none of God's Chosen are left on Earth, having been taken up in the Rapture!)

"For the prophecy came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost." -(2nd Peter 1:21)

The US Navy is replacing a top Admiral with one who has Southeast China experience.

NEWS BRIEF: "Navy admiral with Pacific experience tapped as next top naval leader ", The World News, 6/12/2023

A Navy admiral with extensive experience in the Indo-Pacific has been recommended to be the service's next top leader ... Adm. Samuel Paparo, current commander of the Navy's Pacific Fleet, was recommended by Defense Secretary Lloyd Austin and is on tap to be nominated as the next chief of naval operations ... Paparo is a naval aviator and a TOPGUN graduate with more than 6,000 flight hours in Navy fighter jets and 1,100 landings on aircraft carriers. A Pennsylvania native, he graduated from Villanova University and was commissioned into the Navy in 1987.

Prior to his Pacific tour, he was commander of naval forces in the Middle East, based in Bahrain, and also previously served as director of operations at U.S. Central Command in Florida.

Bringing on a commander who as expertise in that part of the world certainly is strong indication that the President expects to need his most important leadership ready to take on the most powerful potential enemy: Communist China!

But, alas, RINO Republicans have always reneged on exercising the power they possessed.

NEWS BRIEF: "Trump vs. the 'RINOs', National Interest, February 2, 2023

"Only seven Republican senators dared to buck the GOP majority in the impeachment trial vote, and their political futures seemed dead—shunned among party colleagues and by their constituents ... The Democrats don't have grand-standers like Mitt Romney, little Ben Sasse, Richard Burr, Bill Cassidy, Susan Collins, Lisa Murkowski, Pat Toomey;" Trump said speaking at the Conservative Political Action Conference, where he also named ten House Republicans that voted to impeach him."

"Trump went on to add at CPAC: 'Republicans do not stick together. The RINOs that we're surrounded with will destroy the Republican Party and the American worker and will destroy our country itself.'"

"... as Trump said at CPAC, "I'm announcing that I will be actively working to elect strong, tough and smart Republican leaders."

*"Whatever fallout comes for Republicans that backed Trump's second impeachment will likely be in the House, where voters will render a verdict in 2022. There may be some political casualties here, but by this time conservatives will focus on policy and stopping the Biden-Harris agenda more than an impeachment that amounts to a blip on the political radar screen." **Biden will walk.***

Passport Scheme: Is the CCP Invading America Through Benedict Biden's Southern Border Loophole?

Something strange is happening.

There are three confirmed invasions happening at our southern border. The obvious one is the sheer mass of illegal aliens from across the globe stealing our sovereignty. The other obvious invasion is that of drugs, particularly fentanyl, which are killing Americans at unprecedented rates. The third, less-discussed invasion is the ticking time bomb of known and unknown terrorists coming across with the aforementioned masses.

Is there a fourth invasion happening as well? We've known there are tens of thousands of Chinese illegal aliens coming across; over 13,000 have been apprehended since October. But what if these aren't just illegal aliens among the other masses from other nations? What if this is part of a planned infiltration?

Michael Yon noted that the Chinese Communist Party had recently given instructions to Chinese citizens coming into America through "irregular channels":

China openly invading USA: This is published today by LA Consulate General. It called Chinese people who lost passports entering U.S. "in abnormal ways" to apply for new passports in the LA Consulate General.

Very suspicious. Why does CCP help people get passports to leave China? They escape China with new passports, arrive in places like Istanbul, Amsterdam, Quito, Cancun, and then ditch passports before crossing into USA. Now getting new passports from their government. CCP famously never is so helpful.

The recent posting from the Chinese consulate that Yon linked to instructs Chinese citizens on how to get their passports or emergency travel documents. But here's the thing. For them to have left China, they would have had to have their passports initially. Unlike the United States, China takes their border security very seriously in both directions and it's extremely difficult for people to leave the country without permission.

The only reason it would behoove Chinese citizens to use their passports to leave China, then lose their passports en route to the United States is if they were intentionally taking advantage of the Biden-Harris regime's border policies. If they enter legally, they can be easily expelled. If they "lose" their passports and enter through "irregular channels," they are treated by a completely different set of rules.

Most importantly, they get to stay under the Biden-Harris regime's policies.

Is this all an elaborate scheme to plant as many Chinese nationals loyal to the CCP on American soil, spread across American cities through the disbursement plans of the White House and state governors? Reports have indicated these groups are almost entirely made up of military-aged males. If the Chinese Communist Party wanted to infiltrate America at this time, that type of scheme seems like the most obvious.

Stay frosty, folks. Something's not right. In fact, very little seems to be right in America lately.

China Orders 15,000 Iranian Drones for "Potential war with Taiwan, Japan and Australia"

HAL TURNER 11 JUNE 2023

China Orders 15,000 Iranian Drones for *"Potential war with Taiwan, Japan and Australia"*

A very serious development has taken place: China has placed an order with Iran for 15,000 "Shaheed 136" military drones, with differing types of engines for different war fronts. The entities with whom China expects war?

According to a Commander with the Iran Revolutionary Guards Corps (IRGC) which accepted the order, China is preparing for war in Taiwan, Japan, and Australia.

Iran has created a huge business opportunity for themselves selling these drones, which appear to be incredibly effective for Russia inside Ukraine right now.

Based on how many they are already selling to Russia, Iran must already have tens of thousands; which should give pause to their pipsqueak, but big-mouthed neighbor, Israel.

Historically, this is interesting because ancient Persians were known for shooting crazy amounts of arrows into the sky against their enemies to completely overwhelm them.

Australia will soon start reducing cattle numbers to reduce methane emissions as part of Prince Charles “Sustainable Development”

Date: [June 12, 2023](#) Editor, [Cairnsnews7](#)

What about natural swamps and wetlands emitting massive amounts of methane?

This ‘policing’ of farmers and pastoralists probably emerged from the Australian ‘high level’ attendance at the Global Methane Hub in Santiago, Chile. May 2023

<https://www.globalmethanehub.org/2023/05/17/major-livestock-producing-countries-commit-to-mitigate-methane-in-agriculture/>

As one might expect, these sociopaths are committed to reducing food production and livestock under the guise of limiting bovine flatulence / methane.

Here is a quote from John Kerry, representing the U.S. at the Global Methane Hub in Santiago, Chile. ***“Mitigating methane is the fastest way to reduce warming in the short term. Food and agriculture can contribute to a low-methane future by improving farmer***

productivity and resilience. We welcome agriculture ministers participating in the implementation of the Global Methane Pledge,” said John Kerry, U.S. Special Presidential Envoy for Climate.

All natural swamps and lowlands will have to be drained because of their methane input. How will the ALP do this? These people are all sociopaths and psychopaths and deranged to believe their measures will save anything.

KLAUS SCHWAB’S WEF SETS AUTHORITARIAN GOAL: LIMIT 75% OF PRIVATE CARS BY 2050

In a push to counter the so-called ‘climate change,’ the globalist World Economic Forum (WEF), under the leadership of its founder and Executive Chairman, Klaus Schwab, has proposed a comprehensive plan aiming to limit [reduce by] 75% of private cars by the year 2050. The original statement meaning was a bit deceiving but the goal is to reduce the number of cars on the road by 75%.

This from [survivethenews.com](https://www.survivethenews.com).

The authoritarian objective is a part of WEF’s broader vision for a ‘sustainable and low-carbon future,’ as outlined in its [Urban Mobility Scorecard Tool](#): Benchmarking the Transition to Sustainable Urban Mobility in collaboration with Visa in May 2023.

According to WEF’s recently published white paper, by 2050, people are likely to travel twice as much within cities as they do now. If people don’t change anything, this would mean that there would be 2.1 billion cars, buses, and other vehicles on the road, emitting 4.6 billion tons of carbon dioxide.

The paper suggests if we can get more people using shared transport, like public buses or ride shares, and if we can switch to electric cars and self-driving vehicles, we could bring the number of vehicles down to just 500 million by 2050. This would dramatically reduce our carbon emissions – ‘by 80%.’

The reduction from 2.1 billion vehicles to 0.5 billion vehicles is a decrease of 1.6 billion vehicles. So, the reduction of vehicles from 2.1 billion to 0.5 billion represents a decrease of about 76.19%.

When you see these WEF reports, the end may sound good but there is an unseen invisible factor of lost jobs, lost employment in different forms of supply chains, related industries, social problems that come with unemployment, crime, early death to drugs, alcohol, etc. The real “unstated” agenda is depopulation plain and simple. Prince Charles and his late father Prince Philip, and the elite of the world were in one way or another involved with the Club of Rome and its agenda to find ways to cull humanity. It has been a statistical fact that a single manufacturing job will create eight to ten jobs in related new business and services jobs. In some advanced manufacturing sectors, such as electronic computer manufacturing, the multiplier effect can be as high as 16 to one, or 16x, meaning that every manufacturing job supports 15 other jobs."

Benefits of adopting a shared, electric, connected and automated (SEAM) approach to urban mobility by 2050

- Reduce vehicles from a potential 2.1 billion to 0.5 billion
 - Mitigate >80% of CO₂ from passenger transport
 - Free up 75% of urban public space
 - Decrease measured mobility costs by 40%
 - Save ~\$5 trillion per year
- Source: Fulton, L., Mason, J., & Meroux, D. (2017)⁴

Source: The Urban Mobility Scorecard Tool: Benchmarking the Transition to Sustainable Urban Mobility (May 2023)

Moreover, WEF stated that switching to electric vehicles isn't enough to achieve these benefits. People need to combine it with more use of shared transport and changes to how our cities are designed. This means making cities more compact and easier to get around by walking or biking, and prioritizing public and shared transport.

[Lifesite News](#) reported:

The WEF recently ran a trial of its [Urban Mobility Scorecard Tool](#) and chose Buenos Aires, Argentina, Curitiba, Costa Rica, and Singapore as trial cities.

The white paper by the WEF names containing 'the growth of private car use by boosting public transport, cycling, and shared mobility services' as a major 'ambition area' for Buenos Aires.

'The capital of Argentina is seeking to enhance sustainable mobility to keep people moving while offering more connected, integrated transport,' the paper states.

The city is also 'embracing new solutions to reduce private car dependency and provide a well-integrated, multimodal transport system,' according to the WEF.

Journalist Tim Hinchliffe, editor of *The Sociable*, pointed out that '[t]he Urban Mobility Scorecard Tool white paper gives further credence to the WEF's prediction that by 2030 **'You'll own nothing. And you'll be happy.'**

The phrase: "You'll own nothing. And you'll be happy" is associated with the WEF and its agenda for what it calls the "Great Reset."

The "Great Reset" is a proposal by the WEF to rebuild the economy sustainably following the COVID-19 pandemic.

This phrase originates from a short video the WEF posted in 2016 on [Facebook](#), titled **"8 Predictions for the World in 2030."**

One of the predictions listed in the video was that by 2030, **"You'll own nothing. And you'll be happy."**

8 predictions for the world in 2030.

1. You'll own nothing. And you'll be happy.
Whatever you want you'll rent. And it'll be delivered by drone.
2. The U.S. won't be the world's leading superpower.
A handful of countries will dominate.
3. You won't die waiting for an organ donor.
We won't transplant organs. We'll print new ones instead.
4. You'll eat much less meat.
An occasional treat, not a staple. For the good of the environment and our health.
5. A billion people will be displaced by climate change.
We'll have to do a better job at welcoming and integrating refugees.
6. Polluters will have to pay to emit carbon dioxide.
There will be a global price on carbon. This will make fossil fuels history.
7. You could be preparing to go to Mars.
Scientists will have worked out how to keep you healthy in space. The start of a journey to find alien life?
8. Western values will be tested to the breaking point.
Checks and balances that underpin our democracies must not be forgotten.

BEEF COMPANY CEO: "THE CLIMATE CHANGE ARGUMENT AGAINST COWS IS GARBAGE AND WE WILL NOT COMPLY"

The push to replace real beef with other forms of protein has been ramping up in recent weeks.

The communist/globalist regime wants us to stop eating steaks and instead eat cricket burgers or lab-grown meat replacements for our protein.

Ireland is even considering culling 200,000 cows to meet their climate change virtue signaling goals.

This from survivethenews.com.

But The Regime and the globalists' climate change argument is patently false—all based on unmitigated lies.

Recent studies have shown growing meat in a lab is actually as much as 25-times worse for the environment than producing the same amount of real beef. Corporate media is barely reporting on it, but they've been forced to mention it over the past couple of weeks thanks to the persistence of those championing the truth.

One such champion is Dr. Joseph Mercola who recently noted:

“While the fake meat industry is being touted as an environmentally friendly and sustainable way to feed the world, the true intent is to recreate the kind of global control that Monsanto and others achieved through patented GMO seed development. In the end, lab-created meats are worse for the environment than livestock and will undoubtedly deteriorate human health to boot, just like GMO grains have.”

Dr. Mercola also said:

“Each kilo of cultured meat produces anywhere from 542 pounds (246 kilos) to 3,325 pounds (1,508 kg) of carbon dioxide emissions, making the climate impact of cultured meat four to 25 times greater than that of conventional beef.”

Jason Nelson, CEO of freeze-dried food company [Whole Cows](#), has focused his team on producing as much shelf-stable all-American beef as they can have slaughtered. **It is his belief that beef cattle will be systematically removed from the American food supply in the coming years and even months with attacks from multiple angles.** The climate change argument is only one of them.

Nelson said:

“They prey on the ignorance of the average mainstream media watcher who nods along as they're being told cow farts will kill them.”

“It's patently ludicrous but they need something shocking in order to get people to comply when they try to outlaw real meat. And they will. They're already trying to do it.”

Click [HERE](#) for more info on Whole Cows.

Nelson continued:

“The day will come when they'll ask my company to replace our real beef from all-American cows with their version of bovine protein.”

“I've already told everyone who works for me that we'll shut it down before we freeze dry a single sliver of lab-grown fake meat.”

As Dr. Mercola and Nelson have said:

“The climate change reasoning for going after cows is just an excuse for the communist/globalist tyrants to exercise control over the people.”

As Henry Kissinger famously said:

“Who controls the food supply controls the people.”

Beef has been readily available and relatively inexpensive for decades. Villainizing cows as culprits in their climate change hoax is diabolical, but it’s also effective. **Cities across the nation, invariably run by Leftists, are looking into limiting the amount of beef that can be sold, bought, and consumed.**

Nelson continued:

“This isn’t just some ideological crusade.”

“We launched this company last year because we saw the writing on the wall and knew they’d try to make Americans eat bugs or pseudo-meat or something worse.”

“I didn’t serve this nation to then watch it implode over bald-faced lies.”

Nelson, a former member of both the U.S. Army and U.S. Marines, resigned in 2021 due to the Covid-19 vaccine mandate. He then ran for Congress against RINO Pete Sessions in 2022, losing in the primaries.

He concluded:

“We’re proud of our product. As far as we know we’re the only company in America that offers freeze dried Ribeye, NY Strip, Tenderloin, and Sirloin that’s shelf-stable for over a decade. Other prepper food companies sell ‘beef crumbles’ and cow scraps they buy for cheap that barely passes as food. I’d almost rather eat bugs. Almost.”

China is preparing to build an elaborate spy station on Cuba, only 100 miles from the United States coast, the Wall Street Journal reported on June 8th. The new facility is expected to enable Chinese intelligence operatives to listen in on electronic communications throughout the southeastern United States.

The Wall Street Journal’s report is based on testimony from U.S. officials privy to highly classified American intelligence. The officials said China is paying the Cuban government several billion dollars for permission to build this espionage station near Florida, and once it is online it will enable Chinese intelligence operatives to conduct signals intelligence, or SIGINT. This means being able to snoop on phone calls, e-mails and satellite transmissions.

Meanwhile, a separate report said China has already been operating a different spy base in Cuba since at least 2019.

This brash geopolitical challenge from China comes just months after the Chinese floated a spy balloon over America. It comes as China keeps sending armies of its people into the U.S. to spy and steal secrets. It also comes as China's legions of hackers continue to infiltrate American targets and even compromise critical infrastructure. Clearly there is a dogged and disturbing determination by the Chinese to spy on America and extract its secrets—especially in the military realm.

The US is sending depleted-uranium ammo to Ukraine capable of piercing Russian tank armour, report says

Tom Porter

Jun 13, 2023, 8:46 AM EDT

An M1A2 Abrams at the Army Armor School at Fort Benning in Georgia on April 29, 2022.

- **The US is set to approve depleted-uranium tank shells for Ukraine, the WSJ said.**
- **The shells are capable of blowing up Russian tank armor.**
- **There were doubts over providing the shells for environmental and health reasons.**

The US is sending depleted-uranium shells to Ukraine that are capable of penetrating Russian tank armor, the Wall Street Journal reported.

For several months the Biden administration has been debating whether to provide the shells to Ukraine following concerns over their environmental and health impacts, the outlet reported.

But an administration official said that there were now no major obstacles to providing the ammunition.

Insider has contacted the White House for comment.

Depleted uranium, a by-product of the nuclear enrichment process, is used because it is extremely dense. When used in tank shells, the material is effective because its bulk can penetrate through enemy armor.

As Insider's Jake Epstein previous reported, uranium shells also heat up and may catch fire, potentially causing fuel or ammunition explosions.

The weapons could hand Ukraine an advantage in tank battles as it launches its campaign to drive Russian forces back from territory they occupy in south and eastern Ukraine.

The material is considered by the US EPA as a radiation health hazard when inhaled as dust or shrapnel, but it does not emit enough radiation to penetrate the skin from outside.

According to United Nations Environment Program the metal's "chemical toxicity" is the biggest danger, and "it can cause skin irritation, kidney failure and increase the risks of cancer."

The UK was the first of Ukraine's allies to provide the country with the ammunition, which is used in the Challenger tanks it provided to Ukraine.

The decision by the UK to provide Ukraine with the weapons was denounced by Russian President Vladimir Putin at the time, who said the weapons have a nuclear component and that Russia would be forced to react.

U.S. officials, the WSJ reported, believe it's vital for Ukraine to make decisive gains in its counteroffensive while bipartisan support for the country remains high.

Putin has lost at least two-thirds of his tanks since the invasion began, Oryx, [a Netherlands-based open source intelligence website, said](#) in May. The take away from this past year of the war is that it is largely a "drone" war which changes the larger picture of war! Ukraine's losses far exceed Russia's tank and artillery losses.

Russia has been "reactivating" tanks from the 4-5,000 it has in reserve to be deployed to the front line. Many of these tanks are from the Soviet-era.

This action is the equivalent of crossing the Rubicon, as it has not been a huge secret the U.S. is using this client state strategy to wage war against Russia. The U.S. has

done nothing to settle the Ukraine issue diplomatically, nothing! The U.S. has used the Ukraine as a base of bioweapons research, and has admitted to operating some 40+ bioweapons labs in the Ukraine. The U.S. has given Ukraine approximately \$157-billion dollars in military aide; another \$2.1-billion this week. One would have to be very stupid to believe they can supply a client-state to conduct a war and not expect to face retribution and retaliation. Putin has shown great reserve in not retaliating against the UK, Germany, U.S. and other NATO countries supplying the Ukraine.

Scenarios of a direct conflict between Russia and NATO are being studied in Moscow

Air Defender 23 cover for a real attack? 200 aircraft from NATO will be conducting war games for a week close to the Russian border risking mistakes and misreading by Russian defense forces in the area near Finland region.

NATO today begins its largest air exercise in history, called "Air Defender 2023". Air Defender 23 represents the most extensive air force deployment exercise in the history of the North Atlantic Treaty Organization.

But is the "exercise" a cover for a real attack??

Another NATO exercise "BaltOps-2022" was used as a cover for the installation of explosives in the NordStream 2 gas pipelines. This was revealed by journalist Seymour Hersh, who showed that the Biden administration planned the Nord Stream bombing.

Coincidentally, the exercise will be held outside the Ukraine-Russia conflict zone and at a time when the Ukrainian Army has suffered heavy casualties with defeat edging ever closer.

So for NATO to come into direct conflict, there must be some action or event that would "justify" NATO's entry into the war. How can this incident be created?

The information indicates what the following scenarios are in plan:

SCENARIO "A"

1) Ukraine grants NATO permission to enter its airspace to establish a national no-fly zone. NATO agrees and enters.

2) Russia has already warned that it will engage and destroy foreign aircraft. Whatever it is.

SCENARIO "B"

A) "Ukrainian F-16s" enter the fray and launch attacks on the real Russia. Belgorod is the likely attack zone. But because there are no qualified Ukrainian pilots, the planes will be flown by British and American pilots.

B) Russia shoots down the planes either in Ukraine or inside Russia.

C) When the pilots are either captured alive or killed in action, their bodies will prove they were British and American.

D) Russia declares that it has been attacked by the U.S. and NATO and declares war on them.

SCENARIO "C"

Includes both scenario "A" and scenario "B" above.

1) NATO gets permission to enter Ukrainian airspace to create a no-fly zone and NATO enters.

2) Ukrainian F-16s enter Russia and attack.

3) NATO planes warn Russian pilots that they cannot attack Ukrainian planes or they will be hit by about 200 NATO planes.

4) Russia gives NATO an ultimatum and starts hitting them all.

All of this comes on top of the report that Ukraine's spring offensive has largely been crushed in the first few days of the attack this week of June 12th. Russian forces had destroyed a group of German Leopard tanks and several U.S. Bradley APCs. The Washington administration is beside themselves because Zelensky is faltering and U.S. Joint Chiefs of Staff, General Milley is urging Zelensky to push on. Under Secretary of State for Political Affairs Victoria Nuland delayed the U.S./NATO invasion from June 12th to now July 11/12th, and that may prove to be her undoing given the 4 scenarios noted above provides Russian leadership more time to assess their options.

Keep in mind folks, In the book of Revelation, chapters 8 and 9 talks about a third of man will die in what can only be interpreted as meaning a nuclear war. Structurally speaking, these two chapters correlate with the chronology of the early or first part of the Tribulation period. The Biden administration and the mainstream media have deceived the American people into believing that Ukraine had been winning the war. Deception has been an issue by both Russia and the West but Ukraine is the smaller of the two nations and Russia has conducted their Special Operations under a different strategy of conflict.

YES, OF COURSE, COVID WAS A SCAM—HERE ARE TEN LESS OBVIOUS GIVEAWAYS THAT UNMASK COVID AS AN ORCHESTRATED EVENT

We the People are typically very savvy and distrustful of anything from the federal government.

Pandemic Panic Theater quickly became one of our top concerns with the Plandemic roll out in 2019.

Although we still occasionally spot a knucklehead wearing a surgical mask, we've dedicated almost zero concern the past several months—we even perhaps have begun to look back and question whether the pandemic was all that bad.

But as with so many bad things happening in the world today, we're confident it was real, it was bad, and there are those on the Left who intend for it not to be over.

Whether we see a resurgence of Covid, a renewed push for more jobs, or something new, we can expect there to be more gaslighting and medical tyranny in our near future. This is why the post below by Dr. Simon Goddek is so important.

**We cannot forget what they did.
We cannot ignore what they continue to do.
And we cannot become complacent
as the next states of their plan unfold.**

Here is the list from [Dr. Goddek](#):

1. **Fear-mongering the Public:** Instead of reassuring the populace during the crisis, our media and politicians had them living in perpetual dread, contradicting historical wisdom.
2. **Vaccine Data Manipulation:** A brave whistleblower recently exposed the distorted data behind the BioNTech/Pfizer vaccine approval. Rather than probing the vaccine's benefits and efficacy, nations rushed to make booster shots mandatory.
3. **Pressurizing the Healthy:** Despite minimal risk to children, teens, and healthy adults from Covid, they were strongly urged to take an experimental drug to "protect others." Non-compliance often led to job loss, and some countries even considered detention.
4. **Shifting Vaccine Narrative:** Vaccines, once advertised for self-protection, were suddenly everyone's obligation to "protect yourself and others," despite similar transmission rates amongst the vaccinated and unvaccinated. Troublingly, getting vaccinated seemed to raise the likelihood of dying with or from Covid.
5. **Questionable PCR Test Peer-Review:** The speedy peer-review process for the Covid PCR test publication, whose author was conveniently on the journal's editorial board, raised eyebrows. Circumventing the peer-review process might

be classified as scientific fraud. Furthermore, the author, Christian Drosten, was reported to receive external briefings, casting a shadow on his credibility.

6. **Mask Misinformation:** A historical study during the Spanish Influenza deemed masks ineffective and potentially unhygienic if worn all day. Recent research mirrored these findings, concluding that masks might pose significant health risks without reducing transmission. It seemed like an attempt to muzzle the public under a politically motivated guise.
7. **The Death-Age Paradox:** The average age of those who died with or due to Covid matched the general life expectancy, unlike during the Spanish Influenza where these figures greatly differed.
8. **Demonizing Dissenters:** Publicly branding dissenters as “terrorists” and “tyrants” felt like a ploy to revoke the unvaccinated individuals’ rights to bodily integrity and human dignity.
9. **Undermining Immunity:** Governments closed gyms, sports clubs, and banned social interactions during lockdowns, thus neglecting essential factors for a strong immune system such as sunlight (Vitamin D), physical exercise, social interaction, gut health, and exposure to pathogens.
10. **Silencing the Experts:** Social media platforms were actively blocking and restricting accounts of scientists and experts who disagreed with the mainstream narrative, curbing their freedom of speech in a flagrant affront to the principles of an open society.

Final thoughts: Add to the rationale why the Left believes they must stop President Trump at all costs the fact that he may very well be the only one who will ensure the Covid Scamdemic perpetrators see justice for their crimes against humanity.

Don't doubt Dr. Goddek's call on Covid-19, I have 81,000 documents, reports, videos, confirming this as a “slam dunk” crime against humanity! I was tracking this so-called virus before it ever got to the media. Being disabled granted me 18 hours a day to stay on top what and how the elite were doing to cull the population. It was written up by the Rockefeller Foundation in 2010 as a project called “Lockstep”, you can find it on the Internet under that name! The WEF wants to reduce the world's population by 90%, so expect more of the same!

A Russian state TV host has warned that if the Ukraine war escalates to a "nuclear phase," the Kremlin will strike the U.S. with nuclear weapons as it is "in the crosshairs." Since the Obiden administration has given the Ukraine another \$2.1-billion this week on top of a previous \$150-billion you will know why we are in the crosshairs!

Russian political commentator and president of Russia's Institute of the Middle East Yevgeny Satanovsky made the warning in a clip that has now gone viral:

This comes on the heels of a very high ranking Russian elected official, Dmitry Medvedev, Deputy Chairman of the Russian Federation Council (Senate) who said ***"the likelihood of nuclear weapons being used, was growing by the day."***

Hal Turner said, *"In my opinion, concerns about climate change is nothing compared to the prospect of being at the epicenter of an explosion with a temperature of 5,000 Kelvin (scale), a shock wave of 350 meters per second and a pressure of 3,000 kilograms per square meter, with penetrating radiation, that is, ionizing radiation and an electromagnetic pulse,"* he said at an educational event in late April, according to Russia's state-run news agency RIA Novosti.

"Is there such a prospect today? (Unfortunately), yes. And it is growing every day for well-known reasons," he said.

Humanity has never been at this point on the Doomsday Clock before. This symbolic clock of the Atomic Scientists is set at a time of unprecedented danger: **It is currently set at 90 seconds to midnight!**

We don't have much time by any measure so look up and be ready for the trumpet call. I do believe the **9th of Av** portends of the Rapture event specifically to allow the nation of Israel to be dealt with as Ezekiel writes and makes it clear only He, God the Creator of the Universe will come to their hour of need.

Other possible dates for the Rapture could be the **summer equinox on June 20/21st** and the **Fourth of July**, a target date for China or Russia to attack the U.S.A. and raining bombs down on the National holiday! Then there is Victoria Nuland's revised date for an **attack on Russia of July 11/12th**. For years, the words of Hilton Sutton have echoed in my mind: *"When the bombs are descending, the saints will be ascending!"*

Remember this – this is God's War between The Antichrist and the true Christ Jesus of the Bible. Regardless of what credentials Prince Charles has counterfeited, he cannot win. God has given him only "seven" years before the Antichrist will be terminated. Ephesians 6:12 warned the church – ***"For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."*** If you read a few verses later we are told to put on the full armor of God.

Ephesians 6:13-20 is for us today in dealing with the essentials for occupying until we are called home! **The Apostle Paul stressed the expression to "withstand" in the evil day! Folks we are there and Jesus Christ will win this war.** The Bible told that to us in advance as well so that we would know what he said came true we would remember where we read it!

Revelation 3:10 is your Promise *“Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth.”*

Praise God!

**ADMIT THAT YOU
ARE A SINNER.**

**BELIEVE THAT JESUS
PAID FOR YOUR SIN
ON THE CROSS. †**

**CONFESS THAT JESUS
IS LORD AND CALL UPON
HIM FOR SALVATION.**

Blessings in the Precious Name of Jesus Christ,
